

Mr. Borden Again Scores Government

Conservative Leader Was in Great Form at Sherbrooke Picnic Yesterday. Large Crowds Heard Telling Contrast of Liberal Promise and Performance.

Special to The Standard. Sherbrooke, N. S., Aug. 12.—The political picnic here today was a great success, crowds gathering from all parts of the municipality.

Rousing Welcome for Candidates. G. T. McNutt, one of the provincial Conservative candidates was the next speaker and he was given a cordial greeting.

Mr. Borden opened his address by quoting Sir Wilfrid Laurier's promise when in opposition, regarding the reduction of expenditure and taxation as follows:

A Promise and Its Performance. "If we get into power we will follow the example of Mr. McKenzie, and I say that although we may not be able to bring the expenditure to what it was under him we can reduce the amount to, say, three million dollars per year."

From 1900 to 1909, both inclusive, the total amount of taxes collected was \$524,391,293, and from 1897 to 1899, both inclusive, the total amount of taxes collected was \$235,294,542.

Duties Really Heavier. "But it is claimed by Liberal speakers and by the Liberal organs that the customs duties have been reduced to amounts to about one per cent but under the actual existing conditions the customs duties upon a pound of yarn are much heavier than they were in 1895."

Want Value for Money Spent. The Conservative party does not object to Liberal expenditures, but it stands for the principle that public money should be expended only in the public interest, and that for every dollar paid the country should receive a dollar value.

Spending and Profiteering. The excess revenue of \$27,650,000 would have paid off the entire public debt of Canada in 1896 (\$258,000,000) and have left \$100,000,000 of excess revenue to meet the necessities of the public service during the next year.

CAN'T BUY A STORY FROM DR. CRIPPEN

All Offers Made For Life Stories From Dr. Crippen And Ethel LeNeve Have Been Refused

Special to The Standard. Quebec, Aug. 12.—Whether Dr. Crippen or Miss LeNeve will return to England by the steamers Royal Edward or the Lake Manitoba is not yet decided upon and probably will not be known until the arrival of Sergeant Detective Mitchell, who is expected here on Sunday morning on board the Lake Manitoba.

Both steamers are scheduled to leave Quebec on Thursday next, but a report is in circulation that Inspector Dew and Detective Mitchell may convey their prisoners to Rimouski and take passage at that place.

No photograph of the prisoners has been taken, although one enterprise visiting photographer succeeded in photographing a man named Gullot, and insisted that it was Crippen's photograph. The latter, upon Jailer Morin's advice, never stands or sits at the side so as not to be photographed by the kodak thief who is always to be seen prominently in front of the jail.

Inspector Dew had an interview with the deputy attorney general yesterday, but what transpired is not known. It is generally believed that the object of the interview was to decide on the return date of the prisoners.

DR. McALLISTER MADE SCENE ON MONCTON TRACK

Kings County M. P. Assaulted Alderman McAnn And Was Arrested—Case Will Come Up This Morning.

Moncton, N. B., Aug. 12.—Dr. D. H. McAllister, M. P. for Kings-Albert, distinguished himself at the Moncton Speedway this afternoon, giving an exhibition that was not on the regular card.

While the races were on he appeared near the judge's stand and, so far as can be learned, without any provocation or warning, struck Alderman James A. McAnn a blow in the face. Alderman McAnn stepped back and informed the belligerent M. P. that he was liable to arrest for such conduct.

McAllister said "to hell with you and your police," and made another rush for McAnn. The alderman then went to the police office and laid information for assault against McAllister and in due course his arrest was effected by Chief of Police Rideout.

McAllister gave recognition for his appearance in the police court tomorrow morning, and returning to the race track, again commenced to spread himself, offering to fight McAnn with one hand tied behind his back.

The announcement in yesterday's Standard and New Star telling of the unusual offer which this paper had made to the women of the Province of New Brunswick has created a tidal wave of excitement. Telephone in the Standard and New Star office were kept busy humming and newsways on the street were kept busy accommodating the great number of persons who were anxious to read the unparalleled offer to send a party of nine ladies and a chaperon on the trip of their lives.

