KING CONFERS ORDER OF MERIT ON PREMIER FOR WAR SERVICES

Regrets It Is Not Possible to Grant Any Title to Mark Nation's Appreciation.

London, August 6 .- King George today conferred upon Premier David Lloyd George the Order of Merit as a sign of his appreciation of Mr. Lloyd George's war services.

In a letter to the premier dated Buckingham Palace, August 5, announcing the award, the King says:

"My Dear Prime Minister: Honors and rewards to officers of the army, navy and air force having been submitted to parliament, I feel that my people will share with me regret that it is not possible to express the

nation's grateful recognition of the persistent services rendered by the prime minister, both in carrying the war to a victorious end, and in securing an honorable peace. To rectify somewhat this omission and personally to mark my high appreciation of these services, it gives me great pleasure to confer upon you the Order of Merit. "Believe me. yours very sincerely,

The order of merit was established by the late King Edward in 1902 and is designed as a special distinction for men eminent in any department military and civilian. The order is limited in number to 24. The badge for civilians is a cross of red and blue enamel bearing on its inner portion the words "For Merit" in gold letters within a laurel wreath, the reverse containing the royal cypher.

Sitting Members Will Say Nothing in Favor of Convention.

There was a supreme air of mystery over a delegation of some twenty Conservatives who waited upon Sir William Hearst at parliament buildings yesterday morning. There were no members of the Toronto ridings present-"just ordinary individuals," as one of the deputation remarked. Neither was the delegation representative of any particular organization in the city, so far as could be ascertained. It did, however, leak out that the important question of the referendum they and the date for the provincial elections were among the things discussed To Keep Clear of Politics.

It also became known that some of the delegates were prospective candidates for legislative honors. They took the ground that they desired the referendum to be entirely dissociated from politics, as that course might obviate them being asked awkward questions. If the referendum went before the electors separately, matters would, they argued, be materially simplified from a purely political point of view. Thus they pleaded for separate dates.

# CREDITORS ACCEPT LIQUIDATOR'S PLAN

But Big Meeting Says Hard Things About Company's Directors.

There were some seven hundred creditors of the Standard Reliance Mortgage Corporation present in Massey Hall yesterday afternoon to listen to a report on the affairs of the defunct institution from G. T. Clarkson and to consider a scheme for the reconstruction of the company. When J. A. C. Cameron, the master-in-chambers at Osgoode Hall, master-in-chambers at Osgoode Hall, who was in the chair, was opening the meeting it looked for a short time as if the proceedings would be punctuated by lively times. Amidst a storm of applause a creditor at the rear of the hall asked Mr. Cameron what right he had to sit in the chair and who had asked him to preside at the meeting?

meeting?

Mr. Cameron was ready with his reply and said. "I was appointed official referee by the courts and nothing can be done without my sanction. My position as chairman is unquestionable. When you appoint a permanent liquidator I will retire in his favor." He then called upon Mr. Clarkson to make his financial statement and the meeting settled down Clarkson to make his financial statement and the meeting settled down to business and from then onward all was harmony. When Mr. Clarkson took the meeting in hand he managed it in a masterly manner and the shareholders little realized they were being directed by a master mind: For nearly eighty minutes the official liquidator dilated on the annual statements of the Reliance Loan Company, the Standard Loan, The Dovercourt Land Company and the Standard Reliance corporation. He traced the loss of some million of dollars which went in the Grand Valley Hailroad and other ventures. Large losses, he said, had also been made in North Toronto real estate and also in downtown speculations. He reviewed the statement of the Standard from 1897 to 1912. In 1909, he said, very heavy advances were made to the Grand Valley Railroad and by 1910 the total advance was \$588,000 and all to the name of W. S. Dinnick, In conclusion, he reviewed the losses made by the corporation Dinnick. In conclusion, he reviewed the losses made by the corporation previous to its amalgamation with the creditor. The voting for the leader w'll begin at half bast 3 o'clock tomorrow afternoon. This morning the tide was flowing strongly toward Hon. W. S. Fielding, with Hon. George P. Graham apparently a close second and Hon. Mackenzie King a poor third. This afternoon, however, the French-Canadian delegates held a secret caucus and are said to have deglared themselves to be unalterably opposed to Mr. Fielding. Even the masterful Sir Lomer Gouin could not keep them in hand, and tonight they seized the first opportunity to declare their unmistakable preference for Hon. Mackenzie King. Mr. King's appearance upon the platform to move a labor resolution was the long-tlocked-for opportunity, and it is now conceded that he will have an overwhelming support from the province of Quebec. If Ontario will join hands with Quebec Mackenzie King will be nominated on the first ballot.

