

CABLE CO. HAS BEEN SELLING BROKEN STONE FROM CONDUITS

Board of Works Takes the Stand That the Material From the Trench Belongs to the City—May Be Trouble in the Near Future.

There was a special meeting of the board of works at noon today to consider the question of who owns the broken stone being taken by the Insulated Wire and Cable Company, of New York, from the pavement on Dundas street. The company is laying the conduits for the water commissioners.

The contractors have been disposing of the dirt and broken stone out of the conduits to private parties, and Ald. Tancock was offered the broken stone at 30 cents a load.

Some of the members of the committee objected to the payment of any money for this material, and the meeting was the result.

The Question.
In opening the meeting Ald. Tancock pointed out that the question was whether or not the city owned the material or whether or not it belonged to the contractors.

If it belonged to the latter, it would be good business to purchase it at 30 cents a load.

The material in the trenches belongs to the city, declared Ald. Saunders. "We should have the say as to where it should go. Any refuse that is of no value should go to the break-water, and the broken stone should go on top of the trench to properly bind it, and keep it from sinking. We should not pay one cent of the citizens' money for what is rightfully theirs."

City Owns Material.
Mayor Beattie closely scanned the specifications, and found that the city had the right to the material, and on the motion of Ald. Saunders and Ald. Pocock, the company doing the work will be instructed to place the broken stone on top of the trench and properly fill in the excavation.

The company has been disposing of the stone, and there may be something of an interesting nature develop within a short time.

Those present at the meeting were Ald. Pocock, chairman, Ald. Saunders, Ald. Morgan, Mayor Beattie, Deputy Engineer Wright, and Secretary Baker.

DOG'S WILL SOON GO FREE
Muzzling Coming to an End

The dogs of London, which have been abused through the muzzling regulations for the past few months, are to be given a chance at last, as a result of the action of Ald. Morgan at last night's council meeting, when the police commissioners were requested to allow the dogs to be muzzled.

"We will no doubt follow out the recommendation of the council," said Chief Williams today, so it appears that unoffending dogs who have been made to suffer on account of the al-

COUNCIL WILL PUBLISH ROLLS
10,000 Copies of Assessment To Be Printed and Mailed to Ratepayers.

THE COST WILL BE \$800
Ald. Richter Carries His Point After a Long Drawn-Out Battle.

The assessment rolls were ordered to be printed by the council at its session last night. This subject, which has been agitating the aldermen for some little time, was finally disposed of, and 10,000 copies will be distributed throughout the city.

Ald. Morgan led the opposition to the movement, and declared that the whole agitation was for the benefit of insurance companies, loan societies, and that sort, and would benefit the poor people not a whit.

"The finance committee are quite willing to spend money for this sort of thing, but they will not allow us to have streets fixed," declared Ald. Morgan. "The citizens are protected, and they do not want the rolls published."

Copy For Everybody.
Ald. Saunders objected to the publication of the roll unless every ratepayer in the city was furnished with a copy. He had held out for that in the beginning, and he wanted assurance that this would be done.

Ald. Richter stated that every ratepayer would be furnished with such a copy, and it would be done at a cost less than \$800.

The chairman of the finance committee declared that the assessment had been increased one million dollars this year, because Assessment Commissioner Grant endeavored to equalize the assessments. The cause of this was the fact that he and the other assessors expected the rolls to be printed.

Ald. Rose stated that the Trades and Labor Council some years ago had requested the council to print the rolls, but the experiment was most unsatisfactory. He did not favor it now.

10,000 Copies.
As Ald. Richter, in his motion, did not state how many copies he would undertake to distribute throughout the city, Ald. Pocock moved that the roll be printed, and that 10,000 copies be distributed. Ald. Tancock seconded this, and it carried by a large majority.

On the yeas and nays being called for, Ald. Richter, Underwood, Eckert, Ashplant, Jeffries, Fitzgerald, Saunders, Pocock and Tancock voted yea, while Ald. Rose and Ald. Morgan voted nay.

FLING TAKEN AT DEPUTATIONS

No. 3 Committee Wanted to Go to Detroit to See a Fire Engine.

ONLY TWO WILL GO

City Council Decided to Send Only Chairman and Fire Chief to City of the Straits.

A fling was taken at deputations by the council last night. The recommendation of No. 3 committee, that they be sent to Detroit to inspect a \$800-gallon motor engine there, caused the debate.

"Send them this week," declared Ald. Stevenson. "There is a big fair on there."

"Early in the season they made a hue and cry against deputations," shot back Ald. Saunders. "I have no objection if they go at their own expense."

"I pay my own expenses," stated Ald. Ashplant. "I don't blow about it, either."

Pay Own Expenses.
Ald. Morgan wanted to pay plain that the aldermen should pay their own expenses.

"Is this a shopping expedition?" asked Ald. Morgan. "It seems funny to send four men to buy an engine. I would like to see them coming back."

"They all have passes on the Pere Marquette, and the expenses will not be great," declared Ald. Stevenson.

"I had a pass, but I sent mine back," retorted Ald. Ashplant sharply.

"It is time enough to send a deputation when tenders have been called for, and you know what points you have to be careful about in purchasing," declared Ald. Saunders. "The machine in Detroit may not be suitable. We should send experts."

Jeffries. Ald. Jeffries said: "We do not want to go," said Ald. Jeffries. "We are willing to do our duty, that's all. It is not right for Ald. Saunders to insinuate that we do not know anything about what machinery. I have had 18 years' experience with that sort of thing."

Ald. Morgan then moved that the deputations be limited to the fire chief and one member of the committee. Ald. Pocock seconded, and suggested that Ald. Ashplant, the chairman, name the man.

"We had better wait until we see what lines are offered us," said Ald. Eckert. "Of course, the fair is on in Detroit this week," he added pointedly.

Ald. Morgan's motion, to limit the deputation to the chief and one member, carried.

STREETS ARE BLOCKED
FIRE CHIEF COMPLAINS
Department Is Annoyed in Many Quarters Owing to Works Going On.

Fire Chief Aitken is complaining that a number of the city streets are blocked, causing the department some annoyance.

"The downtown streets are blocked, and it causes us a great deal of trouble," said Chief Aitken. "Not only that, but some of the outlying streets are blocked, and it is a rapid progress made as possible, in order that we be not held up in case of fire."

Deputy Engineer Wright stated that he was going ahead with his work with all possible speed.

CALL FOR TENDERS
FOR PRINTING ROLLS
Aldermen Object to Letting a Job Without Competitive Figures.

Some printing firms already are after the contract for printing the assessment rolls.

At a meeting of the council not long ago, the motion was made to let the contract. However, the council last night ordered the rolls to be printed.

A price was submitted by a firm in the city, and Ald. Richter, it is claimed, was satisfied with this.

Some of the aldermen, who were defeated on the question of printing the rolls, are opposed to awarding any contract without calling for tenders, however, and will move that the former motion be rescinded and that tenders be called for.

It will require a two-thirds vote to do this, but all the council are unanimous on this, and there will be no trouble now that the council has passed a motion to print the assessment rolls, to have a motion passed to call for tenders.

This will be done at the next meeting of the council, and all the printing firms of the city will have an opportunity to figure on the work.

SUMMER HOTEL BURNED
Four Thousand Dollar Blaze at Camp Sutton, Muskoka.

Bala, Sept. 20.—The summer hotel at Camp Sutton, Muskoka, was totally destroyed by fire yesterday afternoon. Only a few persons were in the building at the time of the fire, and all were got out safely. The cause of the fire is unknown. The amount of loss is \$4,000 and \$4,000. The building was insured for \$10,000 in the Liverpool, London and Globe Insurance. Mr. Richard Paterson was the proprietor of the hotel.

NEW WATER COMMISSIONER BIG BUSINESSMAN OF LONDON

Mr. John H. Chapman, the newly-appointed water commissioner, is one of the city's leading business men, and has been closely associated with the development of London for more than thirty years.

He is the son of Rev. William Chapman, a Methodist minister, well known in earlier days in Western Ontario.

Mr. Chapman was brought up in the city of London, and obtained his early education in the schools of this city.

In 1871 he entered the local mercantile establishment of James Eaton & Co., where his rise was rapid.

In 1878 he purchased the stock and went into business on his own account.

Since that time the firm of J. H. Chapman & Co. has been one of the leading drygoods concerns of this city, and is well known throughout Western Ontario.

In religion Mr. Chapman is a Methodist, and is one of the leading members of the First Methodist Church. He has recently returned from Vancouver, where he was a delegate to the Methodist General Conference. In politics he is a Conservative.

JOHN H. CHAPMAN.

"STATEMENT NOT VERY KIND" SAYS THE COMMISSIONER

Mr. Grant Points Out That the Work of Increasing the Assessment Where Necessary Has Been Going On for Years and That This Year's Work Is Nothing New.

Assessment Commissioner Grant had a little to say regarding the statement of Ald. Tancock, who had said that the publication of the assessment rolls had added a million dollars to the assessment during the year.

"The statement is not very kind," said Mr. Grant. "As I have been publishing this year, but at other times, we have not reached the limit of our assessment. In some places, where times have been so good, they have had to be retrograde, and assess lower, while we always have had a margin to work on. This year is no exception. As a result the increase was made without impairing our standing, or making us compare unfavorably with other cities. We still have a margin to work on. There may be mistakes in our department as in any other department, but our aim has been to make the assessment equitable to all parties concerned."

