

## ALLIES' OFFENSIVE ON GALLIPOLI PENINSULA RESULTS IN GAIN OF 500 YDS. ON THREE MILE FRONT

### Italian Troops Engage In First Real Battle Of The Campaign

Italians and Austrians in Battle for Possession of Tolmino—Russian and German Squadrons Exchange Shots in the Baltic—Roumania Still Wavering, but Feeling in London She Will Join Allies When Italy Gives the Word.

London, June 6.—The Allies, in their offensive on the Gallipoli Peninsula on June 4, captured and held two lines of nearly three miles. In Mesopotamia the British forces have received from the Turks the surrender of Amara and taken more than 2,000 prisoners, thirteen guns, a gunboat, barges and steamers. The pursuit of the Turks, who were dispersed into the marshes, continues.

As in all trench warfare, which characterizes the fighting on the Gallipoli Peninsula has assumed, the Allies found their general advance hindered through the inability of part of their force to penetrate the wire entanglements, which the artillery fire had not sufficiently destroyed. This left other sections of the force open to an enfilading fire and therefore part of the ground gained had to be given up. Some also was lost when the Turks counter-attacked.

A gain of 500 yards on a front of three miles in this sort of fighting, however, is considered satisfactory by the British, particularly as it induced the Turks to counter-attack, in which they suffered very heavy losses.

Two battles are in progress in Galicia. The Russians have made a considerable advance on the lower reaches of the San and have driven the Austro-Germans back to the Lenz river; while to the southwest of Lemberg the Austro-Germans are advancing, although the Russians are contesting every inch of the roads to the Galician capital, which is the objective of the Germanic allies.

**WINNIPEG NEXT PLACE OF MEETING**  
Presbyterian Assembly to Meet There in June, 1916—Church Union Resolution Debated.

Kingston, Ont., June 5.—The next Presbyterian General Assembly will be held in Winnipeg, the first Wednesday in June, 1916. Dr. A. B. Baird, of Winnipeg, presented the invitation, immediately following the opening of the morning session. Rev. Dr. D. D. McLeod, speaking for the organization "For this continuance of the Presbyterian church in Canada," protested against the assembly receiving the majority report of the Union Commission. A telegram congratulating the Saskatchewan government on abolishing the bar was sent by the assembly today.

The majority report of the Union Commission was presented by Rev. W. T. Clark, of Montreal, and seconded by President Falcoer, of Toronto University. "The subject must be regarded from a new light," said President Falcoer. "We now know what an appalling disaster it would be to the world and to the Christian church if the Germans were to triumph. We find the assembly of today is a new Canada," he asserted. He said that Canada must conserve her resources, and that new conditions would have to be met after the war. "Are you going to ask the men who come back from the war to spend their lives in drugery, instead of combining?" he asked. "What we ask is that the people may have the opportunity of saying whether

**Italy's First Battle**  
The region north of Arras remains the interesting point on the western front. Here the French claim to have gained more ground, and, according to their report, have repulsed very violent German counter-attacks. The Germans, on the other hand, assert that they have repulsed French attacks.

The first important battle of the Italian campaign is raging for possession of Tolmino, where the Italians have met with the first serious opposition in their advance across the Austrian frontier. Italian warships have been busy destroying cables and highhouses in the Adriatic and have again bombarded Montfalcone. There has also been some naval activity in the Baltic, Russian and German squadrons exchanging shots in the vicinity of the Gulf of Riga.

Roumania is going through a crisis similar to that experienced by Italy before the latter country entered the war. Those who favor neutrality and those who favor war held counter-demonstrations at Bucharest today and the political parties are getting into shape to put forward their views. The general opinion held in London is that Roumania will join the Allies when Italy gives the word, and that Bulgaria will follow her lead.

With the King of Greece suffering a relapse and in a serious condition, no change in the attitude of that country is expected immediately.

**FOUND DEAD ON ROAD NEAR ST. STEPHEN**  
Body of Caleb Bartlett Found by Auto Party—Face in Pool of Water and Death Probably Due to Suffocation.

