CARS WILL RUN FOR CITIZENS' BENEFIT

Mayor Geary Assured East End Residents That Service Would Be Inaugurated in a Few Weeks, and Will Be Run at a Loss in Order to Provide Accommodation.

On account of several rumors which have received considerable credulity throughout the eastern section of the city, with regard to civic enterprises and intentions, the mayor attended the meeting of the Eastern Ratepayers' Association, at MacPherson's Sunday school rooms, Dawes road, East Toronto, last night.

The mayor was told that it was the intention of the city to carry the civic car lines only as far as Greenwood's avenue, on the Danforth avenue portion, on account of the grading necessary on that portion extending easterly from Greenwood's. This he emphatically denied, and stated that the work, which already has reached Pape avenue on Danforth, would be rushed as far as Greenwood's this fall, and pushed on from the latter street as soon as the spring thaw set in.

He also stated that in order to comply with the urgent appeal of the residents of the east, it had been decided to facilitate the running of cars on the Gerrard branch in approximately six weeks, but that citizens were not to expect a profit from the inception of the service, as the city was starting the service against the advice of Commissioner Harris, and it was only as a means of procuring a convenience for the easterners that the proposition had been at all entertained.

Dr. Edwin Jeffries of the Staff Succumbs, and Ten Others Are Suffering From Epidemic Believed to Be Traceable to Ice Supplied to the Institution.

HAMILTON, Thursday, Oct. 17.—The first death from the typhoid epidemic at the Hamilton Asylum for the Insane was recorded yesterday afternoon, when Dr. Edwin Fleming Jeffries, one of the asylum medical staff, succumbed to an attack of the disease. Dr. Jeffries had been ill about two weeks.

The typhoid epidemic, which is now raging at the asylum, broke out a month ago, and, up to date, there have been 11 victims of the fever.

The outbreak of the disease is believed to be due to the presence of typhoid germs in the asylum's ice supply, which was harvested last winter from stagnant water in a reservoir which was supplied from a spring situated close to an old cemetery, several years ago. The provincial board of health condemned the spring on account of its proximity to the burying-ground. The local authorities, however, considered the spring water pure, and for the past few years it has been used to feed the reservoir.

There is some difference of opinion at the asylum as to whether the water from which the ice was cut was contaminated at its source, or whether it became infected in the reservoir after becoming stagnant. Dr. English, superintendent of the asylum, last night declined to discuss the matter.

Dr. Jeffries was 26 years of age and had been on the asylum staff for about three years. He was unmarried and his home was in London, Ont., where his father died three weeks ago. Funeral services were held at the asylum last night by Rev. Dr. J. V. Smith of Centenary Methodist Church.

The body will be taken to London on the Grand Trunk at 9 o'clock this morning and interment will be made there Friday afternoon.

At a meeting of the High Park Ratepayers' Association, to be held tonight in Howard Park School, the annual distribution of prizes for the best kept lawns and gardens of that section will take place. Mayor Geary will preside at the meeting.

Wounded Are Neglected LONDON, Oct. 16.—(Can. Press.)—Considerable bodies of Serbian troops have been sent across the Bulgarian border to join the Bulgarian army, says a despatch from Niuch. Describing the terrible condition of the hospital at Tush, a Podgoritz correspondent says that a hundred wounded Turks are lying about half naked awaiting treatment. The floors are littered with putrid medical dressings. The Turkish doctors are apathetic, doing nothing. It is thought probable that the fighting will cease for a few days, the southern army having suffered heavily. The official figures of 1000 killed and wounded probably is an under estimate.

TYPHOID'S TOLL AT HAMILTON ASYLUM

Dr. Edwin Jeffries of the Staff Succumbs, and Ten Others Are Suffering From Epidemic Believed to Be Traceable to Ice Supplied to the Institution.

HAMILTON, Thursday, Oct. 17.—The first death from the typhoid epidemic at the Hamilton Asylum for the Insane was recorded yesterday afternoon, when Dr. Edwin Fleming Jeffries, one of the asylum medical staff, succumbed to an attack of the disease. Dr. Jeffries had been ill about two weeks. The typhoid epidemic, which is now raging at the asylum, broke out a month ago, and, up to date, there have been 11 victims of the fever. The outbreak of the disease is believed to be due to the presence of typhoid germs in the asylum's ice supply, which was harvested last winter from stagnant water in a reservoir which was supplied from a spring situated close to an old cemetery, several years ago.

There is some difference of opinion at the asylum as to whether the water from which the ice was cut was contaminated at its source, or whether it became infected in the reservoir after becoming stagnant. Dr. English, superintendent of the asylum, last night declined to discuss the matter. Dr. Jeffries was 26 years of age and had been on the asylum staff for about three years. He was unmarried and his home was in London, Ont., where his father died three weeks ago.

At a meeting of the High Park Ratepayers' Association, to be held tonight in Howard Park School, the annual distribution of prizes for the best kept lawns and gardens of that section will take place. Mayor Geary will preside at the meeting.

BECKER LOOKED FOR MURDER REWARD

Fellow Prisoner in Tombs Says He Heard Former Police Lieutenant Tell Detective That Public Would Give Him Pension for Disposing of Gambler.

NEW YORK, Oct. 16.—(Can. Press.)—"When this sensation blows over the public will give me a pension for killing that crook, Rosenthal." These are the words attributed to Police Lieut. Charles Becker by James D. Hallen, his fellow-prisoner in Tombs, at today's session of Becker's trial on the charge of investigating the murder of Herman Rosenthal, the gambler who "squealed" against him.

Hallen was one of 15 witnesses who testified today for the state. Assistant District Attorney Moss announced when adjournment was taken that he had only one or two more witnesses to call to complete the case for the people. Mrs. Herman Rosenthal, widow of the gambler, the first witness of the day, testified that Lieut. Becker, her husband's alleged partner in his gambling house, had said to her on the occasion of a raid he had made on the establishment: "It's either Herman or me." This is the so-called fake raid which the prosecution claims was forced on Becker by his superior officers.

Mrs. Rosenthal testified also that when she came to bury her husband she had only \$100 to her name, all that had been left by Rosenthal. This was a bit of testimony elicited by the state with intent to spite the guns of Becker's defence.

Often Seen With Rose. "We introduced this," said Assistant District Attorney Moss, "because it had been claimed by the defence that gamblers gave Rosenthal \$25,000, or some such sum, to insure his silence." Members of the household of Jack Rose, Becker's alleged graft collector, told of frequent visits of the accused police official to Rose's home.

WANT AN AUTO OR PIANO FREE? The Chance to Enter The World's Big Proverb Contest is Still Yours—See the Second Page.

After you have all the back numbers of the proverb, you will only need to follow up the contest each day by buying a copy of The Daily and Sunday World, and solve the proverbs as they are published. Send the required amount for the back proverb and get started in this great contest at once.

HEALTH'S GREAT HATS FOR MEN. Henry Heath of London, England, is the most famous maker of men's hats in all the world. He is acknowledged as the man on whom every other manufacturer waits for hints as to styles, because Heath is the maker, by royal warrant, to His Majesty the King of England, and the other crowned heads and nobility of Europe. The D. Neen Company, 140 Yonge-street, is sole Canadian agent, and is now showing the newest fall designs.

Bulgarians Fire at Turks CONSTANTINOPLE, Oct. 16.—(Can. Press.)—Official information has been received that there was an exchange of shots throughout yesterday between the Turkish and Bulgarian guard on the frontier. The firing was resumed today around Djumhuk. In the fighting on the northern frontier of Montenegro today, the Albanian volunteers have held the Montenegrins in check. Many wounded have reached Jakova. From Ipek comes word that the Gushnje, Plava and Ragova regions have been cleared of Montenegrins, and that the Turkish forces have advanced into Montenegrin territory.

BOUGHT STOLEN STAMPS FROM BOYS

Morris Zesar, a Lunch Man, Taken into Custody on a Charge of Inducing Office Boys to Steal Stamps and Sell Them to Him at Reduced Prices.

Schooling office boys in crime is what the police allege Morris Zesar, 99 Elm street, has been doing for at least the last six months. Zesar, who carries a portable lunch counter around with him, was arrested last night about 6 o'clock by Acting Detectives Levitt and Elliott on a charge of receiving stolen property.

STOLE MILLIONS FROM BELGIAN RAILWAY Defalcations Amounting to \$5,600,000 Discovered Through Finding of False Share Certificates—Manager Has Disappeared and Traffic Manager Has Been Arrested.

BRUSSELS, Belgium, Oct. 16.—(Can. Press.)—Defalcations already aggregating the huge sum of \$5,600,000, and consisting in large part of the Gand-Tourneuse Railroad here, thru the accidental discovery of false certificates among a small parcel recently sold, Nestor Wilmart, the manager of the company, has disappeared and it will probably take a considerable time to determine the full extent of the financial disaster, in which are involved 21 banks as well as scores of investors who thought themselves possessed of valuable securities.

