OPPOSE RETURN OF ARBUCKLE

Los Angeles Women's Clubs will not Recede from Former Stand of Opposition.

Los Angeles, Dec. 21.—Roscoe "Patsy" Arbuckle, comedian, was making ready today for his re-entry into motion pictures after January, while members of the Los Angeles district federation of women's clubs announced they could "not recede from their opposition" to his plans.

ALLEGED PLOT TO LOOT NAVY BASE

Twenty-two Civilian Employees at Brooklyn Under Arrest—Twenty-third is Still Unfound.

(By Canadian Press) New York, Dec. 21.—Details of an alleged million-dollar conspiracy to loot the Brooklyn Navy base of clothes, oil and other materials were revealed with the arrest yesterday of twenty-two civilian employees. Twenty-three persons were indicted recently by a federal grand jury after a long investigation in which the Navy Intelligence Service, Department of Justice and New York police joined.

WIDOW ACQUITTED; BROTHER FOUND GUILTY OF MURDER OF CIRCUS OWNER

Mount Holly, N. J., Dec. 21.—Mrs. Doris Brunen was yesterday acquitted and her brother Harry C. Mohr, was found guilty of murder in the first degree in connection with the slaying of the former's husband, "Honest" John T. Brunen, circus owner. The jury recommended that Mohr be sentenced to life imprisonment.

Death Penalty For Women? "Yes, If For Men," Feminists Assert

Jannie Hurst

Mrs. Edith Thompson

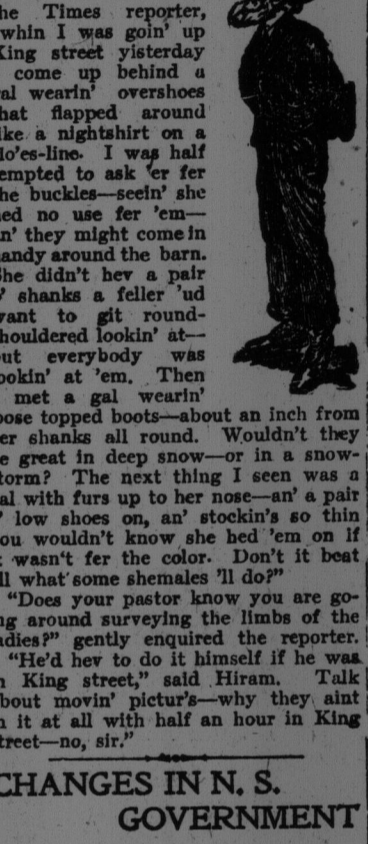

W. L. George

New York, Dec. 21.—Having won equal rights, women must accept equal responsibilities with man and pay the same penalty for her misdeeds.

Such is the belief of Miss Fannie Hurst, feminist and writer, who upholds the action of the English court which sentenced Mrs. Edith Thompson and her lover, Frederick Bywater, to hang for the killing of Mrs. Thompson's husband.

for their pranks and offences their deliberate mischief," says Mr. George. "Woman is a responsible being, fully aware of her acts. Leniency to a woman criminal is dangerous as well as unjust."

As Hiram Sees It

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "when I was going up King street yesterday I came up behind a gal wearin' overalls that sapped around like a nightshirt on a close-line. I was half tempted to ask her for the buckles—feet! she had no use for 'em—she might come in handy around the barn. She didn't hev a pair of shanks a feller 'ud want to get round-shouldered lookin' at—but everybody was lookin' at 'em. Then I met a gal wearin' loose topped boots—now an inch from her ankles—gentle souls, and Hon. William 'He'd hev to do it himself if he was in King street," said Hiram.

The creditors of Horatio Bottomley, former M. P., who was recently convicted of defrauding shareholders in his victory bond club, now expect to receive a maximum of six pence in the pound from the wreck.

FEELING RUNS HIGH AND THE PRESS CONDEMNS THOSE RESPONSIBLE—McINTYRE ISSUES DEFI TO HEALEY AT 145 POUNDS—MANAGER WILL BACK HIM WITH \$1,000.

Halifax, N. S., Dec. 21.—Professional prize fighting in Halifax is definitely banned according to an announcement by Chief of Police Hanrahan this morning. Following the Healey-McIntyre bout here last Tuesday night when there was most pronounced feeling against Referee Foley's decision to declare McIntyre the winner, on points, the chief of police expressed disapproval of the way the match was conducted and intimated that the ban on professional boxing, once recently lifted, would be enforced. His final announcement this morning sealed the doom of the professional game here, and was evidently made after investigating the affair of Tuesday night. Feeling among sporting men in the city runs high on the subject and the Herald this morning published an editorial condemning those whose actions have again brought professional pugilism under the ban in Halifax.

RECORD DRY SPELL IN LAST 163 YEARS

Philadelphia, Dec. 21.—Philadelphia's dry spell, the four months previous to November 30, was the most severe this city had experienced in the last 163 years, according to figures of Geo. W. Minding, of the local United States Weather Bureau.

PANAMA WOMEN ARE LOOKING FOR EMANCIPATION

Panama City, Dec. 21.—A bill urging the political emancipation of Panama's women has been introduced in the national assembly.

"TIGER'S" TOUR OF U. S. ADDED \$20,000 TO SERVICE FUND FELLOWSHIPS

Washington, Dec. 21.—Former Premier Clemenceau's United States visit added \$20,000 to the American field service fund fellowships, Stephen Bonsal, who managed the tour, announced today. The amount is the surplus of money received from lectures and newspaper articles by "The Tiger" after defraying the expenses of his trip.

ISLAND WEDDING

Charlottetown, P. E. I., Dec. 21.—John Peter Hillon, a native of Chatham Islands, and local representative of Racine and Company, Montreal, and Blanche Nicholson, daughter of David Nicholson, ex-M. P. for Queens, P. E. I., were married here yesterday.

OTTAWA PASTOR RESIGNS

Ottawa, Dec. 21.—The resignation of Rev. S. J. Farmer, pastor of McPhail Memorial Baptist Church was accepted last night at a meeting of the members of the congregation.

MONTREAL M. P. PREDICTS END OF NATIONAL OWNERSHIP OF RAILWAYS

Montreal, Dec. 21.—That Sir Henry Thornton was not administering so much as he was holding a sort of enquete on the status of the Canadian National Railways system and that after a year or two he would probably tell the people of Canada: "We have done what we could, nothing more can be done," was the statement of Fernand Rinfret, Liberal M. P. for the St. James division, this city, in addressing the members of the Perron Liberal Club here last night.

Table with 2 columns: City, Temperature. Includes Toronto, Montreal, Ottawa, etc.

FIFTEEN MINUTES OF RADIO EACH DAY

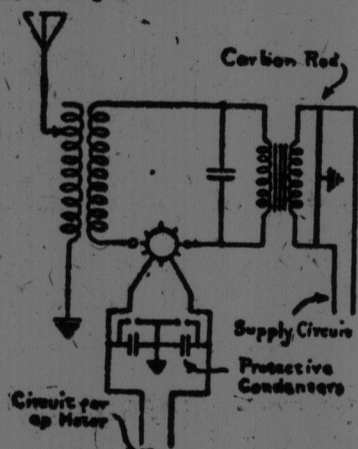

By Edward N. Davis
Formerly Technical Electrical Expert For U. S. Government

THE PREVENTION OF "KICK BACKS" FROM TRANSMITTERS.

In the vicinity of radio transmitters employing high voltages such as the common form of amateur spark transmitter operated from the lighting circuit, there is induced in wires for other purposes current which may be of sufficient amplitude to cause serious damage to the wiring and devices connected to it. Lightning circuits in particular, are liable to damage since the transformer is operated from the same line and direct "kick backs" of high voltage may cause short circuits or burnings out of lamp filaments or meters.

In order to guard against any of these mishaps it is common practice to employ special devices known as "kick back" preventers or protective condensers. Essentially such a device consists of some sort of path for the high voltage currents, so that they may pass to ground without damaging the line or apparatus connected to it. One form of protective device consists of a carbon rod having very high resistance connected across the line near the radio transmitter with the middle point grounded. Another form of protective device consists of two condensers of several microfarads capacity each connected in series across the line with the middle point grounded. The condensers themselves are protected against break down by small spark gaps across the terminals of each condenser set so as to break down at the maximum safe voltage which the condensers will stand, the discharge thus taking place across the air gap rather than through the condensers.

In transmitting installations employing motor generators or motors it is customary to connect protective devices across the fields of these machines in order to prevent possible damage from high potential kick backs. Commercial installations are usually made with all the feed wires run in conduit or lead-covered wire is used, the conduit or lead covering being connected to ground. This method is effective in reducing trouble from induced currents but will not prevent direct kick backs in the line from the transformer itself. It is necessary to employ the carbon resistance rods or condensers connected to ground eliminate direct kick back trouble.

When installing a radio transmitter a separate ground from that used for the lighting system of telephone should be employed if possible. This will greatly reduce the amount of noise on the telephone line and will aid in preventing damage to the light wiring. Telephone lines may be protected by means of condensers of very small capacity in series across the line with the midpoint grounded. Telephones and lighting systems are usually grounded on the water pipe so that it may be necessary to install a counterpoise or other special grounding system in order to prevent the possibility of causing interference with either of these systems.

It is also necessary in some cases to bridge short gaps between steam heating systems and other pipes or wiring with wires in order to prevent sparking when the transmitter is in operation. This is a condition which is usually found where the power used is high and is seldom found in amateur stations.

TREATMENT BY SERUM.

Great Progress Made Toward Standardization.

Paris, Nov. 24.—(By Mail)—The International Conference of medical experts, which has been held in Paris this week, by the League of Nations health organizations, at the invitation of the Pasteur Institute will end tomorrow.

Professor George Dreyer, of the Pathological Institute, Oxford, states today that great progress has been made towards the standardization of anti-pneumonic, anti-meningitic and anti-dysenteric sera, and definite advances had also been made toward agreement in the direction of standardization of the sera-diagnosis of syphilis.

The main object of these conferences is to ensure that when a patient who has been under medical treatment in one country presents himself to a doctor in another country, it shall be at once clear to the doctor in cases where the patient has been diagnosed or treated by means of serum, exactly what strength of serum has been previously used.

Further conferences will be held as soon as the work done in this field by medical experts in various countries holds out promise of further agreement in the direction of standardization.

SOLVES FARM PROBLEMS.

Commodity Council Plan Formed to Handle Crop Situation.

In an effort to solve certain of the big agricultural problems on its hands, the United States Department of Agriculture announces the formation of the Commodity Council Plan, which has recently been put into operation and which brings all the various persons interested in the problem together into a council where each may present his views and where a definite inclusive policy may be decided upon. In the past different phases of a crop situation, for instance, have been handled separately by the various bureaus and offices.

Already councils have been called to discuss the cotton and potato situations and recommendations have been made for action that will be beneficial in view of present conditions. Department men who are specialists in the culture of crops, in soil, diseases, pests, grading and marketing, each contributed to the final recommendations. From time to time other commodity councils will be called to take up the problems that are troubling the producers of various other crops and live stock.

As a result of the Potato Council it is expected that the usual waste and loss resulting when a very large crop is raised may be greatly reduced. The per capita consumption of potatoes in the United States is usually about 32 bushels, but this year enough potatoes have been produced to supply each person with about four bushels. Because of this situation, which was discouraging to potato raisers, the department, through this council, made certain recommendations, which were sent out to the principal potato-producing states.

The council recommends that farmers be advised to carefully grade their crop and ship only the best, suggesting that if all of the crop, including culls, were shipped food would rot or spoil in the central markets or in transit, markets would be glutted and the price forced down to a ruinous level. Such marketing would result in much waste all along the line from the field to the market. The council also made recommendations on the utilization of the poorer potatoes and culls kept on the farm, such as storing for future marketing, feeding to live stock and, in certain localities, selling to starch and flour factories. It was also the advice of the Potato Council that fields be picked clean of culls and diseased tubers so as to protect succeeding crops from disease.

Another group of department men was called together by the assistant secretary to take up the problems of the cotton farmers. These men are working on the problem of what the department's policy shall be for the present in making recommendations for fighting the boll weevil, the development of one-variety cotton communities, the

growing of a diversity of crops, &c. A plan similar to the Commodity Council's was used recently when a group of men from various bureaus was brought together to consider the question of the use of peat as a soil improver or fertilizer. As a result of all the information brought together and discussed from various angles, the department decided to make a public statement to the effect that peat has a very low fertilizing value, contrary to the claims frequently made by those wishing to sell it for fertilizer.

It is thought that the council plan will result in getting out prompt recommendations in emergencies, and farmers and others will be able to get a concise view of the department's stand and the reasons for making recommendations.

Hundreds of cured patients in New Brunswick are living testimonials to his successful treatment.

growing of a diversity of crops, &c. MILLIONAIRE CHUCKLES OVER SAVING A FEW DOLLARS
(B. C. Forbes, in Forbes Magazine, N.Y.)
Millionaires hate to be "easy marks." They bitterly object to being forced simply because they are rich. I talked the other day with a business leader who once was private secretary to the late Ogden Mills, the multi-millionaire financier. Mr. Mills had a valuable watch which he always carried. Often than once he broke the mainpring. He was always careful personally to take the watch to have it repaired. He felt that he was overcharged every time. So one day he had his young secretary to take the watch and have a new mainpring put into it.

"Don't tell them the watch is mine," he warned the secretary.
When the watch was brought back he asked very eagerly, "How much did he charge?"
"Four dollars," he was told.
"Ha ha!" he chuckled, as gaily as a school boy, "I got the better of them this time. This is the first time I have had a mainpring put in this watch for less than twenty dollars."

The ex-secretary added that Mr. Mills was more tickled over this saving a few dollars than he would have been over making \$50,000 in an ordinary business deal.