"On New York City and Bermuda" is the song, and The Standard and New Star are glad indeed to be instrumental in providing for the party, whom the title shall name, a trip of unusual attraction.

Do you know what a trip of this sort means? What an education it will be? We could read books until we were gray-headed about the life and scenes on a trip like this, but nothing can compare with the pleasure and thrill of viewing them with one's own eyes.

Special to The Standard. Halifax, N. S., Aug. 12.—Two violent deaths in almost identical forms took place in Cape Breton within the past 24 hours. Each victim was crushed to death while coupling cars.

The first, Wm. Carroll, aged 19, was pinned between two cars in New Westford. His breast was crushed in and he was conscious for only ten minutes. He was able to say to his fellow workmen that he was very badly hurt, but expired shortly after the priest and doctor arrived.

CANADIAN PACIFIC SHORT ROUTE "THE BUSINESS MAN'S TRAIN" WEEK DAYS AND SUNDAYS ST. JOHN, N. B. TO MONTREAL

STATE OF TRADE REPORTED GOOD

New York, N. Y., Aug. 12.—Bradstreet's state of trade tomorrow will say: Almost universally favorable weather reports, a consequently more optimistic report as to late planting crops than in any recently preceding week and a moderate expansion in the volume of fall trade, are the leading features.

Increased arrivals of fall buyers and a measurable increase in house trade resulting therefrom, are features reported at leading western and eastern markets. Heaviest buying is however, by converters and manufacturers and jobbing sales are mainly of small quantities, for which buyers see ready sale.

Among the industries, iron and steel are among the quietest of the year in fact, according to leading trade authorities. A July Decline. Commodity prices as a whole declined in July, resuming the reactive movement noted from the high levels of the year. For the week chances are not very important. The leading cereals show less than ordinary fluctuations.

Shoe dealers are reported buying carefully, believing that lower prices are possible. Wheat, including flour exports from the United States and Canada for the week ending Aug. 11, as reported by telegrams to Bradstreet's, aggregate 1,225,214 bushels, against 1,785,755 this week last year. For the six weeks ending Aug. 11, exports are 7,549,957 bushels against 8,714,044 in the corresponding period last year.

For the six weeks ending Aug. 11, corn exports are 1,908,296 bushels against 527,604 last year. Business in copper was of reasonably good volume this week, particularly for export. As a result prices turned upward, though toward the close an easier tone was induced by realization of a heavy order.

However, reports of curtailed production, taken in conjunction with the fact that domestic consumers' stocks are light, tend to make for a better undertone. Business failures for the week ending Aug. 11, were 231 against 219 in the like week of 1909; 249 in 1908; 146 in 1907 and 143 in 1906.

In Canada, the Canadian wholesale trade is fairly active. A better volume is expected as the season progresses. Drying in parts of the west is rather light, but on the other hand, orders for fall goods are up to expectations. Business failures for the week ending with Thursday number 20, which compares with 24 in the corresponding week of 1909.

TURF WONDER MADE ANOTHER WORLD'S MARK

The Famous Uhlan Trotted a Mile Yesterday in 1.58 3-4 Without Wind Shield—Batters Lou Dillon's Mark.

Cleveland, Ohio, Aug. 12.—Driven by Charles Tapper, of Cleveland, C. K. G. Billings' black gelding Uhlan established a new world's record today by trotting a mile at North Randall track without a windshield in 1.58 3/4, beating Lou Dillon's record by 2 1/4 seconds and coming within 1/4 of a second of equalling the record made by Uhlan with a windshield, Oct. 24, 1905, when she trotted a mile at Memphis in 1.58 1/4.

Tanner drove him the first quarter in 29 1/2. The half was reached in 59 flat. The crowd seeing a record about to fall, gave a great cheer, which changed to deep silence however, when the time for the three-quarters was hung up showing that it had taken the gelding 30 3/4 seconds to negotiate the third quarter. He did the last quarter in 29 seconds flat. When the figures were announced, driver and horse were given an ovation.

