ENGINEER KELSCH'S REPORT IS IN LONDON WHY LONDON ELECTRIC SHOULD BE BOUGHT

Will Make a Difference of $25 in Cost of Power to Consumers.

CUTTING OUT COMPETITION

Some of the Main Facts of the Long Expected Report on Niagara Power

Mr. Kelsch's report in detail:

Get rid of the London Electric.

Get a hustling business agent to sell power.

Overlapping will furnish a large part of the profits.

The peak load is not so dangerous a factor as anticipated, and can be overcome with slight difficulty.

It is a business proposition, and must be treated so.

No price for the sale of power—that depends on local conditions alone.

Engineer Kelsch's report has come. For some days it has been expected, but it did not reach the city until last night or this morning.

There is a great deal of reticence about the contents of the report, but after considerable difficulty the above synopsis was obtained, and it is correct.

There are two things that Mr. Kelsch is most emphatic about—two main things—that the London Electric must be elliminated, and that the business must be run on a business basis.

With these two things taken into consideration, there is no doubt of the project being successful.

The Cost.

In his report it will be shown that Niagara power will cost $61 a horse-power for 2,000-horsepower, while for 4,000-horsepower it can be had for $35, a saving of $26 a horsepower. That will mean a saving altogether of $104,000 a year.

Mr. Kelsch points out that the London Electric Company will turn over customers for nearly 2,000-horsepower, and it will be quite an easy matter to sell another 2,000-horsepower, if the current can be delivered at a reasonble figure.

Buying the Plant.

If the London Electric Company's plant is absorbed at, say, $400,000, the sinking fund and interest for 30 years would amount to perhaps $25,000 a year, so the city would save in the neighborhood of $80,000 by a reduced price, and incidentally remove all danger of competition in the city.

Engineer Kelsch's report has come, and is now in the city, although some very straight denials have been made on the subject. It is here, and The Advertiser is in a position to state positively that it is here.

In that report Mr. Kelsch speaks very plainly. He states, without equivocation, that this is a business proposition, and must be run in a business way.

A Business Proposition.

He declares most emphatically, that if it is conducted as a business should be conducted it can be made to pay, and that handsomely.

Mr. Kelsch reiterates, as has been stated above, that the London Electric must be elliminated from the field for the reasons before mentioned, and that the city should employ a man who will sell power, a man properly qualified to show business men the advantage of using power from the city's plant.

Overlapping.

He works out a plan for overlapping, and demonstrates that the city can utilize its own power for the waterworks and other parts of the city machinery at a cost of practically nothing to the city.

It is in this overlapping that the city will show a considerable profit, and protect the ratepayers from loss.

The Selling Price.

There are few recommendations of an entirely new character. Mr. Kelsch does not name a price for selling to consumers—that depends entirely on local conditions—the amount of power to be taken, and the other questions of economy and the rate of profit.

There will be no meeting to consider this report until after the meeting with the London Electric to consider the basis of arbitration.

Get a Good Man.

In his report Mr. Kelsch lays particular emphasis upon the fact that the city should do the business in a business manner.

He instances the case of Montreal where a man was employed to sell power for the city at a salary of $3,000 a year. He was instrumental in bringing the power scheme to a success in that city, but was taken away at a large salary. The moral, he points out by the story, is that the city should get a man to sell power who knew the business, could approach men, and by his knowledge of mechanics and his subject impress upon the citizens the value of using the city power.

If such a man were employed, then London could make a success of its power business, and place itself in a position to deal with this question on a broad and scientific basis.

The Peak Load.

As for the peak load, it is not such a bugbear as has been painted, but can be avoided with ordinary discretion and judgment.

A scheme has been worked out—it will be presented as a chart—showing how the peak load for any consecutive moment will be of little consequence, and is very little more than the average load at any particular period of the month.

Mayor Stevely denied point blank that he had seen the report, and Ald. Stewart

(Continued on Page Nine.)

THREE CARS IN A MIX-UP CONDUCTOR AIKINSON INJURED

An Ottaway Car Collides Head-on With an Oxford and Latter Is Driven Back Upon a Wellington—Nobody Seriously Hurt.

A somewhat serious collision occurred on Horton street shortly after 11 o'clock this morning, when Ottaway car No. 90, in charge of Motorman Hardy, ran head-on into Oxford 58, with Conductor Everitt, knocking it back about a car length, into No. 124, of the Wellington line, in charge of Motorman Dick Simcoe. Conductor Atkinson, of the Ottaway, received a gash over the eye, but no person was seriously injured.

A young lady named Boyd, who resides in South London, was riding in the Ottaway car and was badly shaken up.

Motorman Hardy, of the spare list, was in charge of car 90, and as No 58, westbound, of the Oxford line came up the single track, leading from Wellington to Richmond, and followed by No. 124, Wellington, he shot out off the double track.

The cars struck with considerable force, although both motormen "plugged." the Oxford rebounding and striking No. 124 with sufficient force to smash the tender.

The vestibules of the Oxford and Ottaway cars were smashed considerably, but both men escaped injury.

ENGINEER HUNTERS HAVE RETURNED HOME

Board of Works Have Returned From a Pleasant Trip to Toronto and Hamilton.

The board of works returned last night from their trip to Toronto, where they interviewed the applicants for the position of assistant city engineer, and incidentally looked over the street flusher at Hamilton.

The position of assistant will probably go to Mr. Wright, as mentioned yesterday, and as he isf ully qualified, he should give perfect satisfaction.

As to the street flusher, the aldermen are convinced that it is a good thing.

"It seems to give perfect satisfaction in Hamilton," said Ald. Garratt. "I think it would be a good thing for London. It keeps the streets well cleaned, and saves money by reducing the amount of street cleaning necessary."

A report on it will be submitted to the council at its next meeting.

RUSSIAN SINGER WAS GIVEN A VERDICT

Sued the Proprietor of a Nickel Theatre for Wages—Case Will Be Appealed.

George Swanwick, proprietor of a local nickel theatre, appeared before Magistrate Love this morning, charged with non-payment of wages by G. Kutensky, a Russian singer, who came here on a contract last week.

Magistrate Love gave a verdict in favor of Kutensky for $19, the amount claimed, and defendant gave notice that he would appeal the case.

The evidence was to the effect that Kutensky had been engaged by Swanwick's agent and had come here, and after singing his contract had been marked O. K.

After three or four performances, it is alleged, Swanwick objected to Kutensky's singing on the ground that his English was imperfect, and offered him $8.70, and ordered him to stop.

As Kutensky had paid out nearly $12 to come here he held out for his salary, according to contract, and Magistrate Love decided that he was entitled to it.

"That certainly is a hard and fast contract that is decidedly one-sided in favor of the proprietor," he said. "But I think Kutensky is entitled to fair play, even if he was silly enough to sign it."

Three drunks were allowed to go.

NEW TRANSFER DEED FOR PORT LAND

Property Will Once More be Deeded to City, Original Papers Having Disappeared.

A new deed of transfer of the Port Stanley property from Mr. William Bowman to the city will be made out.

The old deed, which Mr. Bowman states was signed forty years or more ago, cannot be found.

There is no doubt it was in City Engineer Graydon's office for some years, but in the many changes in that office since, it has with many other papers, been lost, and absolutely no trace of it can be found.

A search for it has been made but has availed nothing. Now a new deed will be made out, and the property will be once more transferred to the city and the deeds registered.

This will settle the right of ownership, and forever prevent all litigation.

Nissouri Man Injured.

Mr. William Ford, a farmer who resides in West Nissouri, met with a painful accident at his farm yesterday. He was grafting a tree, and was standing on a ladder, which suddenly slipped from the limb that was holding it, and threw Mr. Ford to the ground. He was in a semi-conscious condition when picked up by his son, but on summoning medical aid, it was found that no bones were broken, although he was badly shaken up, and will have to remain quiet for a few days.

Dog Killed.

A small black cocker spaniel, while running in front of an eastbound car on Dundas street, yesterday afternoon about 5 o'clock, was struck by the front truck, and had its left hindleg severed near the hip. The dog was destroyed by P. C. Lucas.

STARTS WAR TODAY ON NIAGARA JAM

Carloads of Dynamite To Be Used to Move Gigantic Pack.

NOW TWELVE MILES LONG

Ice Monster Now Source of Pestilence Through Accumulation of Sewage.

Lewiston, N. Y., April 22.—The ice monster crowding his devastating bulk between the banks of the lower Niagara River, slumbered the night through, heedless of the war which had been declared against him by the state engineers.

On his flanks were watchmen waiting, worried by the southwest squalls which had been driving an endless procession of ice over the Falls throughout the afternoon and evening. But the force of the current crowded with loose lumps of ice, evidently ground out a smooth subway for itself beneath the main mass of the floe for the water in the cellars rose only five inches during the night and receded an equal distance in the early dawn. Unless the efforts of the engineers this morning prove fruitless it is probable that the greatest danger is past. The ice which plowed the upper banks uprooted huge trees and pulverized docks and boathouses, is still poised on its lofty level, but the middle line of the surface of the floe has apparently dropped a few feet.

An Appalling Jam.

The jam is of appalling proportions when actual measurements are taken into consideration. Apparently only a peaceful expanse of dirty ice, mingled with wreckage and uprooted trees it is nevertheless twelve miles in its length, and in many places sixty feet in its depth. Taken altogether it represents millions of tons, and a strength powerful enough to annihilate the four villages along its border if it should start to go out all at once. Another element of horror is its pestilential nature. Mingled with the slushy ice and cast high on the banks is a week's sewage from all the cities along the Niagara frontier. Physicians are warning the people to beware of using the water as it is rank poison.

To Blow Off Head.

The plan of the state engineers, Henry A. Kunzle, assistant superintendent of public works, and Charles A. Tuttle, an expert on high explosives, who yesterday afternoon decided on a method of procedure, and in the evening obtained the permission of the state to carry it out, is first, to blow off the head of the ice giant, now projecting into Lake Ontario, by a generous charge of dynamite. Other sections of the body of the monster will then be successively separated from the whole and allowed to drift out into the lake. Three wagonloads of dynamite were sent from Buffalo last night for this purpose, and are now safe in Youngstown at the mouth of the river.

Capt. Mitchell, officer in command of Fort Niagara, hae offered the assistance of his 120 men. Capt. Nelson, in charge of the life-saving station at Youngstown, and his crew of seven men will also help in the breaking of the jam.

PECULIAR FEATURE OF A HORSE DEAL

Police Do Not Quite See That a Theft Has Been Perpetrated.

A man named Jones, living in South London, sold a horse to two South London youths recently at St. Marys. The latter were to pay for the animal in the future, it is said, and started with it for London.

According to the story told the police, the horse was in such a condition that it took the two lads about 24 hours to come 25 miles.

They refused to pay for it on the ground that such an animal was worse than useless. It is alleged that Jones refused to take the horse back and he has been trying to work up a charge of horsestealing against the boys. So far, however, no information has been laid.

Won in Final Exams.

One of the eight successful candidates in the supplemental final examinations for Ontario land surveyors, which have been proceeding at the Parliament Buildings, Toronto, for the past two days, is A. H. Greenlees, of this city, son of ex-Ald. Andrew Greenlees.

MR. ELLIOTT IN HYMAN HALL

Mr. J. C. Elliott, member for West Middlesex in the Ontario Legislature, will be the speaker at Hyman Hall tonight. Mr. Elliott's address will be found to be very interesting, and all are cordially invited to hear him.

A splendid programme has also been arranged.

ENGINEER GRAYDON HEARS NEWS OF TRACK ELEVATION IN LONDON

Chief Engineer Cousins, of the Grand Trunk Railway, Says That Engineer Kelly Is Still Hard at Work With His Staff on the Plans for London.

Track elevation is not as dead as it has been supposed to be. In fact, Engineer Kelly of the Grand Trunk is at present preparing plans for the proposed improvements, and they will be submitted to the city council before long.

It was expected that negotiations would have opened long before this, but Mr. Kelly has been engaged on the Toronto work.

He has a large staff of men engaged at the present time, and it is expected that the plans will be ready by May 1, although it may be some time later when this work is completed.

Mr. Graydon Speaks.

"I had a conversation with Chief Engineer Cousins of the Grand Trunk engineering force in Toronto, and he told me that Engineer Kelly was at work on the plans for track elevation in London," said Engineer Graydon. "I do not know exactly when the work will be ready, but it should be some time early this coming summer."

Mayor Stevely has received no official notification when the company would open negotiations with the city, but was hopeful that there would be something official within a very short time.

Are in Earnest.

"I am convinced that the company are in earnest, and that negotiations will be opened as soon as it is possible for them to do so," said his worship. "They are in earnest about this matter, and only unforeseen circumstances have prevented the question being gone into long before this."

A BRUTAL MURDER AT TORONTO MAN KILLED FOR REVENGE

Vanen Simoff, a Macedonian, Found in Basement of House With Head Battered in With a Hatchet—Murderer Escapes andPolice Have No Trace Whatever.

[Special to The Advertiser.]

Toronto, Ont., April 22. — His head battered with a hatchet, and lying in a pool of blood at the foot of the stairs, leading into the basement kitchen, Vanen Simoff was found murdered today, at 16 Eastern avenue. Nine Macedonians live at the house, which is a one-story roughcast cottage. All had gone to work but two, one who was out of a job, and the dead man. The dead man had been in the hous but a few minutes after 7, when he was killed, as he still had dirt and black on his face when found. Only a few feet from his head the weapon used by the murderer was found, but the man himself had disappeared. No one saw him go out, and apparently he washed away all stains from his hands and clothing, before he left, as the bowl under the sink showed traces of blood. Police were soon on the job, but could not find the murderer nor any trace of him. No cash was taken from the body. The crime apparently was inspired by revenge.

A BIG INCREASE IN LOCAL BANK CLEARINGS

This Week Shows $267,499 More Than Last—Figures Are Satisfactory.

The bank clearings for the week ending April 17 demonstrates a very decided increase.

This week shows clearings of $1,238,869 against $971,370 last week, while the clearings for the same week last year amounted to $908,134, which points to a more satisfactory state of affairs in the business world.

WONDERLAND VERY POPULAR FOR CAMPERS

It Is Understood That Many Londoners Will Go There This Summer.

From present indications there will be more campers and cottagers than ever at Wonderland this summer and the pretty spot down the river will be very popular. Last year the number of campers and cottagers surpassed that of any previous year. This was due in some measure to the improved boating facilities, many of those having launches on the river spending some weeks in tents at Wonderland. This year there will be many more boats on the river, and it is certain from what they say that a number of their owners will spend part of the summer in tents down the river. The convenience of the spot, it being right in touch with the street car service as well as by boat, makes it very handy for numbers of young men who wish to arrive in the city in time for business in the morning.

GIRL PRISONER TRIED TO COMMIT SUICIDE

Tore a Piece From Her Underskirt and Was About to Hang Herself

The young girl who was arrested in Windsor yesterday for stealing money and jewelry from Ethel Flynn, tried to commit suicide in her cell at the police station. The police are reticent regarding the matter, but it is understood the girl tore a piece from her underskirt and knotted it through the iron bars of her cell and was about to hang herself when discovered. A physician was called in and she was removed to her home. It is likely that the case will be settled out of court as restitution will be made of the stolen propert'.

DEATH OF MRS. TOLHURST IN CLEVELAND, OHIO

Was One of the First Settlers of Kensington, Now West London.

The many friends of Mrs. J. W. Tolhurst, of Cleveland, Ohio, formerly of West London, will be grieved to learn that she died on April 20, after a lingering illness. Mr. and Mrs. Tolhurst were one of the first families to build on what was then called Kensington, now West London. She is survived by her husband, five sons and five daughters.

NO BAIL AS YET FOR JOSEPH WARD

Man Who Is Being Held in Connection With the Death of Alex. Warwick.

Joseph Ward is still in jail and is living the life of an ordinary prisoner.

He is subject to exactly the same discipline as the man charged with a petty theft or for being drunk and disorderly.

Ward is good-tempered and pleasant and gives absolutely no trouble to the jail authorities. He seems to be quite contented with his surroundings, and in no way troubled by the serious charge that is hanging over his head.

His life is spent with the other prisoners on remand.

He takes his exercise twice a day with them, and seems on very good terms with all, and his quiet conduct makes him quite a favorite.

Father Barred Out.

He has few visitors at present, his lawyer being the only one who has access to him. Even his father and mother have not seen him since the day after he was committed to jail, and none of his friends have gained admission.

No Bail as Yet.

There has been no request made for bail so far, and whether such a request would be granted or not would depend entirely upon the judge's decision.

There is no hard and fast precedent in such cases, and it depends on whether sufficient security can be procured, and even more on the judge's opinion on the advisability of granting the privilege.

DYNAMITE FAILS TO MOVE THE ICE

Fort Niagara, April 22.—The first attempt at dynamiting the ice jam was an apparent failure. Two charges of fifty pounds each exploded under an ice bridge lying between the shore and the head of the jam, but failed to open a channel.

DEFENSELESS LADY MISSIONARIES SEND OUT A CALL FOR HELP

LITTLE CALTON GIRL SWALLOWED POISON

Drank Contents of a Bottle of Strychine and Died in Great Agony.

[Special to The Advertiser.]

St. Thomas, April 22.—The little daughter of Walter Williams, a farmer living near Calton, was poisoned last night at her home. She climbed up on a chair and took down a bottle of strychnine which stood on the clock shelf and swallowed a portion of the contents. She died in great agony shortly afterwards.

ANOTHER SPECIAL BALLOT OFFER

Five Dollar Trip-to-Europe Subscription Now Worth 2,000 Votes.

A SPLENDID INDUCEMENT

New Conditions Open Until the First of May and Contest Closes on the Fifteenth.

Another, and, at the same time, the last special inducement in The Advertiser Free-Trip-To-Europe Contest, opens today, and offers a great opportunity to any candidate to win out in the great contest. A full announcement of the terms will be found in the large notice on another page of this issue. So it will be sufficient to point out that under this offer candidates registering a $5 subscription will receive 2,000 votes instead of 1,000 as formerly, and other amounts of subscriptions will carry with them a proportionate increase in ballots. The contest opens with the publication of this notice, and will conclude on the first day of May. To take advantage of this offer the subscription must be entered in this office not later than that date. These coupons may, of course, be held back until the close of the contest. This is absolutely the last special inducement that will be offered in the contest, and after the first of May the value of subscriptions will return to their old standard, and there will be no further change till the end of the contest which will positively be on May 15.

A Splendid Inducement.

This is a great offer, and one of which every candidate should take full advantage. Don't put off till the last moment. Subscriptions are worth just twice as much now as they will be in two weeks from now.

It is better to work hard while this special offer holds, than to work equally hard in the last week of the contest. It is better still to work hard at both times. The contest has now reached the critical stage; there are only about three weeks left, and if one candidate is permitted to get too great a lead there may be difficulty in catching up within the time. So it is best to make sure by converting every prospective subscription into actual votes. These need not be entered till the last day of the contest, but to make sure of them is the great point, and more so at present, when every extra $5 subscription means a bonus of 1,000 votes.

PUBLIC AND PRESS MAY BE BARRED

Prosecutor Blackstock Says He Was Greatly Annoyed at Last Kinrade Inquest.

[Special to The Advertiser.]

Hamilton, April 22.—The public, including the press, may be barred from the Kinrade inquest tonight. This surprising announcement was made this morning. The Attorney-General's department is seriously considering the matter, and its decision was made known early today. Coroner Anderson, who issued the admission tickets this time, when asked about the report, said: "It is true that the department is considering the advisability of barring the public, and I guess that includes the press."

Urged to give a reason for this, he said, the matter was being considered at the request of George Tate Blackstock, the crown examiner, who had been greatly annoyed by the noise at previous sessions at critical moments. The coroner denied that the idea was to keep under cover for the present any evidence that might be given.

Florence Kinrade, sister of the murdered girl, who will be recalled before the investigation is closed, will not go on the stand tonight. Coroner Anderson is authority for the statement. This would seem to support the report that she is broken in health.

The coroner says he is not aware that Jimmie Baum, the actor, author, mechanic, is to appear. Baum could not be located today at any of the hotels, and had not been seen by Manager Appleton, of the Bennett Theatre, where he was to have appeared. Detective Miller and Mr. Blackstock have not arrived here yet.

Later.

Hamilton, April 22.—The crown attorney announced at noon that only the lawyers, newspapermen and jurors will be admitted tonight. The public will be barred. Jimmie Baum is here, and if he goes on the stand tonight it will be at the suggestion of the Kinrade family.

American Board Workers at Hadjim in Peril of Massacre

CONSTANTINOPLE NOW INVESTED

Sultan's Capital Completely Surrounded by Constitutionalists Who Are Dictating Terms.

Beirut, April 22.—Five American women missionaries are in danger at Hadjim, in the vilayet of Adana, Asiatic Turkey. One of them, Miss Laumbert, has sent a message down to the coast asking for immediate help. The women are entirely alone and defenseless. The villages surrounding Hadjim are in flames and Hadjim itself is invested by Nomad tribesmen. Messages from the interior are being suppressed by the authorities.

Hadjim is 80 miles north of Adana, in the northern corner of the Adana vilayet.

The records of the American board of commissioners for foreign missions show that Miss Virginia A. Billings, Miss Olive M. Vaughan, Miss Emily F. Richter and Mrs. Mary P. Rogers, wife of the Rev. D. M. Rogers, who lost his life in Adana, are stationed in Hadjim.

Fanaticism Spreading.

Constantinople, April 22. — Grave news was received here this morning from Erzerum, the principal town of Turkish Armenia. The transports of delight of the people at the proclamation of constitutional government are now being supplanted by a movement in favor of the Sheri laws, and the Sultan, which, it is said, may lead to a conflict between Christians and Moslems. The wave of fanaticism, which originated at Adana some ten days ago, apparently is spreading generally through the eastern provinces. The Christian villages in the vilayets of Aleppo and Syvas have been attacked by Kurds, Circassians and Nomads, and the inhabitants are imploring the porte to send troops for their protection.

Capital Invested.

Constantinople, April 22.—Negotiations are proceeding between Nazim Pasha, the commander of the first army corps, with garrisons at Constantinople, and the commanding general of the army of investment on the following points: The disbandment of 5,000 time-expired men in the Constantinople garrison, and the replacement of the remainder of the garrison by Saloniki troops; the punishment of soldiers according to the degree of their guilt in the revolutionary movement of last week, and the transfer of the policing of Constantinople to the reformed Macedonian gendarmerie, all of these conditions to be executed with care and moderation in order to prevent bloodshed.

The investment of Constantinople by the Constitutionalists is practically complete. Contingents of the third army corps have been sent to points in Asia Minor, notably Eski-Shehra, a station on the Anatolian Railroad, to intercept fugitives and cut off communication with the capital on this side.

RECORDER M'MILLAN GIVEN A GOLD RING

In Consideration of the Work He Has Performed for Westminster Lodge.

A well-attended meeting of the members of Westminster Lodge was held in the lodge rooms at the corner of Wortley road and Craig streets last evening, Master Workman A. Brice presided, and several candidates were initiated by the presiding officers—M. W., A. Brice, D. D. G. M.; J. Armitage, G. O. Van Tassel, Brothers S. McKay, O. Colerick, V. Arbuckle and R. Lyons. At the close of the initiation a programme, including selections by A. Parker, A. Brice, F. McMillan, S. McCoy and W. J. Wilson, and addresses by D. D. G. M. Armitage and G. O. Van Tassel were rendered and much appreciated. Recorder McMillan was called to the platform and on behalf of the members was presented by Dr. Davis with a handsome gold ring in appreciation of the services he has rendered for many years. He made a suitable reply.

