

PULSIVE KAISER IS AT IT AGAIN

Sept Aside Plans Submitted by Over 200 Architects.

BERLIN, Oct. 24.—A fierce storm approval was aroused in Germany and architectural circles to-day, it became known that the Kaiser, with characteristic impulsiveness, swept aside the plans submitted by two hundred and seventy of the best architects in Germany for the new Embassy building at Washington. The Kaiser disregarded the selection by the Emperor awarding first prize to the submitted by Architect Peter Behrens. The price amounted to 100,000 marks. After rejecting all the plans the Kaiser accepted a drawing by architect von Thne, the court architect, which was submitted at special request of the Emperor. Architect von Thne had not entered drawings in the competition. The Midday Gazette says that instead of Americans becoming acquainted with five German architects, will get merely cold and unimpressive royal Prussian court art embassy buildings are to be constructed in the style of an eighteenth century English house, a copy of the design presented to the Duke of Wellington as a reward for his victory at Waterloo.

CITY SOLICITOR REPORTS ON THE LOCAL STREET RAILWAY TANGLE

Railway Company Must Decide November 14 What it Will Do in Brantford.

If it Carries Out Reconstruction as Ordered, City Will Have No Complaint to Make.

If it Does Not, Then Brantford Will Again Secure All Rights Over Streets.

The following report of City Solicitor Henderson re. the Street Railway situation, will be submitted to the city council Monday evening. As will be seen, Mr. Henderson covers the case thoroughly, and matters are at such a stage that it is one thing or the other for the railway company. The Mayor and the Council of the City of Brantford:

At the close of the trial of the action brought by the City of Brantford against the Grand Valley Railway Company, the Brantford Street Railway Company, the Trusts & Guarantee Company, Limited, the National Trust Company, Limited, and E. B. Stockdale, receiver of the Grand Valley Railway Company, judgment was pronounced by His Lordship, the Chief Justice of the Common Pleas in favor of the City of Brantford.

The formal judgment which should declare the various terms and embody the various findings made by His Lordship, has been the subject of lengthy argument and debate before the Registrar of the Common Pleas. The decision thereon was unsatisfactory to the defendants who appealed the same back to the trial judge, and after several conferences and lengthy argument, the matter was finally pronounced upon yesterday and the text of the judgment is in the following words:

"This action having come on for trial before this Court at the sittings held at Brantford for the trial of actions without a jury yesterday, and again this day, in presence of counsel for all parties, upon opening the matter, upon hearing read the pleadings and proceedings in the action, and upon hearing the evidence adduced and what was alleged by counsel on each side:

"1. This Court doth declare as between the plaintiff and the defendants the Railway Companies and the defendant the Receiver, in so far as it represents them or either of them, at law, these defendants have forfeited all their rights under the agreement in question dated November 11th, 1907; and doth adjudge the same accordingly.

"2. This Court doth further order and adjudge that the said defendants shall, if they elect to take such relief, on or before the 14th day of November, 1913, be in equity relieved from such forfeiture on fulfilling all the terms and conditions hereinafter set out on the days and times and manner following:

"(a). The reconstruction of the railway referred to in the said agreement in the following places, namely, on Arthur street from Park Avenue to Brock street; on Brock street from Arthur street to Nelson street; on Nelson street from Brock street to Alfred street; on Alfred street from Nelson to Colborne street; on Erie Avenue from Market street south to Baynes street; and on Oxford street from the Lorne bridge to the end of the line of the railway within one year from the date hereof:

"(b). Placing and continuing on the said railway good cars with all modern improvements for the convenience and comfort of passengers, including light and heat, within one year from the date hereof.

"(c). Operating the cars to West Brantford along Oxford street to the end of the line within thirty days after the completion of the works being done in connection with Lorne bridge.

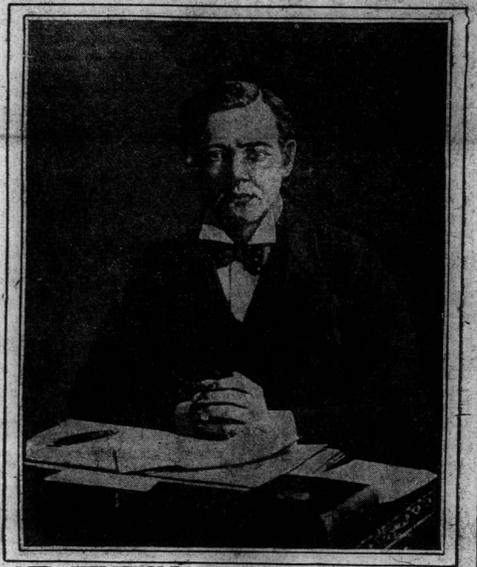

"(d). Providing forthwith colored lights after sunset indicating the different routes:

"(e). Payment to the plaintiff on or before the 23rd day of January, 1914, of all moneys now due and payable or which shall become due and payable to the plaintiff on or before that date under the terms of the said agreement of the 11th day of November, 1907, and payment to the plaintiff of all moneys thereafter becoming due under the terms of said agreement forthwith as they become due.

"(f). Payment to the plaintiff of \$100 each month, beginning one month from the day of the date hereof, as damages for breaches of the said agreement, until all of these terms have been complied with.

GERMANS DON'T WANT A "NAVAL HOLIDAY"

The proposal by Winston Spencer Churchill, First Lord of the British Admiralty, that England and Germany should declare a "naval holiday" in 1914 was received without sympathy by the German government, which regards it as not calling for a reply. It is generally considered doubtful whether any official notice will be taken of the suggestion, although it is thought Imperial Chancellor von Bethmann-Hollweg may perhaps refer to the subject later on in the course of debate in the Imperial Parliament.

QUIET RECEPTION FOR THE DUCAL PARTY AT QUEBEC

Their Royal Highnesses Had a Pleasant Voyage Across the Sea—Premier Borden Accompanies H. R. H. in Special to Ottawa.

QUEBEC, Oct. 25.—Their Royal Highnesses, the Duke and Duchess of Connaught and Princess Patricia, with their household suite, left the Steamer Empress of Britain this morning a few moments before nine o'clock and went on board the Royal special train at the steamer landing which steamed away for Ottawa a few minutes later.

This morning at 7.30 o'clock the Duke of Connaught, accompanied by Captain J. Rivers Bulkeley and Captain A. Graham, left the Empress, entered a waiting automobile and drove to the Citadel, where His Highness went to inspect the vice-regal quarters that had undergone general repairs and redecoration during the past summer under the direction of the public works department. The Duke spent a half hour looking over the premises and afterwards returned to the Empress, where Hon. R. L. Borden had in the meantime proceeded to meet him to extend a welcome back to Canada to the governor-general and party.

The meeting between the governor-general and his Prime Minister was a cordial one, and they chatted pleasantly together for some time.

The Duchess of Connaught is an excellent health and stood the sea voyage like a good sailor, it was announced. The royal party were not accorded a reception on their arrival or at any time this morning, in keeping with their special request. There was no guard of honor provided and no city dignitaries called on them. The arrived like ordinary passengers and went away in their special train at the Empress, where Hon. R. L. Borden accompanied the special party to Ottawa on the special supply.

GRABBED OVERCOAT ON MARKET STREET

Toronto Man Got Himself in Trouble Here Friday.

Yesterday being a rainy day Thomas Walters, a Toronto man was in need of a raincoat and not having the necessary funds to purchase one lifted a coat hanging in front of A. J. Perry's store. He accomplished this at 1.30 and a few minutes later P. C. Burns had Thomas and the coat. This morning Magistrate Livingston informed the raincoatless individual that he would have to contribute \$1 and costs or spend two months in the Central. Not having the ten spots plus he took the time.

Thomas was seen to take the coat and go along Market St. and down the hill. P. C. Burns was told of the theft and he located the man in a local pool room. He was brought out, and while waiting for the wagon P. C. Burns was kicked and bitten by the thug. The P. C. showed him self to be master of the situation and placing Thomas on his back. He was allowed to go on the assault charge. One lonely drunk composed the rest of the docket.

IS NOW A K. C.

WINNIPEG, Oct. 25.—The Manitoba Gazette contains the announcement of the appointment of Solicitor-General Meighen as King's counsel.

The greatest regret exists here that any signs of ill-feeling should have been displayed in regard to the situation in that country. It is pointed out by officials that England, like other powers, recognize Provisional President Huerta because she believed him to be the best man to handle the critical situation, and she still holds that opinion. Should, however, President Wilson, after the elections of Sunday, present, as it is expected he will do, any more practical solution of the difficulty, it will be sympathetically considered by England.

After all, it is argued, the divergence of views between the United States and England is a matter not of aims, but of methods. While it is possible that Sir Wm. Tyrrell, the private secretary of Sir Edward Grey, might assist the British Ambassador at Washington during his stay there, it is pointed out that his visit to America was arranged long before the crisis arose. He is a close personal friend of Sir Cecil

Will Enter Mine Death Trap Soon

Two Hundred Bodies Are Expected to be Found There.

Two of the Rescuers Were Killed at Their Work Yesterday.

(Canadian Press Despatch)

DAWSON, N. M., Oct. 25.—Rescue crews to-day succeeded in working their way well into the fatal chamber No. 18 east on the high line where 200 miners are entombed in the Stag Canon Mine, and before nightfall they expected to be within a few feet of the jammed door connecting this chamber with the last on the east side high line. It is beyond this door a large number of bodies are expected to be found, among which are those of General Superintendent William McDermott and Henry P. McShane, the wealthy young New Yorker.

That the men are all dead is general opinion of the men concerned in the rescue work. Mine experts, including J. C. Roberts and his assistants of the United States Mine Rescue Service, agree that the amount of black damp which penetrated the nineteenth chamber as the result of the explosion was sufficient to have killed all of the occupants instantly. But that so many of the miners, all most 30 should have been in one chamber is the puzzling feature to the men who are directing the rescue work.

From the conditions found in the adjoining chambers it was believed that the centre of the explosion was in either the eighteenth or nineteenth chamber and by this reasoning, they are unable to see how the miner could have reached the chamber if there they are.

The rescue work has been systematized with a directing head at the place of exploration. With the coming of the government rescue crew they were given new courage and no difficulty was found in the organization of helmet crews, a task which the rescue workers do not believe was ever before attempted. The two of the helmet men had been killed at their work. The opinion still exists that all of the bodies will not have been recovered before Sunday.

THOSE GATES AGAIN DOWN

Dr. Phillips Had a Close Call on G.T.R. Crossing.

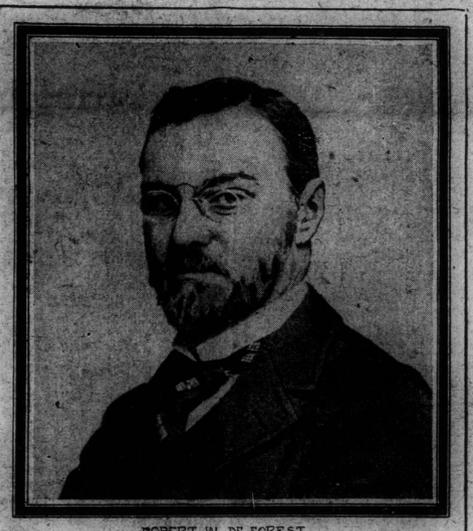

Dr. J. A. Phillips had a narrow escape late yesterday afternoon while crossing the G. T. R. railway on Market street north. Dr. Phillips was in his auto car and when he approached the track the gates were up, but just the second the crossed the first track they were lowered and he was caught without warning. A freight train was fast approaching and a party standing near by gave the gate keeper the "high sign" and he raised the gate sufficiently to allow the doctor to get over the tracks in safety.

Nearing Completion

The new galleries being installed in connection with the Brantford waterworks will be completed in the course of a few days, which will mean a very large increase in the water supply.

MEN STARVE ON THE TRAILS IN MAD RUSH TO THE GOLD FIELDS

FILLS VACANCY MADE BY DEATH OF MR. J. PIERPONT MORGAN

ROBERT W. DE FOREST. PHOTO BY HOLLANDER & CO.

Mr. Robert W. de Forest, who has been a trustee of the Metropolitan Museum of Art, New York, since 1890, is now president of the Museum. He was elected by the trustees to fill the vacancy caused by the death of Mr. J. Pierpont Morgan last spring. At the same meeting the trustees by a unanimous vote accepted the \$10,000,000 art collection left to the institution by the late Benjamin Altman. The valuable bequest was received under the full conditions imposed by Mr. Altman in his will, who instructed the trustee that the collection should be kept intact. The old masters will be exhibited in one room and the objects of art in another chamber.

LARKIN'S DOWNFALL SEEMS EMINENT IN DUBLIN STRIKE

Priests Fought Yesterday Against Deportation of Children to England and Not One Left Dublin—Labor Leader is "In Bad."

NEW YORK, Oct. 25.—A cable message from London to The Tribune says: In the battle for the Dublin strikers' children, yesterday was the day of defeats for James Larkin and his Socialist sympathizers, who wish to send boys and girls to homes in England. The clergy and their followers maintained the greatest vigilance all day and not a single child was smuggled out of the city to England. Watch was kept at the railway stations and quays and an excited scene took place at the West Land row station on the departure of a train for Queenstown for passenger for the Holy Head mail boat. It was discovered that eleven children were in the train on their way to England and several priests supported by a large crowd intervened and according to the children from the train. One of the priests first delivered an impassioned address condemning the removal of the Dublin children to England.

A BIG COMPANY.

CHARLOTTE TOWN, P. E. I. Oct. 25.—The Guardian announces a large silver fox flotation having been found in a well known Anglo-Canadian financier, representing London as Montreal capital. It is to be called the Canadian Pacific Fox and Fur Company, Limited, and the capital to be \$1,000,000.

MAHMOUT IS DEAD

Famous Bulgarian Wrestler Met Death by Bandits.

CHICAGO, Oct. 25.—Yussif Mahmout, a Bulgarian wrestler, who was a number of Americans, including Frank Gotch, by whom he was defeated, was killed by a band of Bulgarian bandits in the mountains near Silistria, his home, according to story told by two Turkish wrestlers who arrived here to-day. Mahmout was petty officer in the Bulgarian army during the late war and according to their story, went to the town to draw some money to pay off the men in his command. Sixteen bandits, learning the purpose of his trip waylaid him on his return, but he caused Mahmout had procured on orders instead of gold coins, they killed him. The murder of Mahmout took place three weeks ago.

Will Work On The Sabbath

Messrs. Wright, Hazzard & Cohen, who have the contract for raising Lorne bridge, applied to the civic authorities for permission to carry on construction work to-morrow, and the same was granted, as it was considered an act of necessity and in the best interest of the community that the work should be rushed to completion while the weather is most favorable.

Others Are Drowned in Rivers or Swallowed Up in the Crevasses en Route to Chisana.

Details Brought by Member Geological Survey Concerning Camp on Alaskan Border.

Plenty of Gold Dust in Evidence, But Nothing Yet to Prove Camp a Permanent One.

OTTAWA, Oct. 25.—Men, gaunt for want of food and hollow-eyed for lack of sleep, staggering over mountain passes and wading perilous mountain streams in quest of gold; men starving to death beside the trails, others drowned in rivers or swallowed up in crevasses, the survivors in many cases arriving at their destination only to find all available claims staked; such was the story brought back to Ottawa by Dr. D. D. Cairnes, of the Geological Survey, of the rush to the new Alaskan gold field at Chisana.

Described by Dr. Cairnes as the greatest gold rush since the historic one to the Klondyke, although there is no guarantee that the camp will prove anything like the find the Klondyke did, its scenes parallel those which attended the former discovery. Numbers of lives have already been sacrificed, the want of provisions accounting for the greater number of these, and even now the greater part of the inhabitants of the camp are living on ptarmigan, birds which they knock over with sticks or stones, and which are fortunately plentiful.

The Chisana field, popularly known as Shushana, is situated on the Chisana River, 750 miles south-west of Dawson, and only 30 miles from the Canadian border. Consequently there are more Canadians there now than there are Americans. As has already been told, it was first discovered by an Indian known simply as Joe, who told two white men, William James and his partner, Nelson; about it. James and Nelson are now spending the proceeds of their first year's work in the United States. When the news of the discovery became known a rush over five main routes commenced. One of these took a number of the gold seekers over the Skoli Pass, a dangerous mountain trail, in whose crevasses several perished.

Others came by way of the Tanana and White rivers, by Coffee Creek and Lake Klunne, pulling boats, pack horses and dogs furnishing a means of transit. Food was scarce with those who came in, and is scarce still now. The cost of living is never higher than in Chisana, where salt, flour and even oats for horses cost \$2 per pound. Nothing eatable can be purchased for less than \$1 a pound, and for once the necessities of life are valued much more highly than the luxuries. Even at these figures there is practically no food for sale, and many of the gold-seekers after starting to the limit of endurance have finally given up and gone out.

