Male Sympathizer Plays Marseillaise as Cornet Solo—King Insulted as He Attends Theatre—More Pictures Damaged

London, Eng., May 22—A militant suffragette today slashed and damaged five pictures in the National Gallery.

At about the same time, a picture hanging in the Royal Academy was badly damaged by another suffragette. She was arrested.

King George and Queen Mary listened to the harangue of a militant suffragette this afternoon, while they were at a matinee at His Majesty's Theatre.

While this was in progress half a dozen women in different parts of the theatre started shouting at His Majesty.

Eventually all the disturbers were ejected and the police on duty outside had a hard struggle to rescue them from the hostile crowd.

TO BUILD THREE RESIDENCES

The sale of a lot of land in Lancaster to B. S. Earle was put through last evening through C. B. D'Arcy.

Mayor Frink has not yet received any communication from Hon. Robert Rogers regarding the date of the minister's visit to St. John and His Worship is not yet in a position to say whether or not a second delegation to Ottawa will be necessary.

Army Officers and Lipton Men Plead Guilty in Army Scandal

London, May 22—A plea of guilty was handed in by seven of nine British army officers, and all eight civilians, charged in last January with receiving and giving bribes in order to influence allotment of contracts for supplying army canteens.

Hazen Unable To Have The Dry Dock Enlarged; Given a Raking by Dr. Pugsley

Influence With Cabinet Apparently But Little as Shown by Telling Record—Rogers Declines to Provide in Bill For Enlargement

(Special to Times) Ottawa, Ont., May 22—That Hon. Mr. Hazen is unable to induce the government to have the St. John dry dock enlarged to the size of the docks which the government is building at Vancouver and Quebec, and which it proposes to build at Halifax, was shown in the Commons this morning when Hon. Robert Rogers moved the second reading of his bill to increase the subsidy for dry docks of the first-class to four per cent.

Three years ago Hon. Dr. Pugsley got Norton Griffiths to undertake the construction of a 900 foot dry dock at St. John for a three and a half per cent subsidy. At that time there was nothing in Canada approaching a 900 foot dock, and it was considered immense for the country.

Carranza's Latest Move Matter Of Chief Interest To The Mediators

Sending a Representative—A Welcome by Canada—Federalists Said to Have Evacuated Saltillo

(Canadian Press.) Niagara Falls, Ont., May 22—Confronted with an announcement from Washington that the Constitutionalists were planning to send a representative here, the mediators, as well as the American and Mexican delegates, waited with much interest today for some definite word as to his mission.

Until the exact purposes of a Constitutional representative here are officially communicated to the mediators, they will be unable to determine whether or not he may be admitted into the negotiations. A midnight conference of the three mediators and the Huerta delegates discussed various possibilities in this connection, but no conclusion was understood to have been reached in view of the absence of definite information.

In the meantime the American and Huerta commissioners were in communication with Washington and Mexico City about preliminary phases of questions to be discussed in mediation itself.

While it is realized that the United States will demand reparation for the Tampico and subsequent incidents, it is believed here that the substitution, in place of Huerta, of a new government capable of observing international obligations would be acceptable to the Washington government.

Last night the mediators and the United States and Mexican delegates were the guests of Hon. Martin Burrell, minister of agriculture, who gave an official dinner to the distinguished visitors on behalf of the Canadian government.

Only one toast—that to the King—was drunk at the dinner, after which there was an informal reception.

BOARD OF TRADE COUNCIL WORK

Permanent Committee to Keep Watch on Progress of Wharf Work At West St. John—The Valley Railway, and Other Matters

Harbor matters occupied most of the time of the council of the board of trade noon meeting. The delegation to Ottawa reported, as already published.

A report on the trip of inspection to the West St. John docks was submitted and a permanent committee was appointed to visit the works at least once a month.

The secretary was instructed to send a telegram to Sir Thomas Shaughnessy urging him to send Captain Walsh, the marine superintendent of the C. P. R., to St. John to report on what is needed to provide complete facilities for the C. P. R. steamer next winter, as suggested by Sir Thomas.

The secretary was authorized to communicate with the provincial government regarding the approaching visit of the royal commission on trade matters.

W. F. Burditt reported on the work of the water and sewerage committee, and announced that he would attend the conference in Toronto.

An invitation was passed asking the seven per cent of the farmers along the route canvassed were in favor of opening the roads. The government is deferring action until one section, where all people were not canvassed, is heard from.

DUST OR MUD?

Here is a Main Street Problem to be Faced

The question now agitating the minds of property holders along the lower end of Main street, on the northern side, may be expressed in three words "Mud or Dust?" Yesterday afternoon the watering cart paraded about the North End streets and sprayed a generous abundance of water to level the dust. In Main street on all but the northern part, which is unpaved, and which is covered with soft mud surface. Immediately there was a protest from the merchants and residents who demanded to know why one side of the street, the other side was watered while the other side was untouched.

The answer seemed to be that it was because of the substance forming the road covering, which if it became wet, would be soft and muddy. It seemed to have been thought that they would prefer the dust from the street to this coating mud, but they very emphatically set forth their views that they did not want to be so greatly distressed.

BELL IS CLEARED

Not in City at Time Seven Coats Were Stolen, Says Employer

Frederick Bell, charged with the theft of seven coats from David Cardleton was cleared by Magistrate Ritchie this morning. Bell said on a previous occasion he had been working at Riverside all winter and asked to have his employer summoned as a witness. His employer was in court this morning and said that Bell had been working for him for several months during the winter and had not been in the city at the time when the coats were said to have been taken, and that he could be done to prove in evidence, Bell was allowed to go.

Easy & Practical Home Dress Making Lessons
Prepared Especially For This Newspaper by Pictorial Review

FLOWERED SILK AND CREPE.
It is the waist with which the lesson today deals particularly, because the skirt is of a design recently given in this series. A lining will be required, and this may be of inexpensive lawn, 1 1/2 yards being sufficient.
In cutting out the waist the pieces marked by triple "TTT" and line of large "O" perforations are placed on a lengthwise fold and lengthwise thread, respectively, as has so often been advised here. The sleeve being in one with the waist makes the construction less difficult. After the lining is put together it is stred to see that every thing is all right. If a plain vest is to be used, adjust it on the right front, centers even, then stitch lower edges together, easing any fullness at the back edge. If a gathered shield or vest is to be used, cut off about an inch from the top of the plain effect and face the lining back from neck edge to an inch below double "oo" perforations with seam material. Gather upper and lower edges of shield between double "TT" perforations, and two inches above lower edge. Join band, notches and centers even. Adjust on right front, centers even, upper edge along double "oo" perforations; stitch back edge at shield along double "oo" perforations in lining; stitch lower edges together, back edge of shield at dart. Join standing collar as notched.
The outer blouse of silk is then closed at the underarm and sleeve seam; sew up the back seam and gather the lower edge of the silk to fit smoothly into the waist. Join round collar as notched. Arrange on lining, centers and underarm seams even; stitch lower edges together, bringing front edge to double "oo" perforation at lower edge of lining. Bring single large "O" perforations near upper edge to corresponding perforations in lining back, also a plain shield and in band. Turn hem in pelium at notches. Close back seam, sew to lower edge of waist, centers even.
The top of the vest may be finished with a band of embroidery or silver lace. The sleeves are also pretty bound with dark silk to match the front of the bodice.