THE WEATHER.

TOMORROW—FAIR AND COOL.

FORECASTS.

Toronto, April 22—8 a.m.

Today—Fresh to strong southwest and west winds; a few local showers, but mostly fair.

Friday—Fresh west and northwest winds; fair and cooler.

WEATHER NOTES.

The disturbance which was centred in Illinois yesterday morning has passed across the Great Lakes and is now over Northern Quebec.

Rain has fallen throughout Ontario and Quebec.

The weather continues very cold in the Western Provinces.

COMMITTEE MET LONDON ELECTRIC

But Nothing Was Done Pending the Arrival of President Matthews of Toronto.

AND ADJOURNED SINE DIE

Manager Hunt Explained That He Wanted More Time So as to Have Representatives Present.

The conference between the committee from the council and the London Electric Company, as to the basis of arbitration for the company's plant, was held yesterday afternoon in the board of trade rooms, but resulted in an adjournment, pending the coming of President Matthews, of Toronto, who will take part in the next meeting.

The council was represented by Ald. Beattie, chairman, Ald. Stewart, Ald. Ferguson, Mayor Stevely, while Mr. C. B. Hunt, manager, and Mr. J. C. Judd, solicitor, appeared for the company.

The fact that the news of the conference had got out, somewhat disconcerted the committee, and there was little discussion when the press representatives were on hand.

Mr. Hunt's Position.

When the meeting was called to order, Mr. Hunt explained his position.

"We would prefer to have the president and some others of the directors at the next meeting," said Mr. Hunt. "It was impossible to get them here today, so we would ask for an adjournment until such a time as they can be on hand."

"What about Saturday at 3 o'clock?" asked Ald. Beattie.

"We could try and get them here by that time," answered Mr. Hunt.

"Would it not be better to allow Mr. Hunt to communicate with the directors and set a time for the meeting?" suggested Ald. Ferguson. "We could be easily got together. I think that would be the better way of doing things."

This suggestion was acceptable, and the gathering adjourned to meet at the convenience of the Toronto people.

As to Terms.

Nothing was said as to the terms of the arbitration, all of which will come up at the next meeting.

There is no doubt that the company will insist that the arbitration be based on the present standing of the company as a going, dividend-paying concern, and not as to whether any or all of the machinery is of use to the city for its new plant.

BRYAN IS READY TO RUN ONCE MORE

Is Not Retiring From Politics—Hopes Party Won't Need Him Next Time.

Kansas City, Mo., April 21.—William J. Bryan, while here yesterday, discussed at some length the causes for his party's defeat, and then referred to the possibilities of the next campaign as follows:

"While I hope that my party will not find it necessary to call for me as a presidential candidate in the next campaign, I make the emphatic statement that I have no intention of retiring from politics. I began to fight for Democratic principles long before my party heard of me, and as I live, I shall continue to do so as long as I have strength."

Jacob Cohen, 3½ years old, died of exposure soon after being found on the roof of a tenement house in New York. The boy disappeared from his home Tuesday night.

Ignorantly blowing out the gas, Mrs. Jennie Stratigakis and her cousin, George, aged 17, just arrived from Greece, were asphyxiated in a New York boardinghouse.

DOCTOR SAID ONLY ZAM-BUK COULD CURE HER ECZEMA

In view of the numerous cures which Zam-Buk has worked when all else has failed, there is little wonder that in the end the doctor attending Mrs. J. P. St. Denis, of 305 Thompson street, Winnipeg, should tell her there was nothing but Zam-Buk could cure her. The result showed the far-seeing wisdom of this practitioner, and having been completely cured by Zam-Buk, Mrs. St. Denis gives her experience for the benefit of other sufferers.

She says: "Eczema started on one side of my face and nose. At first my nose felt sore, similar to what one feels when having a bad cold. I paid no attention to this, thinking it would pass away in a day or so, but to my surprise it got worse. The nose then became swollen and hard, and turned a purplish red, as well as part of the cheek on that side of my face. As the disease developed, pimples and ulcers broke out, then the skin cracked in places and peeled off in flakes, leaving my face and nose raw and sore. This condition reacted on my general health, and I became very ill. I could get no sleep at night because of the irritation and the pain, and my face was in such a shocking condition that for two months I did not go out of the house. I applied remedies which were supposed to be good for skin diseases, but in vain. My doctor also treated me, but without effect, until one day he said that the only thing which would now be likely to cure me was Zam-Buk.

"Acting on his advice, I procured a supply and found that even the first few applications had a soothing effect on the sores. I left off everything else in favor of this balm, and applied it liberally every day to the affected parts. In a remarkably short time, considering the obstinate nature of my disease, we saw traces of improvement, which encouraged us to persevere with the Zam-Buk treatment. Zam-Buk reduced the discoloration, then the hard swelling began to show traces of leaving, the sores seemed to be less angry, and in about three weeks' time most of the sores were healing nicely. To cut a long story short, I continued with the Zam-Buk treatment until my face was cleared completely of all traces of the troublesome and painful eczema."

Zam-Buk is a sure cure for cuts, lacerations, burns, eczema, ring-worm, poisoned wounds, festering sores, bad leg, and all skin injuries and diseases. It is also a cure for piles. Druggists and stores everywhere sell at 50c a box, or post free from Zam-Buk Company, Toronto, on receipt of price. You are warned against cheap and harmful imitations sometimes represented as "just as good."

EGYPT A RICH FIELD FOR THE BIBLE STUDENT

Prof. Banks' Fourth Lecture Interested a Large Audience Last Night.

"Egyptian Excavations and the Bible" was the theme of Prof. Banks' fourth address at the Auditorium last night. The interest which the lectures are arousing is evidenced by the increasing number of persons attending.

"Until some few years ago," said the lecturer, "it was thought that Egypt had given very little to the Bible student. But later excavations had produced a great deal of corroborative evidence that proved conclusively the story of the sojourn of the children of Ishrael in the land of Egypt."

"Egypt is the gift of the Nile. Every lecturer on Egypt opens with this phrase, and nothing truer could be said, for without the Nile there would be no Egypt. The country proper extends from the mouth of the Nile for 750 miles along its banks, and is practically bounded east and west by the valley of the Nile, a strip of country ten miles wide."

Views of Cairo.

The lecturer started with Cairo, and showed a number of very beautiful views of this, the largest and most modern city in Egypt, yet even here, he pointed out, were traces of an older civilization, for outside the walls were the mud huts of the poorer classes, that are the exact counterpart of the huts that were used when the Israelites were slaves in Egypt.

There is a general impression that the Egyptians were the original inhabitants of the country. But archaeologists have proved beyond a doubt that there was a civilization on the banks of the Nile ten thousand years ago. These people have been called Livians, and they were a tall and swarthy people. Statues that remain from the time of the ancient Egyptians show the same characteristics as those found in the ruins of ancient Babylonia, from which fact students have come to believe that the Egyptians, who superseded the Livians, were originally of Babylonian extraction.

Egyptian Hieroglyphics.

The ancient Egyptian hieroglyphics were a closed book to the world till in 1749, the famous Rosetta stone, which is now preserved in the British Museum, was found. On it were found inscriptions in three different characters—first the ancient hieroglyphics, under that a rude adaptation of these called the Demotic inscriptions, and beneath this again the same words in ancient Greek. So by a diligent comparison of the three texts, the meaning of the old Egyptian inscriptions was at last discovered, and the history of ancient Egypt was made plain to the world. The excavations in the tombs and buried cities of Egypt have done much to verify the old records. There were those who said that the record of a king of Egypt named Menes, who was supposed to have lived 6,000 years ago, was merely a myth. But Dr. Petrie, of the Egyptian exploration expedition, finally put all doubts at rest by the discovery of the mummy of King Menes.

A Queer Belief.

It was believed among these people that a body had several souls, and that one of these souls would ultimately come back to inhabit the body, and this was the reason that they took such pains to preserve the bodies of their dead. Passing on, the lecturer spoke of Tell El-Amarna, where only a few years ago there was found such a mass of literature written on bricks, that has been of inestimable value to the Biblical student and the archaeologist.

At Karnak there is an avenue a mile and a quarter long between two temples, which is lined on both sides by a row of sphinxes. It is the most beautiful avenue in the world, and it was made before the Israelites came to Egypt. The civilization of the country at that time was greater than it has ever been since.

A Wonderful Work.

At the head of Egypt proper stands the great Assouan dam, that was built at the cost of $1,200,000,000. It is a mile and a quarter wide, and has a canal and lock at one side. Its sluices are capable of releasing 15,000 tons of water a second. Its purpose is to hold the waters in the time of the floods that in the time of drought they may fertilize the land, and it is turning Egypt into the country that it once was.

East of Assouan on the Red Sea is the Land of Goshen, where the Hebrews lived. Critics used to hold that there was no Land of Goshen, and that the story of the Israelites' sojourn in Egypt was only a myth, but some time ago an inscription was found in one of the buried temples that spoke of the land as the Land of Goshen. In some of the old buildings, too, there can be found evidence of the truth of the story of the making of bricks, for at the top are bricks made of Nile mud without any other material; a little lower down stubble has been mixed with the mud, while lower still the bricks are made of mud and straw, just as the Bible story has it. When the explorers were searching for the bodies of the kings of Egypt, the body of Rameses II., the Pharaoh of the Exodus, was the only one that was missing, and later it was found in a sepulchre in the Land of Goshen on the shores of the Red Sea, which seems also to speak of the truthfulness of the Bible story with regard to the passage of the Red Sea.

Tonight Prof. Banks will take for his subject "Modern Palestine."

A man may follow his natural bent and yet be perfectly straight.

HARRIMAN TO TOUR

Doctors Say Railway King Must Take Real Rest.

New York, April 21.—E. H. Harriman is planning a trip abroad. Unless his ideas change meanwhile he will start early in June and make a tour of at least three months. The trip has been recommended by his physicians, and their recommendation has been indorsed by Mr. Harriman's associates in Wall street, who have had visible evidence in the last year that his health was not good.

When Mr. Harriman returned from his long trip through the south into Mexico, up the Pacific Coast and back across the continent, various reports in regard to his health came from various cities. Since his return he has been in his downtown office in the Equitable Building three times. The last time was yesterday, when he attended an executive committee meeting of the Union Pacific. The other occasions have been executive committee meetings of either Union Pacific or Southern Pacific. On other days he had either remained at home or has attended a meeting of New York Central, Lake Shore or Michigan Central directors at the Grand Central station.

Mr. Harriman has several of his assistants preparing various routes for his trip abroad. He has been abroad before, but to Europe only once, and just as Krutschnitt or Stubb maps out a journey for him in this country he is going to have every provision made for his arrival and departure from every railroad centre or other terminal of either steam road, trolley road or highway arranged beforehand.

MORAL RIGHT TO SLAY

Talesmen in Hains' Case Say Killing of Annis Was Justified.

Flushing, L. I., April 21.—A special panel of 150 talesmen was exhausted today with getting an additional juror in the trial of Captain Peter C. Hains, jun., for the murder of William E. Annis. Seventy talesmen were examined. Practically all of them had developed such opinions in regard to the case that Justice Garretson excused them.

Several of the prospective jurors expressed the opinion that they could not conscientiously vote to convict the defendant as they believed that he was morally right in killing Annis if the latter had invaded the home of Captain Hains and had been guilty of wrongful relations with his wife.

A number declared that there was a higher law governing such cases than the state law.

After three days there are but five men in the jury box.

Dr. A. A. Coombs, an insanity expert, retained by the prosecution, was in court today. He sat near the defendant and was observing him closely during the proceedings.

The prisoner continues to maintain the same stolid indifference to his surroundings.

An agent of the Brulington Railroad at Burlington, Ore., received $8 28 as conscience money from a man who, 49 years before, had cheated in his fare to that amount.

Neglected Colds Lead to Consumption

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

But Catarrh can be cured, except in its final and always fatal stage.

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhozone."

In using Catarrhozone you don't take medicine into the stomach—you just breathe a healing, piny vapor direct to the lungs and air passages.

Catarrhozone Guaranteed to Cure

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance, and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhozone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhozone to prevent—use it to cure your winter ills—it's pleasant, safe and guaranteed in every case.

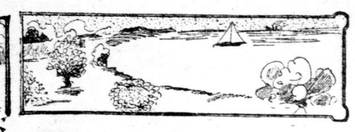

Two months' treatment, large size, guaranteed to cure, price $1; small size, 50c, at all dealers. Beware of substitutes and imitations. By mail from the Catarrhozone Company, Kingston, Ont.

THURSDAY'S PROBS. Mostly fair and cool.

SMALLMAN & INGRAM LIMITED

RICHMOND AND DUNDAS STREETS

The Biggest Season's Selling in

Ready-to-Wear Suits

The result of the new Smallman & Ingram styles, as the scores of Suits we have already delivered are turning many this way for their new Spring Outfit. Our garments are seen almost everywhere, and recognized wherever seen. It is not necessary to wear the tags outside to show that your Suit came from Smallman & Ingram's. The cut, the style, the fit and the something out of the ordinary about them almost compels a stranger to stop and ask you where you got your Suit. And the perfection of one of our Tailored Suits is not in the expensiveness, for you can walk into our Suit Department and put the $15.00 Suit on (which is illustrated in the bottom corner of this ad.), and you will be dressed for any company. We make special mention today of three Suits—Black, Grey and Tan, at $15.00, $25.00 and $32.50. Take these for our standard.

THIRD FLOOR.

Ladies' $2.00 and $2.50 Umbrellas at $1.65 Each

95 ONLY AT THIS PRICE

Little need be said of these Ladies' Umbrellas, as the prices quoted above tell the whole story, as far as the values go, for when you purchase a Lady's $2.50 Umbrella at this store for $1.65, you may be sure you are getting a bargain, and also that you are getting a $2.50 Umbrella for $1.65. The coverings are of silk and wool; handles are in gold-trimmed, pearl, dresden, polished horn, white, ivory and furzewood. Attractive handles and most serviceable tops. This lot won't last long. Only 95 Umbrellas in the lot, and only, each.... $1.65

UNCLE SAM'S FINISH

Rev. Mr. Aked Says American Nation Is Toppling and Will Vanish.

New York, April 21.—"Can this republic endure? No government of this nature has lasted—why should this?"

That the American republic is nearing its end and that it is destined to topple and crumble to pieces as other important republics of the past have vanished, is the suggestion from an important pulpit that has startled all of Gotham and started a wave of excited discussion across the continent.

Rev. Dr. Charles F. Aked, pastor of the rich Fifth Avenue Baptist Church, and commonly referred to as "John D. Rockefeller's preacher," is the churchman who has arisen as a prophet of evil. His banshee cry was uttered from his pulpit during a vigorous address.

"What is there in our constitutional system," asked Dr. Aked in his sermon, "that may not be scattered abroad by a demagogue drunk with power and dressed in a little brief authority? What reason have you for believing this republic will endure? Fifty years ago there were thoughtful minds questioning whether the republic can endure. No government of this nature has lasted—why should this?

"A state rests on force, some say. It rests on nothing of the kind. Rome had force, an army whose conquests were more widespread than any we have know of. Yet it did not last. If you do not believe these were the conditions of the ancient world you may look at the condition of modern Europe. Sir Edward Grey, the British minister of foreign affairs, has said that the nations of the continent were spending more than half of their revenues for navies and armies. If this rate of expenditure is continued, he said, the civilized world would be submerged."

HEAVY PUNISHMENT FOR NEGRO WHIPPERS

Kentucky Night-Riders Fined $25,000 Each for Whitecapping.

Paducah, Ky., April 21.—No defence was offered in the federal court today to the suits of Lee Baker and Nat Frizzell, negroes, for damages on acount of the Birmingham night-rider raid, and the full amount, $25,000 each, was awarded. They were driven out of Birmingham by the raiders on March 9, 1908, after being whipped, until, according to the testimony of Dr. Robert Overby, the lash cut into the muscles of their legs.

In his charge Judge Evans said the only evidence of shame for the deed manifested by the defendants was their failure to appear and deny the charge. He told the jurors it was their duty to bring a verdict not alone to cover the actual damages, but vindictive damages to any amount not exceeding $25,000. He added that he would be surprised and chagrined if verdicts for flimsy amounts were returned.

Otis Black, the confessed night-rider, on whose testimony Dr. E. Champion and John Jackson were convicted at Benton, told of the raid and identified the defendants. He was corroborated by Arthur Griffin, who said Dr. E. Champion, the leader, made him accompany the party. Baker and Frizzell told their stories, and Dr. Robert Overby, who himself was warned out of Birmingham for dressing the negroes' wounds, also testified.

On this raid John Scruggs, an aged negro, and his daughter's infant child were killed with bullets. The Scruggs family, which also brought suit, is quarantined in Metropolis, Ill., with smallpox, and their cases were continued.

CANADIANS HIT BACK

American Grain Carriers Break Agreement and Stir Up Trouble.

Toronto, April 21.—"It is reported that American vessels are contracting for grain at Fort William for Buffalo without the clause limiting their liability to half a bushel per thousand. This will divert trade from Canadian ports and should be met by Canadian vessels."

The above telegram from Mr. G. J. Desbarats, deputy minister of marine, to Mr. Francis King, counsel for the grain section of the Dominion Marine Association, caused some excitement, and a warm discussion at today's meeting of that body. The fight for that particular clause had been a long one, and only recently had parliament granted the conditions.

It was finally decided to bow to the pressure brought by the marine department, and the clause will be withdrawn from operation by the association, for the present at least. A few independent Canadian and American owners, and also, it is said, a few owners from within the ranks of the American Association itself caused the trouble, and the telegram from the deputy minister of marine suggesting that the owners of the Dominion Marine Association meet those conditions was the result. This arrangement, the association feels, will only be temporary.

At the conclusion of the meeting today the deputy minister was forwarded the following message:

"American competition exaggerated. However, Canadian vessels are prepared to meet it, and we already giving old bills."

The following message was also dispatched to Mr. William Livingstone, president of Lake Carriers' Association, at Detroit: "Owing to charters of American and certain Canadian tonnage on old bill of lading, the Dominion Marine Association was today compelled to abandon the new shortage clause. This releases you from agreement. Please advise your members."

A POSITIVE CURE FOR INDIGESTION

FOOD IMPROPERLY DIGESTED ROTS IN THE STOMACH AND BOWELS.

Plain language, but true in 90 per cent of cases of stomach trouble.

Do you have little desire for food, and eat just a little from force of habit; feel overfull, uneasy and distressful immediately after eating; have difficulty in breathing; belching of gas, with taste of sour food in mouth?

If you have any of the above symptoms you have indigestion—your food ferments in the stomach and bowels. It does more; it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments in the stomach.

And fermentation is caused by the stomach not being strong enough to thoroughly mix the food with the digestive juices.

Tired-out stomach you might call it, but at any rate it should be quickly rectified if you would enjoy life. Mi-O-Na is recognized the world over as the leading stomach tonic, and it is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed to cure or money back. It is for sale and guaranteed in London by W. T. Strong for 50 cents a large box. Mi-o-na is sold in every city in Canada, and it is sure to relieve the worst case of indigestion or gastritis in a few hours.

Booth's Laxative for constipation is pleasant and efficient. 25 cents, at W. T. Strong's.

The Light Touch Monarch Typewriter may be rented at the following rates: One month, $4; after that, $3 per month; six months, $15. Part of rent allowed on the purchase of a new machine.

NOTICE TO CONTRACTORS.

Tenders for Station Building, Section and Tool Houses, Between Lake Superior Junction and Winnipeg.

Sealed tenders addressed to the undersigned, marked on the envelope "Tender for Stations, etc.," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 27th day of April, 1909, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of station buildings, section and tool houses, etc., as follows, viz.:

Section No. 1—From Lake Superior Junction to Mile 1629 (near Wabigoon River).
4 No. 2 Station Buildings.
2 No. 3 " "
5 Section Houses.

Section No. 2—From Mile 1629 to Mile 1729 (N. E. of Rennie).
1 No. 1 Station Building.
2 No. 2 " "
3 No. 3 " "
6 Section Houses.

Section No. 3—From Mile 1729 to St. Boniface.
2 No. 1 Station Buildings.
2 No. 2 " "
4 No. 3 " "
3 Section Houses.

Tool houses will be required at all section houses, and at such other points as may be designated by the engineer.

Each tender must be for all the buildings on any one section, and separate tenders must be made for each section.

The work on each section must be completed on or before Oct. 1, 1909.

Plans and specifications may be seen and full information obtained at the office of Mr. Hugh D. Lumsden, chief engineer, Ottawa, Ont., and Mr. S. R. Poulin, district engineer, Winnipeg, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to the chief engineer at Ottawa, or the district engineer at Winnipeg.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted check on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10%) of the amount of the tender.

The check deposited by the party whose tender is accepted will be deposited to the credit of the Receiver-General of Canada, as security for the due and faithful performance of the contract according to its terms.

Checks deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders. By order,

P. E. RYAN, Secretary.
The Commissioners of the Transcontinental Railway.
Dated at Ottawa, 2nd April, 1909.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

GRAND MILITARY BALL AT STRATHROY

More Than 200 Guests Were Present From London—a Brilliant Affair.

[Special to The Advertiser.]

Strathroy, April 21. — The grand military ball given in the local armories this evening by the officers of the Twenty-sixth Regiment was one of the most successful gatherings of the season. More than two hundred guests were present from London, Sarnia, Glencoe, Watford, Parkhill and other points, and all spent a most enjoyable time. The armories was beautifully decorated for the occasion with flags and bunting, and presented a most attractive appearance. The greater part of the evening was spent in dancing, a splendid programme of music being rendered by the Strathroy orchestra. Following the dance, the guests were entertained to supper by the officers. The committee of officers responsible for the success of the ball were Lieut.-Col. Bart Robson, Major Berdan, Capt. Orr, and Lieuts. Humphrey, Dyer, Ferguson, Robson, and Stevenson. The patronesses were Mrs. W. S. Calvert and the wives of the officers.

G. T. P. TO RUSH LINE TO HUDSON BAY

Winnipeg, Man., April 21.—Edson J. Chamberlain, general manager of the Grand Trunk Pacific Railroad, returned from the west last night and stated that construction would begin during the next few days on the branch lines north and south from Melville, Sask. The company will lose no time in building a through line from the American boundary to Hudson Bay, providing the farmers of the Middle States with a short wheat route to Europe.

CANADA'S WHEAT CROP

Fourteen Million Bushels Are Yet in Farmers' Hands.

Ottawa, April 21.—The Trade and Commerce Department has forwarded to Lord Strathcona a detailed statement of the grain production of Canada last year, from which it appears that the total yield of all crops amounted to 474,575,855 bushels. Of this 126,795,137 was wheat, and of this again 105,613,454 was grown in the three estern provinces. Saskatchewan leads the procession with over fifty million bushels of wheat to its credit. It is estimated that at the beginning of the present month there remained in farmers' hands no less than 14,173,154 bushels.