"We do not fear the publication of the rolls. I think they are being published for our own recommendation, and if we had anything to hide or were fearful, we would not recommend such a thing. The assessment is fair and just, so far as I can tell. The courts of revision, held from time to time, do not reveal any gross injustice."

COUNCIL NAMES A COMMITTEE TO CONFER FOR JOINT BUILDING

The board of works and the city architect were named a committee last night to draft an agreement with the county council regarding joint municipal buildings.

Ald. Tancock brought the matter up, and declared that the council should do something to see if an agreement could not be reached. He suggested that the city architect, the city engineer, and his suggestion was adopted.

This committee will deal with the matter immediately, and endeavor to draft a document that will meet with the approval of the county councillors.

MANY STUDENTS WRITE
ON NORMAL EXAMS.
Results Will Be Announced in a Few Days—Opening Monday Next.

The Normal School will open on Monday next.

The large number of students who annually attend this institution will move into the city towards the end of the week.

The list of probable students was not made known, as there are several names under consideration by the department of education yet, and they will probably be sent to the local institution.

Examinations for entrance are being held at the school today. About 25 candidates are writing, making up some work omitted during their course.

KAISER AT VIENNA.
Vienna, Sept. 20.—Emperor William arrived here today, and for two days will be here, and will be met by Joseph at Schoenbrunn.

THE WEATHER
Tomorrow—Fine.
Today—Moderate to fresh southerly with light rain, and moderately warm. Wednesday—Fine.

TAKE MORE INTEREST IN FAIR BEFORE TALKING NEW GROUNDS

This Is What Alderman Eckert Told the City Council at Meeting Last Night—Motion to Name a Committee to Go Into the Matter of a New Site Was Defeated.

"Let us give assistance to the fair. If we took more interest in it, and helped it more, it would be much better. Let us try that before we talk of larger grounds."

The statement of Ald. Eckert at the council meeting last night, created a deep impression, and is accepted as the proper attitude towards the Western Fair.

"The fair is a good thing for the city of London, and the merchants and citizens generally should stand behind it," declared Chairman Pocock, of the water commission.

A number of the directors of the fair when spoken to declared that Ald. Eckert struck the key to the situation, and that there would be no more criticism if the citizens and merchants did their duty by the Western Fair.

"Look at the way Toronto supports its fair," continued Ald. Eckert. "They spend the money, and they get the people. The directors spend a dollar to get a few more back. If the citizens stood behind the institution as they should we would have less room for criticism."

FREIGHT PLOWS INTO
GANG OF LABORERS
Three Men Killed Walking On the Tracks Near Tonawanda, N. Y.

Buffalo, Sept. 20.—A New York Central freight train this morning plowed through a gang of laborers walking on the tracks between Buffalo and Tonawanda. As a result three of the men are dead.

The dead were brought to this city. All three are foreigners.

The men had stepped out of the way of the passenger train coming toward them when run down by the freight.

CARTER WAS CAUGHT
WITH THE GOODS
With Two Others Found in a St. Thomas Grocery Store.

St. Thomas, Sept. 20.—Constable Robert Kirkland caught three men coming out of the rear door of C. J. Norworthy's grocery store, corner of Elgin and Wellington streets, early this morning, each laden with cuts and canned goods.

The constable succeeded in securing two of the men, but the third escaped. The arrested men gave their names as E. Carter, of Toronto, and C. Stevens, of Stratford.

TO PREVENT SALE
OF "ANCIENT EGGS"
Produce and Commission Men of Toronto Would Amend Pure Food Law.

[Special to The Advertiser.]
Toronto, Sept. 20.—The produce and commission men as a section of the Toronto board of trade, will make an effort at the next session of the Dominion Parliament to have an amendment made to the pure food law to prevent the sale of "ancient eggs."

An effort will be made to have the cooperation of all the men in this line of business throughout the Dominion. Within the last year several of the commission merchants have been gulled badly by farmers and country buyers, and they think that if some action is taken to stop fraud in connection with egg sales, producer and consumer will be much better satisfied.

James Madden, one of the most experienced produce merchants of the board of trade states that cases have been brought to the attention of the commission men where farmers have taken unfertilized eggs, after several days from incubators and mixed them with eggs shipped as "fresh." The commission men hope to have a clause in the pure food act that will make selling rotten eggs a criminal offense.

JUST RUMORS
Denial of Stories About Successor to Minister of Justice.

[Special to The Advertiser.]
Edmonton, Sept. 20.—"Nothing in it. Just newspaper gossip," was the comment of Mr. J. P. Mabee when questioned about a rumour that he was to succeed Hon. Mr. Aylesworth as minister of justice. Sir Louis Davies, judge of the supreme court, also denies that Hon. Frank Oliver is to be Premier of the Northwest Territories.

THREW AN AXE.
Ottawa, Sept. 20.—John Lewis Hull was tried this morning on a charge of attempted murder, and got off with a trivial fine of \$5. Lewis got into a row with a neighbor's wife, and ended up by throwing an axe at the woman. The axe missed the woman, but stuck in the side of a door.

HIT BY A BRICK.
Toronto, Sept. 20.—The new wing under construction at the Parliament Buildings was the scene of the fifth accident to date this morning, when Andrew Shand, 277 Margaret street, was struck on the head by a falling brick, and knocked unconscious.

Shand was taken to the hospital with a bad scalp wound.

Not Ready Yet.
The council did not take kindly to the suggestion that new property be secured.

Ald. Tancock brought the question up, and moved that Ald. Eckert, Fitzgerald and Morgan be a committee to confer with the Western Fair board to consider the advisability of securing new grounds for the fair. Ald. Pocock seconded it.

"I think this is a whole lot of rot," declared Ald. Saunders. "Have we more to waste in the buying of property? We have no money to buy property. The grounds were plenty large enough this year to hold the grounds. There is plenty of room for five years. We have not enough money, nor anything like it to move buildings. Let us not add any more burdens to the people. Let them rest for a little while."

Ald. Richter also took a fling at the proposition, stating that it would be folly to attempt to move \$100,000 worth of buildings at the present time.

Ald. Tancock's motion was lost 5 to 6.

WAS DEATH DUE TO PAIN IN HEAD

Deline Cannot, However, Account For Injuries On Body.

ROW WITH WOOD RANGER
He Had Taken Meal at Woman's House and Refused to Pay For It—Words Ensued.

Peterboro, Sept. 20.—No clue has yet been found as to who was the murderer of Mrs. Hugh Deline, whose lifeless body was found in the woods at her home in Belmont Township on Thursday night last by her husband, Hugh Deline.

The mystery remains as deep as ever. Deline states that he arrived home about 8:30 p.m., and that he at once ran to the home of Mrs. Samuel Newell, which is about fifteen minutes' walk away. It is said, however, that he did not arrive at Newell's until ten o'clock, but there seems to be some uncertainty as to the time.

Why Did He Delay?
He notified James Buchanan on the other concession about twelve o'clock, and the coroner at Hawke's next morning. The husband attributed his wife's death to the effects of a pain in her head. It seems he had told the neighbors that she suffered a great deal from these pains, and remarked that he did not know any night and find her dead. He said that he can give no other explanation for her sudden death. The Deline house is some distance from the road, and the farmers in the vicinity saw very little of the family, but as far as they know, their family relations seemed to be happy.

The facts of the case are that on Thursday night Hugh Deline left his farm of James Buchanan, with whom he had worked during the day. He arrived home, according to his own statement, at 8:30 o'clock. He found his wife dead, and at once ran to Mrs. Sam Newell's, a fifteen-minute walk, but it is stated he did not arrive there until ten o'clock.

NEW YORK PRIMARIES
Elections Being Held in Buffalo and Other Cities Today.

New York, Sept. 20.—Primary elections are being held today in Buffalo and in cities of the second-class throughout the state. Voters of both parties are balloting for delegates to the various conventions in the districts and getting in motion the machinery by which the delegates to the state conventions will be chosen.

In this feature of the primaries interest for the general public rests, the Republican primaries in particular having a strong bearing upon the "progressive" elements in the party, the latter led by Theodore Roosevelt for control of the Saratoga convention.

Democratic contests in the various cities were largely confined to leadership battles.

DRUNKS APPEAR BEFORE
MAGISTRATE BEATTIE
His Worship Dealt With a Number of Offenders This Morning.

Louis Gailhaur, who pursues his way about Carling street station in a manner that smacks of familiarity, occupied the box at the police court this morning. The same old charge, drunk and disorderly, was chalked up against him, so Magistrate Beattie asked a remittance of \$10.

Louis did not have any stray cash in his "pockets" so he will be given an opportunity to contemplate the walls of Castle Carter for the next three weeks.

A drunk, who has been in the jail on remand for the past week, was discharged this morning. A young man, who rode his wheel on the sidewalk, was fined a dollar. Another charged with the same offence will appear tomorrow.

The court was found guilty of being drunk and disorderly and was fined \$3, with the option of a ten-day stay. Two drunks pleaded guilty and were discharged.

LONDON, TUESDAY, SEPT. 20.

THE HIERARCHY AND THE LANGUAGE QUESTION.

Archbishop Bourne's remarks on the language question at New York yesterday indicate the broad, general policy which the Roman Catholic Church has determined to pursue in this country.

The archbishop contends that the church can reach the great new English-speaking population of the west only by identifying itself with the English language. He enunciated these views at the Eucharistic Congress, and was challenged by Mr. Bourassa, who professes to think it is the duty of the church to propagate and perpetuate the French language and French-Canadian traditions and ideals in all parts of the country.

