Fashionable Clothier, 440 Main, Corner Sheriff St.
STORE OPEN TILL 8.

AMUSEMENTS.

TREAT FOR CHILDREN AT THE NICKEL.

This is children's day at the big, comfortable, entertaining Nickel, and it will do your heart good if you drop in and see the little ones enjoying themselves to the very limit this afternoon. None of the pictures will offend the most sensitive mind, nothing will be so sensational or morbid pictures—everything blithesome and funny. The Foundling is a pretty story of friendship from boyhood of a girl and boy. The King's Messenger, a chivalrous tale of the days of King Charles I., and Porter by Chance, something that will make everybody laugh, as well as depicting many interesting phases of life in the great city of Paris.

AT THE PRINCESS.

For this afternoon and tonight the management of the Princess Theatre have secured something especially good. The leading picture, George Washington at Valley Forge, one of the finest productions on the road, and parents should not allow their children to miss the opportunity of seeing this historic picture this afternoon. The bravery and heroism shown by the army during that trying winter is bound to call forth admiration from English as well as American.

AT THE UNIQUE.

Talk about good comedy, Nellie the Beautiful House Maid has all other comedies ever shown in this city outstripped by far. Three old sea captains keeping bachelor's hall advertise for a housekeeper and among the many replies to their advertisement is one signed by Miss Nellie White, who describes herself as being a brunette, twenty-three years of age, and an exceedingly good cook. They decide to engage her and write her to that effect. She wires them in return that she will arrive on the ten thirty train next morning. The three old bachelors rise very early and wear their way to the station in order to be on hand when the train arrives. Imagine their dismay and astonishment when they find that the train leaves only one passenger at that station, and that she is a negro woman weighing about three hundred pounds. She approaches them and tells them she is Miss Nellie White, whom they have engaged as housekeeper.

THE ORIGINAL AND ONLY GENUINE BEWARE OF IMITATIONS SOLD ON THE MERITS LIMENT OF MINARD'S

A Misalliance: A pathetic story of a poor peasant girl who married a nobleman. Shortly after the marriage the young husband is called to war and the wife is left with his mother, who was very much opposed to the marriage. A report reaches them that the nobleman has been killed. The cruel mother turns the young wife out of the house. Shortly after this the nobleman returns and restores his wife to her rightful position. Another new picture completes the picture part of this programme. William Lanyon in his new song "Yesterday," is equal if not superior to anything that has ever been heard in this city. Robert Butler is heard to good advantage in "Meet Me At the Old Turnstile." Special matinee today for ladies and children.

HAPPY HALF HOUR.

Despite the disagreeable weather large crowds were present yesterday at the Happy Half Hour to see the new programme. As promised, the pictures were all new to this city. The Tragic is one of the strongest dramatic pictures ever seen here. The scenes are laid in Brittany, France, and some exceptionally fine views of that beautiful country are shown. The Lover's Tribulations produced nothing but laughter, and lovers of comedy should see it. The Memory of His Mother is a splendid pathetic dramatic picture throughout which there runs a charming love story. A Countryman in Society is another comedy and caused a succession of laughs from start to finish. Harry LeRoy continues to receive generous applause for his singing of Two Blue Eyes, as does Fred Titus for his rendering of The Little Rustic Cottage by the Stream. The constantly increasing patronage that is being bestowed on this popular place of amusement is a strong endorsement of the excellence of the programme. The new elevated seats have made the biggest kind of a hit, and not a word of complaint regarding either the seats or the programme has been heard, on the contrary, nothing but praise is bestowed by patrons. Today's matinee starts at 1:30. Parents who contemplate sending their children can depend upon nothing objectionable ever being shown at the Happy Half Hour, and the best of care will be taken of the little ones.

Therefore our readers will not fail to have seen the collection of ILLUSTRATED POST-CARDS, at the price of 2 sh. 6d. Every one, who buys our collection has the chance of getting one of our beautiful prizes, in sending us the exact solution of our prize question. (Look at our advertisement.)

Why not keep up your home with a bright cheery appearance. It makes everybody happy. It makes you happy. Ramsey's paints are happy paints. They make things clean and new and give longer life to the house. Let F. A. Young show you the colors with suggestions how to do it.

Great bargain sale of Men's and Boys' Suits. No cotton and shoddy suits in this lot, they are all wool and the prices are this: \$13 suit for \$9; a \$10 suit for \$8; a \$8 suit for \$6. All well made by the Gieba, 7 and 9, Foot of King St.

Hon. L. P. Paris was formally sworn in as a commissioner of police for the Grand Trunk Pacific in this province on Thursday night by Chief Justice Barker. Mr. Paris left for Edmundston yesterday to investigate a complaint there.

The game in the St. John Baseball League between the Express and the Portland Y. M. C. A. scheduled for last evening, was postponed on account of the weather. A game will be played this afternoon between the Clippers and Marathons.

A band concert will be held at Rockwood Park this afternoon. All the other attractions will be in full swing.

When asked last night what the manufacturers connected with the Board of Trade thought about the Weather Act as it was passed, Secretary W. B. Anderson said that the bill probably had been discussed at next Tuesday's meeting of the board.

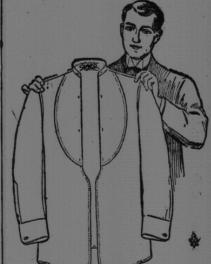

The following prizes were awarded at the art studio of F. C. Miles yesterday afternoon: First prize, Douglas M. Scroggie, Valley, N. B.—Charles H. Peters, No. 16; second prize, Tokay Grapes, Arthur McDonald, third prize, View on White Creek, Sussex, N. B.—F. B. Ellis. Mr. Miles presented all of his other pupils with handsome water colors.

After enjoying several days of fine, warm weather, during which evercasts came off and straw hats appeared, St. John was suddenly plunged in cold, damp March weather. But according to D. L. Hutchinson, director of the meteorological bureau, the present weather is not at all remarkable for this season of the year. In May, 1933, the thermometer registered as low as 23.8 degrees, and in May, 1934, it reached as low as 31.3 degrees. The lowest temperature so far this month is about 44 degrees.

The police received word last evening from Sheriff Williams of Queens County that John Shorey, the Italian charged with burglarizing Senator King's store at Chipman, had escaped from the jail at Gagetown during the previous night and that he was believed to be somewhere between that place and Welsford. The lock on the jail had been broken, and as Deputy Sheriff Jolyea was at the hotel it was easy for Shorey to escape. The escaped prisoner is about 35 years old, of medium height, wore a dark drab suit with a slouch hat and had large dark eyes, being of dark complexion.

WEST END PALACE.

Last evening another large and well pleased audience showed their approval of the clever sketch prepared to close the engagement of Harrison and Moffat. These articles in connection with Mr. Fairbanks have been delightful in the ever increasing crowds at the Palace. The matinee announced for this afternoon will be a weekly feature hereafter. Mr. Fairbanks has been retained for this first three days of the week only. On Wednesday evening beside the grand amateur concert, a special attraction will be announced, which will be as surprising as it is delightful. On Friday evening a gold watch will be given to the lucky ticket holder. All residents of the west end are asked to keep their eyes on the Palace announcements for next week.

Coat Shirt
Open all the way down the front. Slips on and off like a coat. The bosom fits better and doesn't get rumpled. Made in styles for business or dress wear. Fast colors in the newest patterns or plain white. Doesn't cost any more than the old uncomfortable kind.

SPORTING MATTERS

CHAFFEUR KILLED ON THE RACE TRACK

Italian Driver With Notable Record Meets Death at Philadelphia.

BALTIMORE, Md., May 29—Cedriuo, the noted Italian automobile driver, was instantly killed this afternoon at the Pannia race track.

E. Cedriuo was an Italian, and for a number of years before appearing in the United States, as an expert driver in automobile races was chauffeur to Queen Helena, of Italy. His first entry in this country in a competitive event was in the Eagle Rock Hill climb, in 1924. On August 22, 1930, he made a new world's track record of 53 minutes, 14 1/2 seconds for 50 miles, at Long Branch, N. J. He drove a car in the Vanderbilt Cup race in October the same year, but was forced to drop out after the second lap, his machine having broken down. He finished second in the Briarcliff trophy race last month.