MONTREAL NO LOVER OF RECIPROCITY IDEA

Montreal, April 21.—The board of trade has rejected a proposition from the Detroit Chamber of Commerce to send a report to a conference to be held there to discuss commercial reciprocity between the United States and Canada. The reports of the Montreal business men declared that the time had passed when Canada needed this and that they were satisfied with the present trend of business to Great Britain and other foreign countries.

THURSDAY, APRIL 22, 1909.

THE ICE-BREAKER'S GREAT WORK.

The work accomplished by the department of marine and fisheries in improving the St. Lawrence channel, and making the St. Lawrence route what it should be, is of far-reaching importance. The channel has been widened and deepened, and provision has been made for properly lighting it, so as to make navigation safe at night. In addition to this, Montreal harbor has been vastly improved, and before very long new docks and wharves will be constructed, which will make the port one of the best-equipped in the world.

The chief drawback to the St. Lawrence route is the long period each year during which it is blocked by ice. The department has long realized that anything that could be done to shorten the period of the annual tie-up would be of immense advantage. During the past winter a determined effort was made to clear the river of ice, and keep it clear, by putting ice-breaking steamers to work. So successful have been their operations that navigation will open this season much earlier than usual. The ship channel in the St. Lawrence is already clear of ice all the way from the gulf up to Montreal harbor, two weeks ahead of the usual time. Valuable experience has been gained as a result of the operations of the past winter, and it is confidently expected that next season the St. Lawrence will be open for navigation by April 12.

The Montreal Herald, describing the ice-breaking operations, says the task has been neither easy nor short, for the steamer Montcalm has been at work since Jan. 12, during all weathers, and in all conditions of temperature down to about 20 degrees below zero, for the most part plugging her big solid steel nose into the ice jam at Cap Rouge, a few miles above Quebec, the most troublesome point in the river until the spring waters bear the ice down to the sea. By the beginning of April a solid jam three miles in length and forty feet deep was shattered like stone from a quarry. Sometimes the progress was slow, at others more rapid, 400 feet of the full channel width of 1,000 feet being considered a very good day's work for the Montcalm. The work was comparatively easy, however, after Cap Rouge was clear. Up the river the ice was for the most part light, and it was not difficult to make three or four miles in a day. The Montcalm reached Lake St. Peter last week, and with the assistance of her sister steamer, the Lady Grey, had the lake channel cleared on Sunday last, the ice disappearing down stream. The last of the ice was broken up a couple of days ago, when the Lady Grey smashed a big jam in Montreal harbor.

MIDDLESEX FIFTY YEARS AGO.

An anonymous correspondent recently sent to this office a pamphlet published just after the election of 1848, which returned the LaFontaine-Baldwin ministry to power with an overwhelming majority, and signally repudiated the policy of Sir Charles Metcalfe. Under the caption "Middlesex Redeemed!!" the pamphlet reads:

"The following are the returns from the seventeen townships, constituting the great county of Middlesex, by which it will be seen that 700 more votes have been polled than at any former election, viz., 2,700. Fifteen hundred and thirty freeholders have recorded their votes against the rump of Lord Metcalfe's administration, and Mr. Notman now stands in the proud position of representative (on constitutional and reform principles), of the greatest constituency in Canada West. Hurrah for our glorious constitution! Three cheers for the freemen of Middlesex! God Save the Queen."

The events leading up to the election are familiar to students of Canadian history, but they may be recalled with profit, as they are full of instruction. When Lord Metcalfe presumed to make appointments to office against the remonstrances of his ministers, he struck a blow at the first principles of responsible government, and reversed the wise course taken by his predecessor, Sir Charles Bagot. The members of the Government resigned with the exception of Mr. Dominick Daly, and for a period Lord Metcalfe governed solely with the aid of that obliging gentleman. In the election which followed (in 1844), the loyalty cry was raised by the adherents of Metcalfe, and the Reformers were defeated. A ministry was pieced together, chiefly out of the remnants of the Family Compact, but it lost its mainstay in 1845 when Lord Metcalfe left the country (owing to a mortal malady). Things went from bad to worse. The Government described in the pamphlet as "the rump of Lord Metclafe's administration," had so plainly lost the confidence of the country that Lord Elgin soon after his arrival dissolved parliament, the writs being returnable in January, 1848. The Reformers had a sweeping triumph, to which the riding of Middlesex contributed, Mr. Notman's majority being 360 in a total vote of 2,700.

It is interesting to note how the several townships have maintained their party affiliations through the course of over half a century. London Township in 1848 showed a Conservative majority of 74 out of 364 votes polled. In the last Dominion elections the majority was 400 out of 1,774 votes polled. Westminster had a Liberal majority of 131 out of 275 votes cast in 1848, while the elections of 1908 show a Liberal majority of 398 out of 1,206. In Lobo, 50 years ago the Liberal vote was 110, and the Conservative vote 15, while in the last election it stood 407 to 195. Caradoc went Liberal with a very small majority in 1848, as in 1908. Delaware, Adelaide, Ekfrid, Mosa, and Williams all showed a Reform tendency that is still apparent. Metcalfe was Conservative as at present. The only turnover to be noted is Dorchester, which at that time had a decidedly Liberal bent. In place of the other townships that now constitute the county of Middlesex, there were the townships of Aldborough, Dunwich, Southwold, Yarmouth, Malahide and Bayham, now in Elgin County.

Accompany this interesting document was a writ of the county of Middlesex appointing Calvin Burch, of the township of Westminster, as a scrutineer. The document was signed by William Notman, the Liberal candidate. Calvin Burch was the father of Squire Burleigh Burch, who still resides on the old homestead in Westminster Township, and is well-known throughout the county.

THE JUDGMENT IN THE COBALT LAKE CASE.

The Ontario Government is circulating in pamphlet form the judgment of the court of appeals in the much-discussed Cobalt Lake case.

The defendants, the Cobalt Lake Mining Company, in January, 1907, purchased from the Province for the sum of $1,085,000, the mining rights under Cobalt Lake, an area of 55 acres. The plaintiffs, the Florence Mining Company, are the assignees of one W. J. Green, who, it is alleged, made a discovery of valuable ore under part of the lake on March 7, 1906. On the strength of this alleged discovery, the plaintiffs claimed to be entitled to the parcel of land under the lake staked out by Green, and contended that the letters patent granted the Cobalt Lake Mining Company were issued erroneously and by mistake.

The appeal court in upholding the decision of the trial judge against the plaintiffs, holds that Cobalt Lake had been withdrawn from exploration, sale, lease, or location by an order-in-council of Aug. 14, 1905, seven months before Green's alleged discovery, and that the bureau of mines was within the law in rejecting his claim. The court finds that Green before he undertook to prospect made no inquiry as to whether Cobalt Lake was open for location, but merely asked for literature, and that if he was misled by it he had only himself to blame. The decision of the court, therefore, is that Green's exploration did not create a right to a mining claim; and that the plaintiffs have no status to impeach the title of the defendants.

The keen public interest in this case has had nothing to do with the merits of the dispute between the Florence Mining Company and the Cobalt Lake Mining Company. It was aroused by the extraordinary Act passed by the Legislature of Ontario which declared the sale to the defendants to be valid and ruled the Florence Mining Company out of the courts. The court of appeal in discussing this point utters these significant words:

"Even supposing the opinion of the court to be that the letters patent issued in error and improvidently, the Act must still remain as a legislative declaration of the validity of the sale. And in that respect the Act would form a bar to the plaintiffs' alleged rights."

In other words even if the Florence Mining Company was legally entitled to the property it would be refused justice, because the Government had so decreed. The fact that the company has been adjudged to have no claim by the court of appeal does not in the least impair the force of the argument against the legislation enacted at the instance of the Government. The same principle is involved in the case of Smith versus the corporation of the city of London, which the Government took out of the hands of the courts. It would be well if both cases could be carried to the Privy Council to decide once and forever the constitutional validity of such measures.

The Government of Saskatchewan has bought out the Bell Telephone Company. Manitoba and Alberta led the way. All three provinces introduced public ownership without confiscating private property. They have set an example better than Ontario's.

The announcement that the new public school readers will be sold at 39 1-5 cents for the set, as compared with the old price of $1 15, will be received with pleasure. It is not fair, however, to contend that a comparison of the two prices throws discredit upon the former government, and proves that parents were being robbed. The present Government bears the expenses of the preparation of the books, copyright, the work of composition, electrotyping and suplying the plates and all other incidental expenses, which were formerly included in the publishers' contracts.

The Montreal board of trade refuses to send a representative to the Detroit conference on reciprocity. For business men the members of the board are taking a very unbusinesslike course—as well as an unneighborly one.

Counsel for Captain Hains, in the Long Island murder case, argues that there is a law higher than the state law. He means the "unwritten," not the divine law. Our neighbors are in danger of having the former placed above both the divine law and the state law unless they reform the administration of justice.

The Niagara River below the Falls is dammed by ice, and the water keeps rising because the Falls refuse to dry up. "Forty billion gallons of water come down every second," said an imaginative American to a tourist from Yorkshire, who was somewhat bored by his informant's grandiloquence. "I see naught to stop it," said the Yorkshireman.

The Hon. Bob Rogers, of Manitoba, denounces the Laurier Government for not contributing a Dreadnought to the British navy. He should include in his censure the Federal Opposition which sided unanimously with the Government on the question, if he wants to be consistent; but he has never been accused of that virtue. His ruling passion is to thwart the Laurier Government, which stands in the way of his ambition to enter the Federal sphere as the Big Noise of the West.

THE LITTLE THINGS.

[Kansas City Times.]

"It's much easier," observed Mr. Taukaway, "to stumble over a mole hill than over a mountain."

GO, WINTER.

[James Whitcomb Riley.]

Go, winter! Go thy way! We want again
The twitter of the bluebird and the wren;
Leaves ever greener growing, and the shine
Of summer's sun—not thine.

Thy sun, which mocks our need of warmth and love
And all the heartening fervences thereof,
It scarce hath beat enough to warm our thin
Pathetic yearnings in.

So get thee from us! We are cold, God wot,
Even as thou art. We remember not
How blithe we hailed thy coming—that was, oh!
Too long—too long ago!

Get from us utterly! Ho! summer then
Shall spread her grasses where thy snows have been,
And thy last icy footprint melt and mold
In her first marigold.

TAINTED MONEY.

[Hamilton Times.]

Patten, the wheat speculator, won some millions by his corner; also the curses of many thousands of bakers thrown out of employment, and of the poor, whose hardships he has intensified.

A SKEPTIC.

[Boston Transcript.]

Scott—I remember reading of a very rich man who said he'd sooner be poor.

Mott—Yes, and probably you remember reading somewhere that all men are liars.

WE NEED IT.

[Toronto Globe.]

An Eskimo boy has disappeared from New York quite disgusted with civilization as exemplified in that city. He should send some missionaries from his Arctic home to preach kidness, humanity and the rights of property.

MODERN DRESS.

[Chicago Record-Herald.]

"Pa—pa, where's the shoe horn, quick!"

"I don't known. What do you want the shoe horn, for?"

"Ma's got stuck half way in her new dress, and can't get it on or off."

STEP FORWARD.

[New York Sun.]

Knicker—How does your daughter get on cultivating her voice?

Bocker—Fine, I guess. She doesn't sing any more; she interprets.

GETTING TIRED.

[Calgary News.]

The Marathon races are beginning to pall on the Canadian appetite for athletics.

DOWN WITH POLES.

[Tacoma Ledger.]

In cleaning the city let us also get rid of all telephone and light poles that can possibly be spared. They are an eyesore at best.

GLADSTONE'S FOUR MASTERS.

[Hawarden Parish Magazine.]

The figure of Aristotle by the eminent sculptor, G. Walker, has recently been placed in the niche prepared for it outside the south wall of the residence. It is the gift of Dean Lincoln and Mrs. Wickham. The four niches outside St. Deiniols are intended for the figures of those four great men who were regarded by Mr. Gladstone as his chief masters—Aristotle, St. Augustine, Dante and Bishop Butler. Three are now in position, all of them the work of Mr. Walker. It only remains for that of Bishop Butler to be given to complete the set.

THE DENSITY OF THE PEOPLE.

[The Globe.]

If the spectacle of the private interests at Washington fighting and logrolling for special favors at public expense does not educate the public that great entity must be helpless.

THE PROPER SWORD.

[Kingston Whig.]

The Toronto Star notes the strong opposition which is being shown to the proposed military training of our boys. A land of peace has no use for any weapon save the sword of the spirit.

BATH FOR THE EYE.

[Family Doctor.]

In case of exhaustion of the eyes or of simple inflammation few things afford more relief than the eye bath. No special appliances are needed. Any small cup or glass can be used. It should be quite filled with water as hot as the eye can bear, and each eye held in it for at least five minutes, the water being kept as hot as can be borne.

MILLIONS OF CELLS

The human body is composed of countless millions of cells. These cells are constantly dying and new ones are being created. Dead cells are removed from the blood by the bowels, kidneys and skin. These great eliminating organs filter this waste matter from the blood, and thus purify the blood.

If there is constipation, or non-action of the bowels—if the kidneys are strained or weakened—if there is defective or weakened—if there is dearre not removed from the body. The blood thus becomes loaded with impurities, and we suffer for it.

The only way to purify the blood is to cure the skin, bowels and kidneys. When these organs are healthy and doing their work as nature intended them to do it, waste matter is promptly removed and the blood is kept pure and rich. "Fruit-a-tives"—the famous fruit liver tablets—act directly on the skin, the bowels and the kidneys. "Fruit-a-tives" purify the blood because they keep the whole body strong, vigorous and healthy. 50c a box, 6 for $2.50, or trial box, 25c. At dealers, or from Fruit-a-tives, Limited, Ottawa.

NOT REAL PEACH BASKETS.

[Detroit News.]

The truth is the hats only look like peach baskets; if they really were peach baskets they could be bought for 11 cents a dozen, instead of costing an average of $16 33 each.

A PLEA FOR THE NOVEL.

[Woodstock Sentinel.]

Fiction is today the great agency of the man or the woman with a message. Through the novel, Charles Dickens, George Eliot, Mrs. Harriet Beecher Stowe, Charles Kingsley and the rest have been able to reach the ears and the hearts and the understanding of the multitude. Through the novel they continue to speak. And it is through the novel that the multitude today is receiving a large measure of its most important and useful information. Even the so-called worthless novel may have its place. The mind needs relaxation as well as the body, and the poor tired woman who finds belief from the nerve-destroying realism of a hard and pitiless work-a-day world in a good cry over the romantic sorrows of some impossible Angelina—is she to be deprived of her consolation, or denounced for the depravity of her taste? No doubt it would be better for her if her tastes could be directed to a higher source of consolation and satisfaction; but we must take people as we find them before we can have them as we want them.

TARIFF INTRICACIES.

[Washington Star.]

A tariff is a simple thing:
It seems surpassing queer
That men so many words should bring
To something that is clear.
In traffic I'm engaged, you see,
And doing very well,
Let all things be entirely free
Save those I have to sell.

Or take it 'round the other way,
And view both sides with care,
That none may have a chance to say
That I have been unfair.
If broadcast duties you impose,
Just be discreet and try
To tax all articles save those
That I'm compelled to buy.

FATHERLY.

[Chicago News.]

And a father is as anxious to repeat the smart sayings of his children as other people are not to hear them.

GLASSY.

[Puck.]

And yet if all those who lived in glass houses refrained from throwing stones, there would be practically no social conversation.

APRIL.

[William Watson.]

April, April,
Laugh thy girlish laughter,
Then, the moment after,
Weep thy girlish tears
April that mine ears
Like a lover greetest,
If I tell thee, sweetest,
All my hopes and fears.
April, April,
Laugh thy golden laughter,
But the moment after,
Weep thy golden tears!

TO GET EVIDENCE IN THE SOUTH

Commission Likely To Be Appointed in the Kinrade Case

BAUM MAY BE WITNESS

The Police Are Said to Have Located the Mysterious Marion Elliott.

Hamilton, April 22.—There is a possibility of a commission being appointed to visit Virginia, Buffalo, Rochester, Syracuse and other points in the United States to take evidence in connection with the Kinrade murder case. For that reason it is probable that there will be another adjournment of the inquest Thursday evening. The programme of the inquiry has not been definitely mapped out yet. There is not the slightest probability of any witnesses from the other side of the border being called this evening, with the possible exception of Jimmie Baum and the Pinkerton detectives who have been employed on the case.

The crown cannot force the witnesses from the other side of the border to attend the inquest, unless they agree voluntarily to come. If the crown decides that their evidence is material, judged from the reports made by the Pinkerton sleuths, George Tate Blackstock, K.C., who has charge of the case for the Government, will ask tonight for another adjournment until the commission can go to the other side and secure the evidence.

May Cross-Examine.

If the crown decides that the evidence collected by the Pinkertons is not material to the case, it may be used in another way—as the foundation for cross-examining Miss Florence Kinrade.

If it is decided to send a commission to take evidence in the United States, the cross-examination of Miss Kinrade will be postponed, and no witness of any great importance will be heard this evening. Mr. Blackstock will ask for an adjournment, and will postpone the cross-examination of witnesses until after the return of the commission.

All the evidence obtained by the Pinkertons is in the hands of Mr. Blackstock. He, with Crown Attorney Washington, had a long consultation Tuesday at Buffalo with the Pinkerton men.

The authorities claim that they have located the "luxurious" Marion Elliott, but will be unable to get her evidence and the evidence of other witnesses unless the commission is appointed.

The authorities do not even know whether Miss Florence Kinrade will be able to attend the inquiry this evening, if it is decided to proceed with it. They have been told that she was staying at the Del Monte Hotel, Preston, and that her physical condition was such as to make it doubtful if she would be able to attend.

The police are not depending very much on the evidence of the Hamilton witnesses. They are debating whether it is worth while calling C. S. Wilcox, who is prepared to swear only that he heard several explosions about 3 o'clock on the afternoon of the murder. He says he cannot tell from which direction the sound came, and thought at the time it was blasting.

Luke Copple, the delivery boy, insists to the police that he can throw no light on the tragedy or what led up to it.

The movements of Provincial Detective Miller are very mysterious, and it is impossible to locate him.

STORE OPENS DAILY AT 8 A. M.

CHAPMAN'S

MAIL ORDERS PROMPTLY FILLED

In the Dress Goods Section Are the Goods You Want

French Worsteds—Extremely handsome Suiting for suits and tailored gowns. In shades of brown, grey and gobelin blue. 52 inches wide, at, yard **$1.50**

BLACK HEATHERBLOOM PETTICOATS

Just 36 left out of the last shipment. You can get one tomorrow if you come early—genuine Heatherbloom petticoats—black only. Special $1 89

JILTED BY FIANCE SHE TRAMPS TO POORHOUSE

Woman, Deserted by Claimant for Millions, Appeals to Authorities.

Vineland, N. J., April 21.—Mrs. Mary Sherwood Smith started over the hills to the poorhouse with a heavy heart today. She became broken in health after her sons left and her fiance deserted her, and there was no other way, but to appeal to the authorities.

Two years ago Mrs. Smith was the affianced bride of George Swifte, reputed son and heir to the title and estate of the late Right Hon. Godwin Barnham Swifte, of Swifte's Heath, Ireland. Backed by a syndicate of New York lawyers, who believed in Swifte's claim to millions that he said his stepmother had unlawfully dispossessed him of, he started for England promising to return soon to claim his bride and take his Vineland friends on an excursion to see his estate in Ireland. The next news of him was an announcement of his marriage to a rich English woman.

Later news from England was that Swifte made a valiant fight for what he considered his rights, but was beaten, he said, because of some alleged irregularities in his father's marriage to the woman who was his mother. Mrs. Smith's two sons went to California fifteen years ago to seek their fortunes.

TO PUSH BOUNDARY OF QUEBEC NORTH

Sir Lomer Gouin Will Move for the Opening of Negotiations.

Quebec, April 20.—In accordance with the measures outlined in the speech from the throne, Sir Lomer Gouin has the following notice of motion concerning the annexation of Ungava. That the Lieutenant-Governor-in-Coucil may enter into negotiations with the Governor-of-Canada-in-Council respecting the annexation to the Province of Quebec of all territory situated to the north of the northern frontier of this province, and extending to Hudson's Straits between the bay so named and the Atlantic Ocean, with the exception of the strip of territory which may belong to Newfoundland, along the shore of such ocean, including on the west coast the archipelagoes and islands adjoining the mainland, as well as the following islands and groups: Ottawa, Sleepers, Baker's Doze, Belchers, North Belchers, King George, Mansfield, Charles and all the islands of Ungava Bay and the Button Islands, upon such terms and conditions as may be accepted by the Government of Canada and that of this province.

LOOKS WARLIKE.

St. Petersburg, April 22. — A special dispatch received here from Harbin, Manchuria, says that Japan is sending large reinforcements into Manchuria, and that the soldiers are spreading along the frontier.

Amusements.

STREPHON'S BRIDE.

The Caste.

Mary, in love with Strephon ..... Miss Jean Robb
Delia (in love with Strephon) ..... Miss Irene Straitch
Cynthia, an old woman ..... Miss Isabel Peace
Rosalind, a shepherdess ..... Miss Elsie McCrimmon
Gladys, a shepherdess ..... Miss Clara Decker
Strephon (in love with Mary) ..... Mr. Norman Maudsley
Lubin (in love with Mary) ..... Mr. Calvin Hodgins
Bardolph (once a butcher, now an outlaw) ..... Mr. Gordon Hunt
Colin, a shepherd,.. Mr. Will Robson

"Strephon's Bride," a comedy opera, the music of which is by Mr. J. Lamont Galbraith, L. R. A. M., and the words by Mr. George J. Hamlin, was given its premiere last night by local amateurs at the Grand Opera House, and made an instantaneous hit. The audience was quite large and very fashionable. The performers were given most kindly receptions.

The music of the opera is very pretty. In fact it is quite superior to the majority of the so-called musical comedies that visit the city, and won instant favor with the audience. There are many very pretty songs, and the duets and choruses are most fascinating. Several of the lyrics were excellent, and possessed a haunting sweetness that lingers in the memory for a long time. There was a quaint humor in the lines, although scarcely enough of it to relieve the play.

The story of the play is interesting. Mary, a charming young shepherdess, is beloved by two shepherds, Strephon and Lubin. She loves Strephon, who is also loved by Delia, a rival of Mary. On hearing the announcement of the betrothal of Mary and Strephon, Lubin and Delia meet and resolve to be revenged on Strephon, and to separate him from Mary. A means to this end is found in the fact that Strephon, being of a jealous nature, had bribed a butcher boy to slay a pet lamb, of which Mary was very fond. Lubin persuades the butcher to betray Strephon's secret to Mary, and in a fit of anger and misery, she casts him off, and he goes away from the happy valley to drown his sorrow in the strenuous life of a large city.

After three years have elapsed Delia and Mary meet in the meadow at early dawn, and each claims the still absent Strephon as her own. They quarrel violently, till separated by Cynthia, an old lady, who advises Mary to forget the past, and look only to the future. Lubin comes in and tries to win Mary to himself, but she only laughs at his suit. Shortly after Strephon appears on the scene, accompanied by Bardolph, the butcher, whom he has met during his travels. Both have become "men of the world," and scoff at the innocence of the simple Areadian shepherds. After Bardolph retires, Mary enters, and discovers her long-lost longer, as she is too simple and inlover, but he refuses to love her any nocent to wed a "man with a past," so they say farewell. Here Cynthia appears with Bardolph to tell Mary that he is her son, she having lost him in infancy. They sing of the joys and sorrows of childhood, when a noise is heard outside, and the shepherds rush on to the scene chasing Lubin, whose treachery has been discovered. Strephon, however, saves his life, and the people congratulate Mary on the return of her lover. She, thinking that Strephon means to go away from her, asks Lubin to marry her, but Strephon declares that his love is hers alone. Lubin and Delia are condemned to marry as a punishment for their wrong-doing, and all ends "happy as a marriage bell."

