[Special to The Advertiser.] Belmont, April 8.-Having returned home from Regina only two days ago, George Harper at midnight last night committed suicide by shooting himself with a revolver. He was only 31 years of

age, and unmarried. Harper had for some years been managing a hotel in the western city, but a little over a year ago he was the victim f an automobile accident in which he ustained serious injuries to his head. lince that time his health was poor, and

e was very despondent. On Monday he arrived at his father's place, after spending a week in Detroit and three weeks at a sanaterium at Battle Creek, Mica. His friends noticed that he was not in a normal condition, as he would start sentences, lose the thread and never finish. On Tuesday morning his fatherr noticed a revelver in George's suit case, but had not a chance to remove it.

During the day George asked his sister for a blank check, telling her he was immediately summoned, but found the unfortunate man had died instantly, the bullet entering the brain through the right temple.

The coroner considered the inquest une necessary, and the funeral will be held on Friday.

Dominion Railway Board Gives Judgment in Long-Pending Case.

[Canadian Press.] Ottawa, April 7 .- Some substantial reduction from five to thirty per cent is the freight rates on nearly all classes of goods on all railways in the Dominion operating from Winnipeg to the Pacific poast are ordered in the judgment in the western freight rates case handed down by the Railway Commission this afteron. The reduced schedule of rates wil go into effect on September 1 this year. A standard scale or maximum freight ates is fixed by the judgment for each of the three western sections of the railways in the west. The lowest scale in the west, now known as the Manitoba standard, has been amplified to show rates up to two thousand and one hundred miles,

and will apply throughout the entire section and on the British Columbia lakes, abolishing the higher scale now charged n Saskatchewan and Alberta. What will be known as the Pacific scale is on a ewhat higher basis and will gover in Pacific territory

Two Methods Introduced. Local grain and flour rates are substantially reduced by two methods, first, by a direct reduction ranging from 20 to 30 per cent, and secondly, by making the terminal Fort William rates the

maximum that 'may be charged between intermediate stations. The westbound rates on flour and other grain products are similarly reduced. This is an indorsation of the complaint of the United Farmers of Alberta, and the application of the Winnipeg Board of Trade. The United Farmers of Alberta also win out in their application for reduced rates on these

products to British Columbia stations. Cut In Coal Rates. Coal rates from Lethbridge and other Alberta mines are substantially cut, The special mileage rates on butter, heese and eggs, dressed meats and

LEGISLATING FOR ITS FRIENDS. I N its new tariff legislation the Do-Iminion Government has shown conclusively where it looks for its support. Evidently it is of the opinion that the friendship of the large moneyed interests is of more value from a political point of view than that of the farmer, and the consumer, and the small manufacturer practically disregarded. Free wheat is refused. The promise of elevators and increased transportation facilities will not be accepted in its place. The Western farmer needs the United States' market for his lower-grade wheat, because it cannot stand the heavy costs of transportation. To tell him that he can store this in an elevator until the transcontinental lines can carry it through Canada to the seaboard will not meet his demand. He asks for a near market, and he is told he will have opportunity to send his wheat to a distant market. The demand for free agricultural imple-

ments is refused. On binders and mowers there will be a reduction of five per cent. When this was provided for by the reciprocity agreement Western Conservatives were very indignant, because it was so little, while eastern manufacturers declared it was a blow at their prosperity. Now it will be hailed with delight by the western Tory, while the eastern manufacturer will submit without a murmur thus showing that his professed fears of three years ago were unfounded. On plows and other agricultural implements there will be no reduction. Manufacturers of this class will be thankful that they have a friend at court. One of their number sits on the Government side of the House, and has been a faithful friend. His interests must be protected. Sir Melvin Jones came over to the side of power too late. He ought to have made his bargain with the Government before he deserted the Liberals. Then, possibly, he might have been spared that five-percent reduction on his mowers and bind-

In regard to manufactures generally. any changes are in favor of the big man as against the little one. . Take the case of wire rods for an example. Hitherto these have come in free, and the small manufacturer turned them into nails and Now he will have to pay duty or else go to the two steel compan-Canada. but the Government evidently thinks that ago that Mr. White was arxious to curb

the man who can afford to build can afford to pay a higher tax. Store for ouilding purposes will now have to pay duty. The man who is rich enough to put up a palace will not become bankrupt if he pays duty on imported stone. The average man may find it a heavier burden if the local quarries are to be protected, and prices raised in consequence. Perhaps they think he should not use tone, anyway.

