CHANGES IN ADMIRALTY IN BRITAIN

Admiral Sir Cecil Burney Replaced by Sir Rosslyn Wemyss

OTHER ALTERATIONS First Step in Campaign of Reorganization Launched By Geddes

DUTIES REARRANGED Second Sea Lord in Future To Concentrate Upon War Plans

By Courier Leased Wire London, Monday Aug. 6.—Official announcement was made at the Admiralty to-night that Admiral Sir Cecil Burney, second sea lord, had been replaced by Vice-Admiral Sir Rosslyn Wemyss.

London, Aug. 7.—The changes in the British Admiralty are attracting much attention, and are interpreted as the first step in reorganization, which it is supposed Sir Eric Campbell Geddes, first lord of the admiralty, was appointed to carry out.

There is no implication of incapacity against Admiral Sir Cecil Burney, whose services as Admiral Jellicoe's second in command of the grand fleet are recognized, and an official announcement states that he will be employed on special duty. It is assumed that as his record was made in active command, he may welcome the change.

An official statement contains the announcement that an opportunity is to be taken of the appointment of Vice-Admiral Sir Rosslyn Wemyss to re-arrange the duties of the second sea lord of the admiralty, who will be relieved of detailed administrative work connected with the personnel of the fleet. This is interpreted as meaning that the second sea lord will not be trammelled by details which subordinates can handle, but will be associated more closely than was his predecessor with the preparation of war plans.

Another change in the admiralty is the removal of Sir William Graham Greene from the permanent secretaryship in the ministry of munitions under Winston Spencer Churchill. Sir William's departure from the admiralty is regarded as of considerable importance, as the post of permanent secretary, which he has held since 1911, always has been largely responsible for the continuity of admiralty tradition and policy. It is this continuity which is regarded by many as a most dangerous factor in that it hinders initiative and adaptability to current needs.

Appointment of New Statesmen Viewed With Concern in Germany; May Have Significant Bearing Upon the Peace Problem

By Courier Leased Wire.

Copenhagen, Aug. 7.—Will Dr. von Kuehlmann or Dr. Karl Helfferich, vice chancellor, be the real director of foreign policy under the administration of Dr. Michaelis, the Imperial German Chancellor? This is the political problem of the hour in connection with the shake-up of cabinets in Germany. It is known the versatile Dr. Helfferich desires to have a hand in steering Germany's new course in world politics after the war and it is rumored that the new chancellor, unacquainted as he is with international affairs, desires to retain the ex-bank director, Dr. Helfferich, as his special adviser and mouthpiece, particularly for this field.

In fact one of the avowed reasons for Dr. Helfferich's retention, despite his present unpopularity in the Reichstag, was that his services are indispensable in peace negotiations. The Berlin Tageblatt, The Lokal Anzeiger and The Vossische Zeitung, all refer to the possibility of a conflict as Dr. von Kuehlmann, it is understood, is disinclined to permit himself to be relegated to a subordinate place.

A second feature of the shake-up is the consideration shown the Catholic Centre party, whose demand for representation in the Imperial and Prussian cabinets for the Roman Catholic population was recognized by the appointment of three Roman Catholics, Spahn, Waldraff and Kuehlmann. With a revocation of the anti-Jesuit and Polish expropriation laws, also part of the Centrist programme, that party is considered to have done very well as a result of the parliamentary crisis.

While the Radical and Socialist press is dissatisfied at the absence of any marked concession to parliamentarism in the new cabinets, and at the failure to consult the reichstag on the appointments, newspapers of the opposite camp are aggrieved at the shelving of Mr. Beseler, Prussian Minister of Justice, Count Loebell, Minister of Interior, and Baron von Schorlemer, Prussian Minister of Interior, and other standpatters on Prussian franchise reform.

Why Zimmie Failed Mexico City, Aug. 7.—When news of the retirement of Dr. Alfred F. Zimmermann, the German Foreign Secretary was received last night, it caused general feeling among prominent Mexicans that his downfall was due largely to the failure of his plan of love Herr Heinrich von Eckhardt, German Minister to Mexico, attempt to embroil Mexico and the United States and use Mexico as a go-between in an effort to alienate Japan from the Allies.

NEW RUSS CABINET IS NAMED

Petrograd, August 7.—Premier Kerensky has completed the formation of his new cabinet. The official announcement of its composition contains several changes in the list of portfolios made public yesterday, as follows: Lieut. Lebedeff is made acting minister of marine, a post held up to the present by Premier and Minister of War Kerensky.

M. Bernatzky is appointed acting Minister of Finance, a portfolio that had been assumed by M. Nekrasoff, in addition to the vice-premiership. M. Yefremoff, Minister of Justice, is transferred to the Ministry of Public Aid, replacing M. Astroff, the Mayor of Moscow.

Professor Kokoshkine, a leader of the Constitutional Democrats, is appointed State Controller, a position which had been given to F. A. Golovine.

M. Yourenoff is named Minister of Public Works. M. Yaroudny takes the office of Minister of Justice, vacated by M. Yefremoff. M. Taktamisheff, the Minister of Communications, is not mentioned in the new official list.

ITALIAN AIR RAID ON POLA WAS SUCCESS

Bombing of Austrian Port Successfully Carried Out Last Week

GREAT DAMAGE DONE Noted Poet D'Annunzio Among Airmen Participating in Raid

Rome, Aug. 7.—A detailed report on the air raid at Pola, the Austrian naval base, on Friday night, shows that it began at 11 p.m., and ended shortly after dawn. Each machine carried eight bombs and six grenades. The first arrived over Pola an hour after departure and the last at 4 a.m. The squadrilla carried out the task which comprised a flight of 320 kilometres, 140 of which were over enemy territory, without the loss of a single machine.

D'Annunzio, the poet was aboard one of the large planes, piloted by Capt. Goeri. The damage effected was most important. In addition to bombing the arsenal, a magazine depot, and a scullery station were set afire and burned like paper. The Italian aviators who kept at an average height of 2,500 to 3,000 yards were to judge of the extent of the destruction by the enormous sheets of flame and columns of smoke which shot up to a height of 500 yards. The Austrians were unable during the bombardment, to extinguish any fires started by the bombs, but they kept up a furious fire with their anti-aircraft (Continued on Page Six.)

Helfferich and Kuehlmann are Opposed by Many Because of Inclination Toward Peace With England Rather Than With Russia

By Courier Leased Wire.

Copenhagen, Aug. 7.—The Tages Zeitung of Berlin, shows its dissatisfaction in a short, cool non-committal paragraph of greeting to the new administration and by giving far more space to sketches of the departing statesmen than biographies of the new appointees. Herr Zimmermann, ex-foreign secretary, in an article in The Lokal Anzeiger, scolds Dr. Michaelis for jettisoning these tried and trusty officials in favor of political novices of untried worth. The Vossische Zeitung severely criticizes the appointments of Dr. Helfferich and Dr. von Kuehlmann on the ground that both favor the rapprochement of England and not of Russia as a basis of post bellum policy. It says Dr. Helfferich was Dr. von Bethmann-Hollweg's evil genius in foreign affairs who first delayed unrestricted submarine warfare by getting out statistics and then discredited it by impossible predictions.

Theodore Wolff, editor of the Tageblatt, scoffs at all the appointments except that of Dr. von Kuehlmann, whom he advises to use his elbows vigorously to gain room to run his own department and prevent intrusion by Dr. Helfferich. The Lokal Anzeiger also advises a firm-hand policy and holds out as an enticement the glittering opportunity of leading the premier military power of the world to that just and permanent peace which will be as great a victory for Germany on the diplomatic field as that of Hindenburg on the field of war. The Anzeiger's adoption of the phrase "peace by understanding" does not imply any change of heart in the paper, which is committed absolutely to a powerful pan-German peace.

FACING ENEMY'S GAS American Troops At Front Being Hardened to Foe Frightfulness

GAS COUNTERACTED Science Provides Methods of Combatting Horrors of Warfare

By Courier Leased Wire

American Training Camp, Aug. 7.—(By the Associated Press).—The issuance of French gas masks to the American soldiers has brought them a little nearer to the realization of their proximity to real warfare. The men are looking forward to the gas experiments with the greatest possible interest as giving a touch of adventure to their training. When the so-called "gas house" is completed, the men will be put through a mixture of a deadly vapor, several times stronger than will ever be encountered upon the field of battle.

