## A MUSICAL TREAT FOR NEWCASTLE

The music lovers of Newcastle and vicinity will be pleased to learn that Arthur LeBlanc the "Boy Wonder" violinist will give a concert here in the near future. Young LeBlanc, who is now touring the Maritime Provinces, Quebec and New England States leaves early next year for Paris to continue his studies with the great masters.

Mr. LeBlanc is assisted by Désiré J. Bourque, Operatic Bass Baritone, who has won favorable comment throughout the maritimes and Miss Gracia Desilets, a distinguished Quebec pianist.

All the concerts given so far have been great successes and a musical treat is in store for Newcastle soon. Announcements of date will be made later.

## A PUBLIC MEETING ON CHURCH UNION

The following article has been handed to us for publication:

In the pending organic union between the Methodist, Congregational and Presbyterian churches in Canada, it has been felt that probably the people have not all closely followed the negotiations leading up to the present and, therefore if it is to be the great and spiritual movement it was and is intended to be it would be necessary to place the matter more fully before the people.

Before union is consummated it is proposed by the joint union committee that all congregations and churches concerned will have the matter more fully presented to them that they may come, on this question, to an intelligent and worthy conclusion.

To begin this fuller presentation of the matter of Church Union, the REV. DR. ENDICOTT OF TORONTO, of the Methodist Church and the VERY REVEREND DR. GORDON, (RALPH CONNOR) of Winnipeg of the Presbyterian church will address a public meeting in St. Andrew's Church, CHATHAM N.B. on MONDAY, NOV. 12th 1923 at 8 o'clock in the evening. The addresses will be largely inspirational and will present in a clear and comprehensive manner the great task that is to-day facing the Christian church.

It is expected that all interested in the question of union from the surrounding towns and country will avail themselves of this opportunity of hearing two men of even more than continental fame. To hear them is to get a fuller and more accurate grasp of the union movement and its religious objective.

## MR. F.D. ADAMS MAKES GENEROUS OFFER

The following letter from Mr. Francis D. Adams of Los Angeles California, has been received by Mr. J.H. Barnett, Principal of Harkins' Academy. In his letter Mr. Adams very kindly expresses his desire to donate suitable uniforms for the High School Football Team, and probably will donate the entire outfit. Undoubtedly, Mr. Adams' kindness, will be gladly accepted and deeply appreciated by not only the staff and pupils of Harkins' Academy but also by the general citizenship.

Frank has many friends in Newcastle who remember him in his younger days when he lived in our midst. He is a weekly reader of the "Union Advocate" and as such is enabled to keep in touch with his former home town.

His brother, Clay, of New York City, takes a deep interest in the Baseball series of the Miramichi, and has for the past two years donated a beautiful silver cup for the winners of the Miramichi Baseball League.

Thus, two sons of the late Senator Michael Adams of Newcastle who have been most successful in their respective spheres of life, are still active in stimulating clean athletic sports in their old home town. The following is Mr. Adams' letter:

Los Angeles, California.  
Oct. 25, 1923.

Principal Harkins' Academy and Mr. Kenneth Brown,  
Newcastle, N. B.

Dear Sirs,  
As an old pupil of Harkins' Academy, I am, of course always interested in the school and the town. I notice in the Advocate, which reached me to-day, an article pertaining to suitable uniforms for the football team. Probably it is too late in the year now for me to be of much service in this regard.

I would like to have Mr. Brown write me and tell me more details so that next year, probably, a league of the high schools could be arranged at which time suitable uniforms should be had and I will be glad to donate the suits and probably the entire outfit. My brother has been donating a cup for the Miramichi baseball league and I would like to do something too, to stimulate proper athletics in the school and also to have the pleasure of doing something for my old Alma Mater.

Sincerely yours,  
FRANCIS D. ADAMS.

## RESULTS OF FIGHT BY RADIO

The following results of the middleweight prize fight between Harry Grebb of Pittsburg and Soldier Jones of Toronto held last evening in the Motor Square Garden Pittsburg, P.A. was obtained by Mr. Gordon MacKay by radio last evening. It was a 10 round bout and Grebb was given the decision.

Round 1—Jones floored Grebb who remained down 9 seconds, and was again floored a second time. Jones' round.

Round 2—Jones knocked Grebb to floor. Jones' round.

Round 3—Both fought hard and fast. Round even.

Round 4—Grebb pounded Jones hard in face and body. Grebb's round.

Round 5 and 6—Both fought hard with a little advantage in Grebb's favor.

Round 7—This round was a hard fought one, Grebb had advantage. Both even at this stage of fight.

Round 8—Grebb pounded Jones in this round, knocking him over the ropes and falling on shoulder became crippled.

Round 9—At beginning Jones landed few light lefts, but at finish Grebb was pounding him hard.

Round 10—This was Grebb's round and he was awarded the championship.

## ADDRESS ON MISSIONS IN ST. ANDREWS

A Deaconess of the Church of England, the Rev. Sister Watts of Toronto home on a furlough from Honan, China gave two interesting addresses in St. Andrew's Church here describing the work of the church and her own labors in that foreign field.

On Saturday last, at half past two a good attendance of the members of the Women's Auxiliary, and some other friends listened to an inspiring story of the work among the people of China, of the labors of the missionaries over immense territory, and the happy results of the work in many localities.

At the Sunday morning service, an address from Miss Watts took the place of the usual sermon. Again she spoke feelingly and earnestly of the church missionary work in China, pleading for support and showing the deep responsibility which we in Canada are under, to carry out the message of our Lord by going out to all the world, spreading abroad the good news, of a Saviour Christ. Parts of her address were very touching, and in her interesting manner, she described the work among those of tender years, and the difficulties and trials which they had to contend with.

Every one who heard her will wish her God Speed in her evangelistic and educational work when she returns again to the mission field, after her well earned furlough is over. She labors under the Missionary Board of the Church of England, authorized by the Church of which she is a Deaconess.

## REFUGEE RUSSIANS FOR THE DOMINION

101 Families Wish to Settle in West.

Negotiations are now under way between the farm land department of the C.P.F. and 101 refugee Russian families who contemplate settling in western Canada according to H. J. Loughran, General Farmland Agent of the Company in Vancouver. These Russians are at present at Harbin, awaiting the completion of these plans and have been in communication with the Canadian Pacific for several months. The company has sent out a questionnaire to ascertain the available cash in each family, its number of members, ages, and what if any has been their farming experience. This information is necessary, Mr. Loughran explained, in order to know what proposition can be made with regard to transportation to Canada and the amount of land to be set aside.

