HEAVY FIRING HEARD IN NORTH SEA:

U.S. Bankers Attempt To Limit Anglo-French Loan to Halt Billion Dollars BALKAN RIDDLE STILL UNSOLVED; ALLIED AVIATORS ARE BUSY

LONDON, Sept. 24.—(12.45 a.m.)—There has been something happening in the North Sea, the correspondents at Ameland, a Dutch island off the coast of Friesland, reporting heavy firing to the north last night and again today.

FOE'S STATIONS BOMBARDED BY ALLIED AIRMEN

German Captive Observation Balloons Forced Hastily to Descend.

ARTILLERY DUEL ON

Damage to Teuton Field Works Also Done by French Gunfire.

Special Cable to The Toronto World. PARIS, Sept. 23.—Marked aerial activity on the part of French and British aviators is reported in the French war office statement, issued here tonight. German captive balloons for purposes of observation were attacked by French aviators and compelled to make a hasty descent. Three railway stations were bombed by a French dirigible balloon. The French official statement concerning these operations says: "One of our dirigibles bombed last night several stations where movements by the enemy were reported. Our aeroplanes have compelled several of the enemy's captive balloons to descend hastily. Flotillas of aeroplanes have bombed the railway stations at Offenbourg, Constance and Voulzels as well as enemy cantonments at Langemarck and Middelkerke. In the view of French military experts the greatly increased volume of artillery fire from French guns on the battlefield has enabled the army to establish a marked ascendancy over the batteries of the enemy at many points as evidenced by the many direct bombardments of the enemy's guns and the great destruction to his field works noted day after day in the French official communications. It is believed that as fighting conditions are being made too uncomfortable to the

Anglo-French Commission May Take Week to Decide on Terms.

NEW YORK, Sept. 23.—Troublesome details have yet to be adjusted, and minor matters smoothed out before Lord Reading, representing Great Britain and France, and J. P. Morgan and his associates, representing the financiers of America, signatories of agreement commencing the long negotiations looking to the establishment of a big Anglo-French credit loan here. Not the least of these details, it developed tonight, is the size of the loan. The representatives of Great Britain and France, it was said on excellent authority, have been told that the maximum amount they can get is \$500,000,000. In reply, it is reported, they have told the American bankers that they need more and that more will be expected. Sir Edward Holden, representing the joint stock banks of London which stand high among the financial bulwarks of Britain, one of the dominating figures of the commission, was reported to have stood firmly on the ground that the commission's need was for more than half a billion dollars and that the maximum interest rate would not exceed 5 per cent. When the commission first reached New York it let it be known that it was seeking a billion dollars. It was reported today that the commission had sought to raise a billion

HEAD OF FAMOUS POLICE FORCE ABOUT TO RETIRE

Comptroller Fortescue One of Party That Established R. N. W. M. P.

REGINA, Sept. 23.—After 42 years' continuous service in the R. N. W. M. P., Comptroller Fortescue, the present head of the famous force, is about to retire within the next few months. Comptroller Fortescue is one of the oldest members of the force, and one of the men of the original party that came to establish the force in the west in 1872. In that year they organized the headquarters at the lower Fort Garry, in Winnipeg. Later he, with other members of the force, opened the post at Maskeed. At that time the present comptroller was a constable in the ranks.

HOWDEN FACES PERJURY TRIAL FOR EVIDENCE

Paid Five Thousand Dollars, But Swore to the Contrary.

MONEY WENT TO SALT

Crown Believes Sum Missing Part of Cash Sent Thru Hook.

WINNIPEG, Sept. 23.—Evidence which may have an effect on the reported intention of the crown to lay a charge of perjury against J. H. Howden was given this afternoon by Hugh Armstrong, formerly provincial treasurer, in the preliminary hearing of the former cabinet ministers. Mr. Armstrong told of cashing a cheque made out and signed by Mr. Howden for \$5000 on April 6 or April 7 last. It had been the intention to use the money in a private business transaction involving a trip to the Pacific Coast. He said he received the money in bills of large denomination, and about the end of the following week he turned the money over to Mr. Howden. Eventually neither Armstrong nor Howden took the trip. Admits Error in Evidence. The former treasurer stated that he knew his evidence in this respect differed from that which he gave before the royal commission two months ago, but he believed his present recollection of the occurrence was correct. Before the royal commission, Mr. Armstrong swore that he handed the \$5000 to Mr. Howden within a few days of getting it, and Mr. Howden gave evidence to the effect that he later returned the money to the bank in the original bills. It is said to have been the belief of the crown that this \$5000

Body of Kingston Boy Recovered—Dr. G. Douglas Donates Library Building.

Special to The Toronto World. KINGSTON, Ont., Sept. 23.—Playing around the wharf at his home on Amherst Island, a little son of James McCabe, fell into the water and was drowned. The body was recovered. Altho Queen's University will not be represented in intercollegiate football this fall, the university will have team, as it is the opinion of the athletic committee that the game should be kept up in order to bring out the material. Today Queen's University was notified that Dr. James Douglas, trustee and benefactor of the college, had donated a library building to the university. Dr. Douglas is the present nominee for the position of chancellor of Queen's University.

MACAULEY SAFE MAGNETO OUT WILL GO AGAIN

Daring Pilot Unable to Make Trip to Oswego and Return.

ENGINE GAVE TROUBLE

Rain Coming on Contributed to Delay and Navigating Was Difficult.

Altho Theodore Macauley was unable yesterday to complete a flying trip from Toronto to Oswego and return, a distance of 400 miles, in an attempt to capture the Curtiss marine flying trophy, he was successful in making a record for Canadian flying. He stayed at the air from Toronto to Oswego, a distance of 200 miles, and, turning in the air, went as far as Oak Harbor, a distance of 160 miles, covering in all 360 miles without landing. When he reached Oak Harbor he had magneto trouble and was forced to land. He had some difficulty in getting his boat landed, owing to the rocky shore and big breakers. After he had changed his magneto which was late in the afternoon, he started home; but it began to rain, making it difficult to navigate. About 3.45 P.M. he was forced to land near Grimsby on account of the heavy rainfall. He told The World over long-distance telephone from Grimsby last night that he expected to reach Toronto this morning about 8 o'clock, as he would start at daybreak. Macauley is manager of the Island Aviation School. He left Toronto yesterday morning at 8 o'clock in the "Klaxon," a 6-volt, 160-horsepower flying boat, accompanied by William Bucher, an expert mechanic. Up until the time of magneto trouble the boat was going 80 miles an hour and flying at a height of about 150 feet. They had intended to make a double trip from Toronto and Oswego between sunrise and sunset, a distance of 800 miles. The Curtiss trophy is donated by Glenn H. Curtiss, and will be given to the pilot who covers the greatest distance over water in 10 hours between the dates of July 1 and Oct. 3.

MONTREAL MAYOR IS AGAIN ON STRIKE

This Time He Wants Official Dismissed for "Grave Insubordination."

MONTREAL, Sept. 23.—Mayor Medic Martin is on strike again. His worship declares he will not preside again at a meeting of the board of control until L. J. Primeau, secretary to Controller Cote, is dismissed from the civic service. The mayor, at a board meeting today, insisted that Mr. Primeau be suspended without salary for "grave insubordination" to his worship, and when the controllers declined to accede to this, Mayor Martin left the room in anger. "It within 48 hours Primeau has not shifted, I shift," he shouted. Controller Cote is out of the city. In the meantime, the mayor is keeping Controller Cote's room in the city hall locked. This is Mayor Martin's third strike for some supposed slight to his dignity, one of the previous strikes being against presiding at council meetings, and the other against attending board of control meetings.

GERMAN PLANES ARE DESTROYED

Four Totally Wrecked and Seven Others Brought to Earth.

PELTED WITH BULLETS

Troops on Both Sides Watched Deadly Struggles in the Air.

BY PERCIVAL PHILLIPS. Special Cable to The Toronto World. BRITISH HEADQUARTERS IN FRANCE, Sept. 20.—Forty aeroplane flights in 18 days is a record of the Royal Flying Corps with the British army in the field. During the first three weeks in September, four enemy aeroplanes are known to have been destroyed, and at least seven others sent hurriedly to earth and believed to have been destroyed. One pilot had five flights in one morning. He beat off the first four German machines that came up to grapple with him one after another, but when the fifth bore down on him and revolver ammunition. The noise of the engine drowned the report of a revolver, and the German pilot who saw him go thru the motions of aiming and firing did not realize that the weapon was useless. The German fired 20 or 30 rounds and then gave it up. The British air man finished his reconnaissance in peace and came back to lunch. One furious battle in the air, witnessed by thousands of soldiers and resulting in the total destruction of a German aeroplane, took place Sept. 7. This machine has been particularly active in ranging the enemies' guns. It could be seen circling and signaling above some of our positions. The British aeroplane went out and gave battle at 9000 feet above the German lines. Pelted With Bullets. It was clear, bright day and the two aeroplanes were very distinctly seen as they darted across the sky and back again like angry birds, now climbing, now gliding, and all the while pelting each other with bullets. They gradually came lower and lower and the troops on both sides watched the deadly struggle. Suddenly the German aeroplane was seen to dive erratically and came down at an increasing speed and at a tragic angle. "We cannot say positively that it was destroyed," said the officer who told me of this incident, "but when last seen it was flying nose downward at 150 miles an hour about 200 feet from the ground."

