The Duty on Wheat and the Canadian Pacific

Here are some interesting facts which The World presents to the Canadian people: The price of wheat (of the class of our western wheat) is higher in the States than in Canada.

With free entry into the States, and we can get it by withdrawing our duty on wheat—our farmers will get higher prices and lower freights. As long as we keep on the duty, the Canadian Pacific Railway is master of the situation, and it is master of the freights.

MODERN BLUEBEARD CONFESSES TO KILLING FOURTEEN PEOPLE AND WOULD HAVE KILLED MORE

Ex-Convict, Without Emotion, Tells of Murdering Two of His Four Wives, Seven Other Women, Two Policemen and Three Business Men.

(Special to The Toronto World.) CHICAGO, Oct. 5.—A man variously known as "Henry Spencer," "Skupala" and "Joseph Burke," an ex-convict, who was arrested last night, made a confession this evening to the police that he had killed Mrs. Mildred Allison, a dancing teacher, whose dead body was found near Wayne, a suburb, for whose murder her husband has been held in jail for ten days.

Traveling at a fast speed thru the water, the "Rambler," a launch owned and driven by E. Gleason of East Toronto, struck one of the sunken piers of the old wharf, just opposite the Exhibition grounds, at 9.30 Saturday night, and a party of six had barely time to make for land and scramble out of the sinking boat to safety.

NATIONAL FISCAL POLICY IS RESCUED

From the Grip of Privilege, Says the London Daily Mail, and Passage of New Tariff Bill Proves That the People Really Do Rule.

LONDON, Oct. 6.—(Can. Press.)—The Daily Mail in an editorial this morning thinks that both the American people, who anticipate a reduction in the high post of living from the new tariff act, and British manufacturers who imagine that it will open fresh and profitable markets for their goods, are alike destined to be disappointed, because customs duties are only one of the complex factors affecting prices, and the duties will still be generally high enough to preserve the bulk of the home market to American manufacturers.

THE PASSAGE OF THE BILL, HOWEVER, adds the paper, "has rescued the national fiscal policy from the grip of privilege, and proves that at times the people really do rule."

THE UNIONIST MORNING PAPERS, commenting on the signing of the tariff bill, takes pains to explain, as The Morning Post phrases it, "that it is absurd to pretend that the Democratic policy has any connection with the tenets of Cobdenism," but are in full agreement with the Liberal organs in ascribing the success of the passage of the bill to the skill of President Wilson.

MAY BE DANGEROUS. The Post expresses apprehension that President Wilson's very success may be dangerous for the Democratic party, since it may lead him to drive the Democratic legislators too hard and thereby provoke a temper that would destroy the good understanding between himself and congress.

THE DAILY TELEGRAPH says: "President Wilson has played a winning game with a force and brilliancy which have won for him a reputation more solid than any popularity enjoyed by an American statesman for fifty years past."

ALBANY, N.Y., Oct. 5.—(Can. Press.)—Out of a mass of rumors, denials and contradictions today regarding the Sulzer impeachment trial, there came this one confirmed piece of news: Counsel for the governor will be ready to proceed with their case when court convenes tomorrow. No further adjournment will be asked.

ASQUITH AFRAID TO GO TO PEOPLE

Home Rule Would Be Defeated by Force of Public Opinion.

SAYS ARTHUR BALFOUR

But Not the Man Whom Bonar Law Succeeded at Westminster.

The big labor troubles which now have England in a state of turmoil are to be followed by a serious trade depression on the British Isles, according to Arthur Balfour, the managing director of Seehorn and Dick-stahl, Limited, steel manufacturers of Sheffield, Eng., who was in Toronto yesterday on his way to the Pacific coast. He is a man of very strong personality and achieved the post he now occupies from a minor position which he entered with the firm when but fourteen years of age. He is president of the Sheffield Society of Engineers and Metallurgists, is vice-president for Denmark, has published a treatise on the Manchester docks, and has been translated into French, German, Russian, Italian, Spanish, Japanese and Chinese.

Mr. Balfour expressed the belief that the present conditions of labor in England could be laid almost directly to the interlocking of the Asquith government in interfering in labor disputes. He said that he had obtained the idea that it was only necessary to declare a strike on the government and would jump the government in the number of men required, and with much unemployment and general suffering as a consequence the strike would alms down and gradually die out.

Referring to the question of home rule for Ireland, he said that the British government would be forced to go to the people on it, and that they would go down to a bad defeat. The government realized that an election meant the strife would be over and the present agitation was leading to a demand for self-government by the British people, and a number of those who believe they would fall in for soft government positions as a consequence are behind the agitation, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and only the

Should Go to the People. It was only right and just that the matter should be settled by a vote of the people, as the last election had not been fought on that line. The government were now trying to force over the people's head an undertaking which will cost them \$2,500,000 annually to finance. With Ireland being allowed to retain the status quo, the British house, as well as being granted self-government, the unfairness of the proposition was at once apparent.

The present agitation was leading to a demand for self-government by the British people, and a number of those who believe they would fall in for soft government positions as a consequence are behind the agitation, but which is presented to our readers for SIX of the above Certificates of consecutive dates, and only the

SEE THE HARBOR PAST THE ROCKS

Knowledge and Prophecy Two Guiding Buoys to the City of God.