A credit of the sex it is not pleasing to note that the who advertise do not as a stress upon personal pincushions perhaps they atone for that by commending themselves rate and good providers, and sounding the note of general in the case of the Wyoming who says, "No objection to Yet there are "gents" who, studied their own characters, seem with delightful results, ample: "I am a homely old but have a good heart,"

Boston Police Looking For Man Who Got Away With \$1,740 As The Result Of Old Dodge.

Boston, Aug. 10.—The police are looking for a man in a jaunty gray cap last heard of leaving the White Star line dock at Charlestown, with something over \$1,740 in his pocket, or hand or hat or up his sleeve, which he had taken from Andrew Horgan.

Advertisement for Fruit-A-Tives. Text: 'The formula of "Fruit-A-Tives" is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-A-Tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics. Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 91 per cent water, 8 per cent of sweet principle, and 1 per cent of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities. The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-A-Tives". "Fruit-A-Tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public. "Fruit-A-Tives" is nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails. "Fruit-A-Tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-A-Tives Limited, Ottawa.

JAMES BOYD KILLED AND JAMES QUINN BADLY HURT IN AN ACCIDENT YESTERDAY

Staging on Which They Were at Work Fell from Building on Corner of Elm and Main Streets—Men Crashed to Sidewalk With Awful Force—Mr. Boyd Died Last Evening.

James Boyd, a master painter, lying dead at his home, 140 Adelaide street, and James Quinn in the General Public Hospital, with an arm broken and other serious injuries, is the result of a staging hook giving way while the men were engaged in painting the Maher building on the corner of Main and Elm streets about 3 o'clock yesterday afternoon.

Mr. Boyd, who was one of the best known and respected citizens of North End, passed away at his home about four hours after the accident as a result of the injuries which he sustained. Other than to utter a few words in an inaudible tone, he never regained consciousness.

Quinn, who is also a well known painter, was conveyed to the General Public Hospital, where, upon examination, it was found that he had sustained a broken arm, a badly bruised ankle, and other external injuries.

Mr. Boyd had the contract for painting the building and Quinn was in his employ. Had Just Started Work. It was about 3 o'clock in the afternoon when they started to work on the job. The staging, which was about 25 feet from the ground, was not up more than 10 minutes, and both men were about to begin work, when the accident occurred.

Quinn had not dipped his brush into the paint, when both men were tipped off and crashed to a plank walk below. Both were heavy men, weighing over 175 pounds and the force of the fall was consequently great.

Boys Saw Men Fall. Some small boys who happened to be playing near, saw the men fall and once running into Durick's drug store, told of the accident. Mr. Durick accompanied by James Taylor and S. Berton rushed to the scene of the accident where both men were found lying upon the ground covered with paint and in an unconscious condition.

It has not yet been decided when the ceremony of tearing up Main street will take place. The city authorities are apparently not anxious to tear up ten feet of the concrete, because, if it is found that it is laid to the right depth the city would have to pay the expense of putting it down again.

Ex-Inspector Carleton has made no move to take advantage of the opportunity the council has given him, of proving his contention that the concrete is not laid to the right depth in certain places.

The matter is up to Mr. Carleton and the city engineer, said Mayor Frink yesterday, and it rather think that it is Mr. Carleton's move. If Mr. Carleton when acting as inspector had made a written report to the engineer that the concrete was not being laid to the right depth, Mr. Murdoch would, he has no good reason to doubt, have made an investigation without delay.

But it seems Mr. Carleton did not even make a verbal report to the engineer and as he has no official knowledge of anything being wrong, he has no good reason to doubt that it upon himself to dig up ten feet of concrete and perhaps put the city to a good deal of expense.

And I don't see how Mr. Carleton can come forward and say that certain places were not laid to the right depth while he was acting as inspector, if that was the case the question at once arises why didn't he stop the work and report to the engineer?

The Canadian Oil Co., Burglary. Further details of the attempt to rob the office of the Canadian Oil Company, Ltd., at Barrack Point, on Thursday night were available yesterday. It is said that when Douglas H. Scott, the accountant returned to the office about 8 o'clock he discovered that a window in the rear of the office had been broken, and on looking, he saw two strangers busily engaged searching about the office, evidently for the cash drawers. He inquired from the men some details as to the ability of the burglars to get through the broken window. Mr. Scott is positive he saw them in the office.
