Dreyfus Views the Future With Bright Eyes.

Surprised at the Machinations of His Enemies.

Article 10 of the Russian Proposal Changed at the Peace Conference.

The Pacific Cable Scheme About De cided Upon - Forty-Four Persons Killed by an Explosion at Odessa.

London, July 5 .- A Paris dispatch says: Matthew Dreyfus paid his first visit to his brother yesterday afternoon, the interview lasting half an hour. The brothers threw themselves into each other's arms. Matthew said he found his brother aged and broken in health, but not the physical wreck he feared. In spite of his sufferings, Dreyfus' eyes are as bright and his mind as clear and his intelligence as keen as when he was occupied with his duties in the general staff. He was troubled with insomnia during voyage, but has now recovered. He is

still under medical treatment.

Matthew found his brother in spirits and buoyed up by the necessity of mustering all his strength for the coming ordeal and by the hope that at last he will have justice done him. He is extremely reserved as to his life on Devil's Island, which remains in his memory as a horrible nightmare. He declares his brain is almost reeling, in the face of the mass of documents and explanations MM. Demange and Labori are bringing out regarding the extra-ordinary mechinations of his enemies and the persevering devotion of his friends.

WATCHED INCESSANTLY. Capt. Dreyfus was unable fo talk freely with his brother owing to the presence of the officer, who is under instructions to be present at all interviews between the prisoner and the members of his family. This arrangement has been a horrible trial for Madame Dreyfus and the rest, as they have been obliged to restrain emotions as far as possible, and have been unable to converse as to intimate matters, because every word has been overheard and every gesture watched by the officer. Only Maitres Demange and Labori

are allowed to see Dreyfus privately. FOR A LONG VACATION. In the French Chamber of Deputies M. Paul Beauregard, Republican, representing one of the districts of the Seine, submitted his promised interpellation on the subject of the bill dealing with workmen's wages and the hours of labor. He disputed the right of M. Millerand (Socialist), minister of commerce, to deal with the matter by decree, as he proposed to do until

the next session. M. Millerand disclaimed all intentions upon the part of the government to curtail the rights of parliament. Other deputies desired to debate the matter, but the premier declined to consent to this, and the chamber upheld him by 338 to 186 votes. The house then adjourned for a long va-

CEALED TENDERS (in duplicate) for the supply of Coal and Wood required to heat the Military Buildings at London, Ont., for the twelve months beginning on let July, 1899, will be received up to Wednesday, the 12th of July next. Each tender is to be marked "Tender for Fuel," and addressed to the Honorable the Minister of Militia and Defense, Ottawa. Printed forms of tender containing full particulars may be obtained from the undersigned at Ottawa, and at the office of the District Officer Commanding, who will furnish any necessary information if applied to therefor. Each tender must be accompanied by an ac-ARBITRATION ONLY OPTIONAL. At a meeting of the arbitration comnittee of the conference at The Hague the question whether arbitration should be obligatory or optional was raised, and drew a categorical declaration from the German delegate to the effect that he had received formal instructions not to accept the principal of obligatory arbitration, otherwise than by special conventions. In view of this statement article 10 of the Russian proposal was struck out and replaced by a provision declaring that arbitration should be optional except in case of the delegates adhered to this, M. The London Daily News says this morning: "We understand that the Pacific cable conference has arrived at a satisfactory basis. The general principles of the scheme have been provisionally agreed upon, and will be communicated to the colonial governments. Johannesburg, July 4 .- An order has been issued forbidding the Johannesburg police to carry arms while on street duty.

In an interview today, President Kruger is quoted as saying: "We will prove to the whole world soon that we will do everything that is fair within the bounds of reason and justice. Our course is clear and threats

are unavailing." The order respecting the carrying of arms by policemen in Johannesburg has been issued as a result of the British complaints regarding the shooting of the Englishman Edgar by a con-

## **WOMAN'S CONGRESS**

Farewell Reception by the Countess of Aberdeen.

London, July 5.-The last two meetngs of the Women's International Congress were held yesterday. Dr. Garnett, who presided over the conference of women librarians and indexers, said that publishers expected authors to prepare their own indexes, but public and government offices presented an opening for such work. England, Dr. Garnett said, was far behind America in paying women librarians.

Countess Bective presided over the

meeting which discussed the subject of the aptitude of women in handicrafts. In the afternoon the delegates were entertained at a garden party by Lady Rothschild at Gunnesbury Park, and at night the Countess of Aberdeen, gave them a farewell reception.

ning after firecrackers, was caught by a Birmingham traction car and ground to pieces. Seven-year-old Charlie Miller, Mount Washington, fell into a sixty-foot well and was brought out dead.

A car on the big switchback roller coaster in Schenley Park jumped the track and eight people were badly hurt. The only one of the number considered dangerously injured, however, is Mrs. Margaret Jackson, of Hazelwood, who had her scalp torn off and was otherwise bruised. The wounds of the others consisted of broken arms and severe bruises.

Ypsilanti, Mich., July 5.-There was an almost tragic end to the Fourth of July celebration here. About 12,000 had doing as the present one. assembled to witness the fireworks last night, and when a stray spark ignited most of them, and rockets began to pour into the crowds, there was a frenzied rush for safety. In the crush that ensued a great many were bruised and trampled on, but fortunately no one was killed. Wm. Lockwell, of Salem, was dangerously injured about the head and the infant son of David Hos-

> Portland, Ore., July 5. - The recent stery of cannibalism which came from the Atlin district of Alaska is confirmed, and horrible details added by a letter received here by Capt. Hans Svenson, from Majonino, in the Kotzebue Sound country.

> The writer was Olof Jorgenson, who, with two other Swedish sailors, Peter Martin and August Olsen, and twenty others, went to the Kotze-bue country in September from Se-attle. All were well supplied with furs and had a year's outfit. it is scarcely probable that more than one of these men is now alive.

dergone." After explaining how he and part of his party separated from the rest and began prospecting on their own hook with dogs and sledges, he told how they got lost in December. The greater part of their provisions was devoured by wild beasts, and by January they had left nothing but a few sides of bacon. "Hunger soon stalked among us," continued Jorgenson, "and have not even a faint idea what that means among a gang of hopeless men, desperate in the extreme. A dozen of my party died in thirty days, and we then began to draw lots for healthy human flesh. There are only four or five of us alive, but all too weak to travel, excepting Martin, who will try to mail this letter and obtain relief. But I

suppose the letter will be too late." As a melancholy incident, the writer says that only a few days before he discovered a lot of nuggets peeping out of the frozen ground in his tent, but he turned from the gold in dis-

Mr. Pringle was not missed till late in the day, and when search was made for him he was found with his clothing burned off, and when he was taken out the flesh peeled off his bones. The unfortunate man was only three months married, and was a prominent Orangeman and Freemason.

The Advertiser accepts Mr. Flynn's disclaimer, but has it from another reliable source that the detectives were dissatisfied with their present wages of \$3 per day, and made representations to that effect. It is believed they were promised more in the event of the cars being run at nights. There is no doubt, however, that a good private detective should have more than \$3 per day. MAMMOTH COAL DEAL. Pittsburg, Pa., July 5 .- One of the largest coal deals ever made along the Monongahela River has just been closed at Uniontown. The deal involves about \$1,200,000 cash and 10,000 acres of coal, extending from Rice's Landing to Big Whitely Creek, Greene county. The property has a river frontage of 18 miles, and is between one and two and a half miles wide. The purchasers are Fayette county capitalists. The same persons purchased a block of 4,850 acres of coal on the Fayette side of the river last week for \$400,000 cash, and have just secured 2,000 acres on the Greene county side, from lock 7 to Dunkard's Creek, the consideration being \$180,000.

compel the city council to issue debentures for the \$20,000 promised for new schools. The board is decidedly wrathy at the council for going back on its promise and refusing to issue the debentures. The members present were Dr. Teasdall (chairman), Messrs. Mac-Robert, Ziegler, Macpherson, Dr. English, Hamilton, Evans, Jones, Colerick, Bayly, Weldon, Boyle and McCormick. Dr. English made the motion to instruct the board's solicitor to make application in Toronto for a mandamus compelling the council to issue the debentures. The board had to do something, he said. More school accommodation was absolutely necessary.