A bootblack complained to me the other day, "The people that has a lot of money hold on to it." "Maybe that's the way they have a lot," I replied. "Gee!" he exclaimed, "maybe there's something in that!"

AROUSING BY BURGLARS. GIRL CAUSES ARRESTS
New York, Dec. 21.—The alertness of a young woman who was awakened by sounds of burglars in her home after an exciting search. Miss Lucille Long, seventeen years old, who was asleep on the second floor of her home at 1,720 Seventy-fifth street, Brooklyn, was aroused at three o'clock by noises on the floor below. Getting up, she tipped across the hall and called her father, James S. Long, a Deputy Collector of Customs.

Long telephoned the police, who sent a motor patrol containing twelve officers to the house. On the way the machine ran into a sand pile at Eighteenth Avenue and Seventy-fifth street, injuring Patrolman James M. King and breaking the windshield of the automobile. An ambulance was summoned from Coney Island Hospital and King was left in charge of another policeman, while the motor patrol continued to the Long home.

The house was surrounded and searched, but the robbers had left. The police searched the vicinity, however, and found two men in a yard back of 1,740 Seventy-fifth street. They said they were Peter Martelli, seventeen, and Michael Marrelli, nineteen, both living on Grand street, Brooklyn. They were arrested and arraigned in the Coney Island Court on a short affidavit charging suspicion of burglary. Magistrate Gesmar held them in \$2,000 bail each for examination.

FINDS FAMILY OF FIVE POISONED BY GAS
All Unconscious When Relative, Getting No Response at Door, Breaks a Window.
New York (Dec. 21)—A family of five living at 286 Stockholm street, Brooklyn, are in the Wyckoff Hospital suffering from gas poisoning. The family consists of Charles Rosenthal, twenty-eight, his wife, Mrs. Bertha Rosenthal, thirty-eight, and their three children, Robert, ten; Charles Jr., eight, and Ephie, three.
The family retired late, leaving a gas stove burning in the kitchen. Charles Barnett, a brother-in-law of Rosenthal, called early in the morning and being unable to arouse any one, broke a window pane. He found all of the members of the family unconscious. Patrolman Hafner of the Wilson Avenue Station called an ambulance from the Wyckoff Heights Hospital, and Ambulance Surgeon Linsky took the family there. It was said that all five would recover.

It was reported at first that the family was suffering from food poisoning.

SWEDISH INVENTOR HAS NEW OIL LIGHT
Claims Whiter and Much Cheaper Light Than Electric or Gas.
Edison enabled us to enjoy the benefits of electric light, Count Weibach's mantle made it possible to have the incandescent gas light, but it remained for a Swedish engineer named Johnson, now living in Montreal, to devise a lamp that would burn ordinary, everyday kerosene oil and produce a light said by the many scientists who have seen it to be whiter than electric. The lamp is as simple to operate as the old style oil lamp, burns without odor, smoke or noise and is proving a sensation where oil light is needed.

Mr. Johnson offers to send a lamp on ten days' free trial and will even give one to the first user in each locality who will help introduce it. A letter addressed to O. K. Johnson, 246 Craig street W., Montreal, will bring full particulars about this wonderful new lamp. He has an interesting agency offer, too.

A REMINDER

"The appointment of an independent Civic Hydro Electric Commission to construct a Civic Distribution System and operate same."

"In the event of the offer (\$2,577,688.88) not being accepted by the Power Company, in the time specified, the city to proceed immediately with the construction of its own distribution system."

OUR DISGRACE

The Times referred yesterday to a letter received from a Canadian in Boston who enclosed some alleged St. John correspondence in a Boston paper describing liquor conditions hereabouts.

Of course this is wholesale exaggeration, but who is to blame? It is notorious that a large export traffic has been and is in progress. It is permitted the federal government, but can be stopped at any time when the people of New Brunswick through their government desire it.

There is an improvement in the general trade of Canada with the world at large, and a corresponding improvement in trade at home. We are moving steadily forward to better conditions in the Province of New Brunswick the most hopeful sign is the renewed activity in the lumber industry.

NATIVITY IN THE SLUMS

(By Agnes Joyne)

SPECIAL NOTICE

W. P. Dawes, of this city, inland revenue officer, will go to Shediac to conduct the prosecution against a resident of Little Cape, about thirty miles from Moncton, in whose house a still was seized on Tuesday by Inspector A. G. Vance, of Sunny Brae. Information has been laid before Magistrate White, of Shediac.

SPECIAL NOTICE

The Y. W. C. A. girls were to have entertained the men of the Moncton on Friday evening but they received a wireless message yesterday to say that their guests would not be able to attend at so early a date, and accordingly the entertainment has been postponed. It will take place later.

SPECIAL NOTICE

An operating table has been presented to the hospital in Riverview, Albert County, by the Red Cross Society. It is a part of the hospital supplies which the New Brunswick division received after the war and has been stored for some time in a warehouse in the city. Two operations already have been performed on the table.

SPECIAL NOTICE

Willard Broad, for forty-four years a C. N. R. conductor, who recently retired on a pension, will mark the occasion of a handsome silver tea service yesterday morning in the Victoria Hotel. The presentation was made by H. R. McLean on behalf of the friends of Mr. Broad between Halifax and St. John. Mr. Broad is at present living in Moncton.

SPECIAL NOTICE

The steel towers to carry the lines of the New Brunswick Electric Power Commission over the St. John River are about completed. The tower on the western side of the river just above Pleasant Point has been finished and it is expected that the one on the eastern side, near the Cliff Club, will be ready in a few days. It probably will take another two or three days to place the steel reinforced aluminum cables in position.

SPECIAL NOTICE

The new C. P. R. grain elevator on the West Side which was damaged yesterday morning at eleven o'clock by a dust explosion was in action again at three o'clock in the afternoon. C. P. R. men said that repair work would be started immediately and no interruption in the handling of grain would occur. At the time of the explosion there was 12,000 bushels of grain in the elevator but only a small quantity of this was damaged.

SPECIAL NOTICE

Rev. R. P. McKim, rector of St. Luke's church, is taking a much needed rest. As Mr. McKim's strength has become exhausted through his parochial endeavors his doctors insisted that he take a rest of from three to six months. He is at present visiting his daughter, Mrs. Frank Eason, in Montreal, and will go farther south. During his absence the curate of the church, Rev. E. P. Wright, will have charge.

SPECIAL NOTICE

Joseph McCarthy and Edward K. Harney, of Five Pathon Hole, Musquash, were fined \$200 each yesterday by Magistrate Ritchie on charges of having unlawfully and without license possession after they had pleaded guilty John W. Murphy, excise enforcement officer, gave evidence in another charge against them of having liquor of unlawful manufacture in their possession. This case was postponed.

SPECIAL NOTICE

The cost of constructing a new distribution system will be considerable, and it seems rather unfortunate that arrangements could not have been made for the purchase of the existing distribution system of the Power Company. The city offered to take over the whole plant of the company, but the Province, but the company declined to close with this offer. The city is still along contented that when a few years ago the St. John Street Railway Company was converted into the N. B. Power Company, the capitalization was vastly increased without any material improvements being made in the property. Successful investments have shown considerable grounds for that complaint.

SPECIAL NOTICE

The older company was conservatively managed. It may have charged rather high rates for power and lighting, but it enjoyed a certain confidence among the citizens. The new company seems to have fallen into popular disfavor, the citizens claiming that it has been trying to make them pay dividends on watered stock. The result is that the city will compete with it in the sale of power and lighting, and this place it in an unfortunate position. The moral is plain—a public service corporation cannot afford to lose the confidence of the people it serves.

SPECIAL NOTICE

Only a mind of the first rank and kind of courage appropriate thereto could have found this adventure overseas in a strange land. A lesser man would have been afraid of offending, conscious and confused and would have been necessarily the first to retreat to his candle words. As it is, he has already seen that the first step in the process of action and reflection and debate begin.

SPECIAL NOTICE

There is something very in the break-up of a log-jam that this stalwart eighty-one-year-old Frenchman stepped forward to undertake. A little dynamite, artfully applied, was to carry on the metaphor, his method of procedure. So far as the American people were concerned, the result was to move in respect to a European policy. They were halted, tangled in a hapless confusion of ill-will and confusion, exactly where the Versailles failure had landed them. To speak out frankly, to explode a little green irony, to regain something of the old warmth of the battlefields, was M. Clemenceau's method of attack, and it was worked.

SPECIAL NOTICE

Mr. Haug never has been an isolationist. His entire record as President gives consistent evidence of his will toward international co-operation. He acted swiftly and with great constructive ability in respect to the Pacific when the mind of the country and the Senate were ready for action. His late message is unmistakable proof that he stands ready for similar leadership in Europe when the hour is ripe.

SPECIAL NOTICE

Toward this resumption of America's will to understand and help M. Clemenceau has contributed a great example and speech quick with sincerity and truth. Before such a figure of a man who can be petty? Who can ignore old political quarrels when this old friend calls in distress? M. Clemenceau bears back with him to France the affection of a whole people and he leaves in our hearts a fresh and moving sense of America's great part upon the world stage, of which only the prologue and the opening scenes have been enacted.

MEMORIAL HONORS VICTOR OF BAGDAD

Chapel Embellishment Dedicated to General Sir F. Stanley Maude.

London, Nov. 20.—(By Mail)—Lt.-Gen. Sir Alfred Codrington, colonel of the Coldstream Guards, unveiled at the Royal Military Chapel, Wellington Barracks, on Saturday, a memorial to Lt.-Gen. Sir F. Stanley Maude, the victor of Baghdad.

The memorial takes the form of an embellishment of the interior of the chapel. It consists of a moulded scrollwork in Derbyshire alabaster. The scrollwork is in alabaster and Sicilian and rouge Jasper marbles. The Maude coat of arms is in the north spandrel, and the two regimental badges (a Garter Star and Tudor Rose) are respectively in the centre of the archivolts and the south spandrel.

There was a very large congregation, which included Lady Maude and her son and two daughters, Mrs. Alice Maude (sister) two brothers-in-law, and two sisters-in-law. There were many past and present officers of the regiment in attendance, and a full battalion of the Coldstream Guards with the regimental band.

Midway through the service a procession was formed to the west end of the chapel, where the memorial is situated, and in this were included Field Marshal Lord Mahon, Lt.-Gen. Sir A. Codrington, Gen. Sir Ian Hamilton and Col. Vesey Dawson, as well as the officiating clergy. There were no speeches. Sir Alfred Codrington simply saying, as he withdrew the velling flag, "To the glory of God and in honored memory of the late Lt.-Gen. Sir Frederick Stanley Maude, I unveil this memorial." The Guards' chaplain dedicated the memorial, a few prayers followed, and the bugles sounded Last Post and Reveille.

OUR STORES OPEN EVERY EVENING UNTIL CHRISTMAS

Still Time to Have a Hoover in the Home on Christmas Morning

Your Last Opportunity To Buy The HOOVER
It BEATS... as it Sweeps as it Cleans

On Our Special Payment Terms

Beginning the first of the year we revert to our old terms for selling the "HOOVER ELECTRIC SUCTION SWEEPER." This opportunity lasts just long enough to give you the benefit of the special terms for Christmas buying.

THE HOOVER is the most thoughtful gift a man could give his wife or mother. It is more than a means to an even-clean home; it is a way to many leisure hours otherwise impossible to the owner.

THE HOOVER is a helper that electrically beats out from rug depths all nap wearing, germ laden grit, that sweeps up all surface litter, erects crushed nap, freshens color and cleans by air.

It does all these things in one easy, rapid, dustless operation, saving not only labor—but the Rugs as well.

Our Special Terms Are:

\$4.75 First Payment
And The Balance in Small Payments Monthly

A great many St. John Homes have benefited by this special selling opportunity. We feel that a great many more will regret it if they do not.

The \$4.75 installs the machine in the home for you, giving you the benefit of its use during the time you are completing payments.

Phone 2400 immediately. Ask for the "Hoover man." He will be glad to explain anything you want to know in connection with this offer; or to demonstrate the machine to you either in your own home or in our Carpet department.

(Germain street entrance.)

RECENT DEATHS

John Franklin Appleby.
The death of John Franklin Appleby occurred at Shediac, N. B., yesterday after a lingering illness. Mr. Appleby was seventy-two years of age and had lived in this city for many years, removing to Moncton and then to Shediac a few years ago. He is survived by four sons, Howard, of this city; Frederick, of Montreal; John F. of Montreal, and Ernest, of New York. The burial will take place in this city, although the final arrangements will not be made until after the arrival of John F. Appleby today from Montreal.

MORNING NEWS OVER THE WIRES

A huge meteor is reported as having been seen to fall near Sable Island on Saturday night.

The Royal Hotel in Newcastle, owned by Walter Toser, was damaged by fire yesterday morning to the extent of about \$800, which was covered by insurance.

Roland Hebert and Berard Calliger, two orphans in Montfort Orphanage,

were frozen to death while attempting to go from the orphanage to Montreal, a distance of fifty miles. When their absence was discovered a search party was organized and their dead bodies found in the foothills of the Laurentian Mountains.

The new Mount Royal Hotel in Montreal was opened last night with a flourish of trumpets and is now open to the public. The Premier of Canada and many others presented congratulations. In the main dining room of the hotel more than 1,200 persons were seated, many of them leaders in the public life of Canada. The new hotel is the largest in the British Empire. It has 1,046 guest rooms and occupies two acres of land. It was erected at a cost of \$11,000,000.

F. W. DANIEL & CO., Ltd. Head of King St.

CIVIC COMMISSION ASKS FOR RULING ON ITS POWERS

Decision That if it Could not be Entrusted With Work, Commission Might Well be Disbanded.