As to the value of the strike, Dr. Cairnes stated that there was plenty of gold dust in evidence, though operations have not been sufficiently protracted to prove the camp a permanent field.

Boy Knights Have Armories

The opening of the new Boy Knight Armories took place last evening when a large number of the residents gathered, all expressing approval of the splendid work being accomplished by the company and their leader, Mr. Hunt. The programme which consisted chiefly of eloquent addresses was interspersed with musical numbers. The large assembly hall was splendidly decorated for the occasion.

Boy Knights Have Armories

Mr. Hunt presided and outlined the movement and the plans for the future. Re. Llewellyn Brown gave an excellent address on boys' work. The head Scoutmaster of the Trinity Scout Troop, conveyed greetings from the corps, Rev. Mr. Latimer and the congregation. The corps was present. Miss Gilkison gave an extremely interesting historical address on battles—Charlton's Farm, Lundy's Lane and Moravian Town. Maj. Gordon J. Smith in a very interesting address congratulated the Knights and leader upon the enterprise exhibited.

The club house is open to any boy in the district whether he have the fee or not.

# SOCIAL EVENTS

**LITTLE BOY.**  
You've a wondrous winning smile,  
Little Boy,  
And some tricks that oft beguile us  
to joy.  
You've an eye so clear and true,  
And a laugh that's ever new,  
And we wish that we were you,  
Little Boy.

You have such sudden ways,  
Little Boy,  
And your pranks sometimes amaze  
and annoy.  
You can make a house appear  
Like a place upset and queer,  
Little Boy,  
When your eyelids close at night  
Little Boy.

With your arms still folded tight,  
Round some toy,  
You're an angel for whose sake,  
Any sacrifice we'd make,  
But you're none when you awake,  
Little Boy.

In ribbons and laces they came one by one.

Mr. Harry Genet returned on Tuesday to the R.M.C., Kingston. On Sunday afternoon Mrs. Genet entertained informally for Mr. W.C.A. friends who were happy to meet for a chat and a cup of tea before leaving again for school and college.

Many friends of Dr. and Mrs. Fiske will be glad to hear that their small son, Master Cairnie, is better after an operation for appendicitis in the hospital, Couric with his tricycle on the street, with Amy and Charlie, made a pretty picture of childhood at play; and the street was sorry when the wee man took suddenly ill. Children like birds and sunshine are unconscious joys that we miss when they are not in evidence.

On Monday evening, Mr. Henderson of Brant Avenue, entertained at dinner in honor of Mrs. James Cocksbutt's house party. Forty round tables were fragrant and attractive with quantities of autumn's bright flowers. Covers were laid for ten and included Mrs. James Cocksbutt, Miss Elsie Cocksbutt, Mr. Harvey Cocksbutt, Mr. and Mrs. Gibbons, Miss Allan, Messrs. Eby, Burns, Baker, all of Brant. The evening was a charming finish to an afternoon play on the links, when a small private golf party was in order. Several prizes were presented to the players; indeed, every one was given a prize, the gifts of the visitors.

## Out of Town News

Mr. and Mrs. J. Kerr Osborne have gone to England and Hon. E. H. Phippen and his family are again domiciled at Clover Hill.

Mrs. Geo. E. Foster was quietly entertained by many Toronto friends during her brief stay in Toronto last week.

The Rt. Hon. Auster Chamberlin M.P., will be the principal guest at the United Empire Club, 117 Pica-dilly, London, at a dinner to be held Thursday, Oct. 30. Mr. H. Page Croft M. P., will preside.

Prince Henry, the youngest son of King George, who is at Eton, looks a very pretty boy in his new photographs, wearing Eton suit and tall hat, like all the other young Etonians. It must take some time for a new boy to learn on which side of the road to walk, and whether he may or may not turn up his trousers, and the Eton boys are like unto those of the Medes and the Persians.

Mrs. G. H. V. Byles, the hostess of Government House, Edmonton, like many other distinguished Albertans, is an Easterer by birth, a native of New Brunswick, and is a hostess of much social charm.

The English actor, Mr. Cyril Maude and Miss Margery Maude were entertained widely in Toronto recently. Mr. Maude gave a pleasant address to the Toronto Women's Press Club.

The Tango Tea the Latest.

Indeed, London moves more and more towards the light and even the fantastic, how otherwise the account for the success of the latest importation from France—"This was, madam"—at the Queen's Theatre, served up as it is with a London version of the Tango Tea of New York and Paris fame. We do not go to the length as yet of raising from our first cup of tea and dancing "the Tango" with our neighbor, but we do take our tea, tickets the box office and sitting at our tea tables, where the stalls used to be, watch a Tango phantasy in two parts, upon the stage.

The public seem to like it and no doubt other hosts will follow in the lead of the Queen's. Perhaps in time we shall be allowed to join in less theatrical decorum. As for the play, it is a pretty parade of the latest Parisian millinery and frocks—a revelry of "Mannequins." The tall coiffures from Bond street, some goddesses from Bond street, some others has called them, float round the stage to the music of "Waiting for the Robert E. Lee." We rattle the tea spoons and vote it a great show.

Mr. Campbell Scott, the poet, is appointed Superintendent of Indian Affairs. Mr. Scott's first book of poetry "The Magic House and Other Poems" "Labor and the Angel" and "Via Borealis" his latest, has established his fame as a poet. It is true that few Canadians understand the Indian character and point of view as Mr. Scott understands it, possibly no other Canadian understands as well, or sympathizes as fully.

In this time of revival of poetry, it is a happy circumstance that a new book of great poetical merit should

to be added to Canadian poetry. Miss Marjorie Pickethall's first book of poems "The Drift of Pinions" published by the University Magazine, Montreal, and by John Lane, London and New York. Her poetry has an ethereal music and her imagination moves like a spirit with wings. Her muse soars like a lark and visits far places. Now, like a bird and now of angels she sings her songs. A poetic gem in poetry.

**The Festival.**  
The magnetic festival has come and gone, that brings back erratic wanderers to the old folks at home. And they've gone to their various vocations, to business or to their professional life, the boy or girl to school or college. But memories remain of fire-side joys at home. How jolly the turkey and home-made goodies were, after boarding house confections. And the dances—don't you hear, Musgrave's and Fraick's two steps going a-ling, when you are quietly thinking over the last dream walk? Dreams are simply not in it compared with the reality, of gliding along on air, so to speak, in the old town. And the boys and girls are gay, debonair aboard their train bound for the happy land of study. The parents, too, have their secret joys: How well the boy or girl has done! They are simply repaid already for any sacrifices made for the college course. And so the web of life is spun, in the loom of home, of college, and the

SATURDAY PRICES ON THE MARKET

There Was Not The Usual Big Amount of Produce on Sale.

There was not the quantity of produce on the market to-day that there has been on the two previous Saturdays. This was due to the extreme heavy rain of yesterday, which made it difficult for the farmers to get produce ready and bring it in. There was, however, a good supply and citizens in large numbers gathered.

Table of market prices for various goods including Vegetables (Squash, Marrows, Onions, etc.), Fruits (Grapes, Apples, etc.), Meats (Butter, Eggs, etc.), and Grains (Oats, Wheat, etc.).

MARKET REPORTS CHICAGO, Oct. 24.—Best prospects ever known for winter wheat in the United States, put the bulls today at a disadvantage. Closing prices were weak, 1-1/2 to 3-8c under last night's. Corn showed a net loss of 3-8 to 5-8c, and oats a drop of 1-4 to 3-8c. In provisions, the outcome ranged from 1-2c decline to 7-16c advance. Liverpool grain closed: Wheat, 1/2 to 1/4 higher; corn, 1/2 to 1/4 higher; Paris wheat closed 1/2 lower; Antwerp, 1/2 higher; Berlin, 1/2 higher; Budapest, 1/2 lower.

TORONTO GRAIN MARKET. Wheat, fall, bushel, \$0.86 to \$0.88; Barley, bushel, \$0.85 to \$0.87; Oats, bushel, \$0.80 to \$0.82; Rye, bushel, \$0.85 to \$0.87; Buckwheat, bushel, \$0.91 to \$0.93.

WINNIPEG GRAIN MARKET. WINNIPEG, Oct. 24.—The local grain market opened strong on higher Liverpool cables, but eased off later. The opening was 1/2 to 3/4 higher and closed unchanged to 1/2c lower.

DULUTH GRAIN MARKET. DULUTH, Oct. 24.—Close—Wheat—No. 1 hard, 85 1/2c; No. 2 hard, 84 1/2c; No. 3 hard, 83 1/2c; No. 4 hard, 82 1/2c; No. 5 hard, 81 1/2c; No. 6 hard, 80 1/2c; No. 7 hard, 79 1/2c; No. 8 hard, 78 1/2c; No. 9 hard, 77 1/2c; No. 10 hard, 76 1/2c; No. 11 hard, 75 1/2c; No. 12 hard, 74 1/2c; No. 13 hard, 73 1/2c; No. 14 hard, 72 1/2c; No. 15 hard, 71 1/2c; No. 16 hard, 70 1/2c; No. 17 hard, 69 1/2c; No. 18 hard, 68 1/2c; No. 19 hard, 67 1/2c; No. 20 hard, 66 1/2c.

City News Items

Mr. and Mrs. Robert Cockshutt of Toronto, are visiting in the city.

The Hamilton Lady Golfers will play a return match with the Brantford ladies on Tuesday next. The visitors will be entertained to a luncheon by the Ladies' Executive of the Club.

Industrial Farm Project. Mayor Hartman received notice this morning from Mr. L. E. Weaver of Hespeler, that a meeting of the committee of the proposed industrial farm will be held in Woodstock on Tuesday next.

Night Classes. The night classes at the B.C.I. are being well attended, and great interest is being taken in the classes by the pupils attending. Eight applications have been received for the formation of a china painting class, and if half a dozen more applications are received a class of this kind may be inaugurated.

Farwell Service. The farwell of Ensign and Mrs. Trickey will take place to-morrow night at the S. A. Citadel, the final farwell being on Tuesday night, when refreshments will be served. This service will also be a welcome to the eleven S. A. bandsmen who have been ill with typhoid contracted while at Niagara Falls. It is expected that at this service the appointment of the ensign will be made known, also the name of his successor. The Courier joins with the many friends of the Ensign in wishing him and his family every success in their new work.

**WHERE BRANTFORD STANDS**

The Hamilton Herald has been looking up the civic indebtedness per head of the fifteen cities in Ontario and also the percentage of civic debt to total assessments. This is the outcome:

**Civic Debt Per Head.**

Windsor	\$ 37.30
St. Thomas	64.50
Kingston	67.30
Peterboro	70.00
Hamilton	74.80
Woodstock	81.00
London	81.50
Berlin	84.20
Stratford	86.40
Chatham	88.90
Brantford	90.00
Ottawa	101.15
Toronto	117.00
Guelph	121.80

**Percentage of Civic Debt, to Total Assessment.**

Windsor	7
St. Thomas	12.3
Hamilton	12.3
Kingston	13.3
London	12.4

Toronto	14.3
Ottawa	14.5
Stratford	16.5
Brantford	17.4
Berlin	18
Chatham	18.3
Woodstock	19.3

It should be remembered in connection with Brantford that there have been extra demands in the matter of costly flood prevention works, and that our Public Schools, and Collegiate Institute are much above the average.

**THE LATEST PROPOSAL**

The everlasting City Hall question is to the fore once more. This time the suggestion is to call for tenders for a building to cost \$150,000 to be located on that portion of property facing on Darling street, which still remains in the city's possession, after the sale of one-half for the new public building. This would bring the two structures back to back. One of the main features in connection with the suggestion is that at last there is recognition of the desirability of not using the centre of the Market Square for a civic pile. That piece of property was decided in perpetuity for Market purposes only, and should be devoted to that plan.

Another thing with reference to the matter is that citizens can now doubly congratulate themselves upon the refusal to let the Laurier Government have half of said square for nothing. The plan was a combined public building with a City Hall, and from the size of the structure now in course of construction on Dalhousie street it can readily be seen how much our very large and rapidly growing market would have become cramped. It would certainly seem in this matter that the public utility should be called for first attention should be a covered city market and the present antiquated structure in the centre be torn down. As it is, present conditions, or more properly lack of conditions, are not only a disgrace, but a serious menace to health, not alone of the buyer, but also the seller. A walk through the square last (Friday) night showed as usual meat and other products exposed in the open in order to hold a place for Saturday trade. This is most emphatically not what should be. It would be quite possible to devise some method of covering upon a neat and sanitary basis, and the rent of compartments would more than meet sinking fund and interest. The Courier has always contended that for a few years at any rate, the present Post Office soon to be vacated would do very well, indeed, for civic purposes. It possesses roughly speaking about 3,000 square feet of floor space on the ground floor with a like area on the second storey, and then again house room for the caretaker on the top of that. The great need for a hall as such, does not exist for the reason that we now have the armories, four theatres, with another one building, another armory soon to be started, a large hall at the Collegiate Institute and still another at the Y. W. C. A., still another in the new Y.

M. C. A. building. The day has long since passed in this community when a municipal hall was necessary as a public meeting place of sufficient size. This leaves then the accommodation of a little over twenty civic officials to be provided for. That they should have much better quarters, no one doubts, but at this time is the outlay warranted of \$150,000 on a civic property worth at least \$30,000 or \$180,000 in all? The matter, at any rate, should be most carefully considered.

**GRIT PROFESSIONS VS. ELECTORAL CORRUPTION.**

One of the serious charges of corruption at elections, brought by the Grit press, led by the Toronto Globe is that the Hon. Robt. Rogers, Minister of Public Works, promised "to build a bridge over the Richelieu River at Chateauguay, while as a matter of fact the river does not come within 25 miles of the constituency." Contrast this exhibition of righteous Grit exposure of supposed bribery with the boast of Mr. Marcell, late Speaker of the House of Commons, and it will be seen how far, and to what extent bribery was practiced during the Laurier regime, and never condemned, but tacitly justified by the Grit press, led by The Toronto Globe.

Mr. Arthur Beauchesne, who opposed Mr. Marcell at the general election, wrote to the Montreal Gazette that at a joint meeting in Paspébiac Mr. Marcell said to the electors: "Mr. Amyot, the Government engineer, is here with me. He will take contracts after the meeting for the construction of the new breakwater. See him and arrange with him for loading the stone and handling the timber." In his election address, Mr. Marcell pointed out that he had obtained for Bonaventure in public subscriptions more than \$125,000 a year, \$10,000 a month, \$300 a day, or about \$125 for each voter in the constituency. How was this corruption with public money punished by the government? He was rewarded by an approving government and a grateful party with the speakership of the House of Commons and \$4,000 a year and perquisites.

In what way did the Toronto Globe meet this charge of corruption when attention was called to it by the Toronto News? The only condemnation of the act was that The News "has rather soured on the French-Canadian, Mr. Marcell is of that race and makes a good cock-shot for the amusement of The News' clients." Race and creed, as usual.

A contemporary has drawn attention to a few, among the many, acts of political corruption of those who are now so loud in proclaiming their virtues, that it is well that the people should be reminded of them. In West Huron, where a Conservative was elected, the ballot boxes were opened and enough Conservative ballots stolen to give the seat up to his Liberal opponent. In the Brockville contest ballots were so numerous that they were picked up on the floors of the polling booths, and the ballot boxes stuffed with bogus ballots sufficient to elect the ministerial candidate, who has forgotten the appeal to Durham to vote for Aylesworth and the canal.

Sir Wilfrid Laurier's telegram to Mr. Urquhart that a bridge would be built over the railway tracks on Yonge street. The dark lantern escapade in Lennox. The bogus ballot boxes in Hastings. The purchase of election officials and the sending out of the country the witnesses who would, if they could have been secured, given evidence that would have placed the corruptionists in prison. But why waste time and space in further detailing the political crimes of those who are now professing honesty and political virtue. Their crimes are well known, and should not be forgotten, and if not forgotten, should breed contempt in the minds of those who remember them.

**NOTES AND COMMENTS.**

The Mexican muddle is evidently getting much more that way. Don't forget the cash haul in connection with any new city hall. At last accounts Hon. Sydney Fisher wasn't hankering for any more election contests.

In connection with the Kingston penitentiary enquiry it has been shown that prisoners will do anything to get tobacco. As to that no doubt most of them would like to plug home.

It is said they are still trying to iron out that kink in Laurier's sunny smile, but without much reasonable hope of success. If you want to know what it is to have your mind riveted, just occupy an office opposite the steel construction of a new building.

No mere cut can do justice to the splendid nature of Brantford's new public building. As it continues to grow citizens are commencing to realize what a dandy structure they will have.