detrimental to the health of the pupils, and new buildings must be erected. Money spent in repairing some of the old buildings would be thrown away. Mr. MacRobert thought that if ever an insult had been offered a body of men in this city, it was given by the council to the board of education. The aldermen had called the trustees irresponsible blockheads, but he (the speaker) was not there to act like a wooden man or to be dictated to by the council. The trustees were not supposed to bow the knee in humble gratitude to the aldermen. The latter's actions in regard to the debentures were the most outrageous perpetrated in the city for years. By the same mail arrived copies of the Klondyke Nugget, published by Allen & Semple, the two Americans, who, early in the session, unsuccessfully tried to bulldoze Hon. Clif-ford Sifton, but who were the recipients of a speedy and emphatic "call down." The latest available issue of the Nugget contains a report of the investigation proceedings conducted by Mr. Ogilvie, and even in this anti-Brit. ish, anti-government and anti-Ogilvie paper it is stated that the proof of the innocence of Messrs. Norwood, Wade and McGregor was most ample. All the charges were most emphatically disproved. D. W. Davis, collector of customs, and ex-M.P. for Alberta, gave evidence in regard to Sir Hibbert Tupper's charge that saloonkeepers and gamblers were blackmailed. Davis said that he and Wade were appointed to get up subscriptions for Father Judge's Hospital, which was financially behind. They collected \$4,000 from saloonkeepers and gamblers, who were escaping taxation, and turned the money over to Father Judge. Mr. Wade gave similar testimony. Some other cases were gone into, and Mr. Norwood is reported to have cleared himself completely of any wrongdoing.

#### TALKING ON REDISTRIBUTION

The Debate on the Second Reading of the Bill Begun-Sir Richard's

Ottawa, July 5 .- Yesterday afternoon the house unanimously gave a vote on account of supply, amounting to \$9,-000,000. This action was necessary in consequence of the first week of the financial year having been entered upon before the estimates for the year were passed, and, as the finance minister explained, was in accord with the precedent set by the late government. After a few matters of routine had been disposed of, the debate upon the second reading of the redistribution bill was resumed by Mr. N. Clarke Wallace, who was given the floor by consent, having technically exhausted his privilege of speaking at this stage of the measure by moving the adjournment of the debate, which was voted down, when the bill was last under discussion. Mr. Wallace was enabled by the courtesy of his fellow-members to make a somewhat lengthy address,

#### Lawn Tennis at Glencoe-Sporting hows of All Sorts.

#### BASEBALL.

The Canadian League has been reduced to these four clubs-London, Woodstock, Hamilton and Guelph. There was a meeting of the league magnates at the Tecumseh House last evening. Those present were Messrs. Cal Davis and W. Stroud, of Hamilton; Stone, of Chatham; Sheere, of London; and Black, of Guelph. St. Thomas was not represented. The meeting was made necessary by the expulsion from the league of the St. Thomas club, for refusal to pay the guarantee. A fiveclub league was considered, but Chatham's mileage handicap stood in the way, and at Mr. Stone's suggestion the Chatham club was allowed to withdraw, and their guarantee of \$150 was refunded. The new Canadian League series begins today, and will consist of 60 games-30 at home and 80 away. The schedule so far as arranged at last night's meeting is as follows:

July 5 and 6, Guelph at London, Woodstock at Hamilton; July 7 and 8, London at Woodstock, Hamilton at Guelph; July 10 and 11, London at Guelph, Hamilton at Woodstock; July 12 and 18. London at Hamilton, Woodstock at Guelph; July 14 and 15, Hamliton at London, Guelph at Woodstock. President Davis will complete the schedule. The season closes Sept. 14.

#### A PHENOMENAL RECORD.

Up to and including Monday's two games, London has played 26 championship games on the home grounds. They have lost but one game, winning 23 and tieing two with Hamilton. This is a record never before reached by any professional ball club, and one that the lovers of the game should respond to by the best possible support and patronage. When one reviews the work of the home team one cannot but quietly murmur "Isn't it wonderful!" bring a set of men, all clever in their profession, and train them to break in at the commencement of a season and win games uniformly, is indeed remarkable. There is only one answer to how it has been done, and that is good management. Luck is not a factor in the success, but Peter Lohman's wonderful executive capacity and brainwork is the reason. He has trained the work is the reason. He has trained the Batteries—Sparks, Taitherian Time, 1:15½. body of men under his charge to know Bowerman; Schmidt and Schrecongost. Sixth race, 5½ furlongs—Dave Waldo what the turning of an eyelid means. Harmony and friendship have had no small share in bringing the London team to the perfection they have attained. Jealousy and harshness that usually exist in a ball team are not tolerated in the London team, and this means much in winning games. The record of the London club of 1899 will be an established one that will remain unbroken for years to come, and when It is, London will doff its cap. Already the major leagues have been tempting the local management with offers for some of their players, and they could dispose of two or three to their financial gain, but will not do so, preferring to give to the patrons of the game here what they think is their due.

Managing Director John Cameron

London, Wednesday, July 5, 1899.

France Looking to Canada. An extraordinary tribute to Canada

comes from the pen of M. Hanotaux, the distinguished French author and statesman-probably the ablest minister of Foreign Affairs that France has had in recent years. M. Hanotaux, writing in the Marseilles Journal, La Gironde, gives a copy of the following letter which he received from a respectable inhabitant of a northern French town:

"On my own behalf and that of several of my friends, I wish to seek your direction and advice. We are three families desirious of settling in any olony as farmers. Unfortunately French colonies seem to us scarcely suitable for this purpose, inasmuch as one must have a certain amount of capital, which we have not got. The perusal of pamphlets bearing upon Canada has tempted us; laborers easily find work there, and can in a few ars establish themselves upon good land, which is given them free of charge. Those having a little capital can, on arriving, settle down, and in a few years be in good circumstances. • \* Can you recommend us to anyone who would give us some information about the country

M. Hanotaux adds that this letter is one among a hundred others which he intense interest in colonial questions. He calls attention to his correspondent's preference for Canada, and proceeds to examine the reasons. M. Hanotaux's conclusions are these:

"Firstly, Canada is a country with a temperate climate, rather severe in winter, but, for our own part, a cold climate suits us better than a warm one; secondly, it is a country where there is an important community of the French race; and, in short, with a humane and Christian faith which encourages mutual help, one has some hope of not being alone and abondoned in the struggle against nature and the elements; lastly, Canada is a true colony; conditions of life there are known and normal; it is one of those countries where civilized life has blended, so to speak, with the life of adventures, and indeed, however daring a pioneer you may be, you are not sorry to feel that at no great dis-

tance is the influence of society and the authority of the law." M. Hanotaux promises that he will do all he can to assist his correspondents. "We have a splendid consul in Canada," he says. "I shall send this letter on to him, and ask him if there is any exaggeration in the promises which certain foreign emigration companies make to our country people. I shall ask him if the lands which are given away are really capable of sustaining a family; if they are really gratuitous, and if numerous examples exist of families who have succeeded under conditions in which others desire to start. In the main, I think, after similar correspondence already exchanged, that the answer will be rather encouraging, and that the venture can be made by hard-working, economical and persevering people." Having said this, M. Hanotaux goes on to ask: "Why cannot this stream of emigration be immediately utilized to our own colonies? Not to look after our pioneers is a ruinous policy both for the mother land and the new territory upon which we ought to swarm." His reply is that the French colonial domain is very young, and, excepting Algeria, not organized. If his correspondents belonged to the Mediterranean district or only to the vineproducing provinces he would not hesitate to direct them to Algeria. But the French colonies, Algeria and Tunis excepted, are situated in severe climates for the northern population of France. The colonies on the west coast of Africa, the Congo and Madagascar, which offer an immense field to the work of the emigrant, require a certain amount of acclimatization. These are suited to planters rather than agriculturists, and here the question of capital comes in. A plantation is impossible without a great deal of money. Again M. Hanotaux points out, the French colonies are little known, and are not easily accessible to the rural people of France. The principal obstacle is the absolute necessity of capital for the first outlay. Why encumber the French colonies with a crowd of unfortunate people, from the first destined to nothing but misery?