The Russians themselves have proposed to put up \$10,000 as an initial installment on the land and \$7,000 towards their transportation. The former sums represent about one-third of the amount necessary for the entire colony with an average for each family of a quarter section. It is thought that if the plan materializes these people will be allocated to one community and a system of living worked out along cooperative lines. All the prospective immigrants in the Harbin group are agriculturists and many of them have handled large estates under the old regime.

## SOUND AS A BELL

#### GAME TO THE LAST

An editor was dying, but when the doctor bent over, placed his ear on his breast and said, "Poor man! Circulation almost gone," the dying editor shouted, "You're a liar! We have the largest circulation in the country."

### Beating the Train into Eternity

IN line with new legislation being passed in the various States of the American Union aimed to diminish the alarming number of accidents through reckless driving of automobiles, particularly on level railroad crossings, the Board of Railway Commissioners for Canada has requested the Canadian Pacific Railway to submit information bearing upon similar dangerous practices by motorists on various portions of its system so that use may be made of the information with a view to endeavoring, through education, to minimize the occurrence of such dangerous practices.

● In a Bulletin issued by the Board of Railway Commissioners on June 15th, 1923, 54 cases of danger at protected crossings are cited for the period October, 1922, to May, 1923, and of these fifty are declared to have been due to the carelessness of motor drivers. "Motor accidents," says the bulletin, "are becoming more frequent. Every sane motorist deplors this. If accidents are to be lessened, the sane motorist must educate the culpably negligent motorists."

All highway crossings are by law protected by signs, and they are only dangerous when the driver of the automobile makes them so. They are not dangerous if motorists will take a small part of the care they exercise in turning on a city street. It is the motorist's carelessness that makes them dangerous. The train has right of way. Everyone knows what may happen if the plainly seen warnings are disregarded at a point where the motor car can stop while the train cannot.

The surprising part of it also is that safeguards and precautions erected by the railroads are so often entirely ignored. Time after time newspaper reports show that crossing alarm bells, barrier gates and even watchmen waving "stop" signals mean nothing to the man in the

### REGULAR MEETING BOARD OF HEALTH

The regular meeting of the North'd Sub-District Board of Health was held in the Chatham Town Hall Wednesday afternoon. Dr. Desmond of Newcastle, District Medical Health Officer presided. With the exception of Fred Richard of Rogersville a full board was present.

It was reported that the county is fairly free from contagious diseases. At present there are two cases of Diphtheria at Renous, a case of scarlet fever at Millbank and one at Chatham. The latter however is convalescent.

Complaints of the unsanitary conditions at the Chatham C.N.R. station were brought in by two members of the board. Three other stations in the county were reported as unsanitary. Steps will be taken at once to remedy these conditions.

The secretary said that he had notified a Chatham hotel which had not complied with the regulation set by the Department of Health, that unless such regulations were met within fifteen days he would lose his license.

A resolution was forwarded to the Chatham Town Council urging that steps be taken re a certain house in the lower section of the town which was unfit for human habitation.

The recent milk test was found satisfactory. With one exception the milk supplied by dealers in the county was found to come up to the standard as regards sediment and butter fat.

After the transaction of further routine business the meeting adjourned.

### Sailors Dread Sugar

Dynamite is not the worst cargo to a sailor; sugar. Put hundreds of tons of cane sugar in casks in the hold of a vessel and let the ship steam through a spell of hot weather. The odor is sickening. The sailors cannot get the sweet taste out of their mouths and crave vinegar or lemon juice—anything sour. They lose their appetites and are always glad when a voyage on which the cargo was sugar is over. Coffee is as disagreeable as sugar in addition to being dangerous. Cotton is a really dangerous cargo. If a little oil happens to touch raw cotton the result may be spontaneous combustion. A single bale of cotton saturated with such an oil as boiled linseed and lying at the bottom of the hold can be compared only to a slow match attached to a bomb. Acids and other chemicals form dangerous cargoes. Carbide of calcium for example, is more dangerous than dynamite. Acetylene gas is made from this chemical and the gas is constantly given off if the product is exposed to moist air.

### Accountants Qualified To Audit Canadians Banks

The list of accountants qualified to audit Canadian chartered banks during the coming year appears in the current issue of the Canada Gazette. This list is published by the Minister of Finance in accordance with the new provisions of the Bank Act, regarding the shareholders audit. The act provides that a list of qualified auditors is to be furnished to the Minister only by each institute or association of accountants incorporated by any provincial legislature and the Minister is authorized to prepare from the list so submitted a roll of the qualified auditors. Two auditors for each bank are then to be selected from this list by the shareholders. These two auditors must belong to different firms, and no auditor may hold office for more than two years consecutively.

### NEW BRUNSWICK HIGHEST DEATH RATE

Manitoba had the highest birth rate of the Canadian Provinces in 1921, as shown by a Blue Book covering vital statistics for that year, compiled by the Dominion Bureau of Statistics.

The figures cover only eight Provinces, however, Quebec not being included. Manitoba's birth rate in 1921 was 30.3 per thousand.

Infant deaths showed a notable decrease in 1921 as compared with 1920. For 1921 the rate was 88.1 for each thousand births, while while the year before it was 100.1. The highest rate in 1921 was 113.3 per thousand in New Brunswick, the rate of infant deaths in that Province in 1920 having been 134.9 per thousand.

Nova Scotia had the highest death rate from tuberculosis, while cancer caused the highest percentage of deaths in British Columbia. Saskatchewan had the lowest death rate from tuberculosis, while New Brunswick had the least number of deaths from cancer, in proportion to population. Cancer of the stomach and liver was the most prevalent, although this form of the disease affected men much more than women. On the whole, however, more women than men died of cancer during 1921.

British Columbia had the lowest death rate for babies, namely 56.5 for each thousand born in 1921 and 60.8 in 1920.

The total deaths during 1921 of people of all ages is given as 67,722 for the eight provinces, or 10.6 per one thousand population. The year before the rate was 12.3 per thousand. A decrease in total deaths as well as in the rate was registered in every province. New Brunswick had the highest death rate in 1921, it being 13.9 per thousand, while British Columbia with 8 per thousand had the lowest.