Miss Jean Robb scored in the role of Mary. Her singing was marked by dramatic appreciation of the sentiments, and by a voice of a very sweet quality. Her acting left little to be desired.

Miss Isabel Peace gave the best piece of character work of the play, when she enacted the role of Cynthia, an aged woman. It was really clever, and she was given a fine reception for her good work.

Mr. Gordon Hunt, as Barthold, the bandit, was good. He showed full appreciation of his lines, and sang his songs in good voice and with dash and spirit.

Miss Irene Straitch as Delia was clever, and demonstrated marked ability. Miss Elsie McCrimmon and Miss Clara Decker were charming shepherdesses.

Mr. Norman Maudsley as Strephon, sang finely, and was capable. Mr. Calvin Hoogins and Mr. Will Robson were good in their roles.

The Seventh Regiment, under whose auspices the play is being given, were present in considerable numbers.

The officers had the two upper boxes, and practically all of them were on hand. Major Gibson and the officers of the R. C. R., had the lower right box. Col. Reid accompanied them. The officers of the Hussars occupied one of the lower boxes on the left, and Col. Smith and party had the other.

The entertainment will be repeated this evening, and should attract a large audience.

Among those taking part in the choruses were:

Shepherdesses—Miss G. Burr, Mrs Callaghan, Misses I. Campbell, V. Campbell, L. Chatto, E. Colquhoun, N. Colquhoun, C. Decker, M. Fallon, P. Gilbank, B. Gibson, M. Harvey, Hodgins, M. Laidlaw, Lylle, E. McCrimmon, McDonald, McEwen, A. McKenzie, I. Macleod, B. Macleod, A. McLeod, R. McLeod, E. McLeod, A. McLeod, I. O'Nell, F. Peacock, Mrs. Robson, Misses N. Robinson, G. Rowan, M. Rowan, W. Scott, E. Smith, H. Stratfold, K. Telfer.

Shepherds—Messrs. J. Corpe, R. J. Cheswick, V. Davies, J. Ferguson, H. Fitzallan, Flory, B. Faulkes, C. S. Gibson, F. W. James, Maclaren, J. C. McGurk, D. MacInnes, J. S. Patterson, H. E. Roblin, W. Robson, E. Smith, M. Smith, T. Strongman, S. Sutherland, E. Tugwell, H. E. Watson, Geo. Wright.

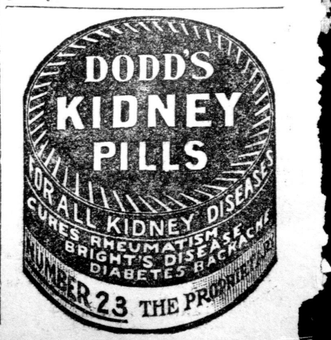

Miss Amy McLeod danced very cleverly, and was assisted by the following young ladies: Misses V. Campbell, I. Macleod, V. Macleod, A. McLeod, E. McLeod, A. Mackenzie, M. Rowan, E. Smith, G. Burr, Chatto, P. Gilbank, E. McCrimmon, McDonald, I. O'Nell, F. Peacock, L. Rowan.

"The Land of Nod" Tomorrow.

"The Land of Nod," a musical extravaganza, will be presented at the Grand Opera House tomorrow evening. This musical play is said to be brilliantly witty as to dialogue; its music that of the jingling, "catchy" sort, its situations original and extremely laughable, and its character creations decidedly novel. The principal is the "Man in the Moon," who comes to earth and mingles with all sorts of characters until he is attracted, with others, to "The Land of Nod," where people who are only known in tales which are told of Fairyland and in Arabian Nights conceptions, are encountered.

William Faversham.

The appearance of William Faversham at the Grand Opera House on Saturday evening in "The World and His Wife" should prove a theatrical event of great importance. Mr. Faversham last seen as a star in "The Squaw Man," now comes as an actor-manager in complete artistic control before and behind the footlights. The dramatic worth of "The World and His Wife" has been proved in the important cities of the country. Mr. Faversham is evidently not depending solely upon his own popularity to satisfy the public, for he has surrounded himself with a company of the first quality.

Red Rose Tea

"Is Good Tea"

It is Always Worth the Price

CYNTHIA WAKEHAM'S MONEY

BY ANNA K. GREEN.

"Well, then, come to my room; but there is nothing in the story to specially interest you. I loved her——"

"Edgar, you must be explicit. I am half lawyer in listening to this tale; I want to understand these girls."

"Girls? It is of Emma only that I have to speak."

"I know, but tell the story with some details; tell me where you first met her."

"Oh, if I must," sighed Edgar, who hated all talk about himself, "let's be comfortable." And throwing himself into a chair, he pointed out another to Frank.

"This is more like it," acknowledged the latter.

Edgar lit a cigar; perhaps he felt that he could hide all emotion behind its fumes. Frank did not take one.

"I have known Emma Cavanagh ever since we were children," began Edgar. "As a schoolboy I thought her the merriest-eyed witch in town. Is she merry now?"

Frank shook his head.

"Well, I suppose she has grown older, but then she was as full of laughter and fun as any blue-eyed mischief could well be, and I, who have a cynical turn of mind, liked the brightness of hers as I shall never like her sadness—if she is sad. But that was in my adolescence, and being as shy as I was inclined to be cynical, I never showed her my preference, or even joined the mirthful company of which she was the head. I preferred to stand back and hear her laughter, or talk to Hermione while watching her sister."

"Ah!" thought Frank.

"When I went to college she went to school, and when I graduated as a doctor she was about graduating also. But she did not come home at that time for more than a fleeting visit. Friends wished her company on a trip abroad, and she went away from Marston just as I settled here for my first year of practice. I was disappointed in this, but I made what amends to myself I could by cultivating the acquaintance of her father, and making myself necessary to him by my interest in his studies. I spent much of my spare time at the house, and though I never asked after Emma, I used to get continual news of her from her sister."

"Ah!" again ejaculated Frank to himself.

"At last she returned, and—I do not know how she looks now, but she was pretty then, wonderfully pretty, and more animated in her manner than any other woman I have ever seen. I saw her first at a picnic, and though I lacked courage to betray the full force of my feeling, I imagined she understood me, for her smiles became dazzling, and she joked with everybody but me. At last I had her for a few minutes to myself, and then the pent-up passion of months had its way, and I asked her to be my wife. Frank, you may find it easy to talk about these things, but I do not. I can only say she seemed to listen to me with modest delight, and when I asked her for her answer she gave me a look I shall never forget, and would have spoken, but that her father called her just then, and we were obliged to separate. I saw her for just another moment that day, but there were others about, and I could only whisper: 'If you love me, come to the ball next week.' To which she gave me no other reply than an arch look and a smile which, as I have said before, appeared to promise me all I could desire. Appeared, but did not; for when I called at the house the next day I was told that Mr. Cavanagh was engaged in an experiment that could not be interrupted, and when I asked to see the ladies received word that they were very busy preparing for the ball and could see no one. Relieved at this, for the ball was near at hand, I went home, and being anxious to do the honorable thing, I wrote to Mr. Cavanagh, and, telling him that I loved his daughter, formally asked for the honor of her hand. This note I sent by a messenger.

"I did not receive an immediate reply (why do you want all these particulars, Frank?); but I did not worry, for her look was still warm in my memory. But when two days passed, and no message arrived, I became uneasy, and had it not been for the well-known indifference of Mr. Cavanagh to all affairs of life outside of his laboratory, I should have given up in despair. But as it was, I kept my courage up till the night of the ball, when it suddenly fell, never to rise again. For will you believe me, Frank, she was not there, nor any of her family, though all had engaged to go, and had made many preparations for the affair, as I knew."

"And did no letter come? Did you never see Miss Cavanage again, or any of her family?"

"I received a note, but it was very short, though it was in Emma's handwriting. She had not been well, was her excuse, and so could not be present at the ball. As for the offer I had been kind enough to make her, it was far above her deserts, and so must be gratefully declined. Then came a burst of something like contrition, and the prayer that I would not seek to make her alter her mind, as her decision was irrevocable. Added to this was one line from her father, to the effect that interesting as our studies were, he felt compelled to tell me that he should have no further time to give to them at present, and so bade me a kindly adieu. Was there ever a more complete dismissal? I felt as if I had been thrust out of the house."

Frank, who was nothing if not sympathetic, nodded quickly, but did not break into those open expressions of indignation which his friend had evidently anticipated. The truth was, he was too busy considering the affair, and asking himself what part Hermione had taken in it, and whether all its incongruities were not in some way due to her. He was so anxious to assure himself that this was not so, that he finally asked:

"And was that the end? Did you never see any of them again?"

"I did not wish to," was the answer. "I had already thought of trying my fortunes in the west, and when this letter came it determined me. In three weeks I had left Marston, as I thought, forever, but I was not successful in the west."

"And you will be here?" observed Frank.

"I think so," said Edgar, and became suddenly silent.

Frank looked at him a long time and then said quietly: "I am glad you love her still."

Edgar, flushing, opened his lips, but the other would not listen to any denial.

"If you had not loved her, you would not have come back toMarston, and if you did not love her still you would not pluck roses from her wall at midnight."

"I was returning from a patient," objected Edgar, shortly.

"I know, but you stopped. You need not blush to own it, for, as I say, I think it a good thing that you have not forgotten Miss Cavanagh." And not being willing to explain himself further, Frank rose and sauntered towards the door. "We have talked well into the night," he remarked; "supposing we let up now, and continue our conversation tomorrow."

"I am willing to let up," Edgar acquiesced, "but why continue tomorrow? Nothing can be gained by fruitless conjectures on this subject, while much peace of mind may be lost by them."

"Well, perhaps you are right," quoth Frank.

CHAPTER XIII.

Fresh Doubts.

Frank was recalled to business the next day by the following letter from Flatbush:

"Dear Mr. Etheridge:

"It has been discovered this afternoon that Mr. Huckins has left town. When he went or where he has gone, no one seems to know. Indeed, it was supposed that he was still in the house, where he has been hiding ever since the investigations were over, but a neighbor, having occasion to go in there today, found the building empty, and all of Mr. Huckins' belongings missing. I thought you would like to know of this disappearance.

"Yours Truly, A. W. SENEY."

As this was an affair for the police, Frank immediately returned to New York; but it was not many days before he was back again in Marston, determined to see Miss Cavanagh once more, and learn if his suit was as really hopeless as it appeared to be. He brought a box of some beautiful orchids with him, and these he presented to Miss Emma as being the one most devoted to flowers.

Hermione looked a little startled at his presence, but Mrs. Lovell, the dear old lady who was paying them a visit, smiled gently upon him, and he argued well from that smile, knowing that it was not without its meaning from one whose eyes were so bright with intelligence as hers.

The evening was cool for summer, and a fire had been lighted in the grate. By this fire they all sat and Frank, who was strangely happy, entertained the three recluses with merry talk which was not without a hidden meaning for one of the quiet listeners. When the old aunt rose and slipped away, the three drew nearer, and the conversation became more personal. At last—how was it done—Emma vanished also, and Frank, turning to utter some witty speech, found only Hermione's eyes confronting him in the fireglow. At once the words faltered on his tongue, and leaning forward he reached out his hand, for she was about to rise also.

"Do not rob me of this one moment," he prayed. "I have come back, you see, because I could not stay away. Say that it does not anger you; say that I may come now and then and see your face, even if I may not hope for all that my heart craves."

"Do I look angry?" she asked, with a smile.

"No," he whispered, "nor do you look glad."

"Glad," she murmured, "glad"; and the bitterness in her tone revealed to him how strong were the passions that animated her. "I have no business with gladness, not even if my own fate changed. I have forfeited all joy, Mr. Etheridge; and that I thought you understood."

"You speak like one who has committed a crime," he smiled; "nothing else should make you feel as you do."

(To Be Continued.)

Advertiser Patterns

DESIGNED BY MARTHA DEAN.

765—Girls' Work Apron.

Misses' and Girls' Apron. Cut in sizes 8, 10, 12, 14, 16 years. For a girl of 12 years 3¼ yards of 36-inch material will be required. A large apron such as the one here shown is a most useful garment to be included in the young girls' wardrobe. The skirt is long enough to cover the entire dress, hanging straight from a round yoke. The sleeves may be omitted if a sleeveless apron is desired. Percale, linen, gingham and chambray are all appropriate.

A pattern of this illustration will be mailed to any address on the receipt of 10 cents in silver or stamps.

PATTERN DEPARTMENT OF THE ADVERTISER.

Please send above-mentioned pattern, as per directions given below, to:

Name .....

Street Address .....

Town .....

Province .....

Measurement: Bust Waist

Age (if child's or misses' pattern).....

CAUTION.—Be careful to inclose above illustration and send size of pattern wanted. When the pattern is bust measure, you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than one week from the date of order. The price of each pattern is ten cents in cash or in postage stamps.

THE KIDNAPPERS

Prosecution Confident That They Can Convict the Boyles.

Mercer, Pa., April 21.—The attorneys who will prosecute the kidnapping cases against Mr. and Mrs. James H. Boyle are finding the woman's reticence an obstacle which is causing them difficulty. Not a word has been uttered by the woman since her arrest, which would throw any light upon her identity, her past or her line of defense in the pending case. The one thing she has insisted upon is that she is the wife of Boyle. If this is proved, or admitted, she and Boyle cannot be used as witnesses against each other, and a conviction in either case, but especially in the woman's case, will be rendered more difficult.

It is said the prosecution has not been working on the theory that Boyle and the woman have been married, and can show a marriage certificate, but that the woman may have been married before and never secured a divorce. Should testimony of this character be produced, the state would gain a valuable witness in each case. The prosecution is so confident of a conviction that it is believed that they have some sensational evidence.

PATTEN WANTS TO KNOW

Going to Missouri to Get Facts About July Wheat.

Chicago, April 21.—James A. Patten, the bull leader in wheat, left this city today to inspect the crop outlook as it bears on the amount of wheat which may be delivered to him on July contracts.

Mr. Patten is accompanied by an expert and will inspect the winter wheat crop in Illinois and adjacent states, among them Missouri, where reports are conflicting.

The most recent report from the commonwealth was bearish, declaring that despite a backward season and plowing an average crop was expected. Whether this neighboring state will be able to deliver new crop wheat in July is a matter of greatest interest to trade, as bulls have operated on the theory that this wheat will not be available for delivery here; the bears, of course, to the contrary.

The market was rather featureless early in the session today. July reluctantly rose a cent from yesterday's close, but the May price seemed content with the position given it during the previous session.

TO SAVE FOREIGNERS

Russian Army Ready to March to Their Relief at Tabriz.

Tiflis, April 21.—Gen. Snarsky, who commanded the Russian punitive expedition to Julfa in 1908, has been designated to lead the proposed Russian expedition into Persia.

This expedition has been organized at the suggestion of Great Britain for the relief of the foreigners at Tabriz.

Its departure, however, has been postponed on account of the armistice granted by the Shah. The vanguard, consisting of the Third Battalion of Caucasian Riflemen, is now camping near Julfa on the frontier, in instant readiness to march. The expedition will be accompanied by a detachment of artillery, engineers and field telegraphers.

HUN CABINET OUT.

Budapest, April 21.—The Hungarian cabinet resigned today and the Emperor King, Francis Joseph, has asked Count Andrassia, minister of the interior, to form a new cabinet.

The resignation of the ministry of Premier Wekerle is due to internal divergencies of opinion, which have resulted in the breaking up of the coalition of political parties by which the premier was supported in his efforts to secure the establishment of a Hungarian state bank, independent of the existing Austrian state banking institution.

Aldermen and 6 FREE TRIPS to Toronto Fair

Workmen, See Our Great $1.28 Work Shoe

Moulders, See Our Great $1.18 Gaiter.

Farmers, See Our Great $1.28 Work Shoe

See Our Big 98c Value in Boys' Shoes

Mothers, See Our Girls' $1.18 Shoe, Nice Quality.

All the people in London don't want to be aldermen.

None of the ladies of London can be aldermen.

The few men who want to be aldermen solicit the support of their friends to elect them, otherwise they'd never win.

Only twelve aldermen can be elected.

We are giving six absolutely free trips to the Toronto Fair, Aug. 28 to Sept. 13. Everybody won't want to go—thousands would like to, and hundreds are trying. Ladies' and men, boys and girls, aldermen and school trustees, are eligible candidates in this contest, which is open to everybody who buys Shoes here.

Most people would rather win in this contest than be aldermen.

They'll get more profit and honor out of it than out of being aldermen—if you can believe the aldermen.

Those who are in the race for these Free Trips should bestir themselves and solicit their friends to help them win—like the aldermen do. Start at once.

They say it costs about $75 to be elected alderman, and then run the risk of being called a grafter.

It costs nothing to win in this Free Trip Contest, and you don't stand to lose anything—not even your reputation.

Our Shoes are as good and, we think, some better, a little more stylish and cheaper than elsewhere.

You get your money's worth with every dollar you spend here. You and your friends have to wear Shoes.

The more friends you can get to help you win one of these Free Trips the surer you are of winning.

Those who enter the race early, before their friends have bought their spring and summer footwear, are wise heads.

The member of a large family, a person with many relations, the popular member of a choir, society or lodge, a popular student, teacher, etc., should have a strong support. But others are in the race.

Anybody can enter this race—residents of the country, suburbs or city—it's all alike to us. Find out who buys shoes here.

Get every one of our checks you can and don't lose them. They're worth money.

NEW CANADIANS

200,000 Likely to Enter This eYar, 70,000 From the United States.

Ottawa, April 21.—W. D. Scott, superintendent of immigration, stated to the Commons committee on agriculture and immigration this morning that he expected the immigration to Canada this year would total 200,000, and that 70,000 of these would come from the United States. As a result of rigid inspection system in force at ports of entry during the past year 4,500 immigrants had been turned back as undesirables.

SCENE AT FUNERAL

Swinburne's Request Ignored and Mourners Were Indignant.

London, April 21.—Swinburne's funeral at Bonchurch, Isle of Wight was carried out in exact contradiction of his wishes, which led to a subdued but painful scene at the grave. In his will the poet expressly forbade the holding of any religious services. Watts Dunton, Swinburne's sole executor, telegraphed to that effect to the rector of Bonchurch, who replied that he would follow his instructions.

When, therefore, the cortege started for the graveside and the voice of the rector was heard in the opening sentences of the Episcopal funeral service amazement and anger were shown in the faces of the mourners. Mrs. Watts Dunton attempted to make a protest, but was restrained by one of the other mourners.

When the grave was reached the rector explained that the quiet, nonreligious service that had been arranged could not take place. He added, however, a few words of appreciation of the lovable poet, and the mourners were appeased for the time, but their anger was awakened when the rector resumed the burial service with "Man that is born of woman," etc. Never before, perhaps, has that sentence been received at a graveside with muttered exclamation of "Shame!" and "Scandalous!" as it was on this occasion by the chief mourners. But the clergyman proceeded relentlessly to the committal sentences, stopping at "earth to earth" and omitting "in the hope of a glorious resurrection," etc.

The mourners, though deeply indignant at the disregard of the poet's last wishes, refrained from open protest after the first exclamations.

QUARANTINE LIFTED.

Washington, April 21. — Satisfied that the foot and mouth disease in cattle, sheep, other ruminants, and swine, has been completely eradicated from the United States, Secretary of Agriculture Wilson has isued an order, effective April 24, releasing the entire country from the federal quarantine on account of that disease.

The Anglican Laymen's Missionary Movement of Woodstock held a banquet Monday, and heard a number of addresses.

RHEUMATISM

A VERY BAD CASE THAT WAS CURED BY PERSEVERING WITH AN OLDTIME REMEDY.

"Were it not that I had great patience and perseverance," writes Mr. Fritz Kelfer, well known in London, "I would still be racked by chronic rheumatism, which was my unhappy lot for three years.

"I didn't have acute rheumatic fever as so many have—with me the pain and stiffness came on gradually. When I kept quiet, as on Sunday, I was free from pain—but being a working man I had to move about and the pain was simply awful, though after an hour's resting it would subside.

"I got the idea into my head that although the pain was in my joints, the rheumatic poison was in my blood. My druggist said 'Ferrozone' was a wonderful blood tonic and I began to use it. At first it didn't help at all, only change was a better appetite and more strength. Not being a doctor I didn't know that Ferrozone was all the while working at the root of the disease. I kept right on with Ferrozone and in three months was cured. There is no more stiffness, no pain, and I am as limber as forty years ago."

Every kind of rheumatism, sciatica, nerve pain and blood disorder is quickly cured by Ferrozone. Satisfaction guaranteed, 50c per box or six boxes for $2 50, at all dealers.

Every Woman

is interested and should know about the wonderful MARVEL Whirling Spray The new Vaginal Syringe. Best—Most convenient. It cleanses instantly.

Ask your druggist for it. If he cannot supply the MARVEL, accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies.
WINDSOR SUPPLY CO., Windsor, Ont.
General Agents for Canada.

When the bread or cake or pastry comes from the oven light, crisp and appetising, you are wont to say you have had good luck with your baking.

The "good luck" idea is a relic of the time when housekeepers pitted their competency against poor flour.

To-day good baking isn't a matter of good luck in any home where

Royal Household Flour

is intelligently used.

In the hands of competent housewives it never fails because it is the whitest, lightest, purest and best baking flour to be had.

If the goodness of your baking is due to chance, your grocer is giving you the wrong kind of flour. Ask for Ogilvie's Royal Household.

Candidates Take Notice!

Here Is Your Chance to Win the Great

European Free Trip in Your District

Beginning today and continuing until Saturday, May 1, all cash paid on Subscriptions will entitle the candidates to double the number of votes that the schedule arranged at present calls for. Here is the table showing value in votes of all money paid on subscriptions between today and Saturday, May 1, inclusive:

	PRICE	VOTES
Subscriptions to The Daily Advertiser, delivered in London, one year	$5.00	2,000
Subscriptions to The Daily Advertiser, delivered in London, six months	2.50	1,000
Subscriptions to The Daily Advertiser, delivered in London, three months	1.25	500
Subscriptions to The Daily Advertiser, delivered in London, one month	45	100
Subscription to The Daily Advertiser, outside city London, delivered by carrier, one year	3.00	1,200
Subscription to The Daily Advertiser, outside city London, delivered by carrier, six months	1.50	600

THIS EXTRA INDUCEMENT

Will positively end on May 1, so be sure to get all your money in The Advertiser Office before the closing date. JUST THINK OF IT—A $5.00 subscription is worth 2,000 votes, if turned in before Saturday, May 1.

