The copy filmed here has been reproduced thanks to the generosity of:

J.J. Talman Regional Collection,  
D.B. Weldon Library,  
University of Western Ontario

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

J.J. Talman Regional Collection,  
D.B. Weldon Library,  
University of Western Ontario

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## PREFACE.

THE generous reception accorded the Shorthand Students' Edition of the Cumulative Speller affords ample justification for issuing the Commercial Students' Edition.

As the title indicates, the plan of this Speller is cumulative. Each lesson consists of sixteen words, the first twelve of which are re-spelled phonetically and defined. The syllabication, pronunciation, and definition of the remaining four words should be assigned to the student, either as homework or seat-work. A homework dictionary, containing all of these special words, is included in the Speller at the end of the first hundred regular lessons. This feature of the work is intended to afford the student a ready means of acquiring the dictionary habit—a habit so essential to all who take pride in turning out accurate work. Nearly all of the words assigned for homework are later on repeated in the regular lessons, so that the lessons review themselves and reduce to a minimum the necessity of having special review lessons.

For the information of those who have no clear conception of what is meant by the Spelling Reform Movement, the circular issued by the Simplified Spelling Board on 21st March, 1906 is included at the end of the regular lessons. Those who wish further information, may obtain it by writing to The Simplified Spelling Board, 1 Madison Avenue, New York City.

The Standard Dictionary has been the chief authority consulted in the preparation of this work.

## CAPITALIZATION.\*

The systematic application of the following rules will assure correct capitalization:

1. Capitalize the initial letter (1) of the first word of every complete sentence; (2) of the first word of every distinct clause separately paragraphed or numbered; (3) of every proper name; (4) of every word derived from a proper name; (5) of the first word and of the chief other words in the titles of books, pictures, plays, or publications; (6) of the first word and other chief words in subtitles or subdivisions of books written in two or more parts.

2. Capitalize all the names of the Deity—*e.g.*, the *Almighty Creator, Father, God, Jahveh, Jehovah*.

3. Write the personal pronoun in the first person singular a capital—as “Vengeance is mine, saith the Lord; *I* will repay.”

4. Capitalize the initial letter of words of special importance or others specifically applied, as the family names or type genuses of animal or of plant life.

5. Write the initial letter of the first word of every line of verse a capital—*e.g.* :

“ My love to those that I love;  
My love to those that love me.  
My love to those that love those that I love,  
And to those that love those that love me.”

6. Capitalize the initial letter of the first word of a complete example or direct quotation—*e.g.* :

“Honesty is the best policy.”

7. Capitalize the initial letters of the days of the week and month festivals, holy days, and days of historic significance.

8. Capitalize prefixes, as *D', Da, De, Di, Van, Von*, when not preceded by a given name. If a given name precedes the surname, the first letter of the prefix should be a small one. However, this rule is not always strictly adhered to.

9. Capitalize the initial letter of names of political or special significance—as, the *Middle Ages, the Elizabethan Period, the Great Reformation, Democrat, Republican, Conservative, Liberal, Nationalist, etc.*

10. Capitalize the initial letter of all titles of dignity—as, *President, Chief Justice, Bishop, Senator, etc.*, when these precede the surnames of dignitaries.

11. Capitalize the initial letters of all geographic names—as *Bermuda, Gulf of Mexico, North Sea, Hudson River, Rocky Mountains*.

## EXPLANATORY NOTES AND EXAMPLES OF PUNCTUATION.

---

### 1. THE COMMA (,)

The comma is used to mark the shortest pause of time.

1. In a simple sentence it may be used or be omitted.

Examples :

Know that the slender shrub which is seen to bend, conquers when it yields.

Truth is afoot, nothing can impede it.

The same principle leads us to neglect a man of merit that induces us to admire a fool.

2. In a compound sentence—that is, one in which the direct sequence of thought is interrupted by repetition or by the addition, as of verbs, nouns, or other parts of speech—the comma is used to separate the simple members.

Examples :

Charity, like the sun, brightens every object it shines upon

Men of age object too much, consult too long, adventure too little, repent too soon, and seldom drive business home to the full period, but content themselves with a mediocrity of success.

3. It is used in separating several (more than two) words which are connected by conjunctions expressed or implied.

Examples :

Man must have some fears, hopes, and cares for the coming morrow.

God has given us wit, and flavor, and brightness, and laughter, and perfumes, to enliven the days of man's pilgrimage, and to "charm his pained steps over the burning marle."