So the Duke and Duchess of Connaught and Princess Patricia are with us once more. The local Grit organ which questioned the advisability of their coming in the first place, will no doubt be greatly peeved over their return.

The Grit organs are commencing to yell bribery regarding South Bruce. If so, the laws are on the statute to stop it. Why not take action? As a matter of fact they are preparing the faithful for another bump. Finance Minister White charges that when the Laurier government was in power it did nothing to settle the navy question. Try again! The late government had a policy which was approved by the British admiralty, and made a good start on a Canadian navy. Pray, what has Mr. Borden accomplished?—Expositor.

**The Poorhouse**  
By Walt Mason

The poorhouse, naked, grim and bare, stands in a valley low; and most of us are headed there as fast as we can go. The paupers sit behind the gate, a solemn thing to see, and there all patiently they wait, and wait for you and me. We come, we come, O sad-eyed wrecks, we're coming with a will! We're all in debt up to our necks, and going deeper still! We're buying things we can't afford, and mock the old time way of salting down a little hoard against the rainy day! No more afoot the poor man roams; in gorgeous car, he scoots; we've mortgages upon our homes, our furniture, our boots. We've banished all the ancient cares, we paint the country red, we live like drunken millionaires, and never look ahead. The paupers on the poorhouse lawn, are waiting in a group; they know we'll be there anon, to share their cabbage soup; they see us in our costly garb, and say: "Their course if brief; we see the harbingers that harb of bankruptcy and grief." Be patient, paupers, for a span, ye friendless men and dames! We're coming, blithely as we can, to join you in your games.

SAILOR TOGS ALWAYS SUIT THE SMALL BOY

After all, the little boy looks best of all in a sailor suit which has a touch of grace as well as a mannish suggestion. Such suits are made of dark blue serge or flannel and heavy tub fabrics. In this case the smart little bit of dark blue serge is matched by a knowing hat with yacht club emblems on a black ribbon band. The loose blouse of the suit may be accompanied by knee trousers or bona fide middy trousers with a flare at the lower edge.

## BRITISH PRESS ALL TAKEN UP

(Continued from Page 1) The Pall Mall Gazette, an Opposition newspaper, regards Provisional President Huerta's declaration to the diplomatic corps in Mexico City as full of superficial common sense, but assumes that despite the self-denying ordinance by which he withdraws his candidature for the presidency and despite the promise of the Mexican government not to interfere with elections, General Huerta will remain dictator when the poll has been declared. The newspapers point out that recognition of the existing Mexican government does not constitute support of it and continues: "If Great Britain were indeed supporting a man whom the United States declines to recognize, the relations of the two countries would indeed be badly strained, but there is not and never has been any question of such action on our part." The Pall Mall Gazette concludes that England can have no complicity with any league of European nations to thwart the policy of the United States on the American Continent.

The Standard says that England's attitude in regard to Mexico is one of strict neutrality. Even the Monroe doctrine itself cannot compel England to refrain from recognizing a man who an independent nation has entrusted with the government. The Globe in a long editorial says: "Great Britain has no desire or intention of picking a quarrel with anybody over the question of Mexico. She recognizes that conditions in Mexico particularly concern the United States, and so long as her own commercial interests and the rights of her nationals are respected, she is not greatly concerned in the matter. May be Great Britain recognized Provisional President Huerta for reasons not particularly obvious, but this country does not share the illusion, apparently cherished by the United States, that Mexico has reached a stage of constitutional government according to our ideas. Therefore England is content to recognize any form of government which promises peace and security for the country." The editorial continues by saying that under the Monroe doctrine, the United States has become responsible in the last resort, not only for the maintenance of her own interests, but those of other countries as well. It is in a difficult position, but one of its own seeking. The article concludes: "It is regrettable to take them snappishly when they commence to feel the pinch of the burden they have voluntarily assumed."

The Globe thinks that the United States should accept General Huerta's assurances that he will not become a dictator.

### BRANTFORD BOOKING AGENT LOSES SUIT

A. J. Small, of Toronto, Must Divide Profits With Whitney Estate.

An important judgment was handed down at Osgoode Hall yesterday, whereby A. J. Small, booking agent of the Grand Opera House, Brantford, lost out in an action in which he was defendant. The case was as follows:

Before Britton, J. Whitney v. Small—G. F. Shepley, K.C., and G. W. Mason, for plaintiff, moved for judgment. J. H. Moss, K.C., for defendant. Judgment: In an opinion that the agreement contains what is equivalent to an express stipulation that the partnership shall not be dissolved by the death of either, if such death should occur before the termination of the leases, but that it shall continue until such expiration, or sooner, determination of the leases existing at date of agreement. The defendant got the profits from the property of the deceased Whitney, and must account for these on the basis of the agreement. There will be judgment for the plaintiff.

(1) A declaration that under and by virtue of the said agreement, Clark J. Whitney, in his lifetime was, and his estate is, a partner with the defendant in the operation and management of the opera houses, theatres, theatrical enterprises and booking percentages in the agreement in the statement of claim mentioned under any lease agreement or arrangement existing at the date of said agreement, or thereafter, made in pursuance thereof, whether by renewal of any lease or new lease, within the terms of such agreement, and that the said C. J. Whitney was, and the plaintiff is, entitled to one-half of all earnings and profits derived and to be derived therefrom. (2) Reference to the Master in Ordinary to take an account of these from the commencement of the theatrical season of 1901-02, and report. (3) Payment by defendant of the amount which may be found due upon the taking of said account. Further directions and costs reserved.

### Information Requested

City Clerk H. F. Leonard received a communication from a party in Toronto, requesting to try and locate Mr. Frederick Messenger, supposed to be living in Brantford. Information as to his whereabouts is earnestly requested as it is of a purely personal character.

### CITY SOLICITOR MAKES REPORT

(Continued from Page 1) (c) Payment to the plaintiff of his costs of this action forthwith after taxation. "And in the event of any difference of opinion arising between the said parties as to what is a sufficient compliance with the provisions (a) to (d) inclusive hereof, this Court doth order and adjudge that such difference shall be referred to the Engineer of the Ontario Railway and Municipal Board, and a certificate with regard thereto shall be obtained from him and such certificate shall thereafter be submitted to, and the question of the sufficiency of the said performance shall then be determined by this Court upon application to be made to it."

"And in the event of any such difference arising between the said parties with regard to provision (e) hereof, this Court doth order and adjudge that the difference be referred to the Master of this Court at Brantford to take an account of what is due to the plaintiff."

"3. This Court doth further order and adjudge that upon the compliance with and fulfillment of the terms and conditions aforesaid, this action be dismissed without costs; otherwise, that the said forfeiture be given full effect and that the plaintiff do recover from the defendants, the Brantford Street Railway Company, the Grand Valley Railway Company and E. B. Stockdale, receiver of the Grand Valley Railway Company, possession of those parts of the highways in the city of Brantford which these defendants or any of them may have any possession for the purpose of operating the said railway; and do recover also all unpaid damages at the rate of \$100 a month from the day of the date hereof until the day of such eviction, with costs of action to be paid forthwith after taxation thereof."

"4. And this Court doth further order that the trial of this action as against the other defendants and against the defendant the receiver as representing any bondholders of the railway be postponed to be brought on again for the trial of any question in it affecting them and not by this

Children Cry FOR FLETCHER'S CASTORIA Children Cry FOR FLETCHER'S CASTORIA Children Cry FOR FLETCHER'S CASTORIA Children Cry FOR FLETCHER'S CASTORIA

judgment determined on ten days' notice."

A careful perusal of the above will enable you to understand the present position of this litigation. In the nature of things, many phases of the matter will have to be worked out, which will take time, but on the 14th of November the railway companies and the receiver, so far as he represents them, must elect whether they will or will not accept the terms of the judgment. If they elect to accept these terms, then on or before the 23rd day of January they must pay all moneys owing to the city which are due up to that date; and after that date must pay such moneys as become due, promptly. If they so elect, they then have one year from the 17th of September last to perform their contract with reference to the reconstruction of the balance of the old system and to the rolling stock. So that within a year from the date of the trial the city shall be paid all moneys owing by this company; shall have the present street railway system rebuilt, and shall have modern and proper cars operating upon it; otherwise these defendants will have forfeited their rights upon the streets of the city, which will take possession of same.

Should the railway company carry out these conditions, there is no further complaint so far as the city is concerned as to them. Should they not do so, then the Court will hear and determine and pronounce terms with regard to the rights of the mortgagees.

Whether the company will be able to obtain the necessary financial assistance to observe the terms of the judgment we cannot say, but we regard this judgment as an eminently satisfactory one from the city's standpoint, since it will bring matters to an issue and either compel performance of the contract or forfeiture of the railway, and that within a reasonable time.

In the meantime a notice of appeal has been given by the defendants.

### RUSSIAN PREMIER SERIOUSLY ILL.

W. N. KOKOVITZEFF

The Russian Premier, Mr. Kokovtsov, who is staying at Rome, fell suddenly ill and some anxiety is felt as to his condition. He is sixty-six years old. Mr. Kokovtsov succeeded as Premier Mr. P. A. Stolypin, who died from bullet wounds received at the hands of an assassin at a gala performance in the Municipal Theatre in St. Petersburg, in September, 1911.

other than the National Trust Company, from this judgment. Should the defendants accept the terms of the judgment, we cannot see how they can very well proceed with the appeal with any hope of success. Should they not accept the terms of the judgment, we are still unable to see how they can hope to succeed in an appeal after refusing to accept the terms offered. We shall advise further, so soon as the time comes when the defendants have declared their election. Yours truly, W. T. HENDERSON.

GRIMSBY GETS A WINE PLANT

It is announced that the Pelee Island Wine Company, with headquarters at Brantford, will transfer its Grimsby plants at Pelee Island and Sandwich.

The town gives the company free site and it is expected that much benefit will accrue to the grape growers of the entire district.

When seen, Major Hamilton confirmed the above and said that the fine new quarters to be erected in this city would not in any way be affected.

LONG STRUGGLE OVER A CHILD

Judges Hold That Man is Not Fit to Look After Young Boy.

TORONTO, Oct. 25.—The efforts of Philip Kenna of Montreal, extending over three years in a hitherto vain effort to obtain the custody of his five year old son, Frederick, culminated yesterday in argument before the appellate division by Louis Monahan, acting for Kenna and H. M. Mowat, representing the Children's Aid Society and the little child's foster parents. Judgment was reserved.

Kenna, who is a Roman Catholic, married a Protestant in Manchester, ten years ago. They later came to Montreal, where the child was born and baptized in the Catholic Church. Four years ago the family came to Toronto, where they separated. In July the next year, Kenna wrote a Mrs. Jones to deliver up the child unconditionally to his wife, a letter which Mrs. Kenna construed as an absolute renunciation on her husband's part of paternal control, whereas Kenna contends it really was an order to deliver the child in his wife's hands that they might resume united housekeeping. In May, 1911, Kenna invoked the aid of the St. Vincent de Paul Society to get possession of his son, and a charge was laid in the police court. It was dismissed and the father then went to the States. Next year the Children's Aid Society took the child from the mother and placed it with foster parents, Mr. and Mrs. Albert Breckon, well-to-do people. Last May Kenna applied to Justice Middleton to remove the boy from the foster parents and have it placed with its god parents, Mr. and Mrs. Honisidos Charlebois of Montreal, he to pay them \$3.50 per week for maintenance. Justice Middleton doubted the father's ability to maintain the payments out of his nine dollars a week. "I do not think," he said, "I am compelled to sacrifice this child's future."

Before the court of appeal Mr. Monahan urged that under the law the father was entitled to the custody of the child. "I should think it out of the question that the father should have the custody," remarked Chief Justice Wm. Meredith. "The most you could expect would be that the child should be given to some Catholic society. The foster parents are in better circumstances, can clothe the child better and have more affection for him."

Mr. Monahan: "There is no evidence that he has less affection."

Chief Justice Meredith: "There is nothing to indicate that he has anything of the kind in his composition."

Mr. Monahan: "There isn't anything to indicate that he hasn't any."

Chief Justice Meredith: "He is a well-to-do, middle-aged man, according to the testimony. He is so filthy that other workmen would not take their meals with him. Instead of

growing up with good prospects the child would probably gravitate to the slums if left to him."

Mr. Justice Hodgins—"You rest on the ground that the father is a Roman Catholic?"

Mr. Monahan—"On the ground that the child is a Catholic as a matter of law and came into the world as a Catholic child, the father being a Catholic."

Mr. Monahan protested that even if the father had forfeited his right to the custody of the child he was entitled to go to the court to ask that it be ordered into the custody of people who would bring him up in his religious faith.

Praise For "Courier" Ad. Setters

Toronto, Oct. 22, 1913.

The Courier, Brantford, Ont. Dear Sirs: I wish to express my appreciation of the manner in which you have been setting up the ad. of ——— & Co. of Brantford.

I have taken over this account, and have been writing their advertisements for some weeks now, and your co-operation with me in the matter of typed layout has proved satisfactory both to them and to me.

It may be interesting for you to know that I am with the F. Albany Rowlett Agency of Toronto, and anything I can do to reciprocate with your kind attention in this matter I will certainly do.

Yours very truly, W. A. BACH.

## London Finds That Gaby Deslys Has A Philosophy All Her Own And It Has A Serious Turn Too

Philip Gibbs in the London Daily Chronicle.)

"Gaby! It is impossible! At eight o'clock! But I have eight messengers who will see me at eight o'clock! To-morrow—why yes, that would be a little better, or the day after to-morrow—in a week. In a week it is possible I may have just one little minute to give away."

**Impressions of Cities.**

It was after one of these interruptions that I reminded her of where she had left off before the tap on the door. She had left off in the midst of her impressions of the different cities in which her fame dwells.

"Ah, I remember! Yes, it is like this with me. I go to New York to make the money. I go to Paris to spend the money. I go to London to work."

New York! to live there? Jamaica! to enjoy oneself. Nevers! to do business. The American moments, my interview was interrupted by innumerable messages from people who desired "one little minute" on subjects of the most urgent importance. Gaby Deslys, the best and most beautiful city in Deslys was talking philosophy in a most delightful way, while her fingers were busy with little tendrils of hair, and she had to break the thread of her discourse by refusing the entreaties of her would-be visitors.

They do not find me shocking, no most charming, the English people are the most good-believed in all the world. I mean in their own country. Oh, yes, in England! When they will go abroad—they are the baddest perhaps in each year. Oh no, I have lived in all the world. Why is that? I would like to know that! Is it so difficult to see to-morrow? To-morrow is a day after to-morrow! Please! Please!"

It was after this interruption that I persuaded Mlle. Gaby Deslys to continue some very interesting observations she had begun on the subject of English life and character.

"Your English women? They are very nice, they dress themselves quite chic. Oh, yes! They learn to dress. I find them more pretty than French women. They exercise themselves. It is a good thing for them. In France a woman cut, she lie down, she fragrance of some beautiful flowers handed through the door, and pressed again that to-morrow, the day after to-morrow, perhaps the day after to-morrow, she might spare a little time to see the owners of the six visiting cards."

"At a woman cut, she lie down, she fragrance of some beautiful flowers handed through the door, and pressed again that to-morrow, the day after to-morrow, perhaps the day after to-morrow, she might spare a little time to see the owners of the six visiting cards."

## FORMER PREACHER IS NOW IN VAUDEVILLE

Rev. Alex. Irvine Appears in Successful Play, Written by Himself.

NEW HAVEN, Conn., Oct. 25.—The Rev. Alexander Irvine, who is appearing in the Bijou theater in the leading part of a vaudeville success written by himself, entitled "The Parish of St. Jude," was asked if he had abandoned the pulpit. He replied "Absolutely and forever. I can't preach the same message on the stage that for ten years I have preached in the pulpit, but the church she did not live. It is strange! Yet the Frenchmen are just the same thing in England. I say to them, 'What do you do here?' You understand? I do not like them in England!"

Mlle. Gaby Deslys frowned, gazed at six visiting cards, laughed with a little despair in her eyes, smelt the fragrance of some beautiful flowers handed through the door, and pressed again that to-morrow, the day after to-morrow, perhaps the day after to-morrow, she might spare a little time to see the owners of the six visiting cards.

wrong. Oh, it is very wrong with women that they have not enough work to do. I believe that each woman in the world—perhaps she is rich, perhaps she is poor—must do a little work. You see how it is with my husband. The woman she marry a husband. He give her a nice house he give her nice clothes, but always she have to live with him. O la la! What can she do, the wife? She get up in the morning. She dress herself, she do a little shopping, she visit her friends, she come home again to her husband."

**The Best Gift in the World.**

The laughter had died out of the vivacious eyes of Mlle. Gaby Deslys. She seemed to be staring into the windows of many unhappy little homes. She struck her hand upon the dressing table, so that the powder did not jump with fright.

