

SEEK ABOLITION OF 50-CENT FAIR CHARGE

FORD CARRYING OUT THREAT TO CLOSE UP SHOP

Thousands Laid Off in Detroit and Other Centers Making Ford Parts.

CANADIAN PLANT OPEN

Prices of Coal and Steel Caused Magnate to Resort to Drastic Move.

Detroit, Mich., Sept. 15.—Paying what he believes to be exorbitant prices for coal and steel, Henry Ford today began the process of closing up his huge industry.

With the suspension complete when the last shift of workers leaves the various factories tonight, approximately 100,000 men will have been rendered idle for an indefinite period. The plants affected include the five factories in the Detroit area and numerous assembling stations throughout the country. Other concerns, the output of which goes chiefly to the Ford Company, also are expected to suspend operations. The past week brought some improvement in the fuel situation, Ford officials asserted yesterday, but this, they said, did not warrant a change in the suspension order.

The first lay-off of men occurred last night at the River Rouge blast furnaces, where about 18,000 are employed. When shifts were changed the workers turned in their tools and were told to return until notified of a resumption of operations. Two thousand men are to be retained at this plant, however, to tend the coke ovens, which cannot be allowed to cool.

Thousands Out Here.

At the Highland Park plant the night force went to work as usual, but completion of the night's work brought the same notice given the steel workers. "The day and early night forces were to be checked out in a similar manner. Approximately 40,000 men are employed at this plant. The remainder of the workers affected are employees of the Dearborn Tractor factory, the Lincoln plant at Northville and those in cities outside Michigan.

Most of the factories likely to be affected by the closing of the Ford industries through the loss of their chief market are located in Detroit or nearby Michigan cities. They manufacture various parts and accessories not produced by the Ford shops, and in most cases are equipped only for this work. No authentic information as to the number employed in these shops could be obtained today.

CANADIAN PLANT OPEN

Windsor, Sept. 15.—(Canadian Press.)—Wallace R. Campbell, vice-president and treasurer of the Ford Motor Company of Canada, Limited, when asked today whether or not the Canadian company would take any action following the announcement that the Ford plant in Detroit would be closed by tonight, refused to give out any statement other than the fact that the Canadian plant will not close immediately.

"I do not care to discuss the matter at the present time," said Mr. Campbell. "All I can say is that we are not in the same position as the American company."

"Will you definitely say that the Canadian company will not close at the present time?" Mr. Campbell was asked.

"No, we will not close at the present time," Mr. Campbell replied.

REPORTS WHEAT YIELD BETTER THAN EXPECTED

Department of Agriculture States Saskatchewan Crop Averages Well Over 25 Bushels.

Regina, Sask., Sept. 15.—While unsettled weather in some parts of the province has prevented the threshing being proceeded with very far during the past week, a considerable amount has been accomplished, and in a few sections has been 30 per cent completed.

Statistics received from the department of agriculture and the Canadian National Railway indicated that the yield is coming out better than was expected. Several points show an average yield of from 35 to 45 bushels an acre, while the average is well over 25.

THE WEATHER

FORECASTS.—Toronto, Sept. 16.—Fresh north-west winds; fair and quite cool tonight and on Sunday; probably frost in some places.

LOCAL TEMPERATURES.—The highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night were: Highest, 72; lowest, 53.

The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 61; lowest, 45.

Barometric Readings.—Friday—5 p.m., 29.45.

Today—8 a.m., 29.49.

Municipal Board Turns Down City Plea

GIVE SANCTION TO EAST LONDON ESTATE SURVEY

Municipal Board Refers to the Action of City as "Not Very Honorable."

PROTESTS WERE FILED

Claim Local Improvements Had Not Been Provided For in Survey.

Characterizing the action of the city of London in refusing to permit the opening of Pine Grove real estate survey on the ground that local improvements, such as sewers, paved roads and sidewalks had not been constructed, as "not very honorable," the Ontario Railway and Municipal Board has "kicked over the head" of the city council and granted Mahaffy Brothers, who appealed to the board, permission to open this survey and sell building lots.

A few months ago this firm submitted a plan of Pine Grove survey to the city council, but on the advice of Mayor Cameron Wilson, ratification was refused on the grounds that local improvements were not included, as demanded by recent regulation of the council. Through J. G. Winnett, the real estate firm appealed to the Ontario Railway and Municipal Board, which body refused the action of the city and granted permission to open this survey.

Accepted the Plan.—The plan was accepted by the Ontario railway and municipal board, and despite the city's protest building lots are now being sold on the Pine Grove survey. Although City Clerk S. Baker asked the board for a postponement of a hearing in order to have the city represented, that body refused this request. The city council of London was not represented at the hearing, and the decision rendered sets a precedent for other realty firms whose plans of new surveys may be held up by the city on similar grounds.

In refusing to postpone the hearing the board pointed out that such action "had been set out at length in a letter of the 21st instant, and these objections did not commend themselves to the board, as if conceded, it would amount to a gross breach of the terms upon which the property subdivided and other property were annexed to the city of London."

Secondly, the plan submitted met in the fullest measure all the requirements of the planning and development act as far as this board is called upon on an application of this kind to administer that act.

Regarding the final decision, the board says: "In view of the foregoing the board disposed of the matter, and marked the plan approved so that it may be registered."

An East London Survey.—Pine Grove survey, as exploited by Mahaffy Brothers, is west of Highway avenue, and north of Hamilton road, in East London.

During the hearing D. M. McIntyre, K.C., chairman of the Ontario Railway and Municipal Board, declared: "This is an eleventh hour awakening on the part of the city."

In view of the fact that several real estate surveys in this district had previously been accepted without objection, J. W. G. Winnett, who represented Mahaffy Brothers, states that the city had attempted the same "thing" before.

He pointed out that none of the streets were less than 66 feet in width, and the chairman added: "This is an excellent survey. On the grounds of the statute limiting our powers we cannot give effect to objections of the kind raised, and in the next place the objections are such that on their merits they are not entitled to consideration."

Uses Strong Terms.—"It is an attempt by the corporation, not a very honorable attempt, to evade its own liability under the order for annexation," continued Chairman McIntyre. "The plan is Turn to Page 2, Column 4."

Trying New Crossing at Adelaide St. That May Reduce Bumps for Autoists

As an experiment in this city Grand Trunk officials will remove the planks on Adelaide street crossing next week and in their place will construct a crossing for vehicular traffic of crushed stone, treated with asphalt.

An effort to remove many of the holes which have become the bane of motorists.

Provided that the experiment warrants such action, other Grand Trunk crossings in London will be treated in a similar manner, and spring trouble will be reduced in city-owned autos.

When completed the Adelaide street crossing will resemble the track at

Says Lord Northcliffe Left \$35,000,000

LONDON, Sept. 15.—(Canadian Press Cable.)—The weekly paper, The Nation, says it understands that Lord Northcliffe left a fortune of nearly £7,000,000.

It had been intimated at various times that the figure would be a much larger one. No official statement has yet been made.

EUROPE UNEASY OVER ADVANCES BY TURK ARMIES

Russia Has Agreement and Recruits Are Called to Join the Colors.

BUTCHER ALL VICTIMS

Tales of Death by Sword to Women and Children—Soldiers Drowned.

BULLETIN.

LONDON, Sept. 15.—The British government has adopted the attitude that the effective and permanent freedom of the Dardanelles is a vital necessity, for the sake of which it is prepared to make exertions, it was authoritatively stated this forenoon.

LONDON, Sept. 15.—Official dispatches received from Smyrna today state that all the foreign consulates were destroyed by the fire, with the exception of those of Spain, Belgium and Norway.

LONDON, Sept. 15.—Succeeding dispatches from Constantinople, Athens and other centers of information in the Near East, only tend to magnify the tale of the tragedy in Smyrna. The greater part of the city is in ruins, laid waste by a conflagration of incendiary origin, and the flames, according to the latest account, had reached the waterfront, where the quays were crowded with fear-crazed Christian refugees, who fled to the city as the nearest port of escape from the Turks.

Many have thrown themselves into the water rather than run the risk of being burned alive or of facing Mustafa Kemal Pasha's soldiers, drunk with victory, and fired with religious fanaticism. Others have had the chance to choose, according to dispatches from Greek sources, which tell of horrible tortures and mutilations, and wholesale executions. Large numbers of Greek soldiers have been decapitated, they say, and others forced into sacks and thrown into the sea. Allegations of having served in the Greek army bring death to the Armenians, and women and children are being put to the sword.

120,000 People Killed.—Estimates of the number killed vary greatly, and the latest Athens dispatch quotes a relief worker as declaring that up to Thursday morning there had been 120,000 victims. It is thought this figure may include the wounded also, as previous reports placed the number of dead at from 1,000 to 2,000.

Landward from the city, it is reported, that all the villages are burning, and that the whole countryside has been devastated.

Turks Press Forward.—Meanwhile the Turkish forces in the north have continued their advance, and almost simultaneously with the new of their capture of Fenerhama, on the Sea of Marmora, comes the announcement that the British fleet in the Dardanelles has been ordered to prevent any attempt to cross the Straits, and that no ships shall be allowed to concentrate for the purpose of transferring troops in a movement toward Thrace.

Jugo-Slavia and Rumania also are watching every move in this direction and they are opposed to the Turks again securing a foothold in Europe. While the Turks do not possess a navy, they control a swarm of light

Charge Fortune-Tellers Stole \$1 From Constable

WESTERN FAIR PERFORMERS.

CHARGED with stealing \$1 from the person of Constable Agmon Barryman, four gypsy fortune-tellers at the Western Fair, Lizzie Munda, Lizzie Dimitro, Mary Mitchell and Louisa Dimitro, were arraigned for trial in police court this morning, but at the time of going to press their hearing was not completed.

Police had been receiving complaints Thursday and Friday of visitors to the fair losing money in the gypsies' tent, Inspector Lucas stated. So Friday evening Constable Barryman was sent to the tent with marked money, while Detectives Harry Down and Thomas Bolton waited outside.

Constable Barryman was standing near the fortune tellers, he said, when Mary Mitchell, 19 years old, beckoned to him. He did not heed her, so she came over to him, and asked him to come inside. She took him into a compartment at the rear of the tent, and read his hand. She told him the charge would be 25 cents, he testified.

After she had read his hand, he stood up and she put her hand in his vest pocket. She asked him how much money he had. The defendant induced him to let her hold it for a few minutes. Then she placed it across his breast and told him to throw his head back.

Apparently he did not throw his head back far enough, he said, for she asked him to throw it back farther, and as he did she drew a bill from his roll and hid it in her clothing.

"How much change have you?" she asked him. He told her he had 85 cents. She asked to be allowed to handle it. He gave it to her and she wanted to keep it so that he would be "lucky." The officer told her it was all the change he had and asked her for it back. Finally she gave him 50 cents of it.

When Barryman unfolded his tale to the other officers they entered the tent and arrested the four occupants. Detective Down said that he found a bill which he had marked among the money Mary Mitchell had in her possession.

According to the defendant, she read the officer's two hands and his head, and made the customary charge of \$1 for such service. She denied stealing any money from him.

A. H. Murphy is acting for the defendants. Crown Attorney J. C. Elliott is prosecuting.

Mary Mitchell, 19 years old, fortune teller at the Western Fair, was found guilty in police court this afternoon of stealing one dollar from the person of Agmon Barryman, police constable, who visited her tent with marked money, under instructions from headquarters.

PASSE STREET CAR, IS FINED \$5

Although Arthur Cole pleaded in police court this morning that he passed a standing street car on the left hand side at the corner of Quebec and Dundas streets, because he wanted to avoid a traffic jam, and because an American tourist led the way, he was fined \$5 and costs.

Magistrate Graydon told him that this practice was most dangerous, as it not only endangered the life of the driver and his passengers, but the lives of pedestrians and motorists who happen to be proceeding in the opposite direction.

Find Welsh Coal Gives Greatest Heat

OTTAWA, Sept. 15.—Samples submitted to the Dominion government mining officials show that imported Welsh coal has practically 10 per cent less ash and 10 per cent more carbon than Pennsylvania anthracite, which is used extensively in Canada. This figures out at 17 to 18 per cent more heating proportions.

REVIVE RUMORS OF ELECTION IN GREAT BRITAIN

Reports State That Vote Will Take Place in October.

PREPARE VOTERS' LISTS

Labor Expected to Nominate Over 400 for House of Commons.

LONDON, Sept. 15.—(Canadian Press Cable.)—There has been a revival this week of the rumors that a general election will take place in October, although it is difficult to find any solid basis for these reports.

In Manchester, which is hardly second to London as a center of political influence, it is stated that Laborite officials have received instructions to prepare for an immediate contest. The Labor chiefs deny the authenticity of the report, but the Evening Chronicle, which first carried the rumor, persists that it is correct.

The London Times' parliamentary correspondent thinks much will depend on the producing of a popular budget next spring, but if that proves impossible the government "might prefer to gather what gleanings of gratitude remain from this year's reduction of taxation."

New voters' lists certainly will be ready by the middle of next month, but municipal elections, invariably falling in November, will render October an inconvenient month for a parliamentary election.

The Laborites declare they will fight wherever possible, whenever the election comes. The party had 851 candidates in the field on the occasion of the last election. Already 400 are definitely accepted for the next election, with another fifty probable. About half of these are trades union nominees, only four of the existing seventy-five Laborites in the House of Commons not seeking re-election. The new Labor candidates include army and navy officers, doctors, nonconformist ministers and several women.

SAYS CITIZENS WILL NOT BUY INDUSTRIAL BONDS

Assessment Commissioner Stephen Grant offers an original explanation to the problem confronting members of the city council and chamber of commerce as to why industries do not locate in London with greater frequency.

"When I was out on the street assessing each year I found out that citizens of London are not eager to purchase industrial bonds," said Mr. Grant. "This is different to other cities, and may account for less industries coming to London, for as they would rather go where they can get the backing of the people in a tangible manner."

B. C. CHINESE RETURN TO SCHOOL AFTER STRIKE

VICTORIA, B. C., Sept. 15.—The strike of Chinese school children in Victoria is petering out. Mollified by the promise that Chinese scholars will be admitted to white schools if they speak fluent English, and by the fact that twenty pupils marked for separate schools already have been received back in the ordinary schools, the other 200 pupils under high school age, who struck against special schools for Chinese, are filtering back to their desks in the separate schools.

Farmers Want Men, But Most of Them Prefer to Secure Positions in City

The demand for farm help around London at the present time is very large. Some farmers will give work to good husky men all the year round, but the men do not take to these positions as they should, the majority asking for city work.

"I only ride on pavements," said the defendant, as he hobbled up to the magistrate's bench on crutches. "I went to the home of a boy who lost his leg recently to show him how to work it. He was having trouble with it. There is a bad road in front of his home, so I rode on the sidewalk," he explained.

EXHIBITORS AT WESTERN WANT LOWER ADMISSION TODRAW LARGER CROWDS

Petition Circulated on the Grounds Generally Signed—Many Express Willingness to Pay More for Use of Booths—Sales Made on Grounds Determine Value of Fair to Manufacturers.

STIRRED to action by a week of poor business, which they attribute chiefly to the 50-cent admission fee, exhibitors at the Western Fair have prepared a petition which they will present to the board of directors at an early date.

The petition, which was circulated throughout the various buildings where exhibits are located, was signed by practically every concessionaire. Those who were responsible for the movement met with refusals only at the hands of junior representatives of firms who, while in many instances they were in accord with the sentiments expressed, felt they lacked the authority to take a stand.

Three large sheets attached to the petition were reported well filled early Friday afternoon and still more names remained to be secured.

The businessmen felt that a high admission rate was unfair to them as they did not gain adequate returns for their investments when the attendance was small. In many instances they are willing to pay much higher rents for space in the various buildings if they could be assured of crowds larger than those of the past two years.

PAVE WAY FOR MAKING FAIR CITY PROJECT

Directors Take Action as Result of Criticism of High Admission.

SUGGEST IMPROVEMENTS

Board May Rearrange Booths in Main and Dairy Buildings.

Paving the way to a complete reorganization of the financial basis of the fair and a probable return to the 25-cent admission fee, the board of directors of the Western Fair Saturday morning instructed E. S. Little, chairman of the grounds and buildings committee, and a special committee, to wait on the city council, with a view to having the fair turned into a civic enterprise.

This action was the outcome of the meeting Friday, when much criticism was passed on the 50-cent admission by some of the directors, and when it was practically decided that the only way to secure the cheaper fare again would be by financial backing from the city.

The special committee appointed by Mr. Little and the president consists of Directors Arthur Ford, A. E. Silvestro, Aid. H. J. Childs and Capt. T. A. Robson. The committee will also have the power to report on ways and means of improving the fair generally.

Mr. Little, as chairman of the grounds and buildings committee, made several recommendations for improvements Saturday morning, following a tour of inspection made Friday.

Among other things, he suggested a re-arrangement of many of the booths in the Main Building, the Pure Food Show and the Dairy Buildings, an extension to the rear of the Dog Show Building, the closing of the Horticultural and Agricultural buildings each year until all exhibits are in place, the placing of the saddle-horse judging arena in clear view of the stands to the north, and the erection of a new roof on barn No. 2, and a sewer extension from the subway to the King street entrance.

Many other minor recommendations were made by various members.

LOGGING OUTPUT REACHES ONE MILLION FEET DAILY

VICTORIA, B. C., Sept. 15.—Great logging activity is now under way in the Cowichan and Nitinat Lake districts of Vancouver Island, which is the richest timber belt on the British Columbia coast. The output of logs from Cowichan Lake has jumped to one million feet a day. This is just twice the former daily shipments.

Not Getting Sales.—Similar were the comments made by others, among whom was J. W. Jamieson, of R. A. Lister & Co. "It is one of the greatest drawbacks to the complete success of the fair that I have met with," said Mr. Jamieson. "The directors are trying a rope around their own necks."

During the seventeen years that his company had been exhibiting at the Western Fair, he said, he had always considered it one of the best business-getting places at which they exhibited. "We used to sell as much here as we did in one week at Toronto," added Mr. Jamieson, "but this year five minutes' sales at Toronto would equal our total sales here for the week."

"We are feeling the effect of the Turn to Page 2, Column 2."

BACON TYPE OF HOG WINS FAVOR

Yorkshires and Tamworths Predominate in Western Fair Swine Exhibits.

Fat-Producing Porkers Lose Popularity in Western Ontario.

Swine exhibited at the fair this year proved above everything else that the farmer of Western Ontario is going in strong for the bacon type of hog. This is borne out by the fact that Yorkshires and Tamworths, the ideal bacon hogs, predominated in the exhibits as a whole.

The growing popularity of the bacon type of hog was accredited by L. E. O'Neill of the department at Toronto, who acted as superintendent of livestock at the fair, to the demands of the British markets, which is at the present time the only outlet for Canadian pork. Mr. O'Neill stated that nothing but Wiltshire sides is suitable for export purpose.

Plan Grading System.
The government grading, which is to be effective in the near future, has much to do with the growing popularity of the Yorkshire Tamworths. Every effort is being made by the government to foster the production of this type of hog to win back the British market from Denmark. The Berkshire, which at one time and still is in the United States more of a fat hog than a bacon type, is fast being turned into a bacon type in Canada through selected breeding. Gradually the farmers are getting rid of the heavy shoulders and producing in its place a long bodied hog.

Wins in Yorkshires.
In Yorkshires F. K. Featherston of Streetsville was a heavy winner, while J. E. Featherston of Hornsby and George Miner of Exeter captured many prizes.

George Douglas of Mitchell had no competition when he showed a drove of 40 Tamworth hogs. They were all splendid animals. Henry Capas, Wyoming; Dunn Bros., Essex, and George, Essex, were the winners in the Chester Whites, Duroc Jersey and Poland China classes, respectively. The exhibits were fewer than in 1921, but they were all of excellent quality.

WEDDING BELLS

GILLIES-LEWIS.
A pretty autumn wedding took place Saturday morning at the Adelaide Street Baptist Church, when Pearl A. Lewis, daughter of Mr. and Mrs. George Lewis, was married to Lawrence Gillies, son of Mr. and Mrs. D. H. Gillies. The ceremony was performed by Rev. G. A. Leichter. The church was effectively decorated with pink and white flowers, tastefully arranged. Promptly at 10 o'clock, to strains of the Bridal Chorus from Lohengrin, the bride party entered the church. The bride, was charming in a graceful gown of taupe crepe, trimmed with silver gray, and a smart black hat of panne velvet, and her carriage was of Ophelia roses. Miss Hazel Gillies, of Windsor, sister of the groom, was bridesmaid, and Mr. Ernest Shaw of London, acted as best man.

Following the ceremony a reception was held at the home of the bride's parents in Mill street. Mrs. Lewis, mother of the bride, was crowned in navy blue tulle, with a black hat, and the groom's mother, Mrs. Gillies, wore a gown of navy blue silk crepe, with a black hat. The rooms were decorated throughout with rose-toned and white asters. A wedding breakfast was served, the table being centered with the bride's cake, and an ornament, forming a large pink rose.

Mr. and Mrs. Gillies left on a honeymoon, by motor, to Syracuse, and through New York State, the bride traveling in a smart suit of navy tulle, with a squirrel fur, and a gray duvetone hat. While in Syracuse they will be the guest of Mrs. W. T. Zeller, sister of the bride. Upon their return they will reside in London.

AGED RESIDENT OF TORONTO DROWNS

TORONTO, Sept. 15.—J. D. Lewers, aged 65, of Toronto, was drowned at Sunnyside this afternoon. A visitor noticed the empty canoe and a hat floating on the water.

Dragging operations by lifeguards revealed the body. There was no water in the canoe, so it is supposed the man must have had a fit and fell out or died of heart failure.

NEW LAMP BURNS 94% AIR

BEATS ELECTRIC OR GAS
A new oil lamp that gives an amazing brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal-oil).

The inventor, S. E. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.—Adv.

Will Show Children How To Ring In Fires.

Special to London Advertiser.
STRATFORD, Sept. 15.—As a means of keeping the need of fire prevention ever before the minds of school children, Fire Chief Kappelke is arranging, if possible, to give a demonstration of the operation of a fire alarm box. This will take place on Oct. 9, the opening day of Fire Prevention Week.

NEWS BRIEFS

INGERSOLL.—The death of Daniel Shepan occurred at his home, John street, in his 83rd year, following an illness of two years.

LONDON, ENG.—King George, in order to effect further economies in the royal household, is dispensing with a team of state carriage horses, reducing the staff and putting some of the servants on pensions.

JACKSON.—It is expected that the 47 miners entombed in the Argonaut mine will be reached by Sunday. Experts give out the cheering news that a supply of fresh air is entering the lower reaches of the mines.

BERLIN.—Alarmed by the thought of an empty treasury and the threatening financial and economical conditions with winter before the door, the city council of Berlin has resolved upon drastic measures of economy.

BRANTFORD.—The Brantford Rotary Club, at its regular meeting, passed a unanimous resolution supporting the town planning commission in its proposal for a civic center development plot for the West and Bridge street area.

ST. THOMAS.—Objections to the plan of placing overflow classes of public school children in basements of churches were raised by several members of the board of education at their meeting Friday, and it was decided that the members had better examine the situation on the ground.

KITCHENER.—The special committee of the city council appointed to consider the charge, recently made, that Ald. Hartung, chairman of the city hall, was financially interested in the sale of some of the property to the city, reported that they were unable to find any trace of any irregular proceedings, and that the transaction made some time ago was a legitimate business one.

SEEK LOWER FAIR GATE ADMISSION

Continued From Page One.

raise in prices; next year will be worse, probably fatal, as far as we are concerned," said W. B. Spaulding, of the Canadian Brush Company, was of the opinion that space charges in the buildings might be raised, and the gate admission lowered to the old scale.

He felt that the 25-cent admission during the whole week would result in a sufficiently large attendance to show the exhibitors a profit in sales. And the exhibitor, in turn, would gladly pay more for his space.

"I, for one," said Mr. Rait, "would far rather pay double for space, and have larger crowds."

The Family Man.
It is out of reason to expect a man with a family to come here with the 50 cent price prevailing, said W. B. Spaulding, of the Canadian Brush Company. "Many would come several times during the old system, but now they do not come at all. They won't pay 50 cents when Toronto charges 25 cents."

He pointed out that all his firm depends on at the Western Fair is sales of brushes, and during the last two years numbers of valuable customers have been lost.

A Swaze, representative in this district for the John Deere Company, pointed out that the advertiser that a farmer with a family of six might motor to Toronto almost at a saving. With the five for \$1 admission at Toronto, \$1.25 would admit six to the grounds and a similar amount to the grand stand. Here six admissions to the grounds and the grand stand totaled \$6.