	PRICE	VOTES
Subscription to The Daily Advertiser, outside city of London, delivered by carrier, one month	$ 25	60
Subscription to The Daily Advertiser, outside city London, delivered by mail, one year	2.00	800
Subscription to The Daily Advertiser, outside city London, delivered by mail, six months	1.00	400
Subscription to The Daily Advertiser, outside city London, delivered by mail, three months	50	100
Subscription to The Weekly Advertiser, outside city of London, by mail, one year	75	100

Now Is the Time to Convert Your Prospects and Promises Into Actual Votes

You may hold the vote ballots until May 15, but bring your money into The Advertiser office before May 1 and get the extra value in votes. Make sure you take advantage of this offer. Explain to your friends that $5.00 turned into The Advertiser office before May 1, will entitle you to double the number of votes that will be given after that date. Contest will positively close Saturday, May 15---only about three weeks more. Be sure you have enough votes to win in your district.

Do Not Forget the Consolation Trip to Old Quebec for a Party of Eight to Twelve Ladies

THE CHILDREN WERE VERMIN-INFESTED

Awful Condition of Youngster Who Lived in a Single Room Near Woodstock.

Woodstock, April 21. — High County Constable Ben Hobson brought to the House of Refuge last night seven of the eight children found in the horrible quarters occupied by Elizabeth Davis, arrested at Richwood on Monday afternoon, charged with bigamy, and Martin Cronkwright, with whom she was living, and to whom she had been last married, charged with vagrancy.

The eighth child, the oldest, was left at Paris, where he is working. The children were in terrible shape and inconceivably dirty. Their hair was infested with vermin, and Mrs. Murray, matron of the refuge, took a pair of horse clippers and removed the hair of all. Their bodies were literally black with dirt, and apparently they had not been washed for months. Their clothing was in rags and very filthy.

The children range in age from three years to fifteen years, and with the exception of one who has lost an eye, by an accident, appear to be intelligent and sound physically, though they are dwarfed mentally and physically by their absolute lack of training.

The children did not know the taste of milk, and did not like it at first. They are in charge of the Children's Aid Society, and will be placed in homes.

The family of ten had one bedroom ten feet square, and littered up with rubbish at that. People of the neighborhood knew of their condition, but were disinclined towards taking any action.

It is said that when the woman married Cronkwright in Paris last February, having two other husbands alive, the couple borrowed money for the license and proffered the minister ten cents, the extent of their wealth, as his fee. He declined it. The man says he married the woman to get someone to look after his children, and she brought her five by former husbands, and they went into partnership.

WELSH DISESTABLISHMENT.

London, April 21.—The long-promised bill for the disestablishment of the Church in Wales was introduced in the House of Commons today by Premier Asquith.

DEMAND FOR BODIES

Doctors Insist That They Be Handed Over According to Law.

Kingston, April. 21. — The Queen's Medical College authorities are dissatisfied over the way the public institutions deprive them of dissecting material, and will ask the Ontario and Dominion Governments here to confer with the anatomy law. When persons died in the asylums and penitentiaries, and their bodies are not claimed by friends, the inspector of anatomy should be called in and the remains turned over to him for the medical college. This has not always been done, and the Government, it is alleged, has had to pay for the burial of unclaimed bodies. When the law is not carried out it frequently compels students to secure bodies in irregular ways.

ANGLICAN MISSIONS

Bishops From All Parts of Canada Gather at Toronto.

Toronto, April 21. — The half-yearly meeting of the board of management of the Missionary Society of the Church in England in Canada, which takes place tomorrow, has brought the ends of the Dominion together in Toronto.

Among the delegates who have already arrived are the following: Archbishop S. P. Mathieson, Winnipeg; Bishops C. Piukham, Calgary; R. Holmes, Athabasca; J. A. Neunham, Saskatchewan; C. L. Worrell, Nova Scotia; J. C. Farthing, Montreal; W. L. Mills, Kingston; A. Hunter Dunn, Quebec; David Williams, London; C. Hamilton, Ottawa, and I. O. Stringer, Dawson City; Archdeacons E. S. Wentwreath, Vancouver; G. E. Lloyd, Prince Albert; J. W. Tims, Calgary; and George Forneret, Hamilton; Rev. Canon Dann, London; Principal Dr. Redford, Montreal; Dr. R. V. Rogers, Kingston, and Mr. Wm. Jarvis, St.John, N. B.

It is expected that a very definite and vigorous policy of action in regard to continuing and extending the church's missionary work will be considered.

SCHOOL BOOK WORK GOES TO THE EATONS

A Ten-Year Agreement Made With Ontario Government.

Toronto, April 21. — A great deal of surprise was expressed today by the various publishing and printing houses in the city at the low rate at which the contract for the publication of the new Ontario school books was awarded the T. Eaton Company. Both S. G. Beatty, president of the Canada Publishing Company, Limited, and W. P. Gundy, general manager of the W. J. Gage Company, Limited, asserted that the Eaton Company would lose money on the contract, while Mr. Copp, of Copp-Clark Company, thought the Eaton price was too low for them to make a fair profit.

Mr. R. Y. Eaton, superintendent of the T. Eaton Company, however, stated that the company knew what they were doing, and that they had not tied themselves up with a ten-year contract without having taken every feature into consideration.

It is understood that the next lowest tender was 61 cents, as against the successful one of 39 1-5 cents.

The contract was yesterday awarded to the Eaton people for 49 cents, with a discount of 20 per cent for cash, bringing the net price of the set of five books down to 39 cents. The old price for the books was $1 15 for the set, and in 1907, for second-hand books, the Government paid 49 cents.

The contract for the new readers supplies handsome modern school books at prices which are without a parallel in Canada. The retail price of the set is 49 cents for five readers. From this price there is a discount of 20 per cent, making the net price of the set 39 1-5 cents.

GOVT. AMENDMENTS TO THE CRIMINAL CODE

Minister of Justice Proposes That Important Clauses Be Added.

Ottawa, April 21.—The bill of Mr. A. B. Aylesworth to amend the criminal code received its first reading today. The first object of the bill is to simplify procedure so as to make it possible to take action against a municipality, corporation or other before a justice of the peace.

To widen the provision of existing laws in reference to the circulation of indecent and immoral literature and pictures to the public, so as to make it possible to punish those who assist in distributing or circulating such matter, or have it in their possession for the purpose of circulation. Also to make it a punishable offence to exhibit or circulate plates for the purpose of the manufacture of immoral literature.

To increase the limit of imprisonment for those found guilty of procuring women for immoral purposes from two to five years.

To extend the provisions of the present law in regard to bawdy and gambling houses, to include opium joints, thereby following up the legislation of last session, prohibiting the use of opium except for medical purposes.

To make it a punishable offence to steal gold or silver-bearing quartz and to make it less difficult to convict offenders. This is to check the numerous offences of this kind reported from Cobalt and other mining districts.

To make it a criminal offence to reproduce or sell copies of a copyrighted musical production.

To lengthen the period that cattle can be confined in railway cars from 28 to 36 hours.

To provide that in future all cases of manslaughter in Ontario shall be heard in the superior courts. Under the present practice many charges of manslaughter are tried in the court of common sessions.

FIRE AT ATLANTA.

Atlanta, Ga., April 21. — Fire which started in the third floor of the building near the corner of Alabama and South Pricer streets, in the rear of the Constitution building, accupied by the Keystone Type Founders Company, this morning destroyed this building and one adjoining, occupied by the spool company. The loss is estimated at $50,000.

Pianos To Rent.

Pianos to rent from $2 per month upward, six months' rent allowed in case of purchase. Williams Piano Company, Limited, 261 Dundas street. tf

Salvatore Gramarina, of Stratford, was yesterday sentenced to one year for stealing money from a fellow countryman.

STRIKE RIOT AT NEW YORK

Two Non-Union Teamsters Mobbed and Terribly Beaten.

New York, April 21.—In an attack by an angry crowd upon a truck belonging to one of the firms against which a strike has been declared by local teamsters two men were badly injured in Hoboken today.

The injured men are Joe Sullivan, driver of the truck, employed by Jackson Bros., of this city, and Jos. Hayden, a special officer riding with Sullivan on the vehicle. The truck had been driven through Jersey under police protection, as such attacks had been threatened.

The crowd followed the vehicle across the Hoboken line and there attacked Sullivan and Hayden, who were struck repeatedly with stones and beaten with sticks and fists so seriously that when the Hoboken police appeared and drove off the mob the men were almost unconscious and had to be taken to a hospital. Hayden may suffer the loss of an ear and the driver sustained serious wounds on the face and body.

Two of the striking teamsters were arrested, taken to police court and charged with assaulting a driver in the employ of Jackson Bros. in Clarkson street today and injuring him severely. The driver was able to appear in court. The alleged assailants were held for trial.

UNCLE SAM BADLY "DONE"

Millions of Dollars' Worth of Silk Goods Smuggled In.

New York, April 21.—The smuggling operations which have been conducted at the port of New York by means of trunks left lying idle on the steamship piers which can be removed without detection are alleged to have been carried on by a firm of importers of silks and dress supplies of Fifth avenue in this city. The firm, which has an office in Paris, is said to have been operating in this country for a number of American dressmakers scattered throughout the country who received goods so smuggled by the payment of 15 per cent instead of 60 per cent in customs duties.

It is said that proceedings will be instituted against these dressmakers.

The goods were sent to the Paris office of the smuggling firm bearing the initials of the ultimate purchasers in America. In this connection it is stated that seven special agents of the customs house in this city were ordered to be dismissed a few days ago.

The Fifth avenue firm is understood to be one of a dozen engaged in the smuggling traffic for years, through which the Government has suffered a loss amounting to about $1,000,000 a year.

It was in connection with these cases that an offer of $60,000 was recently made to Collector William Loeb, jun., to discontinue the inquiry and surrender.

Order your carriages for weddings in advance. Hueston's Liveries.

No Doubt You Prefer a Double-Track Road

When travelling. The Grand Trunk Railway System is the only one to Toronto, Niagara Falls, Buffalo, New York, London, Detroit, Chicago and Montreal. Excellent train service and equipment. Full information and tickets at city or depot office. 46n

A HOT CONFLAGRATION IN HOTHOUSE PLANT

Explosion in Toronto Suburb Destroys Four Acres of Conservatories.

Toronto, April 21.—With an explosion which was heard at a great distance, one of the four big boilers in the extensive conservatories of Miller & Son, Bracondale, blew up at 1:30 this afternoon. The force of the explosion not only completely demolished the boiler-house and remaining three boilers, but razed to the ground four acres of hothouses.

Twenty-three men were at work about the conservatories, and notwithstanding the fact that glass, bricks and pieces of machinery were blown high into the air and fell all about them, no one was seriously injured, although all were cut and bruised. The first intimation of the danger came when one of the firemen ran upstairs exclaiming that something was wrong with one of the boilers. Before the words were out of his mouth the explosion occurred.

It is not known which boiler exploded, but so great was the force of the explosion that all four ascended almost vertically and were broken in pieces by the impact on falling to the earth. A piece of boiler weighing three or four hundred pounds was blown 20 yards to the west and landed beside another greenhouse belonging to Charles Stephens. Another portion of the boiler was hurled a quarter of a mile, while all the glass in surrounding houses and conservatories was broken.

The big 80-foot chimney was scattered so that there is not a sign of it within a hundred yards of where it stood before. A big piece of timber was hurled into the air and landed in Wychwood, a mile and a quarter away.

Mr. Miller estimates his loss at over $50,000. Next year's stock of flowers is destroyed, which means a loss of $30,000, and there will also be a loss of $8,000 or $9,000 on cut flowers, besides the loss of the greenhouse and boilerhouse.

The most seriously injured are: Joseph Woodliffe, hands badly cut with glass, and Charles Stiller, head and hands cut. Edwin T. Miller and three of his workmen had a miraculous escape from being blown up, as they were within six feet of the heating plant.

Mr. Miller says there was plenty of water in the glass, but that he thinks shortage of water was the cause of the explosion.

BORDEN ACCEPTS.

Ottawa, April 21.—R. L. Borden, the Conservative leader, has accepted the invitation of the Boston Canadian Club to deliver an address there next November, Earl Grey, Sir Wilfrid Laurier, and Hon. Geo. E. Foster have also been invited.

Mrs. Winslow's Soothing Syrup
has been used for over THIRTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC and is the best remedy for diarrhoea. Sold by druggists in every part of the world.

TRADE RELATIONS WITH GERMANY

Sir Richard Cartwright Says Government Is Moving in the Matter.

Ottawa, April 21.—Sir Richard Cartwright in the Senate today said that the Government was looking towards better commercial relations with Germany.

Sir Richard was replying to a question by Senator Lougheed, who asked what truth there was in the report that negotiations had been undertaken by Canada and Germany with respect to reciprocal trade relations.

"There have been no formal negotiations," said Sir Richard. "There have been negotiations, but they have been of an informal character. There have been no negotiations with any authenticated representative of the German Government."

CANADA'S RACIAL QUESTION LOOKED BIG

Hon. C. G. Murray Thinks It Will Last Long—Leeds Choir May Visit Dominion.

London, April 21.—Hon. C. G. Murray, lecturing on the South African Union before the Royal Society of Arts, said he found Canada's racial question, which appeared to exceed anything he witnessed in South Africa, one which, when the racial question in South Africa had become a matter of history, bid fair to be still present.

A shamfight wherein 17,000 troops will be engaged has been fixed for June 1 at Aldershot for the Imperial Journalists.

Dr. Harriss has given a formal invitation to the Leeds Choir to visit Canada next spring.

THE WHITE PLAGUE WAR

Ninth Annual Meeting of Canadian Association for the Prevention of Consumption.

The ninth annual meeting and convention of the Canadian Association for the Prevention of Consumption and other forms of tuberculosis is to be held in Hamilton on Wednesday and Thursday, May 19 and 20 next.

The morning of the first day will be devoted to the reading of reports and the appointment of committees. In the afternoon Dr. White, of Pittsburg Sanatorium, will deliver an address on "The Duty of Municipalities in Reference to Tuberculosis." In the evening of the same day his worship the mayor will deliver an address of welcome, after which Dr. Adami, of Montreal, will speak on a subject which ought to command attention, "How One Can Do Most Good in Arresting Tuberculosis at the Smallest Outlay."

The topic set down for general discussion during the forenoon of Thursday is "The Duty of the People Toward the Movement for the Extinction of Consumption." Hon. Adam Beck, Mr. Downey, M. P. P., Dr. Fagan, of Victoria, B. C., Dr. Geo. D. Porter, and a number of others, both physicians and laymen, are expected to take part in the discussion of this subject.

On Thursday afternoon at 4 o'clock the meeting will adjourn to the Mountain Sanatorium to attend a reception given by the ladies of Hamilton. Not the least uninteresting part of the programme is the visit to the sanatorium, when it will be seen how much can be done for the treatment and cure of consumption at a moderate cost. The success of the Mountain Sanatorium should furnish an object lesson well worthy of the study of municipalities contemplating action for the reduction of tuberculosis within their own neighborhood.

When Your Child Has a Cold

ARE YOU SATISFIED WITH ANYTHING THAT SELLS UNDER THE NAME OF COUGH MEDICINE?

OR DO YOU SEARCH OUT A MEDICINE OF PROVEN VALUE, SUCH AS DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE?

How few cases of consumption there would be if every child's cold were looked after as it should be!

Did you ever think of it in this way? It is the neglected cough and cold that leads to the dreadful lung diseases sooner or later. From repeated attacks the lungs are weakened and there comes pneumonia or consumption with their dreadfully fatal results.

How watchful parents should be of their children! How careful to use effective treatment instead of trusting to cough mixtures, which are often of little value or of harmful effects.

Because it is prepared from linseed, turpentine, and other simple but wonderfully effective ingredients, Dr. Chase's Syrup of Linseed and Turpentine is particularly suitable as a treatment for children's coughs and colds.

Croup, bronchitis, and even whooping cough yields to the influence of this great medicine, and for this reason it is kept constantly on hand in the majority of homes, and has enormous sales.

Mrs. John Chesney, Innerkip, Ont. writes: "Dr. Chase's Syrup of Linseed and Turpentine cured my little girl of whooping cough when the doctor had given her up, and since then we always keep it in the house as a treatment for coughs and colds. It is the best medicine we ever used."

There is no getting round statements such as this, and you want the most effective treatment possible when your child becomes ill. Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto.

EVERS WILL GET BACK IN GAME

Cub Second Baseman Succumbs to the Entreaties of Manager and Mates.

Chicago, April 21. — Johnny Evers, the great second baseman of the Chicago Nationals, will join that club April 30, according to a telegram received today by Manager Frank L. Chance.

SMITH AND STEIN

Will Act as Umpire and Scorer in the City League This Season.

Charley Smith, of St. Thomas, will act as umpire in the City League here this season, and Mr. Ed Stein, as scorer.

Both men are favorites with local fans, and have given satisfaction at many games.

CATCHER POWERS NEAR DEAD

Undergoes Second Operation at Philadelphia and Doctors Say Case Is Perilous.

Philadelphia, Pa., April 22.—Dr. Mike Powers, the Athletic's catcher, who is at the Northwestern General Hospital, ill of intestinal trouble, took a turn for the worse today, and physicians report his condition alarming. Symptoms of peritonitis developing. Powers had to undergo the second operation today, and it left him in a greatly weakened condition. Powers suffered much pain after coming out of the anesthetic, and nobody was permitted to see him, even Mrs. Powers being excluded from his room. At 4 o'clock there was a consultation of four physicians, when the baseball player's condition was declared to be perilous.

HURON AND PERTH BASEBALL.

(Special to The Advertiser.)

Goderich, April 21.—The executive of the Huron and Perth County Baseball League held their annual meeting today. Out of the many applications received the following teams were selected, and the league organized: Goderich, Blyth, Clinton and Mitchell. A schedule of games has been arranged. The officers of the league elected are: President, Mr. A. W. Robinson, Blyth; vice-president, Mr. J. B. Hoover, Clinton; secretary-treasurer, Mr. F. J. Butland, Goderich; executive committee, J. Talt, Goderich, J. E. Johnson, Clinton; E. Porterfield, Mitchell; D. Somers, Blyth.

PRINCESS AVENUE SCHOOL TEAM

The Princess avenue school baseball team has been organized for the season with the following officers and players:

Honorary President—R. Meredith.
President—Dr. Bryant.
Secretary-Treasurer—G. Thompson.
Manager—John Ross.
Captain—Ivan Edmunds.
Mascots—Gerald Blair and Hugh Edmunds.

Scorers—C. Bowie, W. Matthews, L. Hague.

The team will be composed of the following players: Ivan Edmunds, John Ross, Gordon Thompson, Lee Mason, Moise Clark, Art Nelles, Bruce Clerihew, John Abrey, Alex. Eastwood, Frank Dowell, Willie Duffield, Bud McCallum, Reg Sanborne, Jim Slater, Fred Spry.

STRATHROY BASEBALL.

Strathroy, April 21.—Local baseball enthusiasts assembled in the Y. M. C. A. tonight and discussed baseball for the coming season. Many good players have been secured and the organization of the team was completed last night. The officers elected were: President, A. W. Bixel; secretary, B. Diprose; treasurer, M. Bunting; manager, W. J. Whyte; assistant manager, F. W. Jay; captain, Grant Newton.

THE JUNIOR BEAVERS.

The Junior Beavers have organized for the coming season with the following lineup: Pitcher, H. Logan; catcher, R. Mason; shortstop, H. Green; first base, H. Scott; second base, J. Perkins; third base, G. Scott; right field, J. Case; centre field, D. Waffle; left field, H. Pingle. Harold Logan, captain; Harry Scott, manager. Spare man, W. Cambridge.

THE COLLEGIATE LEAGUE.

The Collegiate baseball enthusiasts held another meeting yesterday and the following schedule was drawn up: Middle vs. Upper, April 26; First vs. Second, April 29; Middle vs. Second, May 3; Upper vs. First, May 6; Middle vs. First, May 10; Second vs. Upper, May 13.

The above schedule is to be repeated if time permits.

BASEBALL NOTES

Manager Fox of Lancaster released Outfielders Swank of Hunterstown, Ind., and Heffner, of Lima; Moeller, Locke and Williams, the former of Cincinnati, an outfielder, have reported.

The original American League was composed of St. Louis, Philadelphia, Baltimore, Louisville in every year (1882-1891, inclusive); Cincinnati in every year but one, Brooklyn for seven seasons, Pittsburg for four, New York and Columbus for five; Cleveland, Toledo, Washington, Kansas City, two each; Richmond, Indianapolis, Rochester, Syracuse, Boston and Milwaukee, two each.

The Brooklyn Club has transferred second baseman Harry Pattee to the Rochester Club, of the Eastern League.

President Fred Paige, of the Independent Eastern Association, has signed James Bligh, of Brooklyn, as umpire.

The Fort Wayne (Central League) Club has signed Pitcher Bill Robertson purchased from the Pittsburg Club; and has released Harry Downing, catcher; Pete McNulty, infielder, and Ed. Ryan, outfielder.

Pitcher Harry Howell, of the St. Louis Americans, will not be able to pitch for one month. An X-ray examination of his arm on April 9 revealed a torn ligament which is believed to have been sustained at Fort Worth, Texas, in the first game played by the Browns on the training trip. Howell's physician instructed him not to touch a ball for four weeks.

Providence fans believe that Hugh Duffy's team will have to be strengthened in order to be a factor in the Eastern League race.

Pittsburg has a varied infield. A Hebrew is playing first base, an Italian second base, a German short infield, and a Frenchman third sack.

BOXING AT GALT.

Toronto Star: Joe Tuckwell, the British United boxer, returned from Galt, where he has been a month. He is going to Montreal. Tuckwell says Galt has the boxing craze, and that several good boys have lined up. He would have been up for the C.A.A.U. championships, but the C.A.A.U. would not allow him expenses

HANS WAGNER IS BACK AGAIN

ASK WAIVERS ON TWO NAP PITCHERS

Cleveland to Let Out Both Berger and Leibhardt—It Causes Surprise.

Cleveland, April 21.—The Naps have asked waivers on Berger and Liebhardt, two members of the Cleveland pitching staff. The information leaked out here today, and came as a big surprise.

It has been rumored right along that Cleveland was to cut down her staff. Two pitchers were likely to go, but few figured on Liebhardt and Berger. The showing made by Wright against Detroit on Sunday afternoon when he held the Tigers down to four hits and the showing Sitton has made, makes these two young men available for the Naps' team in the opinion of Larry Lajoie.

The Naps are also after Henderson, who is now pitching in the outlaw league in California.

It was necessary to make room for these new men and it was also necessary to get back part of the purchase money that Cleveland paid out for "Cy" Young. They gave $12,500 in cold cash for him.

Berger won 13 games last year and lost eight. He tied one, was taken out in four and finished three. His pitching percentage was 619.

Liebhardt won 15 and lost 16, was taken out in one and finished six. His percentage was .484.

Berger came to Cleveland in the spring of 1907 from Columbus. The Cleveland club paid $6,500 outright for his release. Berger had led the American Association pitchers the year before. He had been the property of the Columbus club for several seasons, and had been farmed out once or twice. He suddenly rounded into form in 1906 and was a big factor in bringing the American Association pennant to Columbus.

Liebhardt was purchased from the Memphis club in the fall of 1906. The price paid for his release was not announced, but was supposed to be very large, as the bidding for him was spirited. He was known as the "Iron Man" of the Southern League, a title he earned because of his marvellous ability to work in double-headers. In the season of 1906 he pitched four double-headers for Memphis and won seven of the eight games. He was formerly with Omaha and other Western League clubs. His success was not remarkable until he went to Memphis and became an exponent of the spit ball.