One of the newest designs for afternoon wear, having a skirt of brown crepe and waist and tunic of Dresden silk.
It scarcely seems possible for summer frocks to grow prettier, yet there is a constant stream of new creations that are delightful in their designs. One of them is pictured today. It is an afternoon dress in Dresden silk, worn with a skirt of granite crepe de China. The skirt is of dark brown, while the waist and tunic have brown, dull green and lavender worked into their color scheme. The tunic and waist are outlined with narrow folds of green silk.
It requires to make the dress:
1 yard of 44-inch crepe at \$1.50 yard. \$1.50
3/4 yards Dresden silk at \$1.50 yard. \$1.13
3/4 yards 2 1/2-inch green silk for elastic. 1.10

CHEERY LETTER FROM PROVINCE OF ALBERTA
Remarkable Development Predicted by W. J. Magrath
Address of Head of Edmonton Industrial Association—Mixed Farming One of the Chief Factors in Making For Great Prosperity

(Correspondence of Times.)
Nash, Battleford, Sask., May 18.—
"Western Canada is on the threshold of an era of agricultural, industrial and commercial development and advancement that will eclipse anything the world has ever witnessed," said W. J. Magrath, president of the Edmonton Industrial Association, at the first colonization and development convention for western Canada, held here. He added: "We are making remarkable progress in all lines of endeavor and to successfully distribute the enormous wealth and derive the greatest benefit, it will be necessary to build more railroads, develop water transportation and power transmission facilities and establish more factories and mills. This will create more markets, and the direct result will be mixed farming, the real source of wealth."
"Comparing the province of Alberta with the older provinces of the Dominion, the states of the Union, or with the countries of western Europe, there is no question that between agriculture and manufacturing it has the potential capacity to sustain 100 inhabitants to the square mile, which would mean a population of 25,000,000. Populated as densely as Massachusetts, our province would have 120,000,000 inhabitants in cities, towns and country. The present population of all Canada is less than 8,500,000. Alberta has about 485,000.
"Alberta has within its boundaries fully 100,000,000 acres of fertile lands, available for settlement. This is exclusive of about 1,200,000 acres occupied by lakes, rivers and creeks, and 50,000,000 acres of mountains, hills and other lands, not suitable for agriculture at present. We have cultivated in the last year 2,799,287 acres, or less than 3 per cent of the available farming area, and from this our farmers produced 75,757,682 bushels of grain in addition to livestock, hay, roots, vegetables and dairy products having a farm value of between \$15,000,000 and \$20,000,000. The increase in the acreage of 1913 over 1912 was 407,415, and the crop increase was 9,331,140 bushels.
"From official sources we learn that a larger area is being cultivated this year, and it is predicted that greater gains will follow, when our farmers will have developed more attention to diversified agriculture, which may be interpreted to mean that modern farms are rapidly supplanting the bonanza wheat ranches in Alberta, and that the farm is being converted into a manufacturing enterprise, increasing the efficiency of the plant and eliminating all waste."
Regarding the manufacturing development of Alberta Mr. Magrath said that prior to 1905 what are now the provinces of Alberta and Saskatchewan were grouped as to figures. In 1905, the two provinces had 105 manufacturing plants, employing 1,108 men and women and \$1,989,870 capital; salaries and wages amounted to \$466,768, the value of the raw product, was \$1,121,242, and the value of the finished product was placed at \$1,964,967.
Five years later, Alberta alone had 120 manufacturing plants, employing \$5,542,821 capital and 2,945 men and women, who received \$1,167,107 in salaries and wages. The value of the finished products is given as \$5,116,572.
According to the last census bulletin, issued by the federal government, Alberta had 290 manufacturing establishments in 1910. These plants employed 6,980 men and women and \$29,518,346 capital; they paid \$4,968,861 in salaries and wages and \$9,998,777 for raw materials. The value of the products was \$18,786,896.
"What the future holds for Alberta in manufacturing and agriculture the brain of no man can guess. We are facing a stupendous task. We know that railroads cannot be built rapidly enough to keep pace with the development of the western country; we know, too, that if the railroad were equal to our increasing needs it would change the economic equilibrium of the continent. The road yards are the real harbors of the prairie provinces.
"Traffic experts report that the Panama canal will add ten cents to the value of every bushel of grain to be grown in Alberta and Saskatchewan. I believe also that our manufacturers will share equally well in this unmeasured dividend. But manufacturing, mining, lumbering and wheat growing are not the only money makers in the western country. Mixed farming and dairy and live stock will do more than all the rest put together for many years to come.
"Railroad construction to be undertaken this year probably will include 850 miles by the Canadian Pacific, 200 miles by the Edmonton, Dunvegan and British Columbia, and 120 miles by the Alberta & Great Waterways line.
"With the opening of the Grand Trunk Pacific and the Canadian Northern railroads to the Pacific coast and the extension of railway lines into the Peace River country and other parts of our vast hinterland, which contain land capable of supporting from three to four times the entire population of Canada, will come the development of Alberta's mining and lumber and pulp wood industries and the harnessing of the mighty rivers of the north, to supply cheap electric power to thousands of busy wheels.
"British, Canadian and American capitalists are watching the exploration of petroleum, natural gas and asphalt prospects in various parts of Alberta, and it is predicted that millions of dollars will be expended in this and other development work.
"Recent compilations show that the coal area of Alberta is larger than the combined areas of the rest of Canada. The reserves in our province are estimated to contain 1,076,088,000,000 net tons, or 141-2 per cent of the total resources of the world. We have in addition enormous undeveloped beds of salt and asphaltum and mineral. An abundance of natural gas has been found in southern Alberta. We have millions of tons of ores, shales, clays, silica and other sands and marls, also great fur and fish resources."

Hints for the Cook
Little Cakes
Beat 2 eggs and add 1 cup brown sugar, 1/2 cup flour, 1/2 teaspoon baking powder, 1 teaspoon vanilla and 1 cup of chopped walnuts. Bake about 10 minutes in the smallest size tins. These are delicious and are about large enough for one mouthful when made.
Strawberry Shortcake
Spread two divisions of soft rolled dough in pans made thus: Three cups flour, 1/2 cup shortening, 3 teaspoons baking powder, 1 egg, 2 tablespoons sugar, 1 cup milk. When baked spread half of 1 1/2 pints mashed strawberries, sweetened, between layers and remainder of mashed strawberries on top, sweetened, and decorate with whole ripe strawberries.

The Fragrant Qualities of Master Mason

READY RUBBED SMOKING TOBACCO

Are all in the leaf used in the making of it.
We have for years hunted the subtle and elusive elements of goodness in tobacco; we know what they spring from; we know how to retain them in the process of making smoking tobacco.
The raw leaf used is the whole thing; the goodness is in the tough, waxy finish and silky fiber of the leaf we use in making

MASTER MASON
READY RUBBED

In the process, we merely deprive it of all possibilities of "sting" or "bite".
The result is a really fine smoking tobacco, a cool, mellow, free and even burner to the last shred, with a rich and pleasing aroma.
These qualities cover all there is in smoking enjoyment.
Get MASTER MASON in neat handy tins ready rubbed for the pipe. 15c.

EMPIRE DAY

The observance of Empire Day not only directs attention to the vastness of the British Empire, and to the splendid achievements of the British race, but it naturally gives rise to speculations concerning the future trend of Empire development.

THE C. N. R. DEAL

The following extract from the speech of Sir Wilfrid Laurier on the Canadian Northern bond guarantee sets out clearly the position of the leader of the Liberal party.

THE BRITANNIC REVIEW

A new monthly has been launched in London under the title of The Britannic Review. The first sentence in the leading article will commend it to most readers in the over-seas states.

organization of Britain and the Dominions under some new central government. This is a revival of the old Imperial Federation League idea, and the Review points out that, "under its active influence a serious check has already been caused to naval development in Canada and to racial union in South Africa."

After referring to the separatist view, which regards "local national sovereignty as an end in itself," and which if carried to its logical conclusion would dismember the Empire, the Review thus sets out its own belief:

The Britannic Review undoubtedly expresses in its own views those of the great majority of the intelligent citizens of the various Dominions. They have no sympathy with the separatist view, and they are opposed to the policy of centralization.

Better streets and a better lighting system in the central part of the city are very desirable. The city council is taking steps to bring about these reforms. That's good business.

The announcement that only two per cent. of Canada's land is under cultivation suggests a means by which a good deal of the poverty of the country might be eliminated.

If the new wharves at West St. John are not ready for use by the big steamships next winter it will be because the citizens did not begin early enough and insist that the government take the necessary steps to ensure the filling in of the space behind the wharves, and the erection of the warehouses and other equipment.

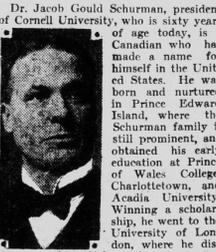

Without any desire to dictate to the new city council, the Times begs to suggest that the members meet a few times for no other purpose than to get each other's point of view, and to arrive at such a mutual understanding as will entirely eliminate personalities from the discussion at meetings of the city council.

Senator Root put it straight to the members of the senate yesterday when he told them that the United States must be the keeper of its own conscience.

