The copy filmed here has been reproduced thanks to the generosity of:

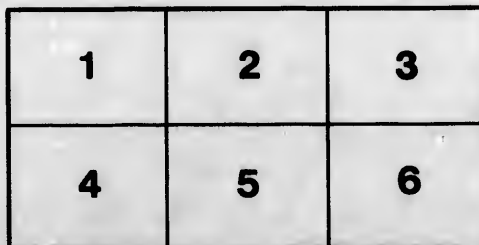

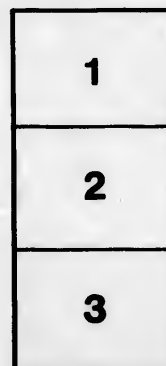

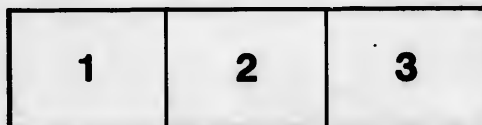

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

POST OFFICE.

33

The following are excluded from the reduced rate: Legal documents, stamps or forms of prepayment, whether obliterated or not, as well as all printed articles, constituting the representative sign of monetary value.

Packages of miscellaneous matter are limited in size to 24 inches in length and 12 inches in width or depth, and to the weight of 4 lbs. for Newfoundland and Canada, except for Manitoba, British Columbia and the new Western Provinces, for which the limit is 35 oz. However, packages of 4 lbs. may also be sent to Winnipeg. The weight of packages of seeds, cuttings, bulbs, roots, scions or grafts for the United States is limited to 8 oz.

Books and packages for Manitoba (except Winnipeg,) British Columbia and the new Western Provinces, must not exceed 35 oz. in weight; the limit of weight for Winnipeg and the other parts of the Dominion is 5 lbs.

Post Bands with an impressed 1 cent stamp for this purpose, may be obtained at any stamp agency, at the rate of four for 5 cents.

The term "printed circulars" is extended to include circulars produced by the electric pen or other mechanical process, easy of recognition by the officers of the Post Office, as well as when printed by the ordinary processes of printing type or lithography.

USEFUL HINTS.

Register all valuable letters and use sealing wax for letters containing money.

Transmit money by Money Orders.

Make complaints and inquiries in writing.

Preserve and request correspondents to preserve envelopes of mis-sent or delayed letters.

Send to the Postmaster envelopes of letters about which you seek information or make complaint.

Business men should be careful to authorize but a limited number of persons to receive their letters, and only those in whom they have full confidence.

A letter or packet once posted becomes the property of the person to whom addressed, and must be forwarded to its destination. On no application, however urgent, can it be delivered back to the writer. Business men are requested not to ask for the return of letters posted by mistake or otherwise.

Letters addressed to initials or fictitious names cannot be delivered, but will be returned to the writer through the Dead Letter Office, unless the address contains a designated place of delivery: thus, a letter addressed to A. B., Post Office, Montreal, would be returned to the writer, but a letter addressed to A. B., care of John Jones, box 871, or No. 1500 St. Catherine Street, would be delivered at the address designated.

MONEY ORDER AND SAVINGS BANK.

In sending money by mail it is always best to transmit by Money Order, if possible. If sent by letter, it should always be registered.

SUPPLIED TO THE ROYAL NURSERIES.

THE MOST
PERFECT
SUBSTITUTE
FOR
MOTHERS'
MILK.

The Highest amount of Nourishment in the Most Digestible and Convenient form.

THE ONLY FOOD SPECIALLY PREPARED FOR INFANTS.

"The Adult CANNOT thrive on the Milk provided for the Infant, while the food adapted for Adults MUST be too strong for Babes."

Abounding in FLESH-FORMING and BONE-FORMING substances, this Food perfectly fulfills its object, whereas other so-called Foods, such as Corn Flours, being entirely devoid of nourishing properties, induce a rickety and idiotic condition. It is also carefully freed from the ground husks of the wheat, which cause irritation of the bowels, diarrhoea, &c.