A very satisfactory feature of the new legislation is the authority which it gives the Government to raise duties on iron and steel products, if on inquiry it thinks it advisable to do so. It is suggestive of higher duties to be imposed without a vote of Parliament. Tariff legislation by order-in-council is an unsafe proedure. It is bad enough as an indication of increased protection; it is worse as a withdrawal from Parliament of its right to discuss and vote upon tariff changes. It is another step towards cenralization of power in the hands of the ministry of the day. That is sound Tory loctrine, but from a Liberal point of view t is a blow at responsible government. Not only are we facing a general increase in duties on certain goods for the benefit of the few producers of the basic forms of iron and steel, but we are confronted with a retrograde movement towards government by a few for the benefit of the few, and to the disadvantage of the is a happy occasion for the use of such a masses. From a reactionary ministry, however, nothing is to be expected but reactionary legislation.

#### THE FARMERS' PARTY.

F STANDING for free agricultural implements means free trade, then the Liberal party is a free trade party. Finance Minister White is anxious to label the Liberal party as being out and out for free trade. Any means of drawnamed Lemon. It's up to him to make ing the fire of the protected interests upon Sir Wilfrid Laurier will be taken by Mr. White. The Finance Minister is another deserter from the Liberal camp, who scurried away at the suggestion of a reduction in tariff. Yet, as a sort of stop-gap, he has just put into effect a reduction for binders no less than was five-dollar reduction on binders, but the proposed by the Liberals in 1911. Mr. minister's fee for binding will still depend White no doubt hears the farmers' demands, but very faintly. The manufacturers have his ear first.

But the Liberals will continue to stand by the agricultural class in the community. The Liberals would no doubt be free traders to the hilt if it meant a fuller measure of prosperity for the whole ing them that the "worst was over" so country. So that if once payments were made by the Liberals on any contracts, and if was gained dishonestly by any Gutelius charges are true, why does not the Government hasten to reimburse the public treasury by taking the entire amount alleged to have been gained improperly while the Liberals were in power? A practical and effective method of replacing these "stolen funds" is open to the Government. But the Government, reason, does not grasp the opportunity. Not one cent has been deducted from a contractor's deposit. As to nnual expenditure, he did not, of course say that it was nearly double what it had been under the Liberal Government, but he did admit that it had increased about fourteen and a half millions last year. And he further admitted that this increase was due to "liberal appropriations" for public works, and for the militia. Yet, with it all, he gave no indication that there was to be any retrenchment. It is true, he said, that the estimate should be kept within as reasonable bounds as possible, but that is a vague statement, which he might make, irrespective of what these estimates should be. He could always say they were "as

The Aylmer Reformer bewails the fact that there is a young man in its town who "if given the opportunity would make a great orator-and yet he is sticking machinery together at so much per.' Our advice to the young man is to stick to his present job. This country is full of orators either out of a job or drawing small pay. What this country needs is nore men to labor with their hands and fewer with their mouths. The mania for talk is a serious drawback to this young country, and the average "talker" does not feel called on to think.

Fourteen Members Report at the Training Camp---Rain Results in First Workout Being Held Indoors---Players Look Good---Marietta Citizens Enthusiastic.

Marietta. Ohio. April 7.-Fourteen members of the London Canadian League ceam have reported here to date including "Doc" Reisling, and if the rain which is teeming down tonight lets up before tomorrow dawn the club will hold its first cutdoor practice at the fair grounds and a game will be staged in the afternoon with the Marietta College nine. Of the players who have reported se far only two are last year's men. Cy Reidy and Ben Beebe dropping in today. The rest are all new men signed up this year and they are a likely looking bunch. The list up to the present time is as follows: Synder, Danford, R. Reidy, catchers; Beebe, Riley, Hammond, Houseman, pitchers; Munn, Rychner, McGonagle, Whitcraft. infielders: Okey. Long. outfielders.

SEVEN PLAYERS WORK OUT.

Manager Reisling had about seven players out working in the college gymnasium this afternoon. Carl Meister, a Cincinnati National Leaguer, who has not teported, is also working with the squad. The rain has soaked the city pretty thoroughly but the grounds are sandy and will dry up quickly once the clouds break up and let the sun come out. The atmosphere is warm and would be almost sultry if the sun was out.

NEW MEN ALL YOUNGSTERS.

The new men signed up are all youngsters. They are tidy, well-mannered, folly lot, and ambition is fairly bursting out of them. Danford, the catcher, is another Earl Neal, his talk and manners being identical with the former London left fielder, who, by the way, has not yet reported to the Cleveland American Association team, but is located only a few miles from here at Weslyn College, Danford also looks like Neal, although is of smaller build. Riley, Houseman and Hammond are tall fellows and Reisling appears to have landed some real good pitchers in them. Riley is a southpaw who is a little shy of control but great on speed, he is of fine build. Beebe looks to be in fine shape and Reidy is the same old Cy.

LIKELY LOOKING BUNCH.