### British Unemployment Relief

The British minister of labor Sir Montague Barlow, stated that there were 1,251,600 workers unemployed in Great Britain last week. The government is undertaking the heavy new expenditure to provide work for the unemployed. Apparently the equivalent of 250 million dollars will be appropriated for this purpose.

This heavy draft on the national credit will, in accordance with orthodox finance, add to the debt and increase the taxes of the British nation. Even so it will be money spent only on machinery and public works that are intended still more to increase the productive capacity of the community. But there is nothing wrong with Great Britain's capacity to produce. At the present time that country is able to produce far more than it can market.

It is no remedy for unemployment to spend public money on schemes for still more production, unless there is also something done to increase the purchasing power of the people as consumers.

Of course the wages and salaries that are distributed to the workers, from the sums that are appropriated for unemployment relief work, do give a temporary stimulus to purchasing power, but such methods of relieving unemployment differ very little in effect from the stimulus of the hyperdermic injection.

The British government has apparently decided that there is less risk in employing such a method to stimulate industry than in going through another winter of the deflation policy, which has been completely discredited in the last three years.

## Guard Your Throat!

ONCE let 'cold germs' find the weak spot in your throat and troubles come thick and fast.

The tickling soreness at the back of the mouth, hoarseness, difficulty in swallowing and irritating dry cough are all evidence of germ attack.

The one speedy effective way to banish these troublesome symptoms is the Peps breatheable way. Simply take a Peps, peel off the protective silver-jacket and let the tablet slowly dissolve on the tongue, when the volatile healing medicine will mix naturally with the breath.

The germ-destroying Peps fumes as they circulate through the air-passages are soothing and comforting. Pain and irritation is charmed away. Any inflammation or soreness of the delicate membrane lining the way from mouth to lungs, is speedily ended. You soon lose the cough, hoarseness and swallowing difficulty.

Always carry a few of these silver-wrapped Peps tablets about with you as a remedy and safeguard against coughs, colds, chills and bronchitis, or other throat and chest weakness.

#### A MANY SIDED MAN

Mussolini, Premier of Italy, waited upon recently by a representative of the University of Bologna, who notified him of the University's desire to confer on him the honorary degree of Doctor of Laws, made reply, "All right, but as I cannot accept a high degree which I have not earned, I will sit for examination." Told

that this involved a legal thesis and discussion of it with leaders of the profession, Mussolini again replied, "All right, I will do it." A man of many attainments is Mussolini. He has been school teacher, butcher's boy, sailor, stone-mason's assistant, professor of French, journalist, soldier, member of Parliament, revolutionary leader and now at the

height of his career he challenges world wonder by his declared willingness to undertake an examination in law, which only profound students of law would undertake. A many sided and truly remarkable man is the Premier of Italy.

**"LEST WE FORGET"**

The Moncton Times in the issue of last Thursday, Nov. 1st, contains a well written article under the caption of, "Newspaper History."  
After reading the following: "We believe that the only newspapers in these Maritime Provinces having a continuous existence for more than half a century are the Halifax Chronicle, the St. John Telegraph and the Moncton Times, the weekly edition of The Times having made its first appearance December 10th 1868, or fifty-five years ago, and the daily edition August 10th, 1877, or forty six years ago," we began to think about the age of the Advocate, our own journal, which is "part and parcel" of Newcastle, ever true to the best interests of the Miramichi district, in which the Advocate had its birth.  
This paper was first issued in 1867, the year of Confederation and called the "Union Advocate" for the reason that we supported the union of the Provinces, with one Canadian whole, and since it was first issued it has appeared week after week, and while like many other journals it has known "the lean and fat years" it still remains going stronger than ever, a prime favorite, with a host of friends some of whom or their descendants have never ceased to take it since its first issue.

**Here and There**

The season for moose hunting opened in New Brunswick October 1st, and the chief game warden expects one of the best seasons in the history of the province. Game is reported plentiful in all sections.  
The drydock at St. John, New Brunswick, is now an accomplished work. It was opened October 29th. The largest drydock in North America, it is capable of accommodating the largest ships of the British Navy.  
Speaking in London, England, on October 19th, Sir Lomer Gouin, Canadian Minister of Justice, stated that Canada's exports per capita were three times more than those of the United States and her imports per capita four times more. The British Empire was Canada's second best customer.

There are more telephones in Canada per 100 population than in any other country except the United States. This is shown in a report issued by the Dominion Bureau of Statistics, in which the proportion of telephone users per 100 population is set at 10.53.  
A dispatch from London states that a number of cattle from the Prince of Wales' ranch was included in a large consignment of Canadian cattle which reached Cardiff recently. There appeared to be a keen demand for the consignment and 150 head were despatched to Norfolk farmers by special train.

Members of the Bread and Cake Bakers' Association of Canada, at the closing session of their Toronto convention, pledged subscriptions totalling \$10,000 towards the launching of a permanent institute of baking, in connection with the Ontario Agricultural College, Guelph. It is expected that the school will be opened early in 1924.

Canadian Pacific Railway figures show remarkable increases in the shipment of grain for the ten week days preceding and including October 15th, this year, as compared with 1922. During the ten days there were loaded for shipment over the whole system a total of 16,195 cars, at the rate of 2,350,000 bushels a day, in comparison with 12,000 cars at 1,753,000 bushels a day last year.

It is expected that by the end of the present month track-laying on the branch of the Canadian Pacific running from Kipawa to the Government dam on the De Quince River, a distance of 69 miles, with a spur from Caboury to Ville Marie, distance of 8 miles, will be completed and that by the end of November the whole line will be ready for operation.

A system of education by mail for those who live in remote rural districts out of reach of rural schools is being prepared by Hon. Perron Baker, Minister of Education for Alberta, to go into effect this month. The working plan has already been drawn up to run through the winter to the end of the school year. It is expected that from 20 to 40 lessons will be given in the case of each applicant for the service.

Of 526 girls brought to Saskatchewan from the British Isles from 1920 to June 15, 1923, only six have returned overseas, and of the sum of \$45,411.55 advanced to the girls the sum of \$42,980.98 had been repaid up to June 15th, 400 having repaid their loan in full and the balance of 126 paying all but the sum of \$2,430.57. The girls came to Canada to positions as household workers.