DANISH STEAMER SUNK BY ENEMY SUBMARINE

Thorvaldsen, Despite Captain's Protest, Shelled and Torpedoed by Germans.

LONDON, Sept. 24, 2.53 a.m.—A despatch to The Morning Post from Stockholm says: "The crew of the Danish steamer Thorvaldsen, which was torpedoed 47 miles west of Hanthoim, was landed at Malmo last night by the Swedish steamer 'Mimosa.' It is asserted that despite the captain's protest and the request that he should be allowed to return to Malmo, he and the crew were ordered into the boats and the Thorvaldsen was shelled and torpedoed."

SENTENCED TO DEATH WILL GET NEW TRIAL

Murder Charge Against Foreigner Will Again Be Investigated.

WINNIPEG, Sept. 23.—For the second time in the annals of Canada the minister of justice has granted a new trial to a person sentenced to be hanged. Today the attorney-general's department of Manitoba received word from Ottawa that a new trial had been granted in the case of John Malsenko, who was condemned to hang September 29 for killing another foreigner in a box car near Marquette, Minn.

SCOW LADEN WITH SAND WAS SUNK IN THE LAKE.

While being towed into the bay yesterday afternoon by the tug Minutago, a scow with a cargo of sand listed to one side and sank at the lake end of the eastern gap. The scow was owned by the Toronto Harbor Commission and was overladen with sand, which was to be used in the harbor improvement work. Four men were aboard the scow, but were rescued by the lifesaving crew. Red danger lights mark the place where the scow went down.

BALKAN RIDDLE HARD TO SOLVE

Greatest Uncertainty Still Exists as to King Ferdinand's Intentions.

POWERS WILL HESITATE

Before Going Contrary to Wishes of Their Big Neighbor.

LONDON, Sept. 23.—"The riddle of the Balkans," as the London press terms the latest developments in the near eastern peninsula arising out of Bulgaria's order for mobilization, remains unsolved. The greatest uncertainty still exists even in official circles in London as to the intentions of King Ferdinand and his advisers. In fact, it is not yet certain that the mobilization has begun or that the date has been set for it. One report from Athens says that the mobilization has been postponed. It is known, however, that the entente representatives at Sofia and other Balkan capitals are still busy trying to reconstruct the Balkan league and thus prevent Roumania, Bulgaria, Greece and Serbia from fighting among themselves. As the Bulgarian Government appears to have made up its mind, despite the opposition of some parties, it seems likely that these diplomatic efforts will have many difficulties to overcome. The central powers have already commenced their attempt to make their way thru Serbia and one of the intervening neutral countries to the Aegean. With Russia more than holding her own against the Austro-Germans in Galicia and Volhynia, it is believed here that the Balkan powers would hesitate before going contrary to the wishes of their big neighbor and former protector.

WING OF ROYAL PALACE AT STUTTGART RUINED

One French Bomb Exploded in Salon—Soldiers in Barracks Killed and Wounded.

GENEVA, Sept. 23, via Paris.—News has reached Romanshorn, Switzerland, that the right wing of the royal palace at Stuttgart was badly damaged in the air raid by allied aviators yesterday. One bomb exploded in the salon. It is known that several members of the royal family were in the residence. The French aviators, after bombing the station barracks where two soldiers were killed and fifteen seriously injured, divided, some flying to Friedrichshafen, where the Zeppelin factory was bombed. The Swiss steamer Gothard hastily left Friedrichshafen for the Swiss shore without taking her passengers on board.

STARVING BELGIANS AGAIN NEED HELP

Lord Mayor of London Appeals to England for Funds.

LONDON, Sept. 24, 2.10 a.m.—The Lord Mayor of London today appeals to the British people to come to the aid of the starving people in Belgium, whom he says, a million and a half are utterly destitute. "We are not yet half awake to the tragedy of Belgium," says the appeal. "Even Mr. Hooper's wonderful efficient neutral committee cannot feed one and a half million destitute people on less than fivepence per head per day, which amounts to no less a sum than 2,218,770 (\$1,092,819) per week. "I am convinced that the City of London will not rest content until it has taken the place it usually occupies in every really great benevolent movement."

RUSSIANS STIFFEN LINE AGAINST FOE

Renewed Attacks on Galicia and Hold Up Von Hindenburg.

REAR GUARDS RETREAT

Only Slight Advances Made by German Forces Anywhere. LONDON, Sept. 23.—Besides renewing their attacks on the Germans and Austrian positions in Galicia, the Russians are also doing better on the northern end of their line, and thus far have prevented Field Marshal Von Hindenburg from reaching the Dvina River, west of Leningrad, where for the second time battle has been joined and are putting up a stubborn fight further down the river west of Dvinsk, where the Germans claim to have penetrated their positions. "Southeast of Vilna the Russian rear guards, which made possible the escape of the main Vilna army from the German net, are now falling back, and in doing so have left some prisoners in the hands of the Germans. Prince Leopold of Bavaria has made slight further advance, but Field Marshal Von Mackensen and his Austrian colleagues in the south are at a standstill, or are even being pushed back by the Russian commander, Gen. Ivanoff.

NEUTRALITY BREACH

New York German Financier Testifies Before Grand Jury.

SAN FRANCISCO, Sept. 23.—Gustav B. Kulenkampf, member of the importing house of Wessels, Kulenkampf & Co. of New York, spent less than an hour before the federal grand jury here today to explain the connection of his firm with the alleged distribution of nearly \$800,000 of the money of the imperial government of Germany in this country. The witness, it was said, admitted to his questioner that his house had sent west to the credit of the San Francisco German consular office \$80,000 within several months subsequent to the beginning of the war last year. Mr. Kulenkampf came to San Francisco in answer to a subpoena issued at the request of John W. Prescott, United States attorney here. He left immediately for New York after his release from the grand jury room.

BARBED WIRE SYSTEM TORN UP BY ITALIANS

Part of Enemy Entrenchments Also Demolished in a Daring Attack.

ROME, Sept. 23.—The war office tonight made public the following official communication received from the general headquarters of the Italian army: "During the night of Sept. 21 one of our detachments pushed forward on Monte Melino, where the valley of Monte joins the valley of Guidicaria. Favored by darkness it reached positions which the enemy was engaged in strengthening and by a bold attack succeeded in tearing up the barbed wire system and demolishing part of the entrenchments. "During the day of the 22nd and the following night our troops repulsed an enemy attack against our advanced positions of Malmes and Pra del Bortolo, northwest of Monte Coscon near Sasso di Stria, in the Falzarego zone, and at Santa Maria heights in the Tolmino section."

DUMBA REALIZES HE HAS OUTLIVED HIS USEFULNESS

Sends Cable to His Government Asking for Decision on Recall Application.

LONDON, Sept. 24.—(1.26 a.m.)—A Berlin wireless despatch says that a telegram has been sent by Dr. Constantin Dumba, the Austro-Hungarian ambassador to the United States, to the Austro-Hungarian Foreign Office, asking urgently for a decision respecting his application for leave in order to return personally to his government. Dr. Dumba, according to this despatch, says he desires to sail aboard the steamer Rotterdam, and that he can only request safe conduct from the American Government after his formal recall.

"The Lucky Corner" TOP COATS Are The Best In Town

Whether it was brains, good judgment, foresight, or just "Pure Luck," that caused us to buy such a splendid stock of overcoats for this season...

For the young men and college chaps, we show two models, the "Beatty" and the "College" that are full of snap and vim.

We also show A NEW IDEA IN THE BALMACAAN OR Slip-on Coat

It has narrower skirt-lines, wider collar and lapels, making it a smart dignified coat, very popular with good dressers.

Made-to-Measure COATS

We are showing several very fine chinchillas in the piece that we are prepared to take orders for in any style of coat you may desire.

We have the feeling this is going to be a good overcoat season, so buy in good time.

J. McKinnon May Be Released Soon—No Action by License Board.

By a Staff Reporter. HAMILTON, Friday, Sept. 24.—The 5th Hamilton Machine Gun Battalion left here for camp yesterday morning...

A storm centre developed at the morning session when a resolution presented by Bishop Roper and Archdeacon Cody was brought in, providing for an addition to the motion made by Provost Macleod.