"Monsieur, I tell you, as it is a surprise that after two years, three years a wife want a big excitement, a big change from the little home with its husband. She has no work to do. Yet there is a brain in her head, working, working. A woman has a brain in her head just the same as a man. She has a heart just the same as a man. She has an interest in her life, just the same. She may do nearly all that a man will do. But she starve her heart out, and her brain has no work to do. You understand?"

"My father lie left me, no—what you call it?—heritage. But he gave me the best gift in the world. The idea to work. Oh, it is a great, good gift. To be independent, monsieur, to earn a little money. For oneself! It is the most splendid thing for all the women. Money! Every woman should win a tiny bit of money by herself, bec very own, monsieur. SOCIAL AND PERSONAL

Mrs. Montzambert, Dufferin Ave., entertained most enjoyably at a small bridge on Thursday evening.

Dr. Balfe and Mrs. Balfe, of Hamilton, are guests for the week end, at Miss Clara and Miss Josephine Robinson, Brant Avenue.

Miss Kathleen Rennie spent Thanksgiving with Miss Gladys Garvin in Brantford—Woodstock Sentinel-Review.

Mr. and Mrs. Wesley Smith, Brantford, who spent the holidays with Mr. and Mrs. W. J. Sedge, Regent street, returned home yesterday.—St. Thomas Times.

Dr. McGuire of Waterford, is still in Toronto hospital. The doctors decided not to operate. The last report was that he was a little better, but still seriously ill.

Mrs. Chas. VanLoon, formerly Miss Margaret McEwen, held her first reception since her marriage in her pretty home, Boston. She wore her wedding gown of white satin with silver trimmings. Mrs. Douglas McEwen, Mt. Pleasant, and Mrs. Alfred H. VanLoon, Waterford, ready to receive the bride, the former wearing black silk with applique trimmings, and the latter wearing black satin with shadow lace trimmings.

The tea table was in charge of Mrs. Leslie Silverthorn, prettily arranged with a handsome chifton centre piece with a large vase of pink carnations, the tea room being lighted with candles. Mrs. Nellie VanLoon showed of the guests to the tea room. Mrs. Lloyd Erwin played, while the bride received. Little Edna Silverthorn awaited at the door. Miss Ruby Symons, Brantford, Mrs. J. D. McEwen, Mt. Pleasant, were the kind assistants, both in pretty light frocks.

The Widows' Home
The first impression on entering the Widows' Home, Thursday, the annual donation day, was the cosy aspect of the place. The president, Mrs. Cummings Nelles, with Mesdames F. Cockshutt, Wallace, Schell, Ford, Cook, Waterous, were the reception committee who received the visitors and kindly escorted them everywhere. And what a bright home with electric light, steam heating, varnished floors and snowy spreads, showed how hospic and span were the environs, and what untiring efforts are to the fore for the inmates. Up stairs, in the rooms, the window sills are ablaze. "This is a Jerusalem cherry tree," said the occupant, and its crimson fruit looked tempting. "I'm just as happy as the King or Queen," was the remark. And why shouldn't you be in a home so attractive, was the reply.

In another room you are shown very pretty knitting work. "You know Mrs. S—has ordered a lot of this work," she held the pretty pattern aloft. "Mrs. S—shows her good taste," you venture to reply. "I'm from England," said a party. Saw in my young days Queen Victoria, as I lived near Windsor. "Yes, our Queen's initials are living on on through the ages there, will be a blessing to humanity. Down stairs the packages still arrive. "Here's a hundred pounds of flour," from a voice. Much is required for the upkeep of fifteen women for a whole year. Those who have long purses and just this bit of the women who once were surrounded by loved ones, in many happy and prosperous homes who by death or cruel fate, were left homeless. It tells its own story for you to help brighten.

**BASEBALL vs. POLITICS**

(By Grantland Rice)

It has been four years now since the National League has won a world series championship. In addition to that, if one were selecting an all-American team at least two-thirds of those selected would come from the younger league. There would be no way to leave off such people as Johnson, Collins, Baker, Barry, Cobb, Speaker, Jackson and Schang. Three-fourths of the infield and the entire outfield would be American League flesh.

Not is the answer to American League supremacy hard to locate. The main business in the American League is baseball. The main business of the National—among too many club owners, not all of them, but enough to count—is political trickery, the subtle art of double-crossing, a disregard of fair play.

You might think, for example, that the National League as a body would be now planning to increase its strength, to build up and recover its waning prestige, to begin planning for future improvement. You might think so, but you would be entirely wrong. In spite of the terrific punches it has received from the younger association, the National League is now planning another winter campaign of scandal and tricky politics. And the clean-cut owners in its circuit, like Hempstead, Gaffney and Dreyfus, have no chance against the others.

In the last four years the National League has won seven out of 23 world series games—a percentage of .304 against .696 for the American, covering the game's run since 1909. And 1914 offers no better prospect than 1910, 1911, 1912 or 1913 have shown.

**Junior O. H. A. Team Is Organized For Brantford**

**Ed. Slattery Is Appointed Manager and There is a Splendid Lot of Material Available.**

At a very enthusiastic meeting held in the Y. M. C. A. last night, the junior O. H. A. team was organized for the season. The following officers were elected: Honorary President, W. B. Preston; President, Gregory Kew; Vice-President, Art. Dunstan; Secretary, Norman Weir; Treasurer, James Hanley. The executive are A. T. Whitaker, Wilfred Phillips and Morley B. Drake.

Those named as patrons were: W. S. Brewster, M.P.P., John Fisher, M. P., Messrs F. D. Reville, William Schultz, R. E. Ryerson, M. W. McEwen, C. H. Waterous, Wm. Fraser, Roy Brown, D. J. Waterous and J. Kelly.

There is plenty of good material in the city for a very strong team, and Manager Edward Slattery feels confident that the boys in red and black will bring honor to the city and to themselves. Young men who will not attain the age of 20 years before January 1 are eligible to try for the team. Every young man who tries for this team will be given a fair show. Among the names suggested last night were: Jack Beets, M. O'Connor, John Klersey, Leo Treacy, Norman Weir, Phil. Krieger, Beveridge, Burgess, Beckatt, Doc. Cassidy, Cleator, E. Simpson, Clifford Sle-

min, Ted Wood, J. Pace, L. Sumner, Tim Slattery, F. Hurley, A. Shurtliff, Willfred Acret and Irwin Pearce.

Those desiring to try for the team should speak to Manager Slattery. An adjournment was made to meet again at the call of the president.

**Sporting Comment**

An American golf correspondent describing Miss Gladys Ravenscroft the English girl who won the U. S. championship, says:—"Miss Ravenscroft is just a slip of a girl—" Having seen Gladys get 185 pounds behind her brassie shots on the Ottawa course, the rest of the article carries no interest.

The announcement that a Western Indoor Baseball League, consisting of London, Toronto, Hamilton, Woodstock, Guelph, Stratford, and this city is likely to be formed was received with much rejoicing by the local players and followers of indoor baseball and soft ball. The football game caught on here last summer. As the games are played very similar, there is a new desire to play indoor ball.

Galt Reporter: On Saturday, the G. C. I. Rugby team will go up against Brantford team. This game must be won by the local squad if they are to stay in the running. Brantford has a very good team, both heavy and fast, and is so far ahead in the league. The locals have made several changes in their line-up and will make every attempt to win the game.

The following is the standing:  
Brantford . . . . . 1 0 1 3  
Guelph . . . . . 1 0 0 2  
Galt . . . . . 0 1 1 1

The remaining schedule is:  
Oct. 25—Brantford at Galt.  
Nov. 1—Guelph at Galt.  
Nov. 8—Guelph at Brantford.

**Football**

Everything is ready for the final game for the Courier Cup, to be played at the Agricultural Park between the Y. M. C. A. and All Scots.

Mr. Farnsworth will referee the game, which is billed to commence at 3:30 sharp.

Mr. Brewster will present the cup to the winners after the game.

**PLAYERS INSIST ON BEING CONSIDERED**

**Won't Sign Next Season's Contracts Until After Demands Are Heard.**

CHICAGO, Oct. 25.—Statements were made that major league baseball players, who are members of the 'Players' Protective' Fraternity, have signed an agreement not to close contracts for the season of 1914 until after the annual meeting of the club owners at which certain reforms drawn by the players will be submitted.

What purports to be a list of 20 demands to be presented by the players to the American League owners in Chicago on Nov. 6, and the National League club owners in New York in December, was received in Chicago yesterday.

The more important demands in the list are:

When a player receives ten days' notice of unconditional release, he shall be free to sign with any team immediately.

National Association players shall receive ten days' notice before they can be released unconditionally.

Players shall be transferred, subject to all the terms of their contract.

No player shall be discriminated against because of his connection with the union.

Before a player shall be released outright, or under an optional agreement to a team of lower classification, waivers shall first be secured from all teams in his classification, and then from all teams, if any, between that classification and the one to which he goes, according to their priority in grade.

That when a player signs a contract for a certain salary he shall receive that salary until the end of his contract, whether or not he be relegated to the minors.

Color of truth is given the rumored New York deal for first baseman Konechty of St. Louis by the assertion that Konechty is very much dissatisfied with his present berth. Undoubtedly the Giants would be strengthened by the acquisition of the Cardinal first sacker.

American troops are having serious skirmishes in the Philippines.

**Mack Not Infallible; Tried to Trade Schang**

When John J. McGraw said under his own signature a few days ago that Eddie Collins was the greatest second baseman in baseball, he did not mention that he let a golden opportunity to get this remarkable player slip through his fingers. When Collins was playing with the Columbia University team both McGraw and the late Fred Knowles were fairly begged to give Collins a trial. It may not be called bad judgment, perhaps, but the fact remains that the Giants had the first chance not only to get Collins, but also Eddie Plank, both of whom had so much to bring about their defeat in the last world's series.

Connie Mack is wise in his generation and has been remarkably successful in picking up stars from untried material, but those who point to the Collins incident as an indication of his intuitive knowledge of a real baseball player seem to forget that only last spring he tried hard to trade Schang, his brilliant young catcher to the Yankees for Paddy Green, a pitcher who months ago passed along to the minors. Schang now ranks with the greatest catchers in the country, so that after all Connie Mack's judgment on players is not infallible.

Previous to the 1913 season, Falkenburg, to big league experts, had been what one would term an "in and out." He was a flash in the pan one year and a selling plaster the next season. Falkenburg was held up recently and asked to account for his success during the 1913 season. He explained that he had been picked up by Washington in 1908 and pitched part of that season for the Senators, finishing with the Naps. The next year he also spent with the Cleveland club, but he was finally canned because he was not rugged enough to earn his salary. He could pitch only about every fifth day, if he were to be a winner. Falkenburg decided that he must take some part of physical culture to strengthen his muscles. Accordingly he obtained a position in an automobile factory in Toledo. His job was to pound the hair stuffing into the backs of automobile seats. It was hard work and tedious, but Cy never missed an hour all winter, and day by day his arm grew stronger. At night he was captain of a bowling team in a factory club and he liked the game. The

**Cy Falkenburg Was Delicate But Couldn't Quit Baseball**

Many American league fans and other baseball enthusiasts, who seldom get an opportunity to see big league games, but follow the scores closely, were surprised last spring to see Falkenburg flash like a meteor across the big league horizon. Falkenburg started off with 10 consecutive victories before he was headed. He wound up the season with Cleveland, with a record of 22 victories and eight defeats for a percentage of .73.

It is freely admitted that in Schang and Schalk the American League has developed the best young catchers in fast company. But which is the better. Connie Mack insists that Schang stands without a peer. He paid \$2,500 for him and wouldn't sell him now for ten times that amount. Comiskey declares that Schalk is the greatest backstop in the game and Big Ed. Walsh agrees with him. Schalk was purchased for \$10,000 from Milwaukee and Comiskey says he is worth his weight in gold. So take your pick!

BLUE RAPIDS, Kan., Oct. 25.—The Chicago White Sox defeated the New York Giants yesterday, 8 to 5. Wiltse was pounded by the Chicago players for four home runs. Batteries: Benz and Daly; Wiltse and Wingo.

**KENNEDY IS AFTER A STRATFORD PLAYER**

MONTREAL, Oct. 25.—Art Ross and Harry Hyland of the Wanderers are not the only hockeyists to have their salaries cut \$500. When Jack Laviolette of the Canadiens received his agreement this fall he was somewhat surprised also, for he was offered \$500 less than he received last year for the season's work.

Laviolette returned the contract unsigned. Jack's friends say that they do not think it will be necessary as they think he can come to satisfactory terms with Manager Kennedy.

It is stated by pretty good authority that Pitrie, also of the Canadiens, has been offered considerably less for his services this winter than he received last season, when he was one of the highest paid hockeyists in Canada.

Manager Kennedy has strings on a well known Stratford player, whom he expects to sign this week.

## GOLF W. W. Harnie On LONG DRIVING

Having been asked to what I attribute my length of the tee, I will endeavor in the following article to give a few of the methods I adopt, writes W. W. Harnie, the holder of the world's record for long driving, in London Golfing. The secret—which is no secret at all—is that while one player is hitting within his strength, the other is trying to hit beyond his power, or, in other words, pressing, consequently losing all control of his club.

I don't think golfers study their clubs enough. Take, for instance, the driver. Often you see a player winding a club far too long for him. I know from my own experience the trouble I had to control the longer club, therefore I started experimenting, and came to the conclusion that my clubs must be shortened. I started by gradually shortening the shaft, until I found the length to suit me. I don't mean I found this in one day, but by just taking half an inch off and giving it a good trial for a week, or so, at last I found the length of club I could swing comfortably and get my wrists to work more satisfactorily. I also found with the shortened driver I could stand well up to my ball, which gives more control and greater accuracy.

Some players think that by shortening their clubs their drive, must of necessity become shorter; but that is not the case (provided they have not overdone it) as by standing more up to the ball they have greater hitting power, and not so much chance of that fatal mistake—overswinging. Besides, they obtain a much straighter follow-through, which is so necessary.

The player using the shorter club looks as if he is going to hit the ball with strength, because the club is not overpowering his wrists by being too unwieldy; his arms are hanging naturally, and not pushed out as with a longer club. The only thing that you must be careful about in shortening the shaft of your club is that to avoid spoiling the balance of the club it will often be necessary to add a little weight to the head.

Now for the swing. The old teacher told us to go back slowly. Now, for a hard hitter to follow that advice is fatal, as there is a certain amount of combination between the up and down swing. Go back slowly and try to come down quickly, and you have lost the natural swing of the body; the swing then becomes a jerk, resulting in mistiming—fatal to the stroke. Some players advocate

turning the left wrist over in taking the club away from the ball, in the back swing. The fallacy of this, to my thinking, is that it causes the left elbow to leave the body too far and the left shoulder forced up, causing the head to lift out of what should be a stationary position. I contend—and I have watched carefully all our players—that they take the club away from the ball with the wrists working evenly; there is then more chance of the down swing being true and both wrists working together as one.

Now, the grip. Assuming the club is the right length for the player, he should grip the club with the left hand right at the top of the handle, letting the right fit comfortably to it. Be careful not to leave any space between the hands, otherwise the wrists cannot work together. By this grip the ball gets the full power of the stroke, the ball having its full freedom. If the club is gripped halfway down the handle, it is almost unavoidable that there should be a lot of power taken out of the stroke. Lastly, as regards the stance, I personally favor standing almost square to the ball for driving.

STRAIGHT DRIVE.

## Bob Rogers Wasn't Satisfied With Anything Less Than 400 Majority

MONTREAL, Oct. 25.—Four hundred for Glass," said Hon. J. D. Hazen as the C. P. R. train by the north shore pulled out of the Union Depot at the capital last night with the Premier's private car en route to Quebec.

"Just about that," said Hon. Bob Rogers, "but I am hoping for a little more, though I will be satisfied with that much."

"As long as you are satisfied that it is all right, I am," said the Premier. And there the matter ended until at Calumet a wire was handed on to the train stating that the election of Mr. Glass in East Middlesex was assured by a substantial majority.

"I told you so," said Mr. Hazen to the Premier.

"What did I tell you?" said Mr. Rogers to Mr. Hazen, and then they resumed dinner.

At Lachute a message giving the

final result was handed aboard, and the matter was settled.

But it had an unexpected consequence. On the private car, in addition to the Prime Minister, the Minister of Public Works and the Minister of Marine and Fisheries, were Mrs. Borden and Mrs. Rogers. And, with that wisdom which characterizes the wise wives of busy men, they gave orders that their respective "Bobs" should go to bed, and the "Bobs" obeyed orders. The ladies knew that each of their husbands had hard work to do in Quebec, for the balance of the week; they had been told that there was a chance that there might be people who "must see the Ministers" when they arrived in Montreal, and so they issued their orders; and it was obeyed.

