NEAR DEATH AT THE HANDS OF A BERLIN MOB

Former Hussar Suspected of Aiding in Killing of Rosa Luxemburg.

Berlin, June 9.—A former Hussar named Runge, narrowly escaped being hanged yesterday at the hands of a mob who suspected that he aided in the killing of Rosa Luxemburg, a radical socialist, in Berlin in 1919, at the same time that Karl Liebknecht was murdered.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to the Times reporter, "I hear we're going to have a great tourist business this summer."

"I am sure the Tourist Association will be glad to hear of it," said the reporter. "Where did you get your information?"

"I got it from the upper provinces," said Hiram, "all them folks in the upper provinces, that's been wearin' themselves out in preachin' to us to buy Made-in-Canada goods."

"Well, then," said Hiram, "you orter to buy more Made-in-Canada goods."

"The members of the Dumbell organization, which is operated on a co-operative plan, last night decided to permit him to accept the Shuberts' offer."

"The despatch adds that Prince Alexander, Arthur, E. Hoger, ministerial council to return home from France, where he is on a visit."

"The Methodist Conference concluded its deliberations yesterday to meet next year in Kingston. Rev. B. B. Brown of Sherbrooke was re-elected chairman of the Quebec district."

"Following are the Sherbrooke districts, figuring in the report of the annual convention: Lennoxville, Paul Perzau; Magog, S. W. Boyd; South Stuckey, Charles Puxtable; Knowlton, Arthur E. Hoger; Hughes; Freilighsburg, G. H. Forde."

"Winnipeg, June 9.—Organization of the support of the Meighen administration and the National Liberal and Conservative party for the electoral division of South Winnipeg was effected last night."

"Synopsis.—Pressure continues high over the south Atlantic coasts and is now high over the north Pacific states, while a trough of low pressure extends from the northwestern provinces to New Mexico. The pressure distribution has been attended by local showers and thunderstorms in the west and fair and warmer weather from eastern Manitoba to the maritime provinces."

SIMMS STANDS BY HIS STATEMENT

London Newspaper Gave His Speech Prominence.

What Cables Carry of Remarks Reported Made Relative to Sinn Fein Propagandists in United States.

London, June 9.—Rear-Admiral W. S. Sims said here this morning that he had not received a cablegram, reported to have been sent him by Secretary of the Navy Denby, asking him to inform the United States naval department if he was correctly quoted in press reports of a speech he delivered on the Irish question at a luncheon here on Tuesday. He added that, pending the receipt of the secretary's cablegram, he could make no statement. Admiral Sims' speech was given a prominent place on the front pages of London newspapers, but there has been a noticeable absence of editorial comment on his declarations.

Speaking at a luncheon given by the English-speaking Union in London on Tuesday, Admiral Sims dealt frankly with Sinn Fein propagandists in the United States. He was said to have declared: "They are like asses, either black horses with white stripes or white horses with black stripes. But we know they are not horses—they are asses. Each of these asses, however, has a vote, and there are lots of them."

He declared, according to cabled versions, that the persons he assailed were United States citizens "when they want money, but Sinn Feiners when they are making war on America today."

Stands By It.—London, June 9.—Rear-Admiral W. S. Sims, U. S. N., is quoted by the press with regard to the speech he delivered on the Irish question here Tuesday: "I stand by all I said every word of it. I stand by a single word said, and I see nothing un-American in it, even if Senator McCormick does."

Report Taken Up at Meeting in Quebec—A Declaration Against Free Ports.

Quebec, June 9.—The Canadian Manufacturers' Association this morning took up consideration of the report of its tariff committee. This gave a review of tariff legislation introduced during the last year in various countries, and observed: "The general opinion of the committee is that the world has been to increase the tariff rates designed to protect home industries and to prevent dumping."

Discussing the situation in Canada the report says: "Although revision of the Canadian tariff has been postponed, owing chiefly to the lack of knowledge of the provisions which would be contained in the new United States tariff, it is certain that revision of the Canadian tariff cannot be deferred much longer and in that revision no departure should be made from the national policy of safeguarding and developing all the industries of the country."

The report also deals with the subject of free ports, stating that there was a movement last year to make Vancouver a free port on account of lack of information. The tariff committee has collected a great deal of data on this point, and the report says that the greatest ports of the world are not free, that advocates of them, whether designedly or not are playing the game of free trade through the world's custom cordons which would have to be thrown around the free zone would be more expensive than the present system of warehouses.

CAILLAUX TO STAGE POLITICAL RETURN? Former Premier Reported Founding a Newspaper to be Directed from His Home.

Paris, June 9.—The re-entry of former Premier Joseph Caillaux into political life is foreshadowed by an announcement in the Paris Sole that he is founding a newspaper under the name of Colonel. The new paper will probably be directed by Caillaux from his home in the country, as under the terms of his recent release from prison he is not permitted to reside in Paris.

MARLBOROUGH AND MISS DEACON WED THIS MONTH Paris, June 9.—The Duke of Marlborough and Gladys Deacon, whose engagement was announced on June 1, will be married late this month, probably June 25, in this city, says the continental edition of the Daily Mail.

Miss Deacon, who is a daughter of the late Edward Parker Deacon of Boston, Mass., has just taken a house at 16 Rue Auguste Vacheron, from which she will be married.

LADY BYNG

Who will be the next 'Lady of the House' at Rideau Hall at Ottawa.

Atlantic City, June 9.—Jack Dempsey will wear headgear when boxing resumed, to lessen the danger of reopening the wound over the champion's left eye. He will resume boxing on Saturday provided the wound continues to heal rapidly. Dempsey is concentrating on the development of his famous shift. He stands before a heavy punching bag, first shifting for a right hook and then landing a left.

Baseball.—New York, June 9.—A runless pitcher's battle was engaged yesterday after the first inning of the St. Louis-Brooklyn game between Petric, of the Cardinals and Pfeffer of the Superbas. St. Louis scored four runs in the opening session and the National champions

Pittsburgh pounded its way ahead in the National League, while New York rested because of rain. The Pirates hit four Boston pitchers safely twenty-five times.

First place in the American League pennant race depends upon the outcome of the Cleveland-New York contest here today. The world's champion lead the Yankees by half a game.

Probable pitchers today are Mays for New York and Bagby for the Indians. Easy For the Scots.—Saskatoon, Sask., June 9.—The Scottish international defeated the representative Saskatoon eleven last night, 6 to 0. It could hardly be called a match, but for an exhibition of scientific football, it was well worth watching. The visitors led Saskatoon down lightly.

Explains Heavy Batting.—New York, June 9.—Ineffective pitching, due to the elimination of freak deliveries, is responsible for the extra base hits of the fence of major league baseball parks, according to Manager Speaker of the Indians. "The manager to which pitchers resorted for many years kept down the batting," Speaker asserted. "Now they are illegal and spit ball pitching has been virtually done away with. The heavy batting of this season is only a natural consequence."

Jockey Badly Hurt.—Montreal, June 9.—Falling from his mount, Phil T., in a steeplechase race at Blue Bonnets race track here yesterday, Jockey Willie Borgan failed to clear his feet from the stirrups and was dragged some distance, kicked in the groin, and his head struck against the ground so violently that he lost consciousness. He has severe internal injuries and a hernia. Today he was reported as doing well, though his condition is serious.

Borgan had a bad fall in Maryland last year and was several weeks in the hospital.

Simcoe Races.—Simcoe, Ont., June 9.—In harness races here yesterday, the feature event, the 213 pace, was captured by Royal Dundas, owned by McLean, of Gooderich, which passed under the wire fifth in the first heat, but captured the rest by a time 2:13 1/2 in the third heat.