Some German prisoners have claimed that in their training they have endured periods of from five to ten minutes in a gas mixture fifty times as strong as could possibly be maintained in an open air attack. The men are put through these intense mixtures to demonstrate to them that with proper care and use of their equipment they cannot be hurt by any gas likely to be encountered in the front line trenches.

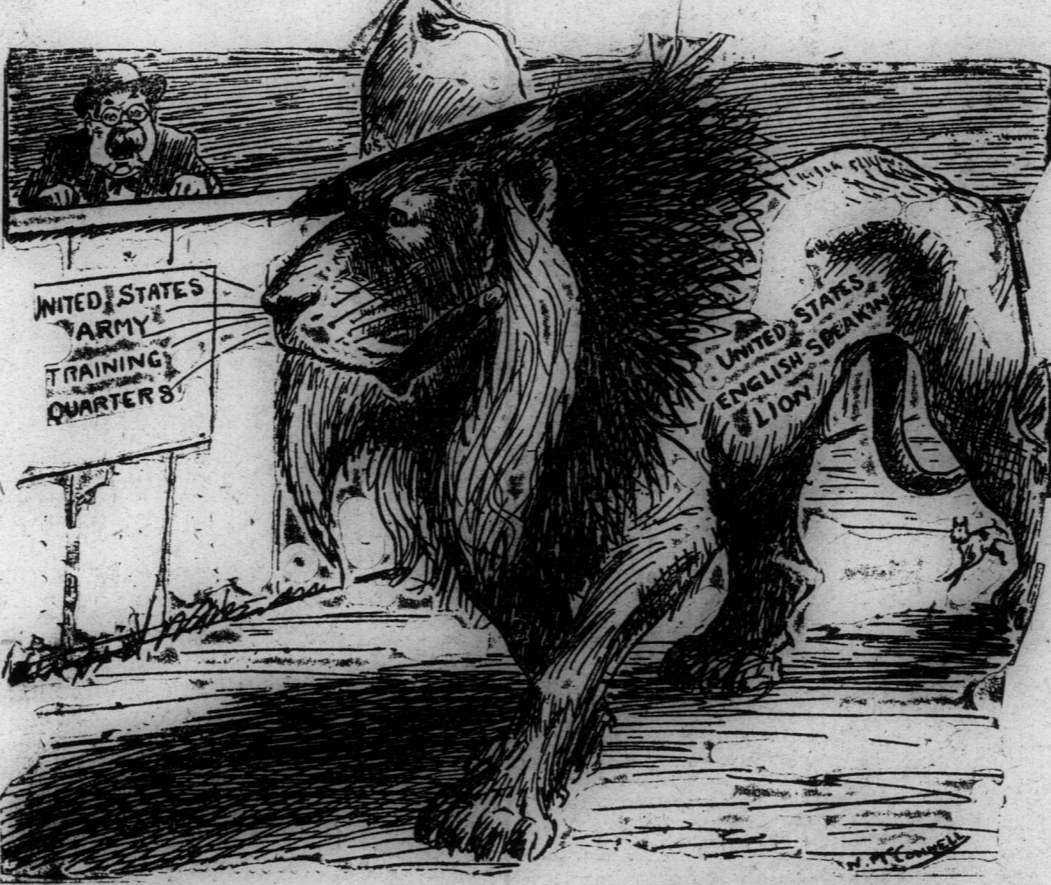

It is a most important branch of the modern training of a soldier that he should be convinced that there are many methods of effectively dealing with the deadliest terrors of later day warfare; that careless, slovenly and unheeding soldiers are the ones first to succumb. It is even demonstrated to the soldiers that the terrifying liquid fire can be avoided, except in most extraordinary circumstances, such as being caught in a tunnel or in a dugout with the enemy in such a position that he can pour flames through the entrances.

In training the Americans regarding gas the greatest weight is to be laid on demonstrating to each man the value of his protective appliance and seeing that he is fully instructed in its proper use. He will be made to understand, however, that only by skillful and rapid adjustment of the mask can protection be assured and that it shall be a daily task with him to see that his appliance is in good condition. Fit must be assured, for otherwise the gas penetrates through every small hole and attacks the eyes and mouth so that in a short time the man is put out of action.

The increasing use of gas shells even from the longest range guns makes the carrying of masks far back of the line, an imperative military necessity. The first traces of gas poisoning are a hot mouth and irritation of the throat. Despite proof that the allies have so often proved to the contrary and the terrible deaths allied soldiers died when this hideous mode of warfare was first sprung on unsuspecting foes by the high command of the German army, private soldiers and Germans say the gases are so-called "smelling substances" and not poisonous.

The substances they assert exert stupefying action, and after long exposure, have an asphyxiating effect. Under their influence, vision is affected. A man subjected to gas is forced to close eyes and can see nothing. The Germans, however, admit that it is impossible to remain in these gases without protection. The exact nature of the composition of practically all of the German gases is known to the allies, and the Americans are obtaining immediately the full results and benefits of all this laborious and dangerous work.

GAINS RECORDED ON CHAMPAGNE FRONT

Paris, August 7.—Three infantry attacks launched last night by troops of the German Crown Prince against French positions in the Champagne region were repulsed, says the official statement issued to-day by the French War Department. A German attack between Avocourt Wood and Hill 304, in the Verdun sector, was driven off with heavy losses to the Germans. There was a violent artillery

action in the Bixchoote sector of the Belgian front, and another between Hurtebise and Craonne, north of the River Aisne. Paris, August 7.—French troops last night broke into the lines of the German Crown Prince, on the Champagne front at three places, inflicting losses on the Germans and bringing back prisoners, it was officially announced to-day, by the French War Department. A Teuton attack between Avocourt Wood and Hill 304, in the Verdun sec-

tor, was driven off with heavy losses to the Germans. There were fairly violent artillery duels in the Bixchoote sector of the Belgian front, and between Hurtebise and Craonne, north of the River Aisne. The text of the French statement says: "There has been fairly violent artillery fighting in Belgium, particularly in the Bixchoote sector, and north of the River Aisne along the Hurtebise-Craonne front. The infantry was not engaged.

The new ministers have been recruited largely from the Conservative ranks, the Prussian under secretaries and heads of the provincial bureaucracy being traditionally of that political persuasion. Exceptions are the parliamentarians von Krause, Nationalist vice-president of the Prussian diet, who, however, belongs to the Conservative wing of that party, and Dr. Peter Spahn, the aged Catholic leader, whose health is so poor that it is doubtful whether he will be able to stand the strain of ministerial labors. He collapsed and fainted in a reichstag committee meeting recently. He has not fully recovered.

Herr von Krause's appointment is a compliment to the Prussian bar of which he is a prominent member. Herr von Walow, head of the Imperial food ministry, is an agrarian conservative, representing the interests which hampered the work of his predecessor, Herr von Batocki, in every possible way. Herr von Graevnitz, under secretary of the imperial chancellery, also is prominent as a Conservative.

German People Renew Vow To Comport-Selves As Christians

Amsterdam, Aug. 7.—Dutch newspapers print in a parallel column with an account of the murder of the crew of the British Steamship Belgian Prince, a Berlin telegram giving the following extract from a pastoral letter read in all Protestant churches of Berlin last Sunday. "We will comport ourselves as Christians towards our enemies, and conduct this war in the future as in the past with humanity and chivalry."

The pastoral was read at a service which Emperor William and the empress attended at the Cathedral. It exhorts the people to humanity, and recognizes the hand of God in the protection from invasion which the fatherland has enjoyed.

WILSON UNREADY FOR FOE PEACE NEGOTIATION

Regards Present Time As Unpropitious For Any Discussion

Washington, Aug. 7.—President Wilson had a long conference yesterday afternoon with Senator Lewis, the Democratic whip, urged haste in the final enactment of the wood control bill, and revenue bills, and is understood to have indicated that he does not consider the present time for discussion of peace negotiations with Germany.

Senator Lewis would not discuss the latter phase of the conference, but it was believed the President indicated that he did not consider Germany's recent peace feelers to be genuine and that he can be expected to let the country know when he believes the time has come for discussing peace.

