## GOVERNMENT AND C.P.R. REACH A SETTLEMENT

### Railway is Prepared to Operate Transcona-Superior Junction Section, Temporarily at Least—“Everything is Being Arranged Satisfactorily,” Assurance of Major Leonard

OTTAWA, Sept. 10.—(Special.)—It is understood that an agreement has been reached between the government and the Grand Trunk Pacific Company for the operating of the Transcona-Superior Junction section of the road completed about six weeks ago.

## FOUR PEOPLE INJURED IN ONE DAY'S ACCIDENTS

### J. B. Smith and James Gillespie Crushed by Trains, Wm. Phillips Pinned Under Marble Slab and Woman Fell From Window.

J. B. Smith, who lives on Wallace avenue, and who works for the G. T. E. while crossing the tracks on his way from work last night, near North Parkdale station of the Grand Trunk, was hit by a train, thrown to the ground and received a severe scalp wound. He was picked up and taken to his home in a motor car. Smith is 50 years of age and married. He will recover.

## G.T.R. MAY USE EASTERN YARDS

### Rumor in Circulation That Roundhouse Will Be Reopened and 75 Switches Laid.

The World was informed unofficially yesterday that it is the intention of the Grand Trunk Railway to reopen its yards, shops and roundhouse at East Toronto in the near future, and to make extensive alterations and improvements there. It was stated that 75 new switches will be laid out, and that coal already is being shipped to East Toronto, on York, in readiness for the reopening of the yards.

## OFFICIAL APPEAL FOR MINISTERS

### Presidents of Alberta and Saskatchewan Methodist Conferences Need 140 Men For Churches in West.

Owing to the crisis in Canadian Methodism caused by the failure of Rev. Dr. Woodworth to secure the 100 preachers in England for the shortage in the Northwest, an official appeal has been issued by the president of the Saskatchewan Conference, Rev. John A. Doyle, and the president of the Alberta Conference, Rev. T. P. Perry, to Canadian Methodists for volunteers for the work. The vacancies, number 140, for which only 20 Canadians are available and 20 being imported by Dr. Woodworth.

## The Cattle Markets

The Toronto World, years ago, advocated a civic abattoir. The Toronto World, years ago, advocated the enlargement of the grounds and construction of new yards by taking in the J. B. Smith lumber yards, which property belongs to the city. The Toronto World during the past decade has devoted more space in its columns to the city yards than any other paper in Toronto.

## LABOR CAUSE NOT ENCOURAGED AT OTTAWA

### President Walters Laments That Interest of Politicians is Largely Limited to Election Campaign Talk—Congress Takes Stand Against “Professional” Delegates.

GUELPH, Sept. 10.—(Special.)—A pointed suggestion that parliamentarians at Ottawa have somewhat lost interest in labor matters, because a general election is in the distance, was contained in the annual report of President Walters, parliamentary representative, at the afternoon session of the Dominion Trades and Labor Congress. This report deals at length with the several matters that had come before the house of commons during the past year, and concludes with the following paragraph:

## NAVY PROGRAM TO BE DELAYED?

### Premier's Anxiety to Have Session Early May Mean Shelving Issue Until Later.

OTTAWA, Sept. 10.—(Special.)—With Premier Borden in harness again and most of the cabinet ministers back in the administrative chairs of their departments, political events are already shaping into a more definite course. Already it is apparent that Mr. Borden, while realizing the tremendous amount of work to be taken up in cabinet council, in the way of getting legislation ready, is nevertheless, anxious that parliament should meet as soon as possible. For this very reason, the premier declined a passing invitation to go to Halifax and open the exhibition there, extended him by a delegation from his native province, who came to Ottawa to attend the banquet given in his honor last night.

## CARS COLLIDED

### Motorman Samuel M. Brien Slightly Injured Early This Morning.

Two King st. cars, going west, collided near the corner of Dovercourt road this morning at about ten minutes to one, and ran into another. Sampel McBride, who lives at 321 West King street, motorman of one of the cars, was thrown from his car when the two came together. Luckily he escaped very serious injury. One arm was fractured. He was taken to St. Michael's Hospital, and afterwards went home.

## HOTTEST DAY YET ALL RECORDS BROKEN

### Thermometer Touched 93 Yesterday Which was the Highest of the Summer—Warm Weather Will Continue For Several Weeks—Two Prostrations on the Streets.

Midsummer weather was put in the shade by yesterday's burning heat and humidity. It was the hottest day of the year, the mercury reaching 93 degrees, and with this, the scarcity of breeze caused much misery. Even the weatherman was amazed by the fact that a day in September, which is feeling close to autumn, outdistanced the figures made in July. Records of many years were shattered. The lowest point yesterday was 82, about 8 o'clock in the morning or a little earlier, and the mercury crawled 11 notches higher during the day. Two prostrations were reported at the hospitals.

## EVANGELICAL ALLIANCE TO ORGANIZE CAMPAIGN FOR A MARRIAGE LAW

### Representative Meeting of General Committee To Be Held in Toronto This Month To Plan Comprehensive Agitation for Change in British North America Act.

Arrangements are in progress for an early meeting of the Evangelical Alliance to prepare a plan on a Dominion scale for a campaign to secure an amendment to the British North America Act to give the federal parliament power to enact a Dominion marriage law.

## PORT NELSON NOT FINALLY CHOSEN

### Hon. Mr. Cochrane Says Both Proposed Terminals Have Defects.

OTTAWA, Sept. 10.—(Special.)—There is absolutely no foundation for the despatch sent out from here some days ago to the effect that Hon. Frank Cochrane had decided upon Fort Nelson as the terminus of the Hudson Bay Railway.

## POLICE INQUIRY FARMERS' BANK

### Sept. 23 Fixed as Date of Hearing and Inspector Duncan Is Suspended Until Then.

Inspector Walter Duncan of the Toronto detective department, has been suspended until Sept. 23, when the investigation into the Farmers' Bank case and other cases will be opened. The enquiry will be public.

## FORCE OF PUBLIC OPINION WILL COMPEL A REDUCTION IN WESTERN RAILWAY RATES

### Christian Guardian, in Vigorous Pronouncement on Proposed C.P.R. Bond Issue, Says Government Will Be Loth to Refuse Consent, But in Order to Still Popular Clamor C.P.R. May Voluntarily Make Some Reduction in Its Western Rates.

The Christian Guardian makes the following vigorous pronouncement on the new C. P. R. bond issue: "Has the country any right to a voice in regard to the proposed issue of \$50,000,000 of Canadian Pacific Railway Co. bonds? This seems to be a pretty live question in Canadian circles just now, and opinions differ widely. On the one hand, it is urged that the C. P. R. has a perfect right to issue any amount of bonds which its management deems necessary, for the successful operation and extension of the road, and if it chooses to distribute this new stock, which has a market value of about \$270 per share, to its stockholders at \$170 per share, it has a perfect right to do so. But others point to the provisions of the Canadian Pacific Railway Act, which give to the Dominion Government the right to order a reduction of rates whenever the railway net revenue shall exceed ten per cent. upon the capital actually expended in the construction of the railway. The company actually expended in the construction of the railway, at the time of its last annual report it had \$10,000,000 invested in government securities, had \$34,000,000 cash on hand, had another \$34,000,000 still due as deferred payments on land already sold, and it still retains 11,000,000 acres of land worth considerably over \$50,000,000. It paid its shareholders 7 per cent. straight dividend last year and 3 1/2 per cent. as a dividend from sources other than railroading, principally from land sales. Is it any wonder that people are curious as to why it needs this extra trifle of \$50,000,000 bond issue, which at present market rates would be worth \$184,400,000, but which it will hand over to its stockholders for \$102,000,000, practically making them a present of some \$50,000,000 or \$50,000,000? And yet the government will be loth to refuse its consent to the bond issue, and probably equally loth to order a reduction in railway rates. However, it is possible that in order to still the popular clamor the C. P. R. may voluntarily make some reduction in its western rates. There seems to be no doubt that if it does not do so voluntarily at this time, it will shortly be compelled to do so by the force of a public opinion which has become so strong that no government shall be able to resist it."

