TWENTY-THIRD YEAR  
ALL READY FOR THE OPENING  
Lord Dundonald Will Touch the Button Setting Exhibition Wheels in Motion at 2.30.  
SPECTACULAR SHOW IN THE EVENING  
Street Railway Company Has Provided Equipment to Handle the Vast Crowds Expected.  
Canada's great Fair will open today, and a gala gathering is promised. The Labor Day demonstration will contribute to the enthusiasm of the occasion. The exhibition will be formally opened at 2.30 to-day by Lord Dundonald. The gates, however, will be opened to the public at 9 o'clock. The capacity of the grand stand is expected to be tested during the ceremonial opening. Altogether from 50,000 to 75,000 people are expected to pass thru the turnstiles during the day. Interesting events will be crowded into every hour of the afternoon. In the evening, Kiralfy's "Orient," that gorgeous pageant illustrative of the music and drama of the fifteenth century, will be presented for the first time in this section of the world's greatest exhibition.

**Handling the Crowds.**  
Toronto masses are probably largely interested in the way the street car company proposes to handle the congested traffic thru the city today. Special arrangements have been provided for the occasion, and the indications are that the thousands will be transported with little difficulty. The full capacity of the company's equipment will be utilized for their conveyance. As a matter of fact, extra men to the number of 40 or 50 have been in training for two weeks. These will be utilized largely on the lines where the smallest number will be handled. The most expert men will be in charge of the Exposition trains. In addition, the different roadmasters will be massed to see that a manner as to keep the line constantly moving at fast time.

**Extra Cars Provided.**  
From Church and Yonge-street intersections of King-street, there will be a direct service to the grounds, regardless of other thru connections. A large number of cars will form a continuous chain from the grounds to the business center of the city and back to the grounds. Service on other lines in the city will not be curtailed, however, to supply this increased service. This short swing, however, from the center of the city to the grounds and back will give the cars a largely increased capacity. The arrangement of this schedule for the day of the Exhibition is no small matter, and requires the attention of the different roadmasters who will be massed to see that a manner as to keep the line constantly moving at fast time.

**OCEAN TELEGRAPH SHIPS.**  
Combined Lightship and Wireless Message Vessel Projected.  
London, Aug. 31.—One of the latest wireless telegraph schemes is the proposed installation of a combined lightship and ocean telegraph station 100 miles west of the Lizard.  
It is suggested that a vessel provided with a powerful searchlight, projected against the clouds, mark the position of the station at night. The wireless plant is to be powerful enough to command the fairway of the Channel and exchange news and orders with passing vessels.  
Should the experiment succeed it is proposed to establish a number of such ships along the coast. It is thought that they will be particularly valuable in the transmission of meteorological reports and storm warnings.

**SOME FAST GOING.**  
G.T.R. Train Has 110 Miles in 118 Minutes, Making Two Stops.  
Windsor, Aug. 31.—The Grand Trunk flyer, scheduled under the name of the International Limited, has made a run between London and Windsor that gives her the Grand Trunk record. The train left London 19 minutes behind time, and was only two minutes late when it reached Windsor. The distance of 110 miles was covered in 118 minutes. The time included two stops and two slow-downs. The average speed was a only a slight fraction over a mile a minute. At times the speed was much greater. Conductor Higgins and Engineer Rutherford were in charge.

**ACROSS THE SAHARA DESERT**  
Arrangements Made for Experiments With a Balloon for the French War Office.  
Occupants Will Be Six Pigeons  
Photographs Will Be Taken Every Fifteen Minutes—The Flyer's Works Described.  
London, Aug. 31.—Engineering prints a description of the type of balloon ordered by the French War Office. An attempt is to be made to send it across the Desert of Sahara. The balloon will not be manned. The sole living occupants will be six pigeons, who will be in the lower compartment of a small car.  
Water ballast will be carried in a tank suspended by wire ropes below the car. Attached to the valve is a steel wire twelve metres long, bearing a brass ball weighing twenty kilos, which will keep the valve closed, except when the weight of the steel ball is removed, as when it touches the ground. The valve will then open, the water will flow, and the balloon will expand again. Even after a loss of a portion of the water, the valve will remain closed so long as the steel ball is suspended.  
The upper division of the car is provided with a camera, which is capable of taking a photograph every 15 minutes. The car will also carry a hydrograph and aneroid barometer. All the instruments are capable of working five days. There are also arrangements for the balloon strikes the ground.  
There will be a small internal air balloon of 600 cubic metres. The balloon itself will be of 1000 cubic metres. Another balloon of 57 cubic metres will accompany the main balloon. It will be composed of varnished canvas, inflated with illuminating gas and will carry a rail. The total weight will not exceed 170 kilos, including the entire equipment.