There will be no attempt to undermine French influences in the province of Quebec, where they are one with the church, but in the English-speaking provinces the Vatican will not encourage the particularist principles championed by Mr. Bourassa. To do so would give the church an alien aspect which would impede its work in the English-speaking "bioc." It looks as though the recent appointment to the Archbishopric of Ottawa was an assertion of the Anglicizing policy. The Bishop of London is credited also with pronounced opinions in this direction.

There can be no doubt that the course of the church is the far-sighted one in its own interests. It will conduce also to national unity. Any problem involving a racial element is an extremely delicate one in this country, but the diplomacy of the hierarchy is not its weak point.

A NOTABLE GATHERING.

While the attention of the English-speaking world was fastened on the Crippen case, a really great event passed almost unnoticed.

This was the Inter-Parliamentary Congress at Brussels. Every parliament in the world was represented, and some of the foremost statesmen of Europe were active participants. The sole purpose of the congress was the promotion of international amity. It dealt in something more than generalities, the delegates addressing themselves to practical questions, such as the crucial one of the "right of capture" at sea. It was a matter of regret to the British representatives, with a single exception, that Great Britain had always refused to abandon the right to seize merchantmen flying the enemy's flag. Successive British governments have taken the position that the unrivaled British fleet must be permitted the fullest exercise of its offensive powers. One of the quickest means of ending a war is to paralyze the enemy's ocean-borne commerce. But this rule works both ways. Great Britain has more merchant ships on the ocean, and is more dependent upon her merchant marine, than any other nation. She would be starved into surrender if she lost the command of ocean highways, and if the enemy could effectively blockade her ports. But if her merchant ships were exempt from seizure and could carry foodstuffs to her shores in time of war, she would be far less vulnerable and would not have the same need of an overwhelming navy.

Lord Weardale, the head of the British delegation, admitted that so long as Great Britain persisted in claiming the right of capture, Germany would be justified in providing battleships to defend her merchant fleet. The inconsistency of the British position is recognized by a growing body of opinion in Great Britain, and a powerful group in the British House of Commons is pledged to press for the removal of the chief cause of ruinous naval expenditure.

A NEW MAGAZINE.
Mr. Peter McArthur, journalist, novelist, humorist, whose clever contributions to many leading Canadian newspapers and periodicals have won him a personal following, has launched a magazine of his own, and the first number of "Ourselves," which also carries the happy sub-title "For Cheerful Canadians," is filled with the charm that marks all Mr. McArthur's writing. As the name indicates, the object is to establish intimate relations between writer and reader, to find out what is worth while in the everyday life. As to politics to learn all there is in Canada to command love and loyalty will be the sole aim. Problems of real interest are tackled in a homely, wholesome

way, and the clean joke is not lacking. The contents of the first number are sufficiently varied to cause widespread interest. Notable in the list are "Pioneer Log Barn Raising," a delightful reminiscence; "Jim Cook's Vote," a good-humored rap at the party spirit, and "A Moral Bully," a happy satire on hypocrisy.

Mr. McArthur, who has recently returned to farm life at Ekfrid, after a long and distinguished journalistic career in New York and London, is in sole charge of the new monthly, which is published by the Ourselves Publishing Company, St. Thomas.

THE LAKE LEVELS.

The project of a dam at the mouth of the Niagara River as a means of deepening the water of Lake Erie and thereby improving all its ports, has for some years been urged by shipping men of the United States, but the International Waterways Commission, which has had the matter under consideration, has come to the conclusion that such a dam would do more harm than good.

In its report the commission declares the effect of constructing a dam at the point named would be to raise the low-water stages of Lake Erie about one foot, those of Lake St. Clair 0.61 foot, and of Lakes Michigan and Huron about 0.27 foot, but the high-water stage would not be at all affected. These are all the advantages that could be expected from the carrying out of the proposed work.

On the other hand, the commission finds that a dam would increase the oscillations in Lake Ontario by five and a half inches—that is to say, low water would be made lower by about four and a half inches. The effect of this would be to reduce the levels in the St. Lawrence canals by about 7.66 inches. This would be detrimental to navigation. It is pointed out in the report that in weighing these advantages and disadvantages it is to be remembered that the persons who are to benefit by the former are not identical with those who are to suffer by the latter. If the advantages and disadvantages could be equally distributed, the commissioners are inclined to think that the former would outweigh the latter, and that the expediency of the undertaking would be a question of cost. They believe, however, that the advantages to be gained are not of such an overwhelming character as to justify the undertaking with its intricate and often damaging effects.

On the whole the replies to Father Vaughan have not reduced the area of disturbance.

It is to be hoped Mr. John H. Chapman can see his way to accepting the council's tender of a seat on the waterworks board. The city's affairs call for men of his caliber.

From different sources, we learn that the tariff policy of the Ottawa Opposition is "adequate," "modified," "reasonable," and "qualified" protection. From which we don't learn very much.

The Winnipeg Telegram estimates that the prairie provinces have yielded 231,000,000 bushels of grain this year, worth \$166,000,000. The country will scarcely feel a crop "shortage" of these dimensions.

For the first time, the automobile industry in the United States is feeling a touch of depression. This may not foreshadow a dull spell in business generally, but it will be a hard blow at the city of Detroit, where 60 per cent of the automobiles are made.

The Victoria Colonist, the leading Conservative paper of the coast province, says that Canadian imperialists are misleading the mother country who tell her that the disruption of the empire can be prevented only by a preference on Canadian wheat. A marked copy of the Colonist should be addressed to Sir James Whitney.

AT A CITY DESK.
[H. Greenham in the Pall Mall Magazine.]
Southward over the sunlit sea,
Out of the aqualor, and soil and delour—
Come, some fairy, and set me free.

Bid me wander anywhere yonder,
Done with cities and dust and din;
Give me doing and swift pursuing,
A life to lose and a world to win.

Aspens quiver by lake and river,
And every leaf has a call for me—
And every flower, and cloud, and shower,
And secret bower and lonely tree.

Then let me daily by dale and valley,
By velvet meadow and woodland way;
Set me afloat in a plunging boat,
With sea-room out in the windy bay.

Set me glowing where gales are blowing
Free from heaven on combe and crest;
Give me the tussle of taut young muscle,
The mountain inn and the ingle rest.

Put me astride of a horse to ride,
And give me stars and a rolling plain;
Send me laughter and strife—and after
Let me pay, if I must, with pain.

O to shatter the things that matter—
Hey for the revel and roundelay!
O for roving, and life, and loving!
Ho for youth and a year of May!

DEMONSTRATIVE.

Old Lady (speaking of her late husband)—I mind the last time we was out together, and he turns round and says, so kind-like, "Come along, ole dragg-tail!" he says.

H. M. S. LION.

[Providence (R. I.) Journal.]
She will be able to manoeuvre all around any German or American ship now in commission, as is known to be planned. Indeed, there is no war ship elsewhere in the class with the Lion, and no ship which could claim in advance a fighting superiority in a clash in the open sea. It is said that a dockyard painter scrawled on the Lion's bow, when launching arrangements were completed,

"Omnes veniant," which perhaps means "Let 'em all come on." The Latin suggests that the painter's challenge may have been inspired from higher quarters. Only a single ship, the Indefatigable, marks the step from the Invincibles to the pair of Lions, so that these latter may be called "surprise ships." The Mistress of the Seas is still setting the fashion.

RACE FOR WORLD TRADE.

[New York Herald.]
The Board of Trade issued yesterday the trade figures for the chief countries of the world during the first six months of the year. They are as follows:
Six months' imports: Increase over 1909.

	1910.	over 1909.
United Kingdom.....	\$79,141,000	\$24,042,000
United States.....	166,735,000	17,153,000
Germany.....	194,077,000	24,828,000
France.....	205,427,000	4,279,000
Belgium.....	133,290,000	6,974,000
Six months' exports:	71,946,000	6,249,000

Increase over 1909.
United Kingdom.....\$20,558,000 \$27,652,000
United States.....163,319,000 1,951,000
Germany.....190,777,000 24,828,000
France.....199,015,000 9,477,000
Belgium.....53,629,000 4,633,000
In the race for the world's trade Great Britain is easily first. The Board of Trade statistics reproduced above show that the increase in British exports, notwithstanding the high protective policy of most other countries, is far greater than the increase in American export trade. This significant fact should dampen the enthusiasm of the English high protective organs, which have been wailing that British commerce is being killed by free trade. Evidently they are "waking the wrong crockery."

SOILED CROCKERY.

[Pittsburg Post.]
His wife's away, and he today
Bemoans his fate and wishes
He hadn't let the total get
To 7,000 dishes.

WHY HE WAS EXCLUDED.

[Kansas City Times.]
A friend of James Whitcomb Riley tells of an occasion when, who usually disliked social functions, was induced to attend a "literary" dinner in Indianapolis, given in honor of one of the novelists who live there. Mr. Riley had been told to take in a sister of the host—an excellent woman, but not literary.

The conversation touched upon the beauties of Chaucer, about whom a certain set of the city were then cultivating a fad. A spirited discussion ensued, during which the bewildered sister caught from time to time only the name "Chaucer." At last she whispered to Mr. Riley:

"Who is this Mr. Chaucer they're talking so much about? Is he very popular in society?"
"Madam," solemnly responded Riley, "that man did something that forever shuts him out of society."