"That is a saving," figured Mr. Swaze, "almost enough to pay for the trip. What farmer will pass that up? Why should the price be 50 cents here and five tickets for \$1 in Toronto?"

S. Orth, of Orth, Limited, who was talking with some other exhibitors when the Advertiser saw him, was dissatisfied, as were the others. "It is to the detriment of the citizens, the Western Fair Board and the exhibitors," said Mr. Orth. "We expect to get circulation in Fair visitors in return for our trouble and expense. We certainly are not getting the crowds."

Comments heard everywhere on the grounds were very much in the same vein. One who would not have his name used compared Thursday night, with the lights out, to a party at a day. Several were not certain that under existing circumstances they would exhibit next year.

"The directors must turn a pretty sharp corner," advised one manufacturer.

FORD WILL ERECT PLANT IN TORONTO

TORONTO, Sept. 15.—The Ford Motor Company has purchased fifty acres of land from the Grand Trunk Railway on the eastern border of the city for \$175,000, and will erect thereon a one-story car-assembling plant, having 150,000 feet of floor space.

This is the first property in Toronto or its vicinity sold by the Grand Trunk for more than 40 years. This particular property has been owned by the railway for 36 years.

PLANE CRASHES WHEN LANDING

Passengers Escape After Severe Shaking-Up in Merwin Heights Wreck.

Pilot Tries To Avoid Frightened Cattle and Strikes House.

The airplane which has been doing stunt flying at the Western Fair this week crashed in landing at Merwin Heights about 11:30 Friday morning. The plane was completely wrecked, except for the motor, which has been salvaged. The passengers escaped with a severe shaking up. The plane, piloted by Capt. F. W. McCarthy, with J. Elliott as passenger, took flight at Hamilton and flew to London, where it did stunt flying over the fair grounds. It then proceeded to Merwin Heights, where it had been landing earlier in the week.

The ground at this place is rough and hilly, as it is nothing more than a pasture field. As Capt. McCarthy was about to land against the wind, as it serves as a brake, he was confronted by a herd of frightened cattle running wildly in front of him. He then attempted to land sideways, and as the view is obstructed at the pilot's seat, found that he was going down a steep grade straight for a farm house. He then tried to fly over the house, but hit and came crashing to the ground.

The plane was owned by J. Elliott of the J. Elliott Radio Manufacturing Company of Hamilton. Capt. McCarthy is also of Hamilton, and is known as one of Canada's best pilots.

The fliers had planned to leave London on Friday afternoon for New Hamburg, Kitchener, Elmira, Rockwood, Orangeville and Oakville, where they were to have done stunt flying.

REPORT DEREHAM MAN RECOVERING

James Nixon, Struck by Auto, Said To Be Progressing Favorably.

Special to London Advertiser.
INGERSOLL, Sept. 15.—James Nixon of Dereham Township who was seriously injured on Thames street a few days ago by being run down by an automobile, is making favorable progress towards recovery at Alexander Hospital in addition to a very serious fracture of the right leg. His injuries were considered more serious owing to the fact that he had only recently left a London hospital after undergoing a critical operation.

In the police court today Fred Cornish was charged with driving his automobile at an excessive rate of speed over Thames street intersection. The speed at which he was traveling was estimated by Chief Holmes at about twenty miles an hour. Cornish pleaded guilty and was fined \$10 and costs.

DORCHESTER.
Special to London Advertiser.
DORCHESTER, Sept. 15.—The Excelsior Bible Class of the Methodist Church held an enjoyable corn roast on Saturday evening last at the grove of Mr. A. Georges.

Mrs. Hillis of Cleveland, Ohio, is the guest of Mrs. W. B. Lane.

The annual school fair will be held on Monday, September 18, on Donny's grove fair grounds. Harriestville, Salem and Dorchester Institutes are presenting a banner for the best school parade. The school winning it three years to be the owner of the badge. Dorchester W. I. intend having a booth at the fair.

Harvest Thanksgiving Services will be held in St. Peter's Anglican Church on Sunday, September 17. Services will be conducted at 11 a.m. and 7:30 p.m. by Rev. Mr. Smith, returned missionary from India. The work of re-decorating St. Peter's Church has been in progress for several days. When completed the appearance of the edifice will have been greatly improved.

FAILS TO ISOLATE POISON IN MYSTERIOUS CHEESE

LONDON, Eng., Sept. 15.—Canadian Press Cable.—Dr. Bruce Low, medical inspector for the ministry of health, who has been inquiring into the cases of cheese poisoning at Dover and Warrington, made a chemical test of the Dover cheese and failed to find any trace of poison and then made bacteriological and microscopic tests which also failed to detect any harmful bacillus.

Dr. Low then ate some of the cheese himself and immediately became ill. He carried out the same program with the cheese from Warrington with exactly similar results.

According to the latest estimates, about nineteen billion telephone messages are transmitted in the United States annually.

Henry Ford Commences Closing Automobile Plants At Detroit.

DETROIT, Sept. 15.—Henry Ford late today took steps to close his Detroit automobile plants, beginning tonight, thereby throwing upwards of 100,000 workers in the Detroit district out of employment for an indefinite period.

He asked officials of the Detroit Street Railway to rearrange its schedules to care for the night forces at his various factories, who will be dismissed at 11 o'clock, it was announced.

western lake ports Saturday afternoon on the schedule of the Noronic and the Thursday sailing is now discontinued. The passenger season on the lakes is now rapidly nearing a close.

While it has not been so large as last year, which constituted a record, traveling has been good. A record freight season, so far as the Northern Navigation vessels are concerned, is anticipated by the close of navigation.

Daughter Accuses Mother of Theft Of Gold Wrist Watch At Hamilton

HAMILTON, Sept. 15.—"In my 30 years' experience this is the most pathetic case I have met," commented Magistrate Jelfs today, when Catherine Arnold, now serving 21 days for drunkenness, was charged by her daughter, Frances Arnold, with the theft of a gold wrist watch. The daughter said her mother admitted taking the watch which had been presented to her by a young man. Mrs. Arnold said her husband and daughters were not satisfied with the 21-day sentence and wanted to have her put away for a longer time, because of her drinking habits. She alleged that ill-treatment by her husband caused her to drink. The magistrate dismissed the case, saying that he would not commit the mother for trial on the unsupported statement of the daughter that the mother admitted taking the watch. "It might have been better if the charge had never been laid," he said.

BELGIUM DELAYS IN TAKING ACTION

Agrees To Withhold Notification To Reparations Commission.

PARIS, Sept. 15.—Belgium has agreed to withhold notification to the reparations commission of the failure of the negotiations in Berlin for the guarantee of German treasury notes to be paid Belgium as reparations until after the results of the mission in London of Rudolph Havenstein, president of the Reichsbank, are known. It was learned here tonight. The Belgian government, in its recent note to Germany demanding the deposit of gold guarantees in the Bank of Brussels, had fixed midnight to-night as the time limit for such deposits.

The German charge d'affaires in Brussels this evening called on the Belgian foreign minister, M. Jaspar, and said Germany's formal reply to the Belgian demand was being prepared hurriedly, but that it could not be sent until Herr Havenstein had reported to Berlin.

The crisis, therefore, will remain in suspense until next week.

'PROHIBITION NAVY' SEIZES SCHOONER

Captain and Crew of M. M. Gardner Released On Bail.

NEW YORK, Sept. 15.—(By Canadian Press).—Captain Betts, skipper of the 100-ton Lunenburg, N. S., schooner M. M. Gardner, is being held by federal authorities today on \$5,000 bail, following the seizure of his boat and cargo late Wednesday night by the United States (prohibition) navy vessel Taylor. Betts, who is only 29 years of age, and who claims Lunenburg as his home, appeared before United States Commissioner Stanton in Hoboken.

He and members of the crew were charged with conspiracy, illegal landing, and with violation of the dry laws. Seamen Hines, Rockwell, Bushner and Merritt were held in \$500 bail each. Superintendent H. Butler, from whom federal agents took \$14,789 United States currency, was held on similar charges, and later released on \$5,000 bail.

Federal authorities are holding 100 cases of liquor taken from the schooner, and in addition to the currency found in Butler's pockets, have \$38,500 found in a sealed wooden chest in the captain's cabin.

It developed in the hearing before Commissioner Stanton that the M. M. Gardner had been captured after a chase of five miles, during which attempts were made to ram the United States cutter. Captain Betts admits the attempted ramming, but says that he was beyond the three-mile limit, and that he took the prohibition boat for a pirate craft. Officers of the Taylor say the schooner surrendered only after a four-pound gun had been trained on her at close quarters. The schooner is a fleet Grand Banks fishing schooner, and once made a record run from Nova Scotia to Portugal with dried fish.

SANCTIONS EAST LONDON SURVEY

Continued From Page One.

entirely unobjectionable. It conforms to all the requirements of the law, and my colleague agrees with me that it is a matter in which the consent of the board should be given to the plan, notwithstanding the objection of the city.

The board will approve of this plan before you leave, and you can take it with you," concluded Chairman McIntyre, A. B. Ingram, vice-chairman, concurring with him.

By this means new regulations, drafted by the city council to prevent reefs from planning new surveys without later improvements, and it is not known what action Mayor Wilson and his councillors will take as a comeback to this defeat.

STEWARD'S CONDITION UNCHANGED

MONTREAL, Sept. 15.—The condition of Hon. J. A. Stewart, examiner of railways, who is in the Victoria Hospital, is reported unchanged tonight.

Henry Ford Commences Closing Automobile Plants At Detroit.

DETROIT, Sept. 15.—Henry Ford late today took steps to close his Detroit automobile plants, beginning tonight, thereby throwing upwards of 100,000 workers in the Detroit district out of employment for an indefinite period.

He asked officials of the Detroit Street Railway to rearrange its schedules to care for the night forces at his various factories, who will be dismissed at 11 o'clock, it was announced.

EMPLOYMENT GAINS HALTED

British Labor Figures Show Little Progress Made in Month of August.

Number Still Workless in Great Britain Now Total 1,378,000.

LONDON, Eng., Sept. 15.—(Canadian Press Cable).—It is officially announced that the unemployment figures for August are disappointing. The improvement which had been in progress since the beginning of the year was not maintained at the same rate as previously.

There was a marked improvement, however, in the coal mining industry, some improvement in the pig iron industry and also the iron and steel manufacture, but a moderate decline was noted in the cotton spinning, jute, pottery and glass trades.

The percentage of unemployment among members of the trade unions wherefrom returns have been received was 14.4 at the end of August, compared with 14.5 at the end of July and 14.3 at the end of August 1921. The registered unemployed at the end of August totalled approximately 1,378,000, including 1,121,000 men and 173,000 women compared with 1,400,000 at the end of July.

The fall of wages continued last month when the reduction aggregated about £450,000 in the weekly full-time wages of over 2,000,000 work people. There was an increase of £15,000 in the weekly wages of 90,000 persons.

During the month of August the cost of living fell two points to 79 per cent above the pre-war level.

WHAT CAUSES SO MUCH SICKNESS?

Constipation Responsible For 90 Per Cent of Disease.

'FRUIT-A-TIVES' Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of the Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90 per cent of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia, the Nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this? As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

'Fruit-a-tives' has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Skin Troubles, Kidney Troubles, Blood Troubles and Blood Troubles, because 'Fruit-a-tives' positively and emphatically relieves Constipation.

'Fruit-a-tives' will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim 'Fruit-a-tives' the greatest remedy for Constipation that the world has ever known.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa, Ont.—Adv.

THE HOPE FOR DISTRESSED HUMANITY "Millions Now Living Will Never Die"

Speaker: G. R. POLLOCK

TRAVELING REPRESENTATIVE OF THE INTERNATIONAL BIBLE STUDENTS ASSOCIATION.

3 P. M., HYMAN HALL

CORNER QUEEN'S AVENUE AND CLARENCE STREET.

Never in the history of mankind has the unrest been so general as it is today, and on every hand the question is being asked: "What does it all mean?"

The student of God's Word is reminded of the words of Jesus, "Upon the earth distress of nations with perplexity; the sea and the waves (the restless, discontented) roaring; men's hearts failing them for fear

and for looking to the things coming upon the earth (society); for the powers of the heavens (ecclesiasticism) shall be shaken. . . . When ye see these things begin to come to pass then know that the Kingdom of God is at hand. Look up, lift up your heads, rejoice, for your redemption draweth nigh."

For a clear Biblical explanation of the present conditions hear this lecture.

GOOD NEWS "Without money and without price"

"THE KINGDOM OF HEAVEN AT HAND"

Thousands of Churches are without ministers not withstanding the great need of preaching the Gospel

There is a famine in the land—See Isaiah 58:1

The people need the truth as never before. Will you do your part? The International Bible Students Association will supply Ministers of the Gospel free of charge on application. Conditions: Open the church buildings, admit all free, take no collections. ADDRESS: I. B. S. A., 270 Dundas St. W., Toronto, Ont.

COMBINATION OFFER, 85 CENTS

"MILLIONS NOW LIVING WILL NEVER DIE," 125 pages, with 400 Scriptural proof texts, 25c. "CAN THE LIVING TALK WITH THE DEAD?" the book explaining the fallacy of so-called communication with the dead, giving full and complete answers to Dr. Oliver Lodge and Sir Conan Doyle, sells for 25c. "THE FINISHED MYSTERY," bound in cloth, 600 pages, sells for 65c.

This coupon and 85c will bring you these three books.

TRUSTEES PLAN PROGRAM THAT GETS TWISTED

Meet to Clear Collegiate Issue But Chairman Absents Self.

PLANNED INSPECTION

Committee Again Forced to Postpone Acceptance of Building.

It was heralded as a real big event in board of education circles—a special session of the Collegiate Institute committee on Friday afternoon.

A splendid program had been outlined. The members would gather sharply at 7 p.m., pass accounts, consider the correspondence, and perhaps hire a few new teachers.

Then, it had been arranged, L. E. Carrothers, school architect, after a few introductory remarks, would submit a written report involving the central Collegiate Institute, with the proposed recommendation that the trustees recognize the same as being in a state of completion, and formally accept it from the contractors, the Kingston Construction Company.

Then in a body or single, as the case might be, the trustees would proceed to the school itself for the spicing of the program—the final inspection—and the proverbial curtain would ring down on a controversy of two years standing. And there would be no encores.

Program Marred.

The program was carefully prepared, but the secretary did not foresee certain events, and a noticeable hitch in the proceedings developed when the chairman, Trustee A. E. Silverwood, at whose instigation, it is said, the session was called, featured the afternoon by his non-appearance.

Nearly everyone else attended. As the meeting had been widely advertised as the final episode in the Collegiate issue, the press arrived early, prepared for anything. Architect Carrothers, with a bulky report under his arm (the treasurer report), also pushed his way in early.

A certain of the trustees arrived in due course, while Secretary Tanner staggered in with a pile of manuscripts, said to be all the correspondence affecting the school since plans were first considered in 1920.

The gathering indulged in talk for nearly an hour, the subjects ranging in importance from censure and the price of automobiles to the possible whereabouts of Trustee Silverwood.

After all efforts to locate the latter had failed, the members concluded that Trustee Bryden Campbell's opinion that "there was no need to hang around and argue the toss," was an able suggestion, and the gathering forthwith broke camp.

Architect Carrothers was the last to leave, looking a trifle disappointed. He refused absolutely to allow any reason, however, to take a peep at his report. So once again the Collegiate problem is shelved indefinitely.

E. A. MILLER TO ADDRESS ROTARY CLUB ON MONDAY

E. A. Miller, principal of the South London High School, speaks on the adolescent age before the London Rotary Club at their noon luncheon meeting Monday in the Tecumseh House.

In view of the fact that attendance during the summer months was lowered to a regrettable degree, C. R. May, secretary, has sent out an urgent letter with the statement that in future the attendance rule will be enforced to the letter. At least one hundred and twenty-five members are expected to be present to hear Mr. Miller on Monday.

CORRECTION.

In the list of prizewinners under Clydesdale horses published on Wednesday, Cookville Stable, Brick Co., was awarded first prize for single race mare or gelding. It should have read Cookville Shale Brick Co., Limited.

Town Topics.

A THOUGHT FOR TODAY

My times are in Thy hand.—Psalm xxxi, 15.

O H, there are some who want to get away from all their past; who, if they could, would begin all over again. But you must learn, my dear friend, that the only way to get rid of your past is to get a future out of it.—Phillips Brooks.

POLICE ARE SEARCHING for the owner of chestnut bay mare, about 13 hands high, which was found wandering about Dundas street. An officer brought it to the station, and it was later taken to a local livery stable.

BROTHERHOOD RALLY.—A rally of men's brotherhoods of the city will be held Sunday morning in Hyatt Avenue Methodist Church at 10 o'clock, when all brotherhoods of the city are expected to attend. The speaker for the occasion will be Rev. Roy Mess, of St. David's Church.

ANOTHER MONTH will witness the complete removal of all overhead hydro wires in the downtown district, General Manager E. V. Buchanan announced Saturday. Work has been temporarily halted during the past week, however, as the men have been employed placing wires at the Fair grounds and will now be occupied for a time attending to their removal.

THE "PRICE OF CHAIRS" in city schools will provide, it is promised, one of the chief topics for discussion at a regular session of the advisory vocational committee of the board of education, set for Monday evening next. Trustee J. B. Wright, chairman, has been quietly investigating the cost of equipment in the several institutions, and has amassed considerable data for an interesting discussion, it has been learned.

TREND IS UPWARD ON N.Y. MARKET

Investment Buying, Particularly in Standard Railroad Shares, in Evidence.

New York, Sept. 16.—Conflicting movements took place in the stock and bond markets this week, but the main trend continued upward. Play of speculative forces generally determined the course of the market, but there was ample evidence of investment buying, particularly of standard railroad shares, and there was good absorption of most offerings.

Several of the specialties were run up to new high records, different favorites coming to the fore nearly every day. Early in the week professional "bear" interests began sounding out weak spots, centering an attack on the stocks of the Chicago Great Western Railroad, the preferred being forced down more than seven points before buying support set in. The next "short" pressure was concentrated on the Erie issues, but they offered stubborn resistance, and yielded comparatively lightly.

United States rubber stocks were the next attacked, the first preferred dropping more than eleven points, but rebounding sharply.

The United States Steel Corporation's announcement of an increase of \$3 a ton in the price of rails is expected to be followed by the independents. Steel and iron manufacturers have been hampered by the coal and rail strikes, and the recent 29 per cent wage increase has added an enormous toll to the cost of operations.

Heavy government withdrawal, combined with the usual heavy tax requirements for September 15, caused a moderate flurry in call money rates, which hardened to 5 per cent during the week, the highest since August 10. Rates for time money and commercial paper also were inclined to firmness.

EXPECTS HEAVY CALL FOR HYDRO

E. V. Buchanan Looks for Difficulty in Satisfying City's Winter Demand.

With a steady, increased demand for electrical current by London householders, the local hydro department anticipates not a little difficulty to meet every requirement with ease during the approaching winter months.

The city's average consumption is increasing in volume as each week passes, according to E. V. Buchanan, general manager of the public utilities commission, and since last spring the average daily consumption has increased from 15,000 to about 16,000 horsepower daily.

This will entail an added test, not only at the power stations, the general manager points out, but in connection with the hydro lines throughout the city. While the installation of another transformer in the main plant at Cabell street would facilitate the work, the department is continually changing their outside transformers on the poles as occasion demands.

That a substantial portion of the increased demand is created by the increased and continued use of electrical appliances for heating is the explanation offered by the hydro officials, who point out that during the last two evenings in particular, occasioned by the advent of cool weather, there has been a notable increase in the "load," untaken by the department.

PLAN PROGRAM OF SOCIAL SERVICE

Members of Ministerial Alliance Renew Work After Summer Vacation.

After a summer's respite, activities amongst organized clergy in the city commence next Monday, when members of the London Ministerial Alliance hold their first meeting of the new term, with a vigorous campaign of winter's work planned.

Foremost among the matters to be taken up by the alliance, according to the new president, Rev. J. H. Versey, is that of organizing for social service and relief work throughout the coming winter. At Monday's meeting, Rev. T. D. McCulloch, district secretary of the Social Service Council of Ontario, will speak on the subject, "Organizing our city for social service and relief work."

Last winter the entire city was zoned out for relief work, and it is expected that some similar undertaking will be planned by the alliance in the fall.

During the past summer practically every denomination has effected changes, bringing new clergy into the city, and a considerable number of new members are expected to join the alliance at the coming meeting.

Owing to the resignation of Rev. N. S. McKeechie, formerly of the Wortley Road Baptist Church, who recently received a call to Belleville, the office of vice-president is vacant as well as those of recording secretary-treasurer and corresponding secretary. An election will be held to fill these posts.

ASKIN ST. HAWKS WIN MILLS TROPHY

London Boys Stand High in Y. M. C. A. Bible Study Examinations.

Askin Street Hawks, under the leadership of Arthur Horwood, have been successful in winning the Mills trophy in the Bible study examinations conducted by the national council of the Y. M. C. A. for all Trail Rangers groups in Canada.

The course taken up by the boys last winter was "Athletes of the Bible," by Brink-Smith. To qualify for the trophy it was necessary for a group to have at least six contestants, with 75 per cent or better. Twenty-seven boys in London received 75 per cent or over. The contestants in the winning group was as follows: A. Ottinger 91, Arnold Webb 89, Charles Bradshaw 85, Warren Smith 83, Gordon Smith 82, Clive Vollick 80, Elgin Speiran 76.

This is an evidence of the fact that boys are interested in something more than physical work.

The boys' secretary of the London Y. M. C. A. drew up the rules of the contest, and was chairman of the Bible Study Commission, which arranged for the competition to take place between all the Y. M. C. A. boys' divisions in Canada.

The competition will now become an annual event.

Second place went to the Central Y. Toronto, and third place went to Broadview Y. M. C. A., also of Toronto.

Robert Ferguson's Cubs of Knox Presbyterian Church, which also meets in the local Y. M. C. A., ran the Hawks a close race, but through an unavoidable delay in getting their papers through to Toronto they were too late to enter the competition.

The London Y. M. C. A. boys are to be congratulated, and it is hoped that they will always retain the beautiful trophy donated by Mrs. Stanley Mills of Hamilton.

I SPIED TODAY

Readers of The Advertiser are asked to help make this feature a success by contributing items to the "I Spied" column. By arrangement with the Grand Theatre, two tickets daily will be given for the best item.

A STREET CAR passing a standing motor bus discharging passengers. One passenger narrowly missed being struck by the car.

BILL BLAY SPORTING around town in a new car, and was wearing a smile that refused to come off.

A GIRL STRUTTING DOWN Richmond street, wearing ear bobs and Russian boots, and about fifteen of the male species following.

TWO BICYCLISTS colliding on the Clarence street crossing of the Grand Trunk Railway. No person was hurt, but the language was entertaining.

BUILDING INSPECTOR A. M. PIPER seated in the police car, accompanied by Chief of Police Robert Birrell. Chief Birrell refused to state the nature of the charge against Inspector Piper.

A SMALL CAR TRYING to knock a street car off the tracks, and perhaps would have succeeded had it not been for the interference of a cop, as it was a car of the Toonerville type.

A 5-YEAR-OLD BOY fell asleep on the steps of the directors' office at the Fair grounds. He rolled off the steps to the ground, and even this violent exercise failed to awaken him.

BOYS' DIVISION OF "Y" OPENS SEASON

Seven Hundred Lads to Have All Privileges Restored Monday.

The seven hundred boy members of the Y. M. C. A. will be glad to know that the boys' division will open all privileges to them on Monday next.

Because of the summer camps and the repair work in the swimming tank and other parts of the building, it was found necessary to cut off some of the privileges to enable some members of the staff to take their vacation.

Lloyd Houlding, director of boys' work for the Y. M. C. A. and the organized Sunday school boys states that he hopes all the boys will drop into the "Y" next week to start their classes and arrange for their clubs, supper and other activities of interest.

Wilfred Spearman, assistant boys' secretary of the Y. M. C. A., was married while on his vacation. He will take charge of many activities this year, such as the junior employed boys, the noon-hour boys who come to the schools from the country, Trail Rangers' supper and membership.

Mr. Spearman will also be in charge of the game room. During the summer he received two flattering offers from St. John and Toronto, but he turned them down because of his desire to stay in London, where there is more doing for the boys in the way of character-developing projects than in any other city in Canada.

The supper for the Tuxis, Trail Rangers and Kiwanis boys will not start until the first week of October.

MAY BE FORCED TO START EXPROPRIATION ACTION

City Proposes Extension of Lyle Street While Curliks Want to Build Rink.

Although City Engineer H. A. Brazier stated Saturday morning that he has prepared a plan to continue Marshall street through the site formerly occupied by the Jubilee rink, recently destroyed by fire, to Lyle street, it was reported that the London Curling Club is determined to build a modern rink on these premises. This will mean that if the city council decides to continue Marshall street eastward the club will be obliged to sell their property, and expropriation proceedings will have to be taken before the city can acquire the necessary land.

