# How to Judge Values

WHEN you select a type of shoe which pleases you, you will probably find that it is made in different grades and different leathers—selling at different prices. But if the shoe is stamped with a maker's name which you know, you may be sure of good value for your money no matter what grade you decide upon.

Go to a dealer in whom you have confidence, and look for the manufacturer's trade mark on the shoes you buy. The dealer's advice and judgment will be of great assistance to you, and he will see that the shoes you select are properly fitted, so that you will get full service value from them. The manufacturer's trade mark is your best assurance of high quality in material and workmanship, for the manufacturer's business reputation is behind it. Our booklet "How to Buy Shoes" will be sent with our compliments to any address in Canada, upon request to our head office at Montreal."

### Daylight Saving.

DEAR SIR, - We all have been read DEAR SIR.—We all have been reading lately a great deal about the
scheme of Daylight-Saving. While
many persons favor the scheme and
think it is all right, yet many others
of ject to it. The farmers of Canada
seem strongly opposed to it. They
more than any other class, are as k.

ling the biggest kick and most noise Now, I am astonished at them an also asbamed. I am an old farmer and also ashamed, I am an old farmer and adopted last year the Daylight Saving time and liked it fine. I think it is best to have all clocks as like as to. time. In having time we should not look too much at the clock, but be governed by the sun. This is my practice—to work with the hay in bright days till sunset and after. It see have a man or men hired by the day during baying, to arrange with him accordingly and give him him supper.