Mr. Thomas Honey, Brantford, Ont., writes:—  
"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."

**TWO PROPOSALS**  
An interesting development of fuel problem and the public ownership idea is the decision of the Winnipeg City Council to submit a by-law to the ratepayers at the civic elections on November 26 for the establishment of \$875,000 central steam-heating plant. The rate-payers will be asked to pass on a debenture issue of \$550,000, and approve the scheme for co-ordinating a central steam heating plant with the hydro stand by plant. Even more interesting is the announced plan of the Ontario Power Commission to establish in that province a gigantic plant for the manufacture of gas and the many by-products of coal. The scheme as briefly outlined is for a coking plant with ten times the capacity of the mammoth plant now being built by the Ford Motor Company at their Canadian headquarters. The high price of coal, for fuel, the uncertainty of the natural gas supply and the demand for gas for home and factory use are reasons for the power commission decision. It is figured that manufacture on the extensive scale proposed, and utilization of the valuable by-products wasted in the consumption of coal as a fuel, will permit of an at cost sale of coke for home consumption at a saving perhaps as great as ten dollars per ton on the price now paid for coal. Men of science have long been declaring that coal is far too valuable a product to burn as fuel, and these Winnipeg and Ontario announcements suggests that at least attention is to be paid to their protests against economic waste and their appeals for business efficiency in the use of one of the most valuable of the assets in nature's storehouse.

**GOOD RED BLOOD A REAL NERVE TONIC**

Weak Watery Blood the Source of All Nervousness.

"If people would attend to their blood, instead of worrying themselves ill" said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."  
The sort of thing the specialist spoke of is the nervous, rundown condition caused by overwork and the many anxieties of today. Sufferers find themselves tired, low-spirited and unable to keep their minds on anything. Any sudden noise hurts them like a blow. They are full of groundless fears, do not sleep well at night. Headaches and other nerve pains are part of the misery, and it all comes from starved nerves.  
Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich red blood. There is no other way to relieve nervousness and rundown health. Dr. Williams' Pink Pills should be taken. These pills enrich the blood, which tones

**By Strawberry Flats and the Silver Daisy**

The little village of Hope, situated on the Fraser River about one hundred miles from the coast, is the starting point for all mountaineers wishing to reach the interior of British Columbia by the trail route. It is a scattered village of about two hundred inhabitants but possessing both an abundance of natural beauty and a truly romantic past. The village is flanked on one side by the noble Fraser river, while from the other side one looks up three wide draws in the mountain ranges. The one to the left is the beautiful Coquihalla valley through which the turbulent Coquihalla river cascades from a pass unmatched for rugged grandeur. Through this pass too, under innumerable snow sheds and tunnels the Kettle Valley Railway goes to Princeton and the interior. In the centre is an opening for the Nicolum river, to the right is the Silver Creek draw and beyond it the snow-capped peaks of the Cascade range.  
The mountain trail over the Hope Pass is the old one known as the Dewdney which was surveyed and partly built for twenty-five miles out of Hope, by English Sappers in 1861. It winds up the Coquihalla River for a short distance, then branches off with the Nicolum, a tributary of the former river. The way lies through Sylvan glades, past rushing waterfalls and over rustic bridges, the old dry "cribbing" of which is as firm as the day when it was laid.  
The first feeding ground for horses is at 12 Mile Lake—otherwise known as Divide Lake at an altitude of 2900 feet. This lake is the head waters of the Nicolum river. Here there is a beautiful hay meadow owned by a trapper and prospector who is patiently awaiting the day when the transprovincial road will give him a means of transporting his wealth, in the shape of hay, to outside points.  
At 22 Mile there is another beautiful camping spot. Here there is a large cabin situated in the forest's heart on the very banks of the Skagit river. The owner of it carries on prospecting and mining operations in the vicinity. He appropriately calls his cabin "Defiance Camp" and his mine "The Silver Daisy."  
From here on for many miles the scenery becomes more wonderful. If that were possible, but at the same time more wild and rugged. The Pass, a narrow highway bounded by cliffs thousands of feet high, is a sight of never-ending marvel. At one spot, known as Skagit Falls, the trail (a bare 18 inches wide) winds around the shoulder of a cliff which towers above and drops away sheer one thousand feet to the bed of the river below.  
Then the trail once more drops down to the next feeding grounds at Cayuse Flats which has a sister spot three miles farther on—Cedar Flats. Beyond Cedar Flats lies a long strip of heavy cedar timber, a true "forest primeval." Strawberry Flats, a pleasant open field on the Skagit river at a height of 3700 feet is the last stopping place before the actual ascent to the summit begins. Here, in spite of the high altitude, wild strawberries grow in abundance.  
In the next 2300 feet (of the perpendicular of course!) one is led to the summit by a series of switchbacks zig-zagging up the face of the mountain. The river, which at the foot appeared a torrent, is here a tiny stream, a mere trickle over the stones. Below, the ever-lasting hills unroll themselves for a hundred miles of valley and peak.  
When the summit itself is attained a sight never to be forgotten appears. A wide open meadow lies in an inverted crown on the mountain top. Around its edge rise whitish cliffs scarcely distinguishable from the many snow banks. And everywhere, even beside the snow, grows a bewildering variety of wild flowers.  
In the centre of the depression lie two lakes, the dividing of the waters, for from the one flows the Skagit river towards the sea and from the other flows the Whip Saw Creek towards the interior lakes.  
As soon as the descent of the eastern slope is begun a great change is noticeable. The grade is easy and steady, the country becomes more open and is clear of the under-brush and ferns so characteristic of the western slope.  
The last camp is twenty miles from Princeton but the last nine miles of that distance are covered by a good motor road, the beginning of the proposed Trans-provincial-highway from Princeton to Hope.  
About eight miles from Princeton is a wonderfully interesting spot where stratified rocks yielding excellent fossils remains are located on the side of the hill.  
Shortly after this the valley opens out before one. Princeton nudged peacefully into a friendly circle of hills and its two rivers, the Similkameen and Tulameen keeping guard over it. Beyond it, rises a splendid vista of rolling green foothills with more rugged mountains closer in, indicative of the districts most flourishing industries, ranching and mining.