At a meeting of the Civic Power Commission last evening a resolution was passed which it is hoped will settle the question of whether or not the commission is independent. The great majority of those present said they considered that if they could not be entrusted by the Common Council with the distribution of the power the commission might well be disbanded and a civic department appointed for the work.

Transformer Recommendation.

After the adoption of the minutes of the previous sessions of the commission, Mr. Rowan brought up the matter of transformers. The chairman said he had received no official communication from the Common Council respecting the telegram from the Ferranti Company. Mayor Fisher produced the copy of the telegram and this was read to the meeting.

Following this, Mr. Rowan moved that, as the Packard Company was the lowest tenderer, their bid be accepted, subject to the approval of the city electrician and Mr. Kribs. This was not seconded.

The chairman read two communications from the Packard Company respecting their bid. The first one, dated December 19, stated that their price for the three transformers would be \$20,225 f.o.b. St. John. The second, dated yesterday, increased this price by nearly \$1,000, owing to an advance of five per cent in copper prices. The new price would be \$22,200 for the three transformers. Some changes in the specifications were suggested. These were approved by the engineers, the latter said.

Later Mayor Fisher moved the following motion, embodying a report to the council, which carried:

The Power Commission of the City of St. John begs to report that it is ready to make a selection of transformers for the sub-station from those which have been tendered for and respectfully asks the council for approval of a \$79,200 estimate for the erection of the sub-station and its equipment, and also authorize the commission to provide the said station and equipment.

Powers Discussed.

Major McAvity, in opening the discussion of the sections of the resolution he had framed, explained that it was essential that the powers of the commission be clearly defined at once. He believed the resolution would serve the purpose of bringing to a head the question whether the commission would be able to function as contemplated, he moved, and Mr. McMullin seconded, that the resolution be considered section by section. This carried and, after a discussion lasting nearly one hour and a half, the following resolution was adopted, Messrs. Lewis and

Holeproof Hosiery

To be certain of pleasing, GIVE Holeproof this Christmas!

MADE IN CANADA

The Gift de Luxe— Ivory, Perfume, or Picture Chocolates

French Ivory of exclusive fineness and worth at least one-quarter less—the nobility among the Perfumes, separately or in satin lined cases—and the most brilliant of all the Chocolate Boxes, delivered direct on the dot with your card enclosed. Could any trio of ideas conjure up so many possibilities of bringing beauty and lingering pleasure? Yet this is but a section from the Rexall Gift Store, that offers you more.

French Ivory of the first grade is every woman's need—nothing is so broad in its application. For 50c. you add to a collection appreciatively, and at any price you make a substantial contribution.

The graceful and colorful casings of the Perfumes rival the contents; and here again every giver is catered to. Between 90c. and \$10 the best in the world is before you. The cabinets with Perfume, Toilet Water, Soap and Face Powder Compacts begin at \$2.50 for Day Dream and the favorites are all the way up the scale in sizes to \$10.

Special Delivery Chocolates

Oriental and Canadian scenes in water colors, satin brocades and the most famous of our living beauties adorn the boxes of chocolates from the seven leading makers on both sides of the border. And of course there is always the broad ribbon band and bow. In sizes from one to ten pounds they look out at you from within and above the showcases, forming a promenade down both sides of the store. And we will undertake deliveries with your card the hour and day wanted.

The price range in all three departments mentioned admits everybody. Undoubtedly they are a final resource in pleasing choice and here the record displays of the city guide your taste and purse.

Warm up while shopping with nutritious refreshment at one of our fountain tables.

Rowan voting "nay," although Mr. Lewis had voted for all the sections: The Resolution.

(1) Whereas, the electors of the city of St. John in three successive elections, expressed at the polls their determination that the Mayor and Common Council of the city of St. John should set up an independent commission for the purpose of erecting, constructing and operating works for the transmission and distribution of electrical power and energy in the city of St. John, and of controlling and managing same.

(2) And whereas, by section 28 of the New Brunswick Electric Power Act 1920, it is provided that a municipality having a contract under that Act may entrust the construction of the works and the control and management of the same to a commission.

(3) And whereas, a commission has been appointed by the Mayor and Common Council of the city of St. John, but with a limitation not provided for in the said Act, nor contemplated by the electors, namely, that such commission should proceed only so far as may be authorized by the Common Council from time to time.

(4) And whereas, the effect of sections 9 and 10 of the resolution of the Common Council, bearing date the 8th day of December, 1922, by which resolution said commission is appointed, provided, not that such commission shall be entrusted with the construction of the works and the control and management of the same, but only that it shall prepare plans and specifications for a distribution system and report to the Common Council as soon as possible what arrangements should be

made for the construction and equipment of a distribution system, and that all tenders called for by said commission for construction work or equipment be received by the common clerk, and be opened at the first meeting of the council after meeting as the council or in committee, the object being to make the tenders public before being acted upon.

(5) And whereas, this commission has found that it cannot incur expenditures for materials necessary to the construction of the said works without the express approval of the Mayor and Common Council, which may well result in inconvenience, delay and loss of money.

(6) And whereas, it has accordingly been found impossible promptly to proceed with the construction of the said works.

(7) And whereas, in order that the prompt construction of the said works, which is most desirable in the interests of the city of St. John, may be accomplished, which can only be with proper co-operation between the Mayor and Common Council and this commission, and with authority to this commission to incur expenditures necessary for the construction of the said works and for the control and management of the same as necessity may arise, subject, however, to the audit of the city comptroller.

It is resolved, that the Mayor and Common Council be requested to authorize this commission to proceed with the construction and equipment of a sub-station at an estimated cost of \$79,200 and that further requirement for the completion of a system at an estimated cost of \$900,000, shall be similarly met, as need arises; and that in the event that the Common Council cannot agree to so empower this commission, they shall be requested to arrange for taking a plebiscite, with a view to ascertaining the decision of the electors on the question whether the distribution system shall be administered by an independent commission or by a department of the city government.

Before proceeding with the discussion of the resolution, Mr. Rowan expressed the opinion that the resolution would put the commission out of action. He believed that the best way to get at the matter would be to draft a resolution setting forth just what the commission desired from the Common Council in the line of powers.

Otherwise, he advised that the Council take over the entire operation and manage affairs through one department of City Hall.

Mr. Flood remarked that Mayor Fisher was on the Power Commission to safeguard the City Hall interests, yet it appeared that the Common Council wished to retain complete control. He thought there was room for compromise on this point.

The chairman asked "Why?" If the Council had no confidence in the commission, it should disband and allow City Hall to run matters entirely. "A stand must be taken, one way or the other," he declared.

Mr. Flood: "If we do take that stand and are forced to recede from it, what then?" The chairman: "Then it goes to the people."

Mayor Fisher, speaking in support of his amendment, said that he felt strongly that the Common Council looked on Section 10 as a good business method. The Council would want this retained, he thought. He declared that the commission should concede this point.

The chairman said that the Council wanted to open the tenders, pass them to the commission for report, hand them back with a recommendation, and then suit themselves.

It asked for authority to proceed on that estimate. The bond issue would be voted from time to time.

The chairman declared he was getting tired playing office boy for the Common Council. Valuable time was being wasted, he maintained.

The amendment was put and lost. Messrs. Flood, Fisher and Rowan supported it. The chairman, Messrs. Phillips, McMullin and Lewis were against it.

Section 5 next was considered. Mayor Fisher thought it was not necessary. Mr. Phillips explained that it was merely a recital of facts. If the facts were not correct, he suggested they be made correct.

Mr. Rowan interjected that a Power Commission never could be independent. The Common Council members were responsible to the people.

Mr. Lewis remarked that while he favored the resolution, there was a good deal of truth in Mr. Rowan's objections.

Mr. Phillips pointed out in connection with the bond issue for the civic distribution system that three of the commissioners had pledged themselves to an expenditure of \$900,000 last spring. An amount of but \$600,000 was being put forward now.

Mayor Fisher explained his stand in the matter, said he was in full sympathy with the object aimed at by the resolution. He questioned the wisdom of going about it in the way proposed. Mr. Lewis suggested taking things easy at first.

Mr. Rowan thought matters would straighten out themselves. The section was put and carried. Messrs. Fisher, Flood and Rowan voting "Nay."

Section 6 carried. Mr. McMullin moving and Mr. Phillips seconding, Mayor Fisher and Mr. Rowan voted "Nay." Section 7 carried without discussion, Mayor McAvity moving and Mr. McMullin seconding.

This finished the preamble of the resolution according to the request. Mayor Fisher moved that the words down to and including, "at an estimated cost of \$79,200" be adopted. Mr. McMullin seconded and this carried.

Mr. Rowan remarked that the commission had never presented plans and specifications regarding a distribution system, as requested, to the Common Council.

Mayor Fisher replied that there had been no opportunity for doing this. The commission had presented the matter of the sub-station which was part of the distribution system. The Mayor added that the Common Council would have to vote the bond issue for the distribution system. If it did not, the responsibility would rest with them.

This portion carried. The second portion regarding the \$900,000 estimate of the distribution system, which included the sub-station cost, was adopted on motion of the chairman, seconded by Mr. McMullin.

The last portion regarding the plebiscite was moved for adoption by the chairman, seconded by Mr. Flood. This carried, only Mr. Rowan voting against it.

The chairman then moved that the report be adopted. Mr. Phillips seconded this and it carried. Mr. Lewis and Mr. Rowan voting against.

Mr. Lewis, explaining his stand, declared he was in full sympathy with the points of the resolution but he thought the commission could secure what it wanted by going easy. He was opposed to placing the resolution before the council immediately.

Christmas Wish from Eddy's

Your unmistakable preference for Eddy products—your continued use of Matches that are Canadian Clean Through—has made the year now closing the most prosperous in the history of the Company.

Wholeheartedly, therefore, we wish you one and all a very Happy Christmas and a prosperous New Year.

BARE REMAINS OF ABBEY IN LONDON

Stone Found at St. Saviour Bears Consecration Mark—Was Monastery Founded in 1082 A. D.

London, Nov. 20.—(By mail).—During the recent excavations in the borough of Bermondsey, a stone, bearing the consecration mark of the ancient Abbey of St. Saviour (a cross within a circle), was found on the site of the Anglo-American Company's new petrol station in Tower Bridge road.

On the same site have also been found several door or window jamb-mouldings. Some years ago, when a sewer was being laid in Long Walk on the north side of the Anglo-American Company's site, a stone coffin was discovered, which now rests in the parish church of St. Mary Magdalen near by.

For 40 years the same quality and flavour has been a delight to me. PEG-TOP The old reliable 5¢ cigar. Beware of imitations.

A Gift for Every Member of the Family

You'll look back with satisfaction at the impulse which prompted you to select gifts which will defy King Winter during the wet slushy days that are coming.

First class repair department in connection with our business. New York Shoe Store 655 Main Street

ground of the Abbey. On this site four skeletons were discovered in January, 1894. British Museum experts stated that the garden, which extended from the stone wall referred to, and covered Abbey street east of Tower Bridge road and also the site of the flats belong to the South Eastern and Chatham Railway Company (known as Abbe-Buildings), was formerly the burial

tion of the graveyard of one of the religious foundations of medieval Bermondsey. The remains of a Gothic traceried window were found also on the same site, of apparently fourteenth-century work. Founded in 1082. The Clinic Monastery of Bermondsey was founded by Alwin Child in 1082, and was dedicated to St. Saviour. It continued its function as a Priory until the year 1399, when it was converted into an Abbey by Pope Boniface IX, and enlarged to suit its greater requirements.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, DECEMBER 21, 1922

BRIG. GENERAL OPENS NEW CAFE

Retired Officer Keeps Restaurant in London Rather Than Return to Farm in Canada.

London, Nov. 28.—(By Mail)—Behind a desk during business hours, in an unpretentious but spotlessly clean restaurant in Marlborough Court, Carnaby street, London, stands the proprietor, Brig-General W. B. Hulke, D.S.O., one of the heroes of the Great War. The restaurant was recently opened

by the General. It is appropriately named "The Venture," and so far it is not known whether it may prove a profitable one or not. Its proprietor, however, seems to have faith in it, and this is a big part of the battle.

When the war began, Brig-General Hulke was a retired officer, farming in British Columbia. He left everything in Canada and went to France, where he had a brigade in the 38th Division. He was wounded in the knee, and, in fact, only recently ceased to be under medical treatment.

"My property, which deteriorated during the war, is over in Canada waiting to be sold," General Hulke told an interviewer here recently. "I cannot climb and jump now, because of my knee, and like tens of thousands of

others, I cast around to look for a means of livelihood. My wife is assisted by Mrs. Wallis, the wife of a colonel; my chef is an ex-50th and, perhaps, our circumstances have impressed us with the need of a place where people of refinement may obtain lunch, tea or supper, served on lines akin to their home life, at reasonable prices. Simply decorated, "The Venture," with tables covered with snow white tablecloths, with serviettes, serves a really well-cooked and substantial lunch for one shilling and sixpence. The General is not too dignified to go out and obtain for a customer a bottle of Guinness, if asked.

H. G. Wells was apprenticed to a chemist at the age of 15 years.

The pledge of quality goes with every pair of DENT'S Gloves—whether Kid Cape or Fabric.

For Xmas give Gloves

It's good taste and good sense to insist on DENT'S Sold Everywhere!

HIS BEST BOOK.

