PROCEEDINGS OF THE ANNUAL MEETING,

ON MONDAY EVENING, SEPTEMBER 28, 1835,

In the Newgate Street Chapel, Toronto,

WILLIAM LUNN, Esq. of Montreal, in the Chair.

THE Report of the Committee having been read, the following Resolutions were proposed, and unanimously adopted:—

Moved by the Rev. William Case, seconded by the Rev. Peter Jones,—

I. That the Report now read be received, and printed by the Missionary Committee.

Moved by the Rev. Joseph Stinson, seconded by the Rev. Wm. Ryerson,—

II. That such is the dark, the degraded, and miserable state of the Heathen world, that it is the duty of all Christians to send the Gospel to every part of the human family where it is at present unknown.

Moved by Mr. John Sunday, seconded by the Rev. William Lord,—

III. That the happy effects which have followed the preaching of the Gospel to the Heathen, demand our grateful acknowledgments, and should stimulate us to continue and increase our efforts to promote the glory of God, and the salvation of those who are still the slaves of anti-christian and pagan superstition.

Moved by the Rev. Anson Green, seconded by the Rev. Jonathan Scott,—

IV. That the thanks of this Meeting are due to the Missionary Committee of this City, and the Collectors, for their services during the past year.

The Standing Committee of the Society is this year at KINGSTON, and consists of the following Gentlemen:—

THE CHAIRMEN OF DISTRICTS;
THE PREACHERS IN KINGSTON, GANANOQUE, AND
WATERLOO CIRCUITS;

AND—MR. JAMES FRASER, Treasurer.

MR. STEPHEN MILES,
" J. M. RORISON,
" J. JENKINS,

MR. CHARLES HALE,
" JOHN COUNTER,
" JOHN DAWSON.

REPORT

OF THE

WESLEYAN METHODIST MISSIONARY SOCIETY IN UPPER CANADA.

For 1835.

In reviewing the progress of our missionary operations in this Province during the past year, your Committee feel it to be their duty to observe, that although there are some circumstances connected with our benevolent enterprise, which sometimes perplex and discourage us, yet the *general* aspect of our work in our *old* stations, and the newly opening fields of usefulness which every where present themselves, greatly encourage us to continue and increase our efforts to bring the wandering Indians, and the destitute settlers by whom our Missions are surrounded, into the fold of our Lord Jesus Christ.

In the various classes of the Indian community, we are happy still to observe the enlightening, the hallowing and saving power of the Gospel. In the hearts of the Indian *youth* of our schools the incorruptible seeds of truth are sown, and are already bringing forth the fruits of righteousness. To those who are in the midst of their earthly pilgrimage, and surrounded by the duties and cares of life, the word of God is a guide—a defence, and an inexhaustible source of consolation; while to the afflicted, the aged, the dying Indian, it opens the path which leads through the dark valley and shadow of death to the regions of glory, immortality and eternal life.

In the prosecution of this work of faith and labour of love, owing to the manner in which the objects of our Mission are scattered throughout this very extensive country, many agents must be employed, and much expense necessarily incurred; but when we look at the value of immortal souls, and at the temporal and spiritual improvement which has been already effected in the circumstances

of our red brethren, we feel assured that those who have assisted us by their influence, their prayers, and their contributions, will rejoice with us in the success with which it has pleased Almighty God to crown our labours, and by their continued and increased patronage encourage us to persevere, until the whole moral wilderness shall blossom as the rose, and the desert become a fruitful field.

The following reports from the Brethren employed on our Missions will convey the most correct information respecting the moral and temporal condition of the Indians.

CREDIT MISSION.

BR. CASE observes,—“The Society and School on this station remain much in the same state as at the close of last year. The people in general maintain a correct moral and religious department. Their temporal condition and civil economy are improving every year; the fields and gardens of the Indians are tolerably well cultivated, and their dwellings are generally clean and comfortable. The congregations at the Mission have greatly increased during the year by the attendance of the white inhabitants of the neighbouring settlements; and as this population is becoming very numerous, the importance of this Mission is increasing every year, and we shall be obliged ere long to erect a more commodious place of worship.”

Brothers Case and Jones have during the past year paid much attention to the surrounding settlements, and have visited some of our most distant Missions; and the latter has translated a great part of the Discipline of the Church, and several new hymns, into the Chippeway language.

Number of members in Society, 75; children in the school, 40.

LAKE SIMCOE MISSION.