**DONAVON-McDONALD**  
A wedding of much local interest was solemnized at St. Mary's church Thursday afternoon, when Mrs. Ella McDonald (nee Fitzgerald) and Daniel Donavon both of Newcastle, were married by Rev. P.W. Dixon. After a short honeymoon spent on the Northwest Miramichi Mr. and Mrs. Donavon will reside here.

**DEMERS-BUCKLEY**  
A wedding of much interest was quietly solemnized at St. Mary's Church on Friday afternoon, Oct. 26th, when Rev. P.W. Dixon united in marriage, Miss Gertrude, only daughter of Mr. and Mrs. J.D. Buckley and Cleo Demers, son of Mrs. S.A. Demers of Newcastle.

The bride wore a suit of navy blue velour with sable collar and cuffs and black hat with silver and blue trimmings. A.S. Demers and Miss Mary Noonan acted as witnesses. The bride has many friends here and elsewhere, as was evidenced by the beautiful array of presents received. The groom is also very popular and is with the Royal Bank of Canada, having acted as relieving manager during the summer.

### OBITUARY

#### ANDREW BONAR LAW

On Tuesday last there passed away in London the first man of colonial birth to achieve the highest distinction possible in the British Empire, the office of Prime Minister of Great Britain. He was Andrew Bonar Law a native of Rexton, N.B. The fact that his place of nativity was in this province lends to his career an interest to New Brunswickers which otherwise would not exist. Although leaving this province in early youth and completing his education in Scotland the former Prime Minister is a New Brunswicker and throughout his life displayed an interest in his birthplace.

The dead leader was a product of a Presbyterian manse which often has been the source of ability. Lord Beaverbrook, a Canadian also has won fame at the Empire's centre, is the son of a Presbyterian clergyman. The racial strain in Bonar Law was Scotch-Irish, a national element which always has played a prominent part in the Empire's affairs.

In the death of Andrew Bonar Law the people of this province can feel the deepest regret while at the same time feeling admiration for his success in the Imperial political field.

#### LINLY G. CLARKE

News of the death in Cranbrook, B.C., on October 19th of Linly George, third son of Mr. and Mrs. George Clarke of Upper Nelson came as a shock to his many friends here.

The late Mr. Clarke has been in failing health for the past two yrs. but until a short time ago every hope was entertained for his recovery. Deceased has lived in Cranbrook for the last nineteen years but paid a visit to his parents in Upper Nelson four years ago. He was engaged in the Automobile Business.

Mr. Clarke was in his thirty-eighth year and is survived by his wife, formerly Miss Annie Crowe of Fredericton, N. B.; Father: Mother: one sister, Mrs. Bertha Clarke of Chelmsford; and two brothers, Robert of Hampden, Maine; and Daniel Clarke at home, to whom we extend our sincerest sympathy in their sad bereavement.

#### JOHN PARKS

The death occurred on Thursday October 11th of John Parks a highly esteemed resident of Red Bank. Death was due to paralysis with which he was stricken for eight months and gradually grew weaker until death came to end his sufferings.

The late Mr. Parks is survived by his wife and seven children, the daughters are:—Mrs. Henry Hayes of Plymouth, Mass.; Mrs. Ernest Tozer, Sillikers; Mrs. James Blackmore, Cable, Wis.; Mrs. William Bell, Derby; Mrs. Warren McKenzie, Nelson; and Miss Hattie at home, also one son, Sydney at home.

The largely attended funeral was held from his residence to St. Stephen's Cemetery. The Rev. Wm. Girdwood conducted the service at the house and grave. The three favorite hymns of the deceased were sung "Jesus Saviour Pilot Me"; "I Will Sing of My Redeemer"; and "I Need Thee Every Hour".

The pall-bearers were the six nephews of the deceased:—Harry, and Everett Bryenton, Wm. Parks, George Parks, Frank Parks, and Isaac Blackmore.

The funeral was under the direction of A.J. Bell & Co. Undertakers. Among the flowers were a Wreath—the Family Pillow—Mr. and Mrs. Wilbur Somers, Halcumb. Spray—Mr. and Mrs. Wm. Parks, Derby

### YOUNG DAUGHTER MADE WELL

**Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound**

Vancouver, B.C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and it is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDONALD, 2947 26th Ave. East, Vancouver, B.C.  
From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time. If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her. Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

**Says Suzanne  
Still Supreme In  
Tennis World**

Helen Wills, woman tennis champion of America, is an excellent player, but is still inferior to Suzanne Lenglen, world's champion.

That is the opinion of Henry Lacoste, youthful French tennis star, expressed just after he returned from America, where he was a member of the French Davis Cup team and participated in the American national championship tournament.

"Miss Wills' play reminds me of that of 'Little Billy Johnson' said Lacoste. "She has a good service is fast and is an excellent volleyer. She is a finished player, but I don't believe she ranks with Mlle. Lenglen.

Lacoste was much impressed with the grade of men's tennis he witnessed in the United States. He went back and told his compatriots that they have much to learn from the American masters of the court game.

French tennis fans are hoping that Miss Wills will go abroad next spring and enter the Riviera tournaments.

Indianapolis, Oct. 31—Insulin, the specific for sugar diabetes, a recent discovery, is now in production to meet the world's needs at a price intended to make it available to the poorest.

Inquiries for insulin are coming in from all quarters of the globe. Between 25,000 and 30,000 diabetic patients are under the insulin treatment. Insulin is made from the extracts of the pancreatic glands of healthy slaughter-house animals. An Indianapolis firm of manufacturing chemists, which has obtained exclusive rights to make the preparation has set a price of 3 cents a unit.

Walker, applied for bail pending an appeal to the court of Criminal Appeal in Nova Scotia, for a reversal of the verdict in his case.

**Fears Fate Of  
Union Program**

Vancouver, B.C. Oct 29—That he had very grave doubts as to the fate that will befall the proposed church union bill if opposed on the floor of Parliament by such a formidable and influential body of Presbyterians as has already expressed its opposition, was the declaration yesterday of Rev. Ed. McLaren, D.D. for many years secretary of the church union committee and a former supporter of organic union.

The well intentioned effort towards union was evidently doomed to almost complete failure so far as a healing division was concerned, Dr. McLaren said in a sermon at the Kerrison Presbyterian church.

The British Government has agreed in principle the proposal of the United States Government that vessels in United States waters be searched for contraband liquor within twelve miles of the United States shore.