KILLED BY FALL FROM HIGH ROOF C. S. Hutchinson Was Shingling a House When He Lost His Footing and Fell to Pavement.

MINISTERS LEAVE SOFIA. Sofia, Oct. 16.—(Can. Press.)—The members of the Turkish legation left here at 10 o'clock tonight. They were given safe conduct thru Bulgaria. Harvey is Not Guilty. Dr. J. G. Harvey was found not guilty of the charge of forgery yesterday in the sessions. Harvey was arraigned along with Dr. Evans, who was recently found guilty of the same charge.

MONTENEGRO IS STILL ALONE IN FIGHT

Hesitancy of Bulgaria and Servia, Combined With Italy's Freedom to Enter Peace Conference, Giving Renewal of Hopes—Montenegrins' Victories Costly.

LONDON, Oct. 16.—(Can. Press.)—The Balkan fighting remains limited to the Montenegrin border, and although the relations of Turkey with the other allied states are virtually broken there is a curious indistinctness on the part of Bulgaria and Servia to take a final place in the hostilities.

STOLE MILLIONS FROM BELGIAN RAILWAY Defalcations Amounting to \$5,600,000 Discovered Through Finding of False Share Certificates—Manager Has Disappeared and Traffic Manager Has Been Arrested.

BRUSSELS, Belgium, Oct. 16.—(Can. Peril of Blood Poisoning Still Menaces Roosevelt His Condition Unchanged

If Friday Passes Without Complications Physicians Will Deem Crisis Over—Discovery of Fractured Rib Has Increased Uneasiness—Mrs. Roosevelt Firmly Bars Out Would-be Callers.

CHICAGO, Oct. 16.—(Can. Press.)—Adhered firmly to her resolution. The colonel was "feeling fine and ready to receive visitors" but Mrs. Roosevelt gave him no opportunity to pass on her ruling, for she made it on her own authority and saw to it that it was enforced. She received the cards and messages for her husband and sent back her replies, with the result that the colonel himself did not know who wished to see him.

Not Worried Over Campaign. The impression grew today that Col. Roosevelt would be able to do little or nothing more in the campaign. Although he expressed the hope of leaving for Oyster Bay on Sunday, it is probable he will be compelled to remain in the hospital for at least a week longer, and that after his arrival at home he will not be permitted to plunge into the campaign again.

STATE WITNESS WAS ATTACKED Government to Investigate "Slugging" of Hotel Clerk, Who Testified Against McManigals.

INDIANAPOLIS, Oct. 16.—(Can. Press.)—U. S. District Attorney Charles W. Miller tonight telegraphed Attorney General Wickersham asking the department of justice to make a rigid investigation of the reported slugging at Kansas City, Mo., of H. E. Pearce, who testified on Monday as a witness for the government in the dynamite conspiracy trial.

DUNCAN IS RELIEVED FROM DUTIES; KENNEDY BECOMES NEW INSPECTOR

Police Commissioners Allowed Former Inspector to Resign in Order to Obtain His Pension - Sergeant Mackie Goes Back to Headquarters Staff.

Staff Inspector George Kennedy of morally department was yesterday appointed inspector of detectives by the police commissioners after they had accepted the resignation of Walter Duncan. With Col. Denison dissenting on the board passed the following resolution:

Inspector Duncan's resignation is hereby accepted. That he be seconded or relieved from duties from today and his salary to cease from Nov. 1, 1912, he to pay the benefit fund, the percentage the same as he is at present paying per annum, to be paid monthly until thirty years have elapsed from the day he entered the force. On doing this he will become entitled to his pension on the basis of his present salary.

Sergeant of Detectives Mackie has been ordered back to his former duties for the present, reads another extract from the report of the commissioners.

Acting Sgt. of Detectives McKimney will likely take charge of the morally department until a new inspector is appointed.

Col. Denison made a vigorous protest as at Tuesday's session. He held that Duncan should be discharged forthwith. Judge Winchester and Mayor Geary could not see it in this light.

While not wishing to express an opinion on the outcome of the Dominion freight rate investigation, Sir Donald Mann, vice-president of the C. N. R., states the position of the Canadian Northern on the matter as follows:

"The C. N. R. at the present time is building from 400 to 500 miles of branch lines a year. I do not say that the present rates are perfect, but if they should be reduced at this time, such reduction might materially affect the credit of the Canadian railways, and hamper the work of construction.

While not wishing to express an opinion on the outcome of the Dominion freight rate investigation, Sir Donald Mann, vice-president of the C. N. R., states the position of the Canadian Northern on the matter as follows:

While not wishing to express an opinion on the outcome of the Dominion freight rate investigation, Sir Donald Mann, vice-president of the C. N. R., states the position of the Canadian Northern on the matter as follows:

"The C. N. R. at the present time is building from 400 to 500 miles of branch lines a year. I do not say that the present rates are perfect, but if they should be reduced at this time, such reduction might materially affect the credit of the Canadian railways, and hamper the work of construction.

"If the freight rates are lowered, these profits will be diminished, and construction will be retarded for lack of funds. The Canadian Northern Railway, therefore, has more at stake in this question than the C. P. R. The Canadian Pacific are an established road, while we are not. We are not even getting the full benefit of those portions of our lines which are paying, because we merely feed the C. P. R. and must continue to do so until our transportation is built."

INADEQUATE LAW FOR WORKMEN IN ONTARIO

N. W. Rowell Says Compensation Should Be Paid Without Litigation, and That Systems in Other Countries Should Be Studied in Order to Get Legislation Suitable for Ontario.

"The legislation of Ontario in regard to workmen's compensation is totally inadequate," said N. W. Rowell, K.C., addressing the members of the Insurance Institute, at their meeting and dinner last evening. The subject of workmen's compensation concerns everyone, but especially the employer of labor, the employee, the insurance companies and the lawyers, he said.

"When we consider the fact that the average wage of industrial workmen is \$35 per annum, and in connection with this the high cost of living, we can readily see that an accident that takes away the bread-winner from a family, leaves that family practically penniless."

Mr. Rowell showed the difference between what was known as the common law, and the present legislation, as regards compensation to the workmen for injuries received. Under the common law, the liability of the employer was confined to those accidents only which were due to negligence on the part of the employer. The present legislation changes the common law in as far as a workman may sometimes receive indemnity for accidents due to the negligence of the superintendent, or to the works of plant, or to the negligence of the workman himself.

Without litigation, workmen's compensation should be paid without litigation, as lawyers' fees usually eat up practically all the money which a workman receives after fighting against rival employers and insurance companies in the courts.

"If," said Mr. Rowell, "we can get better conditions for the employe by the elimination of both insurance companies and lawyers, we should get it. Mr. Rowell presented a paper on the subject of workmen's compensation, far behind the other civilized countries in this matter."

In conclusion, Mr. Rowell said that Ontario should study the systems of other countries, and try to get legislation suitable to the conditions existing in this country.

Continued From Page 1. Swedish maid swore that Becker was accustomed to breakfast with her master "nearly every day since Christmas."

Two waiters from the Union-square hotel told of frequent meetings between Rose and Becker in the hotel dining room, when they talked a long time.

One of the waiters said he saw Rose pass the police lieutenant "a roll of bills."

Hallen testified that last August, while he was an inmate of the Tomlinson prison, he heard a conversation between Becker and Detective White, formerly of the police lieutenant's strong-arm squad of gambling raiders. White had been locked up on a charge of "framing up" Jack Zeig.

The witness could not recall the exact date, but from a memorandum, to which he referred, he thought the conversation occurred on Friday.

Becker's Boast. "White said," he witness testified, "Chief, I have been looking for you. I have it straight that they have arrested Lou and that he has given me the whole thing up." Becker stepped out of the bathroom.

WANT CANALS TO BE KEPT OPEN LONGER

Dominion Government Will Be Asked to Extend Date of Closing Navigation Until the End of November, in Order to Facilitate the Removal of the Western Crop.

It is now considered practically certain that, with favorable weather conditions prevailing, the Dominion Government will be asked to keep the waterways open this year as long after the usual date of closing as the season as safety will permit. The regular date for closing is Nov. 30, but with the harvest nearly a month later than usual, serious freight congestion is sure to result. This condition, however, would be relieved to a considerable extent if the steamship freight lines are established to operate for several weeks after the regular close of the season.

In discussing the matter yesterday the traffic manager of the Merchants Mutual Line said, "We are a long way from Nov. 30 yet, and it is impossible to tell what the weather may be like at that time. But should it prove to be open there is no doubt that every effort will be made to secure an extension. The government will probably accede, as there is seldom any opposition, if it can be shown that trade conditions warrant the prolonging of the season."