The adian Federation of Labor installed the following officers for the current half year: President, T. M. Orton; dance was given by the Victory girls secretary-treasurer, Alex. Bailey; vicepresident, F. Hodson, and secretary, M. F. Tumpayne. Grand Secretar, Clay installed the officials. The president in the course of his inaugural address augured unusual success of the council, and pointed with pride to the organization of the following new unions within the past few months: Blanche Irene Lenehan, aged five Piano action workers, 700; bread and cake salesmen, 600; biscuit workers, 400; confectionery workers, 300;; organ and phonograph workers, 700; bakers, 600, and gas workers, 230, making a grand total of 3,530 members. There were easily another thousand members side the province. Then came the fam-

# EDUCATION DEPARTMENT **GREATLY STRENGTHENED**

Experts in Technical and Professional Training Are Appointed.

Several important appointments were announced yesterday by Hon. Dr. Cody, minister of education. The position of assistant director of industrial and technical education has been filled by the appointment of Dr. James C. Miller, whose experience and qualifications highly commend him for

Dr. Miller was born in Wellington county, Omtario, received his professional education in Saskatchewan, and has had a long and distinguished career in the western provinces as instructor in manual art courses, industrial instruction in night schools and has been foremost in promoting industrial and technical education in the west. He received his doctor's degree from Columbia University and has taken a number of courses in eachers' college there.

pachers' college there.

Dr. Miller was appointed provincial director of technical education in Alberta and was loaned by the province last year to the federal board for vocational education at Washington to act as supervisor of their work thruout the United States. His desire to return to his own country has led him to accept Dr. Cody's offer in spite of the better financial inducements of-fered him to remain at Washington. He will take up his duties as assist-ant director to Dr. F. W. Merchant. provincial director of technical education, in September.

Director of Training.

The position of director of professional training for the province has been filled by the appointment of Dr. Sydney Morgan, principal of the Hamilton Normal School and one of the most experienced professional teachers.

N. B. Gash, K.C., representing the Dominion government, appeared before the board of control yesterday advocated and the province.

Dr. Morgan, whose academic and professional qualifications are of high standing, has been principal of the Normal School in Hamilton since its establishment in 1908. He is well known for his scholarship and grasp of professional education. Among his writings and studies on educational subjects is a treatise on the Montessori system, issued by the department some years ago.

The successor of Dr. Morgan as principal of the Hamilton Normal School is Mr. F. F. Macpherson, who has been departmental master in the Hamilton providing for the removal on thirty days' notice of the tunnel to be built under Bay street between the new Union Station and postal station. Another objection was to the clause asking that the government should pay an area rental.

The mayor's attitude was that the government "must pay for the use of our streets and agree to remove any underground obstruction when the city so requires."

R. J. Fleming stated that the Toronto Power Company owns the land, and allowed the R. A. F. to erect the building on it. "We have been asked to take over the building and let it for a garage," said Mr. Fleming. "We are prepared to tear it down and willing to bear the cost if we have to, but if we do, then we shall start to build again tomorrow. We have bought the building and assumed the responsibility of the R. A. F."

Cont. Maguire: "You assumed the obligation of the R. A. F. and we expect you to live up to it."

Mr. Fleming: "We will do it by hiving up to the bylaw."

"What will you do with it?"

"I don't know yet. But. if we can get a permit, we may rent it for a garage. Or we may use it for light manufacturing, or storage, or we might even put beds in it for Exhibition visitors." (Laughter).

Cont. Cameron: "The north side of Dupont street is being used more and more for building purposes. The permif was granted because the fullding was to be of wooden construction. The people up there had no say as to what sort of building could be erected, as the street is not in a restricted area. It is a pity to insist on the building being torn down if the power company has the right, and intends to erect it again."

Reasons based on actual facts make Texas Producing & Refining Company the best medium-priced investment offered.

The Company owns six drilling rigs—40,000 acres of the best leases in North Central Texas, for the most part in proven territory—a 4,000-barrel refinery—storage for 250,000 barrels of oil-39 producing wells, fully equipped with tanks and pipe lines.