It is the intention of the department of Dominion Parks to make a monument to Lady LaTour dominate the scheme of converting Fort Howe into a park it will not be carrying out the wishes of the people of St. John in the matter.

ST. JOHN ART CLUB

In the studio of the St. John Art Club last evening the annual confederation was held. W. S. Fisher, the president, gave an interesting address on his recent visits to American galleries and dealing with plans of the club for the future. Those taking part in the musical programme were Miss Myles, Miss Minnie Myles, Harvey Colwell and Messrs. Bond and Bagnell.

The following are the winners in the art classes: Miss Haggerty's class, Miss Edna Everett, first; Miss Mary Murdoch, second; Miss Grace McKim, third; Miss Leslie Green, fourth; Miss Helen Lee, fifth. Honorable mentions: Miss Nellie Wetmore, Miss Sarah Collins, Mrs. Frank McDonald, Miss Nellie Wetmore, Miss Holt. Miss Holt's class (junior), Miss Florence Orri, first; Miss Ruby Lawlor, second; Miss Gertrude Lahay, third; Miss Caroline Page, fourth; Miss Margaret Page, fifth. Honorable mention: Miss Angelina Magee, Miss Audrey McLeod. Refreshments were served during the evening. Mrs. Fred Harding, as hostess, and Mrs. J. W. V. Lawlor looking after this department in a way that could not fail to please.

THE EVANGELISTIC SERVICES

The revival services in Queen's Rink are progressing very favorably under the direction of Dr. A. E. Burrows. The committee has sanguine hopes for their successful termination. Doctor Burrows is uniting in his efforts to make a campaign successful from every standpoint, and to bring the unsaved to Christ. By those who know him best he is called "The Same Evangelist".

After prayer by Rev. Wm. Lawson and a solo by Mr. Van Horne, Dr. Bur-

rows spoke from Psalm 40: 1, 2, "I waited patiently for the Lord; and he inclined unto me, and heard my cry. He brought me up also out of a horrible pit, out of the miry clay, and set my feet upon a rock, and established my goings." He said that prayer was the great secret of repentance. Several accepted the offer of salvation.

Dr. Burrows spoke this noon in the Unique Theatre and this afternoon to women only in Queen's Rink.

At the 102nd birthday dinner of Mrs. Lida Ault Shrike, in McGregor, Ia. six generations sat down at the table. If all her descendants by two marriages had been present, 198 covers would have been laid.

RECENT DEATHS

S. Robert Fair, formerly of St. John, is dead in Butte, Montana. Mr. Fair was formerly manager of a drug store in this city and left here about fifteen years ago. He is survived by his wife, who was formerly Miss Langley of the North End. He also leaves three children.

Miss Jessie Crowwell died yesterday at the home of her brother, 30 Garmar street. She leaves two brothers, A. L. and Thomas of this city, and two sisters, Miss Letizia of this city and Mrs. C. W. Dean of Robertson's ward. The funeral will be on Saturday afternoon.

Board of Arbitration.
The board of arbitration appointed by the provincial government to deal with the claims filed in respect to the land expropriated by the provincial public works department for the new bridge at the falls, will meet on Friday next. The board is composed of W. I. Fenton, chairman, James Myles and L. A. Keith. M. G. Teed, K. C., and G. Earle Logan will appear for the Department of Public Works and Barnhill, Ewing and Sanford for Mr. J. Nugent, John A. Barret for a leasehold interest in the Nugent property, S. B. Bustin for Miss Morgan, and Dr. W. B. Wallace, K. C., for leasehold interests in the Morgan property.

FASHION FADS.
Watermelon pink is a very pretty and a very popular color.
The overdress of some of the very newest costumes is as light and filmy as air, almost.
Black net ruffles on black taffeta are shown in a dress from Paris.
A new gown has been made without a gather in bodice, sleeves or skirt. The overskirt gets its flare by being cut in a circular piece and box-plated.
A new Paquin dancing frock is delightfully full in the skirt and is made of the daintiest of tulle.
Scotch plaid is now the rival of the Roman stripe.

FEDERAL BUREAU WILL REDUCE INFANT DEATHS.

The bureau of education at Washington, through the home education division, is inaugurating an educational campaign to help reduce infant mortality.

The bureau has obtained thousands of copies of a leaflet called "The Care of the Baby" from the public health service bureau.

To get this into the hands of the people who need it, circulars have been sent out addressed to teachers, club women, trained nurses, physicians and social workers in all parts of the country, asking them to help get this bulletin to every mother in the country. Mothers will be given every help possible in caring for their children.

VERDANT COLORS FOR THE OUTDOOR GIRL

Here is a modification of the Norfolk jacket that will be worn by the athletic girl. Bright green is a very popular color for outing dresses. It will be noticed that on all dresses and coats there is a tendency to lower the belt line.

KITCHEN KINKS.

If the edges of a slicepan are well buttered the contents will not boil over. To relieve toothache, rub baking soda round the tooth and rinse the mouth with hot water.
When putting a slipper into a bottle always give it a half-turn round after it is in. This will prevent it from sticking.

It is a good plan to pepper a carpet thickly with any heavy piece of furniture has to rest on it, as this helps to keep moths, etc. away.
Directly tea is split on a tablecloth cover the stain with common salt. Leave for a while, and when the cloth is washed all stains will have disappeared.

HOOD'S SARSAPARILLA MAKES BLOOD

Your heart works night and day without a pause. It is the principal organ of the circulation of your blood. It is of the utmost importance that it should do its work well. The quality and quantity of your blood have much to do with its action.
It is the mission of Hood's Sarsaparilla to make it stand up and abundant. Thousands testify that it does this great work. There is no better blood remedy, stomach tonic or nerve builder. Take Hood's.

Wall Street Notes

New York, May 22—Vanderbilt forest of 76,400 acres in North Carolina sold to government for forest reserve.

American stocks in London heavy, generally 1-8 to 8-4 down.

A Break in Scotia.

Montreal, May 22—Scotia came into prominence yesterday afternoon, liquidation of about 800 shares forced redemption of two points from the morning quotation and the close was weak with stock offering at 59 3/4. No news accompanied the decline, but just as on the break to 59 1/2 last month, the weakness of the stock naturally provoked further speculation on the dividend outlook of the company. The Dominion Steel statement indicated that enough money was available to pay the dividend, how bad business has been in the Canadian steel trade since the beginning of the year. The Scotia Company, apart from its own business, has the further responsibility of the car company, which it sponsored not long ago, and equipment companies are among the severe sufferers from the current depression.

There has been no news affecting the company since President Harris issued a reassuring statement when the shares turned actually weak last month. The next dividend is not due until July. That leaves a fair interval for the speculation in which the market is now indulging.

TIMBER ROYALTIES

Profit Sharing Between Government and Licensees

(Dominion Forestry Bulletin)

The present Timber Royalty Act of British Columbia is chiefly significant in that it makes provision for the basing of all timber royalties, subsequent to January 1, 1920, on the sale value of the timber cut, over and above an arbitrary fixed price of \$18 a thousand feet board measure. The percentage taken by the government of this prospective value-increase will be at first 25 per cent, succeeding twenty-five years.

This is a new principle, for as early as 1880 the Dominion government received from holders of timber limits in western Canada a royalty of 5 per cent of the total sale value of the lumber cut, which value was to be based on the average price obtaining during the three months preceding the sale. But at that time the price of lumber was not sufficiently high to bring in an very large revenue on this percentage basis, so in 1888 the stumpage dues were changed to the fixed rate of fifty cents a thousand feet, board measure, which is the rate at present. Although the retention of the percentage royalty would have secured larger revenues from the timber, it is steadily rising lumber prices, yet the principle of selling the timber at a widely advertised public auction is being questioned, through the additional bonus offered, practically the same price for the timber without the former inconvenience of constantly adjusting the stumpage dues.

As the competitive sale of timber by means of the bonus system is common throughout Canada, there is little likelihood that the government will not secure a fair share of the present value of the timber sold, and by reserving the right to alter the stumpage dues as the price of lumber increases, a share in its future value is also assured.

CARRANZA'S LATEST MOVE

MATTER OF CHIEF INTEREST TO THE MEDIATORS

(Continued from page 1)

absorbing feature in the Mexican situation here today.