Cedriuo was considered a fearless and skillful driver. Several times he met with accidents, the most notable of which, prior to the fatal one of today, was in the big four-cornered road race in Cuba, in 1926. He was driving a one hundred horsepower car and ran into a tree on the first lap at a double "S" curve at Atama. The car turned turtle and Cedriuo and his mechanic were thrown out. Cedriuo's leg was badly torn, he was out of the race and received serious contusions.

WORLD'S RECORD EQUALED.

PHILADELPHIA, May 29—One world's record was equaled and two intercollegiate records were broken in the preliminary trials for the annual intercollegiate championships which were held this afternoon on Franklin Field, University of Pennsylvania. With the pick of college athletes of the east participating, today's events were of a high order and tomorrow's finals in the big ribbon event college athletic year promises record performance. So keen was the competition for qualification in the finals that the crack men were pushed to keep the never men from leading them, and probably the best performance of the day was the equaling of the world's record of 13:4 seconds in the 120 yard hurdle race by A. B. Shaw, of Dartmouth. His feat of duplicating the figures made several years ago by the illustrious Kraazlin was received with much enthusiasm. In equalling these figures, he broke Kraazlin's intercollegiate record of 13:2 seconds.

CONSTITIATION

The nourishment you derive from food is absorbed into your system through the walls of the intestine, but when the bowels are not acting freely, naturally, poisons are generated from the unabsorbed, undigested mass and these poisons, instead of Nature's nourishment, are then taken into the blood and carried through every part of your body. Every organ is weakened; your breath becomes offensive, your eyes dull and heavy, and your skin is disfigured by pimples and blackheads. Mother Seigel's Syrup regulates your liver, gives perfect digestion of food and makes constipation impossible. "My little girl suffered much from constipation," says Mr. W. F. Steeves, Hillsboro, Albert Co., N.B. in a letter of Feb. 1st, 1928. "She was subject to headache and sleeplessness, her breath was offensive and her tongue coated. But Mother Seigel's Syrup completely cured her."

MOTHER SEIGEL'S SYRUP.

Price 50 cents per bottle. Sold everywhere. A. F. WHITE & CO., LTD., MONTREAL.

HARVARD VS. CORNELL

BOSTON, May 29—An unusually hard fought fight is anticipated on the Charles tomorrow when the Varsity eight of Harvard and Cornell meet for their annual contest over a short course. As the Cornell crew has been unfortunate recently in losing several of her best oarsmen, it was believed tonight that Harvard's chances for victory this year were unusually bright. Cornell has usually been successful over Harvard in previous contests, the last one of which was won at Ithaca.

The crews will pull over a course which is a trifle under one and seven-eighths miles, and will take advantage of a strong ebb tide by rowing down stream at 2 o'clock in the afternoon. Coach Wray of the Harvard crew, was quite confident tonight over the prospects of the Crimson.

HARVARD LACROSSE CHAMPIONS.

CAMBRIDGE, May 29—Harvard won the northern intercollegiate lacrosse championship today by defeating Hobart College, 2 to 1.

BASEBALL.

The baseball team of La Tour Society challenge A. C. Smith's "Haystackers" to a game of ball Saturday afternoon, C. P. R. field, Bay Shore.

OUTCASTS VS. BALLAST WHARF STARS.

A very interesting game of ball took place last evening on the Ballast Wharf between the Outcasts and Ballast Wharf Stars, resulting in a tie score.

Real Snaps for Men at the Harvey Suit Sale

A big clean up sale of all broken lines of men's suits started yesterday at J. N. Harvey's stores in the Opera House Block. Although the notice of this sale was short there was a goodly number who took advantage of the chance and bought a brand new 1933 suit at a great saving in price. For instance, some regular \$10 suits are being sold as low as \$8.95. The stores will be open tonight till 11 o'clock.

Roller skating is drawing large crowds each night at the popular Victoria rink, the attendance being much larger than last season. Indications point to another boom in this popular pastime. The rink will be in attendance this evening and again on Monday night. Tonight a full house is assured.

New summer shirt waist suits and white muslin dresses advertised by F. W. Daniel & Co., on page 5. Dainty lingerie dresses in white orandies or Swiss spot muslin, as well as a large variety of serviceable colored wash suits in ducks, linens, etc. There are also a sale balance of ladies' cover coats and tailored costumes. In the military department will be found a number of ladies' hats that are put on sale at one low price. See our window.

The Kind of Furniture You Should Buy!

Don't pay high prices for Furniture when you can get better Furniture for less money right here. We can make home easy and comfortable at very little expense. Come in and buy and save money.

Iron Beds BEAUTIFUL IRON BEDS in all sizes. Our \$15.00 BRASS AND WHITE IRON BED is a beauty as well as a snap.

Sole opens Saturday, May 26th at Box Office, at 10 a. m.

VICTORIA ROLLER RINK

Band Tonight

FINE SKATING

FOR HANDS AND ARMS.

For "staying exercises" for hands and arms let the hands hang lifeless from the wrists and shake them as though there were no life in them. Hold the elbows out to the level of the shoulders and shake the forearms; move them back and forth in a lifeless way. Stand erect with the arms at the sides and twist the trunk right and left, swinging the arms lifelessly. For a fourth movement raise the hands slowly above the head and then drop them suddenly as dead weight.

THE HAPPY HALF HOUR

A.K. Mundeck-Mgr.
Programme for today (all new)
The Lovers' Tribulations (Comedy)
The Memory of His Mother (Dramatic)
A Countryman in Society (Comedy)
The Two Guides (Dramatic)
Harry LeRoy sings the latest march song "Two Blue Eyes."
Prof Titus sings The Little Rustic Cottage by the Stream.
Open from 1:30 to 5 and 7 to 10:30 p.m.

SUDDEN DEATH OF
FREDERICTON MAN

FREDERICTON, N. B., May 28.—Walter McFarlane, head of the well-known firm of McFarlane, Thomson and Anderson, dropped dead at 8 o'clock this evening while attending a performance at the Arctic rink. Mr. McFarlane had no sooner taken his seat in the rink when he fell off his chair dead. A sudden attack of heart failure was the cause of death. Deceased was about today in his usual good health, and his sudden demise comes as a great shock to the citizens of Fredericton. Since the organization of the well-known firm in 1871, Mr. McFarlane always took a leading part in that great business, and was in reality president of the concern during his lifetime. He was born in the city of Fredericton, N. B., and was a cousin of the Presbyterian Church. His father, who predeceased him, was formerly Miss Bird of Keswick, a sister of James Bird of this city, and of the late Mrs. Chas. Medley, wife of Canon Medley of Sussex. The deceased, who was a large public figure, by the way, does not seem to have been in the city since the death of his father, who was taken to his home at Nashwaakla this evening. Senator Thompson is now the only remaining member of the firm, Mr. Anderson having died some years ago.

PARENTS DROWNED BUT
CHILDREN SAVE THEMSELVES

ORANGEVILLE, Ont., May 28.—William Wisdom, a farmer of Mono, and his wife were drowned yesterday afternoon, on Hockley Road. Mr. and Mrs. Wisdom with their three children were overtaken by a storm and took refuge under an old bridge over a dried up creek. This creek filled to overflowing without warning, and the bridge was swept away. All five were drawn into the vortex, and the father and mother were drowned. The eldest boy saved himself and his two younger children. Mrs. Wisdom's body was recovered. Over a hundred men are searching for the father and mother. The body of Wisdom. It is supposed that the sudden rush of water was caused by a cloud burst.

SCOTT AGT LOSES A COUNTY.

OTTAWA, May 28.—An order in council has been passed repealing the Scott Act in the county of Inverness, Nova Scotia, in conformity with the provisions of the Dominion Land Act. The act is declared to be no longer in force after the publication of the order in tomorrow's Canada Gazette.

HUMAN VISION.

With regard to human vision, persons with large pupils have a much greater range than persons with small eyes, as the larger the pupils, the greater the quantity of light which enters the eye.

GRANITE CUTTERS GO BACK.

QUINCY, Mass., May 29.—Over 300 granite cutters will go back to work today, as the result of the final settlement today, of the strike which has been on since May 14.

A SURGICAL OPERATION

If there is any one thing that is a human dream more than another it is a surgical operation.