## EVANGELICAL ALLIANCE TO ORGANIZE CAMPAIGN FOR A MARRIAGE LAW

### Representative Meeting of General Committee To Be Held in Toronto This Month To Plan Comprehensive Agitation for Change in British North America Act.

Arrangements are in progress for an early meeting of the Evangelical Alliance to prepare a plan on a Dominion scale for a campaign to secure an amendment to the British North America Act to give the federal parliament power to enact a Dominion marriage law.

## PORT NELSON NOT FINALLY CHOSEN

### Hon. Mr. Cochrane Says Both Proposed Terminals Have Defects.

OTTAWA, Sept. 10.—(Special.)—There is absolutely no foundation for the despatch sent out from here some days ago to the effect that Hon. Frank Cochrane had decided upon Fort Nelson as the terminus of the Hudson Bay Railway.

## POLICE INQUIRY FARMERS' BANK

### Sept. 23 Fixed as Date of Hearing and Inspector Duncan Is Suspended Until Then.

Inspector Walter Duncan of the Toronto detective department, has been suspended until Sept. 23, when the investigation into the Farmers' Bank case and other cases will be opened. The enquiry will be public.

## METHODIST BOOK ROOM TO BE MOVED

### New Building Will Be Erected on the Beverley Robinson Property, Now Owned by Methodist Board, and Wesley Building Will Be Sold and Vacated.

Another important office building is to be erected. It will be an eight-story structure, built by the Methodist Publication Board on half of the Beverley Robinson property. The whole of the Beverley Robinson site, on the corner of John, Queen, Richmond streets, was recently acquired by the Methodist board, which had a special meeting yesterday afternoon. It was decided to sell the present Wesley building on Richmond-st., opposite The World building, when a satisfactory offer for the extremely valuable site is received.

## DR. CHOWN GOES TO NEW COLLEGE

### Will Assume Such Duties as Usually Fall to the Lot of a Principal in Vancouver.

Rev. Dr. Chown has gone to Vancouver to "assume as far as possible such duties as usually fall to the lot of a principal in connection with Ryerson College. An exclusively announced in The World at the time of the Methodist General Conference special committee, the authorities of the new Methodist institution of learning at Vancouver, desired Dr. Chown to accept the principalship. In view of his position as one of the general superintendents, and president of the general conference, he declined. He will, however, devote himself in a large measure for a time to establishing the new college on a strong basis, and no principal will be appointed while he is thus engaged. Dr. Chown has not yet moved his official headquarters to Vancouver, but will do so shortly.

## ASK \$3,000,000 OFFER IS \$2,000

### Hydro Commission and William Hartly, ex-M.P., View Chats Falls From Different Angles.

OTTAWA, Sept. 10.—(Special.)—The Hydro-Electric Commission will not of course, pay anywhere like the \$3,000,000 that Messrs. Wm. Hartly, ex-M.P., of Kingston, and Daniel O'Connor of Ottawa, want for the Chats Falls power rights, needed by the City of Ottawa," said J. A. Ellis, M.L.A., Toronto, adding that "\$200 has been offered Mr. Hartly for what are known as the Hartly rights, namely the \$420 he paid for them in 1883, to the Ontario Government, with compound interest." It is ascertained that the Hydro-Electric Commission and city officials have like the fact that Mr. O'Connor has no right to the timber rights on the ground that when he got them from the Dominion Government last October, they really belonged to the Ontario Government.

## Fall Hats in Soft Felt

The fall hats for this season's wear are very wide in fashions and varied in color. The Dineen Company is showing some exclusive lines in felt and tweed designs in green of different shades, including moss green, smoke green, muslin green and green mixtures, also Oxford gray, sulphur green, tan, tile slate, ocean blue. The display includes soft hats made by Henry Heath of London, England, and also of Italy; also special lines by Dunlap of New York, for whom Dineen is sole Canadian agent. Remember the address, 140 Yonge st.

WEDNESDAY MORNING, SEPT. 11, '12

CITY CATTLE MARKET.

The Star suggests in its news columns last night that The World has not assisted the city cattle market, but has discriminated against it in its cattle reports. Ex-Ald. James McCausland is quoted as saying that on one day The World gave a column to the Union Stock Yards and a paragraph to the city market. If Mr. McCausland had gone a little further, he could have found days when the city got the column and the Union the paragraph. There were days when both got a column, and other days when a few paragraphs covered both. The news is given fully on all occasions.

The World for years suggested and advised and recommended and argued for the civic cattle market and an abattoir, as it has done about other civic questions, but the advice was unheeded and the usual aldermanic course was adopted of doing nothing till after the next election. Then the cattle interests got busy and did what the city should have done in the first place. Genuine supporters of public ownership lay it down as a first principle that the foundation of success is efficiency. When those responsible for a civic policy make inefficiency and conditions that impose inefficiency essential, they can only be regarded as opponents and not as friends of public ownership.

It is true that in some respects, the city market was handicapped. The legislature refused its requests on several occasions. There are not many genuine friends of public ownership in the legislature on either side of the house. But the city could have done much more than it did for its market. The offer of the Union Stock Yards was promptly turned down by the city. When competition is needed, the offer is the better. Two stores next door to each other maintain a better average than one big store on the front corner and one little store down a back street. If the city is afraid of the competition of the Union Stock Yards in West Toronto, the city has much more reason to fear that competition with an abattoir located in Tecumseh street.

If there are more facilities, better accommodation, more up-to-date and businesslike methods at the Union Stock Yards, the farmers will go there. If the city wants to compete, it must adopt as good or better methods. There is no sentiment in business, and the people's money in a public ownership proposal should be looked after quite as sharply as private capital in a trust. The city council never seems to have grasped this fundamental fact, and refuses to adopt business methods. The World today is for whatever policy will best work out the principle of public ownership in the great question of competition with the trust, and is open for suggestions as to how that may best be done in the civic cattle market and abattoir.

MAINE AND AFTER.

The result in Maine is a distinct setback to Woodrow Wilson and the Democratic party. In Vermont the Democrats polled less than one-third of the total vote of the state. Now in Maine they are driven back from territory captured by them in 1910. Soon they must realize that Wilson can only poll about the same vote as Bryan polled in 1908. In short, Wilson may have a plurality, but he is unlikely to have a majority either of the popular vote or of the electoral vote. It may be said that the vote of Maine has all along been conceded to Roosevelt, but none the less a Democratic victory in yesterday's contest was confidently anticipated.

We are told that the New Jersey governor will carry the country, but it is not the country which votes for president. Every state is entitled to representation in the electoral college, based upon the number of senators and representatives to which it is entitled in congress. To declare, in a general way, that Wilson will carry the country, is all well enough; it will be found a more difficult task to name the states which he will carry and to figure out the necessary majority of votes in the electoral college.

We are told that the Republican vote is divided between Taft and Roosevelt, while the Democratic vote is sold for Wilson. This is assuming a great deal, but even were the assumption, for the sake of argument, to be granted, it would by no means follow that Wilson would be elected. To put it in a concrete way, it might happen that of the fifteen million votes, or more, distributed among the three leading candidates in November,

Wilson would receive seven million, Roosevelt six million and Taft two million. But upon this vote would Wilson be elected? Obviously his popular plurality would be quite immaterial, unless it were so distributed throughout the various states as to ensure Mr. Wilson a majority in the electoral college.

The "division" of the Republican vote is not a factor in many parts of the country—in a few states Mr. Taft will poll nearly the party strength and carry the state unopposed by Roosevelt's popularity elsewhere. In other Republican states the party candidates for electors are out and out Roosevelt men, and will vote for him in the electoral college, altho upon the official ballot, in November, their names appear on the Republican ticket. In still other states the device of the "twin elector" will assure all votes cast for either Taft or Roosevelt being combined in the one column as against the votes cast in favor of Wilson.

