ANOTHER MILLION DOLLARS FOR ONTARIO GOOD ROADS

Provincial Government Decides to Set Aside That Amount in Order to Continue Its Policy of Paying One-third the Cost of Country Roads Systems, the Million Dollars Appropriated Some Years Ago Having All Been Spent.

ANOTHER million dollars has been set aside by the Provincial Government out of the consolidated revenue of the province in aid of the improvement of public highways. The same amount, which was set aside some time ago, having become exhausted, provision is being made by the government to continue its policy of defraying one-third of the cost of building good roads throughout the province.

Announcement to this effect was made in the legislature yesterday by the Hon. Dr. Reaume, minister of public works, when he introduced a bill to amend the act to aid in the improvement of public highways.

The existing act is to be amended by providing that the management of all road improvement under the Highway Improvement Act is to be centralized in a capable county road superintendent or engineer, appointed by and acting under the direction of the county council. A foreman or inspector is to be placed by the road superintendent or engineer in charge of any works which he personally cannot oversee, but a member of the county council shall not be so employed.

In future the clerk of every county, before the first of every February, shall publish a detailed statement of all expenditure on or in connection with county roads or bridges for the preceding year. At least 100 copies of the statement shall be printed, and any elector in the county who applies shall be supplied with one. To the Lieutenant-Governor in Council is given power to strike from the approved plan of the county roads system any roads which the minister of public works finds has ceased to be used or for any other reason is not of sufficient importance to be constructed and maintained as a county road.

PARLIAMENTARY LEADERS OPPOSE GREY AS PREMIER

Parliamentarians Regard Retirement of Asquith as Probable and Supporters of Grey and Lloyd-George Are Lining Up—"Fighting Joe" Makes Himself Heard.

LONDON, Feb. 13.—(Can. Press.)—Among the members of the house of commons, many of whom have reached London in readiness for the reopening of parliament to-morrow, the rumored retirement of Herbert H. Asquith from the premiership is the chief subject of conversation. Not much surprise would be caused if the premier in a short time relinquished his office and accepted a peerage. It is pointed out that, while he has not held the position of premier very long as compared with some of his predecessors, his term of office has been marked by the greatest political agitation. During the past few years Mr. Asquith has aged perceptibly. Besides this, the expense of keeping up the position of premier is extremely high, and Mr. Asquith has a large family.

Dislike Grey's Foreign Policy.

Even among those members of parliament who have taken part in the campaign against Sir Edward Grey, secretary of state for foreign affairs, it is agreed that their opposition to him was in great part due to their desire to prevent him succeeding to the premiership, as they are against his foreign policy. It is even suggested that the formation of the Persian committee, which recently reported to the house of commons, was really a part of this campaign. Certainly most of the members of that committee were pronounced supporters of David Lloyd George.

"Joe" Martin Worried.

Joseph Martin, the Liberal member of parliament for the East Flanders division of London, who was formerly prominent in Canadian politics and is Radical wing in the house of commons, said in the course of an interview to-day that there was no doubt that the majority of members of the house of commons would view with the keenest disappointment the elevation of Sir Edward Grey to the premiership. Mr. Martin was of the opinion that the majority of members of the Liberal party were in favor of Lloyd George above any other member of the cabinet.

Mr. Martin continued: "It must be remembered that politics here are entirely different from politics in the United States and Canada. There the party could be consulted before the appointment of a premier, and if he were unpopular, a big row would be raised. Here the government does things without consulting its supporters, and even if an unpopular man were to be made premier, the party would think long before upsetting the government."

Both Radical and Conservative.

Sir Edward Grey during his term at the foreign office has commanded the respect of both parties. Only recently there has been an agitation against his foreign policy. One of his supporters pointed out that Sir Edward Grey was really a peculiar combination of Radical and Conservative. In his speeches he always advocates radical measures, but in his actions he is most conservative. He delivered a series of speeches during the parliamentary recess, particularly in reference to home rule, of which he has been a consistent supporter, on the ground that the imperial parliament would thereby be relieved of local matters and enabled to give greater attention to imperial affairs.

Quick Decision on Navy Bill

OTTAWA, Feb. 13.—(Special.)—Mr. Paul Emile Lamarche, member for Nicolet County, has given notice of a question to ask the government if it is their intention to set aside a date for the discussion of the resolution of Mr. Albert Sevigny, member for Dorchester, concerning the repeal of the navy bill of the Laurier Government.

Lamarche explains that the object of his question is to reply to the taunts of the Liberal press who maintain that the French Conservative members were not sincere in their election promises to ask for the repeal of the navy bill. As the Sevigny resolution now stands on the order paper, it seems almost impossible that it can be discussed in parliament owing to the amount of more pressing business.

ROCKY ROAD FOR ASQUITH TO FOLLOW

Momentous Legislation in Prospect Causes Lively Fears in Government Ranks—Will Not Reach Chief Issues Until After Easter—Election This Year.

LONDON, Feb. 13.—(C.A.P.)—To-day the King will open what is certain to be the most exciting session of parliament with recent years. It is unlikely, however, that the most momentous questions will be reached until after the Easter debate on the address, which will probably occupy a fortnight and will be followed by financial matters.

There is not the slightest doubt but that many ministerial supporters are uneasy thru the mammoth character of the program, embracing home rule, Welsh disestablishment, and electoral reform, to say nothing of women's suffrage.

Concerning the last named, militant suffragettes have, it is rumored, what is called a big surprise awaiting the government, unless women's suffrage is mentioned in the King's speech. It is unlikely the speech will contain such a reference, so we may anticipate another orgy of window-smashing. The police are making full preparations.

Look for Liberal Split.

Regarding home rule, Unionists are confident that any allocation of Irish customs to the proposed Dublin Parliament will split the Liberal ranks hopelessly, but unless Redmond obtains this, his parliamentary authority will be seriously jeopardized.

Nobody claims that there is any general enthusiasm for Welsh disestablishment, and a campaign against it is being pushed vigorously thruout England.

It is improbable that the question of electoral reform will be touched until autumn.

Outside parliament, the feeling grows that there will be a general election this year. The rates of insurance against this have risen during the last week.

WILL SENATE STOP PROBE?

Senator Kerr's Proposal Means Destruction of Civil Service Commission Bill, Says Opposition Leader.

OTTAWA, Feb. 13.—(Can. Press.)—The government to-day declined to accept the amendment of the Liberal majority in the enquiries bill. Hon. Mr. Lougheed, for the government, declared that the proposal by Senator Kerr that persons employed to make enquiries should be for five years debarred from holding public office, was a design to wreck the bill. The proposal stands at the deadlock stage, and will come up again on Thursday.

Senator Kerr said that, while the government might not know it, a person appointed as investigating commissioner in the departments they had failed to bring forward a single charge against the late government. If the government of the day had charged against the late administration, it should bring them forward in proper order, and have these charges referred to a committee for impartial investigation.

Wouldn't Destroy Bill.

Senator Kerr disavowed any intention to destroy the government's bill or to interfere with proper enquiry. He merely sought to ensure fair investigation.

Senator Lougheed: "The hon. gentleman will have to change his amendment, then."

Senator Kerr: Perhaps, but there seems to me to be the greatest danger that men who are now applicants for government positions and cannot get them will obey appointment as commissioners and make for themselves the places which they desire. He had no objection to changing his amendment so that judges might act as commissioners, without danger of disqualification.

ON MOUNT MABEE

TORONTO: Come up, Mr. Mayor, come up and get the larger vision.

TEMPERANCE PARTY IN ONTARIO MAY JOIN HANDS WITH LIBERALS

Campaign for Provincial Prohibition Will Be Launched With N. W. Rowell as the Moses—Strong Deputation Will Visit the Parliament Buildings To-day—Temperance Convention Opened in Massey Hall and More Advanced Legislation Was Demanded.

Why Hon. A. G. MacKay was made the Jonah and thrown overboard by the Liberal party was indicated at the temperance convention which opened at Massey Hall yesterday.

As announced in *The World* yesterday the proposition was being pushed forward by some of the delegates for the usual deputation to the government to march with their ire aroused by his continued attitude on the three-fifths question to the opposition corridor, to confer with the leader of the opposition.

This was never done during Hon. A. G. MacKay's leadership, altho he was as outspoken as possible against the three-fifths clause.

The new tactics with reference to the opposition leader, now that he is persona grata with the temperance party, were complicated by an intimation of an early change in the temperance campaign plans.

With Hon. A. G. MacKay as leader of the Ontario Liberals, the refusal of the three-fifths condition was the only thing the temperance party had to look for, should he ever ultimately attain power. With a life-long cold water man and a professed prohibitionist in the saddle, temperance and the Liberal party managers look for something more advanced; a movement to pool the Liberal and temperance party's two tones was the natural sequence. These conditions rendered significant F. S. Spence's statement at the convention yesterday afternoon: "Local option has pretty nearly run its race. Public opinion wants something bigger and wider in the direction of provincial prohibition."

At 4 o'clock after an uneventful morning and two hours' afternoon session, the 400 or 500 delegates were suddenly made to sit up. The flashlight on the situation was startling and biased while it lasted.

Turned on the Flash.

Rev. S. Williamson, chairman of the business committee, turned on the flash. "If it is true," he said, "that a deputation from this convention is to wait on the Ontario Government at noon to-morrow, we should like to know if the convention has any instructions for your business committee."

Continued on Page 7, Column 3.

Strathcona's Greetings.

President Joseph Gibson, Ontario Alliance, reads the following cablegram from Lord Strathcona at Massey Hall last night:

Your cablegram received. Greetings to the members of the Dominion Alliance assembled at Massey Hall to-night.

"The greatness of a nation rests largely upon the well-ordered homes of the people and in no land is the word home more sacred than in Canada. The devotion in which it is held by all classes makes for the temperance which honorably distinguishes Canada among the countries of the world. Happily your work to promote the great cause is more favorably regarded than that of similar bodies in other lands. It is a work well worthy of earnest endeavor and I wish you every success."

President Gibson said he had received a similar message in a letter from John D. Rockefeller.

OPPOSITION IS STILL BLOCKING

Guthrie's Several Amendments Voted Down—White Counters Sharply on Oliver.

OTTAWA, Feb. 13.—(Special.)—Another whole day spent in committee on a single clause of the tariff commission bill.

Hon. George E. Foster pertinently pointed out that with the information gathered by the commission before parliament and the people of Canada, no minister would ever be able to shield himself behind generalities in framing his tariff. There was neither Toryism nor Criticism in absolute facts, and this commission was to get absolute facts.

Hon. W. T. White scored on the leader of the opposition by reading from a speech of Sir Wilfrid, in which he declared himself in favor of a tariff commission such as they have in the United States. The premier showed that ministerial control of the commission was necessary in pointing out the superior urgency of certain lines of enquiry.

W. F. Maclean (South York) thought too much definition or limitation would prevent the desirable flexibility of the commission. It should be given a free commission.

BERT ROADHOUSE MADE DEPUTY MINISTER

Private Secretary to Hon. J. S. Duff Succeeds C. C. James as Deputy Minister of Agriculture With a Trained Assistant Who Will Do the Outside Work.

W. Bert Roadhouse, who has been for the past three years secretary to the minister and to the department has been appointed deputy-minister of agriculture, in succession to C. C. James. Mr. Roadhouse has been relieved of what may be described as the "outside" work by the appointment of C. F. Bailey, B.S.A., live stock specialist attached to the institutes branch, as assistant deputy minister. The deputy minister will, as before, have supervision of the executive work of administration, which has grown so enormously that it will occupy the entire time of one man.