NO VERDICT YET IN WHITMORE CASE

NEW YORK, May 29.—The jury in the case of Theodore E. Whitmore, charged with the killing of his wife, whose body was found in the Lamp Bank swamp in Harrison, N. J., was locked up shortly before midnight to-night, in Jersey City court house, after having deliberated on the evidence for nearly nine hours. Whitmore was taken back to the jail for the night.

TO STUDY POLAR REGIONS.

BRUSSELS, May 29.—Twelve countries, including the United States, were represented by delegates at the International Polar Congress, which met here today. Herbert L. Bridgman, president of the Department of Geography in the Brooklyn Institute of Arts and Sciences, represented the United States. The object of the congress is to create an international association for the study of the Polar regions.

PUBLIC WORKS FOR N. B.

OTTAWA, Ont., May 29.—The Public Works department have awarded the following contracts:—For breast-work extension at Edmundston, N. B., \$10,000, to Thos. P. Charlton, Ottawa; spur pier at Dieby, N. S., \$17,000, to J. & H. Bigelow, Cambridge, N. S.; extension to wharf at Campbellton, N. B., to M. Grover, Campbellton, \$35,500.

MORE TORNADES.

GUTHRIE, Okla., May 29.—A second series of heavy rains and windstorms struck Oklahoma tonight. Tornadoes are reported at Homotsey, Enid, Fredrick, Cashion and Duncan, cloudbursts from Wauketcha and Tulsa and a waterspout at Maxina. The damage by last night's storm is as great as the floods of last week. At Tulsa, lightning struck 27 oil tanks in the Glenpool, each held 1,600 barrels. Loss \$25,000.

SOME OF THE MYSTERIOUS
VARIATIONS OF THE SENSES

No two of us are alike; the whole world is different from each of us. According to experiments, which have been made recently, the length of the visible spectrum varies with the individual, or, to put it in other words, each person has a different faculty for seeing colors.

Various living creatures, such as cats and owls, are able to make use of rays of light, which are quite invisible to us. In the dark, or, in what is darkness to us, such creatures have very large pupils, which, by the way, does not always mean that they have very large eyes. In some of these humble creatures, the pupil is so large that brilliant light causes pain.

As persons differ in their appreciation of colors, so they differ in their capacity for perceiving other sensations. Some persons are able to hear a note of music, the pitch of which is also well known that sounds, which are entirely inaudible to us, are heard by other living creatures.

QUICK-EARED THRUSH.
For instance, the field mouse makes sounds which have an effect upon the human ear. Some creatures, the thrush, for example are able to hear many of these sounds, the thrush can hear the noise made by a worm moving underground.

Then the mole can make two sounds, which are above and below the highest and lowest heard by man. Its shriek is so shrill, and its purr is so soft, that the sounds are inaudible to the human ear. Other animals can hear these sounds, the vernal, for instance, and they can also be recorded by delicate scientific instruments.

SENSE OF TASTE.
Our sense of feeling, too, is strictly limited. A horse through its thick hide is capable of perceiving touches so delicate as to be quite beyond human beings. If the most tiny of mites alights on a horse's flank, the skin will begin to quiver at once, though a score of such mites will have no effect upon the human skin.

The sense of taste is the most curious of our senses, and many so-called tests are really smells. For instance, meats, waxes, fruits, and so on, are small, not tasted, the result being that a had cold greatly affects our appreciation of these articles.

The most delicate of our senses is that of smell, man being capable of smelling a three-hundred millionth part of a grain of musk, a quantity so exceedingly minute as to be out of the range of the most powerful microscope. Yet this sense is the farthest from that of many number creatures, and is even far behind that of numerous savage tribes. Some South American races are able to tell men of different tribes, simply by their odor.

SENT OF ANIMALS.

There are numerous cases on record where persons who have lost their sense of smell to such delicacy that they have been able to recognize objects and persons by scent alone.

SCOLDING THE DRUNKS.

According to law a man who gets drunk, makes a fool of himself and is arrested, becomes liable to a fine or imprisonment. There is nothing in the criminal code nor in the police act which says that he shall be compelled to suffer a lecture by any presiding magistrate, nor is there anything which gives magistrates power to inflict such punishment.

LUMBER TRADE WITH AFRICA.

In his latest report to the department of trade and commerce Mr. John A. Chesley, Canadian Trade Commissioner in South Africa, says that Canada is not getting the proper share of the lumber trade of that country. Last year the imports of manufactured wood into South Africa reached a total of 3,277,531 cubic feet valued at \$209,011, of which Canada sent 419,410 cubic feet worth \$21,600.

HEARST AND McCLELLAN.

In the majority contest in New York in 1906, William B. Hearst was the successful candidate. This was the opinion not only of Mr. Hearst's supporters but of those who favored George B. McClellan. It was, however, very much to be desired that Mr. Hearst should not become mayor of the city, and as his party had little opportunity to interfere, the McClellan crowd were able to announce almost whatever results they wished.

knew that Hearst had been elected, but they have during the past two or three years succeeded in fighting his claim. If they had been sure of their ground they would have abandoned it a long time ago.

SATURDAY SERMONETTE

FISHING.

We are all fishers, even though we never cast a fly or put bait on hook. To live we have to fish no matter what our trade, business or profession. In fact some of the most skillful fishermen in the world never caught a fish out of sea, lake river or stream.

\$12.00
TWO-PIECE SUITS
REDUCED TO
\$8.00.

It is seldom indeed that clothing of known reliability can be bought at any reduction at the beginning of the season.

Yet a combination of circumstances has made it possible for us to offer stylish two-piece suits at ONE-THIRD below the figures at which they were made to sell.

Light shades predominate. They are characteristic Summer suits—well fitting, well made, sure to stand hard service admirably.

YOUR size is here—and you can search St. John through and through without finding equal value in men's seasonable attire.

112 Suits now \$8; 115 Suits now \$10.

SUMMER VESTS. The particular shade and pattern you most admire is here awaiting your selection. On these we offer most exceptional values—our prices are unquestionably lower than those of other clothiers, \$1.00 to \$2.50 for Vest of surpassing quality. Others up to \$4.

All our suits on hangers in dust-proof cabinets. No wrinkles. In every sense "ready to wear."

Gilmour's, 68 King St.
ESTABLISHED 1841.

The advertisement is to be cut out and the address distinctly written, is to be sent to the Direction of OSTARA-VERLAG, Friedemann 15, (Germany).

CHIEF CLARK TELLS SAFETY BOARD HE NEEDS MORE COPS

Chief Clark of the police force wants the number of policemen increased to about fifty, so as to enable the men to work on eight hour shifts. He also wants a patrol wagon and an alarm system. The chief made his request of the Safety Board last evening. Nothing was done in connection with the matter.

Ald Baxter made the proposal to the board that a stenographer be employed in the police and city courts in the place of an assistant clerk. No action was taken.

The board recommended that permission be granted the I. C. R. to connect its system of fire alarm boxes with that of the city. Many applications for increased salaries were heard and referred to the council. The board also ordered a number of tenders to be called for.

George Peley was heard by the board in connection with a new type of automatic hose connection for hydrants. The board decided to obtain one for trial at a cost of \$9.50.

A delegation of blacksmiths presented a petition praying that they be allowed to leave wagons on the street outside their shops while horses were being shod. The members of the delegation claimed that if the police were going to report them for blocking the street in the manner mentioned they would have to go out of business.

Chief of Police Clark was heard by the board. He claimed there would be an annual saving of \$500 if a patrol wagon was obtained and an alarm system installed.

Tenders were then opened.

The tenders for painting the city buildings were James H. Fulton, \$130; John H. Tonge, \$175; Joseph Craig, \$135. The lowest tender was accepted.

Director Wisely was authorized to proceed with repairs to the cornice of the eastern part of the Market building.

He was also authorized to have the fire alarm in No. 3 engine house repaired and painted.

Four additional electric lights were ordered for the City Hall.

Tenders for the repairing of the windows and flooring of the Echelon building were ordered to be called.

Tenders were also ordered to be called for one thousand feet of fire hose, five miles of copper wire, changes in the pipe-heating of No. 5 engine house, a new boiler for No. 3 engine house, and a new boiler for the City Hall.

On Ald Baxter's motion a lease on certain changed conditions was ordered to be issued to Mrs. Rhea for the property on Union street, West End, held by her for some time.

