SUSSEX DOES NOT LIKE TO LOSE SOLDIERS' CAMP

Men, Too, Not Pleased With McGivney Idea

MEANS MUCH TO TOWN

Thirty-Four Hundred Loaves of Bread and 20 to 30 Barrels of Potatoes a Day; Ton and a Half of Meat—St. John, Too, Has Financial Interest

(Special to Times) Sussex, N. B., June 27—Where is the New Brunswick militia camp of the future to be established—at Sussex or at McGivney? This is a query often heard among the townspeople here, as well as the members of the militia units, from the oldest officer to the youngest bugler.

It seems almost certain that unless the generalissimo of the forces in Canada, Colonel the Honorable Sam Hughes, changes his stern, soldierly mind upon the matter, and instead of making a big training camp at McGivney, decided to erect a fine large army for the popular centres which may arise in future years around the chosen site, the citizen soldiers of New Brunswick will be taken there for their annual drill. And, very likely, the units from parts of Nova Scotia and P. E. Island will be mobilized there as well, so as to make it a maritime encampment.

Sussex Against It. Feeling in Sussex is strongly opposed to the projected transfer. After large sums of money have been expended in putting the fine large grounds here in condition for training purposes, and after they have become a popular centre with the men and have demonstrated their practicality as a drill centre, they are unable to understand why further and larger outlays should be made to convert a stretch of wilderness into a militia training camp. Nor can many of the soldiers themselves appreciate the situation, but they must submit to a whim of Canada's war-lord.

A Big Camp. There have been housed at Sussex this year, 8,400 men. Through the largest camp ever held here, the training space is not hampered; many more could easily be accommodated in the vast stretch of campus. The drill given these men is practical enough for their needs and, with less belligerent spirits than the Hon. "Sam" at the head of affairs in Canada, for the needs of many years to come. Why, then, the change? Even the most loyal of Conservatives in Sussex join in the argument and say they are unable to see the necessity of it. For very many years the camp has satisfied all concerned. There has been space enough for all purposes of ordinary drill, for all launches of the service, and if some big tactical scheme of active service manoeuvring were to be executed—well, there was no stone separating the camp from the surrounding country.

Sussex Camp spells dollars and cents to many of the townspeople, besides enabling the place for a fortnight a year unequalled by any other event for the remaining fifty weeks of the year. Manufacturers, merchants, traders, hotel proprietors, draymen, farmers—in fact all classes having anything salable of some use or other during camp, with more than 3,000 additional citizens to be catered to for two weeks at least—profit by the establishment of the training grounds here, and it will be a most unpopular move with them and with the men of the units who like the place and who are more easily recruited for there than in any other place.

Some of the Items. Can those who have not had experience realize what it means to bivouac such a vast number of men for two weeks and part of the host for nearly three? It requires, of course, elaborate preparation. Improvements must be here and there made about the grounds, but with Sussex, as would not be the case with McGivney, these improvements are annually slight, as the camp has been of so many years standing. But certain renovating touches are necessary, and labor is needed to make them. The necessary labor is supplied in Sussex, and the money expended is left with the town.

If it were in supplies alone that Sussex tradesmen profited by camp it would be an important item. To furnish 3,400 able-bodied men and 1,000 horses with the necessities of life makes deep furrows on the stores. The ration sheet calls for an issue per man as follows: Bread, 1 1/2 lbs.; meat, 1 lb.; potatoes, 1 lb.; butter, 2 oz.; bacon, 2 oz.; beans, 2 oz.; jam, 2 oz.; sugar, 2 oz.; onions, 8 oz.; cheese, 1 lb.; split peas, 1/2 lb.; salt, 1/2 oz.; coffee, 1-8 oz.; tea, 1/4 oz.; and pepper, 1-8 oz.

These items may appear somewhat insignificant in the ordinary daily issue in the ratio per man, but when they are reckoned for fourteen days for 3,400 men, it will be seen that the figures grow vast. Thirty-four hundred loaves of bread must be delivered each day, and of this number little more than half are baked in camp by the Army Service Corps, who have charge of this branch of the service. The remainder must be bought here. The remainder must be bought here. The remainder must be bought here.

Not only to the dealers in Sussex is the camp of financial importance but the expenditures affect St. John wholesalers as well because the merchandise necessary is mostly purchased from them by the local houses. If the intention of the department is carried out it will probably not be for two years at least for it will require that time and possibly longer to transform McGivney into an up-to-date training centre for the troops of the Atlantic provinces.

Women Detectives, Fashionably Garbed, In House of Commons To Guard Against The Furies

London, June 27—Women detectives are now employed on special occasions at the House of Commons. One or two of them are employed by Scotland Yard, to sit in the ladies' gallery when there are big debates to deal immediately with any suffragette intruder. They are so fashionably attired as to be quite indistinguishable.

Miss Hall, a suffragette who screamed incessantly when she was arraigned in a police court some time ago for the unlawful possession of explosives, went through her trial at the Old Bailey yesterday very quietly. She had apparently been subdued by her hunger strike.

The jury found the woman guilty but recommended mercy because she was a timid agent of others, who ought to have been arrested and had similar charges preferred against them. Sentence was postponed.

Miss Casey, a militant suffragette, who was arrested in Nottingham during the visit of the king and queen, when she was carrying a suitcase containing explosives and inflammables, was brought by Halloway jail yesterday to wait trial.

British Steamer Driven Ashore by Seas Caused by Submarine Disturbance. Batavia, Java, June 27—The British steamer Kintuck, of the China Mutual Steam Navigation Company, reported overdue yesterday after a violent earthquake in Sumatra, was found today by a steamer sent out to search for her.

She had been driven ashore in the Straits of Sunda, between Java and Sumatra by heavy seas caused by a submarine disturbance. The Kintuck was crowded with native emigrants.

SEVERAL STEAMSHIP LINES NOW CALL AT CANAL TERMINALS. Panama, June 27—The canal terminals at Balboa and Cristobal have now become regular ports of call for several steamship lines. Interruption of the Tehuantepec railway route across northern Mexico drove considerable shipping to these ports, but even now, with the Tehuantepec service reestablished there are many boats which continue to call at Balboa or Cristobal for transfer of cargo across the isthmus.

The American-Hawaiian Steamship Company has gone back to the Mexican ports, but only with the purpose of regular use. The Elder & Frye Company, however, which has hitherto had only a few calls at Balboa and Cristobal has now increased its service and is running regular steamship lines to and from the Hawaiian Islands.

It is understood also that steamers of a new Japanese line will begin service to Balboa soon.

ANXIOUS ONES ARE STILL INQUIRING. Ottawa, June 27—The department of points in Canada as well as in foreign countries asking for information as to relatives or friends killed in the Hillcrest mine disaster. The government office is not taken immediately by a provisioning establishment for the relief of the sufferers.

When Warden McLellan learned this morning that although four corners had been notified, the body of the man found in the Bonny River woods a week ago had not yet been buried, his indignation found free expression. He got in communication with County Secretary Kelly, with the result that if action is not taken immediately by the coroner, the county officials will have the body buried today. That it had not been done days ago the warden declares to be a disgrace to the municipality.

There are eight corners in St. John county. Of these one is located at the other end of the county, three or four are one, and one or two of the number might be too old to be expected to take an eight mile walk through the woods. If there are not enough the suggestion has been made that more might be appointed.

NOTED ASSEMBLAGE AT EUCHARISTIC CONGRESS

More Eminent Ecclesiastics At Lourdes Than At Any Congress Yet Held. London, June 27—A high watermark in regard to the number of eminent ecclesiastics present at any Eucharistic Congress, will be reached at Lourdes next month when more than 170 cardinals, archbishops, and bishops will be present.

MISFORTUNES COME TO ONLY WOMAN WHO EVER RAN FOR PRESIDENCY. Washington, June 27—Mrs. Belva Lockwood, distinguished as the only woman who ever ran for president of the United States, lies in a local hospital with a fractured shoulder and a broken wrist. Because of her advanced age, Mrs. Lockwood is eighty-four years old, her friends fear for her recovery, although the hospital surgeons declare her condition is not necessarily fatal.

The aged woman politician and lawyer left a chair in her office and was found by a clerk some time afterwards, unconscious. Mrs. Lockwood's injury came as she climbed to a series of financial troubles that threaten to deprive her of her sole supply, a business building in which she has a mortgage of \$10,000 to save the property for her, but the movement failed, and suit was entered in the local courts to oust her from the premises. The suit is still pending.

MANY BIRTHS AND MARRIAGES RECORDED. Forty-four births were recorded this morning at the register, J. B. Jones, twenty-five boys and nineteen girls. The marriages for the week numbered twenty-eight.

DISGRACE, SAYS WARDEN. Mr. McLellan Starts Action to Have Body in Woods Buried. When Warden McLellan learned this morning that although four corners had been notified, the body of the man found in the Bonny River woods a week ago had not yet been buried, his indignation found free expression.

He got in communication with County Secretary Kelly, with the result that if action is not taken immediately by the coroner, the county officials will have the body buried today. That it had not been done days ago the warden declares to be a disgrace to the municipality.

There are eight corners in St. John county. Of these one is located at the other end of the county, three or four are one, and one or two of the number might be too old to be expected to take an eight mile walk through the woods. If there are not enough the suggestion has been made that more might be appointed.

THE PASSING OF THE SAILING VESSEL NOTED AT LLOYD'S. London, June 27—The special sign "before the names of steamers in Lloyd's announcements has been discontinued as a frank and final recognition of the fact that sailing vessels have been nearly crowded out of the sea.

In Lloyd's register of a quarter of a century ago, the sail ships led the steamers by 22,402 to 10,200 in numbers, and 3,400,000 to 7,414,000 as to net tons. This year's register shows that there are now but 5,094 sailing vessels of 3,899,180 tons, while the steamers have increased to 23,897 of 26,517,029 tons.

IDENTIFY DROWNED MAN BY MEANS OF WOODEN LEG. London, Ont., June 27—A body taken from the Detroit river on Sunday has been identified as that of Herbert C. Green, aged twenty-five of this city, a grandson of H. C. Green, a coal and wood merchant. Identity was established by means of an artificial leg he wore, the manufacturer in Chicago being able to furnish the owner's name.

LUCKIEST GIRL BUYS FIVE REAL PEARS—TWO CENTS A PIECE

London, Eng., June 27—Five fine pears for a penny (2 cents) apiece was the bargain picked up by Miss Grace Lane, the daughter of a local merchant.

Passing down a busy street in the city, she saw a hawkler with a trayful of a hawkler and a pickled "Heal Pears—One Penny Each." Miss Lane did not believe the pears were real, but bought five for fun. Afterwards she found that they were worth anything from ten pounds apiece.

It appeared that a Jewler had hawked the pears round to win a wager, firmly convinced that nobody would believe they were real, and so nobody would buy them. And but for Miss Lane he would have won his bet.