Between the popular election on November 5 and the assembling of the electoral college a month later, it is more than likely Mr. Taft will designate his preference for Roosevelt as against Wilson and by withdrawing himself from the contest permit Republican and Progressive electors to act together. That combined they will command a majority of the votes in the electoral college is reasonably certain. Everything indicates that Roosevelt during the past ten days, he has scored great personal triumphs at every place he has visited on his journey from coast to coast. The people who throng to hear him are earnest men, more deeply moved by the abuses of government than English-speaking men have been since the days of Cromwell. In Ohio a great commonwealth has adopted a constitution founded upon the teachings of Theodore Roosevelt. In Vermont the great leader brought sixteen thousand voters of colonial and conservative type to accept the doctrine of the Progressive party, after a three days' tour thru the state. He will get the electoral vote of Maine, New York, Pennsylvania and Ohio, and of practically every western state except Utah. He will be elected.

ON TO MEXICO.

There is reason to believe that the United States will soon invade Mexico. The Associated Press despatch from Beverly, Mass., the summer capital, announcing that an ultimatum had been sent to the Madero Government, has not been denied, and would hardly have been published without the knowledge and consent of the president. From Washington comes the report that congress will be convened in extra session on Oct. 7, and that many army officers on staff duty at the capital have been ordered to rejoin their regiments.

Mr. Taft has no doubt been urged to intervene in Mexico by American citizens resident in that country, by the communities on both sides of the international line which have suffered from the guerrilla warfare and by a number of American and European firms with investments in Mexico. It was generally understood some time ago that the British Government and other foreign governments interested would make no objection to American intervention. Why then has Mr. Taft delayed and hesitated?

One reason for his inactivity undoubtedly has been the fear that the invasion of Mexico would be misconstrued by the Spanish-American countries of South America. So far as the United States can be said to have any definite, diplomatic policy, that policy has been in the direction of a unified continent, under the influence and protection of the United States. This policy is difficult to work out, principally because of the insuperable barrier of diverse languages. There is little communication between the United States and South America, and the Spanish-American republics, resentful of the Mexican and Spanish wars and the Panama grab, have been distrustful of the friendly advances made to them by the United States and of the Pan-Americanism of Blaine, Root, Knox and other secretaries of state. An attack upon Mexico would not soon be forgotten.

The war would no doubt be a long and costly one, but it would not be unpopular with the people of the United States. Contiguous territory lends itself easily to annexation and Mexico is one of the wealthiest countries in the world so far as natural resources are concerned. She has already had taken from her by her powerful neighbor the vast area now comprising the States of Texas, New Mexico, Arizona, Nevada and California.

WIDENING TERAULEY STREET.

The News incorrectly states editorially that the city has no power to purchase extra land when expropriation is necessary as in Terauley street. An act was passed by the last legislature giving this power. It is the refusal of the assessment department and the city council to exercise the power that keeps back such improvements as the extension of Terauley street. If the scheme were properly handled and all the real estate on the street purchased that is involved, it could be resold at a rate to recoup the city for the cost of the improvement.

ANTI-HYDRO NONSENSE.

The Brockville Times, falling in other means, resorts to "language" in order to impress its readers in favor of the

Gathering of Macleans

The Express of London, Eng., devotes considerable attention to the recent gathering of the Clan Maclean in the Island of Mull. Its Oban correspondent writes: "Memories of the stormiest periods in the history of the Highlands were recalled when, for the first time for more than 200 years, the members of the Clan Maclean gathered at Duart Castle, in the Island of Mull, and the chief of the clan took possession of the castle, which was surrendered in 1591. Duart, an ancient, weather-stained castle, standing on the rocky shores of the Sound of Mull, is the historic stronghold of the chief of the clan. If the stones of the grim old pile had voices they could relate thrilling stories of the clan's heroic deeds and bloodshed, but for the clan the day of its glory departed centuries ago, and no chief has stood within its walls as rightful owner since its reluctant surrender by Sir John Maclean in 1891.

In the ongoing generations time stole upon it relentlessly. It became roofless and deserted, a noble relic of a brave and turbulent past, but it has come to its own again. Its glory has returned and more, and it is in possession of the chief.

The Dream of His Life.

Not long ago Sir Fitzroy Maclean achieved the dream of his life when he was able to acquire the castle by purchase and to undertake its restoration and so make it the home of the clan.

Sir Fitzroy Maclean is the tenth baronet of his line, and at one time commanded the 13th Hussars. He is a Canadian veteran and was at Alma and Sebastopol.

To witness his triumphant return to his ancestral home Macleans gathered from all over the Highlands and from all parts of the world beside. The formal entry was marked by all the ceremonial of Highland tradition.

The "fiery cross" had gone forth not in war, but in peace, and its summons was nobly answered by the clansmen, from Canada, from New Zealand, from Australia, from Germany, and from Holland came the men and women of the homeland and see the chief in his castle and revive some of the glories of the race. In all over 400 Macleans mustered on the shore of the open ferry boats, and were pulled to the shore with long, heavy oars, two men at each. Pipers in kilts poured forth gladdening strains from the chanter and drone, and a long procession wound its way along the rising foreshore to the castle gates.

Here they halted, and a messenger asked the guests if his wish was that the chief know of your desire to see him? Storm of Welcomes.

A mighty shout of affirmation went up. Then the chieftain Maclean of Ardgour raised his staff and rapped loudly at the gate. The chief made answer in person with his lady, and a great storm of welcome greeted him.

It was a thrilling moment, for it brought into the twentieth century a snatch of life from the eighteenth before the black and irrefragable day of Culloden broke up the clans.

Soon the eager throng pressed in on Sir Fitzroy and Lady Maclean, Brockville proposes using its steam plant to keep down its peak-load, but if Brockville had no steam plant it would never have built one for that purpose. It would have spent its money, as Kingston has been advised, to spend its \$35,000, on a storage battery, which would be good with steam plant, with hydro, or with Seymour power.

RAILWAYS, NOT POSTOFFICE

Editor World: Your editorial of this morning on the efficiency of the British Postoffice may be true in all details. I have no wish to dispute it, and if it were only in force in this city it would be even more admirable, but when it takes 22 to 24 hours to get letters here from New York City, it is time something was shaken up. This delay is all on this side of the Niagara River, as nearly all of the legion of trains from New York to Buffalo carry mail and there is no need or sense in such delays. The postoffice is a public servant and it should be rendered of its true status when occasion requires.

L. A. Edwards, Toronto, Sept. 10, 1912.

LAKE OF BAYS.

One hundred and forty-five miles north of Toronto, on the line of the Grand Trunk Railway System, nestles Huntsville, a pretty little town nearly in the centre of what is known as the Lake of Bays district.

The region is replete with natural beauty and loveliness, and comprises some of the most beautiful water stretches and picturesque landscapes for which that vast portion of Northern Ontario is becoming so famous with the ever-increasing army of tourists, who each year are looking for fresh fields to explore. Very few people, even in Ontario, realize that Canada possesses such a magnificent pleasure ground as this.

The month of September in the Lake of Bays district is one of the most beautiful of the whole year, and splendid accommodation at the different resorts is offered at reasonable rates. Train leaving Toronto at 11:30 a.m. daily, except Sunday, carries first-class coaches and parlor-library-canteen car and parlor-library-canteen car, Toronto to Huntsville, where direct connection is made with steamer for all points on Lake of Bays.

Call at Grand Trunk Ticket Office, northwest corner King and Yonge streets (phone Main 4209), and ask for illustrated booklet telling you all about the Lake of Bays, or write A. E. Duff, P.O. Box 1, Union Station, Toronto.

A NOVELTY IN MUSEUMS.

An unique open-air folk museum is being established at Bunge, in the Belted Forest of Ontario, has a seventeenth century farmhouse as its nucleus. Primitive agricultural implements are shown in the farmyard. Some of the buildings contain representations of departing local industries; and one interesting place of record has models of the different forms of burial of the whole year, and a legend circle of eight stones are curious features.