"I have prepared a plan to continue Marshall street through to Lyle street," said Mr. Brazier, "and it will be up to the council to pass on this report. In addition to providing land for the street, the old rink site will also provide one building lot on Lyle street, if the street is carried through."

Lost Pencils at Trustees' Meeting Give Clue to High Education Costs

At last there is an inkling of what becomes of some of the vast sums that are spent yearly by the school trustees.

When Secretary W. A. Tanner of the board of education prepared Friday afternoon for a meeting of the collegiate institute committee, he placed pads and pencils at each place in order that all present might jot down the various amounts owing in connection with the new high school.

After the session had been cancelled, however, and the trustees were rushing for the elevator, the secretary's attention was resoundingly down through the various halls: "Just a minute, gentlemen; have you all left your pencils? I am four short."

Trustees Casselman and Campbell

A WOMAN ON EXHIBITION in a sideshow at the Fair grounds severely reprimanding a member of her sex for commenting that she "was a freak." The woman in the audience blushed under this arraignment.

TWO GIRLS AT THE FAIR watching the diving girl getting ready to dive, and one said: "Hurry up and get a move on." The other one said: "She ought to get something else on besides that horrible bathing suit."

HARRY HUMSTON, superintendent of the London Street Railway Company, complaining to the constable on duty at the Fair grounds that the lights of a motor bus shone in people's eyes and dazzled them so much that they were afraid to board the street cars. The lights were dimmed by order of Constable Inches.

A SALESMAN DEMONSTRATING a vacuum cleaner at the Fair grounds, running it over a surface covered with baking powder. He forgot that the bag of the machine was not attached, with the result that the white powder was sprayed over an interested woman spectator. Then there was trouble brewing.

TWO WOMEN LOOKING IN A window on Dundas street, where new fall styles were being shown. One said: "I believe I could make over my brown crepe to look like that. It is as good as new, and I haven't worn it a dozen times, and I am going to get Annie over some day next week. She's a jewel at planning how to make things over."

QUERY STATUS OF MISS RADCLIFFE

Board of Education Officials Divided On Latest Problem.

While certain of the board of education officials profess frank ignorance upon the matter, the remainder appear about evenly divided upon the latest question to loom on the civic horizon—"What is the official status of Miss Dallas Radcliffe, since Sept. 1 last, has been an addition to the school attendance department?"

Dr. George S. Weir, public school attendance officer, has advanced an interesting problem for the school trustees. "Who is boss of the school? Weir or Miss Radcliffe?" he asked. "It is hard to say, but I think Miss Radcliffe."

While there is no doubt but that one of the committees recommended that Miss Radcliffe assume duties when the schools re-open, the question is still debatable as to whether the board itself ever approved of the move, or what her official position was to be.

Trustee Edwin Smith, chairman, states that to the best of his recollection she was appointed to assist Dr. Weir by her work in his office in connection with the classification and other details involving the enforcement of the adolescent school attendance act. The remainder of her time zone, he stated, was devoted to the interests of W. A. Tanner, secretary, he believes.

The latter seemed unable Saturday to shed further light upon the subject, adding that "he was not in such close touch with the situation as the press. I keep more or less informed by the newspapers to consider the question of what is happening or what may transpire."

In the meanwhile, Miss Radcliffe is still enmeshed in Dr. Weir's office, and is busy these days preparing her report upon the adolescent school question, and expects the same to be ready early next week.

While declining to enter an incipient controversy with Dr. Weir as to who may or may not be "boss," she intimated Saturday that as far as she was concerned the details of the classification, etc., was her sole duty, as rendered her by the board.

Miss Radcliffe was first employed as a public school teacher, and was recommended by the school inspector for her present position, by reason of similar experience she gained. It is explained in the city of Detroit.

She is a native of this district, however.

It takes the best part of a year to turn out a first-class tennis racket. The cultivation of the silk-worm was introduced into Europe about the sixteenth century.

SERG. T. HIGGINS RETURNS TO WALES

Familiar Figure About London Armories Retires From Military Life.

One of London's old veterans, Serg. "Tim" Higgins, who has for the past ten years been connected with the permanent force, has severed his connection with the militia, and left Friday for Montreal, where he will sail for Wales on Sunday.

Serg. Higgins has been long military service, as he has been in some branch or other since he was seventeen. He was stationed in India, under the late Lord Kitchener, and served in the Sudan war. Later when the Boer war broke out he again served under Kitchener. He then came to Canada and was appointed caretaker at the local armories. Serg. Higgins is well known in the city, and was popular among the men with whom he was associated. On the day of his departure he was presented with a traveling bag as a token of their esteem.

Serg. Higgins is a Welshman, and is going back to his native country, where he intends to lead the rest of his life as a private citizen.

TO RECEIVE REPORT ON CHURCH UNION

London Presbytery to Meet in First Presbyterian Church, Tuesday.

Reports of commissioners to the General Assembly of the Presbyterian Church, which met in Winnipeg during the summer, and the decision of the special committee, nominated to consider the method of reporting families to the presbytery, are among the important items listed on the agenda of the London Presbytery, which meets in the First Presbyterian Church next Tuesday.

During last term's presbytery sessions discussion arose concerning the proper method of reporting families to the presbytery—whether every Presbyterian family in the community should be counted, and those who were regular contributors to church funds, although seldom attending service, or whether only those families in regular attendance should be listed.

As a result of the lengthy discussion, a committee was appointed to settle the question.

Another item of importance, listed as special business, is consideration of a call to Rev. L. N. Stevenson from Tempo to Appin.

Members evince much interest in the forthcoming reports from the General Assembly. It is expected that church union will be the foremost topic dealt with by at least two of the commissioners, Dr. D. C. MacGregor, of St. Andrew's Church, and Rev. W. L. McIntosh, of Knox Church, since Presbyterians everywhere throughout the Dominion have interested themselves vitally in this question.

PUTTING TRAINS ON FORMER RUNS

Relief in Coal Supply Gives Lines Chance to Give Better Service.

With practically all the anthracite coal mines in the United States in operation again and with prospects of the Canadian shipments being back to normal within a month or so, the Grand Trunk Railway is restoring to the service the passenger trains in the London division that have been withdrawn when the coal situation was gloomiest.

According to a new time table, received by local officials Saturday morning and effective October 1, the train from London to Toronto, via Stratford, and leaving the city at 12:35 noon, will again be in operation by the first of the month.

The other train to be restored is the one from Toronto to London, via Stratford, and arriving here at 2:15 p.m.

Although the Canadian railways do not suffer from the coal shortage to the same extent as the American lines, most roads curtailed their passenger service as a precautionary measure. The London Division of the G. T. R. was never seriously affected at any stage of the miners' strike, although the reserve supply was small as plenty of coal to fill the local needs was shipped to the city from day to day.

C. P. R. Service Intact.

The Canadian Pacific Railway was fortunate enough to have a large reserve supply of engine coal at the strike outbreak, which did not necessitate the withdrawal of trains from the passenger service.

It was announced Saturday that the last boat train from Toronto to Point Edward and passing through London and making connections with Northern Navigation steamers west-bound, will not run Saturday, September 16, and the special running from Point Edward to Toronto will make the last trip of the season Monday, September 18.

For the balance of the season passengers will be handled on the regular train and on special trains running from Sarnia to Point Edward.

CHANGEABLE VELVET.

An American importer is promising some very stunning fall hats of changeable velvet, a newcomer in the sartorial world. He also confirms the report that the leading hats for winter will be large, to be correctly proportioned for the longer skirts.

Would Like To Be Shown \$300 Gold Bricks in Collegiate

WHERE are those famous \$300 "gold" bricks said to be used in the construction of the new Central Collegiate Institute?

Members of the board of education questioned Architect L. E. Carrothers Friday afternoon on this point, but the latter assured them that their search in that respect would be fruitless, as he had taken them all home.

Trustee Smith is disappointed. He wanted an answer, he says.

ORGANIZING TO SECURE RELIEF

Tuberculous Veterans Announce Meeting To Be Held at Byron on Sunday.

Editor Advertiser:

Sir.—We would consider it a very great favor if you would give publicity to the following through the medium of your paper in Saturday's edition:

"Tuberculous Veterans' Association." Owing to the failure of the government to shoulder its responsibilities towards ex-service men and women suffering from tuberculosis, contracted or aggravated by service, or who had developed this dread disease as an after effect of their services, it became imperative that they should organize for mutual protection.

This resulted in a convention being held at Winnipeg, Manitoba, last year, at which most sanatoriums throughout the Dominion were represented. "The Tuberculous Veterans' Association" was formed at this convention, with headquarters at Ottawa, Ont., where E. S. Keeling, the Dominion secretary-treasurer, is located. Since that time this organization has made rapid strides, and branches have been formed in every sanatorium throughout the Dominion where there are ex-service patients undergoing treatment, also city branches are now being formed in the larger cities. This has considerably increased the membership, which at present stands at about 10,000.

The principal objects of the association are to present all problem cases of those who claim the government will not recognize as eligible for pension or P and A, with treatment, also the welfare of all who are in adverse circumstances. A convention was held at The Mountain Sanatorium, Hamilton, Ont., a few weeks ago, attended by delegates from every sanatorium in the Dominion. The president of the association had handled an unbelievable number of problem cases through the Dominion secretary's office. Definite plans were drawn up for the presentation of all existent tuberculosis grievances and problem cases to the royal commission.

On Sunday, Sept. 17, 1922, at 7 p.m., a meeting of the Byron branch, T. V. A., will be held in the vocational hall, Byron Sanatorium. The delegate from this branch (Mr. H. Loneragan) to the above convention will submit a full report of the proceedings. As this is of vital importance to all tuberculosis ex-service men and women in London and adjoining districts, whether members or not, the branch extends a cordial invitation to every one to be present.

Any problem cases or others who desire the assistance and experience of this organization to establish their claims, who may be unable to attend the meeting, if they will communicate with the secretary (Mr. H. Boynett) of the T. V. A., Byron branch, he will do his utmost to assist them in bringing about a successful settlement.

H. BOYNETT, Sec.-Treas.,
H. H. McDONALD,
President T. V. A., Byron.

Byron, Sept. 15, 1922.

EXPERT TO CHECK VALUE OF STREET CAR COMPANY

M. Bunnell, Sent by Transportation Commission, Will Arrive Monday

That M. Bunnell, expert engineer called in by the transportation commission to check up the valuation of the London Street Railway Company will arrive here Monday, was the definition of Mayor Cameron Wilson Saturday. The figures obtained by this official will be presented to the ratepayers if a vote on the purchase of the London street railway system is decided for next December.

Engineer Bunnell is an expert from the staff of the Transportation Commission of Ontario.

PLANNING ADVANCEMENT.

What are your plans for the fall?—are you going to advance or stand still?

Are you seeking a better position, a better home for the family, some way to put your spare time to advantage; are you on the lookout for a good business proposition; have you something to sell or exchange; do you want to buy something?

These are but a few suggestions that come with the close of the vacation season and the return to the autumn work.

See how your plans may be aided by the consistent use of the Want Ads.

ASSOCIATION PLANS BIG OLD-TIME FESTIVAL

Chairman Edwin Smith and Committee to Start Preparations at Once.

SEEK SPECIAL RAIL RATES

Expect Gatherings to Eclipse All Previous Celebrations.

There will be a grand reunion of old London boys and girls in this city August 1923.

Edwin Smith, general chairman of the London Old Boys' Association, announced Saturday morning that he proposed to call a special session of the executive committee before the close of September to discuss the proposition fully.

At that time plans will be outlined for the coming event, and it is more than probable that the secretary will be directed to proceed immediately with all preparations.

The first move will then be, the chairman explains, to make arrangements with all railroads throughout the United States and Canada for reduced rates to London for the gathering. In past years it has always been possible to secure excursion rates for the old Londoners who are coming from points at no great distance from the city, while tourist rates have been obtained for those who will journey from afar, as Los Angeles, Seattle, New Orleans, etc.

An early start is imperative, Chairman Smith declares, as branches of the Old Boys' Association yet in existence in other communities must be communicated with, while efforts to form new bodies must be launched. This task is a gigantic undertaking, he states, and will claim months of activity.

That the attendance next year would exceed all previous gatherings is the opinion of those members of the local association still interested in the movement, and who have expressed a wholehearted desire that a reunion feature local events in 1923. The attendance at the last meeting was more than 15,000.

Will Last Seven Days.

It is proposed that the reunion extend from the civic holiday in August and last during the seven days that follow. A whole-transportation would extend, however, from three days prior to and for three days subsequent to the reunion, in order that those from a greater distance may be enabled to take advantage of the reduced fares.

Many inquiries have reached the local body, the secretary states, from former Londoners who visited the city during the past summer, as to the next gathering. With the increasing use of the automobile for cross-country journeys, it is estimated that the reunion will be an added incentive for travel.

"Y" AWARDS 44 BADGES TO BOYS

Jack Rankin Wins Shield Offered for Proficiency in Athletics.

One of the features of the Trail Rangers' camp at Fisher's Glen during July was the splendid way the boys entered into the badge-winning competitions. The London boys qualified for 44 badges as follows: Jumping 13, collectors 7, first aid 3, running 2, camp craft 1, wild flower 1.

East boy winning three or more badges was presented with a Trail Ranger crest. The boys winning four badges were: Jack Brooks, Gordon Ford. These winning three badges are: Albert Gedge, Alan Foote, Jack Rankin. Two badges—Jack Millman, Jack Wilbrow. One badge—Lorne Fitzgerald, Alton Kitchin, J. P. Fisher, B. Hurrell, Walter Boniface, Paul Christenson, Jack Pritchett, Gordon Smith, Pearson Green, Douglas Tait, Arthur Glenn, Frank Sillett, Jack Lawton, Bolles Christie, Gordon Smith, Gordon Benson, Millard Grant, Harold Deyon, Willie Hogg, A. Tomlinson, James Dyer, H. Webb, W. Fenton.

The two badge badge winners in Canada, Millard Grant and Hollis Colledge, both added one more badge to their collection; they now have 31 badges each.

Jack Rankin wins the shield offered to the London boy who made the finest showing in the athletic meet and swimming.

London, Ont., Saturday, September 16,

The Western Fair.

DISCUSSION in regard to the changes or reorganization of the Western Fair has been going on for some days unofficially, and at the directors' meeting on Friday the officials took cognizance of the matter and brought out a number of suggestions, each of which showed a keen appreciation of the possibilities wrapped up in the exhibition.

From some of the street talk it might be taken for granted that it was necessary to tear the whole organization to pieces. Fortunately such is not the case. A walk around the grounds, a look at the display of livestock, fruit, poultry, etc., will convince even a prejudiced observer that there is very little to apologize for in that direction. Here is gathered together the pick of all that is truly representative of the things that have made Western Ontario the leader in agriculture in all its many phases.

The matter of admission price naturally comes in for criticism. Many are of the opinion that 50 cents is too great a price to charge at the gate or at the grandstand. They point to Toronto's 25-cent rate for a greater show. The two cases are hardly parallel, although it is a fact that the larger admission bears heavily on a family man.

The value of the space on the grounds, from the standpoint of those who buy booths, is governed largely by the number of people who can be brought there. If a larger number could be secured at 25 cents it would follow that the value of space would be enhanced and the revenue increased.

Then there is the matter of new buildings and better sanitary facilities. All these things call for money, and a wise expenditure should result in such spending taking the form of an investment rather than a bare outlay.

It is well that official discussion is taking place and that the whole matter is being gone into in a reasonable and broadminded manner. The Western Fair is a fixture here, but it must move along.

Meeting Opposition.

THE adolescent school act is not having smooth going, because the people generally see in it a measure that is going to place a further burden on the taxpayers by reason of having to keep scholars at school for a greater length of time, and by this reason having to provide more room in the school buildings.

The *Petrolia Advertiser-Topic* sees it this way:

"After next fall the adolescent school act fixing the age at 18 years comes into force and it is imperative that the mothers' allowance act will have to be amended to meet this situation. When this is done the widow and orphans will have been taken care of and then perhaps the fathers will receive some attention. How on earth the ordinary working man expects to clothe and feed a family until they reach 18 years of age is a problem that will shortly have to be tackled. It simply can't be done. Here again the government must take a paternal interest in the citizen's affairs and help out with the family budget from the time when the child arrives at 14 until he or she reaches 18. Either that or change the law."

The province should not quickly or easily drop any measure that is going to promote better education of children. The real point is whether the children are going to receive real worth while benefit in the period between 16 and 18 that will be in keeping with the efforts and sacrifices of parents to keep them there for that extended time.

Malachi's Challenge.

IF you were to stop a dozen people on the street and ask them where to find the Book of Malachi many of them would be stuck unless they had time to look at the index to the Bible.

Yet the Sunday school lesson for the week, in its peculiar hit-and-miss style of selection, drops in and takes part of the third chapter from Malachi as the topic for the day. Nehemiah wrote as the latest of Old Testament historians, and Malachi as the latest of Old Testament prophets. Of Malachi we know very little. He appears almost with the same sudden abruptness as Elijah the Tishbite. He must have written about the time Nehemiah was absent from Jerusalem, for he deals fearlessly with the evils that grew up in Judah while Nehemiah was absent in Persia.

Probably as outstanding a verse as this old prophet ever penned is: "Bring ye all the tithes into the storehouse . . . and prove me now herewith . . . If I will not open your windows of heaven, and pour your out a blessing that there shall not be room enough to receive it."

That was a plea to the people who had forgotten God to come back, to remember their obligations to

Jehovah. How often we hear mention of the tithes, and yet what scant attention we pay to it.

The giving of a tithe, or one-tenth of what a person possesses, to the work of the Lord is regarded as fine in theory but not of much account in practice. Some men would die of heart-failure at the thought of handing over one-tenth of what they make and placing it at the disposal of Christian work. They drop a coin on the collection plate where they ought to be placing a bill, and they ease their conscience by a show that has its own reward in resultant publicity.

But there are men today who tithe their incomes. They are willing to state openly that it has paid them to do it. They cheerfully bear witness to the fact that they enjoy the giving and have been repaid several times over in various ways.

What is more belittling to the solemnity of a church service today than the appeal from the pulpit to make up a deficit, or allow the Lord's work to have enough money to carry on decently and pay its just debts.

There is something wrong when that appeal has to be repeatedly made. People with a real sense of their obligations will see that the financial part of the work does not go begging. They will realize that the giving of their means in proportion to their ability is a privilege and the means of securing for them a blessing they could obtain in no other way.

There's an appeal in those two words, "Prove me," that no sane person can overlook; they have a challenge that indicates a certainty in fulfillment and an anticipation of blessing that no devout person would wish to ignore.

No, He Can't.

HERBERT HOOVER has a reputation for being a man of very great efficiency. Just now he is telling the people of the United States that billions of dollars are lost through lack of standards. Notice that he has ceased to talk in millions, and has turned to billions.

What he means is this: There are 700,000 varieties of footwear on this continent. If every person wore the same kind of shoes, or if we could get along with wooden ones, this whole business could be reduced to a dozen models, and millions of dollars would be saved in sample shoes alone.

There are hundreds of brands of axes turned out in this country; there are many specifications for a 2x4 scantling.

Many plants are busy turning out duplicates of something else that will sell as something just as good.

And Mr. Hoover's idea is that there should be standardization on a large scale. That is, that a dozen women going downtown should all buy the same kind of clothes, and hats, and boots, and so on.

Mr. Hoover is a smart man, but he simply can't lug this idea across and come out of the mix-up alive.

The Human Element.

WRITING in the *New York Times*, a correspondent writes that there should be some effort made to apply the golden rule to business, and in this way avoid many of the troubles that are continually coming to the surface in industrial relations as we have them today.

He suggests, for instance, that an employer of labor should make it his business to know something of the home conditions of the men. Of course the ready objection to such a plan is that "we can't be bothered." Or "there are so many men in the place that it would not be possible to know them all."

But the correspondent persists that in spite of all these objections, it is good business to secure this information, and to secure it in such a way that it is accurate. It is an easy matter to regard men in a factory much the same as the metal tags on the time board. A man is numbered in a factory, and in many cases when No. 10 or No. 200 is away for a day, all that is known is that there is a blank on the board and a job that is not being attended to.

And yet it's not such a hard matter to take a bigger view of these little metal tags with the numbers, or the cards that take their place in some shops. Here's a tag—it represents a home, a father, mother, three children. It represents all the hopes of that father to make a decent place for his family to live, to give his children a good education and a fair start in life, to have a little put aside for a rainy day so that the wife and mother shall not be poverty-stricken in case anything happened to the bread-winner of the house. It represents joy, sorrow, sickness, health, losses, gains, ambitions and discouragements. In fact, as a man stops a while to look carefully at that little tag it becomes quite an interesting human document, and writes the life story of many people.

Does it pay to know the men well and to know of their affairs? This question will bring a variety of answers. Some will answer in the affirmative with a voice that shows conviction, while from the school of the disciplinarian will come a vote in the negative.

One way to answer the question would be to give the actual experience of a factory manager in one of the larger industrial concerns of Canada. Here is his own version: "I used to drive to work, and had a man engaged for the purpose. As soon he called and took me to the club, and at night he called and took me to my home again. When the movement for works councils start-

ed in the plant I thought I would experiment. So I took to the street car after a walk of a few blocks from home. At noon now I go to the shop cafeteria and eat the same dinner as the men. I am back to work anything from a half to three-quarters of an hour sooner at noon. I am certain I know sixty per cent of the men in this shop by their first names. Know a good deal about what they like and what they don't like. I don't know whether it has paid in dollars and cents, but I do know that I wouldn't go back to my old habit of isolation on any account. I enjoy it, and I look forward to the hour I meet them at noon."

It has been proved many times, so many that it can be taken for a fact, that the man who is overlooking the human element in the industrial world is overlooking his one best bet.

LITTLE 'TISERS

Scarcely four shopping months left before Christmas.

In Alabama they start an agitation for the enforcement of law and order. But surely they do not intend to cut out lynching!

Now comes the unkindest thrust of all, when someone suggests that Margot Asquith is helping Lloyd George write his memoirs.

Every time we listen to a radio outfit, we're certain some person is dumping a load of gravel beside the singer, and the gravel wins.

Ex-kaiser is trimming trees in Holland, and he ought to know somewhat about 't, for he was fairly well trimmed up himself a few years ago.

Instead of following in the footsteps of the Fathers of Confederation, too many people want to follow the footsteps of the dancing-master.

The *Toronto Telegram* states the unpardonable sin as follows: "Nothing in Hon. E. C. Drury's record to date has shown any regard for Toronto's interests."

A 100-pound shark was caught off the Pacific coast a few days ago. Good. But there are a number of little sharks closer to home that should be attended to.

College days open in a few weeks, and after the young man gets covered with grease and paint, and in the eye with a rotten tomato, he'll be ready for the year's fill of education.

Some of the Doukhobors are traveling around in British Columbia without a hanged thing on them, and people are shocked. The only chance for the Douks to get away with that form of parading is to invade the art galleries.

One of the secrets of recent years is what actually took place in Russia following the war. We have had many surmises, plenty of experts who have been near the place, but of all the multitude of things that happened, we can only guess as to the most of them.

The office boy staggered in a few days ago with an issue of the *Hamilton Spectator* of 104 pages, certainly a notable achievement. Power, Trade and Farm Edition was the significant name carried, and these features were well developed.

oped in an issue of which Hamilton and the province may well be proud.

Jack Hunter's got a story about a fish in this week's *Kincardine Reporter*. This pike is so big that sometimes it gets crossways of the stream and causes a flood on the banks. It's got so many hooks and flies caught in its jaw that when the wind blows it produces an effect like a small boy learning to play on a zither.

The town of Paisley is in a queer position in regard to light. When the water in the river runs low, the electric light plant ceases to operate. "Tis then the coal oil lamps come forth and carry on till such time as Jup. Pluv., Esq., decides to come around and fill the river up to the electric light point. So Paisley has the variety of dry with oil or wet with electricity.

LEARN A WORD EVERY DAY

TODAY'S word is ACUMEN. It's pronounced a-kew-men, with the "a" short, as in "fact," and accent on the second syllable. It means: Quickness of perception, penetration of mind, sharpness, sagacity, keenness, shrewdness, acuteness. It comes from Latin "acumen," to sharpen. It's used like this: "While the Gallic people do not give Her. Stimmers much credit for shrewdness of motive in evolving his plan for the rehabilitation of devastated France, nevertheless, because of their respect for his business acumen, they are prepared to believe his scheme would work out all right in practice."

READ YOUR CHARACTER

By Digby Phillips.

