DUNDEE KIND TO CHURCHILL
Scotch City Gives Him Good Majority — Labor Man Makes a Poor Showing.

DUNDEE, Scotland, May 10.—After a short sharp contest, Dundee on Saturday proved steadfast to the Liberal faith, which it has held unshaken for a quarter of a century, returning Winston Churchill, president of the board of trade, to the house of commons at the head of the poll.
Altho the Unionists did not expect to oust Mr. Churchill from that generally regarded safe seat, their most sanguine prediction being that Sir George Baxter, their candidate, had a good sporting chance, still they had a good margin of rising from fourth to second place in the poll as compared with 1906, and of reducing the Liberal majority from 541 to 270.

The vote-to-day stood:
Winston Spencer Churchill (Lib.) 4079
Sir George Baxter (Unionist) 2073
Stuart (Labourite) 4014
Smyngour (Prohibitionist) 858
Dundee is one of the chief sufferers from prevailing bad trade, and the Tariff Reformers and Labourites are the most of it. The former paraded wide placards declaring that the rate workers had lost their employment through the American tariff, and the latter, and on which the Tariff Reformers were not slow to take advantage of. The advocates of protection and the Tories made capital out of the ship-building dispute, in connection with which there are 1400 unemployed in Dundee.

The fact that Mr. Churchill was not so successful as his predecessor in the board of trade in effecting a settlement of the great industrial crisis was regarded as most hopeful by the Labourites for their cause.
Mr. Churchill also suffered much from the suffragettes, who had frequently broken up open air meetings by the changing of railway and dinner bills, and gadded him on Friday evening to appeal to an assembly of workmen not to tolerate the rowdiness of roughs, but to meet the budget announcement of the remission of the duty on sugar undoubtedly was in Mr. Churchill's favor. Dundee is the centre of the jam industry.

A surprising feature of the result is the small poll of the Liberal party. The best local judges considered that the real fight was between Mr. Churchill and the Labor candidate with the Unionist strength about what the figures show. Mr. Churchill's vote is smaller than any Liberal candidate has received in this constituency for twenty years.
The total vote at the last election was much larger than this. It was distributed as follows:
Right Hon. E. Robertson, Liberal 2770
A. Wilkie, Labor 1833
H. Robertson, Unionist 4122
A. D. Smith, Unionist 3183
Never before has Dundee experienced such political excitement. Practically the whole of the population paraded the streets all day long. Every man displayed his party colors, and the air was almost good humor prevailed. The police kept the most vigilant observation on the movements of the suffragettes.

Entertainments were provided in a public hall while the crowd was awaiting the announcement of the result of the poll, which was unexpectedly prolonged. The figures were not announced until midnight. When the result was made known it was quietly received.
Fire broke out late on the Dundee docks. The fire engines were unable to get thru the dense election crowds, which greatly hampered the firemen in their work.

QUICK SERVICE THIS.
The result of the Dundee election was received by The World shortly after 7.30 Saturday night. It was filed for publication in the 12.20 Sunday morning, and (allowing five hours' difference in time) was received by the C.P.R. Telegraph Company here at 7.30, or 10 minutes later. The message traveled via Ireland, across the sea to Canada, then to Montreal and on to Toronto.
The despatch was sent by the Canadian Associated Press correspondent, to beat out the service via New York by more than one hour.

WILL STAY AT CITADEL.
Prince of Wales to be a Guest Along With Earl Grey.

LONDON, May 10.—It has now been decided that the Prince of Wales and his entourage will not remain on board ship in the St. Lawrence during their visit to Quebec, but will stay at the Citadel, the residence of the governor-general, where Earl Grey and his staff will also reside.
"Nothing has yet been definitely settled regarding the ship in which the prince will cross the Atlantic, but it seems to be regarded as probable that he will be conveyed to Quebec either by the new cruiser Minotaur or by the still newer and larger cruiser Indomitable.

PACIFIC EXPRESS DERAILED.
Accident Near Kenora—Several Passengers Cut Up.
NORTH BAY, May 10.—(Special.)—Passengers from the Pacific Express, which was wrecked by a broken rail near Kenora on Friday, passed thru North Bay last night. Many passengers were cut and bruised, but none seriously injured.
Lord and Lady Handfield were on board, en route to New York, but escaped injury.

A DOMINION IN SOUTH AFRICA
(C. A. P. Cable.)
LONDON, May 10.—At Pretoria the customs conference resolved that the best interests and the permanent prosperity of South Africa can only be secured by early union under the British Crown, to which Rhodesia should be admitted, and at such time as is desirable a resolution should be submitted to the various legislatures and necessary steps taken for the appointment of delegates to a national South African convention, which should meet as soon as convenient after the next session of all the parliaments.

"DIDN'T KNOW" MOIR ASSERTS
Unaware He Had Killed a Man Until News-boys Told Him.
ARTHUR, Ont., May 10.—(Special.)—Moir, the London murderer, was arrested on Saturday evening by Police Constable Farrell and County Constable Coughlin of Arthur, about ten miles from this town, on the farm of Mr. Charles Robb, a leading agriculturist of Nicol Township.

In an interview with the prisoner today your reporter found him intelligent and did not appear to conceal anything. He fully admitted his guilt, but claimed that at the time of the tragedy he was under the influence of liquor and knew nothing of the affair until he heard the newsboys announcing the tragedy on coming out of the stable with Robb, where he had remained over Sunday night.

He then proceeded across the country landing in Arthur on April 21, the day of the horse show and four days after the shooting, remaining there two hours. Learning that Mr. Robb was in the stable with Robb, he went at once to his place and engaged with him.
About a week ago Mr. Robb suspected that the man wanted for the murder and got Dentist Wallace to have a look at him, and he, too, was convinced.
Mr. Robb was in town to-day and spoke in the highest terms of the prisoner's conduct while on the farm.
Officer Farrell received the tip from W. E. Strapp, stage-driver between Arthur and Ferguson, and he at once proceeded to the farm and found Moir in the stable with Robb.
The police passed themselves off as horse-buyers and took the prisoner into their surprise, each taking an arm at the same time. It was only after a desperate struggle, however, that he was overpowered and handcuffed. On his person was carried a 32 calibre revolver attached to a concealed belt.
The prisoner interviewed Barrister M. W. Atwell of Arthur, who will take charge of the case.
The London authorities have been notified, and Chief Williams will arrive tomorrow.
The arrest, while very important, reflects great credit on the officers who made it. They will be entitled to the \$500 government reward.

LAD SHOOT HIS FATHER FOR CRUELTY TO MOTHER
Tired of Seeing His Cruelty, Spent His Savings to Buy Revolver to Protect Her.
NIAGARA FALLS, N.Y., May 10.—Norman White, a lad of 15 years, had seen his mother abused by his drunken father ever since he could remember. Yesterday he spent his savings for a revolver. When the elder White returned this morning and began abusing his wife, Norman slipped upstairs to his bedroom and got the firearm. When he returned to the kitchen where his mother and father were quarrelling, Norman told his father he would kill him if he did not let his mother alone. "Shoot me if you dare," the man challenged, as he threatened to strike his wife.
The lad emptied the five chambers of the revolver. Four went wide and the last penetrated the man's right lung. He will not live many hours.
"Come on, mother, don't stay where he is," the boy said, turning to his mother, and led her from the room. When he was arrested a few hours later he had his revolver re-loaded, but gave it up readily and did not resist.
Mrs. White told the police she had intended to shoot White the next time he attacked her, if her son had not done so.