TILLSONBURG BOWLERS.

[Special to The Advertiser.]

Tillsonburg, April 21.—A very successful meeting was held here tonight by the Tillsonburg Lawn Bowling Club. The chief business of the evening was the election of officers, which resulted as follows: President, G. W. Tillson; vice-president, John McDonald; secretary-treasurer, Joseph A. Spinall. The club is constructing large gasoline lamps on the grounds, and evening bowling will be much in vogue the coming season.

HEYDLER ANNOUNCES POSTPONEMENT DATES

Acting President of National League Arranges Programme.

New York, April 21. — John Heydler, acting president of the National League, today announced the dates when four games prevented by rain would be played off.

The New York and Brooklyn teams will play off their postponed game of April 14 on the Polo grounds on June 28. The New York and Philadelphia clubs will meet on May 28 in this city and thus erase from the records the postponement of April 20. Chicago and Pittsburg will play in Chicago on May 2 and St. Louis in Cincinnati on May 29, these games taking the place of the contests scheduled for April 19 and 20.

In every case double-headers will be necessary in order to get rid of the postponement.

THE NORTH AND SOUTH WILL CLASH TONIGHT

Grocers Will Lineup For Match on the Ideal Alleys.

A return match will be played on the Ideal Alleys tonight between the north and south end grocers. It will be remembered that at the last match the north had the best of it by 122 pins, but the south grocers hope to reduce this lead in tonight's game.

The teams will line up as follows:

South—F. Millson, H. Trebilcock, Jas. McLeod, F. Grandage, Ed. Ryan, captain.

North—T. Ranahan, R. Collins, C. Hayes, C. Nopper, Thos. Shaw, captain.

TORONTO WANTS GRAND CIRCUIT.

Toronto, April 22.—The Toronto Driving Club will hold a meeting during the Woodbine races to discuss the advisability of applying for grand circuit dates, and interest the O. J. C. directors in the plan. The track must be a mile one. The Americans would like to see Toronto take Poughkeepsie's week.

RENAUD TO RUN.

New York, April 21.—Henry Renaud, the French-Canadian who won the Patriot's Day Marathon race from Ashland to Boston on Monday, has accepted an invitation to compete in the Marathon race of the Northwestern A. C. at the Bronx Oval on Saturday, May 1. Other entries so far are Thomas T. Morrissey, Yonkers, and Frank Devlin, Mott Haven A. C.

COVERPOINT JOLTS

J. Johnson has scored first blood in the conversational championship, when he stated that J. Jeffries was the easiest mark of the bunch. This is supposed to make the Boy Boilermaker gnash his teeth in very anger, and come back with two columns of press agency wrath. In the meantime the Senegambian will conjure up something else to say, and the sporting editors, from coast to coast, will have to fall for it until one or the other is swatted into a deeper sense of insensibility. It is great jaw-training stuff, this prize-fighting.

* * *

Tom Longboat, with a dash of intelligence, wrote a telegram in which he stated to Pat Powers that he was managing his own affairs, and was no longer under the direction of the Illustrious Impressario of Prize Pedal Pushers. It seemed almost human of Tom to do that, but it is stated that when Pat received it he almost blew the top off the Flatiron building with one of his merry lawfs. He has the Rapid Redskin sewed up as tight as a waterlogged seaman, and he will not allow any of the easy stuff to get away from him. The Indian is again showing the head work that made him famous—not; and it will ooze into him after he gets another walloping that he cannot draw as much as a wooden Indian. Pat Powers put one over on the great Redskin the 1st Marathon Derby, when he got the Enigma to run, promising him the whole purse if he won. Pat knew as well as could be learned that Longboat had as much chance to win as Hayes, and he could not get across first unless the undertakers had grabbed the rest. Basket making is healthful exercise, Tom.

* * *

Ed. Stein will be official scorer for the City League this year. Ed. knows how to do it right, and the fans are well pleased that he is again to make batting averages read like a tale from a love story.

* * *

The Dufferin Park gents in Toronto who ran the outlaw race meeting last fall—one of the kind that gives the ponies such a black eye as eventually results in the whole system being affected—will be refused a permit to race on the Canadian Association tracks, and are practically barred from the sport in this country. The meeting certainly was one of the worst blows racing has received in Ontario in some time, and it has received one or two real smart cracks at that. Such a merry-go-round as that was had only one reson for existence, and it is probable that the bookmakers could explain that reason. For the next few years racing in Ontario will have to be carefully guarded, and kept as free from suspicion as is possible. Else it will go the way of the American thoroughbred. It is said that in Kentucky you can buy a real horse for the price of two mint juleps, and it all happened because some sure thing gamblers tried to corner all the coin by running meets that had no more resemblance to horse-racing than Tom Longboat's conversation to good sense. Some people scout at this, but it is true.

* * *

Mr. George Cohan, who made singing through the nose famous, has offered to bet $10,000 on Jeffries. He states it will be real money, too. Now, if the Senegambian should put a huge crimp in the patriotic bank roll of George, we would have to listen to about ten more wheezy melodramas set to music to get square.

* * *

Monsieur Renaud, the French-Canadian who won a Marathon the other day, is a weaver, and won by attending to his knitting. This came from a trustworthy source, so we run it with fear and trembling.

* * *

Toronto Telegram: And while all the men who did little or much at the London Marathon are basking in the limelight and harvesting greenbacks, the real Canadian hero of the occasion—to wit and namely, Bobbie Kerr, has remained an amateur, and practically hidden. But he's going to England this summer, and when he trims the feathers of Walker, of South Africa, his fellow-countrymen may forget the cash-hunters for long enough to give him one little hurrah.

JEFF AN EASY MARK SAYS MR. JOHNSON

And Declares He Can Put Tommy Burns Out in Six Rounds.

Pittsburg, April 21.—Jack Johnson, the champion neavyweight, in an interview tonight, gave it out that he was not afraid of Jeffries. "I am scheduled to meet Stanley Ketchel in a 20-round fight a San Francisco on Oct. 12, not Oct. 10, as the reports had it. Before this fight I will be ready to meet Al Kaufman and Sam Langford in limited round engagements," he said. "I am positive that Jeffries cannot train for a fight, and if he does I consider him the easiest mark of all who ever faced fight with me.

"As for Tommy Burns, whom I defeated for the championship, I will agree to knock him out in six rounds. My fight with him was the most careful I ever engaged in. I was alone in Australia, and knew that if I hit him an inch below the chin I would be declared the loser on a foul. With a free swing on my part, Burns would not have lasted six rounds. By the way, do you know that it was America against England? I am a native of America and Burns was born in Canada. I represent the American people, and should be given the credit.

"I intend to hold the championship as long as I can, and don't at the present time see anybody who can take the title from me."

Jack Johnson, who is doing a turn at a local vaudeville house, has been here before, but never before was he guilty of blockading Wylie avenue. Every day dusky citizens surrounded his loging place, kept by Frank Sutton, the most popular colored man in Pittsburg. Johnson is an every-day negro, and really makes no claim to more than the average respect due to a man of his color. He will fall asleep, and actually did so, while being interviewed.

Johnson, whose manager says he is drawing as much salary as Jim Jeffries, will remain here for the rest of the week. For the next two weeks he will show at Chicago. Then he will go to Buffalo, Rochester and Syracuse, and finally to New York, where he will appear for $500 more than he received last week. He will then sail for Europe on May 25, spending two weeks at London, two weeks at Paris and two weeks in Berlin. All these are contracted engagements.

ST. YVES THE FAVORITE

Smart Bettors Expect Frenchman To Defeat Shrubb.

New York, April 22.—Henri St. Yves and Alfred Shrubb, who are matched to meet next Saturday night at the American League Park in a fifteen-mile race for the professional championship of the world, will both have their final tryouts today. The Frenchman will be sent over the full distance on the grass at Princeton, under the watchful eye of Al Copeland this morning at 11 o'clock, and Shrubb will work at the American League Park this afternoon.

The time these two fast middle-distance runners make will be awaited with interest. The wonderful race that St. Yves put up at the Polo Grounds has brought him a host of admirers, and so many betting people like his chances that he will undoubtedly rule favorite. About 30 entries have so far been received for the five-mile scratch race, which will precede the Shrubb-St. Yves affair. The lighting arrangement will be so perfect that night racing will undoubtedly spring into immediate popularity.

GILMORE BADLY HURT

McFarland's Manager Has Blood Poisoning After a Fight.

Chicago, April 22.—Harry Gilmore, jun., manager of Packey McFarland, is in danger of losing his right hand as a result of a mixup at the recent Gotch-Mahmout wrestling match. According to the Gilmores, Harry was hurrying through Dexter Pavilion when he stumbled over the foot of Ralph Hoagland, the golfer. Hoagland, Gilmore says, kicked him on the shin, telling him at the same time to keep off his feet. Gilmore retorted that if he did that again he would swing on him. The kick was repeated.

Harry Gilmore, sen., then told his son to hand him his coat and swing on the man. Young Gilmore did so and knocked four teeth out of Hoagland's mouth. The teeth cut the back of his hand, and two days later the swelling was so bad young Gilmore consulted a physician, who set to work at once to save the arm, if possible. It was on this account that Gilmore was kept home when the matching of Nelson and McFarland was on.

BRITISH SOCCER SCORES

Result of Play in Leagues of the Old Land.

London, April 21.—Yesterday's soccer scores were:

First League—Blackburn 2, Sheffield Wednesday 1; Bradford 3, Chelsea 0.

Southern League—Luton 1, Swindon 0.

Scottish League—Hibernians 1, Rangers 0; Celtic 2, Hearts 1; St. Mirren 1, Third Lanark 0.

Second League—Grimsby 2, Oldham 0; Glossop 4, Clapton 0.

PIRATES GET CATCHER STRATTON.

Memphis, Tenn., April 21.—Manager Frank of the New Orleans Club of the Southern League announced today the release of Catcher Stratton to Pittsburg in exchange for a claim on "Pop" Schriver.

DOES THE MARATHON KILL? LONDON PHYSICIANS' OPINIONS

Craze Does Cause Injury to the System of the Contestants—Some Doctors, However, Do Not Agree With This Statement —What They Say.

Does the Marathon kill?

This subject is agitating the minds of many of the most prominent athletes in America and Europe, and is being discussed by physicians and specialists almost daily.

London's leading medical men agree that the Marathon craze under certain conditions certainly causes degeneration in some cases bringing on tuberculosis, while in others chronic heart trouble results.

Best Thing in the World.

Dr. H. A. Stevenson states that distance running and all out-door sport is the best thing in the world providing that the work and training is kept up. The grind does not damage a man's system for the men who accompany the dog trains in the Arctic regions often cover 50 or 60 miles a day. There is a danger however, he says, "should a man overdevelop his lungs, and then drop training, degeneration results, and in a short time another is added to the long list of white plague victims.

Don't Over-Develop Lungs.

Another physician, when spoken to by the Advertiser, said, that a man should never develop more lung power than he intends to use. It is a law of nature that anything that is not used will in time degenerate. Fish in the Mammoth Cave of Kentucky are blind. They have eyes but for the simple reason that they have never had use for them, they have lost all power of seeing. If a man develops his lung power to a great extent and in later years choses an indoor profession, tuberculosis wil result unless he keeps up the training. Any tubercular germs floating around will enter the lungs and remain there unless a person breathes sufficient air to expel them.

Wellington and His Men.

"When Wellington was in Spain," said Dr. Ed. Seaborne, "he ordered his men not to fill their chests as they would have no reserve in an emergency. His opinion was that it was better to have soldiers with stooped shoulders who had a reserve supply, than men with heads erect without reserve, and he proved his theory,—at least to his own satisfaction."

Danger to the Heart.

"I believe that the danger is to the heart and that when the Marathon is carried beyond certain limits the affection becomes permanent. I do not think that the theory of injury to the lungs could be proved."

"A man who races great distances will break down before he is fifty," said Dr. James D. Wilson. "There will be a general break-up in his constitution, a human being is not capable of covering great distances without being affected in some way. I am attending a man now who is suffering from chronic heart trouble, and he tells me that he is an old racer."

Worse than a Beating.

Dr. Angus Graham was of the opinion that a man who runs the Marathon distance, 26 miles, is in worse condition when he finishes than a person who has been beaten up in a fight. "It dilates the heart," he said. "A man's heart may come back to normal again in time, but he is taking chances. Through long training a man may come to it, but think permanent heart trouble would result in the majority of cases. Distance running may affect the lungs, but not to such an extent as the heart. However, many athletes are consumptive."

Break Down at Forty.

"The average athlete and sporting man shows signs of breaking down while in the thirties, or the early forties, whereas he should be in his prime at 50," said Dr. F. L. Burdon. "There is a terrific strain on the nervous system, and on the muscles of respiration of the heart. The small lung valves are not properly inflated and, in the running, only parts of the lungs are used for seconds at a time. A while ago we heard a great deal of 'bicycle riders' heart,' now it will be runner's heart."

CITY AND SURBURBAN TAKEN BY WHITE EAGLE

H. P. Whitney's Oversight Gets a Place in Hyde Park Plate at Epsom.

Epsom, April 21. — White Eagle, owned by W. Hall Walker, won the City Surburban Handicap today, with a purse of 12,000 sovereigns. Dean Swift was second, and Lafayette third. Only three-year-olds and upwards were eligible for the race, which was one and a quarter miles. White Eagle was 10 to 1; Dean Swift 100 to 15, and Lafayette 10 to 8. In the Hyde Park Plate of 210 sovereigns, Demosthenes was first, Oversight second, and Waiesor third. The distance was five furlongs. Oversight belongs to H. P. Whitney.

HEADING FOR PEACE

Members of C. A. A. U. and Montreal A. A. A. Confer at Toronto.

Toronto, April 21.—There was an important conference in the St. Charles last night between Toronto members of the C. A. A. U. and Dr. F. J. Tees, Leslie Boyd, K. C. Sprigings and T. Herb Brown, representing the Montreal A. A. A.

The object of the meeting was to bring about peace between the warring athletic bodies. It was said there was a friendly discussion of the matter, and that it was agreed to hold another conference at an early date.

ANOTHER "BUST-UP"

Tom Longboat Is Going to Handle His Own Affairs and Tells Powers So.

Toronto, April 21.—Evidently Tom Longboat has rebelled against P. T. Powers at last, as Powers wired from New York to Tim O'Rourke, instructing him to have the Indian in condition for the next New York Marathon Derby, which will be pulled off on May 8. Mr. Powers received the following message from Longboat:

"P. T. Powers, New York:

"I am arranging my own affairs, Mr. Powers. Don't worry. Tom Longboat."

Tom, when spoken to today, said he was disgusted with the treatment received from Powers and was going to handle his own interests in the future. Longboat also said he would race Alf. Shrubb as soon as his heel got better.

WATERLOO BOWLERS.

[Special to The Advertiser.]

Waterloo, April 21.—The Waterloo Town Bowling Club held their annual meeting today, and elected the officers for the coming season. They were: Honorary presidents, Jos. E. Seagram, W. Wells, J. B. Hughes, W. J. Sterling; president, A. H. Snider; secretary, J. Jamiet; treasurer, J. Herbert Smith.

A message of condolence will be sent to the family of the late John McNee, of London, who was well known here.

LONDON CANINE ASSOCIATION.

The London Canine Association's bulldog and Boston terrier show to be held tonight in the A. O. F. Hall, Albion Block, should be attended by all the dog-lovers of the city. Mr. Wm. McNeil has donated very handsome ribbons for the winners in the different classes. Mr. Geo. McCormick, Dr. Niven, Forest City Laundry, Jose Gaste Cigar Company, also offers specials. Owners of the above breeds are requested to be on hand with their dogs. There will be no entrance fee or admission charged. Dr. Niven, the judge, will give his reasons for his decisions and will point out the merits and defects of the winners. Bulldogs will be divided by sex. Bostons will also be divided, as well as a class for puppies.

THE BOSTON MARATHON

How the Men Finished, With Their Times, in the Long Race.

It is estimated that 400,000 lined the roads and streets of Boston to see Monday's Marathon. The order of finish was:

H. Renaud, Nashua	2:53:36 4-5
J. F. Crowley, New York	2:59:47 3-5
S. A. Mellor, Yonkers	3:00:52 1-5
J. P. McHugh, South Boston	3:01:52 1-5
E. C. Ryder, Jamaica Plain	3:02:45
C. J. Schoblohm, Yonkers	3:06:10 2-5
E. J. McTiernan, Worcester	3:08:08
R. A. Fowler, Boston	3:09:52 2-5
A. O. Horne, Everett	3:10:49
L. Tewadina, Carlisle, Pa.	3:10:50
R. A. Stone, West Boston	3:11:58
Frank E. Miller, Northboro	3:17:14
Elmer E. Lincoln, Natick	3:19:16
Henry J. Holscher, Waverly	3:19:27
B. J. Nelson, London, Eng.	3:23:24 2-5
J. J. Lee, Yonkers	3:26:33
W. J. Fallon, Roxbury	3:26:15
A. H. Ellis, South Boston	3:26:41

Renaud lost six pounds in the race.

AMERICAN

An Evanston (Ill.), teacher, is planning a violet farm near Lawton, Mich.

At Panama, Ill., Mrs. W. W. Mitchell shot at robbers, and saved $8,000 to the bank.

In Chicago Chief of Police Shippy directed a gambling raid and captured 49 men at "Pat O'Malley's" place.

General shortage of flour is reported by mills in Ohio, Kansas, Oklahoma and points in the Northwest.

Soothing syrup given by the mother to cure a cold, caused the death of a 5-weeks-old baby at South Bend, Ind.

Despair and want, the result of the corner in wheat, drove George Wagner, a baker, to suicide at St. Louis, Mo.

The death of David Martin, who had lived nearly twenty years with his liver broken in half, took place in New York.

Deserting its kittens, a large cat belonging to F. H. Preston, of Frankfort, Ky., is engaged in assisting a hen to hatch.

How to Avoid Sea Sickness

Take along a box of Mothersill's Sea and Train Sick Remedy. It has recently been thoroughly tested on English and Irish Channels, and found absolutely reliable. Recommended editorially by such papers as London Daily Express, New York Herald, Montreal Herald and the press generally in Great Britain. Write for booklet and press notices. For sale at all first-class druggists. Guaranteed perfectly harmless to the most delicate. MOTHERSILL REMEDY COMPANY, 217 Cleland building, Detroit, Michigan.

For sale and recommended in London by W. T. Strong & Co., 184 Dundas street; C. McCallum & Co., Dundas and Richmond streets, and E. L. Guillemont, 404 Richmond street. w

"Them Day & Martin's people certainly is wonders at making shoe polish. "Just Out" is de real thing."

CRUISER IN HECATE STRAIT FIRES UPON AMERICAN POACHER

Latter Was Fishing in Canadian Waters and Would Not Surrender Until Brought to Time by Several Rounds From the Canadian's Guns.

Vancouver, B. C., April 21. — The Dominion Government cruiser Kestrel arrived in port today, having in charge the American halibut fishing schooner Charles Levi Woodbury, which she captured after firing four rounds from her machine guns. She threatened to sink the alleged poaching vessel unless she surrendered.

Washington, D. C., April 21. — The seizure of the Woodbury for alleged poaching will have a tendency to hasten the reaching of a definite understanding between the American and British Governments as to their attitude towards Hecate Strait, which the Canadians desire shall be regarded a "closed sea," and the right of fishing therein denied to Americans.

Repeated efforts have been made by the state department to obtain from Great Britain a definition of its attitude regarding this body of water, the correspondence on the subject dating back ten years, but thus far without success. The United States takes the position that Hecate Strait is an open sea, but should the contrary view finally prevail it would have a serious effect on the fishing interests of Puget Sound.

The strait lies between the mainland of British Columbia and Queen Charlotte Island, and is 28 miles wide at its narrowest part.

The necessity for an early understanding on the vexed question is realized by both countries.

Death and Damage in Erie Gale

Cleveland, April 21.—A squall which swept along the southern shore and villages of Lake Erie today left death and ruin in its wake. The wind reached a velocity of nearly one hundred miles an hour for a few minutes. Day was made dark as night. Trees and frame houses were blown down in all parts of the city. Lightning started many fires.

A young woman was blown into Wade Park pond and drowned.

The roof was blown from the main building of the Case School of Applied Science and from Adelbert College. Monuments and trees were blown down in Woodland Cemetery. Telegraph and telephone wires are down.

At Wellington, south of here, the wind unroofed the plant of the American Machine Company, partially unroofed the Big Four freight sheds, and blew over and otherwise damaged about fifty houses.

The storm was local in its character, extending not over 100 miles. East of here great damage was reported both to telegraph wires and buildings.

Six were killed and the property damage will total $4,000,000.

BEAVER LODGE BALL A GRAND SUCCESS

Large Number Enjoyed Themselves Immensely Last Night in the City Hall.

There was a large attendance at the sixteenth annual ball of Beaver Lodge, No. 117, of the Brotherhood of Locomotive Firemen and Engineers, at the city hall and Masonic Temple last night. About 75 couples were present and enjoyed themselves to the limit.

From every standpoint the dance was one of the most successful ever given by the trainmen.

The grand march commenced at 9 o'clock, and was led by Mr. John Cox, the oldest member of the lodge, and his wife.

There were a number of old-fashioned dances on the programme, and they were much enjoyed.

Tony Vita's excellent orchestra furnished the music for the occasion.

The Committees.

The committees in charge were:

General Management—H. McGinnis chairman, G. Evans, D. Henderson, E. Smith, S. Hueston, H. Ellis, J. McAuley, A. Higgins, B. Bennett, J. Cox, C. Anderson.

Floor—H. Ellis chairman, W. Begg, P. Lasenby, G. Bennett, G. Hoyles, W. Nelson, A. Foster, E. Smith, S. Hueston, D. Henderson.

APRIL MEETING OF THE Y. W. C. A. ASSOCIATION

Committee Reports Were Found To Be Satisfactory—a Sale of Work.

The April meeting of the Y. W. C. A. was held in the rooms at the corner of Dundas and Talbot streets yesterday afternoon, the following ladies being present: Miss Moore, Mrs. (Dr.) Burdon, Mrs. Jarvis, Mrs. Ellis, Mrs. Orr, Miss Little and Mrs. A. T. Edward.

The committee reports were read and found most satisfactory, and it was decided to hold a sale of homemade cooking on Friday afternoon and Saturday morning, April 30 and May 1. The annual meeting will be held in May, and all members are requested to be in attendance.

CORRESPONDENCE

The North End Street Car Service.

To the Editor of The Advertiser:

In your issue of the 20th inst., re North End street railway extension, the company now offers to take up the rails off two important blocks on Oxford street and run their line north on Maitland from Oxford street four blocks, giving the people in the north the grand total of two blocks extension, which would have to serve for years. This scheme should be turned down by the council at once. The company can save the rails taken off Dundas street for some future date when the people of the North End will demand from them a proper extension which they are justly entitled to, and that will be as soon as the census is taken, which we have not long to wait for.

If the street railway company were to carry out their first proposition of running their line on William street north from Oxford street to either Victoria or Regent street, thence west to Waterloo street and south on Waterloo to Oxford street, this extension would serve for many years to come, giving the only service satisfactory to the people in the North End.

We hope our council will protect our interest in this matter. Yours truly,

A RATEPAYER.