"The assistant deputy minister will have supervision of the outside work of the department, which is growing in importance. This includes the work of the district representatives. It should be understood that our system of district representatives has grown very rapidly in the past few years. It has been under the direction of the deputy minister, but has rapidly assumed too large an importance to be handled in that way. It will, therefore, be placed in charge of the assistant deputy minister, who will have an opportunity of giving personal attention and personal oversight, which we feel sure will result in increasing its efficiency and popularity, if that were possible. His appointment will no doubt be specially popular with those interested in the live stock industry," said Mr. Duff.

The resignation of Mr. James as deputy minister takes effect on Feb. 23.

BURNED BABY IN FURNACE

Halifax Woman Admits Revolting Crime After Being Arrested for Murder.

HALIFAX, Feb. 12.—(Can. Press.)—"I put the baby in the stove and burned it. I'm sorry now, but I did it when the feeling came over me."

These were the words of Ada McCarron, the wife of James McCarron of this city, in confessing to the police this afternoon that she put her five weeks' old child in the hot blast stove in her house and burned it alive. She said she did this nine days ago and then spread the story that the child had been kidnapped from the cradle. Mrs. McCarron is locked up on a charge of murder.

When the police visited the woman's house in the north end and the child disappeared, they examined the hot blast stove from which the ashes had been removed. It was then cold, but that was four hours afterwards. The ash barrel was searched and little bones were found there, whether human or not remains to be proved.

It is believed that the woman is mentally unbalanced.

COMING ROUND.

TWO POLICEMEN DISMISSED FOR REPREHENSIBLE CONDUCT

Hobbs Alleged to Have Assaulted a Woman and Small Suspected of Attempting to Induce the Girl to Swear Falsely to Police Commissioners—Estimates for This Year Are \$620,000.

Constable Hobbs, for six years a member of the force, was dismissed by the police commissioners yesterday. The reason given by the authorities was that he committed a "breach of the regulations." Last November Hobbs appeared before the commissioners to answer complaints of a serious nature. While on duty in Reserve Park it was alleged that he and a citizen held up a man and woman and extorted money from them.

Much evidence was submitted against the action of Hobbs in his capacity as a member of law and order. It was accepted that on another occasion, accompanied by the self-same citizen, he accosted a man and woman in the ravine after dark. According to the testimony solicited by the commissioners he chased the escort and then criminally assaulted the woman.

Constable Small, also of No. 5 division, was also discharged on account of his connection with the case. It is stated that he, while off duty and

COMING ROUND.

John: What we could do is this: say that I was tubercular that we were against, not the tube!

Jaff: Aye, John, the bronchial tubes; and that all we had against the victor was that it was so see straight as it might be.

HAMILTON HAPPENINGS

KENNOUGH BADLY USED SO HIS FRIENDS SAY

Fund for His Defence to Be Raised—Civic Salary Increase a Problem.

HAMILTON, Feb. 12.—(Special.)—The crown was unprepared this morning to go on with the charge of conspiracy against George H. Kenough, the former clerk in the local office of the Canadian Express Co., accused of conspiracy in connection with the theft of \$500 from the company last September, and the prisoner was remanded until next Monday. The police refuse to discuss the case.

Friends of Kenough allege that, when under arrest before he was abused by officers in their effort to obtain information from him concerning the mysterious robbery, and it is proposed some sensational evidence along this line will be offered by the defence when Kenough's case comes to trial, if he is committed by Magistrate J. G. Public sentiment in Dundas, the home of Kenough and his family, has been considerably aroused, and it is proposed there to raise a fund by public subscription, to help defray the expenses of his defence. The unfortunate man's family is said to be in somewhat straightened circumstances.

Worried by Tax Rate.

The board of control, at its meeting this morning, was again beset by the dilemma of raising the tax rate or refusing salary increases to several civic officials, who, it is admitted, are deserving of more pay. A deputation from the board of health asked that the salary of Dr. Robert M.H.O. be increased from \$2,000 to \$3,000 a year, and that of Dr. Shain, food inspector, from \$1,500 to \$1,700. Three health inspectors at \$1,000 a year each, were also asked for. The board of control threw up its hands in dismay at these requests and declared that if they were granted the tax rate would have to be boosted to perhaps 23 mills on the dollar. The matter will be further considered.

This afternoon the board struggled with the estimates of various departments for this year.

Immigration Office.

It is reported that a Dominion Government immigration officer would be established in Hamilton at an early date, with an inspector for the immigration department in charge. The government's action is understood to have been brought about as a result of petitions of the two local members in the Dominion house, T. J. Stewart and Samuel Barber, who became convinced of the necessity of such an office here on account of the rapid growth of the city and the large increase of immigrant traffic into and thru the city.

Aid. Hugh Sweeney is looked upon as the most likely man for the inspectorship to be created when the office is established.

Eric Jannahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Eric Jannahan, proprietor. Phone 146.

POPULATION AND TAXATION IN BAVARIA.

The Kingdom of Bavaria furnishes a fairly average example of the steady transformation of Germany from an almost purely agricultural state into one in which the urban population predominates. This has created many problems which are still demanding the attention of economists and troubling administrators.

A quarter of a century ago, with 5,420,000 inhabitants, 51 per cent. of the population of Bavaria was engaged in agricultural pursuits, but in 1907, with a population of 6,525,000, the agricultural element had dropped to 40 per cent. During the same period the proportions of the population engaged in manufacturing rose from 28 to 33 per cent. and in commerce and trade from 8 to 12 per cent.

Hand in hand with the steady increase in industry and trade has been a constant concentration of population in the larger cities. The census of 1885 shows that 71 per cent. of the population was strictly rural; that is, lived in rural communities of less than 500 population. Under the last census only 55 per cent. of the population was rural and 45 per cent. lived in the cities. To-day one out of every four Bavarians lives in a city of more than 20,000 population and one out of every six in a city of more than 100,000 population. During the same period (1885-1910) the burden of taxation has shifted from the land owner to the city dweller, from agriculture to industry and commerce, and while the total of taxes collected has more than doubled, the land pays

ONE DEAD, TWO MAY DIE FROM FIRE IN MONTREAL

Major John Rogers, Prominent in Military Affairs, Victim—Many Girls in Danger.

MONTREAL, Feb. 12.—(Can. Press.)—A fire and an explosion wiped out the lives of one man and injured four other persons this afternoon.

Major John Rogers, manager of the Canadian Abbey's Effervescent Salt Co., for the past eight years, was so badly burned that his body was unrecognizable.

George Woodburn, employed by the J. W. Hughes Co., was caught on the second floor and was terribly burned. His recovery is doubtful.

The damage will not exceed \$20,000, about equally divided between the two firms of J. W. Hughes and Abbey's Effervescent Salt Co. The losses are covered by insurance.

Cause Not Known.

It is not known what caused the blaze, but in a few seconds after smoke was seen issuing from a window, the whole building was a mass of flames. The fire started in the basement of the J. W. Hughes Plumbing Co., corner of Craig and St. Armand-sts.

The Abbey Effervescent Salt Co. had its headquarters on the second floor of the building.

A dozen girls were in danger and were rescued by a spectator, who placed a ladder against the walls and carried them to the street.

Three of four girls were overcome by smoke and one was severely burned about the face and body.

The injured included: Mary Henry, severely burned about face and hands, may die; Harold Morrani, burns about head and hands; Joe MacDonald, fireman, burned about hands.

The late Major John Rogers was a life-long citizen of Montreal, having been born here in 1838, and for many years was prominent in military affairs. He was also in the civic life of Westmont. He saw active service during the Penian raids of 1866 and 1870. He was a member of the Church of England, and for many years had been rector's warden of the Church at the Advent. He was twice married and is survived by two sons.

An inquest will be held to-morrow morning.

MUSIC TAUGHT FREE Home Instruction Special Offers to Readers of The World.

In order to advertise and introduce their home study music lessons in every locality the International Institute of Music of New York will give free to our readers a complete course of instruction for either Piano, Organ, Violin, Mandolin, Guitar, Cornet, Banjo, Cello or Sight Singing. In return they simply ask that you recommend their Institute to your friends after you learn to play.

You may not know one note from another; yet, by their wonderfully simple and thorough method, you can learn to play. If you are an advanced player you will receive special instruction.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photographs and drawings make every thing plain. Under the Institute's free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them.

The International Institute has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessons make everything clear.

Write to-day for the Free booklet, which explains everything. It will convince you and cost you nothing. Address your letter or postal card to International Institute of Music, 98 Fifth Ave., Dept. 270 M, New York, N.Y.

Hydro to Grow Vegetables Toronto Capital in Scheme

Market Gardeners of England Coming to Try Near Chatham Experiment That Has Proven Success in Europe—System of Underground Wires to Regulate the Heat.

MONTREAL, Feb. 12.—(Can. Press.)—The raising of vegetables thru the medium of electricity is the scheme which an English market gardener, who arrived at the Windsor Station today, declares he is going to put into effect on a farm which he is on his way to take up on the Thames, near Chatham, Ont.

A syndicate of Toronto gentlemen, he says, has bought a large tract of land and has sub-divided it into market garden farms of ten acres each. A campaign has been going on in England to get market gardeners to take these farms, and is meeting with much success.

The electrical system which this particular immigrant is going to put into operation is already producing splendid returns, he said, in the south of England and in France.

Briefly, it is to heat the soil by means of underground wires. Wires, carrying electricity and generating heat, are laid underground at a distance of five feet apart and one foot underground. The heat thus diffused is carefully regulated, and its effect is to force an astonishing growth of vegetables and fruit. It is far more effective for forcing, he declared, than the glass house system, and invariably enables garden truck to be produced ready for the market from one to three weeks earlier than by any other means.

The cost of the electric power is small, and in Ontario, in the regions covered by the service of the hydro-electric commission, it should be smaller than in most places.

MACHINE THAT SEALS, STAMPS AND COUNTS LETTERS.

A new electric machine has been invented which will take the place of several office boys. This machine will seal, stamp and count letters as fast as they can be placed in it.

The letters in bunches are held together against an automatic feed, which

SOCIETY

The Daily Hint From Paris

Tickets for the rose ball may be obtained from the executive and the regents of the Toronto chapters.

For the benefit of the Q. O. R. Chapter, I.O.E.E., a vaudeville concert, under the auspices of Murray's Dandies, will be held in the armories at 8 o'clock this evening.

Mrs. Henri Suydam and Mrs. James Suydam were the joint hostesses of a very successful tea yesterday afternoon, when several hundred of their friends found their way to the pretty house in Chestnut Park. Mrs. Suydam was handsomely dressed in pale yellow with touches of rose color, diamond ornaments and a bouquet of violets, while the charming little bride wore white and silver with pink roses and violets and pearl ornaments. The polished table was centred with real lace and a basket of daffodils and mauve sweet peas, ribbons to match crossing at the ends; Mrs. A. W. Barnard was in charge, assisted by Miss Madia MacLachlan, Miss Dorothy Wright, Miss Irene Leishman, Miss E. Davidson and Miss Douglas.

Mrs. Alexander Laird will be the tea hostess at the exhibition of foreign pictures at the new galleries, on Thursday afternoon.

Miss Flora Macdonald is visiting Miss Ethel Parley in Ottawa.

