GAMEY-STRATTON CHARGES.

On a strict party vote of 50 to 45, the government last night carried its proposal to shift the investigation of the Gamey-Stratton charges from the legislature to a commission appointed by the accused minister and his colleagues. In the same manner they defeated Mr. Carnegie's amendment, asking that the commission be appointed by the Lieutenant-Governor in reality not in form. By calling upon their supporters to vote down this amendment they emphasized their own determination to have the tribunal appointed by one of the parties, instead of by an impartial authority.

There is little use in complaining of this attitude, which is simply the result of the arrogance created by a tenure of power that has endured too lor, The people have already pronounced against the government at the polis. and it is by mere accident that they retain even their present small majority in the House. The present case must, in the last resort, go to the people. The people will judge whether the case ought to have been dismissed from the consideration of their cwn representatives to nominees of the govern-ment; they will judge whether the investigation is as full and thoro as the situation demands; they will judge whether evidence is rightly or wrongly admitted or rejected; and they will form their own conclusions and render their own verdict.

There is a very general feeling that if Mr. Gamey's charges be substantially proved, the only remedy will be a complete change. No driving of a scapegoat into the wilderness will suffice on this occasion. The whole scapegoat into the winderness will suffice on this occasion. The whole ministry, even if not personally responsible, is politically responsible for the means taken to maintain its precarious hold on power. Independent and even Liberal electors feel that the occurrences of the last five years have been due to weakness on the part of the government, to the attempt to main-tain the spark of life in a body that has outlived its strength. They are weary and disgusted, and it will require a very substantial clearance of the government to convince them that the continuance of the ministers in power would be a good thing for the province.

The discussion will be continued next week, on the terms of Mr. Gibson's bill, which is intended to remove doubts as to the validity of the commission, and on the question of the adjournment of the House during the sittings of the commission. That the legislature should be suspended because the government lies under accusation seems on the face of it to be absurd. But the very fact that the legislature can do no business until the investigation is concluded may help to keep public attention alive, and prevent the commission from becoming a narcotic.

THE LITTLE JOKER. A great deal has been heard about "vague and indefinite" charges from the organs of the Ross government, R. R Gamey's charges are vague because he did not submit them in writing. Donald Sutherland, M.L.A., and Dr. Reaume, M.L.A., must not be listened to because they failed to demand an investigation.

Dr. Reaume has made his charges definite and distinct. He states that he was offered the Speakership of the legislature. This the accused Liberal member does not deny. Annual Carpet and Curtain Sale

Tons of Nottingham Lace Curtains Acres of Carpets and Linoleums

Monday morning at eight o'clock we commence our annual Curtain and Carpet Sale for 1903. Pre-eminently the most gigantic trade event of its kind in Canada. An event of deep and economical interest to home owners and home furnishers, not only in Toronto, but throughout the length and breadth of the Dominion.

For months past our representative has scoured the English markets, securing enormous quantities of these goods, manufacturers' clearing lots and overmakes. Choice, new, up-to-date patterns and designs, bought at ridiculously low prices. No quantity offered was considered too large if the quality and price were satisfactory. Owing to the immense variety of patterns it is useless to attempt a detailed

description of the various lots. A generalization shows

Greater Quantities, Better Qualities and Lower Prices

than we have ever equalled, and you remember our stirring home-furnishing event of a year ago. Our Curtain price range includes:

Nottingham Lace Curtains, 38 to 54 inches wide; 21 to 31 yards long; with overlocked cord stitch edges, mostly single borders; very pretty floral and spray centres; at prices from 25c to \$2.35 a pair, grouped as follows :

This is especially directed to men who have doctored for years without benefit. I want men with Rheumatism, Pains in the Back, Weak Kidneys, Sciatica, Lumbago, Varicocele, Prostatic Trouble (I cure this by a new method), Locomotor Ataxia, Torpid Liver, Indigestion and Dys-pepsia. All these troubles in chronic form I can cure with this new Belt, even after all other treatments have failed. To every weak, debilitated

Electric Suspensory Free With Belts for Weak Men.

Thousand - Dollars. Demanskaughlin Any Man.

This suspensory is made for the purpose of treating all special ailments of men, and assures a cure of all waste of strength, early decay and debility. Its current is invigorating and wonderful in power.

I have for years contended that old age was nothing but the freezing of the blood, when there was no longer sufficient vital heat in the body to keep the blood warm and the organs active. I have said that years did not cause decay, and proven it by citing cases where some men have been made vigorous under my rejuvenating treatment at 80, while you have examples all about you of men who are old and decrepit at 60.

My strongest arguments are the letters from prominent people whom I have cured. Every man or woman who comes into my office gets a practical illustration of my method of cure, and goes away convinced that the claims I make for my ELECTRIC BELT are true. After seeing original letters from the cured (letters which I am permitted to exhibit) their doubts are expelled. They know that I have not only proven that electricity is the substance of life and organic vitality, but I have perfected the best known appliance in the world for repleinshing that force in the body when it is lost. My Electric Belt is the result of years of scientific study, coupled with experience and mechanical skill.