Exploded a charge of dynamite and was seriously injured. An agreement upon the undisputed facts and circumstances given in evidence in this case, I am not prepared to accept Galzarino's statement that he did not put dynamite in the hole in question, altho it is possible that he is saying what he believes to be true, and on the contrary I think that the only reasonable conclusion to be reached is, and I find it as a fact, that Frank Galzarino did place dynamite in hole No. 2. The utmost damages for that plaintiff is entitled to by default. From this I deduct \$54 paid by defendant towards doctors' bills and hospital expenses. There will be judgment for plaintiff for \$146 and costs of action. Thirty days' stay.

DIRECTED WIRELESS TRANS. MISSION.

In the wireless experiments made with the device of Prof. Zehnder, of Berlin, telegrams have been not only transmitted several hundred miles without the use of an antenna, but the sending apparatus has been of very small size, and there has been some degree of control of the direction of transmission. An ordinary insulated wire supported on telegraph poles, with connections to the ground at each end is the substitute for the antenna, its total length being less than half of the wave length of the wireless radiations used. This conductor wire is excited by a vibratory circuit near its centre, and the waves tend to travel farthest in the direction of the wire.

YORK COUNTY AND SUBURBS

JAMES REPLIES TO ROAD CRITICS

Engineer Says Work on County Highways Is Being Done According to Specifications.

E. A. James, engineer for the Toronto and York County Good Roads Commission, has answered the criticisms that have been handed out of late about the alleged defective construction of the various highways running out of Toronto.

He said that the Kingston road has been completed and is perfect out to Scarborough Hill, with three miles good gravel road beyond. The Kennedy road, in the city limits to Kennedy crossing, is permanently completed and is in excellent shape.

Mr. James believed that the contractors were laying the roads according to specifications and that the criticism was unjustifiable. The commissioners, all of whom were giving their services gratis, were anxious to have the roadways built properly and were doing their best in this regard.

ROOT, WOODCOCK LAD TO REST

Prominent Citizen of Ward Seven, Who Died at Niagara, Was Buried Yesterday.

The funeral of one of West Toronto's oldest and most respected citizens took place yesterday afternoon when the remains of the late Robert Woodcock were carried to their last resting place at Prospect Cemetery. Mr. Woodcock was 75 years of age when he died at his home on Sunday, Sept. 8, at 8:30 a.m.

The first monthly convention of the Noble Order of the Sons of England, held at the club house of the High Park Avenue Methodist Church Tennis Club played the Ravine Club yesterday afternoon on a very successful and successful in defeating them by one point.

Mr. Cecil Townsend, who has been living for several years in British Columbia, is home on a visit to his family on West-end Avenue.

The regular monthly meeting of the Noble Order of the Sons of England, held at the club house of the High Park Avenue Methodist Church Tennis Club played the Ravine Club yesterday afternoon on a very successful and successful in defeating them by one point.

The annual harvest home festival of St. Patrick's Church Guild, will be held at Cherry Hill, near Cookville Station, today (Wednesday), afternoon and evening. The features are refreshments, games, races, orchestra and dancing.

Sir George Reid, high commissioner for Australia in London, England, who spent a few days in Toronto last week, left yesterday afternoon for Chicago, where he will be the guest of a number of clubs.

Babe Burkart of the T. R. & A. A. weighs 235 pounds this year and has been the champion of the same team. Charlie Gage will attend Toronto University again and will be playing with the Canadian champions about fall.

BOMB EXPLOSION KILLS 20. SALONIKI, European Turkey, Sept. 10.—(Can. Press.)—A bomb explosion occurred today in the market place at Dolran, which lies about 40 miles to the southwest of Saloniki. Twenty persons were killed and 30 injured. The latter were brought to the hospital here.

THIS GIFT

Presented by The Toronto World

Every home needs a Bible, and one of convenient form. To appreciate this great book it does not necessarily mean that one must be a church member or a religious man or woman, but the grand educational distribution undertaken by this paper makes it available for everyone, to be often referred to, and often read here and there as the most interesting of all books, as the book under whose teachings the development of civilization has been accomplished.

Bring in Your Free Certificates and Get This \$5.00 Illustrated Bible

Our big Bible Shipment has arrived and we are all ready to present to each of our readers one of these handsome Bibles— Illustrated as never before attempted

---in exchange for six free certificates of consecutive dates and the amount expense items as stated under the Illustrated Bible Educational Certificate printed daily on another page. It is possible to embellish a book without actually illustrating it. This Bible is not merely embellished; it is truly and accurately illustrated. Some Bibles contain pictures; but there is none in which the individual texts are actually illuminated, as though by the touch of inspiration. Comparison is impossible, for our new Bible stands alone—there is no other of its kind. Therefore, praise of this superb new book means no disparagement of the many excellent editions published heretofore.

600 Text Illustrations---16 Colored Plates

This Bible is not a mere picture book. It is a genuine high-art production, worthy of the Twentieth Century. In addition to the world-famed Tissot pictures in color, there are 600 illustrations, all exact copies of original paintings and drawings, which constitute the most wonderful gallery of Scriptural art in existence today.

Your Own Choice of These Books Magnificent Illustrated \$5 Edition Bible Amount Expense Items \$1.18

It matters not how many Bibles you may now have, you will also need this ILLUSTRATED BIBLE, which illuminates—i.e., "throws light upon"—the particular text selected for illustration, and is beyond doubt the most beautiful edition of the Bible ever published.

Will Churchill Join Unionists? Complete Party Voite Face Not Unlikely—Disintegration of Liberal Party Appears Imminent.

LONDON, Sept. 10.—(Special.)—From what are considered authoritative sources it has been learned that important developments are in the air in the cabinet and in the Liberal party. Since his transfer to the admiralty, Mr. Winston Churchill has become satisfied that the maintenance of maritime supremacy is even more urgent than he was earlier compelled to consider it. Indeed, he is now satisfied that much greater program of construction must be undertaken and the personnel of the navy increased to a much larger extent than has at first contemplated.

A Widening Breach. This conviction has tended still further to divide Mr. Winston Churchill from Mr. Lloyd George, who is every day finding himself more out of touch with his former friend and ally. The situation is decidedly embarrassing for Premier Asquith, whose endeavor it has been to maintain the solidarity not only of the coalition majority, but of the Liberal party itself.

SIR GEORGE REID LEAVES Australia's High Commissioner Was Much Impressed With Toronto.

Chicago Woman Killed by Auto

LEAMINGTON, Ont., Sept. 10.—(Special.)—Mrs. J. N. Taylor of Chicago was killed and her husband severely injured, their two children escaping almost unharmed, when their motor car overturned into a deep ditch, near Wheatley, about 1:30 p.m. today.

Bandmen Remembered. The board of directors of the Canadian National Exhibition will at the concert in Massey Hall tonight, show their appreciation of the Scots Guards' Band by presenting each member with a memento of his visit to Toronto.

Woman's Realm --- the Household, Fashions and Society

SOCIETY

The marriage takes place today at Mitchell of Miss Frances Jennifer Williams...

The engagement is announced of Miss Constance Turnbull, Hamilton, to Mr. John Greay.

Mrs. Cecil Ribton Crampton is here from Warren and spent the week-end at Niagara.

Mrs. W. B. Northrup, Belleville, who has been spending the week with Capt. and Mrs. Brooke, has returned to her home.

The Niagara Ladies' Golf Club played a match at St. Catharines yesterday.

Mr. and Mrs. F. Ed Beardmore, Montreal, are staying with Mr. George Beardmore at Chudleigh.

Mrs. Van Straubenzie is returning to St. John's, Que., in a few days.

Mr. H. C. Clarke, Vancouver, left Friday for Toronto, accompanied by his daughter, the Misses Graft and Zelma Clarke...

Miss Amy Gumpson spent the week-end at Niagara with Miss Scott.

Mr. and Mrs. Oscar McGaw are at the Queen's from Lakefield for a few days.

The marriage takes place today of Miss Pearl Vernon Logan to Mr. R. C. Hornbrook, North Bay.