When the commendation service came up for discussion during the afternoon the first motion was passed without dissent before "discipline" without dissenting voice, but when the Bishop of Huron suggested the change from "curse" to "wrath" in the latter part of the service...

In introducing the change made by the prayer book committee, the Bishop of Huron said that what should be avoided was the view which the people had from the service.

A Good Way to Increase Weight

Thin, Undeveloped People Should Make Their Food Produce More Flesh.

Most thin people eat from four to six pounds of good, solid, fat-making food every day and still do not increase in weight one ounce, while on the other hand, many of the plump, chunky folk eat very lightly and keep gaining all the time.

For such a condition the use of a single Sargol tablet taken with every meal can be strongly recommended.

Charles A. Brownell, advertising manager of the Ford Motor Company, Detroit, spoke to the Toronto Ad Club last night at their first dinner assembly of the season.

He enumerated the points which made advertising one of the greatest business forces today, but today he declared it was not being used as a business force, but as a speculation.

He told of the beginning of the Ford car and how people made fun of it and ridiculed it, but it was not long before it was in the hands of the people and for that reason newspaper advertising had to be cleaned up.

He told of the results, too, of Henry Ford's profit-sharing scheme and minimum wage scale of \$4 a day for every employe of the Ford Motor Company.

Outrageous That Money Should Be Squandered by Civic Officials.

A meeting of the British Imperial Association was held last evening in Little's Hall.

Red hot criticism of the city council and the board of control, Mayor Church alone excepted, was the dominating feature of the East End Ratepayers' Association held in St. John's parish hall, Norway, last night.

A resolution introduced early in the meeting declaring that the board of control, as at present constituted, was unworthy of the confidence of the city, met with every mark of approval.

Regarding the extension of Earlscourt Public School and the improvement of the playgrounds, the chairman said he was in communication with Dr. Hunter of the board of education, who informed him that plans and specifications in this regard would be ready by Oct. 1 and that it was decided by the board to drain the playgrounds and put up railings and sod the front of the building.

Considerable discussion arose regarding the work on the Lansdowne avenue civic car line. It was decided to defer action until next meeting.

The sports committee reported net proceeds of \$148.75 as a result of the recent field day and sports held at Royce estate. It was decided to send \$100 worth of tobacco to the boys of the B.I.A. at present at the front and in England.

W. Carter and W. Davidson were elected auditors. The annual election of officers will take place at next meeting.

MANY REPORTS HEARD

Hundred Members of Ontario Division Listen to Various Committees.

Over one hundred members of the Ontario division of the Canadian Credit Men's Association met at the Ontario Club on Thursday evening to receive the reports of the various committees. A very enjoyable program was arranged, and some important business transacted. W. L. Lamont of E. S. Howland, Son & Co. vice-president of the association, presided.

One of the reports which roused the most interest on the part of the members present was that of the fire insurance committee. All manufacturers and wholesalers who are granting credit to retail merchants have a deep interest in the management and control of the municipal fire department. Consequently it was not surprising to find that a motion by J. W. Lawrence of W. E. Johnston & Co. with regard to the appointment of a Toronto fire commissioner was received with a good deal of enthusiasm.

The following motion was adopted: "That we, the members of the Canadian Credit Men's Association, having a vital interest in the matter of adequate fire protection for the city, and a proper appreciation of the necessity for a thorough organization and leadership of the fire department, view with marked disapproval the deplorable and unbusinesslike methods pursued by some members of the board of control and the city council in this matter, and respectfully urge upon the board of control and the city council the immediate consideration of the appointment of an independent committee, with authority to reach some satisfactory conclusion in respect to the appointment of a fire commissioner and a reorganization of the fire department."

Clearing House Report. The report of the clearing house committee was of course, one of the important items in the evening's business. H. D. Eby of Eby-Blain, Limited, is the chairman of this committee, which has been responsible for the great progress made by this branch of the association's work. Reports are now available on retail merchants in a chain of clearing houses from Atlantic to Pacific. It is now possible to get a report on 74,000 merchants.

The legislative committee reported that the chief work of the past year had been done on the proposed "Act" which has been withdrawn from the legislature on the last day of the session by Mr. W. D. McPherson without explanation. The registration of partnerships and dissolutions is being given some attention by the committee.

KAISER'S LATEST NOTE CONCILIATORY IN TONE

Orders Issued Not to Destroy U.S. Merchantmen Carrying Conditional Contraband.

WASHINGTON, Sept. 23.—Germany, in its latest note on the Frey case, made public yesterday, advised the United States that orders have been issued to the German naval forces not to destroy American merchantmen which have loaded conditional contraband, even when the conditions of international law are present, but to permit them to convey their cargoes unless it is not possible to take them into port.

The German note is regarded by officials as evidencing a friendly spirit on the part of the German foreign office. Following months of strained relations between the two countries, it was received as a very favorable development.

It practically insures American vessels against attack without warning, and even in the event that they are carrying absolute contraband, passengers and crew will be spared. The declaration of London, to be removed before there is any destruction, which also can occur only in the event of extreme necessity.

FIRE GREATLY DAMAGES THEATRE AT MONTREAL

Princess Playhouse Sustains Loss of Over Hundred Thousand Dollars.

MONTREAL, Sept. 23.—The Princess Theatre, one of the largest amusement houses in this city, was badly damaged by a fierce fire at an early hour this morning. The loss is estimated at between \$100,000 and \$150,000. The interior of the theatre will have to be reconstructed.

The theatre was leased by Lou Solomon, Toronto, and was used for the production here of the theatrical attraction of Snuberts, Inc.

INQUEST WAS OPENED. Jury Will Inquire Into Death of Abram Goodwin.

Coroner W. F. Flew opened an inquest at the morgue yesterday into the death of Abram Goodwin, 88, of 40 Logan avenue, after the jury had been sworn in adjourned until the 25th. Goodwin resided with his daughter Mrs. Warder. Wednesday morning he went for a walk up the G. T. R. tracks at Logan avenue. He stepped out of the way of an outgoing train and was struck and instantly killed by one coming in.

JOHNSTON IS NOT THRU WITH CASE

Lawyer Corrects Erroneous Impression Regarding Defendants at Winnipeg.

ARRANGEMENT MADE

Represented One Client and Was Finished for the Time Being.

E. F. B. Johnston, K.C., was seen yesterday with reference to the Winnipeg trial. He says that thru some misunderstanding there is an erroneous impression as regards the defendants and his position. At first it was not intended that he should appear at the preliminary hearing in the police court, and indeed he objected to attending the police court proceedings. However, as Horwood, the chief witness for the crown, is not likely to appear at the trial, on account of a dangerous preliminary hearing in the police court, and indeed he objected to attending the police court proceedings. Mr. Johnston went up for the purpose of examining Mr. Horwood, and for no other purpose. Mr. Andrews represented one of the defendants, Mr. Johnston another and the other two were represented by their own counsel. Mr. Johnston is not out of the case in any sense, but will take the brief for the accused at the trial some time during the winter. The arrangement which was carried out was understood from the beginning and instead of being out of the case, Mr. Johnston is very much in it, and intends to continue in it until the last word is spoken.

MUCH GERMAN GOODS TO BE FREED TO U. S.

Britain to Relax Restrictions of Orders in Council on Contrabands for States.

WASHINGTON, Sept. 23.—State department officials expressed confidence today in an early and satisfactory completion of informal negotiations for the release of American owned goods of German and Austrian origin now held at Rotterdam because of the restrictions of the British orders in council. Further conferences with British embassy officials were held today and Foreign Trade Adviser Fleming later announced a belief "that the matter will be brought to a head at an early moment and adjusted to the satisfaction of the great body of American importers. Negotiations have had to do with the acceptance of required certificates proving actual contracts for goods at the British port of Rotterdam, saving American importers the expense and delay of making application in London.

ALLIES IN WEST TO AID SERBS IF NECESSARY

Britain, France and Italy Will Not See Country Abandoned to Hungs.

PARIS, Sept. 23.—"France, England and Italy will all send help to Serbia if necessary," said the Temps today. "The French people would never consent to seeing Serbia abandoned to Austro-German and Bulgarian invasion. If it all means a race for Constantinople, the British and French troops at Gallipoli have a good chance of arriving first."

GRAIN SHIPMENTS SHOW DECIDED IMPROVEMENT

From Canadian Head of Lakes—Receipts From West Slow.

PORT ARTHUR, Sept. 23.—Grain shipments from the Canadian head of the lakes show a decided improvement. The total shipments are 3,105,453 bushels of all grains. Of this 645,666 bushels went to Buffalo. The balance, 2,459,787 bushels, was carried in Canadian steamers to Canadian ports. Receipts from the west are coming in slowly.