PERSONALS. Rev. Wilfrid F. Gueta, pastor of the Queen Square Methodist church, will leave on Tuesday to take up his new duties in Hamilton, Ont.

Mrs. Edward Schmitt and Miss Helen Furlong are expected in the city next week from Dorchester, Mass. He spends the summer with their sister, Miss Elizabeth Furlong, Union street.

Judge Wells, one of the commissioners investigating the Digital charges, is the week-end guest of Mr. Markey, who appeared before the commission this week for more than two days. Mr. Markey has a cottage at St. Anand's, where Judge Wells went this morning.

Alfred Henderson, formerly with the Smith Runciman Company in this city, but who has lately been employed in Hamilton, Ont., is spending a three weeks' vacation with relatives in the city.

Rev. Mr. Thomas, chaplain of the Dochester penitentiary, is spending a few days in the city on his way to Archibald McDiarmid, Mr. and Mrs. G. Brannan, and Mrs. McIntyre of Montreal, are in the city on their way to Bear River, N. S., to attend the McIntyre-Clark wedding in the Baptist church there on June 30.

C. T. White, who underwent an operation in Boston recently is now well enough to be wheeled about in a chair and in the course of a few weeks expected to be able to return to work.

Mr. and Mrs. John Monahan of Sussex announce the engagement of their daughter, Sarah Ellen to William McLellan, the marriage to take place on June 30.

Mrs. W. B. Spragg accompanied by her daughter Hazel has left for an extended trip to New York.

Mrs. Farris S. Sawaya and daughter, Neeswee, have returned from Florida and Georgia.

C. T. White, of Sussex, lumber operator, has undergone an operation in a Boston hospital, but his condition is still regarded as extremely serious.

THIS MIGHT RECEIVE ATTENTION OF THE MINISTER OF MILITIA

Norwood, June 27—Richard Jones, a C. P. R. section man, will probably lose the sight of one eye, and his brain may also be affected, as the result of being shot yesterday by one of the soldiers of the 46th Regiment, Lindsay, returning from Petewawa.

Several other men working along the track were also shot at. The cartridges were blanks, but Jones, who was working about fifteen feet from the train, received one of the cartridges in his eye.

LOCAL NEWS. TRAINS LATE. The Boston and Montreal trains were both an hour late today.

OUTING POSTPONED. Today's outing to Red Head for the girls of the Natural History Society also was postponed.

THE VALUATORS. The county valuator commenced their field work in the parish of Musquash on Tuesday morning and have been busy in that part all week. When they finish Musquash they expect to start in St. Martins.

THREE FROM SPRINGHILL. Three Springhill miners perished in the Hillcrest horror. Fred and Jack Moorehouse and "Nick" Magency lost their lives. Jack Maddison and Mr. Peaslee, who were saved, are known in Springhill.

SAYING FAREWELL. H. Carson Flood, who will leave soon for the Ottawa branch of the Royal Securities Corporation, was the guest of honor at a farewell dinner given by some of his friends in the Cliff Club last evening.

PICNICS. Two Sunday school picnics went off this morning. The Brussels street Baptist school people having a large picnic at Rothery and Trinity Sunday school members have gone to Westfield beach.

SHOULD BE APPOINTED. Making ready of the county authorities regarding the prospects for the appointment of a policeman for the Bay Shore district. It felt that it is time for a man to be on for the summer.

FIFTEEN DEATHS. Fifteen burial permits were issued during the week. The causes of death were: Pneumonia, four; influenza, two; arterio sclerosis, two; cerebral hemorrhage, two; diabetes, paralytic, cerebral, neuritis of heart and mitral regurgitation, one each.

BITTEN BY TARANTULA. There are very few people in the city who have had the experience which one of the local fruit dealers went through yesterday. While hanging up a stalk of bananas, he disclosed a large tarantula, which bit the thumb of his left hand.

CAREY SENTENCED AGAIN. Mary Carey, who has been sentenced to the charge of having liquor for sale on his premises without having a license, was brought before Judge Wells this morning and sentenced to pay a fine of \$20 or go to jail for two months for not having a license.

IS MUCH BETTER. The many friends of Rev. J. Walter Hinds, formerly of the city, but now stationed at St. George, will be pleased to learn that he has sufficiently recovered to be able to leave the hospital. He is now at St. Patrick's Industrial School, Silver Falls, recuperating before returning to his home.

LEADERS MAKE LAST APPEAL TO THE VOTERS

Whitney Makes Attack On Some Clergymen. Ontario Contest On Monday. Opposition Leader's Pronouncement of His Policy on the Abolition of the Bar—First Such Battle, He Says, and All Empire is Watching.

(Canadian Press) Toronto, Ont., June 27—The following pre-election day appeal to the voters from Sir James Whitney, as leader of the Ontario Conservative party, is published today. "The great majority of the members of the Ontario Conservative party are entitled to and have the confidence of the people. But a small minority among them, anxious above everything else, to turn my government out of office, are not ashamed to come out openly and denounce from their pulpits, in violent and unbecoming language, all who dare to support the government of this province and its men. In a British and a Christian country, such conduct is intolerable, and I respectfully call upon all self-respecting men in their congregations, to resent this conduct in a way that these men will never forget."

The Opposition Leader. Hon. N. W. Rowell, K.C., leader of the Ontario Liberal party, has issued a final address to the voters of the province, in which he says: "There are many questions upon which I might ask the favorable vote of the electors of the province, but one stands out paramount above all others, and that is the abolition of the bar. Ontario is against the bar. The people of Ontario have been waiting for years to have the chance to wipe it out. They will have this opportunity on June 29, I am receiving assurances of support from Conservatives all over the province. Liberals, who supported Mr. Borden in the last election, are supporting us in this with equal enthusiasm. The issue is running steadily and strongly in favor of the abolition of the bar."

"The conscience of Ontario is thoroughly aroused, and on Monday next every elector must give his vote for or against the abolition of the bar. Church craft and church courts have declared against the progressive legislation and improving the conditions of life in this province, to their vote and influence against the open bar. I appeal to the women of Ontario who, more than any other class, have suffered from the curse of the open bar, to use all their influence from now until 5 o'clock on Monday next to secure the close of the bars. His Promise. "We promise, if returned to power, at the very next session of the legislature, to pass legislation completely wiping out saloons and club licenses in this province, and to see that no saloon license will be permitted to issue on any hotel or club license wiped out at the present time."

"We promise to amend the existing local option law, to permit any municipality to wipe out any shops that remain on a majority vote, instead of under the three-fifths handicap, as at the present time."

"We promise to make local option county-wide, as is the case of the Scott Act, so that a by-law may be carried to close shops in the whole county on a majority vote, and you will have all the benefits of local option provisions for enforcement."

"We promise to impose such further restrictions upon any shops that may remain in any municipality as experience may show to be necessary to limit the operations of the traffic and effective to remedy its evils."

"We will also put into effect our tax reform proposals, give the municipal franchise to married women, and introduce advanced labor legislation and other reforms already outlined in my election address."

This, he says, is the first time in the history of our empire that there has been such a fight between the organized forces opposed to the bar and the organized liquor interests."

Hon. Mr. Burrell Goes West. Ottawa, June 27—Hon. Martin Burrell Minister of agriculture is going to the west and will spend some time in his home province of British Columbia.

Profits Better Than Ever. A large survey report concern which has been advertising in the newspapers finds that the first quarter of 1914 shows larger sales and better profits than ever.

Considering the fact that this period was not one of booming business the showing is the more remarkable.

Long experience has taught the owners of this razor that they can get better results at less cost in the newspaper than through any other medium.

Dealers are always glad to push these articles because the advertisement in the papers creates a definite demand.

ENGLISH BRANCH OF IRISH VOLUNTEERS

German Gymnasium In Wales Is Training Place. London, June 27—The Irish volunteer movement has spread to England a branch having just been formed here. The majority of the recruits are Irish employed in the civil service.

Cariously enough, the drilling is being conducted in a German gymnasium in Wales, which flies the German flag. This fact lends some significance to a story appearing in the Nation, a radical weekly, to the effect that a report on the military character of the arrangements of the Ulster Volunteers has been prepared for the Kaiser by a specially qualified official.

Lord Balfour, addressing the United Empire Club yesterday, expressed the opinion that the National army was being enrolled to give the Irish an opportunity to show England that they were a nation which would have to be encountered, in event of trouble arising. The Irish volunteer organ, the Volunteer, has been received around as now approved of Redmond's control of the organization. It also reiterates the demand to repeal the arms proclamation and says that the embargo is as unjust as if it had been placed on any other article of commerce.

A house to house and church door collection will be inaugurated tomorrow for the defence of Ireland fund. The money subscribed will be devoted to the purchase of arms and ammunition.

BETTING IS NOT SO STRONG ON JOHNSON. Paris, June 27—Jack Johnson and Frank Moran are ready for the gong this week to battle for the world's heavy weight title. Paris is light-hearted. The battle that will take place on the 10th of July is tonight the sole topic of conversation.

"I am going to be the world's champion," said Johnson, "I am going to win only if I drop dead," said Moran.

"Moran will win only if I drop dead," said Johnson. There was a marked effect on the betting today. Whereas the odds at one time were as high as 2 to 1 on the negro, they had decreased until they were about 8 to 2. Daniel Reid, an American gambler, was \$10,000 against \$4,000 on Johnson.

SILVER WEDDING. Mr. and Mrs. H. T. Bridge were happily remembered by friends last evening in the celebration of their twenty-fifth wedding anniversary of their wedding. Associates of Mr. Bridge on the post-office staff called on the bride and groom of twenty-five years ago, and through Superintendent Geo. Withers, presented to them a handsome silver service. There was music by the orchestra, of which Mr. Bridge's son Harry is head, and a post office men's orchestra; dancing was enjoyed, daily refreshments partaken of and Mr. and Mrs. Bridge were heartily congratulated. They received other gifts, as well, in remembrance of the day.

Aims Blow at Newspapers. Ottawa, June 26—The post office department has announced that the rates on newspapers passing through the Canadian mails will be increased to one cent per copy where there is a postal delivery basis and one-quarter cent per copy where there is no delivery. The old rate has been one-quarter cent per pound.

It is understood that a conference will be held with the Canadian Press Association before the rates go into effect and it is believed that Hon. Mr. Pellier will not be able to enforce the rate of which he has given notice.

FUNERALS. The funeral of Mrs. Charles J. Roberts took place at eleven o'clock this morning. Services were conducted by Rev. B. H. Nobles and the body was taken to Ingleisle on the noon train.

The funeral of Mrs. Walter Thurley was held at 7:30 this morning from the residence of her brother-in-law, William Morris, Acadia street. The body was taken to St. Peter's church for requiem high mass and the body was taken to Chapel Grove for burial. The coffin was covered with many beautiful floral offerings.