Mr. Douglas Bowie, R.C.D., arrives from Petawawa on Saturday and will spend the week-end at Niagara.

Miss M. Isabel Kirkpatrick of Chelmsford, Essex, Eng., who has been spending the summer in Niagara, is at present the guest of Miss Hopkins, Mackay street, Ottawa, on her route to Toronto.

Mrs. Henry Garrett and Miss Mary Garrett have returned to Northampton, Mass., after spending the summer at Niagara-on-the-lake.

Miss Violet Edwards is over from Niagara, staying with Miss Eleanor Mackenzie.

The marriage takes place this afternoon in the Church of the Messiah of Miss Ruby Ker Somerville to Mr. Norman McIlwraith.

Major and Mrs. Clyde Caldwell are returning from Beverley street to a house on the Hill.

The marriage of Miss Nellie Rose Rabb to Mr. Wesley Saunders takes place today.

Mr. and Mrs. R. B. Cronin and Mr. Key Cronin have returned from England and are at their apartments at the Belgrave.

Mr. and Mrs. Matthew Down, Gladwin street, Ottawa, have returned from a trip to Halifax and Annapolis Royal, N.S., and will visit their sister, Mrs. Walter Belcher, West Medford, Mass., before returning.

Dr. Franklin Dawson, 320 Palmerston boulevard, has returned from England.

St. Vincent's Commandery, No. 170, St. Mary's Avenue, has received from John J. St. Mary's Hall, corner Adelaide and Bathurst streets, Toronto, Ontario, a cordial invitation to extend to all.

Dr. George W. and Mrs. Edgewood London, Eng., are on a visit to Mr. and Mrs. Edgewood, 106 Bedford row.

The demand for women in medicine has become so urgent and women have so clearly defined their attitude as physicians that opposition to their entering the medical profession has died a natural death...

In England the hostility to her finds expression only in such oblique and biased outbursts as that lately indulged in by Sir Almoth Wright, who was promptly silenced by physicians of wider outlook...

The Daily Hint From Paris

COLLARS IN BLACK AND WHITE

The collar on the figure is made of black satin, finished with a frill of white lace and trimmed with white pearl buttons.

The Nursery

Fearlessness in Children

Moral as well as physical courage is due to home influence. It is quite possible to make children untruthful by your method of "finding out" things.

It is a good plan to tell your children that in half-an-hour or at bed time, or some other time that is suitable, you are going to ask for a full account of some misdemeanor.

If you can gain your children's confidence to that degree where they will criticize and condemn themselves, you have advanced them far on the road to moral courage.

Keep your child truthful, white as small, helpless and fearful, and you need not fear his future in that respect.

All this training in courage tends to make children reliable and self-confident.

### MORE CAPACITY FOR THE NEW INTAKE

Upon the Advice of Commissioner Harris the Board of Control Decides to Lower the Pipe to Increase Supply 30 Million Gallons — Traffic Regulations.

Plans for increasing the capacity of the duplicate intake pipe by thirty million gallons a day, by lowering it six feet for a distance of 500 feet north of the shore tank, were submitted by Commissioner Harris to the board of control yesterday morning, and after a lengthy discussion, were approved of by the controllers. In consequence Commissioner Harris stated that he would instruct the contractors to commence work at once.

Controller Foster objected to the scheme because no estimate of the cost had been provided, and Controller Church claimed that the whole of the intake repair work was being bungled and lacked finality. He contended that Commissioner Harris had not made satisfactory reports to the board of control. The controller then proceeded to give his own idea of how the work should be carried on, much to the disgust of the other members of the board, who frequently appealed to the mayor to silence the controller.

Remove Restrictions. A petition was presented from the property owners on the west side of Avenue road, who asked to have the residential restrictions on the west side of that street, between McPherson ave. and Cottingham st., removed. The matter was sent to the officials for a report, but the board expressed themselves as favorable to the proposal.

The petition was signed by all but one of the property holders affected.

Traffic Regulations. The board passed Controller Hooker's motion, that the police commissioners be requested to look into the feasibility of requiring all vehicles to stop before passing the curb and a car which was not in motion. At present only automobiles are required to do this. The same controller advocated that the police devise a list of signals in order to facilitate the traffic on the downtown streets. If an automobile desired to turn the corner to the right there should be some means of communicating their intention to the policeman in charge of the traffic, who could signal to them when the way was clear. This scheme was also endorsed by the board.

Control Church again protested that the railways were breaking the law at the Bay and Yonge street crossings. He advocated that the police men should be provided with stop watches in order to obtain accurate evidence against them, and the board decided to refer the matter to the police commissioners.

### 28 Were Hurt in Wreck Near Erie

ERIE, Pa., Sept. 10.—(Can. Press.)—There were 28 persons seriously injured when eastbound train No. 4 of the Nickel Plate Road was derailed this afternoon at Fagan Road, near this city. There were probably a score of others, who sought relief at local hotels, who were not badly hurt.

### ASKED HOLIDAY IN ALL SCHOOLS

Deputation Proposed That the Deaths of Brock and Macdonnell Be Celebrated on October 14.

J. A. Macdonnell, K. C., of Glengarry, and Lt.-Col. D. M. Robertson, as a deputation from the County of Glengarry, accompanied by Mr. Claude Macdonnell, M. P., waited upon the Hon. Dr. Pyne, minister of education, yesterday to request that a day should be set aside as a public holiday for all the school children of the County of Glengarry by reason of the fact that the then member for the County of Glengarry, Lt.-Col. Macdonnell, who was also attorney-general of the province, was killed with Sir Isaac Brock at Queenston Heights on 13th of October, 1812.

They also suggested that the holiday should be extended to the school children throughout the Province of Ontario and that a sketch of the life of Sir Isaac Brock and what he accomplished for Canada, should be read by the teacher in each school to the pupils upon that day and that the flags should be displayed on the school houses throughout the province.

The minister of education received the deputation most cordially and promised to bring the matter immediately to the attention of the prime minister and his colleagues, expressing himself as being most favorably impressed with the suggestion made by the deputation from Glengarry. The deputation called the minister's attention to the fact that the 13th of October fell upon a Sunday and suggested that the following day, Monday, should be set apart for commemoration of the hundredth anniversary of the battle of Queenston Heights and the death of Sir Isaac Brock and Attorney-General Macdonnell.

The Turkish Government has granted the concession for the exploitation of the Miridite forests to the Bishop of the Mirdites for fifteen years. These immense forests of oak and other woods of about 3700 acres, which have never before been worked.

### Uses Only Cuticura Soap for Prize Baby

"I have always used Cuticura Soap and no other for my baby, and he has never had a sore of any kind. He does not even have a rash as most babies do. I feel that it is all owing to Cuticura Soap for he is fine and healthy, and when five months old won a prize in a baby contest. It makes my heart ache to go into so many homes and see the mother faced baby with the whole top of its head a solid mass of scurf, caused by the use of poor soap. I always recommend Cuticura, and also times out of ten the next time I see the mother she says 'Oh! I am so glad you told me of Cuticura.' (Signed) Mrs. G. A. Selby, Redondo Beach, Calif.

Although Cuticura Soap is sold by druggists and dealers everywhere, a postal order, Dept. 34, Boston, U.S.A., will secure a liberal sample, with 25-cent book on the care of skin, soap and hair.

### GET THIS PRESENT FOR YOUR MOTHER

She Cannot Use It to Furnish Fire for Cooking and Heating, But It Will Be Found Useful.

The story is told of a family that had a consultation some time before the holidays, with a view to getting dear old mother of the household a Christmas gift. Of course the mother was not taken into the conference, as the offering was to be made a surprise to her.

After some discussion of the question, one of the able-bodied, overgrown sons of the family proposed that inasmuch as winter was coming on, and considerable wood was required to keep all the fires going, it would be most appropriate to present "mother" with a new axe, as she had almost worn out the old one.