The process of printing without ink is said to have been accidentally discovered by an English inventor. In the course of some electrical experiments the inventor pressed a coin, which had fallen on the table and was rolling off, against a metallic plate covered with a piece of paper and at the same time against an insulated electric wire. To his amazement he saw a sepia print of the coin impressed upon the paper.

According to the particular metal used for the substratum and according to the mode of impregnation of the paper, a great variety of different colors can be produced, so that multi-color printing becomes an easy matter.

Help Old Country Girls. Miss Carmichael, superintendent of the Toronto Social Service Redemption House, has resigned. She will take up the work of placing old country girls in suitable positions in Canadian homes.

Monteale Leaves Yokohama. The C. P. R. steamer Monteleale sailed from Yokohama on Monday afternoon, Oct. 14.

PUT MORE MEN ON BELT LINE

Grand Trunk Railway Will Complete the Road, and May Build New Station.

The Grand Trunk are now very anxious to complete the belt line and have put more men on the work. The distance to be retraced and rebuilt is about two miles, and extends from Yonge street north to the Don Valley Brick Works. There is talk of the Grand Trunk putting a station at North Toronto for the accommodation of sleepers and other passengers who wish to leave or arrive there instead of at the front.

Caught in a Sahara Sand Storm. Describing a sandstorm in the Sahara Desert, a writer in The Wide World Magazine says that it came down without any premonition save an oppressive stillness of the air and a stifling temperature. Then, all of a sudden, the whole Sahara seemed to rise into the air.

REPLY TO HELP DAY COST OF ROADWAY

Ontario Government is Willing to Assist Financially in Constructing a Permanent Highway Between Toronto and Hamilton, and Project Probably Will Be Carried Thru.

That the proposed permanent highway between Toronto and Hamilton, on the lake shore, will, in the near future, materialize, is the firm conviction of about 100 enthusiasts who visited the parliament buildings yesterday afternoon. Hon. J. J. Hanna, who, with Hon. J. S. Duff, received the deputation, assured the members that the government would be willing to assist financially in the construction of the roadway, and was ready to pass special legislation in the event of such being required.

Hon. Mr. Hanna made a strong denunciation of the present roadway and believed that the time of fixing it was long overdue. "It is a shame that this road is in such a condition," he said. "I traveled it once, but I will not attempt to do so again until it is rebuilt." He said that he could give no assurance as to the amount of money the government would contribute toward the construction of a permanent roadway, but he believed that the government was willing to assist very materially toward putting the driveway in a proper condition.

NEPHEW OF DIAZ IS ON MARCH

Standard of Rebellion is Highly Popular in Vera Cruz - Gunboats Seized.

MEXICO CITY, Oct. 16. (Can. Press.)—The army, the police and the marine corps stationed at Vera Cruz, on the Gulf of Mexico, enlisted today under the rebellious banner raised by General Felix Diaz, a nephew of ex-President Porfirio Diaz.

Two gunboats lying in the harbor of Vera Cruz have been taken by Felix Diaz.

The plan, which has been perfecting for many days, has been carried out smoothly.

Diaz returned to Vera Cruz and entered the city quietly early today.

With a lieutenant and a small following, he arrested the director of the arsenal and the commander of the garrison, but released them later on parole.

He then took over the government offices without opposition. All saloons, banks and business houses have been closed and the citizens of Vera Cruz are enthusiastically accepting the Diaz control.

THE CIVIC CAR LINES.

Whatever the difficulties may be in establishing a service on the newly constructed civic car lines, they must be surmounted. No one ever expected that stub lines would show a profit in serving the people in the suburbs. Had there been any profit in sight, the Street Railway Company would have been going to law to build the lines instead of going to law not to build them.

Under exciting conditions all the prophets are at sea regarding the real chances of the candidates. On previous occasions they have been able to gauge public sentiment. But the advent of the Progressive Republicans and the vigorous campaigning of Colonel Roosevelt has introduced an element that cannot be measured. It is undoubted that party ties are much less powerful now than they were.

LONG SAULT POWER.

Reports indicate that the American promoters of the Long Sault power project are still hoping to convert the government to the view that public franchises are for the benefit of the incorporated few. It might be well for the Ottawa government to renew the warnings that have been given thru the conservation commission, and more directly in parliament itself, that the Long Sault power is not for any corporation, but for the people to whom it belongs.

AN ILL-ADVISED GRANT.

When the board of control voted \$2000 to send the National Chorus to England, they were not of course sitting as musical experts, but merely trying to oblige somebody or other. As long as the National Chorus confines itself to the production of glee and part songs in Massey Hall, the citizens have nothing to say about its musical ambitions. But when the citizens are asked to put up their hard cash, they have a right to ask why such a chorus as the National, with an English conductor, is to be sent to England to represent Canadian art?

WHAT'S A-BREWING?

As yet little proof has been given of the mysterious hints in Liberal papers that widespread scandal was about to break over the National Transcontinental Railway, because of some act of the Dominion Government. The most direct charge was that the scandal would be caused by deciding that part of the railway yet to be completed.

THE PRESIDENTIAL CAMPAIGN.

As the presidential campaign in the United States approaches its penultimate week, it becomes all the more difficult for the political quidnuncs to pre-empt its result. An entirely unforeseen element has been suddenly introduced by the regrettable attack on ex-President Roosevelt. His courage, coolness and entirely human sympathies were all brought out during the brief period that elapsed after the shot of the would-be assassin. If the reports are to be believed, the colonel was much more concerned with the protection of his assailant than with his own serious injury.

CANADIAN BRICKYARDS AND THEIR WORKS.

Editor World: Is there a law in Canada to prevent brickmakers bringing contractors from the United States to do the construction work on their plants, when there are just as good mechanics in Canada? If this practice is to continue, why not take the duty off the brick and give the contractors of Canada a chance to get brick cheap? The price of building brick in Ontario is from \$5 to \$6 per thousand; the same brick in Toronto are from \$12 to \$14. There are three brickmakers at present who have Americans doing their work, and who expect to bring their brick in Toronto.

PEACE IN THE EAST.

Italy at least has reason to approve the Balkan outbreak since it has virtually compelled the Turkish Government to acquiesce in the Italian occupation of Tripoli. The agreement now accepted leaves Turkey free to concentrate attention on the four states now menacing its European empire. Except in Montenegro, always polling for a fight, the aggressive minor powers have not shown any too keen a stomach for the hardships of war.

TONIGHT AT MASSEY HALL.

Madame Louise Homer and the Toronto Symphony Orchestra will give the first concert of the season. Two hundred rush seats on sale at 7.15 at 9:00.

MISSION TO NON-CATHOLICS

The mission service for non-Catholics in St. Basil's Church continues to attract large numbers. Over 500 questions have been asked thus far. This shows the practical interest all are taking in it. Among those answered last night were: How do you prove that the Pope has power on earth to act as Christ's representative? I can easily see that the apostles received the power to forgive sins, but how could they hand their power down? If the pardoning power which the apostles received was only for the sinners of the first century, how comes it that the right to preach or to baptize did not cease at the same time? No, was the answer, as Christ died for all men, so are His redeeming graces to be passed on to all men of all times of the world. The pardoning power was not an extraordinary gift, as the gift of tongues, prophecy, or miracle, but the ordinary and necessary power to continue Christ's work for the salvation of souls.

Inspector Needed In All Schools

Medical Work That Would Be Complete and Expeditious. At the meeting of the special committee investigating the work of the public school medical inspection, Miss Rogers testified that the nurses reported to the inspectors special cases requiring attention, were in attendance upon a inspector during his inspection in the schools, and also followed up cases to homes, to instruct the parents when necessary. Dr. Struthers stated that the medical inspectors have to report on the condition of the children to the Board of Health. There should be a medical inspector for each of the large schools for the work to be complete and expeditious.

PROBLEM OF DRY BELT

Right to Advertise Liquor Further Contested in Courts. KINGSTON, Oct. 16.—(Special).—An announcement was made today that on the 23rd an appeal will be heard before Deputy County Judge Reade at Galt, against the conviction of the Berlin Brewery for selling the sale of liquor in a local option district. The case arose out of the prosecution of the brewery company for advertising that it was still delivering goods to houses in Galt, and order blanks could be secured from a local representative. The police magistrate held that the advertising was identical with soliciting and within the meaning of the act, and imposed the statutory fine on the brewery company whose agent had a warehouse and stored goods for local delivery until stopped by the police.

THE MOST POPULAR AND UP-TO-DATE TRAIN SERVICE TO MONTREAL IS VIA GRAND TRUNK RAILWAY.