Auction Sale of Real Estate. Considerable interest was manifested at the auction sale of the large property known as the "Upper Canada Apartments," conducted by Mr. Ward Price (of Ward Price, Limited), at 34 East Richmond street, Wednesday. Biddings commenced at \$40,000 and rose to \$47,000, at which figure the property was withdrawn as the reserve price was not reached.

AGAINST CONSCRIPTION. VANCOUVER, Sept. 23.—After late-nighting for an hour this morning the question of conscription was debated by Hon. T. W. Crothers, the judges and labor congress took up the question of conscription. Just before the 1 o'clock adjournment a resolution declaring against conscription in Canada and thruout the British Empire was unanimously passed.

WILL NOT DESTROY AMERICAN VESSELS

Germany Gives Formal Assurance to the United States Government.

CONTRABAND QUESTION May Be Submitted to a Tribunal for Final Settlement.

WASHINGTON, Sept. 23.—Germany in a note on the case of the ship William P. Frey has given the United States formal assurance that American vessels carrying conditional contraband will under no circumstances be destroyed, even the deemed lawful prizes. The right to destroy American merchantmen is reserved, but the promise is given that this will be done only in case of extreme necessity, as provided by the declaration of London.

These assurances, together with the acceptance by Germany of the two proposals by the United States—the one to name a joint commission of experts to fix the indemnity for the loss of the Frey, and the other to submit to The Hague the dispute which the case produced over the meaning of the treaty of 1856—produced a favorable effect in official quarters.

Just what the practical operation of the new assurances will be officials were keenly interested to learn, for under the lists of contraband proclaimed by Germany in retaliation for acts of Great Britain nearly everything previously known as conditional contraband has now been made absolute. It is not known as yet what attitude the United States will take in its next note, but it is understood that it may reiterate its insistence that the treaty of 1856, and not existing international law, make American vessels immune for destruction irrespective of their cargoes.

Germany, however, is anxious to submit to arbitration what the meaning of the treaty is on this point, and it is probable that if no further cases of damage occur during the pendency of the arbitration proceedings, the American Government will be disposed to await the decision of the arbitral tribunal.

CHARGE FALSE PRETENCE HEARING WAS POSTPONED

Harry Soapman, who is alleged to have stated that he was the owner of Knox's store on Yonge street, appeared in the criminal sessions yesterday, on the charge of obtaining by false pretence goods to the value of \$228 from George Gee, \$460 from L. INSPECTS TWO NEW RAILWAY SYSTEMS

Hon. Frank Cochrane Declines to Discuss Proposed Nationalization.

HAVE SPLENDID GRADES

G. T. P. and Canadian Northern Will Help to Build Up Industries.

Vancouver Province, Sept. 18: Completing his inspection of the newly-finished transcontinental systems of the Grand Trunk and Canadian Northern Railways, Hon. Frank Cochrane, minister of railways, has arrived in Vancouver on a special train over the latter road. After going over the G. T. P. with President Chamberlain to Prince Rupert, Mr. Cochrane returned east to Yellowhead Pass. And there at a point where the rails of the two transcontinental lines are but a few feet apart his car was transferred to the C. N. P. R. by moving several of the rails.

A special train was waiting with M. H. MacLeod, general manager, who accompanied him over the line into Vancouver. Clive Fringie, a well-known Ottawa barrister, is a member of the minister's party. Mr. Cochrane declined to discuss the numerous reports that have been circulating during the past few weeks to the effect that the Dominion Government is contemplating the nationalization of the Grand Trunk Pacific Railway, and that his trip over the line has been taken in that connection.

He have heard nothing of the scheme," he tersely said, when asked for a statement on the subject. He also returned a negative answer to a similar enquiry as to the prospect, said to have been given serious consideration by the Ottawa authorities, that the government was also take over the Canadian Northern system.

He spoke in terms of commendation of the physical characteristics of the two new transcontinental railways, stating that the lines both opened up vast territories and were bound to prove big factors in developing the natural resources of the Dominion and in building up the industries of the country. Both roads had splendid grades, he said, and were well constructed.

MANY VISITORS SEE EXHIBITS AT ACTON

Last Day of Fair Brought Four Thousand People Who Witnessed Quick Judging.

ACTON, Sept. 23.—The last day of the annual independent fair, held here today, was attended by about 4000 people and was a decided success in point of attendance, number of entries and class of exhibits. The spacious grounds were admirably adapted for the purpose. A first-class half mile track is used exclusively for the speeding events, while two inner rings are used for the exhibition of heavy horses. With the systematic way in which the management handle this fair, the light horses were rapidly judged and there is something interesting going on every minute. Judging of the light horses was ably and satisfactorily done by E. B. Clancy of Guelph. The winner in each class was as follows:

The year-old carriage horse, E. Wilson, Guelph; single carriage horse, Wm. Howard, Rockwood. Carriage team, J. H. H. Mills, Three-year-old roadster, A. L. Chambers, Milton; single driver, Dr. Elsiop, Freeman, Rock team, Dr. Elsiop. High-stepping carriage, J. Hubbard, stylish turnout, J. Horrell, Rockwood. Lady driver, Miss Johnston, Guelph. Best turnout, J. Ashenburt, Ashgrove. Draught pair, J. Ashenburt, Ashgrove. Agricultural team, J. Wilson, Milton. Mr. Clayton, Grand Valley, was judge on heavy horses. Also the two speeding events were won in straight heats, the horses were well matched and close finishes resulted, which were as follows:

REVELATIONS OF A WIFE

By Adele Garrison

What Happened Before the Evening Came.

THERE! Now what do you think of your kitchen clock? Dicky stepped back admiringly from the dining table, where he had just finished arranging the flowers he had bought in the coarse brown jar against which I had protested to no avail.

To my housewifely mind, the idea of a piece of kitchen pottery as a receptacle for flowers was ridiculous and I had felt much irritation at Dicky's not only putting aside my opinion with a careless quip, as if it were of no importance, but for persisting in carrying the unsightly thing into the dining room and putting the flowers into it.

But as I looked at the yellow daffodils, the white narcissus, and the delicate forms rising out of the dark brown earthen jar, I realized the artistic sense that had led Dicky unerringly to select it. Placed carefully within it, some of the blossoms standing proudly upright, others leaning lovingly over the side of the dish, they looked exactly as if they were rising from the earth where they were grown.

I love flowers so much that the very sight of them mellowed me, no matter how upset I am. As I gazed at the exquisite blossoms, I felt my irritation at Dicky leave me. After all, he had been right about the jar, and I could not believe he had meant to wound me.

I slipped my hand into his arm. "They are lovely, Dicky," I said softly. "I like it all back about the jar. It is the only thing for these blossoms, isn't it?"

"Of course," Dicky replied laconically. "Queer, how some of the cheapest pieces of pottery have colorings which are a delight to the eye."

"Dinner all served," announced Katie from the kitchen. Then her eyes fell upon the table, where Dicky had jumbled dishes and silver in a heap to make room for his arrangement of flowers, and her face grew dark with anger.

I hastened to avert the storm I knew was brewing. "Never mind the dishes, Katie," I said soothingly. "Mr. Graham put them to rest when he arranged the flowers. We will put them all back again ourselves. Bring on the dinner."

A Request Forgotten. Katie departed grumbling under her breath, but I affected not to hear her. I turned to put a good dinner before Dicky, he enjoys every morsel of it so much. In spite of the depressing incidents of the morning, my spirits reflected Dicky's, and we had a merry little meal, while Katie beamed at our appreciation of her efforts.

"Here, Katie," as Dicky finished a large slice of Katie's cream pie, he held out a five-dollar bill to her. "That's in recognition of a mighty good dinner."

"Thank you," rejoined Katie. "I'm sure if you put dishes on floor next time, Dicky frowned slightly as she left the room.

"Too fresh, by far, that girl," he commented. "Can't you tone her down a little?"

I felt my old irritation at Dicky's inconsistency rising within me. When he had found that Katie, whom I had regarded as cook, was the girl who had formerly done the housework in the bachelor apartment which he had shared with three other artists, he had been delighted.

"Now I'll have the chance to finish that painting of Poland for which she was posing when she disappeared," he had said to me, and disappeared. Put up with anything from her until after I finish that painting.

Not that I believe in shooting promiscuously. Nine times out of ten the man who carries a gun is a coward, and that's why he carries it, and I hope, of course, that the boy was not seriously wounded.

I hope also that the mother who failed to teach that boy that there is nothing funny in humiliation and distress had, and will have, quite a little time of stress and worry herself over that wound and the boy who suffered it.

It will do her good to sit by the bedside of one she loves and worry a while.

She'll be a better woman for it in a thousand ways. It was funny to frighten and shame a young woman who couldn't protect herself, wasn't it, boy?