The Toronto Globe of Dec. 16, has this to say about Rev. H. A. Cody's new book, "The King's Arrow": "This is, perhaps the most interesting story this Canadian author has given us. It ranks with his 'Frontiersman' in character delineation. The hero, Dane Norwood, is a handsome, daring white man, possessing the secrecy and forest lore of an Indian. Afraid of nothing, loyal to his Sovereign, and to his country, he makes a courageous messenger in times of war and stress, and withal exactly the lover approved of by Mistress Jean Sterling. "The King's Arrow" is the name bestowed upon him by the colonists, and from this fact the author takes the title of his book. He roams the great Canadian forest free from care until he meets his fate. Then Jean wins his heart with her beauty, her sweetness and her courage. "The descriptive work is fine, the characters, though picturesque as becomes the times and the romantic history of this part of the nation's making, are very real and human. In writing this tale of bravery and adventure Mr. Cody finds himself at home. "The King's Arrow" is his best production. It is natural that it should be, since it is the chronicle of the lives of the splendid men and women who, giving up prosperous homes, educational facilities, culture and comfort in the New England States, came in May, 1783 to the wilds of Canada. As Kirby says, "Not drooping like poor fugitives they came In exodus to our Canadian wilds, But full of heart and hope, with heads erect, And fearless eyes, victorious in defeat." "And more than this, Mr. Cody's own ancestors. To these 'The King's Arrow' is dedicated." "The King's Arrow" is being well received throughout Canada and the

United States. So impressed is "The Family Herald and Weekly Star," of Montreal, with the story, that it is to run it as a special serial beginning with the New Year.

James Penny, the victim of what is called the "sawhammer murder" in Winnipeg, was a resident of St. John for nine years before going to Winnipeg. Penny was born in Scotland and came to Canada in 1870 and lived in this city until he went west nine years later.

HALIFAX DECISION IS UNACCEPTABLE TO POLICE CHIEF

Halifax, N. S., Dec. 20.—Discussing the Healy-McIntyre bout at the Maritime Theatre last night, Chief of Police Hamrahan, who saw it, said this morning that Referee Foley's decision in favor of McIntyre, was too much for him to understand and that such conduct of boxing matches could not continue. The inference is that the ban on professional prize fighting in Halifax, recently lifted, will be again enforced.

WYGOODY COURT ELECTS.

Companion Court Wygoody, No. 473, L. O. F., met last evening and elected the following officers for the ensuing term: Chief ranger, Mrs. M. F. Powers; past chief ranger, Mrs. H. B. Whelpley; vice-chief ranger, Miss Julia Barber; recording secretary, Mrs. C. N. A. Wannamaker; financial secretary, E. J. Todd; treasurer, Mrs. R. J. Powers; orator, Miss M. J. Armstrong; organist, Mrs. Wannamaker; Court deputy, Mrs. M. H. Henderson; Court physician, Dr. J. F. Leonard; senior woodward, Mrs. S. E. Giddard; junior woodward, Mrs. M. E. Edwards; senior headle, Mrs. L. T. Leonard; junior headle, Mrs. W. A. Simonds; finance committee, Mrs. Whelpley and Mrs. Edwards; trustees, Mrs. A. O'Shaughnessy and J. M. Powers. The meeting was an interesting one and largely attended. Arrangements were made for a public installation which will take place in January.

LOCAL NEWS

NEW DOCK POLICEMAN

W. I. Fitzpatrick was this morning sworn in as a policeman for work about the wharves and port in the interests of the C. G. M. He is a former city policeman.

CASES FINISHED

In Chancery, this morning, argument was heard in the matter of Thompson vs. Paisley and Brunton vs. Paisley, two cases from Westmorland County. Judgment will be given later.

FOR THE SAILORS

The Navy League has received contributions of filled bags for the Seamen's Christmas celebration from the following: I. O. E. chapters, Westmorland Law, Moncton; Governor Carleton, Fredericton; Anagwakade, Fredericton; Lord Seckville, Seckville.

IS DOING WELL

Royden Craig, son of Mr. and Mrs. George Craig of Fredericton, who was operated on in the General Public Hospital recently for appendicitis, is reported to be doing well as can be expected.

THEIR CHILD DEAD

Friends of Mr. and Mrs. Francis Marshall, 23 Sewell street, will sympathize with them in the death of their infant daughter, Frances Wilson, which occurred yesterday. The funeral will be held tomorrow afternoon at 2:30 o'clock.

CHARLES CRAWFORD

The death of Charles Crawford took place yesterday at his home, 42 street, at the age of eighteen years. He leaves his father and three sisters, Mrs. H. E. Dempster, Mrs. P. G. Wilson and Mrs. J. C. Dempster of St. John; also one brother, R. Crawford of Maine.

THE CHRISTMAS MARKET

Butchers in the north end this morning were offering turkeys at sixty-five cents a pound and geese for fifty cents a pound. A car load of turkeys reached the city this afternoon and it was said they were already being sold from sixty-two to sixty-eight cents a pound wholesale.

BANK CLEARINGS

The bank clearings for the week ending today were considerably less than those for the corresponding weeks last year and in 1920. The three years were as follows:—1922, \$2,646,461; 1921, \$3,288,825; 1920, \$3,335,247. Halifax clearings this week were \$3,070,217.

REDEEMED THE BILL

The young man who passed a Mexican note of the denomination of 10 pesos at a local theatre on Tuesday night appeared yesterday and redeemed his money. He said that he was under the impression that the note was the equivalent of a Canadian \$10 bill.

NORTH END W. C. T. U.

The North End W. C. T. U. met yesterday afternoon at the home of Mrs. Wm. Wooden, a charter member, where the president, Mrs. Wright, presented to her a gift from the W. C. T. U. and friends. Refreshments were served.

FOUR BELLS

Speaking of by-laws and their enforcement this morning Commissioner Bullock said that he had been much surprised to find that there were no laws every sleigh driven in the city should have four bells attached to the harness of the horse. He said it had been his experience from observation that some of them carried one and a great many carried none.

CROMBIE-DOWLING.

The marriage of Miss Mary Gladys Dowling, daughter of Mr. and Mrs. Thos. Q. Dowling, 75 Duke street, to William Bradshaw Crombie of Iroquois Falls, Ontario, son of Mr. and Mrs. R. B. Crombie of Toronto, will take place very quietly this evening at 6:30 o'clock in German street Baptist church, the Rev. Dr. S. S. Poole officiating. The bride, who will be given away by her father, will wear a brown broadcloth suit with Persian lamb trimmings and hat of black tattered plush with gold trimmings and Parisian feather, wearing a corsage bouquet of Opelia roses and mauve sweet peas. Immediately after the ceremony, Mr. and Mrs. Crombie will leave on the Montreal train for Upper Canadian cities and will reside in Iroquois Falls, Ont. where the groom is head of the railway construction for the Akitla Power and Paper Company.

POPULAR PASTOR IS REMEMBERED

Congregation of St. Andrew's Church Present Gift to Rev. F. S. Dowling and Mrs. Dowling.

The congregation of St. Andrew's church last evening demonstrated in a very real and practical way the love they bear their pastor, Rev. F. S. Dowling, when they presented to him a very handsome Geneva gown, of heavy rich corded black silk. Mr. Dowling was taken completely by surprise but made an appropriate reply in which he expressed his heartfelt thanks for the kindness and thoughtfulness of the people of the church. That the gown was presented to the pastor was largely due to the untiring efforts of Mrs. Sidney C. Young and the late Mrs. John Magge. These two ladies, the latter and illness the former from witnessing the culmination of their work. The four women's societies in the church carried the idea out, the societies being the Beneficial Society, the Ladies' Aid, the Women's Missionary Society and the Home Department. The presentation to Mr. Dowling was made by Mrs. J. G. Forbes who made an address rich in reminiscence and optimism. To Mrs. Dowling was presented a handsome walnut tea wagon. Mrs. Dowling replied feelingly. Short addresses were made by Mrs. E. Atherton Smith and Rev. William Farquharson, past chaplain. A social time was spent at the close of the evening.

SENSATIONAL PRICE MOVEMENT IN WALL ST.

New York, Dec. 21.—One of the most sensational price movements of the New York Stock Exchange in recent months took place today in the stock of the Mexican Petroleum Co., which advanced nearly sixty points in less than three hours.

OBJECT TO THE RODNEY BY-LAW

Delegation at City Hall This Morning—Discussion of Hydro Resolution This Afternoon—Skating Meet Appropriation.

The remainder of the by-laws governing harbors and wharves were adopted this morning at a meeting in committee of the Common Council. A delegation from the West Side composed of W. E. Scully, representing the Colwell Fuel Company, A. Barry, representing the Colwell Fuel Company, and J. H. Driscoll appeared to protest against the regulation concerning the speed of teams on North Rodney wharf and was promised consideration. There was also some discussion regarding relief. St. A. McAvity presented two resolutions, passed last evening by the Civic Hydro Commission, for the consideration of the Council.

W. E. Scully, M.P.P., appeared with reference to a by-law regarding the speed of vehicles on Rodney wharf. He said he represented the Union Ice Company and himself. He said they could not stand for a regulation which prohibited teams from catching the ferry when it was in sight. Not everyone could have an automobile truck which was allowed to go 12 miles an hour. Teams could go only 4 miles an hour. Missing the ferry meant a loss of 40 minutes and he hoped that some action would be taken. The wharf Fuel Company, J. A. Barry, representing the Colwell Fuel Company, agreed with Mr. Scully. The wharf Fuel Company was greatly affected by the proposed speed regulation. It might result in stopping city deliveries. The Mayor said the Common Council had not taken action on this matter as yet and it would be considered.

Hydro Resolutions.

On motion R. A. McAvity was heard. He said he had two resolutions which had been passed by the commission last night. The Mayor moved that they be referred and considered at this afternoon's session of the council. These resolutions were published in the morning papers. Mr. McAvity then withdrew.

On motion of Com. Bullock the harbor by-laws were again taken up. He said he had two resolutions which he would like to be allowed to refer to the Rodney wharf matter. Commissioner Wigmore said driving on Rodney wharf could be looked after by the police. He said a further restriction of the speed limit would work hardship to the people of the West Side.

Commissioner Thornton said that it seemed hardly fair for motor vehicles to be allowed twelve miles an hour and horses be held to a walk. Commissioner Bullock suggested that the same limitation be made to apply to Rodney wharf as to ordinary street traffic.

REMARKS BY LUMBER RATES.

Commissioner Bullock said that he had seen a notice that was not classified as regards to wharfage rates. He would recommend a rate of fifteen cents a thousand feet. This is a reduction from twenty cents. The old rate will apply when the timber goes through the shed.

THE MAYOR WISHED TO BRING UP THE MATTER OF THE FIRST AND SECOND PREFERRED STOCKHOLDERS AS PRESENTED BY MESSRS. BURNHILL, SANFORD AND HARRISON.

But the Council was not ready this morning to proceed.

THE SKATING MEET.

Commissioner Frink moved that whereat the Common Council had agreed to provide the sum of \$2,000 to meet a possible deficit from the International skating meet to be held in 1923, the public works department be authorized to take \$500 from the amount to keep the ice surface in shape. Motion carried.

JOHN E. TRIMBLE

John E. Trimble, an esteemed resident of Hampton, passed away today. He had been about his regular duties up to a month ago and had been confined to his bed only a day or two. Death was due to cancer. The late Mr. Trimble was born in St. John sixty-two years ago, having moved to Hampton where he had since made his home about fourteen years ago. He was a son of the late Joseph Trimble and had worked with his father for many years in the Phoenix foundry and more recently was employed in Fender's mill works. He was a competent workman and was held in high esteem by his associates. In Hampton there is general regret at his passing as well in the city where he counted many friends. He leaves his wife, formerly Miss Harrison, daughter of the late Brown Harrison of Sussex, one son, Harrison H., of the Moncton High School staff and a sister, Mrs. Fotheringham, of California, widow of Dr. Fotheringham at one time pastor of St. Jc's Presbyterian church.

SLIGHT FIRE

An alarm was rung in this morning at about 4 o'clock for a fire in the rear of a house at 78 Douglas avenue owned and occupied by John Miller. The blaze was easily extinguished by the chemical and the damage was slight.

TWO FINED

Two men who were before the magistrate this morning charged with drunkenness were fined \$8 or two months in jail and were remanded under the Prohibition Act.

\$19,900 IN TAXES WRITTEN OFF BY THE LAST MAYOR

1,036 People, Whose Total Indebtedness was \$81,845, Got Relief—Authority for Action Questioned—A Change Recommended.

At the Common Council meeting this morning the Mayor read a letter from the Chamberlain regarding tax relief. The letter intimated that the largeness of the relief granted had been due to an effort on the part of ex-Mayor Schell to clean up arrears. More than 5,000 letters had been sent, and as a result more than 2,000 persons had appeared at City Hall in this connection. He recommended an endeavor to clean up the arrears, as a large portion of the money received was a benefit to the city.

The Mayor said that he had investigated and found the following situation to obtain: In the taxes settled by order of ex-Mayor McLellan between May and November, 1922, the amount written off had been \$19,900. This represented the taxes of 4,038 persons and was an average of about \$19 each. The amount involved in indebtedness of \$81,845. The names of 598 persons were those opposite arrears for 1921 and previous years, and 188 for 1922 and including some arrears. In ninety-five cases the taxes had been written off entirely, including eight cases of 1922 taxes. In seventy-four cases the amounts had been written off in installments. Commissioner Thornton asked what authority the Mayor had to grant relief. Commissioner Frink said it was a sort of understanding, provided the tax did not exceed \$50. This was begun in 1912. Commissioner Thornton asked if any relief had been granted in cases of real property. The Mayor said this would be illegal. Commissioner Thornton said there had been much hoarding in the streets about relief. He thought every case should be thoroughly investigated, and the Commissioner Bullock thought the Mayor should bring in a recommendation on the matter. He would think the limitation should be \$25 instead of \$50.

CLOSING OF CITY KINDERGARDEN

Many Children Welcome Jovial Santa Who Comes to Distribute Gifts.