The Company has a production of 3,000 barrels a day-earnings of \$216,000 a month (which is more than 50% on entire capitalization)—twelve new wells drilling, six of which are offsets to big producers—a directorate of the most capable and experienced oil and financial men in Texas.

## Present Dividends 4% Quarterly

And of great importance to the investor is the Company's policy to disburse 50% of the net earnings to the stockholders, retaining the balance as a reserve for expansion.

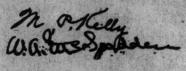

Indications of an immediate and substantial increase in quarterly dividends. The following sworn statement speaks for itself:

## ENDORSED LIBERTY LEAGUE.

Naval veterans last night, at a wellattended meeting, held at S.O.E. Hall,
Berti street, heartily endorsed the principles of the Citizens' Liberty League.
They also decided to consolidate their
votes, so that when important political,
municipal or other topical matters came up
for treatment, a vote should be taken by
the association to decide as to the sentiments of the majority. If the sentiments
were for or against any set policy, every
member, irrespective of his personal sentiments, would vote with the majority.
In this way the vote of all the members
would be tabulated as one vote; that is
to say, if the N.V.A. voted for beer and
light wine, this would include the vote
of every member en bloc.

Radical Tariff Revision

Mr. Lapointe said that Sir Wilfrid Laurier had been the leader of a democratic party and it was therefore fitting that his successor should be chosen not by a coterie of politicians but by a great democratic national convention. The convention should choose a progressive leader and a system of tariff legislation should be radically revised. Taxation upon ne-cessaries of life in Mr. Lapointe's opinion was nefarious because it in-creased the poverty of the poor and added to the affluence of the weal-thy classes. Referring to Hon. Mr. Rowell, Mr. Lapointe said amid applause and laughter, that Mr. Rowell remained in the Union government because he had no other place to go. because he had no other place to go. He wanted the Ontario Liberals to remain with him. In this connection Mr. Lapointe recalled the fable of the fox who had lost his tail and urged the other foxes to cut their tails off. It was an old story but evidently new to the audience which laughed and, applauded uproariously. The cure for Bolshevism, he said, was liberalism because it was the product of despot-ism. If Lenine and Troszky had their ism. If Lenine and Troszky had their way in Canada they would continue men like Borden, Meighen and Rowell in power because rulers of that type would breed Bolshevism among the people.

The Liberals. said Mr. Lapointe, loved someone or something but the

people.

The Liberals said Mr. Lapointe, loved someone or something but the Tories preached the gospel of hate. So long as a shred of the old Liberal banner remained by that banner he would stand. Hon. Jacques Bureau, M.P. for Three Rivers, also greatly pleased the audience by speaking with equal fluency in both languages. He scored a success only gecond to that achieved by Mr. Lapointe.

Mackenzie King Speaks Speaking to his resolution on labor ad industrial relations. Hon. Wm. L. With the first of these clauses Mr. King said the committee found fault in that the clause stated as a guiding principle that labor should not be regarded

on the free list and reducing the duty on others. He moved in lieu thereof a one-sentence plank declaring that all necessaries of life should be placed on the free list together with all implements and machinery necessary to develop the natural resources of Canada and prepare them for use.

Mr. King favored the omission of the word "merely." He said the labor problem would be recognized as national and a world problem which Taking up the resolutions proposed tional and a world problem which by Mr. Langley, Premier Oliver showed could not be solved by any local that it was merely designed to catch measures, hence the Liberals of Canvotes in the prairie provinces and was ada in following the rulings of the

Personality should be placed before property and humanity before business. The principles for regulating labor conditions as accepted by the committee were based on the assumption that industry exists for the sake of humanity rather than humanity for the sake of industry. The labor leaders made a strong denial of reports that they were attempting to intimidate congress by threats to strike or chop off the political heads of members voting contrary to their desires. There was a broad intimation that the public ownership plan if not enacted into law would be taken to the convention of the two big parties next year with the hope of having its endorsement written into the platform.

Union government had proved a failure in the old land and would be so in Canada. Party government, declared Mr. Graham, was the only system by which the people's rights could be protected. The men who stayed in the Union government, call themselves what they like, were fossilized Tories.

Mr. D. D. McKenzie, acting leader of the opposition at the last session, was the next speaker. He stated in opening that he had been a follower of Sir Wilfrid Laurier to the last. The Labor Resolution.