KILLED IN ACTION.
Major Logan, Formerly of R.M.C., Falls in Egypt.
(Canadian to Special Cable.)
LONDON, May 10.—There is vehement opposition to the proposed unification policy manifested in Natal.
A Cairo despatch says that Major H. S. Logan was wounded in action at Katfya, died Saturday. He was at one time on the teaching staff of the Royal Military College, Kingston, Canada.

30 STOWAWAYS ABOARD.
Mauretania Brought Seven Over-Struck a Derelict.
NEW YORK, May 10.—The ambition of the Cunarder Mauretania to break her own record on last week's trip west was frustrated by a part of a submerged derelict that she ran aground off of Queenstown. She had attained a speed of more than 25 knots when she struck the rock, smashing her outside port propeller.
Twenty-three stowaways were discovered on the ship just after an attempt was made to land at Queenstown. Seven more, who were not found, came all the way across and were transferred immediately after the Mauretania docked at the Campana, which started back with them a few hours later.

WANT WEATHER REPORTS.
British Merchants Anxious to Keep Track of Canada's Atmosphere.
OTTAWA, May 10.—(Special.)—W. A. McKinnon, Canadian trade commissioner at Bristol, has forwarded to the department of trade and commerce a suggestion from the Provision Trade Association of England that the Canadian government be induced to supply business men of Great Britain with regular weather reports during the spring, summer and autumn seasons. It is pointed out that periodic reports from various Canadian provinces would aid British business men to form their own opinions as to the effect of the weather on the crops, fruit and dairy and hog produce of the Dominion.

THEIR EXCELLENCIES' VISIT.
Vice-Royal Party to Occupy Residence of Senator Melvin-Jones.
His Excellency Earl Grey and Countess Grey will be the guests of the Ontario Jockey Club during the coming race meeting. Their excellencies will occupy the residence of Hon. Melvin Jones, 145 St. George-street, which has kindly been placed at the disposal of the club.

STRIKERS ARE FED BY TOWN
Collections in Owen Sound Churches for Them — Boats Tied Up.

OWEN SOUND, May 10.—(Special.)—Sunday is usually a busy day in the C.P.R. thru the freight sheds unloading the steamer due to arrive at 3 o'clock, but to-day not a trucker's wheel turned, notwithstanding the fact that two of the company's big steamers are tied up at the docks with heavy cargoes of mill stuff.
Last night when the Northern Navigation steamer Germania arrived at her wharf she threw overboard her lines at the C.P.R. local sheds. The strikers were out in force, and the steamer was compelled to haul in her planks and go to the Navigation Company's warehouse without handling a pound of C.P.R. local boat freight. The loading at the Grand Trunk wharf is not interfered with as the company is paying 17 cents an hour to its truckers to do the work.
This morning the C.P.R. steamer Manitoba arrived in and no exception was taken to the landing of passengers, but the steamer is still tied up at the passenger wharf. The coal barge Hopkins of Cleveland and the big steamer Dundee are also at the docks waiting to be discharged.

The offer of a settlement made to the men by the company yesterday afternoon was repeated by Chief of Police McAuley directly to the strikers in the town hall to-day, but they had any thought of capitulating.
The Salvation Army has made a strenuous effort to meet the conditions caused by the dumping of over three hundred men on the community without the means of sustenance. Collections were taken in the churches to-night to aid the army in supplying dinner to the men, and generous responses were made.
To-day the men have been subsisting on four loaves of bread with cheese and what means they could secure from the citizens.
The feeling is growing that in offering the men twenty-four cents an hour for white bread, the community is paid to foreigners for doing the same work at Fort William the day after tomorrow, and being discriminated against.

It is probable that a message will be sent to the strikers to-day, common on the situation to-morrow.
NEWSBOYS' STRIKE OVER.
Amicable Agreement Reached in Regard to The Sunday World.
The members of the Toronto News-boys' Union at a meeting in the Lawry Temple yesterday afternoon unambiguously accepted the agreement entered into between their officers and the Toronto Sunday World. The boys were enthusiastic in their appreciation of the effort of the members of District Trades Council who assisted them in arriving at a satisfactory adjustment of their differences with The Sunday World and in the formation of the union.

The boys have decided that in future no non-union publications will be sold by any of their members and it is expected that every day the union will immediately join the union and take out a button.
The World intends to assist the boys in their efforts to better themselves and hopes soon to be able to interest the public in several proposals on their behalf.

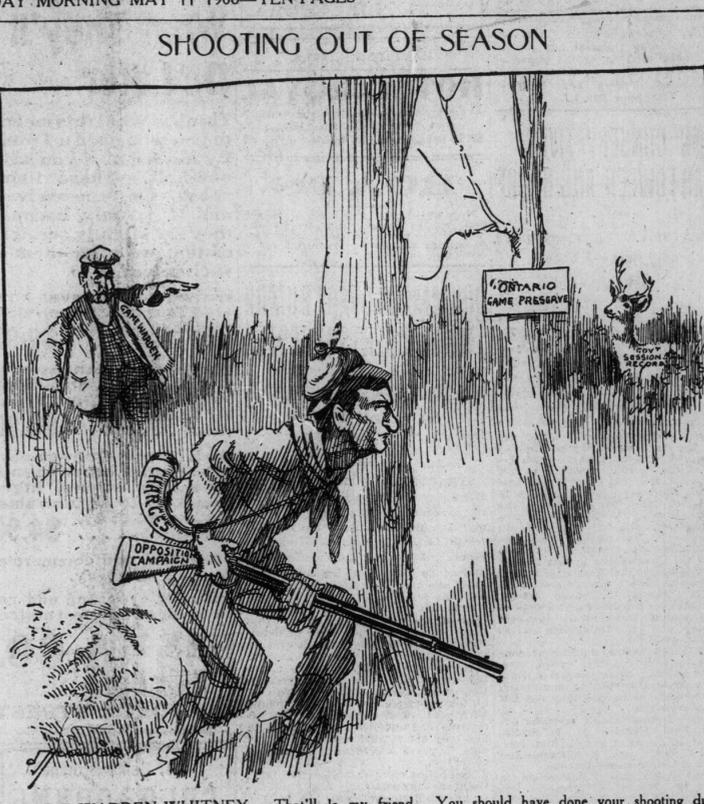

BUCKSHOT THRU WINDOW BREAKS UP CARD PARTY
Two of the Players Are Killed and Others Escape From Charges.
WATERTOWN, N.Y., May 10.—The crash of a charge of buckshot thru a window on a party of card-players sent Jerry Apple wailing in his blood to the floor of his little cabin on Apple's Island, in Black Lake, north of this city, last night.
As Apple fell, a son-in-law, Albert Crowder, jumped to his feet and fled from the cabin. The report of the shot-guns re-echoed thru the woods and Crowder fell dead in his tracks.
Mrs. Royal Dunning, Apple's daughter, and another of the card-players, went in another direction and escaped in spite of several charges aimed in their direction. She brought the news of the double tragedy to this city after a night of terror and flight thru the woods. On her complaint, her husband, Royal Dunning, has been arrested, charged with the murder.
Dunning and his wife quarreled yesterday, and she went to her father's cabin. Late last night Dunning appeared at the cabin and sought to effect a reconciliation. When he failed he left the cabin, and the others engaged in a game of cards.
Apple, the father-in-law, was sitting nearest the window, when the charge of shot shattered the glass. His death was instantaneous. Dunning stoutly maintains his innocence.

LEAPS INTO RIVER.
Passenger on Windsor Ferry Boat Commits Suicide.
WINDSOR, May 10.—(Special.)—Passengers on the ferry Victoria last night were startled to see an unknown man leap overboard.
The captain of the steamer stopped the boat to effect a rescue, but the stranger had disappeared beneath the water.