WE KNOW IN PART ONLY

So Declared President Falconer at University Sermon in Convocation Hall.

"We know in part and we prophesy in part," was the subject of a sermon delivered yesterday morning by President Falconer to the students of Toronto University in Convocation Hall.

Referring to the conditions of Biblical times, the speaker said that the Greeks had the characteristic enthusiasm of their nature, taken hold of the Christian religion and it was to stimulate their growth in the Christian life that this epistle was sent to them by the Apostle Paul.

During the last few centuries, declared the speaker, knowledge has been advancing with great strides. The earth has been made much smaller by means of inventions which have made possible very rapid transit, and its bounds have been extended by inventions and discoveries in the realm of science.

Place for Prophecy. "Life is not a mere coast line of barren rocks," he declared, "for some where there is a harbor, on the border of which is situated the city of God. In the channel leading to this harbor are two buoys, knowledge and prophecy, by the aid of which we may succeed in finally reaching the harbor of the city. When we have reached the harbor and look back, the buoys look desolate and dreary. Nevertheless they were the means of guiding us into the haven."

"The love referred to by the apostle is not an overdone emotion, but is rather the tone of mind which determines the whole outlook of man towards everything which is good. The love which should be in the heart of our neighbor in the active expression of your moral life. Love is the clear vision of anything which would figure your neighbor and hate in any form destroys the possibilities of obtaining the knowledge of God."

PART INTEREST PANAMA STORIES

The New Illustrated Book Which is Both Entertaining and Educational.

Of course you would like to take a trip to Panama, see the mighty works of the great canal, but it would require much time and money. The world offers a better way to make the trip. Clip the Panama certificate printed elsewhere in this issue and learn how you can get the immediate possession of "Panama and the Canal in Picture and Prose," a book that not only tells the complete story of the canal, but also contains a wealth of interesting stories concerning the country and the people.

Practically all of the information you would get by taking a trip to Panama would be that which you would get through the sense of sight. This new illustrated book introduces scenes far removed from the usual path of the tourist. It tells you of the queer natives that eat lizards, of the dress and customs of the inhabitants of the jungle, of the peculiar flowers, commerce, diplomacy and politics of the canal district.

This book is magnificently illustrated with more than six hundred rare pictures, many in beautiful colors and reproduced in full pages. The pictures themselves are equal to a trip to Panama. They gladden the eye and enrich the mind.

The World wants every one of its readers to have a copy of this beautiful new illustrated book, and with that end in view a certificate is printed daily in these columns, six of which enable the bearer to get it when accompanied by the small expense amount which covers the actual cost of the various expense items of distribution. Look for the certificate and clip it today.

ferent, and application at home was not of necessity the same abroad. The Liberal party had abandoned in theory the original Chamberlain act of 1907 had done its author much credit, but it was tentative and restricted in scope.

The first bill of importance he remarked, dealing with workmen's compensation was introduced in 1906. The original Chamberlain act of 1907 had done its author much credit, but it was tentative and restricted in scope.

Under the school children were provided for in another measure applicable in times of unusual depression, but this form of relief was watched closely lest it led to abuse. In 1907 Mr. Chamberlain brought in a "small holdings" bill to work against the amalgamation of small farms. County councils were empowered to acquire land by voluntary or compulsory means, and 154,000 acres had been acquired to assist 15,000 small holders to obtain land. Three million pounds had been expended in purchase and still the demand maintains.

Canada Leads Here. Mr. Samuel was delighted to see the operation of medical inspection in Canadian schools. The urgent demand in England was the cause of a similar bill now working well. In the same spirit a measure granting protection of superannuated men and women was introduced in 1908.

In 1908 the Asquith old age pension bill was authorized. This measure applied to one million pensioners drawing two pounds annually at the rate of five shillings per week to a person aged 70 years of age. In 1912 the success in that year 168,000 had received power whereas in 1912 only 8000 had been an assistant. The pension is counted upon as adequate.

The Children's Bill. Then came the children's bill, the work of Mr. Samuel's hands, dealing with all manner of child neglect and ill-treatment. "I felt it made a big enough no one would block it," he explained, and that is what actually occurred, and that is a neglect, carelessness with fire-carrying liquor and being imprisoned were all embodied in the reform.

The famous budget came down in 1909, persuading, he explained, financial men to tax vacant land. Little effect was apparent thus far. The liquor act of the same year sends the curve on the chart downward from that day forward. The Churchill "sweating" bill had followed with wages and penalties violation. The effect has been good.

Helping the Out-of-Work. The Trades Board and Labor Exchange Bill Church organized a system of assisting the unemployed in the work. The abandoning of prim forms. One million last year had been assisted. Mr. John Burns had introduced a housing and town-planning bill for the laying out of suburbs and cheap homes. Persons whose property was helped were assessed to recompense those who suffered.

The year 1910 was one of political turmoil, but the national insurance bill of 1911 secured insurance against illness for five million people. Now all the working population benefits from the system of deduction from weekly wages. The scheme includes medical attendance, sick pay, maternity benefits, and sanitary aid. Weekly 260,000 receive sick pay, 2,000 mothers maternity benefit, 4,000 sanitarium treatment and half a million medical help. In fluctuating trade insurance

The Play World

In the play world as in the actual world, there are parents and children, teachers and pupils, mothers and babies. There are weddings, baptisms and funerals. Truly the play world is a mirror of life, many a teacher or teacher might find a very faithful likeness of herself could she see the games in the backyard on Saturday morning.