M. Hanotaux concludes: 'What I wish to point out today is, that our colonies threaten to remain without colonists so long as they are without capital; and in the meanwhile we are colonizing Canada."

M. Hanotaux's letter is another proof that the eyes of Europe are turning toward Canada as the land of promise. If France sends us settlers they should be agriculturists. There are no better tarmers in the world than the thrifty and industrious French peasants. If they will come and till the soil, well and good; but we want no immigrants from any country who will swarm to the cities and towns, in preference to going on the land.

#### A Defect in Conventions.

The International Conference of Women at London appears to have been Boer flag. comewhat mismanaged. The programme was so overloaded that papers and addresses had to be curtailed to a time limit of ten minutes each. Necessarily the Conference must have lost much of its educational value by this slipshod process. The promoters may expect a good deal of chaff connecting deminine loquacity with this congestion of the Conference proceedings, but the circumstance is not peculiar to women's conventions by any means. An overcrowded programme is a common defect of such gatherings, religior otherwise. A litter of essays, esses and so forth too often only s the delegates and leaves opportunity to discuss the tial features of the particuy have in hand. Instead pic range of subjects,

more benefit would accrue from thorough attention to a few fundamentals. The invariable attempt to squeeze as much as possible into the limited time of a convention is a counterpart of the cramming system, and interferes with proper digestion.

The Uitlanders object to "taxation without representation." So did the American revolutionists. The Uitlanders have a good precedent.

France, Italy, Spain and Belgium are having an epidemic of riot and disorder, while the French, Italian and Belgian parliaments have become parodies on representative institutions.

In the House yesterday Mr. John Ross Robertson spoke in favor of representation by population, and cited England as an example. The Advertiser recently gave a list of English constituencies whose populations ranged from 60,000 to 12,000. Mr. Robertson had better look elsewhere.

In the two election trials in South Ontario 16 persons were reported for corruption on behalf of the Conservative candidate and 9 on behalf of the Liberal candidate. The Attorney-Gen- crowded excursion train ran into the eral's department has instructed the county crown attorney to prosecute these men for corrupt practices. The moral effect should be good.

Last year the gold yield of the Transreceives daily, as everyone knows his vaal was over 4,295,000 ounces, or over \$86,000,000. The returns for the first five months of 1899, compared with ter today. those of the corresponding months last year, are as follows:

Total ......2,140,102 1,616,993 At this rate the Transvaal will turn out \$100,000,000 this year. It is the greatest gold-producing country in the world, no thanks to the Boers. It is natural that they should try to keep the prize, however.

## What Others Say.

Gircumstances Alter Orations.

[Cleveland Plaindealer.] Senator Lodge is to deliver a Fourth of July speech in London, and the British lion will probably smile when he notices what a difference the width of the ocean makes in tail-twisting.

> Her Intrinsic Value. [Hamilton Herald.]

Colorado miners are going to send to the Paris exposition the statue of an American girl, made of pure gold, to cost \$1,000,000. This is probably done as a delicate compliment to the American girl-to convey the idea that she is worth her weight in gold.

#### Sample Cases. [Boston Globe.]

Prediction is made that of the 300,000 traveling salesmen in the United States at least 150,000 will be forced out of their positions by the trusts unless the present epidemic of trade combinations is checked. If the prediction is verified the trusts will have made 150,-000 of the ablest enemies in the world.

#### The Labor Struggle. [Toronto News.]

The millions of toilers who are so largely the curators of the nation's wealth, are not only not receiving what they earn, but are yearly becoming more and more dependent upon the non-producing classes. Employers are combining to secure the highest price for their commodities with the expenditure for labor, while employes are arming in self-defense to secure a just return for their labor. The struggle is yearly becoming more desperate and more bitter, and the pressing necessity for an adequate solution of the problem is yearly becoming more evident. The underlying principle of any plan for the relief of the masses must concern itself with the problem of wages. Until all employers are made to give to their employes a sufficient wage to buy back the product of their

Archbishop Ireland is a more trustworthy exponent of Irish-American sentiment than the bar-room orators and the selfsh arch bar-room orators and the selfish agitators who at present are the principal representatives of the old Fenian element. Ireland is prosperous and satisfied, and with the passing of the years the old grievances are being forgotten. Our citizens of Irish birth or extraction are among the foremost in every department of commercial and industrial activity, and none recognize better than they do the advantages that spring from the maintenance of friendly relations with Great Britain. There is no danger that any American money will be wasted in the idiotic scheme of fitting out privateers to sail under the

Excursion Train Plunges Into a Freight Wreck Near Crewe.

Three New Steamships for North German Lloyd-Dreyfus' Condition,

London, July 4 .- Many persons were injured in a railway accident at Winsford, near Crewe, in Cheshire, Monday night. A freight train on a siding overshot the buffers and left the rails. Another freight train collided with the wreckage, and caused a partial fall of a railway bridge. Then a others. Upward of 50 cars were wrecked.

Brussels, July 4.-The members of the Right in the chamber have unanimously agreed to the government proposal referring the electoral bills to a committee of all parties. The Left has also assented, with a resolution limiting the time of the committee's deliberations. It is believed this will solve the trouble for the present.

THREE NEW STEAMSHIPS. Berlin, July 4.-The North German Lloyd Steamship Company has ordered a 10,000-ton passenger and cargo steamship for the Bremen-New York line. The vessel will be constructed at the Tecklenberg Works, in Geestemunde. For its far East line the company has ordered two 5,000-ton cargo steamships, which will be built by the Furness Company, at West Hartlepool.

DREYFUS IMPROVING. Rennes, France, July 4.—Maitre La-bori paid another visit to Capt. Dreyat 10 o'clock this morning, remaining with him until noon. The lawyer with him until noon. The lawyer found the prisoner to be in much better spirits than yesterday, and in the resistance Dreyfus has shown to the frightful blow he suffered in the judgment of the court martial and his terrible existence on Devil's Island, combined with his marvelous recuperation of physical and mental strength since he left Cayenne, Maitre Labori saw the strongest proofs of his innocence. THE PARTY OF THE P

WEEKLY REVIEW. Values of grain show very little change since one week ago. Wheat has evinced a tendency to be lower, but the lightness of supply prevented any decline, \$1 20 was closing price for red; white, if extra good quality, sold

at \$1 20 to \$1 22.
Oats were a little unsettled; the opening price was 89c to \$1. During the week prices ran down to 98c to 99c, and at the close \$1 was the ruling figure, with one lot going at \$1 02.

No other kind of grain came on the

open market. A small lot of peas sold at \$1, and some Flint corn at 80c, Wool came in quite freely, and sold at 14c to 15c, according to quality; the

demand was good. Young pigs sold at \$3 50 to \$4 50 a Buyers were slow, and they were hard to sell. Live hogs brought \$4; dressed, \$6 to

Receipts of hay were fairly good; old sold at \$7 and new at \$6 per ton. The average attendance was fair.