ATTEMPT TO WRECK TRAIN.
Ties Placed Across G. T. R. Tracks Near Peterboro.
PETERBORO, May 10.—(Special.)—On Friday night a bold attempt was made to wreck the Grand Trunk train from Belleville. Two ties were placed across the rails at Bower's Corners, about two miles out of Peterboro, but fortunately as the train was pulling up for the semaphore the obstruction was noticed before any damage resulted.

TRIO WITH REVOLVERS RAID GRAND TRUNK DEPOT
Night Operator at St. Lambert's is Held Up and the Safe is Robbed.
MONTREAL, May 10.—(Special.)—Three highwaymen, who evidently meant business, entered the Grand Trunk station at St. Lambert's, just across the river from Montreal, about 2 o'clock this morning, and while one of them held up the night operator at the point of a revolver, his two comrades searched the safe.
Fortunately the latter part of the company's money had been removed on Saturday, so that the bandits only secured in the neighborhood of \$20.
After satisfying themselves that this was all to be obtained, they marched the telegraph operator to the foot of the stairs, where they ordered him to dismount, at the point of a gun, and released him.
The police were notified and a diligent search made, but without success. The three men making good their escape.

MODERATES WILTING TO MAKE COMPROMISE
But There Are Enough of the Other Way to Battle Over Election Bill.
OTTAWA, May 10.—(Special.)—Tomorrow both parties will enter upon the second week of the struggle over the Aylesworth bill to establish a federal, instead of a provincial, franchise in Manitoba and British Columbia, for that is what it really amounts to.
The debate from the government side has taken a wide departure from the lines upon which the minister of justice appealed for the passage of the bill. Mr. Aylesworth's chief plea for federal intervention was the necessity of providing against disfranchisement of voters by the over-lapping of federal and provincial electoral boundaries.
The western Liberal members who followed him in support of the bill made no secret of their hostility to the Manitoba lists in toto, insisting upon it that the "Roblin lists" were altogether bad, and should not be accepted even as a basis for the federal franchise. Some of the pleas put up in defence of this extreme position were palpably fictitious, yet they indicate the uncompromising attitude of the force that is pushing the government to its extreme. On the other hand, there appears to be a disposition on the part of moderates on both sides to arrive at a compromise. On the basis of Mr. Aylesworth's declarations this could easily be effected. There is no reason why provision should not be made regarding the over-lapping of boundaries. The provincial lists might easily be applied to federal electoral boundaries, and if the revisions proposed in the bill were entrusted to county judges, with ample time afforded for appeals, chief objections to it would probably disappear.
Except for this disposition, which is manifested mostly in private talk, the indications point to a protracted encounter. There are rumors of the government proceeding to the extreme of asking for a dissolution in view of the circumstances that have been mentioned. But voted stories take no account of the constitutional bar to obtaining money by governor-general's warrant under such conditions, and also of the improbability of a government going to the country without provision for carrying on the public service. It is evident, therefore, that either a direct compromise will be arranged, or that some expedient will be adopted to detract the issue and proceed with other business.
Justice Cassels will resume the investigation into the marine department at 10 o'clock to-morrow.

ARMED POSSE ROUND UP FOUR ALLEGED "BAD" MEN
Farmers Place Cordon Around Village to Prevent Escape Until Arrest.
WINDSOR, May 10.—(Special.)—Thrilling capture of four men who are believed to have been connected with recent robberies in Kent and Essex County was made at Stony Point on an early hour this morning.
They were first noticed at Comber last night, having aroused suspicion by trying to dispose of some cutlery. Provincial detectives here were notified and left for Comber, but before their arrival the quartet had flown.
An armed posse of farmers followed them in pursuit, and the men were located in Stony Point. Pickets fully armed, were stationed around the village, forming a cordon thru which it was impossible for them to escape.
Before daybreak the quartet crawled out of a box car and at once a hue and cry was raised.
Detectives Campeau and Mahoney, riding a hand car, and each armed with a shot gun, started in pursuit down the railway track.
They succeeded in taking all four men into custody, and brought them to this city. They gave their names as John Wilson, 24; E. Little, 25; Ryan, 23; J. Ryan, 38, and their homes at Detroit, and said they were trying to work their way to Buffalo.

CITY ENGINEER'S ILLNESS.
Feared That It May Be Developing Into Typhoid.
It is feared that the illness of City Engineer Rust is developing into typhoid fever. Mr. Rust has been confined to his home for about ten days, suffering from stomach trouble. While somewhat improved yesterday, it was stated that he was not out of danger, and that even under favorable conditions it was not expected that he would be able to leave his room for two weeks or more. Mr. Rust was feeling unwell for some time before giving up his duties, and this circumstance has tended to increase the seriousness of his illness.

CHURCH PARADE BIGGEST ON RECORD
3100 Men of Toronto Garrison Make Brilliant Display Before Large Crowds.

May's maymost tenderness greeted the citizen and garrison soldiery of Toronto yesterday on the occasion of their record church parade of 3125 of all ranks. This is 400 over the highest previous record of last fall when the Boston artillery company swelled the total. The weather was simply perfect for the march, and the fresh touch of spring in Queen's-avenue and Queen's Park made a charming setting for the masses of moving uniforms.
The populace turned out in crowds and the spectacle of the troops was evidently very popular. Dick and Victor, Jack and Jesse, Bob and Will and Tom were hailed from the pavement as they paced along, and veterans stood and swelled with recollection of the parades of the past in which they had figured. The route was up the avenue from the armories, thru Queen's Park to St. Alban-street to Yonge-street to Shuter-street and the Massey Hall.

General Cotton was at the head of the general staff and other officers on the general and divisional staffs were: Sir Henry Pellatt (his first command), Col. Septimus Denison, Col. Galloway, Col. Hall, Col. Gilmour, Surgeon-Col. Ryerson, Col. Langton, Col. Bruce, Major Carpenter and Major Lang. Col. Macdonald was in command of the infantry parades, and Major Mason of the Queen's Own, with Major Rennie commanding the 1st battalion, and Col. Gunther the 2nd. Col. Gooderham, the Royal Grenadiers; Col. Robertson, the 48th; Major Cowan, the A.S.C.; Captain Richardson, the 10th A.M.C., and Major Scott, the 5th A.M.C.; Col. Fleming, G.G.B.G.; Col. MARCHING WAS GOOD.
Summary of parade:
Staff..... 17
Infantry..... 697
Total..... 714
It was remarked that the men in spite of the presence of many recent recruits, marched with great steadiness, and the music was new and the grey plumed helmets of the Bodyguards looked very well as they marched. The band of the Mississauga Horse looked excellent in their new uniforms with the brown wideawakes. Solid and strong as usual the Queen's Own came along with the lead of 895 in line; the Grenadiers with 676 followed, and the Highlanders never looked better with 716 glorious uniforms.
Massey Hall was almost entirely occupied by the troops and very few of the public were admitted. The bands filled the platform, the 10th R.G. band under Bandmaster John Watson, furnishing the musical portion of the service. Shortly before four the soldier boys marched in and pervaded every part of the building right up into the top gallery. The sun shone thru the west windows and the walls glistened with the rays reflected from swords and shining scabbards. A stately transcription of "Abide With Me" by the band opened the service, which was conducted by Canon Cayley, Chaplain of the Queen's Own. Canon Baldwin read the lesson and preached. Part of the special prayer for soldiers was of impressive import.
"Enable us at all times to do what is right, and so to conduct ourselves, that we may bring no disgrace upon the uniform which we wear, nor upon the flag under which we serve. Make us faithful, brave and true to our duty, and especially to Thee our God, as soldiers of Christ, and soldiers of the King. Keep us steadfast. These be our vows, as good soldiers and servants of Thee."
Three hymns were sung and the national anthem. Canon Baldwin chose for his text the words: "They supposed" taken from the passage in the Gospels where it is related that the Jews Acts where it is related that the Jews supposed Paul had defiled the temple. Most of men's quarrels were about matters of supposition and the preacher advised that time be taken

PORTO RICANS DISCONTENTED

Commissioner States Some Disquieting Facts Before Congress

WASHINGTON, May 10.—That the spirit of discontent in the Island of Porto Rico toward the United States is not imaginary, but real, was stated on the floor of the house by Mr. Larrinaga, the commissioner from that possession. He called attention to the act passed by the 54th congress, by which he said "the rights and the liberties of our people were exiled"; that act, he declared, "is the leaden block that closed the sepulchre where the liberties and rights of American freemen are buried."