More than two hundred ratepayers from Clinto, Grace, Crawford and Bickford streets and Montrose avenue met in Clinton street public school on Saturday night for the purpose of fighting the proposal and the result which will be known as Ward Five Central Ratepayers' Association with the following as officers: President, M. A. Sorocoll; 1st vice-president, D. Lattimer; 2nd vice-president, J. Bengough; secretary, F. H. Jeffery; treasurer, A. H. Worthington.

The meeting had been called for the purpose of protesting against the erection by the Toronto Housing Company of a number of dwellings on the west side of the Bickford ravine and on property now set apart as a park. The Bickford ravine lies between Harcourt and Bloor streets and Grace street and Montrose avenue.

The speakers not only raised the objection that the city should not be allowed to sell park property, but claimed that the class of people who would occupy the houses erected would not be desirable in such a high-class residential district. It being pointed out that it was the intention to erect houses that would be let at a rental of \$13.50 a month.

Humanity was also to be congratulated upon the spread of the feeling of fellowship between the nations, and of brotherhood between the people of neighboring nations. This must be the most potent influence in averting needless warfare.

PARK BOULEVARD THRU WASTE LAND

Alderman Meredith Outlines Plan to Connect Queen's and High Park.

ASSOCIATION FORMED

In Ward Five to Protest Against Toronto Housing Board Project.

City park property on the west side of the Bickford ravine will not be used for civic housing purposes if the residents of the locality can possibly prevent it.

More than two hundred ratepayers from Clinto, Grace, Crawford and Bickford streets and Montrose avenue met in Clinton street public school on Saturday night for the purpose of fighting the proposal and the result which will be known as Ward Five Central Ratepayers' Association with the following as officers:

The meeting had been called for the purpose of protesting against the erection by the Toronto Housing Company of a number of dwellings on the west side of the Bickford ravine and on property now set apart as a park.

Humanity was also to be congratulated upon the spread of the feeling of fellowship between the nations, and of brotherhood between the people of neighboring nations. This must be the most potent influence in averting needless warfare.

Such conditions afforded the best possible opportunity for the work of Christian Endeavor movement was so well known an embodiment. The growing spirit of unity between the nations was another magnificent sign of the times and an inspiration to all.

CHURCH OUTLOOK NEVER BRIGHTER

Present Hour of Unity Among Denominations an Inspiration to All.

"FATHER ENDEAVOR"

Clark, Founder of Christian Endeavor Movement, at College St. Church.

"Father Endeavor" Clark, as for many years Rev. F. E. Clark, D.D., has been known throughout the world, had a strenuous Sunday. The eminent founder of the C. E. movement gave a pithy address at the 8 o'clock morning service at College street Presbyterian Church, of which his host, Rev. Alex. Gilray, is pastor.

At the 11 o'clock service Dr. Clark preached an impressive sermon from the prophet Isaiah's thrilling interrogation: "Watchman, what of the night?" What he asked was the outlook through the world today for the expansion of the kingdom of God? American continent, in this Dominion, and especially in the home city of these present?

Traversing the civilized world with the mind's eye the signs of the times universally viewed were a revelation of untried opportunity in the history of the human race. Modern invention had rendered access comparatively easy to the most remote parts of the earth. The progress of civilization largely due to pioneer military effort, had rendered political conditions in foreign lands exceedingly favorable to a forward movement for Christian evangelization. China and Japan afforded the most notable example of open doors, where ingress had been barred and dangerous.

At home and abroad the outlook was also inspiring bright along the line of good citizenship. Greater Fellowship. Humanity was also to be congratulated upon the spread of the feeling of fellowship between the nations, and of brotherhood between the people of neighboring nations. This must be the most potent influence in averting needless warfare.

Such conditions afforded the best possible opportunity for the work of Christian Endeavor movement was so well known an embodiment. The growing spirit of unity between the nations was another magnificent sign of the times and an inspiration to all.

BERLIN HAS PLANS FOR CIVIC CENTRE

Council Asked to Submit By-law to Acquire Bowman Hotel Property.

BERLIN, Oct. 5.—(Special.)—A largely attended public meeting was held last night to discuss the location of a civic centre. After two hours of ten-minute addresses, a resolution was adopted asking the city council to submit a by-law to the ratepayers to purchase the Bowman hotel property at \$85,000 as an addition to the present civic square. The consensus of opinion, however, was not in favor of locating the new city hall on this site but to take it as an investment. The civic association, which engaged a New York expert to make a new plan for the city, came in for some favorable comment on the good work it is doing. The new plan proposes a civic centre adjoining the court house square, which could be had at much less expense than the site proposed by the city council and would provide a park or breathing space right in the heart of the city.

MODEL FARM GETS POULTRY BUILDING

GUELPH, Oct. 5.—(Special.)—The poultry business at the Ontario Agricultural College has so increased during the last few years that the accommodation has been entirely inadequate. The government is now erecting a fine new building where facilities for doing better work and more of it at better advantage will be greatly increased.