Washington, August 7.—The newly created war industries board today went to work on its big war purchasing program for the United States and her Allies, after a preliminary conference with President Wilson.

Some difficulty is looked for in the effort to buy for the allies at the same low prices obtained by the United States Government.

The Germans have been showing signs of decided uneasiness in the Lens sector for several days as has been evident by their practice of throwing a curtain of fire on the British trenches each morning at dawn.

Vimy and Farbus, towns behind the British lines south of Lens, also have been shelled daily by enemy batteries.

Doings of one Little U-Boat

By Courier Leased Wire An Atlantic Port, Aug. 7.—One German submarine during a three week period, ending July 19, sank 19 vessels, aggregating 66,000 tons, and was still in condition to remain longer away from its base, according to a report brought here to-day by Harold Hansen, of Detroit, a member of the crew of one of the 19 ships, who said he received his information from the U-boat commander.

Hence the public has gained the impression that there is little going on in Russia except demonstrations. As a matter of fact, if reports on American affairs disseminated in Russia concentrated on our own little disturbances, race riots, the I. W. THE SITUATION

The condition of affairs with regard to Russia presents a somewhat better appearance, but there is as yet nothing definite upon which to build too much optimism. In Bukovina, a force of Muscovites made gains north-east of Czernowitz, but failed to hold them. The Teutons still continue to advance, but according to a report emanating from German headquarters Korniloff's armies are preparing to give battle on the Pruth, and there is resistance on the Roumanian frontier. Kerensky has formed a new cabinet, which it is to be hoped will give him good backing.

Heavy German attacks on the British and French fronts have been successfully foiled. Official announcement comes from Berlin that five Ministers of State and four Secretaries of State, have resigned, with Zimmermann included in the latter. The circumstance does not apparently mean anything except changes under the auspices of a new Chancellor. A despatch from London states that under pressure from Austria and disaffected elements in Germany, the Kaiser and his associates may be forced to make serious and direct peace proposals by autumn in order to avoid another winter campaign. If so, they will have to come up to the specifications of the Allies in order to secure acceptance.

The Canadians continue to advance upon Lens and on the West side have come upon the main lines of the foe, which are guarding the railway embankment of that sector. The Italians, by the use of giant flyers, are making a series of bomb attacks on Pola, the great Austrian Naval port.

THE VOTE IN THE SENATE

The Senate furnished somewhat of a surprise in connection with the large majority there on behalf of the selective conscription bill. It had been thought by many that Laurier possessed enough personal influence over his followers to line them up against the proposal as he did when the Upper Chamber threw out the Navy Aid bill at his behest, but results proved otherwise.

Senator Bostock had an amendment to delay the passage of the bill until after an election. This was defeated 44 to 34. Then the main proposal was put and Bostock and other Liberal members, having failed in their own proposal, changed over in support of the bill which carried by 54 to 25—a very satisfactory plurality.

Six French Canadian Senators voted with the Government on both occasions, all honor to them. Senator Landry was the only Conservative to bolt and in doing so, he took the unworthy ground that more conscripts were not needed, and that anyway the United States will soon be sending a lot of men. A more despicable plea with regard to inaction on the part of Canada, it would be hard to imagine. Landry ought to be ashamed of himself.

The debate in spots became pretty hot, and a feature was a vigorous defence of the Government by Sir Mackenzie Bowell, now 94 years of age.

Liberal Senators, who backed Laurier dwelt a good deal on the fact that conscription had been defeated in Australia, but they conveniently ignored the fact that in the election which followed, the anti-conscription forces were routed.

With the signature of the Governor General selective conscription in Canada becomes the law and it should be enforced without any undue delay.

BOLDEN IN EARNEST

The delegates appointed by the "Win the War" convention to wait upon Premier Borden at Ottawa, have returned with the unanimous expression of opinion that Sir Robert is deeply in earnest with regard to his desire to form a union cabinet of both the great political parties, and including representatives of agricultural and Labor interests.

On this point, he said: "It has become more and more apparent during recent months that

party differences must be sunk and all forces united in the effort to win this war. My endeavors for that end during recent weeks have not been wholly made public, but those who have an intimate knowledge of public affairs during that period are aware that no effort on my part has been wanting. It is appropriate on this occasion to make my fellow-countrymen fully acquainted with my desire and intention. I hope that in the near future a Government may be formed based upon a union of all persons, irrespective of party, race, or creed, who believe that the struggle which we now wage is for the cause of liberty and justice, who realize that it involves the destiny of our Dominion, of this Empire, and even of the world, and who, putting aside all differences of minor significance, are prepared to join in a united and determined effort to throw into the conflict the full power and strength of this Dominion. Only by very real and very specific aid can we win this war. Mere profession is hollow and futile." The Premier also convinced the delegates that a general election could not now be avoided, as it would be impossible to ask the British Government to extend the life of Parliament on the basis of the narrow majority attained in that behalf.

THERE MUST BE RESTORATION

Lloyd George made a characteristic speech in connection with the fourth year of the war. In forceful terms he emphasized the fact that the Allies were fighting to defeat the most dangerous conspiracy ever plotted against the liberty of nations—a conspiracy confirmed at a meeting in Berlin weeks before hostilities were started. The cold blooded nature of that plot he declared to be "one of the most sinister episodes in the whole history of human brigandage." Had Great Britain not entered the struggle with her navy and huge new armies Europe today would be under the heel of the Hun with all that this involves and America would have seen the Monroe doctrine treated like any other "scrap of paper" and German ambitions in South America on the way to realization.

To the question "How are we getting on?" he would reply: "Well, like all roads that have ever been constructed, there are ups and downs; and no doubt the Russian collapse is rather a deep gully we are passing through. I am not sure we have reached its darkest level, but across the valley I can see the ascent."

The strongest point made by the British Premier was with reference to a peace basis. The Kaiser instead of world domination now talked modestly about defending German soil. He first said that Germany was in danger of being attacked. By whom? Was Great Britain with her "contemptible little army" preparing for invasion? Was Russia when she did not even possess railway system that was adequate to keep an army to defend her own frontiers? Was France who likewise was unprepared to protect her frontiers? Or was it Belgium? Or was the Serbian army going to march to Berlin? The Kaiser knows, he must know that neither of these things were true. He and his associates precipitated the struggle in order to secure more territory.

"Neither of them, neither he nor his new Chancellor, says they will be satisfied with German soil. They talk glibly of peace, both of them; but they stammer they stutter when they come to the word restoration. It has not yet crossed their lips its end. Those gallant fellows of whom I am glad to see specimens here in this meeting, they are gradually curing the Kaiser of his stuttering. So far he has not learned the alphabet of peace, not the first letter of that alphabet—restoration. That is the first letter; when he has learned it then we will talk."

Well, and eloquently put but then that is a habit possessed by Lloyd George above all others.

Kitchener was almost laughed at in some quarters when he predicted that the war would last at least three years. And with that period gone, it would be a rash individual who would pretend that the end is anywhere in sight.

China has decided to make war on the Kaiser, but the trouble is that she is not in a position to heave much crockery.

Civic holiday in Brantford is usually a day when large numbers of citizens show their pride in the place by getting away from it. The only consolation is that the same sort of thing seems to be true of all other burghs.

During June and July, there were 10,698 enlistments in Canada. That was quite an improvement, but does not furnish any argument for the continuance of the voluntary plan. The figures without much doubt largely resulted from a desire to enroll before forced to do so.

The Toronto Globe has sent a staff correspondent to Winnipeg for the Liberal convention there, and he reports that the "power of Laurier

dominates in the West." It now remains to be seen how far that statement will jibe with what the convention does.

The Huns have been attacking the French positions east of "Nolsy Farm." As a matter of fact, they are all that at the front.

The passing of Sir Richard McBride removes a man who in his comparatively short life, had attained much prominence. He was Premier of British Columbia at the early age of 33, and at one time was spoken of as Conservative leader for the Dominion. In later years, the insidious disease to which he succumbed, doubtless did much to sap the aggressiveness which marked the earlier portion of his career.

He was wounded at St. Julien, he served in Egypt, and a few months ago he joined the air corps.

SCORE OF BANDS AT THE 'BIG FAIR.' Innes, the Bandman, to Head Unusually Good Musical Programme.

