## DRIVE WIFE OUT IN NIGHT CLOTHES

Thermometer Was Forty-two Below, and Died From Exposure.

### INHUMAN TREATMENT

CAMPBELLTON, N.B., Jan. 13.—Investigation of the reported murder of a woman here by the police reveals a harrowing story of a husband's brutality, which may result in sending him to the gallows. The man is Chas. Cooke, a homesteader, five miles south of here, on the United States several months ago. He and his wife quarrelled frequently, and it is alleged Cooke created the woman most brutally. But brutality reached a limit a few nights ago when he threw his wife out in the cold when the thermometer registered forty-two below zero, and with nothing to protect her from the storm but a thin cotton night dress. A neighbor who happened to be passing and asked to obtain protection for the night, sought admission to the house, but was ordered to leave at once on pain of being shot. As he turned to go he heard groans from the direction of the wagon shed and went to investigate he found the unknown woman lying there almost frozen to death. He picked her up and managed to reach his own home with her, but she was so terribly frost-bitten that recovery is impossible. The wife's husband has refused to pay a charge against her husband and as a result Cooke has been arrested, but he will be should she die, or should he attempt to leave the country. The neighborhood is shocked by the brutal occurrence.

### JURY FINDS THAT HAIN IS NOT GUILTY

FLUSHING, N. Y., Jan. 15.—After reviewing the evidence for twenty-two hours and taking fifteen orders before all agreed, the jury in the trial of the author and magazine writer, Thomson J. Hains, at 3 o'clock this afternoon found the prisoner not guilty as a principal with his brother, Captain Peter C. Hains, Jr., in the killing of William E. Anna.

For the second time in his life Hains had been acquitted of the charge of murder, having been cleared of the charge of shooting a companion named Hamilton in an open boat in Hampton Roads seventeen years ago. Hains had an affecting greeting with Captain Peter C. Hains in the Long Island jail, whether he hurried in a motor car after the verdict to take his brother the news. Old General Hains and his wife, who had been anxiously waiting to learn the verdict in the hotel after his Manhattan arrest, were present at 5 o'clock last night, heard the news from Thomson, who telephoned his parents as soon as he left the court room. Mrs. Hains, nearly faint with joy at the tidings.

### ITALIANS COMMITTED ON MURDER CHARGE

PERTH, Jan. 16.—The preliminary examination of the Italians, Tony Arachi and Leo Depina, accused of the murder of Edward Green, the peddler, was concluded yesterday and the two men were committed for trial. Hainsford Tovey, sworn, said he lived at Bristol and was coming from Waugh's camp on Saturday, Dec. 19. He struck the eight of way about 30 rods from Tony Arachi's camp about 4 o'clock. Miss Gallon, of Bristol, was ahead of him with another team. He met two men going towards Johnson's camp; each had a gun. He identified the gun in court; also the prisoners. They were not carrying any bundles. Vernon Mur of Plaster Rock, also testified.

## FIFTY KILLED IN RAILWAY WRECK

Passenger Train Travelling at High Rate Runs Head On Into a Heavy Freight Train.

### MANY WERE INJURED

GLENWOOD SPRINGS, Col., Jan. 16.—Fifty persons were killed and as many injured in the collision at Glenwood siding, about twenty miles east of here, on the Denver and Rio Grande Railway, between passenger train No. 66, west bound, and freight train No. 66, east bound, at about 10.30 last night, is the report which came to this city this morning. The passenger train was flying down the grade making for a siding five miles west of Glenwood where it is expected to meet the freight, and the freight was also trying to make the siding. The result was a head-on collision in which the engines were smashed, the baggage car of the passenger train left standing on end, one of the day coaches telescoped by the freight car immediately behind it and fifty people in the day coach and chair car mangled beyond recognition. It was from the chair car that the dead were taken and twenty bodies have been removed thus far. All the sleeping cars remained on the track and none of the passengers in them were injured. The passenger train is said to have been going at a high rate of speed when it reached the siding at Glenwood. It is supposed that the engineer of the passenger train thought the freight had passed the siding and was going too rapidly to stop his train when he saw the danger. The freight locomotive attached to the passenger train was demolished and the chair car and passenger coach were turned on their sides and shattered. With the arrival of the relief train from Glenwood Springs it was possible to start the work of rescue of the bodies. The injured were pinned under the wreckage and the heroic work of the passenger of the rear cars saved many lives. Some of the injured were terribly mangled and the death list, it is feared, will be greatly increased. Train No. 4, which was wrecked, left Denver yesterday morning. It was well filled with passengers, many of whom were to get off at this point. Dots are a hind side with no station and no telegraph office. When the relief train reached the scene it was found that a long string of freight cars on the freight train were in the way and the only way they could be disposed of was to back them to Shoshone, eight miles from the accident. The physicians and nurses, however, left the relief train as soon as they reached the scene of the wreck and ministered as best they could to the injured and dying.