The building is now well on the way to completion. It is a fine solid brick structure, three storeys high, 69 by 100 feet in size. In the basement there is a large killing room, where poultry can be prepared for the market. On the ground floor there is a large class room with accommodation for 125 students.

When the building is completed the college will be fully equipped for the next ten years at least. The new building will cost about \$40,000.

GRANT TO ORGAN COMPANY.

GODERICH, Oct. 5.—(Special.)—A by-law granting a fixed assessment of \$20,000 to the Goderich Organ Company for ten years was carried yesterday by the ratepayers. The vote was 371 to 180. The company has some important extensions to its plant in contemplation.

TELL YOUR FRIENDS ABOUT IT

THE WORLD wants you to know that this is really the greatest of fer ever made by a newspaper for the benefit of its readers. Here is a great big beautiful book that would actually retail for more than \$4 under usual trade conditions. But it is printed in train-load quantities; it is distributed only thru newspapers; it is given to you for the mere cost of production. Why? Every copy that goes out makes NEW friends for the paper; the thousands of new subscribers make a better paper for you. So the benefits are mutual. In no other way could we consider presenting this \$4 volume on these terms. You will recognize the advantage then of TELLING YOUR FRIENDS ABOUT IT. Let them know that it is not to be classed with "premium" books; that its output is solely thru daily papers; that it is not sold at stores; that it is the acknowledged standard work on Panama and the Canal; and that it was planned and printed wholly and solely for the purpose of more firmly establishing the bonds of friendship that should naturally exist between the newspaper and its readers.

THE TORONTO WORLD Gives You This \$4 Volume Almost FREE

See the Panama Certificate in Another Column of This Issue

Thousands of our readers have already got their books—hundreds more are getting them daily—and all are astonished at the rare bargain offered. "What a magnificent book!" "How can it be done?" MORE THAN 600 ILLUSTRATIONS

In black and white photographic reproductions accurately portraying scenes described in the text—the people, the jungle, activity in the Canal Zone.

AND ALSO 16 WATER COLORS

In Full Page Color Plates

Reproduced from original sketches in their magnificent natural colorings and inserted thruout the large volume.

Panama and the Canal

In Picture and Prose

tells the wonderful story of the greatest achievement ever undertaken; why the Panama Canal was constructed—its purpose, promise and history; how the monumental work was accomplished; the vast expenditures of labor, skill and money; the untold benefit that will accrue to all the people of the world—all told in an easy, human interest style. Your children should have it as a means of furthering their education; the young man and young woman just out of school must now have practical knowledge; the whole family should keep abreast of the times and learn of the mighty advancement of all mankind.

HOW YOU CAN GET IT

UP TO PARLIAMENT.
It has been well said that the persistence of the present advances which have occurred in the cost of freight transportation to Great Britain have given rise to considerable unrest in this country.

NEW METHODS OF DISTRIBUTION.
During the sittings of the select standing committee of the house of commons on agriculture and colonization, held in the earlier part of the current year, very interesting evidence was offered on the problems of the fruit grower.

NOT ECONOMIC BUT POLITICAL.
IMPERIAL UNION, SAYS SAMUEL
Britain's Postmaster-General Says Canada Should Cherish the Distinction if It Is Less Commercialized Than the U.S.—Sir George Ross Defends His Position on Reciprocity and the Navy.

indeed far removed from the old Downing Street conception of the relationship between the motherland and the self-governing dominions. He belongs to the new order of imperial statesmen who have risen to an imperial outlook, and recognize that continued union must rest, and can only rest, on full individual autonomy.

Right Hon. Herbert Louis Samuel, postmaster-general since 1910 in the government of Great Britain and Ireland, addressed the Canadian Club on Saturday afternoon, dealing with questions of imperial and colonial relationship. Mr. Samuel is a quiet but forcible speaker, easy in address and cultured in diction.

There is a Difference.
Great amusement was caused by Mr. Samuel's next statement. "The Liberal party in England is not the same as the Liberal party in Canada," he said.

to the laborers of Durham, Lord John Russell, Wellington, who settled this matter for us, Tory tho he was, in the house of lords, and Elgin. The sentiments which made Britons free were the sentiments of Canadians, and had Mr. Samuel repeated the ten commandments he could have received no more ready an assent than to his views on imperial greatness and local autonomy.

Entangling Relations.
Tariff reform had only one fundamental objection that need be considered. Sir George had taken strong ground against the reciprocity treaty four years ago, and he did not then want to imperil our national independence, and so he desired to avoid any entangling relations with other nations.

CHAMBERLAIN'S POLICY.
Ten years ago there had been started a political campaign by a great statesman, a man of peace and of peace even if he did not agree with Joseph Chamberlain. (Applause.) It was a campaign of acute party spirit, and while he did not wish to enter on political questions, he declared that he would give the subject of Chamberlain's proposals the keenest attention as he maintained and kept in view the political and political portions of the empire.

GIANTS HAVE GREAT CHANCE TO BEAT ATHLETICS—JENNINGS

New York Likely to Be Favored With Breaks of the Series—Mathewson or Tesreau to Pitch Opening Game—Againt Bender—Report—That Gambler Had Indian a Joke.

