Sacred Silence. Never with blast of trumpets And the chariot wheels of fame Do the servants and rons of the Highest His oracles proclaim; But when grandest truths are uttered,

cers

And when holiest depths are stirred, When our God himself draws nearest, The still, small voice is heard.

He has sealed His own with silence : His years that come and go, Bringing still their mighty measures Of glory and of woe-Have you heard one note of triumph Proclaim their course begun? One voice or bell give tidings When their ministry was done?

Unheralded and unheeded His revelations come, His prophets before their scorners Stand resolute, yet dumb; But a thousand years of silence-And the world falls to adore And kiss the feet of the marty's It cracified before !

Shall I have a part in the labor, In the silence and the might Of the plans Divine, eternal, That he opens to my sight? In the strongth and the inspiration That his crowned and chosen know? O well might my darkest sorrow

Into songs of triumph flow ! For I hear in this sacred stillness The fall of angelic feet-I feel white hands on my forehead, With a benediction sweet-They say to me, " Labor in silence-For dearer to God are the songs Of one earnest and loving spirit

Than the reans of joyful throngs." Afar in the forest glade, And the nightingale wildest warbles From dopths of leafy shade ; So the poet sings most divinely From the noisy crowd apart, And the lays most worthy of laurels Are those he hides in his heart.

Oh, I hear in this sacred stillness The fall of angelic feet. With a benediction sweet ; No echo of worldly tumult My beautifultvision mars ; This silence itself is music, Like the silence of the stars!

For the Provincial Wesleyan. Home at Last. BY MARY E. HERBERT. "So he bringeth them unto their desired haven."Ps. cvii. 30.

"Now safely moored our perils o'er, We'll sing first in night's diadem, Forever and forever more, The Star, the Star of Bethlehem."

The above beautiful passage of Scripture, on scious safety. which shought has of late dwelt somewhat frequently, was strikingly illustrated by the recent

thought of the dangers of the way. So fair the haven to which he was bound, that he forgot the waste of seas that lay between. But his dreams of security and quick return were rudely broken. The clouds gathered blackness; the air beferetold the coming tempest. Fearfully the sea rose and swelled higher and higher; the shrieking winds,—the roar of waves,—the pealing came thick and heavy, -and ominous sounds ing winds,-the roar of waves,-the pealing thunder and flashing lightning, -all filled the

heart with terror and amaze. Now he realized how truthful the description

Embarked upon life's tempestuous sea, what perils does the soul encounter; what fierce battling with tempests; what waves of trouble threaten to overwhelm it. ### The Modern Christian Home. BY REV. WILLIAM ADAMS, D. D.

A house is not a home, but a home implies that there is a house. The style of human dwellings is an index of the varied stages of civilization. Nomadic tribes make use of movable tents; savages have holes or huts execrable with filth. "The House of Diomede." as it is called, at Pompeii, by its very structure, with so much of court and corridor, and so little room within, reveals the idea of Roman life-out of doors and public, with small domestic conveni-The English make excellent dishes of cow- ences. To blow others just as bright!" And he blew with such good fortune That, before his task was done, You might count a score of bubbles Floating gaily in the sun.

Then her eves with pleasure sparkled, As the crystal phantoms played, And she quite forgot her sorrow That they should so quickly fade.

And she paused where I was resting In the shadow of a yew, And in tones of laughing wonder Cried, " Can't you blow bubbles, too P" And I knew not how to answer; So I left them to their play, Blowing bubbles in the sunshine,

### About a Crock of Butter.

Not long since, a friend of ours said he had ordered a crock of butter, and, when it came, he crock came, but in transferring to the cellar, i got badly broken, involving the necessity of new one, and the labor of re-packing. But what of the butter ? Was the boast of its being of the "right stamp" made good? It was not It failed in several respects. In the first place there was a want of uniformity in the texture and finish of the several layers composing the crock. Some of them were seamed with blue-

looking rivulets, or cavities filled with a mottled liquid, showing a lack of manipulation in working out the buttermilk. Other portions were streaked with veins of undissolved salt, evincing of hell, unconscious of his approaching fate.— occasional hairs, threads, or strings meandering through the mass, all tending to detract from

These faults are too common, and should b corrected; for, of all things entering into family consumption, dirty or poorly manufactured but ter is the least endurable. There is no excuse for these shortcomings on the part of buttermakers. If persons in the diary business lack the knowledge necessary to success, let them acquire it from those in possession of it. This can soon be done by those anxious to excel and sufficiently honest to aim at doing justice

to others. In putting down butter, there should be an effort at uniformity throughout the operation should not be imputed to bad luck, but to negligent disregard of the conditions of success. Work the butter clear of the milk, to begin with. See that no hairs or threads meander through it. In salting, if in doubt as to the quantity to be appeal which has the right ring. Superior to all Purgative, Cathartic, or Alterative Medicines in general use,

COATED WITH GUM. Which renders them very convenient, and well adapted for children, and persons who have a dislike to take medicine, and especially pills Another great superiority of Radway's Fills over all other pills in general use, is the fact of their wonderful medicinal strength, being highly concentrated. One to six of these pills will act more thoroughly, and cleanse the alimentary canal, without producing cramps, spasms, piles, tenemus, etc., than any other Pills or Purps. Medicine in use

THE GREAT WANT SUPPLIED. It is a well known fact that Physicians have long sought to discover a vegetable purgative as a substitute for Co that would cleanse the Alimentary Canal of all diseased and retained hamors, as thoroughly as Lobelia will the stomach, without producing sickness at stomach, weakness, or irritation of the mucous membrane. In Dr. Radway's Pills, this very important and essential principle is secured. A dose of two to six (according to the endition of the system) of Dr. Radway's Pills will produce all the positive alterative