This line offers every feature pertaining to comfortable travel; moreover, it is the double-track route and makes the fastest time—the only line operating on the lighted Pullman sleepers between Toronto and Montreal. Four trains leave Toronto daily at 7.15 a.m. and 9 a.m., 10.45 a.m. and 1.15 p.m. The 9 a.m. train carries up-to-date coaches and parlor-library car and dining car to Montreal, also Pullman sleeper to Boston. The 10.45 a.m. train carries up-to-date coaches and electric lighted Pullman sleepers to Montreal daily. Remember the Grand Trunk is the only line imposing no statutory fine on the brewery company whose agent had a warehouse and stored goods for local delivery until stopped by the police.

NOT REVERSE FOR TAX REFORM.

GALT, Oct. 16.—(Special).—The Galt Reporter tonight ventures to remark: "We trust that Sir James P. Whitney will not claim the result in Macdonald as justifying his attitude on tax reform."

DONATE HIS SALARY.

Two Toronto Presbyterian laymen have donated the salary for two years of Rev. H. A. Zerlin to work as missionary to the Ruthenian settlements.

At Osgoode Hall

ANNOUNCEMENTS. Oct. 16, 1912. Motions set down for single court for Thursday, 17th inst., at 10 a.m.: 1—Porcupine v. Waters. 2—Gray v. Buchan. 3—Lawless v. Bank of Montreal. 4—McDonagh v. Shaw. 5—Re Allen Estate. Peremptory list for divisional court for Thursday, 17th inst., at 11 a.m.: 1—Gottesman v. Werner. 2—Gray v. Buchan. 3—Lawless v. Bank of Montreal. 4—Eadie-Douglass v. Hitch. 5—McKeown v. Ottawa. 6—Roland v. Phillips. Master's Chambers. Before J. S. Cartwright, K.C., Master. Laundry Process Co. v. Cullin—R. McKay, K.C., for plaintiff. J. G. Smith for defendant. Motion by plaintiff for an order striking out paragraphs 10, 11, 12 and 13 of the statement of defence as being embarrassing and irrelevant. Judgment: The paragraphs complained of will be struck out. Costs to plaintiff.

Gray Fleecy Knit Coat, high storm collar, with combination muff and scarf to match. WREYFORD & CO. 55 KING STREET WEST. Store open until 9 o'clock.

HOTELKEEPER'S ESTATE

Ambrose C. O'Brien Left \$35,000. Mostly in Real Estate. The late Ambrose C. O'Brien, hotelkeeper at New Toronto, left an estate of \$35,000.99, made up for the most part of real estate, \$11,200, and his liquor license, which he valued at \$18,000. No will was left, so the property will be divided equally between the widow, one son and a daughter, William and Mary. Mrs. O'Brien continues to run the business at New Toronto. QUARANTINE LIFTED AT ANTILLA. Antilla, Cuba, which has been under quarantine for several weeks past, has again been opened to the commerce of the world. Announcement was made yesterday at the office of the Royal Mail Steam Packet Co. that the steamer ship Oruba, from England to New York via the West Indies, will stop at Antilla on Oct. 19. The Oruba, leaving New York Oct. 26, will also make its regular call at Antilla.

Single Court.

Before Mulock, C. J. Buhner v. Crown Portland Cement Co.—E. G. Long for F. G. T. Corporation. P. McCarthy for the other parties. Motion by the receivers, the Toronto General Trusts Corporation, for authority to take steps for conservation of property for want of prosecution. Order made dismissing action with costs fixed at \$30. Re Manufacturers' Life and Haines—R. Goddard for the company. Motion by Manufacturers' Life for interpleader order. Order made for service of notice on the two claimants, who reside out of the jurisdiction. Before Britton, J. Warn v. Armstrong—W. H. Kennedy (bailed) for plaintiff. Motion by plaintiff for judgment of \$1000 on motion reserved.

Divisional Court.

Before Falconbridge, C.J.; Britton, J.; Sutherland, J. Smith v. Canadian National Exhibition—W. C. Chisholm, K.C., for defendant. R. U. MacFarlane for plaintiff. An appeal by defendant from the judgment of the county court of Middlesex of June 14, 1912. At request of counsel for both parties, motion adjourned to November court. Schwartz v. Minsky—H. S. White for defendant. L. F. Heyd, K.C., for plaintiff. An appeal by defendant from the judgment of Denon, J. of the County of York of July 18, 1912, in so far as it dismissed defendant's counter claim with costs. The defendant's counter claim was for \$125 for 1500 dozen Vichy and Vermont bottles alleged to have been shipped to plaintiff Montreal pursuant to agreement of sale between the parties. The plaintiff's action was for \$150 damages for goods in delivery of the bottles as per agreement. At the trial both action and counter claim were dismissed with costs. Appeal dismissed with costs. Bongard v. Keeler—H. Ferguson for defendant. A. C. McMaster for plaintiff. An appeal by defendant from the judgment of Meredith, J. of Nov. 2, 1912. An action to recover \$1000, amount of three promissory notes given defendant by plaintiff in payment of

WREYFORD & CO.

bridge, for an order restraining defendant from altering, repairing or in any way working on the buildings particularly destroyed by fire on lot 5, west side of Dominion Street, Brantford, until 30th inst., with liberty to plaintiff to file and use further material on return. Before Sutherland, J. Re Wilson Estate—J. F. Boland for John Wilson, an heir-at-law. W. H. Clipperton for Walter Wilson. Motion by John Wilson for a judgment for administration. By consent, order to go for administration of the estates of late John Wilson and Margaret Wilson. Reference to local master at Welland. Walter Wilson to have a lien for amount paid for funeral expenses. De Cailland v. C. P. R. Co.—C. A. Moss for plaintiff. J. D. Spence for defendant. A motion by plaintiff for an injunction restraining defendants from cutting any timber or other trees on the lands in question. Motion enlarged for one week. Crawford v. Colville—J. G. Smith for Thomas Allen, petitioner. W. H. McFadden, K.C., for plaintiff. Motion by plaintiff for an order setting aside a judgment entered hereon. By agreement between counsel motion enlarged for one week. Re Stewart Estate—R. S. Connors for executor. C. J. Holman, K.C., for widow. J. P. Meredith for infants. Motion by executor for authority to deduct the indebtedness of estate of Xavier Baechler, Jr., from the legacy left to him. Reserved.

Before Britton, J. and Sutherland, J.

Re Corbett Estate—O. F. Justin, K. C., for William Corbett, B. G. Arner for Margaret J. Kee. E. C. Ostman for infants. F. Aylesworth for executor. An appeal by W. G. Corbett from the order of McElbourn, J., of the county court of Peel of July 30, 1911, made on the passing of the executor's accounts, refusing to allow him any further sum than the \$1000 paid him for maintenance. Reserved.

Before Lennox, J.

Gundy v. Johnston—M. Wilson, K.C., for plaintiff. M. Johnston for defendant. An action by plaintiff for the recovery of solicitor and counsel fees balance claimed amounting to \$109.68. Judgment: There are some minor matters, but the substantial question is, "Is the defendant concluded by the provisions of the private act referred to, or is he entitled to the delivery of a bill of costs showing how the \$1000 is made up, and to an opportunity for taxation before being called upon for payment?" I am clearly of opinion that the legislature never intended to do more, and a proper construction of the act does not do more than (a) provide for the payment to the defendant of the defendant's costs as between executor and client; (b) determine that as between these parties, the sum which the legislature will compel the municipality to pay and the defendant to accept is to be \$1000. In my opinion the action cannot be maintained. The action will be dismissed, and the parties each standing upon what they assumed to be their legal rights, it will be dismissed with costs. The plaintiffs will have the right reserved to them of suing again.

Before Falconbridge, C.J.; Britton, J.; Sutherland, J.

Smith v. Canadian National Exhibition—W. C. Chisholm, K.C., for defendant. R. U. MacFarlane for plaintiff. An appeal by defendant from the judgment of the county court of Middlesex of June 14, 1912. At request of counsel for both parties, motion adjourned to November court. Schwartz v. Minsky—H. S. White for defendant. L. F. Heyd, K.C., for plaintiff. An appeal by defendant from the judgment of Denon, J. of the County of York of July 18, 1912, in so far as it dismissed defendant's counter claim with costs. The defendant's counter claim was for \$125 for 1500 dozen Vichy and Vermont bottles alleged to have been shipped to plaintiff Montreal pursuant to agreement of sale between the parties. The plaintiff's action was for \$150 damages for goods in delivery of the bottles as per agreement. At the trial both action and counter claim were dismissed with costs. Appeal dismissed with costs. Bongard v. Keeler—H. Ferguson for defendant. A. C. McMaster for plaintiff. An appeal by defendant from the judgment of Meredith, J. of Nov. 2, 1912. An action to recover \$1000, amount of three promissory notes given defendant by plaintiff in payment of

CAUSES OF HUMAN PROGRESS

By EDWARD HOWARD GREGG

"The dynamic energy of human progress is the force of personal ideals. The ideal is the soul. Conduct is the body. What a man does is the passing shadow on the dial. What he wants to do, his ideal is the light that casts the shadow."