Live Stock Markets. TORONTO, July 4.-There was a very good trade done in cattle at the western markets this morning. The arrivals were heavy, being 60 car loads, made up of 1,000 cattle, 500 sheep and yearlings, 75 milch cows, 60 calves and 1,200 hogs: Total amount of stuff received for the last week, ending July 1—Cattle, 2,787; sheep and yearlings,

2,603; calves, 125; hogs, 4,307. The weigh scales receipts were \$152.38. Trade showed a marked improvement in almost every branch today, and the market showed more life. The general tone of the market ruled steady to firm. Values for cattle remained unchanged from Friday, with the exception of butchers' grades, which were a little easier. The quality of fat cattle offered was good, and the offerings included a number of exceptionally good export cattle. Export cattle—The market was steady, although cable advices from Great Britain remaining steady, there were a few bunches of heavy exporters offered on the market which brought a little more than the ruling price. The supply, which was moderate, was about equal to the demand; choice heavy exporters were quoted at \$4 75 to \$5 per cwt., and \$5 10 per cwt. for an occasional bunch of extra choice: light were in ample supply, at un-changed prices, or \$4 60 to \$4 70 per cwt. Butchers' cattle—The movement In this line was not very brisk, and the market was a little draggy; choice were quoted a little easier, while common grades also showed a decline; the supply of the latter grades was large, but the demand was slow, and as a result the bulk of the cattle were left over in the pens at the close; choice selections were quotable at \$4.25 to \$4.50 per cwt., and medium and common grades fetched prices ranging from \$3 25 to \$3 50 per cwt.; inferior grades were slow, at \$3 per cwt. The small supply of the heavy export bulls met with a fairly good demand at steady prices, or \$3 75 to \$4 25 per cwt.; light stock bulls were firm, at \$2 50 to \$3 per cwt. Stockers and feeders. The \$3 per cwt. Stockers and feeders—The market for Canadian stockers for Buffalo today was not quite so active; the offerings were light, but the de-mand was fairly active at times; prices were a shade lower, and heavy stockers were quoted at \$2 50 to \$3 per cwt.; light stockers fetched \$2 75 to \$3 per Sheep and lambs-The arrivals of export sheep today were a little heavier than anticipated, out the de-

were again a little lower; good veals quoted at \$3 to \$6 per cwt. Hogs were in fair supply, and met with good demand in the annex; prices underwent no quotable change from Friday, and choice selections were quoted at cwt.; light and thick fats fetched \$4 25 per cwt., and sows were quiet, at.\$3 per cwt.; stags brought \$2 per cwt. EAST BUFFALO, July 4 .- Cattle-There were no fresh receipts, but a few ends left over from yesterday were sold at about steady prices. A few head of calves sold on the closing basis of yesterday. Sheep and lambs—There was practically no market, there being only two loads left over and no fresh arrivals. The weather was very warm, and there was almost an entire absence of demand.

Hogs-with about ten loads on sale and a fair demand, he market ruled steady at yesterday closing figure; heavy, \$4 20 to \$4 20 mixed, \$4 20 to \$4 25; Yorkers, \$4 20 to \$4 22½; pigs, \$4 20 to \$4 25; roughs, \$3 50 to \$3 75; stags, \$3 to \$3 25.

#### MIDDLESEX

The marriage of Dr. A. D. McLaughlin. of Belmont, to Miss Jennie McMillan, of Glanworth, took place at the residence of the bride's father, June The ceremony was performed by the Rev. Mr. Sawer, of Glanworth, in the presence of a number of invited guests. Dr. Arkell, of Belmont, acted as groomsman, and Miss McLaughlin, sister of the groom, officiated as bridesmaid, with little Miss George, daughter of Dr. George, of Ingersoll, maid of honor. Some fields of barley are reported to

have been cut on the Longwood road, in Ekfrid, on Monday last. This is unusually early for such work.

## CHASE'S OINTMENT

Mr. Wm. Higgins, baker, Wrox-eter, Ont., states: "I have had Salt Rheum on my foot, right from the toes to the ankle, and while living in Brockville tried every remedy I could hear of, but they all failed and the itching got so intense I could not stand it. I must have spent \$200 in trying to get cured.
"Hearing of Dr. Chase's Ointment, I began to use it, and am now as sound as ever in my life. My foot is perfectly clear of sores and itching. I really can't say enough in favor of Dr. Chase's Ointment. and am ready to answer any correspondence regarding my cure. I am an old settler, well known here, and recommend this remedy to all suffering in the same way."
Dr. Chase's Ointment is a positive cure for all itching skin dis-

eases, Eczema, Salt Rheum and Piles. 60 cents a box, at dealers.

HAMS ON HOG.

The Hamilton Herald, referring to the morning game at Tecumseh Park, Monday, says: "Umpire England's decision determined yesterday morning's game, and it goes to the credit of the Hams." If the Herald is correct, then all sense of manly sportsmanship is dead in the people who run the Canadian League. Reports have been published that both Collins and Stroud have claimed that the morning game was an exhibition finish after the dispute. These are the usual tactics resorted to by the Hamilton poobahs of the league. Collins should remember what he announced to the stand when he took the indicator to resume umpiring. The people in the stands back of him continually fired the question, "Is this an exhibition game?" Collins turned more than once and said: "Exhibition game! No!" This was evidence that they were willing to play the game out. Besides, no protest was entered by either Stroud or Collins, and it is entirely out of common sense to expect two men of such experience in baseball matters to claim a game on a technical point after they were clearly defeated. When Umpire Kelly, on May defeated. 20, called the London-Hamilton game, on account of darkness, and Hamilton CAMPBELLFORD, Ont., July 4.-At kicked and insisted on finishing the game because London was in the lead at the time, London had to put up with "tie" instead of a "win." to which they were entitled by the umpire's decision. It would be better for Hamilton to accept defeat manfully.

ECHOES FROM THE MEETING. The new series of games to be commenced today will be started with 10 games won and 10 games lost to each club. This is done to make the averages all equal at the start with 500 per

Only two clubs had fines sent in by umpires. Chatham was assessed \$60, and London \$15. The rest of the clubs (including Hamilton, of course) escaped without a dollar of fines, although several players belonging to other clubs were fined on the grounds here. The deposit of the Chatham club was returned to their representative less the \$60 in fines. Cross had been fined \$30 of this amount. He was to receive \$75 for 5 games, but the \$30 will be deducted off this by Chatham. Cooper's fine of \$10 for the holiday morning game, and Schwartz's \$5 fine for rattling the bats in Thursday's game with Chatham were both sent in by Eng-

Sheehan will go to Woodstock. Ham-Ilton would liked to have secured him and released Phillips. Under the new schedule four games

will be played at home and two away every second week, the number being reversed the alternate weeks.

#### THE AMATEURS.

A game of ball was played between Byron and Strathroy at Mount Brydges on Monday, July 3, resulting in a victory for Byron by a score of B. H. E. 16 to 10. Score: R. H. E. 

Batteries-For Byron, Wickerson, Wells and Bloomfield; for Strathroy, Stratham. Frank and Frank. Umpire, Mr. Stratham. Time, two hours.

The West London Oaks visited Ilderton on Monday and defeated the home team in two games. The score: Morning game-

Batteries-Peacock and Glover; Gibson and Douglas. Afternoon game:

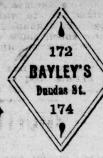

Oaks ...... 8 10 4 Ilderton ...... 3 Batteries-Gibson and Glover; Mc-

Laughlin, Gibson and Hobbs.

FOR THE FANS. J. C. Ponsford, who enjoyed the distinction of being called manager of the St. Thomas team, has threatened to institute an action against this newspaper for having referred to him and his companions as baseball adventurers. Mr. Ponsford would better spend

his money in the purchase of a dictionary.—Hamilton Herald. The St. Thomas team disbanded after the finish of the second game. Tibald has reported in Toronto, where he will play with the Eastern Leagu-ers. Gunther left for Buffalo. He expects to catch on with Binghamton in the New York State League. Kern also left for Buffalo to play with the Bisons. Rodden, Hemphill, Shee-han and Reid will likely catch on here, and they will be a great addition to our team, and ought to make it a renant winner. Wagner has gone to Findley, Ohio. Pears and Hardy are booked for a trial with Toronto. Zinran goes back to Erie, Pa. Robb is wanted by Guelph, but they do not like his figure, and he probably will go to his home in Adrian Woodstock Sentinel-Review.