The kindergartens of the city closed this morning with a jolly Christmas party. Large crowds, mostly parents of the children, attended the closing exercises and the children played this season excited to have surpassed that of former occasions. Santa Claus did not forget the kiddies of the kindergartens, as he visited them every one and made a jovial time for the children. Christmas carols were sung and presents were distributed, including the gifts made by the kiddies themselves, to their parents.

South End Closing.

There were about fifty children to attend the closing exercises at the South End Kindergarten and as many visitors. The school room of St. James' Church was gaily decorated for the occasion. A large Christmas tree was in evidence, which had been trimmed by the children and which was laden for the most part with presents made by the youngsters during the term, and of which were presented to the parents who attended. Then the room was cleared and Santa Claus made his entry. He was loudly greeted by the children and he passed out to each boy a cart, gifts of the Rotary Club, and a doll to each girl. Each boy was also presented a shove. Members of the ladies' committee were also present and helped distribute presents which they had collected. Mrs. H. A. Cody, pastor of St. James' Church, was present during the exercises, as were also Miss Edna Cobell, director, and her assistant, Miss Dorothy Simonds.

In the North End.

A large number of little ones were present at the North End Kindergarten, in Orange hall, Simonds street, and there was no doubt that they thoroughly enjoyed themselves. A large Christmas tree was situated at the end of the hall and was teeming with gifts made by the children for their parents. After these had been distributed an appropriate programme, consisting of Christmas carols, games and marches was presented, and the little ones adjourned to another room and the tree was re-trimmed with presents for them, consisting of cards, shovels, dolls, candy bags, etc. The hall was artistically decorated for the occasion with colored paper chains, etc., made by the children, and it presented an attractive appearance. Miss Edith Stephens is director of the North End Kindergarten, and is assisted by Miss Eleanor Cline.

Similar exercises and general good times marked the closing in St. Mary's Sunday school room and also at the East End Kindergarten, in Thorne Lodge. The former under the supervision of Miss Ross while Miss Marks conducted the exercises in the East End Kindergarten.

At G. W. V. A. Hall.

There was a gala time in the G. W. V. A. hall this morning at the closing of the kindergartens there. The decorations were of silver and red, presenting a truly Christmas spirit. The Christmas tree was bedecked with gifts made by the children, which were distributed to their parents. Songs and carols were sung, and Santa Claus made his appearance. Drills, marches and other exercises were carried out in fine order. Games were indulged in by the children and the closing was pronounced a grand success. Each child received a bright, shining nickel, which was the gift of a friend, Miss Lou Zaty, the supervisor, Miss Elizabeth Stanley, her assistant, and Miss Bessie Cruikshank, pianist, added much to the success of the closing.

WHY ARE XMAS PARCELS LOST? THESE PARCELS UNDELIVERED, BECAUSE SENDERS CARELESS WRAPPING ADDRESSING

Last Christmas 60,000 parcels in Canada could not be delivered at their destination because of poor wrappings and insufficient addresses. The postal authorities urge care in the despatch of parcels, and early mailing. The picture shows some of the contents of parcels at Ottawa.

THREE MEN ARE BURNED TO DEATH

Four Others Seriously Injured—Three of the Victims Lawyers.

Akron, Ohio, Dec. 21.—Three men were burned to death and four others were seriously injured when a building in Akron, Ohio, was destroyed by fire today. The fire broke out in a building on East 12th street, between Main and Hamilton streets, at about 10:30 p.m. The building was a three-story structure and was occupied by three men, Harold Howard, fifty, city engineer; Missoulin Frank Wagner, fifty, foreman machinist; Leroy Hodgson, twenty-eight, truck driver.

OWNERSHIP OF \$20 BILL IS DISPUTED

Thrilling Affair in a Street Car Involves Two Ladies, the Patrol Wagon and Much Doubt—End Not Yet.

A lively dispute over the ownership of a \$20 bill on one night this week, an unexpected ride in the patrol wagon for both the interested ladies, following a subsequent detention of "stop thief" features of an episode which brought to a sudden end a Christmas shopping expedition. As the story goes one of the ladies boarded a street car in City Road a few minutes before nine o'clock Tuesday evening. Taking a seat her attention was called by a young lady across the car to the fact that she had dropped some money on the floor. The lady stooped to pick it up but the ready eye of another lady, who was sitting next her, also sighted the bill and she likewise laid claim to the ownership. A lively tiff followed as the car picked up momentum and the argument waxed warmer, each of the ladies stoutly insisting that the \$20 bill was hers. One of the ladies could stand the argument no longer, so she got off the car at Richmond street. Not to be yet outside, the second lady also got off and so did many of the passengers. The crowd gathered on the street as the second lady followed her adversary with loud cries of "stop thief!" A policeman was called to the scene and apparently as he could get no satisfaction he held the ladies, called the police patrol and the two were landed in the guard room. The end of the matter is apparently not yet. The ownership of the \$20 is still in doubt and it still reposes in the guardianship of police headquarters. No warrants have yet been sworn out, but an informal investigation is, it is understood, still in progress.

VESSELS DETAINED IN LAKE ERIE ICE

Detroit, Dec. 21.—Three steamers carrying grain were ice-bound in Lake Erie, just below the mouth of the Detroit river today, while three other vessels were contending their battle against ice floes in the St. Mary's river. The Philip Michx sent the night six miles off Colchester, Ont., and the City of Bangor and C. B. Nienaber were fast just below Mar Point. The vessels stalled in the northern waters were the J. H. G. Hagarty, Glenyon and Emper, all reported near West Neabich Cut.

Women Dry Agents Make Bow In Series of White Way Raids

Policewomen Share Work and Laurels With Men as Officers Enter Eleven New York Cafes and Arrest 20; Artist Throng at Russian Casino Enjoys Scene.

(New York Tribune.)
Information concerning the first appearance as prohibition enforcement agents in a series of raids early Sunday morning. They shared the work and the honors equally with their male companions.

Prohibition agents raided the Russian Casino, 105 Eldridge Street, causing considerable excitement among the patrons, who included Russian dancers, singers, actors, authors and artists. Twenty-five detectives of Inspector Bolan's staff, eight of whom were accompanied by policewomen, raided restaurants in the white-light district between midnight and 8 a.m.

Information concerning the places raided during the early morning was refused at Bolan's office and by detectives of the West Fifty-eighth Street station, some of whom are said to have been with the raiders. Inspector Bolan himself said:

"There were about twenty-five detectives out looking for violations in cafes and restaurants. Some of the men were accompanied by women. I have not been my office today, so I am unable to give you a list of the places visited. No, these raids are not necessarily a regular Saturday program. It just happened that the men in the regular course of their duty had evidence against the places and decided to clean them up yesterday morning."

It has been the practice of detectives who enter the dine-and-dance places and the cafes and restaurants accompanied by women while in search of evidence to take their companions before making the places ready for the morning. The women remained with the detectives during the raids and took the same part as the policemen, which fact is not likely to be of interest to the salaried men.

On the American side Cape Race and all stations as far south as Boston coasting through as if the devil were driving him. "Stop that; lay off; pipe down; S. O. S."

Then the solitude was broken again a few minutes later by Cape Finisterre in Spain. "Any have reported fact from S. O. S. I suppose his knowledge. When he announced at the desk that he was in the right place; yet he reported no answer."

On the European side stations after Valentia were Ushant, in France, all the Spanish and Portuguese stations as far south as Lae Palmas, in the Canary Islands, and Dakar, in West Africa.

On the American side Cape Race and all stations as far south as Boston coasting through as if the devil were driving him. "Stop that; lay off; pipe down; S. O. S."

Then the solitude was broken again a few minutes later by Cape Finisterre in Spain. "Any have reported fact from S. O. S. I suppose his knowledge. When he announced at the desk that he was in the right place; yet he reported no answer."

C. O. S.

Thrilling Tale of Call for Help in Mid-Atlantic and Victory Over Elements Through Radio.

(By an operator.)
We were about mid-Atlantic on December 7 when I picked up a call of "S. O. S. and I wonder if readers can realize the speed with which the news travels. The S. O. S. came in through the din of a hundred ship and shore stations, low in tone and very slowly transmitted, yet in the ears of listening operators it made its mark.

Valentia, a station in the south of Ireland, called up "S. O. S. Q. R. T. P." meaning "Stop transmitting—S. O. S. call is around." The bus of ships' operators ceased at once, and I heard Gallantry (near Cape Race) calling up Valentia, "Repeat position of S. O. S. S. Thus at both sides of the Atlantic the call was registered, and gradually I kept recording the coast stations as they heard of the S. O. S.

On the European side stations after Valentia were Ushant, in France, all the Spanish and Portuguese stations as far south as Lae Palmas, in the Canary Islands, and Dakar, in West Africa.

On the American side Cape Race and all stations as far south as Boston coasting through as if the devil were driving him. "Stop that; lay off; pipe down; S. O. S."

GOVERNORS AGREE WITH HARDING

Aid of the Press is Urged—Maryland and Massachusetts—Governors Alone Dissent—Another Conference to be Held.

(Correspondent New York Tribune.)
Washington, Dec. 18.—Fifteen Governors agreed with President Harding meeting with him at luncheon today, that prohibition enforcement conditions were deplorable. They adjourned after four hours, however, without making definite recommendations for improvement.

With the exception of Governor Ritchie of Maryland, Governor Cox of Massachusetts, they were unanimous in declaring for a general tightening up and against seeking solution of the liquor problem in relaxation of the restrictions. Ritchie and Cox told the Chief Executive that the law was unpopular in their states and therefore difficult to enforce. The Marylander denounced the Volstead act as "destructive of the rights of the states," and urged a return to state option.

The essence of the opinions voiced by the others was that the present agreement conditions which the President has described as "favoring of nation-wide scandal," are merely part of a necessary phase through which the country must pass on its way to complete abridgment. They agreed that the Eighteenth Amendment "has come to stay" and, it was declared, not even the slightest discussion of a possible future for light wines or beer ceases to be in order.

TAXI RUNS WILD, KILLS POLICEMAN

Patrolman Sees Cab Dash on Sidewalk and Crush Former Schoolmate—Does Not Recognize Victim Until Later.

New York, Dec. 21.—Police Officer Frank Becker, three years on the force, stood at East Ninety-fourth street and Lexington avenue, saw a taxicab, wobbling from side to side of the street and running at high speed, coming toward him. He ran to the centre of the street to warn, but the driver sped by, the course of the taxicab becoming even more erratic.

Ninety-fourth street Becker, who stood watching the car, saw it run on the sidewalk, knock down a pedestrian and crash into the iron railing in front of the Paulling apartment house. The pedestrian, who was crushed between the railing and the taxicab, was killed instantly. Becker, seeing that the man was dead, did not glance at his face, but looked himself in arresting the driver of the taxicab, who had been held by persons who ran to the scene of the accident before Becker could get there.

Becker was arranging his prisoner, who was John T. Francis of Third avenue, and who was held on a charge of homicide, when an ambulance crew entered the station, carrying a body from a stretcher. Directed by Lieutenant Kenny to examine the body for possible signs of identification, Becker raised the lid, and said "Falloo," he exclaimed, starting back in horror.

The dead man was Police Officer Edward J. Fallon, twenty-eight years old, of 1288 Lexington avenue, boyhood friend and schoolmate of Becker, whose appointment as a policeman came on the same day as his. Fallon, who was attached to the East Sixty-seventh street station, was at the time of his death on duty on a tour of duty and had changed into civilian clothes to walk home. He was married about three weeks ago.

THIRTEEN OUT OF FIFTEEN WANT PROHIBITION STRICTLY ENFORCED

Aid of the Press is Urged—Maryland and Massachusetts—Governors Alone Dissent—Another Conference to be Held.

(Correspondent New York Tribune.)
Washington, Dec. 18.—Fifteen Governors agreed with President Harding meeting with him at luncheon today, that prohibition enforcement conditions were deplorable. They adjourned after four hours, however, without making definite recommendations for improvement.

With the exception of Governor Ritchie of Maryland, Governor Cox of Massachusetts, they were unanimous in declaring for a general tightening up and against seeking solution of the liquor problem in relaxation of the restrictions. Ritchie and Cox told the Chief Executive that the law was unpopular in their states and therefore difficult to enforce. The Marylander denounced the Volstead act as "destructive of the rights of the states," and urged a return to state option.

The essence of the opinions voiced by the others was that the present agreement conditions which the President has described as "favoring of nation-wide scandal," are merely part of a necessary phase through which the country must pass on its way to complete abridgment. They agreed that the Eighteenth Amendment "has come to stay" and, it was declared, not even the slightest discussion of a possible future for light wines or beer ceases to be in order.

PLANS FOR BIG SKATING MEET

Executive Met Yesterday and Heart Reports of the Meeting in Montreal—Full Committee Meeting Today.

Plans for the skating meet received another impetus yesterday when the executive of the affiliated committee of the Y. M. C. A. and Rotary Club met in the office of the secretary, D. J. Corr. R. D. Patterson occupied the chair.

Mr. Corr reported at length on the meeting held last week in Montreal, at which the dates for the meet were dealt with and the selection of skaters of opinion with regard to the success of the meet.

He also explained the arrangements by which the various clubs were included in the proposed circuit, and the executive endorsed Mr. Corr's action in having St. John placed on the circuit.

Reports were submitted also by H. J. Shoham, who is in charge of the tickets, and from the chairman of the other committees. There was a strong feeling of optimism with regard to the success of the meet.

Plans for the proposed carnival week and matters relative to the skating meet also were discussed.

A meeting will be held tomorrow in the Board of Trade rooms when reports will be received from the committee in charge of the tentative programme and from the committees which are interested in the carnival and others interested in carnival week.