"Innes, the Band Man," who will head the musical programme this year at the Canadian National Exhibition, with his famous band of soloists, is an Englishman, a graduate of the London Conservatory of Music, and the Band of the Life Guards. Later he went to Paris, where he attracted the attention of the late Pat Gilmour, the greatest of all American band leaders. He accompanied Gilmour to America, and has proved a worthy successor to the old master. Innes' band was acclaimed the finest of the many fine bands heard at the Panama Pacific Exposition. He it was, who planned and carried to success the remarkable series of festivals which made the Alaska Yukon Exposition notable among all other exhibitions for its musical programmes. Innes will give two tree concerts daily, and, in addition there will be concerts by a core of other bands day and night.

It Works! Try It Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and good news here, are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus. You apply just a few drops on the tender, aching corn and instantly the soreness is removed and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue. This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

His achievements while overseas have been brought to the attention of the military authorities on various occasions and he has been recommended by Lieut. General Sir E. A. H. Alderson, K. C. B., C. B.; Lord Beaverbrook, Brig. General G. Hastings, Major Bentley D. S. A., A. D. C. and Capt. C. Butler, A. D. C.

HOLIDAY PASSE OFF VERY QUIETLY

Weather was Favorable and Many Brantfordites Journeyed To Dover

The weather conditions yesterday and over the week-end were most auspicious for Monday, August 6th, Brantford's Civic Holiday. The day passed quietly, and while there were many visitors in the city, a large number of citizens migrated to Port Dover to enjoy the cool breeze off the lake and a dip in the refreshing waters of Lake Erie. On both Sunday and Monday there was a large influx of Brantford visitors at the Port, and many left on Saturday returning on Monday evening. Mohawk Park proved to be quite an attraction, and throughout the day crowds assembled there and picnic parties were gathered in groups about the tables and on the grass under the shade trees in all corners of the park. The water on the lake was calm, and many participated in the boating privileges. At Agricultural Park, baseball games were staged in both the morning and afternoon and snappy, closely contested games were provided for the fans in the central section of the city. What was found the greatest quiet, and while all the stores with the exception of those dispensing refreshments and tobacco, were closed, exceptionally attractive holiday programmes were offered at all the theatres, which were comfortable, cool and well patronized at both matinee and evening performances.

NEW Y.W.C.A. SECRETARY

Miss Lillian Knowles, A Brantford Born Girl, Is Appointed

Word has been received by the Y. W. C. A. Directorate that Miss Lillian Knowles of Brantford, has accepted the position of General Secretary of the local Association.

Miss Knowles, who is a Brantford girl, has many friends here, who will welcome her to her home city. She has, since leaving Brantford, had splendid American training in Association work, and after graduating from the New York training school has filled acceptable positions as General Secretary in Kingston and Halifax.

The Directorate is also fortunate in securing again Miss Cattle as Physical Director. She will give next season more time to this important branch of Association work and in addition will conduct the swimming classes, both morning and evening, for which she is taking a special summer course at the present time. Miss Cattle has been most successful in this branch of her work.

POTATO PROBLEM TO BE WOUND UP

Special Meeting of Council Will Receive Report of Ald. MacBride

A special meeting of the city council has been called by Mayor Bowly for Thursday night at half past seven o'clock sharp, when the civic "potato deal" will be finally cleared up and other business transacted. Mayor Bowly stated this morning that he had been waiting for two weeks for the financial statement from Ald. MacBride, but as yet had obtained no satisfaction. He stated that he was exasperated, and had determined to call a meeting to clear up the difficulty.

Nuptial Notes

THOMPSON-BLAKLEY. A quiet wedding was solemnized last Saturday evening at the home of Mr. and Mrs. John Brooks, 22 Holme street, when Charles Thompson a returned soldier, who has seen a good deal of service and has been several times wounded was united in marriage to Maggie Blakley of this city. The ceremony was performed by the Rev. Albert Carr, pastor of the Riverdale Baptist church. Mr. John Brooks acts as best man and his two daughters Rosie and Annie were flower girls, each carrying baskets of white asters and ferns. The wedding march was played by Mrs. D. C. Howell. Mrs. J. Brooks made an excellent hostess and provided an excellent repast for the newly wedded couple and their guests Mr. and Mrs. Thompson leave in a few days for Manitoba where they will make their home.

WOMAN, ILL, HELD ON MURDER CHARGE

Mrs. Bianca de Saulles Will Probably Plead Temporary Insanity

By Courier Leased Wire. Minola, N. Y. Aug. 7.—An application for the removal to a hospital of Mrs. Bianca de Saulles, held in the county jail here for the murder of her former husband, John L. de Saulles, is expected to be made today. This announcement was made by her attorney after three physicians had made an examination of his client. Although he would not state specifically just what her ailment was, the attorney said the events of the last few days had accentuated her illness and brought on a collapse. He said also, he might go before the Supreme Court in Brooklyn in an effort to have Mrs. de Saulles admitted to a hospital on the ground her life was being endangered being confined in county prison here.

The mother of Mrs. de Saulles, who she had divorced on Wednesday for New York and was bringing another daughter and her son with her. The belief that Mrs. de Saulles' defense will be temporary emotional insanity was strengthened today. Her attorney reiterates she had no intention of shooting her husband, who she had divorced on Wednesday for New York and was bringing another daughter and her son with her. MAYOR BOWBY ON FOOD PRODUCTION

Strongly In Sympathy With Campaign for Farm Help, But Remains Passive

"The extreme need for help to harvest the Ontario crop leads me to appeal to you to release every possible corporation employee from this work, and to interest yourself in immediate organization of your municipality to secure farm help." Such was the text of a telegram received yesterday by Mayor Bowby from W. H. Heats, Premier of the Province, urging the necessity for assistance to the farmers in bringing in their crops. This morning an explanatory letter in relation to the telegram was received, containing further and more specific particulars. The communication points out that the saving of the harvest is an imperative duty not only to ourselves, but to the boys at the front, the British Empire and to our Allies; that there may be no shortage of food to hinder the successful continuation of the war. It is estimated that 10,000 men will be needed in Ontario for a period of from one to six weeks. A list of centres, where those willing to assist in the emergency will register, may be seen at the city hall. The government is willing to pay the railway fares of those who, while willing to do farm work are not needed in their own community, but will go to some other work where the need is greater.

"I am as much in sympathy with the movement for saving the crop as anyone, but I doubt if I should exercise my authority to induce anyone to leave the city for that purpose," declared Mayor Bowby this morning. "The manufacturers are in very tight straits owing to the shortage of labor, and I know it. I am also perfectly well persuaded that the manufacturers are patriotic in the broad sense of the word, and there is not one of them who would not do anything legitimate to help the farmer in saving their crops, but I have no personal desire to queer the position and render it more difficult for them to keep their contracts for their manufactured products."

In regard to his attitude to municipal employees leaving the positions temporarily, as was suggested in the letter, his Worship stated: "Every available man who can get a job in the country should go and get it and help with the harvest. He can get off, and he may be assured that his position will remain open for him on his return."

WELL FITTED. London, Aug. 7.—Alan Anderson, the new controller of the navy, who will be responsible for the admiralty's shipbuilding requirements, has a close knowledge of both shipping and railways. He was long associated with a company of shipping brokers, and is a director of the Midland Railway. He is a son of Dr. Elizabeth Garrett Anderson, a well-known physician and the first woman to be elected as mayor in England, being the chief magistrate of Aldeburgh.

Boston, Aug. 7.—Mayor Curley has approved a form of certificate to be issued by his office to residents of this city who desire to travel in the British empire and especially in Canada. The certificate which is designed to aid travellers in speedily satisfying border inspectors that they are leaving this country for no improper purpose, sets forth the fact that the person certified is a native born or naturalized American citizen and states the reason for his visit.

SUSPECT TAKEN IN MURDER CASE

Police Have Arrested Maltese For Killing of Fellow Countryman

Suspect in the police court this morning, Carmello Callija, an elderly, benevolent appearing Maltese, through the services of Charles Gueta, interpreter, pleaded not guilty to the charge of murdering Gio Bornoello, on July 29 last. The case was remanded for a week in order to complete the gathering of evidence for the Crown.