And Mr. Hazen, being left alone, without company, had no recourse but to go to bed also.

## KELLY ISN'T IRISH NAME, CAME FROM THE ISLE OF MAN

LONDON, Oct. 25.—Robert White, writing in the British Review, takes "Kelly's Directory" for Ireland and with its help attempts to prove how very non-Celtic Ireland really is. He even suspects that the great Kelly name is really not Celtic, but merely a late variant of the Norman Kevell, Kivelli, Cuelli. Further, to prove this vile suspicion he points out that men of this name are numerous in the Isle of Man, and do not draw their origin from Ireland, while Kivelli was a well known name of influential men in Ireland of the thirteenth century.

Getting back to his dictionary, he looks up Dublin and finds that in the North Circular road there are 155 residents of English and only fifty-one of Irish name. Leaving this residential district and passing to Grafton street, the principal business St., he finds 121 English names and only twenty-three Irish. The Celtic keepers of Grafton street, are a sixth of the whole. The same thing is found in every district.

As for the list of names of Dublin's 5,500 most prosperous inhabitants in 1907 he finds that less than 800 of them were Celts.

## SMUGGLE STILL FLOURISHES ON KENTISH COAST

LONDON, Oct. 25.—The capture of a small lugger with a cargo of contrabrand brandy and tobacco on the Kentish coast, and the issue of an admiralty notice warning sailors that some of their privileges will be curtailed unless the practice is stopped in the navy, are reminders that smuggling is still extensively carried on on the south coast.

Apart from the smuggling practised by sailors, there are lots of cargoes landed on the south coast without paying duty. The little town of Deal, half pilot station, half pleasure resort, forms the headquarters of the southern artist in contrabrand. Here, mixing with the law abiding crowds that come from London may be found the swartzy fishermen who are the successors of the smugglers whose feasts delighted the boys of a past generation.

The Deal smugglers do not sneak up back alleys, accosting strangers with the hint that the parcel they carry has never paid duty. Their profession consists in running the goods ashore; the subsequent disposal is for other hands. And for those who know their way about it is not difficult to get in touch with the sturdy relics of the romantic past. Their wares are mainly tobacco and spirits, though some lace comes through now and then.

In Eastern Kent the smuggled tobacco is in great demand. It comes in hard black cakes, exceedingly pungent, and seems to suit the local palate. To the unaccustomed stranger it is not pleasant to smoke, but many a Kentish man waits longingly for the arrival of the smuggler's cart with his fresh supply.

Quebec is to have one of the largest drydocks in the world.

## The Case For Forcing All The Workers To Become Unionmen

The labor case for compulsion is put with great plainness and force, and with an air of philosophical insight, by Mr. Curtis, Melbourne labor leader.

"It is upon organization that the highest civilization is built. Only through organization can the working class assert its place in human society, and they were logically called upon to extend and develop the things they believed to be right, and they must use it as a weapon in the economic battle."

"The Unionist was going to be a machine-gun, and they were not going to allow men who belonged to their side of the fighting line to serve as mercenaries in their opponents' armies. They must make it almost impossible for any man to be a non-unionist and still work. The path of progress for the worker was the path of regress for capital. In the task the working class had to perform in society, the non-unionist was a foe."

"What would you think of a citizen of Great Britain who, when war was declared, wanted to be a free agent and preserve his liberty by going over to fight for another country? A man owes his first responsibility to his own class. The non-unionist is an embarrassment to the progress of the working class movement, and must be put out of the road."

Canada's exhibit is a feature of the dry-farming congress exhibition at Tulsa, Oklahoma.

Quebec is to have one of the largest drydocks in the world.

## NEW CONVENIENT TRAIN TO WINNIPEG. CANADIAN PACIFIC.

The popularity of Canadian Pacific service, and the excellence of that road's equipment, has been so greatly appreciated by the travelling public that it has been found necessary to put into service an entirely new Through Standard Express Train between Toronto and Winnipeg.

Commencing Sunday, Oct. 27th, the "Gate City Express" will leave Toronto at 2:30 p.m. and will daily thereafter, arriving Winnipeg at 8:00 a.m. second morning. The train will consist of the highest-class modern equipment: Compartment Library Observation car, Standard Sleeping Cars, Tourist Sleeping Cars, Dining Car, First-Class Coach and Colonist Car. This will be found the most convenient and best train between Toronto and Winnipeg on account of the daylight departure from Toronto at an hour when the Union Station is not badly congested, and also on account of the early hour of arrival at Winnipeg.

The present "Vancouver Express" will continue to leave Toronto at 10:20 p.m. daily and will consist of the same equipment as the "Gate City Express." This train is the best to take for points west of Winnipeg, but for Winnipeg and east the "Gate City Express" is the right train to travel by.

Full particulars from any Canadian Pacific Agent or write M. G. Murphy, District Passenger Agent, Toronto.

## SAGE TEA PUTS LIFE AND COLOR IN HAIR

Sage Tea Puts Life and Color. Don't Stay Gray! It Darkens So Naturally that Nobody can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all without going to bed and falling hair toys.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. Agent, Geo. Bowles.

## OPENS UP NOSTRILS, CLEARS HEAD, ENDS COLDS OR CATARRH AT ONCE

Instantly Relieves Swollen, Inflamed Nose, Head, Throat—You Breathe Freely—Dull Headache Goes—Nasty Discharge Stops—Try "Ely's Cream Balm."

Get a small bottle anyway, just to try. It opens a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely, dullness and headache disappear. By morning the catarrh, cold in head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet fra-

grant balm dissolves by the heat of the nostrils, penetrates and heats the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head, stuffed nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings in the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

HURRY up with a bottle of Kuntz's Old German," said the man from New York. "It's worth a trip to Canada to get a drink of this corking brew. There's nothing like the "Old German" flavor in the United States, you know. Perhaps because the "Old German" process of brewing is so very costly. Anyway, you Canadians ought to feel proud of Kuntz's for brewing such a superb beverage. And I guess you are from the number I see drinking Kuntz's Old German.

CHRISTMAS OFFERINGS FOR HOUSEKEEPERS

Napery of Handsome Quality an Appreciated Present For Christmas.

Some Helpful Hints to Give at the Christmas Season.

Every housekeeper, whether in affluent or moderate circumstances, will appreciate a gift of napery at Christmas time, for the linen closet is never too full to suit the taste of the thrifty minded, and if that receptacle should overflow she makes space for the surplus.

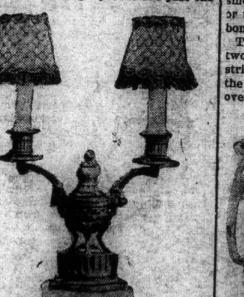

Give Her a Sewing Box. Easily constructed is a new model in workbags of the size that is nice to have about the table in the living room.

OF BRIGHT COLORED CRETONNE.

emery. The same sort of bag, but of a different shape, may be made by shaping the patchboard foundations into oblongs and running the sides of the sliken strip to their upper corners.

A Present to the House. The present to mother often means a gift to the whole household—that is, something that is enjoyed as much by the family as it is by the mother.

MAHOAGNY CANDELABRA.

thing for the living or dining room. The base, as you see, is an urn-shaped affair, and the branches curve out gracefully from the main stem.

A Novel Receptacle. Much neater looking than the waste paper basket is the new substitute for it—the scrap box with its big bow decorated lid swiveling on ribbon hinges.

WHAT TO GIVE MOTORIST.

Small Pillow an Excellent Gift For the Woman Who Takes Long Rides. A small pillow that she can use in the motor during the day when out of trips and at night as a head rest has been arranged by one girl who likes creature comforts and yet knows that small space for luggage is allowed her in the car.

AUTOMOBILE CUSHION.

sleep on. So finally she hit upon the plan of making her own leather cover so it would slip on and carried linen ones for night.

Buying two soft skins, she cut the same size suited to the cushion, adding an extra inch to turn under. On three sides, she stitched it, turning the four corners that those at the edge to be left open should be square and well shaped.

To avoid this she cut a flap four inches wide, the length of the case. This she basted inside across the open, making it serve as a wide tongue.

Then, basing her pattern on the size of the cushion, she cut the case of a inch of leather, she put the case of the machine and sewed it, using heavy twist, making the effect of a wide hem about the whole cushion. At each corner of the tongue she sewed a small hook and an eye to correspond on the inside of the case to hold the corners down when the case is in.

To close the two edges there were leather buttons and buttonholes. To slip the pillow into this was the work of only a moment, and the fastenings held it securely protected from dust. When she wanted to use it in the house she pushed the tongue out, the leather case put aside and the case of white linen substituted. For the fair motorist who is not so utilitarian in her tastes is designed the attractive cushion pictured. This comfortable head rest is smart if carried out in leather and stuffed in a conventional pattern in several shades of brown and yellow, or it is softer and more feminine when made from burip and embroidered in heavy rope silks.

Crocheted Purse Holder. Learn to weave, crochets into workbags. It's fascinating employment, and you'll find it a valuable art as Christmas approaches nearer and nearer and your pocketbook grows thinner and lighter, for these ribbon bags cost very little, and they make a wonderful showing for the amount of money expended upon their material.

The most effective bags are woven from ribbons of inch width in two colors or in two shades of a color, and to make a receptacle of moderate size these must be five and a half yards of each used. These strands are woven flatly, after the manner of a cheap splint basket, into a square measuring a few inches over a quarter yard.

When finished this woven piece is laid smoothly over a square of plain satin or tulle, and two of its sides are ribbed in order to prevent fraying. The square is then doubled once, the two ribbon bound sides stiffened with strips of whalebone and the tops of the lining and ribbon weaving sewed over a good sized embroidery ring.

RIBBON WOVEN WORKBAG.

which is kept in place by a second seam run close to the lower edge. Ribbons and a half yards of narrower ribbon, preferably matching the darker shade used for the weaving and shirred through its center, make a pretty finishing for the mouth and sides of the bag and cover in an Irish lace design. Two additional yards of ribbon are needed for the double hangers. The girl who is fond of crocheting will find the purse bag in the cut a delightful present for some of her friends. Most of the design, which is done in ressemblance to the Irish lace design as a border across the center of the bag. The bottom of the bag is finished with tassels alternating with lace motifs.

BLUNDERS OF ARTISTS.

Curious Examples in the Dome of the National Capitol.

In the dome of the capitol at Washington there are eight great paintings carefully designed and executed by the artists for the adornment of the nation's greatest building. Yet five of them are either defective in technique or in error as to natural or historical facts.

One of the best known pictures is that in which Washington is shown resigning his commission to the Continental congress. There are two young girls, almost life size, standing in the foreground. They are very pretty young girls, but one of them has three hands. One left hand rests on the shoulder of her companion; another left hand is round her companion's waist. Doubtless the artist Trumbull painted both hands to see which pose he preferred and then forgot to paint out the superfluous hand.

Diagonally across the rotunda in the painting of the baptism of Pocahontas. Sitting in the foreground is Opeacanoah, the uncle of Pocahontas. He is barefooted, and the artist has given him six toes on his left foot.

In the painting of the landing of Columbus, which used to be reproduced on the five dollar banknote, the artist has painted three flags. They are very well drawn, but one is blowing east, one west and one south, which indicates a very variable condition of the wind on that famous day.

In the picture of the surrender of Cornwallis General Washington is conspicuous seated upon a white horse. But General Washington was not present at the surrender. Cornwallis did not surrender his army in person, but sent a subordinate officer to do so. Accordingly Washington detailed an officer of corresponding rank to receive the surrender. It would have been a breach of military etiquette for Washington to be present.

The fifth picture, "Signing of the Declaration of Independence at Philadelphia on July 4, 1776," is wrong only in the title. The Declaration of Independence was adopted on July 4, but it was not signed by the members of the congress until Aug. 2, 1776—Youth's Companion.

No Use For Fresh Air. Old time doctors had no faith in the virtues of fresh air. Andrew Boorde in his "Compendyous Regyment or Dystary of Helth," published 1542, writes: "To bedward and also in the morning use to have a fire in your chamber, to warm your consume with vapours within the chamber, for the breath of man may purify the air within the chamber. In the night let of your chamber, be closed, let your nightcap be of scarlet, and this, I do advertise you, to cause to be made good thick quilt of cotton, or silk of pure flax or of clean wool, against the covering of it be of white tustan, and lay it on the feather bed that you do lie on."—London Chronicle.

Dead Easy. Two guests missed the first courses of a dinner at a suburban home, which had been arranged partly in their honor. Hand bags had been searched, distant homes called on the telephone for information, much nerve energy had been expended, all because the key to the trunk containing the necessary dinner raiment could not be found. Finally a locksmith from the town four miles away came by automobile, was led to the trunk, and in less than a minute the lid was turned back.

"Good work," said the maid. "Dead easy," said the locksmith; "the thing wasn't locked at all."—New York Tribune.

NO DRINKING MAN NEED DESPAIR

The Neal Cure—Greatest of All Modern Discoveries—Offers a Means of Escape from the Curse of Drink. A cure of the Drink Habit is Guaranteed in Three Days no Matter Whether the Patient is a Hard and Constant Drinker, Social Tippler or Goes on Occasional Spree.

There was wandering in the streets of Toronto lately a homeless man, who at one time held a splendid position, but drink was his downfall. To-day his wife, a cultured woman, works out by the day, endeavoring to support herself and little family. Think of it, you wives and mothers, who have homes of comfort and all that makes life worth living, what it would be to you to be deprived of these and forced to face the wash tub for an existence, as this poor wife has to do to-day?

But this home which was made a hell on earth through strong drink—as every drunkard's is—may be made into a heaven upon earth, as many have been made, as a result of the Neal Treatment. Three days only—the wonder of it—to effect a cure and make the victim of strong drink a new man, physically, morally and mentally.

We undertake to guarantee to effect a cure of the Drink Habit in Three Days, no matter whether the patient is a hard and constant drinker, social tippler or goes on occasional sprees. Are you interested in a poor fellow going down, down,

through the curse of drink? Then bring your infirmity to bear on him and bring him to the Neal Institute for treatment, drunk or sober, and we will undertake to acquire the awful appetite for strong drink and deliver him to you a new man.

Here is an opportunity for REFORMATION SOCIETIES for INEBRIATES or any institution for the reformation of the drunkard, to test our ability to change the hard drinker into a new man, physically and mentally, in THREE DAYS' treatment.

We invite these poor Societies of any institution interested in the poor drunkard and the problem of dealing with him, to send us for treatment any victim of the drink habit, it makes no difference how much enslaved, and we guarantee to effect a cure in each and every case. Can you spend your money to better advantage or in a way that will bring in greater returns than in redeeming these victims of strong drink and giving back to their families kind fathers, brothers, husbands, and to the country most desirable citizens?

United States Ambassador Is Warmly Greeted on His Arrival in German Capital

Dinner Given in Berlin for Mr. James W. Gerard by Mr. and Mrs. Joseph Clark Grew Attended by the British Ambassador and Danish Minister.

AMERICAN NAVAL ATTACHE ALSO ENTERTAINS

(Special Dispatch.) Bonaux, Oct. 25. MR. AND MRS. JOSEPH CLARK GREW were the hosts at the first official dinner given for the United States Ambassador, Mr. James W. Gerard. Among the guests were the Under Secretary of State, Herr Zimmermann; the British Ambassador, Sir Edward Goschen; the Danish Minister and Countess Moltke and Baroness Speck von Sternberg.

The party was augmented later in the evening by a number of guests who came in for dancing. Mr. and Mrs. Grew left for London on a short leave of absence to meet their children, who are returning from America. The United States Ambassador was the guest this week also of Lieutenant Commander Walter R. Gherardi, the United States naval attaché, who entertained at the Royal Automobile Club at dinner the Ambassador and his staff.

DR. ALLEN'S ART LECTURES. Dr. George H. Allen, director of the Berlin branch of the Bureau of University Travels, commenced his course of lectures on the Berlin museums. As in previous years, these art talks are attracting a large number of Americans who are preparing for touring tours in Italy and Greece.

MERCHANTS GREET AMBASSADOR. Officers and directors of the American Association of Commerce and Trade went yesterday in a body to the embassy to pay their official respects to the new ambassador. The party was composed of Mr. I. Wolf, Jr., Mr. W. A. Derrick, Mr. W. C. McCann, Mr. Hans Schmeffel, Mr. Richard Siering, Mr. George S. Atwood, Mr. Simon L. Bernheimer, Mr. W. E. Kuegmann, Mr. A. L. Peters, Mr. John G. Simon, Mr. A. C. Wilkie, Mr. Henry E. Schmidt, Dr. Schmidt, Mr. J. M. Daffron, Mr. Paul Koning and Dr. George A. Kuhler.