The body of Mrs. James W. Patterson will be taken to Shanklin's this afternoon for burial. The funeral service was held last evening at the residence of Captain A. Robertson, 308 Union street.

The body of Frederick Cronk will be taken to Grand Manan today for burial. Service will be held at his late home, 22 Acadia street.

The body of Charles G. Theal was brought to the city this morning from Pennac. Services were conducted by Rev. G. A. Kuhring and interment was in Fernhill.

Magistrate Roger McGill died suddenly in a Fisherton, Ont., court room yesterday while watching trial of a liquor case. Heart trouble was the cause.

A \$1,000 prize for a Canadian play offered by Miss Adele Blood, who is now heading a stock company in Toronto, was awarded to a member of her company, H. Benjamin Osborne of Kingston Ontario.

A cloudburst has flooded the city of Mandon, North Dakota.

VERMONT WOMAN PASTOR ACCEPTS CALL TO ONTARIO

Montpelier, Vt., June 26—Rev. Albert S. Phillips, who has been pastor of the Universalist parishes at East and North Montpelier for three years, has accepted a call to the parishes of Olinda and Bleinheim, Ontario. Miss Phillips is said by friends to be the first woman to occupy a Universalist pulpit in Ontario and the second to be called to a pastorate in Canada.

HOW TO OBTAIN GOOD DIGESTION

The Stomach Must Be Toned and Strengthened Through the Blood

The victim of indigestion who wants to eat a good meal, but who knows that suffering will follow, finds but poor consolation in picking and choosing a diet. As a matter of fact you cannot get relief by cutting down your food to a starvation basis. The stomach must be strengthened until you can eat good, nourishing food. The only way to strengthen the stomach is to enrich the blood, tone up the nerves and give strength to the stomach that will enable it to digest any kind of food, is through a fair use of Dr. Williams' Pink Pills. The one mission of these pills is to make rich, red blood that reaches every organ and every nerve in the body, bringing renewed health and activity. The following case illustrates the value of Dr. Williams' Pink Pills in curing indigestion. Mrs. T. Reid, Orangeville, Ont., says: "I have much pleasure in testifying to the reliability of Dr. Williams' Pink Pills. For several years I had suffered greatly from stomach trouble. Several doctors prescribed for me but their medicine did not help me. After every meal I would suffer great pain, and would often be attacked with nausea. I grew weak and had almost lost all hope of recovery. At this juncture I decided to try Dr. Williams' Pink Pills, which were recommended to me. In these pills I at last found the right medicine, and I am once more in good health. I have much pleasure in sending you my testimonial in the hope that it will encourage some suffering persons to try this sure remedy." Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by the Dr. Williams' Medicine Co., Brockville, Ont.

To Improve Expression As Well As Complexion

No face is really beautiful that lacks expression. Do you realize that continual use of powders and creams tends to spoil pliancy of skin and elasticity of complexion? Why not quit cosmetics, use some-thing better, which softens the pores or make the skin dry, pasty or oily? Ordinary macerated wax acts quite differently from any cosmetic. It wonderfully improves any complexion, giving it life and expression. By gradually harmonizing the color of the skin with its surface skin, it brings to view a pure, soft, spotless complexion, doubly beautiful and youthful. Every druggist has this wax. It is seldom more than an ounce is needed. It is spread on nightly like cold cream and washed off mornings. In a week or two the transformation is complete. Wrinkles do not of course enhance the expression. Neither do the pasty things many use to eradicate them. A great many use from all objection is made by dissolving in a few drops of water. This soon removes even the most obstinate wrinkles.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper

A MODISH DESIGN.

This lovely frock is worthy of the most careful effort of the home dress-maker. It is carried out in cream colored crepe de Chine, trimmed with plain satin and a vest of embroidered chiffon and lace.

To make it requires 4 yards of 44-inch crepe, 1 yard of 40-inch satin, 1/2 yard of embroidered chiffon and 1/4 yard of all-over lace.

The waist is dainty enough to be used separately at any time. Therefore today's lesson will be devoted to its construction.

First make an underbody from 1 1/2 yards of coarse lawn.

Arrange the vest on the front, the shoulder edges and single-lap "O" perforations even. Stitch the lower edges together, centers even. The small "O" perforation in the vest indicates the center of the front.

Take the sleeve and gather the lower edge; then bind with a narrow bias fold of the material. The lace ruffle should be added last. Sew in the armhole as notched, easing any fullness.

Now close the under-arm seam at the outside of the bodice according to notches. Gather the lower edge to the waist measure. Match the notches in the neck and large collar; then sew on the latter. Bring small "O" perforations to corresponding perforations in back and neck. Arrange on underbody, center-backs and under-arm seams even; stitch lower edge together, bringing front edge of outer front to center-front. Sew belt to lower edge, centers even, small "O" perforation at under-arm seam. Front of poplin indicated by large "O" perforations. Close back seam, sew to lower edge of belt, centers even.

Finish with the grids of satin, and this may end in a soft full bow or with a metal buckle.

A dressy model for summer made of cream colored crepe de Chine, daintily trimmed. It is trimmed with dark satin and has a vest of embroidered chiffon and lace.

BUSTER BROWN

For Hard Wear

Buster Brown Stockings are made to stand the test of rough and tumble play in which every healthy boy—your boy—spends half his time. Buster Brown stockings are the greatest wear resisters ever made—the strongest, long fibre cotton, specially twisted and tested for durability, with three-ply heel and toe, well knitted, well finished and fast dyed in Black and Leather Shade Tan.

No more darning if you buy Buster Brown Stockings.

Girls, Too—

Buster Brown's Sister's Stocking for the girl is a splendid looking stocking at a moderate price. A two-thread English over-cord line stocking, that is shaped to fit and wears very well indeed.

Colors—Black, Leather Shade Tan, Pink, Blue and White.

Hints for the Cook

Nutmeg Pudding Sauce
Cream together butter and sugar and flavor with grated nutmeg. Thin, just before serving with a small quantity of boiling hot water. Suitable to serve with plain boiled rice when used as a pudding.

Strawberry Ice Cream
One quart strawberries, 1 1/2 cups of sugar, 1 pint cream, 1 pint milk, pinch of salt. Strain berries through a fine sieve with 1/2 cup of sugar and let stand 1 hour. Scald milk and when cool add cream. Let stand until cold, then add the berry juice, stir well and freeze.

HOUSEKEEPERS SHOULD INSPECT FOOD STUFF.

(By Caroline Coe.)
The conditions of our groceries and markets depend on what we demand. If we stay at home, ordering by telephone, not knowing if the place be clean or if those who handle our goods do so in a cleanly manner, we are to blame for bad conditions.

It is the duty of every housewife to go as often as possible to the place where she purchases the food for the family.

If the storekeeper sees you are particular, he surely will realize that, to keep your trade, he must keep the shop or store in a clean condition.

Markets should not have a layer of sawdust on the floor.

Baskets that have stood upon the sidewalk should not be placed on top of articles of food.

Insist that every article shall be delivered wrapped—cleanliness, as well as assurance that all the apples or potatoes or carrots or tomatoes you purchase reach your home. I know of a grocery delivery boy who, by taking one soda

apple, or anything he could find from each order, filled a basket for himself.

High cost of living may be much reduced by insisting upon receiving all for which you have paid; and the man who sells you groceries will give you the respect he does to any good business man.

DANGEROUS TO PICK AT A SORE CORN

The razor or jack-knife way of paring and gouging out corns is but a temporary relief, and very often causes blood poisoning. To quickly relieve the pain and surely lift out the corn, apply Putnam's Painless Corn and Wart Extractor, the only sure remedy for sore foot lumps, warts, callouses, bunions and corns. Its name tells the story—Putnam's Painless Corn and Wart Extractor. 25c. per bottle.

TAKE A DOSE OF NATURE'S MEDICINE

Throw away your half filled bottle of dope and poison, your patent nostrums and doctor's concoctions. You know they haven't done you any good, and that your stomach is all upset as the result of filling it with these poisons. You know they have weakened your nerves and taken the life out of our blood.

Get back to Nature—low she cures and gives her assistance. Nature will cure you if she has the power. This power is electricity. That's because electricity builds up, supplies nourishment, strength to the body. Drug destroy, tear down, because they contain poison instead of nourishment. Of course poison will ease pain. Why? Because it paralyzes the nerves. The nerves are delicate wires that enable you to feel pain. If you poison your nerves with drugs you can't feel the pain until the stupor wears off. Then the pain comes back and you have to repeat the dose until Nature removes the cause.

If you have a pain in your back you can stop it for a few hours by stupefying the nerves with poisonous drugs. But to cure that pain you have got to remove the cause. That pain is sometimes caused by kidney trouble. So can't you see that to remove the cause you must restore the kidneys to a healthy condition?

The reason the kidneys, liver, stomach or other organs become weak or debilitated is because they lack electricity. This must be restored, either artificially or by Nature, before they can do their work properly.

Weakness in men is caused by an exhaustion of electricity. Get back that force and you will have your strength.

DR. McLaughlin's Electric Belt pours a stream of electric life into your nerves while you sleep, and these conduct the force to every organ and tissue of your body, giving health and strength to every part.

It removes the cause of disease, and when the cause is removed Nature will restore health.

The only sensation is a soothing glow. I have perfected my appliances so that it conveys a stream of electric life direct to the part that is ailing, so that the great force of current goes where it is needed and none wasted.

Dear Sir—I have used your Belt for a few months now, and I have done a lot for me, more than all the doctors' medicine that I have taken, and I have tried several different ones for about a year. I don't think you can recommend your Belt too highly, and I will recommend it to any person in need of it.—**ERNE LEESON, Copenhagen, Ont.**

THINK IT OVER
(Daily Telegraph)

March 21, 1912—The New Brunswick Legislature passed legislation guaranteeing bonds of \$25,000 a mile for the construction of the St. John Valley railway.

May 21, 1912—A Million dollars, the first instalment of the \$4,069,000, proceeds of the Valley Railway bonds, placed in the hands of the Prudential Trust Company of Montreal.

May 23, 1912—Loan of \$350,000 (negotiated on April 29, before any bonds were sold) secured from Prudential Trust Company by A. R. Gould, Ross Thompson, F. J. Lisman and H. E. Macdonnell.

May 27, 1912—Announcement of provincial election in New Brunswick for June 20.

May 27 to June 17, 1912—Mr. Gould and associates received during this period \$225,000 of the \$350,000 loan.

June 20, 1912—Polling Day in New Brunswick—Flemming swept the province—with the exception of Madawaska which has since been heard from.

Prima Facie Evidence Of Diversion of \$207,000

Significant Statement of Chairman of Commission Regarding Repayment on \$350,000 Loan—Divisional Engineer Brown Heard at Afternoon Session

After long argument by counsel on both sides yesterday there finally was placed upon the record a copy of the agreement entered into between Mr. Gould and his associates and the Prudential Trust Company of Montreal, through which the Gould circle—described in the agreement as "the borrowers"—secured a loan of \$350,000 before construction work had begun. The agreement makes mighty interesting reading.