"That same growth evident in the human race is reproduced in the individual," said Edward Howard Gregg in his opening remarks last night at the second lecture on his course, last night's address was on "The Causes of Human Progress," and next Wednesday's will be on "The Elements of the Ideals of Life."

Another range of virtues and vices, another set of excellences and weaknesses were created by the change in methods of production. The influence of social environment was evident on the workers of our generation.

Canada and the United States might be proud to take all the different peoples who immigrated and moved them into fairly good citizens. It was due, he held, to the public school system. He knew of no other country that showed better how the social type could stamp itself on the individual.

FIFTEEN THOUSAND PEOPLE ATTENDED WOODBRIDGE FAIR

Nearly 4000 Entries Made New Record, and Before Next Year the Grounds and Buildings Will Have to Be Enlarged in Order to Provide Accommodation for the Greatest Rural Fair in the Dominion.

Fifteen thousand people attended Woodbridge Fair yesterday. The attending of this attendance mark, together with the enlarged entry list and ideal weather conditions, established the event as the most successful ever held under the Woodbridge Agricultural Society's auspices.

The horse classes were particularly prominent, and a good general quality was maintained in the exhibit. The farmers with winning animals in the heavy draught class were: J. Lonsdale, North York; J.A. Foster, Derry West; Colly Cameron, Etobicoke; A. Baldock, Grahamsville; John Kellam, Nashville.

The exhibits of vegetables were of a nature to attract more than ordinary attention. Sugar beets and mangel wurzels were exhibited that are regarded as surpassed for size and form.

Light as an aid in business building

The two fundamental principles of selling are: get new business, and keep the old.

SECURING the greatest amount of business means pleasing the largest number of individual tastes, for the attention your store gets from the buying public depends upon a myriad of things.

While the favor of one person may be gained by price and quantity, others may consider quality most important, or service, ease of shopping, prompt attention, attitude of sales people, cleanliness of store and stock, the lighting of the windows and interior, or a hundred other factors, but none of which is of more importance than proper illumination.

When you create new trade, your window lighting plays an important part, because that is all the prospective buyer sees until his interest has been sufficiently awakened to induce him to enter your store. There the favorable

impression must be held and intensified.

The ease of shopping, attitude of sales force, the look of cleanliness and the appearance of quality in your merchandise are all more or less dependent upon good lighting.

The proper illumination of your store may be had for the asking. It does not necessarily mean added expense, but more often a lower cost of current.

You can learn just what is necessary to improve your lighting conditions by consulting a Toronto Electric Light Company specialist. He will gladly call at your convenience and advise you without charge or obligation.

AT THE THEATRES

Symphony Orchestra Tonight

Tonight will be the first concert of the Symphony Orchestra season, and it must be very pleasing to those who are responsible for the welfare of the organization that the public are given this fine orchestra with good music. The program for tonight will be of exceptional interest. Not only the appearance of Mme. Louise Homer, the incomparable contralto of the Metropolitan Opera, but also the orchestra under Mr. Weisman's direction will be a surprise to all who attend the concert. The Kalinikoff String Quartet, in G Minor will be the principal number by the orchestra. Mme. Homer will give as her first aria from Meyerbeer's "Le Prophète". The other numbers of the program will be the Beethoven "Carnaval" and two short numbers by Jarnett and Helmesberg by Jarnett and Helmesberg.

Knickerbocker Burlesquers

Admirers of Roger's "fanor" will be glad to read the announcement that the Knickerbocker Burlesquers will once more be seen in burlesque, when Louise Noble presents her next week at the Gayety Theatre as an adjunct of his celebrated Knickerbocker Burlesquers. As features for this occasion, Noble has provided that opening burlesque, "The Gaekwar of Baroda," with its beautiful chorus and musical accompaniment. The burlesque in which Mr. Phillips will be seen, and as a closing feature, "The Porter," which, by the way, is said to have never before been seen at this theatre. It will be assisted by Eddie Lovett, Max Ferguson, Hugh Conn, Cole and Warner, and a variety contingent led by

The Littlest Rebel

William Farnum will be seen at the Princess Theatre next week in "The Littlest Rebel," an incident of life dramatized by Edgar James. This Mr. Farnum's first appearance in Toronto in many seasons, and his well-known to many, and his well-known to many, and his well-known to many.

Henry W. Savage's production of "Everywoman"

Henry W. Savage's production of "Everywoman," the modern morality play which made such a fine impression at the Alexandra last April, will be brought back to the same theatre for Thanksgiving week, opening with a matinee on Monday, Oct. 28. Since it was offered here, the play has been produced in London at the Drury Lane, where it had a profound impression and is quite the play of the moment. Mr. Savage is bringing back the New York production of "Everywoman," consisting for the most part of the players who created the success of the play during the two years' run of the piece there.

"The Rosary"

"The Rosary" will be seen at the Grand next week with a cast including Walter Allen, Wallace Scott, Mabel Haven, David Marlowe, Donnie Lee, Grant, Edith, Edgar Murray, Sydney Platt, Billie Champ, Herman Gas and G. Keenan portraying the part of

WANT THE COST OF HOSPITAL PATIENTS

Board of Control Ask for the Expense of Civic Patients, Exclusive of the Revenue Provided From Other Sources--Rumely Co. Would Close Abell Street.

With a view to acquiring information with reference to the proposal to establish a municipal hospital, the board of control yesterday instructed the city auditor and the medical officer of health to submit a statement showing the cost of maintaining city patients at the present institutions over and above the credits which existed because of revenue from other sources. The information will also be used in determining the city's attitude towards the hospital board's request for an increase in the civic grant of from 70 cents to \$1 per day.

A report was submitted by Dr. Hastings, giving the per capita cost of each patient per day in the various hospitals, as follows: General \$1.81, Grace \$1.22, Western \$1.21, and St. Michael's \$1.13. These figures were exclusive of any charge against maintenance for general repairs and capital account interest, but it did not give the cost exclusive of the revenue which the different hospitals have from various sources, nor the actual cost of civic patients.

Why the Disparity? Mayor Geary wanted to know why the General Hospital costs should equal \$1.81 per patient and the St. Michael's only \$1.13. If the city consented to increase its grant to \$4 per day to the latter institution, he pointed out that with the government's grant of 20 cents a day, it would be receiving \$1.22, while their expenses only came to \$1.13 per day. Controller McCarthy explained that the expenses were higher at the General because of the large percentage of surgical cases there. The question as to whether its connection with the university made the General Hospital's expenses higher was discussed and Dr. Hastings gave it as his opinion that it did. If this were so, it was argued that the government should pay for the increased cost resulting from the clinics.

Check Needed

It was agreed that the city should adopt some closer method of checking the number and time limits of the patients whose charges they paid. Controller Hocken stated that in the past there was a per diem allowance for scrub women who were not patients at all. Mayor Geary contended that the hospitals had reached a point where they were practically municipal institutions, depending almost entirely on the city for their support.

To Close Abell Street

J. R. Dunlop, representing the Canadian Rumely Co., appeared before the board and requested that Abell street, which divides their property to the east and west, should be closed. He stated that he proposed to build an extension to their plant at the east side of the street, and this could not be produced unless the thoroughfare was closed. There were no improvements on the street and it was practically never used except by the company. The new factory would employ about 4000 men, he said. The board were sympathetic and referred it to the board of works, at which committee Mr. Dunlop will appear at their next sitting.

Could Not Digest His Food

Suffered Years From Indigestion Until Cured by Dr. Chase's Kidney-Liver Pills.

Mr. J. D. S. Barrett

If you suffer from chronic indigestion, forget about the stomach and pay attention to the condition of the liver and bowels. Few to one that is where the real trouble lies. The liver gets sluggish and fails to filter the bile from the blood, the bowels become constipated and the whole digestive system is upset.

CHILD BADLY BURNED

WOODSTOCK, Oct. 16.—(Special).—Little Bobby Lawrence, the two-year-old son of Mr. and Mrs. W. S. Lawrence, North Light street, lies at the hospital with only a slight chance of recovery from terrible burns and shock received this morning. He was playing with matches and set his clothing on fire.

On July 1 the grand total of Panama Canal excavation was 17,232,895.815 cubic yards. This means that more than one-eighth of the entire amount necessary for the completed canal remains to be excavated.

New Lighting Fixtures

Just at this time of the year many people are considering new lighting fixtures. Possibly it is only a single kitchen light and then again it might be from basement to attic. In selecting fixtures it is well to remember that they, more than anything else, make or mar the beauty of a room, and that it is important to get appliances that combine efficiency with beauty.