(By Hugh Jennings, Manager of the Detroit Tigers.—Copyright.)

NEW YORK, Oct. 5.—Summing up the chances of the two teams that will clash for the world's baseball title, which begins Tuesday at the Polo Grounds, it will be seen that the Giants have the better of the Athletics in pitching and batting departments. The Mack machine is stronger at the bat and the Ebbetts machine is outclasses the National League champions at the bat. It is an equal break in the outfield.

Every world's series that I have attended or been connected with has been somewhat of a disappointment to me. From a playing standpoint, only ordinary plays are attempted. The unexpected is seldom seen. The players in the series are afraid to pull off any unusual plays. Each manager seems to think the scoring of one run will mean the winning of the game, just as he feels that the winner of the game will prove the winner of the series.

The players, as a general rule, take the game too seriously. They seem to be afraid to take a chance on plays they have accomplished many times during the championship season. Some of them devote more thought to the financial end of the game, and fear that an error or failure will hit the bank at the opportune time may be the cause of the team being on the small end of the split.

Breaks Big Factor.

The Giants have a grand chance to win from the Athletics. The players in the Mack's team have been unfortunate in being on the wrong end of the break in the championship season. Some of them devote more thought to the financial end of the game, and fear that an error or failure will hit the bank at the opportune time may be the cause of the team being on the small end of the split.

Where the Giants Lead.

The figures all favor the Athletics over the Giants. It has not occurred to anyone to point out that New York leads Philadelphia on the season by a large margin. That is where the Athletics have the advantage, base running and pitching, are conceded to a common level. They finished on Saturday, following:

Giants	Won	Lost	Pct.
Athletics	161	51	.685
Philadelphia	107	67	.615

Giants lead in points—.087

ATHLETICS BEAT GIANTS BATTING AND SCORING RUNS

NEW YORK, Oct. 4.—Unofficial records of the regular and Athletic games whether Connie will play or not, show that the Mack men crossed the plate 123 times to 73 by the Athletics in the regular season. The Athletics scored a total of 556, the Giants 474, the plate batting averages, respectively, being .306 and .275, meaning that each Quaker reached base one-third of the time, while each Giant averaged 30 times in 100 tries, and the Athletics, 27½ times in 100 tries.

HAMILTON TIGERS DEFEAT ARGONAUTS

Yellow and Black Had Condition and Best Half Line—Blues Failed in Last Half

The Tigers hit the trail in this season's Rugby hunt for honors Saturday afternoon at the Cricket Grounds, Hamilton, and the Argonauts, who attempted to stop them, proved easy prey. The yellow and black were forced to come away beaten, the outlook looking promising for both teams. Both squads displayed individual talent, and it was a freely fought affair.

Capital Boys Swept M.A.A.A. off Their Feet at Start and Losers Never Recovered.

MONTREAL, Oct. 4.—It was the combined forces of the Ottawa, Hamilton and Alert, Ottawa University and Queens teams which the M.A.A.A. Rugbyists had to meet in their opening game in the interprovincial Union on Saturday, and the all stars succeeded in winning by rather lopsided score of 21 to 4. The weather was rather warm for football, but there was in good shape. The attendance was about three thousand.

BROWNS BEAT NAPS IN TWELVE INNINGS

Last Major League Baseball of the Season Played in the West on Sunday.

Cleveland—St. Louis and Cleveland each took one of the last two games of the season on Sunday. By a batting rally in the twelfth St. Louis won the first game 3 to 4. After four and one-half innings play was suspended. Cleveland won the second game 4 to 3.

At Detroit (American)—Chicago's wild fielding cost them the last game of the season. The score was 10 to 2. The contest was a slugfest, with several runs scored in each inning. Chicago's error in the ninth inning, which allowed the Browns to score two runs, was the deciding factor.

At St. Louis (National)—St. Louis defeated Cincinnati 4 to 1 in a snappy game. The local hero, Jimmy Sheck, was the star, hitting a home run in the first inning and another in the fifth. Sheck also pitched a fine game, allowing only one run.

At Philadelphia—The final curtain of the 1913 National League baseball season was rung down Sunday under trying conditions. Chicago winning the last game from Pittsburgh. The local club won by hitting the only home run in the game.

THE GIANTS WIN TWO ATHLETICS LOSE ONE

National and American League Teams Wind Up for the Season.

NEW YORK, Oct. 5.—With a double-lead against the Athletics, the Giants closed their regular season yesterday, making both games and passing the hundred mark. Score, 12-7 and 7-5. A prominent development of the season was that they won four out of five games against the Athletics.

At Washington—The Nationals defeated Philadelphia 3 to 1. The game was a close one, with both teams hitting well. The Nationals' pitcher, Walter Johnson, was the star, allowing only one run.

At Philadelphia—The Athletics defeated the Giants 1 to 0. The game was a defensive one, with both teams hitting poorly. The Athletics' pitcher, Ebbetts, was the star, allowing only one run.

ANOTHER HIGH SCHOOL RUGBY LEAGUE FORMED

A high school Rugby league has been formed between Humberdale, Riverdale, Commerce and Finance, and Jarvis Collegiates. The officers are as follows: Hon. Mr. Munroe, Humberdale; president; Mr. Clark, Humberdale; secretary; C. Clifton, Humberdale; treasurer.