In the course of testimony concerning this agreement and the payments made under it, counsel for the defence raised many objections, and in giving his opinion in favor of the admission of testimony the chairman remarked that there was a prima facie case indicating that \$207,000 of the proceeds of the bonds, advanced to the Gould circle as part of the \$350,000 loan, had been diverted from its proper channel.

When the royal commission for the investigation of the Dupar charges adjourned yesterday afternoon it was with the announcement that they would resume in Fredericton on Monday afternoon.

At the afternoon session B. Hal Brown concluded his evidence regarding the transactions between the Valley Railway Company and the Prudential Trust Company of Montreal.

David W. Brown, divisional engineer of the railway at Fredericton, continued his evidence regarding the progress of work on his division and the amount required to complete it.

For the fifth consecutive session B. Hal Brown was on the stand when the inquiry resumed yesterday afternoon.

Mr. Carvell started to ask about an item in the accounts which he mentioned as a payment of \$18,000 to F. J. Lisman, of New York, when Mr. Teed violently objected to such question and without pressing the point, Mr. Carvell withdrew the question.

Mr. Markey then produced a resolution passed by the St. John & Quebec Railway Company on April 18, 1913, authorizing the payment of such question, the construction company, on the progress estimates and orders-in-council, passed for the project.

This was placed in evidence.

Mr. Brown was then allowed to stand down.

Mr. Carvell submitted a statement from the Dominion railway department showing the amount paid to the Valley railway on account of the federal subsidy. The amounts paid to Jan. 31, 1914, totalled \$288,788.88. No further amount has been made since that date. The statement was received in evidence.

Divisional Engineer.

David W. Brown, divisional engineer on the Valley railway, with headquarters at Fredericton, then took the stand to resume the evidence which he commenced on Wednesday morning.

The witness first stated that one of his resident engineers still has charge of his northern section while the two others are at the head office.

Examined by Mr. Stevens, the witness continued his account of the progress of the work on the northern section. The concrete work was all completed on April 8, the same applied to the dry and wet culverts for dry paving, about \$200 is needed to complete; steel on concrete foundations for bridges, pile driving, all complete; track-laying completed on 17.87 miles, leaving about 12 miles to complete, will cost about \$4,800; fencing, gates and telegraph lines, all completed. Train haul, 80,000 yards to be completed, estimated cost \$20,000; ballast about 75,000 yards, to cost about \$300,000; force account, work still to do will cost about \$200,000.

Witness said that these figures were compiled by himself from the records of the work done and his personal knowledge of what is still unfinished.

Another uncompleted job is the rebuilding of a collapsed culvert, about \$4,000; farm and road crossings, about \$1,500; piping will be required but this is not included in the contract and is supplied by the company; witness could not estimate cost of the materials. Water stations will cost \$6,000 to complete. Three shelters and a station building are to be erected, under the contract.

Witness said there are a lot of items including, right of way, engineering, bridge construction, road diversion, signal posts, terminals, switches, head office expenses, etc. of which he had no information but which will amount to at least \$100,000.

Bridges to be completed are under contract and are not completed but witness has nothing to do with them.

Cattle guards and road signs are furnished by contract, and would be included in the \$1,500 quoted for road crossings.

The account to the end of March on the schedule estimate was \$296,376.09; to the end of April, \$600,706.36. From these amounts ten per cent. is deducted for the guarantee fund leaving \$536,738.48. To this is added the force account, \$32,941.10, to the end of March or \$569,679.58 to the end of April, \$573,634.29, the amount due the builders of the road.

Witness said that there was no standard by which he could say whether the force account was below or above an average.

Further answering Mr. Stevens witness said he had no knowledge of the amount paid or did he have the amended plans where new land was purchased, all these were kept at the head

C. P. R. COUNSEL ARGUES STORSTAD CAUSED DISASTER

Quebec, June 26.—Because her wheel was first put to port and then, without the authority of the officer in charge, put hard astern when she had storage way, Butler Aspinall, K.C., in the course of his address to the Empress of Island wreck commission this afternoon, contended that the Storstad was responsible for the disaster on May 29, in which 1,014 persons lost their lives.

Mr. Aspinall further argued that to find that the Empress starboarded her helm, as assumed by the Storstad legal battery, would be to charge perjury to Captain Kendall, who had claimed no alteration took place in the heading of his ship and that she was stopped like a log in the water, as indicated by the signals heard on the collier.

MEMBERS DAY AT THE R.K.Y.C. PROMISES MUCH Races in Afternoon, Water Sports and Dancing Programme in the Evening

July 1 will be the big day of the year with the R. K. Y. C. It is their annual members' day, and will be one of continual activity and merriment for the members and their friends. The Renforth Outing Association had proposed holding their celebration, but have postponed it on account of the R. K. Y. C. activities.

An excellent programme is now in the hands of an efficient committee and it needs only the co-operation of the weather man for a successful carrying out. The club house will be opened at 10 a. m. and the afternoon will be taken up with the running of the fixtures for the day, the chief one of which will be the arbitrary handicap, in which all the yachts will likely take part. This race is for the Gregory cup and articles of equipment. The second race for the McAvoy cup for boats in the dinghy class will be sailed and three motor boat fixtures are scheduled—open race for the Trask cup; efficiency race and the "bang and go back" race.

At 7 o'clock a series of water sports, including single and double canoe, dingy and rowing and swimming races will be on the card and the day's enjoyment will be closed with dancing in the club house, starting at 8.30. The day is being looked forward to with pleasure and it is expected that 500 people will be entertained.

LETTER BOX SMASHED Between two and three o'clock this morning Policeman McNamee found one of the letter boxes in Waterloo street near the corner of Richmond, broken open. Two letters that were in it were taken to another box. The box was found lying in the street and it is thought by the police that it could not have been secured fastened to the telephone pole to which it was attached.

PROPOSED UNIFORM HELM ORDERS SYSTEM

The Imperial Merchant Service Guild have received an important communication from the British Board of Trade which sets forth their opinion on a recommendation made at the last International Conference on Safety of Life at Sea regarding the adoption of a uniform system of helm orders in the various maritime countries. It appears that the representatives of foreign nations favor an international system of helm orders and they do not approve of the British system which is directly opposite to that followed in other countries. It seems that foreign countries are not yet agreed as to what particular practice should be followed, but they are united in thinking that a British system is unsuited for use under modern conditions. The British delegates that the British system involves the practice of seamen which could not in the ordinary course be altered without very strong reasons for doing so. Any attempt at a sudden change would involve risk of confusion and danger and should be introduced only after full consideration and discussion. The British delegates felt that the matter demanded the most careful consideration and that it was promised that the board of trade that they will devote their most anxious consideration to the subject and report their views in due course.

M. J. SINEY PATENTS VALUABLE INVENTION

M. J. Siney, store and tinware merchant of Waterloo, has developed an idea, for which he has been offered \$18,000, in the shape of a letter and stamp machine. Mr. Siney made a model and used it in his office and, finding that it worked well, had it covered by patents in Canada and the United States. He has received offers of \$12,500 for the United States rights from the Janel Manufacturing & Developing Co. Chicago; and \$18,000 for the United States privileges from the Wichita Co. of Kansas. The chief feature of the invention is the fact that it will maintain the envelope just sufficiently for sticking and it is not necessary for the operator to touch the flap.

SURVIVAL OF THE FITTEST (Coal Age)

He was a good master mechanic, proud of his camp, and of his job; too proud, in fact, which explains the tragedy. He became suspicious of his men, fearing constantly that they were trying to undermine him, scheming for his job. He changed men constantly, planning thus to outwit them. He succeeded so well that no one was ever able to displace him. But years slip by quickly, and while Tobin was so busy holding onto his job and watching the other fellows who appeared envious, he failed to realize that the camp's usefulness was rapidly coming to an end, and, naturally, he got out of touch with progress in his profession. When the end came Tobin had still survived and there he remains to this day. Thomas Moore moved the world to tears with "The Last Rose of Summer." That's because his rose was symbolic of so many Tobin.

ANNUAL GATHERING OF CONGREGATIONALISTS

Beach Meadows, in Nova Scotia, is to be the scene on July 1 to 6 of this year's gathering of the Nova Scotia Congregational Union of Nova Scotia and New Brunswick. The New Brunswick delegates will be E. Thompson, secretary, Keswick Ridge; C. E. Macmichael, treasurer, and J. W. Piewelwood, of St. John. Others to be going are Mrs. Macmichael, Mrs. Piewelwood, Mrs. Jennie Holmes, Mrs. A. Johnston and Rev. Ralph J. Haughton.

On July 1 the opening address will be given by Rev. R. J. Haughton, and Thursday he will read a paper on "The Bible and the development of the Christian character." On Sunday afternoon C. E. Macmichael will preside over the mass meeting of the Young People's Society and address the young men and the stewardship of life, to be delivered by Rev. E. J. Thompson, and some of the addresses. The young men will speak on church membership. On Friday, C. E. Macmichael will lead the 26th annual meeting of the Congregational Women's Board of Missions of Nova Scotia and New Brunswick.

CARSON JUNIOR AND REDMOND SECOND DO NOT AGREE WITH DADDIES; WRITE PLAY TOGETHER

A striking illustration of how very dear friends and family are sometimes divided over a great issue is furnished by a play, "An Irishman's Home," recently produced in London. It was written by two young Irishmen, one of them the elder son of Sir Edward Carson, and the other, a nephew who adopted son of John Redmond. There is nothing very remarkable about the play, but the two authors have prefixed to it a "preface for politicians" in which they express their ideas about Ireland and Irish government in a way which shows that they are far from being in sympathy with their fathers on the great questions by which the people of Ireland are now being divided. Sir Edward Carson's son is actually a member of the United Irish League. He does not believe in all its objects, but he wishes to emphasize by his membership in it his protest against the separatism of Ulster. On the other hand, young Redmond has joined the Ulster Volunteers. Not that he is not an ardent home ruler, but that he is strongly against the coercion of Ulster. He would not have Irishmen of any shade of political opinion compelled by force to give it up, or to submit to those of a contrary view. In the preface of the play referred to, Sir Edward Carson is told by his son that, if his convictions require it, he may keep up "an army of men in open rebellion in Ulster, but you must not call it 'loyalty.'" Mr. Redmond is spoken of by his adopted son as "Redmond, the political Socialist, bent on keeping the balance of power" and Sir Edward Carson is described as "the military dynamitar, whose example would turn every disputed election into a civil war" in the daring expression of these youthful ideas may possibly be recognized an indication of the growth of a national spirit which will some day embrace all parties and triumph over all sectional barriers.