Announcement of the Constitutionalists' plans was received with satisfaction in official and diplomatic circles, as opening an avenue, ultimately, for a general discussion of proposals to settle the entire Mexican problem.

Saltilla Evacuated

Paredon, Mex., May 22—Official confirmation of the evacuation of Saltilla by Federal forces was received here last night. The Federals, under General Maas, abandoned a large quantity of provisions, and the greater portion of ammunition held by the garrison. No news of the entrance of Constitutionalists forces into Saltilla has been received here.

Tampico, Mex., May 22—Perfect order is being maintained here. Shops are open, and it is expected that all businesses will soon be resumed on a normal basis.

Constitutionalist authorities display a most friendly spirit towards Americans, and are doing all in their power to facilitate the resumption of the business. Former residents of Tampico, who fled during the Federal regime, are beginning to return. The water supply of the city has been partially restored. The customs house is again in operation. Several ships cleared today.

MANY EXECUTIONS BY HUERTA REPORTED

Vera Cruz, Mexico, May 22—In preparation for his downfall Huerta is reported to be executing all his political enemies who are held in prison in Mexico City.

Huerta is determined to fight, and will make his last stand in the capital, it is indicated by the fact that he has mobilized 40,000 men in and around Mexico City.

B. F. KEITH WILL ALLOWED.

A. Paul Keith Appointed Executor and Furnishes \$1,000,000 Bond in the Norfolk Probate Court.

Dedham, May 22—The will of the late B. F. Keith of Brookline was allowed in the Norfolk Probate Court before Judge Flint. The real estate valued at \$846,000 and the personal property at \$295,000, making a total of \$1,141,000.

A. Paul Keith was appointed executor and furnished a bond of \$1,000,000.

KRUPPS PAY WAR TAXES.

Assessments on Family and Firm \$2,151,750.

Berlin, May 22—It is officially stated that the joint contributions of the Krupp family and firm at Essen to the \$290,000,000 "war tax" now being assessed in Germany is \$2,151,750.

Baroness Bertha Krupp von Bohlen and her husband will pay \$1,725,000; the Krupp Company \$211,750, and Frau Krupp, the "Cannon Queen" widowed mother, \$215,000.

Among them the Krupps will pay 57 per cent of the entire contribution of the city of Essen.

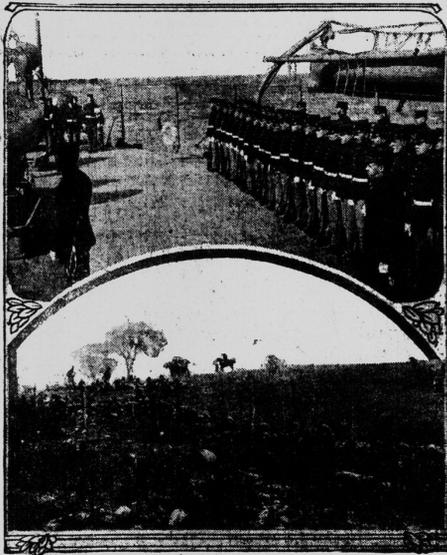

It is announced that the German government has rejected the protest lodged by Russia, France, Belgium and Holland in regard to the taxing of their nationals resident in Germany, on the ground that the tax is not a "war tax," in violation of commercial treaties, but a "contribution."

Germany, a well-informed Clerical organ, states that the foreign protests may now be considered a closed incident as the government will not enter into further discussion of the matter. Thousands of Americans domiciled in Germany will, however, have to help finance the colossal increase in the Kaiser's military establishment.

ANNUAL MEETING OF N. B. TELEPHONE CO.

Fredericton, N. B., May 21.—The annual meeting of the N. B. Telephone Company was held tonight in its local office. Officers were elected as follows: President, S. H. White, Sussex; 1st vice-president, Hon. F. P. Thompson, Fredericton; 2nd vice-president, F. B. Black, Sackville; additional members of executive, A. W. Bennett, H. P. Robinson; additional directors, R. O'Leary, Richibucto; F. W. Sumner, Moncton; W. B. Snowball, Chatham; F. B. Carvell, Woodstock; A. R. Shipp, M. P. P. Fredericton; G. W. Ganong, St. Stephen; J. M. Robinson, St. John; Lieut. Colonel J. L. McArthur, St. John; L. B. McParlane, Montreal.

During the year the policy of gradually providing for telephone service in remote districts was adhered to, although at financial loss in several cases. The report of Secretary-Treasurer McMaclean showed the gross revenue to be \$426,709.45, with the operating expenses and depreciation, \$341,381.66, a net revenue of \$85,327.79. This with a surplus of March 1913 of \$14,473.88, makes a total of \$99,801.67. The assets are \$1,780,960.76 and liabilities \$1,728,827.08, leaving a surplus of \$52,633.67.

MORNING NEWS OVER THE WIRE

In the case of the King vs Cohen at the Westmorland circuit court sitting yesterday a verdict was found for the acquittal of the prisoner. The Fredericton city council last night voted \$500 for open air band concerts during the summer. John Kilburn's drive of 5,000,000 feet.

Are the Original Pills For the Cure of Backache, Lame Back, Weak Back Or Any Other Kidney Trouble.

The fact that Doan's Kidney Pills are the original Kidney Pills has not prevented the placing of other preparations in pill form upon the market under the name Kidney Pills. It is necessary, therefore, that all wishing to secure the curative effects which have made Doan's Kidney Pills so popular everywhere should see that the trade mark, the Maple Leaf, appears on the wrapper. Without this trade mark you are not getting the genuine Kidney Pills as originally placed before the people by Dr. James Doan, as shown by the following declaration.

DECLARATION OF JAMES DOAN, DOMINION OF CANADA, PROVINCE OF ONTARIO.

To Whom It May Concern: In the matter of Doan's Kidney Pills. I, James Doan, of Kingsville, in the County of Essex, Druggist, do solemnly declare that Doan's Kidney Pills were first manufactured and sold by me on the 14th day of February, A.D., 1885. And I make this solemn declaration conscientiously believing the same to be true, and knowing it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893.

Declared before me at Kingsville, in the County of Essex, this 27th day of July, A.D., 1898. W. A. Smith, A Commissioner, etc. Price, 50c a box, or 3 for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

for Murray & Gregory has been abandoned near English Lake because of the great scarcity of water. Mr. Kilburn is seriously ill. Heavy losses were incurred yesterday by a fire at Moore's Mills, Charlotte County, N. B., when B. L. Moore lost his steam saw mill, grist mill, machine shop and wagon factory valued at \$8,000, uninsured, and J. A. Maxwell lost his mill, which is under lease to Ernest Graham, valued at \$2,500, partly insured. A division on the home rule bill will be taken on Tuesday next in the British parliament which was adjourned yesterday by the speaker because of the disorderly tactics of the opposition and the refusal of Bonar Law to assist in maintaining order among his followers. The Canadian Northern agreement will not come up in the house at Ottawa until Tuesday, when it will be advanced another stage.

Fifty seven people, fifty four of whom were women, were arrested in London yesterday in an encounter between a force of 1,500 police against 300 militant suffragettes who were determined to present a petition for suffrage to the king at Buckingham palace. In the "battle" which ensued there were lively scenes, and several broken and bruised heads are being nursed today in consequence. Census statistics from Ottawa show that only two per cent of Canada's land is tilled, and that thirty-two per cent or 440,951,000 acres could be cultivated while the total area worked is only 36,000,000 acres. In New Brunswick twenty-five per cent of the land area is occupied with sixty per cent cultivable.

TALKS IN EDMONTON ON THE SCOTT ACT IN NEW BRUNSWICK

Great Temperance Wave is Sweeping Over American Continent Right Now.

(Edmonton, Alberta Journal, May 15.) G. G. Edwards, a well-known temperance worker of St. John, N. B., predicted in the Royal George hotel this morning that when the time came for a vote on the abolition of the bar that the temperance people of Alberta would win out.

"A great temperance wave is sweeping over the continent, not only in Canada, but in the United States," said Mr. Edwards, "and it will not be long before the temperance people will have their way."