CRICKET GROUND, HAMILTON, OCT. 4

In a closely-contested Senior City game the Capital Rugby team defeated the Balmby Beach aggregation by a score of 6 to 1 at the latter's grounds. Altogether the Capital team has been organized only recently, they put up a strong game against the Caps, and also they had an uphill fight all the way, they showed considerable gamefulness and with practice should be as good as any in the league.

CRICKET GROUND, HAMILTON, OCT. 4

In an intermediate Big Four game here this afternoon, the Tiger seconds had little difficulty in beating the Argonaut seconds by the score of 25 to 1. The local squad excelled both in batting and punting, and soon piled up a huge score. The score at half-time was 13 to 1 in favor of the winners. The line-up was as follows:

FIGHT IN AUSTRALIA

SYDNEY, Australia, Oct. 5.—P. Brown, a result of a fight with a local opponent, was defeated by a local opponent. The fight was a close one, with both fighters hitting well. The local fighter was the winner by a majority decision.

OLD BOYS NO MATCH FOR VARSITY TEAM

Loose Play on Both Sides Result in Long Margin in Favor of Younger Men.

It was, indeed, a poor exhibition of Rugby played by Varsity and the Old Boys on Saturday afternoon at the Cricket Ground. The Varsity side, coached by the intercollegiate honor player, scored a score of 16. Three thousand fans saw the game, and evidently expected to get a line of heroes of other days. They must have been disappointed. Owing to loose play on both sides, and the fact that the aforementioned heroes were weak on the field, the game was rather tame and featureless. The opening struggles of previous years have been so better or worse.

It will be one or two weeks before the public will be able to properly size up Jack Maynard's squad. One could not have said that the Varsity play in the first half was better than in the second. The Old Boys were not playing at all well, and the game was rather tame and featureless. The opening struggles of previous years have been so better or worse.

CAPITALS WIN FIRST GAME FOR GREER CUP

On Saturday the first game for the Greer Cup was played at the Capital Ground. The Capitals won by a score of 6 to 1. The game was a close one, with both teams hitting well. The Capitals' pitcher was the star, allowing only one run.

ARGONAUTS EASY FOR TIGERS

In an intermediate Big Four game here this afternoon, the Tiger seconds had little difficulty in beating the Argonaut seconds by the score of 25 to 1. The local squad excelled both in batting and punting, and soon piled up a huge score. The score at half-time was 13 to 1 in favor of the winners. The line-up was as follows:

THEATRES AND CONCERTS

Theatregoers of every shade of opinion are interested to a far more than ordinary degree in the engagement of Cyril Maude and his company from The Playhouse, London, commencing their American tour at the Princess Theatre this evening. This is Mr. Maude's first theatrical tour ever undertaken outside of London and the English provinces. At home he is looked upon as the leading exponent of light comedy roles upon the English-speaking stage. "Toddles" will be the bill tonight, tomorrow night and Wednesday matinee. Captain Marshall's "The Second in Command" will be done Wednesday and Thursday evenings, Friday night and continuing Saturday matinee and evening. "Beauty and the Beast" will be the delightful program. This is the first dramatization of any of the unimpeachable shipping tales by W. W. Jacobs, in which, however, the writer had the experienced assistance of Louis N. Parker, the author of "Josepa and His Brothers."

Emma Trentini. With the state far in advance of the usual Manager Solman is looking forward to one of the banner weeks of the season, when Miss Emma Trentini makes her first local appearance tonight in the newest comedy opera-spectacle, "The Pirates."

In this new opera Miss Trentini, whose quaint little personality seems to be always at its highest when she is garbed in boy's clothes, is afforded a double chance to appear in them.

The excellent cast selected to support Miss Trentini includes: Roy Atwell, Craig Campbell, Melville Stewart, William Wolf, Sammy Lee, Louis Mink, Ray Norton, Katherine Stewart and Vera De Ross, together with a large chorus of fascinating beauty and voice, and an augmented orchestra of thirty musicians.

On account of the length of the performance the curtain will rise promptly at 8:05 p.m. and matinees at 2:05.

"The Spendthrift" at the Grand. Porter Emerson Brown's dramatization of "The Spendthrift" will be the offering at the Grand all this week with matinees on Wednesday and Saturday. The lesson taught by the story is applicable to many homes. It involves Richard Ward, a hard-working business man, who earns a large income, but whose wife, in needless extravagance, spends it all and runs him in debt besides. Finding that the domestic exchequer is worse than empty, the wife imprudently borrows a large sum from a male friend of the family, not with the purpose of deceiving her husband, but in the expectation of tiding him over immediate difficulties. Questions concerning the source of the windfall she invents an accommodating loan by an aunt, but the latter's denial punctures the bubble and then domestic troubles ensue. The dialog is natural and the situations are appealing to the emotions. In the cast which will be seen here are Elsie Gresham and Frank La Rue, two prominent members of the profession.

Mercedes at Shea's Today. At Shea's this week Manager Shea has secured for his headline attraction the great Mercedes, the musical enigm-

ma. No other act on the stage is like the offering of Mercedes. At the opening of the act he requests those in the audience to fix their minds upon some selection of music they would like to hear. No sooner is the wish of the audience made known to Mercedes than the pianist plays the selection.