Mrs. and Miss Hollivell, St. Catharines, and Mrs. Hubert Watt, have left for Atlantic City.

Miss Madeleine O'Brien is leaving at the end of the week for Paris.

Mr. Kenneth Macbeth has returned from Ottawa.

Miss Anne Drew (St. Louis) is the guest of Miss Florence Smith.

Miss Bertha Mackenzie is in Ottawa visiting Mrs. Charles Kingsmill.

An open meeting of the Women's Musical Club will be held on Thursday morning, with an interesting program arranged by the executive committee. Miss Mabel Boddy will give three groups of songs, old English, German and modern English, with Miss Morley at the piano. A two-piano duo will be given by Mrs. L. A. Hamilton and Miss Mary Campbell, a piano solo by Miss Mabel Boddy, and a violin solo by Miss Julia O'Sullivan. An invitation has been extended to the members of the Speranza and the Home Musical Club to attend the meeting.

Mrs. R. E. Kemmerer has left for the south where she will be for the rest of the winter. She will not receive, nor will Miss Hilford Kemmerer, till further notice.

The commodore and officers of the Beach Canoe Club are giving their annual at home in the clubhouse, Balmby Beach, at 8:30 this evening.

Miss E. Lawrence is giving a tea to-day to Miss Edith Gibson, Chicago.

Mrs. C. G. Allan, 32 Madison-avenue, is giving a girls' tea for her granddaughters, Miss Muriel Ralston, on Thursday.

Mrs. Hume Blake is giving a house dance this evening.

Mrs. Denton Dana is giving a small house dance this evening.

Mrs. Ernest Clarke and Mrs. J. Hamilton Brown, Concord-avenue, are giving a tea on Thursday for Mrs. J. Ganley, Sault Ste. Marie, Mich.

Mrs. Cargill has arranged the program and will be the hostess at the W.A.A. Gallery this afternoon.

TOOK CARBOLIC ACID

Mrs. Sarah Finch Died Upon Admission to St. Michael's Hospital.

Carbolic acid was yesterday used by Mrs. Sarah Finch, 22 Alexander-street, to end her domestic troubles. The woman, who was middle-aged, was removed to St. Michael's Hospital, dying upon admittance. There will be no enquiry.

RAILWAY MEN TO MEET

Street Car Employees Will Hold Big Rally in Massey Hall.

To get the opinions of the street railway employees, whose contract with the company expires June 16, the union will probably hold a mass meeting in Massey Hall some time before the middle of May.

WOMEN IN POLICE COURT

Deputation Came Away Satisfied That Tone Had Been Raised.

According to a deputation of women from the Social Service League, who yesterday morning were spectators in the police court, their presence improved the whole tone of the proceedings, and considerable more offences were paid women prisoners than is usual. And having elevated the police court, it is quite probable that a little

RECEPTIONS

Mrs. Thomas Ingram, 226 Palmerton-boulevard, Thursday, 2:30 to 6 and not again this season. Mrs. Harry Hutson, Poplar Plains-rd., not on Friday nor again this season. Mrs. W. H. Hele and Mrs. Forbes Godfrey, "Tinsmithing," Mimico, on Friday and not again. Mrs. C. A. Bender, 11 Lynnwood-ave., on Thursday, and not again this season. Mrs. Erskine Oviety (see Eskins) for the first time since her marriage, on Friday. Mrs. Edward Cousins, 22 Laburnum-ave., for the last time this season on Thursday. Her guest, Miss Watson, granddaughter with her. Mrs. John Wickett, 101 Rose-ave., on Thursday, and not again. Mrs. Walter Lorne Brown, 157 Walmer-rd., on Friday and not again this season.

permits only one envelope at a time to pass the flap over a metal disk which revolves in water. As the envelope advances the stamps are fed forward, cut off, moistened and rolled upon the passing letter. After the envelope flap is moistened and the stamp simultaneously attached the letter passes between a series of rolls under pressure and then emerges and is automatically stacked.

A counter records each stamp as it passes upon the envelope and this furnished a check upon the amount spent for postage. Moreover, the stamps cannot be removed from the machine except by the clerk to whom the key is entrusted.

The machine, being run by an electric motor, no labor is needed other than some one to feed the letters.

PROMPT ACTION NEEDED

White Slave Traffic Should Be Wiped Out of Existence.

In an address on the white slave traffic, in the Canadian Foresters' Hall, College-st., last evening, Rev. Dr. Shearer declared emphatically that the present was the golden opportunity to wipe out "this deadly trade which carries young girls to ruin of body, soul and spirit." While this evil had existed ever since the creation of man, it was never known to the world at large as it was to-day. Therefore, now that people had awakened to the great evil, all that was possible should be done to eliminate it from the face of the earth.

Group of women will attend each day for this laudable purpose. The main object they have in view is the establishment of a separate court for women, and if necessary, with women officials.

Our Processes Here - Help You Here

In the old days of "oatmeal" the miller was thinking of his goods not of the housekeeper. He made his product in his own way leaving her to find a way to cook it. The only way she could find was the troublesome all-night way. A tedious performance.

Instead of asking the housekeeper to find a way to cook Tillson's Rolled Oats we have found a way of preparing them to suit her cooking convenience.

15 minutes is all we ask of her time, because 15 minutes cooking turns Tillson's Oats into the most delicious, digestible porridge ever put before a hungry man or child.

Tillson's Oats

Your grocer has Tillson's. Two sizes—10¢ and 25¢. Each 25¢ package contains a handsome piece of English Porcelain Tableware.

Men's Black Chesterfield Overcoats, Thursday, \$8.95

To clear the few remaining we reduce them to below cost of production for 8 o'clock Thursday morning. They are single-breasted fly front Chesterfields that come well below the knee; deep centre vent in back; well formed peaked lapels, shoulders of natural width and close-fitting velvet collars. The material is a smooth, dull finished black English Melton and linings are of extra quality twill serge; sizes 36 to 44. Reduced to clear the line. Thursday 8.95

Men's Stylish Grey Suits, \$12.00

A suit for early spring wear is made in a Scotch worsted in a mid-grey shade, with a green stripe about 2 inches apart, with lighter grey thread stripes between; it is a single-breasted model, with peaked lapel, well formed shoulders, linings a fine twill serge in slate shade; sizes 36 to 44. Thursday, priced at 12.00

Notable Values in the Sale of Men's Trousers for Thursday

Trousers that look well and will give good wear, in smooth finished worsted materials; closely woven in dark and medium colors, with striped patterns. They are correctly cut and tailored and have good quality trimmings; sizes 32 to 42. February Sale price 1.55

Medium Weight Underwear for Men, 69c

For men engaged in indoor occupations a heavy underwear is likely to prove uncomfortable, but something must take its place that has enough wool in it to keep cold from penetrating when the wearer steps out into the open. Such is contained in this line of Merino Underwear for Men at 69c. They are in a medium weight, a mixture of wool and cotton in a soft, smooth finish, and are nicely finished with feathered stitch edges and sateen interfacings. The drawers have outside beige facings; pearl buttons; sizes 34 to 44. Price, per garment 69

Men's Sweater Coats—A nice range of these coats in medium sizes only; in all wanted colors, with contrasting trimmings; two pockets; "V" shaped necks, and heavy cuffs; sizes medium only. Price, each 47

New Derby Hats for Spring

The styles as featured this spring in Men's Derby Hats do not differ to any extent from those that have prevailed since the English cut in men's clothing was adopted as the correct mode. The slender figure is the ideal figure, with the English model suits in favor, and to top it off, as it were, Fashion rules that the low crowned Derby with fairly wide and slightly rolling brim is the correct headpiece. Thursday we open up several lines of new Derbies depicting the New York conception of styles for young men. Some of these are of course quite conservative, but we will show a number of shapes in the low crown and wide brim variety. These are all in pure fur felts, with silk bands and leather sweats and will be marked 2.50

English Worsteds Trousers, neat, quiet patterns in English worsteds, of good weight and rich finish in stripes and colors to suit everybody; finished with side straps and buckle at waist, and 4 pockets, side, hip and watch. February Sale price 2.30

Men's Worsteds Trousers, in imported materials in good stripe patterns, well tailored and finished with excellent trimmings and side, 2 hip and watch pockets. Thursday 3.35

Boys' Bloomer Suits Attractively Priced for Thursday

Boys' Bloomer Suits, in double-breasted three-button model, made from imported tweeds in dark browns and olives, with colored stripes, fine twilled body linings and full fitting bloomers; sizes 29 to 33. February Sale price 2.95

Attractive Bloomer Suits for Boys, in double-breasted style, neat lapels, well formed shoulders, double elbows, and unbreakable fronts, made in English imported fabric, in dark greys, browns and olives, showing stripe pattern. Twilled body linings, lined bloomers; sizes 29 to 33. Price 3.50

Boys' Double-Breasted Bloomer Suits, in semi-fitting model, made from an all wool imported tweed, in a dark diagonal weave, good quality linings and trimmings. Fashionable bloomers cut large and full; sizes 29 to 33. Almost half price for Thursday. Special price 3.95

Men's Neglige Shirts, new stock of this season's patterns, including blue and black stripes on white grounds. They are made with roomy bodies, neatly laundered neckbands, small attached cuffs and cut and finished equal to many higher-priced shirts; sizes 14 to 17. Price 50

Men's Mufflers, in tubular style, full length and with tasseled ends. They are knitted in a fancy stitch, with highly mercerized finish and come in shades of grey. Special price 35

A New and Complete Stock of Men's Working Shirts, include imported English drill and Oxford shirtings; the drill are black with narrow white stripes and the Oxfords come in neat light and dark stripes. They are made with large bodies, collars attached, roomy sleeves and double sewn seams; sizes 14 to 18. Price, each 50

Charming Silverware in Crown Derby Design

The Genuine Crown Derby China is Celebrated the World Over

This line we are offering Thursday is a very faithful reproduction of the rich orange and blue and gold colorings of the real Crown Derby. See the display in Yonge St. window:

- Breakfast Cruets**, fine silver plated frame, with open salt cellar, pepper shaker and mustard pot in a rich Crown Derby design. Salt and mustard spoons are included. Thursday 1.75
- Breakfast Cruets**, similar to above, with heavier frames and more elaborate designs. Each 2.50
- Butter Dishes**, fancy shell-shaped dish in Crown Derby design, set in fine silver-plated frame, with curved handle and butter knife, with handle to match dish. A very dainty and attractive article. Complete 2.25
- Butter Dish**, round plate in Crown Derby design, set in basket-shaped holder of silver plate, with high handle. Butter trowel to match plate. Complete 2.75
- English Jam Pots**, bowl of Crown Derby design, cover and handle of finest English silver plate, a most handsome piece. Each 1.50
- Four-Piece Sets**, consisting of Salad Bowl, Biscuit Jar, Sugar Bowl and Jam Pot, in Crown Derby designs, with fine coloring and best quality English silver-plated mountings. Salad Bowl and Services, complete 5.00
- Biscuit Jars, each 2.50
- Sugar Bowls, each 2.50
- Jam Pots, each 1.50

Two New Patterns in Flatware

The "Bride" and the "Blenheim," one a beautiful rose design in grey finish, the other a scroll design in a bright finish. Made of heaviest plating on a base of nickel.