NO. 324—WHEN TO WATCH YOUR LOGIC.

Most people never form the habit of reasoning carefully, though a fairly large majority do. Most of us rely on snap judgment and the line of least resistance in our mental processes. Most of us are prone to "fall for" the plausible argument which is not logical, but which has some elements of truth mixed with its errors. It would, of course, make life a rather painful thing if we all schooled ourselves rigidly to the habit of making no decision except after conducting errorless debates in our minds. Life is too short, and most of us find that steering a middle course between instinct and cold reason proves most efficient in the long run.

Yet there are to be found people who learn more than ordinarily in the direction of sound logic and reason. Quite naturally, the unsound argument, through which they see so easily, irritates them, and the salesman who wishes to sell them should carefully avoid making any illogical statements or drawing any false conclusions in his selling talk.

These people are always easy to recognize in advance. You need not hear them talk. You need not subject them to examination of any kind. Just look at their thumbs. The long thumb is the sign of the naturally logical mind. Tomorrow—When to Talk Comfort. (Copyright, 1922, by Public Ledger Co.)

25 YEARS AGO TODAY

HERE WE HAVE ITEMS OF LOCAL AND DISTRICT INTEREST AS RECORDED IN THE ADVERTISER OF 1897.

SEPTEMBER 16, 1897. Weather—Partly fair and warm with local showers.

Tomorrow is closing day of Canada's favorite livestock exhibition. A large number of the principal breeders and buyers of this country and many more from the United States will be present to exchange money for animals. No better livestock market anywhere than the Western Fair.

Last night Hon. Geo. W. Ross, minister of education, and Hon. John Dryden, minister of agriculture, and a large number of stockbreeders were present at a luncheon by the board of directors in the W. C. T. U. dining hall. Col. Leys, president of the association, presided, and around him sat the ministers, Sir John Carling, Mr. John Fraser, M.P., Mr. Calvert, M.P., Mayor Little, Ald. Winnett, Ald. Taylor, Ald. Bennett, J. W. Everett, Messrs. ex-Ald. J. W.

J. R. Minihinnick's loss by the fire at the Empire Oil Works yesterday was between \$400 and \$600. The tanks burned from 11:20 a.m. until 4:30 p.m.

The bootblacks at the station had a harvest yesterday, and in some instances charged 25 cents for a "shine." Many customers were hardly so far from the way away with their shoe laughing at the other, and the crowd of spectators laughing at them both.

The exterior of the Meteor Clubrooms, Park avenue, is undergoing repairs and will be freshened up with several coats of paint.

DR. BISHOP'S ADVICE

OVERWEIGHT

PEOPLE who are overweight should endeavor to become normal, not because of appearance, but because it is an abnormal condition and prevents greater activity.

Fat cells do not work and hence the number of working cells is relatively less in a fat person in proportion to the weight, than in a thin person. Also, there is less body surface exposed in proportion to the body weight, and consequently less heat loss. Likewise, fat people are less active, and their cell-engines do not call for so much fuel; so they do not use as much food as lean or muscular people of the same weight. This explains why fat women do not need the same amount of food as a man of the same weight.

For extreme overweight, diet should be prescribed by a physician to suit the needs of each particular case. There are, however, certain general principles that are applicable to the average case. Some foods, in particular, have an enormous fuel value. We eat these quite carelessly, while we eat just as well be eating other foods with a lower fuel value and be just as well satisfied, if we but stopped to think. For instance, it would take about \$9 worth of lettuce to make 2,500 calories, while 20 cents' worth of butter or 10 cents' worth of sugar would furnish this same amount. No one would think of feeding exclusively on any one of these foods, but we can readily see how the elimination of butter and sugar, and the addition of such foods as lettuce, tomatoes, celery, carrots, spinach and fruits would enormously reduce the fat-forming elements in the diet. Walking, swimming, golf, hill-climbing and other sports all are beneficial forms of exercise for those who suffer from superfluous flesh.

The Humble Life.

Rt. Hon. W. L. Mackenzie King at Kitchener.

It is not the girls who drink cocktails, smoke cigarettes, spend their evenings between the movies and dance halls, any more than it is the women who spend their afternoons at bridge, who make the mothers of men who rise up to call them blessed because of the equipment wherewith they go forth into the world's work.

"It is not the men who are striving to subvert the old-established customs and institutions, to break with tradition and provoke a reign of anarchy, that are making either the world or our country a better place to live in."

"The war through which we have just passed has dangerous tendencies in these directions," he emphasized. "We must return to the quieter and gentler and more refined modes of living if we are to ensure our nation's future along the paths of happiness and peace."

A Bivalvular Ode

By Berton Braley.

THE oyster is a merry bird. Its ways of living are absurd; It opens up its shell full wide And lets its dinner drift inside. (Some like it raw—I like it fried.)

THE oyster is a funny beast. With no ambition, not the least. It sits and waits its whole life through For any fate that may ensue. (I like it in a cocktail, too.)

THE oyster is the quaintest fish. It hasn't any tail to swish. It doesn't swim, but stays and stays. Immovable during all its days. (I like it roasted various ways.)

THE oyster is a curious reptile. Close-mouthed, its secrets all are kept till

An oyster-man, with manners rude Opens it up for human food. (I like it raw, baked, fried or stewed. In fact, these bright brisk days of fall.

I like it any way at all! (Copyright, 1922.)

REASON FOR HOSPITALITY.

Mrs. Simmons had been spending the day with Mrs. Mayes and was preparing to go home. Susie, who had been very troublesome all day, begged her earnestly to stay to supper.

"Why, dearie," said Mrs. Simmons, "I did not know that you were so fond of me."

"It isn't that, Mithith Thimmonth," said Susie honestly. "Mother thayt's little going to give me a good thound 'twichin' ath thoon ath you go home."

BRAIN TESTERS.

Behold a tree and leave the roof of a vault.

Behold "on high" and leave the topmost story.

Behold "thrown violently" and leave an organ of the body.

Solution to yesterday's puzzle: When a gardener found he would have 150 too few if he set his posts a foot apart, and 70 to spare if he set them at every yard, he had 180 posts.

H. G. WELLS' FAMOUS OUTLINE OF HISTORY

The Romance of Mother Earth

Consequences of a Change of Climate.

TODAY'S INSTALLMENT—6.

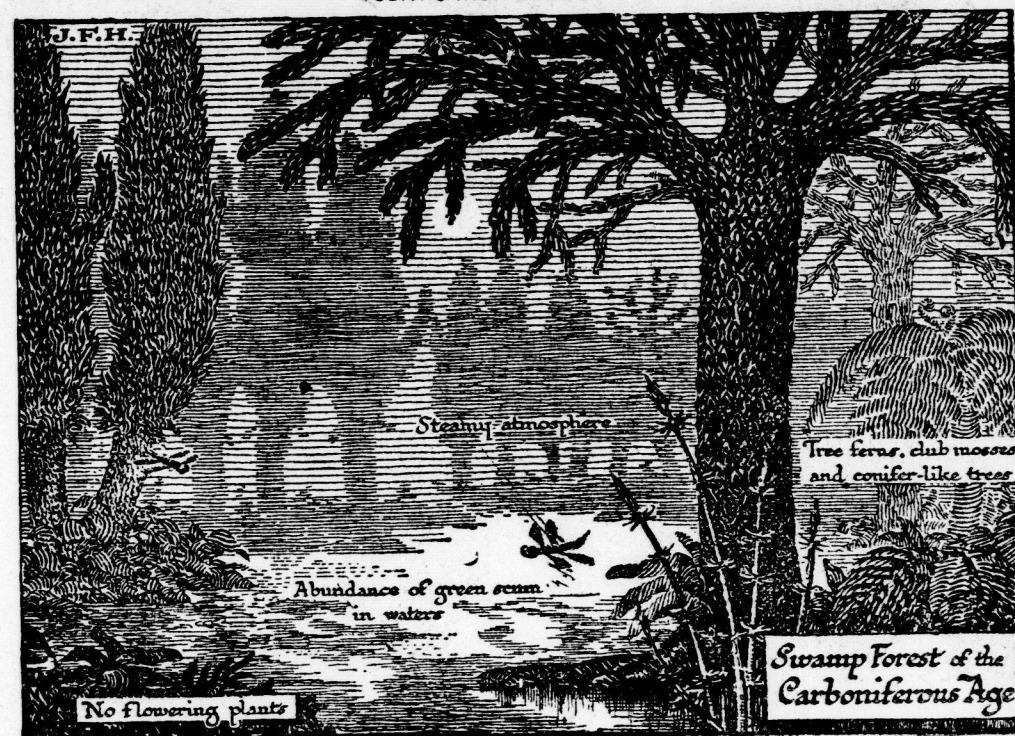

DIAGRAM OF LIFE IN THE LATER PALAEOZOIC AGE.

Life is creeping out of the water. An insect like a dragonfly is shown. There were amphibia like gigantic newts and salamanders, and even primitive reptiles, in these swamps.

IT follows from the fact that living things grow and breed and die that every species, so long as the conditions under which it lives remain the same, becomes more and more perfectly fitted to those conditions in every generation. But now suppose those conditions change, then the sort of individual that used to succeed may now fail to succeed, and a sort of individual that could not get on at all under the old conditions may now find its opportunity. These species will change therefore, generation by generation; the old sort of individual that used to prosper and dominate will fall and die out, and the new sort of individual will become the rule—until the general character of the species changes.

Fur Coats and Luck. Suppose, for example, there is some little furry, white-brown animal living in a bitterly cold land which is usually under snow. Such individuals as have the thickest, whitest fur will be least hurt by the cold, less seen by their enemies, and less conspicuous as they seek their prey. The fur of this species will thicken and its whiteness increases with every generation, until there is no more advantage in carrying any more fur.

Imagine now the range of climate that brings warmth into the land, creatures glaringly visible during the greater part of the year, and thick fur an encumbrance. Then every individual with a touch of brown in its coloring and a thinner fur will find itself at an advantage, and every white and heavy fur will be a handicap. There will be a weeding out of the white in favor of the brown in each generation.

If this change of climate comes about too quickly, it may, of course exterminate the species altogether, but if it comes about gradually, the species, although it may have a hard time, may yet be able to change itself and adapt itself generation by generation. This

change and adaptation is called the modification of species. Perhaps the change of climates does not occur all over the land inhabited by the species; maybe it occurs only on one side of some great arm of the sea or some great mountain range or such-like divide, and not on the other. A warm ocean current like the Gulf Stream may be deflected, and flow so as to warm one side of the barrier, leaving the other still cold. Then on the cold side this species will still be going on to its utmost possible furriest and whitenest, and on the other side it will be modifying toward brownness and a thinner coat.

At the same time there will probably be other changes going on—a difference in the paws, perhaps, because one-half of the species will be frequenting the snow for its food, while the other will be scampering over brown earth. Changes That Make New Creatures. Probably also the difference of climate will mean differences in the sort of food available, and that may produce differences in the teeth and the digestive organs. And there may be changes in the sweat and oil glands of the skin due to the changes in the fur, and these will affect the excretory organs and all the internal chemistry of the body.

And so through all the structure of the creature. A time will come when the two separated varieties of this formerly single species will become so unlike each other as to be recognizable different species. Such a splitting up of a species in the course of generations into two or more species is called the differentiation of species.

And it should be clear to the reader that given these elemental facts of life, given growth and death and reproduction with individual variation in a world that changes, life must change in this way, modification and differentiation must occur, old species must

disappear, and new ones appear. We have chosen for our instance here a familiar sort of animal, but what is true of all life, and equally true of the soft jellies and simple beginnings that flowed and crawled for hundreds of millions of years between the tidal levels and in the shallow, warm waters of the proterozoic seas.

The early life of the early world, when the blazing sun rose and set in only a quarter of the time it now takes, when the warm seas poured in great tides over the sandy and muddy shores of the rocky lands, and the air was full of clouds and steam, must have been modified and varied, and species must have developed at a great pace.

When Life Was a Matter of Hours. Life was probably as swift and short as the days and years; the generations, which natural selection picked over, followed one another in rapid succession.

Life in Later Palaeozoic Age. Natural selection is a slower process with man than with any other creature. It takes twenty years or more before an ordinary human being in Western Europe grows up and reproduces. In the case of most animals the new generation is on trial in a year or less. With such simple and lowly beings, however, as first appeared in the primordial seas, growth and reproduction was probably a matter of a few brief hours, or even of a few brief minutes. Modification and differentiation of species must accordingly have been extremely rapid, and life had already developed a great variety of widely contrasted forms before it began to leave traces in the rocks.

Tomorrow—How Life Came to the Dry Land.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Dated at Ottawa, 8th August, 1922.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

GIRL OF TODAY GIVES VIEWS ON FLAPPERS

Recent College Graduate Would Evolve Ideal From Mixing New With Old.

(Written for The Advertiser by Dorothy Thomas.)

Can we combine the "flapper girl" of today with the old-fashioned girl of yesterday, and get the ideal girl? How often we hear mothers ask with a sigh, where is the old-fashioned girl of yesterday, the lowly rather than the popular girl? This girl of yesterday did not look in the mirror so often, would not stoop to belittle one of her own sex. She settled down rather early in life to master the useful vocations of dress-making, millinery and cooking, with a zeal it is said.

Perhaps she did not dress up the salad as our "flapper" of today does. Nevertheless she could cook a plain, wholesome meal. But has this artist of the house disappeared altogether? Though our flapper friend does bob her hair, and don her clothes at a rakish angle, we love her none the less for this. But we do think she could take unto herself a bit of the girl of yesterday, for whom modern folks often sigh.

Some people class the flapper as solely one who designs to capture the hearts of the opposite sex, while the hearts of the opposite sex, who plays bridge, wears an evening gown that is backless, loves only the modern jazz music. Of course there are a few flappers of this calibre, but they are not all alike.

There are extreme flappers and quite sensible medium flappers. There are flappers who have mastered the art of housekeeping to the extent that they will be able to manage happy and well ordered homes when they come to get married, and even to satisfy their own mothers. And at the same time they will be able to incorporate a spice of their light-heartedness and fun-loving into daily routine, and make life interesting for themselves and their husbands. Isn't that an ideal kind of wife?

No mother would want her daughter to make marriage a failure for being allowed to follow in the footsteps of the purely frivolous flappers. But she wouldn't want her son-in-law to marry a girl without personality or a bit of nonsense. It seems to me the combination of old-

Childhood Ailments

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Consult your doctor, Mrs. Alcide Lepage, St. Eustache, Que., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams Medicine Co., Brockville, Ont.—Adv't.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic acid of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Personals

Miss Lillian Grant is in Toronto attending Library School.

Mrs. E. C. Complin of Toronto is the guest of her sisters, the Misses Macbeth, 342 Central avenue.

Miss Anne Macbeth has returned from Muskoka, and will be with her brother, Judge Talbot Macbeth, for the winter.

Mr. Alf Burnip of Kitchener, formerly of London, is in town attending the Fair and renewing old acquaintanceships.

Mrs. Patterson of Seaforth, is returning home Saturday, after spending the past week in London, the guest of Mrs. J. W. Keenan, Mount Pleasant avenue.

Mrs. Leonard Tilly of St. John, N. B., is an interesting visitor in town. Mrs. J. Boucher, Central avenue, Mrs. Tilly's sister, entertained in her honor at the tea hour Thursday.

Mr. and Mrs. William Corless of Avon and Mrs. E. T. Rollwell of Burgessville, who are celebrating the 25th anniversaries of their weddings this week, are in London attending the Fair.

Many friends will be pleased to learn that Misses Isabel and Evelyn Little, Smith street, have returned to their home in this city, after being confined to a hospital in Hamilton since the motor accident, in which they were injured at Burlington, Labor Day. Miss Isabel sustained a severe arm fracture, and Miss Evelyn escaped with a shaking up. Both have recovered from the shock of the accident, and Miss Isabel's arm is improving favorably.

A charming post-nuptial reception was held Friday afternoon, when Mrs. Roderick McKay, formerly Jean McCrimmon, received with her mother, Mrs. Donald McCrimmon, at her home on Wellington street.

Mrs. McKay received, wearing her graceful wedding gown of kitten-ear crepe, with side panels of accordion-pleated crepe, with a court train falling gracefully from her shoulders. Her corsage was of American Beauty roses, and Mrs. McCrimmon was gowned in mauve faille, and wearing a black hat and a corsage of cosmos. The rooms were attractive with white and rose-tinted asters, tastefully arranged, and Columbia roses, held in a silver basket centered the tea table. Mrs. Jack Ferguson and Mrs. Hugh McCrimmon poured, the latter wearing a smart frock of black Canton crepe, trimmed with jet and jade beads, a black hat and a fox fur. Mrs. Ferguson was gowned in pale blue taffeta, and wore a black hat. Mrs. W. A. McCrimmon ushered to the tea room, wearing a blue gown, with touches of sand, and a blue patterned jacket. The room was decorated with blue and white, and a black picture hat. Miss Terese White, in a pretty frock of gray and blue French voile, with canna colored hat, and Miss Doris Nelles, gowned in Canton crepe, with a rose and white hat.

Mr. and Mrs. McKay are leaving Sunday for their new home in Ashcroft, B. C.

Face Peeling Easy for Blonde or Brunette

"The blonde's complexion fades early, because her skin is extraordinarily thin and fine," says Lina Cavallieri, perhaps the most famous living beauty. "The brunette's, as a rule, is the reverse. The skin is thicker and has a tendency to an oily appearance." For either the faded blonde's skin or the brunette's oily or sallow complexion, the best remedy is ordinarily mercurized wax. Used daily, this will give one an entirely new complexion within about a week's time. The wax gradually absorbs the surface of the skin with all its defects, a little each day, without affecting the delicate under skin in the least. The result will have the exquisitely beautiful glow of youth—leaved, one may readily lose ten or fifteen years from her age, so far as appearance goes, by a course of this simple treatment. Mercurized wax, obtainable in original package at any drug store, is applied like cold cream, and allowed to remain on over night.

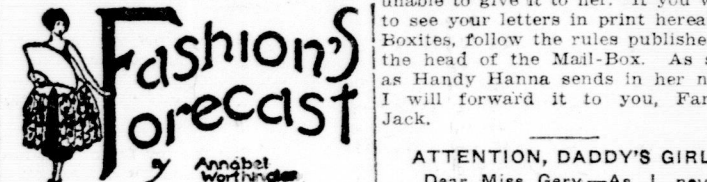

WILL WRITE ROSEBUD NO. 1.

Dear Miss Grey and Friends,—I was very glad to see my letter in print, and also to see that I am "Rosebud No. 2." I am a real rose, and live along the shores of Lake Erie. I wonder where "Rosebud No. 1" lives. If she will write first, I will answer her letter. I am sending a self-addressed envelope for "Buskins." Am sending a mite for S. C. H. fund. This is part of my spending money, as I am going away for the rest of my vacation. I am feeling better than when I wrote my last letter. I will close now, hoping to hear from "Buskins." ROSEBUD No. 2.

So you have had the pleasure of living on the shores of Lake Erie. It must have been lovely during that hot weather. Am mailing you Buskin's address, and if Rosebud No. 1 would like to write to you she may have your address from the Mail-Box. I am pleased to hear you are feeling better again, you will soon be starting back to school again, won't you? Many thanks for remembering our hospital fund, with part of your spending money, Rosebud.

FOUND SOME LITTLE CLOTHES.

Dear Miss Grey,—I have seen so many anxious mothers writing to you page for help, that I couldn't remain a silent reader any longer. But I haven't much help to offer this time. I found two little wool shirts and some little stockings, and a pair of bands, and also a pair of wee moccasins, while going through some drawers the other day, so I thought I would offer them through the Mail-Box. These are some things my own baby has outgrown, but I will be glad to let any needy mother have them if she will pay the postage. This is a hard year for a lot of people, isn't it? I know we find it so, and I often wonder how some mothers manage who have a large family and can't sew. It must be a hard struggle, I think. I am glad to say that I can do for myself and others, which helps out a lot. My own

FASHION'S FORECAST

A Simple Style For Everyday Wear. The homespuns and tweeds shown now in the shops for fall dresses are so pretty and inexpensive. Frocks made of these materials are so jaunty and so becoming. Most of the designs shown for sports and everyday wear, especially those for the young misses, are fashioned from these gray-colored fabrics. This style could be charming indeed, if made of tweed or homespun. The pattern is in one piece from neck to hem, with a set-in sleeve. The belt extends from each side of the front across the back. If you decided to copy this dress in a homespun, it would cost about \$4.25 figuring material at \$1.00 per yard. It takes very little time to make a dress like this, in fact, you could cut and finish a garment after this pattern in two afternoons.

The pattern No. 1430 cuts in sizes 16 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards material with 3/4 yard 36-inch contrasting. Price, 15c, stamps or coin (coin preferred).

many needy ones in our midst.

Surely there is no need for anyone to want for necessities of life. Bye-bye for now. VICTORY BOND.
Ans.—I think some of the boxites answered your riddles correctly, did they not? They were very good ones. Apparently you have never been out much in the world. Victory Bond, or you would realize how many needy ones there are in every district. Some parts are worse than others. But our boxites have been more than generous, helping out those in distress, in the Mail-Box.

WITH THE BRIDES

CARROLL—QUEEN.
The marriage took place Thursday, Sept. 14, of Miss M. L. Queen of Lambton to Mr. H. J. Carroll of London. Mr. and Mrs. Carroll left for Toronto, where they will take the boat to Montreal and Quebec. They will be at home to their friends after Oct. 1 at the Longwood Inn.

CRANSTON—JOHNSTON.
At the Church of the Ascension, Paris, on Tuesday morning, at 10 o'clock, the marriage was solemnized of Mildred, second daughter of Mr. and Mrs. Thomas Johnston, and S. Louis Cranston, son of the late Mr. and Mrs. J. H. Cranston of Sarnia, Ont. The pastor, Rev. Thomas Hicks, officiated. The quaint little church was a tower of loveliness with autumn flowers, the chancel being banked with ferns and pink and white asters. The bride, who was given away by her father, was charmingly attired in a French suit of navy tulle with navy and sand hat to match and a Lucille fox fur, and she carried a white prayer book.

During the signing of the register, the bride's sister, Miss Amatta Johnston, sang "O Perfect Love." After the ceremony the wedding party motored to the summer home of the bride's parents at Port Elgin beach, where a veranda luncheon was served. Mr. and Mrs. Cranston left on the afternoon train for Lake George in the Adirondacks, where the honeymoon will be spent, after which they will reside at 2121 Foster avenue, Brooklyn, N. Y.

WALLACE—BENNETT.

A very pretty wedding was solemnized at the home of Mr. and Mrs. W. G. Lockhart, on September 6, 1922, when their niece, Mae B. Bennett, was united in marriage to John A. Wallace, eldest son of Mr. and Mrs. W. Wallace, concession 4, East Oxford, Ont. Lane of Drumbo officiating. White asters and green foliage formed an artistic background for the ceremony. Promptly at two, to the strains of Lohengrin's Wedding March, played by Miss Blanche Copeland, cousin of the bride, the bride entered the room with her bridesmaids, looking very charming and smiling in a gown of white silk crepe de chine, trimmed with panels of radium lace and embroidered in crystals. She wore a corsage bouquet of Columbia roses. Her only attendant was little Miss Cora Wallace, sister of the groom, who looked very sweet in the dainty frock of pale blue silk crepe de chine, trimmed with pique-edged ribbon of the same color, and she carried the ring in a basket of pale pink sweet peas. The groom's gift to the bride was a mahogany library table, to the pianist a silver harp with set with brilliant, and to the flower girl a locket and chain. During the signing of the register Miss Blanche Copeland played very softly. A wedding breakfast was served after the ceremony. The dining-room was tastefully decorated with pale pink and white asters. The young couple left by motor, amid showers of confetti and good wishes, for Toronto, Niagara Falls and points east, the bride traveling in a blue taffeta frock and black feather hat. On their return they will reside on the groom's farm, concession 4, East Oxford. Guests were present from Beaufort, Oxford Center, Brimley, Inverness, Belmont, Niagara Falls and Drumbo.

ATTENTION, DADDY'S GIRL.

Dear Miss Grey,—As I never saw my last letter in print, I am writing again. Miss Grey, please find enclosed 10 cents for the S. C. H. I will send more next time. I am writing to Jolly Jean and Daddy's Only Girl. I wish the latter would hurry up and write. Miss Grey, would you please answer these questions?
1. When pouring tea, should you pour it while sitting at the table or should you pour it in another room and carry the tea around to them?
2. Should you put the spoons in a spoon holder or should you put them in the sugar bowl by the plates?
Well, Miss Grey, I guess I will say good-bye.

A SCHOOL KID.
Ans.—Are you sure your last letter wasn't in the Mail-Box? Sometimes the letters appear on two different pages.