Discussing the question of civil rights Mr. Larrinaga said: "The automatic self-government that the Porto Ricans once had has practically ceased and officers are appointed by the executive to go down there and make laws for the people they do not know, for the people, whose customs they do not understand, for the people whose faces they have never seen, and for the people whose language they do not understand."

He closed by denying that the United States has done Porto Rico wrong. "I wish you had done so," he said, "for then I could be looked upon by the countrymen with kinder regard."

6000 POLICE ON PARADE

New York's Army of Blue Coats Delight the Town

NEW YORK, May 10.—Led by an honor company of men who have received official recognition for valor, bravery or meritorious service, six thousand policemen, clad in summer uniforms and white hats marched thru New York streets Saturday in their annual parade.

All the various departments of the force were represented in the line of march, forming eleven regiments grouped in brigades, each preceded by a brass band.

For the first time since their appointment on the force the police dogs made their appearance in parade.

Cardinal Logie, Mark Twain, Archbishop Farley, Dr. Henry Van Dyke of Princeton, several judges and nearly all city department heads were the guests of Commissioner Binch in the reviewing stand at the Worth monument.

WAS A TOTAL WRECK FROM HEART FAILURE

Heart disease is characterized by its stealthy approach and its variety of forms, yet in all its forms nature gives unmistakable signals which warn us of its presence. One of the first danger signals announcing something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling, or again there may be the most violent beating, with flushings of the skin and visible pulsations of the arteries. You may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centers, is beyond all question, marvellous. They give such prompt relief, such speedy restoration to health that no one need suffer.

Mr. Darius Carr, Goary, N.B., writes: "It is with the greatest pleasure I write you a few lines to let you know the great blessing your Milburn's Heart and Nerve Pills have been to me. I was a total wreck from heart failure, my wife advised me to take your pills, and after using two boxes I was restored to perfect health. I am now sixty-two years old and feel almost as well as I did at twenty."

Price 50 cents per box or 3 for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

YOUNG CONSERVATIVES HEAR FOWLER AND ROCHE

Government is Arraigned—Chinese Laundry Raid—A Shooting Charge.

HAMILTON, May 10.—(Special).—George W. Fowler, M.P., and Dr. Roche, M.P., addressed the Conservative Club Saturday evening. The gathering asked Mr. Fowler to say something about Hon. Mr. Emmerson, but he declined, dismissing the subject with the remark that it was not polite to say anything but good about the dead. Dr. Roche declared that Sir Wilfrid Laurier was but a figure-head. He deplored the corrupt practices of the government but said Ontario was better than the rest of the Dominion in this respect. Hon. Mr. Aylesworth, he said, was one of the greatest failures a minister. His bill was really an act to elect all Liberals in Manitoba. The Galicians were frightened into voting for the government by the fear of conscription. Samuel Barker, M.P., and Col. Ploimley, the Conservative candidate in Wentworth, spoke briefly. Mayor Stewart presided, and a vote of thanks was tendered to the speakers on motion of R. McCullough and F. C. Bruce, ex-M.P.

Chief Smith and a number of constables in plain clothes called at a Chinese laundry on James-street, near Murray-street, this evening on a search for gambling. It is said they did not get any evidence.

Bishop Dumoulin this morning ordained Rev. Charles H. E. Smith, Niagara Falls, as a priest, and Rev. Jerome C. Potts, Rev. A. D. Casler and Rev. C. E. Snowden as deacons.

George Brock, 239 Bold-street, a denizen of Henderson Terrace, was locked up last night on the charge of shooting with intent at Mary Smith. The alleged offence took place several nights ago.

Harry Clancy, 46 East Jackson-street, was the victim of a vicious assault on Saturday night. He was attacked by a man with a broken nose and leg.

Frank Taaf was sent down for two months on Saturday for assaulting George Nichol, Iverlyman.

George White, the crown witness arrested in court, who afterwards pleaded guilty of stealing some tools, will be charged with perjury.

The friends of City Engineer Barrow claim to have a majority of the men pledged to vote to retain him in his present position.

George Crawford, one of those accused of being mixed up in the riot on Friday night, was arrested Saturday morning.

FIRETRAP HOTELS

Movement Under Way for National Investigation in U. S.

CHICAGO, May 10.—An investigation of hotels all over the United States with a view to discovering fire-traps and preventing catastrophes like the New Avenue Hotel fire in Fort Wayne, Ind., has been started by the Illinois Commercial Men's Association.

By order of the board of directors of the organization, Chairman Cavender was instructed to send out circular letters to all the 40,000 members of the association asking for a report on the condition of hotels in every part of the country.

The action was taken as a direct result of the Fort Wayne hotel fire, in which three members of the association were burned to death. Reports will be made to the organization and a legislative program will then be worked out.

EXCELSIOR ROLLER RINK

Notice With Care Our Features of This Week.

The Excelsior Skating Academy have secured for this week the greatest attraction of the season—The Kentucky Minstrel show company, featuring including back and wing dancers and all the allied specialties of minstrelsy as offered in this modern age. The company will give one-hour shows on Monday, Wednesday and Friday nights.

On Tuesday night, May 12, the Canadian Order of Chess Friends will hold a dance and refreshment, the proceeds of which are in aid of the hospital out board. A large attendance is assured, as a great number of tickets have been sold.

Competition is active, but we more than meet it. Unanimous approval have been given the Excelsior, and these attractions will draw even larger crowds than at present.

RAPID MAIL DELIVERY

Editor World:—Re rapid transit of letters from Belfast, and Toronto. I think that I can go one better in that respect. I have in my possession a letter posted at Bristol, Eng., on April 24, at 11.30 p.m. and I believe this letter came by SS. Lusitania, and was received here in Regina at 2.30 a.m. of the 11th, making the total distance in a little over ten days, so that we are in close touch with the fast mail service given. The general run is about eleven days.

Theft to Satisfy Grudge

BELLEVILLE, May 10.—Some person or persons unknown broke into the hide warehouse of A. Mather and stole therefrom a number of hides. The police were notified and a search was made, the stolen hides being found in Miller's hide warehouse, not far from the Mather warehouse. Miller knows nothing of the matter, and it is believed that some one with a grudge against him stole the hides, and then put them in the warehouse.

DRUMMERS START RUMOR TWO INNOCENTS ARRESTED

Women Traveling on Night Train Are Victims of Police Blunder.

SYRACUSE, May 10.—Mrs. L. A. Herron of Franklin, Pa., detained by the Syracuse police on suspicion of being the detective had for yanking her out of a sleeping-car berth at 2 o'clock Saturday afternoon and continued her journey to New York on the Empire State express. Her mother accompanied her.

It is but justice to the higher officers of the department to say that they realize the stupid error of detecting as soon as they clapped eyes on the woman the detectives brought back with them early Saturday morning from Utica. The police description of the wanted woman stated that all her upper teeth were heavily plated with gold. The woman with the detectives has excellent regular teeth and only one is gold capped. She was able to prove her identity in a score of ways.