The 230 pace and 235 trot were won by Toronto horses, the first in straight heats by Tony The Hero, best time being 2:15 1/2, and the trot by The Baronet, which won the second and third heats, and took second place in the first and fourth, best time 2:17 1/2, by Hattie Lippin, a Toronto horse in the first. Lullia, owned by D'Armore of Montreal, won the fourth heat in the trot.

In the 230 pace, Captain Rex, owned by Foster, Ottawa, ran fourth, third and third in the three heats.

Only One From U. S. Left.—Glendages, June 9.—Edward Ray, British crack holder of the U. S. open championship, eliminated Emmet French of Youngstown, Ohio, by two up and one to play in the first round of the thousand guinea professional golf tournament. The links here today, Jack Hutchinson of Chicago was eliminated by Abe Mitchell, Great Britain, in a close match, the Britisher winning by a one hole. Walter Hagen of Detroit defeated Josh Taylor of Great Britain, the fourth up and two to play. Hagen is the only U. S. entrant now left in the tournament.

MEXICO BANS ALL BUT GOLD Decree Prohibits Importation or Use of Foreign Currency.

Mexico City, June 9.—Importation into Mexico of any foreign money except gold or the circulation of any such currency in this country is prohibited after July 1, by a decree issued last night by President Obregon. It asserts that foreign bank bills or in general any foreign money other than gold may be used in the place of Mexican currency.

Violation of this decree is punishable by a fine double the value of the foreign money the violator attempts to use, and the money will be confiscated.

SALISBURY, N. B., STUDENT A PRIZE MAN AT MCGILL Montreal, June 9.—S. Henry of Salisbury, N. B., is a prize man for second year medicine, as announced last night by McGill University faculty of medicine.

DIES IN POOL AT QUEBEC Y. M. C. A. Quebec, June 9.—Henri Rosselin, aged twenty-one, lost his life yesterday in a swimming pool. It is thought death was due to heart failure rather than to drowning. This is the first fatal accident that has ever occurred in the Y. M. C. A. tank, which has been open for thirty-seven years.

NOT GUILTY IN RY. SWITCH CASE Truro, N. S., June 9.—Leonard Robertson, charged with displacing or interfering with a switch at Quipquah's siding in March when the short line express, from Oxford Junction to Pictou was wrecked and Engineer John T. Ferguson lost his life, was yesterday found not guilty of the offense.

NO HEARING FOR TOM MOORE

Howled Down at Meeting in Vancouver.

Hint of Railway Strike at Labor Board Meeting in Chicago.—Metal Workers Urged to Resist Cut in Pay.

Vancouver, B. C., June 9.—Tom Moore, president of the Trades and Labor Council of Canada, was howled down in Dominion Hall here last night, when he tried to address a public meeting.

After an hour's unsuccessful effort to quiet the crowd, Mr. Moore's supporters dismissed the meeting. The disturbance was confined to noise, which appeared to come from a group in one corner of the hall.

Chicago, June 9.—Giving warning that the acceptance of wage reductions was in the hands of the rank and file of employees, railroad brotherhood chiefs yesterday disclaimed responsibility if the men refused to accept a cut and "a stoppage of traffic resulted."

The suggestion was made by L. E. Sheppard, head of the conductors, and W. G. Lee, president of the trainmen, in opening the big four meetings before the railroad labor board's wage hearing today.

They were followed by W. S. Carter, president of the firemen and engineers, who developed a new field of evidence in behalf of the engine service men. Almost disregarding the cost of living and outside wage arguments used heretofore, Mr. Carter presented voluminous data on the hazards of his men's employment, and on what he called their losing fight to maintain an adequate wage standard.

Denver, Colo., June 9.—Joint action by all the metal working unions in the United States to resist further reductions in wages and increases in the hours of labor was urged yesterday by James O'Connell, president of the metal trades department of the A. F. of L., in his annual address at a convention of the department.

Building trades workers also were warned that further wage cuts were not justified by Wm. Spencer, secretary of labor was urged yesterday by James O'Connell, president of the metal trades department of the A. F. of L., in his annual address at a convention of the department.

He placed the responsibility for excessive building costs upon the building materials dealers of the country and not on labor.

COALITION IS AGAIN BEATEN

British Government Loses a By-election in Lancashire.

London, June 9.—The by-election in the Haywood division of Lancashire necessitated by the elevation of the Right Hon. Albert H. Illingworth to the peerage, resulted in a defeat for the Coalition. W. Hall, Labor, defeated Colonel England, Coalition, by a narrow margin of 368 votes.

The vote was—Halls, 13,480; England, 13,120; C. Pickstone, Independent Liberal, 5,671.

JOHN GOLDEN DEAD Fall River, Mass., June 9.—John Golden, president of the United Textile Workers of America, died in Brooklyn today. Burial will be in this city where he made his home for many years.

DesBrisay, District Passenger Agent at St. John, N. B.

MONCTON ROTARIANS ACTIVE IN BOYS' WORK

At this week's Rotary Club luncheon Rotarian E. A. Cummings reported for the boys' work committee. Mr. Cummings stated that this committee had met recently and it had been decided to give the boys of the city a field day. It had also been decided to talk to His Honor Judge Steeves that he notify the Rotary Club members when any delinquent boys appear in his court. After His Honor would notify the club some member would be appointed to look for this particular boy.

Rotarian G. Holly Lounsbury, vice-president of the club, stated that the executive had talked the matter of a field day for the boys over and it had been the consensus of opinion at that meeting that July 6th be the date of the field day.

George B. Willett moved that July 6th, the date mentioned by Mr. Lounsbury, be the date for the boys' field day. C. B. Trices seconded the motion.

P. L. Higgins reported for the playgrounds association and told the club that a drive for membership in the playgrounds association was to be put on on Monday next. Two sites were now chosen for these playgrounds and the city council were getting the ground prepared. Finances were needed and to make bills accrue a drive was thought advisable. With this aim in view it would be the endeavor to have one thousand members in the city of Moncton. He here passed around many tickets to different Rotarians who were requested to sell the same and return their \$10 at the next club meeting on Tuesday next.

KLENZOL

Reliance Chemical Mfg. Co., St. John, N. B.

Rev. PERCY C. ADAMS, writes:

"There are very few who realize the extent of the strain imposed by the duties of the Rector of a present day parish. Such strain is both mental and physical, and former being at times exceedingly acute. I want to tell you that my great stand-by in times of mental and physical stress has been justly celebrated Phosferine. I am assured that on occasions without its timely aid I should have to give up. Whenever the breaking point approaches Phosferine does wonders for me, its effects being exceedingly rapid and equally sure. From the first dose I have always derived benefit and a short course always makes a new man of me, dissipating brain-fog, replenishing the nerve cells, and then toning up the whole system."

So strongly does this widely-experienced rector realize his own indebtedness to the remedial properties of Phosferine, that he considers he owes it to other sufferers to publicly acclaim its unflinching revitalizing powers—Phosferine enabled all his nerve organisms to re-energize his system with the vital force which gives his work such special individual importance.

When you require the Best Tonic Medicine, see that you get PHOSFERINE

A PROVEN REMEDY FOR

Influenza	Neuralgia	Lassaftide	Rheumatism
Indigestion	Maternity Weakness	Nervitis	Malaria
Sleeplessness	Premature Decay	Faintness	Headache
Exhaustion	Mental Exhaustion	Brain-Pag	Nerve Shock
Nervous Debility	Loss of Appetite	Anemia	Sciatica

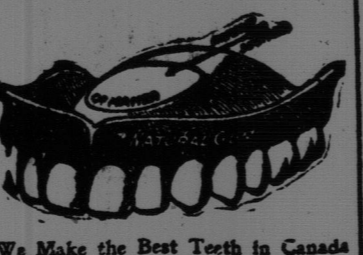

Phosferine has a world-wide repute for relieving disorders of the nervous system more completely and speedily, and at less cost than any other preparation.