McGonagle is a new Lexington College youngster who was only signed up by Reisling today. He is a shortstop and is said to be fast. He is rather small but well filled out. Okey, Rychner and Munn are boys just in their twenties. Munn is a husky youth, as is Okey, but Rychner is slim. Whiteraft, the shortstop, and Long, the outfielder, have the appearance of being experienced. Whitcraft resembles Artie Schwind, the former Ottawa shortstop, in looks and build. Long is a witty fellow who is popular with the rest. Snyder, the former Saginaw player who was traded for Coose, is a catcher and one of the most likely looking players of the bunch. He is a quiet fellow and expresses himself as pleased to be with the London team.

MARIETTA ENTHUSIASTIC.

Marietta is enthusiastic over the game tomorrow. The city is holding a big boosters' day celebration, at which the governor of the state will speak and hundreds of delegates from outside points will attend. The ball game is the only other attraction, so that a big crowd will turn out and witness the first game of the season in this section. The city is in decoration for Governor Cox's arrival. The celebration is in connection with the Washington County Corn Growers' Association convention, the Marietta businessmen meeting all the expenses of the

## To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deaf-ness and head noises will be glad to know that this distressing a fliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor suf-ferer perhaps from total deafness. The prescription can be prepared at home, and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth. Take this home, and add to it 1/4 pint of The first dose promptly ends the most listressing head noises, duliness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated the tonic action of the treatment. L of smell and mucus dropping in the back of the throat are other symptoms that of the throat are other symptoms show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per efficacious treatment. efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better. Important.—In ordering Parmint always specify that you want Double Strength; your druggist has it, or he can get it for you. If not, send 75c to the International Laboratories, 74 St. Antoine street, Montreal, P. Q., who make a specialty of it.

#### How to Take Off Excessive Fat From the Places Where It Shows.

"Is there anything that will really reduce weight? My hips and abdomen have grown so fleshy that I feel and look far older than I really am. There are certainly others like myself who know the horror of being fat, and would appreciate a frank opinion as to whether there is any hope for getting rid of it."—R. K.

Until recently we knew of nothing that could be relied upon for reducing superfluous flesh, but we lately learned that a specialist in herboristeric had found a means which many of our readers declare to be most astonishing in its effects. One lady who used it lost fourteen pounds of fat from her hips and abdomen in only two weeks' time, so this shows what it will do. The recipe is extremely simple, and you can try it by getting from any and you can try it by getting from any good druggist one dram of quassia chips and three ounces of aremone. Take them home, and after putting the quassia chips in a pan, pour over them a teacupful of boiling water. When it has stood for about a minute, strain through a cloth and add the aremone. Then pour the and add the aremone. Then pour the mixture into a bottle and apply it freely every night and morning with your hands for several minutes, using a circular movement. By taking your weight and measurements each week you can keep measurements each week you can keep track of the exact progress you are making, and no one need ever know how you reduced your flesh unless you care to tell. Phoning E. L. Guillemont, Dundas and Richmond street; Bruce Wallace, 419 Richmond street, and George A. McLachlin, 390 Richmond street, we learn that all these druggists are filling this prescription frequently, and that it can be obtained from them at any time.—Advt.

THIRD SACKER REPORTS

Mike Mullen Looks Good For Place on Team, Says

Marietta, Ohio, April 8 .- The London squad was increased to sixteen today, when Mike Mullen and Jim Malloy reported. Mullen is a stocky lad, who looks a third-sacker, and if his looks count for anything he should make good. Malloy is being given a trial by Reisling on first base, but he will only be kept until "Doc"

can place him with some other club. Weather today is bad for baseball, the temperature taking a drop and the rain turned to snow. It is not likely the players will workout at the park until tomorrow, Today's game was called off, but the convention celebration is on.

eisling had the players out at lege gymnasium early and they worked out until noon. Basketball, handball and indoor baseball was indulged in, and the

## "Jinx" Goes to Marietta, Ohio To Get Inside Dope on Tecumsehs

Bert Perry (Jinx), sporting editor of The Advertiser, has been sent to Marietta, where the London baseball team is in training, for the purpose of giving The Advertiser readers and fans of the greatest of games, "in-

side dope" on pre-season Canadian League baseball. London has been promised a pennant-winning aggregation this year. It is coming to London. The team has been a top-notcher each year, missing the rag by a few games. The tables will be reversed this season. Reisling says so. He has the "know." Undoubtedly one of the fastest. if not the fastest aggregation that ever donned Class C uniforms will represent this city for 1914.

As usual The Advertiser is in the van in giving London and Western Ontario fans the inside stuff on the players. Full reports of the camp doings will appear on The Advertiser's premier sport page daily, while photos of the home hopes in action on the diamond will enliven the

The Advertiser is sparing no pains or expense in giving to the reading public the best and livest there is obtainable in baseball service. Don't miss even the first one. Jinx will have a story with the punch, to tell. It will come exclusively to The Advertiser.