"King" Better Than Emperor

There has been outspoken disapproval of the suggestion that the title of his majesty should be changed to "Emperor of the British." Many will read with great pleasure an article by Mr. G. K. Chesterton, in the London News, wherein he sets out the real nature of the kingship, and shows how infinitely superior it is to that of an emperor. He points out the origin of the title emperor. As every school boy knows the Romans had emperors, and it is from this that the modern term emperor comes. The emperor was commander-in-chief of the army. When one emperor died the soldiers hailed their favorite general as his successor. It was purely a military title, implying only the chieftainship of the armed forces of the state. Coming down to later times we will find Chesterton tell his own story. He says:

"The really patriotic peoples, like France and England, had kings—when they did not have republics. Emperors were always left for the unpatriotic peoples—collisions and confusions of tribes who seemed incapable of spontaneous unity. Whenever some soldier of fortune managed by brute force to get after all the Goths and Huns and Iberians behave itself for a month, he felt that he was reviving the Roman Empire; and, with rational truth and very proper modesty, he called himself emperor. The emperor was a colonel reading the riot act, a soldier forcing peace upon a miscellaneous Europe. He was, with these unhappy men (perhaps the unhappiest of all modern men) who have

"Mercy!" exclaimed the worthy woman, "what was it?"
"He died several hundred years ago," said Riley.

DEAR OLD SOUL.

[Tit-Bits.]
It was her first voyage, and the old lady took a keen interest in the working of the big liner. The vessel had not long left port when she slowed down.
The ship appears to be stopping, captain. Why should we stop here?" asked the old lady, in some anxiety.
"To let the pilot off, ma'am."

"Do you mean to say that the pilot does not go with us all the way, and direct the course, captain?"
"That's what I mean, ma'am."

This gave the questioner food for thought. Presently she smiled, as if struck by a bright idea, and she added: "How silly of me! Of course, after the pilot has set the rudder pointing in the right direction there's nothing more for him to do, so he goes."

GOOD NEWS.

[Chicago Record-Herald.]
A Scotchman has invented a device whereby a housewife can lay watered automatically for a week. For the man whose wife keeps a rubber plant the outlook is growing bright.

GENERALLY.

[Chicago Record-Herald.]
The man who says he wants you to understand that he is a gentleman generally looks as if he didn't expect you to believe him.

A MATTER OF PLANES.

[Chicago Record-Herald.]
"Life is on a much higher plane than it used to be."
"Yes. Which do you prefer—bi or mono?"

THE CURSE OF COWDRAY.

[London Daily News.]
Cowdray, once the estate of the Earls of Emsay, and now in the possession of Lord Cowdray, has been known as Sir Westman Peerson's, is the subject of a very interesting superstition. Shortly after the dissolution of the monasteries, Cowdray was conferred upon Sir Anthony Browne, the father of the first Lord Montague, who had already been given Battle Abbey as a reward for his services to Henry VIII. The story goes that Sir Anthony, who had destroyed the church and the cloisters in Battle Abbey, was visited in the great hall as he was holding his first feast, by one of the dispossessed monks, who, after solemnly cursing him, prophesied that his family should perish by fire and water.
Two centuries and a half later the prophecy was tragically fulfilled. In 1783 an enormous fire destroyed by the and within a week of that disaster the last Lord Montague lost his life in Germany in an unsuccessful attempt to shoot the falls of the Rhine. Queen Elizabeth paid a visit to Cowdray, and she was engaged in a deer-stalking expedition with the Countess of Kildare.

A king means a nation; an empire means the absence of a nation. The ruler of Austria-Hungary has to be an emperor; what else can he be? There is no solid and fighting people that he can rely on. He cannot be a father to one people; he is forced to be a grandfather to a great many. The French never called themselves emperors, and that brief interval when they were an empire—their trying to rule a European chaos. The English never called themselves emperors, and that brief interval when they were an empire—their trying to rule a European chaos. The English never called themselves emperors, and that brief interval when they were an empire—their trying to rule a European chaos.

PROUD TO CALL HIMSELF AN ENGLISH CATHOLIC

Father Vaughan Replies to Statement of the Bishop of London.

Winnipeg, Sept. 20.—Striking a high imperial note, which produced a throb of response from the large crowd which gathered in Winnipeg to hear him, Father Vaughan has left behind him a message which will be inescapable in the memories of those who heard it.

"The Anglican Bishop of London," he said, "stated the other day that as he was an English Catholic, he could not be a Roman Catholic. I tell you that, as I am an English Catholic, I must be a Roman, and what I am, my family have been for 1,500 years. I am proud to be an English Catholic today, standing upon this platform, to tell you Canadians how dear is the English flag to Catholics, and to tell you that their patriotism is the fairest bloom that rises out of the lap of their religion."

I hope that every Catholic will show himself to be true to the mother country, to see that the British flag keeps flying, and in a clean atmosphere. I believe so strongly in Catholic loyalty and patriotism," concluded the speaker, "that if our empire were to lose her prestige, and through any mistaken folly, were to come to decay and decay, I believe that the last shot that would be fired in her defence would be fired by an English Catholic."

WHAT WINDSOR WANTS.

Windsor, Sept. 20.—A joint petition from the city council and the board of trade is being prepared to be presented to the government for a new Federal building and dock. Emphasis is to be placed upon the necessity for the latter. From the assurances given by Mr. Pugsley while here, the members of the city council and board of trade are confident the memorial will be acted upon at once, and that Windsor will have the dock next year.

WINDSOR DEPUTATION SCORES SUPT. ROGERS

And Demands That Constables Mahoney and Campeau Be Taken Back.

Windsor, Sept. 20.—"Detective Charles Mahoney carries several bullets in his body as the result of brave discharge of his duty. I defy even the X-rays to discover anything of the kind around the anatomy of Detective Joseph Rogers," declared Mayor J. W. Hanna, who last night headed an influential deputation who waited upon Hon. Dr. Reaume to urge in the public safety the immediate reinstatement of the suspended detectives, Charles Mahoney and A. F. Campeau, who had protested against the actions of Superintendent Rogers in his conduct of the recently "reorganized" provincial police.

The deputation was headed by His Honor Judge McHugh, ex-Mayor John Davis, ex-Mayor O. E. Fleming, Police Magistrate C. J. Leggett, Chairman J. A. H. Campbell of the school board, President W. J. Kennedy of the board of trade, ex-Ad. J. H. Connelly, and Dr. G. R. Cruickshank.

The speakers severely condemned the police administration of the new superintendent. It was casting ridicule upon an important branch of the public service from the public standpoint. They declared that the best service of the suspended officers was of detective character, and they had long and worthy records. The Rogers regulations were characterized as "absurd and a propaganda of egotistical egotism which was injuring the entire department." Windsor, Walkerville, and Sandwich, with a combined population of 20,000, suffered all the dangers of a metropolis of 500,000, owing to the border line proximity of Detroit.

"Public feeling is running high because public safety is concerned," was the mayor's comment.
Hon. Dr. Reaume promised to lay the matter fully before Hon. Mr. Poy, the attorney-general.

KING AND PRESIDENT.

London, Sept. 20.—King George has sent a cordial message of welcome to

CHAPMAN'S Grand Millinery Opening

IS ANNOUNCED FOR

Wednesday and Following Days
Sept. 21, 22, 23, 24

Our grand Fall Millinery display makes its bow to the public Wednesday and following days of this week. The last word of Fashion's approval in new Millinery. Not for many seasons have we shown such lovely Hats, whose salient features are entirely new—not modifications borrowed from last season. We make our invitation as pressing as possible for every woman within reach of this advertisement to come during the opening days and view the showing, that, in our mind, foretells a very busy season.

Ladies' Ready-to-Wear Apparel will be on exhibition during the opening days.

Shipment of Old Bleach Linens Has Arrived

Here is the linen of olden days. It is genuine "Old Bleach," with the wear and tear of a lifetime in it, whitened by the old-world method of sun-bleaching. "Old Bleach" is made today as linen was before the world was in a hurry—by careful weaving and natural bleaching.

Ladies who have not experienced the luxury of "Old Bleach" Linens should see this new shipment of Huck Towels, Guest Towels and Towelling, Fancy Hucks, Table Cloths and Napkins.

Old Bleach Guest Towels

PLAIN AND FANCY HUCKS, with fancy borders, with place for monogram. Size 14x22. At 30c each, \$3.00 per dozen. 25c each, \$2.75 per dozen.

MYSTERIOUS MURDER OF HANDSOME SENORA

Thirty Knife Wounds Kill a Woman Whose Life Had Been Eventful

Paris, Sept. 17.—A mysterious murder was committed at the village of Vallauris, near Grasse, last night. The body of Senora Corradini, a beautiful young woman, was found lying in front of the residence of a wealthy farmer named Cotta. She had received 30 knife wounds.

Mystery surrounded Senora Corradini's life as well as her death. She was found on the steps of the foundling asylum at Oneglia, across the Italian frontier when only a few months old. Notes to the value of \$150 were pinned to her dress, and a card bearing the words, "For Nina." She was known only as "Nina" at the asylum, where she lived until 18 months old, when she eloped with an Italian workman named Corradini, who was employed at the institution. The couple settled at Vallauris, where Cotta, who is a widower with two children, fell in love with the woman. She complained to the village priest a few days ago regarding his attentions.

Nothing is known concerning Senora Corradini's movements last night. She left her home without her husband's knowledge. When her body was found this morning she had been dead several hours.