**STABBED BY HIS FATHER**  
William King of Hamilton Will Die From a Knife Wound Near the Heart.  
Saved His Mother From Attack  
Murderer Was Drunk and Chased His Wife From House—He Was Arrested.  
Hamilton, Aug. 31.—(Special.)—William King, 145 East McCaully-street, was fatally stabbed by his father, George King, 238 East Picton-street, about 1 o'clock this morning. He was stabbed while defending his mother from his drunken and enraged father.  
Then the old man drew a large knife from his pocket and made a lunge at his son. The blade struck his chin. Again the father lunged, and this time the knife struck the son's left breast, breaking a rib, and cutting into his lungs. The old man said, "Take that, you —!" the old man said, "I have done you good, and you are now a murderer." The young man died profusely. Father King leaves the house on a telephone for Dr. Balfe and the ambulance. Young King was removed to St. Joseph's hospital in a very critical condition.  
The police were notified, and Acting Chief Fraser took prompt steps to prevent the escape of the father on the railroad. About 4 o'clock P.M. the father was charged with attempted murder. The prisoner is held in the Woodlark Hotel, and was on his way home when arrested.

**POURED OIL ON THE FLAMES**  
Explosion Followed and Mrs. Annie Doyle of Sheridan-Avenue Cannot Recover.  
Husband Also Badly Burned  
In Attempting to Smother Flames—Sad Sunday Morning Occurrence.  
Mrs. Annie Doyle of 61 Sheridan-avenue lies at St. Michael's hospital at the point of death, suffering from terrible burns sustained on Sunday morning thru the explosion of a can of coal oil. Her husband is at home also laid up with severe burns on his hands and ankles.  
When Mrs. Doyle got up she started to light a fire in the kitchen stove. In order to hasten the fire she poured some oil into the stove over the kindling. The flames shot out of the stove and ignited the oil in the can. There was a loud explosion, and Mrs. Doyle was thrown to the floor. A loose wrapper she was wearing at the time was ignited by the fire. Mrs. Doyle's cries attracted her husband, who ran to her assistance. He attempted to quench the flames with his hands and his own clothing became greatly soiled. The clothing was burned completely from Mrs. Doyle and her body burned from head to foot. Dr. J. Macdonald was called in, and temporarily attended to the woman. He hid her from the police, and she was taken to St. Michael's hospital. Everything is being done to save the woman's life, but she cannot recover. Mrs. Doyle is 28 years of age, and has many friends in Toronto.

**BLOWN TO PIECES BY HIS OWN BOMB**  
Unsuccessful Attempt to Assassinate a Mine Owner.  
Vienna, Aug. 31.—Max von Gutmann, a leading coal mine owner, narrowly escaped death at Mistral, Styria, today, at the hands of an assassin. Hugo Scholtz, a Moravian engineer, threw a bomb loaded with bullets, which exploded near the mine entrance. Von Gutmann's chief forester, who was accompanying him, was seriously injured, while the mine proprietor himself sustained slight wounds. Scholtz, the perpetrator of the outrage, was blown to pieces. Windows in the buildings adjoining were shattered by the force of the explosion. The motive of Scholtz is not known.

Vienna, Aug. 31.—Max von Gutmann, a leading coal mine owner, narrowly escaped death at Mistral, Styria, today, at the hands of an assassin. Hugo Scholtz, a Moravian engineer, threw a bomb loaded with bullets, which exploded near the mine entrance. Von Gutmann's chief forester, who was accompanying him, was seriously injured, while the mine proprietor himself sustained slight wounds. Scholtz, the perpetrator of the outrage, was blown to pieces. Windows in the buildings adjoining were shattered by the force of the explosion. The motive of Scholtz is not known.