London, April 2.

ANNUAL MEETING OF TALBOT ST. CHURCH

All Reports Presented Were of a Most Gratifying Nature.

The Talbot Street Baptist Church held their annual meeting on Tuesday evening, April 20, pastor, Rev. A. J. Vining, presiding. The meeting was most enthusiastic and well attended.

Excellent reports were received from the various organizations, all of which showed marked progress, both financially and spiritually.

The secretary reported an enrollment of members of 738, showing an increase of 84 over last year.

The secretary of the Sunday school presented a report, to the effect that the teachers, officers and scholars are greatly interested in this branch of the church, and are doing splendid work.

Particularly gratifying was the treasurer's report, showing substantial gains over the previous year, both for missions and all other objects.

Financial Statement.

The following is taken from the financial statement:

Total receipts for missionary objects	$1,877 06
Weekly offering receipts (envelopes)	3,146 47
Plate collections	1,263 25
Relief committee	50 35
Ladies' Aid	473 03
B. Y. P. U. Society	21 70
Sunday school	672 31
Cash on hand.	312 44

Debt Reduced.

The debt on the church property was reduced $550.

Messrs. John Holman and J. W. Westervelt were re-elected to the deaconate.

The nominating committee reported the following as officers for the ensuing year: Secretary, J. B. Campbell; roll clerk, R. Burroughs; treasurer, N. Mills; assistant treasurer, M. Dale.

Finance board, Messrs. John Holman, Geo. Matthews, R. Burroughs, O. L. Overholt, R. Wilson, H. Peel, A. Dale, N. Mills, and W. A. Finch.

LOOKING FOR NEW CHIEF

May Get New Head for the Hamilton Police Department in Toronto.

Toronto, April 21. — It is rumored here among the police that Hamilton is looking for a new chief of police. Among those who are said to be considering the advisability of applying for the job is Inspector Cuddy. The inspector had been figuring whether it would pay him to give up his pension to accept the Hamilton position. He has also been inquiring as to his chances of getting his pension in case he should resign from the Toronto force.

It is said that he was invited to make application for the position.

CAPT. BURNELL SUICIDES.

Laurel, Md., April 22. — Capt. Geo. C. Burnell, of the United States signal corps, died today from shooting himself in the head yesterday in a sanatorium, where he had been recently suffering from nervous breakdown. He was born in Vermont in 1868, and served with honor as an officer of the signal corps in the Spanish war. He was appointed second lieutenant of the signal corps soon after the declaration of war against Spain, and reached his captaincy on Feb. 20, 1901.

FIELDING'S SHOWING CONSIDERED EXCELLENT

In View of the World-Wid Depression in Financial Circles at Present.

Ottawa, April 21.—George H. Perley, of Argenteuil, in a brief speech today, said the Government had pursued an improvident policy in arranging for vast expenditures with a falling revenue and a tight money market.

Mr. Lloyd Harris (Brantford), showed that in view of the world-wide depression the showing of the Finance Minister was very creditable. He devoted much of his speech to a criticism of Mr. Foster, and said that after a three hours' speech the latter had no suggestion to offer. He did not believe that the Conservatives had any policy.

H. B. Amee, of Montreal, declared that the net debt of Canada would be increased by several millions when the committee on the assets of the Dominion had finished its work. They had discovered many shrinkages.

He said that since 1896 $65,000,000 had been added to the public debt of Canada. He believed that in three years more another $75,000,000 would be added, and that before the next general election the public debt would be $400,000,000.

RADICALS DEMAND HAMID'S SURRENDER

Declare That He Cannot Be Trusted With the New Government.

Constantinople, April 21.—The conflict between Mussulman piety and the political ideas of the west has brought the Turkish people to the verge of civil war. Zeal for the faith has been unloosed, and the adjustment of the Sultan's relations to the committee of the union and progress probably will only postpone the armed struggle between the believers of the ancient teachings of the prophet and those who are urging the teachings from Western Europe.

The cabinet debated the situation for four hours today, giving special attention to the negotiations which the ministers have taken in hand on behalf of the Sultan with the military members of the committee, among whom are Husni Pasha, the commander of the Third Army Corps, his division commanders and Izzet Pasha, chief of the general staff.

The Sultan's primary demand is to remain the constitutional sovereign, with all the spiritual powers of the califate, with liberal allowances for his household, while he also asks for variety of minor guarantees, which it would not be difficult to grant. The demand of the committee of union and progress is that the Sultan offer no resistance whatever and submit unconditionally.

TO SPEND $10,000,000 ON CONSTRUCTION

G. T. P. General Manager Tells of Plans For This Year.

Winnipeg, April 22.—General Manager Chamberlain of the Grand Trunk Pacific Railway, who has returned from a trip over the system from the Pacific coast, states that the company will spend $10,000,000 this year on construction. The first hundred miles east of Prince Rupert, the Pacific terminus, is now under contract, and will be finished by Sept. 1. On that date a contract will be let for 140 miles further east, which will take them into the mountains. Between Winnipeg and Prince Rupert there are only 260 miles not yet under contract. Trains will be running from Fort William to the Rocky Mountains this fall, a distance of 1,700 miles. Mr. Chamberlain will leave for Montreal Saturday, but will return May 15 to make Winnipeg his headquarters for the summer. Next year branches will be built to the international boundary line.

MAHON TO ACT

Goes to Pittsburg To Confer With Street Railway Employees.

Detroit, April 22.—W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees of America, left last evening for Pittsburg to confer with the street railway men of the Pittsburg Railway Company, who have decided by a vote of 2,288 to 123, to go out on strike unless the company makes concessions which so far have been refused.

The company's offer to renew the last year's scale was rejected last Friday and the company also refused to grant the increase in wages demanded by the men. The company says it will not make any further concessions, and that new men will be put on if the old men quit work.

SENATE DIVORCE BILLS SCORED BY ETHIER

Says Some of Them Have Been Passed Without Satisfactory Proof.

Otfawa, April 22.—A strong plea for greater stringency in the matter of granting divorce was made at a meeting of the committee on private bills today by Mr. J. A. C. Ethier, the chairman, who pointed out that this session there had been 21 divorce bills before the senate, as compared with 3 or 4 in former sessions. He went on to remark that the action of the senate in that regard was beginning to be an abuse.

In cases of simple separation of property and body the judges of superior court were properly severe, but the senate was passing bills of absolute divorce without any satisfactory proof of the only cause upon which divorces were granted by the Parliament of Canada.

Mr. Ethier said that eminent men in the United States had described the divorce system in that country as a great social evil, and the same state of affairs might come to pass in Canada. The private bills committee, he contended, should establish the principle that unless there were good evidence of adultery no divorce bill should be passed. In two or three cases which had come before the committee he had not been satisfied that the offence had been proven. In plain terms the senate was granting divorces on evidence which would not be acceptable to the courts as sufficient for separation. Because a man was a drunkard and a gambler it did not follow that a divorce should be granted his wife. He wished it to be understood that he was speaking not as a Roman Catholic, but on general principles.

GOVT. SENDS EXPERT TO NIAGARA FALLS

Chief Engineer of Marine Department Will Endeavor to Solve the Situation.

Ottawa, April 22.—The chief engineer of the marine department is leaving this afternoon for Niagara to see what measures can be taken to relieve the situation. The marine authorities state that they would be only too glad to send an icebreaker to Niagara if it were possible to do so. But the only Canadian boats which would at all be able to cope with the situation would be the powerful breakers which are at Quebec and which have been operating on a somewhat similar job. That jam was broken by the icebreaker Montcalm. However, this boat is prevented from proceeding to Niagara by the fact that she would have to pass through the Canadian canals which are not yet opened, and cannot be on account of ice until about the first of May. It is possible that when Col. Anderson reaches the scene other measures, such as dynamiting, will be resorted to for the purpose of breaking the Niagara jam. Until a report is received from him no action will be taken. There is great pressure being brought to bear on the Government to do something for the relief of the Niagara situation.

HOW BROWN HELPED BRING CONFEDERATION

An Interesting Statement by Sir John Carling on the Crisis of Early Sixties.

Ottawa, April 21.—An event unique in the parliamentary annals of Canada took place in the parliament restaurant tonight, when eight of the twenty-four surviving members of the first parliament of the Dominion were tendered a banquet by the Canadian Club of the capital. Invitations had been extended to Lord Strathcona, Sir Charles Tupper, Sir Mackenzie Bowell, Sir Richard Cartwright, Hon. C. A. P. Pelletier, Sir John Carling, Hon. W. J. Macdonald, Hon. Edward Blake, Hon. John Costigan, Hon. Wm. Miller, Hon. Wm. Ross, Hon. A. R. McClellan, Hon. James Young, Sir James Grant, Hon. W. H. Ray, Dr. H. Cameron, A. W. Savary, and Messrs. Loverett, DeV. Chipman, Frank Killam, Nathan Francis Hurdon, Basile Benoit, Hon. G. B. Baker and Sheriff Hagar, these constituting the "Old Brigade" who took part in the early deliberations of the Dominion Parliament; and there were present Sir Mackenzie Bowell, Hon. John Costigan, Hon. Wm. Miller, Hon. Wm. Ross, Sir James Grant, Mr. Basile Benoit, Hon. C. B. Baker and Sheriff Hagar.

Letters of regret at inability to be present were read by the secretary of the club, Mr. Gerald H. Brown, from Senator W. J. Macdonald, of Victoria, B. C.; H. Cameron, of Mabou, N. S.; A. W. Savary, of Annapolis Royal, N. S.; Frank Killam, Yarmouth, N. S.; Sir John Carling, London; Hon. Edward Blake, Toronto; Lieutenant-Governor Sir Alphonse Pelletier, of Quebec, and others.

Sir John Carling's Reminiscence.

Sir John Carling in his letter recalled an interesting incident of anti-confederation days. "It was," he said, "in the early sixties, and the situation in Canada was serious indeed. Elections had been held, but neither party was able to secure a working majority. Party feeling rose so high that the two leaders—Hon. John Macdonald and Hon. George Brown—ceased to be on speaking terms. Statesmen and political writers seemed to have given up all hope, for matters were going from bad to worse. 'Whither are we drifting?' was a standing headline in the newspapers, and there was talk in some quarters of throwing in our lot with the neighboring republic. I happened to be on my way to Quebec to attend my parliamentary duties one day, and when the train reached Toronto George Brown, the leader of the Reform party, came into the coach in which I was seated and sat down beside me. We soon got into conversation, the subject naturally being the political crisis. Finally Mr. Brown brought his hand down on the arm of the seat with some force and vehemently exclaimed, 'Carling, John A., has the chance of his life if he will only avail himself of it.'

"'What is that?' I asked.

"'Let him go in for confederation,' was the reply.

"'Would you support such a movement?'

"'Most decidedly I would,' he returned.

"Mr. Brown presented to the cabinet at Quebec the attitude of the Reformers on the Confederation movement, and on reaching the ancient capital I lost no time in telling Hon. John A. Macdonald, the Prime Minister, and his colleague that 'Brown would support confederation.'

"The outcome was the opening of negotiations between the party leaders, which ultimately led to the consummation of confederation."

Sir Wilfrid Laurier proposed the toast of the first parliament, and spoke of the men of the past, most of whom he knew personally. Two men who presided over the destinies of the country 35 years ago, when he entered Parliament, were Sir John Macdonald and Alexander Mackenzie. These men had left their examples, and they were trying to follow them, he said.

Sir Mackenzie Bowell, in a reminiscent speech, corrected the statements made that the Conservative party had split over the question of union with Newfoundland, on a matter of a few hundred thousand dollars. The fact was, he said, that they split over millions, and better terms were wanted by Newfoundland than by British Columbia and Manitoba.

Earl Grey, who was present, said when he returned to England he would envy those who could say that they were taking a part in adding lustre to the name of Canada.

BALTIMORE AND OHIO TO GET MARQUETTE

To Take Over That Remnant of the Great Central System.

Detroit, April 22.—A Chicago dispatch says reports indicate that the negotiations which are understood to have been in progress for several months for the taking over by the B. and O. of the remnants of what was known as the Great Central System are rapidly approaching completion, and an announcement that they have been carried to a successful conclusion is to be expected any day. The parts of the Great Central System to which the B. and O. is to fall heirs are the Cincinnati, Hamilton and Dayton and the Pere Marquette road.

BASKERVILLE KILLED LEADING FORLORN HOPE

Had Victory in Hand Twice But His Followers Lacked Courage.

London, Thursday, April 22. — The Chronicle prints a Tabriz dispatch, describing the death of H. C. Baskerville, a young American teacher, who on March 31 sacrificed his position as master of the mission school to help in the defence of the starving town. The correspondent, explaining that profound demoralization succeeded the former courage and confidence of the defenders, says that Baskerville himself five times arranged to attack the besiegers, with a prospect of success, but each time the courage of the local authorities failed, and the organization broke down. Then when the chances of success were gone, the authorities in dire despair appealed to Baskerville to lead the attack, of which they had disapproved. Baskerville pointed out the hopelessness of an attack, as the demoralization of the citizen troops was complete. Finally, however, he consented, although he knew he would lead a forlorn hope. After waiting at the rendezvous for five hours for his men to assemble, Baskerville led 150, who, by the time they got within range of the besiegers, had dwindled to nine. Nevertheless, Baskerville gallantly began an attack with this handful, but was shot through the heart at the head of his followers, dying almost instantly.

The correspondent also led a force which similarly deserted him, but those who remained kept on fighting, aided by some others, for eleven hours, when their ammunition being gone, and the city ceasing to support them, they abandoned their position and retired.

SASKATCHEWAN TAKES OVER PHONES

Regina, April 21.—Hon. Mr. Calder tonight announced the successful termination of the negotiations with Mr. L. B. McFarlane, Montreal, representing the Bell Company, and himself, as minister of telephones. The negotiations were protracted, but time in this case was money, as the price, $367,500, compared more than favorably with the price paid by either of the sister provinces, and of the agreed price $10,000 is to be returned for unearned rentals. The minister forecasted vigorous extensions for the future, and the acquiring and running of local exchanges hitherto left to private or municipal enterprise. Questioned regarding the possible acquisition of the Moosejaw and Saskatchewan Telephone Company's business, the minister declined to commit himself beyond the statement that it was under consideration.

Personal Mention

Dr. Farmer, of McMaster University, is in the city today.

Mr. and Mrs. J. L. Smith, of 415 Dundas street, will shortly leave for Toronto.

Miss Villa Darland, of this city, was the guest of Miss J. Knowles, in Tillsonburg, this week.

Mrs. M. Kelley and children, of London, have been the guests of Mrs E. Hornick, Tilbury, recently.

Mrs. Margaret McLaughlin, of Fingal, is visiting friends in London, after which she will take up her residence in Battle Creek, Mich.

Wodstock Sentinel-Review: Mr. W. Govenlock, of London, formerly mathematical master of the local collegiate institute, was renewing acquaintances around town yesterday.

The engagement is announced of Miss Mabel G. Livingstone, second daughter of Mrs. James Pentland, Collingwood, to Mr. J. E. Ratz, Berlin, eldest son of Hon. Senator Ratz, of Parkhill. The wedding will take place in June.

The engagement is announced of Miss Mable G. Livingstone, second daughter of Mrs. James Pentland, Collingwood, to Mr. J. E. Ratz, Berlin, eldest son of Hon. Senator Ratz, Parkhill. The wedding will take place in June.

Mr. F. E. Wice, general passenger agent for the L., M. and R. Railway at Detroit, was in town yesterday.

Mr. W. O. Collins, northern passenger agent for the C., H. and D. Railway, at Detroit, was in the city yesterday on business.

Mrs. Mary C. Ure, who has been visiting relatives in London, St. Thomas and Strathroy, left today for Pittsburg, where she will be the guest of Rev. William and Mrs. Nellie Tapscott.

ROOSEVELTS HUNTING.

Mombasa, April 22. — Theodore Roosevelt and the members of his party left here on the special train at 2:30 o'clock for Kapiti Plains station, whence they will be conveyed to the ranch of Sir Alfred Pease for their first shooting trip.

The party is accompanied by F. J Jackson, acting governor of the protectorate.

Before leaving Mr. Roosevelt telegraphed to King Edward, thanking him for the message of greeting read by Mr. Jackson at the dinnner given in Mr. Roosevelt's honor at the Mombasa Club last night.

The King's telegram read: "I bid you a hearty welcome to British East Africa, and I trust that you will have a pleasant time and meet with every success."

GLENDALE DOINGS.

Glendale, April 21. — Miss Martha Thomson has left for Charlotte, Mich., where she will make her future home.

Mr. Thomas Brookes has moved into his new residence.

Mr. and Mrs. Edmond Foster have returned home after spending a pleasant honeymoon at Goderich.

The many friends of Master Gordon Taylor will regret to hear that he is seriously ill.

Miss Velma Dale spent her Easter holidays with friends in Delaware.

Mr. Nesbitte is moving into his new home.

Mr. Summers has taken the position of superintendent of the Glendale Sunday school.

TRIED TO FREE BOYLE.

Mercer, Pa., April 22.—An attempt to liberate James H. Boyle, charged with the Whitla kidnapping, from the Mercer County jail, was made last night, according to officials at the jail.

That the effort was frustrated was said to be due to the vigilance of Nightwatchman Robert Fruit, who discovered a ladder resting against the jail wall, directly under the window of Boyle's cell. It was apparently the intention to saw the bars from the outside and release the prisoner. Fruit called the jailers and the jail was closely watched during the remainder of the night.

PATTEN CHANGES VIEWS.

Chicago, April 22. — Has the bull campaign in wheat, so far as the public is concerned, been abandoned?

Has the bull leader, James A. Patten, now reported on his way to visit the ranch of a friend in Colorado, changed his views?

These and other questions were rife on the board of trade today, when the slump in wheat occurred, prices reaching ½ to ½ cent below the record price of last week, when Mr. Patten declared wheat was worth intrinsically every cent being paid for it.

FINANCIAL AND COMMERCIAL

HAY ADVANCED TO $13 A TON

The Threatening Weather Kept Many People Away From Market Today

STRAW PRICES ALSO UP

Dairy Produce Was Very Quiet, With But Little, If Any, Change in Price.

There was only a small market this morning, due, probably, to the raw, damp weather and the likelihood of rain.

Prices, however, were good for the commodities that were presented for sale.

Hay advanced again, some good loads selling as high as $13. Some brought as low as $12, but this was of a poor quality. The prevailing price was $12 50, which has been the high figure during the past week. There was quite a supply and a very good demand.

Straw also has advanced, selling as high as $7 today.

Oat straw, as a rule, brought $6, while wheat straw touched the high mark of $7.

There has been little change in the price of oats, $1 45 remaining the high figure, while most of the loads of good quality brought $1 43. There was not much offered.

Dairy Produce.

The supply of dairy produce was very slack today, and there was little if any change in price. The same was the case with poultry.

The vegetable market was not very large, and the prices remained stationary. The only exception was potatoes, of which there was a very good supply. The market on these was fairly brisk. They wholesaled mostly at 85 cents, single bags bringing as high as 90 cents.

Dressed hogs took another advance today, selling as high as $10. There was a fairly good demand, but the supply was small.

Grain.

Wheat, per bu	$1 05	to	$1 15

PRODUCE.

TORONTO.

Toronto, April 21.—The Ontario wheat market is little affected by the break in Chicago, and dealers are still ready to pay high prices for native grain. Holders of winter wheat as asking $1 20 outside. As corn has gone away up there is an excessive demand for barley for feeding purposes, and quotations, which have been nominal, will probably harden up. Oats are fairly easy. Local dealers' quotations:

Manitoba Wheat (for delivery after the opening of navigation)—No. 1 northern, $1 27½; No. 2 northern, $1 24½; No. 3 northern, $1 22½, on track at lake ports.

Ontario Wheat—No. 2 red, white or mixed, $1 18 to $1 20 outside.

Barley—No. 2, nominal, at 62c to 63c; No. 3 extra, 58c to 59c; No. 3, 56c to 57c.

Oats—No. 2 white, 45c to 46c; No. 2 mixed, 45c to 45½c outside.

Corn—American No. 2 yellow, 79½c to 80c, Toronto freights; No. 3 yellow, 78½c to 79c, Toronto freights; Canadian none offering, nominal, at 73c to 75c, Toronto freights.

Buckwheat—No. 2, 63c to 64c.

Rye—No. 2, 72c to 73c outside.

Peas—No. 2, 96c to 96½c.

Manitoba Flour—Quotations at Toronto are: First patents, $6 to $6 40; second patents, $5 50 to $5 90; strong bakers, $5 30 to $5 40.

Ontario Flour—Twenty per cent winter wheat patents, $4 60 to $4 80 outside, in buyers' sacks, exporters bidding $4 55 to $4 65.

Millfeed—Manitoba bran, $22 to $23 per ton; shorts, $24 to $25, on track at Toronto; Ontario bran, $25; shorts, $26, on track at Toronto.

TORONTO.

Toronto, April 21.—Produce market prices today: Butter, dairy, choice, lb, 23c to 27c; do, ordinary, 20c to 22c; chickens, dressed, lb, 18c to 22c; fowl 12c to 14c; potatoes, bag, $1 to $1 50; apples, barrel, $3 50 to $7; turnips, bag, 35c to 45c; carrots, bag, $1 50; parsnips, bag, 90c to $1; onions, bag, $1 50 to $1 60; beets, bag, 60c; spinach, peck, 90c to $1; tomatoes, lb, 15c.

LIVERPOOL.

Liverpool, April 21.—Wheat—Spot, No. 2 red western winter firm, 9s. Futures esy; May, 8s 10⅝d; July, 9s 1½d; September, 8s 5½d.

Corn—New American mixed (via Galveston), 6s 9d. Futures, May, 6s 3d; July, 5s 7½d.

Hams—Strong, 33s.

Bacon—Cumberland cut strong, 45s.

Rosin—Common steady, 8s 3d.

OIL.

PITTSBURG.

Pittsburg, Pa., April 21.—Oil opened and closed at $1 78.

OIL CITY.

Oil City, Pa., April 21.—Credit balances, $1 78.

GRAIN.

TORONTO

Toronto, April 22.—The demand for Ontario grain is unaffected by the slump in Chicago, for the reason that winter wheat especially in very scarce, and the millers are ready to pay the top price for all offerings. Flour prices have again advanced, owing to the stiffening wheat prices, and it is now a little too high for export. Feed, with the exception of corn, is a little easier. Local dealers' quotations:

Manitoba Wheat (for delivery after the opening of navigation)—No. 1 northern, $1 27½; No. 2 northern, $1 24½; No. 3 northern, $1 22½, on track at lake ports.

Ontario Wheat—No. 2 red, white or mixed, $1 18 to $1 20 outside.

Barley—No. 2, nominal, at 62c to 63c; No. 3 extra, 58c to 59c; No. 3, 56c to 57c.

Oats—No. 2 white, 45c to 46c; No. 2 mixed, 45c to 45½c outside.

Corn—American No. 3 yellow, 80c to 81c, Toronto freights; No. 3 yellow, 79c to 80c, Toronto freights; Canadian, none offering, nominal, 73c to 75c, Toronto freights.

Buckwheat—No. 2, 63c to 64c.

Rye—No. 2, 72c to 73c outside.

Peas—No. 2, 96c to 96½c.