Cotta was found lying on a bed in one of the rooms of his residence, shot through the chest. He says that he heard shrieks for help, and when he rushed to the street a man fired at him.

PLANE MUST POISE

Severe Conditions Imposed by Australian Government on Aviators.

London, Sept. 19.—The award of \$25,000 offered by the Government of the Commonwealth of Australia for the best military aeroplane has resulted in forty-one persons entering the competition. Six of the entries emanated from Great Britain, but these will be declared invalid unless the entrants are prepared to build their machines in Australia, and have them tested there. The conditions imposed by the Commonwealth authorities are necessarily severe. The entries are being scheduled, and after they are submitted to the minister of defence, they will be referred to the district inventors board of the various states.

One condition which, it is believed, would render the competition abortive, related to poising, for, from the point of view of military usefulness, it is imperative that a military flying machine shall be able to poise, so that observations may be taken from it. The original condition in this respect, however, has been modified. Wherever the tests are made, an area half a mile square will be marked out, and the machines will be required to turn within that area, travelling at such a speed that observations may be taken by those aboard.

BATH TUBS IN EUROPE

Hotels of the Old Land Are Installing Modern Conveniences.

London, Sept. 19.—A few years ago up-to-date bathrooms and other conveniences in hotels in France, England and Germany were rare. Elevators, or "lifts" as they are termed in England, and "ascenseurs" in France, were few and far between in hotels in those countries, with Germany added. There was no system of heating apartments, and the often badly burning grate fire only heated for a distance of a few feet from its immediate vicinity.

In former days, too, when a guest desired a bath, an arrangement very much resembling a large saucer was lugged into the room by a servant, who then brought in hot water in buckets until the "saucer" was filled. By the time you had finished using one of these wretched contrivances half the water had splashed on the floor and you had but partly bathed. The entire arrangement was barbaric. Nowadays, however, it is quite the usual thing to find bathrooms with hot and cold running water, stationary washstands, and other sanitary conveniences, attached to rooms in hotels in France, England and Germany. The new hotels are all built with these improvements, while the older establishments are installing them as quickly as possible.

NOT ENOUGH "JUICE" FOR INCUBATOR BABES

Electricity Was Turned Off at Fair Grounds and That Caused Death.

Louisville, Ky., Sept. 20.—The trial of Dr. H. J. Snyder and his wife, of Pittsburg, Pa., on charge of exhibiting for gain or reward children under 16 years of age at the state fair grounds, will be held to-morrow morning at 10 o'clock in the court of Magistrate Dacher.

Following the death of all three children that were exhibited in the "baby incubator" at the fair within the past three days, both Dr. Snyder and his wife were placed under arrest last night pending an investigation by the local authorities. When captured Dr. Snyder was in Jacksonville, Ind., waiting a telephone call from his wife, who was still with the state exhibit at the fair.

Physician Explains Deaths.

There are two charges against the pair for four separate days which they operated the "incubator" at the state fair. They gave bond to the extent of \$300.

The three babies were buried today in the Cave Hill Cemetery at the expense of Dr. Snyder.

Dr. Snyder said: "My arrest has come entirely through misguided sentiment. I am not exhibiting these babies for the mere pittance that I ask as an admission, for I would be a fool to do so. I have bought this machine from the Pennsylvania Infant Incubator Company and am trying to introduce it to the public."

Blames Fair Officials.

"As far as the babies having been mistreated or neglected, that is all foolishness."

"The only possible cause for the death of these three babies is that the

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

electrical current at the state fair was not sufficiently supplied to me. You see, I arranged with the state fair people to have the current turned on all night, but Tuesday night it was shut off and from that time the babies began to sink."

MURDER AT DELINE DUE TO SHOCK

Provincial Police Investigating Mysterious Death on Farm.

Toronto, Sept. 19.—Provincial Detective Henry Reburn has been sent to Havelock by Superintendent J. Reburn to investigate the death of Mrs. Deline, who was found dead in her house. The provincial police are satisfied from the report of the crown-attorney that death was due to shock, resulting from an attempted assault by someone yet unknown.

LOGUE ON SUFFRAGETTES

Noted Cardinal Does Not Approve of the Shrieking Sisterhood.

Toronto, Sept. 20.—Cardinal Logue, of Ireland, is not a supporter of the suffragette movement, according to his views expressed to a gathering of young ladies at Loretto Abbey yesterday. He said that there were a great many theories in regard to the education of young ladies. He did not believe in throwing them into the world to struggle against those of the opposite sex. He had no objection to the highest cultivation of talent. Women had been given a high mission. When their duty came in this world, said his eminence, "had been done by good, faithful, well-trained women."

The character of young women should be carefully formed, and they would shed beneficent influence wherever they went.

In Britain women were struggling for political power, to become members of Parliament and prime ministers. Christianity had raised them to a high position, and they received every respect from those with whom they came in contact, but if the system of co-education were continued, and they were permitted to take part in public affairs, he doubted if they would continue to hold the place which they at present occupy.

A TRURO TRAGEDY

Woman With Drunken Man Has Her Throat Cut.

Truro, N.S., Sept. 20.—A woman dead with her throat cut, and a man lying by her side in an alcoholic stupor and bleeding from several wounds, was the shocking discovery made in a house on Fountry Hill.

The name of the woman was Mrs. Maud Wright, and of the man, Stephen Perry. Both are oil-repellers and are said to have been living together for some time. Both were drunk on Saturday night. These are about all the facts so far known to the police, who have Perry under arrest.

Perry is not seriously injured, but between his wounds and his intoxication has not yet been able to make any statement.

It was first thought that it was a case of murder and attempted suicide, but it is generally believed that the two got into a drunken quarrel, and that Perry received his wounds from the woman before he overpowered her and cut her throat.

EXPERTS ON THE WEST

A party of American agricultural editors, touring the West, arrived in Canada with Herbert Vanderhoof, of the Canada West Magazine. At Edmonton the visitors were received by President Hays, of the Grand Trunk, who provided them with a motor car. They told Mr. Hays that they had enjoyed the trip over the Grand Trunk Pacific, which traversed a fine district showing good crops of wheat, oats and hay in Alberta, Saskatchewan and Manitoba. They were good and out of sight with every evidence of prosperity in the new towns. They spoke with enthusiasm of the excellent character of the road, the fine scenery, the pleasant fare at meeting them and asked them to come again. Arriving at Winnipeg they expressed themselves to the representatives of the press most enthusiastically. "I was the only member of our party who had seen Western Canada. I had been away four years, and was amazed at the growth of the towns and cities, especially at Edmonton, Prince Albert and Saskatoon. Western Canada is all right, and we found the farmers everywhere thoroughly satisfied."

Clarence B. Strow, managing editor of Farm Life, and the National Fruit Grower and Gardener, Chicago: "Practically everywhere we went we found fine crops and thoroughly satisfied farmers."

A. W. Fulton, editor of New England Homestead, and American Agriculturist, said: "The trip has been a revelation and an education. I have read all that ever came my way about Western Canada, but must admit frankly that I was utterly unprepared for what I saw. I am now armed to speak from first-hand experience in answering the great number of questions that are constantly asked down our way about actual conditions in the Canadian West. I have nothing but good to report, and particularly as to the success of the American settlers in every part of the west that we traversed."

Frank C. Moorehead, of the Iowa Homestead, Wisconsin Farmer, Farmer and Stockman, Des Moines, Iowa, and an enthusiastic "home" man, never seen finer crops anywhere. I was particularly interested in the Melfort district, where several hundred Iowa farmers have settled. Without exception they have been successful, and everyone of them is thoroughly satisfied. I can only have one answer to anyone inquiring about Canada, and you know what the answer is."

J. E. Montgomery, editor of the Farmer Magazine and Rural Weekly, Omaha, Nebraska, said: "The Americans are not leaving Canada. They are coming, and more than ever will come."

As a rule they are good farmers, which is one of the reasons for their invariable success. This has been a season of seasons to show up bad farming, and for that reason, the "invariable" conditions in certain sections are by no means an unmixed evil. Thousands of farmers have learned a lesson by which they will benefit in future."

Mr. Parke West, land department, Chicago Record Herald, declared with enthusiasm: "Fine crops and prosperous, satisfied farmers, tell the story why there is no truth in reports of American settlers leaving the country. We shall all have the best of reports to make to all inquiries, and our paper alone has hundreds of them at a time."

DR. HARRIS SUICIDES.

Cartersville, Ga., Sept. 19.—Rev. Dr. Sunday H. Harris, husband of Mrs. Cora Harris, who wrote the story of "A Circled Rider's Wife," recently published in the Saturday Evening Post, committed suicide today by taking morphine at Pine Log, a health resort near this place.

Made in 90 different styles.

"Ideal" Metal Bed beauty is much more than surface-deep. The smooth, glossy, snowy finish lasts. It keeps its looks in the home; not merely looks pretty in the store. Thus "Ideal" Metal Beds do not become shabby; they wear well; and you get far more satisfaction for the price you pay than you could from an ordinary bedstead.

Pay as little as three dollars, or much more, for your "Ideal" Metal Bed; and whatever you do pay, you buy identical quality. There is but one grade of "Ideal" excellence. That is why we guarantee every "Ideal" Metal Bed. You will find the Guarantee label on the footrail.

Look for it. It is worth your while to look for it. So it is to send for "The Philosophy of Sleep," an attractive little book that is mailed free if you ask for Booklet No. 122.