The police circular states that Mrs. Guinness is considerably above the average height and weight. So is Mrs. Herron. That was the only ground the detectives had for yanking her out of a sleeping-car berth at 2 o'clock in the morning and accusing her of being the murderer of a dozen men in front of the Henderson Hotel.

The woman to whom the train with the woman to Utica, made her dress and leave the train at the station and wanted her to pay her fare and her mother's back to Syracuse.

She indignantly refused. The detectives then arrested her and brought her back.

The police tried to induce them to sign papers waiving their claims for damages, but they refused to do so. The most astonishing feature of the affair is the absolute lack of ground for the arrest. Two traveling salesmen from Detroit and a woman in the train with Mrs. Herron and her mother. Mrs. Herron has a most attractive face and figure, but wore heavy mourning and retained her veil in the coach. That piqued and annoyed the drummers and between them they evolved the idea that she was endeavoring to hide the Powers from them. Then they thought they had seen the face before and one sapiently suggested it was much like the alleged pictures of Mrs. Powers, which were printed in various newspapers.

The drummers got off the train at Rochester and told their yarn to the hotel detective at Henderson Hotel. He told a police friend, who told a police lieutenant, who got as busy as a bee immediately. He telephoned the Syracuse police and they, thinking the Rochester police must have some ground for such a tip; sent two men to meet the train.

DROWNING IN THE BAY BOAT UPSETS NEAR POINT

Gordon Laidlaw, Aged 19, Victim of the First Boating Accident. Gordon C. Laidlaw, a young man of 19 years, living at 718 Palmerston-avenue, was drowned at the island Saturday afternoon about 3 o'clock.

Relatives of E. J. McNeil, formerly of Minnesota, with a boat near Hanlan's Point and drowned. A companion was rescued. There were other upsets in the bay.

Ryerson School captured the governor-general's trophy for marksmanship in the shooting contest at the foot of Bathurst-street. The winners were French-Canadians from Champlain and Sorel, Que.

The master in chambers has dismissed Bertie Gregory's action against W. R. Traill and the attorney, for claiming "extraordinary" and difficult to believe as seriously made.

Whitby citizens strongly endorse the World's campaign for a cheaper and better suburban railway service.

The newly organized Master Plumbers' Association have come to terms with the men who struck a year ago, and the men go back to work for \$7.12 cents per hour, for a year and an increase then to 40 cents.

Among the new incorporations is the Ontario Sunday School Association, with Justice Macleod, Thomas Gibson, and other directors, to organize the Protestant evangelical Sunday schools for inter-denominational work.

The street railway have formally asked the city's approval of the new routes recently decided upon, but already refused by the controllers.

It seems that Nelson Smith, who shot and killed his wife and himself at sea, it was so great that it was necessary to prolong the engagement for six weeks.

The production at the Royal Alexandra at popular prices, of the gems of later day English musical comedy should commend itself to the theatre-going public. The company is declared to be the equal of even the best of the travelling organizations that have been seen here.

More men taken by the C. P. R. to Owen Sound to act as truckers refused to become strike-breakers and deserted. An attempt to unload the steamer was foiled by a big crowd swarming over the vessel and threatening to drop fish plates in the machinery.

Premier Gouin of Quebec is telling the election in supporting him they are supporting Laurier.

Three burglars were caught burglarizing Robinson's tailor shop at Belleville.

Lightning stunned two persons in their homes at Calgary.

Admiral Evans, U. S. A., says more battleships and fewer statesmen will preserve the world's peace.

NOT QUITE SO SURE. MRS. GUINNESS IS ALIVE

Medical Men Say That Condition of Bodies Found Does Not Support Police Theory.

LA PORTE, Ind., May 10.—Whether Mrs. Bella Guinness is alive somewhere and subject to arrest for her alleged murders committed on her farm one mile north of La Porte, or whether she was burned with her three children in her house that was destroyed by fire on April 28 is the problem that still looms up most prominently before the doctors investigating the mystery surrounding the deaths of those ten persons whose bodies have been found buried in the Guinness barnyard in the manner in which the Guinness farm house was burned.

There is absolutely no indication that the skull of any of the bodies of the three children bore perforating wounds. Neither was there any kind of brain hemorrhage, and the heart and lungs of at least two children revealed the same conditions found in these organs in the body of their mother.

One of the circumstances on which the theory is based is the fact that the body of the burned woman is much smaller than Mrs. Guinness' was. The intense heat to which the corpse was subjected, according to Dr. Meyer, would, however, fully account for this circumstance.

Two more important witnesses regarding Ray Lamphere's alleged connection with the case of the Guinness farm discovered to-day are William Slater and John Rye. The latter asserts that on the day when the body of the woman was discovered he killed her and Lamphere drove to Michigan City. They returned about 5 o'clock at night, and Lamphere, as he alleged when they reached a point opposite the Guinness farm and cut across the fields toward the barn, remarking that he had "something doing there" that night.

TAKE THE VETERANS WEST ON REMINISCENT TOUR

Rev. J. D. Morrow's Suggestion to Government and C.P.R. for Benefit of '85 Warriors.

"Why do not our government, that has had its domains extended thru the west thru your faithful and willing service, and the C.P.R., which has been reaping dividends from the countless numbers pouring into the great west, unitedly equip the best train that ever came into a station, and give you the true patriot beyond that and made a field of your fame and the field of our country's future?"

Rev. J. D. Morrow was preaching at St. Mark's Presbyterian Church yesterday morning to the veterans of the 1885 Northwest Field Force, and made the above suggestion when urging that our appreciation of great deeds should not be reserved for the dead, but should be extended to the living.

There were national events and sought the honor of his country to lift it from slavery and immorality, graft, drink and sin. The highest patriotism was to seek to induce this generation so that their children's children might have a higher spiritual life.

God wanted men to live to the last for truth and righteousness. He would take as their motto Gen. Middleton's words as he passed down the line: "Boys, keep fighting." They should remember that in the days to come God still expected them to do their best.

AT THE THEATRES. Grace Merritt, who has been fortunate to find a worthy opportunity in "When Knighthood Was in Flower" for a display of her talent and cleverness, returns to the Grand this week. Def't touches here and there have made it her own creation, and not an imitation. As Mary Tudor, Miss Merritt presents a character which never allows the interest in it and the play to abate; a lovable character, marked as it is by the opposition of a hot temperament, which will bestow the hand only where the heart has gone.

ONLY TWO START MONTAGUE STAKES

Jack Atkin Gives Away Weight and Beating to Restigouche—Results.

NEW YORK, May 9.—Jack Atkin, the 13 to 20 favorite, scored an easy victory in the Montague Stake of 11-16 miles at Jamaica to-day. Aitho Jack Atkin won he scored a lucky victory, as Restigouche, the only other starter, stepped in a hole on the upper turn, almost falling. Notter was nearly thrown out of the saddle, but recovered quickly. He had no chance after the start. Jack Atkin went to the front on the turn and led by a hold to the far turn, where Restigouche dropped back a little. In the middle of the turn Restigouche, who was on the outside of Jack Atkin, suddenly stumbled and was thrown completely out of the race. Jack Atkin won easily by six lengths. Trance, at 11 to 10, won the Rosedale Stake, 4-1-2 furlongs, by eight lengths.

WHY REGAL LAGER Helps Digestion

BECAUSE sparkling, nourishing Regal Lager contains just enough alcohol to mildly stimulate the flow of the stomach's juices, it naturally must aid digestion by increasing appetite.