Gordon met death as a brave, valiant, and noble man.

4. It is not used to separate two words that are connected by a conjunction.

Example :

Mirth is short and transient, cheerfulness fixed and permanent.

5. It may or may not be used to separate a series of words in pairs that are connected by conjunctions.

Examples :

This sound brought out from their lurking-places a crew of vagabond boys and vagabond dogs, . . . . . and boy and dog, and hostler and Boots, all slunk back again to their holes.

In schoolroom and college class. In the field and afloat, discipline maintains order.

East and West and South and North

The Messengers ride fast.

6. It is used to set off nouns and pronouns in the absolute, and words put in apposition.

Examples :

The prisoner, his sentence being pronounced, was removed.

He who stands before thee is Paul, the Apostle.

The transaction closed, we separated.

7. It is used to set off adjectives or participial adjectives and their adjuncts, especially if they affect the significance of a dependent clause.

Example :

Man, living, feeling man, is the easy prey of the powerful present.

8. It is used to introduce a single short quotation. If, however, more than one quotation is cited, a *colon* should be used instead.

9. It is used in the place of a verb omitted or of a word understood.

10. It is used before and after the infinitive good when the infinitive follows a verb from which it should be set off, or when it is dependent on a thing understood or remote.

Examples :

His aim was, to foster the interests of the natives.

To continue, I will now show the consequence of my argument.

11. It is used also to set off an adverb or adverbial phrases when they cause a break in the construction of a simple sentence.

Examples :

This curiosity of theirs, however, was attended with very serious effects.

And yet I knew that every wrong,

However old, however strong,

But waited God's avenging hour.

12. It is used to set off prepositional phrases when they interrupt the sequence of a simple sentence, or when they are separated from words on which they are dependent.

**Examples :**

American aristocracy is, to some extent, a matter of wealth.

By study, we may add to our store of knowledge that acquired by our ancestors.

13. It is used to set off a conjunction when it is divided from the main clause dependent on it or when it introduces an example.

**Example :**

The collision was inevitable, but, by timely assistance, the crew was saved.

14. It is used occasionally to set off interjections.

**Example :**

Yet then from all my grief, O Lord,  
Thy mercy set me free.

15. It is used to set off a word which it is desired to emphasize.

**Example :**

Holy, Holy, Holy,  
Lord God Almighty!

## 2. THE SEMICOLON (;)

The semicolon is used to indicate a separation in the relations of the thought in a compound sentence—a degree greater than that expressed by the comma.

1. It is used to separate different statements; that is, the different clauses of a compound sentence which are already separated by commas.

**Example :**

We may live without poetry, music, and art;  
We may live without conscience, and live without heart;  
We may live without friends; we may live without books;  
But civilized man can not live without cooks.

2. It is used to separate two or more simple members of a sentence when these require a pause greater than that which a comma would mark.

**Example :**

Who lives to nature rarely can be poor; who lives to fancy never can be rich.

3. It is used before "as" when employed as an introductory to an example.

**Example :**

That which is not permitted or allowed; as, the illicit sale of intoxicants.

## 3. THE COLON (:)

The colon is used as a sign of apposition or equality to connect one clause with another that explains it, as in introducing a list, a quotation, an enumeration, or a catalog; or to join clauses that are grammatically complete yet closely connected in sense; or to mark any discontinuity in sense or grammatical construction greater than that which is indicated by a semicolon, but not sufficient to require a period or a dash.

1. It is used to separate one complete clause from another.

Examples :

The power to bind and loose to Truth is given :

The mouth that speaks it is the mouth of Heaven.

Love is the emblem of eternity : it confounds all notions of time : effaces all memory of a beginning, all fear of an end.

2. It is used in sentences in which the semicolon has been introduced when a greater pause is required than can be indicated by a semicolon.

Example :

It surely was not obscurity ; it was not weakness : it was a want of that sensitive taste which ought to breathe its delicate sense of fitness into the plainest phraseology.

3. It is used to introduce a formal quotation.

Example :

A writer in the *Westminster Review* discourses in this fashion : "Another curious observation upon philosophic activity is that the coordination of all functions which constitute the whole intellectual energy of philosophic minds is preserved in its plenitude for only a short period of their whole duration of life."\*

## 4. THE PERIOD (.)

1. The period or full stop is used after every complete declarative statement.

Example :

Consider the end.