THE IDEAL BEDDING CO. LIMITED
MONTREAL - TORONTO - WINNIPEG

Dr. Harris, who held a responsible position with a Nashville publishing house, was at Pine Log for his health.

HYMNS BEST SELLER

Four Hundred Thousand of New Anglican Books Sold Last Year.

Toronto, Sept. 20.—To the new Anglican hymn book falls the honor of having the largest sale of any single book ever had in Canada in one year. Statistics just to hand show that 419,691 copies were sold during the first year it has been in use. When the new hymnal of the Canadian Presbyterian Church was put out, but 266,000 copies of it were sold in the first year. The showing of the Anglican book is noteworthy in that it is not obligatory on any congregation to adopt it.

A check has just been received from the Oxford University Press to the publishers, which reveals the fact that the total royalties, coming to the general synd of the Anglican Church in Canada for the first year, are \$15,508.26. Of this the hymnal committee was paid \$3,822.10 for the purchase of copyrights, the net amount being \$11,686.16. This has been deposited with the mission fund to ensure more prompt payment of the stipends of clergy; but it has not been determined what will finally be done with the money.

MIRACLE AT NAPLES

Rome, Sept. 20.—The blood of St. Januarius liquefied this morning after hours of cold and incessant prayers in the overcrowded cathedral at Naples. The Neapolitans are now convinced that cholera will not visit that city, which is still under its patron saint's protection. Hence the jubilation is considerable despite the fact of Pozzang, where the wine shops are closed, hands paraded the streets of Naples, bells rang, and bonfires were fired, while the receptacle containing the liquefied blood was gratefully kissed by men, women and children.

Clean Within!

Dr. Morse's Indian Root Pills Purify the Blood and Prolong Life

If as much intelligent care were given to keeping the body clean and pure within as well as without we would see more healthy, vigorous old men and women. The daily bath does its part by keeping the pores of the skin open so that they throw off much of the body's impurities, but it is even more important that the bowels and kidneys should be kept regular and active.

If the bowels fail, as they often do late in life, to move regularly at least once a day, the waste matter from the food accumulates, decays, poisons the system and upsets the stomach.

If the kidneys are sluggish the impurities which they should filter from the blood remain and cause rheumatism. Dr. Morse's Indian Root Pills regulate the bowels, stimulate the kidneys and open up the pores of the skin. The result is a body clean within—pure, red blood—good digestion—and a hale and hearty old age.

Three generations have proved the value of Dr. Morse's Indian Root Pills, and their sale is steadily increasing all over the world.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Belleriver, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation, because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—MRS. EMMA CHATEL, Valleyfield, Belleriver, Quebec.

Another Operation Avoided.

Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, R.F.D. 3.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

FALL OPENING

Fall Millinery Opening

Wednesday, Sept. 21
and Following Days

WE INVITE the ladies of London to this brilliant presentation of new Millinery styles for Fall. On no previous occasion have we equalled the almost bewildering variety shown. The large mushroom effects are seen in dozens of different adaptations. The Turbans are even more remarkable in their interesting variety, while the same latitude is noticeable in the crownless lines of Plateaus. In shades we find an almost new variety, and as to trimmings they are both original and lovely.

R. J. YOUNG & CO.

TRAIN KILLS BROTHER HUSBAND DROPS DEAD

A Thamesville Family Visited
With Two Tragedies Within
a Few Days.

Thamesville, Ont., Sept. 20.—Mr. J. B. Lawrence, a town councillor, and one of the best known men of this vicinity, dropped dead yesterday during a meeting of the council.

Mr. Lawrence was about 50 years of age, and is survived by a wife and seven children.

A sad feature in connection with the case was the absence at St. Thomas of Mrs. Lawrence, where she was attending the funeral of her brother, Roy McTaggart, accidentally killed in the M. C. R. yards on Saturday.

EXIT HOBBLE SKIRT

Indications That Skirt Is To Be Greatly Widened.

Chicago, Sept. 20.—The beginning of the end of the hobble skirt is noted by certain of the dressmakers gathered here today in convention. It is stated that skirts are already widening out.

A plan to establish a dressmaking institute in connection with Chicago's public schools system will come up at a dinner of the dressmakers next Friday. Superintendent of Schools Ella F. Young, representatives of the Chicago association of commerce, and others, will discuss the matter.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for 25 cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all dealers.

TAFT JOINS FIGHT AGAINST THE BOSSES

Assures Roosevelt of Support in
New York State.

On Board President Taft's Train, Albany, N. Y., Sept. 18.—President Taft and Col. Theodore Roosevelt met today in New Haven, Conn., for the second time since the former president's return from Africa. Col. Roosevelt sought the conference with the President. It was plain from all that transpired before and after the meeting that the colonel and his close political advisers are not a little worried over the situation in New York State and came to the President for further evidence of his moral support.

This president was glad to give. He declared his position in the New York State fight had been clear from the very first. He said he sympathized heartily with the fight against "bossism" being waged by the people of the state.

Mr. Taft reiterated the statements he made in his letter to Lloyd C. Griscom, president of the New York County Republican committee, at the time of the Sherman-Roosevelt controversy over the temporary chairmanship. This letter, he added, stated his position fully and accurately and he was standing on it absolutely.

FINE LAND IN NORTH

Hudson's Bay Road to Tap Good Agricultural Country.

Ottawa, Sept. 20.—That the country through which the new Hudson Bay Railroad will run possesses agricultural and mineral possibilities that need only facilities to open them up, was the substance of an interview given today by Professor R. W. Brock, director of the geological survey, who has just returned from the trip on which he accompanied Earl Grey through the north country.

"While I had not time to make a thorough examination of any kind," said Professor Brock, "I noticed some promising looking belt on Etchemnam River, up which we went. It was about 120 miles long. There has, of course, been no prospecting in this district, owing to the difficulties of transportation. The railroad, however, will supply a splendid base for this work, and several of the inlets afford great opportunities for it."

HOPE FOR UNLIMITED TREATY WITH BRITAIN

Looked for as Fruit of Celebration of 100 Years Peace in 1914.

Boston, Sept. 20.—An unlimited treaty of obligatory arbitration between the United States and Great Britain is the hope of the American Peace Society, as a result of the proposal that the two countries join in 1914 in a celebration to observe the completion of 100 years of peace between them.

The plans for a celebration commensurate with the position among nations of the countries directly interested, and with the occasion, have not yet approached the point, it is said, where details have

ANGELICAN PRELATE DEAD

Late Archbishop of York Passes Away at London.

London, Sept. 20.—The Most Rev. Right Hon. William Dalrymple MacLagan, P. C., D. D., D. C. L., LL. D., last Archbishop of York, is dead.

He was born in Edinburgh in 1826, and was Archbishop of York from 1891 until 1909. He entered the army in early life and served in the Indian army from 1847 until 1852, retiring as a lieutenant. He was ordained a deacon in 1856, and priest in 1857. He was rector of Newington from 1869 until 1875, when he was appointed vicar of Lichfield. He was made Bishop of Lichfield in 1873.

He wrote a volume of "Pastoral Letters and Synodal Charges," in 1891, and was joint editor of the Church and the Age in 1870.

He was succeeded as Archbishop of York by Dr. Cosmo Gordon Lang, who a short time before declined the Bishopric of Montreal, to which he had been elected.

THROWN ON SAW

Negro Workman Pulled Lever the Wrong Way.

Emporia, Va., Sept. 20.—One man was cut to pieces, another had his head crushed into a shapeless mass of flesh and bone and three others were badly mangled at the sawmill of the Camp Manufacturing Company at Arrindale, near here, today, when a negro workman pulled the lever of a saw mill carriage the wrong way and knocked five workmen into the maelstrom of whirling teeth.

The five workmen were standing upon the platform which is used for carrying timbers into the path of the great circular saw. Taken unawares by the action of the negro workman, they were thrown into the very teeth of the saw.

SECOND JURY BLAMES G. T. R. CONDUCTOR

C. F. Lacey, of Battle Creek, Also at Fault, is New Finding.

Durand, Mich., Sept. 20.—A second coroner's jury, impelled to bring about the identification of two Grand Trunk passengers, who lost their lives in the wreck near this village, indicted the finding of the first jury, in blaming Engineer Spencer and brakeman Graham, of the Grand Trunk, and in addition found Conductor Charles F. Lacey, of Battle Creek, conductor in charge of the wrecked train, guilty of carelessness in not seeing personally that brakeman Graham went back far enough to insure the stopping of the second train.

A further investigation is considered likely.

ALPS FLIGHT DELAYED

Stormy Weather Keeps Daring Aviators on Mother Earth.

Brig, Switzerland, Sept. 20.—Today's weather was unfavorable for flying, and the cross-Alps competition was again delayed. A strong wind was blowing from the north, and the flying was postponed until tomorrow.

The flying was postponed until tomorrow, and the competition was again delayed.

DAIRY EXHIBITS AT THE WESTERN

List of Those Who Won Prizes
in the Section.

SUCCESSFUL EXHIBITORS

Winners of the Silver Cups and Other
Specials—An Interesting List for
Dairymen.

In the Dairy Building at the Western Fair, the new cold storage for cheese, which the management very kindly installed this year, and for which they are to be highly commended, not only added much to the appearance but will insure in future the cheese being kept at a proper temperature. This was a much-needed improvement and the dairymen of Western Ontario appreciate the enterprise of the fair board in recognizing the interest of the cheese industry by placing at their disposal such a handsome practical storage. This should bring out larger exhibits from year to year.