Special to The Standard.  
St. Stephen, June 5.—The community around St. Stephen was startled this forenoon by the announcement that the body of a man had been found dead on the Prox road about ten miles from here. The body was found by an automobile party coming from Pennfield. Coroner Lawson accompanied by Marshall Gibson and Deputy Sheriff Robertson proceeded at once to the place and evidence showed that the body was that of Caleb Bartlett, a man of sixty-five years of age. The deceased made his home in St. Stephen and left here last evening to drive to the home of his sister at Rolling Dam. The body was lying with face downward in a pool of water at the side of the road and death was evidently due to suffocation, after the unfortunate victim had fallen from his seat. No inquest was deemed necessary and the remains were placed in charge of an undertaker. Mr. Bartlett was widely known as a woodsman and had recently been employed in a livery stable in Calais.

## GERMAN OFFENSIVE NORTH OF ARRAS IS COMPLETELY BROKEN, IS FRENCH REPORT

Paris, June 6.—German attacks of unusual violence were made yesterday in the region north of Arras, northern France. The French war office announced today that the German offensive had broken down everywhere, with heavy losses to the attackers.

The statement follows: "In the region to the north of Arras the enemy undertook yesterday evening a very violent effort to re-capture the positions which he had lost recently. "The whole of the front from Ablain to Neuville, and particularly the sugar refinery at Souchez, underwent a bombardment almost continually, to which our artillery replied energetically. "Five German counter-attacks were launched on the slope of Chapelle-De-Lorette. The counter-attacks have been incessant in the wood to the east of the road from Aix-Noulette to Souchez. "The German offensive was overwhelmed everywhere and we maintained all our positions, inflicting heavy losses on the enemy. Between the Aix-Noulette-Souchez road and the Ablain-Souchez road we took several trenches of the enemy in which we made about thirty prisoners."

### Land and Sea Attack on Turks at Dardanelles Wins Ground for Allies

British and French Launch Attack on Turkish Front Three Miles in Length—Drive Enemy Back and Capture Two Lines of Trenches, Netting Advance of 500 Yards for Allies.

London, June 6.—Official announcement was made tonight that the British troops at the Dardanelles, as a result of their new offensive movement last week, captured two lines of Turkish trenches along a three mile front. The statement follows: "On the night of June 3-4 the Turks having heavily bombarded a small fort in front of the extreme right French position, which previously had been captured, launched an infantry attack against us which was repulsed, with heavy loss to the enemy. At the same time the Turks set fire to scrub in front of the left centre of the position occupied by the British division and attacked, but met with no success. "On the morning of the 4th of June, Sir Ian Hamilton ordered a general attack on the Turkish trenches in the southern area of the Gallipoli Peninsula, preceded by a heavy bombardment by all guns, assisted by battleships, cruisers and destroyers. "At a given signal the troops rushed forward with the bayonet. They were immediately successful all along the line, except in one spot, where the heavy wire entanglement was not destroyed by the bombardment. "Indian troops on our extreme left made a magnificent advance. They captured two lines of trenches, but owing to the fact that the troops on their right were hung up by this wire entanglement they were obliged to retire to their original line. The regular division made good progress on the left centre, capturing a strong redoubt and two lines of trenches beyond it, about five hundred yards in advance of their original line. "The Territorial division on our centre did brilliantly, advancing six hundred yards and capturing three lines of trenches, but though the advanced captured trench was held all day and half of the ensuing night they had to be ordered back in the morning to the second captured line, as both their tanks were exposed. "The naval division on our right centre captured a redoubt and a formidable line of trenches, constructed in three tiers, three hundred yards to their front, but they, too, had to be

ordered back, owing to the heavy enfilading fire. "The French Second Division advanced with great gallantry and élan. They re-took, for the fourth time, that deadly redoubt they call Leharicot, but unfortunately the Turks developed heavy counter-attacks through prepared communication trenches, and under cover of an accurate shell fire were able to recapture it. "On the French extreme right the French captured a strong line of trenches which, though heavily counter-attacked twice during the night, they still occupy. "We captured four hundred prisoners, including ten officers. Amongst the prisoners were five Germans, the remains of a volunteer machine gun detachment from the Goeben. Their officer was killed and the machine gun was destroyed. "The result of these operations is that we have made an advance of five hundred yards, which includes two lines of Turkish trenches along a front of nearly three miles. We are now consolidating our new positions and strengthening the lines. "Fleet Aided in Attack on Turkish Positions. "Paris, June 6.—An attack over the whole Turkish front at the Dardanelles, as a result of which the French and British troops gained considerable ground was announced today at the war office. The statement follows: "On June 4th, the Allied troops made an attack on the whole of the front, with the object of seizing certain points of support of the enemy. The British centre occupied two lines of Turkish trenches, over a depth of 400 metres. The first French Division took the first enemy line. "During the operation the Allied fleet gave effective support. The losses of the enemy were very high. Several hundred soldiers and ten officers were made prisoners. Among the prisoners there are six German sailors. "The artillery of the enemy has been dominated constantly during the fight by ours. "Two Turkish counter-attacks during the night of June 4-5 were repulsed easily."