In New Brunswick, he said, there were some counties under the rule of the Scott act that was working quite satisfactory, although liquor is being sold in them. The offenders are sent to jail for periods of three months and in some cases women are dealt with in the same manner as the men. Mr. Edwards added that there were other counties in the eastern provinces that would soon be adopting the same law.

"No matter where you go," said Mr. Edwards, "the hotel keepers say that without the bar they cannot make the business a profitable one. This is not true for the hotel men certainly get enough for their meals and room. It is the liquor they sell that enables them to buy automobiles." Mr. Edwards further said it was the liquor trade that led up to crime. He said that statistics showed nearly every offense to be responsible to the liquor trade, even murders were committed while men were under its influence.

CANADA AND LONDON

(Canadian Courier) Judging by the lack of haste in filling the high commissionership, Canada's affairs in London are not considered by the government to be of much importance. Is this not a tactical blunder for a government which is imperially inclined?

If Canada owes as much to Great Britain as the members of the present government have claimed; if we are as dependent upon British sentiment for financial support as the financiers and ultra-imperialists have maintained; if our relations with the mother land are of supreme vital importance—then this office should not be vacant a week. Mr. Griffiths, the secretary in London, is a capable and efficient officer, but why give a man the duties without the authority? There are plenty of good men available. Sir Edmund Walker, Sir Edmund Osler, Hon. Mr. Perley, Sir Richard McBride and other prominent Conservatives are eligible and probably available. Then why should Canada's interests in Britain suffer by this unnecessary delay?

Naturally Mrs. Jones—Men never know how much they owe to their wives. Now there's Mr. Blank, who is praised by every one as a successful man, but what would he have been if he had never married? Mr. Jones—A bachelor, my dear.

More Than 400 Now Enjoy Allowances From Carnegie Fund For Professors

New York, May 22.—The Carnegie Foundation for the Advancement of Teaching, founded by Andrew Carnegie with an endowment of \$13,000,000 to provide retiring allowances for teachers and officers of high educational institutions in the United States and Canada, has during its eight years of operation, distributed a total of \$2,936,927, according to the annual report issued by its president, Dr. Henry S. Fritchett.

The report, for the year ended September 30, 1913, shows that \$579,440 was distributed in retiring allowances to professors and \$80,940 in pensions to their widows, during that year. The number of allowances for the year was thirty-three, making the present total of allowances now in force 403. The average annual payment to an individual is \$1,708. In connection with the foundation's work as a center of information concerning pensions, the president discusses pension systems that are maintained by half a dozen colleges, the development of new systems at Brown University, the Rockefeller Institute and the American Museum of Natural History, the new federated pension system of the English universities, and the proposed system for the clergy of the Episcopal Church. Among pensions for public schools teachers the report discusses the misfortune of the New York city system, and commends plans of the new state system in Massachusetts.

request of the Vermont Educational Commission of legal education at the request of a committee of the American Bar Association, and of engineering education at the request of a joint committee representing the national engineering societies.

The report on education in Vermont, already distributed, represents the first study that has been made of a state's educational activities as a whole.

The study of legal education has been begun by a first hand inquiry into the bar examination of every state; a special study of legal teaching by Professor Josef Redlich, who came from Vienna for the purpose, and by a personal examination of each of the 100 law schools in the country.

Plans for the study of engineering education are now being completed. The earlier educational work of the foundation is continued by commendation of the present tendency of college entrance requirements toward both elevation and flexibility. The need for further improvement is shown by the fact that only 65 per cent of the students now in colleges in the United States are high school graduates. The decrease in the number of medical schools in the states from 162 in 1910 to 115 in 1913, and the rapid improvement of the better schools are commented upon with appreciation. A general study of the problems of the state regulation of higher education is illustrated by a detailed account of the recent crisis in educational affairs in Iowa.

The report further presents a study of the financial status of college teachers as compared with the situation presented in a similar study published five years ago. The ordinary salary of a full professor in the institutions associated with the foundation is now \$3,000. During the last five years the salaries of instructors have risen by about \$50; those of junior professors show a gain of from \$120 to \$225; those of full professors show an increase from \$125 to \$350.

The report concludes with a frank criticism of contemporary college catalogues.

A POOR SHOWING.

"How's your boy getting on in college?" "Not very well. They batted him out of the boy in the third inning the other day."

Several years ago a tourist fell over the rock from a height of about 300 feet, near Europa Point, Gibraltar. He was killed. The lieutenant in charge of the guard room, however, inserted in his guard report for the day that "nothing unusual had occurred."

For this he was "carpeted" before the town mayor, who asked for an explanation.

"Well, sir," replied the young officer, a Scotman, "if the purr mangle had na been kilt it would have been a very extraordinary fact; but as the purr body was kilt—why, sir, I thought it was na' extraordinary or unusual."

The plea was accepted.

Terrible Scalding Accident

ZAM-BUK GAVE QUICK RELIEF
For taking the pain out of a burn or scald there is nothing equal to Zam-Buk. Mrs. Eugene Demers, of Pembroke, Ont., who was the victim of a painful scalding accident, proved this. She says: "I was carrying a boiler of steaming water from the stove to the wash-tub when suddenly my strength failed. As the boiler was falling in spite of my efforts, I heard my babies cry, and to avoid scalding them I gave the vessel a quick turn. The effect of this was that every drop of the boiling water poured over my feet and limbs, scalding me from my waist down."
"As soon as I saw the children had escaped, I told my oldest boy to bring the Zam-Buk (which we always keep in the house). I applied Zam-Buk freely, and the pain soon eased. I continued using Zam-Buk and in a wonderfully short time the sores were completely healed."
Zam-Buk is equally good for cuts, bruises, eczema, ulcers, piles, pimples, etc. Price 50c. per box, at all druggists and stores, or post free from the Zam-Buk Co., Toronto, on receipt of price. Refuse substitutes and imitations. There is nothing "just as good!"

RUN-DOWN PEOPLE

Let Vinol Make You Strong

Run-down conditions are caused by overwork, worry, too close confinement, a chronic cough or cold which it is difficult to cure.
I want to say to every person in this condition—you need Vinol, my delicious cod liver and iron tonic without oil, the great strength creator. It will supply iron to the blood in the most easily assimilated form, create healthy appetite, strengthen your digestive organs and make you eat better, sleep better and feel better.
A case has just come to my attention from Racine, Wis. Mrs. W. H. Brill says: "I was in a very bad run-down condition. Life was not worth living. I could not sleep—was nervous and unable to work—and doctors failed to help me, but Vinol did wonders for me. In a short time I was stronger than ever and had gained 22 pounds."
I am confident that Vinol is the best body builder and strength creator I have ever sold. Try Vinol on my guarantee to refund your money if it fails to benefit you.

SHAMROCK SAID TO BE A FREAK

Some English Yachting Opinions on the Lipton Challenger

London, May 22.—With the America's cup defending candidates launched and turning up preparatory to the initial practice races on June 2, the attention of yachtsmen is turning toward the challenger Shamrock IV. Despite the secrecy and conflicting reports from Gosport it is known that the Lipton yacht is almost ready for her slide from the ways to the water. According to those privileged few who have viewed the challenger, the Shamrock IV is a boat of extreme type, departing from many of the orthodox yacht building principles and lacking in many respects the attractive lines that have marked challengers and defenders of the past. In fact one English authority terms the yacht as distinctly ugly.
Designer Nicholson intimated some months ago that the challenger would show some radical departures from conventional type and judging from comments in English yachting circles only an exhibition of remarkable speed in light winds will be accepted as justifying this extreme style of design. One description states that she is several feet wider in beam than the American yachts; square stemmed, exaggerated at the bow and carrying an extreme mast and sail area. Still another authority writes:
"The vessel is of composite construction, being built with some frames of an aluminum alloy called navalium and others of steel, whilst her skin is of three thicknesses of wood and the deck of two-ply wood. Her spars are hollow and built of wood. The hull of the yacht is far from being what yachtsmen are accustomed to call a pretty form. The water-line will be 75 feet, but the overall length, despite of a snubbed stem and a saw-off transom, will probably exceed this figure by 60 per cent, and if the sheer is hogged no scientist will be surprised. The vessel, too, is sure to have tumble-home sides, but the extent to which they may be employed in the challenger for the America's cup will cause the vessel to be regarded as a freak of an extreme type. The yacht will be fitted with a dagger-plate centre-board, and her sail area will be immense and of excessive hoist."