A communication from the International Railway asked for permission to connect a system of fire alarm boxes, to be installed on their property, with the city's system.

Two main boxes were to be installed, one at the round-house and one at Union station, together with fifty call boxes.

Ald Baxter moved that the application be granted, the system to be installed according to the approval of the director and Chief Clerk.

Notification of the election of officers of the Salvage Corps was received and read.

A new helmet was ordered for Foreman Scott of No. 5 hose company.

A street light now at the eastern end of Protection street was ordered to be removed to the middle of the street.

A communication was received from the Militia Department asking for the payment of \$50, the annual rental of Fort Howe and adjoining properties. The communication was held for inquiry.

Full pay was ordered for Policeman Fox for time in April during which he was sick.

The janitor of the City Hall was granted pay for the month of May.

Wm. D. McIntyre, assistant police court clerk, applied for an increase of \$10 per month in salary.

Ald Baxter suggested that the employment of a stenographer for the police court would be more satisfactory than the present system of maintaining an assistant police court clerk. There would be no difference in the cost and the business of the court would be expedited.

Ald Kelley agreed with Ald Baxter.

TELLS OF CUTTING GREAT DIAMOND

Asscher Describes Preparation of Crown Jewel for King Edward.

Tests With Clay Model Show Best Way to Treat Gem, Then Imbedded in Cement.

NEW YORK, May 29.—Besides the details already given out by the men who are negotiating the work of cutting the Cullinan diamond, the gift of the Transvaal to King Edward VII., the historic stories of the Kohinoor, Queen Victoria's celebrated gem, pale their ineffectual fires. Quietly and ostentatiously Louis Asscher and Henry Duizend, of the firm of Joseph Asscher & Co., of London, Paris, and Amsterdam, came into New York yesterday for their first visit but they were found for their first visit but they were found jewelers perhaps the world has ever known.

In the first place the Cullinan diamond, after it has been cut, is to be placed among the crown jewels of the Royal Family of Great Britain, and the work of separating it into parts and removing possible defects was usually a delicate one. Joseph Asscher, head of the firm, undertook the task in person.

First he cut the diamond into two pieces in such a way that a defective spot in it was split exactly in the center. The part of the stone, now from one piece is being cut the large diamond, and the other part will be cut into smaller sizes, and even then one of the smaller stones when finished will be one of the largest diamonds in existence. The larger stone probably will be drop-shaped.

It is a delicate one. Joseph Asscher, head of the firm, undertook the work was done. First, he said, it was necessary to proceed slowly in so important an undertaking. A model of the diamond was prepared in clay and experiments were tried upon this model, in order to arrive at a definite plan of procedure.

EMBEDDED IN CEMENT.

When it has been determined how best to go on a special box, with sliding sides, was prepared, and the diamond was embedded in cement and placed on the top of a stick not unlike a large drumstick, and an incision about one-half of an inch in depth was made by another stick, in which was embedded a sharp-cutting diamond, edge upward. When the incision was made a specially-constructed knife blade was placed in the slit and struck with terrific force with a thick piece of steel, cleaving the stone in twain. The cleaving, which took place some time ago, was performed in the presence of several experts.

Now that the stone has been cleft, Mr. Asscher said, the process of polishing it is under way. Three men work in one room from seven o'clock in the morning until nine o'clock at night and never leave for an instant during that period of time. These men are in a specially arranged room and no one else is permitted to enter it without the consent of some member of the firm, who thereupon accompanies the visitor.

The polishing of the diamonds has required the manufacture of special instruments. A special "dop," as it is called, has been made, weighing about twenty pounds, and measuring about six inches across. The mill used is of cast iron and steel and is fifteen and one-half inches across, making 2,400 revolutions a minute. The mill is lubricated with a preparation consisting of crushed diamond powder and oil, and necessarily a large quantity is utilized. As the "dop" is so heavy, it is impossible to take the big diamond from the mill with the hand, as is usual, and therefore a special instrument has been made for foot power and raised the diamond from the mill.

FURTHER DIAMOND OF 600 CARATS.

That part of the stone which is being prepared for King Edward will be between five and six hundred carats in weight and of the purest color, said Mr. Asscher. Then he said the extraordinary precautions observed to guard such a precious possession.

"The diamond," he said, "is kept in the strong room of our new factory and is guarded day and night by four armed policemen. This strong room is on the ground floor of the factory and the walls of it are three-quarters of a yard thick and of strong iron. The door can be opened only by a combination of numbers, which is known to no one but three members of the firm. On the door is a lock which is strong, iron barred door is displayed to view, and this has to be unlocked before the door of the room can be opened. The door of the room there is a mahogany cupboard of ordinary appearance, with two handles, but nine locks behind there are, however, nine locks behind the sliding panel. The door of the safe is eight inches thick and it contains a diamond in one of the corners. The Cullinan diamond reposes at night.

"We observe still further precautions, however. The head of the firm, accompanied by no fewer than ten men, takes the diamond to its secure resting place for the night and returns it to the working room in the morning. There is a small patent recording clock in the room and it is the duty of the night watchman to make a certain mark on this clock every half hour, and he must live up to this duty to the second, despite the fact that the armed policemen are on patrol throughout the building every moment of the night."

Saturday half holiday is a great institution. Hundreds of people who would find more pleasure if they made their purchases from Walter H. Irving, the Jeweler, 55 King St., and saved money. He has an A1 stock. See it.

Stores open till 11 o'clock tonight. St. John, May 30, 1908.

MACEDONIAN GIRLS.

The Ontario FIRE INSURANCE CO.
LOWEST RATES.
NON-TARIFF.
ALFRED BURLEY, Gen. Agt.
Office—43 Prince St.
Phone 890.
AGENTS WANTED.

In Macedonia girls usually marry at the age of thirteen or fourteen, and a husband will pay \$15 to \$20 for a wife if she is a good reaper and expert at housework and spinning. When girls from a village marry townsmen, no money is paid, the bride instead bringing her trousseau with her. In exchange it were, for the privilege of becoming a "town lady." In the latter case the bride most likely will be required to do little or no work in the fields and that is the great ambition of most girls there.—London Globe.

WILCOX BROTHERS. Bargain List for Saturday and Monday

If you want any of the Lines Advertisd in this List Now is Your Chance to Get Them.

"Health" Mattresses

Guarantee Satisfaction

"Health" Mattresses are made for people who want comfortable, durable mattresses at low prices.

Next to the ticking are buoyant sheets of new cotton felt, assuring softness and restful sleep.

Between the cotton sheets, are layers of sanitary curled wood fibre laid in even sheets, so they cannot get lumpy.

"Health" Mattresses are made in three grades—all good—all low priced.

Last year over 30,000 homes bought "Health" Mattresses in preference to all others. That shows their quality.

Genuine "Health" Mattresses have a red cross label sewn into end band, like the one shown above, as well as this trade mark, the sign of absolute satisfaction in Mattresses, Springs and Pillows. Look for it whenever you buy, and buy nothing that does not bear it.

If your dealer cannot supply you, we will. Write to our Montreal Office, THE ALASKA FEATHER & DOWN CO. LIMITED, FACTORIES AT MONTREAL, TORONTO, WINNIPEG, WHOLESALE ONLY.

THE EFFECT OF CABLES ON THE BRITISH EMPIRE

Henniker Heaton Writes on a Subject Which is of Imperial Interest.

Cables at a penny a word. That is the ideal. "Something has already been done towards the reduction of cable rates; but to the monopolists one may still say, as Hamlet said to the players, 'Oh, reform it altogether!'"

Thus writes Mr. J. Henniker Heaton, M. P., in the Financial Review of Reviews for May, discussing cables and cable rings.

"When we consider what could be accomplished if the cables of the present systems could be changed, and the benefits that would accrue to all the nations of the world, I believe that only the pen and imagination of the poet could do justice to the subject. And I base my claim for reform in the breaking down of the present cable monopolies for these good and sufficient reasons:—

- 1. Cable rates are too high and prohibitory.
2. Commerce is hampered and hindered by present monopolies.
3. Cheaper cables would mean federation and international peace.
MONOPOLY OF CABLE COMPANIES
"Something must be done to put an end to the monopoly which is hatching on the trade and stifling the happiness of our population. The cables have whose policy is to keep up the rates. The combined English and American companies draw some £5,000,000 a year from the trade which they live a tribute that must be paid in advance before the trader has earned anything for himself. Of the blighting effect produced any merchant will tell us enough. Until recently it seemed probable that they would have to be bought out at a fabulous price. But the resources of science are not exhausted. Hard men bar the wires to all however pious the case, who cannot pay in gold for the use of them. And now, to the utter confusion of the hard men, a handsome young Italian comes out of his laboratory, and says, blandly, 'Why not do without wires?'"