**SIX MORE TRAWLERS SUNK BY SUBMARINES**  
Torpedoed by Germans in the North Sea—Crews all Reached Safety.

London, June 6, (11 p. m.)—Six more trawlers have been sunk by German submarines in the North Sea. On Peterhead yesterday, the Dogberry, of Hull; Perammon, of Grimsby, and Gazehound and Curlew, of Sunderland, were the victims. "The Hull trawler Bardolph has also been sunk by a submarine. The crews of all the trawlers were saved. "The trawler Ebenezer was sunk in the North Sea Friday by shell fire from a German submarine after the crew had taken to the boats. The crew were landed safely at Lerwick yesterday.

**CONFIRMS REPORT OF PURSUIT OF MEGANTIC BY A SUBMARINE**  
Quebec, June 6.—The story that the steamer Megantic had been chased by German submarines at the beginning of her westbound trip was confirmed here tonight on the arrival of the vessel by Captain Metcalfe. "The commander stated that the Megantic had been chased for three miles by the hostile submarines, which had called to get within striking distance, due to the speed of the Megantic and continuous deviation from her course. He stated that during the chase he had sent out "S. O. S." calls which were responded to by a number of British submarines and patrol boats.

**BRITISH CASUALTIES LAST WEEK HEAVIEST SINCE THE WAR BEGAN**  
London, June 7.—The casualty list for the week-end are the heaviest issued since the war began. They include eighty officers and 5,620 men, of whom 1,674 were killed. This brings the total of British losses during the last week to 900 officers and 20,000 men.

**ASSURES U. S. GOV'T LUSITANIA WAS NOT ARMED**  
Note from British Government—Pres. Wilson's Latest Note to Germany Will be Forwarded Today or Tomorrow.  
Washington, June 6.—President Wilson will forward his latest note to Germany late tomorrow or Tuesday. It became known definitely today that the note has been held up to allow the President and his advisers to complete its phrasing. It will reiterate the previous demands that Germany exercise the right of search before attacking unarmed merchant ships. Sir Cecil Spring-Rice, the British Ambassador here, has submitted a note from the British government solemnly assuring the United States that the Lusitania was not armed. This assurance conforms with the investigation conducted by American officials before the ship was given clearance from the port of New York by Collector Dudley F. Malone. Russia has been ratified at Petrograd. It governs the financial, commercial and industrial relations of the two countries.

**MEMBERS OF GERMAN CRUISER AT HALIFAX AS WAR PRISONERS**

M. S. Highflyer, arrived here on the steamer Halifax from Jamaica yesterday. They were taken to the concentration camp at Amherst.

# Nearly Three Hundred Factories in Canada Engaged In the Manufacture of War Munitions for British Army

## CANADIAN FACTORIES UNDER GOVERNMENT DIRECTION ARE DOING SPLENDID WORK

Government Action in Appointing Shell Committee has had Excellent Results and a Fine Spirit of Cooperation Among Industries Engaged in Making Shells Prevails — Canada's Example May be Followed in England.

Special to The Standard.