## GARRISON CLUB AND BOURASSA

Popular French Politician Was Rejected on Ballot at a Recent Meeting.

### UNFORTUNATE AFFAIR

The Garrison Club of Quebec rejected the application for admission to that body of M. Bourassa. This gentleman recently became a member of the Quebec legislature, and being a cheerful, companionable man, and certain to reside in Quebec during the session of the legislature, brought the club to his comfort. No one could object to him as a man of courteous manners and of much consideration for his fellow men, but he was objected to for some reason, and his application failed. Mr. Bourassa's rejection was an unwelcome proceeding, of course, the members who voted against him were within their right. They ought however, to have had some regard for the possible results, considering the position which Mr. Bourassa occupies in the politics of Quebec. Mr. Armin Lavergne, who is a member of the club, has tendered his resignation, because of the treatment of Mr. Bourassa and the end of this business is not yet. The Garrison Club is the principle social organization at Quebec, and its attitude to the national leader will strengthen him in his attitude, upon the national question—Globe.

### NEW BRUNSWICK, CAN HAVE THE DOMINION EXHIBITION IN 1917

There will be no Exhibition this Year and Regina will get the Grant Next Year.

OTTAWA, Jan. 16.—There will be no Dominion exhibition this year. The Government is cutting down expenses as far as possible and this is one of the estimates. Regina will be given the fifty thousand dollars in 1910 and New Brunswick can have it in 1911.

### SENTENCE SERMONS

Hearts of gold do not take gold to heart.  
Serving man is a good way of seeking God.  
Envy is the tribute that sloth pays to industry.  
Only the large hearted are fit to work with the little ones.  
The best prayers are the ones that take longest to learn.  
You can never fight a man's foes unless you are his friend.  
There's nothing like a candid opinion for eliminating friends.  
If you would shine as the stars begin with a little sunshine now.  
Sin has no power over the life when it has no patrons in the heart.  
Keeping faith with folks is a good way of cultivating faith in them.  
It's no use denying sin's service when you're enjoying its salary.

## DIED SUDDENLY SATURDAY MORNING

Mrs. William Alexander, An Old and Respected Lady Died Here.

### BELONGED TO BATHURST

Mrs. William Alexander died very suddenly Saturday morning at the home of her son John, Andrew Street. Friday she was about the house as usual, but for some time had been troubled with heart disease, for which she was receiving treatment. She retired Friday night, and Saturday morning got up early, but complained of feeling faint. Her daughter gave her the medicine she had been accustomed to take. A few moments after she had been resting on a lounge to where her daughter had placed her, she expired. The deceased lady was in her 81st year and was highly respected. For many years she lived on a farm near Bathurst where her family was brought up. In the neighborhood she was always looked up to and if any family was in trouble on needful assistance, she had only to know of it when it was specially forthcoming. For some years her sons, who reside here, had endeavored to persuade her to take up her residence in Campbellton, but the associations of a long and useful life in the neighborhood of her home were not so easily broken, and it was not until last fall that she was prevailed to remove here with her daughter to live with her son John. Seven sons and three daughters survive. They are: A. E. John, James P. Edward and H. S. of Campbellton; Wm. of Bayview, Wisconsin; and Charles J. in the West. The daughters are: Robina, wife of Nicholas Good Moore; Ann at home, and Mary, wife of Wm. Curtis, Newcastle. Her husband died in 1894.

### EX-AUDITOR GENERAL DIED AT OTTAWA

OTTAWA, Jan. 15.—John Lorn Mac Dougal, ex-auditor general of Canada, died at 11.30 o'clock this morning.

### ON INSPECTION TOUR

Inspector Gm-Mercereau inspecting covers, grade at the grammar school today. He will be engaged at this work for several days. So far as certain terms of political conduct, the papers claim are not in line with the high moral standard which Parliament should maintain. As a matter of fact, there is nothing against Mr. MacNeil which could fairly prevent him from being chosen Speaker, and on his personal fitness for the office—the position this term, according to custom, going to a French-Canadian, the choice will have to be good one. The speech which the Governor General will deliver will announce a falling revenue, and it will state that the estimates which will be submitted have been prepared with due regard to economy. Possibly the need for some plan for shortening debate in the House of Commons will be referred to, certain legislation may be promised in regard to laws which are needed to conserve public right against the plots and schemes of fraudulent adventurers in trade. The condition of the trade treaty with France and the new treaties with the United States will easily make a couple of paragraphs of the address. There will be some observation on the Transcontinental Railway, and the like; but, as before, the first session of a new parliament, there will not be a request for much legislation. The new House will have in it at least fifty men who were not in the last House.—Globe.