I am an enthusiast, you say. Why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belt after the failure of the best physicians. I am enthusiastic because I know that I offer suffering humanity the surest cure for the least expenditure of money that is known to-day, I have gained my success by learning how to treat my patients and then curing them. I understand the action of the current on the human system. My years of experience have taught me how to apply electricity. I charge nothing for my knowledge, knowing that it helps me. My patients are my friends. They are advertising my business.

Your Belt is all that you claim ft to be. It has cured me of indigestion, also my kidneys.-GEORGE S. I wore your Belt for three weeks and I haven't felt the pain in my back since. Many praises to your Belt. BROOKS, Shanty Bay, Ont. My stomach is as good as it ever was and I can est anything. My bowels are regular. in fact I feel like a new man.-A. McKENZIE. Corlies, Que.

I have never tried anything as good as rear for weakness. It has done its work well. STEPHER MANTLE, Headford, Ont.

Some months ago I got one of your Bells, and was i would not take \$100 for it if I could not get another.-JAMES GREGG, Bridgenorth, Ont.

Your Belt has given entire satisfaction. I feels new man. I would advise all young men who suffer from weakness to try your Belt. - FATRICK EDWARDS, Pleasant Villa, N.S.

I feel like a new man since wearing your Belt. I gained ten pounds during the first month. You will hear rom me again later on. Many thanks.-JESSE MATHESON, Seikirk, Man.

I would have written to you sooner, but thought it wise not to halloo till I was out of the bush. I am pleased to tell you that I have not had an attack of rheumatism since. I feel stronger in every way. I have gained 13 pounds. MATTHEW ROBINSON, Mayfield, Ont.

I am pleased with the Belt. It has stopped the pain in my back, and also the night losses, and I am sure it is doing me much good in other ways. -CHA:- GLESSING, 12 Tiffany St, Hamilton, Ont.

I am almost 79 years of age. Your Belt has completely restored my health. It has to cured me of rhem matism. JOSEPH WiGGINS, 107 Quebec Avonue, Toronto Junction. I can honestly recommend the Belt to anyone, also your method of doing business: the manner in which you treat your patients, and the attention you give them. Your business should certainly prosper. -H. E MIT-CHELL, Forrost, Man. No more weak back and no more pain. I am strong and well again. My appetite has returned and I sleer Roundly. I am altogether a different man and I feel so glad to be able to tell this to you. -WM. G. DAVIDSON, Lachdute Mulis, Que.

Tell me where you live and I will send the name of a man in your own town I have cured.

There are thousands of men today who are suffering tortures. They do not live. They simply exist. Their brain is muddled. They lack that energy to tackle problems when they meet a business man face to face. They will dose themselves with drugs, trying to seek relief, never trying a remedy that has thousands of cures to its credit, simply because they repose entire confidence in what their physician has told them—that electricity is the remedy of the future, not of to-day. It have studient this subject more carefully than any physician has ever studied its the tooks, and can show results. I can cite you thousands of cases that have come to me asking my advice, some of them as a last resort, having spent thousands of dollars with practitioners and the majority of these cases are the people who are praising my method to-day. My success is not limited to any particular trouble. Any organ of the body, any part that lacks the necessary vitality to perform its natural function, can be restored by my method. With my *Electric Boit* I cure Rheumatism in its worst forms : I cure pains and aches, weak nerves, general debility. Multiphie any of the lody when I have not only proven that electricity is the substance of life and organic vitality, but I have gone so far as to perfect the best known means of replenishing that force in the body when I have not only cont that there is no better way to prove my confidence in the wonderful curative power of my Belt than to make you to take any chances of a failure. I take all the chances of curring from exposure and excesses in young and middle-aged men, write me. Offer me reasonable security and I will make a man of you and you can

PAY WHEN CURED.

BEWAR E of the schemer offering you a Belt for a few dollars or perhaps as a "free gift." Many have been victimized by such offers: they quickly find that the only result given them was a burnt back (if they got any current at all). I have a large collection of these magnetic bands which have been brought into my office in exchange. My only object in taking them was to demonstrate what a properly applied current will do. I make special inducements to anyone having one of these so-called electric belts.

READ WITH CARE Every patient wearing Dr. McLaughlin's Electric Belt receives free, until cured, the advice of a physician who understands his case. Agents or drug stores are not allowed to sell these goods. 15

FREE BOOK.—To those who cannot call and examine my Belt, I have a beautifully illustrated book with photographs of fully developed men, showing how they begin to break down. This book contains a lot of information for men—it explains many points they want to know. It is written in plain language and fully illustrated. I want you to read this book and learn the truth about my arguments. Don't delay, your best days may be slipping away. Write for the book at once. I send it closely sealed free upon request.

I HAVE A BOOK SPECIALLY FOR WOMEN FREE.