**ACROSS THE SAHARA DESERT**  
Arrangements Made for Experiments With a Balloon for the French War Office.  
Occupants Will Be Six Pigeons  
Photographs Will Be Taken Every Fifteen Minutes—The Flyer's Works Described.  
London, Aug. 31.—Engineering prints a description of the type of balloon ordered by the French War Office. An attempt is to be made to send it across the Desert of Sahara. The balloon will not be manned. The sole living occupants will be six pigeons, who will be in the lower compartment of a small car.  
Water ballast will be carried in a tank suspended by wire ropes below the car. Attached to the valve is a steel wire twelve metres long, bearing a brass ball weighing twenty kilos, which will keep the valve closed, except when the weight of the steel ball is removed, as when it touches the ground. The valve will then open, the water will flow, and the balloon will expand again. Even after a loss of a portion of the water, the valve will remain closed so long as the steel ball is suspended.  
The upper division of the car is provided with a camera, which is capable of taking a photograph every 15 minutes. The car will also carry a hydrograph and aneroid barometer. All the instruments are capable of working five days. There are also arrangements for the balloon strikes the ground.  
There will be a small internal air balloon of 600 cubic metres. The balloon itself will be of 1000 cubic metres. Another balloon of 57 cubic metres will accompany the main balloon. It will be composed of varnished canvas, inflated with illuminating gas and will carry a rail. The total weight will not exceed 170 kilos, including the entire equipment.

William King of Hamilton Will Die From a Knife Wound Near the Heart.  
Saved His Mother From Attack  
Murderer Was Drunk and Chased His Wife From House—He Was Arrested.  
Hamilton, Aug. 31.—(Special.)—William King, 145 East McCaully-street, was fatally stabbed by his father, George King, 238 East Picton-street, about 1 o'clock this morning. He was stabbed while defending his mother from his drunken and enraged father.  
Then the old man drew a large knife from his pocket and made a lunge at his son. The blade struck his chin. Again the father lunged, and this time the knife struck the son's left breast, breaking a rib, and cutting into his lungs. The old man said, "Take that, you —!" the old man said, "I have done you good, and you are now a murderer." The young man died profusely. Father King leaves the house on a telephone for Dr. Balfe and the ambulance. Young King was removed to St. Joseph's hospital in a very critical condition.  
The police were notified, and Acting Chief Fraser took prompt steps to prevent the escape of the father on the railroad. About 4 o'clock P.M. the father was charged with attempted murder. The prisoner is held in the Woodlark Hotel, and was on his way home when arrested.

Explosion Followed and Mrs. Annie Doyle of Sheridan-Avenue Cannot Recover.  
Husband Also Badly Burned  
In Attempting to Smother Flames—Sad Sunday Morning Occurrence.  
Mrs. Annie Doyle of 61 Sheridan-avenue lies at St. Michael's hospital at the point of death, suffering from terrible burns sustained on Sunday morning thru the explosion of a can of coal oil. Her husband is at home also laid up with severe burns on his hands and ankles.  
When Mrs. Doyle got up she started to light a fire in the kitchen stove. In order to hasten the fire she poured some oil into the stove over the kindling. The flames shot out of the stove and ignited the oil in the can. There was a loud explosion, and Mrs. Doyle was thrown to the floor. A loose wrapper she was wearing at the time was ignited by the fire. Mrs. Doyle's cries attracted her husband, who ran to her assistance. He attempted to quench the flames with his hands and his own clothing became greatly soiled. The clothing was burned completely from Mrs. Doyle and her body burned from head to foot. Dr. J. Macdonald was called in, and temporarily attended to the woman. He hid her from the police, and she was taken to St. Michael's hospital. Everything is being done to save the woman's life, but she cannot recover. Mrs. Doyle is 28 years of age, and has many friends in Toronto.