The platform of the Liberal party in regard to labor was approved by the convention in a resolution moved by Hon. W. L. Mackenzie King, seconded by Mr. Roebuck. After declaring that the committee recommends that the national Liberal convention accept in their entirety as a part of the Liberal platform, in the spirit in which they have been framed and in so far as the special circumstances of the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spirit in the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spirit in the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spirit in the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spirit in the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spirit in the labor convention and general principles associated with the league of nations and incorporated in the control of the spirit in the spiri He spoke of the railway resolution which is to come later. The present government, he said, had attempted to make a failure of Sir Wilfrid Laurier's great project, the National Transcontinental Railway, because the government were enemies of it from the start.

Turning his attention to the union government, Mr. Graham said he had no intention of criticising them. They had followed their conscience during the trying days which then faced Canada. He said, however, he could tell much of the formation of the union government.

Pretending Liberals.

For more than a month the house committee has been considering all plans for solution of the problems confronting the roads with their return to private management and the Plumb proposal was offered with the assurance of labor leaders that it would cut down prices of commodities because of the reduction in rates which would follow the elimination of private capital from the railroad companies.

by in made the count three but of took for the locals.

Sight innings only were played, the game being called to allow the teams to catch a train.

The champions again did some effective hitting; their total was ten for the seven turns at bat. Three extra base hits were among this little lot, Clifford, the Rochester pitcher, failed to separate the bangs, and the Leafs clustered them in two innings to do all their scoring.

John Paul Jones was very effective. The first of the Rochester pair of runs was not his fault, an error letting it score.

Four of the Leafs amassed two hits. Deufel had a triple and Spencer and Onslow contributed doubles, Onslow again saved wide and high throws by excellent work at the first corner.

The first scoring took place in the third, a two-run inning for the Leafs. Spencer hit a hard one to short and died. Deufel dropped a single in centre and Jones sacrificed. Gonzales' rap scored Deufel.

Jones sacrificed. Gonzales' rap scored Deufel.

Ben Purtell walked and Nagle threw badly on Whiteman's roller. Onslow bounded a hit off Raymond's windpipe for the other run.

Back came Gibson's men with two more in the next inning, Schulte raised to centre and Spencer doubled to left, Deufel scored him with a triple to left centre. O'Neill attempted a snap throw to third to try and nip Deufel off. It was high, and Jake ambled in. This ended the scoring for the Leafs.

Rochester's first, which arrived in the sixth, was a gift. Ben Purtell heaved wild to first on Lamar's roller and then Schweitzer cut a hit to left, Whiteman fell fielding it, and then tried to get Lamar at third. The ball hit Lamar, bounded off to the stand and the Rochester man scored.

The seventh netted the Hustlers their second and final tally, O'Neill singled, advanced to second on Clifford's infield out, took third on a wild pitch and scored on Rodriguez's tap to Ben Purtell.

The game was called after Rochester had batted in the eighth.

OPEN SERIES IN
DUNN'S TOWN TODAY

The Leafs left last night for a road trip that will keep them away from the Island until the 19th of the month. They open a three-day series at Baltimore today that will have a decided learing on the champlonship.

Gibson's men left town yesterday four full games behind the Orioles. If they can take four in Baltimore it will mean that they will leave Dunn's town on an even footing with the Birds. Four games is a lot to ask, but the champions are stronger now than at any other time this year.

The pitchers are again going strong and the defence behind them is well-nizh perfect. The outfield is really strong for the first time this year. The addition of Spencer and Schulte has greatly strengthened this department. Schulte is a reliable hitter and a heady fielder. Spencer adds speed to the outfit, is a good fielder and a fair hitter. The infield is right and the catching department well fortified. Here's hoping. Sunday will find the Leafs at Newark for a double-header. Monday and Tuesday will also be spent in Donovan's town and then they move over to Jersey City for three days. Reading is next on the link and three days will be spent theme left or the champions return home.

# RECORDS SMASHED IN TOURNEY ENTRY

Two Hundred and Nine for Dominion, Counting the Ladies.

One hundred and ninety-two rinks will commence play at 1,30 p.m. on Monday in the Dominion lawn bowling tournament. Whether or not any records are made in the course of the tournament, the big gathering has established some new marks before the first bowl is put down. The entry list surpassed all former records, last year 184 rinks entering. The ladies have 17 rinks, but their draw is open till Monday. By the arrangement of the draw, all Toronto rinks will compete on neutral lawns.

