# Newspaper. I want to ask them. They are these-

Do you take a religious paper? If not, Remember one Mic Mac looks down from above, you may never see this query. And yet it some one may tell you of it. So I repeat the inquiry: Do you take a religious paper? If you do not take one, you ought to do it, for your own sake, and that of your family; bedy and soul action and feeling, be governbody and soul action and feeling, be governof truth and duty; it will inform you as to ed by what he believes; and it it be equally true, that the belief of the truth will lead man wrong, and destroy his interests in reman right, and the belief of falsehood lead man wrong, and destroy his interests in relation to whatever the falshood pertains: then is it indeed needful that a man should be influenced by a right faith, in order to his performing right actions. Take along with this thought another.—Things realized by faith, it not more real, yet exert a more and wrong, and destroy his interests in relation to whatever the falshood pertains; then is it indeed needful that a man should be influenced by a right faith, in order to his performing right actions. Take along with this thought another.—Things realized by faith, it not more real, yet exert a more and supplication for all saints; and for me, that utterance may be given unto darkness and diffuse true religion, that some of the first triumphs of grace were entirely due to the wonderful effects produced by the private and fire-side talking of some humble the fact, that this utterance is the direct gift of God; nor are we without traces of the poetry, narrative, fact, suggestion, it will rouse your intellect, cultivate your has been done to dispel him, where his bark may be wrecked, and he evidently needs a much better pilot than himselt. There are clouds, dark clouds, gathering in that bright sky which is now pictured to his youthful mind, and he needs the light of the "San of Rightgousness." God is a sun and shield. In Him dwells all good. He is the fountain from where all good. He is the fountain from where all good. He is the fountain from where all saints. by faith, it not more real, yet exert a more become the daily monitor of the household, good. He is the fountain from whence all contains from the contains powerful influence over the spirit of man than things perceived by sight. In the last received the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and thus structing, counselling, guiding, and thus the spirit of the household, and the spirit of the household, and other means are the spirit of the household, and thus the spirit of the household, and other means are the spirit of the household, and other means are the spirit of the household, and thus the spirit of the household, and thus the spirit of the household, and the spirit of the household of t case repetition familiarizes the soul to the will be caught up at leisure intervals, and to make God his guide, and who takes his ence of the Divine Spirit, uttering great and trusted in to supply its place, does the true

# Correspondence.

[FOR THE PROVINCIAL WESLEYAN.]

Letter from Newfoundland. My DEAR SIR,-The Island of Newfound land is now part and parcel of the E. B. N. A. Conference, and it seems highly necessary that your readers throughout the entire field occupied by this youthful body, should have as much information respecting it as possible; it shall be therefore my duty and privilege to give a little Information respect-

The extreme length of this Island is 420 miles, and the extreme breadth 300 miles. breakwater it is. It is probably on this account that the Gulf of St. Lawrence is such a harbor for the incredible shoals of fish that swim in unimaginable abundance, throughout its entire extent. It lies almost entirely across the Gulf from north to south, almost touching the Labrador coast : the shortest distance being only 9 miles from the island to the mainland The waters of the majestic St. Lawrence on the one side, and those of the vast Atlantic on the other, have rolled their terrific waves against its opposing coasts for five thousand years, and deeply have they indented it with bays wherever the rock has been less hard than MAM, Esq., read as follows :adamant. The Island is singularly cut up. especially on its southern and western sides. Three bays make in north of the St. John's harbor, on the east coast, each from 50 to 90 or 100 miles in length,-(depth as the Newfoundlanders would call it,) - while from the opposite points, three other large bays make in eastwardly until one of them nearly meets one of the eastern bays, there being but a few miles from bay to bay. The coast from Cane Race north so far as I can learn or discover, is high, bold, barren, and rocky, to a marvel. It seems as if the horrible underby " beating," " mauling," digging, and maof St. John's. In fact there is a considerable amount of farming carried on, and the suburbs of our metropolis certainly form a prettier, and more farmlike landscape than do those of St. John, N. B., or Halifax .-Fine crops of hay are cut; and the potatoes, until the blight took them, were looking as luxuriant as heart would wish. But alas,

some will be spared, I trust. five miles, begins to look barren, it being stony and hilly, and covered with mere shrubs. There was formerly quite a forest of small trees inland, but the enormous Newfoundland chimnies, together with forest fires, have bared the country for many miles: but I learn from good authority that to the north and west there is much fine there is very fine large pine and other tim-

### The Rum Fiend.

BY CHARLES MACKAY The Rum Fiend cast his eyes abroad, And looked o'er all the land, And numbered its myriad worshippers With his bird-like, long right hand He took his place in the teeming street And watched the people go:

Around and about with a buzz and a shout Forever to and fro. " And it's hip!" said the Rum Fiend, "hip,

hurra! For the multitudes I see, Who offer themselves a sacrifice, And die for the love of me."

There stood a woman on a bridge, She was old, but not with years-Old with excess, and passion and pain, And she wept remorseful tears As she gave to her babe her milkless breast Then goaded by its cry, Made a desperate leap in the river deep

" And it's hip!" said the Rum Fiend, " hip hurra! She sinks, and let her be, In life or death, whatever she did,

In the sight of the passers by !