The world has a better suggestion for gift-giving. Get your mother this New Illustrated Bible on the plan announced in these columns from day to day. Father will appreciate such a gift, too, and the children should each have one. In fact, this particular Bible appeals to all, on account of its eye-catching pictures that make plain hundreds of obscure passages and illumine or throw light upon them, so that they permanently impress themselves upon the minds of readers.

Don't you think mother, as well as father and sister and brother, would appreciate such a gift? And anybody that will present "mother" with such a gift will not expect her to chide him.

Look for the certificate on another page and this is the best gift you can get this beautiful present. Act quickly, for such an offer cannot continue forever.

### DUCKS ARE PLENTIFUL.

Favorable Reports From Hunting Centres Along the Lines of the Canadian Northern Ontario Railway.

The duck hunter who appreciates a good shooting ground and a convenient way of getting there in comfort, will utilize the Canadian Northern Ontario line on his annual pilgrimage this fall.

Reports from the many well known duck hunting centres along the line of the Canadian Northern Ontario Railway since the opening of the season on Sept. 1, would indicate that the hunter has a prospect of a very successful season and one that should be taken advantage of at an early date.

Hartley's Bay and Key Harbor on the Georgian Bay are well known feeding grounds of the numerous varieties of Canadian waterfowl. So also are Weller's Bay, West Lake and Proletaria in the vicinity of the Bay of Quinte.

The solid vestibuled train service of the Canadian Northern Ontario Railway gives direct access to all of these hunting centres as well as making direct connection for all other points located along the lines of the Central Ontario Railway.

If you contemplate an expedition, apply to the ticket offices, corner King and Toronto streets, Main 5178, or to the ticket office, Union Station, Main 5600, where any information you may require will be cheerfully given.

### USE OF ALUMINUM FOR DECORATIVE PURPOSES.

The claims of sheet aluminum for decorative work by spinning, pressing and like shaping processes have been advanced in England.

The material has decided advantage in lightness and cheapness, and a square foot of sheet aluminum of ordinary thickness weighs 11 pounds and costs twenty-eight cents, while a sheet of the same size and thickness of copper weighs 3.7 pounds and costs sixty-seven cents, and one of brass weighs 5.55 pounds and costs sixty-three cents.

Using the hottest sheets, with w.o.l or metal chucks, the aluminum is easily spun on the lathe at speeds up to 3000 feet per minute.

The work may be polished by the usual brass or German silver methods; it may be satin-finished by a fine steel scratch-brush at high speeds; and it may be frosted by dipping for a few seconds in hot caustic soda solution, then washing, and plunging in nitric acid.

Seeing that the people are rather slow in discerning their queues, says The Pekin Daily News, Chen Chao-chang, Tutub of Kinta, Manchuria, with the advice of the local gentry, has decided to open a government barber shop in the city, where queues are out free of charge.

### LABOR IN CANADA OPPOSED TOUR

Executive Committee Expresses Sympathy With Foreign Toilers—Hon. Mr. Crothers Advises Ministers.

GUELPH, Sept. 10.—(Can. Press.)—At the Trades and Labor Congress this morning annual reports were read by Secretary James Simpson. The executive committee's report covered a wide field from a scorching of the Lemieux or Industrial Disputes Act to a denunciation of war scares. The idea was put forward that as the capitalists of the world cause all the wars they should be held responsible for them. Sympathy with the industrial workers in Germany, France, Italy and other countries, "whom we have no quarrel," was expressed.

"We have no quarrel with the orientals," the report stated, "except that being an entirely different race and unassimilable we demand that they seek their own industrial salvation in their own cause without being used to lower the standard of living in Canada."

The condition of the workers in the steel works and mines of Nova Scotia, it was stated, are of such a nature as to call for immediate action. It was urged that a royal commission be asked to make an investigation.

Old Age Pensions. Touching on the old age pension question, the executive committee stated that a special committee be appointed to prepare a brief statement of the position of the congress and a basis for legislation.

Referring to workmen's compensation, "things are shaping themselves," the report continued, "so that it is a real good piece of legislation is on its way in Ontario, very late, it is true, but nevertheless acceptable when it arrives."

The report took a sting at Arthur Hawkes, the new apostle of immigration who had studied the industrial situation in Canada from a car window while making a flight from coast to coast.

Plea for Women. Mrs. Henderson, executive officer of the juvenile court at Montreal, addressed the convention on the need of a special committee to investigate the need of legislation for mothers, who thru poverty and lack of homes, are driven to take up their children virtually brought up in the factories. Desperation and widowhood, she said, are the causes to take up the problem of making their own living. Mrs. Henderson gave the names of many mothers who have great respect, he believed could do much to remedy this evil.

Most Favored in Canada. Hon. W. Crothers, minister of labor, made a very snappy speech. He said it was easy to see the wrong suffered by the toiler. It was not so easy to point out the remedy. He thought conditions in Canada were a deal better than elsewhere but they could still be improved. He gave the trades unions their due measure of credit for their fight for better conditions. Even the ministers of the gospel are after a minimum wage scale and a shorter day. "They have a great social lion, and they insist that the laborer is worthy of his hire."

He believed that the toiler was entitled to a wage that would maintain him decently and enable him to brown powder on his hands and being thousands of cases where men were giving their labor for an unfair return. "I have a great respect for the great respect, he believed could do much to remedy this evil."

What does it avail a man who is starving to hear a sermon ever so eloquent in the station of the soul?" he asked amid cheers.

Mr. Hawkes Saw It. Arthur Hawkes said he had seen the attack on his immigration report by the trades and Labor Congress last night.

"Yes," he said, "and as soon as I saw it I wrote up the report of the congress for two copies of the executive committee's report as I wish to give it the widest possible publicity."

Co-Operative Farms for Women. The desirability of establishing co-operative women's farms in Great Britain has been seriously considered, and should the present plans mature, the first experimental colony will be located on a farm of 200 acres in Sussex, England.

The breeding and care of horses, cows, sheep, pigs, poultry and rabbits, the cultivation of fruit, vegetables and flowers, and the raising of ordinary farm crops will be undertaken. It is believed that, ready-made markets will be found for the products of such a farm, as statistics show that about 317,000 is annually paid in the United Kingdom for some imported rabbits and nearly 70,000,000 for butter, consigned from Denmark, while the value of imported bacon and pork approximates \$40,000,000 annually. In addition, millions of dollars are expended each year for eggs, vegetables, fruit, etc., received from abroad.

The movement has this twofold purpose—to provide young women who are desirous of emigrating to any of the English overseas possessions with thorough training in all branches of farming, and also with an adequate knowledge of domestic economy, and to furnish congenial employment in the United Kingdom to members of that increasing body of women who feel a desire to cultivate the land but lack the experience and the facilities for doing so.

It will doubtless prove to be not one of the least interesting of the many experiments which are being made to induce a greater number of the English people to turn away from the crowded employments of the cities to the practice of agriculture.

### THE CHEMISTRY OF GREAT PRESSURE.

The work of the modern chemist has been enriched by the discovery of new substances by the formation of artificial environments. He gets new results by laboring in new conditions.

With the electric furnace he has given us a chemistry of heat; with liquid air, a chemistry of cold; with liquid air pumps, a chemistry of vacuum; and with the use of the vacuum chamber, he has devised apparatus introducing a chemistry of compression.

In this new apparatus pressures of more than 100 atmospheres can be maintained for weeks at a time, with temperatures ranging up to 300 degrees or 400 degrees C. This is made possible by the use of a certain number of concentric packing being employed, and it opens up to chemical effort.

### OLD GUNPOWDER AS A FERTILIZER.

There being so many changes in the fashion of gunpowder, it has come about says The Boston Transcript, that the navy department has a lot of old brown powder on its hands and being unable to persuade anybody to buy it or use it, it is raising crops from it, to its own surprise, as a fertilizer.

The brown powder went out of fashion because it made too much smoke, and it went when smokeless powder was invented. The old powder contained about eighty per cent. potassium nitrate, consisting of potash and nitrogen, both of which are largely constituents in fertilizers.