QUESTION OF CHEAP CABLES. "But the subject of cheap cables has a highly political as well as financial aspect. The dominant thought of every British Statesman is:—'How is the Empire to be kept together?' His very words are that after a certain period the States in a great Confederation shows a tendency to separate under and exceptional strain, like the planks of a ship, or the troopers in a squadron. Is there no binding force that will effectually counteract this tendency? I answer yes, and its name is Electricity. By this marvellous agency islands and continents scattered all over the globe are consolidated into a single mass, the ocean dries up, 400,000,000 men of every color and creed march together under a single flag. 'Come the four quarters of the globe in arms, and we shall shock them!' But they must not attempt to cut the wings of this beneficent genius, to sell his free services to the highest bidder, or to dictate to him that he must serve exclusively the rich and ignore the poor.

Yet this again is just what we have done. All the poor men who have ever cabled between Australia and England might be put in a sentry box. For the poor colonist, or his poorer friend in the old country, electricity has not yet been discovered. If we can communicate with one another in the United Kingdom at a halfpenny a word, we can hear with equanimity that he has to pay 4s. a word, or even more. Now, it has been repeatedly shown that after paying all the costs of laying cables to the Colonies, we might telegraph to any part of the world as cheaply, and of course as rapidly, as to Ireland. Or, utilizing the land lines, which stretch to Australia with a few short gaps, and bringing those gaps with new cables, we might at once dispense with the existing cables, and telegraph to all points, I believe, at a uniform penny rate.

LET GOVERNMENTS BUY THEM. "If the existing cables were purchased by the governments of the world, the extraordinary large sums which they now pay for cable messages, would go towards the cost of the cables themselves. Moreover, if the cables were State, or national property, it is not impossible that the tariff could be made less than one penny a word, for no appreciable increase of expenditure accompanies the augmentation of the traffic over a wire which is almost clear profit. If the traffic increased say twelve times, under a penny a word, the revenue would be the same as at present, but the State would be satisfied with less than half the present revenues of the companies. The middle classes can no more afford to pay the existing high rates than the poorer classes."

BOY WOODED BY WOMAN OF 30 SEEKS DIVORCE. He Says Her Lovemaking Ruined His Life—Separated by Threat.

PITTSBURGH, May 29.—Married to Hattie Graham when she was 20 and he 16 years old, wearing knee trousers, Herbert H. Penn, now 21 years old, is suing for divorce.

The suit comes as a climax to a remarkable romance. Penn had been in Pittsburgh three years. He came from Frankfort, Ky., two years after his marriage, having been separated from his wife the day he was married to her upon threats to kill him, made by her father.

Both Hattie Graham, who is the daughter of William Graham, a mechanic, and Penn, who is the son of Joseph Penn, keeper of the reformatory at Frankfort, Ky., attended McKee's business college in that town, six years ago.

Penn says his years had given him little discretion and that the young woman's ardent lovemaking ruined his whole life. The laws of Kentucky provide for divorce when a pair have been separated five years, and this youth is now taking advantage of this.

DIFFERENT WALKS. "What would you do if you was one of these millionaires?" said Meandering Mike. "I'd get me a golf outfit and walk fur pleasure instid o' from necessity."

AUSTRALIA'S POPULATION

Australia has an area of nearly 3,000,000 square miles, but only 5,000,000 population, and emigrants from Europe do not select it for their new home, in spite of its temperate climate and fine soil.

ENCOURAGING EUROPEANS. Thus we read in the journal cited:—"During the last fifty years of the nineteenth century Australia, as well as New Zealand, kept on encouraging the immigration of Europeans. Placed at the antipodes to Europe, this immense island found itself in a disadvantageous position with regard to the movement of emigration. Europeans preferring to cross the Atlantic and to settle on a continent comparatively near, in order therefore to tempt foreigners to Australia, colonies, as well as New Zealand, offered a free passage to intending emigrants. They procured the cash for this expenditure from the sale of government land. In the meantime the population of Australia had increased rapidly and the several provinces of the Commonwealth thought it most advantageous to apply money derived from the sale of public lands to the payment of their current expenses."

FEARING COMPETITION. The tactics of the labor unions, however, oppose any encouragement to immigration, for fear of bringing in competition in the labor field. Thus we read:—"The Australian trade-unions, fearing such competitions as would reduce wages, are making every effort to prevent the government from subsidizing immigration, and to discourage Europeans from making the long voyage to their shores. They are supported in England by the Unionist and Labor parties, who fear to see a competition with the English industries arising at the antipodes. Australian obstructionists and English Unionists are doing all in their power to spread abroad in Europe the idea that Australia is the land of starvation wages. Unless Australia puts a stop to this course of egotistic and suicidal obstructionism, she will never be able to divert to her own advantage the great emigration movement which streams across the Atlantic."

WILL PROBABLY REVERT. "The dread of the 'yellow peril' and the banishing of Japanese and Chinese."

Another Modern Miracle

Paralysis Permanently Cured

The Sufferer Paralyzed from Waist to Feet—Encased in Plaster of Paris for Nine Months—Dr. Williams' Pink Pills Cured After Four Doctors Had Failed—The Cure Vouched for by a Well Known Clergyman

Paralysis, no matter how slight, is a terrible affliction, but to be paralyzed from waist to the feet, to be helpless and crippled, is a condition as wretched as man could possibly bear.

Such was the state of Mr. Allan J. McDonald, of Rice Point, P. E. I. For over a year he was a helpless invalid. He was paralyzed from his waist to his feet and for nine months lay in bed encased in a plaster of Paris cast. Four of the best doctors in Prince Edward Island were unable to help him, and he seemed doomed to a life of misery and despair. But hope came to him when he read of what Dr. Williams' Pink Pills had done for other sufferers from paralysis. He procured a supply of the Pills and began taking them. Gradually they broke the chains of disease that bound him, and finally he was able to get up and walk with the aid of a cane and inside of nine months after a great deal of hard work to do. "The day while about my work I injured my back, but at the time I paid little attention to the matter, and continued my work. As time went on, though, the pain became more severe and I soon found myself unable to do any more work. As time went on, though, the pain became more severe and I soon found myself unable to do any more work. As time went on, though, the pain became more severe and I soon found myself unable to do any more work."

They made a remarkable change in me. I was able to get out of bed and crawl along the floor on my hands and knees. Soon I could walk with the aid of a cane and inside of nine months after a great deal of hard work to do. "The day while about my work I injured my back, but at the time I paid little attention to the matter, and continued my work. As time went on, though, the pain became more severe and I soon found myself unable to do any more work. As time went on, though, the pain became more severe and I soon found myself unable to do any more work."

In corroboration of what Mr. McDonald says, the Rev. D. MacLean of Charlottetown, P. E. I., writes: "I visited Mr. McDonald many times during his illness, and saw him gradually improve and at last get up and walk with the aid of a cane. I know of two other cases of paralysis cured by them. Two young girls who had been crippled and whom I advised to try the Pills."

If you are sick and the treatment you are now taking does not help you, give Dr. Williams' Pink Pills a fair trial. They have cured thousands after doctors and other medical treatment had hopelessly failed. These Pills actually make new, rich, red blood, feed the starved nerves, and bring health and strength to every part of the body. This is why Dr. Williams' Pink Pills cure such apparently hopeless cases as Mr. McDonald's, and it is why they have cured thousands and thousands of sick, decrepit, aged people in every part of the world. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

UNTRIDDEN SPACES IN BRITAIN

At first sight it may seem incredible that there can still exist in the twentieth century a single square yard of the British Islands where human beings have never set foot. Yet the fact remains that there are many such places, though, admittedly, they are small in area and, as a rule, in out-of-the-way parts of the country.