MISS HELEN McFADDEN gave a thirteenth anniversary party at a meeting of the Willard School, and the other hostesses of the week in American circles were Dr. Alice Luce, who is receiving for the first time since returning from a summer sojourn in America, and Mrs. Cleves Symmes and Mrs. Arthur Fickensher, of San Francisco, who had among their guests many well known musicians.

MUSIC AND ART. The German-American Society in large numbers responded to the invitation of Herr Fischer-Arenberg to participate in a musical and art view, the collection of his paintings. The host, who is well known in tennis and sporting circles, belongs to the team of the Berlin Hockey Club, which at present holds the European Championship. He has also achieved much distinction as a painter and his canvases have revealed a particular facility for landscapes and interiors.

UNIVERSITY RECTOR INDUCTED. On Wednesday the ceremony of handing over the title and insignia of rector magnificus of Berlin University to the new incumbent of the office took place in the large auditorium. This is a rotating and elective office and now passes from Count Bauffaïn, of the theological faculty, who is well known in the American educational world.

POOR NAT! A DOG HAS NO PRIVILEGES TO-DAY (Special Dispatch.) LONDON, Oct. 25. A DIRTY looking, unkempt, wire haired terrier got himself into trouble the other day for knocking a box of eggs off a stall in a shop and attempting to make a meal of them, and went off howling from a kick in the ribs. The unknown dog is now believed to be Nat, who disappeared from his home at Lancaster Gate Gardens some weeks ago.

Why Nat should have taken it into his head to leave a comfortable home and risk the prison cell by stealing eggs is more than his owners can comprehend. Nat's fondness for raw eggs is inherent, not acquired, and the fact that he assumed, of course, that it should be he should be obliged to steal them, points to his being in a very sorry plight.

SECOND THOUGHTS. Mrs. Jones remarked: "FULL STEAM AHEAD! (And) I WONDER WILL I LIVE THIS CONTRARY LITTLE DEVIL LOOSE. THE WAY HE'D COME BACK BY HIMSELF AFTERWARDS!" FROM PLUCKY.

Royal Bridal Couple Centre of Interest as They Begin Their Happy Honeymoon

(Special Dispatch.) LONDON, Oct. 25. THE royal wedding is having a far reaching effect on the autumn season, as it has brought in a way nothing else would have done many persons back to town much earlier than is customary, the assembling of royal personages being responsible. There will be a certain amount of official entertaining of the royal persons during the autumn, and these will be the guests at several private entertainments, and themselves in town.

CHANNEL TUNNEL HAS AN ADDED IMPETUS (Special Dispatch.) LONDON, Oct. 25. STRONG indorsement of the Channel tunnel scheme was heard at a meeting of the United Wards Club of London, before a large attendance in the pillar hall of the Cannon Street Hotel. Mr. H. S. A. Foy, treasurer of the "Entente Cordiale" and former president of the club, emphasized the advantages of the tunnel, and the debate that followed showed that his ideas had made a profound impression.

MISS HELEN McFADDEN gave a thirteenth anniversary party at a meeting of the Willard School, and the other hostesses of the week in American circles were Dr. Alice Luce, who is receiving for the first time since returning from a summer sojourn in America, and Mrs. Cleves Symmes and Mrs. Arthur Fickensher, of San Francisco, who had among their guests many well known musicians.

MUSIC AND ART. The German-American Society in large numbers responded to the invitation of Herr Fischer-Arenberg to participate in a musical and art view, the collection of his paintings. The host, who is well known in tennis and sporting circles, belongs to the team of the Berlin Hockey Club, which at present holds the European Championship. He has also achieved much distinction as a painter and his canvases have revealed a particular facility for landscapes and interiors.

UNIVERSITY RECTOR INDUCTED. On Wednesday the ceremony of handing over the title and insignia of rector magnificus of Berlin University to the new incumbent of the office took place in the large auditorium. This is a rotating and elective office and now passes from Count Bauffaïn, of the theological faculty, who is well known in the American educational world.

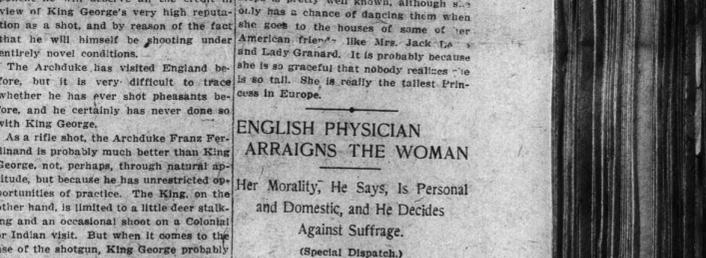

POOR NAT! A DOG HAS NO PRIVILEGES TO-DAY (Special Dispatch.) LONDON, Oct. 25. A DIRTY looking, unkempt, wire haired terrier got himself into trouble the other day for knocking a box of eggs off a stall in a shop and attempting to make a meal of them, and went off howling from a kick in the ribs. The unknown dog is now believed to be Nat, who disappeared from his home at Lancaster Gate Gardens some weeks ago.

Why Nat should have taken it into his head to leave a comfortable home and risk the prison cell by stealing eggs is more than his owners can comprehend. Nat's fondness for raw eggs is inherent, not acquired, and the fact that he assumed, of course, that it should be he should be obliged to steal them, points to his being in a very sorry plight.

Royal Bridal Couple Centre of Interest as They Begin Their Happy Honeymoon

(Special Dispatch.) LONDON, Oct. 25. THE royal wedding is having a far reaching effect on the autumn season, as it has brought in a way nothing else would have done many persons back to town much earlier than is customary, the assembling of royal personages being responsible. There will be a certain amount of official entertaining of the royal persons during the autumn, and these will be the guests at several private entertainments, and themselves in town.

(Special Dispatch.) LONDON, Oct. 25. THE King, who, as every one knows, is one of the keenest of sportsmen, and a remarkably good shot, will welcome at Windsor in November the Archduke Franz Ferdinand, the Austro-Hungarian Emperor's nephew, who is regarded as the best all-round shot anywhere. The Archduke proves the cleverer exponent he will deserve all the credit in view of King George's very high reputation as a shot, and by reason of the fact that he will himself be shooting under entirely novel conditions.

# TWELVE YEARS HORRIBLE TORTURE

## Ontario Lady Suffered Tortures for 12 Years with Burning Eczema. "Fruit-a-tives" and "Sootha-Salva" Completely Cured Her.

MISS LAURA E. MATTICE

NEWINGTON ONT., Jan. 22nd, 1913

"I was a dreadful sufferer from that awful complaint Eczema, or Salt Rheum, and this trouble bothered me for about 12 years. My hands and arms were chiefly attacked, and the pain and irritation were terrible. I consulted several doctors and tried every remedy I heard of, but nothing did me any good. Last June, when in Ottawa, a friend asked me to try 'Sootha-Salva' Ointment and to take 'Fruit-a-tives' at the same time. I had little hopes that this would be any better than the other remedies, but after I had taken two boxes of 'Fruit-a-tives' and used one box of 'Sootha-Salva', I was entirely cured and all the irritation and annoyance left me. My hands have been, ever since, perfectly free from the Salt Rheum, and I have had no return of the disease. I look upon the cure as wonderful, inasmuch as no physician was able to cure me, and I had tried every remedy that I had been told about, yet without the slightest benefit, until I used 'Sootha-Salva' Ointment and took 'Fruit-a-tives'. 'Fruit-a-tives' cooled the blood, and practically relieved the disease and the Ointment completed the cure. I cannot sufficiently thank the proprietors of these medicines for my relief and I make this statement with the hope that some sufferers from Chronic Eczema or Salt Rheum, will read my testimony and try this wonderful ointment and 'Fruit-a-tives', and get well. No one can estimate the torture of this terrible disease who has not suffered from it, and I want the good news, that a remedy has been found, to be known everywhere."

(Miss) LAURA E. MATTICE

"'Fruit-a-tives' and 'Sootha-Salva' will cure any case of Eczema, no matter how severe or how long you have suffered. Eczema is caused by impure blood, chronic indigestion, constipation and nervousness, but there is usually a tiny parasite or germ which attacks the skin and causes the burning and itching. 'Fruit-a-tives' removes all impurities from the blood, tones up the stomach, improves digestion, and regulates the bowels. 'Sootha-Salva' kills the germs of Eczema, allays the burning and inflammation, and stops the intense itching. If you are suffering with Eczema, no matter what you have tried for it, take the advice of Miss Mattice and use the wonderful combination of 'Fruit-a-tives' and 'Sootha-Salva'."

"'Fruit-a-tives' is sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c. 'Sootha-Salva' is 50c box. Sent on receipt of price by Fruit-a-tives Limited, Ottawa."

**Hysterics in Court**  
A painful scene was witnessed at Berwick police court, when Mrs. Wilkie, refreshment house keeper, was charged with selling refreshments during the time her premises ought to have been closed. The defendant, on entering the witness box, went into hysterics, and fell in a faint from the box. She was removed to an adjoining room, her cries being audible in the court. After evidence the case was dismissed.

**Discovery of Skulls**  
Some workmen of the Edinburgh corporation, while engaged in digging operations in St. Catharine's place, Sciennes road, Edinburgh, during the laying of a pipe, discovered four human skulls and a number of small bones. Two of the skulls were in a remarkably good state of preservation. There used to be a convent at this part of the city, and it is surmised that the place where the skulls were unearthed formed part of a burial ground in connection with it.

**Town Clerk on Football Crowds**  
In proposing the toast of the Imperial forces at the annual dinner of Wellerhoff Bowling Club, Glasgow, Mr. John Lindsay, the town clerk, made some striking remarks about football crowds. He said that about 90 per cent of a football crowd formed what might be called a mob of hysterical degenerates. He ventured to think that a big proportion of them could not tell who the Prime Minister was, or even the Lord Provost of Glasgow.

**He Did Well**  
Varsity won the Intercollegiate track championship yesterday afternoon at Irwin's Athletics grounds, Kingston. It scored 65 points. McGill was only a fair second with 39 points. Queen's scored 7 and Royal Military College 5.

Local athletes and friends will be glad to learn that Lloyd Moore, Varsity, won the half mile, while Raymond Hughes, Toronto, who has taken the half mile on several occasions, was in second place. White, Montreal, was third. The time was 2 min. 14.45 sec. The wind blowing down the track made the race fully 8 seconds slower than the Varsity boys were capable of making. Hughes made the pace, and when Moore took the lead 300 yards from the end, he had little difficulty in meeting White's challenge. Hughes came up when White was forced to slacken, and took an easy second. Moore was in the one and three mile events, but failed to make a showing. Lack of stay was responsible for Moore's loss in the last five yards of the eight furlong event. In the one mile Moore was in second place five yards out, but was nipped at the tape getting only fourth.

**COMBINATION OF COLORS IS WEIRD AND FANTASTIC**

LONDON, Oct. 25.—A startling innovation of blue, pink, orange and purple hair to match shoes and frocks, was seen at an exhibition of fashionable modistes this week. While tango music was played manikins paraded in fantastic new costumes.

One girl with violet eyes, wore a coat and skirt of violet chiffon, with moleskin fur dyed purple; a black velvet toque and an elaborate purple silk stockings and purple slippers. Another girl wore a green velvet evening gown, with green hair to match.

Many of the frocks had bell shaped tunics, reaching to the knee and wired at the bottom. The skirts were made as narrow as possible at the feet, but were slit in front.

Many society women now are wearing jewelled monacles.

## BEAUTIFUL GIRL IN A PIRATE LAIR; THEY ADORE MAID

### Queer Pacific Tale Brought in Very Faintly By Wireless.

HONOLULU, Oct. 25.—The government wireless brought a message which told the chapter headings and a few faint, tantalizing hints of a romance worthy of the pen of Robert Louis Stevenson, or of any one of the romancers who have exploited the wild tragedies of the swift and violent life of the South Sea Islands.

From the revenue cutter Keobak, Captain Tapham sends word that the chase he has been making for months after the pirate band of "black-birders" who for years have been terrorizing the smaller islands of the South Seas, has been successful. He has captured them to a man, after a hard struggle.

**A Beautiful Girl**

Among them to his amazement and anger he discovered a beautiful Spanish girl, Estelle D'Ortez, adored and cherished by the pirates amid scenes of murder and debauchery such as the civilized world cannot imagine.

Estelle has been with the band for ten years. She was five years old when she fell into the hands of the pirates. Her father was the captain of the training schooner Santa Maria, which sailed from Manila 10 years ago and went to the "port of missing ships."

**Her Father's Death**

She knows nothing of the fate of her father and the crew of the Santa Maria, but judging from the many atrocities which she has witnessed in the intervening years, she folds Captain Tapham that she believes they suffered a horrible death.

Captain Tapham will bring his 25 prisoners to San Francisco, where he expects to have them all hanged, as the evidence against them appears to be overwhelming.

By a strange irony of fate, Estelle D'Ortez, the one living human being to whom the pirates extended kindness and consideration, will be the chief witness against them.

## LATE W. T. STEAD MOST ORIGINAL MAN

"Stead, in the hey-day of his powers, was the most original man of his time," when expounding other men's ideas," says the Pall Mall Gazette, reviewing the "Personal and Spiritual Reminiscences" of W. T. Stead which his daughter Estelle has just published.

"With the true northern gifts of analysis and eloquence, he pierced to the heart of things and laid it bare unerringly."

"There is no saying what feats or surprises he still had in store for use if he had lived, and we shall always feel that half a dozen more like him, if they could be united and concentrated on one aim at a time, would transform the face of Europe."

**Always Interesting**

"Whatever else may be said about the late William T. Stead, it must be admitted that he possessed in a rare degree one invaluable quality—the quality of being interesting," says the Morning Post in one of the best of the reviews. "Misgiving, censure, antagonism, and distrust, he often aroused, and never took much trouble to avert; but yawns he never provoked. He was never dull. And the vividness with which he investigated everything that he undertook could hardly be reflected in any book about him."

"Matthew Arnold ascribed to Mr Stead the invention of 'The New Journalism,' and the ascription was not undeserved, for the introduction of the strong and dominating note of personality into the news of the day was undoubtedly Mr. Stead's work."

**Journalist and Evangelist**

"As a rule it may be said that journalism and evangelism do not mix very agreeably, but Mr Stead mixed them most unhesitatingly and most successfully. Though he was a journalist by instinct and profession, he was by temperament an evangelist, and he made his newspaper the medium of his message. A curious message it was too—One which combined the aspirations of Cecil Rhodes, Mr. Gladstone, Dr. Clifford, Lord Fisher, the Peace Society, Madame Blavatsky, and Mrs. Josephine Butler, and on every side of it Mr. Stead was equally fervent, and indefatigable. He once defined his policy as one of 'Peace, Woman, and Spirit,' but that definition leaves out of account his ardent imperialism, which was quite as real as any other article in his amazing creed, though it was the imperialism of responsibility as opposed to jingoism." His career, in fact, presents a record of sagacity mingled with creativity, of egotism mingled with self-sacrifice, of indisputable purpose mingled with perversity which it is bewildering to contemplate.

"It is characteristic of Mr. Stead that when he was a schoolboy he took part in a revival movement among his schoolfellows; and that, according to

his own account, his ideal and objective were fixed at the age of twenty. It is also characteristic of him that he should have stepped straight into editorialship when he entered journalism, and that without training or experience he should have been able to give character and influence to the Northern Echo, attracting the friendship of Madame Novikoff and the compliments of Mr. Gladstone. He relates of himself.

After 'left school' the Book of Proverbs influenced me most, and I remember when I was first started in editorship, reading all the Proverbs relating to Kings, as affording the best advice I could get anywhere as to the right discharge of editorial duties.

**A Power of £150 a Year.**

"But if the duties of kings and editors seemed commensurate, the emoluments can hardly have been so," says the Post, "for at this time (1876-8) when Mr. Stead conceived himself to be acting as Mr. Gladstone's lieutenant in keeping the North of England as far as possible immune from the jingo madness that raged and clamored for war with Russia, he was receiving a salary of £150 a year! But he was one of three Englishmen who received the thanks of the first Bulgarian assembly for the part they played in the cause of Bulgarian independence."

**He Joins John Morley**

"This young man of barely more than twenty, who had never looked to the pen for a living, took control of the Northern Echo. In his nine years' occupation he rendered inestimable service to Gladstone in his Bulgarian atrocity campaign, and gained the personal friendship of Freeman and Carlyle," says the Pall Mall Gazette, praising his acute discernment and made him known in the councils of London Liberalism, so that in 1882 he came to occupy the assistant editor's chair in this office, on its transfer from the Imperialist of Greenwood to the Liberalism of Mr. Morley. It was a strange chance that yoked the fastidious critic of French philosophy with an ardent lay evangelist from Yorkshire, but the newcomer supplied that passion for news and its treatment which Morley and even Greenwood had lacked, and the combination was one of the most powerful that journalism has known."