We are showing new lines of Reading Lamps, Wall Fixtures, Piano Lamps, etc., and they are by far the most efficient and most handsome of their kind on the market. The idea of our appliance branch is to furnish our patrons with the best appliances at reasonable prices, and the increasing number of artistic gas fixtures in Toronto testifies to our success in handling first-class merchandise.

Just now, Portable Reading Lamps are enjoying quite a run of popularity. We have an extensive line priced from \$3.75 up.

It is just the kind you get under best conditions at any one of SHAW'S SCHOOLS—the Central Business College and four City Branch Schools, Toronto. The new curriculum explains the practical course given. Write for a copy. Address W. H. SHAW, President, Yonge and Gerrard Sts., Toronto. 246

Behind and Before

One of them seemed, if possible, worse than the rest. He had a persistent habit of turning his head round to have a look at the rear of his fiery steed. The sergeant-major had already remonstrated with him, but to no avail.

"Look here, my son!" he roared, "Montreal, you never seen a horse's tail before?"

"No, sir," came the smart and prompt reply. "I have always seen it behind!"—Answers.

WANT TO STOP ORILLIA GROWS EXPLOITING OF LAND WITH GREAT RAPIDITY

Special Committee Would Demand Full Cash Payment for Civic Improvements Which Increased Value of Vacant Land, But Favor Annexations Upon This Basis.

In order to stop the exploitation of land by real estate speculators, the special committee appointed by the city council to deal with the annexation question, agreed yesterday afternoon that an amendment to the Municipal Act should be secured which would compel subdividers to pay cash for all improvements such as sewers and roads laid in front of vacant lots. Where property was built upon, it was proposed that the usual local improvement system should be adopted.

The committee must consider some method whereby considerable areas of land might be annexed without burdening the city with the cost of civic improvements laid upon vacant land. The proposed annexation of that territory lying north of the city limits, west of the limits of the Town of North Toronto, south of Eglinton avenue, south of Dundas street and Scarleat road, and west of the Humber River, was also before the committee, but it was decided to inspect the territory next Wednesday before making any definite recommendation.

To Curt Exploitations.

Controlled Hocken, who was appointed chairman of the committee, urged that the time had come when something should be done to stop the exploitation of vacant areas. Under the present system, he said, real estate men were gambling on the city's credit and using the city's machinery to exploit vast tracts of land to the detriment of the public. The members were unanimous that some definite action should be taken and suggestions will be received at the next meeting.

Registry Office Site.

Assessment Commissioner Forman stated yesterday that he was experiencing considerable difficulty in securing the property in the block bounded by Louisa, Chestnut, Albert and Teraulay streets on which it is proposed to erect the new registry office. The property holders were demanding exorbitant prices, he said, and in some cases as high as \$1000 a foot for the land was being asked. The department, however, proposed to submit definite offers to the owners this week, and if these are not accepted, and in all cases where no agreement could be reached, the official arbitrator would be called upon to deal with the matter.

Water in Small's Pond.

The city has been notified that the property owners on the east branch of Small's Pond will oppose the proposal to drain the water away, and if the city persists, they will bring the matter before the courts. For forty years they claim they have enjoyed fishing and boating privileges on the water, and hence they resent any interference with their rights.

Plans for Tunnel.

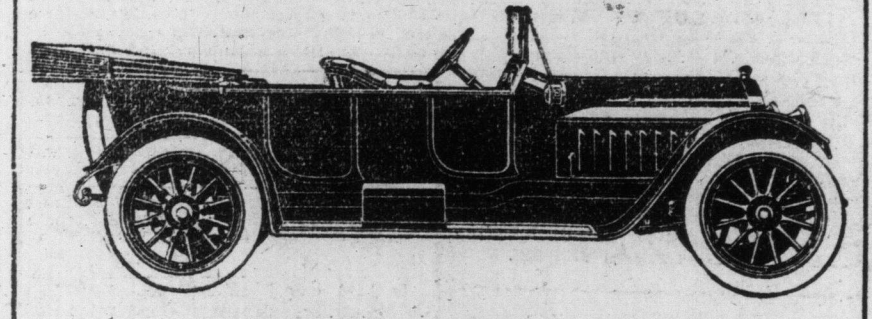

Park Commissioner Chambers has received the plans for the proposed tunnel and driveway connecting Bannerman Park and Macpherson Park, and work will commence on the project in the spring. The tunnel will pass right under Yonge street.

FREE-FOR-ALL IN WATERLOO

Temperance and Suffrage Reform Parties Are Likely to Bring Out Candidates.

AMUSEMENTS

BERLIN, Ont., Oct. 16.—(Special.)

There is every possibility of five candidates contesting the by-election in North Waterloo on Oct. 28. The independent temperance party will hold a convention on Thursday night to discuss the advisability of bringing out a candidate, and the names of Rev. J. E. Lynn and C. K. Hagedorn are mentioned. The fifth candidate would be on the progressive ticket, the main plank being larger franchises for manhood suffrage voters. They would have the act amended so as to do away with registration, leaving it to assessors to pass on the names from year to year. The collection of poll tax would be the same as usual, and the young men of cities, towns and villages would be permitted to vote for municipal officers at municipal elections. There are said to be over two hundred young men in Berlin alone who will be disfranchised this election on account of no registration, and their names cannot be put on the voters' list under the working of the present manhood suffrage act.

WHEAT MARKET SHOWS FURTHER WEAKNESS

Another Down Turn at Chicago—Big Receipts in Northwest—Less Apprehension Over Balkan Trouble—Corn and Oats Easier.

CHICAGO, Oct. 16.—Wheat tumbled today in consequence of Italy and Turkey having made peace, and because heavy receipts northwest caused a railway blockade. There was a nervous close, 1c to 1 1/2c under last night. Corn finished a shade off to 1/2c up, oats down 1-1/2c to 2c, and provisions at a decline of 5c to 20c.

Wheat speculators turned generally to selling at the first tap of the bell. The European markets' weakness led to a belief that the war had become relatively unimportant. This was confirmed by news that foreigners were selling freely at Winnipeg, and that all exporting countries were offering wheat at lower prices. Huge primary receipts prevented the bulls from bringing about more than a slight rally. Nevertheless, some buyers clung to the hope of an upturn on the chance that anti-Turkish victories in the Balkans might inflame the powers.

In corn, the fine weather and the wheat weakness had as an offset the prediction of decreased arrivals. Absence of new export business counted against oats.

Provisions dragged downward after hogs. Pork led, suffering an all round decline of 20c.

WORLD'S WHEAT SUPPLY AMPLE FOR WAR TIMES

Available Stocks Thruout World Sufficient to Offset Prolonged Losses.

Broomhall's weekly review of the wheat situation, issued in Liverpool yesterday, is as follows:

The market the past week has been entirely unexciting, with a steady situation in the Balkans, and the outlook is steadily growing worse as the great powers are evenly divided as to whether to control the warlike elements there. Prices as a consequence have advanced generally in Europe from one to two shillings per quarter, the warlike outlook having induced the buying on a large scale, but the situation at no time has been unduly owing to the fact that near at hand supplies are substantial with good quantities in the wheat countries of 3,000,000 bushels.

North American supplies for export are large, and would be sufficient to offset the loss by a prolonged war and a probable blockade of the Baltic. I would point out that during the six months following October last year, Russia and the Balkan states ported about 7,000,000 bushels, corn 5,000,000 bushels, barley 5,000,000 bushels, rye 4,000,000 bushels, and oats 3,000,000 bushels. Western Europe is now less dependent on Russia and Balkans, but the United States and Canada have a very large surplus, which is being offered freely. On the other hand there are large requirements owing to the unsatisfactory European harvest resulting in much low grade, and it is fortunate for consumers that growing crops in the southern hemisphere are highly satisfactory, while seedling prospects in India are favorable, and that country is marketing its remaining surplus freely. Present prices have reached the highest level for three years with the exception of a few weeks last winter, and the winter of 1910.

The future course of the market depends on the war. In case the Turks are victorious the probability is that the market will assume quietness, but in the event of a stalemate, or successful, grave complications will thus causing heavy fluctuations than witnessed.

Decidedly Buoyant Tone in Mining Exchanges—Hollinger and Pearl Lake Continue Their Advance—Peterson at 10.

The local mining markets developed a decidedly buoyant undertone again yesterday, with the dividend paying Cobalts and Hollinger and Pearl Lake continuing their advance—Peterson at 10.

The local mining markets developed a decidedly buoyant undertone again yesterday, with the dividend paying Cobalts and Hollinger and Pearl Lake continuing their advance—Peterson at 10.

FOREIGN CROP OUTLOOK NOT SO PESSIMISTIC

The complaints of poor conditions are still heard—prospects improved in Britain.