SPECIAL BUSINESS AND TRAVEL NOTE

Phosferine is made in liquid and Tablets, each sold in two sizes. The Tablet form is particularly convenient for business men and women, all outdoor workers, travellers, sportsmen, etc. It can be used any time, anywhere, in accurate doses, as no water is required. The No. 2 tube is small enough to carry in the pocket and contains 90 doses. Anyone affected by unhealthy localities or climatic conditions will be the better for Phosferine—always put a tube of Tablets in your outfit.

THE COAL STRIKE MEANS INCREASE IN LONDON SUNSHINE

London, June 9—The old adage, "there is no great loss without some small gain" is again exemplified. London which has groped under its pall of smoke and fog so long that the mind of man runneth not to the contrary, is basking in sunshine since the supply of soft coal became exhausted. Since early April wonderful summer weather has prevailed. Almost since the opening of the coal dispute the metropolis has enjoyed clear pure air for the first time in the history of the present generation.

"The stagnation of the coal supply is responsible for all the sunburnt faces we see in London," declares Sir William Bragg, professor of physics in London University. "The particles of dust and moisture which constitute smoke absorb the ultra-violet rays of the sun. In the absence of the smoke the people are getting the full benefit of the sun's rays."

MR. LAPOINTE'S ADDRESS

Mr. Lapointe, M. P., addressing the Manufacturers' Association yesterday, made a strong plea for national unity, and a very earnest protest against division along racial or class lines.

AS NOVA SCOTIA SEES IT

Writing of the recent conference in Ottawa a staff correspondent of the Halifax Chronicle says: "With eighty per cent. of the grain of Canada being shipped through American ports; with not a pound of Nova Scotia coal being moved over the railroads of the country west of the New Brunswick border; with the products of the farms of Prince Edward Island rotting in the cellars of the farmers of that province; with the pulp and lumber mills of New Brunswick and Nova Scotia either closing or threatening to close; with the general development and progress of the maritime provinces being retarded; with industries dwindling; because of exorbitant and prohibitive freight rates over the road which was built expressly for the one purpose of serving Nova Scotia and New Brunswick as a great commercial artery to the markets of Quebec and Ontario and Western Canada."

WEST AND EAST

When the people of the maritime provinces refer to confederation pledges they speak a language unknown to the great majority of the people of the western provinces, for most of the people there are immigrants who came to Canada in the last quarter of a century.

PREPARE FOR K. C. SUPREME CONVENTION

Delegates to Number of 450
and 20,000 Visitors Ex-
pected in San Francisco.

San Francisco Knights of Columbus are making elaborate preparations for the thirty-ninth annual international supreme convention of the order, to be held in San Francisco, August 2, 3, 4. Numerous committees are busily at work planning for the accommodation and entertainment of the 20,000 visitors expected. Four hundred and fifty delegates will attend from all parts of the United States, Philippines, Alaska, Canada, Cuba, Porto Rico and Mexico. All transcontinental railroads will issue round trip tickets to San Francisco, for the convention, good for ninety-days' stay-over if necessary, at one and one-third the one-way cost.

The programme for the Supreme Convention, as tentatively announced, is as follows:

Monday, August 1—Arrival of visiting officers and delegates; all trains will be met by St. Francis Assembly, Fourth Degree, the official reception committee for the Supreme Convention. Registration of visitors at Supreme Council headquarters, St. Francis Hotel.

Entertainment, dancing and open house at San Francisco Council, No. 615, and California Council, No. 880.

Tuesday, August 2—Solemn Pontifical High Mass, 10 a. m., at St. Mary's Cathedral, Van Ness Ave. and O'Farrell street. His Grace, Most Rev. Edward J. Hanna, D. D., Archbishop of San Francisco, celebrant.

1 p. m.—Opening business session of the Supreme Convention; Italian and Colonial ballrooms, St. Francis Hotel.

7:30 p. m.—Grand reception and ball, civic auditorium. Addresses by Archbishop Edward J. Hanna, Mayor James Rolph, Jr., Governor William D. Stephens, commanding officers for the Pacific Division of United States Army and Navy, Supreme Knight James A. Flaherty, and other distinguished members of clergy and laity. Military band concert. Dancing in two large ballrooms.

Wednesday, August 3—10 a. m.—Business session of Supreme Council, at St. Francis Hotel.

8 p. m.—Theatre party for visiting knights and ladies, as guests of the Knights of Columbus of California.

8 p. m.—Business session of Supreme Council, St. Francis Hotel.

Thursday, August 4—10 a. m.—Final business session of Supreme Council, St. Francis Hotel.

1 p. m.—Excursion for visiting knights, delegates and ladies, to Mt. Tamalpais, over the crookedest railroad in the world, as guests of the Knights of Columbus of California.

The annual summer outing of San Francisco Council, No. 615, to the Yosemite Valley, 250 miles from San Francisco, will cover the eight days from July 17 to July 24.

The officers and chairmen of the various committees entrusted with the details of the supreme convention are: David F. Supple, 246 Montgomery street, State Deputy for California, chairman general committee; C. RAILWAY MEN IN SYDNEY STRIKE

Sydney, N. S., June 8.—Seven or eight crews of narrow gauge yardmen employed in the yards of the Dominion Steel Co. here went out tonight in support of the company's standard gauge engineers, firemen and brakemen, who struck on November 22 last for standard rates of pay. Working conditions such as obtain on the Canadian National railway lines.

The additional strike of the narrow gauge men occurs on the very eve of the resumption of operations at the Sydney steel plant on a 40,000 ton government rail order. The strike may delay resumption.

ENTER DISSENT IN UNION MATTER

Attempt to Have Question Submitted to People for a Decision Made—Amendment is Rejected.

(Canadian Press Despatch)
Toronto, June 8.—The last ditchers of the anti-unionists made another attempt in the Presbyterian general assembly today to have the church union issue referred again to the people for a decision, and failing in this, they entered a formal dissent from the action of the assembly, holding that the assembly had no constitutional authority to disband the Presbyterian church or transfer its property.

The dissent was referred to a special committee for a reply.

The fraternal spirit between the churches was again emphasized this afternoon when the assembly received an Anglican deputation headed by Rev. Dr. Cody, who brought greetings from the synod of the diocese of Toronto. Mr. Justice Hodgins was also a member of the deputation. The visitors were received on the platform by the moderator, Rev. Dr. Gordon, while the assembly remained standing.

Addressing the assembly, Rev. Dr. Cody said the deputation had the honor of presenting to the Presbyterian body a resolution passed by the synod today conveying cordial greetings to the general assembly with assurances of its Christian sympathy and good-will. This was a new age with a new outlook and new alignments of the church forces might be required to deal with the problems presenting themselves. The recent sessions of the Lambeth conference in London marked another stage in the development that had been going on in the Christian churches towards fellowship one with another.

The general assembly decided tonight to meet next year in Winnipeg.

COUNTY TO DEFEND FORESHORE RIGHTS

Legal action in connection with the alleged trespass of the foreshore rights of the municipality, at the Municipal Home, by the Government for Courtenay Bay development, will be taken by the municipality at the August sitting of the Chancery Court, it has been decided by a municipal sub-committee, comprising Warden Bullock, the Mayor and County Secretary Kelley.

The County Secretary, it was announced, will probably have as counsel H. A. Powell, K. C. The Government has offered \$100 for the two parcels of land expropriated. In addition, a railway trestle has been extended across the foreshore.