It was a good joke to make her cry and to get her husband so angry that he was almost insane, too deliciously amusing for anything, till the man you were helping to torment turned and tormented you!

Are These Things "Fun"? What did the bride do when you were wounded? Did she laugh and make funny faces, as you did when you thought how her eyes smarted with the red pepper?

Who took you into that crowd, anyhow, or who let you go there? Were you never taught at home that it is never amusing to make somebody suffer?

How did you get the idea that it was a joke to torment and annoy? What? You got the point of view from a hobbler cousin, who pulled a chair out from under you and laughed himself almost ill when you rushed upon him in a rage and tried to strike him with your childish lists?

From a grinning relative from somewhere in the back woods who pulled your hair and bent your knuckles backward and went into paroxysms of amusement over the way you looked when you cried about it?

Today's Fashion

Frock of Dark Blue Velvet, Trimmed with Chiffon and Lace.

The velvet frock will again be favored for afternoon wear during the autumn and winter season. Dark blue velvet was used for this attractive model. The back of the skirt extends over the front and is slightly gathered about the waist.

The velvet corsage opens over a front of pleated chiffon of the same tone of blue, and the pleats are extended below the skirt to form a peplum. Long sleeves of old chiffon, a chemiselet of lace and a girde of velvet completed this effective frock.

Practical Jokes Are Relics of Barbarism

By WINIFRED BLACK

A MAN shot a 12-year-old boy the other night in Indiana because the boy made the man's bride cry. The boy was a member of a charivari party, and they threw red pepper over the transom and made a young woman who had probably never said an unkind word to them in her life cry on her wedding night.

And the young husband, besides himself with humiliation and anger, shot through the door into the crowd and hit a 12-year-old boy. The man is now on trial.

I don't know what that particular judge and that particular jury will do to the man in this particular case, but I hope it won't be anything very serious.

ADVICE TO GIRLS

By ANNIE LAURIE

NEAR ANNIE LAURIE: I went with a young man for some time, but on account of his ill health my mother did not wish me to keep company with him. I love him very much, and do not wish to part with him. Please do not tell me that I ought not, because my mother disapproves. Please tell me what to do. PERPLEXED.

PERPLEXED: Not because your mother disapproves or I disapprove or anybody else in all the world disapproves, should you stop going with this young man who is in ill health, but because you know in your heart that he is not fit to be the father of your children and the husband upon whom you can lean when you are weary with the heavy tasks that fall to woman's lot.

Cannot we women have a little thought to the future when we love and still love just as truly? It is given

to the woman's soul to pity those who are not strong and well, and to help and comfort them, but when she looks deep into her heart, is she really satisfied with a sickly father for her children? Love is a much abused word. You are young. In a few years you may define it in very different fashion from the way you do now. Marriage, though it is a relation easily broken nowadays, to the terror of it all brings you to ask to be rid of him, but what of the children that have sprung from this marriage? They must go on through their lives, and their children through their lives, and so on, and on. What of the body alone it will be less dreadful, but so often a sickly body breeds a sick soul. Oh, little Perplexed, look ahead, way ahead, before it is too late!

LESSED be frosting, for it covers a multitude of sins! I've acquired some little skill in producing good cake, but it just will happen, in spite of all care, that sometimes I'll forget some little thing, or I'll hurry and forget to beat the cake well enough, or the quality of the flour varies, and behold! the cake sags; it's lopsided, drooping depressingly at one end, or it's coarsely grained on account of a different grade of flour and tastes more like sweetened bread.

But a good frosting neutralizes the blow of a disappointing cake, and I have quite a variety of them which practice has made me adept in preparing quickly. In frosting a layer cake I usually pin a strip of paraffine paper around it, so that it extends about one inch over the top of the cake. When the frosting has set, I remove the paper and there is a neat mound of frosting on top instead of the frosting pouring over the edge untidily, as it does otherwise. Sometimes the oiled paper doesn't come off readily, and it is necessary to remove it with a thin-bladed knife that has been wet in hot water. Here are recipes that I have used:

Caramel Frosting. 1/2 cupful of light brown sugar. 1/2 cupful of cream. 1/2 tablespoonful of vanilla. The sugar, cream and butter are boiled together until they reach the stage where the mixture will form a soft ball if dropped in cold water. This usually takes about 15 minutes. It is then removed from the fire and beaten until cool. Then the vanilla flavoring is added and the frosting is spread over the cake very quickly. If preferred, 1/2 cupful of condensed or evaporated milk can be used instead of cream.

Orange Frosting or Filling. 1/2 cupful of sugar. 1/2 cupful of flour. 1/2 cupful of water. 1/2 cupful of orange juice. 1 tablespoonful of lemon juice. Grated rind of 1 orange. 1 egg. 1 teaspoonful of butter. All the dry ingredients are mixed together, then the slightly beaten egg, orange peel, water and fruit juice are added. Cook for 10 minutes in a double boiler, stirring constantly, when it must

be removed from the fire and the butter added. When cool it can be spread on layers or on top.

Chocolate Cream Filling. 1/2 cupful of sugar. 1/2 cupful of flour. 1/2 cupful of scalded milk. 2 ounces of chocolate. 1/2 teaspoonful of vanilla. 2 egg yolks. All dry ingredients, including the grated chocolate, are mixed together, then the slightly beaten egg yolks are added, and the entire mixture is poured gradually into the scalded milk. It is cooked for 15 minutes in a double boiler, stirring constantly until thickened, and then stirred only occasionally. When cool, it is flavored with vanilla and spread on layers.

Nut Preserve Filling. Stir 1/2 cupful of any chopped nut meats into 1/2 cupful of apple butter or other similar preserve, and spread on layers. This is a very quick filling, and is invariably good. As no cooking is required there is little chance of its going wrong or spoiling in any mysterious way.

Secrets of Health and Happiness

How the Pineal Gland May Cure Backward Children

By DR. LEONARD KEENE HIRSBERG

A. B. M. A., M. D. (Johns Hopkins University)

SITUATED as if it were the third eye of a cyclops, in the fore part of the gray matter, and connected by two little strands to the so-called "optic thalamic" of the brain, is a tiny hollow globule—the pineal gland—about the size of a pea, of a pale, yellowish hue. This is the little gland once thought by Descartes and other philosophers to be the seat of the soul.

Modern science, equally in error, regards the pineal body as the remnant of an undeveloped thirteenth phloctis, however, have rather discredited the doctrine of evolution, and by experiment have shown that the strange little gland exerts a marked influence over all the other tissues of the human skeleton, particularly mental and sexual growth.

Dr. Carey Pratt McCord of Detroit has just undertaken a series of experiments with small animals, which indicate beyond cavil that pineal gland substance from cattle, given as food, causes precocious development of young animals.

Chickens, puppies, calves and guinea pigs to the number of 388 were given pineal glands as food. The first essential result of the experiment was to show that pineal glands taken from grown-up creatures are of little or no value.

Experiments on Young Animals. Pineal gland substance, however, taken from calves and young animals yielded at once very important results. The young creatures fed with young glands grew and matured rapidly and acquired the full weight and sexual development of adults in a few weeks' time.

Strange to say, the instant the young guinea pigs or other animals became thus full grown and parental, the pineal gland lost its effects. Although Dr. McCord tried hard he could not produce giants or other extraordinary creatures. The extract from the pineal gland seems potent only to produce precocity and full development in a short space of time.

Besides feeding the gland, and in order to escape the action of pepsin and other enzymes of the stomach and glands from lambs were administered 48 animals. There was no great advantage manifest, hence the pineal gland may be given as a medicine in the food.

Offspring Much More Robust. Mother animals, fed young pineal glands, gave birth to their offspring earlier than others not so fed. Moreover, the mothers thus fed with the pineal glands of meat brought forth offspring one-third larger than the others. The father animals, were equally large, robust and fully developed when so fed. Indeed, the power of the pineal gland in augmenting vitality, weight, mental alertness and vigor, was about equally great for both male and female animals.

The animals experimentally investigated gave seemingly complete evidence to show that pineal gland may be advantageously used upon children, when for their age they are sexually, physically or mentally below par.

It remains to be seen whether equally important uses can be found medicinally among human creatures for pineal gland. The dry extract has already been used for backward children with occasional success. These experiments would seem to point to that practice and method as correct.

Answers to Health Questions

M. L. Q. Will you kindly advise me of some remedy for a constant watering of the eyes?

Have your eyes examined and fitted with the proper glasses, if necessary; also bathe the eyes several times a day with warm boric acid water.

H. R. B. Q. What will correct an oily skin and shiny nose?

A. Pepper, salt, highly seasoned foods, tea, coffee, liquors, hot, oily and greasy foods help to cause a shiny nose and oily skin. A plain diet and lots of sleep will help you. Do not use soap or hot water on your face, but cleanse it with a good peroxide cream and ice-cold water instead. Massage the nose and skin each night with glycerine and peroxide, half and half.