### DEATH BLOW IS DEALT RACING IN VIRGINIA

Attorney-General and Deputies Arrest Twelve Bookles-Racing Now Belleved to Be a Dead Issue.

Jamestown, April 7. - A death-blow was dealt to racing in Virginia by Attorney-General Pollard at the Jamestown track this afternoon when he visited the course with a force of deputies and arrested the twelve bookmakers laying odds on the horses running here, shortly after they had marked up the orices in the second race.

Such action was expected, but the friends of racing had hoped that only one friends of racing had hoped that only one arrest would be made as a test case. Z
Coming as it has, and all offenders being arrested, the friends of the sport fear that this will put an end to the spring meeting here, which was scheduled to run until the 16th inst. This may possibly be the last day's racing.

Could Not Sleep Day or Night. Itched and Burned Terribly. Cuticura Soap and Ointment Cured in a Month. Also Cured Mother of Salt Rheum.

Quarryville, N. B .- "For a month after my baby was born he could not sleep day or night with eczema. He was all covered

with small watery pimples which would break in a day or two and leave a humoury scab and would itch and burn terribly. He scratched so much that he made sores. His skin burned all the time and when the scab came off it left little marks like chicken-pox. At last 1 saw Cuticura Soap and Ointment advertised. After the first ap-

plication he rested easier. I applied the Cuticura Ointment lightly and after an hour I would wash him with Cuticura Soap. After a month's treatment he was cured. "I was greatly troubled with salt rheum on my hands. They broke out in littlewatery pimples and would be so itchy I could tear them to pieces. Then they would dry up and crack and bleed and when I put them in water the disease would eat in to the bones. They were so painful I had to keep

them tied up with cotton rags. I could not

do any work. One box of Cuticura Oint-

ment with the Cuticura Soap cured them.";

(Signed) Mrs. Grattan, July 31, 1913. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

"I dreamed of him, I could hardly wait for the time to come when I was to see him. He never came to the wretched little lodging-house I have old you about. I—I met him outside. One night he told me that he loved me, loved me passionately. I—I said that I would be his wife. Somehow it seemed to me that he regarded me very curiously for a moment or two. He seemed to be surprised, uncertain. I remember that he laughed rather queerly. It did not occur to me to doubt him. One day he came for me, saying that he wanted me to see the little apartment he had taken, where we were to live after we were married. I went with him. He said that if liked not have touched you then; it shall not we were to live after we were married. I went with him. He said that if I liked it I could move in at once, but I would

not consent to such an arrangement. For the first time I began to feel that every-thing was not as it should be. I—I remained in the apartment but a few min-utes. The next day he came to see me, greatly excited and more demonstrative than ever before, to say that he had arranged for a quiet, jolly little wedding up in the country. Strangely enough, I experienced a queer feeling that all was not as it should be, but his eagerness, his persistence dispelled the small doubt that had begin ever then to show itself. had begun even then to shape itself. I consented to go with him on the next right to an inn out in the country, where a college friend who was a minister of the gospel would meet us, driving over from his parish a few miles away. I said that I preferred to be married in a church. He laughed and said it could be agranged when we got to the inn. church. He laughed and said it could be arranged when we got to the inn, and had talked it over with the minister. Still uneasy, I asked why it was necessary to employ secrecy. There was something tragic in the man's face. His son and daughter arose as if moved by an instinctive realization of a duty, and perhaps for the first time in their lives were submissive to an influence they had never quite recognized before—a father's unalterable right to command. For once in their lives they were meel: in his presence. They stepped to his side and stood waiting, and neither of them spoke.

Kingston, April 8. — James Trimmel, from the old country but a few days, was fined in the police court \$10 and costs or twenty days. He carried a loaded revolver and, meeting two men on the street, said he would take all their money. A constable arrested him. He told the magistrate that when leaving England he was given to understand that anyone in Canada could carry a revolver.

The expressions of happlness and gratitude of several of his young lady patients for whom he prescribed the recently successful flesh-forming product known as three-grain hypo-nuclane tablets, is related by a physician in one of the medical publications, and it comes as a surprise to the ordinary layman to learn the heart throbs of distress which seem to affect so many young people who are abnormally thin. Also to know that the weight can be so readily increased by the use, regularly for several months, of this peculiarly named preparation, now obtainable of the best physicians and apothacrany shops in sealed packages with complete instructions for self-administration.

INCREASED MOTOR TAX

Four Hundred Thousand To Be Added to the Revenue by This Means.