Evidence of Norman McLeod Charged With Speeding—Sentence For Frederick Ross For Sounding False Alarms of Fire

The case against Norman McLeod, charged with excessive speeding on the Loch Lomond road last Sunday, was adjourned in the police court yesterday afternoon to give the defendant time to secure witnesses to corroborate his statement that he had to drive fast to get out of the way of an automobile that was zig-zagging down the road at the rate of forty miles an hour. E. S. Ritchie appeared for the defendant. Frederick Ross gave evidence yesterday and said he saw the automobile referred to. Frederick Ross, charged with ringing in false alarms of fire, was brought before the magistrate yesterday afternoon and sentenced to the full penalty of the law and fined \$100 or forty days in jail. He went to jail in default of payment of the fine. Frederick Ross charged with breaking into the warehouse of Lilley & Son, Elm street, was brought before the magistrate and further remanded.

BUILD SECTIONAL HOUSES AT NEWCASTLE; SHIP THEM TO PORT ARTHUR FOR DISTRIBUTION

(The Busy East) Sectional houses built in Newcastle, shipped by a line of steamers from there to Port Arthur; the steamers to carry return cargo of grain for shipment to Europe; a business proposition which sounds somewhat fanciful when first read, but it is a part of the progressive plans of the Swedish Lumber Company, and by those who are most interested considered most feasible. This company which is now operating large lumber mills at Nordin near Newcastle, and at Hexion, is to be reorganized as the Swedish-Canadian Lumber and House-building Company, and will go into the construction of sectional houses on a large scale, following a plan of building that is popular in Sweden, and which makes for solidity and comfort. Shipped in sections the house can be put up in a very short time, and it is expected there will be a big demand for them in the west, where houses are required in a hurry, and where building material is scarce and costly.

The plan therefore is to put on a line of steamers that will go up the St. Lawrence, and through the Great Lakes to Port Arthur, from which point distribution will be made by rail. The steamers will bring return cargoes of grain to Newcastle where an elevator is to be constructed, and the grain shipped to Europe. In conversation with the writer, O. W. Nordin, the general manager of the company, expressed himself enthusiastically over the prospects of success of such a project, and declared it would be a reality within a few months, as there is sufficient capital behind the enterprise to make it a sure thing.

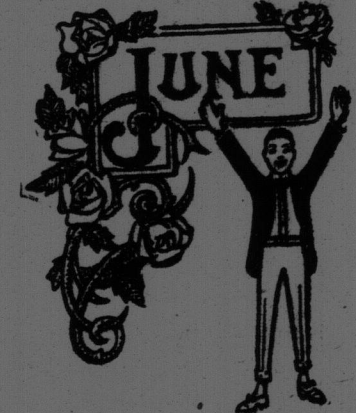

MUST ABANDON RUINED TOWN.

The thriving town of Hosmer, B. C., will soon be but a collection of deserted buildings. The town depended entirely upon the coal mine owned and operated by the C. P. R., and giving employment to 1,200 men. The company has decided that coal cannot be found in paying quantities and the mine is being dismantled and abandoned and the people are already leaving to seek homes elsewhere. Many of those who have invested money in the town will be ruined financially.

To Men Earning From \$20 to \$30 Per Week You don't have much left after paying expenses, do you? If some misfortune should deprive you of your income for a few months you'd probably run behind temporarily. Now what about your family? How would they get along if your income should be permanently cut off by your death? Don't you realize that you should have at least \$5,000 of life insurance to provide for them after you're gone? And, of course, you want the kind of assurance that's absolutely safe. And you want the "savings bank" kind under which you don't have to "die to win."

Biggest Things About This "Paris Creation" is the Price Tag

Every year in June and July Paris sends out hats trimmed heavily with feathers, but they are worn only over here by those who dress for extreme fashion. The one pictured was worn by a well known society woman in Paris the other day. It was cut of a dark tobacco brown terry with quantities of white cross agrettes on it. One wonders how the lady will smuggle the \$500 worth of feathers into country where this kind of plumage is interdicted.

For Walls and Ceilings

Bishopric Sheathing Board is a combination of lath, asphalt-mastic and heavy, rosin sized, high-grade cardboard. Walls and ceilings made of "Bishopric" are satisfactory in every way and pour house will be warm in winter and cool in summer because the Asphalt-Mastic is absolutely moisture and temperature proof.

Lath side out "Bishopric" makes a back-ground for plaster that is without a considerable competitor. The laths are keyed by a patent process, each lath is undercut in a "V" shape and the plaster curls under and locks itself securely.

Bishopric will out the cost of applying plaster, cement or Stucco, in half.

HOW GOLD IS BEATEN

Gold beating is one of the oldest trades in Birmingham, England. To a large extent this trade has gone to Germany through the competition of cheap labor, but it is asserted that the best gold leaf is still made in England. The work is done entirely by hand, and the customary sign is the picture of a gilded arm bearing a hammer poised for the blow. The leaf is hammered out in small home workshops from twenty-four carat gold, but is first sent to the rolling mill, when it is returned in long, thin ribbons one and a quarter inches wide and one-thousandth part of an inch in thickness. Then it is ready for the beater. The ribbon is generally cut off into small one and quarter inch squares, weighing about six grains.

The thin square is placed in the centre of a vegetable parchment pad, consisting of 100 sheets on top and the same number beneath. This is beaten with a fourteen pound hammer, and the gold when considerably reduced in thickness is placed between leaves of goldbeaters' skin—that is, skin prepared from a thin but tough membrane found in the large intestine of the ox. Eight hundred pieces of the hammered leaf are arranged over each other, between leaves of the skin—the whole being placed between parchment bands and beaten for a couple of hours with a seven-pound hammer. Then the 800 pieces are cut up into 2,800 pieces and again beaten. When the work is done the leaf is one fiftieth of an inch in thickness and almost as light as air.

An odd custom is invariably to preserve the leaf for sale purposes in old Bibles and testaments, and enormous quantities of these sacred books are used for this purpose. There are not many gold beaters left now in Birmingham, but a generation ago there were many factories.—Exchange.

In 1890 the south mined less than 10 per cent of the coal mined in the United States. At present its output is nearly 25 per cent. of the total.

STORIES OF ROYALTY

Some Things That Are Said To Have Influenced Monarchs

(Times Special Correspondence)

LONDON, June 18.—King George V is a bit uncertain about the exact significance of the number thirteen. When H. B. Durrant's horse, Durban II, bearing the supposed unlucky number, raced home an easy winner in the Derby, he was hoping to beat the king's horse, second favorite in the betting. King George had a rude shock to his conviction that nothing good could ever come from number thirteen. It will, perhaps, be remembered that it was King George who created an embarrassing situation at a luncheon at the home of the Hon. Mrs. John Ward, daughter of the late Whiteley Reid, by refusing to sit down with a dozen others. He was but following the footsteps of his father, who was an even more superstitious man. The late King Edward would not allow two knives to lie on the table before him and his hostesses had to acquiesce themselves with all his little failings. He also regarded Tuesday as his fateful day, as he was born, baptised, married and succeeded to the throne on that day. The serious operation which postponed his coronation also was performed on a Tuesday.

King Edward was fond of jewelry of every kind, but one of his most prized possessions, albeit of little value, was a bangle or bracelet which he wore on his left wrist and to which he attached extraordinary powers for good. The present queen also carries with her a bangle to which is attached a little ivory dog given to her when a child.

Among continental royalty there are many superstitions connected with the history of their respective families, some of them stretching back into the Middle Ages. The Kaiser, on state occasions, always wears what is known as his "loadstone ring." With this magic ring is associated the wonderful property of the house of Hohenzollern. According to the legend the stone of this ring was dropped by a load upon the bed of Elector John of Brandenburg, father of Frederick the Great. The stone was set and has been worn by succeeding heads of the Hohenzollerns. On his death bed the Kaiser will hand the ring, enclosed in a sealed casket, to his son, the crown prince.

Czar Nicholas has a ring containing what is said to be a piece of the Cross. It was presented to a former Russian ambassador by the Vatican and Nicholas plans never to be without it. It is told of him that several years ago he started on a trip from St. Petersburg to Moscow. When he had gone a considerable distance he discovered that he had left his ring behind. He immediately had the train stopped, returned to St. Petersburg and once more started on his journey with it in his possession.

To a unique collection of Oriental coins the Czar also attaches marvellous protective powers. Some years ago, one Bernhard Tutnauer, a Jew, living in Radauts, a town in Bukovina, entertained a wonder-working rabbi from the Orient. On his departure the rabbi handed his host some odd coins, saying: "Although these may seem to you a poor gift, yet they have the power to protect greater than you from violent death."

That night Tutnauer had a dream in which Alexander III, father of Nicholas, appeared to him and told him that the coins he had received would protect from harm anyone who wore a crown. On the two following nights he had the same dream. Without further delay the Jew sent the coins to the Czar, telling him how they came into his possession and giving an account of his dream. The Czar accepted the gift and sent in return a cordial letter of thanks.

One of the most famous rings in history is what is known as the "Spanish opal," to the influence of which is attributed, by superstitious inhabitants of the country, all the misfortunes suffered by Spain in the last century. It was given to Alfonso XII by a notorious adventuress, Comtesse de Castiglione, with whom the monarch was friendly when he was an exile and a pretender to the Spanish throne. On becoming king, Alfonso found a wife of royal blood, and the tragic comtesse became mad with jealousy. Concealing her true feelings, however, she sent to the king a few days after his marriage a package containing the fateful ring, wishing him and his wife happiness and prosperity.

The opal was a particularly beautiful one and Queen Mercedes, the king's consort, upon seeing it claimed it for her own use.

The Spanish queen's health declined and in a few months she died. The ring

then passed to the king's grandmother, Queen Christina, who also died within a short time. The king's sister, the Infanta Maria del Pilar, then wore the ring and died, leaving the fatal opal to the young son of the Duc and Duchesse of Montpensier. He, too, succumbed.

King Alfonso, despite the protests of his family, then decided to wear the ring himself, to prove that it had no connection with the deaths of its owners. Within a few months he also was numbered among its victims. This was too much for the royal family of Spain and Queen Christina, mother of the present king, had the ring strung on a gold chain and hung about the neck of the statue of the Virgin of Alameda, the patron saint of Madrid.

The present King of Spain wears on his watch chain a gold sequin given to him by a gipsy woman, and many Spanish people of the poorer and more romantic class will tell you that it is over his marriage to Queen Ena. According to the fanciful tale that is told, the king one day met an old gipsy woman near Madrid and offered her alms. The old woman indignantly refused, telling Alfonso that she was the last of the Almoravides, who ruled in Morocco and Southern Spain more than 700 years before.

The king listened with interest to the woman's story and when she had finished she insisted upon giving him a rare sequin bearing the effigy of Isahag, the last king of the Almoravides.