Oddly enough, however, one of the most notorious of these untridden spaces is actually to be found in the midst of one of the greatest cities—namely, Edinburgh. The extraordinary story is told in a single square yard of the British Islands where human beings have never set foot. Yet the fact remains that there are many such places, though, admittedly, they are small in area and, as a rule, in out-of-the-way parts of the country.

DEFY CLIMBER. In Cumberland there are, however, many far more striking examples of rocks which defy the climber, even when he is aided by ropes. Indeed, many experts consider certain of the Cumberland crags to be even more dangerous than the highest Alps of Switzerland. George D. Abraham, the famous rock climber, has stated that the man can negotiate the most difficult English climbs, under all conditions of weather could also conquer the Matterhorn.

The Eagle's Nest Acre, on the Great Gable, Cumberland, is pronounced by many to be the most hazardous climb in the world, although it is only four hundred feet high. One hundred and fifty feet of this is almost vertical and practically hopeless, and about thirty feet above the starting point there is an overhanging "nose" of rock, which has to be circumnavigated with infinite pains on a rope. No foot, obviously, has ever ridden that "nose," and even going round its side the venturesome explorer's feet are temporarily dangling in mid-air, while he hangs, momentarily, to it by his eyelashes. To right and left of him are quite wide expanses of rock which have never been traversed and probably never will be.

THAT GAS BILL. "Say," exclaimed the irate gas dweller as he rushed into the gas office, "do you mean to say this bill represents the amount of gas we burned last month?" "Not necessarily," calmly replied the man behind the desk. "It merely represents the amount you have to pay for."

HIS INFERENCE. "Crags—Did you tell Simpers you thought I was a man without any balance?" "Butts—Well, I naturally inferred that if you had a balance you would draw on it for the amount you owe me."

TERRIBLE REVENGE. British Alps have claimed their victims, too, and not always inexperienced climbers. A certain well-known Swiss mountaineer once travelled specially to Skye, apparently to prove to the Highlanders that their hill, Sgur-ran-Ghlean, would be a mere stroll for one who had ascended the Matterhorn. The mountain took a terrible revenge on the heaster, and his mangled body was found at the foot of one of its grey precipices. Another Scottish peak, Schiehallion, has more than once witnessed accidents as serious as any which have occurred among the Alps.

No artificial "flavor" is needed to make KERN-KINKS 5c the most delicious of all the corn foods. It contains all the nutriment in the choicest white, hulled corn, malted, flaked and toasted, making it crisp, tasty and easily digested. The more you eat of it the more you want. OPPOSITION WON'T VOTE MONEY FOR MILITIA; NO CAMPS THIS YEAR.

Lack of Funds Compels Government to Cancel Annual Training Plans

Proposed Mobilization of Troops at Quebec Tercentenary Also Prevented by Conservative Obstruction—Laurier Orders Morning Sessions With No Midweek Adjournment

OTTAWA, May 29.—To the embarrassment caused to the thousands of civil servants throughout Canada by the obstinate refusal of the opposition to pass supplies even on the non-controversial items for overdue salaries, there has been added today another development which will appeal directly to some 25,000 or 30,000 militiamen throughout the whole of Eastern Canada.

As a result of the present deadlock in parliament the militia department finds itself without funds to make the necessary arrangements for the annual training camps of the militia. Being unable to meet expenditures now necessary to continue the arrangements for the camps, it is found necessary to issue orders cancelling indefinitely the orders already sent out for the holding of various training camps next month as usual. Unless the opposition recedes from its present position, which does not seem at present probable, the annual training of all the militia units of the province will have to be foregone. This action has been determined on with reluctance by the militia department, and will be regretted with great disappointment by many thousands of men throughout the country. But, thanks to the policy of the opposition, no other course is open.

The camps for the four western provinces will, however, be held as usual, according to present arrangements, as the number of men to be trained there is comparatively small and the small amount of money now at the disposal of the department will be available for that purpose.

The above result of the opposition tactics is only one example of what must soon happen in respect to the embarrassment of the whole public service if the refusal to grant supplies is much longer continued.

Militia orders issued today announced that the department has authorized the granting of a bonus of \$20 to warrant and non-commissioned officers of the active militia who attend a course of instruction in the Ross rifle at Quebec and secure a certificate from the inspector of small arms.

Morning Sessions Now

Starting with Tuesday next there will be morning sessions of the Commons and on Wednesday adjournment at six o'clock. Morning sessions will be from eleven to one o'clock, with an adjournment for lunch until three p.m. Government business from now until the close of the session will have precedence over all other business, members being allowed to ask questions on Mondays, Wednesdays and Thursdays.

Sir Wilfrid Laurier has given notice of motion to the above effect. If the opposition will not desist from their present determined policy of continuous obstruction they will at least be given plenty of time in which to exhaust their present food of useless talk.

Parliament has now been in session for over six months, and the government is resolved to use every means of getting through as speedily as possible the balance of the session's agenda.

It's Up to the Opposition

Of course if the obstructionists in the Commons can be induced by any weight of argument or force of public opinion to discontinue their present determination to force a minority rule on the country and allow supplies to go through, the department may be able to make arrangements for holding the camps later on.

Another result of the delay in passing the estimates will be the preventing of any mobilization of troops at Quebec.

A MAN COMMITS SUICIDE AT BAKER BROOK

EDMUNDSTON, N. B., May 29.—A man named Armstrong, employed on the G. T. P. construction work at Baker Brook, N. B., committed suicide today. It is not known what his reasons for doing so were.

MORE FRENCH FOR CANADA

Canada is almost as big as Europe, and yet its population is not equal to twice that of Paris, declares Louis Armand in the Revue des Deux Mondes (Paris). Accordingly, he adds, the most serious problem in the future of British North America is that of immigration. How is this vast territory to be exploited, populated, and made to give out its abundant wealth? Vancouver has repopulated Chinese and Japanese immigrants. Hitherto Canada has been occupied by two races, sections of two nations, who have lived in accord, but without fusion. According to the last official census the Dominion counts 5,371,215 inhabitants, of whom 1,432,315 are French-Canadians, a little more than 20 per cent. of the total.

To quote this writer: "What the French race does not have any numerical preponderance in Canada, and while the financial advantages of capital are with the English, nevertheless it has valiantly maintained its position, thanks to its prestige as the earliest European occupant of the soil. The French provinces, moreover, possess the European portal of Canada in the maritime cities of the St. Lawrence, and have also supported a kind of pre-eminence in these eastern provinces through their thorough French characteristics of industry, sociability, vivacity and cheerfulness. Much also is due to the serene materialism with which Sir Wilfrid Laurier, Frenchman as he is, has stood at the head of a government which controls a duplex people."

DISAPPOINTING EMIGRATION.

Yet French emigration to Canada is quite disappointing to the eyes of a French-Canadian. Why should not Frenchmen come in and join their compatriots in the heritage of a splendid and fertile country? Statistics show that they are not doing so. The official records tell us, says Mr. Armand, that for the ten years between 1924 and 1933 Canada has received from England 31,000 immigrants and from America (United States) 220,000—in round numbers 250,000 Anglo-Saxons have settled in Canada. Only 14,000 French-speaking immigrants have come from France proper and Belgium. This writer, who sees that 20 per cent of French inhabitants in Canada is likely to be reduced to 10 per cent, declares that "the peil" of French extraction in British America is "far from being imaginary."

AN EASY ASSIMILATION.

The writer proceeds to dwell upon the great natural advantages of the old French provinces of Canada and pleads for the immigration of native Frenchmen into their ancient colony. The waters of the St. Lawrence and the commercial advantages of this western world are great, compared with the narrow territory and forests of European France. Why should not Old France claim her right to the New France, and thus solve the problem of Canadian emigration?

To quote his words: "I have been thinking myself all over the world as alien, the living personality of French emigrants to Canada would be reduced to the status of a mere Frenchman in the American continent. They would find there a new world to conquer, but in the same way of looking at things, the habits of the French or Latin world. Their addition to Canada would not only re-

store the equilibrium in favor of French interests there, but would serve to the preservation of the French language and of French ideas in America. If Canada and France were so to utilize the present facilities of common transportation across the Atlantic as to promote the emigration of the laboring classes the result would be the landing in Quebec every year of 10,000 energetic and worthy emigrants speaking the French language, whether these were French, Swiss or Belgian."