[Special to The Advertiser.] Toronto, April 7 .- The report of the noon by Hon. J. O. Reaume called for an ister in charge, a chief engineer and an which deals with the entire problem of highways improvements in old Ontario, W. A. McLean and A. M. Rankin,

The proposed capital expenditure of \$30,000,000 is to be apportioned, according to be dealt with is that of bringing 42,500 to the recommendation of the committee, \$12,000,000 by the province, \$12,000,000 by the counties and \$6,000,000 by the cities. The plan does not extend beyond fifteen made upon them by mixed local and years because of the transitory nature of through traffic. traffic conditions and road construction

Increased Motor Tax. An increased motor tax is suggested to augment the provincial revenue to the possible extent of \$400,000. The basis of the tax recommended is as follows: Automobiles-Up to 20-horsepower, \$10 per car; 21 to 30-horsepower, 50 cents per horse-dividuals and corporations throughout the power; 31 to 40-horsepower, 60 cents per province to respective sale figures varies horsepower; 41 to 56-horsepower, 75 cents from 6 to 96 per cent., and that the inper horsepower; over 56-horsepower, \$1 per horsepower. Highways, the report points out, naturally fall into two main divisions, viz: (1) County or market roads, and (2)

County Roads.

The county or market roads are classified into suburban, interurban and rural. The suburban roads should be maintained by the Provincial department in co-operation with the local authorities. Cities should contribute 30 per cent towards the cost of construction of such roads, and 33 1-3 per cent towards their maintenance. The remaining construction charges should be 30 per cent for the county and 40 per cent for the Province. If the cost of construction exceeds \$10,000 per mile the excess should be met by local improvements charges. Interurban roads should be apportioned as to cost 33 1-3 per cent by the county and 66 2-3 per cent by the Province, and the maintenance 40 per cent by the county and 60 per cent by the Province. The projected trunk road from Toronto to Hamilton and Hamilton to Queenston are exempted from this classification and are rated as suburban roads.

Control of Rural Roads. The rural roads should remain under the control of the county councils or a permanent commission, and the charge of construction should be borne 40 per cent by the county and 60 per cent by the Province.

In regard to township roads, the commission recommends that these should re-Provincial Highways Commission, which main entirely in the hands of the local has been indulging with the doilars of was tabled in the Legislature this after- council. Inequalities of Assessment. The matter of assessment is touched upon briefly. The commission finds that the ratio of property assessments on inequalities of assessments might be remeyears under the jurisdiction of a district or qualified assessor. It is also suggested that a two years' term for municipal councillors might have advantages.

As the proposals outlined could not be rought into operation before 1915, it is rged that the counties now under the highways improvement act be encouraged continue the work and the regulations he made as elastic as possible to alloy other counties to begin work. Miss Innes is widely known in New York, Toronto and other large centres as a Teacher of Dressmaking and as author of the most complete work on this subject: Scientific Dressmaking and Millinery." This book has been ordered by the government for use in Women's Institutes throughout this province, and is being put into practically all Public Libraries. The experience which Miss Innes has had with Dr. Chase's Nerve Food is told in such an interesting manner in her letter that we shall quote it in full.

MISS I. INNES

writes:-"I have a strong constitution and do not neglect the health as many do whose strenuous lives of overwork lead to breakdown of the nervous system. Consequently when, on receipt of a telegram announcing the death of a brother who was very dear to me, the nerves failed me, I went to my doctor and his prescription acted beautifully and restored the nervous system for a time. Again in New York I felt the need of a tonic and had the doctor's prescription filled but to no avail, and just here I want to emphasize the necessity of going to a reliable druggist who you know will use only the best and purest drugs. I was benefitted to some extent by trying a prescription which is used extensively by stock brokers on Wall Street, where fortunes are made and lost in a day, and the nerves give way under the

enormous strain. This helped me but I am writing this letter to say that nothing I used could for a moment be compared to Dr. Chase's Nerve Food. This treatment restored my exhausted nerves, gave me new vigor and energy, and banished the many distressing

and disheartening symptoms which only nervous people will understand. I know there are authors, journalists and business men with whom I come in contact daily who should know about this great nerve restorative. I know there are women in the home straining the last nerve to make the best use of the income in these times of high prices and whose nerve cells have been sapped by worry and anxiety until they live in misery and do not understand the reason. It is because I know this that I want to tell these nervous, worn out people about Dr. Chase's Nerve Food. From my own experience I know just how they feel and just as certainly

All efforts to locate him, however, wer futile and up to a late hour last night he had not come home. Inquiry was made at the school, and it was discovered that he had not attended yesterday afternoon. The next point where information was gleaned was at the laundry kept by

Charlie Lou. Here the proprietor stated that the boy had been in early in the afternoon, but had left his parcel and gone out of

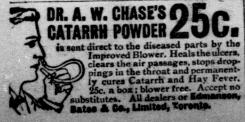

### CADET CORPS INSPECTION

Western Ontario Division's "Annual" Will Start May 5.