Was all for the love of me." There watched another by the hearth, With sullen face and thin! She uttered words of scorn and hate To one who staggered in. Long had she watched, and when he came His thoughts were bent on blood, He could not brook her taunting look

And he slew her where she stood. " And it's hip!" said the Rum Fiend, "hip hurra! My right good friend is he; He bath slain his wife, he bath given his life,

And every day, in the crowded way He takes his fearful stand. And numbers his myriad worshinner With his bird-like, long right hand And every day, the weak and strong,

And all for the love of me.'

Widows, and maids, and wives. Blood warm, blood cold, young men and old Offer the Fiend their lives. " And it's hip!" he says, "hip! hip! hurca! For the multitudes I see. That sell their souls for the burning drink, And die for the love of me."

### Miscellaneous.

### A Glance at Venice in 1855. "Beautiful Venice the pride of the sea "

We were pacing the deck-of the steamer, and straining our eyes by looking in the direction of the north-western shore of the Adriatic. At last the summit of a dome appeared in the far distance. "That is Venice,' replied a seaman to our quesitons. You long line, skirting the horizon, is the strip of land which breaks the force of the rolling waves, so that only the gentlest surge may find its way to the "city of the sea" As we gradually approached, spires, domes, pied the highest cupola, we anchored opposite St. Mark's Place, to the steps of which derful elegance. It has been at once a palwe were swiftly wasted in a gondola. The ace, a tribunal, a prison. Scenes of crue the most singular. At first a city of re- by Salvador, which hes exclusively or ardently had we desired to behold those stately fabrics, before which, at these very steps, have landed so many valuant Chiefs and Princes, laden with oriental spoils.

The ascent to the top of the Campanile which towers to a considerable height above the other buildings of the city, is by a smooth brick foot-path, without steps. From the summit, a view of unique beauty presents itself; and our eyes rolled, delighted over the wide panorama, where

"Venice sat in state, throned on a hundred inless The first transport over, we could lean against the pillars of the gallery, breathing the fresh gales which blow from the sea, and survey at our leisure this "bridegroom of the Adriatic," with its long tracts of white sails, graceful gondolas, singular water-streets, manifold domes, and beautiful palaces. Southward, along the shore, fairy water, and diversifying its expanse. A placid stillness rested

### \$100---Proclamation. To the Mayor and Citizens of Philadelphia and the Union.

Never omit any opportunity to learn all you can. Sir Walter Scott said, that, even in a stage coach, he always found some-body who could tell him something he did how to could tell him something he did how to could tell him something he will be did how to could tell him something he did how to could he had he did how to could he had he h body who could tell him something he did not know before. Conversation is frequently more useful than books for purposes of knowledge. It is, therefore, a mistake to be morose and silent among persons whom you think ignorant, for a little sociability on your part will draw them out, and they will be able to teach you something, no matter how ordinary their employment. Indeed, some of the most sagacious remarks are made by persons of this description, respecting their particular pursuit. Hugh Miller. DRED. the Scotch geologist, owes not a little of his fame to observations made when he was a Pickup's Montreal Edition journeyman stone mason and working in a quarry. Socrates well said that there was but one good, which is knowledge; one

DYER'S HEALING **EMBROCATION** COMO AN CAME EXTERNAL REMEDY.

THIS valuable External and Internal Remedy original and with a skillful and Scientific Chemist, who found it difficult to obtain an article that would with certainty and in a short space of time, effect a care of Wounds, Bruisco Cuts, Burns, &c. By various experiments he at length discovered a preparation which answered his most sanguine expectations, and its peculiar virtues becoming known to his friends, he was induced by them to prepare its for general use.

known to his friends, he was induced by mean to prepare it for general use.

Since its first introduction to the public some important additions and improvements have been made in it compositions, increasing its value and making it applies bie to a greater number of discasses, especially to those on the stomach and bowels, and it is now used internally with, if possible, greater success than Externally. DYER'S

OR Curs, Burns, Scalds, Chilblains, Flesh Wounds, thapped Hands, Bites, Felons, Sores, Injury by Splin-is, Frestbitten parts of the body, Sore Lyes, Old Sores Twenty five Cents per Box,

Brief History of the Russia Salve. approved family remedies.

Description of the atussite Balve.

About the year lefts a Russian, who had served as solder in the Impedial army, during the disastrous centeredy for Consumption.

Description of Napoleon, arrived in Boston from Cronstatit, an aborting of Wapoleon, arrived in Boston from Cronstatit, an aborting of war aborting the was soon after tuken stek, and derived near Boston. He was soon after tuken stek, and derived and solder tuken stek. troyer.

Dr Bryan's Canomile Pills, and Moffats Life Pills paign of Naporeol, arthur has been son to the contract and arrives abortly got work at his trade, (a currier) in C harlestown near Boston. He was soon after taken sick, and during his illness he was attended by a kind hearted clergyman, of that town, who did an in his power for the relief of the poor Russian. Thouch he grew worse every day, the benevolent clergyman did not abate his kindness, but was more and more attentive, and at last, when the Russian felt that he was soon to die, he motioned his benefactor to his bedside, thanked him for his kindness, and as the only return he could make, presented him with the recipe of a remarkable Ointment, which had been used with great success by the surgeons of the Kussian army. The clergyman prepared a small quantity, and was convinced of its great value, but dying soon after, his lamily disposed of the recipe to Mr. Redding, who gave it the name of "Remone's Russia Salve".