CROWD OUT UNDESIRABLES.

This gradual increase of the French population in Canada would by no means interfere with the predominance of England in the Dominion which she has conquered. It would merely crowd out undesirable elements and prove a buttress against the forces that would change Canada into an Asiatic dependency. To quote further: "If French emigration to Canada were thus promoted, by a prudential cooperation of the western and eastern coasts of the Atlantic, France and Canada, as mother and daughter, would be merely exchanging reciprocal favors, France by extending her influence in favor of a child threatened with effacement, Canada by receiving into her borders choice sons of France, who would find themselves in the only foreign country in the world safe where they could naturally ally themselves with the natives. France would thereby enhance her influence in the world. And the great power, whose flag floats at present over the high citadels of Quebec, would have no reason to be envious; her future on the American continent would still be assured to her."

SOUND HEALTH FOR ALL CHILDREN

Disease attacks the little ones through the digestive organs. Baby's Own Tablets are the best thing in the world for all stomach and bowels troubles of children. They act quickly and are absolutely safe. If necessary the Tablets can be crushed to a powder or dissolved in water. Mrs. Wm. F. Gay, St. Leonards, P. E. I., says: "I know of nothing to equal Baby's Own Tablets. I cannot speak too highly of this medicine and do not feel safe without a box of Tablets in the house." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

OFFICIAL REPORT ON THE BERNSTEIN AFFAIR PRESENTED

Declares Belief that Usefulness of Interpreter is Greatly Diminished

OTTAWA, May 29.—Hon. Frank Oliver on Wednesday tabled in the House a report made by Mr. Blake Robertson, Assistant Superintendent of Immigration who investigated the complaints made against Joseph Bernstein, immigration interpreter at that point. The charges made against Bernstein were (1) that he had been exchanging tickets secured through his official connection with the department, and (2) money from immigrants.

The report, which is voluminous, shows that there were several charges against Bernstein, all of which were made by Halifax people. In his summary report made by Mr. Blake Robertson, Assistant Superintendent of Immigration, Mr. Robertson remarks that while without doubt certain parties in Halifax show a desire to have Bernstein found guilty, and show it to an extent as to lead color to the assertion that there is an organized effort on foot to bring about his dismissal, still his connection with certain financial transactions is not satisfactorily explained from a departmental standpoint. Without expressing an opinion as to the innocence or guilt of the accused, Mr. Robertson remarks that it is absolutely necessary that interpretors and all officials should be above suspicion, and possess the entire confidence of the public and railway officials, who jointly with the immigration staff are responsible for the handling of the newcomers in Canada. "I do not consider," writes Mr. Robertson, that Mr. Bernstein today stands in that position, and consequently concludes that his usefulness to the Immigration Department is greatly diminished."

Had Palpitation of the Heart EVER SINCE SHE WAS NINE YEARS OLD.

MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE.

If you find your health falling, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or flutterings on the slightest excitement or exertion, pain in the region of the heart, face pale, dizzy and faint spells, those ailments which, if not corrected at once, will surely end in utter prostration and hopeless invalidism.

From a depth many have been raised by this remarkable remedy, as its power is beyond all question most marvellous; but, taking these pills now will turn you from the perilous path of sickness and put you on the highway to health.

Miss Mary Wilson, Toronto, Ont., writes: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. Ever since I was nine years of age I have been afflicted with palpitation of the heart, pain in my side and nervousness. As I grew older it kept increasing. After having tried numerous doctors' medicines, but to no avail, I was induced to try your pills, and after using several boxes I began to improve, so kept on taking them for some time until now I can truthfully say I am in perfect health."

Milburn's Heart and Nerve Pills are 50 cts. per box or three for \$1.25, at all dealers. The T. Milburn Co., Limited, Toronto, Ont.

SUDDEN DEATH LAST NIGHT OF FELIX HEBERT OF EDMUNDSTON, N. B.

EDMUNDSTON, N. B., May 29.—Felix Hebert, proprietor of the Hotel Hebert and died here tonight at ten o'clock, aged sixty-two years. His death came as a great shock to his friends. The funeral will be held on Tuesday. Mr. Hebert was well known all over the province. He leaves a wife and seven children. He later being Mrs. Pius Michaud, wife of the M. P. for Victoria-Madawaska. Mrs. G. Fred Daxton, Amie at home and a married daughter in St. John George, employed in the Royal Bank at Edmundston, and Fred and Ernest at home.

Mr. and Mrs. Michaud had just arrived home from Ottawa, having been in Edmundston only three hours when the death of Mrs. Michaud's father occurred.

HE WENT.

She (after 12 o'clock)—And would you really put yourself out for my sake? He—Indeed I would! She—Then do it, please. I'm awfully sleepy.—London Telegraph.

GERMANY SUPPORTS SHIPPING

"The bill authorizing the German Government to grant an additional subsidy of \$25,000 to the North German Lloyd Company, having been sanctioned by the Federal Council, and passed by the Budget Committee, is now under consideration by the Reichstag. In spite of a certain amount of opposition, it is probable that the measure will be passed. In any case, its introduction affords a timely reminder of the steady encouragement given by the Imperial Government to the German Mercantile Marine." So writes the Standard, London.

\$275,000 FOR THE N. G. L.

"The North German Lloyd Company already enjoys a subsidy of \$275,000, and the proposed increase is intended to enable the branch lines from Australia and Japan, while a sum of \$15,000, diverted from the certain German New Guinea and Singapore. Of late years the volume of German trade with China, Japan and Australia has greatly enlarged, and the purpose of the new scheme is to extend and to establish the branch lines from the main centres of Eastern commerce, until, as Herr Wermuth explained to the Reichstag, they become self-supporting. Germany is, of course, only purifying by legitimate means what has become her national policy. She has every right to challenge our maritime supremacy, but it will be entirely our own fault if we allow her to take our carrying trade."

BY PRIVATE ENTERPRISE

"Great Britain carries half the trade of the world, and there are British ships enough to carry more. Like other advantages this immense transport business, was largely won in the absence of competitors, by private enterprise. Changed conditions have

created a situation which is behooves every Englishman clearly to appreciate. These islands depend for their supplies of food and raw material upon the British Mercantile Marine, which also transports the whole overseas trade—or "wealth in circulation"—of the Empire, as well as a great deal of foreign trade. The Mercantile Marine, in fact, is second in importance only to the navy.

"The needs of warfare have taught the nation that it is essential to provide the finest fleet in the world. But it has not yet learned from the necessities of daily existence that it is almost equally essential to maintain, at all costs, the supremacy of the merchant service. No doubt the British shipowner is prepared to meet any rivalry on equal terms. But equal terms are precisely what he cannot obtain. In spite of Mr. Lloyd-George's Act he is still hampered in every direction by Government restrictions, from which the foreigner is free, nor does he receive any compensatory advantages. We are far from asserting that the regulations enforced for the protection of the man before the mast are not required; but it is to be considered that the Mercantile Marine is a national service, and that it is necessary to secure the most complete protection.

A PLEA FOR SHIPPING BOUNTIES.

"Unless, therefore, the conditions are equalized by international agreement, the shipowner is surely entitled to some form of compensatory relief. How is it possible that he should continue to hold his own against foreign lines which are not only exempt from many expensive regulations, but are also exempt from the payment of duties? And yet, every encroachment of the foreigner upon the British transport service is an injury to the greatest national industry."

MONCTON WOMAN AFRAID HUSBAND IS MARRIED AGAIN

MONCTON, N. B., May 29.—R. A. Irving of Buctouche, Indian commissioner for the eastern portion of New Brunswick, was in the city today and with reference to the case of the Indian and squaw Oliver Guinness and Mary Noel, who died on Monday from drinking bay rum, said that in view of the verdict rendered by the coroner's jury, he had decided to forward the finding and evidence to the Indian department at Ottawa. The alleged loose sale of poison and substitution of treacherous substitutes in certain Moncton drug stores was criticised in the verdict.

Mrs. Henry Chase of this city has asked the police to investigate a report that her husband, who went West three years ago, and from whom she has not heard for two years, is again married at Lethbridge, Alta. An effort is being made to locate Chase.

LOCAL NEWS

Try on a few of our suits and you will notice a fit that looks well and feels comfortable. C. B. Pidgeon.