- Tea Spoons, each 21
 - Dessert Spoons, each 34
 - Dessert Forks, each 34
 - Sugar Shells, Butter Knives and Pickle Forks, each 50

 - Butter Spreaders, individual, per half dozen 2.25
 - Orange Spoons, per half dozen 1.13
 - Oyster Forks 1.13
 - Table Spoons, each 42
 - Table Forks, each 42
 - Soup Spoons, each 42
 - Baby Spoons, each 17
 - Pie Knives, with silver blade, each 69c; with gilt blade, each 89
- Pearl Handed Goods**—Just in from Sheffield—Butter Knives, Pickle Forks, Sugar Shells, Sardine Forks, and Bread Knives. The pearl is of choicest variety, the blades and tines are of English electro-plate. Thursday, each 35
- Sterling Silver Teaspoons**, of medium size and good weight. Per half dozen in case of leatherette, with green satin lining 3.35

JOHN TURNBULL IS CHAIRMAN

Library Board Last Night Chose Him to Preside Over Meetings This Year.

John Turnbull was elected chairman of the public library board for 1912 at the meeting held in the College-street library last night. The question of obtaining absolute titles of all the library property was discussed, and it was decided to have the titles of all the branches searched to determine which were already vested in the board. The general routine business was dealt with and accounts involving an expenditure of \$3560.44 were passed.

Church-street branch was discussed and the board were of the opinion that the location was responsible for this falling off. Dr. Locke stated that everything possible had been done to stimulate the growth, but without success. The branch, he said, was patronized by many loafers, who had in the past given considerable trouble to those in charge. With the co-operation of the police, however, he hoped that conditions would be better in the future.

ALL DRUGGISTS—EVERYWHERE

LOTS OF BIBLES ARE DISTRIBUTED

Sixty-seven Thousand Volumes Were Given Away by Upper Canada Bible Society.

Sixty-seven thousand Bibles were distributed during the past twelve months by the Upper Canada Bible Society. These figures far exceed those of any previous year. During 1910, 48,000 were distributed and that was a record year. In 1910, \$52,000 was collected from all Canada, and during the year just past, \$22,000 was collected from the eastern boundaries of Ontario west to the coast. The net gain over the previous year was in the neighborhood of \$15,000, the balance having been collected in the eastern provinces.

PORT NELSON IS FAVORED.

OTTAWA, Feb. 13.—(Special.)—The two arctic expeditions, Captain Bartlett and Captain Bernier, in their evidence before the committee on the Hudson Bay Railway, at a conference with the minister of the interior.

Toronto World

As both the Dominion Parliament and the Provincial Legislature are now in session, citizens generally are interested in the deliberations of these two important governing bodies. The Toronto Morning World delivered before breakfast to any address in the City of Toronto or suburbs, or despatched by first mail each day to out-of-town readers, contains accurate and reliable reports of the proceedings, together with intelligent and timely comment on the various measures under discussion. If you are not now a reader of The World, attach your name to the following coupon, and send it to The World Office, 40 West Richmond Street, Toronto.

Adjourning Court To Lick Offender

Texas Judge, After Soundly Thrashing Commissioner, Fined Himself for Privilege.

MIDLAND, Texas, Feb. 13.—(Can. Press.)—"Judge, you are a liar." Bang went the gavel. "This court will stand adjourned until I whip the man who just called me a liar," exclaimed the judge. Immediately proceedings halted and Judge J. H. Knowles, presiding in commissioner's court, withdrew with Commissioner Jules Driver.

PERJURY CHARGE AGAINST KEENAN

Swore That Liquor Seized Had Been Returned by Police, But It Bore No Secret Mark.

Immediately following his conviction in the police court of selling liquor without a license and the imposition of a fine of \$20 and costs, John Keenan was arrested yesterday, charged with perjury. The accused, who keeps a temperance liquid emporium at a Centre-avenue, was also convicted and fined a short time ago on a charge of illegally selling liquor. The quantity seized by the police on that occasion was returned after he appeared in court and every bottle bore the secret mark of the police, unknown to Keenan.

Business Racing New Track For Toronto

Note and Comment

The Dufferin Develing Club is one of the few horse racing organizations in Canada that did not consume its legal limit on the track.

Jenkinson, winner of the Liverpool Grand National Steeplechase of 1910, was sold at auction at Tattersall's in London on Monday for \$18,500.

Another white hope has taken the count, Carl Sandoy, 7 feet 4 inches tall and weighing 245 pounds, who had the nerve to challenge Jack Johnson.

Nicknames for the major baseball league teams always have been popular and some of them will never be changed.

There is an skating meet advertised for Friday at St. Louis, where prizes are offered. The promoters have been notified by the A. A. U. of C. regarding the matter.

After these many years Toronto is likely to see a sculling match for the championship of the world next autumn, or it may be Hamilton, Durban and Ararat have agreed upon the terms.

The performance of J. D. Flavella at Winnipeg is a tribute alike to old age and the man. The Lindsay has played thru to date undeterred, and is likewise eligible for the patriarchal competition in the world.

New York hockey fans were pleasantly surprised at the work done by the Toronto University team there on Monday night, and the papers did not fall to praise the better skating and stick handling.

At a meeting of the Squeebanque League managers at Berwick, Pa., President McCollum of Wilkes-Barre, withdrew the name for the last three years.

At a meeting of the Danville Association on Saturday, the preliminary bouts are called for 1:30 p.m. and the main for 3 p.m.

During Prof. Williams' absence the men have been training under the care of Mr. E. Chapman of St. Andrews, and under his tuition have learned some of the finer points of the game.

Entries are being made in all the weights, and a series of fast clean bouts is assured. Reserved seats will be obtained at Dr. Barton's office, University Gymnasium.

The largest electric generator in the world was installed recently in the Watridge Station of the New York Electric Company.

The problem of how furniture manufacturers can work up annually \$1,000,000 of mahogany into furniture, when the cut of that wood from forests does not exceed 18,000,000 feet a year, is explained by a writer in a recent issue of The Building Age.

The statement is made that, while carlinans differs widely in its botanical and anatomical characters from true mahogany, and its physical properties are quite distinct from those of the latter.

A young New Haven man, returning home from a health trip to Colorado, told his father about buying a silver mine for \$3000.

"I know they'd rope you in," he said, "but I didn't lose anything. I formed a company, and sold half the stock to a Connecticut man for \$2000."

"You did," gasped the old man, as he turned away. "I'll bet I'm the one who bought it."

"I know you are," coolly observed the young man, as he creased his legs and tried to appear very much at home.

WHEELER BARK STILL UNBEATEN

Only Six Skips Have Won All Their Games in the Bonspiel—Scott Still in McLaren Cup.

WINNIPEG, Feb. 13.—Seven of the ten unbeaten rinks were engaged in the nine o'clock draw this morning in either the McLaren or Dingwall, and of these three went down to defeat—Pepper of Deloraine, Sutherland of Selkirk and Oldham of Duluth, the latter losing to Campbell of the Thistles by a single shot.

McAulay of Southampton, Flavella of Lindsay and McGregor of Gore Bay are the only eastern rinks left in the Dingwall competition.

The 3 p.m. is the last draw to-day, at 10 o'clock theatre, the 9 a.m. scores:

McLAREN CUP: Sydney: Butte, skip, 15; Young, skip, 14; Deloraine, skip, 10; Scott, skip, 13; Melita, skip, 12; Thompson, skip, 9; Winning, skip, 12; Thaburn, skip, 15; Minnedosa, skip, 11; Loyal, skip, 9; St. Paul, skip, 13; Gillies, skip, 7; Filo, skip, 10; Braden, skip, 13; Lowe, skip, 11; Flavella, skip, 15; Henderson, skip, 10; Oldham, skip, 9; DINGWALL COMPETITION: Scotland, skip, 15; Richards, skip, 15; Flavella, skip, 11; Lowe, skip, 9; McMillan, skip, 12; McGregor, skip, 15; Palmer, skip, 6; Thaburn, skip, 12; Strathcona, skip, 13; Kenton, skip, 13; McKay, skip, 11; Toronto, skip, 13; Asimbolne, skip, 15; Strathcona, skip, 12; Seaford, skip, 10; Keewatin, skip, 10; Crawford, skip, 7; Kenora, skip, 10; Hunter, skip, 11; Johnson, skip, 16; Blair, skip, 9; Thistles, skip, 10; Oldham, skip, 9; In the noon draw, four of the League unbeaten skips won their respective games by the following margins: Spanglin of Minnesota, Braden of Lindsay, and Flavella of Toronto.

McAulay and Johnson of Toronto are also still unbeaten.

At a meeting of the Squeebanque League managers at Berwick, Pa., President McCollum of Wilkes-Barre, withdrew the name for the last three years.

At a meeting of the Danville Association on Saturday, the preliminary bouts are called for 1:30 p.m. and the main for 3 p.m.

Manitoba Curlers Beat the Scotchmen By Only 31 Shots

WINNIPEG, Feb. 13.—In the feature event of the bonspiel a test match between Scotland and Manitoba, this province, this afternoon failed miserably in its attempt to pile up a majority of 83 points in the six games played and thereby wrest possession of the coveted \$500 Strathcona cup from the Ontario representatives.

The Scotch team was here yesterday, and the London and Hamilton teams, along with the Monty team, will be taken to Winnipeg on Friday night.

Warming weather to-day resulted in "swamp" ice, which proved conducive to the best interests of the Scotchmen and their draw games.

Entries are being made in all the weights, and a series of fast clean bouts is assured. Reserved seats will be obtained at Dr. Barton's office, University Gymnasium.

T.C.C. GO ONTO SEMI-FINALS

Defeat Oshawa 6 to 3 and Win Third Round by 14 Goals—Play Berlin Thursday Night.

Toronto Canoe Club earned the right to meet Berlin in the Junior O. H. A. semi-final by defeating Oshawa 6 to 3 last night at the Ravina rink.

The game was fast and clean at all stages, and the Paddlers showed their class by coming out in the second half after taking things easy for the first thirty minutes.

The defence work of both teams was excellent, and it was as good a junior game as has been seen around these parts in many a long day.

ROWING CLUB DROP TWO ATHENAUM'S ROSE

Surprises in City Bowling League—Business Men's and All the Scores of the Night.

The Royals won the odd game from the Rowing Club in the City Bowling League last night. Paynes grabbed two from Brunewicks, Doubltons dropped two to College, and the Atheneums could only win one from Gladstones.

you men will watch this paper to-morrow there will be an "Ad" from Hobberlins that is bound to interest you. They are clearing out all "odd ends" in present wear clothes---just watch for the "Ad."

Parliaments Lead Baptist Young Men's Basketball League

The Baptist Young Men's Union League finished their season with the first game during out to be a hummer from start to finish when Enos Harding, the former Central Y.M.C.A. star, electrified the crowd with some of his old time form when he notched several baskets from center while Mr. J. Laverson, president of the B.Y.M.U., a member of the champion Bradford seniors of years ago, proved that he could come back along with Clarke at center, and were the stars of the losers, the Blomde Lawton was good in spots. By winning this season's Kingston landed second place, and the present team stay together will be a hard team to beat for the championship next season.

Good Roads Convention.

A good roads convention will be held during the week of the Toronto Auto Show by the Ontario Good Roads Association. The dates for the convention are Feb. 27, 28, and 29, and special railroad rates will apply for all automobilists of the province who wish to attend. One of the chief speakers will be Mr. Paul D. Sargant, assistant director of good roads, Washington.