RETRENCHMENT IN GREAT BRITAIN

(Canadian Press Despatch)
London, June 8.—The government is rapidly shedding its financial responsibilities in pursuance of the policy of retrenchment. Most surprising is the repeal of the agriculture bill which was passed only last December and came into operation on Jan. 1. It granted minimum prices to the farmer for his produce and was estimated to entail a subsidy amounting to from £20,000,000 to £30,000,000 yearly. These guaranteed prices will terminate with the next harvest.

In the House of Commons tonight the government introduced a bill reducing unemployment doles from twenty to fifteen shillings weekly for men and from sixteen to twelve shillings for women, and at the same time increasing the contributions from both employers and employees.

T. J. McNamara, minister of labor, introducing the bill, explained that owing to the enormous increase in unemployment through the coal strike the government had become insolvent, the government paying £2,000,000 weekly and receiving only £350,000.

FAVOR A DUTY OF 25 PER CENT. ON OUR LUMBER

(Canadian Press Despatch)
Washington, June 8.—The ways and means committee of the house this afternoon decided to include in the permanent tariff bill a duty on lumber similar to that imposed by Canada upon lumber sent to the Dominion from the United States. This is 25 per cent. The proposal was bitterly opposed by several of the committee members and it was adopted only after a lengthy fight.

A duty of 25 per cent was also provided for spruce, fir and hemlock logs. Action of the committee means a bitter fight in the house and senate.

Agriculture interests are already protesting against any duty on lumber. They want Canadian lumber to come in free, declaring that the existing high prices of lumber in the United States constitute a serious problem to all farmers.

Indications today were that the tariff bill would not reach the house before July 1.

BRUNSWICK CHAPTER, EMPIRE ORDER OF THE DAUGHTERS OF THE EMPIRE

Brunswick chapter of the Empire Order of the Daughters of the Empire held its closing meeting for the season yesterday and the occasion was once a delightful picnic with a business session as an incidental affair. The meeting was held at the summer camp of Mrs. Frederick Lewis, at Morna, and when business had been disposed of the members enjoyed to the utmost the fine day in beautiful country surroundings.

Mrs. W. L. Fenton, the regent, presided for the business meeting during which arrangements were made for the summer work that each member will be responsible for in preparation for the tea and sale in the fall. The sum of \$25 was voted to the Salvation Army.

THUMB PRINTS BY WIRELESS

Paris, June 8.—Identification of criminals by telephone and wireless will be a simple matter if apparatus demonstrated today by Professor Ottolenghi stands up under tests.

Professor Ottolenghi, who is the director of the Italian scientific police school, showed his adaptation of the "berlinphone" to an international gathering of detectives, police chiefs and bankers' agents in session at Malmesbury near Paris today. With this instrument transmission of photographs or thumb-prints from Paris to New York by wireless, rendering the identification of immigrant criminals in either country simple. By the same invention it is now possible, he said, to "telephone" a check, accompanied by the payer's identification marks from London to Paris.

ANNUAL REPORTS OF PORTLAND CHURCH

Instead of the usual prayer meeting in Portland Methodist church last night, reports were read from the various departments showing the church to be in a flourishing condition. Rev. Harry B. Clarke was in the chair and prayer was offered by William Leck.

The total membership of the church is 511. A. C. Powers, recording steward, read his report, showing the amount raised for the year to be \$8,000; with a balance of \$117 on hand. The church raised for general missionary purposes \$860.23.

Mrs. A. J. Myles read an encouraging report from the women's missionary society, showing \$898.82 raised for missions. Mrs. Fred Smiler gave an interesting report from the mission circles.

Frank W. Merritt, secretary of the Sunday school, reported a total membership of 643; raised during the year \$833.79; raised for missions, \$461.75.

The ladies' aid raised during the year \$161.86. The amount raised for the Methodist National Campaign was \$4,563.

FIRE IN MONCTON

Moncton, June 8.—A two-story wooden building owned by John T. Hawke, in Main street and occupied by J. W. Kister, photographer; Harry Kirsh, boots and shoes, and W. Y. Moore, barber, on the first floor; W. A. McDougall, police magistrate; J. C. Sherrin, barrister, and dressmaking rooms on the second floor was ruined by fire which broke out about 10 o'clock tonight. The loss will be partially covered by insurance.

The Carpenters' and Joiners' Union, local 919, held their regular meeting last evening in the Trades and Labor Hall in Prince William street. The meeting was largely attended and five new members were initiated and seven new applications received for admittance into the union. The president of the union, W. E. LeBlanc, occupied the chair.

IMPERIAL AIR SERVICE PLAN

(Canadian Associated Press Despatch)
London, June 8.—A scheme for an imperial air service is suggested to the government by A. H. Ashbolt, agent-general for Tasmania, with a view to the utilization of surplus airships and plants. The plan is that a great air mail service should be organized which would bring Great Britain within five days' distance of India and South Africa and within ten days of Australia.

BEWILDERING BEAUTY IN "KISMET" PICTURE

Imperial Delights Crowds With Otis Skinner in His Greatest Triumph.

At the Imperial just now the greatest spectacular picture of the year is creating a furor of interest. It is the greatest actor of the American stage in his most popular and celebrated stage success. One of the most noteworthy supporting casts ever assembled including Hamilton Revelle, Rosemary Theby, Herschel Mayall, Elinor Fair and Leon Bary.

A harem interior that has seldom been painted on stage or screen and copied from the plans used in building a harem for a wealthy Arab in Cairo.

How the Caliph Abdullah, the youthful ruler of a big city, stole away from his place and retainers and found the girl of his choice in the poorest quarter of the city.

A series of bathing scenes in the harem in which Yvonne Gardelle and other world famous models, all noted for their symmetrical figures, contribute many interesting moments.

How a beggar in one day arose from poverty and rags to wealth and position only to have them dramatically swept away before sundown.

"Kismet"—the tale of Hajj the beggar, who dwelt in Bagdad in the first year of the reign of the Caliph Abdullah and regred upon the stone by the door of the Mosque of Carpenters, clad in filthy rags. It is a tale, wild, improbable, barbaric, romantic, full of childish simplicity and adult passions.

The Streets of the Tailors, portraying the ancient method of selling goods of all sorts.

Hundreds of gorgeous robes and gowns designed especially for the production by the staff of artists and designers assembled from different parts of the world.

The famous pool scene in the harem here Hajj, the beggar, finds his ancient enemy and drowns him.

The interior of the Caliph's palace—announced by critics the finest set of its kind ever built. This set is over 200 feet long and thousands of dollars were spent on the gorgeous decorations used in it.

A story brim full of color, drama, comedy, adventures, intrigue, fights, re-making, bewilderment and suspense. A beggar who in a single day becomes man of wealth and importance only to dashed back again to his rags and begging.

A gorgeous royal wedding as they did in Bagdad a thousand years ago.

A spectacular wedding procession at Bagdad.

Gertrude Whitty and Mary McEachern; from the Moncton General Public Hospital, Misses Margaret M. Moore and Marguerite M. Brown; from the Lowell General Public Hospital, Miss Mary Rayworth.

MEDICAL MISSIONS

The subject of medical missionary work was under discussion at the meeting of the W. M. S. of the German street Baptist church yesterday afternoon. Mrs. S. S. Poole, president of the society, was in the chair and there was an exceptionally attendance. Medical mission work in general was presented in addresses by Mrs. N. C. Scott, Mrs. E. Archibald and Mrs. E. M. Siprell. An interesting illustrated sketch of medical workers and work of the Canadian Baptist missions was given by Mrs. V. E. MacIntyre. Mrs. George Amant and Miss Alice Rising contributed to the musical part of the programme and gave excellent renditions. Arrangements were completed for the field meeting in July.