Secretary Chamberlain Praises Their Work in the Boer War.  
London, Aug. 31.—Joseph Chamberlain, the Colonial Secretary, in a speech at Birmingham yesterday, referred to the unpreparedness of Great Britain for war at the beginning of the recent campaign in South Africa. He expressed the opinion that the country would never submit to the expenditure which would be necessary if they were to be always prepared for coping with such trouble as that from which they had just emerged. They would always have to call upon voluntary patriotism to supplement the defects of the regular service. It was mainly, if not wholly, due to the assistance of volunteers that they had come successfully out of the campaign just concluded.

**QUESTION ONE OF QUALITY**  
Reasons Advanced Why Chicago Cattle Are Quoted Higher Than Best on Our Market.  
HOME MARKET SECURES BEST STOCK  
Premier Ross' Promise of Aid to Dead Meat Industry—Views of Cattle Men.  
Why do prices for cattle range much higher on the Chicago market than on the Toronto market? Is a question that ought to appeal to all who are interested in the matter. The World's editorial on Saturday is widely discussed by cattle men. On the face of it there appears to be a wide discrepancy in favor of Chicago. Quoting from the daily market reports, The World finds that on Tuesday the prime steers sold on the Chicago live stock market from \$7.75 to \$8.75 per cwt., and in Toronto the best quotation was \$6 for one load. That there is a difference of from \$2 to \$3 in favor of the American steers is a satisfactory condition of affairs, looking at it from a Canadian point of view. Several prominent cattle dealers were interviewed on Saturday.

The appointment of a colonial commission for investigating the fines and sentences imposed by the military courts. A bitter feeling has been aroused among the loyalists in South Africa over the indifference displayed to those who fought the battles of the empire, and especially over the softness and tenderness shown to the Cape rebels and the sympathizers with them. Mr. Chamberlain is charged with being accessory after the event in so condoning treason and discouraging loyalty that former quarrels in the Cape are revived racial passion and undermining British interests. There is also a feeling of indignation against those who take their course in Cape Colony, in order to have free scope for enlarging the territories in Natal at the expense of the Transvaal, and handing over to a portion of the Cape rebels the rich gold mines in East Africa, which are to be purchased and divided with Germany. **MAY GAMES ON SUNDAY**

**Buffalo Beat Rochester, Gaining Four Points on the Leaders, as Toronto Did Not Play.**

**DOUBLE HEADERS ON LABOR DAY**

**Jersey City Won From Providence, While Worcester and Newark Broke Even.**

Buffalo won a Sunday game at Rochester, and thereby gained four points on Toronto, the Canadian team alone refraining from Sabbath-breaking, because there was no place to putt in. However, they'll all be busy to-day with Labor Day double-headers. O'Hagan did not remain quiet long on his return to the Gazette, and yesterday had a fight with Brain of Record.

**Toronto 10, Montreal 3.**

Toronto captured the final game of the series with Montreal on Saturday at the Ball Park by 10 runs to 3. The locals started in the first inning to score, when they set three runs on a triple, a double and two singles. Montreal played a good uphill battle, but in the sixth, Souders started to pitch, and was knocked out of the box in the eighth inning, when he made two errors. Toronto took a decisive lead to his delivery, scoring seven runs on six singles in succession and two walks.

Bruce, the local pitcher, was brilliant hard to hit. The hitting, especially by Downer, Carr and Bamson, was what Toronto, as was that of Quinan for the visitors, while Bamson, White, Bamson and Jones batted very opportunely, as did Souders and Quinan for Montreal.

A detailed story appeared in our Sunday edition.

**Senior League Game To-Day.**

A holiday game will be played in the Senior League on the old U.C.C. grounds to-day at 2 o'clock, when the Crescents and Cadets will play off their postponed game of a few weeks ago. Bruce and Wallace will be in the points for the Cadets, while McMillan and Benson will work for the Crescents.

**Sunlight Park League Games.**

The Stratocoma forfeited their last chance to finish top in the second game of the Sunlight Park League on Saturday, when they were beaten by the Wellesley team, a one-sided game by the score of 11 to 2. They can now finish no better than second, Soden's bowling at 219 being the losers. Mulhall's bowling at 200 was the only exhibition game, and had no bearing on the league standing, yet it proved by far the most exciting game. The Stratocoma led in the first five innings, and Brophy was credited with a double and a hit. The Royals played consistently well, and won by a score of 11 to 2.