AUTOMOBILE SHOW

By Wednesday Next All Will Be in Readiness for the Opening.

By next Wednesday all the work at the armories in preparation for Toronto's sixth annual auto show will have been completed, and everything will be in readiness for the formal opening in the evening. Mr. H. West, the electrician in charge, who is working with Mr. Trahan, the decorator, to make the building as beautiful as possible, says that while there is a tremendous lot of work to be done, his men are all experts and there is no doubt but that everything will be ready. Working away up in the roof of the immense hall, they are installing several wiring systems for the large illuminated Union Jack, which will cover the ceiling, and their work is to some extent very risky. Hundreds of yards of bunting are being arranged around the walls, and the flooring, which in the riding school and the addition had to be specially constructed for the occasion, will be covered with a dark green carpet, making a most suitable background for the dark bodies of the hundreds of cars.

There has of late years been some discussion as to the real value of automobile shows. A few people contend that the need for these passed some years ago. But their value is recognized all over this continent, and Canadian as well as American dealers are very enthusiastic over the coming show in this city. From the eastern end of Canada reports are coming in that large numbers of people are heading for Toronto for the week of Feb. 21 to 28. The dealers are writing that so many of their customers are going to be present at the show that it makes their attendance there a necessity. From western points, as well as from the north and south, many others are coming, and that all former attendance records will be broken in an assured fact.

Auctioned Horses From 11 Till 6 At The Repository

A lot of horses were sold at the Repository yesterday. The stable was filled with horses and a great many were led in the arena, and many were unable to find the premises. The sale started from 11 o'clock until 5 p.m., and around 150 horses were sold in all. The financial statement showed a balance in the treasury of nearly \$1000. Last season the D. D. C. held only eight days' racing, viz. five matinees, and the three days' meet in June, in this time the club distributed six stakes and prizes \$2250. The following officers for 1912 were elected to conduct the affairs of the D. D. C.:

President—C. Woods, Vice-president—E. Dennis, Secretary—W. A. McCullough, Treasurer—Geo. Reddingfield. Executive committee: Marshall, J. T. Hudson, J. Mead, R. J. Patterson, A. Proctor, R. Robertson, E. R. Lee. The following officers for 1912 were elected to conduct the affairs of the D. D. C.:

Results at Charleston, CHARLESTON, Feb. 12.—The entries for to-day's races were as follows: FIRST RACE—Two-year-olds, purse \$200, selling, six furlongs: 1. Spirella, 111 (Gooze), 3 to 2, 5 to 1 and 5 to 2. 2. Time 44.4. Alcinoos, Ella Grane, Nellie, 111 (Gooze), 3 to 2, 5 to 1 and 5 to 2. 3. Time 44.4. ESTABLISHED 1854. JOHN CATTO & SON

HOUSEKEEPERS' SNAPS Luncheon Cloths

44 x 54-inch, hemstitched, hand-drawn and embroidered, regularly \$1.50 and \$2.00.

H. S. Linen Pillow Cases

27 1/2 x 36-inch, hemstitched, pure Irish linen. Special at \$3.00.

New Prints Our new spring Printed Cambrics are now opened out in a choice range of clear-cut patterns in the greatest variety of reliable colors.

Clearing Down Comforters

Fine English Downproof Saten Covers, with plain panels. Best of the down filling, all handsome, new stock. Clearing balance:

50.00 quilts for \$30.00 \$10.00 quilts for \$7.50 \$12.50 quilts for \$10.00

Wool Blankets Very appropriate for this weather, an 8-lb. Fine Long Yarn All-Wool Blanket, 68 x 58-inch, choice-wool stock, regularly \$6.50.

Fine Towels A manufacturer's lot, comprising about 100 sample dozens in the finest of pure-wool linen, choice-wool stock, with fancy patterned bodies, handsome Damasked ends, etc.

Now on sale in bundles of 6 at \$2.50, \$2.75, \$2.50, \$4.00, \$5.00, \$6.50, per bundle.

MAIL ORDERS CAREFULLY FILLED. JOHN CATTO & SON

65 TO 67 KING STREET EAST, TORONTO.

OPPOSITION IS STILL BLOCKING

Continued From Page 1.

hand, but under the direction of a responsible minister.

Hugh Guthrie (South Wellington) moved several amendments to remove the commission from the direction of the minister, to substitute a report to parliament for a report to the minister and to strike out the sub-section providing for investigating trusts, mergers and combines by the commission.

All were lost, the first on a vote of 40 to 76. The last amendment provoked quite a vigorous debate. F. B. Carvell (Carleton, N. B.) claimed that the government were taking away from the members of the house the power, but the fact of investigating trusts, mergers and combines.

Tip for Oliver. Hon. T. W. A. declared it was surprising that all the trusts, mergers and combines had sprung up since Sept. 11. He indignantly denied that he was connected with any trust, merger or combine, and told Hon. Frank Oliver that if he kept himself as free from sinister influences he would do well.

Dr. Clarke (Fred Deer) thought the inalienable prerogative of parliament, to preserve which Britain had cut off King's head and curbed the power of the house of lords, was jeopardized by the further tyranny of the trusts.

No Use for Free Trade. W. F. Cockburn (Brandon) declared that there was more chance for protection being introduced into England than free trade into Canada. Of course, there would be no place for a free trader on the commission. Would the minister of militia, if he wanted a rifle to arm the militia, leave it to Andrew Carnegie and Rev. J. A. McDonald? They would choose a gun that would not go off. So would the members for Red Deer with the tariff, Mr. Cockburn thought the \$90,000 workers were worthy of consideration. They were struggling just as hard as the farmer.

Should Have Initiative. Hugh Guthrie (S. Wellington) objected to the tariff commission having no initiative. They should report, moreover, to parliament and not to the minister. As it was, they would collect a vast amount of secret information which it might be hard for parliament to get hold of.

The premier pointed out that the commissioners would not be under the minister so much in the methods of their enquiries, but there were some matters which might be more urgent than others, and in this there must be ministerial control. There was no provision in the bill for secrecy, except in carrying out the well-recognized principle of government that the details of a man's business should not be disclosed.

"We may reasonably expect," said H. B. Ames (St. Antoine, Montreal), every schedule of our tariff will have been considered and investigated by the tariff commission. The commission will necessarily report to the

THE WEATHER

OBSERVATORY, TORONTO, Feb. 13. (8 p.m.)—Pressure is highest to-night in the lower Lake region and lowest in the far west. Fair weather prevails generally, with continued very mild conditions in Alberta and with a rising temperature elsewhere.

MARRIAGES. PAUL-BODDINGTON—At Western Baptist Church, Toronto, on Saturday, Feb. 10, 1912, by Rev. Dr. George Ernest A. Paul to Ella M. Boddington, second daughter of William J. Boddington, Toronto.

DEATHS. LASH—At 13 Grenville-street, Toronto, on Tuesday, Feb. 13, 1912, Berale Miller Lash, wife of Z. A. Lash, K.C., and daughter of the late Judge Miller of Galt, Ont.

Funeral (family only), on Monday evening, at her father's residence, 22 Division-street, Clara Alexandra, aged 5 years and 10 months, dearly beloved youngest daughter of John H. and Caroline L. Rynehart.

Funeral from above address of Wednesday, Feb. 14, 1912, to Prospect Cemetery at 2:30 p.m.

Funeral on Thursday, Feb. 15, at 2:30 p.m. from McCabe's Undertaking Parlors, 222 Queen-street east, Internment St. John's Cemetery, Norway.

any other man to take away responsibility to the people.

Mr. George A. Foster related his experience as a member of a committee of ministers, which went about the country, a very different thing from a tariff commission. They heard long-winded addresses and carefully prepared ex parte statements.

To Dig Up Facts. The minister of the people of the country had begun to feel that there was a better way of getting at a satisfactory basis than the commissioners were not to make schedules, not to say there should be a tariff here or a tariff there, but they were to be used whose sole business was to get at the facts of the case.

There is neither Toryism nor Criticism in absolute facts," he declared, "and this commission is called to get the absolute facts." The Toryism or criticism, the protectionist or free trade, or free trade would only come in when the responsible ministers framed a tariff based on the facts.

Dr. Schaffner (Souris) urged that the tariff should be made representative of the commission of the board of agricultural interests.

Mr. Oliver was suspicious of the salaries to be paid the commissioners, if they were to be paid ministerial salaries, they should not be paid ministerial salaries, and if they were to be paid ministerial salaries, they should not be paid ministerial salaries.

Mr. Oliver elaborated his views on reciprocity, but on Hugh Clarke (North Bruce) objecting that his speech was in defiance of the clause under discussion, the chairman (Blondin) ruled him out of order.

Mr. Oliver's speech was unsuccessful, to get Dr. Edwards (Frontenac) ruled out of order for discussing the license holders' law in the course of raising the question of reciprocity, and again when he started to discuss the mutual duties of the United States, but the chairman later ruled Dr. Edwards out of order when he began to discuss the duties of members of the opposition on fiscal policy.

Mr. Oliver elaborated his views on reciprocity, but on Hugh Clarke (North Bruce) objecting that his speech was in defiance of the clause under discussion, the chairman (Blondin) ruled him out of order.

Mr. Oliver's speech was unsuccessful, to get Dr. Edwards (Frontenac) ruled out of order for discussing the license holders' law in the course of raising the question of reciprocity, and again when he started to discuss the mutual duties of the United States, but the chairman later ruled Dr. Edwards out of order when he began to discuss the duties of members of the opposition on fiscal policy.

Mr. Oliver elaborated his views on reciprocity, but on Hugh Clarke (North Bruce) objecting that his speech was in defiance of the clause under discussion, the chairman (Blondin) ruled him out of order.

any other man to take away responsibility to the people.

Mr. George A. Foster related his experience as a member of a committee of ministers, which went about the country, a very different thing from a tariff commission. They heard long-winded addresses and carefully prepared ex parte statements.

To Dig Up Facts. The minister of the people of the country had begun to feel that there was a better way of getting at a satisfactory basis than the commissioners were not to make schedules, not to say there should be a tariff here or a tariff there, but they were to be used whose sole business was to get at the facts of the case.

There is neither Toryism nor Criticism in absolute facts," he declared, "and this commission is called to get the absolute facts." The Toryism or criticism, the protectionist or free trade, or free trade would only come in when the responsible ministers framed a tariff based on the facts.

Dr. Schaffner (Souris) urged that the tariff should be made representative of the commission of the board of agricultural interests.

Mr. Oliver was suspicious of the salaries to be paid the commissioners, if they were to be paid ministerial salaries, they should not be paid ministerial salaries, and if they were to be paid ministerial salaries, they should not be paid ministerial salaries.

Mr. Oliver elaborated his views on reciprocity, but on Hugh Clarke (North Bruce) objecting that his speech was in defiance of the clause under discussion, the chairman (Blondin) ruled him out of order.

Mr. Oliver's speech was unsuccessful, to get Dr. Edwards (Frontenac) ruled out of order for discussing the license holders' law in the course of raising the question of reciprocity, and again when he started to discuss the mutual duties of the United States, but the chairman later ruled Dr. Edwards out of order when he began to discuss the duties of members of the opposition on fiscal policy.

TEMPERANCE PARTY MAY JOIN LIBERALS

Continued From Page 1.