DID THE WORK.

Grew Strong on Right Food.

You can't grow strong by merely exercising. You must have food—the kind you can digest and assimilate.
Unless the food you eat is digested it adds to the burden the digestive organs have naturally to carry. This often means a nervous breakdown.
"About a year ago," writes an Eastern lady, "I had quite a serious nervous breakdown caused, as I believed, by overwork and worry. I also suffered untold misery from dyspepsia.
"First I gave up my position, then I tried to find a remedy for my troubles, something that would make me well and strong, something to rest my tired stomach and build up my worn-out nerves and brain.
"I tried one kind of medicine after another, but nothing seemed to help me.
"Finally a friend suggested change of food and recommended Grape-Nuts. With little or no faith in it, I tried a package. That was eight months ago and I have never been without it since.
"Grape-Nuts did the work. It helped me grow strong and well. Grape-Nuts put new life into me, built up my whole system and made another woman of me."

NAIL COMPANY SECURES LEASE

West St. John Site For Factory—Paving Plans—Ornamental Lighting—Car For Com. Wignore

At the special meeting of the common council yesterday afternoon Commissioner Russell submitted the following recommendations:
Commissioner Russell submitted his report on the application of the Canada Nail & Wire Company, recommending as follows:
1. That the council favorably consider the issue of a lease to the Canada Nail & Wire Company of a portion of the lots of land formerly occupied by the late John J. Gordon and Sleeth, Quinan & Company, comprising 200x250 feet more or less, on Union street, and lying between Charlotte and Tower streets, West St. John, for the purpose of establishing thereon a factory for the manufacture of horse nails.
2. Lease to be for a term of fourteen years and to contain a covenant to repair or pay for improvements at the end of the term. Such improvements not to exceed the sum of \$80,000.
3. Rental to be \$800 per annum for the first seven years, and \$700 per annum for the balance of the term.
4. The company to be given the buildings now on the lots either to take down or rebuild as it may see fit.
5. Lease to be prepared by the recorder under the direction of your commissioner and to contain a covenant that the works shall be kept in operation at least nine months in every year and that the company will employ at least forty hands, and such other provisions as may be found necessary for the protection of the city.
6. Lease to be submitted to the council for approval before offering the same to the company for acceptance.
Section two was amended to provide that the city could take over the property on one year's notice. With this change the recommendations were adopted. Commissioner McLellan opposed leasing the lots at all, and received the support from Mayor Frink. His objections to the project being that the lots were the key to the valuable mill pond property which might be needed for harbor purposes. When he was outvoted he moved amendments to make the notice required only six months, to fix the payment for improvements at not more than \$10,000, and to make the lease only seven years, but his amendments were defeated. Commissioner Potts was in favor of anything that would help to bring new industries here and Commissioner Wignore approved of the plan.
Commissioner McLellan's resolution that in future no land be acquired or sold by the city without the unanimous vote of the council, was not seconded.
Commissioner Potts asked if he had authority to refuse permission to lay gas mains and was advised to consult the recorder. He said that if he did not have this authority he wanted to take the matter to the legislature. His recommendations that permission be given to lay mains in Exmouth and Seely streets and that permission be refused for Clarendon street was adopted.
The recommendation by Commissioner Potts that debentures be issued to cover the cost of a permanent pavement for Canterbury street, from King to Potters, was not supported. Commissioner McLellan opposing on the grounds that the work was not to be done under the local improvements act. Instead the council approved of a proposal to pave this section, Church street and Princess street, from Germain to Prince William, with tar McAdam or a similar material, the cost to be met from next year's assessment.
Commissioner Potts was given authority to cancel an order for a sand drier if it is not shipped promptly and to place two cannons in King Square at the head of King street.
The installation of ornamental street lights in the central part of the system to replace the present lighting system was discussed and Commissioner McLellan will secure figures on the cost.
Commissioner McLellan was authorized to purchase a Ford motor car at a cost of \$800 for the use of himself and his officials.
Instructions were given to place two old boilers on the dumps for burning inflammable refuse.
There was some discussion of the proposal to renew the noon committee meetings but no action was taken.

STILL PRACTICE CANNIBALISM

Montreal, May 21.—Dr. J. H. McKay, of the British government medical staff in Southern Nigeria, West Africa, a passenger on board the Laurentic, here spoke of the boundless agricultural resources of that colony, saying he believed the potential wealth of Nigeria to be greater than that of any other British possession, not exclusive even of India.
"A large proportion of the natives," he said, "are still cannibals and quietly carry on their human butchery among themselves, it being impossible to put a stop to this practice. There are now few cases of Europeans being the victims of this atrocity, though there are scattered examples; a doctor who had taken his medical course with me in London was actually killed and eaten not very long ago."
Dr. McKay was on his way to Toronto, his native city.

PENNY POST COMING.

International Rate of Three Half-pence to Pave the Way.
London, May 21.—A majority of the world's governments have decided in favor of a reduction of the international letter postage rate from two pence half penny to three half pence.
The Standard makes this announcement on the authority of Sir John Heniker Heaton, who criticizes the new figure as absurd, and hopes to live to see his ideal universal penny postage realized.
The matter will be officially decided at the triennial conference of the Postal Union in September next, and to which all governments will send representatives. Some nations will advocate the reduction to a penny (two cents), but a majority of them are in favor of a compromise at three half pence, and it may confidently be expected that this rate will come into force next year.
Editorially, the Standard says that "the three half penny postage is unlikely to have a very long life. It is an obvious compromise of a makeshift kind and it is safe to conclude that before many years the extra half penny will be quietly dropped."

WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of illness than that arising from bad blood, for when the blood becomes impure, it is only natural that boils, pimples or some other indication of bad blood should break out of the system.
Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty years.
Mr. James Wilds, Plaster Rock, N.B., writes:—"I was greatly troubled, a few years ago, with boils and carbuncles, and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and to-day I can certainly give Burdock Blood Bitters a high recommendation to my friends."

IMPALED ON STICK IN MIMIC PLAY AT WAR; TORONTO BOY IS KILLED

Toronto, May 22.—Edward Bergan, 18 years old, was killed while playing soldiers with friends in front of his home. The boys, four in number, mounted on tricycles and, armed with sharp-pointed sticks, were engaged in a sort of mimic assault-at-arms, when the Bergan child slipped from his machine and was impaled on the stick held in his hand.
The cause of death was found to be a hemorrhage of the right lung, resulting from the wound in his side made by the wooden stick.

JUDGE BEATS OWN BREVITY RECORD

In Line and Half Mr. Justice Charbonneau Deals With Long-Winded Fight

(Montreal Gazette.)
"Lang \$15 per week; Shapiro \$10 per week."

Mr. Justice Charbonneau is noted as a man of few words when it comes to a matter of picking the essential points of any long-winded case, but His Lordship possibly beat his own record yesterday, when, in the above succinct phrase, he handed down an incidental ruling in a suit which has been hanging fire before the courts, in one shape or another, for the last six or seven years.
There was no comment, no expose of reasons, no review of the case, no learned argumentation as to the relative worth of the testimony of a batch of witnesses called pro and con, in the course of a hearing. His Lordship, after maturely thinking over and weighing a mass of testimony, reached his conclusion, jotted it down on a slip of paper, signed it and turned it over to the clerical staff of the court house.
The latter may amplify it to their hearts' content with a review of the pleadings, if they so desire. Mr. Justice Charbonneau, with a mass of waiting cases, the records in which would comfortably fill a generously proportioned wheelbarrow, must perform a clear duty, "hang fire" from one month to the other. As a keen man of the law and a no less keen man of business, His Lordship apparently considers that in judgments, as in charity, the same rule at times may apply—*qui cito dat bis dat.*

The difficulty confronting His Lordship in reaching his conclusions is not lessened when it is explained that the court was confronted with the task of appreciating the value of the services of an indicator of tepichorean gratifications—one of the few arts of which His Lordship confesses ignorance more or less blissful.
M. R. Rodden, architect, took suit against Samuel Lang and Bernard Shapiro some six or seven years ago. The case proceeded, but when a short time ago Rodden desired to take a sabbatical leave of absence, he was confronted with the announcement that the two defendants were unsalaried employees of their wives, who in turn were proprietresses and operators of the Auditorium Hall, Berthel street. One said her husband did nothing but assist her in the management and subletting of the hall, in return for this he was authorized to give dancing lessons in the hall, proceeds from these lessons being his own property. The other said her husband did practically nothing but help out a little in the management and subletting. In return he received board and lodging. Witnesses called variously estimated the services of a dancing master and manager at between \$25 and \$50. Others called for the opposing party estimated such managerial services

as were afforded by the husbands to be worth probably \$5 a week. At any rate one witness testified that the work might be looked after by a \$5 per week stenographer.