2. After title-headings and side-heads.
3. After most abbreviations.

Examples :

A.M. for *ante meridian* ; LL.D. for Doctor of Laws ; *e.g.* for *exempli gratia* (for the sake of example).

4. After Roman numerals, except when they are used to number pages.

## 5. THE DASH (—)

The dash is used to mark (1) a change of thought or construction or (2) an emphatic or unexpected pause.

---

\* Phelps, *English Style in Public Discourse*, p.133.

## Examples :

1. He may live without books—what is knowledge but grieving?  
He may live without hope—what is hope but deceiving?
2. What say ye? Speak now—now or never.

## 6. THE INTERROGATION POINT (?)

The note of interrogation or eroteme is used at the end of a sentence to designate (1) a single question or (2) more, and (3) is sometimes written in parentheses to express a doubt or challenge the accuracy of a statement.

## Examples :

1. Truths would you teach, or save a sinking land?
2. Father of Light! Great God of Heaven!  
Hear'st Thou the accents of despair?  
Can guilt like man's be e'er forgiven?  
Can vice atone for crimes by prayer?
3. Peru. Manco Capac, with his wife, and sister Mama Ocello, arrives from China (?), and claims to have been sent by the Deity to reclaim the tribes from savage life.

## 7. THE EXCLAMATION MARK (!)

The note of exclamation or eophoneme is used after a word or phrase to express sudden emotion, and is sometimes repeated for emphasis.

## Examples :

Ah! What were man should Heaven refuse to hear!  
Never! Never!! Never!!!

## 8. QUOTATION MARKS ("..."; '...')

1. Double quotation marks or guillemets are used to designate that the matter within them is a direct quotation from another author or is dialogue.

2. Single quotation marks are used within double quotation marks to designate that the matter within them is a quotation from another author or speaker cited by the first author whose matter is printed within the double marks.

## Examples :

"Grant White, referring to Milton, says 'Milton calls Raphael "the affable archangel," and makes Adam say to him, as he is about departing heavenward :

'Gentle to me and affable hath been  
Thy condescension, and shall be honored ever  
With grateful memory.'"

3. Double quotation marks are sometimes used in citing titles, a of books, but titles are often printed in italic type, and when this is done quotation marks are not used.

## 9. PARENTHESES ( )

1. The parentheses are used to separate an explanatory or qualifying clause, or a sentence inserted in another sentence which is grammatically complete without it.

Examples:

The wallflower, on each rifted rock,  
From liberal blossoms shall breathe down  
(Gold blossoms frecked with iron-brown)  
Its fragrance.

The columbine is a herbaceous plant of the crowfoot family (Ranunculaceae), with the leaflets shaped like those of the meadow-rue.

2. They are used also in connection with the titles of books (a) to separate the place and date of publication from the text, thus preserving the continuity of same; (b) to enclose references or figures denoting numerical sections or other divisions; (c) to enclose notes of interrogation inserted to express doubt of the correctness of the statement made.

Example:

(a) Mrs. Massingbird published "Sickness, Its Trials and Blessings" (London, 1868).

The uses referred to under (b) and (c) above are so frequent as not to require illustration.

## 10. THE APOSTROPHE (')

The apostrophe is used to denote the possessive case, which is made in the singular by adding *s* with an apostrophe, as also in the plural of nouns that do not end in *s*—as, man's, men's. The plural possessive, when the plural already ends with an *s*, is formed by adding an apostrophe after the word—as, horses' teeth; that is "the teeth of horses."

## 11. THE CARET (^)

The caret is used only in writing, to denote where omitted words or letters are to be inserted.

## 12. THE DIERESIS (¨)

The dieresis or dialysis consists of two dots placed over a vowel.

1. It is placed above one of two vowels when these follow one another, to show that they do not form a diphthong—as Danäe.

2. It is used sometimes (but, in general, modern practice discards it) over the second vowel in words where the vowel is doubled—as, zoöphyte. The "Standard Dictionary" discards the dieresis altogether.

# SIMPLIFIED SPELLING

(From Circular of Simplified Spelling Board.)