### BRITAIN LOSING PRESTIGE

Empire too Feebly Governed, Says Col. Denison

LONDON, Jan. 15.—Col. G. F. Denison of Toronto writes the Standard with reference to Britain's marked loss of prestige in Canada during the last seven years. The feeling is general in Canada he says, that the Canadian blood shed in South Africa has been a vain sacrifice to aid of an Empire which is too feebly governed to profit by such loyal devotion. If Britain does not soon reorganize, Canada's preference, or at least take measures to protect herself from impending disaster Canada may be induced to play her own business game.

### MONDAY'S GALE MADE THINGS FLY

All Trains Late and Some Drifts.

### LINE CLEARED

Sunday's fall of eight snow created havoc on the railways when Monday's gale, strewn up the feathery particles and piled them up in huge piles along the railway. Ploughs were kept busy but despite these the trains were late, and several freight and specials were delayed. Today everything is open and trains are moving.

## I.C.R. WILL NOT BE SOLD OR LEASED

But Changes Are Contemplated the Management Says Mr. Graham.

### NOTHING DEFINITE YET

OTTAWA, Jan. 16.—George F. Graham, minister of railways, yesterday disposed of rumors that have been published to the effect that the government contemplated either the sale or lease of the Intercolonial line to some private company. Asked as to his views as to the various proposals made in the press, Mr. Graham said: "Of course, I have been deeply interested in the newspaper discussion and the various policies which have been outlined for the Intercolonial railway system. These articles have contained considerable information which, I may add, has not gone unnoticed. I do not regret this widespread discussion, because it tends to a better understanding of a problem which is not as generally understood as desired. It is a mistake to think that the idea of any change in the ownership of the Intercolonial was inspired on account of the falling off in traffic this year. Like All Others The government has been in this respect is like all other roads, its condition is certainly no worse. But many roads are constantly making changes for the better in their methods of management, and why not the government line? I might say if changes are decided on they will not include either the sale or the lease of the government line."

## PARLIAMENT WILL MEET WEDNESDAY

Hon. Charles MacNeil Will be the Speaker Elected by Present House.

### A WORTHY OCCUPANT

Parliament will assemble on Wednesday. Probably, following the usual custom, as many members as possible will be sworn in on that day, the Speaker of the House of Commons will be elected, and on Thursday the Governor General will deliver his speech. Mr. MacNeil is, according to the reports, to be elected Speaker of the House of Commons. He will make an excellent Speaker, for he is pleasant of temper and well versed in the rules, knowledge which he gained in the last parliament by experience as Deputy Speaker and chairman of the Committee of Supply. There is some criticism of the government in Toronto opposition papers, for choosing him on account of his alleged connection with certain terms of political conduct, the papers claim are not in line with the high moral standard which Parliament should maintain. As a matter of fact, there is nothing against Mr. MacNeil which could fairly prevent him from being chosen Speaker, and on his personal fitness for the office—the position this term, according to custom, going to a French-Canadian, the choice will have to be good one. The speech which the Governor General will deliver will announce a falling revenue, and it will state that the estimates which will be submitted have been prepared with due regard to economy. ## Hewson Underwear Unshrinkable

The illustration shows difference between Hewson covered seams and ordinary raw seams.

Why experience underwear discomfort another day when you can get Hewson Underwear, which is the embodiment of ease and comfort? No ordinary rough, raw seams, which are also apt to part under a strain, to irritate you. Hewson seams are neatly and smoothly covered by our new patented machine, installed for this special purpose. So comfortable you wouldn't know there were any seams. And secured so firmly the fabric will rip before the seams will part. For better satisfaction insist on Hewson Underwear next time.

## SOME STORIES CONCERNING THE BANK OF ENGLAND Strange Things Have Befallen the Treasure House of Great Britain.

There is no indication that has more romance attaching to it than the Bank of England. It has been nearly ruined on several occasions. It has been beset by thieves—one gang robbed it of over \$500,000 thirty years ago—forgery and fraud have been practiced upon it by the most accomplished criminals in history and yet, safe as the Bank of England is, it is saying which in spite of the institution's many ups and downs is true to the letter.

One morning, just after the bank opened, an angry and excited crowd thronged the street, demanding cash for notes. There was actually double the money in notes in the hands of the mob to what there was in gold and in the bank and the outlook was a bad one. Odd had to be met to pay off every claimant, but that took time. So the directors sent men with notes into the crowd, whose claims they attended to first, and paid each claim in sixpences and shillings. Some men walked away with sacks of shillings over their heads, but the time gained by this method of payment saved the bank, and every claim was paid.