1. Tea should be poured at a table, and the tea cups passed to the guests. Some of the guests may be in a different room than the one where the tea is being poured. In that case the tea is carried to them.
2. The spoons should be placed at the plates, when setting a table.
Thank you for remembering the hospital fund. Was your mother afraid her mite would be confused with yours?

WHO HAS RECIPES?

Dear Miss Grey,—This is my first letter to the Mail-Box, but I have read and enjoyed it very much. I have also received many helpful hints and recipes, but am like many others—am coming for help. Could you, Miss Grey, or any of the Boxites, supply me with a good recipe for brown bread and white cookies? Our fall is next week, and I would like very much to show two loaves of brown bread and a dozen white cookies. If I can get a good recipe, Hoping I haven't taken up too much space, will sign myself

White Cookies.—One cup butter and lard, 1 cup white sugar, 1 egg, 3 table-spoons milk, 2 table-spoons baking powder, 2 1/2 cups flour, 1/2 teaspoon soda. Bake in moderate oven.

Here is a recipe for brown bread also, but if any of the Boxites have either of these recipes, which they have found exceptionally good, send them in for Trixie. These I have given are tried recipes.

Brown Bread.—One cup corn meal, 1 cup Graham flour, 1 cup white flour, 1 cup molasses, salt, 1 teaspoon soda. Add enough sour milk to make stiff batter, and steam three hours. I wish you luck with your exhibits.

IN OUR LAND OF PLENTY.

Dear Cynthia Grey and Boxites.—Brothers nor sisters have I none, but that man's father is my father's son, is my son. The correct answer to "What relation is your mother's mother's brother-in-law" is, "My father." These are the correct answers. Only a Gal and Rosebud No. 2. I was so glad to see Calamity Ann still has a kick in her. Write again, Calamity Ann.
I am so sorry for those in need, I never knew that we had so

Y. M. C. A. STAFF GIVES JOLLY SURPRISE PARTY

Local Staff Surprises Assistant Secretary of Y at His Home.

The staff of the Y. M. C. A. held an enjoyable surprise party Wednesday evening in honor of Mr. Wilfrid Spearman, assistant secretary of the Y, and Mrs. Spearman, whose marriage took place recently. The party was held at the home of Mr. and Mrs. Spearman, Wharncliffe road, and the guests included Mr. E. Jenkins, general secretary, and Mrs. Jenkins; Mr. George Sinclair, physical director, and Mrs. Sinclair; Mr. Lloyd Houlding, boys' secretary, and Mrs. Houlding; Mr. Bob Liddle, men's secretary; Miss Liddle, Miss Coulton and Mr. Gordon Butler, newly-appointed assistant physical director.

WILL HOLD RALLY DAY AT ASKIN STREET CHURCH

Sunday will be Rally Day at Askin Street Methodist Church. At the morning service the pastor, Rev. J. T. Cosby Morris, will preach. In the afternoon at 3 o'clock there will be a grand Sunday School Rally, an open session in the church with special orchestra music and singing. The speaker will be the Rev. L. B. Gibson, D. D., of Knox Church, Woodstock. At the evening service, 7 p.m., the Rev. L. B. Gibson, D. D., will occupy the pulpit.

EXETER

Special to London Advertiser.

EXETER, Sept. 14.—Dr. G. E. Lipsitt of St. Joseph's Island, will move to town about October 1 and open an office in the residence of Mrs. B. Knight on Main street.

Ed. Christie has been appointed agent for the Canada Life Insurance Company to succeed the late A. Hastings.

R. J. Bell of the department of agriculture of the Dominion of Canada, will give a demonstration of the condoling and grading of eggs at the agricultural hall on fair days, Sept. 15-19.

"DR. FOWLER'S" SAVED THE LIVES OF FOUR CHILDREN

Diarrhoea, dysentery, cholera infantum and summer complaint are responsible for more deaths, especially among children, during the summer months than any other form of disease. According to statistics, in the city of Toronto alone, in the past five years out of 1,008 deaths of children, from diarrhoea, 757 died during the four summer months. It therefore behooves every mother to look after her children on the first sign of any looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has been proven to be the best there is.

Mrs. Harold Sellers, Pennfield, N.B., writes: "Dr. Fowler's Extract of Wild Strawberry saved the lives of four of my children when all other remedies failed. It stopped the vomiting and terrible diarrhoea with which they were troubled. I will always recommend it, and will always have a bottle on hand in case of emergency."

Price, 50c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.—Adv't.

Who Pays For Advertising?

THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody. It pays its own way.

Nobody pays for the new carburetor that gives added mileage to your motor car. It pays for itself in the gasoline it saves.

Nobody pays for an improved cash system in a modern department store. It Pays for itself in economy of human time.

Nobody pays for well planned and written Daily Newspaper advertising. It pays for itself by reducing the cost of sales and by increasing production. And it often receipts old bills for follies with advertising labels.

The advertisement in your own local Daily Newspaper tells you the best things to buy and where to buy them. Every new purchase helps the whole community to command cheaper and better goods.

Issued by the Canadian Daily Newspapers' Association, Toronto.

Fall House Cleaning Now Starts

You do not know what real rug cleaning is unless you have tried our process—we start in where the other fellow calls a "clean rug." Blankets, Quilts and Comforters are needed; our process takes away the mothball smell, it is different; some how we know how. A bundle from every home; a plan for every pocketbook.

BEGIN HERE TODAY.

In appreciation of his daring in rescuing her and her companions from highwaymen.

MME. DE SEVENIE had invited the man who preferred to be known as ANDRE DUCHEMIN to dine in her chateau.

Duchemin accepted, despite his desire to avoid all social activities during his leave of absence from the English Secret Service. He was anxious to meet again.

EVE DE MONTALAIS, the American widow who had been one of those saved by Duchemin from the highwaymen's attack.

En route to the chateau, Duchemin pondered over the arrival in town of a strange motoring party of four men and a woman. He was able to learn only two names:

PHINUIT, apparently a secretary and the chauffeur.

JULES.

GO ON WITH THE STORY.

CHAPTER VI.

Scouting the Lone Wolf.

DINNER was served in a vast and sombre hall whose darkly paneled walls and high-beamed ceiling bred a multitude of shadows that danced about the table, restlessly advancing and retreating as the candles flickered, faded and flared in the gusty draughts.

Rain in sheets slashed the windows without rest. Round turrets and gables the wind raved and denied like a famished wild thing denied its kill.

After dinner Duchemin sat talking with Madame de Montalais over their cigarettes. To smoking, curiously enough, Madame de Sevenie offered no objection.

"It is my home," said Eve de Montalais softly, looking away.

Her father had been a partner in a great jewelry house, Cottier's, of Paris, London and New York. (So that explained it! She was wearing the blue diamond again tonight, with other jewels worth, in the judgment of a keen connoisseur, a king's ransom.)

Across the drawing-room Madame de Sevenie sharply interrogated a manservant who had silently presented himself to her attention.

"What is it you want, Jean?"

The servant mumbled his justification.

Free to Asthma and Hay Fever Sufferers

Free Trial of a Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma and Hay Fever, which is so simple and so effective that it can be used by anyone, at any time, and in any place.

JACK DAW'S ADVENTURES

Now we'll walk over and see if Lopez got away with all our horses. The sheriff was surprised to see all the horses' backs, and flip at the entrance guarding them.

When they reached the enclosure where the horses were kept, Jack and the sheriff were surprised to see all the horses' backs, and flip at the entrance guarding them.

Well, said the sheriff, that flip is sure some dog. He must have had an awful time bounding up those horses and carrying them back. We'll let him guard them awhile longer, and go over and see the old rancher.

When they reached the rancher's house, one of his men came out and said the old fellow would see them. As soon as the doctor left, Lopez almost choked him, explained the sheriff continued in the next chapter.

FASHIONS—100 B. C.

If you have a fancy for the classical side or both sides of the skirt, the full blouse, the straight neckline, the short over-tunic (call it an over-blouse, this season) are some of the various fashion features that were popular then as now.

Shades of purple, Tyrian or otherwise, are in excellent taste for fall.

Makeup of Your Child's School Lunch Box

BY BERTHA SHAPLEIGH.

SOON housewives and mothers must think of the children's lunches which must be "put up" to carry, or prepared at home to serve hot. In either case many things must be considered.

These lunches must be attractive, appetizing and contain those foods which are necessary to keep the growing child in good health.

Let us consider first the lunch box. If a girl is to carry it, it can be quite different from the one a boy carries. He does not wish to be bothered with one which must be carried home. It is too elaborate the boys may laugh at him. So if possible let him carry his lunch in a paper container which need not be taken home.

With the present convenient paper dishes, obtainable at almost all stores, it is possible to prepare a very attractive lunch box.

As to food there should be one substantial sandwich with a filling of meat or egg; one sweet sandwich, or plain bread and butter with some salad in a jelly tumbler.

Put in the box some sweet, such as stuffed dates or figs—cookies or one piece of cake, and always fruit. The orange may have the rind cut, so it will be easy to peel, and then be wrapped in oiled paper.

For the older children, pastry baked in two rounds with a fruit filling between is always enjoyed. A baked apple, a few pieces of home-made fudge, a cup custard baked in a pretty cup; a small frosted cake—

all of these at various times will be appreciated.

When possible, milk should be bought at the school. But otherwise, have one or two half-pint bottles with tight-fitting caps, and put that and two straws in the lunch box.

There is a novelty about drinking milk from the bottle through a straw.

Each piece of cake, and the sandwiches, ought to be wrapped separately in oiled paper. Paper napkins may be used in place of oiled paper, but newspaper or any printed paper should never be used around food.

The following are suggested combinations for a lunch box:

ONE—Two sandwiches, one of brown bread and butter, one white bread and butter. One boiled egg, the yolk taken out and mixed with butter, salt and pepper. The egg is then wrapped in oiled paper. Two cookies. One orange.

TWO—One sandwich made with chopped ham and chicken mixed with mayonnaise. (Of course any other meat on hand may be used.) Three olives or three small pickles. One salted chocolate cake. Bottle of milk. One apple.

THREE—Chopped egg and bacon sandwich. Jelly tumbler of cold slaw. Three cookies. One orange.

FOUR—Two peanut butter sandwiches, one having chopped pickle and one jelly mixed with the peanut butter. One apple tart. Three pieces chocolate fudge. Bottle of milk.

FIVE—Two buttered rolls. Jelly tumbler of fruit salad. Cup custard. Two cookies.

Radio Radiations

PREDICTIONS of the future possibilities of radio are running wild.

Never before in the history of any other new science have so many applications been devised for it as for wireless. It has even reached the realms of the psychic in its ever increasing list of uses.

It seems every time an "expert" or "authority" on the subject says something he finds some new use for radio. Many of these applications are obvious to the layman. But there are some which require the weirdest flights of the imagination to conceive of their possibility.

Some predictions already made for radio are:

That physicians will diagnose diseases from afar.

That school will be kept and lessons delivered by radio.

That light, heat and power will be derived from radio frequency waves.

That ships, submarines, automobiles—in fact, every moving object—will be controlled by radio.

That the next war will be fought by wireless.

That farmers will employ radio waves to do their heavy work.

And so on. But would it not be just as easy to go a step or two farther with these predictions? For instance, housewives would be glad

to have their work lightened as far as possible. Why could not radio be adapted to kitchen use? Just as easily as having the waves run a tractor!

Heaven on Earth.

Also, a far-seeing Ponce de Leon

might discover the real fountain of youth in the mysterious bulbs and coils and motors that produce these wireless waves. Dangerous gland operations would be unnecessary and the age of Methuselah would be revived.

Let your imagination fly a little higher and observe the real kingdom of heaven on earth, when the blind will be able to see, the deaf to hear and the lame to walk!

Perhaps that's too far-fetched. But, coming down a peg or two, couldn't the blind be made to hear what others see? Like the movies, for instance? And the deaf might be permitted to see the distant radio concerts that others hear!

As for the lame, with one's imagination at such heights, it ought to be easy to conceive of a radio machine that would furnish every person with a pair of good, strong, equal-sized legs!

RADIO IN AVIATION.

RADIO is included in the course of aviation schools throughout the world. Government schools, as well as private, make this an essential study for coming pilots. The future, it is predicted, will see every airplane

equipped with a radio set. In fact, England is planning to make this compulsory.

KNITTED CAPES.

Knitted capes for tiny children from 2 to 5 are very swaggy and are extensively shown in all shades and weaves.

KNITTED SILKS.

Sports costumes of heavy knitted silk are to be popular for fall. Frequently they are untrimmed save for colored stripes or fancy ribbed effects woven in the material.

For all GENERAL CLEANING

Gives better results with less work.

Old Dutch is soft and flaky.

Contains no lye, acids or hard rough particles.

Baked Stuffed Marrow.

BY BERTHA SHAPLEIGH, of Columbia University.

INSTEAD of always having squash or the vegetable which is very much like, vegetable marrow, boiled, try stuffing and baking as follows:

1 small marrow or turban squash. 2 tablespoons chopped onion. 2 cups bread crumbs. 2 tablespoons salt. 1/2 cup cooked, chopped meat. A little pepper. 3 tablespoons fat (butter or bacon). 1/2 teaspoon thyme. 2 cups tomato sauce.

Cut the top from the squash, or cut the marrow in halves lengthwise. Parboil for fifteen minutes. Remove from water, scoop out the inside, and discard seeds, and place in a dripping pan. Sprinkle the inside with salt, and stuff. For the stuffing, fry the onion in the fat. Add crumbs, meat, the solid pieces of the part removed after parboiling. Season with the salt, pepper and thyme.

After the marrow is stuffed, bake it until it is soft, about 30 or 40 minutes. The top may be sprinkled with grated cheese before baking.

For the sauce, any of the concentrated tomato soups may be used, diluted to make the right consistency, and seasoned to taste.

ONE—Two sandwiches, one of brown bread and butter, one white bread and butter. One boiled egg, the yolk taken out and mixed with butter, salt and pepper. The egg is then wrapped in oiled paper. Two cookies. One orange.

TWO—One sandwich made with chopped ham and chicken mixed with mayonnaise. (Of course any other meat on hand may be used.) Three olives or three small pickles. One salted chocolate cake. Bottle of milk. One apple.

THREE—Chopped egg and bacon sandwich. Jelly tumbler of cold slaw. Three cookies. One orange.

L. R. Steel Company, Limited PROGRESS IN CANADA

The great aim of Steel Stores in Canada is to give every Customer the greatest Service and Value for every Dollar—to earn Dividends for every Shareholder—to develop Canadian Raw Materials and to use Canadian Labor wherever possible—to help Canada prosper by providing Employment for Thousands and by putting in Circulation Millions of Dollars every Year. Canada is developing rapidly, and we are looking ahead and equipping Steel Stores to serve the Millions of To-day and the greater Millions of To-morrow.

L. R. Steel

Over Eight Million Dollars Distributed in Canada by L. R. Steel Organization in Two Years

ON August 7th, 1920, the first L. R. Steel store in Canada opened its doors at Goderich, Ontario. In two years' time 12 Steel Stores have been opened in Ontario, Quebec and Manitoba. High-class retail sites have been purchased for the erection of 10 more Steel Stores in Canada. This is but the preliminary work of a great building campaign that calls for a Steel Store in every point of 5,000 people and over in Canada and the United States.

Over \$8,000,000 HAS BEEN PAID OUT IN CANADA for store sites, construction, labor, merchandise and equipment by the L. R. Steel organization during a period of about two years' operation in Canada. The building division of Steel Stores, the Steel Realty Development Corporation, Limited, has distributed in Canada \$5,494,253.18 for store sites, buildings and improvements up to August 1st, 1922. Steel Stores in Canada in about two years have paid out \$5,147,244.16 to fit out stores, to pay Canadian labor, wages and salaries, to pay Canadian factories for merchandise, to pay operating expenses of stores that have been increasingly successful in operation, returning dividends to Canadian shareholders. About 90% of all merchandise handled in the Canadian Steel Stores is made in Canada. In two years, and ever increasing, the L. R. Steel organization has developed into one of the permanent and progressive institutions that are helping to build a greater Canada.

STEEL STORES STIMULATE BUSINESS CENTRES.
The first L. R. Steel Store opened in Goderich, a town of about 3,000 population, with a record attendance on opening day of many more than that number of people. Steel Service and Steel values draw business from a great distance, which is a benefit to other merchants in the same town. In Oshawa, Ontario, the Steel Store was the pathfinder in creating a new business district. That Steel Store trade attraction makes business better and increases values in the retail section of the town has been demonstrated in several cities and towns in Canada where Steel Chain Stores are in operation. For example, on St. John Street in Quebec City, in the vicinity of the Steel Chain Store, retail values are reported to increase and business better since the operation of the Steel Store in that locality. Steel Chain Stores are in operation in Goderich, Owen Sound, Sault Ste. Marie, Oshawa, Toronto, Ottawa and Brantford, in the Province of Ontario; in Montreal, Sherbrooke and two stores in Quebec City, Province of Quebec; in Brandon, Province of Manitoba.

VALUABLE SITES FOR NEW STORES.
The L. R. Steel organization owns some of the best retail sites in cities of Canada, upon which it is planned to build large and most modern equipped Chain Stores. The Hamilton Store is scheduled to open for business this year, occupying the site of the old McKay Building, 55-59 King Street East, Hamilton, Ontario. A store has been opened recently on Rosser Avenue, Brandon, Manitoba. Excellent building sites have been secured in Three Rivers, Quebec; on St. Catherine Street West, Montreal; on Scarth Street, near the post-office, in Regina; at 161-171 Second Avenue, Saskatoon. What is conceded to be one of the finest retail store sites in Edmonton, the corner of 101st and Jasper Avenue, is owned by the L. R. Steel organization, and also a rare retail corner in Calgary, the corner of Eighth Avenue and First Street West. In Vancouver the L. R. Steel organization owns two of the best retail corners in the city, the corner of Granville and Dunsmuir Streets and the corner of Hastings and Homer Streets.

FUTURE DEVELOPMENT IN CANADA.
Steel Stores are paying dividends to shareholders. L. R. Steel has shown his faith in Canada by always crediting Canadian money with par value in all the Steel enterprises in the United States. It is estimated that at least 2,000 people, employees and their families, in Canada, are being supported by the L. R. Steel organization. The plan of operation of Steel Stores has met with such favor in Canada that frequently Steel Stores have been opened by mayors. The plan of Steel Store development in Canada is exceedingly great. Plans call for Steel Department Stores, retailing merchandise from 5c to \$20.00, in all points of population of 5,000 people and over, in Canada. Wherever the store has a frontage of 50 feet or more, plans call for a market, which will distribute among the people fresh farm products at the minimum of cost. It is also

planned to open up in the future factories in Canadian towns to supply wares to Steel Stores in Canada, utilizing Canadian material and labor. Steel Stores will develop farm products and other natural resources to a very large extent. To man these enterprises in Canada, thousands of capable, dependable and efficient men and women will be required. Hundreds of managers and assistant managers of stores will be needed. An army of salesmen and saleswomen will be required to operate the stores, and the farm products market run in connection with the stores. Numerous men will be needed to man the delivery wagons that bring in the farm products to the stores and deliver merchandise to the farmers. Employment will be provided for thousands, Canadian industry will be stimulated and millions of dollars put in circulation annually. Canada is growing rapidly, and the L. R. Steel organization is preparing to serve the millions that are here and the millions that are coming, to make this Canada's greatest century.

\$5,494,253.18 IN CANADIAN STORE PROPERTIES, OWNED BY STEEL REALTY DEVELOPMENT CORPORATION, LIMITED, AS PER RECORD TO AUGUST 1ST, 1922. (THIS DOES NOT INCLUDE SOME VALUABLE STORE LEASEHOLDS.)

NEW MERCHANDISING POLICY.
The L. R. Steel Company, Limited, is establishing Steel Chain Stores in groups of seven. One of these stores, located within easy access to the other six, will act as a central distributing store for the rest of the group. By means of this Group System the sub-stores will be so situated that they will need to carry only enough stock to meet their requirements from week to week. Being so close to the central distributing store, sub-stores can renew their stocks easily by requisitions. Besides being an advanced modern merchandising idea, the Group System reduces the problem of Chain Stores which find it necessary to permit enough space to be devoted to reserve stocks of merchandise. The Group System also reduces long hauls of freight to short hauls.

In the earlier years of 5, 10 and 15 cent stores, rents were low enough to allow considerable space for the storing of reserve stocks of goods; but, with the coming of high rents, as in vogue to-day, storage space becomes a problem. L. R. Steel has originated the Group System of operating Chain Stores to solve this problem.

Steel Chain Stores in Canada sell lines of merchandise to completely equip the home for the average family and supply the needs of the individual, at prices ranging from 5c to \$20.

HAMILTON STORE.
On this page is shown the architect's sketch of the Hamilton store, now being completed on the site of the old McKay Building, 55-59 King Street East, Hamilton. It is a good example of the up-to-date Steel Chain Department Store, retailing merchandise from 5c up to \$20. When operating, it will have four floors with a Steel Cafeteria in the basement.

First Floor: Soda fountain, electrical department, hardware and smallware departments. Balcony off first floor: Men's furnishings, Men's Clothes, Men's shoes and Ladies' Beauty Parlor. Second Floor: Ladies' Ready-to-Wear, Depts. and Ladies' Beauty Parlor. Third Floor: Market, Furniture, Candy, Manufacturing, Bakery and department. Fourth Floor: Stock room. When operating, this will be one of the finest and most modern stores in Hamilton, and one of the best in the Steel international chain.

L. R. STEEL COMPANY, LIMITED

EXECUTIVE OFFICES:

Third Floor, Royal Bank Bldg., Toronto, Ont.

Canadian money has always been credited with par value in all those Links of the International Steel Chain operating in the United States. Through the depression, and ever since the inception of the Steel Enterprises, about two and a half years ago, Canadian money has not lost a cent in value through Exchange. This is but one of many ways in which L. R. Steel is showing his faith in Canada.

Store Operating at 66 Sparks St., Ottawa.

To be Built on St. Catherine St. West, Montreal.

CLANDEBOYE

Special to London Advertiser.
CLANDEBOYE, Sept. 14.—The farmers here have mostly left the fall wheat seeding as late as possible, to escape the destructive Hessian fly, and now have rains have stopped work, making a question whether in avoiding the seed will be in too late to grow sufficient crop before winter. The Golden Bantam and other varieties of garden corn have been nearly

altogether free from ear worm this summer in this locality.
Mr. and Mrs. G. P. Pote of Detroit, on a motor trip from that city to Toronto, are spending a week or more with Mr. Pote's mother and other relatives here.
Mr. and Mrs. Milton Shoultz of San Jose, California, are visiting friends and relatives in this vicinity, on their way to Toronto and Winnipeg, leaving the latter place in November for their home in California.
The large white puff-balls and the small pink mushrooms have at last

made their appearance in the fields in quantities large enough to be worth the gathering by people fond of these delicacies.
MOORETOWN
MOORETOWN, Sept. 15.—An exceptionally large crowd attended the school fair at the township hall yesterday. The exhibit was the best

that has ever been shown.
Mrs. Roy Turnbull is in London this week attending the fair.
Herbert Jarvis had the misfortune yesterday afternoon to fall and break a small bone in his ankle. He was playing ball at the school fair when the accident happened.
Joe Wellington has just shipped six carloads of cattle to the old country. He expects to make another shipment in about five weeks.

ARKONA

Special to London Advertiser.
ARKONA, Sept. 14.—A terrific windstorm, accompanied by hail and lightning, passed all the south of here last Sunday. Many orchard trees were uprooted, and the silo of Mr. Lou Marshall was blown to pieces.
Mr. Burnham, the headmaster of

the public school, has purchased the home of Mr. Benedict, the latter retiring to a farm a little north of the village.
A quiet wedding took place at the Presbyterian manse last Saturday, when Miss Freda Thoman, daughter of Mr. and Mrs. Alex. Thoman, became the bride of Peter Sheirs of Cayuga, Rev. W. J. Gale officiating. The apple evaporator expects to open for business next Monday. The

apple crop around here this fall will be good.
There will be a greater acreage of fall wheat sown this fall around here. The threshing of wheat is not showing up so well, while the oats are turning out abundantly.
The Epworth League will conduct the service next Sunday evening at 7 o'clock in the Methodist Church. A good program is being prepared. The pastor preaches in the morning at 11.

The topic will be "The Program of a Progressive Church."
HEMORRHOIDS
Do not suffer another day with itching, bleeding, or protruding Piles or Hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you in one and afford lasting benefit. 60c a box, at dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample box free.

EXPLAINS WHY CARS BACKFIRE

Expert Claims Slow-Burning Charge Usually Cause of Trouble.

Projecting Points Remaining Red Hot Ignite Incoming Gas.