# **BIG ADVANCE MADE**

Washington's Decision Against Cutting Price of Wheat Has Prompt Response.

Chicago, Aug. 6.—Frantic buying of grain and provisions today resulted from the momentous decision reached last night at Washington that the government would not be justified in selling the billion bushel 1919 wheat crop of the United States at a loss of 50c to 75c a bushel. Steep advances, due to the rush to buy quickly, took place today in the value of all cereals and packing house products. Closing quotations were strong, with corn up 7c to 9c a bushel: September, \$1.81 to \$1.82, and Deceiviller, \$1.51 to \$1.51½. Oats gained 3½c to 4½c net and provisions 47c to \$1.90.

Inasmuch as a majority of corn traders had sold right and left yesterday on a generally accepted belief that the govern ment would throw on the federal treasury the burden of the proposed deliberate loss on wheat, the consequence today of a directly opposite course on the part of the government was a wild stampede to the buying side of the market. It was not until prices has risen, in some cases as much as 10c, that the advance of corn was checked. Even then, comparisons were chiefly with the fact that during the last week there had been a previous break of 32c. Numerous attempts, which during the rest of the session were made to force a bearisn reaction, proved unavalling, owing largely to crop damage and to absence of country offerings.

Visit of Returned Soldiers to Ottawa is Expected to Clear the Air-Situation at Porcupine Presents Some Disquieting Features.

cobalt, Aug. 6.—With the returned soldiers making the most sensible move in the north country strike deadlock, affairs look much more hopeful. A great many optimistic people here claim to be able to see a settlement by the end of the week in the new development, but it must be kept in mind; that both sides say they are adamant, and inclined to be obstinate.

The deputation of three returned men, which is headed by Capt Thomas and is this week interviewing the minister of labor in Ottawa, will at the very least clear the air and sharply define the real issues in dispute. The deputation well government will bring up labor legislation this fall along the lines of the Mathers report. The deputation will get these assurances, no doubt, and will return to Cobalt and tell the striking miners that the principles of collective bargaining, recognition of the union in its fullest sense, and other demands, are to be granted them anyway. The returned men will endeavor to persuade the miners to leave the questions of wage and working the striking miners that a bit of propaganda would organize all into a fighting unit. The assertion is made that the scheme for reducting the cost of living does not

New York, Aug. 6.—The United States Grain Corporation announced tonight that no storage premiums would be added to the basic prices in its buying scale, for the present, nor "until there accumulates in the grain corporation's hands a sufficient reserve of wheat to secure a measure of protection for future home requirements."

In accordance with this policy, it was stated, the wheat director is refusing proffered contracts which foreign buyers are destrous of making at the grain corporation's price level, these buyers being apparently anxious to cover their requirements for some months in advance. Announcement also was made that the various trades may have the privilege of signing trade agreements with the grain corporation up to August 20. Agreements must be returned to agents of the corporations in the various zones on or before that date.

VALUABLE INFORMATION IN FINANCIAL REVIEW

The nineteenth volume of the Annual Financial Review issued/by Houston's Standard Publications, \$4 Bay street, will make its appearance within the next few days. The book, which contains about 800 pages, contains a carefully revised summary of facts regarding Canadian securities, based upon the latest reports issued by the various companies, and the classification is so well carried out that the work of reference is made extremely easy. The market records of sccurities over a term of years are set forth, and there is considerable miscellaneous information relating to the Canadian stock exchanges. The Annual Review has won a well-deserved place in the regard of financiers, investors and business men in general, and the new volume is assured of a welcome equally as warm as that given its predecessors.

# **Davidson Continues** To Open Up Rich Ore Bodies

On the 500-foot level, the vein shows a width of more than 40 feet. Ore broken across the entire face in these workings has yielded an average of about \$20 to the ton in actual milling. The shaft has now reached a depth of 600 feet. A station is now being completed at this point preparatory to cross-cutting on the vein. These operations are taking place within a short distance of a 10-foot section indicated by diamond drilling to carry gold values of more than \$200 to the ton. Davidson ore bodies are increasing in width and values as greater depth is being attained. The property has possibilities every bit as good, if not better, than the Hollinger or McIntyre at the same stage of development. Profit possibilities, of Davidson make the shares at present prices a most attractive purchase.