The exhibit of cheese and butter was large, and of excellent quality. The August cheese scoring higher than usual, and taking it all together the dairymen are to be congratulated on the success of this department.

Bacteria in Milk.
The Ontario Department of Agriculture had on exhibition samples of milk illustrating the effect of contamination by many different bacteria. This was a revelation to many people, and showed very distinctly how necessary it is that in order to have clean, pure milk as free as possible from injurious germs, every precaution should be taken to prevent road dust, stable dust, bits of hay and straw, flies, hairs, and so forth, and any other bacteria-laden material from entering the milk, not only at the time of milking, but subsequently in transit, or in the home until it is consumed.

A large number of leaflets were handed out to visitors, which give instructions in the production of sanitary milk, and also information on the care of milk in the household.

The following are the prize winners:

Section 1—August Colored.

1. C. A. Barber, Woodstock..... 96 1-2
2. R. A. Thompson, Atwood..... 96
3. Geo. W. Empey, Newry..... 95 5-6
4. B. F. Howes, Atwood..... 95 2-3

Section 2—August White.

1. T. J. Humphrey, Avonbank..... 96
2. C. Donnelly, Scottville..... 95 5-6
3. C. Barber, Woodstock..... 95 2-3
4. W. S. Stocks, Britton..... 95 1-2

Section 3—June and July Colored.

1. D. Mendel, Moleworth..... 96 1-12
2. C. Donnelly, Scottville..... 95 2-4
3. R. A. Thompson..... 95 3-4
4. A. E. Shaffer, White Oak..... 95 1-6

Section 4—June and July White.

1. R. A. Thompson, Atwood..... 96
2. John Cuthbertson, Selkirkville..... 95 5-12
3. C. Klockman, Carleton Place..... 95 5-12
4. C. Donnelly, Scottville..... 95 5-12

Section 5—Collection.

1. C. Donnelly, Scottville..... 96
2. R. A. Thompson, Atwood..... 96
Section 6—Instructor's Group Prize.

1. Jas. R. Burgess, Listowel..... 19
2. A. E. Greaney, Woodstock..... 14
3. G. M. McKinnon, Ingersoll..... 7

Silver Cups.

C. A. Barber, T. J. Humphrey, D. Mendel, R. A. Thompson and C. Donnelly. Each won a silver cup donated by the merchants of London, as they secured the highest score in the respective sections.

*Scored highest in flavor.
*Scored second highest in flavor.

BUTTER.

Section 1—Creamery Solids.

1. W. H. Brubaker, Dresden..... 97
2. J. A. Waddell, Kerwood..... 96
3. J. A. Waddell, Renfrew..... 95 1-2
4. J. R. Almonite, Silverdale..... 95

Section 2—Factory One-Pound Prints.

1. J. A. Waddell, Kerwood..... 97
2. J. R. Almonite, Silverdale..... 96
3. J. H. Almonite, Silverdale..... 96
4. Canadian Milk Products, Brownsville..... 95 1-2

Section 3—Farmer's Dairy Solids.

1. Mrs. Wm. Armstrong, Brussels..... 96
2. Miss M. Johnston, Bowwood..... 95
3. Mrs. J. R. Johnston, Springfield..... 95
4. Mrs. E. McRoberts, Brynastown..... 92

Section 4—Farm Dairy One-Pound Prints.

1. Mrs. Wm. Armstrong, Brussels..... 96
2. Miss M. Johnston, Bowwood..... 95
3. Mrs. J. R. Johnston, Springfield..... 95
4. Mrs. W. Hill, Parkhill..... 94 1-2

BUTTER-MAKING COMPETITION.

Section 1—Strictly Artisan.

1. Miss M. Johnston, Bowwood..... 96
2. Miss N. Carrick, Roseville..... 95
3. Mrs. W. Hill, Parkhill..... 95
4. Mrs. A. Simpson, Atwood..... 94

Strong's Baking Powder

Strong's Drug Store

184 Dundas St., London, Ont.
Strong's Cook Book, enlarged new edition, contains many new recipes you'll like. Free. Get one.

5. Miss L. B. Gregory, Poplar Hill.
6. Miss M. Bryden, Galt.
Section 2—Free-For-All.
1. Miss L. Carrick, Roseville.
2. Miss M. Johnston.
3. Miss N. Carrick, Roseville.
4. Miss L. B. Gregory.
5. Mrs. A. Simpson.
6. Mrs. W. Hill.

Section 3—Special Sweepstakes.

1. Miss L. B. Gregory.
2. Mrs. A. Simpson.
3. Miss K. Wolfe, Galt.
4. Mrs. W. Hill.
5. Miss M. Bryden.

Miss L. Carrick wins the silver cup. The cheese were judged by Robert Johnston, Woodstock; James Bristow, St. Thomas, and W. W. Gray, Stratford. Each judge scored independently, and the average of the scores were taken. The butter was judged by Mr. J. B. Muir, of Ingersoll.

AUTUMN EXAMINATIONS AT WESTERN UNIVERSITY

Many Students Are Writing On
the Supplemental Tests.

The Western University autumn supplemental examinations commenced this morning. Quite a number of students are writing. The university will open for the fall term, and registration and lectures will begin next Wednesday, Sept. 28. President James told The Advertiser this morning that the prospects are exceedingly good for a record-breaking attendance at the Western University this year. A larger number of candidates have applied for scholarships than previous years, and more inquiries have been received relative to the various courses offered by the arts department.

PROTESTANT FEDERATION

Executive of Orange Grand Lodge to Discuss Subject.

Toronto, Sept. 20.—I am arranging to call a meeting of the executive of the Grand Lodge of Ontario West, for some time during this week and we will discuss the question of taking some action towards the formation of a Canadian Protestant Federation," said Mr. Harry Lovelock, grand master for Western Ontario, yesterday. "It is incorrect to say that anything has been done yet," said Mr. Lovelock. "The idea was suggested first by Dr. Sproule in his annual address to the Grand Orange Lodge of British North America three years ago. There has been nothing said about bringing an organizer over from Great Britain."

LUCKNOW DRUGGIST MUST STAND TRIAL

Charged With Criminal Negligence in Connection With Recent Death.

Dunsmuir, Sept. 20.—J. G. Armstrong, druggist, of Lucknow, was yesterday sent for trial on a charge of criminal negligence in the death of a child. The child, Margaret Murray, of Detroit, who was given tartrite emetic in mistake for Rochelle salts. The child died at 10:00. The coroner's jury rendered a verdict, which, while practically exonerating the druggist, did leave a stain on his name. It was to be to blame. This investigation has been ordered by the attorney-general.

WAS DEATH DUE

Continued From Page One.

until 10 o'clock. There is some uncertainty as to the time. He notified the coroner next morning.

The woman's face was scratched as if by finger nails; there was a scalp wound, and her wrists were scraped as if they had been bound. No one had been seen entering or leaving the house during the day. The place of tragedy is in a clearing in the woods about a mile from the road, and about eight miles north of Havelock. The question is: "Who committed the deed?"

It does not seem possible that suspicion should point its finger to the husband, since left with two little children. There seems to be a difference in the time as stated by the husband and the neighbors, but that is uncertain. The husband appears to attribute death to the effects of a bad pain his wife had in her head, but cannot account for the marks on the body. He had told the neighbors about the pain that his wife had in her head, and said that he might go home any night and find her dead. He apparently feels badly over the death of his wife, but has made no effort to solve the mystery.

Row With Wood Ranger.
When asked if he could throw any light on how his wife met her death, Deline said he could not. He was then asked if she was on bad terms with any person. He admitted that a wood ranger who passed through that district about two weeks ago had words with his wife and there existed a bitter feeling between them when this trouble occurred, but his wife related the story to him when he returned. The wood ranger had called on him and when he had finished asked for the pay for the meal. Outside of this, Deline knew of no one on bad feelings with his wife.

A post mortem was performed on the body on Saturday, and the inquest will be concluded on Friday next.

FINANCIAL AND COMMERCIAL

HAY PLENTIFUL.
PRICES ARE FIRM

Sold at From \$12 to \$13 a Ton
on the Local Market
Today.

EGG AT 25c A DOZEN

Prospects Are That Dairy Produce
Will Go Up Shortly—The
Day's Quotations.

Hay was fairly plentiful this morning, and sold at \$12 and \$13 per ton. Straw sells roughly at \$4 per load or about \$7 per ton.

Fruit is showing a greater scarcity, and the prices for plums and peaches are high.

Eggs sell readily at 25 cents per dozen, and butter brings 25 cents per pound. The probability is that prices for dairy produce will rise still higher in the near future.

Potatoes vary from 40 to 50 cents per bushel, and turnips and beets range at about the same price.

Oats sell mostly at \$1.05 per cwt., but the price varies with the quality, and the market for which they are purchased. Local provision dealers are offering the highest prices on the London market.

Grain Per Cwt.

New oats, per cwt. \$1.05 to \$1.08
Old oats, per cwt. \$1.10 to \$1.15

Address on Faith. Last evening in Wesley Hall, Rev. Richard Whiting, B. A., gave an interesting address on "Faith," before the members of the First Methodist Epworth League.

Musical Organization. A local organization to be known as the London Musical Association, is now being organized under the direction of Mr. J. R. Cornelius, an experienced conductor of choral and orchestral work. The association will study Dr. Cowen's "Rose Maiden," and other miscellaneous choruses taken from oratorios and operas.