BY F. G. TOPP.

A slow burning charge is the cause of backfiring into the intake manifold and carburetor, fire remaining in the cylinder through the exhaust stroke and igniting the gas in the manifold at the opening of the intake valve. This slow-burning charge is usually lean, lacking in gasoline, the air predominating and separating the particles of gasoline so greatly that the flame has difficulty in "jumping the spaces," doing so slowly and prolonging the time of combustion.

The remedy lies, of course, in obtaining a better mixture, and the seat of the trouble is the carburetor, which is admitting too much air, or not enough gasoline. The spring of the air valve should be tightened, or its amount of opening lessened, which will cut down the air. In case a carburetor suddenly develops such a disability to deliver a proper mixture, and the air valve seems as usual, it is well to inspect the needle valve, which may be partially stopped up, or the nut on the needle stem may have become loose and allowed the needle to work down.

If the trouble does not seem to be with the carburetor, inspect the intake manifold. Sections of gasket have been known to drop out, admitting air, and the manifold to become loose on its studs. The latter will, of course, be noticed as soon as the carburetor is touched.

An over-rich mixture is another cause of back-firing into the carburetor, though not as common as the lean mixture. Gasoline predominates, and the flame has a hard time finding enough oxygen, with the result that, as in the former case, flame is left in the cylinder when the intake valve opens, and ignites the incoming charge back through the intake manifold to the carburetor.

Another and still less common cause is carbon deposit. A projecting point of carbon in the cylinder becomes red hot and retains its heat through the exhaust stroke, igniting the incoming charge. Backfiring through the carburetor from this cause is always preceded by violent and characteristic pre-ignition knocking, the point of carbon at first not being hot enough to ignite the mixture until it is compressed. After the motor has run long enough with this pre-ignition the carbon becomes hot enough to ignite the charge as it comes in. The remedy is, obviously, remove the carbon by either chemical or mechanical means.

Incomplete combustion, caused by an impoverished mixture, is that condition which causes a motor to backfire into the intake pipe and carburetor.

The mixture may be impoverished by a carburetor adjustment admitting a surplus of air, in some cases only at the higher motor speeds, or by leakage at some one or all of the joints between the carburetor and cylinders. It may also be impoverished by admitting an insufficient supply of gasoline past the needle valve with correct air adjustment.

As an impoverished mixture, otherwise known as a lean mixture, burns slowly and spasmodically, owing to the excessive amount of oxygen present necessary for the combustion of the charge, there is at times a portion of it still burning at the end of the exhaust stroke, and as the inlet valve opens it fires the gas contained

Using Gas and Water For Fuel

C. E. Degner Illustrating Principle of His Generator

TAKE two-thirds gasoline and one-third water. Mix them in your gasoline tank, press the starter and off you will go!

This surprising combination is the fuel for a new form of automotive device to take the place of the carburetor. It is the invention of C. E. Degner of Los Angeles.

Degner calls his invention a fuel generator. Tests of it were made recently at the Pratt Institute, in Brooklyn, N. Y., where it was said the device was superior to 32 carburetors of different makes which competed with it.

The generator is constructed on the principle that a current of air passing through the mixture of water and gasoline will cause the formation of a fuel gas. It is installed in the same relative position as the carburetor, but with a larger intake pipe. Another pipe leads to the exhaust from which the air pressure is taken. Degner says this fuel not only is cheaper, but it will produce more miles on a gallon than pure gasoline will.

In the intake pipes and carburetor, because of the fact that this gas is moving towards the cylinders at a slower rate of travel than that of the flames propagation; but as this does not happen at every intake opening, the next inspiration stroke or one closely following it again starts the flow of gas through the carburetor, and puts the engine in operation until the same thing occurs again.

I have also known of cases where carbon deposits, becoming incandescent, have ignited the gas during the inspiration stroke and caused the same action.

Another and still less common cause is carbon deposit. A projecting point of carbon in the cylinder becomes red hot and retains its heat through the exhaust stroke, igniting the incoming charge. Backfiring through the carburetor from this cause is always preceded by violent and characteristic pre-ignition knocking, the point of carbon at first not being hot enough to ignite the mixture until it is compressed. After the motor has run long enough with this pre-ignition the carbon becomes hot enough to ignite the charge as it comes in. The remedy is, obviously, remove the carbon by either chemical or mechanical means.

Incomplete combustion, caused by an impoverished mixture, is that condition which causes a motor to backfire into the intake pipe and carburetor.

The mixture may be impoverished by a carburetor adjustment admitting a surplus of air, in some cases only at the higher motor speeds, or by leakage at some one or all of the joints between the carburetor and cylinders. It may also be impoverished by admitting an insufficient supply of gasoline past the needle valve with correct air adjustment.

As an impoverished mixture, otherwise known as a lean mixture, burns slowly and spasmodically, owing to the excessive amount of oxygen present necessary for the combustion of the charge, there is at times a portion of it still burning at the end of the exhaust stroke, and as the inlet valve opens it fires the gas contained

BUILDING BETTER BODIES OF STEEL

Inclosed Motor Cars Slowly But Surely Gaining in Popularity.

DETROIT, Sept. 13. — Increasing popularity of inclosed cars has led body builders to plan further improvements on these models.

The one big step made in closed car manufacture has been the substitution of pressed steel for the old-time wood construction. With the introduction of this new type has come the possibility of reduction in the cost of these cars.

The reason for this is that pressed steel bodies afford machine, or quantity, production. A large amount of hand-fitting work has been eliminated and simplicity and compactness of design obtained.

With it has come a greater strength in the structure of the body. Even the weight has been reduced somewhat.

All these changes have made for a cheaper, although better, inclosed car. But, although quantity production of the steel parts of the body have helped considerably, one great benefit will come from the possibility of reducing the number of coats of paint.

Heretofore an automobile body has required 15 or more paintings before it could be declared finished. Now it is believed only two or three coats of hard-baking enamel would do.

Besides, body builders say the enamel would stand up better than paint against varying weather conditions and would prove a sturdier resistant to mud and water.

Advise Adjustments of Carburetor To Overcome Missing at Low Speeds

If the engine is being sparked by a other device which mechanically varies the needle valve opening; or if this does no good, the tension may not be right on the auxiliary air valve spring, it probably being too strong. The adjustments and the order in which they should be tried depend on the make and form of the carburetor, and the best suggestion would be to write the maker asking his instructions how to overcome the difficulty in the simplest manner.

With the present low-grade gasoline in use, with the engine idling on an almost closed throttle, great variations exist in comparatively short periods of time in richness and condition of the mixture passing to the cylinders. The butterfly throttle valve has a tendency to throw any liquid drops coming from the carburetor against one side of the manifold. This liquid will creep along the walls and along the outer radii of all the curves and one or two cylinders in the engine will get a mixture too rich, while the others get one too lean. The remedy under such conditions is to hot jacket the carburetor around the throttle valve and the inlet pipe for the first six or eight inches from the throttle.

If the faulty running occurs at low engine speed and wide-open throttle, and a strong fat spark exists, and the carburetor is supplying a mixture

having the proper proportions of air and gasoline, the trouble may be due to entrained drops of liquid gasoline and the uneven distribution of the manifold, which can be corrected by applying heat exactly as above.

The compression may not be uniform in each cylinder, due to leaky valves or leaky piston rings. The remedy is to regrind the valve and put kerosene in the cylinders overnight. If the rings are prevented from properly expanding because they are gummed up with oil, the

kerosene will put them in good condition. If the openings in the rings are all in the same vertical line, or one or more rings are broken, it will be necessary to remove the piston to remedy the trouble.

In the case of leaky valves or rings, at high engine speeds, the leak might not be of sufficient size to make any appreciable difference. At low engine speeds, due to the greater time allowed the gas to escape through the leak, the result will be very noticeable.

Ford Owners—

WE will continue to give service on all FORD cars as heretofore; also we will maintain a full stock of "GENUINE" FORD REPAIR PARTS, and we solicit a continuance of your patronage, assuring you our constant endeavor will continue to be

"SUPER-FORD SERVICE."

Reliance Garage, Ltd.

DODGE BROTHERS SEDAN

The first thing you will notice about the car is the new and distinctive beauty which Dodge Brothers have brought to it.

The cowl is higher and more graceful. The radiator is more dashing in shape. A new smartness and distinction of line is obvious from end to end.

The upholstery is done in genuine mohair velvet of the finest quality. Rear arm rests and deep, wide seats contribute to the comfort of riding.

The fittings and trimmings are in excellent taste, and include nickeled window regulators, etched dome light, horsehair carpets, body heater, windshield cleaner, Yale door locks and weather-stripped doors and windows.

Eighteen coats of paint and varnish, hand-applied over an equal number of days, account for the exquisite finish of the exterior.

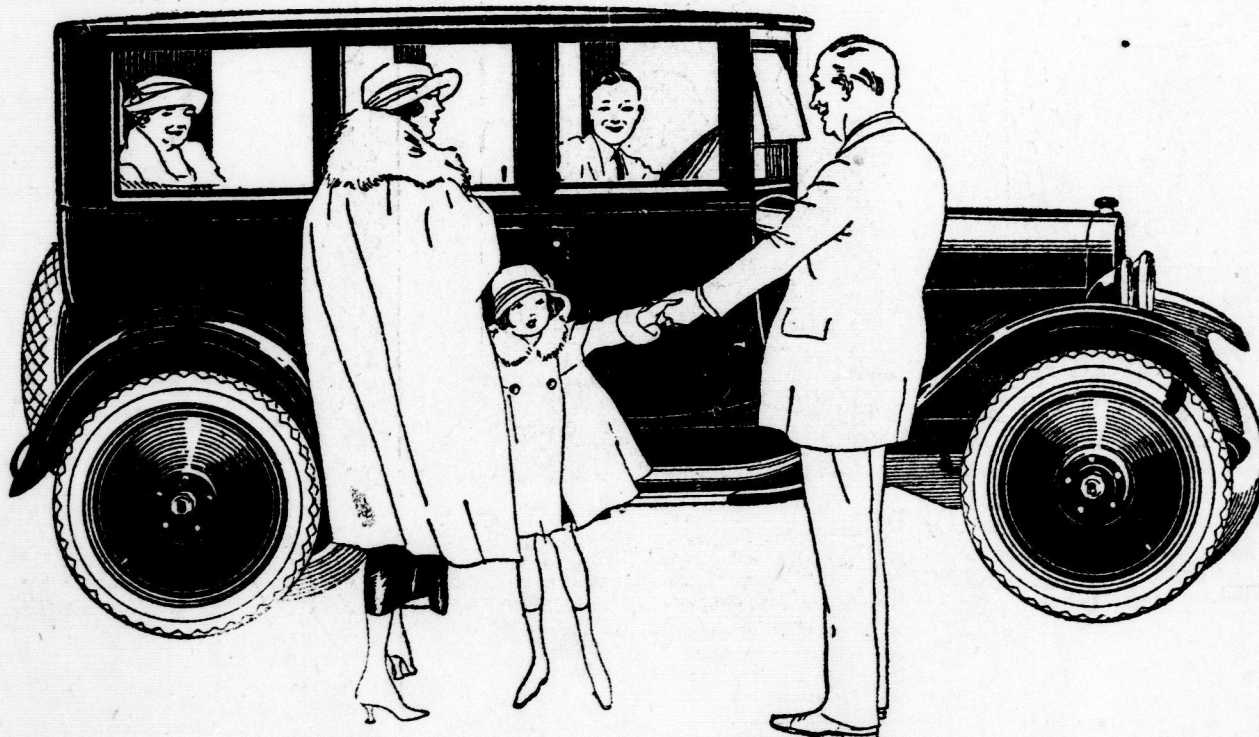

Steel disc wheels (with cord tires) harmonize with the lines of the body and screen the under parts of the chassis.

Yet in spite of its ample and inviting luxury, owners will tell you that the cost of running the car is exceptionally low.

McKIM'S, LIMITED, ISSUES NEWSPAPER DIRECTORY

The 1922 edition of the Canadian Newspaper Directory has been issued by A. McKim, Limited, of Montreal, Toronto, Hamilton, Winnipeg and London, England.

Messrs. McKim are authorities on the newspaper situation in Canada, and their annual publication—The Canadian Newspaper Directory—is an authentic record of the standing of the Dominion's advertising media.

The firm of A. McKim, Limited, is the oldest and largest organization in the advertising agency business in the country, and the new edition of the Canadian Newspaper Directory is the fifteenth issue of this work. A. McKim, Limited, the newspapers of Canada and the directory have all grown up together, the first edition of the book being published more than thirty years ago.

The Canadian Newspaper Directory describes in detail every town and village in the Dominion which boasts a newspaper of any description at all; it gives also the surrounding towns and villages that have no papers of their own and are obliged to look to the towns listed for their news of the world's happenings.

The directory gives the exact location of each town in its relation to other centers of importance, the railroads and waterways by which it is served; the telegraph, banking and express facilities; the public buildings; the chief industries, and the various occupations in which the people of the town engage. It proceeds then to describe the papers that are published there, giving their periods of issue, dates of publication, names of publishers, politics, subscription prices, number and sizes of pages, circulations, etc.

The Canadian Newspaper Directory shows that there are today 125 daily papers being issued in the Dominion, as compared with 121 last year; 889 weeklies, and 301 monthlies. With the other publications issued at various intervals there are in all 1,548 journals of one sort and another being published and read by the people of Canada at this moment.

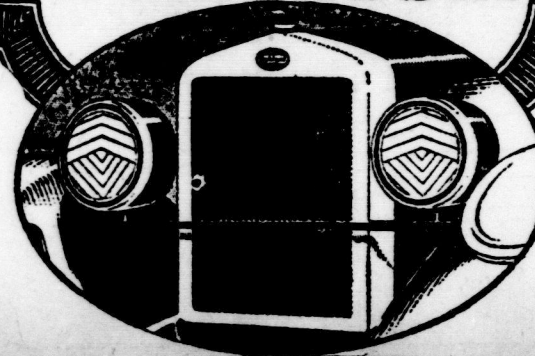

The New Oakland Six has many advanced construction features heretofore found only on cars of much higher price

BABBITT. By Sinclair Lewis.
George J. McLeod, Limited, pub-
lishers, Toronto. Price, \$2.

This latest work, "Babbitt," by Sinclair Lewis, the author of that popular seller, "Main Street," is a story of a hustling, prosperous real estate broker named George F. Babbitt in a city of about 400,000, which goes by the name of Zenith, humorously, vividly and interestingly written.

In this novel we find depicted the everyday life of an average, hard-working, prosperous businessman, whose activities extend to every walk in life.

There is lucidly pictured in the story our homes, our cities, the labor, pleasures and people we know best, the domestic as well as the business aspect of living being faithfully portrayed.

George Babbitt is a real man with all the trials and tribulations which lend spice and variety to everyday life, and his frantic efforts to cut out smoking are very expressive of the ordinary family man, who, in the midst of all the hustle and bustle, is prone to wonder "what's it all about."

Of course, the usual family squabbles between Babbitt's son and daughter, Ted and Verona, over such trifles as to who is to have the use of the auto for their outings, and their compromises, add much to the piquancy of the story.

"Babbitt," which is written very much in the style of the author's former success, "Main Street," contains a dash of everything, from sleeping porches tales to labor troubles culminating in strikes, but

in the main it is a very much better pictorialization of life as lived today in American cities.

The story is full of surprises and dramatic happenings to George Babbitt all through, and is to be recommended as a well-written human interest story, full of entertaining reading from cover to cover.

**SIR THOMAS GLEN COATS
LEAVES £1,800,000**

LONDON, Sept. 15.—Sir Thomas Glen Coats, chairman of the J. and P. Coats, Limited, thread manufacturers who died on July 12, left an estate valued at £1,800,000, it was learned today.

**WILL MAKE NEW KIND OF
GLASS IN WALLACEBURG**

WALLACEBURG, Sept. 15.—Extensive rebuilding and additions are being made at the plant of the Dominion Glass Company. This work will mean much to the prosperity of this town and the welfare of the employees.

No. 3 factory is being rebuilt from the ground up, and the present furnace will be replaced by an Amfler Morton high pressure duty tank. Another 10-arm Owens machine is also being installed.

The company is also clearing ground for the installing of a new Amfler high duty continuous tank for the manufacture of heat-resisting ing glass, a line which has never before been made in Canada.

It is expected to begin the making of this new line of glass cooking utensils about the end of October.

**DAYLIGHT BURGLARS
ROB WINDSOR OFFICE**

WINDSOR, Sept. 15.—Daylight robbers yesterday afternoon pried open the door of the office of John Sale, barrister, in the Huntsman Building, corner of London and Ouellette streets, opened a safe and took three \$100 Victory Bonds, one diamond brooch valued at \$300, and a check drawn out for \$3,709.23. Police have no clue yet as to who the robbers were.

**GIRLS! LEMONS
BLEACH FRECKLES
AND WHITEN SKIN**

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan bleach and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.—Adv.

**SEEKS TO AMEND
U. S. CONSTITUTION**

**American Federation of Labor
Would Curtail Power of
Supreme Court.**

ATLANTIC CITY, N.J., Sept. 15. The executive council of the American Federation of Labor, in annual session here, today announced that it had drawn a proposed amendment to the constitution of the United States aiming to put into the hands of Congress "powers which have been usurped by the supreme court, an arbitrary, autocratic bureaucracy of five men."

Under the terms of the contemplated amendment as drawn by the federated council, "the United States Supreme Court will have the power to review an act of Congress and to declare such an act unconstitutional. But in the event Congress for a second time enacts the legislation in question, it will be beyond the power of the court and will stand as the final and unassailable law of the land."

It will be introduced in Congress "at the earliest possible moment," said Mr. Gompers.

Mr. Gompers and ten officials of the national organization also announced that it had decided not to rejoin the international federation of the unions with headquarters at Amsterdam, Holland, "until the international body shows a disposition to take into account the American position and abandons its arrogant and superior attitude."

**CROWN ATTORNEY
DIES SUDDENLY**

KINGSTON, Sept. 15.—J. L. Whiting, K. C., county crown attorney, died suddenly about 2:30 p.m. today in the judges' chambers at the courthouse, where he was acting as counsel in a will dispute.

As A. B. Cunningham, K.C., was questioning a witness Mr. Whiting was noticed to put his hand to his throat and make some inarticulate noises, collapsing almost immediately.

**PRINCE OF WALES WILL
STUDY SOCIAL NEEDS**

LONDON, England, Sept. 15.—King George, in order to effect further economies in the royal household, is dispensing with a team of state carriage horses, reducing the staff and putting some servants on pension.

The Daily News says that the Prince of Wales is commencing a special investigation of social problems at first hand, especially unemployment and housing conditions, following which he intends in the next few months to make a tour of the industrial centers of the kingdom to discuss local conditions and needs.

The prince will start on his tour early in the new year.

**CLAIMS MAYFLOWER HAS
GREATER LOAD CAPACITY**

BOSTON, Sept. 15.—An offer to prove to the Nova Scotia trustees of the international fishing vessel race trophy that the schooner Mayflower has a greater useful load-carrying capacity than any other two-sticker in the United States fishing fleet, and to change any details of her rig that are a departure from previous fishermen practice, was made today in a telegram sent by Sterling Burgess, designer of the schooner.

The Mayflower was barred again yesterday by the trustees from competing for the cup, and the United States race committee will meet tonight to consider its further action.

**OXFORD CAR LEAVES
RAILS; NO ONE HURT**

Oxford car, No. 128, in charge of Motorman William Smith and Conductor W. Connelly, left the rails at Horton and Burwell streets at 4:30 o'clock yesterday afternoon, due to a spread rail.

The car was proceeding east on Horton street and contained 28 passengers at the time of the accident. No serious injury resulted from the accident, except for the case of Miss Duckworth of Adelaide street, who was badly shaken up, but was able to proceed to her home.

Announcement

Engagement Extraordinary!

In the engagement of Charles Gilpin at The Grand Saturday, September 23rd, London theatre-goers are offered the outstanding dramatic event New York City has had in many years. The acting of Charles Gilpin has not been equaled since the days of Salvini or Booth.

In the interests of Trans-Canada securing the best in the drama, together with original casts, I urge London theatre-goers to greet Mr. Gilpin with capacity houses, and we in turn guarantee this attraction to be but the forerunner of a season of bookings the quality of which The Grand has not had in many seasons.

George F. Driscoll,
Vice-President Trans-Canada Theatres, Ltd.

"The Emperor Jones," Startling

New Drama, Coming To Grand

Intensely Realistic Play by Eugene O'Neill Will Be Staged in London by James Light of Greenwich Village Fame.

"The Emperor Jones," the startling drama, which comes to the Grand Opera House for matinee and evening performances on Saturday of next week with Charles Gilpin in the leading role, is an intensely realistic play. Eugene O'Neill, the author, generally credited as being the most gifted playwright America has produced in many years, is a daring dramatist, and realism abounds in all his plays. In an O'Neill play one finds traces of a new development in the theatre. Much of this advance, particularly the alertness, forwardness, almost radicalness of the inter-

nique, and the less the effect of realism. "Suppose," said Light, "that a great realistic actor was performing a scene upon the stage in such a manner that the critics would call it 'true to life.' Suppose at that moment a cat strolled upon the scene and walked across the stage. The actor would be mimicking real life; the cat would be living it. Which would the audience watch? The cat, of course." What the stage must do, he explains, is to preserve the illusion of realism. Yes, to intensify it; but to produce these effects by

CHARLES G. GILPIN, in "The Emperor Jones," at the Grand matinee and night, Saturday, September 23.

pretation, is due to James Light, the young director, who staged "The Emperor Jones" and other O'Neill plays. Mr. Light is a typical product of that strange colony in New York City, called Greenwich Village. He left the lectures of Ludwig Lewisohn to the Ohio State University in 1914 to go to the Village, and returned to college after a sojourn in the Bohemian section with an enlarged ambition.

He finished college and went back to the Village, met Eugene O'Neill, and has been staging plays ever since. A rather grotesque illustration of expressionism given by Mr. Light is that of so-called natural acting. He says it is not the real thing, and the more it attempts to carry out real life by minute detail, the more the attention of the audience is called to detail and technique.

interpretation, rather than representation. To this end a thousand things may be turned; the action of the actor, the construction and arrangement of the proper atmosphere. Realism is the keynote of "The Emperor Jones." It is said the illusion is so perfect that the spectator imagines it is real life and not acting.

WINS 8 PRIZES IN

BUFF ROCK CLASS

William Moore, well-known poultry fancier of Oxford street, West London, and who was a director of the Western Fair for the last 25 or 30 years, carried off four firsts and four second prizes in the class for Buff Rocks, showing eight birds of an exceptionally fine color and weight.

ARTHUR HOLLAND, in a big Oriental number "The Dumbbells" Revue of 1922 for the last time today.

ANN READER TO

PLAY HEROINE

Will Interpret Role of Luana in "Bird of Paradise" At Grand.

Beautiful Romantic Drama of Hawaiian Islands Still Maintains Popularity.

"The Bird of Paradise," Richard Walton Tully's fascinating drama of the Hawaiian Islands, will be the offering at the Grand Opera House next Thursday and Friday evenings and Friday matinee. Few plays of the last score of years have shown such solid durability as the Tully story, whose remarkable success has been proved by its record of several prosperous seasons.

This play of life and love in the Hawaiian Islands seems never to lose its potency of charm. It is like an old song or an old poem, which are the best after all, for audiences everywhere appear never to weary of the drama, which takes its name from the bird of gorgeous plumage. Tradition associates the natural bird of Paradise with royalty, and the stage "bird" has shown itself to be a queen among dramas, always fascinating by its tender situations, and always retentive by its thrilling scenes of pure dramatic ingredients. Various theories have been put forward to account for the continued popularity of "The Bird of Paradise."

—its unique, exotic atmosphere; its spectacular qualities; its weirdly melancholy Hawaiian music. The best answer to its hold upon the public purse may be attributed to the fact that it has a vital and interesting story, which proves for the thousandth time that "the play's the thing."

In sending the piece on tour this season, Richard Walton Tully has assembled a brilliant new cast for the various roles, which lends interest to the engagement. The part of Luana, the Hawaiian princess, a role which proved to be the stepping stone to fame and stardom for Laurette Taylor, Besie Barriscale, Lenore Ulric and Florence Rockwell, will be played by Ann Reader, a promising actress, who seeks the mantle of her brilliant predecessors. The supporting cast includes Frederick Forrester, Rose Watson, Frank L. Cooley, James K. Applebee, Joseph Robinson, Reba Garden and Douglas Cosgrove. A quintet of native singers will introduce new folk songs and dances during the action of the play.

LLOYD STARS IN

CLEVER COMEDY

Favorite Entertainer To Appear At Grand in "Crack Your Heels."