"There is only one other like it in existence," the old woman said, in telling the king to take good care of it. "I gave it to an English princess some years ago. If ever you should meet her, marry her, for she will make you happy."

It is hardly necessary to say that the story concludes by recounting the meeting of Alfonso and the then Princess Ena of Battenberg and the discovery that the latter was the holder of the gipsy's sequin.

Constant Headaches From Exhausted Nerves
Appetite Poor—Digestion Bad—Daily Grew Weaker—Lost Faith in Medicine

Headache is a symptom and not a disease itself. True relief may be obtained by the use of powerful opiates but the shock to the nerves is tremendous and the result a further weakening of the system.

To really cure headache it is absolutely necessary that the exhausted nerves be restored and revitalized. This can best be accomplished by the use of Dr. Chase's Nerve Food. The benefits are both certain and lasting, for by building up the system the cause of trouble is removed.

This has been proven in many thousands of cases and we cannot do better than quote here the letter from Mr. Donnerer, who suffered almost constantly from headaches for two years. Doctors did their best to cure him but in vain. Dr. Chase's Nerve Food made a perfect cure because it removed the cause.

Mr. Charles Donnerer, Kleinburg, Ont., writes:—"I wish to communicate to you the great cure which I have received from Dr. Chase's Nerve Food. I was a sufferer from headaches for over two years. I took medicines from physicians and saw the headaches persisted and I was rarely free from them. About a year ago, I saw one of Dr. Chase's Medicine Books, and I thought I would try his Nerve Food. I did so, and I must confess with very little faith, but after I had taken a box, my headaches were easier, and after I had taken two boxes they left me. My appetite was always poor and my stomach was bad, and now my appetite is splendid and my digestion is excellent. I had become thin and weak from the constant headaches, but now not only have I been cured of all them, but my strength is growing once more, and I feel like a new man. I am exceedingly grateful to Dr. Chase's Nerve Food for curing me. I give this testimonial with great pleasure as I hope thereby some other sufferer from headaches will be induced to try Dr. Chase's Nerve Food and will be cured."

THE HALF HOLIDAY IN THE NORTH END

Some Clerks Would Rather Have Saturday, But All Want One Afternoon—Wm. Gordon Likely to Recover

Although many of the clerks in the North End stores are advocating the Wednesday half holiday for the months of July and August, there are some who are not particularly anxious, as they feel they would have no hope of ever getting a half holiday on Saturday, as the clerks in the stores of the city now have, and they would rather have the holiday at the weekend.

Many of the merchants in the North End have signed the petition for the Wednesday half holiday, but others feel that they cannot very well afford to close on account of the business done in the North End stores every afternoon while the river steamers are coming and going.

Some of the clerks are working hard to get the half holiday, and feel that they are as much entitled to one half holiday during the week as they are in the stores in the main part of the city, or on the west side, where the stores now close on Thursday afternoons, and since they have not been able to secure a half holiday on Saturdays after working for it for a long time, it is expected that they will make a special effort for the closing on Wednesday afternoons, which they are asking for during July and August.

William Gordon, who had such a narrow escape from death at Indiantown yesterday, and who owes his life to the gallant rescue effected by Gullie McVicar, is resting comfortably in the hospital this morning, and it is now thought that he will recover. He has several bruises about the face and at the back of the head, and his jaw bone is fractured, but it is not thought at the hospital that any very serious results will set in. Mr. McVicar is being highly praised.

These are pleasant days at the river front, and it is quite a pleasant pastime to attend the incoming of the river steamers and watch the passengers landing and the produce being brought ashore.

Besides a husband, deceased, leaves to mourn four daughters, Mrs. Crawford, Upham; Mrs. Turner, West Hampshire, and Misses Lizzie and Helen at home, and four sons, Thomas, Campbellton; Walter, John and George at home.

At the residence of J. Westra Barnes, Barneveld, Kings Co., on the evening of June 17, his only daughter, Jennie Gertrude, was united in marriage to J. J. Fowler of Upham.

Kerr-Dole. In Chalmers Presbyterian Church, Sussex, on June 23, Ephraim J. Kerr, Presbyterian student at Harcourt, was united in marriage to Lillian Blanche Dole, daughter of Mrs. C. P. Dole. The ceremony was officiated by Rev. H. H. Ferguson. The happy couple left for a short vacation, after which they will return to Harcourt, where Mr. Kerr is at present ministering to the congregation of the Presbyterian church.

Hurder-Grasse. At the home of the bride's father, Isaac Grasse, St. Marys, Wednesday afternoon, H. H. Hurder, of McAdam Junction, and Miss Lillian E. Grasse were united in marriage by Rev. H. H. Ferguson. The happy couple left for Toronto on their honeymoon. On their return they will reside in McAdam Junction.

Graham-Richardson. At the George Street Baptist parsonage, Fredericton on Wednesday, G. L. Graham and Miss Wynnie Richardson, both of Miramichi, were united in marriage by Rev. J. E. Wilson.

Owens-Kennedy. A wedding was celebrated by Rev. A. W. Meahan, D. D., in the Church of Saint Andrew at St. Andrews, on June 24, when Miss Jennie E. Kennedy, daughter of Mrs. Angus Kennedy, was united in marriage to Richard B. Owens of Woodstock, N. B.

McClure-McCordy. The residence of Mrs. J. A. McCordy, at Milltown, was the scene of a happy event on Wednesday morning at six o'clock, in which the principals were her daughter, Lillian W., and Joseph H. McClure, of St. Stephen.

I. C. R. Veterans Retire. Three veteran employees of the I. C. R., including William Baxter Dunn, who has been railroaded probably longer than any man in the maritime provinces, and who has had forty-five years experience in the game, entering the service in 1869, and the old European North American Railway, running from St. John to Shediac, related a most interesting story of his life on the train.

A TARIFF WAR EXPECTED IN 1917

Germany, Hungary, Russia and Perhaps France in Titanic Economic Struggle—German Policy the Cause of the Trouble

(Times Special Correspondence) St. Petersburg, June 12.—Europe's greatest states are arming for a tariff war. The war will come in 1917; and Germany, Austria-Hungary and Russia will take part, perhaps also France. Already skirmishing has begun and vigorous aggressive measures are being taken by Russia against the favorite economic policy of Germany's agrarians. Germany is devising measures of retaliation. Austria and Hungary have both increased the duties on rye and wheat. The Bulow tariff satisfies no one in Germany and no one outside.

The German socialists and the radical people's party ascribe to it the high prices of bread and meat; and the agrarian conservatives complain that it is not high enough. The finishing manufacturers condemn it because it favors raw material producers who burden them with high coal and iron prices.

Among these interests official Germany is in difficulties. To negotiate for commercial treaties on the basis of lower duties would estrange the conservatives; to insist against the conservatives no chancellor can stand. To proclaim for higher duties is unpopular owing to the Reichstag's doubtful attitude, and to the existing violent agitation against high food prices.

This peaceful declaration is having an effect exactly opposite to Beltrucci's expectations. It has produced breathings of hope from the high-protectionists of Austria, Hungary, Poland, and South Russian manufacturers demand higher duties against Germany's high-protectionists. Germany's high-protectionists, they will not tolerate the present tariff. They want it replaced by a "war tariff" which will curtail the prohibitive tariff. They demand that Austria and Russia be forced by threats of retaliation to reduce existing duties on German manufactures. In this German determination that Germany shall raise her duties, and in the Russo-Austrian determination that Germany shall cut them down, are the elements of a tariff armagdon which will convulse Europe; and even, as the inspired "Hollander" (Zetung) says, may lead to an Armageddon of the world.

Austria-Hungary is determined to oppose Germany's policy. "Foreign office organs, 'Fremdenblatt,' and 'Delbruck's programme with the word 'Fremdenblatt,' the present commercial treaties, it says, are impossible. Scores of Austrian societies representing manufacturers and agriculture have passed resolutions declaring that Germany must be forced to cut down her duties, and that Austria must put up hers.

Hungary is even more interested than Austria. Her landlords and farmers are in a strongly anti-German mood. The Buda-Pest Chamber of Commerce and the Hungarian Society of Industrials are backing the protectionists.

Russia's high-protectionists are in the same fighting mood. In February, after Delbruck's proclamation of peace, no Russian provinces complain that they cannot compete. Also Hungary complains. As a grain exporting country she feels the German competition in the coming tariff war the abolition of import certificates will probably be insisted on both by Russia and Austria-Hungary.

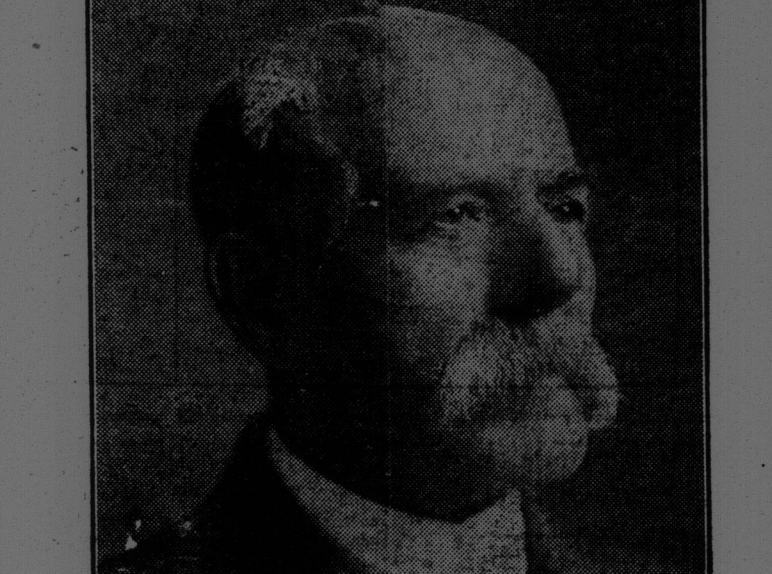

Russia Takes Action. Russia has already opened the offensive against the import certificates. Up till now Russia has imposed no duty on grain, but she is not pledged not to do so. When she negotiated her present commercial treaties, nobody dreamed that she, Europe's greatest grain exporter, would have a country-led grain export forced on her. In order to kill the import certificates, the Russian government has laid before the Duma a bill which imposes a heavy duty on grain, which imposes a heavy duty on grain, which imposes a heavy duty on grain.

The grain exporter sold the certificate on the Stock Exchange as government I. O. U.'s at practically their full nominal value. The use of the import certificates was restricted two years ago, but the effect of the system remains. Germany is not self-supporting in the matter of food, yet, with vested bounties, she finds it profitable to export to Russia.

The production and export of rye have grown enormously. In 1912 Germany exported 800,000 tons of rye and imported only 300,000 tons. Russians buy German rye much cheaper than Germans buy it, and even cheaper than their home production cost. The Russian frontier provinces complain that they cannot compete. Also Hungary complains. As a grain exporting country she feels the German competition in the coming tariff war the abolition of import certificates will probably be insisted on both by Russia and Austria-Hungary.