BR. BELTON states,—“During the past year we have had but few instances of instability amongst our members; the means of grace have been well attended; the number of our converted Indians has increased; the Indians at a distance have visited our station, and requested, and obtained a Missionary; the destitute settlements in the neighbouring townships have been visited, and this important Mission is in a state of growing prosperity.”

Number of members in Society—Whites 54, Indians 208; and 70 children in the school.

RICE LAKE MISSION.

BR. MILLER observes,—“The last year has been a year of great affliction with us on this station; many of our Indian brethren have died, but they have in every instance finished their course with joy, and left the most satisfactory and pleasing evidence that they had a saving interest in the atonement and infinite merits of the Redeemer. The happy end of our late companions in the flesh has produced a blessed effect upon those who remain, as is fully evinced in their growing zeal, fidelity and love.”

Members in Society, 162; children in the school, 37.

MUNCY TOWN MISSION.

BR. ADAMS reports as follows:—“The work of the Lord is still progressing on this Mission; our numbers have been gradually increasing during the year, and the older members of Society have evidently been growing in grace and the knowledge and love of Christ. The Pagan Indians in this neighbourhood are more willing than they ever were to hear the Gospel, and many of them have lately said, ‘It is useless for us to go on in our old ways any longer; we shall all have to become Christians.’ The Christian Indians are improving in their agricultural pursuits, securing to their families a greater measure of earthly comfort than they ever possessed before, and furnishing the delightful evidence that godliness is profitable for all things, having the promise of the life which now is, as well as that which is to come.”

Members in Society, 157; children in the school, 60.

GRAPE ISLAND MISSION.

BR. SCOTT gives the following pleasing account of the state of this Island:—“I have no little pleasure in sending you a report of the state of the Indians on Grape Island. The piety of our people here during the past year has been vigorous, and active, and uniform. At present we have 70 members, 10 on trial; 7 native leaders; 6 native exhorters, and 1 white exhorter. The school contains 40 children, and is in a flourishing state. Bro. Hurlburt, the Teacher, is uniformly concerned for the welfare of the children and the set-

tlement generally, and attends to the various duties of his station with praiseworthy assiduity. The leaders and exhorters are upright men, and lovers of Wesleyan Methodism. Our numbers, as you will perceive, are increased, which is attributable to the return of several backsliders, and the addition of some who never met in class. In this we have cause for thankfulness. Our meetings likewise are on the increase, and are as well attended as during the preceding year. Sometimes there is considerable excitement in our meetings, but I am able to testify that this is not what some would call enthusiasm, for the persons who are under the greatest emotions are amongst the most pious and consistent of our people. Enviably indeed is that state of joyous spiritual overflowing which they frequently manifest when unitedly engaged in their public devotions; and you will not wonder, when I tell you, that the following verse is frequently sung by them with a fervency and delight which is almost overwhelming:

‘Jesus sought me when a stranger,
Wandering from the fold of God;
He to rescue me from danger
Interposed his precious blood.’

The change which the Gospel has produced in these Indians is most decided and striking, and perhaps in nothing more than in their sobriety. Their former intemperance was notorious, and the debts they contracted for whiskey most heavy and embarrassing; but since their conversion, they have not only avoided spirits of every kind, but even cider. Their temperance is total abstinence. I hear some of the white people in the neighbourhood occasionally speak of them; ‘they used,’ say they, ‘to be too filthy to come near—they beat their wives—they lay about our streets and our doors drunk with whiskey, and filthy as our hogs. But since they embraced religion at Grape Island, we hear them in our woods singing their hymns and praying to God; they are like pious white people now.’ So it is; they are clean, sober, kind, industrious, pious and happy. Much has been spent on this contracted Island; but the many spiritual and civil benefits that result to the people themselves, and to others, more than repay all that has been expended: not in kind it is true, but in something more precious than gold—the conversion and salvation of immortal souls. Who can tell the good done by our schools? Many are the efficient exhorters and interpreters