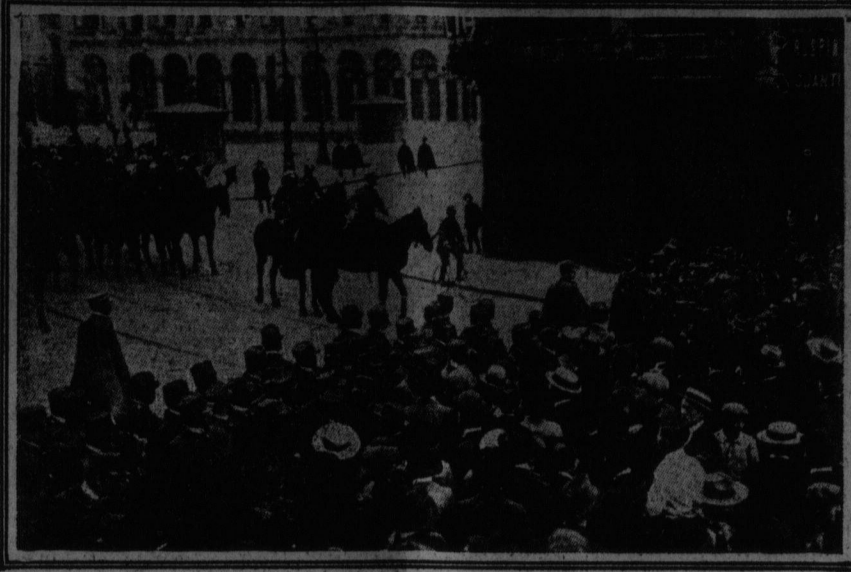

Ottawa, June 6.—The recent speech of Mr. Lloyd George on the necessity of utilizing to the fullest extent the industrial resources of Great Britain for the purpose of providing munitions of war, calls attention to what has been accomplished in Canada under the direction of the Government.

Nearly three hundred factories in Canada are engaged in the work of manufacturing munitions of war under the direction of the shell committee.

of the shells and other munitions produced is second to none and has been specially commended by the authorities of the war office.

The headquarters of the shell committee are at Ottawa, where a very large staff is constantly engaged in the various phases of the work which devolves upon the committee in dealing with business affairs on so vast a scale.

SCENE IN ITALY ATTENDING DEMONSTRATION BEFORE THE WAR

## A COALITION GOVERNMENT IN DUAL MONARCHY

One of plans Kaiser hopes to carry through — Helps Archduke of Austria celebrate birthday.

Berlin, June 6, via London.—Emperor William arrived at the headquarters of Field Marshal Archduke Frederick, the Austrian commander-in-chief, yesterday, to take part in the celebration of the Archduke's birthday.

The Emperor is holding a series of audiences with the leaders of the opposition party of Hungarians, including Count Julius Andrássy, Count Albert Apponyi, and Count Atadér Zichy.

Another proposal is for the creation of a new cabinet with Count Tizza as Minister of the Interior, and including M. Popovich, former Finance Minister.

The Allies have failed in their effort to induce Roumania to follow Italy into the war.

## Russians Stubbornly Contested Every Foot Of German Advance

Berlin Admits Greater Part of Czar's Forces Were Able to Retire From Przemysl Before Fortress Was Captured.

Berlin, via London, June 5.—Reports from the Galician front indicate that the Austro-German troops are now in complete possession of all parts of Przemysl.

The only serious opposition which is expected will probably be offered near the Greck Lakes, south of Lemberg, where the Russians may be able to throw in reserves.

The Allies have failed in their effort to induce Roumania to follow Italy into the war.

## DID HIS BEST, EX-FIRST LORD OF ADMIRALTY SAYS

Churchill, Addressing His Constituents at Dundee, Says Archives Show Part He Played — Has No Hard Feelings Over Retirement—Foe's Measure Has Been Taken and Britain Can Go Ahead With Confidence.

Dundee, Scotland, June 5.—Winston Spencer Churchill, formerly First Lord of the Admiralty, who is Chancellor of the Duchy of Lancaster, in the coalition government, arrived today at Dundee, which he represents in the House of Commons.

Declaring that if it is not possible to win the war without taking men by compulsion he would support such a measure, Mr. Churchill said: "I do not believe it will be found necessary, and I am sure it is not necessary now."

"For four years I have borne heavy responsibility, being, according to the time-honored language of my parliament, responsible to the Crown and parliament for all business of the Admiralty," Mr. Churchill said.

"I look also to the general naval situation. The terrible dangers at the beginning of the war are over. The seas have been swept clear.

"The question of service for home defense, to keep the fighting men abroad properly maintained, seemed to him to stand on a different footing.

"During a tour of four days the Premier investigated all phases of the army in the field, hospitals, baths, flying corps, etc.

## Totally Discouraged by Nervous Prostration

After Many Weeks of Doctoring a Friend Recommended Dr. Chase's Nerve Food, and She Was Cured.

There is nothing more discouraging than Nervous Prostration. Because of the exhausted condition of the nervous system, weakness and helplessness take possession of the body.