The rummage sale at the Seaman's Mission on Prince Wm. Street, will be resumed this evening from 7 to 9 o'clock.

The left half of No. 3 Battery, 3rd Regt. C. A., will parade at the lower shed Monday evening, 1st inst., at eight o'clock for gun drill.

Rev. E. W. Kelly, the returned missionary from Burmah, will preach at the morning and evening services in the Ludlow street United Baptist church, West End, tomorrow, Sunday.

Special revival meeting will be conducted by Major and Mrs. Phillips Provincial Secretary of the Army work in the Maritime Provinces, at the Salvation Army Hall, 101-103, on Sunday. Good meetings are looked forward to.

Two of the oldest former members of the legislature, Hon. C. N. Skinner and Hon. George F. Hill, occupied seats on the floor of the House last evening during the proceedings.—Gleaner.

In a letter to a friend in this city, one of the engineering staff on the Montreal residency of the Transcontinental Railway, says that he expects that the ten miles of railroad near Montreal will be all built this year. Good progress is also reported from other sections of the province.

So far there has been only one hundred and seventeen beer licenses issued this year, as against one hundred and forty-one last year. As the last day of the month comes tomorrow, on Sunday, the commissioners have decided to accept application up to four o'clock on Monday afternoon.

Mr. and Mrs. A. E. MacLeod announce the engagement of their daughter, Edith Avora, to Richard Eugene Morris, M. A., Professor of Mathematics at the Cook Academy, Montreal, P. M. N. Y. For the past two years Miss MacLeod has been teacher of English literature in this academy, which is one of the leading private schools in New York State. The marriage will take place in August.—Parasore Leader.

PREPARATIONS FOR I.O.O.F. GRAND LODGE

Charlottetown Lodges Now Making Arrangements.

Decoration Day Will be a Feature of the Meeting—New Ritual to be Exemplified.

Charlottetown has the honor of being the meeting place this year of the Grand Lodge of Oddfellows, for the Maritime Provinces, and it is six years ago since a similar Maritime fraternal union took place in that city.

There are about 400 Oddfellows in the Province of P. E. I., divided into three lodges, St. Lawrence and Wilguy in Charlottetown and Prince Edward in Summerside. There are also two Robb's Lodges, one in each place. The Grand Lodge was invited there on behalf of St. Lawrence Lodge by Bro. F. Wolcott, grand representative of the Grand Lodge of the Maritime Provinces of Canada, and the Sovereign Grand Lodge, meeting this year in Denver, next September.

Wilguy Lodge has decided to leave all arrangements for the reception of the Grand Lodge delegates to St. Lawrence and the latter has accepted the undertaking.

Some time ago the following committees were appointed: J. F. Wheat, chairman, H. L. Belluno, secretary, Fred Houle, John J. McKinnon, David McKinnon, John Martin, Robert Ratray, Edmund Bell, John Cornfoot and W. C. Whitlock, all Past Grand.

The plans of the committee are not all matured, but some of the main features are now developed. The total number of visitors, including delegates, relatives and friends will probably reach six hundred and the question of meeting the fraternal invasion has been duly arranged. An excursion on the barefoot harbor and its attendant rivers, famed for their scenery, is suggested, but the difficulty of securing a suitable steamer made the committee pause. Then a garden party at the park was spoken of, but it was found that the "Wheat" committee selected, the tide would be too far out to make an outing "by the river's brim" enjoyable. It has now been practically decided to devote the afternoon of Wednesday the second day of the meeting to the Decoration Day celebration, which is usually held in September. The members will parade to the cemeteries and decorate the graves of their departed brethren. Many members of the Grand Lodge have never witnessed the beautiful and impressive ceremony.

The first day will be devoted to the meeting of the Grand Encampment. On Wednesday forenoon the Grand Lodge will get down to business, presenting the annual reports. In the afternoon the committee will have an opportunity to get through their work while the other members are holding the Decoration services. There will be regular sessions every night.

On Thursday night the proceedings will close with the exemplification for the first time in the Maritime Provinces, of the new ritual which is to be introduced on June 30th. Two degrees will be conferred, and the team of twenty-six are now getting into training. The Rebekah Assembly will also meet at the same time as the Grand Lodge, and also exemplify degree work.

Two thousand booklets of about forty pages containing the programme of the meetings and articles descriptive of Prince Edward Island, illustrated with views of some of the "choicest beauty spots," public buildings, etc. are now being prepared and will be ready for distribution among the lodges about the first of July.

The design of the new badge has been accepted. It is certainly strikingly effective as emblematic of our usual condition, especially in winter. It is known as the "misty hills" and shows the island as united with the other provinces by means of a tunnel.

The announcement of the coming of the St. John Canton has created considerable interest among the brethren, as this body was not there at the meeting of 1892.

The meeting is to take place in one of the largest halls in the city, but negotiations have not yet been concluded.

This province has had but four Oddfellows among the Grand Lodge officers: P. Wheat, Benjamin Bremner, Theophilus Chappells and...

A BUNCH OF BAD BOYS IN POLICE COURT TODAY

They Hang Around the Nickel Because, the Police Will Not Let Them Loaf on Street Corners.

In the police court this morning there were four drunks. Three were fined \$4 while a fourth was fined \$8 for being drunk on Sheffield street. One of the quartette had a certificate for him to join the Prediction Infirmary School, and said he had not a cent in the world. The magistrate told him he could practice heel and toe with Capt. Collins on the chain main street.

Albert Ritchie, Arthur Buckley, Edgar Friers, Alphonse Moore and Willie Stone, were charged with being disorderly, begging money and squirting water from a rubber ball on ladies going into the Nickel.

Young Ritchie informed the court that he was around the Nickel because the police would not allow him to stand about the corners in the North End.

The magistrate spoke for some length on the practice made by a lot of boys who beg money in front of the theatres, and are generally an annoyance.

Sgt. Kilpatrick informed the court that a few named Goldberg complained of Ritchie and two others beating his wife with a whip on Acadia street yesterday.

The magistrate said that the boy's parents should be in court, and they are liable to be fined for the actions of their children.

The five boys were placed in separate cells, and remanded for a time.

James Petrie, a youth, was charged with destroying a fence, the property of the Every Day Club.

The magistrate said that he would give fair warning that the first person who is convicted of malicious injury to these athletic grounds, will be sent to the penitentiary for a term of two years. Complaints come in from the Victoria and Shamrock grounds and the damage done in all cases is malicious.

Petrie was allowed to go with a warning.

THIS WEEK'S DEATHS.

There were twelve deaths in the city during the past week, due to the following causes:—

Senile Decay 3; Inanition 1; Pneumonia 1; Convulsions 1; Endocarditis 1; Tuberculosis 1; Paralysis 1; Premature Birth 1; Heart Failure 1; Acute Gastro Enteritis 1.

FOR THE HOLIDAY.

For the benefit of those who wish to enjoy the half holiday today there are among the attractions, a base ball game between the Marathons, last season's champions, and the Clippers. The game commences at 2 o'clock and the Clippers expect to give the champions a hard game.

At Rockwood Park the attractions will be in full swing, and in addition there will be a band concert.

At the Opera House the matinee bill will be "Hello Bill" by George Hall and his company of merry makers.

Then there are the afternoon performances in the moving picture houses.

Buy your umbrellas at Duval's Umbrella Shop, where they make, recover and repair them. 17 Waterloo St.

IS LAGER INTOXICATING? F'TON WANTS TO KNOW

A test case as to whether the lager beer brewed in St. John and sold here in beer shops, candy stores and corner groceries is intoxicating or not under the provisions of the Scott Act is in progress in the police court. The proprietor of a pool room is charged with violation of the Scott Act in the sale of lager beer, and at present there is an adjournment for the purpose of getting certificates from an analyst as to the percentage of alcohol in the beer.—Gleaner.

PERSONAL

Mrs. Geo. H. Kaye will receive on Wednesday at 7:30 Thursday afternoon and Wednesday evening, June 3rd and 4th, at 7 o'clock Row.

Miss Agnes Byron, Norton, gave a very enjoyable dance at her residence Monday evening in honor of Miss Treva McKenna, Miss Margaret Mullin and Miss Sharkey, of St. John, who were her guests over the holiday.