An expert committee of the imperial conference, which has been studying the question under the chairmanship of the foreign secretary Curzon, has drawn up plans which are believed to meet the request. The plans will be submitted next week to the full conference, which is expected to approve them.

Who makes the RANGES sold here and did you ever try to find out the REPUTATION of the foundries back of the ranges on sale? Then did you ever consider the KNOWLEDGE the salesman has of a stove or range while he TALKS to you and you are looking over a range? There is nothing so VOID of SENSE as a person talking RANGE who has not grown up in the business.

When you want a RANGE call and let us REASON a bit with you. We have the finest line of RANGES produced in CANADA. Our prices cannot be trimmed. We know the Business and have no substitute for QUALITY. This is the REASON we have the RANGE business of the entire country.

## WILL BE BURIED IN WESTMINSTER

Bonar Law's Funeral Held On  
Monday.

The body of Andrew Bonar  
Law, the former premier, was  
buried in Westminster Abbey at  
noon Monday.

The funeral service was a full  
choral service conducted by the  
Dean.

The newspapers pay outstand-  
ing tributes to the memory of  
Andrew Bonar Law, former Brit-  
ish premier, who died Tuesday.

The Tribune says he was justly  
"lauded as a high minded and  
patriotic political doer, not a  
talker, pursuing unswervingly  
what he considered to be his duty  
fair, honorable and honest as the  
daylight."

It says he succeeded in politics  
because he disarmed distrust and  
created confidence and that he  
won his way by dint of character.

The Tribune says his death is a  
great misfortune for Great Brit-  
ain, "which loses in this Canadian  
born statesman one of the stanch-  
est and finest figures in her con-  
temporary public life."

"It is to such intensive work-  
ers, sparing of rhetoric, candid of  
soul, and unflinching in their  
political beliefs and conduct that  
democracies must more and more  
turn if they are to avoid demag-  
ogy and degeneration."

The World after paying tribute  
to his character and achievements  
says he is "remembered affection-  
ately by supporter and opponent"  
because throughout his political  
life he played the game with con-  
spicuous fairness, unselfishness,  
integrity and candor.

The Herald says Mr. Bonar  
Law was stable, cautious, trust-  
worthy and possessed of an integ-  
rity which no political excitement  
or temptation ever shook.

After commenting on his career  
both in business and politics, the  
Herald says:

"Bonar Law was a public servant  
of a sort which we have not yet  
produced in large numbers in  
America. Here the antagonism  
between business men and politi-  
cians is perhaps too great for any-  
one to turn easily from the one  
field to the other. Yet our politics  
might be on a healthier basis if  
our industries or enterprises were  
able to produce occasionally men-  
who like Bonar Law would devote  
the last years of their lives to in-  
troducing into public business the  
honesty and efficiency which they  
had applied successfully in private  
business."

## FORD TO BUILD 30,000 HOMES

Erection of 30,000 homes on a  
5000-acre tract of land south of the  
Dearborn plant of the Ford Mot-  
or Company is planned by the Ford  
Company, Henry Ford announced.  
The houses are to be constructed of  
cement according to a plan perfected  
by Thomas A. Edison.

The plans call for pouring of the  
cement into a set of forms and these  
moulds can then be arranged into  
12 different types of house, it is as-  
serted. The lumber in the house is  
to be obtained from short pieces of  
timber usually allowed to go to  
waste by lumber companies.

The houses will be sold to any  
person who desires to buy them and  
at a price which is close to cost  
Ford said. Purchasers will be given  
the advantage of the difference in  
land values now and when the tract  
of land was purchased 8 years ago.

## MINDING OUR OWN BUSINESS

The difficulty otherwise sen-  
sible people experience in minding  
their own business is one of the  
great weaknesses of humanity  
The Cincinnati Times-Star says:—

"It seems the hardest thing in  
the world for some of our fellow  
citizens to mind their own busi-  
ness. They must always mind the  
other man's. If they devoted to  
self improvement a tithe of the  
energies which they expend in  
forcibly improving someone else,  
the republic would be very near  
the Golden Age. As this benefi-  
cent shift of effort is not in their  
thought, it behooves the law to  
effect it by constraint, and by  
penalties that shall make them  
regret their abominable acts more  
than a little."

This leads the British Colum-  
bia Colonist to remark that it  
would be hard to expect the law  
to step in to put a period on  
man's activity in minding other  
people's business, unless that in-  
terference became a menace to  
society. There is no way, in-  
deed, in which people can be  
stopped from persisting in mak-  
ing other people think as they do  
except by a broadening of educat-  
ion and a reduction in the fanat-  
ical viewpoint.

Men, because of their penchant  
for talk fests, are becoming more  
and more gregarious. We are  
suffering from a plethora of or-  
ganizations and associations, and  
surfeited by resolutions and de-  
mands. We are losing the pow-  
er of independent thought based  
on a silent and prolonged study  
of the experiences of the past.  
The newspapers are, perhaps, to  
blame because they permit almost  
any individual, no matter what  
may be his paucity of intelligence  
to rush into print on so many oc-  
casions when he is accomplishing  
no good and serving no end save  
to uncover his own weakness and  
to use up a little white paper and  
printer's ink. The world is one  
great forum, with a babel of ton-  
gues. There are too many talk-  
ing and writing without thinking  
and too few thinking without  
talking or writing. One thing  
that the spread of democracy has  
done is to loosen the floodgates  
of verbosity.

What a splendid world this  
would be if everyone minded his  
own business. It would be a  
world of great hearts and concen-  
trated self effort, and in the ag-  
gregate a hundred times more  
would be accomplished in such a  
world than is being done today.

## IMPROVEMENT IN LUMBERING SITUATIONS

North Shore Now Has Pros-  
pect of Large Operations—  
Labor Situation is Changing  
for Better.

The Chief Scaler, A.T. Mur-  
chie has returned from Restigouche  
County and other districts of the  
North Shore, where he was on an  
official tour. The information  
given him was that the cut  
on Crown Lands in that section  
would be heavy with the labor  
situation improved to a marked  
extent.

Mr. Murchie said that offers of  
wages of one hundred dollars per  
month are mythical no matter  
what reports come from Quebec.  
In New Brunswick \$50 and \$60 is  
the ordinary scale with some oper-  
ators in southern sections offering  
\$70.