The patient, often appearing well, gets little sympathy, and few doctors understand diseases of the nerves well enough to treat nervous prostration intelligently.

Mrs. Edith May Williams, Tillsonburg, Ont., R. R. 3, writes: "I cannot speak too highly of Dr. Chase's Nerve Food.

weak and helpless and so discouraged and despondent that I thought I would lose my mind. I doctored with several doctors and received but little benefit.

It is only wise to prevent such dreaded diseases as Nervous Prostration, Paralysis and Locomotor Ataxia by keeping the nervous system in good condition at all times.

## CASE AGAINST LONDON TIMES IS DISMISSED

## THE GREAT GALICIAN FORTRESS OF PRZEMYSL RECAPTURED FROM THE RUSSIANS

The above picture, which has been drawn especially for the New York Herald and the London Sphere, shows the great Galician fortress of Przemyśl, which has been recaptured by the Austrians and Germans after what is regarded to be the greatest drive of the war. In one month the Teuton allies, under the command of General von Mackensen, fought their way from Oracow through more than 125 miles of territory strongly held by the Russians, and not only cleared all of Western Galicia of the Tsar's troops, but have opened all the Carpathian passes and removed for an indefinite time the danger of an invasion of Hungary. In this advance they have carried by frontal attack three Russian defence lines; the Donajec, the Wisloka and the San, and have reduced the second strongest fortress in Galicia. Military authorities do not disparage the Germanic success, but they attribute it as much to an ammunition and artillery famine in Russia as they do to the vigor of the Austro-German offensive.

All the soldiers of the Italian army now wear a gray-green cloth, which has entirely superseded all other uniforms. Even in peace time it is rare to see anything but gray-green throughout the whole army. The above picture shows some of the soldiers leaving for a town on the Austrian frontier.

## GOVERNMENT'S POLICY OF CONTINUING THE LARGER PUBLIC WORKS IS GIVING EMPLOYMENT TO GREAT NUMBER OF MEN

Sum of \$2,327,252 expended during May on Public Work, being over million more than for same period last year.

Special to The Standard. Ottawa, June 6.—The monthly statement of the finance department shows the expenditure on the larger public works throughout the country as \$2,327,252 during May, as compared with \$1,046,854 for May last year. By continuing large works like the improvements at Quebec, the Welland Canal, etc., the government is providing much

employment and helping business conditions in the country. The expenditure on current account was \$5,780,212, an increase of \$278,000. For the first two months of the fiscal year the net debt was increased \$24,106,415 and now stands at \$432,317,630. Temporary loans total \$87,733,333 and are due, of course, chiefly to the war.

The revenue for the first two months of the fiscal year shows an increase of nearly \$200,000 over the same period last year. This is due to the war taxes.

Mr. and Mrs. H. G. Enslow, Rochesay, wish to express their sincere thanks to all their friends and acquaintances, both in Rochesay and St. John, for their many acts of kindness and the sympathy shown to them in their recent sore bereavement, and for the many beautiful floral tributes.

Lisbon, Portugal, June 4, via Paris.—Newspapers of this city state that the steamship Demarara, from Lisbon for Liverpool, fired on the periscope of a submarine which was following her. It is said the submarine disappeared and that soon thereafter large quantities of oil were seen floating on the surface of the sea.

## SUNDAY IS HOTTEST DAY OF SEASON; CLERKS HAVE OUTING

Temperature Reaches 74 Degrees and Many Visit Resorts.

CARS ARE CROWDED.

Weather Man Says Hot Wave Will Continue This Week.

The highest temperature of the season was the record for Sunday afternoon, when the mercury rose to 74 degrees. The summer conditions were greatly enjoyed by all citizens. Many city people took advantage of the opportunities offered by the street railroads and crowds visited Glen Falls, East St. John and Seaside Park. Rockwood Park also received a large delegation of people from the city.

The weather on Saturday was all that could be desired although the dust in the city streets made it disagreeable at times. The open spaces along the shore were visited by many people yesterday. Every beach within reasonable distance of the city was well patronized. Although 74 degrees is not considered high for other cities for St. John it is considered well along towards a

heat wave. There was a cool breeze accompanying the warm weather and out of the sun the temperature was all that could be desired.

The weather indications point to warm conditions for the remainder of the week.