CAUTION.—A Genuine Food should not contain an excess of sugar, nor be too palpably sweet. Such Foods may be palatable, but they are also pernicious. For this reason so-called Milk Foods, Condensed Milks, &c., are prejudicial to the health of Infants, from the large proportion of beet sugar they contain, rendering them utterly unlike the article they are supposed to represent, viz: MOTHERS' MILK.

TINS, 1s., 2s., 5s., 10s.

Asthma, Difficult Breathing, &c.

DATURA TATULA INHALATIONS

Afford the most prompt and effectual Relief.

Spasmodic Asthma, as well as the milder forms of the disease, and other complaints attended with short and difficult breathing, loss of rest, &c., quickly yield to the soothing influence of the fumes of Datura Tatula, and painful paroxysms are either averted or quickly subdued by its use in either of the following forms:—

Cigars and Cigarettes:—Boxes 3s., 8s., 15s. Pastilles and Powder.

(For Non-Smoker's use):—Boxes 2s. 6d., 5s., 10s. For use as Tobacco:—Tins. 2s. 6d., 5s., 10s., 13s.

THE SPECIAL NUTRIMENT,
PANCREATIC EMULSION,
IN CONSUMPTION,

Loss of Weight, Loss of Power to Digest and Assimilate Food
and especially Fat.

"FAT IS ONE OF THE MOST ESSENTIAL ELEMENTS OF HEALTH."

Dr. Dobell on Loss of Weight, Lung Disease, &c.

PANCREATIC EMULSION of Solid Fat "supplies the system with what it most wants, a large amount of nourishment with the least amount of digestive labour and in a form most easily assimilated."

PANCREATIC EMULSION has been in extensive use for the last 20 years at the ROYAL HOSPITAL for DISEASES of the CHEST, LONDON, and also at many similar Public Institutions in London and the Country, as well as in private practice in all parts of the world.

"From 1863 to 1872, at the ROYAL HOSPITAL alone, I prescribed the Emulsion in more than 6,000 cases. Happily, to my own experience may now be added that of thousands of my professional brethren in different parts of the world, by whom PANCREATIC EMULSION and Pancreature are daily prescribed, and from whom I constantly receive testimony of their value."—
DR. DOBELL, *Senior Physician, Royal Hospital, &c.*

"If we are to give a fair chance of recovery to a patient deprived of the natural powers of digesting and assimilating fats, we must secure that two ounces of *solid fat* are utilised every day for the purposes of nutrition."—*The Chemist and Druggist.*

"The importance of PANCREATIC EMULSION of *solid fat* over Cod Liver Oil in the treatment of consumption must be as great as that of supplying a plant with good soil instead of putting it into water."—DR. KINKEAD, *Lic. Univ. Dublin.*

"We have lately seen a young lady who has been taking PANCREATIC EMULSION for months, and while doing so she has been changed from a thin, nervous, desponding creature, into a plump, tolerably robust and cheerful woman."—*Dublin Quarterly Journal of Medical Science.*

"Considering how largely PANCREATIC EMULSION is now used in the wasting diseases of adults, it is not surprising that scarcely a week passes but general practitioners relate cases of its success in the wasting of delicate children. Certainly, of all the satisfactory effects of PANCREATIC EMULSION, none equal the almost magical recoveries of some of these children."—*The Practitioner, London.*

THE  LIFE ASSURANCE COMPANY OF CANADA

ASSETS, \$1,200,000

THOMAS WORKMAN, ESQ., PRESIDENT.
E. MACAULAY, MANAGING DIRECTOR.

Advise in the SUN LIFE! Why? Because.

- 1.—The Sun is a Home Company, investing all its funds in Canada and has thus a special claim on Canadian Assured.
- 2.—It is a strong and prosperous Company with large and well invested assets.
- 3.—Its rates are low and its profits to Policy-holders large and equitable.
- 4.—The Sun alone issues an absolutely Unconditional Policy. Great care is taken in the selection of risks, but when a Policy is once issued, the money is paid on simple proof of the death of the Assured, no matter how, or when, or where. The only condition is the payment of premiums.
- 5.—The Sun has not one Contested or Disputed Claim on its Books.

FEATURES OF PAST YEARS.

The progress made by the Company in the Life Department during the last ten years, may be seen from the following statement:—