His Lordship, sifting the grain from the chaff, considered that Lang's services were worth \$15 a week and Shapiro's \$10.

The wives were ordered to pay these amounts and the sum will be subject to seizure at the hands of the petitioning creditor.

The Taylor's Silver Black Fox Company, Limited

Offers the very best inducement to those desiring to invest in the Silver Black Fox Industry.

Twelve Pairs of Foxes are guaranteed to be on the ranch by the First of September, A. D., 1914. Seven pairs of breeders are already on the Ranch. The capitalization is \$180,000, making the Foxes \$45,000 a pair this year. This is a low capitalization in comparison to any company now offering for stock for sale. Prospects this year for large litters are exceedingly good.

Reports so far are brighter than last year. The Dalton loss was paid for that ranch and takes the biggest competitor out of the market for 1914. Prices for this year's pups are higher than last year.

The Taylor's Ranch is the finest and most up-to-date on the island.

The shares are \$100.00. 20% on application, the balance on delivery of certificate.

SNOWY BAKER'S VISIT

R. L. "Snowy" Baker, Australian sporting promoter, has concluded his visit to the States and is now enroute to his home in Sydney, with nothing but the best of feeling for everything American. His trip to America and also to England and France, as regards the boxing game, was just what he wanted to put him in touch with the game from all angles. He has gained much information which will stand him in good stead later on when dealing for big matches.

"The trip has been an eye-opener for me," said Mr. Baker, "and I hope to make it over again next year if possible, if not then the year following. I did not come expressly to sign boxers for my stadiums in Australia, but to get in touch with the situation and at the same time have a pleasure trip. Of course I did not pass up any opportunities to secure good men. There are some of the stars here who are exorbitant in their demands, but I see that the promoters here have the same trouble in signing them for matches.

The no-decision plan is all wrong. It gives the boxers too much leeway and the public suffers if they are inclined to loaf in a contest, for it is the public that always pays the freight, no matter whether it is a poor fight or not. Where a decision is given the boxers have no alternative but to give their best efforts, unless they want to be put out of business. I believe that the demand for practically all the gate by some of the fighters is doing much to hurt the game. It will react on them later on, for the public will not stand for the high prices, knowing that the boxers are the only ones who force them up. You can say that I have not signed one boxer to go to Australia from the States, except those who have already gone, but I hope to have some more Yankees visit Sydney next fall and winter. There is no country in the world where boxing is so flourishing as in Australia, and I have visited all the centers. The states support the game in a wonderful way, but you cannot always depend upon good houses week in and week out, as in Sydney. Once in a while you have a big gate, but they do not average up so well as in Australia.

"While in France I had an opportunity to judge conditions there pretty well and must say they have advanced wonderfully. They are simply wild over boxing and much of the enthusiasm must be attributed to the showing and great popularity of George Carpentier, the champion of that country. He is a sensational fighter and if he had a little more weight would be world's champion. Jack Johnson not excepted. Carpentier is a handsome young fellow, with a fine bearing, one of the kind who would attract attention in passing along the street. He is not twenty-one years of age, but has the bearing of a gallant man of thirty. I had him to an agreement to go to Australia, offering him a fabulous sum, but at the last moment he backed out. He dreads the water and I think there is a little girl who has charms which Georges cannot pass up. I would gladly have taken him along, even though I did not make a penny on him, just to show him to my people."

Mrs. Smith was engaging a new servant, and sat facing the latest applicant. "I hope," said she, "that you had no angry words with your last mistress before leaving."

"O, dear, no, mum; none whatever," the prospective maid replied, with a toss of her head. "While she was having her bath I just locked the bathroom door, took all my things, and went away as quietly as possible."—Youth's Companion.

Dr. Morse's Indian Root Pills
are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when over-indulgence in some favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the home. They are the best medicine for children.

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST
So-called stomach troubles, such as indigestion, wind, stomach-ache, and inability to retain food, are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisulphated magnesia, probably the best and most effective corrector of acid stomach known should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper anti-acid, such as bisulphated magnesia, which can be obtained from any druggist and thus enable the stomach to do its work properly, without being hindered by poisonous gas and dangerous acids.—M. F. P.

The Featherweight Champion

FROM T. S. ANDREWS

Milwaukee, May 19.—Johnny Kilbane, featherweight champion, is keeping busy, notwithstanding that there are few really high class featherweights for him to battle against. He is matched with Benjie Chavez, a Colorado boy, in a ten-round bout in Denver, May 29. Chavez has been making an excellent showing in the past few months, but it is not likely that he will be able to stand up successfully against the champion.

It was expected that Kilbane would go into the lightweight class before this, but he is in no hurry so long as he can get the featherweights to meet. His first clash as a lightweight will probably be when he meets Johnny Griffiths in a 12-round bout in Akron, Ohio, on July 4. If this match materializes, Kilbane will have his hands full, for the Ohio lad is clever and almost as fast as the little champion.

CANADIANS SEEING ENGLAND

Historic Buildings and Museums Protected from Suffragettes.

(Times' Special Correspondence.)
London, May 8.—Canadians who have been visiting London during the last few months have found their enjoyment considerably curtailed by reason of the closing of great national institutions as a consequence of the outrages of suffragettes. Now, however, the ban has been lifted and admission is arranged on the same conditions as in former years. The only perceptible difference is a large increase in the number of guardians at Hampton Court Palace, which was one of the last to re-open its doors, seems to be one of the most popular resorts for Canadians, judging by the number visiting this old palace of Henry VIII on the river Thames. Its gardens are among the finest in England.

Tourist agencies in London are developing special circular tours by motor for Canadians, to take in all points of interest in the immediate vicinity of London. They are supplying a long-felt want, and are becoming very popular. Unfortunately, the majority of visitors from the dominion confine their attention to points of interest in London itself, thereby losing a great deal of enjoyment. One of these agencies conveyed no fewer than 500 Canadians on a tour through the Thames Valley. This feature will be very popular this year.

Into a New York jewelry store there went a shy, pretty young lady with her engagement ring, which had been bought there and which she would like to have changed.

The ring fitted exactly, and she was greatly pleased with the noble sentiment of the inscription: "Whatever betide, let love abide;" but she did not like its arrangement.

Examination showed that the stolid, unimaginative old German engraver had carved in the sentence regardless of the ringmaker's little stamp of quality, and so it read: "Whatever betide, let 14-k love abide."

Baseball. The Provincial League. Matters in connection with the provincial baseball league are progressing favorably and all is now ready for the opening game on Saturday afternoon between Moncton and St. John. Both clubs have announced their line-up, and from the material presented, it looks as if a good brand of ball will be the result. The St. John squad has been at work in the Marathon grounds all week and are rapidly rounding into shape. The batting order of the Moncton team has been announced as follows: Eddington, 1; Sweetman, 2; Lockhart, 3; McLeod, 4; Rogers, 5; Crossman, 6; McLellan, 7; Weldon, 8; McDonald, 9; Sitcher.

North End team played snappy ball throughout, hitting well, and often, and fielding in commendable manner. Craft and Dunlap were the batteries for the winners and Evans and Sandall for the losers. There will be no other game in the Church League until Thursday evening next when Trinity and St. Lukes will line up against each other.