FOUGHT WITH LORD ROBERTS

Veteran of Crimean War and Indian Mutiny Suffered Horribly With Rheumatism, Until "Fruit-a-lives" Brought Welcome Relief

Chatham, Ont., April 3, 1913. "I am a veteran of the Crimean War and the Indian Mutiny, and served under Lord Roberts during the Indian Mutiny, and am a pensioner of the British government. Pierce hand-to-hand fighting and continual exposure, left me a great sufferer from Rheumatism, so much so that my legs swelled up making it impossible for me to walk. My bowels were so constipated that I only had one passage a week until I got to using 'Fruit-a-lives.' They cured me of both the Constipation and Rheumatism. Today, my bowels move immediately after breakfast, and in my regular employment I walk thirty miles a day and enjoy perfect health. No more Rheumatism or Constipation.

You are at perfect liberty to publish this letter and my photo if it will be advantageous to 'Fruit-a-lives.' GEO. WALKER. This letter of Mr. Walker tells how to cure Rheumatism, but does not tell WHY 'Fruit-a-lives' cures this trouble. Rheumatism is the result of poisoned blood, due to weakness or faulty action of the bowels, kidneys, or skin. In Mr. Walker's case, Rheumatism was the result of excessive Constipation. Waste matter remained too long in the system, was absorbed by the blood and inflamed the nerves and membranes in his legs. When he started to take 'Fruit-a-lives,' these tablets immediately acted on the liver. More bile was given up to move the bowels. As the bowels were cleaned, the poisonous waste matter was removed, the blood became clear and the nerves were no longer irritated. Today, Mr. Walker is enjoying vigorous health, that was his when he fought with Lord Roberts and helped to plant the British flag firmly in our Over Seas Possessions. He is as active as a man of forty and cannot praise 'Fruit-a-lives' too highly. Try them yourself, 50c. a box, 5 for \$2.50, trial size 25c., at all dealers or from Fruit-a-lives Limited, Ottawa.

merous congresses were held for the purpose of declaring a commercial war. The congresses passed resolutions against coming to an agreement with Germany on the condition that Germany cut down her food duties, stops the veterinary chicanery which is used as a pretext for excluding Russian cattle, and abolishes the present system of giving bounties on corn. The Russian, Polish, and South Russian manufacturers demand higher duties against Germany's high-protectionists. 'The treaty,' says a Duma deputy, 'is a worse disgrace for Russia than the Japanese war, and it must be wiped out.'

Most serious of all conflict causes are Germany's "import certificates." These are a veiled bounty on exported German grain, which Austria and Russia resent. The "import certificates" were given in 1894 by Chancellor Caprivi to the agrarians as compensation for the cutting down of the grain duties. The exporter of grain gets a certificate which entitles him to import duty-free from abroad grain in equal quantity. At first these "import certificates" were accepted by the customs officials only in payment of duty on the same kind of grain for which they were issued; but later the certificates were made valid to pay import duty on other goods, including coffee and petroleum.

The grain exporter sold the certificate on the Stock Exchange as government I. O. U.'s at practically their full nominal value. The use of the import certificates was restricted two years ago, but the effect of the system remains. Germany is not self-supporting in the matter of food, yet, with vested bounties, she finds it profitable to export to Russia.

BUNTY IS DOING WELL IN TORONTO

Being Played There By The Bonstelle Company

O'BRIAN THERE, TOO

John Meehan Engaged For Portland Season - Hazel Dawn to Europe - Charley's Aunt And The Man Who Wrote It

"Bunty Pulls the Strings" is back in Toronto, pulling more strings at the Alexandra Theatre, under the auspices of the Bonstelle players.

Two other new members of the organization are Bernard Steele, lately associated with the Lester Longoria company at New Bedford, Mass., stage director and character roles, and Maude Blair, who will be seen in general business.

Hazel Dawn, accompanied by her father, Mr. and Mrs. Edward, and her brother Irving, sailed on Thursday for the Cedric for a hurried trip abroad.

Brandon Thomas, a noted actor and playwright, died in London, England, on June 15. He was fifty-eight years old.

William Elliott announces the engagement of Paul Gordon, a former Yale man whose real name is Thomas Achilla, for next season for the role of David Graham in "Kitty Mackey."

Police Officer Wendell of the St. Nicholas avenue station found Henderson senseless in front of the theatre and called an ambulance. He had been struck on the head, apparently with a club or blackjack.

Two actors met on Broadway. One of them was in deep mourning, and the other asked who was dead.

The other actor murmured sympathy. "My grandfather," was the reply. "We buried him yesterday."

The other actor exclaimed, "we were turning 'em away."

"AFTER THE BALL" IN THE MOVIES

Song Hit To Be Reproduced For Camera

OTHERS TO FOLLOW

First Named Brought Fortune To Its Composer - New Photo Play For Ethel Barrymore - Mr. Powell Has an Experience

The best known and most widely sold and sung "hit" in the history of "popular" compositions—After the Ball—is to be made into a six-reel production by the Photo Drama Moving Picture Company, through an arrangement with the author and publisher, Charles K. Harris, as the first of a series of features which will bear the names of four 1900 songs which went out to the popularized within the last fifteen years.

Mr. Harris gets the highest price ever paid for a moving picture scenario, and has a guaranteed interest in the profits of the picture which mounts well into a small fortune.

The Photo Drama Company has been as fortunate in securing their principal actors as they have been in the matter of the scenario of the famous author's word-famous song.

For six months, Mr. Harris has been preparing to enter his song titles in the feature picture market.

Harris has much faith in After the Ball, and ten gets anybody twenty around the Chas. K. Harris office that the film will be witnessed by every man, woman or child who ever heard the song—and that's millions.

Since the announcement that the All Star Company had succeeded in inducing Ethel Barrymore to appear in a photoplay, there has been much curiosity as to which of her stage successes would be chosen for the screen debut.

July 1 will see the next Mary Pickford release, when the Famous Players Company will present this star in photoplay adaptation of "The Eagle's Mate," a novel by Anne Alice Chapin.

The Man In The Street

Commissioner Potts has a new day-light saving scheme. Hereafter don't be surprised to hear one of the public employees going along the streets about 2 a. m. singing, "Oh, it's nice to get up in the morning, etc."

Slightly Revised
This letter to have loved them all
Than never to have loved at all.

The Montreal Herald wants to know why it that a red cow feeds on green grass, gives white milk, yields yellow butter and when it dies, gives pink meat, rare, and brown meat well done. It is for the same reason, we would judge, that blueberries are red when they are green.

There's not much difference that I can see
For both of them sang the self-same song.
"Then's only one girl in the world for me"

Since he ascended the water wagon eight years ago, John L. Sullivan says he has saved \$100,000. Surely John couldn't punish more than \$100,000 worth of wet goods in a year?

Western candidate for political office cut off a couple of toes with an axe, but the despatch says he will not retire from the campaign. Even if he cannot run he can still stand for election.

There can be no doubt about it. Since Mark Anthony's oration on the death of Caesar, there has been nothing so "touching" as the appeal of Mr. W. H. Berry.

They say that when a Carleton county snake gazed down from a high place upon the simonistries of the St. John Valley Railway he went away and died.

Many men have declared that they could not afford to go into politics. There are other men who think they can't afford to stay out, especially in Berry time.

"Dust thou art, to dust returnest" sadly quoted the suburbanite when he had returned from the green fields to the streets of St. John.

F. B. Carvell does not appear to have made nearly so good an impression upon Mr. Brown and Mr. Markey of Montreal as "Van Horne" Gould was happily able to make.

They do say that a man who confidently approached a lumber operator the other day with a subscription list is still in the hospital.

After all, \$100,000 is not a large sum. Neither is \$800,000. A fox rancher on the owner of a subdivision realizes much larger sums in his dreams every night.

Trout is King.
Two prominent citizens met at the post office yesterday. Did they talk business, or refer to the Royal Commission? Not on your life. One said:—"What kind of a lock did you have?"

The other said:—"Poor, very poor. But they're running now. I just saw a man who got a great string yesterday."

Dejected.
Down on the beach at Courtenay Bay, downcast and with eyes fixed on the waters as if there he thought of seeking rest from his troubles, I saw him yesterday. So taken up with contemplation of his woes was he that he did not hear as I neared him and sat on a piece

of timber close by. Then I overheard him in self communion. "Twas just about here that I jumped in one day and brought that little golden locks to land as she tumbled into the water while wading, and was lying unnoticed and drowning. When her people saw, they praised me and I felt glad. But they went their way, while mine was a different and uncertain route for I have none who claim me or whom I call my own. Today I am an outlaw and my liberty and perhaps my life are forfeit if I am taken. If laws are right they must be obeyed, but I have tried to do my best and that I am outside the pale is no fault of mine. Still I must suffer. If one of those who pursue me were to be struggling for life in the waters before me now, I would leap to his rescue, but they do not think of that. If they must be my enemies I would, if I could make my voice reach them, ask them at least to be human and if they will not have me among them, send me away, but do not take my life simply because I am—A Dog."

And I agreed with him and took him to my home, for I knew in him I would have a friend that would be true to the end.

An adventure, which gave them some excitement at the time and considerable amusement since, befell two girls on last Sunday during a little outing they were enjoying. They were at Millerville for the day and took a walk in the afternoon to enjoy the scenery. Coming to the little Anglican church they sat down on the steps to rest. Then they decided that they would peep inside and see what the interior looked like. Cautionously they opened the door, and as they did so—bang! went the big church bell.

Their first thought was that the bell was connected with the door, as it was an alarm and, having no desire to be caught intruding, they gathered up their skirts and bolted out of sight before any one could come to inquire who had sounded the alarm. As they traveled, without regard to speed laws, they began to realize that the bell was still ringing and gradually it dawned upon them that it was merely a coincidence that, as they started to open the door the sexton had started to ring the bell for the afternoon service.

COMPLAINTS OF DISORDERLY CONDUCT BY MEN COME FROM HAYMARKET SQUARE

Also Belief That There is Illegal Sale of Liquor in the Vicinity

Several complaints of disorderly conduct among men who are old enough to know better, have reached this office from the vicinity of Haymarket Square. There are in the vicinity several alleys-ways where men are said to congregate at night and raise disturbances long after the residents have retired and the matter has come to be a source of worry to those who are compelled to put up with it.

There are also rumors of illicit sale of liquor in this district. On last Sunday evening five men were seen sending their way across Haymarket Square in an advanced state of intoxication and it left the witnesses nothing else to suppose than that they had purchased their drink on Sunday, as they were not of a class that would be able to lay out their money in London and other musical centres; and Paderewski once said in London, "on my way to the world's foremost violinists. He studied under Ebano of Chicago, Adamski of Boston and Leopold Auer of St. Petersburg.