The city clerks started in on their first half holiday for the summer months on Saturday and the majority of the clerks took advantage of the vacation period and hiked to the country.

## WINNIPEG NEXT PLACE OF MEETING

(Continued from page 1) December 1, 1915. It will not be taken in the Presbyteries before January 1, 1916, and the returns will be made to the assembly clerks by March 1, 1916. The commissioners took a holiday this afternoon and visited the Thousand Islands.

President Falconer, of the University of Toronto, in according the report, said he thought they could say that the course of the war had been providential. "There has been a growing sense of justice and reasonableness amongst us, which is drawing humanity together. It is possible that upon us for some time the shadow of this war may linger, but it does seem that our path is becoming lighter. The spirit of sacrifice is abroad. We find that this assembly is the assembly of a new Canada. The assembly of last year was of old Canada. We are in Canada of a new spirit. Men of today think as they never thought before. Death has become as nothing to the spiritual realm. We who are well on in life had a view shaped in old Canada, but the new Canada is to be composed of young men who have had their ideals forged in the heat of this conflict.

"We are told that this is a year in which there should be a truce. I can understand the plausibility of that argument, and I have considered it carefully but the more I think of it the more I see that the argument does not hold. The fact that men are not in favor of a general election at this time is one of the strongest arguments for union. Old differences and distinctions are passing away. This is shown in the coalition in England."

Rev. Dr. McLeod's protest against church union will probably come up for discussion early this week. Several members of the assembly wished to have the matter dealt with at once, but the Moderator said the question before the house was the report of the Committee of Union, and the document would be dealt with later.

## LT. COL. McLEOD IN COMMAND AT BASE DEPOT IN FRANCE

Will have charge of Canadian troops there—Brig. Gen. Turner not a war prisoner.

Special to The Standard. Ottawa, June 6.—Col. H. F. McLeod, M. P. for York, N. B., who went to England with the first contingent, has just been appointed to command the Canadian troops at the general base depot in France.

It is learned that General Sam Steele, Col. John Carson, Col. Denton, Col. Garnet Hughes and Capt. W. B. Cochrane, who are with the Canadian troops at Vimme, have just returned from a visit to the firing line in Flanders.

Brigadier General Turner was not captured by the Germans as a Berlin despatch alleged. When General Sam Hughes saw the despatch in New York on Saturday morning he immediately took steps to find out from Canadian headquarters at the front if there was any truth in it. A cable reply from Col. J. J. Carrick says: "Turner well and with his brigade."

Mrs. Turner, wife of the Brigadier General, was at once notified. Canadian lines in France. Wounded Canadians now at Cardiff relate how they found that a coffee house near the firing lines, which was largely patronized by the Canadians and other soldiers of the Empire, was kept by spies. How the information regarding the movement of the troops became known to the enemy was forced out of a boy, who disclosed that a dog was used to carry the messages. This dog had been noticed wandering about and was even petted by the Canadians. The messages were hidden under a false coating of hair.

## MAN WHOM AMERICA MAY BACK AS HEAD OF MEXICO

President Wilson's final warning having been sent to the heads of the warring factions of Mexico, interest has turned upon the attitude those leaders will adopt and who may prove the man of iron to bring order out of chaos along the lines laid down by this government. There is little indication that any of the warring factions in Mexico will countenance intervention of any kind. The hope of the administration is that a man or a group of men within the meaning of the President's message will be found to get the popular elements of Mexico together and receive the official backing of the United States. The suggestion that General Felipe Angeles is one man the administration has in mind for the great task came from high authority. It is stated that although General Angeles is just now aligned with the Villa faction he has innumerable friends among all the factions and that he is unique in this regard. He stands for the best things under the old regime.

“LOTTERY OF LOVE” WILL OPEN AT THE OPERA HOUSE TONIGHT

Musical comedy will be succeeded by first class drama at the Opera House for the first three days of this week, the Orpheum-Stock company opening tonight in Augustin Daly's best and most successful comedy, "The Lottery of Love." The company is made up of players of high standing in their profession, actors who are with the best attractions during the regular theatrical season and have organized this stock company to visit a few of the Canadian cities and present standard dramatic works. "The Lottery of Love" is a good selection for an initial opening, as it is considered first grade in every respect and gives every member of the cast excellent opportunity for good work. The company is headed by Eleanor Flowers and Walter J. Connolly. Miss Flowers has been connected with the Wm. A. Brady forces for several seasons, and last year was at the head of one of the "Bought and Paid For" companies, playing the leading role. Mr. Connolly has been a prominent member of the E. A. Southern-Julia Marlowe company for the past three seasons.