Therefore a pint of this fine flavored Regal Lager at meals makes all the stomach muscles move more actively, and so take more good than you could get without the beer from all the food you eat.

You will find Regal Lager not only a beverage of rare quality, liked by every palate, but a food-drink that will build you up and keep you so. Your dealer sells it (in bottles only). If he is out of it, write to us and we will see your wants supplied.

A GREAT ORGANIZER.

His excellency the governor-general is supposed, as far as the constitution is concerned, to be more of an umpire than a doer; outside of the constitution he is free to exercise his energy in any direction for the upbuilding of the country over which he presides or for the creation and promotion of our national aspirations and the unification of the Canadian people.

Lord Grey has proved himself a man of wonderful resources in the past in this direction, and he is giving himself up in the most devoted manner to making a success of this historic event.

He has enlisted the warm approval of His Majesty, King Edward, and more than that, he has secured the most hearty co-operation of the Prince of Wales.

The people of Canada know a good deal now of the statesmanlike qualities of his royal highness and of his devotion to every portion of the empire, and especially to Canada.

He is the son of his illustrious father, but he is more; he, too, is endowed with the same great gifts for high office that made the King the first of the ruling sovereigns of the world.

And in securing the sympathy and active co-operation of the Prince of Wales Earl Grey has already made a great stroke toward the success of the celebration.

We know that both parties in parliament and Sir Wilfrid Laurier, as head of the government, are in the most patriotic way seconding his excellency, and that Canadians in general are especially the people of Quebec, will join heartily in doing their best to make the three hundredth anniversary of the founding of the city of the St. Lawrence one of the outstanding events in the history of the Canadian people, who now dominate and inhabit the northern half of this great continent.

THE POWER SITUATION IN HAMILTON.

The Cataract Power Company of Hamilton is doing its best to burst the Whitney-Beck public power policy. That company that fixed Hamilton's power, lighting more than any other city in Ontario paid, while boasting of its cheap power, is trying to induce the city to give up its new street railway and to endorse its bonds, and to give it a contract for power at professed lower rates than the hydro-commission is offering.

It is up to the Hon. Colonel John Hendrie, one of the power commissioners, to see that the public power scheme is not frustrated in his own city. What is he doing, and why is he trying to carry one of the Hamilton seats for the general election?

Mr. Scott, who was an avowed opponent of the public power proposition when defeated by Allan Stodolme in the by-election of two years ago?

If Col. Hendrie does not make good in his own town he will be doing less than Foy and Pyne in Toronto.

MR. CHURCHILL AT DUNDEE.

Dundee has returned the Right Hon. Winston Spencer Churchill, president of the board of trade in Mr. Asquith's government, by a majority of 2708, which represents substantially the normal Liberal preponderance in that city before the appearance of the Labor party.

Dundee is a double-barreled constituency, and at the general election of 1906 placed Mr. Edmund Robertson, whose recent elevation to the peerage created the vacancy, at the top of the poll with 4276 votes; Mr. Wilkie, the Labor candidate, gaining the second seat with a total poll of 6823, while Mr. Robson, the second Liberal candidate, was runner-up with 6122 votes.

The highest Conservative got the support of 3865 electors, the second Conservative candidate receiving only 3183. Mr. Robertson's great personal popularity apparently secured him many plumpers, while he also benefited by the cross voting that must have occurred to give him his huge majority.

Mr. Winston Churchill's poll cannot fairly be set against Mr. Robertson's, and besides the feeling of the country in 1906 was so overwhelmingly against Mr. Balfour's government as almost everywhere to affect the Conservative vote. A fairer test of the feeling in Dundee can therefore be got by going back to 1906—the Boer war election.

Mr. Robertson again headed the poll with 7777 votes, 688 more than Mr. Churchill has now received. In that year only twenty-nine votes separated the two Conservatives, the higher polling 5181, while at this last election the Unionist candidate polled 4570, or 811 less. No Labor candidate ran in 1906, but in 1906 the Labor vote was 6823. It has now fallen to 4014, a drop of 2819 votes. At this time, too, a Prohibitionist candidate was in the field, but his trifling poll of 655 does not materially affect the result, although it is noteworthy

The Difference Between Amusing and Convincing

By HERBERT KAUFMAN.

An advertiser must realize that there is a vast difference between amusing people and convincing them. It does not pay to be "smart" at the line rate of the average first-class daily. I suppose that I could draw the attention of everybody on the street by painting half of my face red and donning a suit of motley. I might have a sincere purpose in wishing to attract the crowd, but I would be deluding myself if I mistook the nature of their attention.

The new advertiser is especially prone to misjudge between amusing and convincing copy. A humorous picture may catch the eyes of every reader, but it won't pay as well as an illustration of some piece of merchandise which will strike the eye of every buyer. Merchants secure varying results from the same advertising space. The publisher delivers to each the same quality of readers, but the advertiser who plants flippancy in the minds of the community won't attain the benefit that is secured by the merchant who imprints convincing arguments there.

Always remember that the advertising sections of newspapers are no different than farming lands. And it is as preposterous to hold the publisher responsible for the outcome of unintelligent copy as it would be unjust to blame the soil for bad seed and poor culture. Every advertiser gets exactly the same number of readers from a publisher and the same readers—after that it's up to him—the results fluctuate in accordance with the intelligence and the pulling power of the copy which is inserted.

P.S.—Talk No. 14 will appear in The World on Wednesday, May 13.

EDUCATIVE FEATURES OF MILITARY TOURNEY

Display of All Arms, Physical Drill, Free Gymnastics and Competitive Events.

Apert altogether from its attractions as a spectacle, the program to be presented at the 6th military tournament at the armories this week is of an educative character. It will serve to show what a degree of proficiency can be attained in drills and exercises under intelligent direction and by diligent practice. This fact will be well exemplified in the physical drill to be given by united teams from the Royal Canadian Regiment, Queen's Own Rifles, Royal Grenadiers and the 48th Highlanders. It will be further supplemented by the cadets of the Royal Military College, Kingston, an splendid body of young athletes, and the members of the free gymnastics and artillery drill. The musical ride, by B. Squadron Royal Canadian Dragoons, and the musical drive, by B. Squadron Royal Canadian Horse Artillery, will show to what perfection horses can be brought, by proper training and handling.

The program of the evening will open with a march past, in which practically the full force of the garrison will take part, and the display of surpassing interest. The concluding event will be a display of all arms, in which a demonstration of real warfare will be shown. The details to be worked out are quite interesting. A convoy will be shown marching west, escorted by artillery, infantry, machine guns, pontoon section engineers, and field ambulances. They reach a river at dusk and find that the bridge has been destroyed. The river is not fordable. The commanding officer decides to go into laager for the night, protecting his rear with cavalry pickets and infantry outposts. At dawn he learns that the enemy is following to attack. The pontoon section of engineers constructs a bridge, upon which the cavalry and infantry hold the enemy in check, who eventually retreats. The event will occupy twenty-five minutes, the engineers' demonstration of bridge building being quite interesting, as they will build a structure in ten minutes upon which a small army can cross the river in safety. The other displays include a competition in color and exercises by the uniformed cadets of Toronto. The competitions for officers and non-commissioned officers and men all promise to be hotly contested. This will comprise wrestling on horseback, old-fashioned tug-of-war, combat, cavalry melees, tent pegging, riding and jumping, foil v. foil, lemon cutting, sabre v. sabre, and the Victoria Cross.

As the proceeds of the tournament will be devoted to the South African memorial, the interest that the Daughters of the Empire are taking in the event is but fitting, as it is this society which undertook the care of the soldiers' graves in South Africa.

The members of the society will conduct a tea-room during the tournament, which should prove a highly pleasing feature.