WORLD PEACE IS TOPIC OF SPEECH BY MR. HARDING

(Canadian Press Despatch) Washington, June 8.—President Harding, delivering a commencement address today at American University here, found the subject of world peace occupying so prominent a place on the programme that he was prompted to depart from his prepared manuscript and declare for the preservation of peace by sovereign states, without the interference of a world "super power." The president's remarks followed an address by Hon. Newton W. Rowell, of Canada, who suggested that the best contribution North America could make to civilization was "for men on this side of the water" to stand together, behind the movement for peaceful settlement of international disputes. Another speaker who touched on the question of peace was J. J. Jusserand, the French ambassador, and the general discussion developed such a trend that Bishop John W. Hamilton, presiding, referred to the gathering as a "peace conference."

At the afternoon session, a recommendation was sent forward to conference that a man be sent to take charge of the work at Newtown. Rev. S. Howard was elected representative on the stationing committee and Rev. Thomas Marshall, alternate.

The report of the Methodist National Campaign showed that eight circuits had paid 100 per cent. of their obligations, while the N. B. and P. E. I. conference as a whole had reached the highest percentage of all the conferences in Canada.

Rev. J. M. Rice read the Sunday school report which showed a total membership of 4,402; raised for local and general Sunday school work, \$4,850.40, total raised by Sunday schools, \$6,647.45 (an increase of \$780.26); contributions for missions, \$12,987.72 (an increase of \$928.25). The grand total of monies raised in the district was \$110,000 (an increase of \$14,000).

The district concluded the sessions with acceptance of the invitation to meet next year in the Portland church.

PROVINCE BONDS.

It has been announced from the office of the provincial treasurer at Fredericton that provincial bonds authorized at the last session of the legislature would be issued in about a month and would probably date from July 1. A further announcement is expected soon.

AT KING SQUARE.

An excavation has been made on the south side of King Square where it is intended to tap the water main and connect a pipe that will be used for the purpose of watering the grass of the southern section.

IN HONOR OF HER SON.

Mrs. Catharine McCarron, of Hampton, has received from the military authorities a scroll in honor of her son, E. J. McCarron, who was killed in the war. It bears King George's signature.

FOR BRIDE-TO-BE.

A linen shower was held last evening in the home of Mrs. I. Webber, 15 Harding street, in honor of her sister, Miss Ray Gilbert, who is to be married in the near future. Many dainty and beautiful gifts were received, testifying to the popularity of Miss Gilbert. The evening was pleasantly spent with music following which refreshments were served.

BOYS IN COURT.

Two juveniles appeared before Judge Magistrate Allingham in the Fairville court this morning to answer a charge of breaking into C. P. R. vans and stealing torpedoes, fuses and matches. The boys were severely reprimanded and fined \$20, which was allowed to stand pending their future conduct.

DEATH IN WEST ST. JOHN.

Mrs. John White passed away yesterday at her home, 72 Prince street, West St. John, after a short illness. She is survived by her husband and one daughter. Her funeral will take place tomorrow afternoon at 2:30 o'clock in the residence to the Church of the Assumption where funeral services will be conducted by Rev. J. J. Ryan.

NOVELTY SHOWER.

The ladies of the choir of the Church of the Good Shepherd tendered a novelty shower on Thursday evening to one of their number, Miss Gladys Lunn, at her home, 182 St. James street, West St. John, in honor of an event to take place this morning. The evening was pleasantly spent in games and music. Dainty refreshments were served, and the gathering broke up about midnight.

THE ROADS.

Hon. P. J. Veniot, minister of public roads, accompanied by the provincial road engineer, B. L. He will also inspect some of the roads in the county and is due to arrive in St. John tomorrow evening, coming over the St. Stephen-St. John road.

LONG MOTOR TRIP.

Moncton Times: Dr. Murray Cowie of Ann Arbor, Mich., his wife and little daughter, who were spending a few days in town, with the doctor's mother on Steadman street, left yesterday by motor for Chatham. They were accompanied by Mrs. E. V. Jarvis and Miss Hall-Cowie. From Chatham, Dr. Cowie and family will proceed to Quebec on their way home.

THE NEW RAILROAD BRIDGE.

"If you want to see for yourself why the new railroad bridge over the reversing falls should not put any new obstruction in the way of navigation," said a citizen to the Times this morning, "take a ride in a street car till opposite the military hospital and look at the narrow gorge through which vessels must pass under the bridges. Notice the new pier on the Fairville side, and imagine an arch hung from there over the gorge above the present bridges."

DIED IN SOMERVILLE.

C. W. Christopher received a telegram this morning notifying him of the death of his sister, Mrs. Ada Patten, which occurred this morning at her home in Somerville, Mass. She was a daughter of the late John Christopher of West St. John, but left here about thirty years ago. She is survived by her husband, three children, two brothers, C. W. Christopher of this city and Albert Christopher of New Jersey, and one sister, Mrs. Emily Bingle of Liverpool, England. Her body will be brought here on the Boston train next Monday and interment will be made in the family lot in Cedar Hill cemetery.

MILLER-TAPLEY.

A wedding of much interest took place at 8:30 o'clock on Wednesday evening in Victoria street Baptist parsonage, when Rev. G. D. Hudson united in marriage Miss Ada May Tapley, daughter of Mr. and Mrs. James R. Tapley of Randall Corner, Sunbury county, N. B., to Robert Medley Miller of St. John. The bride was becomingly attired in a navy blue suit, with picture hat, and fox fur, gift of the groom. She was attended by her cousin, Mrs. Mark O. Smith, while Mr. Smith supported the groom. After a short wedding trip, Mr. and Mrs. Miller will reside at No. 201 Millidge avenue.

CATERPILLARS BOTHER TRAINS

Millions of Them on Fredericton Junction-Harvey Section of the Railway.

It is reported that millions of caterpillars or army worms have infested a section of the province between Fredericton Junction and Harvey on the C. P. R. lines and train travel has been greatly impeded. An official speaking to the Times today said that for miles the forest has been stripped of foliage and the tracks are covered with these worms which grow to such a length that freight trains are having a hard time getting over this section and passenger trains have to double or cut and be conveyed in two sections. An endeavor is being made to overcome this condition all the C. P. R. trains have been equipped with special steam jets, which are placed in front of the wheels and a 200 pound pressure of steam is used to help clear the worms off the rails. The condition arising from this invasion is said to be the worst ever experienced by the C. P. R. in this district and in addition to the inconvenience is proving costly.

SAVS DEDUCTION BY UNION MEN NOT CORRECT

Power Company Manager Makes Statement Relative to Position.

The general manager of the N. B. Power Company today gave out the following statement:

"The union representatives seemed to have taken from Mayor Schuch's efforts a deduction that is not correct. The company has not agreed to any fourteen percent cut. The mayor suggested that both parties might get together on a fifteen per cent cut—there never was any talk of a twenty-five per cent cut—it was poor figuring on the part of the representatives, as the class that they thought were cut twenty-five per cent by the Power Company had less than a fourteen per cent deduction.

"As far as the one man car is concerned, the union representatives agreed that the company should operate all street cars with one man, wherever the company considered it practicable and advisable, and the company cannot allow the men to dictate to it as to how it may be operated. If the union representatives will report correctly to the meeting, it will be that the company will favorably consider recognizing the union, provided a satisfactory deduction in wages can be reached and that the company is free to run its own business. Any other condition that the men may try to insert will destroy the possibility of settlement.