## List of Common Words Spelled in Two or more ways.

The anomalies and perversities of English spelling are obvious enough, and call loudly for regulation. But the very fact that some spellings are anomalous and perverse implies that the other spellings are more or less regular, and this is true. The majority of English words are spelled according to ascertainable analogies, and are therefore fairly regular. This is especially true as to literary words of more than one syllable, of Latin or Greek origin. Thus, words like *eminent, prominent, evident, protestant, memorial, terrestrial, practical, astronomical, familiar, peculiar, ability, conformity, monopoly, tedious, previous, biology, etc.*, are approximately phonetic as to the short vowels which are concerned in these words. They would not present many difficulties to the learner, if the learner were not confused by a host of other words with other analogies. It is true also of a great many monosyllables not ending in silent *e*, as *bat, bet, bit, but, bad, bed, bid, bud, ban, bin, bun, cam, dam, slam, slap, slat, clash, clasp, self, help, strong, strength, etc.*, but here again a host of other monosyllables suggesting other analogies (*plaid, saith, bread, been, flood, come, etc.*) rush in to badger and confuse the unhappy learner.

The rules and analogies which underlie English spelling can however, be ascertained and stated, and the exceptions can then be clearly seen. The next thing is to reduce or abolish the exceptions. The process has worked well with many words. Why not continue it with other words? The matter is really very simple. When the rules and analogies are understood, any intelligent person can see for himself when a particular spelling deviates from them. Thus, any one can see that *binn, bunn, butt*, are out of accord with the rule established by the innumerable words like *pin, pun, cut*, that *centre, metre, fibre, etc.*, are out of accord with the rule established by *canter, number, timber, diameter, etc.*, and that *favour, honour, etc.*, are out of accord with the rule established by *error, terror, minor, major, editor, senator, etc.* So likewise, *dript, dropt, snapt, drest, prest,*

etc., tho now actually less common than *dripped*, *dropped*, *snapped*, *crossed*, *dressed*, are more in accord with the prevailing analogy of *p* or *s* before a *t* sound, which appears in *a t*, *host*, *boast*, *best*, *nest*, *rust*, etc., and in the old spelling, still retained, of some preterits and participles, as *crept*, *lost*, *swept*, etc., as well as *dreamt*, *leapt*, etc. The common forms *dripped*, *dropped*, *dressed*, *pressed*, etc., are in a great part alterations of seventeenth and eighteenth century spellings with *t*. The alterations were made to establish a visible but fallacious uniformity of inflection. Forms like *dript*, *dropt*, *stept*, *stopt*, *crost*, *drest*, *kist*, *prest*, etc., abound in the original editions of Shakespeare, Milton, Dryden, Pope, Burns, Scott, Byron, and are very common in more recent poets, as Tennyson, Landor, Swinburne, Lowell. They are always seen in those modern editions of the older standard writers in which the attempt is made to give a correct text. The habit of present publishers of permitting their proofreaders to "adopt" some imperfect standard, like the older dictionaries, as an inflexible rule, and to alter the text of the standard authors, when a new edition is made, to suit his "preference," serves to conceal from the reader the real spelling of the author himself. Thus, not only Shakespeare and Milton, but Pope, Cowper, Byron, Scott, Campbell, Macaulay, are compelled to appear, not in their own spelling, but in the spelling of the publisher or proofreader who chanced to "prefer" Worcester or Webster, or some other mechanical guide. This tends to suppress the truth, to stereotype bad forms as well as good, and to prevent that reasonable change toward order and simplicity which was allowed to work freely before the nineteenth century.

Happily, however, there are many hundred words in which this process of stereotyping irregular or anomalous forms has not prevailed, and in which a choice still lies open between a simple or normal form, and a less simple or anomalous form.

It has been thought wise to print a partial list of the words now spelled in two or more ways, with a view of informing the public of the facts, and of ascertaining how far intelligent readers will concur in the effort to establish the simpler forms. A full list would contain many hundred words, many of them bookish or technical or semi-foreign. Such lists are to be found in the current dictionaries (Webster, Worcester, Standard), but they were compiled for a different purpose, and not only include spellings long obsolete, but omit many spellings (like *dropt*, *prest*, *tho*, etc.) always in extensive use.

The following list contains three hundred common words now spelled in two or more ways. The list could be made to contain 600

or 900. The number depends upon the limits assigned to the word 'common,' and upon the purpose in view.

There are in this list about 40 distinguishable classes of words. We mention 20. The other classes include each only a few words. Some words are quite isolated.

Certain large classes of words spelled in two or more ways are for the sake of brevity omitted from the present list. Such are the chemical words in *-ide* or *-id*, and *-ine* or *-in*, and the forms involving *-ll-* or *-l-*, or *-tt-* or *-t-*, before suffixes, as *travelled* or *traveled*, *traveller* or *traveler*, *travelling* or *traveling*, etc., *rivettted* or *riveted*, *rivetter* or *riveter*, *rivetting* or *riveting*, etc. Of course the simpler form is to be preferred.