"Those who remember the Pall Mall Gazette under Mr. Stead's editorship will not need to be told why he did 'top it,' says the Post. 'He made it one of the most living forces in journalism.'"

"When he joined the Pall Mall in 1886 he made a memorandum of his journalistic creed, of which the first item was this—'Ideal to be aimed at—The Kingdom Come. Thy will be done on earth as it is in Heaven.'"

**Two Girls Stand in Post Holes**

NEW CASTLE, Pa., Oct. 25.—By standing in post holes in the rain nearly all of Tuesday and the greater part of Tuesday night, Misses Mary and Elizabeth Hamilton thwarted City Engineer C. E. Millolan and a large force of city employees who were bent on placing telephone poles in front of the Hamilton property by orders of the city council.

When the workmen stepped back preparatory to placing the first pole, Mary jumped into the hole and defied the men to put the pole of top of her. As soon as the second hole was dug, Elizabeth promptly dropped into it. At midnight, when the city employees departed, the young women hired laborers to fill the holes.

**DIES 51 YEARS AFTER COFFIN IS PURCHASED**

UTICA, Oct. 25.—Charles E. Page, 69 years old, and a native of Deansboro, Oneida county, has just died 51 years after his coffin was secured. Page was a soldier in the Civil War and was encamped with his regiment, the 117th New York volunteers, at Fort Alexander in the Fall of 1862, when he was taken seriously ill.

As one of the quartermasters' terms sent to Washington for supplies and Page's death seemed imminent, a requisition was made for his coffin. It was brought to camp and deposited near the tent in which the sick soldier lay.

"From that moment Page began to get better and when he knew about the coffin he declared that he would not die. There was no proper use for the coffin so Lieut. Colvin White utilized it as a feed box for his horse in camp. Page some years ago went from his home in this locality to Columbus, N. C., and there he passed away."

Berlin Conservatives have decided to organize a Borden Club.

## The Cash Intrigue

By George Randolph Chester (Copyright, 1909, by the Bobbs-Merrill Co.)

Pellman proffered a bill. "Telephone me to-morrow that I would like to see you."

"All right, sir," said the gatekeeper and turned slowly away; but he did not touch the money. He was some about five minutes. Dr. Zephan said that you may come up by the house," he announced upon his return.

Pellman frowned as the big gates swung open, admitting his limousine. At the door an almost dejected servant, not in livery, ushered him into a dimly lighted parlor, with heavy, possibly furniture, and crinkled with the everlasting dampness. There was a rustic of silk in the hall, and a girl of about twenty stopped for a moment in the door. She was of unusual beauty, dark haired and dark eyed, with a certain quick, lithe movement that told of nervous energy, some of the sort of outlet. For just a moment she stood, a startling figure in her semi-fitted house gown of wood brown silk; then she moved swiftly away, and her place in the doorway was taken by Dr. Zephan.

"Dr. Zephan?" asked Pellman, rising.

"I am, sir," replied the other, with a bare trace of foreign accent. "You wish to see Mr. Breed?"

"On a matter of the greatest importance."

"Impossible," declared the doctor. "It is not my orders, but his own, that no one be admitted on any pretext errand."

Pellman considered a few moments in silence.

"Is he able to talk at all?" he asked.

"Yes," admitted the other, and for a fleeting moment Pellman thought that he had detected a twinkle in Zephan's eye.

"Then I must see him," insisted Pellman. "We are in the throes of a national calamity!"

He held out to Zephan a copy of an afternoon paper, flaming with the terror of just war to put the screws on or of the withdrawal of currency from circulation, with dire prophecy for the future.

"Mr. Breed is in no fit condition to talk over such matters," said the doctor.

"He must be in condition," insisted Pellman. "Mr. Breed alone could stop this."

Zephan turned suddenly and strode to the door across the hall. "Come in," he invited.

Pellman followed him into a great dim library. Near the window, facing the fire, sat the remarkable man who by his ingenuity and enterprise had built up an enormous business in the world and who through it had gained control of not less than one-third of the capitalized industries of the United States. He breathed Pellman's name and gave him a limp, but cold hand.

"I supposed you had heard, Breed," began Pellman, "that a panic has broken loose today?"

Breed shook his head. "No, I had not," said he.

"It has. Today is but the mild beginning of it, but we fellows who have been through it know precisely what is to follow. By tomorrow the country will be crazy, and there is no telling where the ruin will end."

Breed merely nodded.

"The entire bond has gone down twenty points or more today. From the temper of the street I look for all stocks to make a new record."

Breed nodded. Pellman began to breathe hard, a sign that his temper was rising. He had been unable to arouse the slightest trace of interest in Breed.

"Central stocks have suffered more than any of them," he had said in this shot. "The central stocks had originated with Breed himself. To Pellman's intense disgust Breed only nodded as one who had heard a pleasing tale."

"Look here, Breed," exclaimed Pellman. "You are going to ruin all the business interests in the country. You are going to break banks, stop factories and cause untold misery, even starvation—wholesale starvation, worse than this country has ever known! What are you going to do about it?"

"Nothing," answered Breed. "It is none of my affair."

vanced to Breed.

"A wireless for you, sir," said he in a voice of so deep a range that it seemed to jar all the air in the room and set it quivering.

Breed glanced at the message almost indifferently and handed it back. "Tell him that there is to be no compromise with that firm, Blagg," he directed.

The wireless operator smiled grimly and turned away. As he stepped out the door the young woman Pellman had seen in the hall came in, accompanied by an elder woman. Pellman saw Blagg's eyes flame as they rested on the girl, and the man turned to look after her to the last as he closed the door.

The elder woman was rather stout, with her head thrown back in a general attitude of contempt. Pellman remembered her vaguely as a Mrs. Henselaker, one of the long since impoverished exquisites of old Manhattan, but still a power in the lower circles, and he fully wondered what she could be doing here. The girl came and stood behind Breed's chair, her hand resting lightly upon his shoulder, and stared at Pellman with frank impudence. Her attitude angered him.

"Breed!" he again commanded sharply.

"Well?" asked Breed sullenly.

"You must listen to me," insisted Pellman. "Half a dozen times under emergency you have come to the front and helped to smooth things out. Once you even saved the government. Now we have a worse condition than any that has ever confronted us, and the whole country is going to smash. The Stock Exchange will be swept out of existence before the week's end. There will be more bank failures than have ever occurred in the United States in any one year. Breed, you must do something. I am not going away from here until you do. Call off your assure dogs, announce to the public and go with us to bolster up the market."

Breed looked around him slowly, and his eye caught that of Dr. Zephan. "Take me away," said he. "I am tired, Lillian!"

Zephan stepped immediately to his side, took his arm and started toward the door on the other side of the fireplace, the girl supporting his other arm.

"Wait!" almost shrieked Pellman. "You are not so ill that you cannot talk this matter over. You were well enough just now to put the screws on some concern unlucky enough to be under your thumb. Listen to me!"

Breed only hastened his stumbling footsteps. Pellman strode after them, but just as they reached the door Dr. Zephan opened it, and the girl cast back at Pellman a glance of decision from her dark eyes. She took Breed into the room beyond, and as the door closed behind her she laughed an insolent laugh of amusement.

Zephan stood before the door. "I told you just how it would be," he declared. "The man is in no condition to talk business and must not be bothered again."

Pellman left the house fuming, and his ill humor was in no degree lessened when he saw two figures crossing the glade armed with golf sticks. They were some distance away, but he was sure they were the doctor and Henry Breed.

Overnight, merely from the impetus of their descent, stocks went down not less than fifty points. Every newspaper in the United States fairly dripped with sensational stories based upon the fact that there was no money in circulation. Banks guarded their cash reserves with a life and death desperation. Men who had been about to pay small bills kept the money in their pockets, and a universal stagnation set in. In another day arrangements were made in a dozen cities to issue clearing house certificates to take the place of money. In the meantime panic-mania had foreclosed its long overdue mortgage upon the New York Stock Exchange.

## Conservation of Country's Feathered Tribe Under Government Control to Prevent Ruthless Slaying

THE sport has its apoplexy in the recently enacted legislation under which the autumn shooting season comes this year for the first time under government control.

The federal authorities have arranged to conserve the bird population of the country; to afford sporting opportunities for the sportsmen; to curb the activities of pothunters and to prevent ruthless spoliation by those who kill birds for their plumage.

Just how this is being done is the subject of much inquiry these days. The Department of Agriculture in Washington, the stoves where sporting goods are sold and the newspaper offices are overwhelmed with questions. The new statute, popularly known as the McLean law, under which protection is given to both game and insectivorous birds, was passed to fill the coverts, to cause the meadow and the thicket to echo with avian song and to recognize the winged patrols as aids to husbandry.

Life had been hard for the fowls of the air for many a year before the coming of champions who in season and out of season plead for their right to live and multiply. There were few sanctuaries for the feathered tribe. Whichever birds took their flight they were likely to arrive in some State in which they could be lawfully slain.

The first great conspiracy against bird life was hatched in the early eighties, in this country, when there rose a demand for feathers and wings of all kinds. If the plumage had a little color only it was sought for hat trimmings. Then came the National Association of Audubon Societies, which by its crusades in various States awakened the public conscience. The present federal statute makes uniform regulations which have been in vogue in many of the commonwealths.

It was no unusual thing before the beginning of the agitation for the preservation of the birds for whose sections to be stripped of the feathered songsters within a few days. One taxidermist alone received an order for the skins of 10,000 dozen warblers. A change in fashion as confused by the glare, they often fly and restrictive legislation lessened this destruction at a point where many of the species were near extinction.

Then came the demand for the plumage of the heron, the egret, from which the cigarettes of the headgear of women are derived; the ibis, the tern and similar birds, and the plumes in the employ of the millinery houses started on their work of devastation.

In many States, under the Audubon law, the rookeries where these birds gather in the South have been protected. The killing of these birds in the breeding season, when the eggshells can be obtained, leave thousands of helpless young in their nests and their parents the stripped bodies of their parents.

The assurance that a clause will be inserted in the new tariff prohibiting the importation of plumage is regarded by the friends of bird protection as a strong weapon. It will have the effect, they think, of discouraging a fashion which they regard as founded on barbaric instincts by making it more difficult to obtain feathers at the cost of the extermination of a beautiful breed.

SOUGHT IN CEDAR GLADES AT NIGHT WITH LIGHTS, WHICH BLIND AND CONFUSE THEM.

Every effort is being made by the enforcement of the new laws to prevent the extinction of wild life through the work of devastation.

The new law provides for efficient conservation and at the same time aims to give to reasonable men the opportunity to go afield in quest of healthful and otherwise and the excitement of the chase. Under moderate restrictions, the frames of the law have taken the position that there is no reason why game should not flourish in the United States in abundance.

The law is aimed mainly at those of the Northern States who depend on woods and parks of non-game birds and against the negroes, the pot hunters and the plumes of Southern latitudes.

It is held that eventually the new regulations will be alike satisfied with its enforcement.

The man who goes shooting for the love of the tang of the autumn air, the exhilaration which comes from the success of skill and the enjoyment of nature itself is held that eventually the new regulations will be alike satisfied with its enforcement.

For the purposes of these regulations the following shall be considered migratory game birds:—Water fowl, including blant, wild ducks, geese and swans, cranes, including the whooping crane, sandhill and whooping crane, rails, including coots, mud hens, snipe and other shore birds; including curlew, dowitchers, godwits, oystercatchers, phalaropes, plovers, sandpipers, snipe, stilts, surf birds, turnstones, willets, woodcock and yellow legs; pigeons, including doves and wild pigeons.

The following shall be considered migratory insectivorous birds:—Bobolinks, catbirds, chickadees, cuckoos, flycatchers, grosbeaks, humming birds, kinglets, martins, meadow larks, night hawks or bullfinches, nuthatches, orioles, robins, shrikes, swallows, swifts, tanagers, titmice, thrushes, vireos, warblers, waxwings, whippoorwill, woodpeckers and wrens, and all other perching birds which feed entirely or chiefly upon insects.

### THE GATES OF LONDON IN BYGONE DAYS

In the periodicals of London for July 30, 1760, is to be found a small but interesting entry to the effect that on this day one Bladen, carpenter, of Coleman street, purchased the remains of Ludgate, Crispin Lane, and Aldgate for the respective sums of 214s, 29s, and 217 10s, on the understanding that they should be removed by the end of September.

Newgate was destroyed by the Gordon rioters in 1760, and so came to an end that series of the old gates which for centuries had provided ingress and egress to the free citizen of London.

According to Geoffrey of Monmouth, Ludgate was built by King Lud, B. C. 66, but this we may safely regard as legend, the origin of its name, as the word "Lud" is being decidedly the more feasible. It was rebuilt in 1215, and again in 1269, when it was adorned with images of King Lud and other British monarchs.

Following the wall in a northwesterly direction from Aldgate we come to Bishopsgate, which terminated the road from Cannon street, and is said to have been erected by and named after Bishop of London, the son of Offa, King of Mercia. It was rebuilt during the reign of Henry II, and again in 1473. At first the Bishop of London was responsible for the upkeep of this gate, but later the duty was undertaken by the Hanse merchants.

Condemns Athletic Girl.  
UNTIDY, crude and lacking in manners is the English athletic girl," according to Sir Thomas Holdich, who recently gave expression to some strong views on the use and abuse of sports on the occasion of the distribution of sports prizes at Princess Helena College, Ealing, as reported in the Daily Graphic.

"Nowadays," he said, "there is a tendency to mistake the means for the end. Games were meant to make one happy and strong and, incidentally, to teach one the value of good temper and courtesy. They are not, and never should be, the whole end and aim of one's existence.

The athletic girl, for instance, is not altogether worthy of imitation, for if she does not succeed in getting in the front rank she is too likely to show her disappointment.

New Jersey, Pennsylvania, Ohio, Indiana, Michigan, West Virginia and Wisconsin, on rails in California and Vermont and on woodcock in Illinois and Missouri.

For the purpose of providing sanctuary a closed season is also established for the migratory species passing over or resting on the waters of the main streams of the Mississippi, Ohio and Missouri rivers. The killing of birds on or over the shores of these rivers or at any point within their limits from boat or any floating device is strictly forbidden.

In Zone No. 1, the closed season for water fowl shall be between December 16 and the September 1 next following. There are exceptions, among which is mentioned New York outside of Long Island, which is from December 16 to September 16. The Long Island closed season is between January 16 and October 1. The closed season for woodcock in this zone is between December 1 and October 1 following.

The closed season on black breasted and golden plover, jack snipe or Wilson snipe, and greater and lesser yellow legs shall be between December 16 and September 1 next following, among the exceptions being that of New York State, when the closed season shall be from December 16 to September 16, exclusive of Long Island, where the closed season shall be from December 16 to August 1.

The regulations for Zone No. 2, in a general way are as follows, certain exceptions being granted:—Water fowl, January 1 to October 1; woodcock, January 1 to November 1; shore birds, December 16 to September 1 following.

Persons recommending changes in the regulations should be prepared to show the necessity for such action and submit evidence other than that based on reasons of personal convenience or desire to kill game during a longer open season.

There will be seen on an examination of the tables and bulletins furnished by the government that there is a general elimination or cutting down of spring shooting. This is done for the purpose of promoting the propagation of game birds especially. These regulations are subject to change, of course, in various localities, as surveys made by government experts may show that the number of birds has increased so under favorable conditions that there may be further shooting.

Novel provisions have been adopted in the laws of some of the States and the Canadian provinces in addition to the federal statutes. Ohio and Pennsylvania, for instance, now require persons who hold licenses to kill game, especially non-residents, to wear a badge, conspicuously exposed, bearing the number of his permit.

"Buck fever" has not as yet found any safe and certain antidote, and for that reason many of the commonwealths have legislated very heavily against the extermination of game and fowl. Many States require applicants to wear a white coat or sweater, and cap, and Saksatchewan demands that those who hunt big game must wear a complete outer side and cap of white.

In that province the penalty for "accidentally shooting" a person is \$500 or \$1,000 or imprisonment for six months and suspension of further license privileges for six years. Various American States have passed license laws for shooting or have made the requirements stricter for those laws which already exist. Refuges for game and birds have been set aside by executive order by the United States, including the entire chain of the Aleutian Islands off the coast of Alaska; Walker Lake, in the arkansas; Petit Bois Island, on the coast of Alabama; and Anaho Island, in Pyramid Lake, Nevada.

This bringing the total number of national bird reservations up to thirty-one. In the last year the National Bird Reservation has been enlarged, and to it have also been sent herds of buffalo, elk and deer. Funds have also been provided for the stocking and extension of the elk refuge in Wyoming. Eighteen States also created new game preserves in the last year. There is a tendency to give greater protection to big game, and several of the States have shortened the open seasons.