The annual inspection of cadet corps in the Western Ontario Division will commence on May 5, when Major McCrimmon will inspect the corps of Arthur High School. The first inspections in London will be the corps of the Collegiate Institute and Taibot street public school on the 18th of May. It will be two months before the complete inspection of the division will be completed.

The past year has been a particularly active one in cadet circles. The number of companies in the first division has been almost doubled. Where last year there were 31 corps there are now from

Preparations for the cadet camp, which is to be held at Carling Heights, opening June 29, are under way, and it is con-fidently expected by the officers in charge of the arrangements that the camp will be notable, not only for the great in crease in numerical strength, but also for the breadth of manoeuvres undertaken.

## ASKS COMMITTAL OF J. W. MOYES ON CONTEMPT CHARGE

Representative of Kincardine Makes Application, and Will Renew It.

HEARING ON WEST SHORE

Question To Come Up Again Before Provincial Railway Board.

[Special to The Advertiser.] Toronto, April 7.—Application was made oday before the Ontario Railway Board to have John W. Moyes, promoter of the trial for contempt of, court.

Mr. Malcolmson, representing the interests of the town of Kincardine, which asked for the committment on the ground that Mr. Moyes had not produced the tonds in court. Mr. Malcolmson alleged that Mr. Moyes knew the whereabouts of the bonds and stated that he had beer evasive during the whele inquiry. Mr. Moyes was not present at the sitting, but his counsel, Mr. Herbert Lennox, K. C., of the board, however, asked that the ounsel make the application in the form of a motion and make the charges more sidered. Mr. Malcolmson promised that he would and will probably make the notion tomorrow morning.

Mr. Malceimson said he was not after Mr. Moyes, but that he wanted the bonds produced, which would improve the condition of the municipalities concerned.

Mr. Lennox Defends Moyes. Mr. Lennox said there was no evidence of contempt, not even that the bonds were in his possession. He said Mr. Moyes had not been asked for them, but Chairman McIntyre stated that he had. There might be perjury, but there is no ontempt," said Mr. Lennox.

"Mr. Moyes has been most evasive and most unsatisfactory," said Mr. McIntyre. If it is in the power of the board to make him produce these documents it will be done.'

Mr. Malcolmson read the law giving the ower to committ. "There is no doubt but that he dis-

obeyed the subpoena," said the chairman. "We are not going to trifle with this thing and we are not to be deterred in the doing of justice in this case which has been one of greatest injustice to the municipalities. I have absolutely no sympathy for him.

Makes Plea for Abolition of the word "Dummy."

Great interest attaches to the annual onvention of the Ontario Association of the Deaf which is to be held in London commencing June 20. In the neighborhood of 300 delegates are expected and the sessions will be held in the Masonic

Hall, Queen's avenue. The association has for its purpose, the furthering of the interests of those persons who are so unfortunate as to have been deprived of the powers of speech and hearing. Its official organ is a monthly journal published in Toronto and called The Deaf Canadian. The following editorial extract from the recent number of the paper, gives some idea of the work that the association is

trying to do. A Gross Mistake. C. P. R. Stock Slumps Heavily, Following Cut in Western Freight Rates.

Local investors have been greatly in erested in the fluctations in C. P. R. stock of late, and particularly in the great lowering of quotations due, the brokers say, to the cutting of freight rates in the west and the consequent af-

fect upon dividends. In 1912, C. P. R. stock was chalked up at 283, at two o'clock this afternoon, the quotation was 200. The market opened today with C. P. R. at 202, which was four and seven-eights of a point lower than yesterday's close. The stock went as low as 199 3-4, but later took a slight upward fluctation.

Winnipeg, April 7. - Trading on the wheat market was quiet during the early hours, and prices firm on higher Liverpool cables than expected. A good demand for high-grade wheat at Liverpool and on the continent sustained firm figures, until the United States Government report was issued, when a sharp break occurred on all months, in sympathy with Minneapolis. The report was taken

as of a bearish character.

On the decline the market was active and nearing the close prices rallied slightly. Wheat prices opened is higher for all months, and closed with a loss of 3 to 1/2c.

## SAGE TEA TURNS GRAY HAIR DARK

OF IMPORTED PLUMAGE It's Grandmother's Recipe To Lustre to Hair.

> That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked, and looks dry, wispy and scraggly, just an application or two of Sago and Sulphur. tion or two of Sage and Sulphur enhances its appearance a hundredfold,

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dan-druff, stop scalp itching and falling

Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. Last Year-Pruning Demonstrations Popular.

Thé Ontario Department of Agriculture, through the agency of the Middlesex representatives. I. B. Whale and J. W. Noble, of this city, have decided to hold three school fairs in the county this coming

Arrangements have been completed whereby these fairs will be held in Nisscuri, including fifteen schools; in Melbourne, including eighteen schools, and in Wardsville with five school.