"One would think from the attitude adopted by the union representatives that there was a shortage of labor, whereas, as a matter of fact, the Power Company can call its men any time over with people who want to work, and for less wages than what it has indicated it may pay its old employees. The time is past when a public utility company must take its orders from its employees—the modern method is to take its orders from the people it serves—and that is what the New Brunswick Power Company will do hereafter."

FLYING BOAT PASSED OVER THE CITY TODAY

The F. 3 flying boat, scheduled to leave Halifax this morning for Ottawa, started her flight from the air station at Eastern Passage at five o'clock this morning, Atlantic Standard time. The flying boat passed over St. John about a quarter past eight, daylight time, flying fairly low and, in the clear morning air, giving an excellent view of herself to those attracted skyward by the hum of her engine. The airplane took citizens of Fredericton rather by surprise about 9:20, when it appeared up the St. John valley. It kept on without making a stop at Fredericton, although it is a recognized air harbor. It believed that the plane was carrying enough gasoline and oil to get through to Riviere du Loup, Quebec.

The flying boat passed over Woodstock at 10:05, daylight time. It was making a record flight for non-stop and speed on the eastern leg of the Canada Air Route, and had the longest non-stop flight on record for the eastern leg.

The machine is manned by Col. Robert Leckie, Captain G. O. Johnson, and Air Mechanic W. G. Chapman. The F-3 type has two Rolls-Royce eagle eight engines and two propellers. A Halifax dispatch says the flying boat is expected to arrive in Ottawa early tomorrow. The flyers will, it is expected, spend the night at Riviere du Loup, or Montreal.

Worked Here During the War—Son was Killed a Few Years Ago.

Halifax, N. S., June 9.—Charles J. Current, aged fifty-six, house superintendent of the Woodside Plant of the Acadia Sugar Refinery, was killed this morning when he was entangled in a belt at the works. Several years ago his son, Gerald, was killed by a train near the Richmond plant, while on his way to meet his father, Rev. Dr. John Current, of St. Mary's Cathedral here, is one of two sons surviving, and Thomas Current of the Halifax post office is a brother. During the war the victim of today's accident was employed in a munitions factory at St. John, N. B.

The Correct Types of Furniture for the Bedroom

That critical degree of care and thought which has always characterized the selections of Everett's, is especially pronounced in the present displays of bedroom furniture.

From the least expensive pieces which are within the price limitation of the very modest income, to the most exquisite suite, every article of bedroom furniture reflects that fineness of artistic conception which is so potential in the effective furnishing of the bedroom.

There are selections in mahogany and in walnut in the important and popular designs, and in the much favored enamels.

The display is so comprehensive that every personal inclination may find its response, and the prices are all based on present manufacturing costs.

Snow will leave on June 18 on a tour of inspection of the other corps in the province and probably will be away until the last of the month when the final returns will be made known showing which corps has attained the highest average.

RIVER SHAD CATCH

Gleazer, H. E. Harrison, fishery inspector, reports good catches of shad along the St. John river and tributaries, which he visited on an inspection trip over the week-end. Some evidence of poaching was noted and some material, including two nets, were seized. The owners of the nets are objecting to the seizure and the matter will be investigated. Although the water is getting low, another run of shad is expected, old fishermen claiming that there are three runs each year in the St. John, two having gone already.

COMMERCIAL CLUB

A meeting of the executive of the Commercial Club is being held this afternoon to hear reports from the delegation which went to Ottawa on the matter of maritime freight rates, to decide on future action regarding the phibiscite on harbor commission and to arrange a date for calling together the athletic organizations of the city regarding the building of a new arena here. It is the club's intention to have representatives of all the societies interested in sport present at this meeting which will likely be held next week and invitations will be sent out so soon as the date is arranged.

WANT PAVEMENTS.

A petition signed by about fifty per cent of the property owners in German street between Queen and Harding streets has been received by Commissioner Frink, asking that the city lay permanent pavement in that section under the auspices of the phibiscite on Dufferin avenue, which parallels Lansdowne avenue in the north end, be put in by the city under the same arrangement. The matter will likely come up at tomorrow's committee meeting of the council.

SPEND \$1,000,000 ON DEVELOPMENT OF OIL FIELDS

Winnipeg, June 8.—Different companies and individuals interested in the oil fields of the north have expended close to \$1,000,000 on development work, according to Col. J. K. Cornwall, who has been mentioned as a possible administrator of the Fort Norman oil district. Col. Cornwall was a recent visitor here on his way to Edmonton from New York and Montreal, where he had gone in connection with oil development work. The people of the north do not find the attitude of other other parts of Canada very encouraging in view of their great faith in the possibilities of their northern oil fields, he said. On his visit east he found very little interest was shown in the development of the latest resources of the great Canadian north.

"The initial cost of finding oil is considerable," Col. Cornwall stated. "Once it is discovered and transportation is arranged, the cost of production is the lowest of any known resource with the exception of water power. Transportation in the north is not difficult. From the present end of steel at Peace River to Pine Point on Slave Lake, the southern edge of the oil field is a very fertile country. The character of the soil warrants railway construction in itself and the possible productiveness of the area would support a railway. Settlement is pushing out in that direction.

"The eastern portion of Great Slave Lake, which is practically an inland sea, is very rich in mineral prospects," Col. Cornwall said. "Gold mining machinery is going in this year. Vast copper areas lie between Great Bear Lake and Bathurst Inlet. Iron deposits were discovered last season on both sides of the Mackenzie river about latitude 63 north. There is sufficient timber for all requirements of the country. Vegetables and all hardy cereals are easily grown as far as the Arctic Circle. It is a healthy country and a very beautiful country. The people are happy and contented and are looking forward to seeing their country developed."

of things is certainly none the less cheerful, though the pace of business is confessedly slower than earlier sanguine expectations forecast.

The general trend of crop advices has been mainly favorable, despite the realization that the growing season has failed to live up to its early promise and that some crops are no better than, or even below, normal, having lost some of the advantages earlier possessed.

This week's index number, based on the wholesale prices per pound of thirty-one articles used for food, is \$2.69, comparing with \$2.66 last week and \$4.87 for the week ending June 3, 1920. This week's number shows a gain of 1.1 per cent. over last week, but a loss of 44.7 per cent. from the like week of last year. Of the seventy-nine commodities of all kinds quoted, thirteen advanced as compared with last week, eleven declined and fifty-five remained unchanged.

week in big basic lines, it may be said that most of these seem to be on the favorable side. These include the first payment of German reparations, the further weakening of the shipping strike, the evidences of greater stabilization of prices of leading staples, notably wheat and cotton, the former especially strengthening; the reduction ordered by the Railway Labor Board in wages of transportation workers, this action being increasingly regarded as foreshadowing lower freight costs on commodities, and the acceptance of reduced wages by some building hands and clothing workers. Early compiled measures of May movement, clearings and failures point to a further slight subsidence in the volume of banking operations, but likewise to a further ebbing in the tide of business failures, the latter, however, accompanied by a rather full total of liabilities, reflecting mainly the registering in the court of last resort of the business world of some earlier crippled business enterprises. On balance, it may be said that there is rather general agreement that improvement, though slow, is nevertheless perceptible and that the tone

How the Simmons Label benefits Yourself and your Dealer

YOU have seen Simmons Mattresses in your dealer's store a score of times. Probably, too, like most fastidious housekeepers you have said to yourself—"I believe I'll try a pair of those Simmons Mattresses next time."

Now, let us say right here that your present mattresses may be all right, pure and clean.

But they may be all *wrong*. Made in a sweat-shop or disease-laden tenement. Or made of "renovated" material—taken out of an old mattress, or even a hospital mattress, or one discarded after a contagious disease.