The special attractions for the week are: Sam and Kitty Morton for the week ending an act aptly called "Back to Where They Started"; and Edwin Stevens, assisted by Miss Tina Marshall, in presenting a musico-dramatic burlesque, "The Troubles of R. and J."

Other feature acts included in this week's bill are Charles F. Semon, the Great Asah, Trovello, Cabaret Trio, De Lisle and the kinetograph.

Pinkerton Praises His Play. When Esward Veller's absorbing new American play, "Within the Law," the current dramatic sensation of New York for over a year, which plays its first engagement at the Alexandra, was given its initial performance at the Princess Theatre, Chicago, two years ago, perhaps the most interested and enthusiastic person in the large and critical first night audience was William Pinkerton, the famous dramatist. So delighted was Mr. Pinkerton with the applause the play received at its premiere that he could not restrain himself from expressing to the author his opinion that "Within the Law" is the most impressive drama he has ever witnessed. Seats go on sale next Wednesday, but mail orders are being filled now.

"Mutt and Jeff" Coming. The World's popular cartoon comedians, Mutt and Jeff, are coming to Toronto next week and will be seen at the Grand in their new play show, "Mutt and Jeff in Panama."

Miss Billie Burke in "The Amazons" Next Week. According to the jokesmiths a great many married women wear the well-tailored trousers. But that is only figuratively speaking. Now Miss Billie Burke does literally wear 'em in "The Amazons," the comedy by Sir Arthur Pinero, in which she is to be seen at the Princess next week. Most Toronto theatregoers know their Amazons. Miss Burke plays the saucy little tomboy, Lady Tommy Belturbet, whose mother has put her into trousers when she was a baby and kept her in them until just before the end of the play. They say the role fits Miss Burke admirably. The seats for the engagement go on sale on Thursday morning.

The Friedheim Recital. Mr. Arthur Friedheim, the world-famous pianist, arrived in New York from Europe on Thursday and will be in Toronto tomorrow to prepare for his first appearance of the season, when he will give a delightful program in Massey Hall on Thursday evening as the second attraction of the Gilmore course. The plan for his engagement opens at the hall and 146 Yonge street this morning, and the enquiries that have been made indicate that his popularity in Toronto has not suffered in his absence. Mr. Friedheim's program is one that will appeal to all classes of concert-goers.

Cyril Maude, famous English actor, who, with his own company, arrived in Montreal yesterday from London. Mr. Maude opens his Canadian and American tour today at the Princess Theatre.

and will be heard by a large and fashionable audience.

Stratford-on-Aven Players. Mr. F. R. Benson, the famous Shakespearian actor, who will appear with his Stratford-on-Aven Players at the Princess Theatre during the week of Oct. 27, has already announced his repertoire for the local engagement. It will be as follows:

Monday, "Much Ado About Nothing"; Tuesday, "King Richard the Second"; Wednesday matinee, "Romeo and Juliet"; Wednesday night, "The Merchant of Venice"; Thursday, "King Henry the Fourth"; Friday, "The Taming of the Shrew"; Saturday matinee, "As You Like It"; Saturday night, "Hamlet."

It is unknown whether "Henry the Fourth," which includes the immortal antics of Falstaff, has ever been done in Toronto before, and it is certain that this will be the first performance here of "Richard the Second."

Paragon Score Board. The moment that the New York pitcher throws the first ball in their game with the Athletics the Paragon score board at the Star Theatre will be in operation and give its patrons a

chance to see how good McGraw's choice really will be. The board will be in conjunction with the regular show of the Progressive Girls, which came here highly heralded and is an attraction that the management guarantees. There will be no advance in price.

"Girls From Starland." "The Girls From Starland," which opens at the Gayety Theatre this afternoon, is said to be an ideal entertainment for

There are said to be many features which distinguish this show from the usual burlesque attraction. The presenting company includes Miss Billie Hill, Katherine and Celeste McConnell, Joe Niemyer, Harry Stanley, Charles Horn, Otto Koerner, Charles Lammer and Harry Jones and a big and nifty chorus of pretty girls and attractive men.

Mme. Melba Tomorrow. Mme. Nellie Melba and her concert party arrive in Toronto today and will be quartered at the King Edward Hotel. It will include Mr. Edmund Burke, the Canadian baritone; Marcel Moyse, pianist; M. Gabriel Lapierre, accompanist; and Mr. Powell of Shulz-Curtius & Powell, the London impresarios. As tomorrow night's concert is perhaps the last one that Mme. Melba will be able to give in Canada for some time to come, the demand for seats has been very heavy.

At 7:15 o'clock, when the doors of Massey Hall are opened, four hundred rush seats will be placed on sale at the price of one dollar. This is an unusual concession for a concert of this kind, and is extended in accordance with the wish of the prima donna herself, who has always in mind the encouragement of various countries of the world. Mme. Melba has discovered very exceptional talents. Mrs. Trentini, who is appearing at the Alexandra this week, is a protegee of hers and one of whom she is very proud.

WEST END Y.M.C.A. NOTES. All of the senior members who attended the first gym. social were loud in their praises of the time spent. Never before have the gym. members had such a good time on the floor. The program opened with songs, the men sitting around the piano. Then followed a ballroom race, which was well worth seeing. The singing of the different quartets proved that there are a good number of singers in connection with the association. These quartets will be held once a month. The committee are now making plans for the next one.