BLOODTHIRSTY MURDERER.

Buried Hatchet Deep as Victim Fled.

NEW YORK, May 9.—Alphonso Dichina was killed by Savino Malino in Jersey City this afternoon as he fled through a crowded street in an attempt to elude the man who sought his life.

Malino was close behind and at almost every stride he brought a keen-edged hatchet down on Dichina's back. The crowd in the street gave the men a clear passage, and Dichina managed to keep the lead until a point known as Little Italy was reached. There Malino cornered him and brought the hatchet down on his head, splitting his skull. Malino was captured. The men are said to have quarrelled over a woman.

DROWNED AT HAMILTON.

Sad Accident on Bay on Saturday Afternoon.

HAMILTON, May 9.—Ernest Hancock, Ottawa-street, a lad 13 years of age, was drowned in the bay this afternoon while playing on the shore.

He was seized with a fit, and fell into the water.

A playmate jumped in after him and held him up as long as he was able, but was not able to effect a rescue.

Opening the Gas Stove Season

To keep the kitchen cool in summer—to save the worry of dirty ashes, coal and wood, is possible only with a gas range—for these reasons:

The fire, confined to the one point, goes into the food instead of all over the room. No need to keep up the fire just because you'll "need it later"; with gas, a flick of a match, a turn of the hand and full heat up again.

But gas costs money. Depends on the range. An Eaton Gas Range, managed with common sense, pays for itself in a summer. The burner so constructed as to consume least gas and most air—air costs nothing and gives most heat.

Gas Range time is now! We're ready to supply the range to save you money. Practical demonstrations in the Basement; the ranges in operation.

The "Argand" Range has four burners and a simmering burner on top; a guaranteed baker. 16-inch oven ... \$16.50 18-inch oven ... \$18.50

STRANGLER BOY TO DEATH. Awful Deed of a Woman Infuriated People. NANCY France, May 8.—Jeanne Weber narrowly escaped lynching here to-day at the hands of an infuriated mob, after it had been learned that she had strangled a 7-year-old boy to death.

Several months ago the Weber woman was arrested in Paris, charged with the murder of over a score of children. Doctors who examined her expressed the belief that she was a victim of infatigable mania, but no proof to secure a conviction could be found, and she was allowed to go. The woman arrived here Wednesday, and, under an assumed name secured lodgings in the house of a working man. This morning she was found asleep with the dead body of a boy by her side. The child had been strangled. He was covered with blood and his tongue had been cut out.

When the identity of the murderess had been made an immense crowd gathered outside the house, shouting "Let us get at the fiend!" and tried to lynch her. The police arrested the woman, but they were forced to fight their way to the jail with their prisoners.

OUR SOLDIERS.

Yesterday's garrison parade was the largest ever, considerably over 3000 men attending on parade. To many more thousands of citizens who lined the streets the appearance of the Toronto contingent must have given just pride and satisfaction, and it is matter of congratulation that the local regiments are so well sustained. The young men and their officers who so willingly gave up a large part of their leisure to the attainment of military proficiency deserve the hearty support of the nation and the city.

On Wednesday the garrison troops and the city regiments open their tournament in aid of the fund for the erection of the Toronto memorial to those of the Canadian contingent who gave their lives for King and empire in South Africa. Whatever differences of opinion may exist regarding the political difficulties that caused the outbreak of hostilities there can be none touching the tributes due the heroes who so nobly sustained the honor of Canada in that eventful campaign. Our soldiers have given their time freely in preparing for this assault-at-arms, and the other manoeuvres and exercises that will be presented, and while military spectacles are always attractive to the public, the wholly praiseworthy object of the coming display should appeal with special force to the patriotism and sympathy of every lover of the grand old British flag.

WHITE LOTUS PLAY.

Theosophists Hold Annual Service in Memory of Dead.

Toronto theosophists held a memorial service last night in Beacon Hall as a tribute to those who have passed out since the founding of the order thirty-two years ago. White Lotus Day, so named after the emblem of the brotherhood, marks the anniversary of the death of Madame H. P. Blavatsky, author of the secret doctrine and founder of the association. The hall was decorated with white flowers, for theosophists allow no hint of mourning to creep into honors to their dead, and the program consisted of brief addresses, readings and music.

A. E. S. Smythe, founder and first president of the Toronto branch, spoke of the earliest apostles of the universal brotherhood, and President Horwood confined his remarks to the local members who have died in the last seven years. Charles A. Laszonty spoke briefly on the life of Madame Blavatsky. Music was contributed by H. S. Saunders' cellist, Mrs. Coward, pianist; Mr. Cooper, violinist; Mr. Denison, pianist; Miss Goodwin, vocalist, and readings and addresses by Mrs. Campbell, Mr. Wilson, Mr. Becker, Dr. (Miss) Davis, Roy M. Mitchell and Mr. Randall.

When Panic is Forgotten And Confidence Restored

New York Stocks Will Be Put Out at Good Round Figures Resume of Toronto Market.

World Office. Saturday, May 9. The improvement in the market anticipated in these columns last week and several weeks previous has fully materialized, and new high prices for the year have been made by several of the speculative surerists during the week.

Events, if anything, have favored the market this week. Money continues to filter to New York, and no addition to the gold stock has occurred since the strength of sterling exchange towards the week-end signifies a return to the gold movement, but this can be accepted with equanimity, owing to the easy state of the money markets.

The May crop report issued on Friday was variously construed. The stock market appeared to regard it as excellent, while the speculative exchanges took the opposite view. The condition of winter wheat on May 1, while in excess of that of last year, indicates a smaller crop than last year.

Commercial agencies report the present business situation as unsatisfactory and complex. The depression which commenced with the money panic last fall is accumulating in force. Retail earnings show continuous decreases, and the automobile trade is not being reduced.

The improvement in the New York stock market has given big holders of domestic securities more confidence in the belief that securities at the Toronto market can be advanced, and that the public will be induced to come into the market in a much larger way than they have done for many months.

Stocks have advanced from 10 to 20 points since the October panic, and strong efforts are being made to bring them to a still higher level.

Later on, we shall probably have doubtful periods both as to crops and politics. These always cause temporary dips in prices, but it is a question whether the market will not then have advanced so far that the reactions will do so much below present prevailing prices.

RESOLUTION AIMED AT OFFICERS OF THE LAW

Presbyterian Synod in British Columbia Wouldn't Accept Too Stringent Resolution.

VANCOUVER, May 9.—(Special.)—A resolution aimed at the authorities responsible for the administration of justice in British Columbia, charging them with maladministration in terms so strong that the resolution had to be withdrawn and a statement by Rev. J. Y. Rochester of Winnipeg, that British Columbia was the only province in the Dominion that was not enforcing the Lord's Day Act, were features of the Presbyterian Synod to-day.

"Your attorney-general's responsibility does not amount to the power to veto, as seems to be the position at present," said Mr. Rochester. "The act merely gives him power to withhold his consent to certain prosecutions, and then only when there is cause. "British Columbia was," he added, "the only province which permitted the printing and sale of Sunday newspapers." It was pointed out by several delegates that the fault lay largely with the church and the people, and that during the whole of last session there had been no deputation or formal request made to the local government or the legislature for the enforcement of the act. "There is no justification whatever for its non-enforcement," said Rev. Mr. Rochester.

"If the provincial government knew that there is a far larger number of people in British Columbia in favor of this act to-day than there was a year ago, I think they would enforce it," said Rev. A. J. McGillivray.

It was decided to urge the government to this end.

New School at Belleville.
BELLEVILLE, May 10.—Archbishop Gauthier of Kingston this afternoon laid the corner-stone of the new St. Michael's School in this city in the presence of a very large crowd, and assisted by many visiting priests and dignitaries.