### More Labor Offering.

More labor for the lumber-  
woods is offering as time goes on  
and farm work and heavy con-  
struction work is completed. It  
is not believed now that the scar-  
city of labor will cause serious  
curtailment in lumbering oper-  
ations.

A crew of seventy five men  
secured in Prince Edward Island  
recently went in for Fraser  
Lumber Company's Limited and  
another crew of one hundred  
secured at Moncton went in for  
the same firm.

The general situation as far as  
woods operations on the North  
Shore are concerned is much  
better than it was frequently when  
some contracts were being thrown  
up. The general expectation is for  
a heavy cut of lumber in all parts.

"One day last Fall whilst away in the woods, I cut  
my leg severely. Proper surgical attention was  
unavailable, and poisoning developed caus-  
ing the leg to swell to twice normal size.  
The wound had denied every other  
salve and remedy when Zam-Buk  
was brought and applied."

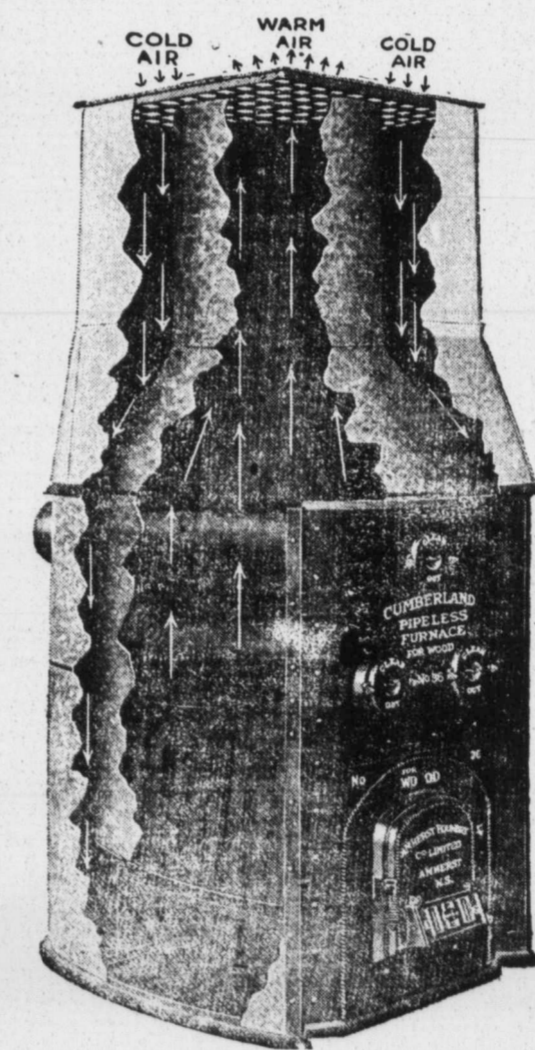

"From the first this herbal balm  
had a most gratifying effect. It  
removed pain in a surprising way,  
caused the wound to lose its swollen  
inflamed appearance, and by degrees  
accomplished complete and perfect  
healing. It made me realize that you  
can't do without Zam-Buk."

### COLD SORES & FROST BITE

Trapper William Jones of Olan,  
Ont., writes:—"Whilst I was out on  
a long tramp, one of my heels got  
badly frozen. By the time I got back to the camp  
the toes were in pain, but it was remedied by Zam-  
Buk. I tried several wonderful and ex-  
pensive ointments and salves with no suc-  
cess. Zam-Buk is proved easily good for cold so-  
res, chapped lips, cuts, burns, scalds, and frost-  
bites. It is the best remedy for all these  
ailments. I carry a tin of Zam-Buk with me  
everywhere. It is sold by the  
Chemist & Druggist of Zam-Buk Co., Toronto, and  
everywhere."

## Comfort for Churches Halls Homes Stores

The Cumberland Pipeless Fur-  
naces is ideal for most churches and  
halls because the moment the fire  
is started it immediately floods the  
building with warm direct heat. No  
time wasted heating pipes or water  
the Cumberland goes into action at  
once.

It is splendid for stores and homes  
for the same reason. And besides—  
---Its first coat is less than other  
furnaces.

Its cost of installation is lowest  
(no pipes to put up, only one reg-  
ister needed, no walls to be cut).  
---Its built stronger of heavier  
material than other furnaces so lasts  
longer.

---Because it operates on the grav-  
ity principle, there's nothing to get  
out of repair.

---The colder the weather, the  
greater the heat it develops and  
delivers.

---It can be installed in a few  
hours. All work is done in the cell-  
ar so you can put one up in mid  
winter without upsetting the house.

The Bean Supper given on Wednesday night by the Junior Women's Club of St. James Church in the Hall was largely attended and the patrons were provided with a delightful supper, characteristic of this organization.

### PARTRIDGE SEASON CLOSED

The partridge hunting season in New Brunswick closed on Wednesday. The open season was for one month's duration, a similar open season having been proclaimed annually for several years following a period of five years, during which the shooting of partridge was completely prohibited.

### THE BEST REMEDY

It does not seem to the average citizen that public opinion has been sufficiently awakened to the present state of affairs along prohibition lines. A firm hand is required instead of newspaper controversy as to what the premier said and did not say. The best interest of the public can always be served by enforcing the law.

### TENNIS CLUB DANCE

Invitations have been issued for a dance to be given by the Newcastle Tennis Club in the Town Hall on Monday evening, 12th inst. The chaperones are: Mesdames D. R. Brown, D. S. Creaghan, D. W. Nicholson, K. W. Crocker, A. L. Barry and W. H. Teed. The proceeds will be for the benefit of the Tennis Club.

### SEWING CIRCLE GOSSIP

There was some discussion at the Circle this week about the International Vessel race, and as to whether at four bells in the morning the Lunenburg sailors like coffee better than tea. The wife of the radio operator, whose husband is now at sea, said she thought it largely depended upon how good the coffee was. "If," said she "the sailor can get LUXOR ORIENTAL COFFEE, he is bound to prefer it to anything else."

### HALLOW'E'EN

Hallow'E'en was observed here this year as in former years, but with possibly a little more damage. No one objects to boys and girls enjoying themselves innocently, but the great trouble with them is—that sometimes they go too far. There is no fun pulling down fences and platforms, as the owners must put them up again and these people generally have plenty of work to do, without being put to this extra inconvenience. In future, the authorities should place ten or twelve extra constables on, and their presence in all parts of the town would, no doubt have the effect of preventing a lot of the damage which is committed at present.