Your dealer will tell you that the *Simmons Label* and the attitude of *Simmons Limited* are his greatest help in assuring his customers pure, sweet, clean mattresses.

To you — this Label of *Simmons Limited* is the unfailing sign of a mattress built of pure, clean, new cotton.

A mattress built in great sun-flooded work-rooms.

A mattress sealed in a carton roll at the work-rooms — delivered sealed to your dealer — and never opened until you take off the seals in your own home.

Pure, clean mattresses, new through and through — and built for sleep by *Simmons Limited*, originators of Beds, Springs and Mattresses built for sleep.

Mattresses resilient, luxurious. Built for sleep.

Ticking of the best.

BREEZY ACCOUNT OF PROROGATION

Toronto Telegram Reporter Cuts Loose at Everybody's Expense.

(Toronto Telegram.) Ottawa, June 6. (Staff Special.) - The shutters are up on the parliamentary rock pile...

But in the early hours of Saturday morning when the red ones had run down...

Four or five hours later, it is told, that great international statesman, Sir George Foster...

Of course, the opposition kept up their ceaseless grumbling through the day. The governor-general was first galled to appear at 4.30.

That was put back till 4.50, and it was after eight o'clock before the last word was said...

It was a long ceremony, too. For when their native haunts where the long timothy lends its fragrance to the various other rural smells.

A Gold Lace Finish. Of course the finish was formal. There were red-coated mounts, blacked soldiers and his excellency in a uniform that furnished all the brilliance...

But it is all over at last. The premier is off to England, where it is hoped Canada will once more be made a nation. No statesman's year is complete without it.

HOUSE BOSSED WILSON AT PARIS, SAYS ORPEN

Even Made the President Sit for His Portrait Against His Wishes.

SIR WILLIAM ORPEN, R.A., the witty and gifted Irishman who spent the best part of two years in France as official war artist, has written a book about his war experiences which is an eye-opener. It isn't sprinkled with old stories everybody heard two or three years ago. It is full of stories of queer and wonderful happenings strikingly told by a keen observer. And when Sir William throws light on big personalities he opens his lips and says something.

Very early in his war experience the artist found himself up against that weird and wonderful thing, the military mind as applied to routine, discipline, and small details.

"After I had been in Amiens for about a fortnight, going out to the Somme battlefield early in the morning and coming back when it got dark, I received a message one evening from the press 'major' to go to his chateau and ring up the 'colonel' at Rollencourt, which I did. The following was the conversation as far as I remember:

"Is that Orpen?"

"Yes, sir."

"What do you mean by behaving this way?"

"What way, please, sir?"

"By not reporting to me!"

"I'm sorry, sir, but I do not understand."

"Don't you know you must report to me and show me what work you have been doing?"

"I've practically done nothing yet, sir."

"What have you been doing?"

"Looking round, sir."

"Are you aware you are being paid for your services?"

"Yes, sir."

"Well, report to me and show me your work regularly. Tell the major to speak to me."

The major spoke, and I clearly heard him say my behavior was terrible.

"This wonderful colonel expected me to work all day and, apparently, in the evening, to take what I had done and show it to him—the distance by motor to him and back was something like 110 miles."

A Story of British Pluck

SURELY a painter with a keen eye for the drama of human life has rarely had the luck to stumble on a stranger breakfast scene than that which presented itself to his gaze in the Hotel du Rhin in Amiens.

"A flying pilot was pushed in by an observer. The pilot's hand and arm were temporarily bound up, but blood was dripping through. The observer had his face badly scratched and one of his legs was not quite right. They sat at a table, and the waiter brought them eggs and coffee, which they took with a shudder, but the pilot was constantly drooping towards his left, and the drooping always continued, till he went crack on the floor. Then the observer would curse him soundly and put him back in his chair, where he would eat again till the next fall. When they had finished the waiter put a cigarette in the pilot's mouth and lit it. After a few minutes four men walked in with two stretchers, put the pilot on them, and walked out with them—not a word was spoken."

"I found out afterwards that the pilot had been hit in the wrist over the lines early that morning and missed the direction back to his aerodrome. Getting very weak, he landed, not very well, outside of Amiens. He got his wrist bound up and had someone to telephone to the aerodrome to tell them that they were going to the 'Rhine' for breakfast and would they send for them there?"

A wonderful story of British pluck. And Sir William gives many such. Marshal Foch came to him at seven o'clock in the morning to sit for his portrait.

"He sat like a lamb—except that his pipe upset him. It seemed that some of his English friends thought he was smoking too many cigars, and they gave him a pipe and tobacco and asked him to try and smoke it instead. But up to that date the marshal was not a star at pipe smoking."

Overheard Foch's Plans

"I REMEMBER one morning the marshal did not know I understood French at all a general came in and sat with him, and the marshal, very quietly, gave him times, dates, places where battles would be fought up to the end of December, 1918, naming the French, British, and American divisions, and so forth, which would be used in each. When I got back to the mission, I wrote down some dates and places I remembered, but told no one and, as far as I could judge, everything went exactly as he said it would till about the middle of October, when the Boche really got on the run. Then things went quicker than he expected."

Sir William Orpen's comments on the great personalities of the Peace Conference, which he painted are extremely frank, to say the least of them. All these men seemed to him very small personalities in comparison with the fighting men.

When that distinguished American, Colonel House—a charming man, very calm, very sure of himself, yet modest—sat for Sir William Orpen, he asked him if he had painted President Wilson. Sir William replied, "No."

"He then asked me if I was going to do so, and I replied: 'No, that the President had refused to sit. He said: 'Refused?' I said: 'Yes, he hasn't got the time.' 'What infernal rot!' said the colonel, 'he's got a blank sight more time than I have. What day would you like him to come to sit? I named a day, and the colonel said: 'Right! I'll see that he's here,' and he did."

R. B. ANGUS.

(Montreal Herald.)

Saturday was the anniversary of the birth of Canada's grand old man of finance, R. B. Angus, who passed his ninety-ninth milestone of life on that day.

He was the recipient of many congratulations which were cabled to Europe, where the venerable financier is presently sojourning. This nonagenarian passes into his ninety-first year young enough in spirit if not in years, to enjoy a long tour in foreign lands where traveling is not so easy as it was in pre-war days. The name Angus belongs to one of the most constructive periods in Canadian history in view of the fact that it is indissolubly linked with the building of the Canadian Pacific Railway. As time passes, the importance of this great work stands out in bolder relief and posterity will have reason to be grateful to such constructive geniuses as Strathcona, Mount-Stephen, Van Horne and Angus for the consummation of this gigantic undertaking which opened the new empire of the great west.

That the C. P. R. occupied a position of great importance in the consideration of Mr. Angus is evidenced by the fact that the last annual meeting was the first which he had missed. Although his intimate connection with the construction and administration of the Canadian Pacific Railway overshadows perhaps his other interests, it must be remembered that Mr. Angus has occupied the position of president of the Bank of Montreal and his banking activities and his great success in this direction is in itself a sufficient claim to fame without his other manifold interests in the financial life of Canada.

WHAT A TONIC DOES FOR YOU

AND WHY YOU NEED IT, IN SO MANY INSTANCES WHEN YOU ARE RUN DOWN, NERVOUS OR HAVE HAD TO ENDURE GREAT STRAINS OR WORRY OF ANY KIND.

A tonic is something which puts tone, energy, strength and endurance into you. It gives a push to your heart, making it pump the blood over your body more vigorously; it makes your lungs expand more fully and thereby take up more strength-giving oxygen from the air you breathe; it makes your kidneys work better and carry off the poisons which would otherwise accumulate in the body; it makes your digestive apparatus perform its work better and give your blood the material it needs for feeding and sustaining your body; it makes your brain act more vigorously and enables you to think more accurately and for long periods without fatigue, thus bringing you greater success in whatever business, profession or undertaking you are engaged in.