Lee Cronican is also young, but has devoted his life to the piano, and is a splendid instrument in Centenary school room never responded to the touch of so finished a player. He goes to Europe with the foremost violinists. He is a strong leader of the provincial opposition, Judge Drouin and Hon. S. N. Parent.

The toasts proposed were "the King," "the Pope," and "Cardinal Begin" in the order named.

In his address Mayor Drouin sketched the career of the cardinal in glowing terms. The cardinal later declared that he had informed the Pope while in Rome how well the chief magistrate of Quebec understood his civic and religious duties, and that the Pope had been pleased to confer upon him the order of Commander of St. Gregory.

Among the other notables present were Mr. Bastien, batonnier of the bar of the province of Quebec; Sir G. Ross, Doctor Normand, Hon. Messrs Turner, Garreau, and Mr. Lyons, Judge Willich, H. S. Cannon, Rev. Canon Scott, Hon. Messrs. Muckenzie, Chapuis and Kaine, Mgr. Gosselin, Judge Pothier, Mgr. Lauges, Douville, Mgr. Routhier, Mgr. Lejeune, Sir Rodolphe Forget, Mgr. Tetre, Mgr. Douville, Mgr. De Paquet, Mgr. Synott, Mr. Rousseau, Col. Landry, Hon. Messrs. Caron.

BEST SONG REGAL HEARD HERE IN YEARS

Mme. Marie Stillwell and Messrs. Warner and Cronican Delight St. John Audience

The National Society for Broader Education could ask no finer interpreter of its aims and purposes than the three great artists who charmed an audience of music lovers at the first of their concerts in Centenary school room last evening. The attendance was large, and the applause which greeted the artists grew more and more appreciative. At the close a number of ladies and gentlemen remained to meet and congratulate Madame Stillwell and Messrs. Warner and Cronican on the remarkably high quality of the song recital. The fine acoustic qualities of the school room of Centenary and the magnificent piano made it easy for singer and players to be at their best.

"I have not heard its equal in fifty years," was the enthusiastic comment of Rev. J. C. Berrie.

These recitals are given by the National Society in co-operation with the Every Day Boys' Club, and Rev. Mr. Barron, the pastor of Centenary, spoke in terms of praise of the work of the club and the time and care given to its work by Mr. Belding. The programme follows:—

- 1—"Concert Valse No. 1, Op. 8," Wieniawski
Mr. Cronican
2—(a) "Spring Tide," Becker
(b) "Cowslip and Clover," Trevalsa
(c) "I Hear You Calling Me," Marshall
Marie Stillwell
3—(a) "Nocturne in D Major," Chopin-Wilhelmj
(b) "Schon Rosmarin," Ar by Kreisler
(c) "Gavotte," Mosart-Auer
Mr. Warner
4—(a) "Scherzo in E Minor," Mendelssohn
(b) "Nocturne in B Major," Chopin
(c) "Arabesque," Leschtchisky
Mr. Cronican
5—(a) "Slav Song," Chamind
(b) "Yesterday and Today," Spross
(c) Old Songs
"Annie Laurie," Lady Scott
"Old Folks at Home," Foster
Violin Obligato, Marie Stillwell
6—(a) Selection by Request.
(b) "Indian Canoe," Dvorak
(c) "Fugue at Postern," From Stabat Mater, Rosini
(d) "Stille Nacht," Bruber
Marie Stillwell

Madame Marie Stillwell is a beautiful woman, entirely unaffected, and sings with perfect ease. As a leading contralto soloist in famous New York choirs and with symphony orchestras she has delighted the most critical audiences, and she sang with the famous composer Lisa Lehman when the latter made her New York appearance. She possesses a voice with an absolutely even scale, and one great teacher said of her—"Superb!"

Maurice Warner is a perfect master of the violin. He is young, but has been welcomed in London and other musical centres; and Paderewski once said in London, "on my way to the world's foremost violinists. He studied under Ebano of Chicago, Adamski of Boston and Leopold Auer of St. Petersburg.

Lee Cronican is also young, but has devoted his life to the piano, and is a splendid instrument in Centenary school room never responded to the touch of so finished a player. He goes to Europe with the foremost violinists. He is a strong leader of the provincial opposition, Judge Drouin and Hon. S. N. Parent.

POPE CONFERS ORDER ON THE MAYOR OF QUEBEC

Judge McLeod at Banquet To Cardinal Begin at Which Announcement is Made

On his worship Mayor Napoleon Drouin of Quebec the Pope has conferred the order of Commander of St. Gregory. The announcement was made here at the banquet tendered Cardinal Begin by the city of Quebec. It was a striking affair and the Chateau Frontenac has witnessed few more representative scenes.

The banquet hall was handsomely decorated for the occasion, and church and state mingled in its tribute to the first Quebec born prelate who has ever risen to the rank of a prince in the Church.

On the right of Mayor Drouin sat Cardinal Begin, Mgr. Stagni, the Papal Ablegate, Hon. L. P. Pelletier, Mgr. LaBrosse, Hon. Bruno Nantel, Sir Wilfrid Laurier, Father O'Leary, Mgr. O'Reilly, Sir Louis Jette, Mgr. Latulippe, Sir Louis Gouin, Senator Testier, Judge Cannon, Senator Lavergne, Mgr. Poulin, Judge McCorkill, Mgr. Haras, Mgr. Paquet, Sir Geo. Garneau.

On the left of His Worship were Sirs Francois Langelier, Lord Mersey, Hon. C. J. Doherty, representing Premier Borden, Senator Landry, Mgr. Scollard, Hon. R. Lemieux, Mgr. Brunet, Judge Lemie, Mgr. McNally, Sir Adolphe Routhier, Judge McCorkill, Captain Watson of H. M. S. Essex, Mgr. Roy, Senator Bolduc, Senator Choquette, Judge Dorton, Judge Routhier, J. M. Tetre, leader of the provincial opposition, Judge Drouin and Hon. S. N. Parent.

The toasts proposed were "the King," "the Pope," and "Cardinal Begin" in the order named.

In his address Mayor Drouin sketched the career of the cardinal in glowing terms. The cardinal later declared that he had informed the Pope while in Rome how well the chief magistrate of Quebec understood his civic and religious duties, and that the Pope had been pleased to confer upon him the order of Commander of St. Gregory.

HOPE FOR CARS BY THE END OF JULY

Rails Laid Almost to Norton Griffiths & Co. Offices at East St. John

Work on the new street railway extension from Kane's corner to East St. John is being pushed along in fine style, and there are as many men now on the job as can conveniently be accommodated. The trestle at the corduroy bridge over which the track runs has been completed and is a very substantial looking structure of hard pine.

The steel is now laid from Kane's corner almost up to the rock cut opposite the offices of Norton Griffiths & Co., and the road is ballasted for a greater portion of that distance. The rock is being blown from the top of the hill opposite the old Grouseville road and a fill was started this morning in the valley just beyond. In order to keep the rails to the side of the rock the fence has been moved back about six feet.

The residents of the district are very much pleased with the progress of the work and hope to be able to use the branch by the end of next month.

MAKE BID FOR EARLY CLOSING START ON THURSDAY EVENING

Fairville Promoters See Good Chance in Connection With the Opening of Playground—A Presentation

The game between the Royals and Cubs now in process of re-organization last evening was well attended and, considering the short time Messrs. Driscoll and Downey had to get a team ready was not too bad an exhibition. The Royals scored better than the Cubs in crossing the plate but the Cubs will have a new outfield on hand for Monday's game and with that their weakest points, strengthened are likely to play creditable ball.

Nobles and O'Loole were the battery for the Royals while Ferris and Downey opened hostilities for the Cubs and were succeeded by Ferris and Grey, while for the last two innings Messrs. Driscoll and Downey had to get a team ready was not too bad an exhibition. The Royals scored better than the Cubs in crossing the plate but the Cubs will have a new outfield on hand for Monday's game and with that their weakest points, strengthened are likely to play creditable ball.

Without noise or friction among the several butchers involved or any bickering among themselves as to one or the other breaking the rule, they have proved that the plan is workable and in that respect are an example to other merchants.

In years gone by efforts were made to reform the Royal Commercial Emporium but the scheme was not ever classed among successful reforms. The individuals at long kept themselves more intent on watching his neighbor to see that he fulfilled his obligations than on keeping in touch with the movement and get out himself to enjoy a few hours of recreation from business and anxiety.

It so happens that the opening of the playground will be on Thursday evening next and judging by the interest displayed there will be a large crowd in attendance. The Royal Commercial Emporium in Main street. This has been thought an excellent opportunity to inaugurate the early closing by all tradesmen, and further efforts will be made at the first of the week to get into communication with them and come to agreement providing one free evening Thursday, if possible, during July and August.

The principal of Fairville superior school, Norman H. Wetmore, who resigned his position in order to attend Mount Allison University next term, was pleasantly surprised during the session yesterday afternoon when Miss Stella Kirkpatrick on behalf of the scholars presented to him a genuine compliment. Though taken completely unaware and much affected Mr. Wetmore thanked the donors for their thoughtful act of appreciation and also said a few words of farewell and good wishes to his pupils who have done so well under his supervision.

Mr. Wetmore left last evening for Camp Sussex to join his cavalry regiment in which he holds a Lieutenantship. Teaching in the other rooms will continue until next Tuesday noon when they will be closed for the summer vacation.

A double team ran away yesterday morning about eleven o'clock and dashed wildly along Church avenue toward Milford but so far as can be learned no particular damage was done.

A report that a man was badly injured at the bridge yesterday was exaggerated. A workman did receive a minor injury but was able to resume his occupation after having the injured member dressed.

The action of the Highway Board in calling for tenders to lay a concrete sidewalk on the south side of Main street, Fairville is being generally commended. The new pavement will be from the railway crossing to Orange street and it is reported the specifications require a five foot sidewalk of first class construction. Tenders will close on next Saturday so it is expected that the work is to be rushed. The old sidewalks were certainly in a very bad condition to express it mildly, and there is only one thing to do, as has been proven elsewhere, let what is built be permanent, and with a definite policy the place will eventually have concrete sidewalks throughout without feeling the additional expense.

HERE FROM TRINIDAD.
Mr. and Mrs. C. T. McCutcheon, of Trinidad, B. W. I., formerly of Queens county, are the guests of Mr. and Mrs. James Donnelly, Leinster street. It is ten years since Mr. and Mrs. McCutcheon last visited St. John and they note many improvements made in the city in that time. The visitors will pay a visit to their old home in Queens county and will return to the province before returning home. Mr. McCutcheon is manager for a prominent publishing company in Trinidad.

DAY-WATTERS
A quiet wedding was solemnized last evening at the Fairville Methodist parsonage when the Rev. G. Earle united in marriage Mr. W. Day and Bessie L. Watters, both of St. John West. Mr. and Mrs. Day will reside in Castleton.