Executive report. After a review of the year, the report made an arraignment of the license inspectors and license commissioners. The report:

Defy the Law. "Steamboats are allowed all summer to run bars in defiance of the law, and fines are collected some time during the season. On railroad lines dining cars serve liquor in defiance of the law, unhindered and un molested. In many frontier towns and in other places which apparently defy the law in a way which apparently shows that they have no fear of the license authorities.

Something should be done, and something must be done, to remedy the present intolerable condition. "The situation in the Province of Ontario is not creditable to the present administration. Inefficient local inspectors, an apparently disorganized provincial staff, together with sinister political influences, have brought about a condition that is regrettable in the extreme.

For a number of years praise was given to the present government for the marked improvement in law enforcement throughout the province. With the change of government came a change of commissioners and inspectors, and the new men were, generally speaking, an improvement upon their predecessors and more diligent in the performance of their duties.

During the last few years, however, there has been a decided falling off along this line, and to-day things seem to be slipping back into the old rut of lawlessness. A number of inspectors, commissioners and boards of license commissioners who seem to be distinctly liquor-baiting.

Committees were appointed to deal with the various aspects of the temperance campaign, and a number of resolutions were read and referred to them to report on.

Criticized the Law. W. E. Raney, K.C., was the first speaker at the afternoon session. He criticized the local option law as being framed with technical pitfalls, which he said it would take an army of lawyers to escape.

Mr. Raney said the local option method of abolishing the liquor traffic was a relic of the old days when municipal affairs, it is now recognized as one which directly concerns the legislature.

W. G. Fee spoke on local option organization. The local option law, he said, should see that the organization was complete down to every polling subdivision in the municipality.

Why should counties, which fears no foe, tolerate a traffic which debauches the population and makes an increase in the capacity of the prisons and insane asylums necessary?

"God pity my country if we've got to get down to the use of a beer barrel to get our inspiration." Alluding to Ontario politics, President Gibson was extremely frank. "Do you know," he said, "that the number of the times to have a clean man like Rowell at the head of affairs? Mr. Rowell, however, does not know us, but the more I think he is a man to look to for leadership. But let us be aware of becoming identified with one party or any parties."

Rev. Ben H. Spence presented the Amter a sharp sgrimish the convention adopted this political action report of the business committee:

That the alliance policy be reaffirmed to be: The abolition of the barroom, the treating system, drinking in clubs and the imposition of such further restrictions on the liquor traffic as will most effectively curtail its operation and diminish its evils.

The World's Leap Year Baby Mugs

As was stated in a recent issue, The Toronto World will present a beautiful silver birthday mug to every baby born in Ontario on the 29th of next February. These children will only have an anniversary once in four years, and it is fitting that their first birthday should receive some special recognition. There are no conditions or entrance fees attached to the award, and the only regulations to be observed are as follows:

1.—Only babies born in Ontario are eligible. 2.—Babies must have been born between the hours of 12.00 midnight February 28, and 12.00 midnight February 29.

3.—The entry for the award must be made by filling out the coupon which will be found printed in another portion of the paper. 4.—The date and hour of each child's birth must be verified for in the place indicated on the coupon, by the attending physician.

5.—Entries not made on printed coupon will not be considered. Something more about this award will appear in The World from time to time. Questions addressed to the Silver Mug Department will be answered.

LABEL ON CANNED GOODS DENOTES QUALITY

Wholesale Grocers' Guild Gives Vent to Bone of Contention With Packers—Claim They Sold Tomatoes at Loss of 35 Cents per Case Last Year.

Canned goods and their labels was the subject of a two-hour discussion at the Dominion Grocers' Guild meeting in the King Edward Hotel yesterday afternoon.

The Dominion canners came in for criticism of pleasurable and displeasing nature. It appears that contracts made between the wholesalers and the canners have not been the best.

The wholesalers books orders for these goods, away before they have begun to bud in the early spring, and no matter what Providence may do, he has to deliver the goods.

"We are too much inclined to believe the reports of our travelers," said P. T. Smye, in reading a paper on "Associated Loyalty."

Mr. Smye urged the wholesalers to move away from all cliques and not try to undermine opponents.

Stomach in Your Vest Pocket. Tablets that Have the "Stomach-Power" of a Real Stomach—Stuart's Dyspepsia Tablets.

When your stomach is overworked and the average person's stomach is overworked a good part of the time—take Stuart's Dyspepsia Tablets.

"I've Got It Right Here, You Never Catch Me Without a Box of Stuart's Dyspepsia Tablets in My Vest Pocket."

HEAR WHY WE SPEAK FOR Zam-Buk THE GREAT HERBAL BALM

INJURED FOOT CURED. "I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 190 John St.

Did you ever ask yourself: "How is it that Zam-Buk is so popular?" It is because it is superior and different to other salves.

POISONED FINGER HEALED. Mrs. Frank St. Denis of 305 Thompson St., Winnipeg, speaks for Zam-Buk because it cured her of a poisoned finger.

keep the trade in close touch with all that pertains to the grocery business.

Following an address on the "Credit Exchange," a motion was passed recommending all wholesalers to become associated with that exchange.

Election of Officers. The officers for the following year were elected as follows: President, Archibald Miller, Quebec.

"We are too much inclined to believe the reports of our travelers," said P. T. Smye, in reading a paper on "Associated Loyalty."

Stomach in Your Vest Pocket. Tablets that Have the "Stomach-Power" of a Real Stomach—Stuart's Dyspepsia Tablets.

Heavy Slump in Wheat Market Bear Traders Hold Whip Hand

Bearish News Over Holiday Leaves Chicago Fit in Vulnerable Condition—Corn and Oats Lower.

CHICAGO, Feb. 13.—Wheat today suffered the most severe decline in over two months. Bearish sentiment became pronounced owing to continued big receipts and to lower cables. In consequence, the closing was 1-1/8c to 1-3/8c under Saturday's level. Corn finished 1-1/2c to 1-3/4c down, oats of 1-1/2c to 1-3/4c, and huge products less expensive by 2-1/2c to 1c.

Stop loss orders made the break in wheat much worse than might otherwise have been the case. Receipts in all directions had furnished a genuine surprise, running about double what they were a year ago. Work shipments, too, turned out to be larger than expected, and the decrease in the United States visible supply was disappointingly small. Back of the weakness in foreign markets lay the fact that Argentine exports showed signs of a marked increase.

Corn and Oats Weak. Corn values weakened chiefly because of the collapse in wheat. Favorable weather reports and previous arrivals acted likewise against the bulls. May ranged from 67 7/8c to 68 1/2c, closing steady at 68 1/4c. Cash grades were weak.

Notwithstanding a steady start, oats suffered a setback as a result of bearish feeling in the other grain markets. Support, however, developed after the dip. Outside limits reached for May were 52 1/8c to 52 5/8c, with the close at 52 3/8c, just 1/4c under Saturday night.

Northwest Receipts. Receipts of wheat in cars at primary centres were as follows: Week Year Chicago 100 100 Duluth 100 100 Minneapolis 100 100 Winnipeg 100 100

European Markets. The Liverpool market closed today on wheat 3/4d to 1/2d lower. Paris wheat closed 1/2c to 3/4c lower. Antwerp 1/2c lower. Berlin 1/2c lower. Budapest 1/2c lower.

Winnipeg Inspection. Winnipeg receipts of wheat today ended as follows: 1st class Saturday cars; No. 2 northern, 42; No. 3 northern, 51; No. 4 northern, 60; No. 5 northern, 60; No. 6 northern, 60; others, 125; winter wheat, 8; oats, 105; barley, 10.

Canadian Visible. The Canadian visible wheat supply during the past week increased 203,000 bushels, and last year a decrease of 707,000 bushels. The total Canadian visible is now 22,927,000. The visible supply of oats increased 589,000 bushels.

Western Crops. Stocks of grain at the Canadian terminal points, for William and Fort Arthur, with the usual comparisons, follow: This week Last week Fort Arthur 5,081,000 5,136,000 Port William 5,081,000 5,136,000 Increase 390,000 676,000

United States Visible. A comparison of the visible grain supplies in the United States today, and on the corresponding dates of the past two years, is as follows: 1911 1912 Wheat bu. 25,819,000 43,620,000 68,816,000 Corn bu. 10,285,000 10,271,000 10,113,000 Oats bu. 5,153,000 16,773,000 14,765,000

World's Shipments. World's wheat shipments last week totaled 2,306,000 bushels, as compared with 7,715,000 bushels in the previous week, and 12,300,000 bushels a year ago. Last week, 1,435,000 bushels; previous week, 1,623,000 bushels; a year ago, 5,255,000 bushels.

World's Shipments. World's wheat shipments last week totaled 2,306,000 bushels, as compared with 7,715,000 bushels in the previous week, and 12,300,000 bushels a year ago. Last week, 1,435,000 bushels; previous week, 1,623,000 bushels; a year ago, 5,255,000 bushels.

Winnipeg Grain Market. Wheat—On High, Low, Close, Coust. May, old, 10 1/2 10 1/4 10 1/4 10 1/4 July, new, 10 1/2 10 1/4 10 1/4 10 1/4

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of grain and 18 loads of hay. Wheat—Two hundred bushels sold at 90c and 60c. One hundred bushels sold at 90c and 60c. Hay—Sixteen loads sold at \$21 to \$23 per ton. Straw—One load of sheaf sold at \$17 per ton.

Grain. Wheat, fall, bushel, 90c to 95c. Rye, bushel, 80c to 85c. Oats, bushel, 60c to 65c. Barley, bushel, 70c to 75c. Peas, bushel, 100c to 110c. Clover, bushel, 100c to 110c. Timothy, No. 2, cwt., 100c to 110c.

Hay and Straw. Hay, per ton, \$18.00 to \$22.00. Straw, loose, 80c to 85c. Straw, bundled, 100c to 110c. Cattle, 100c to 110c. Hogs, 100c to 110c. Sheep, 100c to 110c.

Fruits and Vegetables. Potatoes, per bushel, \$1.50 to \$1.90. Onions, per bushel, 2.00 to 2.50. Turnips, per bushel, 2.00 to 2.50. Cabbage, per bushel, 1.00 to 1.50. Carrots, per bushel, 1.00 to 1.50. Beans, per bushel, 1.00 to 1.50. Peas, per bushel, 1.00 to 1.50.

Poultry. Turkeys, dressed, lb., 10c to 12c. Chickens, lb., 8c to 10c. Ducks, lb., 6c to 8c. Eggs, per dozen, 10c to 12c.

FREE DOCTORS GREY OP ALL HOPE Said She Would Die of Kidney Trouble.

"FRUIT-A-TIVES" CURED HER. MOUNTAIN, Ont., Dec. 14, 1910.—"For six weeks I suffered from dreadful Kidney Disease. My legs and lower part of my body were fearfully swollen and the pain was awful. My people thought sometimes I was dead, and would faint from the agony. Five different doctors attended me, and all said it was kidney trouble and gave me no hope of getting well. A kind neighbor told me to try 'Fruit-a-tives,' and mentioned the case of Mrs. Fenwick, who was cured by them. I bought a box of 'Fruit-a-tives' and in a short time I began to feel better, the swelling went down, the pain was easier, and the 'Fruit-a-tives' entirely cured me. All my friends look upon my recovery as a miracle, and I am unable to praise 'Fruit-a-tives' enough."