When you are rundown, nervous, half sick, down-hearted and about ready to give up experience of many years has shown that one of the best remedies to pull you out of this bad predicament is good old organic iron. But be sure the iron you take is organic iron, the kind that is found in plants, and not metallic iron which people usually take. Organic iron may be had from your druggist under the name of Nuxated Iron. It often increases the strength, energy and endurance of weak, nervous, tired old folks in two-weeks' time. Beware of substitutes. Always look for the word "Nuxated" on every package and the letters N. I. on every tablet. Sold by all druggists.

To Free Your Arms of Hair or Fuzz

(Boudoir Secrets.)

No toilet table is complete without a small package of delatone, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when it will be found free from hair or blemish. Be sure you get genuine delatone.

VIGOROUS PROTEST FROM MR. WETMORE

Principal Writes Against the Shutting of Rothesay Consolidated from the Interscholastic Meet.

The Times has received the following statement and copies of letters from Charles Wetmore, principal of the Rothesay Consolidated School in regard to the ruling out of that school from the interscholastic meet.

Re Interscholastic Track Meet. On Saturday, May 27th, called up Dr. Hibbard and asked if the Consolidated School track team could be entered in the interscholastic meet. His reply was that any school in the province could enter a team and he added afterwards: "Tell your boys that I hope they will enter a team." He promised to mail me a copy of the rules and an application form. These I received on Tuesday, May 30. I am attaching a copy of the rules I received.

On Friday, June 3, Dr. Hibbard in conversation with me told me that our team had already been entered and it was agreed that our school should enter a number of the visiting athletes.

On Tuesday, June 7, I called up Dr. Hibbard to find out how many of the visiting members of the teams we would be expected to entertain and he told me that it had been decided not to admit the team from our school to the track meet. He said that this decision had been arrived at at a meeting representing the three schools (presumably Rothesay Collegiate, St. John High, and Moncton) which was held on Monday night, June 6, that the reason was that our team along with Sussex and Sackville were not considered a team but depended on one boy alone to win medals.

He further said that the rules which he mailed to me were not the rules governing the cup which is at present in competition, that the present cup had been put up by Rothesay Collegiate School, that there were no trustees for the cup, and regretted that no boys would be disappointed in not being able to enter a team.

THE PURITY ICE CREAM CO. LIMITED Its Carbonated Stanley Street, Phone Main 4234 St. John, N. B.

Dear Sir:—The captain of our track team, Albert Monteith, has received a letter from Gordon Wilson of St. John stating that no team outside of St. John and Rothesay would be allowed to enter a team in the interscholastic track meet for the reason that no other team had a chance to win. We are sending a reply to the effect that, however that might be, it certainly could not have been meant for our school since our team had been entered by you and since you told me on Friday that you considered that our team had been entered and had told me that any school in the province might enter a team.

This information coming from the headmaster of the school which has placed the cup in competition, we considered the fact that our application to compete for the cup was made by a committee of the boys from Rothesay and St. John. As to the fact that our team could not hope to win the cup, we do not entertain any such hope but are confident that at least five of our team would be point winners in the meet.

There is a feeling among our boys that since this objection to our team being entered had not arisen until Friday evening since the suggestion to eliminate our team appears to have been made by those interested in the track team from those interested in the cup, we are confident that our team would make a better showing than that made by other schools in the past in competition for this trophy, and under the circumstances we scarcely see that it is in the interests of "interscholastic sports" to drop a team, which had been given permission to enter, on the ground that it had no chance of winning.

Yours truly, CHARLES WETMORE Principal, Rothesay Consolidated School.

THE HIGH SCHOOL ELIMINATIONS. The personnel of the High School track team which will take part in the final athletic meet with Bathurst College on Saturday was practically completed yesterday when the trials for the 400-yard dash were held on the Barrack Green and the trials for the jumps and other field events were pulled off back of the High School. In the 440, Williams took first, Linton second and Robin third. The high jumpers will be Rockwell, Gordon Wilson and Frost. In the broad jump Rockwell, Tanaman and G. Wilson will go to Rothesay on Saturday determined to make a big fight for the interscholastic track honors.

MAY BE ABLE TO GRAFT ON LIMBS

Health, Disease and Preventive Measures Preached from Boston Pulpits on Sunday.

(Boston Globe.) Through the co-operation of Greater Boston ministers with the leaders of the American Medical Association now in convention here, the message of health and of preventive measures to safeguard health was emphasized before thousands of church-goers yesterday by more than a score of medical experts in Boston pulpits.

"What Scientific Medicine Has Done for Humanity" was the general theme, many of the speakers tracing in detail the growth of public health in America during the last half century. At the morning service in the Old South Church, Copley Square, conducted by Rev. Dr. Gordon, Dr. Frederick R. Green of Chicago, secretary of the council on Health and Medical Instruction, American Medical Association, was the speaker. Dr. Green said in part: "Knowledge of disease and its prevention is today a part of our common knowledge, and intelligent laymen today know more about it than the ablest physician of a century ago. Diseases which for centuries were known as plagues and pestilences are now called preventable diseases. The difference between the death rate of the United States for 1860 and 1920 is 400,000 lives a year. But there are still 600,000 deaths every year from preventable diseases in this country." Dr. Green paid a high tribute to Louis Pasteur and his wonderful discoveries

WILL CHOOSE FEMALE SETTLERS FOR MANITOBA

Winnipeg, June 8.—Working in co-operation with the provincial and federal departments of immigration, Mrs. S. M. Dickenson, of this city, has been appointed to represent Manitoba overseas, with headquarters in London, England. Her special duty will be the selecting of women and girls from Great Britain suitable for household work. The first party of women, numbering thirty-five, destined for Manitoba, will sail in July. In instituting this branch of immigration service, Manitoba is following the lead of Saskatchewan where the scheme has been a marked success.

which have aided so materially in decreasing diseases. "Today," he said, "we know the cause of practically all contagious diseases of importance, except smallpox, pellagra, scarlet fever, chicken pox, measles, infantile paralysis and cancer. "While this advance was going on in medicine, similar progress took place in surgery. Dr. Green told of some of the great feats of surgery and added: "Scientifically, there is no reason why various organs and limbs should not be grafted on the body to take the place of similar structures which have been destroyed or damaged. It is only a question of the development of technique. It may be possible some day for a patient who lost a hand or foot, an arm or a leg, to match the missing member in the local cold storage anatomical warehouse and have it grafted in position." Dr. Green lauded Massachusetts for setting the example of State Health Boards, copied by every state in the union. Physicians are beginning now, he said, to realize that the passage of laws will not secure better conditions. Behind all laws must be the force of enlightened public opinion. "The doctor today," he remarked, "is reverting to his old position of teacher."

THIS JUMPY WORLD OF OURS. Anybody would think from the amount of talk let loose since the Silesian situation took an unfortunate turn a few days ago that Europe was ready and eager to shut up shop and go to war again for another four years or so. Since Lloyd George said the action of the Polish insurgents in Upper Silesia was a violation of the Treaty of Versailles, and since M. Briand said France never would consent to the insurgents being put down by German troops, the unanimous opinion seems to be (listen to the talk) that France and Britain have broken and are about to fly at each other. Such a jumpy world do we live in. It doesn't seem to matter to the jumpers that the French and British governments haven't the remotest intention of surrendering the position of advantage they hold in Europe. It doesn't matter that the French and British people haven't the remotest intention of surrendering their senses. Little considerations like those don't count when it becomes necessary to have a war sensation. A first-