S. M. E. Q. What remedy do you advise for brown liver spots?

A. These so-called "liver spots" are on the order of freckles, and usually have nothing to do with the liver, in fact, liver, stomach or intestinal troubles. They are, however, especially in women, traceable to internal complaints. Apply this locally several times a day: Glycerine..... 1 ounce Violet water..... 1 ounce Ammonium chloride..... 1 drachm Sodium sulphate..... 2 drachms Borax..... 2 drachms Distilled water enough to make one pint.

H. N. F. Q. I am annoyed by a cracking of my joints, particularly in the knees and wrists. Is this in any way dangerous, and what should I do?

A. No, it is not dangerous, but rather unusual. You should eat a more mixed diet, and take vigorous exercise daily.

R. P. B. Q. I suffer with cramps in my knees, sometimes so very severe that I am forced to jump from my bed at night to overcome it. What do you advise?

A. Try the small electric battery on the affected joints every four hours. Take active outdoor exercise daily. Eat plenty of good nourishing foods.

Three Minute Journeys

WHERE MODERN MIRACLES ARE SAID TO BE WROUGHT. A FEW miles from the city of Quebec, Canada, at the mouth of the St. Anne river, is the little village of Beaufre, the most noted feature of which is the parish church of Sainte Anne de Beaufre, the "miracle church."

This church has been called the "Lourdes of Canada" because of the thousands and thousands of Roman Catholics who make the pilgrimage to the shrine every year, in the hope of being cured by the efficacy of the holy relics of St. Anne which are preserved there.

The picture shows a section of a vast pyramid of crutches, sticks and canes left behind by happy and devout believers whose faith in the efficacy of the cure has led to have wrought many seemingly miraculous healings. Innumerable claims are made of these wonderful

cures of the halt and the maimed. Non-believers in modern miracles talk of faith cures, of religious ecstasy, of self-hypnotism, but believers are certain of two things—first, that the sick came lame and halt and their pain and lameness passed away, and second, that the cure was wrought by the holy St. Anne. The fact that the shrine annually and at certain seasons of the year excursions are run from various points, carrying hundreds, not only of the lame, but of the cured, but those not afflicted—true be-

lievers who desire to make the pilgrimage for the sake of visiting the shrine. In New England, to which many thousands of men and women of Canada, French extraction have been drawn by the textile industries and the cheapness of abandoned farms, it is certain to Quebec and including a side pilgrimage to the shrine of the good St. Anne, is one of the trends of thrift and industry toward which young and old look forward.

Chocolate Cream Filling. 1/2 cupful of sugar. 1/2 cupful of flour. 1/2 cupful of scalded milk. 2 ounces of chocolate. 1/2 teaspoonful of vanilla. 2 egg yolks. All dry ingredients, including the grated chocolate, are mixed together, then the slightly beaten egg yolks are added, and the entire mixture is poured gradually into the scalded milk. It is cooked for 15 minutes in a double boiler, stirring constantly until thickened, and then stirred only occasionally. When cool, it is flavored with vanilla and spread on layers.

Nut Preserve Filling. Stir 1/2 cupful of any chopped nut meats into 1/2 cupful of apple butter or other similar preserve, and spread on layers. This is a very quick filling, and is invariably good. As no cooking is required there is little chance of its going wrong or spoiling in any mysterious way.

FRIDAY MORNING, SEPT. 24.

A Way Out

The British Government Board of Trade, which dealt so successfully with the beef trust and the shipping trust, should come to the rescue of the Canadian farmer and the British consumer of bread. Mr. Runciman, the president of the board, and a member of the cabinet, has just explained to the British House of Commons how he was able to get chilled meat from Argentina at reasonable prices. He requisitioned the whole tonnage which carried beef from the Argentine Republic to Britain. This left the American beef trust so far as Argentina was concerned utterly helpless. They could not ship out a pound of meat unless the British Government furnished a vessel to carry it, and thus the board of trade gripped complete control of the situation.

Now why cannot the British Board of Trade requisition enough tonnage to carry our wheat to England? The vessel owners would not be paid the fancy prices now demanded by the shipping combine, but only what the service was reasonably worth. Wheat can be profitably carried from Montreal to Liverpool for five cents a bushel, but the ruling price today is thirty cents. If the imperial government cut down the cost of ocean carriage from thirty cents to five cents the saving might be divided between the Canadian wheat grower and the ultimate consumer. That is to say, the Canadian farmer could get net fifteen cents more for his wheat than his American competitor, who undersells him by ten cents at Liverpool. Nor would it be desirable to restrict the preference to raw grain. Why should not the Canadian millers share in the imperial preference?

In short, the excessive profits of the shipping ring would be confiscated. The American farmer would probably have to keep on paying thirty cents to get his wheat to Liverpool, but he could not complain except to his own government. Nor would the United States look upon so sensible a procedure as a trade discrimination. Even now the president is determined that congress shall pass the ship purchase bill in order to put in his hands a big stick with which to discipline the shipping combine.

The adoption of some such plan would require us to maintain our tariff wall against American wheat, but the countervailing duty which keeps us out of the American market would be of no consequence when we enjoyed a commanding position in the British market.

Britain's vast merchant marine has been of great service in the war, and it can be no more usefully employed than in carrying food from the dominions to the motherland at reasonable rates such as will ensure the slaughter nations a preference in the imperial market.

Financial Reform for the City

Ald. Wickett's third open letter to the mayor and citizens gives evidence of the fact that there is sufficient interest in the financial affairs of the city to warrant a full, free and open discussion of the situation such as Ald. Wickett has thus inaugurated.

The World has been hammering away at the necessity for financial reform in the city administration for years. Eight years ago we nominated a commission of five men to look after the city business, at salaries of \$25,000 a year, and the various experts who criticize and abuse those with whom they do not agree followed their usual course. We nominated Mr. W. T. White as financial man for the city. Since then he has become the Hon. W. T. White, minister of finance for Canada. It would have paid Toronto a hundred times over to have had him running the city finances for the last eight years.

Ald. Wickett is on the right line. He has stirred up more attention to the city's financial condition than anyone has for a long time past, and besides, things have become so bad that there is a likelihood of the ratepayers taking a hand in the debate. This accounts for several facts in reform attempts to belittle what Ald. Wickett has done. The statement that his open letters have injured the city's credit is quite astray. The offer made for city debentures before the second

letter was published has been increased by a point and a half since its publication. This means that Ald. Wickett's letter indicates the certainty of action which will improve the credit of the city.

We desire to compliment Ald. Wickett on the simplicity of his statements. There is no need to complicate the issue by elaborate calculations of what the tax-rate was, or might have been ten years ago, or what the debt per capita is, when we do not know the population exactly. A more useful calculation would be the relation of the debt to the actual property of the ratepayers, and we cannot have that on account of an illegal assessment. Complaints are made by people who ought to know better that the assessment is too high when we have the assessment commissioner himself telling us that it is thirty per cent. under what the Assessment Act says it ought to be.

The Telegram is quite right when it says that the appointment of a strong man to handle the finances is the true path to a settlement of the city's financial difficulties. The city is not bankrupt, nor anything like bankrupt. The borrowing margin of the municipality has been reached, and probably exceeded. But the city is more than solvent, and if the accounts were properly handled, there would be no cause for criticism of the expenditures. They are all necessary, but they are not well controlled, nor seasonably arranged.

The tax-rate has been too low for years, and while needed improvements have been kept back, they gradually became imperative and have overwhelmed the pinchbeck economists responsible for prolonged procrastination. We have only to add that a strong man in one department will not be sufficient if there are obstacles in every other department to the exertion of his strength. We do not mean obstacles in the officials themselves, but in the system which prevents such, obsolete barriers to reform.

The immediate need is to awaken every ratepayer in the city to the fact that his own cash interest depends on the attention he now gives to these matters.

Local Hydro-Electric Affairs

Since Mayor Church became ex-officio a member of the City Hydro-Electric Commission he has been a critic of the affairs of the commission has not been quite so virulent, and when indulged in has been directed personally. The casual observer might suppose that this is the result of an improvement wrought by his worship in the management of the system. We can only note that he has not himself so stated.

Meanwhile the report of the commission for 1914 has been issued. It is of a highly satisfactory character, and shows a growth of business which must be difficult for some people to explain, seeing that Mr. P. W. Ellis is still chairman of the commission. Some citizens had been deluded into believing that Mr. Ellis was a kind of hoodoo. The hoodoo must now be looked for in other directions.

One of Mr. Ellis' ideas was that the rates should not be lowered until the revenue was sufficient to meet the liabilities. Efforts had been made to show that the commission had no liabilities and that the opposition to reduction of the rates was purely arbitrary. It is now clear that there were deficits in previous years, and it would have been unfair to reduce the rates until these were in the way to being extinguished, which they are now shown to be on the present balance sheet.