It is hoped that in charge that the meeting tomorrow will be better attended than yesterday's meeting.

JARVIS MAY MEET DUKE OF LEINSTER

If Race is Open for 45-Foot Schooners He Would Enter the Haswell.

Toronto, Dec. 21.—Victor Commodore Jarvis of the R. C. M. C., may race his yacht Haswell in the Duke of Leinster's ocean race, Mr. Nutting, editor of the Motor Boat, New York City, with Casey Baldwin, old variety rugby star, sailed the 'Lynnon' to England in 1920 and plan to sail against the Duke of Leinster next summer.

"If the race is for forty foot ketches, sailed by one man or two men, I could not be in it. However, it is open to forty-five foot schooners I would, if I found I could spare the time, gladly enter the 'Haswell in it,'" said Mr. Jarvis yesterday.

Mr. Jarvis took the Haswell to Jamaica and back two years ago.

"The international race under which Haswell would have to race in England might prove too much of a handicap for a vessel built for measurement under the universal rule.

FREDERICK NEWS

(Special to The Times)
Frederick, Dec. 21.—Hon. P. J. Venio, minister of public works, returned to his home at Bridge contracts in still in abeyance.

Dr. W. S. Carter, chief superintendent of the police force, called a conference of school inspectors would take place here on January 4.

The terminal examinations at the University of New Brunswick were finished today and the exodus of students appointments to the police force will be completed this evening. The Provincial Normal School also closed this afternoon.

At the Baptist Parsonage, Mauger-ville, Wednesday afternoon, Bayard Bridges of Lakeville Corner, eldest son of Mr. and Mrs. George Bridges and Miss Ruby H. Briggs, daughter of Mr. and Mrs. Emory Briggs of the same place were united in marriage by Rev. J. Answorth. Miss Gladys Bridges of Frederick was bridesmaid. They will make their home at Lakeville Corner.

Miss Jean Hanson, daughter of Mr. and Mrs. Henry Hanson of Barker's Point, and Lorain Stafford of St. Catharines, Ontario, eldest son of Mr. and Mrs. Samuel Stafford of Marysville, were married at Christ Church Parish Church Wednesday by Rev. Alban F. Bate. They left Wednesday night for St. Catharines, where they will reside. Eighty cents per pound was asked for turkeys in the country market this morning. Green, yellow, Friday at 85 each, dropped to 83.50 today.

Chief Inspector J. B. Hawthorne has returned from Edmundston.

STORM OF PROTEST AGAINST MACLAY

Peer's Alleged Statement Regarding Clyde Workmen's Efficiency Assailed.

London, Dec. 21.—(Canadian Press)—Lord MacLay's alleged statement that Clyde Workmen are less efficient as measured by output than other shipbuilders has raised a storm of protest. Lord MacLay's alleged statement was assailed by the Glasgow Trades Union, which recently and embraced the occasion to speak plainly to Glasgow workmen. He intimated that it had become impossible for the Government to place contracts on the Clyde because of the higher tenders quoted and suggested that the reason for this was the inefficiency of the Clyde workmen. Lord MacLay was shipping controller for a time.

One Scottish Labor M. P., suggests that if Lord MacLay fails to apologise for his statement, his name be expunged from the Glasgow Freeman's Hall. Premier Bonar Law in the House of Commons recently stated definitely that the contracts for the new warships did not go to the Clyde because the shipbuilders there quoted too high a price.

EMPIRE TRADE TO SOLVE PROBLEM OF UNEMPLOYMENT

So Overseas Trade Gathering Tells London Gatherings—Canada's Relations With the U. S.

London, Dec. 21.—(Canadian Press)—Sir William Jounson-Hicks, secretary for overseas trade, was the guest of the Colonial Institute luncheon yesterday. Addressing the gathering he emphasized that the sole remedy for present unemployment in Great Britain was the development of inter-empire trade. Sir William cited figures showing that all the dominions imported less from Great Britain and more from the U. S. in the last year than which records were available. Referring to Canada, he added, that he did not blame her.

All the Masonic orders of the U. S. have contributed to a statue to George Washington at Virgiana.

BASKETS FOR POOR AT CHRISTMAS

Donations for above may be left at Mission Hall, 191 Prince Edward St. December 23rd, from 10 a.m. to 2 p.m. Contributions may be sent to A. E. Whelpley, 240 Paradise Row, Phone Main 1227, or Chas. Robinson, 80 Coleridge Street, Phone Main 1161. Second hand clothing always accepted.

PEER'S ALLEGED STATEMENT REGARDING CLYDE WORKMEN'S EFFICIENCY ASSAILED

London, Dec. 21.—(Canadian Press)—Lord MacLay's alleged statement that Clyde Workmen are less efficient as measured by output than other shipbuilders has raised a storm of protest. Lord MacLay's alleged statement was assailed by the Glasgow Trades Union, which recently and embraced the occasion to speak plainly to Glasgow workmen. He intimated that it had become impossible for the Government to place contracts on the Clyde because of the higher tenders quoted and suggested that the reason for this was the inefficiency of the Clyde workmen. Lord MacLay was shipping controller for a time.

One Scottish Labor M. P., suggests that if Lord MacLay fails to apologise for his statement, his name be expunged from the Glasgow Freeman's Hall. Premier Bonar Law in the House of Commons recently stated definitely that the contracts for the new warships did not go to the Clyde because the shipbuilders there quoted too high a price.

VESSELS DETAINED IN LAKE ERIE ICE

Detroit, Dec. 21.—Three steamers carrying grain were ice-bound in Lake Erie, just below the mouth of the Detroit river today, while three other vessels were contending their battle against ice floes in the St. Mary's river. The Philip Michx sent the night six miles off Colchester, Ont., and the City of Bangor and C. B. Nienaber were fast just below Mar Point. The vessels stalled in the northern waters were the J. H. G. Hagarty, Glenyon and Emper, all reported near West Neabich Cut.

SAYS OSSINING IS NOT SECOND RENO

Justice Young Gives Warning to Divorce Seekers of New York City.

Ossining, Dec. 20.—Supreme Court Justice Frank L. Young has just served notice upon lawyers and litigants, after granting a decree of divorce to Mrs. Margaret R. Hendricks from Brandon Hendricks of New York City, that Ossining is not to be a Reno for New York City applicants for divorce.

He issued the warning after hearing evidence against Hendricks which is alleged to have been disclosed when a curtain accidentally flew upward and revealed scenes in a bungalow in Rye, N. Y.

When Judge Young had heard testimony by witnesses for Mrs. Hendricks he turned to her counsel, Manning Silvers and asked if the case was brought in Ossining to avoid notoriety. The lawyer replied that it was not. He explained that the couple formerly lived in Westchester County and that, as their separation suit brought there received much notoriety, that the divorce suit could not have been brought in Westchester to avoid publicity.

Judge Young said: "I understand that Judge Tompkins stated that he would listen to no more undefended divorce actions for New York City couples. I take the same attitude. I feel it is not right for Westchester County Judges to be called upon to air the soiled linen of New York City divorce cases." The Judge warned that good reasons would have to be advanced hereafter before he would try divorce actions brought by residents of the metropolis.

Testimony was given that Mrs. Lillian Randall of Central Park West, Eugene McCarthy and Private Detective Howard A. Strong went to the Rye Beach bungalow with Mrs. Hendricks to investigate what Hendricks was doing. As they were peering under a curtain, they alleged, Hendricks, from inside, accidentally touched it. The curtain shot upward and a full view of the interior was disclosed to Mrs. Hendricks and her witnesses. Hendricks was in court, but did not contest the suit or take the stand.

ELECTRIC DRIVE ON NEW FERRYBOATS

Latest Innovations Will be Used on New York Craft—Same Principle Found Satisfactory on Battleships

New York, Dec. 20.—The most modern developments in the electric drive will be utilized on the municipal ferryboats now under construction, according to a statement from the General Electric Company. It is said that the new craft will be much more efficient than other types owned by the city.

The equipment is described as follows: "The three New York ferryboats being built by the Staten Island Shipbuilding Company will each be propelled by an eight-stage condensing Curtis, marine type turbine, which has proven particularly well adapted for marine service. This fact is substantiated by the records of the Emergency Fleet Corporation and also by the fact that approximately ninety per cent. of the turbine driven ships being built at the present time in England, which is the home of the Parsons type turbine, are using the Curtis type of turbine.

"Each ferryboat will be equipped with one General Electric turbine-driven, alternating current generator, and this generator will in turn drive two marine type two-speed induction motors having double squirrel cage rotors. In this connection it is of interest to note that the induction motor rotors being used on the new New York City ferryboats are similar in design to those of the New Mexico, which was the first electrically driven battleship.

"The relative speeds of the bow and stern propellers were determined by tank tests conducted for the City of New York under the direction of M. C. Kinnlund, naval architect.

"The high speed winding will deliver 2,100 shaft horsepower at 170 revolutions per minute and the low speed will deliver 100 shaft horsepower at approximately 122 revolutions per

SLUMS AND CRIME

English Judge on Gloom and Grim City.

Leeds, Nov. 28.—(By Mail)—Mr. Justice Greer, addressing the grand jury at the opening of the West Riding Assize at Leeds today, said that on arriving in the city two things filled him with dismay. "The first was the dim, gloomy, and grimy condition of the city. The outside of the fine public buildings were debased by smoke, soot, and dirt. Surrounding them were miles and miles of mean streets with houses composed of blackened bricks. He could not help thinking that something might be done to prevent the enormous accumulation of smoke which made our manufacturing cities a black spot on the face of the country.

"The other thing which fills me with dismay," said His Lordship, "is the character of the calendar and the nature of the offences. I am not at all sure that there is not some connection between the two things I have spoken of. An improvement of the

MINISTER FOOLS HIS CONGREGATION

(New York Tribune)

The Rev. Robert McCaul, pastor of Washington Avenue Baptist church, Brooklyn, in whose pulpit a week ago appeared an unidentified man wearing Ku Klux Klan regalia, preached last night in the absence of his shrouded associate to a small gathering, which included five patrolmen and several detectives. The police declined to discuss orders given them as to their procedure in the event of the supposed Klansman's reappearance.

Dr. McCaul devoted much of his sermon to an explanation of what he described as "dramatizing the truth" in his introduction of the supposed Klan representative. The man was not a Klansman, he said. His motive in presenting him had been to reach the hearts of men and women with the gospel. He offered numerous Biblical authorities in support of his method.

minute. The ship may be maneuvered either ahead or astern.

"In maneuvering all power is placed on the most efficient propeller for accomplishing the desired result; that is, in stopping the boat all power will be placed on the low high speed motor winding, the speed of the motor being controlled by the speed of the turbine.

"To further increase the efficiency of these ferryboats most of the engine room auxiliaries are motor driven, obtaining their power from a 120-kilowatt condensing turbine driven, direct current generator."

SHARP INCREASE SHOWN IN VOCATIONAL STUDIES

New York, Dec. 20.—An increase of 46 per cent. in the number of pupils taking vocational courses under the Federal Board for Vocational Education during the last year was announced yesterday in a statement issued by Harry L. Fidler of Indianapolis, a member of the board. During 1921-22, Mr. Fidler's figures show, there was an increase of 151,561 in the number of students enrolled, bringing the total to 472,828. The number of schools offering vocational training courses was increased from 3,871 to 4,946 during the same period.

The greatest progress shown during the year, by the Federal board has been in the establishment of part-time schools, Mr. Fidler stated. The part-time school has been found to fit the needs of a greater number of boys and girls than any other type.

The coming year is expected to duplicate the progress of the year just closing, as the state and local school boards are making a more adequate

provision for vocational instruction in the public schools every day. The Federal funds available for state aid, which last year amounted to \$4,120,833.72, will be increased in the current year to \$4,615,159.82. These funds are increased under the original act each year until the fiscal year 1925-26, when the maximum is reached, to be maintained permanently.

MARY WIPED OUT WITHIN DECADE

View of French Minister of Marine, Who Says Fleet is Dying— Urges Construction for Defence Purposes Only.

Paris, Dec. 21.—By the normal process of use the existing French fleet will have diminished by the year 1933 to three battleships, three cruisers, of which two will have only two more years of life, and two submarines. This statement was made in the Chamber of Deputies by the Minister of Marine, M. Rabier, in a discussion of the next budget.

"France's fleet is dying," he said, "and the country ought to know it. So ought also those foreign countries which accuse us of imperialism. Yet we must have a fleet to defend our very existence."

The Minister told the Chamber that since 1914 France, which was supposed to be so imperious and so over-armed, had constructed only one destroyer and one submarine, while Great Britain had built 19 capital ships, 37 cruisers, 247 destroyers and 126 submarines, and the United States had constructed 25 capital ships, 7 cruisers, 289 destroyers and 122 submarines. Since 1914 the French fleet, he said, diminished by 110,000 tons, while its efficiency had decreased by more than half owing to the age of the vessels still in commission.

Next year, he continued, the Government would present to the Chamber a construction programme "well within the limits set by the Washington accords," but this construction programme would be one simply of defence. France would arm against no one. All she wished to do, all she was able to do even if she wished to do more, was to arm for the defence of her own House.

Twelve submarines, he said, were in the course of construction and he was asking for nine more. Of the 44 submarines which France possessed 21 would be useless by 1923, and those which were building and would be built, were designed only to take their place.

In the personnel of the fleet and the naval yards there had been a reduction which had saved 30,000,000 francs to the country, and he was pleading before the House a bill for reducing the fleet by 180 officers, which would bring a new economy of 3,000,000 francs. When these projects were voted, the minister said, France would be the only country among the Allies to have a smaller naval payroll than in 1914.

The Robesay Collegiate School closed for the Christmas holidays on Tuesday and the students, with the exception of those residing in distant places, have all left for their homes.