These fairs are organized and run by pupils of the various schools under supervision of the Middlesex Branch of the Department of Agriculture, their purpose being to stimulate an interest in the various phases of agricultural work among the pupils of the public schools.

The seed for the competitions is sup plied by the department, and great care is exercised in the selection of seed. The fairs held last year were a great intended when he was first appointed to Mexico. The mission for which Sir Lionel with which the pupils are entering into the different competitions, there is a tendency to greater development this year. Pruning demonstrations have also been held in the county by the department every day for the past four weeks, at

> The method of pruning practiced by the department this year is entirely different from the old method; the top of the tree and all small branches on lower limbs are removed, allowing the fruit spurs to remain as numerous as possible, thus giving the sun an opportunity of ripening th ruit on the lower branches.

Farmers and fruit-growers, as soon as the method is explained, can see how logical it is, and if the demonstrations have done nothing else, they have kept many farmers from ruining their trees by removing the large limbs, leaving the trees with a tendency to shoot up, a feature which is detrimental to the production of Fruit growing has received considerable

Woman Saved by Son. [Canadian Press.]

London, April 8 .- (Montreal Daily Mail cable) .- A calamity, the intensity of which is not to be measured by the mere record of damage done and dwellngs destroyed, befell the village of Little Chesterford, in the County of Essex, yesterday. Eleven houses, accommodating nearly fifty out of a total population of one hundred, were burned to the ground and the laborers whose homes have thus vanished will feel the blow all the more because they earn only three dollars a week, and cottages in the

county are everywhere scarce. Among those saved was a centenarian woman. Her son, who is seventy-three, was working in a back garden when he saw the cottages at the lower end of the street were on fire, and had only time to help his mother out of bed and into the garden, when the thatched roof of the house collapsed. He put her in a wheel barrow and wheeled her away

PROTEST DEPORTATION

African Premier.

Montreal, April 8.—The deportation of the nine South African labor leaders has come up again yesterday, says a London cable to the Daily Mail, when delegates representing two million British workers met to give "a definite expression of the challenge of the democracy of Great Britain to Bothaism." The only notable defection was that of the miners federation, which is engaged in

the big struggle in Yorkshire. After a long and vigorous discussion of the whole question, it was decided to send Ramsay MacDonald and J. A. Seddon, two of the leaders of the labor parliamentary party, to South Africa to carry to Premier Botha labor's protest

Are Therefore a Reason for Not Attending Church, Says Evangelist.

SHOULD NOT STUDY SELF

Faith Should Not Be Continually Probed and Dissected to Discover Its Stability.

"Many people do not care to go to church, but sometimes I do not blame them," declared W. R. Lane, the English evangelist, speaking before a large congregation in First Methodist Church last night. "There are so many people who call themselves Christians who are libels on the name. I sometimes think that they have been sipping vinegar all their ives, or sucking lemons, they look so sour. God does not want us to be sour. He wants us to be happy, reflecting the spiritual grace that is within us.

Terrible To Look Back. "It is a terrible thing for some people to look back. I hate to think of anyone looking back with quickened memory from a deathbed, or from the last judgment, on a life that is little else but blots and stains. I cannot conceive of anyone looking back, even on their best days, without being humbled. Yet, thank God, how many they are who look back to be humbled but not cast down. They look back to an older story, an older life, the life of Jesus Christ, and in the atonement

of Calvary find the peace of God. "Salvation is a great word. It is scripturally correct to say 'I am saved,' if you believe in Christ. By His death you have been justified before God. Our sins have been put down to the account of Christ, and all the merit of His death has been transferred to our account. If looking back to the dying Savior means peace, then looking up to the living Savior is

preservation. Do Not Study Self. "Do not always be studying yourself," he evangelist counselled. "There are people who, if they have a little faith, are always taking it out and putting it on the dissecting table to discover whether or not it is true faith. Yet there are times when you should look within, and often you do not find yourself looking in and third items have been well set. what the old divines called 'experimental New Arrival gets his answer in the religion,' that is, spiritual experience. paradox set forth in the headlines of Look within, and if you find God there it the third item: "29 mill tax rate." means in-dwelling power that can conquer any external obstacle.

### Beautiful Flowers At the West Store

West's flower store at 249 Dundas street is at present a bower of beauty and is well worth a visit from flower lovers. Mr. Emmery B. Hamilton who has had many years experience in horticulture and who is connected with the West shop as manager, returned from a trip of inspection of the large greenhouses of Canada on Monday. With him he brought some of the fin-

est flowers ever seen in London and other large shipments are now on the way. People who have witnessed Easter displays of New York say they do not equal that of West's. On display in the window at the present time are giant hydrangea, rhododendron and azaleas. The latter present a particularly beautiful appearance with their ing considerable attention are the orch-

beautiful thick foliage and their thickly clustered blooms. They are shown in many colors from a virgin white to a dark red. Two plants that are attracting considerable attention are the orchids which Mr. Hamilton was successful who are credited with being very rich in securing. The spireas also present a beautiful appearance at this time of seen at the West store.