CARMELO CALLIJA. From a photograph taken by the authorities yesterday.

Callija was arrested on Saturday night by Detectives Chapman and Schuler, after several days' investigations, the authorities considering the case against the man a clear one. Callija is fifty-three years of age, has a wife residing in Malta and a daughter married in Toronto. He, himself, resides at 100 Dalhousie street, and is employed at the American Radiator Company. He is known to have been acquainted with Bornoello, the murdered man. Since his arrest, Callija has maintained an unequivocal bearing, saying little and evincing no apprehension as to his fate. He speaks little English, and has proven no trouble to the jailers.

ATHLETE SUICIDES

By Courier Leased Wire. St. Louis, Aug. 7.—Gordon Wheat Lambert, member of one of the wealthiest families of St. Louis, shot and killed himself in his apartments today. He was known as an amateur athlete and belonged to many athletic clubs of the country. He was 43 years old.

Lambert was vice president of the Lambert Pharmaceutical Company. Early this morning the telephone in the apartments, occupied by Lambert, rang, and a maid answered. "Will you see how Mr. Lambert is," said a woman in an excited voice at the other end of the line. "He telephoned that he was ill."

The maid went to Lambert's room and found him lying dead in a pool of blood. A revolver lay by his side. Lambert was divorced from his first wife. His second wife, with a baby six months old, is in New York. He was married to her in August, 1915.

ON THE TURF. By Courier Leased Wire. Columbus, O., Aug. 7.—The richest stake at the present Grand Circuit meeting is on this afternoon's card at Columbus Park, when 2.15 is expected to start for the S. and G. \$5,000 purse. Busy's Lassie is a heavy favorite to win because of her successes at Detroit and Kalamazoo over practically the same field. During the Kalamazoo meeting Busy's Lassie won two \$10,000 stakes. W. J. Leyburn, Royal Knight, Peter Chenault and others are in the field of entries.

The other events of today's program are the 2.13 class trot and the 2.11 pace. Judge Jones will be the favorite in the 2.13 trot and Tramp-a-Bit in the pace.

Rumors From Vatican. Rome, Monday, Aug. 6.—(Delayed)—Many Italian newspapers and some authorities on vatican affairs, continue to affirm that Cardinal Gasparri, the papa's secretary of state, has resigned. The retirement of the secretary it is asserted, will permit of the inauguration of a new policy by the vatican towards Germany.

The official Observatore Romano is silent on the subject, but the semi-official vatican organ Correspondenza flatly denies that the papa's secretary has retired.

MOTOR TRUCKS DROPPED TWO IN CITY LEAGUE SATURDAY.

Cubs Drop out of Race, Leaving Circuit a Three Team Affair; Dominion Steel Still Leading—Two Exhibition Games on Monday

As the result of Saturday's games the city baseball league the standing of the three clubs now remaining in the race for honors was materially changed. The Motor Trucks who occupy second place played two games and were defeated in both contests. The Holmedale Cubs have dropped out of the running and the best players have been absorbed by the Cordage Company. In the first game, the Motor Trucks had the contest practically salted away with a lead of four runs to none up to the fourth inning when the re-juvenated Cordage players came suddenly to life and scored two runs followed by another in the fifth and in the sixth, a total of five runs that proved sufficient to overcome the lead of the munition men. The game provided some real baseball being featured by three snappy double plays and a spectacular catch by Summerhayes of a foul that came down barely grazing the screen in front of the grandstand. Both teams presented several new players and were greatly strengthened. The munition men played two men recently secured from London, McFie a third baseman, and Arnott who plays equally well in either outfield of behind the plate. These two products of the Forest City, rapidly displayed their ability as hitters by tapping the first ball pitched to them in their initial appearance at bat, for two bases each. The score:

Munition teams conflicted, and in a southpaw flinger from London, who, with Arnott, formed the battery for the Motors, they were unable to retrieve their loss of the first game. In order to allow a number of the players to catch a train for London, the game was called at the termination of the sixth frame, after the game had been in progress fifty-five minutes. In the first game, the Dominion Steel twirled an excellent game striking out nine men and allowing but three hits. Monday's Games.

The Dominion Steel on Monday morning went down to defeat at the hands of the Cordage team, who staged a rally in the eighth inning and snatched an apparently sure victory from the hands of their opponents. The Munition men started strong, tallying twice in the first inning, and once each in the fourth, fifth and sixth. The Cordage pushed stray runs across the pan in the fourth and sixth frames, but until the fateful eighth Harwood appeared to have his opponents well in hand. The entire aspect of the encounter was altered, however, in the penultimate spasm, when the Cordage came to life with a rush, tallying five times. Burke and Bradley led off with clean singles, and after Ed. Sears had fled to left field, Lee took the ball between the shoulders as transportation to first base. Doyle booted Frank Sears' grounder, and Johnson followed up the advantage with a timely single, three runs crossing the pan upon these two plays, and Lee bringing in a fourth when Hurley and O'Connor were safe upon infield grounders, Johnson perishing meanwhile, when he was caught between third and home and run down. With Hurley on third, Tillman heaved the ball into deep left field, allowing the fifth runner of the inning to tally. The score:

LEAFS TOOK TWO FROM THE ROYALS

Toronto Won Both Morning and Afternoon Games Yesterday

Toronto, Aug. 6.—The Leafs took both ends of the double bill from the Royals at the Island Stadium on the holiday by scores of 7 to 6, and 11 to 2 for the morning and afternoon games respectively. Hoyt and Thomas were the oncoming twirlers for the morning contest, while Warhon and Stryker pitched in the afternoon.

The Royals went right after Toronto in the first game and notched a couple from the opening inning. Successive passes to McAuley and Moran, Lajoie's error and Smith's single doing the trick. The Leafs opened it up in the second when Altemeyer and Hoyt's hit drove a pass and Lajoie's hit safely. A walk to Thompson forced in Altemeyer, while "Lena" counted on Truesdale's out. The Royals came through with three in the fifth on McAuley's single, Zimmerman's triple, Schulz's error and Cather's single. Jacobson's single, following Truesdale's double, produced a Toronto run in the last half of the same stanza. The Leafs came strong in the seventh, six of the eight hits of three runs went into the lead. Lajoie opened with a hit and Thompson followed suit. Truesdale fled to left, but Jacobson's hit scored Lajoie's single. Lajoie's error and Jacobson's Thompson and Whiteman walked the double steal, the former scoring. Larry tried, scoring Whiteman. The Royals obliterated the Leafs' advantage in the eighth on Statter's double and Hoyt's single. Zimmerman's error, Blackburne's sacrifice and Thompson's double produced what proved to be the winning run.

Good Crowd in Afternoon

Before the best crowd of the season the Leafs clouted the delivery of Stryker for fourteen hits and had little difficulty emerging on top of a one-sided game. Joe Schultz leading the Leafs with a homer and Statter with a double. Six of the eight hits corralled by the Royals came in the two last innings, when Warhon eased up. Leafs grabbed their scores in bunches. In the second, Lajoie, Schultz and Altemeyer hit successively. Hoyt and Larry and Joe scored on Blackburne's single. Lajoie's force counted for Altemeyer. Singles by Truesdale, Jacobson and Whiteman. Lajoie's sacrifice fly and Schultz's home gave the Leafs a quartet of counters in the next inning. Jacobson singled in the fifth. Whiteman sacrificed and Schultz gave Toronto one more. The sixth saw the Leafs finish their offensive activities by scoring three times on Lajoie's single, Cather's error, a wild pitch, a double steal and Whiteman's drive to centre. The Royals' only counts came in the eighth on singles by Statter and Stryker. McAuley's double and Moran's sacrifice.

Baltimore, Aug. 6.—Baltimore came from behind and took the opener's against Rochester to-day by 9 to 6. Bues cleared the bases with a triple in the eighth. Manager Dunn has been suspended for his run-in with Umpire McBride on Saturday. Score: R. H. E. Rochester 0 1 3 1 0 0 1 0—12 5 3 Baltimore 2 0 0 1 0 1 5 x—9 16 3 Batteries—Schacht, Smith and Sanbarger; Newton and McAvoy, Schaufele.