Monthly swimming meet for the members of the West End Swimming Club. Ten events will be held, all of which will be handicapped. The big drawing card will be the relay race between the juniors and seniors.

Athletics. On Wednesday the first senior for weekly handicap event will be run off after the regular class exercises. The events will be shot-put and one lap on track.

The harriers will run from the building on Monday after the class, about nine o'clock. All harriers are requested to be on hand.

DONS V. BALMY BEACH. On Saturday afternoon the Dons clashed with Balmy Beach in the second game of Junior O.R.F.U. and altho the score appears one-sided it was far from being an uninteresting game. Most of the scoring was done in the first and second quarters, seemingly before the Dons got warmed up. The last two quarters showed each team at its best, and it was nip-

RUSSELL-KNIGHT

in no exception. Every day for the past three years the Russell-Knight has been undergoing practical service tests. In the hands of owners hundreds of them have been performing every phase of service a car could be called upon to meet.

And they have met every task in a manner to command respect. Some of these cars—10 years of service—have never had a wrench used in their engine. Their motors have run without repair—without adjustment—without falter.

They were more powerful the first day than any poppet motor of equal size. At the end of the first year they were developing more power than at the start. Today they are running and "pulling" in a way no poppet valve motor can approach. They are not merely standing up—they are actually growing better with use.

Time-tested—developed in use—perfected by persistent and painstaking effort over 12 full months, the new Russell-Knight car stands as a car of proven reliability—of demonstrated worth. Its power and silence, its beauty and convenience, its luxury and comfort, make it the ideal car for you to own or drive.

Before deciding on the purchase of any high-grade car, experience the pleasure of a ride in the Russell-Knight.

STEEL SHOWED A GENERAL DECLINE

Weakness Was Associated With Reduction in Price of Billets. FURTHER CUTS LIKELY

NEW YORK, Oct. 4.—A general decline in the steel stocks was the conspicuous movement of the day in the securities market.

Unfilled Mill Orders. Weakness of the steel group was associated with a reduction in the price of steel billets announced today.

Additional unfavorable railroad reports for August, from some of the southern lines, were influential in weakening the standard railroad shares.

At the end of the month and "pulling" effort over 12 full unstrated worth.

Small Trade in Manitoba Spring. Good Demand, However, for Canadian Oats from American Buyers.

MONTREAL, Oct. 4.—There was no improvement in the prices bid from foreign buyers for Manitoba spring wheat today.

At the end of the month and "pulling" effort over 12 full unstrated worth.

STRONGER MARKET FOR C. P. R. STOCK

Fine Statement of Earnings Made Dealings on 'Change Fairly Brisk.

MONTREAL, Oct. 4.—C.P.R.'s fine statement of earnings for the closing days of September resulted in a strong market for the stock in London on Saturday.

The balance of the local list was dull and rather ragged. Power responded slightly to the C.P.R. rise, selling at 214 1/2.

Such changes as were shown by other stocks were usually in the direction of slight losses.

NEW YORK CLEARINGS. The statement of the actual condition of clearing house banks and trust companies for the week shows that they requirements for the account.

FOREIGN EXCHANGE. PARIS, Oct. 4.—Prices were easy on the bourse today, three per cent. rentes, 87 1/2.

CHICAGO, Oct. 4.—Sentimental effects of the signing of the tariff bill showed themselves today in the wheat pit.

For the first time corn traders took fright at the new tariff. Possibility of imports from Argentina formed a bogey.

Receipts of farm produce were liberal, especially in the north market building, which was packed full with wagons.

Fine Wilton Rugs

Woven Entirely Without Seam

The acme of perfection has been reached in the weave of these beautiful seamless rugs. The prices are only slightly in excess of the better qualities in the ordinary seamed makes. The designs and colorings are the finest that have yet been produced in any Jacquard fabric, and the range of sizes in which they are made makes it possible to meet almost every demand.

A wonderful reproduction of an old Ghiorde Prayer Rug. This particular design has been made in a quality which comes at the same price as many of the seamed rugs. The design is the typical seamed rug effect, plain centre, in a beautiful soft grey green, with an intricate border, exemplifying the Ghiorde characteristics, in shades of tans, soft yellows and dull old coppers—a truly wonderful effect, at very low prices.

4.7 x 6.7 \$1.50 5.7 x 7.10 16.50
6.7 x 9.10 24.00 7.10 x 11.1 30.00

10.0 x 14.8 85.00 11.0 x 14.1 55.00
(Fourth Floor.)

In the finer quality perfect examples of the following well-known Persian Rugs will be found faithfully reproduced: Suruk, Gorvan, Ghiorde, Faraghan, Isphahan, Khorassan and Kashan.

The extraordinary color effects attained in many of these types are quite impossible of description. We have displayed around the Rug Department a number of styles, which will give some idea of their unusual beauty. The following sizes are all carried in stock in this one quality, and at these prices represent values not to be found easily elsewhere:

4.7 x 6.7 16.00 5.7 x 7.10 22.50
6.7 x 9.10 33.75 7.10 x 11.1 48.00