In the rear of the store are to be seen dozens of sturdy palms, ferns and rubber plants. Rambler roses, genistas and nu merous other flowers vie with the rest of the handsome display for recognition. Hundreds of beautiful Easter lilies rear

beautiful cut roses, violets, sweet peas, tulips and daffodils. On his way home, Mr. Hamilton spent some time amongst the dealers in Toronto and other cities, and none of their

stocks could compare in any way with the West display A special invitation is extended to every citizen to visit the store and inspect the

Collegiate Committee to Get Bids on Improvements -\$800 for Nurses.

In a session lasting nearly three hours, the feature of which was the amount of time consumed in comparison with the really small amount of business transacted, the board of education yesterday afternoon considered a proposal to appoint an expert engineer to superintend the heating and ventilating work in connection with the construction of schools. The outcome of the discussion was a motion referring the matter to two com-

The building committee will consider the appointment of such an official and report to the board, while the Collegiate Institute committee will decide whether or not it is advisable or necessary to engage a heating and ventilating engineer to supervise that portion of the \$30,000 renovating and improving job at the Collegiate. If the Collegiate committee considers that such expert advice is needed, it will have power to engage the expert for this contract. Two Applications.

The board had lengthy communications from Harris P. Elliott, of this city, and Harry H. Angus, of Toronto, applying for the position, and offering various reasons why such an official should be appointed and why each, in turn, was best fitted to fill the bill. In both cases, commissions the work, running from two to five per cent were suggested.

McBride & Gilbert, the architects who ave the plans for the Collegiate changes under way, wrote the board that they were quite prepared to go ahead with the job without the assistance of a heating and ventilating engineer, and this started the discussion

Trustee Dr. W. J. Teasdall declared that he board had gotten along very well in the past without a heating engineer, and that he did not consider the appointment of such an official necessary. He was for filing the letters of both applicants.

Trustee A. E. Silverwood, who was largely responsible for securing the apcointment of a firm of school architects recently, thought it would be good business to engage a heating and ventilating engineer. He believed that no architect or firm of architects in the city had had the opportunity of securing the experience in these two branches of building that had been secured by the men making application to the board, and he reminded the trustees that Watt & Blackwell, the firm appointed as school architects, had suggested the appointment of a heating

engineer. Trustee Dr. J. P. Mugan agreed with rustee Teasdall that the engaging of a eating engineer was simply loading the ity up with unnecessary expense. Other members voiced their opinions and during the course of the afternoon and early evening fully a dozen motions,

The board will pass upon the committee's tentative award of contract at the next meeting, so 000 lots in this beautiful London then that the work may be proceeded with as quickly as possible.

Trustee John M. Gunn submitted a moion to have the committee also consider proposal to increase the fees in the middle and upper schools of the Collegiate, but to make some provision for the awarding of scholarships and the assistance of poor but worthy pupils. Trustee E. R. Dennis, chairman of the

ommittee, was strongly against raising the fees until the building was put in proper and decent shape for housing the pupils, but the board, on the chairman's deciding vote, fell in with Trustee Gunn's suggestion Messrs. R. M. Burns and B. C. Me-Cann, of the Separate School Board, waited on the trustees to ask if some arrangement could not be made whereby the separate school pupils could be taught manual training and domestic science, either through the loan of the

days, or in the centres used by the public school pupils for this purpose. No objection was made to the request, and it will be given consideration at the next meeting of the finance committee. \$800 For Nurses. The board accepted the recommendation of the finance committee to pay the three school nurses a minimum salary of \$600, raising at the rate of \$50 per

year, to a maximum of \$800. Trustee W. G. Young thought that the nurses were entitled to a \$900 maximum as well as the women public school teachers, but as none of the three young women on the nursing staff have reached the \$800 limit, it was decided to take no action toward increasing the maxi-

mum at the present time. Chairman A. M. Hunt and Trustees L. H. Martyn and W. T. The general excellence of the models displayed n the many classes on view drew thousands of visitors during the week, and both exhibitors and members of the faculty are deserving of high praise for the phenomenal success achieved.

The domestic classes had by far the greatest number of articles displayed, and the girls who evolved the dainty dresses, exquisite millinery and the many feminine furbelows and fancies that so charmed the lady visitors are to be con-

gratulated upon the evident skill apparent in their work. The boys' industrial classes contrib-