At Richmond. Hummel and McDonald hit home runs in succession during the second inning to-day, but after that Adams was never in trouble. Richmond defeated Buffalo by 9 to 4. Score: R. H. E. Buffalo 0 3 0 0 0 0 1 0—4 6 1 Richmond 0 0 5 2 0 1 1 0 x—9 13 1 Batteries—McCabe, Jaynes and Onslow; Adams and Reynolds.

THE TURE.

"Princess Mary," owned by Mr. J. P. Buck and driven by Mr. Abe. Johnson, won the 2:10 pace purse, \$500, at Mt. Clemens, Mich., last Friday. The mare won the last three of five heats, time 2:11 1-4, 2:12 1-4, 2:10 1-4, 2:11 1-4, 2:11 1-4. She set the second heat by a nose, though being interfered with, by which she lost six or eight lengths. The race was a big betting affair and the Canadian visitors are reported to have profited by it. Princess beat among others "Tommy D", a very fast Ohio race horse, also "Prince Rupert", who won at Detroit grand circuit meeting the week before, making a record of 2:04 1-4. She will now race five times in Indiana.

CANADIANS ACTIVE

Carried Out Clever Advance In Most Successful Fashion

London, Aug. 6.—Again to-day the British forces operating against the important coal city of Lens made further advances west and south-west of their objective, according to the British official communication issued this evening. The advance on the west was made by two battalions from the Canadian unit. Following up their success of Saturday night, the Canadians captured and consolidated two enemy craters, from which the Germans had been firing hand grenades at the outpost lines nightly. The British official report said: "We advanced our lines to-day south-west and west of Lens."

"MAKE YOUR DOLLARS COUNT AT THE FRONT"

Help Canada Maintain Her Financial Freedom!

Do Your Share towards Financing the War with Canadian Savings Rather than with Outside Capital.

THE problem of meeting the enormous cost of this war is two-fold. Not only must Canada get the money—most of it, of course, as loans—but she must get as much of it as possible here in Canada.

We can carry the war-debt if the bulk of the interest goes to Canadians, and so is used again in the country's development. But it will be a serious matter for us if a large proportion of the interest has to be sent outside the Dominion.

For the sake of our own and our children's future this drain on our resources must be avoided! Canada's financial freedom can and must be maintained! An average saving of 15 cents a day, invested by each man, woman and child in Canada in War Savings Certificates, would enable us to carry the whole cost of the war. To approach this average, hard work, thrift, self-denial and sacrifice are required of every citizen.

For each \$21.50 you lend the Government now, you will receive \$25.00 in three years—or you can get your money back at any time. Certificates are issued in denominations of \$25, \$50 and \$100, and may be purchased at any Bank or Money Order Post Office.

Korniloff Continues To Enforce Death Penalty For Disobedience

Petrograd, August 7.—M. Kerensky's Cabinet is practically complete. The Constitutional Democrats have agreed to participate and the list of members who will form the new ministry has been agreed on, but as regards several portfolios, the choice is not definite, as the candidates are absent from Petrograd.

Most Hold Tents
 This 20-mile stretch of territory is not only the central sector of the withdrawn Russian front, but the gateway to Bessarabia, the great Russian granary. The Tents are already across the extreme northwestern corner of this rich province and if the Russians mean to fight anywhere to prevent an invasion of their harvest lands their present line is the natural place to make a stand. Their small success at Balan on Saturday, in which they took over 500 prisoners, was in this area. Just a Love the Pruth.

OTTAWA, Ont., Nov. 23th, 1914.
 "For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

disciplinatory measures for the army is indicated by a dispatch to 'The Morning Post' which says that Gen. Maevovskiy, commander of the Guards Corps, which precipitated the rout of the 11th Army, has been court-martialed and ordered shot. The military court was convened by General Korniloff and the charge was that Maevovskiy had failed to obey his superior's orders to fire on deserters.

Both north and south of the territory between the Dniester and the Pruth the Russians seem to be holding their own a little better. Berlin mentions local engagements all the way along the Zbrocz, a northern tributary of the Dniester, which forms the Russian frontier, but claims no additional gains of ground. South of the Pruth the German war office states that the Russians are resisting along the Rumanian frontier, which is particularly reassuring in view of the fact that a further retirement in this region would open Northern Moldavia to the Teutons and imperil the Rumanian success in Transylvania. The only Austrian-German advances of the day were made in the southwestern corner of the Bukovina, where Radutz, on the Sereth, was taken after stiff fighting, as well as some fights on the Bystritz and Moldava rivers. Petrograd reported yesterday that Radautz was being evacuated.

DRIVE TEUTONS BACK
 Russ Capture Guns in Drive Against Teutons, West of Brody
 Petrograd, August 7, via London.—The Russian forces fighting north-east of Czerowitz, in an attack drove back the enemy upon several villages, capturing guns and machine guns, but later in the face of superior forces, were compelled to withdraw to their main position, according to the official communication issued today. In Central Bukovina, around Radautz, the Austro-Germans continue to make progress. Radautz and several other towns have been captured and the Bystritz River has been crossed by the enemy. The communication says:
 "West of Brody insignificant enemy attacks were beaten off. North-east of Czerowitz, in the region of the villages of Toperovce, and Rancez, our detachments, developing an offensive, occupied a series of heights and drove the enemy back to the above mentioned villages. As an outcome of a daring attack by a detachment, we captured a four-gun battery and some machine guns."
Teutons Advance
 "Afterwards, the enemy advancing in superior force, compelled our troops to retire to our main position. It being impossible to remove the guns we captured, they were rendered useless, the breaches having been removed."
 "South of Czerowitz, the enemy continues to advance, chiefly in the regions of Dolina, the River Sereth, and the Suchawa, and is pressing back our troops. The villages of Olyboka, Komanka, Wosnec, Chikrolva and the Town of Radautz were occupied by the enemy."
 "An attempt to hold back the advancing enemy in the region north-west of Radautz was successful."
 "Rumanian front: In the direction of Kimpolung the enemy continues his offensive. Owing to the instability of certain of our units, we have been forced to retire somewhat toward the east. The enemy has crossed the Bystritz River."
 "On the night of the fifth our airplanes dropped a number of bombs on the railway station at Baranovitchi, southwest of Minsk."
Russ Prepare Drive
 Berlin, August 7.—The Russians are preparing to give battle to the Austro-German forces advancing on the Russian front between the Dniester and the Pruth, according to yesterday's army headquarters announcement. The Rumanian frontier southwest of Cernowitz is also the scene of Russian resistance. The text of the announcement reads:
 "Army group of General Von Boehm-Ermolli; Along the Zbrocz there have been local engagements. Between the Dniester and the Pruth the Russians have prepared for battle."
 "Front of Archduke Joseph: Southwest of Cernowitz the enemy is offering resistance on the Rumanian frontier. Our attack is proceeding. We are now before the Sereth and fighting vigorous. Repeated Rumanian attacks on Casinulul and on Little Lepsa, north of the Putna Valley, failed with sanguinary losses."
 "Army group of Field Marshal Von Mackensen: Between the mountains and the Danube, the activity has revived at isolated places."
 "Macedonian front: The position is unchanged."

Music and Drama

THE REX.
 With new costumes and augmented chorus, and a new program of refined light musical comedies, the Broadway Belles made their second appearance in the city, opening a summer series of musical comedies at the Rex theatre. The innovation met with the hearty approval of the patrons of this popular playhouse yesterday. In addition to the comedy which is really good, there is another of the popular series of O. Henry stories, a Christy comedy a couple of reels of laughs supplied by a Triangle picture.

THE GRAND.
 The re-organized Edward Keane Players opened their new engagement at the Grand Opera house on Saturday presenting both then and on Monday a powerful comedy drama "Kearney from Killarney." In the role of Kearney, a genial young Irishman, Mr. Keane scores a great hit, his characterization being one of the best which he has yet presented in the city, while the supporting cast is also of unusual strength and ability. Little Yvette Paul is seen once more to advantage in a child role such as those which have already won her great favor with local audiences. The play is one abounding in thrills from beginning to end with a strong and absorbing story with its moments of sunshine and sorrow, and interspersed by moments of genuine humor. It is repeated at the Grand to-night and to-morrow.