TURF. SEARCHLIGHT SOLD FOR \$15,000. Tom Keating has parted with his wonderful pacer Searchlight, 2:04½, having sold him to Ed. Mills, of Boston, for a reported price of \$15,000, Keating's health is very bad, and he probably thought it would be better to get a big price for the horse now than wait and take a smaller amount. Henley, July 5.-In the first heat for the grand challenge cup, eights, to-day the Argonauts (Toronto) crew beat the Dutch crew by two feet. Time, 7 minutes 6 seconds. In the third heat the Leander Club

beat Balliol College. In the fourth, Trinity College, Oxford, beat Eton. In the second heat for the Thames challenge cup, eights, the London Rowing Club beat Trinity Hall, Cambridge, by three-quarters of a length. Time, 7 minutes, 32 seconds.
In the first heat of the stewards'

challenge cup, fours, the favorites, the Hammonia crew of Hamburg, beat St George's Hospital. NOTES OF SPORT.

McCoy is said to be breaking down and unable to eat or sleep. Tom Cooper won a handicap in New York, but it was on a fluke, as McFarland beat him and was disqualified. Terry McGovern knocked out Johnnie Richie in three rounds at New York. Richie was completely outclassed and really never had any business to make

the match. "Just wait till I get Jeffries in ring," says Tom Sharkey; "it'll be a day of reckoning, and there's a big account between us to be squared." doubtedly there is. But whether the sailor will be any better off financially when he gets through with the squaring process is another question.

CRICKET. There will be a cricket match on the Asylum grounds tomorrow, commencing at 11 a.m., between Forest and the Asylum teams.

### SAN JOSE SCALE

Ontario Commissioners Take Testimony in St. Thomas.

The commission appointed by the Ontario Government to inquire into the workings of the San Jose scale act began its labors in Western Ontario at St. Thomas Monday night. The commission, which hos already traversed ford team and Woodstock city team, the Niagara fruit district, includes Dr. James Mills, president of the Guelph Agricultural College; Prof. John Dearness, of London; W. H. Bunting, St. Catharines, and George W. Yates, of Toronto, secretary.

Adam Graham, nurseryman and fruit grower, the first witness examined, did not think the scale as dangerous as reported, and the drastic treatment at present in force was, therefore, unne-He thought fruit growers cessary. ought to be allowed to try and treat the scale. He thought the clause of the act requiring nurse ymen to fumigate their stock before selling was a hardship on the smaller nurserymen. Charles Ellwood was strongly in

favor of stamping out the scale. Jabel Robinson expressed the fear that inspectors carrying around samples of the scale, would tend to spread the pest. If the government could not pay fruit growers sufficient compensation for the trees destroyed he thought fruit growers themselves might contribute a special tax.

Messrs. R. A. Penhale, T. H. Scott, B. E. Luton, M. H. Penhale and J. W. McKay were also examined. They thought the present compensation too low, and advocated payment of onehalf instead of one-quarter of the

valuation.

## 400 DROWNED

Reports of Further Disaster From Floods in Texas.

Dallas, Texas, July 5.—Another flood disaster, which from the first bulletins received here last night appears to be worse than that of last week, occurred yesterday in the Brazos Valley, about 100 miles down the river from Calvert.

Alarming reports come of loss of life in the vicinity of Brookshire. One report says that there were from 300 to 400 people on a small island near Brookshire, and the water was rising rapidly. There was no means of escape, and fears are expressed that they have been drowned.

Houston, Texas, July 5 .- A correspondent, who has just returned from a voyage through the flood district says: "The half has not been told of the havoc wrought. The disaster is so appalling that description is not possible. After this flood will come sickness undoubtedly, and what a week ago was the fairest part of Texas is now almost a God-forsaken wilderness. The waters of the Brazos has for six days covered its valley to a depth of

SIX TO THIRTY FEET. where a week ago there were on every hand fields of cotton and corn and thousands of acres of watermelons and cantaloupes, today there is slimy mud over all the vegetation, while the carcasses of cows, mules, pigs, dogs and cats lie exposed to view on every

hand. Our party left Bryan at sunrise yesterday morning, going to the Navosote bottoms and to a point about three miles from Millican. Here we encountered everywhere an overflow from the Navosote, which spread out fully two miles on either side of the Houston and Central railroad track. Every-thing is under water from two to seventeen feet.

HUNDREDS OF HOUSES ARE SUB-

MERGED, and as many more swept from their ers of the bottoms are still moving their help and whatever is left of their stock to places where they can be cared for. They are all nobly helping each other,

and taking refuge wherever they can.
The flooded districts cover a length of over 500 miles and a breadth of probably 50 miles. The loss of life will never be known, perhaps, the bottoms having been populated mostly with negro tenant farmers.

THE DAMAGE. To show the damage done the fol-lowing estimates have been made by men who are in a position to know: Lives lost, from 100 to 300; loss to farmers, including crops and live stock, from \$5,000,000 to \$15,000,000; damage to railroads and country bridges, \$2,000,-000 to \$4,000,000.

### THE HOLIDAY

Celebrated by Sports and Parades at at Chatham and Woodstock.

Chatham, July 5 .- A monster celebration was held at Chatham on Monday, which was attended by large crowds. The day opened with a trades and calithumpian procession along the principal streets, succeeded by the Twenty-fifth Battalion, of St. Thomas, who came in from their camp grounds, marching along the principal streets to Tecumseh Park, where they perform ed military evolutions and entertained the large crowds by their good work. There was a regatta, hose reel contest, two baseball matches between the Guelph and Chatham teams, also a calithumpian baseball game between local teams, concluding in the evening with a cake walk by Detroit colored artists and a sham battle by the St.

Thomas battalion. Woodstock, July 5 .- Monday's sports opened with a procession of the Karn Organ Bicycle Club to the new Wellington street park, where a baseball match was played between the Brantresulting 11 to 4 in favor of the locals. The St. Thomas and Woodstock Canadian League teams also played two games, Woodstock winning both. The Brantford and Woodstock teams played again; score, 14 to 6 in favor of the locals. A ten-mile road race to Currie's Crossing and return was won by S. T. Burke; H. Utling, second; General Grant, third—all of Wood-

AERONAUT HURT. Hudson, Mich., July 5 .- M. L. Phillips, an aeronaut, received serious injuries while making a balloon ascension at Plymouth, Ind., Sunday. The parachute was dashed against the side of a building. The parachute was released and the balloonist fell 60 feet to the ground, breaking a leg, dislocating both wrists, and receiving severe concussions of head and body.

PATRIOTIC CELEBRATION. Great interest is being manifested in the grand patriotic meeting to be held in the Empress Avenue Methodist Church (West London) under the auspices of the Epworth League of Christian Endeavor, tomorrow (Thursday) evening. The programme is certainly an attractive one, combining as it does, choice selections by the re-organized Imerial Male Quartet, under J. T. Dalton, with stirring patriotic addresses by such well known speakers as the Rev. G. B. Sage, of St. George's Episcopal Church, West London, and Rev. Robt. Johnson, D.D., the pastor of the St. Andrew's Presbyterian Church. Both of these gentlemen are known as eloquent, forceful speakers, and great expectations will doubtless be realized. An interesting feature of the evening will be the receiving of messages from Lord Minto, governor-seneral of Can-ada, and Sir Wilfrid Laurier, premier of the Dominion. The church auditor-ium will be handsomely decorated with flags, etc., and it is expected a large number will avail themselves of the opportunity of enjoying a thoroughly patriotic evening. The church will be open at 7:30, and the chair will be taken by the pastor, Rev. A. G. Harris, at 8:15 sharp. No admission fee will be charged, but a silver collection will be taken at the door. 'Busses will likely be in attendance at the close of the meeting.

#### INHERITS SEVEN MILLION DOLLARS

Reported Good Fortune of a L ndon Machinist.

If Francis E. Brooks, of this city, has been correctly informed, he is one of the richest men in Canada. Mr. Brooks is employed as a machinist, at Leonard's foundry; but he has been informed that out in California there is a fortune of \$7,000,000 waiting for him. His uncle, Charles Petitte, a San Francisco stock broker, died recently and made Mr. Brooks his heir, the report says, and the estate is valued at \$7,000,000. The late stockbroker was a brother of Mr. Brooks' mother. Mr. Brooks is about 50 years of age. He came to London from Ingersoll in 1898, and was married only last fall. Mr. Brooks is in correspondence with the attorneys for his uncle's estate in

### INSPECTION OF THE SEVENTH

Col. Otter To Be Here Tomorrow-The Movements May Be Out of Doors.