(Miss) Margie Jannack. "Fruit-a-tives" is the most scientific remedy ever discovered for Irritation or Congestion of the Kidneys, frequent Pain in the Back and Swollen Legs. 50c a box, 6 for \$2.50, or trial size 25c. At all dealers, or from Fruit-a-tives, Limited, Ottawa.

Cold Weather Was Hard on Vegetables. Enormous Losses Probable Later On—Local Fruit Trade on Fair Basis.

On the local fruit market, business, considering the especially unseasonable weather, has been fairly good, a large volume of trade doing. Reports from local gardeners, whose supplies of vegetables were thought to be safely pitted against the ordinary winter frosts, indicate that an enormous loss will in all probability be occasioned when later on stocks are opened up in the spring. This is said to be especially true of cabbages and other of the more perishable vegetables. At the present time the bulk of the produce coming on the wholesale market is shipped in from Montreal, but it is said that the cold weather in the spring, unless heavy losses have been occasioned by the severe weather in the winter, there ought to be an appreciable decline later on. What the average householder would like to see is a general lowering all along the line, but this does not seem likely to come for some time at least.

CHICAGO GOSSIP. Decided Weakness in Wheat Pit—Crop News More Favorable.

J. P. Bickell & Co. from Logan & Bryan. Decided weakness marked the wheat trade today. First indication of the weakness not only here but in all other domestic markets. The market in Liverpool over the holiday, and the Liverpool decided weakness at Buenos Aires. While the advance just lately in Argentine was not wholly denied, the movement of wheat is greatly improved, the account of the foreign brokers being held. Holders here were more discouraged than at any time since the beginning of the year, and the advance of several millions of long wheat came on the market during the session.

Chicago Markets. J. P. Bickell & Co., Law Building, report the following fluctuations on the Chicago Board of Trade: Wheat—Open High Low Close. May 102 1/2 102 1/4 102 1/4 102 1/4

Duluth Grain Market. HIGHER GRAIN PRICES ATTRACT THE FARMER

Freer Movement to Market and Quotations Already Show an Easier Trend.

The higher prices ruling in the domestic markets for Ontario grains of all kinds have brought about a freer movement to market, and local dealers report that the supply is now fully up to the demand. They have been no lowering of quotations this week on this account, but it is quite apparent that the tendency to prices is easier, and while there is generally no expectation of a decline in values, it is quite surprising to see some slight shading in quotations during the week past. This is doubtless due to the fact that the market is becoming more liberal, and the farmers are benefitting. Meanwhile the farmers of the higher range of prices. Despite the fact that the quotations on the Chicago Exchange yesterday, local prices on Manitoba wheat and oats were not changed, a fair degree of benefit is being derived. The market is becoming more liberal, and the farmers are benefitting. Meanwhile the farmers of the higher range of prices. Despite the fact that the quotations on the Chicago Exchange yesterday, local prices on Manitoba wheat and oats were not changed, a fair degree of benefit is being derived. Favorable Developments in Porcupine Camp--Market is Easier

Hollinger Under Pressure And Prices Succumb Again

Big Porcupine Issue Subjected to Mysterious Liquidation--General List a Trifle Easier.

World Office, Tuesday Evening, Feb. 13.
 Price movements in the Porcupine stocks in the local exchanges to-day were variable and somewhat uncertain. Both rallies and reactions were shown throughout the active list, and while a display of strength characterized the market at certain stages, it was also noticeable that some particular stocks were inclined to ease whenever sellings of any importance came into effect. Closing prices generally showed small losses for the day. The only security to show weakness of any account was Hollinger, and the action of this issue was so much of a mystery as to prove a complete riddle to close market interests. The price dropped down to \$11.20, a loss of 50 cents from yesterday. Steady selling was under way during most of the session and it was only in the idea that the holders were getting out in anticipation of some further uncertainty that traders found an explanation for the decline. At the close the shares were offered at the low point for the day.

Prices Are Shaded.
 Both Dome Extension and Vipond failed to maintain the high prices registered last night, a profit-taking movement being under way during most of to-day's session. The stocks registered the effect of this with a little difficulty, however, and in no instance did quotations lose very much. Dome Extension was down to 42, but closed higher at 43, a net loss of one point. Vipond was off a point at 47 and closed on offer at a fraction higher. One of the strong features of the day was Foley-O'Brien, which sold up to 23 on an improved speculative demand. There was no movement on the property and the movement was accepted as anticipatory of the resumption of work in the spring. Elsewhere prices were comparatively unchanged. Island Smelters was stronger, advanced to 11 on an improved demand.

Mines Are Faced With Water Famine

Porcupine Concerns "Up Against" Winter.

Porcupine, Feb. 12.—(From Our Man Up North.)—The greatest hardship in mine operation in the district now is the lack of water with which to run the boilers. The winter has been severe one. Surface water is gone, while the springs and small streams are frozen solid. In some instances mine managers attempted to furnish water for steam purposes by thawing snow. This, of course, was unsatisfactory, as not a sufficient amount of water could be kept on hand. In every instance where prospects showed a lack of water played an important part in the closing. After battling with the "no water" problem for several weeks, the Apex was at last forced to close. The Imperial was also a victim of "no water."

Union Bank at 167 In Montreal Market

General List Quiet and Featureless—Merger Talk Lacks Definite Trends

MONTEAL, Feb. 12.—Except for Union Bank and Quebec Railway shares, prices were practically motionless on the Montreal Stock Exchange today. Union Bank made up for some of the listlessness by selling at 167 on sales of 100 shares, an advance of 12 1/2 points over the last sale on the local exchange, and just level with the price to which the stock was bid up yesterday without any shares coming out. Quebec was inactive after the surge of yesterday, when the sales of the stock were over double of the total for the year to date, and both stocks were weaker in the afternoon session. Union was offered at 166 and Quebec at 157, a point lower in each case than yesterday, without any shares of either stock being sold.

Merger talk lacked definite trend today and the movement started yesterday seemed to be stopping up short. Quebec Railway came to the front in the last transaction, and sold up 16 1/2 in the closing, and the average price at which the stock has been selling recently, and 2 1/2 points over its level of the day. Rodolphe Forester, the firm was the principal buyer. Sales of this stock for the day amounted to 148 shares.

Changes in the rest of the list were small, gains being offset by small losses elsewhere, and the trading lacked snap and interest. The business of the day amounted to 342 shares.

Standard Bank Had a Good Year

Earnings Over 19 Per Cent. on Capital—Big Increase in Deposits

The profit and loss statement of the Standard Bank of Canada for the year ending 31st January, 1912, has been issued. It shows net earnings of 19 per cent on the paid-up capital for the year. The figures are:

Net profits for the year \$331,091.10
Balance from last year \$4,732.48

Total \$335,823.58

Which will be paid as follows:
Three quarterly dividends at a rate of 12 per cent per annum, \$180,000.00
One quarterly dividend at a rate of 12 per cent per annum, \$45,000.00
Contributed to officers' pension fund \$10,000.00
Written off bank charges \$2,000.00
Transferred to reserve fund \$100,000.00
Balance profit and loss carried forward \$1,833.58

Total \$436,823.58

The bank is now paying dividends at the rate of 12 per cent per annum. A substantial increase in the business is apparent in the general statement, which shows a paid-up capital of \$2,000,000, and reserves fund and undivided profits of \$2,661,283.58. The total deposits amount to \$30,116,808.85, an increase for the year of \$6,000,000. The total assets now amount to \$37,511,317.73. The annual meeting will be held at the head office on the 21st inst.

INTERESTING NEWS IS EXPECTED TO-DAY

The annual meeting of the Winnipeg Electric Railway Co. will be held at the company's office in Winnipeg today (Wednesday). The chief interest centres in the anticipated announcement of a new stock issue, the general idea being that the capitalization will be brought up to \$2,000,000 by the issuance of \$3,000,000 of new stock at a price very advantageous to the shareholders. Sir William Mackenzie is the president of the company.

Mr. White Speaks on Investments

R. M. White, manager of the Royal Securities, spoke last evening to the "Knights of Columbus" on investments, which he gave a review of the various forms of conservative investments, comparing the advantages and disadvantages of the three forms of investment—the first mortgage on real estate, the industrial bond and the investment stock, arguing that the investment bond has greater advantages and less disadvantages than in the case of the other two investments.

United States Trade Decreases

WASHINGTON, Feb. 12.—(Can. Press.)—The United States for January, 1912, were \$106,094,347, against \$110,201,805 in 1911. For the seven months ended January exports were \$600,508,410, as against \$555,132,342 in 1911.

Professionals in Wall Street Work Stock Market Both Ways

Closing Prices on Securities Were at Substantial Advance—Short Covering Movement Under Way.

NEW YORK, Feb. 12.—Professional traders in stocks began the day with an effort to put prices down, but although the market was somewhat unsettled at the outset, they were able to make little impression on the list. The attack having failed, operations were begun on the other side of the market, and they met with more success. After holding firm thru the day, the market advanced, and the closing prices were advanced from 1 to 2 points. Stocks were offered rather freely when the market opened, with the attack concentrated on U. S. Steel, which gave way to 15 1/4, the lowest price of the year. The list closed off, but losses were not large, and there seemed to be indications of "renewed accumulation" of some stocks. The movement in the Hill group attracted special attention. Buying of these stocks was evidenced by the testimony of James J. Hill before the Stanley Investigating Committee, implying that, in his opinion, the Great Northern ore property was worth at least \$500,000,000.

The government's statistics of the country's agricultural exports yesterday showed a slightly smaller total than in the corresponding month last year, but otherwise it has been exceeded twice in the period. The showing was significant in view of the fact that cotton, which is by far the largest item in the shipments, is going out at an average price of a third lower than that of January, 1911.

European Bourses.

PARIS, Feb. 12.—Prices were firm on the bourse to-day.

BERLIN, Feb. 12.—Prices closed weaker on the bourse to-day.

To Increase Capital.

The Northern Ohio Traction & Light Co. has applied to the Ohio Public Service Commission for authority to issue \$2,000,000 additional stock.

Proceeds are to be used principally for doubling track, new cars, a new freight and passenger terminal at Akron, and the completion of the new power station at Cuyahoga Falls.

JULY STEAKS NO LONGER CANADA'S CATTLE LOW GRADE

The Stock Industry Has Fallen Sadly in Standard Say Men Who Know—West Needs Mixed Farming—Carriage and Saddle Horses Nearly Extinct Species.

OTTAWA, Feb. 13.—(Special.)—Why it is that we do not get those nice juicy steaks now? asked John Gardhouse today at the meeting of the National Live Stock Convention, being held in St. Patrick's Hall.

And then he gave the answer, and it is not a pleasant one for householders to consider. It is that beef farmers are entirely indifferent to the class of cattle that they breed.

Some of the reasons for this are the high prices of land, and the high prices of food stuffs, which are all helping to keep up prices. There is also the lack of feed.

Herbert Smith of Toronto discussed the question of the market for Canadian horses. The domestic market will take the whole supply.

That the Dominion Government should purchase a thousand acres to start an army remount station.

The quality and quantity of draught horses, he said, was diminishing. He urged that they should turn their attention to the western market.

That the department of agriculture should be enabled to meet in convention once every two years.

That legislation for stallion registration, already existing in four provinces be extended to the other provinces.

That the Dominion Government adopt a policy for the control and eradication of bovine tuberculosis.

That the department of agriculture purchase and appoint to foster the live stock industry.

That some permanent arrangement be made by the minister of agriculture by which the National Live Stock Association be enabled to meet in convention once every two years.