which they have sent forth into the field of the Lord. We say efficient, for which of them has not returned bringing his sheaves with him? There is our pious Frazer, and Simpson, and Sawyer, and McGee, and our enterprising and devoted John Sunday. Let the Journal of the latter speak; and it has spoken that which has produced a yearning in many a breast for our brethren in the woods. During the year, Brother Frazer has returned from a newly formed Mission on the shores of Lake Superior, bringing with him several charms and amulets, given to him by persons converted under his ministry. Others might be named who were trained here, and who are now out in the work, toiling for the good of those who are as destitute as they once were. Brothers Frazer, Comego, and Skunk, left us eleven days ago for Lake Nippising. A special prayer meeting was held before they left, and many are the prayers which follow them. The conduct of Skunk's father on the departure of his only son was highly creditable to him as a Christian and a father. Three days after, I asked him if he felt sorry that his son Joseph was gone. With a smile he answered, 'I had two boys once, and when the Lord converted my soul, I gave them both to the Lord. I think he ought to have them for what he done for me. My other boy died very happy—Jesus was with him in that corner, (pointing to the bed;) and I am very happy Joseph has gone to the poor Indians in the woods. I hope will do good. I pray for him.'—The white settlements on the Mohawk Tract have been regularly visited, and 4 classes, containing 26 persons, have been formed; and there are eight preaching places where tolerable congregations can be collected."

AMHERSTBURGH MISSION.

THE congregations on this new Mission have been very good through the year; classes have been formed and regularly met, and the Society is in a state of great promise. The Indian settlements in the neighbourhood have been regularly attended to, and a good work is going on amongst our red brethren.

Numbers in Society—16 whites, and 28 Indians.

SAHGEENG MISSION.

THE Society in general is in a healthful state, with the exception of one man, whom we shall be under the necessity of excommuni-

cating. The Indians are growing in grace, and their improvement in agriculture is very pleasing. About a mile of fence was required to secure their fields, the greater part of which is already finished.

Numbers in Society, 60; children in the school, 40.

GRAND RIVER MISSION.

THE Indians on this station are much more united to each other, and much more regular in their attendance upon the means of grace, than they were some time ago; and there is a pleasing prospect of the work of God extending its influence amongst the numerous Pagans who occupy the shores of the Grand River.

Numbers in Society—whites 20, Indians 140; children in the school, 14.

ISLE OF TANTE MISSION.

ON this Island there are six places where we preach. At present there is a spirit of hearing among the people; and although our congregations in some places have been small, they are on the increase. We have 61 members in Society; 5 on trial; and 98 children in our Sabbath school.

RIVER ST. CLAIR MISSION.

THE Lord has graciously begun and is still carrying on a blessed work amongst these once degraded and wretched people. Brother J. Evans gives the following account of the commencement and progress of this great work:—"The number of Indians receiving good at this place is about four hundred. About October last three persons, two men and a woman, manifested a willingness to hear the Gospel. On the 10th of December I baptized these three, with two of their children. These were the first fruits of Missionary labour on the St. Clair. In March, sixteen were through mercy added to the number; and on May the 10th I baptized nineteen, and on the following Sabbath fourteen, and one was baptized by the superintendent of Missions on his last visit, which, with fifteen who were baptized, while on a visit to Muncy Town during the spring,

and two during the late Camp Meeting at that Mission, makes the number of baptized Indians seventy-nine, all of whom generally reside at the River St. Clair; of this number about forty-five are adults. God has graciously watched over this little flock. We have had no case of immorality, although the men, previously to their conversion were, with one exception, drunkards of the most degraded kind, and with one or two exceptions the women were given up to the same debasing practice. Of the seventy-nine, about thirty-six profess to have experienced a change of heart, and all the adults are earnestly seeking for the pearl of great price."

We have now on our Missions 1,208 members in Society—an increase of upwards of 100 during the past year.

During the past year we have established a new Mission at Lake Nippising. This Mission was commenced by two of our native Exhorters from Lake Simcoe, and it is now under the care of three native Teachers from Grape Island, who are labouring faithfully to bring their brethren to a saving knowledge of the truth. Our prospects of opening new Missions still farther west are encouraging. Indians are coming from afar to inquire after Christianity; and when they visit our stations, and witness the blessed change which has taken place in the character and circumstances of their countrymen, they generally request us to send them a Missionary and a schoolmaster, that they and their children may be instructed in the "good way." While therefore the success with which the Almighty has graciously crowned our labours demands our most grateful acknowledgments, the loud and pressing call for more labourers in this good cause which come to us from the children of the forest, and from the destitute settlements, should lead us onward in the faithful discharge of our duty, until all the inhabitants of the wilderness bow to the sceptre of our Immanuel, and become the happy recipients of that kingdom which is righteousness, peace, and joy in the Holy Ghost.