### ANOTHER GOOD RAIN

A disturbance from the Atlantic caused a heavy rain in the Maritime Provinces on Sunday. Upwards of one and one quarter inches of rain fell and the wells and brooks are now well supplied with water preparatory to the setting in of winter.

### OUT OF PLACE

The broils and intrigues of politics are bad enough in the market place. There should be no reception of them in God's house. The church has its rightful place and it is a glorious one. It is distressing to the point of disgust to see the church exploited on behalf of any politician anywhere at any time.

Tea made with water that is not boiling is not good tea. And please note this that when water is properly boiling it is bubbling, not merely steaming. In using MORSE'S SELECTED ORANGE PEKOE Tea then be sure to see that the water is not merely steaming, that is if you really want a first class cup of tea. Good tea should brew in 5½ minutes.

### FOOTBALL MATCH

The Harkins Academy Football Team went to Bathurst on Friday for a return match with the football team of that town and the game resulted in a tie, with the majority of touch-downs in favor of the H. ### Holt Well Supported

In his latest Paramount picture "The Tiger's Claw," which will be the feature at the Opera House next Wednesday and Thursday, Jack Holt has an exceptionally strong supporting cast. Playing the leading feminine role opposite the star is Eva Novak, who makes her second screen appearance as Mr. Holt's leading woman, the other picture being "Making A Man." The remaining roles are filled by George Patriot, Bertram Grassby, Aileen Pringle, Karl Stockdale, Frank Butler, George Field, Evelyn Selbie and Frederick Vroom.

### IMPORTANT MATTERS

At this time of the year, when heaters and furnaces have to be brought into action, it is highly important that the householder take an account of stock to determine whether deterioration in the heating plant has brought into existence a fire risk that did not exist last winter. It is important to look over fire places; it is important to examine flues; it is important to do all those things which reduce the fire risk to a minimum. We are very careless about such things and as a result we have a per. capita fire loss that is matched no where else in the world.

## ENTERTAINMENT AT SILLIKERS

Sillikers, N.B., Oct. 26—The 24th north west B.Y.P.U. held a social entertainment in the church on Wednesday evening, Oct. 24th in honor of the Whitneyville B.Y.P.U. Owing to the down-pour of rain some of the members were unable to attend, although quite a large number were present and a very enjoyable evening was spent by all. The members from Whitneyville were as follows:—our pastor Rev. Mr. Kaine, Mr. Hiram Whitney, Miss Ruby Whitney, Burton and Wilk Whitney, Mrs. E.A. Piper daughter, Mirial, Miss Katherine Dunnett, Misses Kathleen and Dorine Menzies, Misses Dora and Marvel Dunnett.

Programme for the evening:— Opening Hymn—"Battle Hymn of the Republic." Scripture Reading—by the president Miss Bernetta Travis. Prayer—by our Pastor. Chorus, "Jesus Loves Me"—By the Children.

Address—By Eva Matthews. Recitation, "Christ and the Little Ones"—By Almira Scott. Duet—"Away in a Manger"—By Roxana Tozer and Lavina Scott. Reading, "Pastor on Vacation"—Lydia Tozer. Recitation, "Loves Sacrifice" by Jessie Silliker. Missionary Dialogue—By Agnes Chambers, Lydia Tozer, Edna Tozer and Gladys McTavish. Solo—By Edna Tozer. Recitation, "I want to be an Angel"—By Maggie Tozer. Duet, "Who Could it be but Jesus"—By Agnes Chambers, and Hilda Somers.

Words of Welcome were given by the social convener—Mr. Ernest Tozer and a response by Mr. Hiram Whitney, President of the Whitneyville B.Y.P.U.

A dainty lunch was then served and the entertainment closed by singing "God be with Us Till We Meet Again".

## THE NEW DAIRY REGULATIONS

All Packages Must Bear Registered Number.

On and after May 1 next, every package containing cheese, creamery butter or whey butter shall bear a registered number showing the factory where it was made except prints of butter put under the brand or trade mark of a wholesale or retail dealer.

This is one of the provisions embodied in the new dairy regulations made under the authority of the Amendments to the Dairy Act passed last session.

It is further provided that before January 1 next, every person, association or corporation engaged in the manufacture of cheese, creamery butter or whey butter, shall apply to the dairy and cold storage commissioner at Ottawa for registration, and the registered number given by the dairy commissioner shall be used in marking with a stencil the packages creamery butter or whey butter.

The new regulation also contains provisions for keeping a record of whey butter by the manufacturers and by the wholesale dealers. The manufacturers are required to keep a record of the persons from whom cream has been received and the percentage of butter fat in the cream; while manufacturers and wholesale dealers in whey butter, are required to keep a record of all sales purchases and shipments, with the names of the buyers and sellers and the transportation agency by which the shipment is made. The regulations define "whey cream" as cream separated from whey.

## Iron Ore Near Bathurst

The following is from an official publication dealing with the minerals of New Brunswick:

"Iron deposits exist in the vicinity of Bathurst. The ore is a siliceous magnetite, the average iron content being from 43 to 47 per cent., with about 0.8 per cent of phosphorus. According to the estimate of E. Lindeman of the Mines Department, Ottawa, based on magnetic surveys, the ore reserves are placed at 18,600,000 tons, to a depth of 500 feet. Mining operations were started in 1907 and discontinued a few years ago. In all some 180,000 tons were taken out. The ore, is too low grade to be marketed in its natural state, but under favorable

conditions and with a concentration process these iron deposits may yet be developed. Galena (lead) is found at Elm Tree in Gloucester County. Grindstones and pulpstones are found in the country and the base of an industry. A deposit of coal was recently discovered in the parish of Caraquet and it is of good quality, though its extent has not been surveyed.

## SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

"You'll like the flavor"

## Quality STABLES' GROCERY Service.

**MOVING MOVING**

We are moving to our new Store this week. Hope on Thursday to be doing business there. In the mean time should our service not be up to the standard we ask our customers to make allowance for same.

We are planning on a big opening **Thursday Nov. 15th**

Special goods! Special prices and we want everyone to come.