Col. Otter will arrive in London tomorrow morning to inspect the Seventh Battalion. He will examine the books and armories in the afternoon, and at 8 o'clock in the evening the battalion will be inspected. The movements will probably be made either on Central avenue or Wellington street outside the drill shed, and will be an interesting sight. It may be, also, that the battalion will march to the market square during the evening.

There was an inspection of the battalion last night by Col. Buchan. The captains, subalterns and sergeants were put through company drill, and the men inspected very closely. No. 1 Company turned out stronger than any of the other companies.

#### SIDEWALK ON FIRE

Trouble at the South End of the Victoria Bridge-Street Car Windows Smashed.

About 7:30 last night, while the firemen were engaged at Labatt's brewery a pile of rubbish at the south end of Victoria bridge was discovered to be on fire. Several lengths of hose in use at the brewery were picked up by a few of the firemen and a line laid to the bridge. The blaze was quickly extinguished. The damage caused was chiefly to the sidewalk. It is thought the rubbish caught fire from a match or a cigar stub.

The line of hose was laid across the street car track and a belt line car ran over it. Some people in the crowd around hooted the car crew, and in a little while stones began to fly. Several of the car windows were smashed.

Two Street Railway Cases Tried This Morning.

Father of the Egy Who Threw a Cherry

Stone Discharged-Minor Cases. The adjourned case of the east end young man charged with using obscene language to a non-union motorman, and having thrown an egg at a street car was taken up when the police court opened its session this morning. The defendant did not deny the first charge of having used profane language to the motorman, Rockett, but said he was provoked into doing it. The second charge of throwing an egg and striking a street car at the corner of Ontario and Dundas streets, he denied. The prisoner was fined \$5 or ten days on each charge, having been found guilty of both. William H. Hull, a special constable in the employ of the street railway company, charged Urina McRoberts, of

Rectory street, with having assaulted Hull, the complainant, sworn, said on the 23rd of June he was going south on Rectory street about 11 o'clock in the morning. He was standing on the rear platform, and saw a boy, whom he recognized as William McRoberts, throw a stone, which struck the car. He got off the car and asked McRoberts for his name, which he refused to give. He took hold of the boy and told him he would have to take him to the lockup. The boy's father then came over and hit him (Hull) behind the ear with his fist. P. C. McDonald was on duty at Rec-

tory street on the 23rd. He saw Hull and Wilson, two special constables, scuffling with McRoberts and his son.

He made no arrests.

Mr. McRoberts, defendant, sworn, said that on the day in question his boy was in the yard picking cherries. The boy had heard some yelling by school children, and ran out to see what was the matter. The only thing he saw him throw was a cherry stone, which he took from his mouth. The constable had grabbed his son before he asked him his name. Hull and Wilson had hold of the boy, and Wilson had his billy out. He (Mr. Mc-Roberts) rushed out and told them not to strike his boy. He shoved Wilson away, and Hull grabbed him and tore his vest. Hull called on Wilson to strike him two or three times with the billey, which Wilson did, hitting him on the shoulder twice. Hull had not produced a badge to show his authority until P. C. McDonald arrived.

William McRoberts denied having thrown anything but a cherry stone. He saw Wilson draw his billy, and thought he was about to strike him. Cross-examined, witness had never thrown anything at cars during the Mrs. George Stinson, who lives next

to Mr. McRoberts, saw the whole oc-currence. She corroborated the story of the defendants in every particular. Mrs. Sophia Walker, a neighbor, was near the place at the time, and walked over to see what the trouble was. She saw both constables with clubs drawn. and saw Wilson strike Mr. McRoberts twice.

cers. "Leave out the evidence of the defendant and his son," said the magistrate, "and we surely cannot go against the evidence of these two respectable married women. I think it my duty to discharge the prisoner."

Hull tried to put McRoberts on a street car to bring him down to the station, but the latter objected and Hull had to walk him down.

The cases of nine city draymen, charged with a breach of the bylaw re carrying passengers to the circus, was adjourned until a week from tomorrow. William Blackmore, charged with stealing jewelry and other articles, was remanded until Tuesday. Thomas Tweedie, an old man, charged with vagrancy, will be sent to the

Old Men's Home. Three colored youths' were charged with disorderly conduct. Twere bailed to appear on the 13th. A couple of drunks were discharged.

How the San Jose Scale Found Its Way to Canada-Mr. Vanhorne's Experience.

Chatham, July 5.-The San Jose scale commission is now in the district in which the scale was first found in Canada. The man who found the scale, Mr. John Vanhorne, was one of the witnesses yesterday afternoon, and in view of the interest now taken in the question the story of the original finding is interesting.
Mr. Vanhorne, in 1893, purchased

some Abundance and Simoni plum trees from a nurseryman named Perry in New Jersey. Shortly afterwards he received a circular from the firm, stating that it was feared the dreaded San Jose scale had been sent out with the stock. The trees, however, looked so well that he paid no attention to the warning. A couple of years later Mr. Vanhorne noticed a couple of the plum trees looking scrubby and ashy, and he ran his thumb-nail along the bark. To his surprise, he pressed out a generous quantity of the yellow scale flesh. He sent a sample of the wood to the Ottawa agricultural station, where his suspicions were confirmed. Then he remembered having made a present of a Simoni to his sonin-law, and on investigation he found it also infested. Mr. Vanhorne treated the trees once with California mixture, and twice with whale oil soap. a while this seemed to succeed, but last spring the scale had again increased to a noticeable extent, and 16 out of 110 were found to be infested. Although only 30 trees were imported from New Jersey, the entire orchard was destroyed as a safeguard. The wind had also apparently carried the scale into an orchard across the way while the treatment was in progress. Notwithstanding his unsatisfactory effort to kill the scale, Mr. Vanhorne is still a remedialist, and thinks he could do better on the next occasion, because of his past experi-

Here the fruitmen, as a rule, are in favor of proceeding along present lines, provided 50 per cent of the value is allowed for the trees destroyed. The majority also believe the government should bear the expense, not the fruitgrowers as a body.

What the Government Does-Conservative Senators Hold a Caucus Re G. T. R. Agreement Bill.

[Special to The Advertiser per C. P. R.] Ottawa, July 5 .- The Conservative senators met in caucus this forenoon, and discussed for two hours and a half the Grand Trunk agreement bill. No definite decision was reached when the and discussed for two hours and a half definite decision was reached when the meeting adjourned. The meeting, however, was opposed to permitting the bill to pass in its present shape, and there was also strong opposition to accepting the amendment doing away with the 99-year term of agreement and making it end with a year's notice from the minister of railways. The idea was expressed that it would be advisable to wait and see what the government was going to do about it.

Sensational Report Denied. To the Editor of The Advertiser:

Kindly allow me space in your paper to contradict the sensational report in this morning's Free Press in regard to Magistrate Parke, in summing up the vidence, said the two men were in headed "Beaten in Both." Now, I am plain clothes, and it was difficult for citizens to know that they were officers. "Leave out the evidence of the defendant and his son." said the magical forms to beaten in either of those cases, as I claim the police court has no jurisdiction, as they are contract cases, and both cases are sent to Toronto.

Now, in regard to my having more cases of this kind than any other hotel-keeper, I have had only two previous to this, and the magistrate was compelled to dismiss both, having no case. No doubt the Free Press is as hard up for news as they are for subscribers. Yours truly, J. W. DOYLE.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, which ran into Pneumonia. My lungs became hard-ened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." He touched her shoulder, less in caress than admonition, as he asked "Tell him what? Why do you speak of humiliation?"

"Because he still believes in me, I tell you! He will scorn me when I confess that my heart has changed-that I can never love him again, as I fancled I did once!" she whispered, as if ashamed to say it aloud. "He will cast me off—free me at once and forever."