Not being able to dispose of the powder in any way, the navy authorities at Indian Head, the navy's proving grounds, wrote to the agricultural department asking if the department would not please use the powder as a fertilizer, but Professors Whitney and Cameron said that while there were no theoretical reasons why the powder should not make a good fertilizer, they would rather have some one else use it.

Dr. True, of the experiment stations, also refused the powder, saying he was not raising crops that way. The Indian Head authorities, however, were not taken back by these refusals to convert an implement of war into an agricultural use, so they poured some water on the grounds upon the powder and worked the concoction upon the truck patch on the proving grounds, and they say that the result has been beyond expectation. The garden truck was the best imaginable.

### TEMPERANCE WORK AMONG THE BRITISH SOLDIERS IN INDIA

At a meeting of the Church of England Temperance Society in London recently, General Lawson, of the British army, made a speech in which he gave some interesting facts in regard to the growth of temperance in the army stationed in India. He explained that the climate of India was "bad" and that there were a great many temptations for men to drink; also that in that hot climate the effects of drink were much more harmful than in England.

Twenty-five years ago a clergyman started the idea of temperance association in India, and this work, according to the Church Temperance Chronicle's report of General Lawson's address, had surprising results. There were very few teetotalers in the old days, but now nearly half the army in India are teetotalers.

In 1889, 1174 soldiers died in India and in 1910 only 310 died. It was the speaker thought, due to the temperance movement. In 1889 no less than 1800 men were invalidated from India; in 1910 the number was only 400. In 1892 there were only 1300 total abstainers in India; in 1902 there were 32,000.

Fines for drunkenness in the army in 1904 amounted to \$120,000. In 1910 it amounted to only \$85,000. "Good conduct medals were issued to soldiers who had served a certain number of years and had no bad entries in their defaulters' sheets, and had not been drunk. The number of good conduct medals in 1904 was 2200 and in 1910, it was 4850, which showed again that the temperance movement in the army was having its effect.

Remember Its Quality  
Phone M4155

An Excellent Plan.  
"I see," said Mrs. De Jones, while Mrs. Van Tyle was calling, "that you have a Chinese chauffeur. Do you find him satisfactory?"  
"He's perfectly fine," said Mrs. Van Tyle. "To begin with, his yellow complexion is such that at the end of a long, dusty ride he doesn't show any spots, and then when I am out in my limousine I have his pig-tail stuck thru a little hole in the plate-glass window and I use it as a sort of bell-rope to tell him where to stop."

# Real Estate and Building--News and Opportunities

## Government House Work Progressing

Masonry work on the new government house in Chiswick Park is now completed to the first story above the ground floor. The stone already placed gives a good indication of what a fine structure the new residence will be when completed.

Carved stonework in plenty has already made its appearance, especially at the main entrance, which faces south. Steel beams and girders are placed as high as the third story in the main portion of the building. The whole structure will be highly fire-proofed. The iron brick yards, in the valley below, are supplying the lining of fireproofing tiles.

A wide sweeping driveway, curving from west and southward, is being leveled and in other ways the surroundings are being artificially bettered--the natural beauty of the forested ravines and slopes about the new official residence is magnificent.

## Railways Are Razing Houses Along Viaduct

Many Fine Residences Marked for Demolishment--Station Site Still Unclear.

Contractors for the railway viaduct work at the north end tracks are now pulling down a dozen houses on McPherson and Marlboro avenues, close to Avenue road. Dozens more are marked for demolition and these include many eight and ten-roomed solid brick residences.

No start has yet been made on the clearing of the site of the new joint station, which comes south within 100 feet of Price street.

Two scores of piles have been placed just east of Avenue road by the contractors, who are ready to continue this eastward. Tracks will be built on the piling and dirt trains operated after the concrete embankment work is finished.

## Real Estate Situation Was Never Better

This fair, sunny weather, which promises to last for several days, is going to make up for a backward spring by stimulating real estate interest.

The situation now is better than ever. It is certain that the western crop will at least be an average one. Ontario's farms were never richer than after this summer of almost generally ideal conditions. These warm days will add hundreds of thousands of dollars to the value of the provincial crop. And taking it from coast to coast, the country's prospects were never brighter. Most of this opportunity will center right here in Toronto, where there is now beginning extensive and costly railway improvements. The local real estate market is bound to show a good brisk season of investment buying.

## Making Speed Record For Sale Of Small Lots

Dovercourt Land Company's Hampstead Park Has Been Wonderfully Successful--Nearly Sold Out.

Out of 847 lots, 724 sold, and this in a little over three months.

Such is the rather remarkable sale by the Dovercourt Land, Building and Savings Co. of their Hampstead Park subdivision on Dufferin street, a quarter mile north of Eglinton avenue, in a district rapidly filling with artesian homes. These lots were bought for the most part by workmen, and already several little homes dot the property. The lots have sold for \$10 to \$15 a foot; 25 feet wide or more, and up to 200 feet deep.

The 724 are completed sales, offers are in, but all formalities not closed for many of the 118 remaining.

The Hampstead sale has claimed only a small part of the company's attention this season, heavy sales going thru constantly for Lawrence Park and Globe Manor, the two highest North Toronto properties. The demand for Lawrence Park, the only subdivision of its kind in Toronto, has more than justified W. S. Dipnick's faith and courage in the successful outcome of which many seemed to radical a step in real estate development.

"While business never really slowed up this summer, I must say that the last few days we have become exceedingly busy. All our salesmen are certain of a record breaking fall. Certainly the prospects were never better for good, sound business," said Robert Walton, secretary of the Dovercourt Co., yesterday.

The Hampstead sale that reselling would begin in Hampstead in about a month.

## Trade Paper Publishers Buy Building Site

Hugh C. Maclean Company Purchase 45.7 Feet at 116-120 Bond Street for \$22,000.

As a site for their new building which they will erect in the near future, Hugh C. Maclean, Limited, trade paper publishers, have purchased the properties at 116 and 120 Bond street.

The site has a frontage of 46 feet 7 inches, and a depth of 116 feet to a lane. The vendors, for whom Gilpin & Co. acted, were Rose Crawford and J. A. Marks. Limited, the latter conducted negotiations for the Maclean Company.

The price was \$22,000.

## Lake Simcoe Sale

F. H. Ross & Co. has sold the "Lady Edgar Estate" at Roach's Point, Lake Simcoe, comprising a fourteen roomed residence and ten acres of developed grounds, to Geo. H. Fensom, of the Otis-Fensom Elevator Co. for \$25,000.

The property makes one of the most beautiful summer homes on Lake Simcoe.

## SUGAR CONSUMPTION IN THE UNITED STATES.

The best proof that the United States is capable of growing all the sugar it needs is found in the fact that already half the entire national supply is produced under the American flag, writes Truman G. Palmer in The National Magazine. Of this, in turn, half is grown in insular possessions of the nation, Hawaii, Porto Rico and the Philippines, while the other half is produced in what may be called continental United States.

Last year the production of sugar in the various states was nearly twenty pounds for every man, woman and child in the country.

This is a great amount of sugar. It would be sufficient to supply the entire demand of the country if we were no more than a small nation, and it can do the people of Italy or Spain today, or than we ate a few years ago. But Americans are greater consumers of sugar than are the people of any other nationality, with a single exception.

As a nation we use vastly more sugar than any other people except our British cousins. It takes more than 7,000,000,000 pounds of sugar to satisfy the American sweet tooth, or nearly one-fifth of the production of the entire world. This means that the average amount used by each person, man, woman and child, from one end of the country to the other, is about eighty pounds a year.

The per capita consumption in Great Britain is about a pound more than this.

## MORE CABINET RUMORS

Laverne to Support Borden and P. letter to Retire, "The Star".

MONTREAL, Sept. 10--The Herald (Liberal) prints a rumor that Armand Laverne will enter federal politics as a supporter of Premier Borden, and will probably contest L'Islet County. It is reported, says the paper, that Dr. Paquet, who represents L'Islet, will support the Hon. L. P. Pelletier, the postmaster general, who will resign his portfolio on account of ill-health.