DR. MOELLER, 80, FELLED BY ROBBER

Heart Specialist Blackjacked by a Young Man in His Office.

New York, Dec. 21.—Dr. Henry Moeller, 80 years old, a specialist in kidney and heart disease, was blackjacked and robbed in his office at 84 West Fifty-seventh street, between Eighth and Ninth avenues, by a well-dressed young man who had lingered in the waiting room for an hour, saying that he was waiting for a patient of the physician.

Dr. Moeller answered the bell himself upon the arrival of the young man. The visitor explained that he was not sick, but that he had promised to meet a friend who was going to call a little later for medical advice. The young man was tall, clean-shaven and neatly dressed in black clothes. He made a favorable impression on the physician, who ushered him into the waiting room. Dr. Moeller in his larger office proceeded to treat another patient. A few minutes later his wife and two daughters came home after a walk with Robert, an Alford's terrier that is said to be a cousin of President Harding's Laddie Boy. They caught a glimpse of the good-looking young man reading a magazine in the waiting room. About 8.15 the patient who had been in the inner office left. Dr. Moeller was then alone with the young man. The physician walked into the waiting room. His visitor told him that his friend had not arrived, but that he ought to be there soon. Dr. Moeller returned to his office.

THE SCIENTIFICALLY BUILT WATCH

WALTHAM 6-0 Size Com. vertible and Ribbon Watches. No. 6412C-15 Jewel Movement 14 K case and bracelet \$30.00. No. 6412D-15 Jewel Movement Gold-filled case and bracelet \$45.00. No. 6412E-15 Jewel Movement Gold-filled case, silk ribbon \$37.00.

Also made in 8-0 size, slightly larger than the 6-0 size, \$28.00. Also made in 8-0 size, slightly larger than the 6-0 size, \$28.00.

TWO interesting ladies' watches—alike, yet not alike. The one is be-ribboned in pure black silk (changed at the slightest of cost)—the other a bracelet watch, convertible according to the wearer's mood or the "dress" occasion. Because of the disappearing "eye" in the case, you can wear it around the wrist or as a chateleine watch or on a chain. These jeweled, fashionable Waltham Watches will keep time for a life-time. Whichever one you prefer. They are sold by first class jewelers. Ask your jeweler to show them to you. He knows what fine watches they are.

BRavery AT SEA IS RECOGNIZED

Naval Officer Given Lloyd's Gold Medal for Saving Life.

London, Nov. 23.—(By Mail)—A story of gallantry at sea was related at Lloyd's yesterday when Captain R. G. R. Evans, R.N., was presented with Lloyd's Gold Medal for Saving Life. Mr. A. L. Sturge (chairman of Lloyd's), before presenting the medal, said that on the night of March 8, 1921, the S.S. Hong Kong, carrying 1,100 Chinese coolies, struck on the rocks northeast of Hong Kong. Captain Evans, who was in command of the S.S. Cavite, received a wireless message urging him to proceed at all speeds to the rescue. Proceeding at eight knots, he arrived at the rocks where the wreck had taken place. The sea was rough, and the weather extremely bad, but a boat was immediately launched, and Captain Evans himself took charge. It was found impossible to get the boat alongside the wreck. Captain Evans dived into the water. Only a powerful swimmer could make headway, and when he reached the wreck there was danger of being dashed to pieces against it. Eventually Captain Evans got on deck and made fast the line, and the survivors were hauled on board the boat.

Later, while the boat was crowded with refugees, it was discovered that a rope had fouled the propeller, and there was great danger that the boat would be swamped. Captain Evans dived overboard and, after hard work, the propeller was released and the motor-boat succeeded in reaching H. M. S. Carlisle. They succeeded in saving five living men from the wreck, and Mr. Sturge, amidst a storm of cheering, Captain Evans received a great ovation as he stepped forward to receive the medal.

HELD CHRISTMAS TREAT ON LINER

Officers and Crew of C. P. S. Montclare Have Celebration—Members of Port Staff Also Entertained.

The officers and crew of the C. P. S. Montclare held their Christmas feast last night on board the ship at the west side docks. The Montclare will be at sea on Christmas and it was decided to hold this celebration while in port. Later the members of the C. P. S. port staff were entertained. A ball room was fitted up by partitioning off part of the deck and this was kept warm by the hot air system. Decorations of English holly and mistletoe, specially brought here for the occasion, were lavishly used and a Christmas-like atmosphere was produced. There were about 200 at the crew banquet and about seventy at the banquet held by the captain for the officers and petty officers. Toasts were drunk to the King, Captain Latta, the ladies, the C. P. S. company, the ship's Chief Engineer Black and the steward and catering staff. Among the visitors from the company were Commander H. M. R. Elliot, general superintendent; William Webber, general agent; G. Bruce Burpee, district passenger agent, and Captain W. J. McGillivray, marine superintendent. The Montclare will sail tomorrow, arriving in England on December 30, and will return here about the middle of January.

TO GET AWARD FOR RESCUING SAILORS OF NEWFOUNDLAND

Montreal, Dec. 20.—Notification of an award by the government of Newfoundland to the master and several members of the crew of the White Star-Dominion steamer Welshman for meritorious work in rescuing the crew of the Newfoundland schooner Stanley Joseph, was received by the White Star-Dominion liner here today from the British Board of Trade. The rescue took place during the Welshman's last voyage from Montreal to Avonmouth, when in the vicinity of Cape Race.

TO REPORT ON THE GREAT MARSH

A conference between B. M. Hill, provincial road engineer, Mr. Torrens, the C. N. B. divisional engineer, and G. G. Hare, the city engineer, was held on Tuesday afternoon respecting the Great Marsh matter and it was decided to have Mr. Hill submit to Premier Foster the recommendations arising out of this conference. Later on, this report will be presented to the Great Marsh Commission.

presently to be conferred upon four others, Bishop Tuttle, Bishop Anderson, Bishop Sumner and Bishop Darnley.

The investiture took place at the Cathedral in the presence of clergy of the Episcopal and Greek Churches and a number of interested people. The casket cross contains a fragment of the True Cross which, tradition says, was discovered by Helena, mother of Constantine the Great. The Patriarch conferred the Order upon Bishop Manning in recognition of his efforts for many years past in the cause of church unity.

The finance committee of the Municipal Council met yesterday afternoon and recommended an increase in the bond issue for the recent work done on the hospital by an amount of \$1,100. The extra expenditure involved arose from the fact that greater excavations had to be made than expected. The estimate was exceeded and the contractor went on with the work. There was considerable discussion on the matter yesterday. A delegation from the Hospital Commissioners headed by M. E. Ayr was present during the discussion. Transfer of an account for some \$700 from the Lancaster sewerage and maintenance charge to a bond issue was recommended. Councillor Wigmore presided.

Rural Typoid Carrier Has Infected Four Sons-in-Law and Others.

Who Pays For Advertising?

THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody.

Nobody pays for the new car that gives added mileage to your motor car. It pays for itself in the gasoline it saves.

Nobody pays for an improved cash system in a modern department store. It pays for itself in economy of human time.

Nobody pays for well planned and written Daily Newspaper advertising. It pays for itself by reducing the cost of sales and by increasing production. And it often receipts old bills for follies with advertising labels.

The advertisement in your own local Daily Newspaper tells you the best things to buy and where to buy them. Every new purchase helps the whole community to command cheaper and better goods.

Issued by The Canadian Daily Newspapers Association, Toronto.

LOTS OF ACTION AT BOXING BOUTS

Johnny Sheppard of Boston Won the Feature Event, Knocking Out Mitchell of Quebec in Seven Rounds — Good Preliminaries — Bouts Well Conducted.

Action, fast action, and plenty of it, characterized the boxing last night at the exhibitions in the armories. More than 700 fans were present and expressed general satisfaction over the way the bouts were conducted.

Round 1—The men clinched after a little sparring and Penny landed the first blow, a left jab to the face. He followed this a moment later by jabbing his right through Sullivan's guard and landing on the latter's head.

Round 2—Penny landed his left to the body and followed with a right poke to Sullivan's head, received a hard right to the body in return. After considerable clinching, Penny landed a terrific uppercut when Sullivan missed a right swing.

Round 3—After some sparring Penny landed a hard right on Sullivan's head as the latter missed a wild swing. Penny followed with several solid body blows without any return.

Round 4—Penny landed a left to the chest and followed with a right to the body. Sullivan continued to do most of the leading. Penny missed a right uppercut. Both men were bleeding at the nose.

Round 5—Penny landed a left to the body. Penny landed a right to the body. Penny landed a right to the body. Penny landed a right to the body.

Round 6—Sheppard came out of his corner and shot a left across to the head which sent Mitchell dancing away. Mitchell shoved his left in several times to Johnny's head and body without doing much damage.

Round 7—The seventh round saw the end of the bout. Johnny rushed from his corner and landed two solid blows to Mitchell's body and then crossed a snapping right to the side of Mitchell's jaw, dropping him to the canvas where he lay on his hands and knees.

Round 8—Burns rushed Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 9—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 10—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 11—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 12—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 13—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 14—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 15—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 16—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 17—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 18—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 19—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 20—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 21—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 22—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 23—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 24—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 25—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 26—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 27—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 28—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 29—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 30—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

rushed in but the Kid stopped him with a right uppercut. They swapped punches with Burns having the better of the exchange. Mose was bleeding profusely. Burns landed two solid rights to the body and followed it up with several left jabs. Mose appeared to be groggy. They were sparring at the bell. (Burns' round.)

The decision was awarded to Burns, who had clearly earned the verdict. Jack Sullivan vs. Young Penny (Featherweights.)

Round 1—The men clinched after a little sparring and Penny landed the first blow, a left jab to the face. He followed this a moment later by jabbing his right through Sullivan's guard and landing on the latter's head.

Round 2—Penny landed his left to the body and followed with a right poke to Sullivan's head, received a hard right to the body in return. After considerable clinching, Penny landed a terrific uppercut when Sullivan missed a right swing.

Round 3—After some sparring Penny landed a hard right on Sullivan's head as the latter missed a wild swing. Penny followed with several solid body blows without any return.

Round 4—Penny landed a left to the chest and followed with a right to the body. Sullivan continued to do most of the leading. Penny missed a right uppercut. Both men were bleeding at the nose.

Round 5—Penny landed a left to the body. Penny landed a right to the body. Penny landed a right to the body. Penny landed a right to the body.

Round 6—Sheppard came out of his corner and shot a left across to the head which sent Mitchell dancing away. Mitchell shoved his left in several times to Johnny's head and body without doing much damage.

Round 7—The seventh round saw the end of the bout. Johnny rushed from his corner and landed two solid blows to Mitchell's body and then crossed a snapping right to the side of Mitchell's jaw, dropping him to the canvas where he lay on his hands and knees.

Round 8—Burns rushed Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 9—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 10—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 11—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 12—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

Round 13—Burns used Mose to the ropes and landed several telling blows and seemed to be trying for a knock-out as he landed a terrific right to the jaw, which rocked Mose.

ward right to the body, although he received a left this time to head in return. Sheppard landed a left and right to the body, taking a left to the face. Johnny landed several short right jabs to the head and then uncorked a hard right to the ribs. Mitchell rushed into a clinch and received a left and right to the ribs for his pains. (Sheppard's round.)

Round 3—After some clinching Mitchell landed two lefts to the head. Johnny tried several times to get set to land his right but the Kid displayed fast footwork and kept away or clinched. Johnny crossed a right to the chest and clinched and sniped in several jabs to the body. Mitchell was using his left but it was little more than a push he was getting into it. Johnny landed a right to the face and continued to force the fighting. (Sheppard's round.)

Round 4—The fourth round was the only one in which Mitchell appeared to have a slight advantage. This was largely due to Johnny trying to land a K. O. wallop and taking a series of jabs to do so. Mitchell landed several lefts to the head and body with a return. Johnny rushed the Kid and drew blood from his nose. Sheppard landed a hard right, which rocked the Kid, and smiled but this vanished when he ran into another left to the jaw. Sheppard then turned his attention again to Mitchell's body but received two left pokes to the head. The bell rang as Johnny rushed the Kid to the ropes. (Mitchell's round by a narrow margin.)

Round 5—From the fifth round on it was Sheppard all the way. The Kid was traveling at a fast pace but had no effective punch. Johnny had plainly decided by this time that he had nothing to fear and he cut loose. He forced Mitchell to the ropes with several wicked body blows and the latter clinched. After the break Johnny bounced the Kid off the ropes with a hard left to the chin. Johnny let loose a hay maker for the chin and grunted as he partly missed it, only landing a glancing blow on the Kid's head. (Sheppard's round.)

Round 6—Sheppard forced the fighting from the top of the gong and landed a terrific right on the Kid's ribs, following it with a left to the same place. The Kid was clearly slowing down. Johnny poked a short left to the face and received a right to the body in return, but the blow was backed by practically no force. Johnny continued to play to the head and body alternately with lefts and rights. Johnny finally cut loose with a hard right to the stomach. Sheppard just missed an uppercut which would have ended the battle right there. The Kid clinched and the bell saved him further trouble. (Sheppard's round.)

Round 7—The seventh round saw the end of the bout. Johnny rushed from his corner and landed two solid blows to Mitchell's body and then crossed a snapping right to the side of Mitchell's jaw, dropping him to the canvas where he lay on his hands and knees. He was not completely out, but appeared dazed from the effects of the blow after being worn down by the punishment which he had received in the earlier rounds. The winner received a good hand from the fans as he helped his opponent to the corner.

The officials at the bouts last evening were as follows: Referee, James Power; Judges, D. J. Britt and Dr. Day; timers, Fred Logan and Martin Dolan; announcer, Ernie Markwald.