Had the dusk allowed she might have seen a smile of triumph upon his face, an involuntary uprearing of the head as from the binding of the bay of victory about his brows. In affections and in spirit she lay at his feet-her love confessed, her destiny within his power. Do not injure yourself fatally in the estimation of all your friends by canceling this engagement. Your father has talked much to me of the comfort it is to him. He loves and honors Fordham; is happy in his old age at the anticipa-tion of giving you into his keeping. This will be a crushing blow to his pride and affection. And Fordham! You do not comprehend what a terrible thing his anger is. I, who have seen him aroused, warn you not to make him your life-long enemy. "What could I do?" he said, be-

seechingly. "You were lost to me as surely as though you were already married or dead. If I am to blame for obeying the reckless impulse to double bar the door separating us—to divide myself from you by a gulf so wide that expectancy, desire and hope would perish in attempting to cross it, you are scarcely the one to upbraid me for More marriages are contracted in desperation than from mutual love. I said: 'If I am ever cured the will be by this means.' Miss Sanford was not unpropitious to my advances. I will not insult your common sense by pretending that her evident partiality flattered or attracted me-much less that I ever felt one throb of tenderness for her. Since I could never love another woman, what difference did it make who bore by name and kept my house? It were better—so I reckoned—to marry one whose supreme self-love would pre-vent her from divining my indifference and its cause, who was shallow-hearted, insensitive and obtuse of wit, than one who, gauging my feelings by her own, would expect a devotion I could not feign-

You perjured yourself when you told that girl that you loved her-and tell it to her you did, or she would not have accepted your hand. Other men have sought her in marriage, and she would be exacting as to the form of your proposal. You dishonored yourself and the name of wedded love in every vow you made her. From this sin, at least, I am free. When I promised to marry Roy Fordham, I thought I understood my own feelings, and my heart was his. If I could forget the mad, wicked that divides me from that season of purity and gladness, I would peril my soul to do it! You speak of the sanctity of my engagement, of the integrity that bids you hold fast to yours. We will pass over the first. It was a sacred thing, and a precious, once, before the serpent left his loath-some trail upon it. But where was your integrity when you talked to me of love just now, when you deliberately prefaced the announcement of your betrothal by the declaration that the memory of me must always be more to you than any earthly possesion? Was this loyal? Was it honorable, or even honest? I believe that I loved you, Orrin Wyllys! I believe, moreover, that you have tried to win my lovefor what end the Maker of us alone knows. If I have been weak, you have been wicked. I see it all now—step by step! fall after fall! And to crown the injury you have done me with insult, you adjure me to save you from temptation to perjury by heaping lie upon lie, in continuing to assert by actions, if not by direct protestation, that I love a man to whom I am Indifferent. You have sold yourself for Hester Sanford's millions. You would have me sell myself, soul and body, for expediency and convenience—and to avert Roy Fordham's lasting enmity! That is the case, stripped of sentimental verblage." [To be Continued.]

Eighteenth Christian Endeavor Convention Opens in Detroit.

Crowds Pouring Into the City of the Straits-Windsor Will Entertain a Number of the Delegate s.

Detroit, July 5.—The Christian Endeavor Society, which includes 3,350,000 members, begins its 18th annual convention today in the city of Detroit. For the past few days the hosts have been gathering from all quarters of the world. Yesterday the advance guards were reinforced by many regiments, and today the main body of the army will sweep overwhelmingly into the city, filling it with a multitude, the like of which in size and character has never before been seen here. The streets of the down town district have been becomingly attired in honor of the guests, as have also the score of church headquarters, and the historic City of the Straits is smiling its brightest smile and saluting with its most courteous bow the visitors that it welcomes within its gates.
The completed tents are much more

beautiful and pleasing to the eye than it was thought possible to transform such huge canvas barns. Chiefly noticeable after one gets accustomed to the sea of color are the flag clusters, a score in each tent. In each of these hangs two of the Stars and Stripes and four other foreign flags. In one of the clusters is a Spanish flag, which has created some criticism and has been the source of a good deal of wit-ticism. But Mr. Coster silences all complaints by the wearing of the C. E, badges by asking them if this convention isn't a real good place to commence practicing forgiveness to our late enemies.

The press committee is in active possession of the press tent, and there is enough to keep all the attaches busily employed. Many representatives of the outside newspapers put in an appearance yesterday and were assigned to seats at the reporter's tables. Posted everywhere within the big

IN WINDSOR.

Windsor, July 5.-Windsorites have completed preparations for the entertainment of the delegates to the Christian Endeavor convention which opens in Detroit today. The delegates from Illinois commenced to arrive in Windsor yesterday afternoon. Windsor has also promised to take care of the delegates from the States of Georgia and

Arizona, and they will arrive today.

The Presbyterian Church has been fitted up as headquarters for the delegates and it has been tastefully decorated. In the main body of the church streamers of the colors of the society have been hung, and around the walls many flags of both countries were placed. In the school room of the church there was a greater show of bunting, and the pictures of Queen Victoria and President McKinley were set in the same frame, while beneath were the words, "We Stand for the were the words, "We Stand for the Right," and "Our Roots are in the Same Soil; We Thrive Beneath the Same Sun." Beneath the pictures the Union Jack and the Stars and Stripes were entwined together and, altogether, the decorations show that the people of Windsor wish to show their guests that the convention is an inter-

#### WORK OF THE WIND AND HAIL

Many Farmers Suffer From Monday's Storm-Windmills, Fences, Barns and Crops Leveled.

Clandeboye, Ont., July 4.-One of the worst storms ever remembered passed through here on Monday between 4 and 5 o'clock, playing havoc with farm buildings, crops and fences, which were strewn in all directions. Eli Bice made a rush to throw his windmill out of gear, but before the feat could be accomplished the terrific wind had done its evil work. The windmill on Reid's farm, worked by George Hodgins, was also entirely demolished. James Cunningham, con. 2, McGilli-vray, lost a valuable cow, which was found dead Tuesday morning, apparently struck by lightning, in the lane of A. Bice's farm, where it was seen quietly feeding about 9 o'clock Monday night. Mrs. Collinson's loss is severe, the fine barn on her place being a total wreck; and Mr. Brownlee suffered in the same way. The windstorm passed from west to east, and storm passed from west to east, and was accompanied by a copious fall of hail stones, as large as the widest imagination could desire, while the rain descended in torrents, doing particular damage to the hay crop, which, in instances, was completely flattened. Reeve Corbett's wheat crop was badly injured but his is fortunately an badly injured, but his is fortunately an isolated case. Many orchards were badly damaged, large trees being snapped like pipe-stems. The financial loss will be heavy, and it will require years to repair the loss.

CAUGHT IN THE STORM. The G. T. R. train, which left here on Monday evening for St. Marys, was caught in a heavy hail storm,

Five Drinks of Passaic Whisky Kill a Prohibition Leader.

Passaic, N. J., July 5.-George Washington Peet, at one time a candidate for office here on the prohibition ticket and well known as a prohibitionist, died Saturday night in a saloon.

A short time before he died he drank in rapid succession three glasses of whisky, a big glass of beer and a cocktail. The drinking was done in Meister's saloon, and the drinks were paid

for by an acquaintance of Peet.

After drinking the whisky, beer and cocktail Peet sat down in a chair, and in a few minutes his head fell forward on his chest. He was thought to have fallen asleep from the drink, but an hour later it was found he was cold. He was 47 years old.

PRESENTATION TO REV. FATHER

LENNON. Brantford, July 5 .- Rev. Father Lennon, of this city, who was publicly and severely rebuked by Bishop Dowling, of Hamilton, has been the recipient of a very handsome present from his own people of St. Basil's, and the object of a remarkable outburst of affection and esteem. A large deputation of the people of St. Basil's waited upon Father Lennon on Monday and presented him with a beautiful and

costly cope of gold and silver. A card accompanied the gift, asking its accept-ance from the members of the Sodality Society. Father Lennon, who was much moved by this spontaneous mark of his people's affection, assured them falo today were not quite so active: that he appreciated their kindness very highly indeed, and hoped always to retain the regard of his own people.