THE BRANT.
 Basketball on bicycles is the annual novelty offered by the Imperial Troupe, cyclists sensational, who head an all star holiday bill at the Brant theatre, in a performance which should be missed by none. Basketball at any time is a game of starts and thrills; when played upon bicycles, it becomes somewhat after the fashion of polo, and a spectacle bound to hold the interest. Roscoe Arbutckle and other knights of the curstard pie cavort gaily in the obsequious latest Paramount comedy "A Rough House", a super-slapstick feature in these days of h. c. of I. We would hate to have to pay the croakery bill at the production. However "The Play's the thing", as one William Shakespeare once opined. We'll say it is. And "A Rough House" went across big both afternoon and evening. So with "His Last Will," a Christie comedy of very different nature. Fannie Ward is supported by an all star cast including Jack Deane, Tom Forman and others, in her latest Lasky production "Her Strange Wedding," which proved another big hit. Bushman and Bayne co-starring in "The Great Secret" conclude a feature bill of motion pictures.

SIR RICHARD
MC BRIDE
 Former Premier of B. Columbia
 Passes Away in London
 Became Premier At Age of Thirty-Three

Vancouver, B. C., Aug. 6.—ate cable announces the death of Sir Richard McBride in London yesterday morning. It is said to have been due to Bright's disease, from which the former had been suffering for several years. Lady McBride and family are in England. Sir Richard's family were on the eve of sailing but had not yet been decided whether burial will be in England or in Columbia.
 A Native of British Columbia
 Sir Richard McBride was of origin and was a son of the late Mr. H. McBride, a former Premier of the British Columbia. He was born in New Westminster, B.C., and was in his 47th year when he was elected to the High Schools of New Westminster and then went to Dalhousie University, where he was graduated with the degree of LL.D. He was admitted to the bar in 1882 and made a K.C. in 1885. In 1888 he married Miss Margaret McGowan.

RUTH STROUD CAMERON

There is a certain class of women that I think should be called the strollers.

I have always been vaguely conscious of them but the other day I became more definitely and resentfully cognizant of their existence.

I was in town for the afternoon with forty-seven errands to do. My favorite shoe department was having a sale and I was held up ten minutes while the woman on my right tried on fifty-seven varieties of pump and the woman on my left tried to get the shoe clerk to produce something which was both a pump and oxford and therefore wouldn't require her to undergo the painful process of making up her mind between them.

And while I waited I became conscious of the strollers.

Nothing to do. Till No One Knows

I mean, as you doubtless suspect, the women whose almost daily program it is, to dress themselves up, stroll through the shops (not for any definite purpose, just to look round) perhaps by some little thing that catches their eye, eat a sundae or drink a cup of tea and go home.

There was a bargain counter at the head of the department and many of them passed in their strolling to pick up a shoe or two, look it over and lay it down, so I had a good chance to study them.

They were well dressed, of course,

and well groomed with the superlative grooming of a woman who can spare an hour or more to put her clothes on.

They had the very latest thing in bags and all such accessories. One specimen carried a little King Charles spaniel as beautifully groomed (and as unintelligent looking) as herself. They all looked extremely well fed and pampered and most of them had the air of being excellently cosseted with excellent reason. A disconcerted mouth and a restless roving eye were the most common facial features.

And Wouldn't She Have Been Surprised.

Of course you've seen these women. Don't they exasperate you? Or perhaps you are too sane to let yourself be exasperated by other people's follies and foibles.

I suppose the pressure of my forty-seven errands made me impatient for I wanted to walk up to one of them and say, "Why don't you find something to do? You ought to be ashamed of yourself that now, of all times, you can afford to be a stroller."

Maybe some of them will see my indictment here but I doubt it. For I have a feeling that my readers' friends are far from that type. And I'm not at all sorry.

EMMA GOLDMAN.

may grind their teeth, cursing everything in sight. All the cranks may whoop and rant, with their whiskers wet with foam, may for wreck and ruin, till the whole world comes home. When the sounds of war arise, and the tide of battle rolls, all the cranks, if they were wise, would proceed to hunt their holes. In a time of blood and fire, when the youth to battle fares, all the windmills should retire to their divers mouldy lairs. Emma thought she'd rant and yell just as in the times of peace; in her little whitewashed cell she is using elbow grease.

SIR RICHARD MC BRIDE

Former Premier of British Columbia

Passes Away in London—Became Premier At Early Age of Thirty-Three

Vancouver, B. C., Aug. 6.—A private cable announces the death of Sir Richmond McBride in London, at 6 o'clock yesterday morning. Death is said to have been due to Bright's disease, from which the former premier had been suffering for several years. Lady McBride and family are at present in England. Sir Richard and family were on the eve of sailing. It has not yet been decided whether the burial will be in England or British Columbia.

A Native of British Columbia Sir Richard McBride was of Irish origin and was a son of the late Arthur H. McBride, a former warden of the British Columbia Penitentiary. He was born in New Westminster, B.C., and was in his 47th year. He was educated in the Public and High Schools of New Westminster and then went to Dalhousie University, where he was graduated in 1890 with the degree of LL.D. He was admitted to the bar in 1892 and was made a K.C. in 1895. In 1896 he married Miss Margaret McGillivray.

the youngest daughter of a New Westminster barrister. He successfully practiced his profession at Victoria, and in 1896 contested New Westminster for the Conservative party in the general elections, but was defeated. He sat for Dewdney in the British Columbia Legislature from 1898 to 1907 and since 1907 until his resignation four years ago for Victoria. He entered the Provincial Cabinet as Minister of Mines in 1909, and on the defeat of his party was appointed leader of the Opposition from 1898 to 1907 and since 1907 until he led his party to victory at the polls and became Premier, holding the office of Minister of Mines. He was delegate to the Ottawa Inter-provincial Conference at London, England, the following year. He was at that time presented to the late King Edward and Queen Alexandra, and in June, 1911, he attended the coronation of King George. He was made a fellow of the Royal Canadian Institute in 1911. He was for some years on the directorate of the Pacific Coast Fire Insurance Co., and was a trustee of the British Columbia Permanent Loan and Savings Company.

About four years ago Sir Richard resigned the Premiership of his province and became Commissioner for British Columbia at London, Eng., a short time ago he resigned this post because of ill-health.

LADIES' SKIRT.

By Anabel Worthington.

The popularity of the two piece skirt never seems to wane, for each new season finds it in the front rank among the latest favorites. Therefore it is quite safe to select this style for your new skirt, knowing that it is always in good taste. No. 8325 is a two piece model, fitting smoothly across the front and gathered becomingly across the back. The style of the skirt makes it equally suitable for slender or stout figures. A broad belt across the back holds the gathering in place. Two convenient tailored pockets are applied to the front of the skirt at an angle, but they may be omitted if preferred. Serge, gabardine or broadcloth can be used to make this skirt. It may also be made up in any of the washable skirt materials.

The pattern No. 8325 is cut in size 24 to 28 inches waist measure. Width at the lower edge is 2 1/4 yards. The 24 inch size requires 2 1/4 yards 36 inch material, or 2 1/4 yards 54 inch.

To obtain this pattern send 10 cents to the office of this publication.

GAVE UP HIS TRADE AFTER FORTY YEARS

"Tanlac Beats Anything I Have Ever Taken," Says Brown—Gained Twelve Pounds

"There's bound to be something unusual about Tanlac to make a man my age gain twelve pounds and feel like a young man again," said C. H. Brown, a few days ago. Mr. Brown has been a resident of Hamilton for forty-seven years and lives at 248 Main street. For forty years of this time he was a glass blower, and according to his statement, he was forced on account of ill health, to resign his position with the Dominion Glass Company, where he had been employed for twenty years.

"For four or five years," he continued, "I had suffered with rheumatism and was generally run-down in health. My appetite was so poor I seldom wanted anything to eat and I just kept falling off in weight. I would almost fall, and my legs pained me so bad I couldn't stand up long at a time. I was so nervous and miserable I could hardly sleep, and actually I never had a good night's rest in four years until Tanlac straightened me out. No other medicine ever seemed to do me any good and I got in such a bad fix I had to give up the work I had been doing for forty years and try to find relief."