THURSDAY AND FRIDAY, Sept. 21 and 22, Evenings, 8:15; matinee Friday, 2:15—"The Bird of Paradise," a love story of Hawaii, presented by Richard Walton Tully and the New York company.

SATURDAY, Sept. 23, Matinee, 2:15; Evening, 8:15—America's most amazing actor, Charles S. Gilpin, in "The Emperor Jones."

ing western tale, which deals with the struggles of a popular westerner, played by the star, to preserve a water privilege, upon which the success of his whole ranching investment depends. In this picture Carey has a role which fits him like a glove, and which is said to compare favorably with anything he has ever done.

In addition to the Carey picture, the Grand offers as a comedy attraction Harold Lloyd in his new release "Crack Your Heels." Lloyd is always a favorite with Grand audiences, and there is no doubt that in this new comedy he will add to the laurels he has already earned here.

ADOPTS REPORT

ON TARIFF BILL

WASHINGTON, Sept. 15.—The conference report on the administration tariff bill was adopted late today by the house.

It now goes to the Senate, where final action next week is hoped for by Republican leaders.

RHEUMATISM

IF sufferers from rheumatism could read all the testimonials we receive, they would not hesitate to accept our offer of a free trial sample of Gin Pills.

Mrs. E. W. Hazlett of Windsor, Ont., writes: "Gin Pills, I know from personal experience, are the sovereign remedy for rheumatism and kidney troubles in any form. I was helped by them, after months of suffering. I tried many other remedies, but all failed; then I tried Gin Pills, with the result that I am well to-day."

Gin Pills relieve by removing the cause. Write for a free sample to: National Drug & Chemical Co. of Canada, Limited, Toronto, Ont. U. S. Address: National Drug Co., Inc., 86-88 Exchange St., Buffalo, N.Y.

DYE SWEATER, SKIRT, DRESS

STOCKINGS OR DRAPERIES

IN "DIAMOND DYES"

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade or run.—Adv.

Outdoor Days Are Re-building Time

That sand castle of last year is in need of a new roof, and even your mighty bridge across the brook has almost disappeared.

This is the time to repair and rebuild.

But all this heavy work makes you so hungry that you have to stop very often and eat a big slice of Bread and butter, or Bread and jam.

Mother knows that Neal's Bread, thick slices and many of them, will rebuild little bodies, give them energy for play, and a splendid reserve of health and strength for the school tasks.

NEAL'S

Good White Bread

—Is the loaf you love for its flavor, and it's mother's choice for she knows the pure ingredients it contains and the care used in baking.

WESTERN UNIVERSITY

(THE WESTERN ONTARIO UNIVERSITY)

LONDON

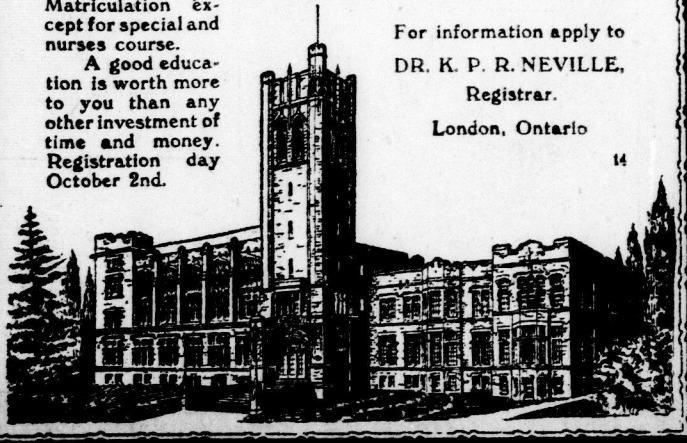

You Can Afford A College Training

For every young man or young woman who realizes the importance of a university education and has the perseverance to carry it through, the fees present no difficulty. They are so low that a college training is now within the reach of all. Do not let the fear of heavy expenses turn you aside from your determination for higher education.

Western University will train you in Arts, Medicine or Public Health at a minimum expense. Moreover, it is located in your community. You can live at home or very near home. The courses are complete. The Faculty is large (125 professors, lecturers and instructors) and each member is a specialist. Individual instruction is featured. Western degrees are recognized universally. Entrance is by Junior Matriculation except for special and nurses course.

A good education is worth more to you than any other investment of time and money. Registration day October 2nd.

For information apply to DR. K. P. R. NEVILLE, Registrar, London, Ontario

CONCENTRATED USE OF EYE WEARS NERVOUS SYSTEM

Glasses Required To Give Relief, Says Proprietor of London Optical Company.

Early inhabitants of this earth lived in green fields and softly-lighted forests, and with no strain to their eyes. Keen distant vision was a necessary adjunct to existence. To distinguish friend from foe, and to sight game at great distances, were vital to maintain life. But today lives are lived at short range. Concentrated use of eyesight exhausts the whole nervous system. Glasses are required to give relief, and to enable the eyes to "carry on" at their daily tasks.

Every advance of civilization has been largely dependent upon some invention, which involves the use of the eyes. Consequently it is said that "The strain of modern civilized life falls heaviest upon the eyes"—the hardest worked and most delicate of all human organs.

People are generally well informed about their teeth and about sanitation, but about their eyes there is a regrettable lack of knowledge. In consequence, many are now in darkness who might otherwise see light.

Exposed to Strain.
A. M. Dambra, proprietor of the London Optical Company, in an interview Friday, declared that the constant need of close-range vision and the continual exposure to glare reflected from pavement and electric lights, all expose the eyes to terrific strain.

"The resultant faulty vision," said Mr. Dambra, "and the reflex disorders of the nerve system are more common than generally known. 'In order that the true significance of the eyestrain in its relationship to efficiency and health be appreciated, the intimate connection between the eyes and other organs of the body must be realized—and that whatever affects one will affect the other.'"

"Many great sanatoriums insist upon the eye examination being made of every patient admitted, for it is known that the slightest defect of vision may cause the development of very serious ailments. Now, eyestrain is not a disease, but a physical defect that is becoming recognized as the indirect cause of disease in many cases, for eyestrain lowers vitality and lessens one's resistance to infection."

Not Cured By Drugs.
"Eyestrain cannot be cured with drugs, but can be permanently relieved with properly prescribed glasses."

"The functioning of any human organ is made possible only through the imperfect functioning of other bodily organs: the stomach, the heart, the liver or the kidneys. 'You cannot tell whether your eyes are right—you cannot tell whether or not your child's eyes are right, but you can consult an optical specialist who will remove the doubt,' concludes A. M. Dambra of the London Optical Company, Dominion Savings Building, Richmond street."

"In striving to overcome a visual defect the eyes will use much more nerve force than normally allotted. In daily practice eye strain is found to be robbing the system of this vital force to such an extent it is felt in the imperfect functioning of other bodily organs: the stomach, the heart, the liver or the kidneys. 'You cannot tell whether your eyes are right—you cannot tell whether or not your child's eyes are right, but you can consult an optical specialist who will remove the doubt,' concludes A. M. Dambra of the London Optical Company, Dominion Savings Building, Richmond street."

CARE OF EYES.
You can do much to improve the beauty of your eyes if you take care of the lashes and brows. Brush them each night with an eyebrow brush and, if they are thin, use a suggestion of vaseline or olive oil.

ERMINE.
Ermine is being used extensively as trimming, particularly on black satin and crepe frocks. On white satin sable fur is most luxurious.

Succeed In London

Taking into consideration the exceptional growth of London in the past, there can be no possible doubt but that the Forest City will, in the near future, become an industrial center of no mean repute, and the manufacturer who, by locating in London takes advantage of the city's growth, will no doubt in due course, reap a rich reward.

When we consider the facilities that London has for industries coming here, and the attractions offered them by the Chamber of Commerce, we are not surprised at the growth of industry here.

The fact that Canadians are buying Canadian goods, manufactured by Canadians, is proved, when we study the decline in value of the American dollar, which is for the first time in seven years, below par. Citizens of London are putting forth every effort to buy only London-made articles and before long there will be but few things that are not obtainable.

Statistics show that the city of London has at present a larger percentage of its population owning their own homes than any other city on the continent, which is indeed a striking example of the success that has already been attained by the citizens here in the past. A city needs this class of people to make their industries go ahead.

As we look at the industries that have sprung up in London since the war, and the fact that there are less men out of work than there has been for some time, we see that things are slowly, but surely, returning to normal, and which when once regained, will run more smoothly than they ever did before.

STATES TRADE IMPROVING THROUGHOUT DOMINION

Wm. C. Benson, C.A., Declares Prospects Especially Bright for Metal Manufacturing Industries.

Wm. C. Benson, C.A., resident partner of Oscar Hudson & Co., in an interview Friday, declared that business in general is improving all over the country, and this was particularly noticeable in the metal manufacturing industries.

"All our clients in the metal manufacturing business have orders well in advance of production," stated Mr. Benson.

"The excellent harvest in the prairie provinces, with an increased demand from the European markets, even though the yield in the United States is somewhat smaller than last year, should make for continued industrial improvement."

Mr. Benson pointed out the rapid growth of the Oscar Hudson & Co., and the necessity for the increase in the London staff, as tending to show that the city's business interests and concerns are beginning to enjoy a rapid increase in trade.

The recent addition to the local staff was necessary, said Mr. Benson, to keep pace with the firm's well-known standard of "Prompt and Efficient Service."

Recently Mr. Benson was placed in charge of the head office of the firm in Toronto during the absence of the other partner.

Mr. Hudson, who is in the west at present, has re-opened the branch office in Vancouver, which was closed during the war. The firm has now ten branches and agencies, the more important being in Toronto, Montreal, Winnipeg, London, St. John's, N. B., Calgary, Edmonton and Vancouver in Canada; Buffalo in the United States, and London in England.

ARTHUR MOULD WRITES OPEN LETTER TO SMITH

City Roofing Contractor Declares Neglect of Roofs is Shameful Waste.

An open letter to Mr. Smith: Dear Friend Smith—How often as boys we were cautioned about wasting. "Waste not, want not," was the maxim. Recently, how that slogan was echoed, "Save, and waste not, will win the war."

There never was a period in the world's history when humanity had such facilities for using up waste, but there never was a period when waste was so prevalent.

Get this, Smith: "To waste, to squander, to cause to lose strength, to destroy."

Did the thought ever strike you that to waste and destroy is worse than theft?

You are not merely robbing yourself, Smith, but you are stealing from posterity.

Nature may insist on rust and decay and disintegration, because in her economy that is to live, but in your economy, Smith, it's too expensive. Take a walk down street and note the rusty iron roofs, rusty ridges, felt roofs crying for paint, wood shingles rotting away, roofs of all descriptions not waterproof, therefore destroying buildings and contents. Waste, pure waste! It can all be avoided.

The slogan "Save the surface and you save all" is used to induce the painting of your home. But did it ever strike you the real surface is the roof? Save the roof and you protect all.

If funds are low, better save on appearances, better on roofs: it's too costly. Smith, you will need plasterers, etc., if you neglect the cover.

Now, Smith, this roof philosophy is given to you gratis, but a word to the wise is sufficient. No matter what's wrong with your roof, if you are wise you will phone me at 7801W. Your profession may be to heal sick persons, mine is to heal sick roofs.

PARKER & ALLEN
PLASTERERS
STUCCO WORK-A SPECIALTY.
1197 Florence St. Phone 4739.

SAY HONEST DEALING WITH PUBLIC SECRET OF SUCCESS

Parker & Allen, Well-Known Lathers and Plasterers, Proud of Business Achievement in City.

"The Progressive Firm" is a title of which Parker & Allen, well-known lathers and plasterers of the city, can justly be proud, because in the comparatively short space of eleven years, coming to the city practically unknown, it stands out today as one of the largest and leading firms of its kind in London.

When asked for the secret of this success Mr. Parker replied: "Honest dealing with the public, no matter what line of business a person is in, always spells success. I know that in the business world there are unscrupulous people, and these 'slickers' seem to have the idea that the public in general are a gullible sort, and will believe anything from anybody."

"But whether they know it or not people as a rule know when they are being fooled nowadays, and can always sense when you are attempting to put something over on them."

Are Experts.
"Two of the chief things we insist on in the plastering business are men who are experts in their line, and the best materials that can be obtained regardless of cost."

"As latest statistics show the Forest City has more residents owning their own homes in proportion to its population than any other city in the Dominion of Canada."

"I find that as time goes on more and more people are realizing how essential it is to own their own homes. When one is a property-owner one tends to be a better citizen, and has a sense of security that is not apparent when one is living in a rented house."

Must Finish Inside.
"The outside of a home which is exposed to the weather must needs be well finished, but what about the inside? It is just as necessary that the inside be a finished job as any other portion of the structure."

"Plastering is an art. To have the work done properly it is essential that only expert plasterers, who are really artists in their line, be engaged. That is one reason why we have been as successful; all our men are experts."

"And say, referring to the outside of your home, why not make the old home look like a million dollars by having it stuccoed in the right way by our men? They have had a wide experience in this work, and we can guarantee you satisfaction."

We have granite in all the new shades, and also first-class shell stucco, which saves paint and fuel, and besides adds to the appearance of your home. It is also the best, cheapest, and warmest thing on the market for your garage."

For prompt service phone Parker & Allen at 4739-W.

LINGERIE.
Black embroidery is seen on some of the newest lingerie. It is particularly effective on apricot or blue. A nightgown of Nile green satin is given distinction by its trimmings of yellow satin roses.

Nothing Arranged Regarding Public Schoolboys' Meet, September 23

Although nothing has been done regarding the proposed public school boys' athletic meet to be held in London on Sept. 23, it is expected that next week will see something done toward arrangements. It is found possible to carry out the wishes of the Ontario Athletic Commission.

London is named as a center for seven surrounding counties, and a London teacher, Dr. Bryant, has been placed in charge of the meet.

The idea is a splendid one, but is

rather a large undertaking on short notice, and especially in view of the fact that locally the Western Fair, with its two half-holidays, has cut into the first week of school settling. The plan is to hold the meet simultaneously all over the province, and eventually the winners will meet in one big central meet. As a means of fostering track athletics at the earliest possible stage, the plan could not be bettered, but it will be a huge task to get the efforts of all the public schools in the province coordinated.

WINS DONCASTER CUP

LONDON, Sept. 15. (Canadian Press Cable.)—The Doncaster Cup, a handicap of \$5,000 run over the two miles and a furlong course at Doncaster this afternoon resulted in a close finish, when DeVries, Sir William Cooke's five-year-old bay horse, Valens out of Desford, won out by a head from G. E. D. Danley's 3-year-old chestnut colt, Double Hackle. Third place went to the five-year-old colt Revival, owned by A. W. Gordon. Four started.

DeVries, who had been beaten in the Ascot Stakes at Royal Ascot last June by Double Hackle, carried top weight today, conceding Mackenzie's colt eight pounds, while Revival was in at the minimum weight of 102.

Starting price, including the 100 to 1 on Double Hackle 13 to 8 against Revival 20 to 1 against.

THORNCLIFFE RESULTS.

First race, 2-year-olds, 6 furlongs—Mackenzie, \$2.10, \$2.45, \$2.80, won; Egan, \$4.15, \$4.50, \$4.85, second; Alva, \$2.10, \$2.45, \$2.80, third. Time, 1:17. Bluslonist, Miss Kona, Dentaria and Rockery ran.

Second race, 3-year-olds, 1 1/2 miles—Avion, \$4.15, \$4.50, \$4.85, won; Morrison, \$3.80, \$4.15, \$4.50, second; Ruzicka, \$4.40, \$4.75, \$5.10, third. Time, 3:40. Miss Calista, Vinesa Wells, Black Hackle, Hindostan, Dotta's Best, Spunaway ran.

Third race, 3-year-olds and up, foaled in Canada, 1 mile and 70 yards—Proton, \$5.70, \$6.10, \$6.50, won; Push, \$2.25, \$2.55, \$2.85, second; Delam, \$3.10, \$3.40, \$3.70, third. Time, 1:47 1/5. Baby Mine and St. Paul ran.

Fourth race, 3-year-olds and up, 6 furlongs—Ras, \$6.15, \$6.50, \$6.85, won; Proclidian, \$5.70, \$6.10, \$6.50, second. Time, 1:17. Callista, Plum Blossom, Sarvan, Col. Murphy, Paul Connolly ran.

Fifth race, the Kirkfield Handicap, 3-year-olds and up, 6 furlongs—Carman, \$4.15, \$4.50, \$4.85, won; James F. O'Hara, \$4.40, \$4.75, \$5.10, second. Time, 1:15 2/5. Grace Mayers, Elemental and Chief Sponsor ran.

Sixth race, claiming, 2-year-olds and up, mile and a sixteenth—Wildflower, \$2.55, \$2.85, \$3.15, won; Beeching, \$3.25, \$3.55, \$3.85, second; Joan of Arc, \$2.70, third. Time, 1:50 2/5. Mary Maxim, Betty J. Fluey and Quick Run ran.

Seventh race, 1 mile and 70 yards—Shoot Away, \$2.25, \$2.55, \$2.85, won; Frank Fogarty, \$2.55, \$2.85, second; Brother John, \$2.85, \$3.15, \$3.45, third. Time, 1:47 1/5. Fair Virginia, Leading Star, War Winner, St. Germain, Johnny O'Connell and Murray ran.

DORVAL RESULTS.

First race, 3-year-olds and up, 6 furlongs—Mabel Curtis, \$2.85, \$3.15, \$3.45, won; High Olympus, \$1.50, \$1.80, \$2.10, second; Financial Roster, \$2.55, \$2.85, \$3.15, third. Time, 1:21 2/5. Uragua, Mary Edo, Maras Jimmy, Kehoma ran.

Second race, 3-year-olds and up, 6 furlongs—Ardito, \$3.70, \$4.00, \$4.30, won; Al Pierce, \$2.75, \$3.05, \$3.35, second; Fox Fox, \$4.70, third. Time, 1:21 2/5. Tueresa, Redland, Eddie Tranter, Utica, Pokey B. ran.

Third race, claiming, 3-year-olds and up, 6 furlongs—Bonglesse, \$1.35, \$1.65, \$1.95, won; Max Gold, \$2.85, \$3.15, \$3.45, second; Plurality, \$2.10, \$2.40, \$2.70, third. Time, 1:21 2/5. Uragua, Mary Edo, Maras Jimmy, Kehoma ran.

Fourth race, 2-year-olds, 5 1/2 furlongs—Nickname, \$5.50, \$5.85, \$6.20, won; Fitzmaurice, \$4.50, \$4.85, \$5.20, second; Water Tax, \$2.60, third. Time, 1:14 3/5. Wormwood, St. Angeline, Neon Hour ran.

Fifth race, 3-year-olds and up, 1 mile and 70 yards—Foxy Sneezy, \$2.15, \$2.45, \$2.75, won; Fox Fox, \$2.55, \$2.85, \$3.15, second; Austral, \$3.10, third. Time, 1:55 3/5. The Portuguese, Crimson Rambler, Lady's Love and Gallivant ran.

TENDER A. D. GOW FAREWELL DINNER

Members of Advertising Club Hold Reception At Bungal-low Inn.

One of the jolliest farewells dinners was tendered at Bungalow Inn, Springbank, Friday evening, to Allen D. Gow, secretary of the Advertising and Sales Club of London, who is leaving the city at the first of the week to reside in New York City, where he has taken over a very responsible position as manager of the Niagara Lithographing Company of that city.

Amid much merriment dinner was commenced at 6 o'clock. Mr. William E. Young, who is to succeed Mr. Gow in the club, rendered several good, old-time ballads on the piano during the waiting periods of the meal, accompanied by all the members present, and happiness stood foremost the whole time.

With dinner over, two or three selections were given on the piano by one of the talented members who was present. In playing and singing Tosti's "Goodbye," a song which was adequate for the occasion, much feeling was shown by everyone. Many bright sayings and popular poems were presented by different members present, and everything was done to make the evening a pleasant one.

Expresses Regret.

In the opening speech of the evening, D. George Clarke conveyed to Mr. Gow the sorrow and regret which the members felt towards his leaving London and the club.

"I cannot express to you how much we will miss you and how much we appreciate what you have done in the past to make this club a success. I am sure that I am speaking for everyone when I say that the U. S. A. is lucky in getting such a clever and

Will Institute Choirs in Chatham Schools.

Special to London Advertiser.

CHATHAM, Sept. 15.—Each public school in the city will shortly have a school choir, according to plans that are being prepared by George B. Cumming, music master of the public schools staff. Special choir training will be given the pupils during the coming year.

J. I. CASE MACHINES FAIR ATTRACT INTEREST

Those who visited the exhibit of the J. I. Case Threshing Machine Company near the cattle sheds, particularly the farmers, were greatly interested in the display of the Case Threshers, demonstrating its durability and grain-saving qualities, which has made them the most popular machine everywhere, and proving that it threshes all seeds and grains equally well and does good, clean threshing without waste.

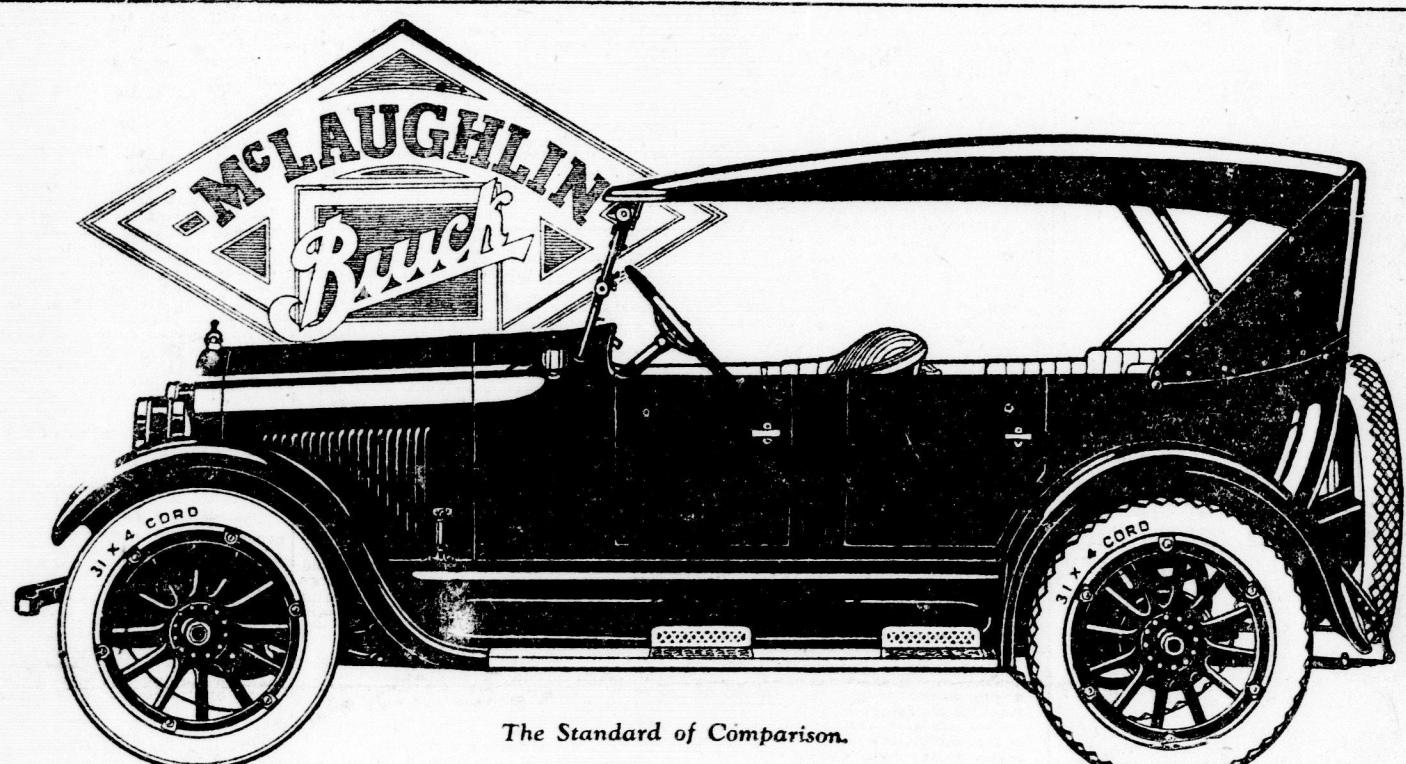

LONDONER ON TRIAL AT WATERLOO FOR SPEEDING

Special to London Advertiser.

WATERLOO, Sept. 15.—J. Dutton of London was charged in police court here this afternoon before Magistrate Weir with reckless driving following the running down and injuring of H. Jacob, in Waterloo on Civic Holiday, August 7.

WITH SLEEVELESS FROCKS.