Broomhall's weekly summary of foreign crop conditions issued yesterday in Liverpool is as follows:

United Kingdom: The condition of the wheat has improved owing to the dry weather which has prevailed for the past week. The sowing of the new crop is progressing favorably.

France: The outlook for the new seedling is favorable, although some rain would be desirable. Supplies of native wheat from the interior have been abundant, which there is a good demand.

Germany: The sowing of rye is finished, but wheat sowing is still in progress. Supplies of wheat are only moderate with some of the arrivals showing very poor condition. Supplies of oats are scarce. The weather is favorable.

Hungary: According to an official report the outlook for the wheat crop is favorable.

Italy: The outlook for the wheat crop is satisfactory. Old wheat is being freely offered.

Italy—Native wheat is very scarce and dear.

North Africa: There has been good rains, but imports of foreign wheat will be necessary.

SUGAR PRICES BELOW PRICES OF YEAR AGO

Just a year ago wholesale prices of sugar were exactly a cent a pound higher than the present quotations. That was due to the crop scare over the shortage in the sugar harvest in Europe and the falling off in the production of cane sugar in Cuba. This year the crops have been more successful and consequently the outlook is brighter. A year ago at this time extra granulated was quoted at 15.00 in Toronto, 10.00 per cwt. day it is 14.50, with the tendency in favor of lower rather than higher values.

J. P. CANNON & CO. STOCKS AND BONDS BOUGHT AND SOLD ON COMMISSION

ACCUMULATING STRENGTH

One by one many of the mining stocks are advancing to new high levels on the present movement. Peterson Lake was priced higher yesterday by moderate demand. We have previously called attention to the possible investment opportunities of some of the cheaper Cobalts and will believe that this stock with others will show high prices.

GOLD DISCOVERY NEAR PORCUPINE

Spectacular Showings on Small Island in Night Hawk Lake—Recall Gold Island Rush of 1907.

Samples of free gold in the quartz from the properties of two Montreal professional men located on a small island in Night Hawk Lake, which are on exhibition in Halleybury, have caused a small-sized stampede of prospectors into the one-time famous Night Hawk district, immediately east of Porcupine.

The claims on which the discovery was made were staked some years ago and until very recently the assessment work revealed nothing of particular value. During the ninety days work under way this year, however, a vein of quartz was located, the low water in the lake leaving the lead exposed. A top shot was put in, but the vein matter was blown out into the water and consequently could not be examined. Later on examination of the vein revealed a small showing of gold, and on putting in additional shafts free gold rivaling anything ever seen in the north country was blown out.

The island on which the gold was discovered is located a short distance to the south of the one-time noted Gold Island. The latter was the scene of a big rush of prospectors in 1907, following a discovery of gold by a party of Swedes. Spectacular showings were uncovered at that time and a shaft was sunk to a depth of thirty feet, but financial difficulties resulted in the workings being abandoned after a small stamp mill erected on the property had been burned down. Two years later Porcupine came into the limelight and completely obliterated the memory of the gold strikes to the east.

In view of the splendid free gold showing now discovered in the Night Hawk Lake region, it is not surprising that a revival of interest in the district will eventuate.

REORGANIZATION OF ROCHESTER COBALT

Something Doing in Pete Lake

The street was rather mystified by the action of Peterson Lake in the market yesterday. The stock was up a couple of points to 10 cents during the morning session and closed with a gain for the day. A rumor said that a big financial interest was negotiating for the Cobalt mines, but details were not obtainable. The secretary of the old Rochester Cobalt Mines, Limited, had a capitalization of \$2,500,000 in one dollar shares, of which all but some 600,000 shares were outstanding. The new company starts out with a capital less than half that. The old shares will be called in and the new ones distributed to the stockholders on the basis of one new share for every four old.

REORGANIZATION OF ROCHESTER COBALT

Capital Reduced From \$2,500,000 to \$1,000,000—Charter Granted to New Concern.

A charter has been granted by the Ontario Government to the Rochester Mines, Limited, of Toronto, with a capital of \$1,000,000. This company is the outcome of the reorganization of the old Rochester Cobalt Mines, Limited, and will take over the affairs of that concern immediately.

The Rochester Cobalt Mines, Limited, had a capitalization of \$2,500,000 in one dollar shares, of which all but some 600,000 shares were outstanding. The new company starts out with a capital less than half that. The old shares will be called in and the new ones distributed to the stockholders on the basis of one new share for every four old.

Can. Goldfields Pays Dividend

The directors of Canadian Goldfields Syndicate, Limited, have declared a dividend of 1-1/2 per cent, payable November 15 to shareholders of record October 15. The declaration represents the resumption of dividend payments after an interval of nearly five years, the last previous dividend having been paid in 1907, and is a sequel to the action of the directors of the Consolidated Mining and Smelting Co. in declaring a 4 per cent dividend last week.

The Goldfields syndicate is not operating, but holds in its treasury 127,470 shares of stock, on which it will draw dividends. These dividends it distributes to its own shareholders.

Big Advances in All Stock Markets--C.P.R. at 269 1/2 in N.Y.

BROKERS ADVISE MORE CAUTION

Prices Simply Run Wild in Toronto Market, and Conservative Traders Hold Aloof.

The Toronto stock market yesterday gave the most remarkable demonstration of buoyancy that has been witnessed in some time. Price changes ran into as much as 5 points and extended into the majority of the issues. The Toronto market was the only one of last week, and at the close of the day the gains were in fact the largest since the beginning of the year. The market was led by the Toronto Power and Light Co., which advanced 1 1/2 points to 143 1/2. Other gains were made by the Toronto Railway Co., which advanced 1 1/2 points to 143 1/2, and the Toronto Street Railway Co., which advanced 1 1/2 points to 143 1/2. The Toronto Stock Exchange reported a total volume of 1,450,000 shares, a record for the month.

POWER AND C.P.R. LEAD IN MONTREAL

MONTREAL, Oct. 16.—The strong recuperative powers of the local stock market were again demonstrated when for the third day in succession the whole list moved forward to substantial gains. Leaders in the recovery movement today were C. P. R. and Montreal Power, transactions in these two issues representing about 40 per cent. of the day's aggregate and the net gains in each case being the feature of the market. Under the influence of higher cables C.P.R. opened at 288, an overnight gain of 2 1/4, rose to 293 3/4 and after a minor reaction came back strong in the afternoon and sold off with the high price of the morning in the last transaction. The gain on the day was 4 3/4. Montreal Power opened one point higher, and from 234 the price rose quickly to 238 3/4. From this level it eased off to 235 1/4, recovered about a point and held close to 238 throughout most of the trading. Last sale was at 236 1/4, showing an advance of 3 1/4 over the closing price of Tuesday. Power was easily the leader in point of activity, the turnover being 1,200 shares, as compared with 1,450 of C. P. R.

IMPROVED SENTIMENT REGARDING BALKAN TROUBLE AIDED MARKETS--C.P.R. LED WITH GOOD ADVANCE.

NEW YORK, Oct. 16.—Cessation of the war between Italy and Turkey stimulated the bullish sentiment on all the foreign exchanges today, that feeling later spreading to our own market, which opened active, broad and strong. The movement ran largely towards the specialties and tool stocks, although many standard securities registered material gains. C. P. R. was again the chief feature of the railway group, opening with a rise of over 4 points. Coalers, grangers, transcontinentals and trunk lines shared to a less extent wide industrial and metals, as well as stocks of a miscellaneous character firmed from 1 to 5 points. Coppers were especially strong, partly as a result of statistics from London disclosing a marked decrease in supplies of the metal abroad, and also because of the belief that the Amalgamated dividend will be increased at tomorrow's meeting. The issues of the independent iron companies were higher. Weakened Under Realizing Sales. In the final hour dealings fell off to a marked extent and the list, with few exceptions, showed the effects of extensive realizing. Reactions were nominal, however, compared with the early rise and the close was active with another upward movement in progress. London followed its home buying of American securities, and the extent of its absorption being estimated at 30,000 shares, chiefly of Amalgamated Copper and Steel, Eastern Railway and Canadian Pacific, the latter the best judgment points to an increase in the British discount rate this week. Some hint of this was contained in the advances of the Bank of Belgium's rate from 4 to 5 per cent. Local money rates indicated increased firmness, despite increased supply.

SCHEME TO REORGANIZE U.S. MOTORS

NEW YORK, Oct. 16.—The plan of reorganization of the United States Motor Co. as at present constituted calls for an assessment of \$24 a share on 50th of the preferred and common stocks and also an assessment of \$1 each on the common and preferred stocks of the Columbia Motor Car Co., a subsidiary of the U. S. Motor Co. The plan proposed calls for a total of \$1,000,000 in fully paid up stock, while the rest of the plan is to be paid in cash. The plan proposed calls for a total of \$1,000,000 in fully paid up stock, while the rest of the plan is to be paid in cash. The plan proposed calls for a total of \$1,000,000 in fully paid up stock, while the rest of the plan is to be paid in cash.