A vote of thanks for the good work done by the commissioners.

MOORE PARK ANEXATION IS ONCE MORE DEFERRED

Opposing Deputations Each Claimed to Have Signatures of a Majority of Property Owners—Experts Examined the Reservoir and Controllers Will Do Also.

Deputations urging and opposing the annexation of Moore Park west of the board of control yesterday morning, each claiming that their respective deputations had the signatures of a majority of the property owners.

The matter stand until the city clerk could verify the petitions, and reports made over an hour the board decided to adjourn until the city clerk could verify the petitions.

J. S. Fullerton, K.C., representing the annexation, said that the geographical situation of Moore Park required that the city should take it over.

For future connection with the north end east, all roads ran through this property and these would provide thoroughfares and would be a means whereby the street railway services could be extended between 25 and 30 per cent of the residents, he said, were willing to come into the city, and had signed a petition to that effect.

It was said a very beautiful district, quite the equal of the Avenue-road district, and would, if taken into the city, add just as great a tax revenue.

At the present time there were practically no facilities available, and with the exception of the front street, the territory was without water or sewage systems. Adequate sanitary precautions had not been installed, and unless the district were annexed it might become a dangerous sanitary ground.

Nelson Was Opposed J. Nelson, Jr., took exception to Mr. Fullerton's statement that from 75 to 80 per cent of the residents wished to be annexed to the city.

He said, he was already signed by 32 per cent of the land holders in the district. He thought that there was water available at the present time in the city could give, and the Township of York had quite as rigid sanitary regulations as Toronto.

The residents in the district were in the most cases paying for their homes, and it would be desirable if the city taxes were imposed. "We don't want to go into the city," he said, "it is too soon and we have everything we need now."

William Marr said it was the real estate men who were behind the annexation idea. He had built himself a home there, which he would have to leave if he had to pay city taxes.

J. Perry pointed out that other districts had considerably improved in value on being annexed to the city. If this territory were not acquired at once it might be tied up with franchises. He thought that the sentiment of the district was in favor of annexation, and the residents were willing to pay for city conveniences.

For Children's Hospital A communication was read from J. Ross Robertson, asking that the board and the city council submit a by-law to the people for the purpose of contributing the sum of \$250,000 towards the new wing and general improvements to be undertaken in connection with the Sick Children's Hospital.

For Fruit Growers' Exchange The board of control yesterday afternoon made up the institution. The matter was laid over till Friday.

The assessment commissioner told the board that he valued the city's vacant

WAKE CANAL NATIONAL WORK

Water Powers of Georgian Bay Project Should Be Developed by State, Says W. F. Maclean.

OTTAWA, Feb. 13.—Desiring from the government a declaration of their policy regarding the Georgian Bay Canal, W. F. Maclean asked in the railway committee that morning that the bill calling for a renewal of the canal charter be not passed until the government have stated their stand.

Several arguments intended to restrict the rights of the canal company were submitted. W. F. Maclean insisted that the valuable water power that would be made available by the canal should be developed by the state.

He regarded the canal as a national project and that would compensate the company for its expenses. Chairman Haughton Lennox suggested insertion in the bill of clauses that would provide that the company would have no expropriatory rights in acquiring power, that its rates would be under the control of the railway commission and that municipal consent would have to be secured to pass through municipalities.

Contenting Provincial Rights. Contending that provincial consent should be necessary to the taking of water powers to prevent the company grabbing valuable rights in Ontario, G. Lynch-Staunton, K.C., proposed an amendment requiring the consent of the province.

"Everything incident to the building of this canal," said Samuel Barker, replying to the counsel for Ontario, "is under our right, and no province has a right to interfere. We can build a railway line through the city hall of Toronto if so legislated."

Following a prolonged discussion on the legal aspects of the proposed changes to the bill, the preamble was adopted, W. F. Maclean dissenting.

There was also a lively scrap over Councillor Reid's suggestion that a smoke bylaw be introduced. The plan had been coming in to council since the late autumn, but it was not adopted. The number of men at present employed is 33, and the city claims that more cannot profitably be employed.

They looked very kindly on Chairman Reid's proposal to foster the planting and care of trees on the public streets, and something in the way of a scale will doubtless be undertaken.

The proposal to provide better accommodation for the members of the press met with general endorsement, but his worship the mayor for some time refused to give a definite decision.

Engineer Brooks submitted a scheme for the development of the Glebe property on the east side of Yonge-street, belonging to the Corporation. The plan was entirely acceptable to the council, and the proposal to develop the Glebe property was carried out.

Finance and water, fire and light committees meet on Thursday night. Friday afternoon a meeting of the roads committee will meet for the election of officers and other business.

THORNHILL. The congregation of Trinity Church, Thornhill, propose holding their annual St. Valentine's social to-morrow evening in the Toronto Hall, Tea will be served from 5 to 8, after which an execution musical and literary program will be rendered.

FARMERS' BANK ENQUIRY Sir William Meredith Commissioned to Make Thoro Investigation. OTTAWA, Feb. 13.—An order-in-council was passed this morning appointing Chief Justice Sir William Meredith special commissioner to investigate the affairs of the Farmers' Bank. The scope of the enquiry is to be very broad, and is known by the order-in-council. He is directed to report into the incorporation by act of parliament of the Farmers' Bank of Canada and the organization thereof.

The application for and the giving by the treasury board of the certificate permitting the bank to issue and commence the business of banking. The conduct and operation of the business of the bank, the amount of capital subscribed and paid up, the causes of the suspension and failure, the extent of the liabilities and the value of the assets thereof.

TURKS WERE BEATEN OFF. DERNIA, Tripoli, Feb. 11.—(Delayed in transmission.)—The Turks in force made two determined attempts to rush the Italian line last night, but were beaten off after desperate hand-to-hand fighting. The Turks used hand grenades, but these failed to do any harm. The Italians were greatly aided by dogs, which gave warning of the approach of the Turks. They also threw their searchlights on the advancing forces. The Turks lost sixty killed, while the Italians lost 3 killed and 22 wounded.

MARY MAY NOT GET IT. City Solicitor Johnston was of the opinion yesterday that the arbitration award to Mary P. Macdonald, by which she obtained the sum of \$1757 for the cost of ten feet wide on a 37 foot lot on St. Clair-ave, was an extant figure. It was found, he said, that there was any mistake in the award, it would be made to the supreme court, since, taking this award as a basis, a large sum of money would have to be expended to widen St. Clair-ave.

LABOR DEMANDS ADULT SUFFRAGE. LONDON, Feb. 13.—(Can. Press.)—At a suffrage demonstration held here to-night, James Ramsay MacDonald, socialist and labor member for Leicestershire, declared that the labor party would use every particle of its influence to secure the suffrage at the coming session of parliament. The party, he added, was even prepared to turn the government if it refused to pass the bill.

The "Why" of Central Station Power

POWER transmission, once limited to the immediate vicinity of production, was made possible over a wider area by the discovery of the electric current. Electricity has been found to be the most convenient, reliable and economical medium of power-transmission. It may be carried to any point where its use is desired.

"ISOLATED" POWER PLANTS. Until recently, there was a limit to the distance the electric current could be satisfactorily conveyed. This led to the building of "isolated" or individual power plants. These are expensive establishments with machinery for every process in the generation of power from coal or other fuel. Isolated plants include boilers, chimneys, engines, pumps, shafting, belts, pulleys, dynamos and motors. A collection of elaborate machinery, the isolated plant is necessarily expensive. The generation of power from fuel is expensive, because high-class labor must be employed, because the original investment is large, because valuable space is occupied, and because, at best, the plant breaks down occasionally.

THE NEWER AND BETTER SYSTEM. The "newer and better" system has for its heart a huge plant called a "Central Station," which distributes electrical power to thousands of individual users. It is obvious that such a plant, generating power in quantity, is in a position to develop power at much lower cost than the small private plant—it can, in other words, sell its power at a profit to individuals at a lower price than those individuals can develop it themselves.

STEAM RESERVE. Such a system is maintained by the Toronto Electric Light Company. It is connected by "high tension" lines with a great power plant at Niagara Falls. Also, there is a steam reserve, consisting of engines, generators, and the latest type of steam turbines, ready at a moment's notice to give service in case of emergency.

YOUR PROBLEM SOLVED BY EXPERTS. Power and service are provided by the Toronto Electric Light Company's Central Station System. Specialists, trained in every phase of the power question, are available, not only to supply power, but to give expert service to the utmost of your possible requirements. They investigate and solve your power problem as though it were their own.

Call upon them; they're at your service—for "the power that pays."

Toronto Electric Light Co. LIMITED 12 Adelaide Street East Telephone Adelaide 404

"NIAGARA POWER BACKED BY STEAM RESERVE"

G.T.P. WATER TERMINALS WILL COST \$7,500,000. Biggest Dock Contract Let in Canada—Work to Cover Five Years. Talk of National Convention to Report Measure—Must Have Legislative Freedom.

OTTAWA, Feb. 13.—(Special.)—The government has agreed to enter into a contract with the Norton-Griffiths Co. for the development of deep water terminals for the Grand Trunk Pacific at Courtenay Bay, St. John. The contractor undertakes to complete the work in five years, for a sum of \$7,500,000, and it is probably the biggest dock contract ever let in Canada.

The undertaking is a big one, involving the dredging of the basin, the construction of docks, freight filling for railway yards, the construction of breakwaters to shelter shipping, and finally a drydock of the first class, which will accommodate anything afloat.

When the scheme is finished, the St. John Valley Railway will connect with the G. T. P. and thus the ocean port will be directly connected with the G. T. P.

Attorney-General Governor and Provincial Secretary MacLeod were here to-night arranging final details.

Charged With Theft. Leonard Williams, an employe of the Great West Security Co., Kent Building, Yonge-street, was arrested last night charged with theft of \$534.22. The information was laid by Thomas B. McInnis, who claimed that the money was stolen in a land deal.

THINK HOME RULE BILL DOESN'T GO FAR ENOUGH. LONDON, Feb. 13.—(C. A. P.)—The home rule bill, as announced by Winston Churchill, is being discussed all over Ireland and general disappointment is expressed over the financial proposals. Various public bodies suggest that if Ireland is not given full control of all taxes levied in the country a national convention should reject the proposal.

Patrick White, M.P., to-night said that unless under home rule the Irish parliament had full and free legislative authority the bill would be useless. At a meeting of the executive of the United Irish League, held at Drogheda, N. T. Murphy said that the only measure of self-government acceptable would be one that would give Irishmen full power to deal with everything concerning Ireland and full control of every tax.

DEATH OF MRS. LASH. After a lingering illness of six weeks, Beattie Miller, wife of Z. A. Lash, K.C., passed away last evening in her 61st year. Mrs. Lash was born at Dundas in 1846, and afterwards lived in Waterloo, and from there she went to Galt. Mrs. Miller is survived by three sons (Miller Lash, Fred J. and J. F.), and one daughter (Mrs. T. D. McMillan of Princeton, N.J.). W. M. Miller, K.C. of London, England, and H. Miller of British Columbia are brothers, and Mrs. J. B. Lash of this city is a sister. In religion Mrs. Lash was a Presbyterian. The funeral will be private.

DR. A. W. CHASE'S 25c CATARRH POWDER. Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops discharge in the throat and permanent cure Catarrh and Hay Fever. Use a box. Now free. Accept no substitutes.