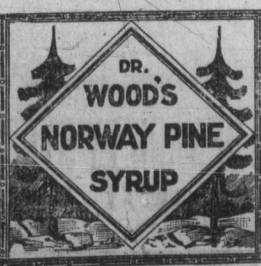

The man who gave the bank the most trouble was one named Charles Price, and he was given the nickname of "Old Patch" because he often wore a black patch over his right eye for no reason save as a disguise. He was one of the finest engravers in the world, beating even the bank engravers. He put forged notes into circulation with surprising skill, and a battle royal began between him and the bank.

Had he not been a master of disguise he would have been caught long before he was, but he managed to "outwit" the bank out of more than \$200,000 before he slipped into the hands of the law in a curious manner. He used to dress in a long black cloak which generally covered the lower part of his face, and although he employed more than a dozen agents had never been seen by one of them out of his disguise.

It was one of these agents who turned upon him. "Realizing that the man was making a fortune, he lay in wait for him and slunk into the corner of a doorway when the muffled figure drew near. Then leaping upon him he tore away his disguise and threatened to send him to the police, unless he acceded to certain preposterous terms. Price refused, so his agent carried out his work and two months later the arch-criminal was convicted and hanged.

Only one man has succeeded in breaking into the bank and this happened about thirty years ago. One day the directors received a letter from an anonymous person saying that he would meet any person the bank would appoint in a room at mid-night on a date fixed but that the person keeping the appointment must not be armed. At first it was thought to be a hoax, but as a precaution detectives searched the building vaults thoroughly and were quite satisfied that under no circumstances could a man enter those rooms; but they waited all through the night, and beyond a peculiar scuffling noise which they attributed to rats they heard not saw nothing.

A week later the bank directors were staggered at receiving a box in which lay several securities from the bank vaults and signed with a note saying that if the directors would send a man to the vaults at midnight on the same day the writer would

## A HARD DRY COUGH.

Mr. J. L. Purdy, Millville, N.B., writes:—"I have been troubled with a hard, dry cough for a long time, especially at night, but after having used Dr. Wood's Norway Pine Syrup, for a few weeks, I find my cough has left me. I am now as well as I did, I can say that this remedy is well worth a trial. I would not be without it in the house."

**COLD FRIDAY.**  
The cold Friday that we have heard so much about from the early settlers was 48 years ago, or will be on the 14th day of next month. The wind blew a gale with the mercury very low, giving the inhabitants every reason for remembering the date.

### FORMER RESIDENT ILL

The relatives and friends of Mrs. Delaney, formerly of Dalhousie, will regret to learn that she is seriously ill in the (Fordham Hospital, New York City, where she has been confined since July last. She has two sons and a daughter in New York. Harman is a Captain in the Volunteers of America, Frank holds a responsible position with R. H. Macy & Co. and Carrie is cashier in one of the large hotels. Another son, Will, resides in Boston and a daughter, Mrs. W. Brien in Moncton.

### MONDAY'S CARNIVAL

The carnival in the skating rink on Monday evening drew only a fair crowd, the weather being disagreeable. The costumes were not up to the standard which is regrettable, many of the town's young ladies and gentlemen seeming to think that anything which will pass as a costume and thus enable them to skate is sufficient. The Graphic would suggest that in future carnivals the skaters be required to hand in at the ticket office their name and that of the character they represent, and then have the list published together with the prize winners. The management might also insist that all skaters be in costume all the evening, and encourage those who do not care for the trouble of getting up a costume, but want to enjoy the skate, to come in some suitable garb. The prize winners were not announced and after considerable trouble the Graphic was unable to get the list.

If you are the salt of the earth you will not be dropping yourself on the score places in other folk.

A Paris contemporary tells this story about Joseph Mery, the French poet: A creditor called one morning early to ask payment of an account. He interviewed the poet in bed and expressed sorrow at having to trouble him, but would he settle the account.

"With pleasure," replied Mery. "If the goodness to open the first drawer of this cabinet."

"I have, sir," replied the creditor, "but there is nothing in it."

"Indeed? Well try the next!"

"That is strange. Try the third!"

"There is nothing in there either!"

"Look on the mantel shelf!"

"Yes!"

"It is incredible. Have you looked on the table?"

"And in the secret drawer?"

"Yes! I have turned out all the pockets."

"But it is the same as the drawers, the greatest treasure. If there is no money in the drawers or on the mantel or in the table or in the secret drawer or in any pocket, how in the name of all that's wonderful can I give anything?"—Lindon Globe.