The engagement will be for tonight, Tuesday and Wednesday only, with a special matinee on Wednesday.

BODY OF UNIDENTIFIED MAN FOUND IN THE ST. JOHN RIVER

Special to The Standard. Fredericton, June 6.—The Divisional Ammunition Column baseball team on Saturday won from 28th Battery at College Field by a score of 14 to 7. An inquest into the death of an unidentified man whose body was found in the St. John River at Sugar Island boom on Saturday morning will be held on Tuesday evening by Dr. B. M. Mullin as coroner with a jury. All efforts to learn the identity of the man have thus far proved fruitless. The description given by the coroner is: age, about 30 years; weight, about 160 pounds; complexion, dark, smooth shaven face with growth of beard of several days' growth. The body was dressed in a union suit of underwear, pair of blue trousers and socks with feet gone from them. The body was in such an advanced state of decomposition that it had evidently been in the water a month. It was buried at Hawkins burlie ground in Douglas.

WEDDINGS.

Mawhinney-Gates.

Special to The Standard. Port Williams, N. S., June 5.—A very interesting event took place at the Baptist church here on Wednesday afternoon, June 2nd, when Miss Evelyn Curtis Gates, eldest daughter of Mr. and Mrs. A. Kempton Gates, was united in marriage to Mr. Robert Thompson Mawhinney of Chance Harbor, N. B. The bride entered the church on the arm of her father to the strains of Mendelssohn's Wedding March, which was played by Miss Irene Gates, cousin of the bride, and was attended by her sister, Miss Gertrude N. Gates. The groom was supported by Mr. John W. Meissner, of St. John, N. B. Little Miss Mildred Gates, cousin of the bride, acted as flower girl, and was prettily attired in white mull. Messrs. Waldo and Walter Gates, also cousins of the bride, were ushers. The ceremony was performed by Rev. F. H. Beals, pastor of the church in the presence of the relatives and friends of the contracting parties. The choir sang "The Voice that Breathed O'er Eden," and after the ceremony Mrs. O. G. Cogswell sang a benediction entitled "The Life Road." The church was handsomely decorated with potted plants and the bridal party stood under an arch of apple blossoms and evergreen.

The bride looked charming in a handsome gown of duchesse satin with veil and orange blossoms, and carried a bouquet of white carnations and maiden hair fern. The bridesmaid wore pale blue brocaded silk and carried a bouquet of pink and white carnations. After the ceremony a reception was held at the home of the bride and a dainty luncheon served, after which the happy couple left for a short wedding trip to Windsor and Yarmouth. The bride's going-away suit was of dove grey broadcloth with hat to match. The groom's gift to the bride was a necklace set with pearls; to the bridesmaid, a handsome brooch; to the groomsmen, monogrammed cuff links; to the flower girl, a ring; to the soloist, an amethyst hat pin, and to the organist a brooch.

Miss Gates was a valued member of the Port Williams Baptist church, where she was organist for the past two years, and a faithful worker in the Sabbath school and W. M. A. S., and will be greatly missed by her many friends.

Many handsome and valued gifts were received, including money, silver, a china dinner set and tea set from the church and choir of which the bride was a member, and a beautiful cut-glass water set from the Ludlow street Baptist church of St. John West, N. B., of which the groom was a member.

The best wishes of their many friends for a happy and prosperous life will follow Mr. and Mrs. Mawhinney to their new home in St. John, N. B., where they will reside at 20 Pad-dock street.

UNSTRUNG, UNSTEADY SHAKY NERVES MAY BE TONED UP BY USING MILBURN'S HEART and NERVE PILLS.

Mrs. John Harper, Toronto, Ont., writes: "I have used Milburn's Heart and Nerve Pills for the heart and nervous system. I was confined to a grocery store for twelve years, and had to give up business, as I became terribly run down and nervous, and had heart trouble, and I am sure I am gaining very fast now, and I feel that nothing did me any good until I tried your Heart and Nerve Pills, and I am positive they will cure me. The nerves of one hand would tremble and then seem to go numb so that I could not write or sew. Now my hand is quite steady, as you can see by my handwriting. This is a big change which delights me so much for I thought all was done that could be done. I was about to give up in despair when I tried this last remedy, and even after I had only taken half a box the change started to come."