The classes included, arranged in the alphabetic order of the letters or affixes affected, are as follows :

1. Words spelled with **æ**, **œ** or **e**. Rule: Choose **e**. Ex.: *Anesthetic*, *esthetic*, *medieval*, etc.

2. Words spelled with **-dge-ment** or **-dg-ment**. Rule: Omit **e**. Ex.: *Abridgment*, *acknowledgment*, *judgment*, *lodgment*.

3. Words spelled with **-ed** or **-t**, the preceding single consonant being doubled before **-ed** (*-pped*, *-ssed*) and left single before **-t** (*-pt*, *-st*). Rule: Choose **-t** in all cases. Ex.: *Dipt*, *dript*, *dropt*, *stept*, *stopt*, etc., *blest*, *prest*, *distrest*, *mist*, etc., *blusht*, *husht*, *washt*, etc.

Forms like these, being inflections, are commonly omitted in the dictionary lists of words spelled in two or more ways, but they are genuine historical spellings and can not be ignored. Some are very ancient (for example, *kist* is Anglo-Saxon *cyste*, and *mist* is Anglo-Saxon *miste*), and all are frequent and normal in English literature from Spenser, Shakespeare, and Milton to Tennyson and Lowell. We cite some authorities, from original or exact editions, for the principal forms included in the list. Exact references can be supplied. Similar forms abound in the authors mentioned and others. Milton, for example, has *compast*, *languisht*, *vanquisht*, *admonisht*, *astonisht*, *diminisht*, *polisht*, *worshipt*, *supt*, *ceast*, *linkt*, *matcht*, *scorcht*, etc.

**HOLDS THE WORLD'S RECORD  
FOR SPEED AND ACCURACY**

"**THERE** is always room at the top," is the old and true adage. But in the ladder that leads to attainment the perspective is reversed and the rungs become farther apart as the top is reached. **The poorly equipped will reach no higher than the level of their attainments,** and so is it with shorthand writers and shorthand systems.

The **ISAAC PITMAN SYSTEM** has demonstrated its unquestionable superiority over all others by winning the **PRINCIPAL HONORS** in the following ten International Contests—

**FIRST INTERNATIONAL SHORTHAND SPEED CONTEST,** Baltimore, 1906. The Miner Gold Medal, the only trophy awarded, won by Sidney H. Godfrey.  
**SECOND INTERNATIONAL SHORTHAND SPEED CONTEST,** Boston, 1907. Miner Gold Medal, won by Sidney H. Godfrey, and Eagan International Cup, won by Miss Nellie M. Wood.  
**THIRD INTERNATIONAL SHORTHAND SPEED CONTEST,** Philadelphia, 1908. Eagan International Cup, won for the **SECOND TIME,** by Miss Nellie M. Wood.  
**FOURTH INTERNATIONAL CONTEST,** Providence, 1909. Eagan International Cup won for the **THIRD TIME AND PERMANENTLY** by Miss Nellie M. Wood.  
**SEVENTH INTERNATIONAL CONTEST,** Buffalo, 1911. Adams Accuracy Trophy won by Miss Nellie M. Wood, and Shorthand Writer Cup won by Nathan Behrin. The only trophies offered.  
**EIGHTH INTERNATIONAL CONTEST,** New York, 1912. The Shorthand Writer Cup and Gold Medal, won for the **SECOND TIME,** by Nathan Behrin.  
**NINTH INTERNATIONAL CONTEST,** Chicago, 1913. The Shorthand Writer Cup and Gold Medal, won for the **THIRD TIME AND PERMANENTLY** by Nathan Behrin. In this contest, Mr. Behrin established a **NEW WORLD'S RECORD** for **ACCURACY** of 98.3% in the three dictations of 200, 240, and 280 words per minute.  
**TENTH INTERNATIONAL CONTEST,** Atlantic City, N.J., 1914. Nathan Behrin again won the **HIGHEST AWARD**—Gold Medal—in the 280 word per minute test, with 98.6% Accuracy.

*It is worthy of note that all the trophies in the above contests have been won by Pitmanic writers.*

**A Commentary on Pitman's Shorthand, or the Teacher's Vade Mecum.** 384 pp., cloth, \$1.25. By J. W. TAYLOR.