Injured in a Runaway. Mr. Fred Allen, of this city, was severely injured in a runaway accident in East Oxford on Saturday afternoon. On the Swainsburg road his horse became unmanageable and turning wildly on the third concession, Mr. Allen was thrown out and seriously cut and bruised about the head and face. He was taken to the home of T. A. Newton, where medical assistance was summoned. The horse was later captured after running into a wire fence.

RICHARD OKE NAMED SECRETARY

Meeting of London Poultry Association Last Night.

At the meeting of the London Poultry Association last night, Richard Oke was elected secretary in place of W. A. Gurney, who has removed from the city. The general committee discussed plans for the fall exhibition, which the association will hold in the Western Fair poultry building.

It will be the largest show ever held in Western Ontario, and the prize list will aggregate \$3,000.

Thousands of entries will be received from the leading poultry districts of Canada and the United States.

ANNUAL OUTING OF THE NO. 8 CLUB

Dundas Centre Methodist Church Members Spend a Pleasant Time.

The second annual outing and banquet of the members and friends of No. 8 Club, Dundas Centre Methodist Sunday school, will be held at Springbank Park on Saturday afternoon and evening, when the boys will entertain the champion Dundas Centre baseball club of the eastern section of the Methodist Baseball League.

Baseball, football and other games are on the calendar, and at the conclusion of the party will mark time until they reach one of the farmhouses in the vicinity, where the banquet will be held. All members of No. 8 are cordially invited to be on hand. This club is also looking for a big attendance next Sunday afternoon, as it is "rally" Sunday of the year, and an approximate number of 100 is looked for. The teacher of the club is Professor James H. Bowman, and the president is Mr. George F. Copeland, with Dr. Thomas Manning as honorary president.

HENRY HORNE SUES LONDON STREET RY.

Horse Valued at \$2,000 Was Killed in an Accident.

Henry Horn, of Hyde Park, has entered action for the full assizes to recover \$2,000 damages from the London Street Railway Company. Last January Mr. Horn was driving on Oxford street west, with a standard-bred stallion, Dr. Livingston, when his cutter was upset as a result of the snow banked up by the street railway sweeper, and the valuable horse, becoming frightened, ran away, breaking its leg, and necessitating its destruction. Dr. Livingston was a 3-year-old stallion, whose dam, Memento, had a mark of 2:12 over the Empire mile track, N. Y., and whose sire was Ora Wilkes (2:11).

Special attention paid to wedding orders. Hueston's Liveries.

VAN CLEVE APPOINTED CITY ENGINEER OF LONDON

Niagara Falls Man Formally Named By City Council Last Night.

There was considerable routine business transacted at the council, the session being one of the longest of the year. There were debates on everything.

The London Advertiser was awarded the city printing for the coming year, and the city advertising was awarded equally between the London Advertiser and the Free Press. A. A. Langford & Co. was awarded the book binding.

The Hamilton road sewer will be made a trunk sewer in order to accommodate Egerton and other streets in the vicinity. The property owners will be charged only for an ordinary sewer, the balance coming out of the sewer debenture fund. Tenders will be called for at once.

Mr. J. O'Connor was named as assistant to City Architect Nutter for a month.

Police Court Clerk John Moule asked for temporary assistance, and the matter was referred to No. 1 committee with power.

A. I. Van Cleve wrote accepting the position of city engineer, and a bylaw was passed appointing him.

Parks Superintendent Pring was named tree trimmer for the city.

Present were Mayor Beattie, Ald. Rice, Underwood, Eckert, Ashplant, Stevenson, Jeffries, Fitzgerald, Rose, Saunders, Morgan, Pocock and Tancock, and City Clerk Baker.

CITY STREETS WILL LIKELY REMAIN TORN UP

It Does Not Look As Though Resurfacing Will Be Done This Year.

There was not much optimism in the council last night regarding the resurfacing of Dundas and Richmond streets, and the opinion was freely expressed that nothing would be done this year.

When inquiries were reached, Ald. Richter wanted to know what the board of works intended doing in this matter. The time was not the best for laying pavements, and he thought it should be thoroughly considered before the work was done.

"It is our intention to do the work this year," answered Ald. Tancock. "If the water commissioners and the London street railway get ahead with their work as they should, we will be able to lay it this fall. We will do it if conditions are not favorable."

"Don't encourage the rest to go slow," Ald. Saunders. "We have hoped that we will have the streets paved, but I am beginning to doubt it."

The board of works promised to hurry the matter along as rapidly as it is possible.

DRUGLESS HEALING

London Health Institute, Corner of Maple and Talbot Streets.

The evolution of man has ever proven an interesting study, but the people of the twentieth century are taking great notice of the evolution and wonderful strides for advancement in the systems of drugless healing. Today on the American continent there are four great systems subdivided into headings and known as Naturopathy, Osteopathy, Chiropractic and Mechano-therapy. While these four divisions differ in non-essential points, yet they are practically alike and attain to the proper adjustment of the human body, so that each individual organ will perform its proper work and thus the human body will enjoy perfect health.

The amazing growth and popularity of drugless healing today is in no small measure due to the fact that the people of the world are rapidly learning that the mental and physical suffering which humanity has endured for years, can be mitigated, if not eliminated, if their bodies are properly adjusted. Therefore, the systems of drugless healing are now being utilized to attain this end.

The liberal, broad exponent of these systems will endeavor to cure his patient by the use of all or any curative agent that he believes will lessen the suffering of his patient. He may use dietetics, hydro-therapy, scientific manipulation, anatomical adjustment, vibration, electricity, curative physical culture, Swedish movements, suggestive therapeutics, relaxation, or numerous other curative appliances, which as a drugless physician he may deem advisable for the complete restoration of his patient.

The drugless physician will teach his patient how to live a strong, sane life; how to guard against disease, both mental and physical; the value of hygiene and sanitation; how to protect the spine and lungs, etc., etc. Thus showing the patient how best to live, he may enjoy good health.

At the London Health Institute, corner of Maple and Talbot streets, in this city, will be found an excellently equipped, private health institute, which has been established for a number of years, and which has been used and is endorsed by some of the leading citizens. The principal, R. C. Barkie, is a graduate osteopath, mechano-therapist and chiropractor. Appointments may be made by phoning 2565. Treatments given at the institute are \$1, while the charge for treatment at the patient's residence is \$2. Information relating to any drugless treatment will be gladly given by the principal.

They Can't Forgive Canada.

Already it has been pretty well demonstrated that certain railways of the Northwest are fighting desperately to stop the flow of immigration to the Canadian West. In fact, this campaign has extended to the southwestern railways as well. For instance, the Texas and Pacific Quarterly, rather a pretentious magazine published by that company and issued at Dallas, Texas, opens its July number with an uplift article which includes a quotation from Longfellow's Evangeline:

"All the year round the orange groves are in blossom and grass grows More in a single night than a whole Canadian summer."

Meaning, no doubt, the grass. Not the Canadian summer.

AWAKENING OF SCIENCE

TO THE VALUE OF FRUIT

What is "FRUIT-A-TIVES"

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process whereby the medicinal or bitter principle of the fruit juice is increased in quantity, and thus a more active and more valuable substance is obtained.

"Fruit-a-tives" is the only medicine in the world made of fruit.

Hundreds of prominent people in every section of the Dominion owe their good health to "Fruit-a-tives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-a-tives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuralgia, Rheumatism, Kidney and Skin Troubles.

Fifty cents a box, six for \$2.50, or trial box 25 cents. Sold by all dealers, or sent postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

Detroit and Return, \$3.05.

The Canadian Pacific Railway will run special excursion Detroit and return at \$3.05, good going Sept. 19, to 24, with final return limit of Sept. 26, on account of the Michigan State Fair. This is a good opportunity for Canadians to visit this great annual show. Tickets and full information from W. Fulton, C. P. & T. A., corner Dundas and Richmond streets.

TOWED INTO PORT.

Toronto, Sept. 19.—The R. and O. steamer Kingston, which broke her main shaft Thursday evening last, while on her way from Kingston to Charlotte, N. Y., was towed into Toronto harbor from Kingston this morning by the tug Bartlett, of Kingston. She will go into drydock for repair.

DARK STREETS APPEAL TO THE CITY COUNCIL

Motion to Use Electric Lights on Moonlight Nights Defeated.

Ald. Morgan criticized the moonlight schedule last night at the council meeting. He suggested that the lights be kept burning during the time that the pavements are torn up.

"The streets are dangerous, and we should have light," he declared. "I know from experience that it is dangerous to ride a bicycle these nights."

"What does it cost to light the streets per night?" was asked. The reply was \$83 a night.

"That would be rather expensive just to allow Ald. Morgan to find his way down town on a bicycle," said Ald. Richter. The council laughed.

Ald. Morgan, however, moved that the lights be lit, and Ald. Saunders seconded it.

The motion was lost.

Yeas—Ald. Morgan, Saunders, Pocock, Eckert, and Underwood.

Nays—Ald. Ashplant, Richter, Jeffries, Fitzgerald, Tancock and Rose.

THE DRESS SUIT

¶ A MOST important article in the well-dressed man's Wardrobe. ¶ Requiring to be absolutely correct in every detail. ¶ That is what is claimed for Fashion-Craft Dress Suits. ¶ Allow us to demonstrate the truth of what we claim. Prices range from \$30.00. Material, fit and workmanship always first-class.