The cutting of the rates has been a boon to the citizens generally, as those who do not patronize the civic system share the reductions brought about by civic competition.

Berlin and Washington

President Wilson has been fiercely assailed in his own country for adopting a peace-at-any-price attitude toward Germany. Perhaps the historian of the future may deal more kindly with him than do many of his contemporaries. The refusal of Mr. Bryan to sign the second note on the Lusitania incident, coupled with his resignation as secretary of state, gave a thrill of dramatic interest which nothing in the note itself warranted. Indeed, it will always be hard to understand why Mr. Bryan signed the first note and balked at the second.

From that time on Germany had only to play for delay. After the first shock and rage over the assassination of the Lusitania subsided, it became apparent that public opinion did not demand war with Germany. Mr. Wilson was given the unpleasant task of putting up a bold front without the ability to back it up.

What puzzled some people was the apparent inconsistency of the German Government. It looked one time as though the kaiser was doing his best to goad the United States into declaring war, yet Count Bernstorff, the German ambassador, who must enjoy the confidence of the kaiser, has been working overtime of late trying to keep the peace.

Current Opinion for August assembles a number of clippings from German newspapers and comes to the conclusion that the kaiser has never desired an open breach with the United States. It says, however, that the prejudice of the German people against the United States has been so strong as to make it difficult for the government to follow its better judgment. Then, again, it is said that German diplomacy failed so miserably at the outbreak of the war that the foreign

office has fallen into almost universal contempt.

We think it a fair surmise that the sympathies of the president are not with Germany in the present struggle. Neither is it fair to charge him with personal cowardice or political ambition. No man, probably, ever found the White House a more unwelcome habitation. It is, however, too early as yet for anyone to forecast Mr. Wilson's place in history.

LONDON BUTCHER'S WILL INTERPRETED BY COURT

Chancellor Remarks Document Was Evidently Home-Made Production.

Chancellor Boyd in a judgment handed out at Osprey Hall yesterday interprets the will of the late George Jackson, butcher, of London, who died in Wianipon Dec. 12, 1913. The testator directed that the farm, slaughter house and two butcher stores should be given to his two sons and that his residence and furniture be given to his two daughters. Also that Etta Milburn, to whom he was engaged to be married, should receive \$500 from the sons and \$500 from the daughters three months after his death. One of the clauses in the will is: "P. S.: The money is to be given to Miss Milburn for herself alone, but should she die the money will go back to the estate and be divided equally between my children."

His lordship remarks that the will is evidently a home-made production and that the "P. S." may have been a mistake for "N. B.," but whether or not this may be it gave the key to the testator's intention in benefiting Miss Milburn.

Miss Milburn died March 7, 1914, more than two months and less than three months after the death of the testator. The sons failed to pay the \$500 to Miss Milburn and the chancellor states that she was entitled to receive it but having died five days before the expiration of the three months after the death of the testator she was not entitled to the second \$500 from his daughters.

The second divisional court list for today is: City of Toronto v. Toronto and York Radial Railway, Rushworth v. Haines, Mills v. Death, Johnston v. Haines.

NEW RUSSIAN LINES IN RIVERY DISTRICT

Germans Have to Race for Beresina Crossings Where Napoleon Had Mishap.

PETROGRAD, Sept. 23.—According to the latest information received here the Russian line now runs from Osmiana to Smorgon, which is on the left bank of the Vilya, west of Vileika. From Smorgon the line extends to Lebedev, crossing the Molodechno railway junction. Thence it parallels the Vilya-Lida railway, crossing the Lida-Molodechno railway and extending across the Gadsa River at a point 13 miles east of the line. The line then runs to Noviny, Moichad, Milyrdy to the east of Lake Vyonovsk and eastward along the Ostinski Canal to Lyscha and the junction of the Jaselska River with the Vilya. east of the junction the line is uncompleted.

Russian officers admit that the new front in the Vilya region is warped and interrupted in places. The region to the east of Lida and south of Molodechno is intersected by a multitude of rivulets. These are embarrassing the German advance, necessitating a detour northward, and consequently co-operation between the German group in the vicinity of Vileika and that near Lida will be difficult.

The Russians expect that the Germans contemplate a race for crossings of the Beresina River, particularly at Borissov, 83 miles northeast of Minsk, where Napoleon came to grief in 1812. The Red Cross hospitals evacuated Vilya in good order. Two local hospitals, with 350 wounded, remained in place, it being impossible to remove them.

FIFTY PER CENT. AT WAR

As soon as the sessions of the general synod are brought to a close the fall term at Trinity College will commence. Such a large number of students have gone to the war that it will result in an attendance of but 50 per cent. of that of last term.

HYDRO IS GROWING DESPITE THE WAR

Business for First Half of This Year Shows Satisfactory Surplus.

BORDEN WRITES MAYOR

Premier Makes Explanation of Shortage in Military Equipment.

In his report covering the first half of this year General Manager Couzens of the Toronto Hydro-Electric System says that in spite of the war, business has increased. The system had a surplus of \$203,686.47, which was disposed of as follows: interest \$130,948.11; interest on past instalments \$4,998.47; sinking fund instalments accrued \$46,685.90; balance for depreciation and annual adjustments \$121,100.68.

The income during the first half of the year was \$770,558.47 from all sources. The cost of electric current was \$184,835.68, and the expense of operation \$228,031.60. The assets of the system total \$7,896,947.78, and the liabilities \$7,476,838.78. Hydro users benefited by about \$44,000 on account of the rate reduction.

Estimated to cost \$477,177, the actual cost of appropriation in connection with the widening of St. Clair avenue is given as \$668,370. Of this amount the city will pay \$127,177 and the ratepayers on the street \$127,393. On account of the widening, property along the street has increased over \$90,000 in value. The widening alone cost approximately \$186,509 per mile, the length affected being 3.69 miles; 425 pieces of land were taken over by the city, the frontage being about 37,910 feet. According to an official the city has \$100,000 worth of vacant land on St. Clair.

The Premier's Letter

In reply to his letter calling attention to the shortage of military supplies, Sir Robert Borden, prime minister of Canada, has written to Mayor Church stating that he regrets that there should be any shortage, but draws attention to the immensity of the undertaking in which the empire is engaged.

"We have under arms at present more than five times the total number of British troops under Wellington at Waterloo. The public mind may be misled by the military authorities of Great Britain were quite undecided during recent months as to the size of the expeditionary force which they could send abroad in case of war. Estimates varied from 80,000 to 160,000. We have now over 200,000 men, including officers and men. In Canada we have engaged in garrison and outpost duty and in the field in organized units nearly 70,000 men.

"Please bear in mind that the force originally despatched by Great Britain was less than 100,000 men, and that sent to Spain for the Peninsular War was less than 50,000 men. The force now under arms in Canada is less than 100,000 men, and that sent to Spain for the Peninsular War was less than 50,000 men. The force now under arms in Canada is less than 100,000 men, and that sent to Spain for the Peninsular War was less than 50,000 men. A Chief's Criticism

Chief William Davis of the Victoria, B.C., Indian department has written to Ald. McBride, one of his supporters, in the matter of the Toronto fire commission. He says that there is need of discipline, that politicians must be got rid of and that there is too much dead timber in the department. With his letter he sent many of the printed forms used by the Victoria department and outlines the way his department is managed.

Employ Residents Only

Next week a conference will be held between the civic authorities and the downtown clergy regarding the unemployment situation during the winter. This conference may be advised by Property Commissioner Chisholm that he sees no good reason for not getting into touch with the Dominion Government with a view to preventing as far as possible the immigration into this city of all persons from the border seeking employment.

He further suggests that all those seeking employment must prove to the satisfaction of the labour bureau that they have been residents of the city for not less than six months, and that where there is suspicion an investigation be carried out by the bureau. He does not think an extensive reorganization of the labour bureau necessary, but suggests the adding of an assistant to the superintendent. During the last two months 1000 positions have been secured for applicants. The commissioner points out that many men refuse work when situations are offered them, especially when they would have to leave the city.

The aldermen have all been summoned to appear at the investigation which will open before Judge Dutton on Oct. 1. They will all be asked to tell what they know regarding fire department lobbies. Col. Langton and Property Commissioner Chisholm have also been summoned to appear.

McGregor & McIntyre have obtained a building permit for the erection of a two-story factory at 1138 Shaw street to cost \$8700.

Yesterday the building permit was issued by the city architect's department for the new North Toronto station of the Canadian Pacific Railway. The cost is given as \$125,000.

ONTARIO ARRANGES LOAN IN NEW YORK

Will Retire Treasury Bills Which Are Not Renewable in England.