C.P.R. LEAD BIG UPTURN IN LONDON

LONDON, Oct. 16.—The conclusion of peace between Italy and Turkey increased the bullish feeling on the stock exchange today and induced more confident local and continental buying and a further general advance in prices in which Rio Tinto, Canadian Pacific and American Railways were prominent. The demand for securities was steady, and values eased off slightly, but the undernote remained firm. Greek bonds were weaker. American securities opened steady and a fraction higher. Good buying advanced prices during the forenoon, and Canadian Pacific led the list with a gain of about four points. New York showed the market in the afternoon when values made further gains. The closing was steady. Money was in better demand and discount rates were easy.

BOND MARKET IN SPLENDID CONDITION

The Dominion Bond Co. in its monthly review of the Canadian bond market, says: "October with its heavy dividend and interest payments is always expected to be the banner month of the fall season, and this year no exception to the rule. The demand for worthy securities has been unusually strong and the total sales have been large also the demand for new buyers. Especially noticeable have been the sales of small amounts of industrial bonds and high yield municipal securities to investors who were making their first purchases. With possibilities of appreciation stronger than ever, both new and old investors of small amounts engaged in increasing numbers concerning instalment payments. In regard to industrial bonds, the fact of interest to bondholders and investors generally, is the tendency to improve manufacturing conditions with a view to a measure for increased local sales and demand. Expenditures for these purposes increase the value of the bonds, both in greater assets and enlarged earnings. No doubt this money market has had a tendency towards a lessened speculation, which was still further discouraged by the European war news. No doubt this has resulted in turning money from speculation to investment, accounting in a measure for increased local sales of industrial bonds and good yield municipals.

LONDON FINANCIAL PLANS TO FORM BANK OF CHINA

LONDON, Oct. 16.—Birch Chip, head of the stock exchange firm which floated the \$50,000,000 independent Chinese loan, said in a speech yesterday afternoon, that judging from the overtures they had received, it was likely that as soon as the quotation of the loan on the London market was over, they would be able to dispose of the remaining half of the loan which might be issued at about 96 1/2.

Mr. Birch Chip then outlined a scheme which he had conceived to constitute a bank to be called the Bank of China, with a capital of \$100,000,000, half to be subscribed by the Chinese Government and the other half by possibly five nations. The functions of the bank, he said, would be to deal among other questions, with the Chinese currency.

SMELTERS AT 69 DOWN \$10 A SHARE

Consolidated Smelters sold at 69 on the curb yesterday, a loss of a full ten dollars a share from the previous sale. This response to the company's dividend declaration apparently evidenced the disaffection of the action of the directors in failing to put the stock on a regular quarterly dividend basis.

HERE'S ANOTHER BANK MERGER RUMOR ON TAP

HALIFAX, N.S., Oct. 16.—Pending the arrival in Halifax from St. John of General Manager Richardson of the Bank of Nova Scotia, no definite announcement of the rumor of the proposed amalgamation between this institution and the Bank of New Brunswick will be made.

The two banks whose names are joined in this latest bank merger report are rated as exceedingly strong from a financial standpoint. The Bank of Nova Scotia, has an authorized capital of \$5,000,000, of which \$2,864,750 is paid up. Its reserve fund is \$7,474,447. The net profit last year was \$1,515,519. The net profit last year was \$1,515,519. The net profit last year was \$1,515,519.

PARIS, OCT. 16.—The bourse was firm today on the belief that the peace agreement between Italy and Turkey increases the chances of localizing the war in the Balkans.

BERLIN, Oct. 16.—Prices were generally higher on the bourse today.

Leaders in the recovery movement today were C. P. R. and Montreal Power, transactions in these two issues representing about 40 per cent. of the day's aggregate and the net gains in each case being the feature of the market. Under the influence of higher cables C.P.R. opened at 288, an overnight gain of 2 1/4, rose to 293 3/4 and after a minor reaction came back strong in the afternoon and sold off with the high price of the morning in the last transaction. The gain on the day was 4 3/4. Montreal Power opened one point higher, and from 234 the price rose quickly to 238 3/4. From this level it eased off to 235 1/4, recovered about a point and held close to 238 throughout most of the trading. Last sale was at 236 1/4, showing an advance of 3 1/4 over the closing price of Tuesday. Power was easily the leader in point of activity, the turnover being 1,200 shares, as compared with 1,450 of C. P. R.

IMPROVED SENTIMENT REGARDING BALKAN TROUBLE AIDED MARKETS--C.P.R. LED WITH GOOD ADVANCE.

NEW YORK, Oct. 16.—Cessation of the war between Italy and Turkey stimulated the bullish sentiment on all the foreign exchanges today, that feeling later spreading to our own market, which opened active, broad and strong. The movement ran largely towards the specialties and tool stocks, although many standard securities registered material gains. C. P. R. was again the chief feature of the railway group, opening with a rise of over 4 points. Coalers, grangers, transcontinentals and trunk lines shared to a less extent wide industrial and metals, as well as stocks of a miscellaneous character firmed from 1 to 5 points. Coppers were especially strong, partly as a result of statistics from London disclosing a marked decrease in supplies of the metal abroad, and also because of the belief that the Amalgamated dividend will be increased at tomorrow's meeting. The issues of the independent iron companies were higher. Weakened Under Realizing Sales. In the final hour dealings fell off to a marked extent and the list, with few exceptions, showed the effects of extensive realizing. Reactions were nominal, however, compared with the early rise and the close was active with another upward movement in progress. London followed its home buying of American securities, and the extent of its absorption being estimated at 30,000 shares, chiefly of Amalgamated Copper and Steel, Eastern Railway and Canadian Pacific, the latter the best judgment points to an increase in the British discount rate this week. Some hint of this was contained in the advances of the Bank of Belgium's rate from 4 to 5 per cent. Local money rates indicated increased firmness, despite increased supply.

STRENGTH IN TORONTO

NEW YORK, Oct. 16.—The Toronto stock market yesterday gave the most remarkable demonstration of buoyancy that has been witnessed in some time. Price changes ran into as much as 5 points and extended into the majority of the issues. The Toronto market was the only one of last week, and at the close of the day the gains were in fact the largest since the beginning of the year. The market was led by the Toronto Power and Light Co., which advanced 1 1/2 points to 143 1/2. Other gains were made by the Toronto Railway Co., which advanced 1 1/2 points to 143 1/2, and the Toronto Street Railway Co., which advanced 1 1/2 points to 143 1/2. The Toronto Stock Exchange reported a total volume of 1,450,000 shares, a record for the month.

POWER AND C.P.R. LEAD IN MONTREAL

MONTREAL, Oct. 16.—The strong recuperative powers of the local stock market were again demonstrated when for the third day in succession the whole list moved forward to substantial gains. Leaders in the recovery movement today were C. P. R. and Montreal Power, transactions in these two issues representing about 40 per cent. of the day's aggregate and the net gains in each case being the feature of the market. Under the influence of higher cables C.P.R. opened at 288, an overnight gain of 2 1/4, rose to 293 3/4 and after a minor reaction came back strong in the afternoon and sold off with the high price of the morning in the last transaction. The gain on the day was 4 3/4. Montreal Power opened one point higher, and from 234 the price rose quickly to 238 3/4. From this level it eased off to 235 1/4, recovered about a point and held close to 238 throughout most of the trading. Last sale was at 236 1/4, showing an advance of 3 1/4 over the closing price of Tuesday. Power was easily the leader in point of activity, the turnover being 1,200 shares, as compared with 1,450 of C. P. R.

STERLING BANK MAGAZINE

The magazine published by the staff of the Sterling Bank is increasing in size with every issue. The September issue contains 20 pages of especially attractive articles and news items of interest to the members of the staff. The magazine is excellently printed, the white embossed cover being especially notable.

MONTREAL QUEBEC HALIFAX OTTAWA LONDON, ENGLAND

SMELTERS AT 69 DOWN \$10 A SHARE

Consolidated Smelters sold at 69 on the curb yesterday, a loss of a full ten dollars a share from the previous sale. This response to the company's dividend declaration apparently evidenced the disaffection of the action of the directors in failing to put the stock on a regular quarterly dividend basis.

HERE'S ANOTHER BANK MERGER RUMOR ON TAP

HALIFAX, N.S., Oct. 16.—Pending the arrival in Halifax from St. John of General Manager Richardson of the Bank of Nova Scotia, no definite announcement of the rumor of the proposed amalgamation between this institution and the Bank of New Brunswick will be made.

The Robert Simpson Company, Limited