The Conservative Government at Ottawa, it is said, hopes to line up the Quebec vote behind Mr. Laverne in much the same way as the French-Canadian supporters of Sir George Cartier and incidentally the Macdonald regime, and that a cabinet position will be found for him in the near future," says The Herald.

## IN OTHER LANDS THAN OURS.

Badger has opened bids for installing an electric lighting plant and the army post is considering a telephone system for the whole city.

No snakes or poisonous reptiles of any kind have been found on the islands of Hawaii, and it is against the law to introduce them. Not even mosquitoes were found there till brought by a ship from Mexico about 100 years ago.

It is a very rare case of a child being born in a tubercular family, and completely cured. I take great pleasure in recommending your valuable remedy to my friends. All druggists sell Putnam's Kidney Extractor in 25c bottles.

## OLD SOLDIER SENT TO JAIL

John McDonald, Veteran of Many Battles, Sentenced as a Vagrant by Magistrate Ellis.

Five medals, fourteen clasps--all gained thru valor on hard fought battlefields, and the star of an ugly wound in the side, did not keep Magistrate Peter Ellis from handing out to John McDonald, onetime private in the Highland Light Infantry, a 30 days' sentence on a charge of vagrancy in the police court yesterday.

The morality department on Monday afternoon and asked officials there if he could not be sent to the home for incurable lunatics, said Robert Walton, secretary of the Dovercourt Co., yesterday.

He was a son of Dr. J. A. MacMahon, a prominent physician of this city.

## SCHOOL BOY DROWNED

Harold MacMahon Swept to Death in Welland Canal.

ST. CATHARINES, Sept. 10--(Special.)--A sad drowning accident occurred about 5.30 o'clock this afternoon in which Harold MacMahon, aged about 16 years, lost his life in the old Welland Canal, a short distance from the Welland Vale Axe Factory.

Along with a number of schoolmates he had gone swimming in the canal after leaving the collegiate institute. The spot where they went swimming was just below the flume which leads to the factory, and the current is very swift. The boy started to swim across the channel which leads behind the factory, and when about half-way across his strength gave out. Battling against the strong current, he was unable to reach the shore, was carried down stream a short distance and sank. His body has not been recovered.

He was a son of Dr. J. A. MacMahon, a prominent physician of this city.

## FARTHEST NORTH LINE

C. N. R. Road From Edmonton to Athabasca Landing Completed.

The new line of the C. N. R. connecting Edmonton with Athabasca Landing is to be put into operation at once and a three-train-a-week passenger service inaugurated. Trains are to run from Edmonton north on Tuesdays, Thursdays and Saturdays, and south from Athabasca Landing on Sundays, Wednesdays and Fridays.

The famous Victoria Falls of the Zambesi River in Rhodesia, it is estimated, could be made to yield \$5,000,000 horsepower, or just about the same amount as all Europe's water courses.

## PILES

Dr. Chase's Ointment will relieve you at once and as certainly cure you. 50c a box. All dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample boxes free if you mention this paper and enclose 2c stamp to pay postage.

### WORK TO START ON TECH. SCHOOL

Plans Are Ready and Operations on Million Dollar Building Will Commence This Fall.

Work on the new million dollar technical school is to be begun this fall. Principal McKay had a huge roll of plans of the school to use in explaining certain projected changes, but the industrial advising committee failed to have a quorum.

A letter has been received from the architects, Ross and McFarlane, Toronto, in which they say: "We are several weeks behind in making drawings and specifications as to alternative plans for brick and stone for the exterior. We expect to have everything ready to begin work before the close of the year."

# The Robert Simpson Company, Limited

## Observant Young Men

have come to watch the Simpson Store for the earliest hints in the newer wearing apparel. Its styles are never freaks, nor its materials doubtful in authority. Simpson clothes are good clothes, made for business men, young men, professional men, men of all descriptions; but always—*Simpson prices are right.* The big bargain for Thursday is a downright value in

## Men's Suits at \$9.45

Were \$16.50 to \$20

Thursday morning we put on sale 250 high-grade suits that are worth in the regular way \$16.50, \$18.00, \$18.50 and \$20.00. In this lot are suits made from fine West of England worsteds, English and Scotch tweeds, in all the new and leading autumn shades and patterns. They are sample suits, broken lines secured from leading manufacturers, and different broken lines from Exhibition sales. Fine mohair linings. Tailored by experts. **9.45**  
Sale price

## Boys' Two-Piece Suits

The popular "Tearabout" for small and big boys, made from heavy weight brown tweed. This suit we guarantee, as the coats have "indestructible" fronts and pockets, thoroughly reinforced throughout. The pants have indestructible pockets and linings, double taped seams, patent elastic waist band; handy, practical buckle and full linings. The style is this season's very newest and tailored by the best workmen. Thursday special, 8 to 17 years **\$6.75**

## Boys' Russian Suits

Made from a fine quality English worsted cloth, single-breast style, to button on shoulder, stand collar and trimmed with black braid, fancy ornament on front of coat and bloomer pants. Thursday, sizes 2½ to 6 years **\$4.75**

## Your Eyes

need to be examined from time to time, particularly if you have some sensation of eye strain or headache. The examination costs nothing, and advice will be freely given by our Optical Experts.

--Second Floor--Yonge St. Side.

## Men's Fine Sox

A clearing of regular stock of a great variety. Every wanted kind; plain colors and fancy patterns; all are perfect and fresh new stock; all sizes. Regularly 25c pair. Thursday, pair **.10**

## Men's Gray Suede Gloves 59c Pair

Perfect in finish, nice weight, correct shades; all sizes. Regularly \$1.25 pair, Thursday **.59**

## Fall Hats for Men

Fashion seems to favor soft hats in the rough textures, with greater appreciation than ever this fall. Look up and down and through and through, you will find nothing better in style or quality than we are offering. Colors and mixtures in profusion, and in shapes that are correct as designed, or can be worn as you like it. Values that save you considerable, at \$1.00, \$1.50 and **\$2.00**

Men's and Boys' Caps, in very complete assortment of newest fall tweeds and worsteds. Colors of gray, fawn, brown, bronze, etc., also fine navy and black twill serges and Vicunas, silk lined and well finished. 75c caps, Thursday **.50**

## Fall Is Carpet Time

Here are some of our new offerings:

### Beautiful Seamless Drawing Room Rugs

Hand-made effects are obtainable in our new Salon Squares, which are seamless, deep rich pile Axminsters, in delicate shades of rose, green and blue, with a delightful combination of grays and tans in the border; also medallion centres. Specially priced for Thursday's selling:

- 9.0 x 10.6, special price, \$43.75
- 9.0 x 12.0, special price, 50.00
- 10.6 x 13.6, special price, 65.00

### Extra Quality Imported Scotch Art Wool Rugs

In delightful color combinations. Many of these are so closely woven and so thick as to be quite suitable for living-rooms, parlors, etc., and being woven all in one piece, make a very handsome yet moderately priced rug. There are the lighter and more delicate colors, for bedrooms, in the daintiest blues, grays, pinks and greens, and a good variety of prices in all sizes:

- 7.6 x 9.0 ..... \$6.35, \$8.25, \$15.25
- 9.0 x 9.0 ..... \$7.65, \$10.75, \$15.75, \$18.25
- 9.0 x 10.6 ..... \$8.95, \$13.75, \$17.25, \$21.35
- 9.0 x 12.0 ..... \$10.25, \$13.25, \$14.35, \$19.75

### In Very Inexpensive Art Bedroom Wool Rugs

We have a big range in two qualities that will give good satisfaction. Self greens, blue and white, soft green and tan chintz, red and tan chintz, in well blended colors:

- 7.6 x 9.0, Thursday special prices ..... \$3.85 and \$5.50
- 9.0 x 9.0, Thursday special prices ..... \$4.50 and \$6.75
- 9.0 x 10.6, Thursday special prices ..... \$5.25 and \$7.75
- 9.0 x 12.0, Thursday special prices ..... \$6.15 and \$9.00