# MAXIM CLAIMS ALL NOISES TO BE ELIMINATED

## In a Year He Says That Boston Will be Noiseless City.

HARTFORD, Oct. 25.—In less than one year Hiram Percy Maxim, inventor of the Maxim gun silencer, is going to hush every unpleasant noise in Boston, New York, Chicago or any other place. The cars and trains will go on thundering, the wheels will rattle whistles will shriek, cries of hawkers and children will fill the streets, but you, sitting at home, in your office, in a railway train, or on the street cars, will hear none of this. The cars will neither rattle nor thunder. The streets will bear only dead silence to you.

It sounds Utopian—like one of the dreams of a Wells. It is a reality. Says It Is Possible.

Maxim, son of Hiram Maxim, the machine gun wizard, not only promises all this, but in his home, at No. 550 Prospect avenue, here, he has the device with which he has proved that it can be done.

In operations, effected by the mere pressure of an electric button, any single room or section of a room can be made absolutely proof against noise.

There is something almost uncanny about this wonderful silencer which in less than ten months from now, the inventor will demonstrate publicly by first installing it in the ward of a New York hospital.

The moment it is placed in this ward every outside noise heard there will cease.

**Secret Is Simple.**

The secret of the wizard's invention which is to hush the noise of the world, is simple. The human ear receives sound vibrations and distinguishes them as sound up to a rate of 30,000 per second. Beyond that rate of vibration there is no sound to the human ear.

The average vibrations of the street—the street hum or the street note—is low at about 450 vibrations. Mr. Maxim with his silencer, will accelerate the speed of these vibrations beyond the ear vibration speed limit. That carries them beyond the range of the ear drum! In other words you don't hear them at all.

A noiseless world! It is a large order—one of the biggest ever—but Hiram Percy Maxim is going to fill it. There is not the shadow of doubt in his mind that he can.

# Reminiscences of Brant

By An "Old Timer" Chapter VI.

The oldest congregation in Brantford is that of Grace Church.

For many years prior to 1830, Episcopians residing here used to worship in the old Mohawk Church on the then Indian reservation. Their Chief Brant, who was a consistent member of the Church of England, proposed that if the people of the then village of Brantford would construct an edifice, he would set apart a block of ground for the purpose. This offer was accepted and in 1837 the late A. K. Smith, and Mrs. Margaret Kerby also gave lots. In 1832 a frame church was erected on the present ground, and it accommodated about 400 people. Later on galleries were added, and in 1856, when more room was needed, the original portion of the present structure was put up. Many improvements have since been made. The choir used to be situated in a gallery at the rear of the building, but later it was moved to the present chancel where much of the volume of the singing is lost. The first rector was the Rev. James Campbell Usher, afterwards Canon Usher. Messrs Arthur and Tom Usher of this city are sons and Mrs. Locke Richardson of New York, a daughter. Canon Usher was an accomplished man and a most able divine. He was succeeded by Rev. Arthur Sweetman, who filled the position for two years and later became Bishop of Toronto. He in turn was followed by Rev. Reginald H. Starr, now of New York, and after three years he was succeeded in 1870 by Ven. Archdeacon Mackenzie, who for thirty-four years has been such an outstanding member of this community—a man who has rightly earned and maintained universal respect and esteem. The first church wardens were the late Thos. Botham, and Charles S. Mason. It is not usual to relate amusing incidents in connection with a church, but two or three may not be out of place.

On one occasion when the late Hugh Jones was one of the church wardens, a rooster one hot summer day wandered in by a side door which used to be at the end facing on West street. After the manner of his kind, with majestic strut he finally landed in the chancel, when Mr. Jones essayed his capture. Said gentleman was very stout, and the bird very illusive. The catch as catch can tussle which ensued before a capture was effected, will never be forgotten by those present. On another occasion the lights went out just as the congregation had very appropriately commenced to sing the hymn, "Lead Kindly Light Amid the Encircling Gloom." The late Mr. Dymond, then principal of the Institution for the Blind, was a very active church

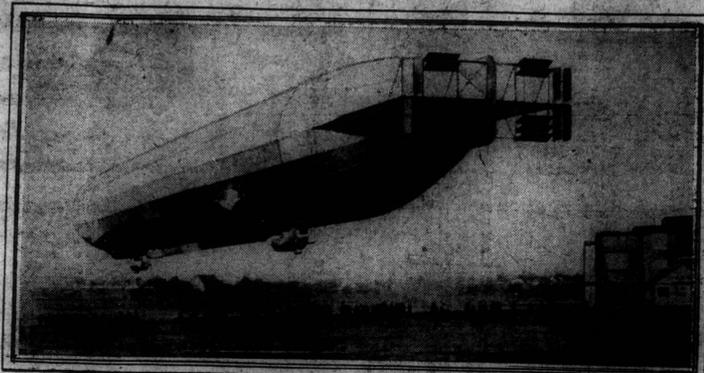

worker, and used to read the lessons. Now Mr. Dymond, at one time, was a member of the Dominion House, and had a seat in the Commons Chamber underneath the press gallery. One of the scribes in that coming tower had a habit of shaking his pen over the edge of the gallery after he had dipped it in the ink, and Mr. Dymond got the full shower. He stood it until his bald head looked like an amateur war map when he exploded in righteous indignation and ink was tabooed from the gallery. This story was printed in The Courier one Saturday, and on the ensuing Sunday, after Mr. Dymond had read the second lesson, the hymn was sung, with the line "Let some droppings fall on me; even me." The members of the congregation were certainly to be pardoned for the broad smiles to be seen on most faces.

Archdeacon Mackenzie, although in his 77th year, is still the active head of his large parish, and has helped other churches to spring therefrom. His tall figure, still upright, in spite of his years, is to be frequently seen as he goes about his duties, and only kindness and comforting words during periods of trouble and bereavement, can realize the deep extent of his ever kindly nature. He is a splendid preacher, and most effective when he deals with strictly evangelical themes. That he may yet long be spared, is the earnest and the sincere hope of all classes.

### How Brantford Was Duped.

In the long time ago some wags in the City of Hamilton, put one over on this good burgh in a most complete manner. A gentleman named Charlie McCullough, was the prime mover in the scheme, and some of those who got "done," will be pained to hear that he is still alive and flourishing. The thing started with a communication to the Farringdon Debating Society of which Mr. J. J. Hurley, was then president, stating that a distinguished British scientist named Sir Richard Allan, was in the Ambitious City and they thought it would be too bad to let him go out of Canada without visiting Brantford and delivering one of his notable addresses, which for many years had been the talk of the scientific world. Did the Farringdonites bite? Well, did they—swallowed not only the bait, but the hook, the line and the rod as well. Great were the preparations. A grand dinner was arranged at Ben Foster's restaurant, which stood on the corner where the Bank of Commerce is now located, and the cost was amply amply repaid; in fact kept some of the young

# THE ZEPPELIN AIRSHIP, WHICH BURST, KILLING TWENTY-SIX

The explosion of nearly a ton of gasoline fuel in the central "gondola" of the new Zeppelin dirigible battle ship of the air, "L-2," while she was 900 feet above the earth at the Johannistal aerodrome, near the German capital, killed twenty-six of the twenty-seven men who were making the test flight in the new monster, mortally injured the other and reduced to wreckage the formidable air cruiser upon which all Germany was pinning its hopes for the supremacy of the air.

No more appalling disaster of the air has ever occurred since man first learned to fly. This was a twentieth century disaster. For when the great white shape floating serenely in the sky and churning its way toward nearby Berlin at a forty-mile rate was suddenly rent asunder by a succession of blinding flashes nearly a dozen aeroplanes were darting about the vault of the sky like swallows surrounding a condor.

members short of change for a couple of weeks. In short the thing was done up brown, but not nearly so much so as the innocent Brantford hosts. A date was arranged subject to Sir Richard's esteemed convenience and one of the members fought that nothing less than four horses would do to haul the carriage of the distinguished knight. Others suggested the dragging of the vehicle with ropes, as was done shortly before when Sir John Macdonald, then Premier, visited the city. Still others urged a band, however, matters were finally compromised on the basis of a landau and a pair of spanking horses, and it was distinctly stipulated that the driver must wear a brand new and not a cast off top hat. So many wanted to greet the guest on his arrival at the depot that it was decided to let them all go and there was quite a corner on the local kid glove market, and many borrowings of dress suits. There was plenty of tip to expectancy as the train pulled in and when Sir Richard alighted and had been introduced, one Farringdonite remarked to a Hamilton man that Allan was very red faced.

"Port wine, my boy," returned the other. "Those English baronets are buggars for that." But his hands were very rough. "Noted ecologists," returned the jollier. "Follows that game as a pastime in addition to his laboratory and other work." It was noticed that the Ambitious City gang kept pretty close to their charge, but the Brantfordites couldn't make out the reason then. They did later. The rich spread over the toast of the noted guest of the evening was solemnly proposed and enthusiastically received. That when Sir Richard arose manuscript in hand there was a most renewed applause. The man who composed that address was not only a bird, but a whole flock of them. Such words as Pachydactylus, Ichthyosaurus, and so on were a mere incident. Sir Richard got into trouble right at the very first line and his pronunciation of even well known words was such that many in the audience began to think that they had not been taught the English language in a proper manner. Finally the unpleasant truth commenced to dawn upon them that they had been hoaxed, and flummoxed and hocus pocussed right up to the mast head and then some. For a few moments there was hesitancy between anger and laughter. That when Sir Richard and the fooled ones took the joke at their own expense in a good natured way, "Allan" was a shoemaker in Hamilton with whom certain young men used to have all kinds of fun as he took himself seriously.

**Chapter I.**

Billy Zowie was second substitute quarter on the Yaleward eleven. The day of the big game had arrived, and his Jane was in the stand, waving a big green and yellow flag. She had agreed to marry him if Bill won the game.

**Chapter II.**

The regular quarter and his first substitute both had their cars badly dislocated in the third quarter with the score 4 to 0 against Yaleward and the ball on the 10-yard line.

**Chapter III.**

It was Bill's chance. He was called in to save the day in the final quarter. He promptly muffed two punts, missed four easy tackles, and balled up seven plays, leaving the score 34 to 0 against Yaleward at the finish.

**Chapter IV.**

With the exclamation, "My Hero!" a fair girl, still waving a green and yellow banner, dashed at Bill as the game was over and, dropping said banner, embraced him and wept. When she saw Bill chasing five blocks over his own goal line at one time or another it looked to be a cinch that he belonged. She wasn't quite certain who had won, and Bill was too tired to tell her.—Grantland Rice, in Colliers.

## The Second Substitute

(A football fiction story as it is—not as it is written.)

**Chapter I.**

Billy Zowie was second substitute quarter on the Yaleward eleven. The day of the big game had arrived, and his Jane was in the stand, waving a big green and yellow flag. She had agreed to marry him if Bill won the game.

**Chapter II.**

The regular quarter and his first substitute both had their cars badly dislocated in the third quarter with the score 4 to 0 against Yaleward and the ball on the 10-yard line.

**Chapter III.**

It was Bill's chance. He was called in to save the day in the final quarter. He promptly muffed two punts, missed four easy tackles, and balled up seven plays, leaving the score 34 to 0 against Yaleward at the finish.

# 5000 Miles to Learn the "New Kinks" in Laundry Work

THE industry with the third largest pay-roll on the Continent is holding a convention in New Orleans next week—when the Laundrymen's National Association of America get together to report progress, discuss new policies and exchange discoveries and ideas. Our Manager, Mr. Garry Pickles, will travel 5000 miles in order to be there.

## What We Hope to Learn

This convention is a great clearing house of ideas. What one man has learned during the year he passes on to the rest.

At the last, for instance, we learned how to keep the back buttonhole in men's shirts from sticking together. A small thing, perhaps, but, as in all others, perfection in laundering is the sum total of many small trifles.

So we go this year expecting that additions to our knowledge, increase in our skill and improvements in our service will accrue as a result. And you will profit thereby, of course.

## The Men We'll Meet

The delegates at this convention will represent the industry which is third in the list of the great wage-payers—and ranks seventh in turnover. So you see the business is important not only in the intimate personal sense as you meet it—but also like steel-making and railroading in the number of livelihoods it provides and the chances for increasing efficiency.

Looking to the latter, there has been arranged a great exhibition of all the latest appliances and inventions connected with our work.

## Our Present Standards

The plant we have here now is distinctive in having the best of present-day equipment. We have spared no expense in making our service

worthy of your patronage—whether you happen to be a "bach" with only your personal linen to look after—or a housewife, whose laundry work is one of the big weekly problems.

## Like Rain Water

For instance, we filter and soften every drop of water we use—and your clothes are washed in water as clear as crystal and as soft as rain water, nothing being used of an injurious nature in treating the same.

## \$14,000 for Real Skill

Our helpers here are well paid, healthy and normal happy folk, who earn over \$14,000 a year. Every pound of starch—every ounce of every kind of material we use—is the best and purest that money can buy. Is it any wonder we manage to make our work speak so clearly of care and quality?

## Come See Us Do Your Wash.

Our plant is always open to inspection—and there's no better way to learn how laundry work should be done than to come and watch us some day.

You'll be welcome—and if you come in after Mr. Pickles' return from New Orleans we'll have some interesting new stunts to show, "sure as shooting."

**A WONDERFUL COLD CURE.**

Just think of it, a cold cured in ten minutes—that's what happens when you use "Cold Relief." Not only does its soothing balsams and out gases the cold—sniffles are cured—headache is cured—symptoms of catarrh and grippe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhzone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, cough and catarrh it's a marvel. Safe even for children. 25c. and \$1.00 sizes at all dealers.

# When You Sit Down To Read This Paper

You want, first of all, a good clear white light, to protect your eyes and make your reading comfortable.

If you burn gas, possibly after the long summer months your lights are in poor condition, mantles and glassware broken, burners defective, and a general fixing-up is required.

If you burn electricity, and are still using the old-fashioned carbon lamps, our Bergman Tungsten Lamps will give you three times the light on the same consumption of electricity.

The dark evenings are here—fix up your lighting system. Visit our showroom, or phone us, and get anything in the lighting line delivered to you quick.

# MR. BALLANTRAE'S DECESS

## Prominent Brantford to His Last Rest Place.

## Was Leading Member of St. John's Anglican Church.

It is with very great regret the Courier records the death of Robert G. Ballantrae, a citizen well known and a leader of West Brantford. He who celebrated his sixtieth birthday in August, was up and around as Thursday last, when he upon urtic trouble, he was with pneumonia, and despite affectionate care and medication could do, he fell asleep Sunday morning.

He was born in Brantford parentage, and he possessed marked extent the quick ready laugh and the cheerfulness so eminently characteristic of the Emerald Isle. Wherever his presence acted as a tonic and one of his calling pipes in this office, where he was always welcome, as indeed he was where else.

In politics he was a staunch conservative—none more so than—and he did valuable work party. He possessed a very pride in his city, and in the and his kindly deeds were numerous and continuous. He took a part in municipal affairs, especially as they affected his of the community. "Brooklyn used to term it, and he was time an efficient member of school board, but above and all his outstanding character were his great devotion to his and to his church. An ardent valued member of Grace Church many years, it used to be his drive. Archdeacon Mackenzie mission to mission at the per such existed as portions of the activities of the parish. The the needs called for a separate in West Brantford, he was the foremost in securing the of St. John's and in its after tenance. He was for many church warden, and in fact an edifice almost his second his successful business as a painter and decorator, he had a high record for and he whole souled interest in truth he did in all walks. He leaves to mourn his loss a great loss, a widow and two both of this city, Robert H. tyne, and William Ballantrae, tender thoughts of very man with them in this great sorrow.

At St. John's yesterday an sadness brooded over the for the deceased was much by the members. Rev. Mr. S spoke of the great loss susta the passing away of a faithful ant and one of the best and active members. His two hymns were sung, "Far over Lord," and "Lead Kindly L." In Grace Church, Rev. M. announced the demise of "a old friend." One very promi the parish until his activities transferred to St. John's.

Thus there has passed to ward a fond husband and faithful citizen, and a loyal man. In paying this tribute memory, this paper does so keen sense of the loss of a old friend.

## Archbishop Deplores

Canadian Press Despatch. MONTREAL, Oct. 27.—To go and other kindred dance some of the costumes worn yesterday morning by Archbishop, in the course of a at St. Viateur's Church. The bishop said: "Let the Christian virtues your homes. Modesty in dress withering away with some. What is alarming, is not that it is appearing in places where it is never dared to show. Vice has ventured beyond its tomed haunts into the strong Christian homes. "Even the most enthusiastic cannot shut his eyes to the get," the most barefaced cannot explain our shame