Milburn's Heart and Nerve Pills will restore the enfeebled, enervated, exhausted, overworked system to full constitutional power. Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

Wake Up! New Brunswick! This World War Demands the Supreme Effort of a United Empire Shall Our Province Fall Behind? It should not be supposed that contributions of a couple of thousand men a few odd dollars, some barrels of potatoes and boxes of socks constitute our rightful sacrifice. So far not more than a handful of people in all this country have any actual realization of what the war means. These few have given their husbands or their sons to the cause of Empire. The remainder have done nothing in comparison with their abilities and their opportunities. Our national life, our peace, our prosperity and our happiness are so dependent upon the well-being of the British Empire that only by playing our part in that Empire can we maintain our fortunate position. Up to the present ninety-nine per cent. of us do not realize what sacrifice means, nor what is being endured by those nearer to the firing line than we are. We must give, not only of our material wealth, but of our blood, and not niggardly, but with a generous hand. None of us wish to part with our husbands and our children, but it is better that they should serve the Empire and save our homes than that our enemies should triumph and all that we hold dear be taken from us. "For Romans in Rome's quarrel Spared neither land nor gold, Nor son nor wife, nor limb nor life, In the brave days of old." The 55th Regiment still requires five hundred men from New Brunswick. These men must be furnished at once, and must be recruited from New Brunswick homes. We cannot ask strangers to take our places. The duty before us is clear, however hard the part may seem. Some will lose their lives; others will be maimed; many will return. MEN OF NEW BRUNSWICK — Once upon a time there was a man who said that he would rather be a live coward than a dead hero. What is Your Choice at the Present Time? The Question is Up to You Today!

REV. R. J. HAUGHTON LAUDS DR. CORBET NOW ON FIRING LINE

Preaches Powerful Sermon In Which He Scores Parasites.

GERMANY SCORPED.

Kaiser Puts Faith In Force And The Right of Might.

Last evening in the Congregational church, Union street, Rev. R. J. Haughton addressed his congregation on "The striking appeal of a St. John hero,—the duty of the hour as seen by Dr. Corbet," taking as his text, "And they beckoned unto their partners which were in the other ship that they should come and help them." He said:

"It was an astonishing thing to the mind of Napoleon that while Caesar, Charlemagne, Alexander and himself had founded vast empires upon force, Jesus had founded a mightier one by the power of his love. There is a philosophy of life quite prevalent too that which knows nothing of Christ's philosophy of life. It knows nothing of sympathy or love. It only knows itself. This is not the teaching of christianity. A year ago we thought that the world was making good progress along the lines of brotherly love, but German imperialism and the brutal force of Prussian militarism have crashed this. We have a powerful enemy to fight. If he wins we fail. The right of Germany must be met by a still greater might if we are going to win."

"This statement brings me to the recent message of one of our St. John heroes, Captain Dr. Corbet, who is at the front in charge of the Ambulance section with the 3rd Artillery Brigade. He was struck with these words of Dr. Corbet published a few days ago, 'We are still holding the enemy back, but at what cost, God only knows. What the future holds out we do not know, for this is a battle of giants. Oh, how I wish the British people generally would wake up and realize this is the greatest war the world has ever seen and if we want to win soon we will have to have two guns, two men and two shells to every one of the Germans.'"

Germany's violation of force and materialism must be annihilated if it takes the whole world. Germany is putting its faith in force and in the right of might. This doctrine must be destroyed as that great scientist, Sir Oliver Lodge, said, 'It is the revolt against christianity that we are witnessing today, and the result of this war will be to carry the world back to Christ, the greatest revelation of God we have had on earth.'"

"In place of the gospel of mercy he would put the gospel of terror, and instead of the gospel of peace he would have spread the gospel of strife. But Jesus Christ comes with his gospel of mercy and love and forgiveness and helpfulness. Jesus Christ is the supreme lover of men. He never went about to kill, to destroy, to injure or to cause suffering. In fact, he went about doing good. If the Kaiser had been studying the lowly, loving and merciful Christ instead of Alexander Caesar, Napoleon and Nero we would not be witnessing the fearful carnage and murder he is causing the world today."