"I had lost faith in all medicines because I had been disappointed so many times, but when I read how Tanlac was helping so many people here I decided to try it, and now I can truthfully say it is all that others claim for it. When I first started on it I weighed only one hundred and thirty-three pounds. I now weigh one hundred and forty-five—have actually gained twelve pounds—and that certainly seems remarkable for a man sixty-nine years of age. I really feel almost as good as I did when I was thirty, and believe I could stand a regular work again. All the pain has gone out of my legs and I can stand on my feet all day and everybody is telling me how much better I look. I have been taking Tanlac tablets, too, and find them great for constipation. All my nervous, dizzy feelings are gone. I sleep good every night, for the first time, in four years, and I get up in the morning without that tired, no account feeling I had so long. And eat, why, I can eat just anything I want, and as much as I please, without the slightest trouble afterwards. Tanlac beats anything I have ever taken. I have told numbers of people what it is and they have all said so. I am sure all my friends are now taking it on my recommendation."

Tanlac is sold in Brantford by Milton H. Robertson Co., Limited, in LeROY by C. LeRoy, in LeROY by M. H. Cooke and Co.; in Stayner by N. B. West; in Elmville by W. J. McGuire.

CHINA TO JOIN WITH ENTENTE

Celestial Republic Reaches Decision For War With Germany

FENG KWO PRESIDENT

Li Yuan Hung Declines To Return To That Post

Peking, Aug. 7.—Acting-President Feng Kwo Chang today approved the unanimous decision reached at a special meeting of the Chinese Cabinet to declare war on Germany and Austria-Hungary. The ministers of the Entente powers probably will meet at the Chinese Foreign Office on Saturday to discuss China's declaration of war, which is expected to be issued this week.

Li Yuan Hung, the former President, who has been in the French Hospital since the time of the recent crisis, has left the hospital and returned to his private residence in the Chinese city. Acting President Feng Kwo Chang, who arrived in Peking today, called upon Li Yuan Hung after the latter reached his home and urged him to reassume the Presidency.

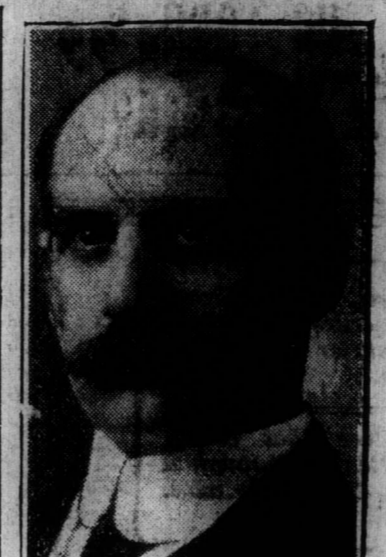

Li Yuan Hung declined, however, to comply with the request of the acting President, expressing the desire to retire permanently from public life. His hope was, he said, that Feng Kwo Chang would have a successful administration.

Prominent Germans in Peking are conferring with the Dutch Minister to China, with the object of making arrangements to go to Java. The Spanish minister probably will take over the interests of Austria-Hungary.

Premier Tuan Chi Jui and his political followers insist that Feng Kwo Chang as Vice-President automatically became President when Li Yuan Hung declined to resume office. Parliamentarians are assembling at Canton and are preparing to organize a military Government with the sanction of Parliament and to elect a President.

Acting President Feng Kwo Chang has asked for liberal appropriations to be used in suppressing the southern military element.

"FINDERS KEEPERS, LOSERS KEEPERS."

The doctor had told Mitchel that his mother needed a change and a rest to become well and strong again.

"How can we do this?" he asked himself, for Mitchel and his mother were very poor.

"Don't worry, dear, the way will open for us," replied his mother, who could read Mitchel's thoughts in his face. But as time wore on she grew so thin and pale that Mitchel could hardly work for his worry.

One evening on his way home from a neighbor's house he picked up a little silk bag that had fallen in the dusty road. He pulled out such a roll of bills that his eyes fairly danced.

"Enough to take mother away," he cried, but his smile faded as his hand touched a card case with the owner's name engraved on the back. "Just my luck!" cried Mitchel, and then he whispered to himself, "No one will ever know you found it."

He rammed the bag in his pocket and went home. "Losers weepers, finders keepers," kept going over in Mitchel's brain as he ran into the house and handed the roll of bills to his mother.

"Found them on the road. It's the way opened for your trip," he cried.

"Finding the money doesn't mean that it belongs to us. Isn't there a card or a name to identify the owner by? Let me see the bag," said his mother. The card case fell on the bed. "You must have overlooked this. Return the bag at once, for the person who dropped the bag will worry when she discovers her loss."

"Let's keep them. Take your trip and get well, then I'll pay all the money back," said Mitchel.

"But his mother refused, and so Mitchel returned the bag of money to its owner.

"She might at least have offered me job cutting the grass," Mitchel said to his mother, for the lady had hardly thanked him, and his pride was hurt.

Next day a strange automobile stopped at Mitchel's house and the lady of the lost bag smiled at Mitchel.

"Yesterday I was so worried that I neglected to thank you properly for returning my bag, so I came to-day to reward you," she said sweetly, holding out a bill toward Mitchel.

But Mitchel's hands went deep into his pockets. "That's all right, I'm glad your card was in the bag," replied Mitchel, and he invited the lady in to see his mother.

The sole head of a family or any male over 18 years old, who was at the commencement of the war, and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter-section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter-section as pre-emption, at \$200 per acre. This privilege may be exercised in certain districts. Price \$300 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$500.00.

Holders of entries may count time of employment as farm labourers in Canada during 1915 and 1916 towards their certain conditions.

When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive priority in applying for entry at local Agents' Office (but not Sub-Agency). Discharge papers must be presented to Agent.

W. W. CORY, Deputy Commissioner of the Interior. N.B.—Unauthorized publication of this advertisement will be paid for.

Von Kuehlmann, Former Ambassador to Constantinople, Becomes the New Foreign Secretary; Liberal Press Dissatisfied by Changes

Berlin, Aug. 7.—Official announcement was made yesterday that five Ministers of State, including Foreign Secretary Zimmermann, and five Secretaries of State, including Finance Minister Lenzte and Interior Minister von Loebell, had resigned their portfolios.

Dr. Richard von Kuehlmann, the German Ambassador to Turkey, has been appointed Secretary for Foreign Affairs, in succession to Dr. Zimmermann.

The Ministers and Secretaries of State who resigned were:—

Minister of Justice—Dr. Beseder, appointed November, 1905.
Minister of Ecclesiastical Affairs and Instruction—Dr. von Troitz zu Solz, appointed July, 1909.
Minister of Agriculture, Domains and Forests—Dr. von Schorlemer, appointed in 1910.
Minister of Finance—Dr. Lenzte, appointed August, 1911.
Minister of Interior—Herr von Loebell, appointed May, 1914.

Secretaries of State
Imperial Postoffice—Herr Kraetke
Imperial Secretary of Justice—Dr. Lisso.
Secretary for Foreign Affairs—Dr. Alfred Zimmermann, appointed November, 1916.
President of the Food Regulation Board—Adolph von Batoeki.
Dr. Richter, Herr Secretary of the Imperial Home Office, also resigned his post.

Dr. Karl Helfferich will continue to be the representative of the Imperial Chancellor and a member of the Ministry of State and Temporary Minister of the Interior.

Split up Economics Ministry
The Landrat von Graevintz was appointed to succeed Arnold Wunnschaffle as Chief of the Imperial Chancellery.

The Ministry of Economics will ultimately be separated from the Ministry of the Interior, and Herr Waldruff, Mayor of Cologne, will be appointed Minister of the Interior, and Herr Schneider, Mayor of Strassburg, Minister of Economics, with the title of Excellency.

In addition to the appointment of Dr. von Kuehlmann as Secretary for Foreign Affairs, Herr Ruedlin was made Director of Railways and Minister of Posts and Privy Councillor von Krueuse was named Secretary of Justice. Over President John Wald was appointed Chief of the Department of Army Nourishment.

DANGER PERIOD OF WOMAN'S LIFE FROM 45 TO 50

Interesting Experience of Two Women—Their Statements Worth Reading.

White Oak, Ont.—"At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and back-ache and I was very anemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine."—Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirilin.
Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. 'Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. All women would take it they would escape untold pain and misery at this time of life.'—Mrs. ALICE KIRILIN, 308 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.