The new school, which will be completed this year, will cost, with equipment, \$52,000, and will be one of the finest schools of its kind in Ontario.

At high mass this morning, Archbishop Gauthier confirmed 130 candidates of them being from the Deaf and Dumb Institute.

DON'T WANT HER HUSBAND.

But Mrs. Hunter Does Want Her Child.

GUELPH, May 9.—(Special.)—Claiming that her husband has her 4-years-old daughter and that she wants her child back because she cannot live without her and she can't live with him under present conditions, Mrs. Hunter, late of Cleveland, has applied to the Guelph police for assistance to regain her child. She says she was married in Cleveland to Hunter some years ago, and that he came back to Canada some time ago, going to his home in Erin. He wrote asking her to come over, which she did, but now claims that he made misrepresentations and that she could not live with him and his family.

An Italian laborer has been arrested for threatening to kill his former employer, Mr. Wardell, a lime kiln foreman, who laid him off work.

New Wing of Federation.
WINNIPEG, May 9.—(Special.)—The latest addition to the federation of employes already reported covering trades in the mechanical department of the C. F. E. is the Brotherhood of Railway Carmen.

The carmen have been in convention in the city and closed their sessions yesterday, and as a grand finale decided to become a party to the federation, which increases the strength by 25,000.

Recognizing that while they are not immediately affected in western lines by notices and rules posted recently by the company, they will be affected as soon as the award under which they are now working expires.

In a despatch from Ottawa it was stated that an extension of time would be granted to the two representatives chosen to arbitrate for the company and the men, but so far no official notification has been given the men.

STYLISH FEET

Men generally are becoming as picknickety about style in their shoes as in hats or neckwear.

It's right that they should be, and the "Boston" encourages it.

The "assortment" of stylish Summer Oxfords in patent, gummetal and tan calf leathers is proof of it.

CHRISTIAN SCIENCE.

Rev. Wm. McKenzie of Boston Gives an Address on the Subject.

Rev. Wm. P. McKenzie of Cambridge, Mass., a former Torontonian, gave a lecture on "Christian Science, or Deliverance From Evil" in the Royal Alexandra yesterday afternoon. Ordained into the Presbyterian Church, since 1898 he has taken an active part in Christian Science and is now a member of the board of lecturers of the First Church of Christ, Scientist, Boston.

In the course of the address Mr. McKenzie, answering the question, "What is Sin?" said:

"It is any theory, belief, thought or action which misrepresents the likeness of God. Per contra, what's righteousness but right action, correct conduct, truthful thinking, whereby man expresses as God's image 'the beauty of holiness.'"

"Christian Science deals successfully with sin as with sickness, healing both conditions of distress, overcoming moral evil with spiritual good. Men fall into sin because they seek for good from a wrong basis. Christian Science shows that what is good comes from God primarily and that men need not hurt nor destroy other men in order to find good. It reveals the fact that good comes according to inflexible principle; changeless from age to age, ever providing blessedness for the pure, the honest, the chaste, the truthful, the loving."

"Should there remain any misconception regarding the possible permanence of sin and error, consider the petition used universally by Christians to express their desire for divine guidance. 'The Master framed it first for the disciples, who said to him: 'Teach us to pray.' When communing with Spirit, we say to the Heavenly Father, 'Lead us not into temptation (where all other leadership than Thine takes us), but deliver us from evil.' Some commentators read the petition as if they thought it customary for us to be seathed by temptation at the hands of God, and this were a prayer for special exemption from the regular process. But there is good sense in the words of James: 'Let no man say, when he is tempted, I am tempted of God, for God cannot be tempted with evil, neither tempteth he any man.'"

If God were tempted with evil or knew evil, how could we expect from God deliverance from it? If evil constituted part of the divine knowledge, we should have to learn evil in knowing God. Jesus taught that in knowing the true God was life and peace. If this be so, and we may not doubt the one who best proved his teaching, then we are delivered from evil and find it to be neither actual nor real in proportion as we follow the guidance of Spirit. This the Psalmist understood when he said: 'Thou art my God; Thy Spirit is good; lead me in the way of uprightness.' Christian Science teaches that the eternal principle underlying all reality is good; hence all forms of evil are transient and false conceptions, existing because of recognition, yet having no real being."

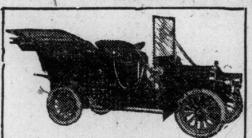

Col. J. Knox Leslie presided and there was a very large attendance.

Killed in a Car.
ST. THOMAS, May 10.—Fred Robinson, a horse trainer, employed until recently by Dr. C. K. Geary, was killed in the Pere Marquette yards Saturday afternoon. He intended going to Chatham and got into a car which contained some heavy bridge steel. While the train was being shunted, the steel sifted, crushing his head so badly that he died in a few minutes.

Absolute Safety the First Consideration

At a time of more or less discussion regarding the safety of public buildings, we point with special emphasis to unusual precautions in connection with our new store to insure the maximum of strength, solidity and safety in every detail of construction. The world's best architects have been working for years on the improvement of mercantile buildings, and in up-to-date establishments there is never any suggestion of economy in anything relating to the best interests of the public. The new addition now under way here is the very latest word in the line of store architecture, embodying as it will

Every Known Device and Precaution for Safety
Every Possible Comfort and Convenience for Shoppers

The foundations are many times stronger than the most exacting requirements call for, and the unusual strength of beam and column in the steel construction tells its own story. We started out to be absolutely sure of the finest, strongest and most adaptable building of the kind on the continent, and so far as thorough experience and careful judgment have any weight Toronto can depend on something infinitely better than has ever before been attempted here.

White Frost Refrigerators

You used to see nothing but wooden baths lined with tin. Now tin and wood are very much out of date—porcelain and enamel have taken their place.

You used to see nothing but wooden tubs. Now they are made of smooth indurated fibre. Tin and wood are supplanted by sanitary progress and improvement.

The latest and most striking improvement relates to refrigerators. It is strange that a receptacle for the storage of perishable food such as a refrigerator had not been the subject of improvement sooner.

The White Frost Refrigerator is made of enameled sheet steel. There is not a splinter of wood used in its whole construction. It provides also for a perfect circulation of air. Thus it is always sweet, while it may be washed as easy as an enameled sink. No warping, rotting or unpleasantness about a White Frost Refrigerator. The shelves work on pivots—that's another advantage. You don't have to drag your sleeve in the butter to reach the cream. See them, they're new.

Small Size, Tuesday \$28.75
Medium " " \$34.00
Large " " \$39.00

Our full line of wooden cased refrigerators is now complete and embraces efficiency at moderate prices; guaranteed to give satisfaction from the smallest at \$6.00 to the large family size at \$40.00. Come and inspect these Tuesday while the assortment is at its best.

BRIDGEBURG IS GLAD.

"Dummy" Engine Will Cross the Bridge Until Midnight.

BRIDGEBURG, May 10.—The efforts of the citizens to secure from the Grand Trunk better means of

transportation across the International bridge to Buffalo have at last been crowned with success. Local railroad officials to-day received instructions to extend the "dummy" car service until midnight, commencing to-morrow. The service has until now only been from 7 o'clock in the morning until six in the evening.

WHY?

Why is it folks sit this way in the car we miss while in the car we catch at last were jammed like this?
Hon. Mr. Hanna and Finlay McDiarmid will address Kingston Conservatives on Friday night.

FELL BOARDING CAR.

Archibald Miller, 59 years, 259 College-street, fell while attempting to board a car at York and Queen-streets Saturday afternoon. He sustained a severe scalp wound and was removed to St. Michael's Hospital.