Manitoba Flour—Quotations at Toronto are: First patents, $6 to $6 40; second patents, $5 50 to $5 90; strong bakers, $5 30 to $5 40.

Ontario Flour—Ninety per cent winter wheat patents, $5 to $5 10 outside, in buyers' sacks, exporters bidding $4 80 to $4 90.

Millfeed—Manitoba bran, $22 to $23 per ton; shorts, $24 to $25, on track at Toronto; Ontario bran, $25; shorts, $26, on track at Toronto.

LIVERPOOL.

Liverpool, April 22.—Wheat—Spot, No. 2 red western winter firm, 8s 11½d. Futures unsettled; May, 8s 8½d; July, 8s 10½d; September, 8s 4d.

Corn—Spot, new American mixed (via Galveston) strong, 6s 4d. Futures firm; May, 6s 4d; July, 5s 7d.

Hams—Short cut strong, 53s 6d.

Bacon—Cumberland cut strong, 54s; short ribs strong, 54s.

Turpentine Spirits—Steady, 27s 6d.

TODAY'S STOCKS.

[Special to H. C. Becher & Co., from Harris, Winthrop & Co.]

New York, April 22.—The volume of business has fallen off and it is now dull. In spite of the narrow trading, however, prices have held very well and there has been very good buying in some of the standard shares. Some of the stocks which were weak yesterday were features of strength today and the buying of Union Pacific and Southern Pacific, N. Y. C. and the Steel shares has been very good, indeed. About 20,000 shares were bought on balance by London and there was a very good professional demand here. The market in all respects is better than yesterday.

New York, April 22.—Wall stret features this morning:

Americans in London (with Harrimans) showing strength.

Baltimore and Ohio directors meet today to take up Chicago, Hamilton and Dayton ownership.

Knickerbocker Trust Company pays anticipated installments on certificates of deposits today.

Bank of England rate unchanged.

Turkish difficulty believed to be settling itself.

Miners hold another conference, and peace in the coal districts is expected.

Chesapeake and Ohio cutting rates from Newport News as part of the eastern rate war.

Trade newspapers report improvement in business both in pig iron and manufactured steel.

Home and foreign demand for copper light, and some concessions are reported.

The high price of wheat is greatly stimulating Canadian planting.

Third Avenue earnings for year ended April 1 increased $500,000.

James B. Duke, president of the American Tobacco Company, denies his retirement.

Chicago reports spring wheat seeding will bep ractically done this week.

Twenty-nine roads for the second week of April show average gross increase of 12.05 per cent.

Twelve industrials declined .21.

Twenty active roads declined .21.

COBALT STOCKS.

LA ROSE STRONG ON THE LAWSON DEAL

News of Its Completion Helps the Market for the Big Stock.

Toronto, April 21.—The feature of the mining markets today was the strength in La Rose stock, accompanying an announcement of the completion of the Lawson deal. A New York dispatch said: At a special meeting of directors the La Rose Company took over all the outstanding shares of the Lawson Mines, Limited, paying for the same by issuing shares of La Rose, which had been held unissued for that purpose.

There was a good deal of activity and some advance in Beaver, accompanied by rumors of a find on the property. Liquidation of City of Cobalt was apparently resumed, and the stock dropped to 50 cents. Temiskaming was dull and steady.

Toronto, April 21.—Standard Mining Exchange prices today:

	High.	Close.
Beaver Consolidated	12⅜	12¾

TEST OF THE WELLS IS VERY SATISFACTORY

Continuous Pumping Does Not Reduce the Flow of Good Water.

The test of the artesian wells continues, and so far the results have been nothing but satisfactory.

The ten have been pumped all day and night for some days, and they show no signs of playing out.

In fact, they seem to get better every day, the water being clearer and of better quality, if that is possible.

The water commissioners have made no decided move as yet, but it is expected that something will be done very shortly.

"We have done nothing yet," said Mayor Stevely. "We will do something in plenty of time to protect the citizens."

Local Items

—Miss Brandon and Miss Mills, of this city, have returned home after attending the funeral in Florence, Ont., of Frederick J. Bodkin, who died in Duluth, Minn., of pneumonia, after four days' illness.

Mr. McCann Ill.

Mr. B. C. McCann's many friends will regret to learn that he is confined to his home with a severe cold.

Mr. Widden Better.

Mr. Walter Widden, bookkeeper at Hueston's Star Livery, is able to be around again after a severe attack of pneumonia.

Mr. Furness Better.

Mr. W. C. Furness, manager of the G. N. W. Telegraph Company here, is able to be around again after his long illness. He is not yet able to attend to his duties, but is improving daily.

Sir John's Condition.

Sir John Carling's condition is somewhat improved, but it is still such that all possibility of his going to Ottawa to attend the Senate sessions is unlikely. The shock attending the death of his wife has been very great.

Ministerial Gathering.

The annual meeting of the London district will be held in the Colborne Street Methodist Church on Thursday, May 20, beginning at 9 a.m. The ministerial session will begin on Wednesday, May 19, at 10 a.m.

A Local Case.

At Osgoode Hall, Wednesday, in London and Western Trusts vs. Small, G. B. Strathy, for plaintiff, moved for an order for substitutional service of writ of summons. Order for service by sending a copy by post, prepaid and registered, to defendant's address.

Farthing to Speak.

His Lordship Bishop Farthing will be present to speak on the missionary situation at the Church of St. John the Evangelist. Associated with him on that occasion will be His Lordship Bishop Williams, and the pastor, Rev. Mr. Hill.

Claims Wrongful Dismissal.

Mr. E. Mingo, of this city, has taken action in the high court against his employer, Mr. Isaac Sargent, who owns a planing mill at 590 King street, to recover damages for wrongful dismissal from his employ. Mr. J. M. McEvoy is acting for the plaintiff.

Traffic Is Good.

According to railway officials traffic is keeping up well in both the passenger and freight departments. All the through trains are carrying one or more extra coaches, and many extra cars are added to the freight trains. Products of all kinds are going through, and a great deal of merchandise is moving.

Death of Mrs. McIntosh.

Mrs. Mary McIntosh, relict of the late John McIntosh, and formerly a well-known resident of this city, died very suddenly in Toronto on Tuesday at her home, 454 Markham street. Mrs. McIntosh moved to Toronto several years ago. She is survived by one son William, now of New York, but who formerly worked in the office of the Canadian Express Company. The remains arrived in the city this morning, and the funeral was held from the Grand Trunk station to Mount Pleasant Cemetery.

Death of Mrs. Morrow.

Mrs. Agnes Morrow, widow of the late John Morrow, died yesterday at the residence of her son, Stuart Morrow, near Bryanston. Mrs. Morrow was 85 years old, and had been ill about a week. She came to this country from the county of Down in Ireland, and settled in London Township about 50 years ago. Her husband died 25 years ago. Mrs. Morrow is survived by five sons and one daughter: Robert and John, of London Township; William, Joseph and Stuart, of Bryanston, and Mrs. Richard Eedy, of London Township. The funeral will be held on Friday afternoon to Decker's cemetery.

ENGINEER KELSCH'S REPORT

Continued From Page One.

chairman of the power committee, said that he had nothing at all for publication, but that when his committee met, he would give them all the information it was possible to obtain on the subject.

No Meeting?

There was no attempt to pull off a meeting between the London Electric Company's representatives and the council committee after the other meeting was adjourned yesterday.

There were rumors that they had got together, but such could not be verified, everyone in connection with the affair denying absolutely that such had been done.

The aldermen are talking, however, about the proposal to deal with the London Electric Company by arbitration, and there is a disposition to deal fairly with the company although there is a practical unanimity that the price will have to be considerably lower than $506,000. Some of the aldermen suggest $300,000, others $400,000, but none of them any higher than that.

MET THE OPERATORS.

Philadelphia, April 22.—President Lewis of the Miners' Union, with District Presidents Ryscavage, Waters and Fahey, again met the representatives of the operators today at the Reading terminal, and continued the conference begun yesterday. Those who appeared for the employers yesterday were members of the operators' policy committee. Mr. Lewis said today that the only object of the present meeting was to devise some plan for the holding of another conference, and he hoped to arrange matters today.

STEAMERS ARRIVED.

April 21.—At Halifax—Ocamo, from the West Indies; Principe di Piemont, from Genoa; Virginia, from Naples; Ultonia, from Trieste; Carmania, from Liverpool.

At Havre—La Gascogne, from New York.

EAST LONDON

INSTRUCTOR WHITE GOES TO BELLEVILLE

Had Been at Wolseley Barracks the Past Three Years.

Quartermaster-Sergeant Instructor White, who has been stationed at Wolseley Barracks for the past three years, left yesterday afternoon for Belleville, where he will have charge of a provisional school for six weeks, in accordance with orders received from the militia department at Ottawa.

Instructor White was well liked by local military men, and is known as an efficient officer. He frequently assisted Instructor Johnston, of the Seventh, and his departure will be regretted by the members of the regiment.

PREPARING FOR THE SCHOOL.

Rev. J. W. Baird, of the Hyatt Avenue Methodist Church, attended the meeting of the programme and finance committee of the Normal Missionary Training School, to be held in Alma College, St. Thomas, in July, at the college yesterday.

The Normal School is the training class of the London Conference, and plans were discussed at some length.

THE FIRST PRESIDENT.

Rev. A. J. Bowen, of the Egerton Street Baptist Church, left this afternoon for Hamilton to attend a conference of the Brotherhood of Andrew and Philip, Hamilton, Chapters.

Rev. Mr. Bowen is the first vice-president of the Canadian Council. A large number of delegates from Toronto and other points, are in attendance.

SCHOOL OF INSTRUCTION.

Nine officers for the different districts are holding a school of instruction at Wolseley Barracks. Mr. Watson, of the Seventh, is among the members. He was originally with the Queen's Own Rifles, and should make a very capable officer.

DEPUTATION HERE.

Messrs. Ed. C. Van Leyen, of Detroit, and J. W. Johnson, of Monroe, Mich., who are in this city looking over the heating plants of the city schools, were at Chesley avenue school this morning.

The regular meeting of Court Maple Leaf was held in the East End last evening, a large number attending.

Mrs. Arthur Bridle, of 765 Queen's avenue, is visiting in Toronto.

PREDICT FALL OF FRENCH REPUBLIC

Royalists Say Beatification of Joan of Arc Marks Downfall.

Paris, April 21.—Many royalist and clerical newspapers profess to believe that beatification at Rome yesterday of Joan of Arc marks the beginning of a movement which will overthrow the republic. The Gaulois says:

"At the moment when the destinies of France are threatened the church of Rome, which has been persecuted, calumniated and despoiled by the radical republicans, erects altars to the saintly girl who once saved France and our bishops pray for her intercession to cause another miracle which shall deliver and restore the fatherland."

The revolutionary branch of the Federation of Labor has issued a manifesto appealing to all workmen and Government employees to join in every form of violence to destroy existing society and create a new order of things "exempt from all authority."

Rome, April 19.—The Pope, responding today to an address by the Bishop of Orleans at the reception of a deputation of French pilgrims, thanked the pilgrims for their devotion and exhorted them to remain united. He said their reward would be the welfare of their country as it was religion that guaranteed order and prosperity in society and the interests of both religion and society were inseparable. The pontiff denied vigorously that the church desired the faithful to become enemies of their country. On the contrary, he said that love of country was stronger when it was united with devotion to the church.

Continuing, his holiness said: "To politicians who declare war on the church; to sectarians who do not cease to calumniate with a hatred worthy of hell; to the false paladins of science who try to render her odious by sophism, and to accusations that she is an enemy of liberty, civilization and intellectual progress, I reply boldly that the Catholic Church is the mistress of souls, the queen of hearts and the dominator of the world, because she is the wife of Christ. The depository of truth, she only can bring the people to veneration and love."

In conclusion the Pope felicitated the French Catholics who had enrolled themselves under the banner of Joan of Arc.

POWER PLANT IS COSTLY TO WINDSOR

Distributing Station and Lines According to Aldermen, Will Reach $125,000.

Detroit, April 22. — It will cost Windsor between $125,000 and $130,000 to build a distributing plant and lines to sell Niagara power, according to figures which Ald. Shepherd, chairman of the special power committee, has had in his possession for the last two weeks, but withheld from the council. This amount does not include the price per horsepower which the Government commission charges, according to the distance of the consumer from the Falls.

This price for Windsor was given at $38 per horsepower for amounts less than 5,000, so that Mayor Wigle figures the power would really cost $45 per horsepower, and the selling price would be even greater to private consumers.

"That looks like the end of Niagara power for this part of the country, for a while, at least," the mayor said when he heard the figures Wednesday afternoon. "The bonded debt of the city now is nearly a million and I know that the people would never bond for another $130,000, when they would save so little on the price of power."

O. E. Fleming, one of the backers of the private distributing company that figured on taking much of the energy, is more sanguine, and says the total cost would not be more than $40 per horsepower. He does not believe that the city will turn down the question if such proves to be the case, as the lowest record of the cost of generating electricity by coal is $52 a horsepower, and that in a New York city plant, that has every cost-reducing appliance known to man.

A special meeting of the power committee has been called for tonight to consider the figures, the direct result, evidently, of the criticism of Ald Shepherd by Ald. Bartlet for withholding the figures for so long. The power chairman explains that he was waiting for the blue prints, that did not arrive till Monday.

COUNT HITS SPRECKELS

Attache of San Francisco Consulate Resents Newspaper Attack.

San Francisco, April 21.—Count F. De Jouffroy d'Abbans, an attache of the French consulate here, created a sensation at the Pacific Union Club rooms at the crowded lunch hour today by punching John D. Spreckels because of attacks made on the French official in Spreckels' newspaper, the Call.

In this newspaper this morning an article was printed declaring that d'Abbans had been recalled much to the relief of the local French society and that he would "entrain for France immediately."

Instead of leaving the count went to the club and waited for Spreckels. When he appeared the count demanded an explanation of the attack on him.

Spreckels declined to discuss the matter and the count sailed in, landing right and left on Spreckels' face.

Spreckels replied with one blow that blackened one of the count's eyes; then the crowd rushed in and stopped the fight.

BRIBE RAISED IN VAIN

Collector Loeb Spurns Smugglers' $260,000 Offer To Shield Women.

New York, April 21.—For the purpose of shielding many women of social prominence in New York, Washington and other cities, the "smuggling syndicate" made another effort to settle with Collector of Port Loeb today. The original offer of $100,000 to drop the investigation of the smuggling of "sleeper" trunks containing $55,000 worth of Paris gowns was increased to $260,000, according to Mr. Loeb.

"The amount now offered the Government to drop the investigation and probable prosecution is $260,000," said Collector Loeb. "The amount represents what would be penalties of fully $200,000 above the appraised value of the goods. All offers have been refused. We want the smugglers."

Collector Loeb stated today that in the negotiations for the abandonment of the investigation started by him he had been approached by several reputable lawyers, but refused to reveal their names.

The collector does not believe that the women involved knew that their gowns were to be smuggled into the country, but had purchased them, like many Americans buy other goods abroad, with the understanding that they were to be delivered to them in America "duty paid" or "duty free."

BAD FIRE AT CARP.

Ottawa, April 22.—The general store of H. McElroy & Sons, Carp, was destroyed by fire last night, the damage amountings to $25,000 with insurance of $15,000. John Anderson, a clerk, had a narrow escape from being smothered. Had it not been for rain during the afternoon the whole northwestern section of the village would have been destroyed. Carp was partly wiped out by fire a few years ago.

CORRESPONDENCE.

Manual Training.

To the Editor of The Advertiser:

Ald. Saunders' shop is not a manual training workroom. Evidently from the way he speaks he has never been in a manual training workroom in his life. He gives one the idea that a manual training workroom is similar to a rough-and-ready carpenter's shop. Manual training, as taught in Sweden, Germany, America and England, is educational, and gives to boys a knowledge of mechanical drawing and putting into the concrete form that which the mind has previously conceived. It also teaches boys that the geometry and arithmetic that is being taught them in their class is going to be of great value to them in after life. ONE WHO KNOWS.

City and District

—At the annual meeting of the Local Council of Women on Friday afternoon and evening, the reports of the work of the several affiliated societies will be presented, and information regarding the coming International Council of Women will be given by the London delegates to the executive of the National Council, with whom rests the arrangements for the same. Already the names of representatives from 25 countries have been sent to the national secretary, and plans are maturing to enable these guests of the Canadian council to see as much as possible of the beauties of the Dominion before they return to their homes across the Atlantic.

Hatter—Pierce.

A quiet wedding was solemnized at the rectory of Christ Church on Tuesday by Rev. R. S. W. Howard, when Miss E. J. Pierce, of Alvinston, was married to Mr. Walter F. Hatter, of Exeter. Mr. and Mrs. Hatter will reside in Exeter.

Late W. T. Millson.

The funeral of Wilbert T. Millson, son of Mr. and Mrs. Caleb Millson, was held this afternoon to White Oak Cemetery from the family residence, lot 17, concession 4, Westminster. The services were conducted by Rev. Dr. McCrae. Master Millson was 9 years old, and died yesterday after an illness of three days with erysipelas.

Dominion Lodge Meets.

The regular meeting of Dominion Lodge, No. 44, of the Independent Order of Oddfellows, held last evening, was largely attended. Past Grand Patriarch Powley, of Kingston, was present, and gave an excellent address of a fraternal character. Bro. O. Munger, captain of the Mount Brydges degree team, was also present, and gave an interesting address on degree work.

Strathroy Initiation.

The members of Uniform Rank, No. 10, and degree team of the Woodmen of the World, in command of Capt. John Francis and Capt. F. Baillie, went down to Strathroy on Tuesday evening, and took charge of the initiation of a large number of candidates into th Strathroy Encampment. After conferring the degrees the London men were entertained most hospitably by the Strathroy members, and at a banquet many addresses of a fraternal nature were given. The London Woodmen returned home on the midnight train.

Crowder—Gibbons.

The wedding took place at Christ Church rectory recently of Miss Annie Crowder and Mr. Charles E. Gibbons, both of this city. Mr. and Mrs. A. Gibbons acted as groomsman and bridesmaid. Mr. and Mrs. Gibbons will reside in this city.

Coal Offices Close.

The various coal offices of the city will close as usual this year on Saturday afternoons during the months of May, June, July and August. This rule will go into force on the first Saturday in May.

Resting Quietly.

Mrs. James Gardiner, who was so severely burned at her home, 651 Richmond street, on Wednesday, is resting quietly in St. Joseph's Hospital, and her progress is most favorable.

Rodney's Oldest Resident.

Early yesterday morning Mrs. Mary Fleming, Rodney's oldest resident, died at the home of her daughter, Mrs. Jane Clark, Harper street, in her 88th year. Mr. and Mrs. Fleming came to Canada many years ago. Mrs. Fleming had been a member of the Kintyre Presbyterian Church longer than any person living at the time of her death. She leaves three sons—William, of Australia; James, of Woodstock, and John, of Aldborough; also two daughters, Mrs. Clark, of Rodney, and Mrs. Nickerson, of Tilbury. Mr. Fleming died 23 years ago. Interment will take place in Rodney cemetery on Friday afternoon.

Dr. Moulton's Lectures.

This brilliant, dramatic orator will begin his series of four Shakespeare lectures on Friday afternoon in St. Andrew's Hall. The historical plays of Shakespeare are more often slighted than the romantic plays, so that this week's series may be regarded as a unique opportunity. Dr. Moulton is regarded as an authority on many phrases of Shakespeare interpretation, and is known to all students through his two volumes, "Shakespeare as a Dramatic Artist" and "Shakespeare as a Dramatic Thinker." In old London this year "Henry V.," one of Shakespeare's history plays has had crowded houses, and preceded the play of "The Englishman's Home" in attracting recruits to the territorial army. Nothing ever written has more beautiful and patriotic passages than "Richard II.," the subject of Friday evening's lecture.

UMBRELLA THIEF ALLOWED TO GO

Citizen Did Good Work in Capturing Fellow Who "Pinched" the "Shower Stick."

Those who were around the police station yesterday afternoon were somewhat surprised to see a little short man coming down Carling street, hanging on tightly to a tall, lank young man, and talking to him excitedly all the way.

The little man pulled away at his prisoner, and finally led him up the stairs to Chief Williams' office, where he accused the young man of being an umbrella thief.

It seems that he left a handsome umbrella in the vestibule of the Public Library yesterday afternoon while he went in to change a book.

When he came out to get it a few moments later it was gone. He at once started off to the police station to notify the detectives, and while on the way overtook the young man who had stolen the umbrella. He at once walked up and claimed his property, and the young man made no attempt to deny that he had taken it.

The citizen was irate and dragged his man to Chief Williams' office, with the request that he be given a good talking to.

The chief asked the young fellow why he had taken the umbrella, but got no satisfactory answer, and after giving him a good lecture let him go.

Cafe-Library-Parlor Cars and Buffet-Library-Parlor Cars

are operated on principal day and night trains of the Grand Trunk Railway System to Toronto, Niagara Falls, Buffalo, London, Detroit, Chicago and Montreal, serving meals (a la carte). Remember the Grand Trunk is the only double-track line to above points. Full information and tickets at city or depot ticket offices. 45n

About 75,000 fox skins are sold out of Maine every year. Very few of the sly animals are shot.

It's Merely a Chance

If you buy a Watch without a reputation to back it.

There are jewelers who have no reputation to lose if they do not deal square with you. We have. You can depend on our word. Buy a SUMNER SPECIAL WATCH. They're perfect.

MR. D. A. M'DONALD LEAVING FOR WEST

Popular Young Lawyer Will Take Up Practice in British Columbia.

There was a meeting of the trustees of the Middlesex Law Association held in the court house on Tuesday, at which a resolution of appreciation of Mr. D. A. McDonald, was moved by Mr. T. G. Meredith, K.C. Mr. McDonald is leaving London to practice law in British Columbia. The resolution reads as follows:

"The board of trustees of the Middlesex Law Association desire to express their great appreciation of the services rendered to this board and the association by our able and courteous secretary, Mr. D. A. McDonald, who is leaving London to practice law in British Columbia, and to convey to him our best wishes for his welfare and happiness in that province, and that a copy of this resolution be sent to him."

The President, Dr. A. O. Jeffery, Judge Macbeth, Mr. Fraser and Mr. Flock, all spoke in very kindly terms of Mr. McDonald, and expressed a hope and a prophecy for his success in the new field of labor which he has chosen for himself. The motion was carried unanimously.

Mr. McDonald has for some time been connected as junior partner with the firm of Meredith, Fisher & McDonald, but has decided to sever his connection with the firm, and take up the practice of law in British Columbia. He will leave on Monday night to take up his practice in Fernie, B. C.

On motion of Messrs. Bayley and Fraser, it was moved that Mr. Perrin be appointed secretary to take the place that Mr. McDonald's removal leaves vacant.

A question was raised as to the books that have been lost, and the secretary was instructed to take such steps as were necessary to recover these books.

Those present at the meeting were: Dr. A. O. Jeffery, president, in the chair; M. D. Fraser, K.C.; Judge Macbeth; R. Bayley, K.C.; J. H. Flock, K.C.; T. G. Meredith, K.C., and D. A. McDonald, secretary.

Brantford license commissioners have decided to make an investigation of all hotels before granting licenses.

Goderich branch of the Lord's Day Alliance met Monday, and heard an address by Rev. W. B. Carswell.