ASKS 100 MILLION FOR RUSSIA. New York, Dec. 21.—David A. Brown, who recently returned from service with the Jewish relief organization in Russia, the Ukraine and Poland, where he supervised the distribution of \$17,000,000, said at a dinner given to him at the Peninsular Country Club in White Plains, that he intended to ask Congress to appropriate \$100,000,000 for Russian relief.

The money should be used, he said, to supply ploughs, tractors and seed under an arrangement between the American Relief Association and the Soviet Government. The association, he said, should have an agreement with the Soviet Government for the repayment of the money. Conditions in Russia, he said, were worse than they had been pictured.

WHEN CHRISTMAS CARD TIME ARRIVES YOU NATURALLY THINK OF McMillan's. "IT IS IMPOSSIBLE for a man or woman to say that he or she has nothing to give. The heart, the time, and a kindly thought are often worth more than gifts that cost money. A Christmas, or a Birthday card often means more than a painting or a jewel. The unexpected bestowal adds much to its value." This is the opinion of America's greatest Merchant Prince. WHEN WE TELL YOU that we have one of the largest and most artistic stocks of CHRISTMAS AND NEW YEAR CARDS, ART CALENDARS TAGS, SEALS and CHRISTMAS POSTALS in all Canada, this is no idle boast, but a plain statement of fact. Don't miss a single friend from your list this year. Choose the right Cards and plenty of them! Make your list complete by starting NOW. "Every CHRISTMAS CARD is a ray of sunshine." We have a wealth of superb reproductions by the latest processes, of the world's most famous works of Art, including pictures of Raphael, Correggio, Titian, Sir Joshua Reynolds, P.R.A., and a number of other celebrated artists. Special attention must be given to replicas of the ROYAL CHRISTMAS CARDS produced from the original cards prepared for Their Majesties the King and Queen and His Royal Highness the Prince of Wales. A richer contribution to this year's Art service it would be difficult to imagine. Cards with clever sentiments aptly expressed, and if a Humorous Card is required WE HAVE IT. Last, but not least, we wish to call your attention to a beautiful reproduction of Gainsborough's BLUE BOY, the original of which recently changed hands for three-quarters of a million dollars. TINSEL CORD—SILVER, GOLD, ETC. DAINTY SEALING WAX SETS, GUMMED RIBBON, ETC. HIGH GRADE STATIONERY From famous mills on both sides of the water, beautifully boxed. Absolutely correct in style, always in good taste. If given the time we will die stamp to order with crest or initials. FOUNTAIN PENS Indispensable to the business man. Standard makes Waterman, Swan, etc. Gold mountings, if required. All prices. EVERSHARP PENCILS Particularly appropriate for Christmas Gifts. Fitted with clip or ring, in Silverplate, Sterling and all Gold. All prices. LEATHER GOODS Writing Portfolios, Pocketbooks, Diaries, Address Books (extra thin), Letter and Card case in Morocco, Seal, Velvet Cali and Pigskin. For every member of the family A Practical Gift OF A THOUSAND USES HERE'S a bright idea—give an Eveready Flashlight to every one on your Christmas list. You can't go wrong on a single one, because there's a type of Eveready for every type of person. Here, surely, is the Christmas Gift of a Thousand Uses. Christmas morning, watch Dad reach for that handsome Spotlight with the 300-foot range. Look at Mother, wreathed in smiles, examining her Flashlight. Now she can approach those dark stairs with surer tread. No more guessing which is "Grape" and which "Crab Apple" on the dark jam-shelf. Easy there, Billy. Wait a minute, Jane. There's a Pocket Light for each of you. Aren't they nice? All smooth and shiny, like a cigarette case. A bright Christmas? Yes, Sir! Don't wait till the rush is on. Take your list to the nearest electrical, hardware, drug, auto-supply, or sporting-goods store today and make your Christmas selection. Discontented Wife Contented

THUR.
FRI.
SAT.

J. P. McGOWAN

"Discontented Wives"

A drama of the East and the West, "Discontented Wives" contrasts the culture and luxury of civilization with the ruggedness and barrenness of primitive life in the gold regions of California's hills. It also presents an interesting character study—the wife grown discontented under the strain of continual hardships and sacrifices; the husband blind to everything but his eternal struggle for gold; the other man, gaining his ends by fair means or foul.

taken the pep out of the visitors whose combination was unusually poor.

Regina Trims Seattle.
Seattle, Dec. 21—Regina Capitals broke into the win column for the first time this season here last night in an inter-league game with the Seattle Mets, leaders of the Pacific Coast League, the Western Canada League champions defeating the locals in an uphill struggle by 6 to 3. Stanley scored the deciding goal after nine and one half minutes overtime.

Harvard Wins.
Boston, Dec. 21—Harvard hockey team defeated the Boston Hockey Club's sextette last night, 2 goals to nothing.

WRESTLING.
Tremblay Wins.
Kingston, Ont., Dec. 21—Eugene Tremblay, of Montreal, champion light-weight wrestler of the world, won a bout here last night from Harry Hauha, formerly champion of the metropolitan police of London, Eng., in two falls out of three.

BASKETBALL.
Trinity Scouts Win.
In an exciting game of basketball, played on Trinity schoolroom floor, last night, the Trinity Scouts team defeated the Young Trojans by a score of 18 to 4. The line-up was as follows:

Trinity.		Centres	McLellan
Resep.			
Kelly	Morgan	Defence	Ingram
Nyburg	Shannon	Forwards	Davidson
Sutherland	Marvin	Centre	Sutherland
The referee was William Ward.			
Faculty Defeated.			
The Faculty team in the High School Basketball League went down to defeat before the last team of Grade X last evening in the Y. M. C. I. by the close score of 25 to 23. J. P. McInerney was referee. The teams lined up as follows:			
Grade X.		Forwards.	Faculty.
Barker	Copp	Centre.	Gunn
Humphrey	Alexander	Forwards.	Nason
Ewing	Patterson	Centre.	Rice
Willard Takes On Two.			
Portland, Ore., Dec. 20—Jess Willard let two boxers, Scotty Messer, of Til-			

St. Peter's House League.

In St. Peter's House Bowling League last night, the Roses and Thistles each won two points. The scores were as follows:

Roses—Total Avg.		67 67 78 212 70.2-3
McCurdy	66 84 223 74.1-3	
McCarthy	70 78 81 229 75.1-3	
Hoyce	77 89 255 85	
Henry	69 85 74 228 76	
388 378 405 1141		
Thistles—Total Avg.		77 78 84 234 78
Tumple	75 84 226 78.1-3	
Martins	69 70 219 73	
Willard	78 78 237 79	
McCann	80 85 84 239 76.1-3	
388 388 392 1145		

I. O. G. T. League.
In the I. O. G. T. Bowling League on the Victoria alleys last evening, No. 19, Surrender Lodge forfeited all four points to the Dominion Lodge. In order to keep their league standing the winners rolled off three strings, Lemmon made the unusually fine total of 319 for the three strings. The scores follow:

Td Avg.		88 888 892 1145
Cronk	65 74 68 207 69	
Kippatrick	71 76 65 212 70.2-3	
Hullerton	94 73 83 250 81.3	
Lemmon	98 118 108 319 106.1-3	
326 338 324 988		

HOCKEY.
Canadians Defeat Hamilton.
The National Hockey League season in Montreal vs opened last night by a game between the Canadians and the Hamilton team, which resulted in a win for the Canadians by a score of 7 to 3. Over 4,000 spectators were present.

3000 SCIENTISTS WILL MEET IN CHRISTMAS WEEK

Every Field of Progress to be Represented at the 75th Meeting of American Association for Five Days.

Cambridge, Mass., Dec. 20.—Three thousand scientific men from every part of the United States and Canada will invade Boston and Cambridge Christmas week for the discussion of scientific problems of the present day when the American Association for the Advancement of Science holds its seventy-fifth meeting here December 26 to 30, at the joint invitation of the Massachusetts Institute of Technology and Harvard University.

The sessions will mostly be held in the Technology buildings in Cambridge. The Pratt Building will serve as headquarters for the American association. A few of the meetings will be held at Harvard and other educational institutions will participate in the welcome to the visiting army of science.

Every field of scientific progress will be represented by distinguished men. The American association is divided into fifteen sections, each for the discussion of a specific subject, such as physics, astronomy or zoology, and has no less than forty-two different societies affiliated with it.

To Open December 26. The convention will open formally on Tuesday evening, December 26, with a big meeting at the Walker Memorial.

Professor Samuel C. Prescott of M. I. T., chairman of the local committee on arrangements, will introduce Mayor Quinn of Cambridge, Mayor Carley of Boston, Dean H. P. Falbot of M. I. T. and President Lowell of Harvard, who will welcome the visitors on behalf of the cities and the universities which are acting as hosts.

On Wednesday, December 27, and the two following days sessions of the various sections will be held morning and afternoon in lecture halls and classrooms at Technology. There will also be a number of features of more general interest on these days.

On Wednesday afternoon from 4 to 6 all laboratories of the institute, with much interesting apparatus, will be open to the delegates for inspection. President Livingston Farrand of Cornell will give the annual Sigma Xi lecture that same evening, and there will also be a big smoker for the biologists at Walker Memorial. On Thursday all the delegates will be invited to visit Harvard and luncheon will be served in Memorial Hall. Thursday evening many of the societies will have dinners, and Professor W. M. Davis of Harvard will lecture at the Walker Memorial on "Lessons From the Grand Canyon."

"Physical Basis of Life." The main feature on Friday, December 29, will be the Sedgwick Memorial lecture to be given in Huntington Hall at 4.30 in the afternoon by Professor Edmund B. Wilson of Columbia, on "The Physical Basis of Life." There will be a few meetings on Saturday, and then the delegates will go their separate ways and the convention will be over.

The officers, aside from President McMurrich and retiring President Moore, include a permanent secretary, Dr. Burton E. Livingston of Johns Hopkins University; a general secretary, Dr. D. T. MacDougal, of the Carnegie Institution of Washington, and a treasurer, R. S. Woodward, of the Carnegie Institution. The chairman of the executive committee of the council is Dr. Simon Flexner, of the Rockefeller Institute.

The local committee on arrangements consists of twenty-nine members, representing Technology, Harvard, Tufts, Wellesley, Simmons and Boston University. Professor Samuel C. Prescott of M. I. T., is the chairman.

The American Association for the Advancement of Science was founded seventy-five years ago, and now has a membership of more than eleven thousand.

KING INSPECTS MARINE SHOW

Familiar Ground for Royal Yachtsman—A Scull of Quebec Spruce Among the Exhibits.

London, Nov. 23.—(By Mail)—The King was on familiar ground yesterday when he paid a private visit to the Marine and Small Craft Exhibition at the Royal Agricultural Hall, Islington. For a yachtsman it is an exhibition bounding in interest, and the King, who has been moving round the and for nearly two hours, talking to the technicians on level terms, in such surroundings it was not difficult to recapture something of the spirit of Cowes. The transition, the moment the threshold was crossed, was the foggiest of London to the dingy waters of the Solent. The King, who has been moving round the and keenly discussed with them prospects both from the industrial and sporting points of view. He was early gratified with the news of the builders, after a very depressing time, were now able to see a bit of blue sky overhead. Orders are again coming in. His Majesty said it was his intention, if at all able, to have the Britannia out next season.

group of smart little model held the King's attention for time, and he was greatly interested in their under-water design and arrangements. Further on he was to judge between the old racing scull and the new. He test-

ed the weight of one made of pitch-pine in 1747 and another freshly made of Quebec spruce, to the order of his own bargemaster, the latter being not merely 2 ft. longer, but only half the weight. Ernest Barry's championship scull also attracted notice. An ingenious metal fastener for sail-covers, punt-covers, and such like won the King's commendations, and His Majesty accepted a specimen. Several minutes were spent in watching the operation of a hydraulic propeller which aims at making ships unsinkable by reason of its capacity for pumping. Nothing in the exhibition interested the King more, or won from him higher commendation, than the stand of the well known among Baptist people in Victoria Model Steam Boat Club. This is a club composed entirely of East End working men, who run their craft on the bathing pond in Victoria Park. Very few of them are engineers. The King was frankly astonished with the perfection of many of the designs, and spent several minutes chatting to some of the men about their hobby.

NEW PASTORATE. Moncton Transcript.—Mrs. S. J. Perry has gone to Port Mouton, N. S., where she will join her husband, who has accepted the call of the Baptist pastorate at that place. Mr. Perry is a native of Kings County, N. B., and is well known among Baptist people in this province.

THOROBREAD FLOUR Becomes a Habit

Milled by Hunt Bros Limited London, Canada "Thorobread" is way ahead.

CRAZY CAR DRIVERS.

(New York Sun.) Out in Detroit and in several other parts of the Middle West really effective measures seem to have been adopted for cutting down the slaughter by automobiles and trucks which has been going on there as here. They have reached the conclusion that fines are almost useless and that imprisonment, though better, is not so much better as alone to be an adequate remedy. So they are taking speed offenders to morgues and hospitals, where they can see the results of their carelessness or recklessness, and the latest device is to send drivers who have killed or injured people before a commission in lunacy for examination.

That last, apparently, was a happy thought—it creates a serious impression and leaves a sort of brand that does not soon wear out of the minds either of those who thus are tested for insanity or of their neighbors. Japan in a few years has turned from an importer of textiles to one of the largest exporters.

DISAGREEMENT REPORTED IN HONORS SYSTEM PROBE. London, Dec. 21.—(Canadian Press)—The Royal Commission which recently investigated the system under which honors are bestowed again declared that the specifications which have appeared concerning its findings are all wide of the mark. The commission promises a report in a few days. The impression is gaining that the views of the members of the commission are very divergent. Rents are going down in New York.