Beauty doctors say that the elbow may be beautified by rubbing them every night with warm cocoa butter. After the massage the elbow should be rinsed in cold water or rubbed with a piece of ice.

AUTOSRACE AT WESTERN FAIR

Attract Large Crowds to Celebrate Closing of Exhibition.

Enlarged Program Will Be Offered Both Afternoon and Night.

With auto races before the grandstand as a special attraction in the afternoon, Saturday is expected to attract many thousands of visitors to the Western Fair to celebrate the closing day of the exhibition.

Early in the morning a fair crowd was on the grounds when many people arrived from outside points. The midway was partly opened for business even before 10 o'clock.

Owing to a rearrangement of the program an augmented bill of attractions will be offered before the grandstand in the afternoon and an enlarged program will be staged at night. In the afternoon the auto races will be the main attraction.

While the directors were very much opposed to any part of the exhibition leaving the grounds before 10 o'clock at night, they felt that it would be an injustice to keep the cars there when through its non-appearance in a large American city on Sunday it would lose a three-weeks engagement. They felt, too, that both the afternoon and evening performance would be graced by better programs as the result of the generous offer made by the company.

All exhibits except, of course, the live stock, poultry and dogs, which were moved on Friday night, will be in place all day. The horticultural and agricultural halls will be closed at 8:30 o'clock.

It is estimated that between 30,000 and 35,000 people attended the Fair on Friday.

TENDERS ASKED, MAIN BUILDING

Good Progress Being Made on Bridge and Science Structure at Western.

Tenders have been called for on the main building and boiler plant and tunnels of the new university buildings, according to information received from Col. W. M. Brown, executive secretary of Western University.

Construction of the university buildings is now well under way. The bridge for which the contract was let some time ago to John W. Petherough is on a steady way to completion.

The boiler plant will be built by units and will provide heat for the entire university.

The main building is expected to involve the spending of nearly half a million dollars. Construction firms of Toronto and other centers are expected to submit tenders and efforts are to be made to have work started by the middle of October.

TURKISH ADVANCE WORRIES EUROPE

vessels and have a call upon some larger ships in the Black Sea.

Russian Aggression.

The Turks are not without support in their European ambitions. The Russian-Anglo treaty is understood to bind the Russians to cooperate with Mustafa Kemal in the capture of the Dardanelles in return for the freedom of the Black Sea.

Constantinople and the Straits, and it is reported that the French and Italian troops are under orders to increase their vigilance in the neutral zone, and that some have already been landed at points hitherto unoccupied.

The British government is especially concerned over the neutrality of Constantinople and the Straits, and it is reported that the French and Italian troops are under orders to increase their vigilance in the neutral zone, and that some have already been landed at points hitherto unoccupied.

QUESTIONS RIGHT TO HOLD CLASSES AFTER SCHOOL

Trustee Edwin Smith Will Eat Words or Oysters, He Declares.

There is still another question of grave import in board of education circles to be settled definitely. A feed of oysters awaits the winner and members of the board who state confidently that they will be among those present when the bell rings for "chow."

While Principal W. H. T. Mooney, of the central collegiate institute, claims that there is no law in the province to prevent him from sending students in school after 4 p.m., Trustee Edwin Smith takes direct issue with him.

When the question was aired at a recent committee meeting, there was some mention by the principal of a feed of oysters if he was wrong and the chairman volunteered to eat them or his words.

The question terminated with that, but the combatants threaten to air the issue at a later date, they state, when the weather is cool and oysters are in season.

BRITISH MAILED

The next mail for Great Britain and Europe will leave at the local post-office on Monday, Sept. 18, to be forwarded via S. S. Empress of Scotland, sailing from Quebec on Sept. 19. This mail will consist of all classes of letters and registered matter at 10 a.m., parcel post and newspapers at 2 p.m. Also letters and registered matter at 10 p.m., via S. S. France, sailing from New York.

Summon Dentists Before Discipline Committee For Alleged Advertising

TORONTO, Sept. 15.—Charged with the offense of having advertised in the daily press their skill and their wares, two Toronto dentists, Dr. Wallace A. MacLaren and Dr. E. C. Boyle, were haled before the discipline committee of the Royal College of Dental Surgeons today.

It was at first announced that the hearing would be private, but the two dentists being investigated insisted that the press be admitted and the committee acquiesced.

After two hours of evidence, taking and argument, the upshot was that no decision was given, the discipline committee, which is composed of Doctors McLean, Cowan and Davidson, being expected to report its finding later on to the board of Royal College of Dental Surgeons.

The map are "found guilty" their license to practice may be cancelled.

BOARDS PROMISE WESTERN SUPPORT

Will Seek Funds to Secure Dormitories for Western Ontario Pupils.

The United Boards of Trade of Western Ontario, which met in Windsor Thursday, are lending every support to Western University in the matter of securing dormitories, according to Lieut.-Col. W. J. Brown, executive secretary of Western, who was present at the conference.

They have undertaken to present the claims of Western University to the various county councils in Western Ontario with a view to securing their co-operation in developing the university building program, particularly with regard to dormitories.

"The board of trade took up the matter of helping the university with the building of dormitories on its own initiative," Col. Brown stated. "Their plan is to ask each county to aid in the financing of building a dormitory, which should then be named after them. If they meet with success, it is quite possible that we shall have some dormitory accommodation for our 1923 classes."

The matter of providing living accommodation for university students is one which has vexed university authorities for some time. Dormitories are considered to be an absolute necessity, since it has been practically impossible for all the students to secure a lodging within a reasonable distance of the university, and for the most part, the students' boarding during the term have met with an entire absence of home life and comfort.

SCORES DRAKE FOR CHANGING OPINION

Ald. May Asks Why Colleague Now Sponsors Municipal Piggery.

Declaring that Ald. Gordon B. Drake is showing a marked reversal in opinion in sponsoring a municipal piggery to dispose of garbage, Ald. J. T. May stated that the former gentleman opposed such a measure in council last April and asks his colleague for an explanation.

Alderman Drake is credited with advancing the plan to launch into the pig-raising business for the disposal of city garbage, thereby saving the city money in disposal, and netting a revenue in the sale of matured porkers.

"It is very wrong from the viewpoint of the city council and the public at large," said Alderman May Saturday with reference to the scheme. "Why did Alderman Drake oppose the scheme last April when a sorting department for garbage was suggested? He criticized my assessment scheme a few weeks ago on the ground that it was creating a new department, and not in the interests of economy."

"Now he wants to set up a new department for the disposal of city garbage, which is a point the very opposite to what he took then. It looks queer to me to see a man who was against a feed of oysters to eat them or his words, and to cook it is not in the interests of economy."

The public-speaking contest was very interesting. Norman Annis of S. S. No. 15 won first prize; Earl McKinnon of S. S. No. 9, second prize; Will Tarrington of S. S. No. 10, third prize.

The livestock picture contest proved an interesting feature out of a number of entrants in this contest. The prizes were awarded as follows: First prize, Will Lewis of S. S. No. 15; second prize, Norman Annis of S. S. No. 15; third prize, Verna Kerry of S. S. No. 1.

There are too many schools in Bruce Township to take part in one fair. The schools of the west end of the township and some schools of Kincardine Township are to exhibit their products at the school fair which is being held this year in conjunction with the Tiverton fall fair on Oct. 3.

The death of Mrs. A. Stoodley, of Mrs. A. Stoodley, in Winnipeg, Friday, September 15, Mrs. Stoodley is a sister of Mrs. D. R. McHugh, of this city, and a daughter of Mrs. Thos. Peart, Hensall, Ontario. The funeral will be held in Brandon, Manitoba, on Monday, September 18.

MARY PATRICIA MULHOLLAND The death occurred of Mary Patricia Mulholland on Friday, September 15, eldest daughter of Thomas and Edith Mulholland, at the family residence, 448 Pall Mall street, in her 19th year. Requiem high mass will be sung at the St. Peter's Cathedral at 9 o'clock Monday morning. Besides her parents, Miss Mulholland is survived by one sister, Margaret, at home. The interment will be held at St. Peter's Cemetery at 8:30 o'clock from the family residence.

LONDON SHIRINERS HELP OUT BRANTFORD FROLIC Members of Mocha Temple arab patrol, band and orchestra, who took part in the Shiriners' frolic, which opened at Brantford Thursday, reported that the affair was a decided success, and that the financial returns were very promising. These funds will be used to provide treatment for crippled children of Brantford. The frolic will be concluded Saturday night.

SOUTH EASTHOPE RESIDENT PASSES Special to London Advertiser. STRATFORD, Sept. 15.—A life-long resident of South Easthope in the person of John Odbert, passed away suddenly on Thursday afternoon at the family residence, in his 75th year.

Mr. Odbert was a member of the Harmony Methodist church. Besides his wife he is survived by one son, John, two daughters, Mrs. H. Fraser, Ellice, and Mrs. J. Doig, Stratford; one sister, Mrs. B. Flynn, Waterloo; and one brother, James Odbert, St. Thomas.

BRITISH YACHTS WIN AGAIN. OYSTER BAY, N.Y., Sept. 15.—Two British boats, Reg and Coyle, finished first and second in today's international 6-metre yacht race, the fifth of a series of six, for the British America cup, and the British team also won the day's event, 19 points to 12.

ROTARIANS TO LEND SUPPORT Brantford Club Indorses Civic Center Development Plan of Dunnington Grubb.

Special to London Advertiser. BRANTFORD, Sept. 15.—The Brantford Rotary Club, at its regular meeting, passed a unanimous resolution supporting the town planning commission in its proposal for a civic centre development plan for the west and Bridge street areas, as conceived by Dunnington Grubb.

At the previous meeting Frank Cockshutt and A. K. Bunnell explained the entire scheme in detail, and after much general discussion it was decided to leave the matter to the directors to bring in a recommendation.

The directors met this week and canvassed the situation from every possible angle, and decided to urge the members of the Rotary Club to pass a resolution endorsing the scheme, and pledging their support to the town planning commission before the public and securing the support of all public bodies.

The resolution as adopted by the Rotary Club was as follows: "That members of the Rotary Club, having heard the explanations of the Dunnington Grubb plan of development of the West Bridge street section, hereby place on record their approval of the same, with the recommendation that all the city bodies concerned should unite in promoting, by well-considered and wise methods, the eventual accomplishment of the scheme."

In the judgment of the Brantford Rotary Club, the proposal includes the desirable purpose of providing a beautiful and dignified civic and park centre for the future city, and a noble setting for the memorial of our fellow-citizens of the county of Brant who fell in the great war, 1914-1918, and should receive the support of the people."

SITUATION IN EAST DEPRESSES MART Industrials Suffer Vigorous Slump On London Stock Exchange.

London, Sept. 16.—(Canadian Press Cable).—Political uncertainties, especially in the Near East, have exercised a depressing effect on the stock exchange here all through the week, no section manifesting any particular cheerfulness. Both home gilt edge stocks and foreign bonds have shown a drooping tendency, although the prices yesterday were above the worst of the earlier part of the week.

A downward movement among the industrials has been notable this week and the home rail situation seemingly has all the vigor of a few weeks ago.

The August statement of the ten London clearing banks reveals the interesting fact that the bank deposits declined during the month nearly £13,000,000. This downward tendency, which has been in evidence, has been attributed, very naturally, to the fact that there is no inducement to leave money on deposit at only one per cent interest.

Many people of moderate resources have been badly "stung" in gambling in depreciated continental currencies, but there are still "sharp" who imagine, doubtless with reason, that some people never profit by the experience of others. Self-styled bankers are sending circulars broadcast inviting the recipients of the circulars to speculate in these low currencies, although everything in the London financial world has a grain of reputation to uphold will say at once that confident predictions of an improvement in such depreciated currencies are merely guesswork.

ROTARIANS TO LEND SUPPORT

Brantford Club Indorses Civic Center Development Plan of Dunnington Grubb.

Special to London Advertiser. BRANTFORD, Sept. 15.—The Brantford Rotary Club, at its regular meeting, passed a unanimous resolution supporting the town planning commission in its proposal for a civic centre development plan for the west and Bridge street areas, as conceived by Dunnington Grubb.

At the previous meeting Frank Cockshutt and A. K. Bunnell explained the entire scheme in detail, and after much general discussion it was decided to leave the matter to the directors to bring in a recommendation.

The directors met this week and canvassed the situation from every possible angle, and decided to urge the members of the Rotary Club to pass a resolution endorsing the scheme, and pledging their support to the town planning commission before the public and securing the support of all public bodies.

The resolution as adopted by the Rotary Club was as follows: "That members of the Rotary Club, having heard the explanations of the Dunnington Grubb plan of development of the West Bridge street section, hereby place on record their approval of the same, with the recommendation that all the city bodies concerned should unite in promoting, by well-considered and wise methods, the eventual accomplishment of the scheme."

In the judgment of the Brantford Rotary Club, the proposal includes the desirable purpose of providing a beautiful and dignified civic and park centre for the future city, and a noble setting for the memorial of our fellow-citizens of the county of Brant who fell in the great war, 1914-1918, and should receive the support of the people."

FINANCIAL AND COMMERCIAL LOW PRICES FEATURE MARKET

Select Peaches Sell for 50c and 75c Large Basket.

There was an exceptionally large attendance at the local market on Saturday, considering the fact that the Fair would attract the majority of the people.

Fruit was the feature of the market, the people buying largely and taking advantage of the low prices. One out-of-town dealer had as many as 600 baskets of peaches for sale. Selects were bringing 50¢ to 75¢ a large basket. Cabbages were plentiful and sold well at 50¢ each.

Pears were scarce, but the price, 75¢ a bushel, was not affected. Cabbages were slower than most vegetables, although they were to be seen in large quantities.

Spring chickens were in big demand at 30¢ to 32¢ per dressed. New-laid eggs were firm at 32¢ to 35¢ per dozen.

Grain, per cwt.—Barley, new, \$1.00 to \$1.05; Buckwheat, per cwt., 1.40 to 1.50; Oats, new, per cwt., 1.40 to 1.45; do, old, per cwt., 1.40 to 1.45.

Grain, per bushel—Buckwheat, per bu., 67 to 72; Oats, new, per bu., 24 to 26; do, new, per bu., 24 to 26; Wheat, old, per bu., 1.00 to 1.05; do, old, per bu., 1.00 to 1.05.

Hay and straw—Hay, old, per ton, 17.00 to 17.50; do, new, per ton, 18.00 to 18.50; Straw, per ton, 8.00 to 9.00.

Fruits—Apples, per bu., 75 to 1.25; Canned fruit, per bu., 10 to 15; Peaches, 1 qt., 10 to 15; do, 5 qt., 20 to 30; Pears, 15 qt., 45 to 50; Plums, 1 qt., 35 to 40; Watermelons, each, 25 to 40.

Vegetables—Cauliflower, 11 qt., 85 to 90; Beets, per doz., 85 to 90; Cabbages, each, 5 to 6; do, per doz., 45 to 50; Cauliflowers, each, 10 to 25; do, per doz., 1.00 to 2.00; Carrots, per doz., 35 to 40; Corn, green, doz., 10 to 15; do, picking, per 100, 25 to 35; Egg plants, each, 20 to 25; Onions, green, doz., 30 to 40; do, per bu., 1.50 to 1.50; Peppers, sweet, doz., 25 to 35; do, green, 12 to 15; do, green, 12 to 15; Peas, shelled, cwt., 25 to 35; Potatoes, new, bu., 75 to 85; Radishes, doz., 25 to 30; Rutabaga, per doz., 25 to 30; Tomatoes, per bu., 40 to 50; do, 15 lbs., 25 to 30.

Money, wholesale—Money, 5-10, 75 to 85; do, 10-15, 75 to 85; do, 15-20, 75 to 85; do, 20-25, 75 to 85; do, 25-30, 75 to 85; do, 30-35, 75 to 85; do, 35-40, 75 to 85; do, 40-45, 75 to 85; do, 45-50, 75 to 85; do, 50-55, 75 to 85; do, 55-60, 75 to 85; do, 60-65, 75 to 85; do, 65-70, 75 to 85; do, 70-75, 75 to 85; do, 75-80, 75 to 85; do, 80-85, 75 to 85; do, 85-90, 75 to 85; do, 90-95, 75 to 85; do, 95-100, 75 to 85; do, 100-105, 75 to 85; do, 105-110, 75 to 85; do, 110-115, 75 to 85; do, 115-120, 75 to 85; do, 120-125, 75 to 85; do, 125-130, 75 to 85; do, 130-135, 75 to 85; do, 135-140, 75 to 85; do, 140-145, 75 to 85; do, 145-150, 75 to 85; do, 150-155, 75 to 85; do, 155-160, 75 to 85; do, 160-165, 75 to 85; do, 165-170, 75 to 85; do, 170-175, 75 to 85; do, 175-180, 75 to 85; do, 180-185, 75 to 85; do, 185-190, 75 to 85; do, 190-195, 75 to 85; do, 195-200, 75 to 85; do, 200-205, 75 to 85; do, 205-210, 75 to 85; do, 210-215, 75 to 85; do, 215-220, 75 to 85; do, 220-225, 75 to 85; do, 225-230, 75 to 85; do, 230-235, 75 to 85; BELLEVILLE, Sept. 15.—When Grand Trunk passenger train, No. 23, due here at 5:15 p.m., left the rails at Sydney Crossing about eight miles west of here, four men were hurt, two of them thought seriously.
They are Express Messenger Bert Moorman of Belleville, who is suffering from shock and injuries to the back and head, and Conductor William Johnson of Toronto, who is cut about the head.
V. Squires of Cobourg, brakeman on train suffered minor injuries.
The cause of the accident is not definitely known. It is thought it was due to a tender of the engine forcing the switch near the crossing. The tender tore up the track, and the baggage car, together with all the passenger coaches, left the rails, with the exception of the parlor car. The express car suffered most, one end being smashed to pieces and the side torn. Bert Moorman, being hurled through the door.
The car finally landed in a field south of the track and clear of the right of way. Against it was piled the baggage car.
The passenger coaches blocked the main line effectively, although none of them were overturned. The engine stood on the track, which was blocked for hours. The scene of the accident was quite a distance from a house and it was some time before word of the accident reached the city.
The auxiliary car of the Grand Trunk Railroad was sent up from the city with coaches to take passengers aboard and transfer them to their trains for the east while accommodation was made for the injured.

**STATE ELLIS NEVER
OFFICIAL HANGMAN**

Department of Justice Declares Execution of Murderers Provincial Matter.
OTTAWA, Sept. 15.—(Canadian Press).—At the present time, Canada has no official executioner, especially retained as such. Arthur Ellis has been recognized as conducting executions, but not, it is announced, as an employee of the department of justice. This curious situation is brought to light by the delayed execution of Bennie Swin, who was to have been hanged at Woodstock, N.B., today. Swin was granted a reprieve by the chief justice of New Brunswick, because Sheriff Jones was unable to find an executioner. Sheriff Jones made an affidavit to the effect that he had first engaged Arthur Ellis "once in the employ of the department of justice, but found afterwards he had been discharged by the department" and that his efforts to secure someone else had been unavailing.
At the department of justice today it was stated that Arthur Ellis had never been officially in its employ and therefore could not have been discharged. He has acted in a number of cases, but not as an employee of the department. It was stated further that the execution of convicted murderers is a provincial and not a federal matter and that the department has never employed an executioner.
It is understood that Ellis made a request some time ago that he should be appointed official executioner, but the request was refused.

**EXPECT TO REACH
MINERS SUNDAY**

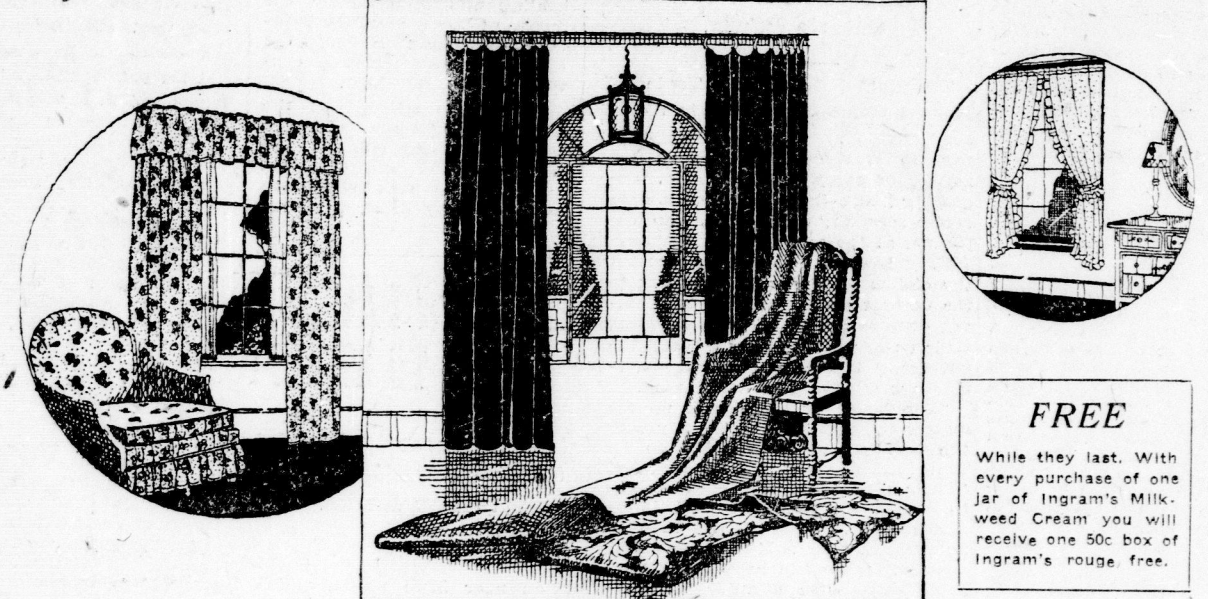

Rescuers Prepare To Enter Lower Levels Within a Few Hours.
JACKSON, Cal., Sept. 15.—Jackson settled down today for another tedious wait for news from its 47 men entombed in the Argonaut mine. Hope that some unexpected freak of nature would provide a means for an early rescue have faded. Only the incessant driving against the hardest rock will open a pathway.
It appeared certain today that the honor of first opening, which may mean life to many if not all of the entrapped miners will go to the Argonaut crew of muckers and drillers working on the 35-foot drift of the Kennedy mine. They were expected to reach rock face tonight—a 75-foot barrier.
On the basis of the past record these men have made in battling to unseal the subterranean crypt of their fellow workmen, it was estimated that the loss would probably reach \$4,000,000.

**Good Taste and Right Buying Make
a Home More Comfortable**

The buying of home beauty things and comforts cannot now be called extravagance, as low prices have come back again—not perhaps as low as when raw material and labor were at the bottom, but vastly lower than they have been for years, and perhaps lower than they may be in future. Monday our display of new home furnishings and things will be complete and we invite you to come and see these displays, whether you have purchases to make or not. You may get dozens of new ideas for your fall re-furnishing.

FREE
While they last. With every purchase of one jar of Ingram's Milk-weed Cream you will receive one 50c box of Ingram's rouge free.

A SAFE PLACE TO BUY.

"Looks" often deceive, and it is only by getting right down under the surface of things that the worth of an article can be accurately measured up. And that is why the meaning of the words "high priced" is often misconstrued. This store never was and never will be a so-called "high priced place to buy." It sells goods at a modest advance over the actual cost. It sells tried and tested quality. What it does not sell is its good name for giving the customer full value received for every dollar spent.
Quality for quality and price for price, the selling figures here stand for the uplift of public confidence and maintenance of permanent trade. We would rather lose a customer than lose our self-respect through "cheap" prices for "cheap" goods.

New Wall Coverings and Decorations

Wall Paper has proved the best possible background to make walls cosy and homelike, and add warmth to the surroundings. mated they might cut through this wall in 48 hours.
If this estimate proves correct, a pathway into the Argonaut sealed two weeks ago by fire will be opened Sunday night.
Rescue men under Byron O. Pickard and of the United States Bureau of Mines, gas helmeted, will enter the mine and begin their search for the missing men.
Experts gave out the cheering news today that a supply of fresh air is entering the lower reaches of the Argonaut mines.

THAT EXTRA PAIR
Everyone dependent on glasses for vision should have an extra pair for emergencies, for dress, or for greater comfort. Let us make that pair.

**BLAZE AT NEW ORLEANS
CAUSES \$4,000,000 LOSS**
NEW ORLEANS, Sept. 15.—Every available fire-fighting apparatus in the city was called out tonight to fight a fire which started on the river docks near the great government army supply warehouse.
The fire started near the foot of Lesseps street and spread along the river until several city blocks of docks were burning.
At least two steamships moored in the river near the scene of the fire were reported to be in imminent danger. Preparations were being made to move them from the danger zone.
It was estimated at 10 o'clock that the loss would probably reach \$4,000,000.