SAVING IS EFFECTED

Four and a Half Per Cent. is Paid on Six Hundred Thousand Pounds.

The provincial government has floated a \$3,000,000 loan in New York, on terms which will be equivalent to a rate of 4 1/2 per cent., or 3/4 per cent. lower than the City of Toronto has been able to secure. The money is required to retire treasury bills of \$2,000,000 maturing in England, and for which the Ontario government has been unable to secure a renewal. As a rate of 4 1/2 per cent. was being paid on the treasury bills in England, Provincial Treasurer Hon. T. W. McGarry has effected a saving to the province of one-quarter per cent. on the interest in addition to the exchange, which will be a considerable item.

"No country in the world has better credit than the Province of Ontario," said Mr. McGarry yesterday. "I was successful in securing the money at lower rates than the American markets have offered to any other borrowers in a good many months." Mr. McGarry pointed out that the terms of the loan are particularly favorable to Ontario, in view of the fact that the money is to be repaid in the United States. The pay and the government is to maintain that standing unimpaired in any way, and not to offer loans for capital expenditure except of the most pressing and necessary character during the war.

CARPENTERS COMPLAIN OF UNFAIR TREATMENT

Were Laid Off by Canadian Explosives, Limited, at Parry Sound.

Carpenters who went up from Toronto thru the medium of the Civic Employment Bureau to work for the Canadian Explosives, Limited, at Parry Sound, have returned to this city and are complaining of the treatment they received without apparent reason except their own train fare up there and then all they get is two or three days' work. One man who went up there to work as a carpenter, without apparent reason, returned to Toronto on Tuesday, he said, he was discharged without apparent reason, except to put another gang on the job. Two men were laid off the other day and the other day they were laid off their board bill and their railway fare up there, they were handed \$1.50, not half enough to pay their fare back to Toronto.

The Council of Carpenters and the Trades and Labor Council will be asked by the Carpenters to urge the city and government authorities to make a thorough investigation into the situation.

DAMAGES AGAINST TORONTO.

Mrs. Elizabeth St. Clair was awarded \$225 damages against the City of Toronto in the county court yesterday for injuries received on Jan. 15 last when she fell on an icy sidewalk on Sumach street. She claimed \$1000.

TWO FOUND GUILTY.

Samuel Taylor and Alfred Taylor were found guilty by Judge Winchester and a jury in the criminal sessions yesterday of obtaining by false pretences a motor car with intent to defraud John Gray.

EATON'S

Slip-on Coats for Fall Wear in Both Full Back and Form Fitting Styles

THE ILLUSTRATION gives an idea of one of the smart styles in Slip-on Coats that are shown in special range of "Fashion Clothes" Coats.

NOTE THE VELVET COLLAR which is shown quite prominently this season. A feature of this make is that, with every coat that has a velvet collar, a ready cut-out collar of the material is supplied to replace the velvet collar when it becomes soiled or worn.

THE SKIRTS ALL FLARE and have box effect or deep vent. Single or double-breasted styles or full back, as illustrated, or form-fitting—velvet or self collars. All have wide and rolling lapels. All coats button through. They are made from those beautifully soft materials with the plaid backs, and many are heavy enough to wear all winter; materials that never look shabby.

The coats are lined in yoke and sleeves with silk or satin. Sizes 34 to 40. Prices 22.50 to 35.00

Redland Beat Plate Glass In Seagram Cup Handicap

Favorites, Second and Third Choices Clean Up the Card—C.R.A. Rules Off Three Jockeys—Starter Dade Fines Three Others—Big Crowd on Fifth Day at Woodbine Park.

Favorites had a margin for the first time of the meeting yesterday at Woodbine Park, when Yenghee, Slipper Day, Jim Gift and King Box finished in front. Jim Q., winner of the steeplechase, was second choice, and Casco and Redland third in demand. Of the beaten favorites Plate Glass ran second to Redland in the feature, and Trout Fly and March came outside the money. The day was hot and almost warm, the rain that threatened late in the afternoon holding off until everyone was home.

The track was fast, Redland and Star Gift showing the heat in the time line in the two long races.

The attendance was up to the weekly standard, about 5000.

The breeze again waited that characteristic aroma from the disposal plant light to the lavatory. It is unfortunate that the board could not arrange during race week to have anything but a wind from the west.

Collins rode a nice race on Casco in the opening event, coming third and inside to beat Lady of Lynn and Broom Corn. These two were the early contenders and stayed for the place and show, the Trout Fly, the odds-on favorite, almost closed up in time to get something.

The field worked into the money for the first time this meeting in the second race, when Katharine G., one of the four that were bunched, finished second. She was off in front and made the pace until half way up the stretch, when Yenghee, the favorite, drove past to win by over a length. Koppie third all round and the next morning's favorite, Slipper Day, hustled his lead off first in the six furlongs for the Elgin Handicap and won at every post, with the outsider, Marion Galey, closest in pursuit for five-eighths of the journey. Hearts of Oak, that was backed by the stable to win, finished like old times and took the place, but never threatened the leader. Corn Broom, second choice, was not mentioned in the despatches.

The entry ruled, favorite for the Seagram Cup, the chief feature of the day, and old Plate Glass made a commendable display, but the best said of Fountain Fay the better. It was a dual all round between Redland and Plate Glass, the former setting the verdict by a nose. Aprisa came from behind for the show, with Martian the first of the also rans.

Jim Q. won the steeplechase by his margin and looked the best after March Court fell. Union Jack soon tired of his invidious pace and dropped back. Kall Inla taking the place, and the experiment of sending Sherlock Holmes over the sticks proved a success.

Star Gift won the sixth, another distance event, when the others became leg weary, the Egmont, that ran second to Yadopeep the first half of the journey, was right up at the finish for the blue. Sigma Alpha, the rank outsider, came up for the show. Crossbun, second choice, was the disappointment.

King Box beats Orperth in the drive

first time in the closing race, the margin being a short head. The winner kept off the pace and thus had enough left to drive home past Orperth. Kate K. was third, a length away and two in front of Fly Home. Valas had a lot of backing, but no excuse.

Fined, Bid-Up, Ruled Off.

There was a delay at the start of the fourth race caused by the tactics of Callahan, Carter and McDermott that Dade did not approve of and he assessed each \$25.

William (Red) Walker bid up Star Gift from his entered price of \$1000 to \$1600, but Omerne came back with the extra \$5 and kept the winner of the sixth.

At the meeting of the Canadian Racing Association yesterday the license of the colored steeplechase jockeys, D. Gady, G. Bowser and F. Hueston, whose conduct has been under observation for some time, were withdrawn and the riders will be refused admission to C. R. A. tracks. Hueston's credentials had been only recently restored. His riding at Blue Bonnets was not approved of.

The following races close this morning at the secretary's office at Woodbine Park at 11 o'clock:

Middleman Plate, selling, \$600 added, for 3-year-olds and upward, 4 furlongs.

Any Plate, selling, \$600 added, for 3-year-olds and upward, 1 mile and 70 yards.

FIRM DEMAND FOR BUTCHERS' CATTLE

Several Firms State They Are Short in This Class.

BEST ANIMALS WANTED

Little Flurry in Stockers and Feeders Noticeable Again Yesterday.

The receipts of live stock at the Union Stock Yards on Thursday numbered 63 cars, including cattle, 45 calves, 124 hogs, 300 sheep and lambs and 22 horses.

Butchers' cattle: There was hardly a market in this class on Thursday, several buyers taking part at all. The trading concluded at Wednesday's slight advance.

Stockers and feeders: The little flurry noticeable all week in this market was in evidence Thursday. The best animals to fill orders on were wanted, some farmers were present looking for the right kind of good feeding animals.

Butchers' cattle: There was hardly a market in this class on Thursday, several buyers taking part at all. The trading concluded at Wednesday's slight advance.

LOAN UNCERTAINTY AFFECTED MARKET

Unfounded Stories of Friction in Negotiations Depressed Prices.

RALLY CAME LATER

Heavy Selling of U. S. Steel Caused Decline From High Level.

NEW YORK, Sept. 23.—Uncertainty respecting the status of the Anglo-French credit negotiations proved some unsettlement in the stock market today. Rumors, more or less plausible, but emanating mainly from irresponsible sources, suggested a lessening of the French credit negotiations...

CHICAGO SUFFERS BREAK IN WHEAT

Sharp Decline Follows Small Imports From Canada.

RALLIED NEAR CLOSE

Increase in Country Offerings in Northwest of U. S. Reported.

CHICAGO, Sept. 23.—Wheat suffered a sharp break today, largely as a result of the purchase of Canadian wheat to be imported into the United States. The market closed unsettled, 11-8c to 1-8c lower, with Dec. at 94c and May at 95-8c. Corn lost 1-2c to 1c, oats finished 1-18c off...