One of the most important matters before the meeting last night was the proposal to start a co-operative shoe factory, to replace the Laidlaw & Watson shoe factory, lately removed to Aylmer. The capital stock of the new company will be \$20,000, in 10,000 shares of \$2 each, in order to give every member of a labor organization an opportunity to take at least one share. Subscription lists are already out, and the shares are being taken rapidly. It is expected that by Saturday night the requisite 10 per cent of the stock will be paid up, when the provisional directors will apply for incorporation. The company's solicitor has already prepared the necessary papers. The new factory will be larger than the old one, and will probably employ many of the Laidlaw & Watson former employes, only three of whom, it is said, have gone to Aylmer. The labor organizations represented at the meeting all

promised the heartiest support. The Co-operative Automobile Company, which is being formed here, reported that they have written for esmates on fifteen machines to the leading manufacturers of the United States and Canada. The stock is being taken freely, and they are much en-

couraged with the outlook. The Trades and Labor Council last evening appointed a committee to incertain charges made against Chief Williams to the board of police commissioners, and to learn why the charges have never been pressed by the

## \$35,000 FIRE AT LABATT'S

Supposed to Have Originated in the Drying Room.

Good Work of the Department Saved the Brewery From Total Destruction.

Less Fully Covered by Insurance-Chief Roe Struck by Falling Shafting and Badly Hurt-Firemen Borland Also Injured.

Fire partially destroyed the drying room and two malt houses at Labatt's brewery yesterday afternoon. The loss is estimated at \$35,000, less salvage. It was about 5 o'clock when an em-

ploye at Hunt's mill noticed that the cupola over the drying room was in flames, and gave the alarm. The three fire companies were quickly on the scene, and lines of hose were laid from three hydrants-one in the brewery yard, the others on Simcoe street at Richmond and Talbot streets. Owing to the peculiar construction of the building it was a difficult matter to fight the flames, and they spread rapidly under the slate roofs. Tons of water was poured on the conflagration before it was well under control. The fire-fighters had a dimcult task. The high temperature at which the kilns are kept handicapped the firemen, and made the flames spread with great rapidity. Facilities for getting water were splendid, although the pressure was a trifle low, and before long the several well-directed streams told. The firemen were given valuable assistance by employes of the brewery and other volunteers. Hundreds of citizens gathered on Talbot and Simcoe streets and watched the dense volumes of smoke wane, and the forked tongues of flame

die out. The office, which is a separate building, was at no time in danger. The third malt house, also, in a separate building, was threatened, but an occasional play of water on the portion of the building nearest the burning malt houses proved effective in saving it

from damage. The loss is fully covered by insurance, divided among the Royal, Western, Guardian, National, Connecticut, and Northern insurance companies. The firemen did not start to take up

their hose until nearly 9 o'clock. The origin of the blaze was probably due to spontaneous combustion. Three years ago the same cupola was seen to take fire on a very hot day, and then the cause was attributed to the great heat of the kiln combined with the external heat.

About 6 o'clock Benjamin Snider, a young man who was assisting the fire-men, fell from the roof of the brewery, a distance of nearly 20 feet, and luck-Shortly after this accident another

one occurred, in which Chief Roe and Fireman A. Borland were injured. The men gave way. They were both struck. Borland was knocked out through the door, near which he had been standing, and the chief fell inside a distance of seven or eight feet. When he managed to scramble out his face was covered with blood, and his right arm hung limp by his side. Dr. Moore was sent for, and the injured man assisted to the office. His shoulder had been dislocated, and he had received a se-vere scalp wound. After his injuries were attended to the chief reappeared with his arm in a sling and his head bandaged, and he directed the move-ments of the firemen with great forti-Fireman Borland' was severely tude. bruised, but kept on with his work. An hour later a piece of slate fell from the roof and cut one of his hands badly. An accident delayed the hose truck

from No. 1 station when responding to the call. The harness did not fall squarely on the horses, and as they started a tug broke. The tug was replaced, and a speedy run made. Fortunately no one on the truck was hurt. The hook and ladder truck narrowly escaped colliding with a street car at the corner of Richmond and King streets while on the way to the fire. Until Spring-West Londoners Think It Responsible for the Floods-Deputation Before the Water Commis-

The board of water commissioners met in regular session yesterday afternoon, with all the members present. year before, when it flooded the lower A deputation of citizens, composed of Messrs. L. V. Ludwig, R. A. Jones, Jas. Campbell, John Chapman, W. T. Hamilton and J. F. Redmond, waited on the by's dam than above. We are all workboard, having been appointed by a mass meeting of West London ratepayers. The deputation urged that the rebuilding of the waterworks dam at Springbank be deferred until next the loss of life and property it has spring. In their opinion, the dam was caused. If it has to be built, for God's Springbank be deferred until next London. To leave it as at present would show clearly whether it was or

Mr. W. H. Bartram also spoke, asking that the building of the dam be left

until spring. Mr. Campbell said that on the night the dam was partially washed away, people in West London were preparing to leave their homes, when the water began to recede so rapidly that the cause could not be understood. The collapse of the dam accounted for the

drop in the river. Mr. Jones thought the dam was a detriment to the people of West London. It was only just that the rebuilding of it should be postponed. It could be easily seen then that the dam caused the floods. Mr. W. T. Hamilton expressed the

opinion that the dam should not be rebuilt until spring. Mr. Bartram said that the report of Engineer Kennedy, of Montreal, stating that the dam in no way caused the high water, was an absurd statement. The report was laid over. Engineer

Moore and Messrs. Campbell and Chapman were appointed a deputation to visit Brantford, where steps are being taken to prevent a recurrence of the floods, which have done considerable damage to that city. A report from the deputation will be presented at the board's next meeting.

A communication was received from the Master Plumbers' Association, asking the board not to extend services more than 20 feet beyond the street line, and that the employes of the department should discontinue connecting hydrants for lawn and domestic

To the Editor of The Advertiser: I see by a recent issue of your paper that the commissioners have had the opinion of an expert engineer from Montreal, whether the waterworks dam is the cause of floods or not. I think he can't surely be acquainted with the circumstances in this case, or he would have given a much different report. I do not think it requires an engineer to know that a stream dammed with a

17-foot dam that backs the water for three miles is sure to cause trouble. I remember the river before the Griffiths' dam was built. It was swift, and there were numerous rapids where it did not freeze during the winter, and always offered a clear course for the ice breaking up. But now the case is different. The ice freezes thicker than on any other part, and will not break so soon on account of the stillness of the water which generally causes it to jam at every obstacle in the way, and back the water in on our streets. As an illustration of this I will refer you to the past winter. The river never was in worse shape with slush and ice, and everyone expected to see a

serious flood. The water was just as high at Saunby's dam as it was the

But fortunately a portion of the dam gave away, and very soon after the water was four feet lower below Sauning people over here, who have earned what little we have by hard labor, and I think it would be a very unjust act on the part of the commissioners to erect this dam, even if they have a right from the government. Consider responsible for the flooding of West sake provide it with suitable openings, so that it can be left open during the winter months; then there will not be so much danger. Thanking you for D. WHAT THEY ARE.

Composition of the Famous Now Food, A wide spread interest has been created among good livers as to the composition of Grape-Nuts, the new food that has come into popular use of late. It has long been known to physicians, chemists and food experts that the starchy portion of entire wheat flour and barley is transformed into a true and very choice sugar by the act of intestinal digestion in the human body. This sugar is identical with, and is known as grape-sugar, and it is in condition for immediate transformation into blood and the necessary structure from which the del-

icate nerve centers are built up.

A food expert of the Postum Cereal Company, Limited, Battle Creek, Mich., followed a line of experiments until he produced the food called Grape-Nuts, of which grape-sugar forms the principal part, and it is produced by following out nature's processes in a mechanical way. That is, heat, moisture and time are the methods employed and directed by scientific facts gained

in research. Grape-Nuts are probably entitled to the claim to be the most perfectly adapted food for human needs now extant. Certain it is that the user's delight in the flavor and the perfect action of intestinal digestion during the use of Grape Nuts is satisfying, and the added strength of body confirms