May Visit St. John. A traveling team composed of college and ex-New England players, whose first game will be with the Portland team of the New England League, wants to visit the provincials. Yesterday's Big League Games. National League. At St. Louis—St. Louis 8, New York 4. At Cincinnati—Cincinnati 8, Brooklyn 4. At Chicago—Boston 3, Chicago 1. At Pittsburgh—Pittsburgh 6, Philadelphia 2. American League. At Washington—Washington 5, St. Louis 4. At Boston—Chicago 5, Boston 2. At Philadelphia—Detroit 6, Philadelphia 4. At New York—New York 5, Cleveland 2. Federal League. At Baltimore—Baltimore 8, Chicago 2. At Pittsburgh—Pittsburgh 10, St. Louis 6. At Buffalo—Buffalo 6, Indianapolis 5. At Brooklyn—Kansas City 8, Brooklyn 2. International League. At Montreal—Newark 7, Montreal 1. At Buffalo—Buffalo 8, Providence 2. At Rochester—Baltimore 8, Rochester 6. At Toronto—Toronto 10, Jersey City 8. One More for Matty. Chalk up another win for Mathewson. Since he dropped his first game to the Brooklyn, a month ago, he has won five straight, and has beaten every club except Chicago and St. Louis, which the Giants have not yet played.

Players We Know. Jack Dedrich, last year with the St. John and Fredericton clubs, now pitching for Lynn, received a bad tramping at the hands of the Haverhill batters on Tuesday. He filled the bases, forced a run, and a circuit clout by Haverhill's catcher scored four more. Stanley Bates started to pitch for Worcester in the game against Lowell on Tuesday, but was a trifle wild and was pulled out in the sixth, after allowing five hits and passing four men; he struck out three. Lowell won 7 to 2. McPherson, the former St. Croix player, is being used at shortstop for the Lynn club. Eben Reed, last year with Bangor, and who was let out by Lynn this spring, is working well with the Pithburg as a regular. He assisted in winning Tuesday's game from Lawrence with two doubles and a timely sacrifice. Twelve hits, two of which were slammed off by Pete Tetreault, were made off Steve White's delivery in the game this week between New Britain and New Haven. Tetreault played errorless ball on second for New Britain. Ganley and Shankey are both doing well with the Perth Amboy club. In the exhibition game with the Philadelphia Americans last Sunday each of these players had two hits to his credit. One of Shankey's was for two stations.

Dave Morey As Coach. Although there were several candidates for the position of football coach at the Somerville High School next fall, Dave Morey, formerly of Malden High School, was chosen.

and Dartmouth was the unanimous choice of the Athletic Association. Morey coached from Dartmouth last June and coached the freshman eleven which made such a splendid showing last fall. He played on the varsity eleven for three years, and was chosen for the All-American team in the fall of 1912 because of his excellent all-round work in the backfield. He also played on the baseball team three years and was elected captain in his senior year. After he graduated he signed a contract to play with Connie Mack's Athletics, but he did not remain there long, being sent to Fredericton in the Maine-New Brunswick League.

Football. Soccer Game Tie. Last evening on the Barrack Square the Caledonians and the St. Johns played a soccer match with neither team scoring. Wrestling. Ludecke in Sydney. The Sydney Post says—D. H. Macdonald, manager of the Arena, will stage a wrestling bout at the Arena on Monday next, between Harry Ludecke, champion middle weight of Europe, and Mike Yokes, of Salt Lake City. Mr. Macdonald is the promoter of the Halifax baseball team.

Ring. Ritchie to Get \$35,000. A match has been arranged between Willie Ritchie, champion lightweight, with Freddie Welsh, of England, in London. Ritchie is to get a guarantee of \$15,000, or 50 per cent gross, \$10,000 for advertising rights and another \$10,000 for the moving picture privilege. Victory for Flynn. At the Atlas A. A. Boston, meeting on Tuesday night Porky Flynn won the decision over Jim Johnson in 12 rounds. Bouts Tonight. Eddie Murphy vs. Walter Mohr, Mickey Brown vs. Joe Budenz, Tommy McFarland vs. Young Sousa and Gus Murphy vs. Jimmy Hanlon, University A. C., Cambridge. George Chaney vs. Tommy Houck, Baltimore. Tom Gibbons vs. Buck Crouse, Hudson, Wis.

Turf. Molone Sold. Glasgow—Molone, the four-year-old trotting colt that has been a member of H. G. Kitchin's string in Driver Tommy Raymond's stable, has been sold to P. Watson, of St. Marys. The deal was put through this week and Molone is already in his new owner's barn. He is a son of Mobel (210), and his dam is Countess Naval, by Naval (214-4). He was purchased by Messrs. Raymond & Quartermain at the Old Glory sale in the fall of 1912, having been consigned to the sale by the Mobel stables of Lima, O. Famous Stallion Dead. New York, May 21—Billie Burke, 2:08 1/4, a noted trotting stallion, formerly owned by the late J. Howard Ford, proprietor of the famous Stony Ford Farm, died in Russia a short time ago. While owned in this country by Mr. Ford, Billie Burke attained almost a great prominence in trotting history as any other stallion of his age. He was the champion trotting stallion of 1912, as well as the fastest trotter of any sex or age that year. Although Billie Burke's campaign of the grand circuit was not one of unbroken victories, it was characterized by as many successes as defeats, and he raced against the very flower of the country.

DETECTIVE HOME FROM WEST WITH PRISONER

Geo. F. Menzies Brought Here on Charge of Embezzlement

Detective Killen returned to the city this morning, bringing with him George F. Menzies, wanted here on a charge of embezzlement from the Metropolitan Life Insurance Company while in their employ last year.

Menzies moved from St. John last fall and has since been engaged with a Winnipeg firm as a traveler. The detective said this morning that the prisoner had been looked on by his employers as one of their best men on the road.

Detective Killen, with his prisoner, arrived on the Maritime express, having made the journey from Montreal by I. C. R., so that it would not be necessary to pass through the United States, as would have been the case via C. P. R.

Menzies was brought before the magistrate just after his arrival, and the charge was read over to him, and he was remanded until Tuesday afternoon.

Rev. P. McKim met Menzies at the depot and was in conversation with him in the guard room.

SMASHED LARGE WINDOWS IN EASTON'S SO THAT HE WOULD BE SENT BACK HOME

Toronto, May 22.—Thomas Ward, an Englishman recently arrived, appeared in the police court, charged with a minor offence. Ward pleaded guilty and asked the magistrate to deport him, because he was tired of Canadian life and methods. His plea was refused, the case against him dismissed, and Ward was told to go and get some work.

That night about 10.30 Ward armed himself with three half bricks, and waiting till a constable appeared in sight, proceeded to smash in the plate glass windows in Easton's store in Yonge street. Before policeman Whitley could run to him from the corner of Queen and Yonge, Ward had smashed three large panes, which will cost Easton's \$300 to replace.

Ward said he was disgusted at not being granted deportation and decided to adopt militant methods to gain a free passage back to the old country.

EVERY DAY BOYS' LEAGUE. The Every Day Club Boys' League of three teams got down to business on the diamond behind the Aberdeen School on Tuesday evening, when team No. 1 defeated No. 3 by 6 to 5. The batteries were—No. 1, Pierce and Galbraith; No. 3, Duffy and Northrup.

On Wednesday evening No. 2 defeated No. 3 by 6 to 5; batteries Donovan and Calahan; Duffy and Northrup. Last evening No. 2 defeated No. 1 by 2 to 4; batteries Donovan and Calahan; Pierce and Galbraith.

IN STRAW HATS. Not many local residents of the former sex have yet had the temerity to appear in straw headwear, but two of the local staff of letter carriers were seen yesterday afternoon boldly walking along wearing their new "bonnets."

PRETENCE BOYS' DELEGATES. At a mass meeting of Lodge No. 80, "Pretence Boys, last night, delegates were appointed to the Supreme Lodge meeting of the order in Nanapan, Ont., commencing on June 8. Two officers and two delegates from No. 80 will attend, as follows: Harry Sellen, G. M.; William Smith, D. D. G. M.; L. E. Rolston, master of lodge; and A. L. Byles, treasurer.

The representatives from Lodge No. 85 will be the grand chaplain, Robert Gooderich and the new officers of the lodge, Fred McLean, Lodge No. 40, Fairville, will send Rudolf McKeil, chaplain; P. E. Durand, master of the lodge, and Harold Stears.

THE HUGH CAMPBELL BENEFIT WAS SUCCESSFUL. Enjoyed By Large Audience—Professional Visitors Make Sacrifice to Assist.

The testimonial concert tendered Hugh Campbell, well known local singer, in the York Theatre last evening was a pronounced success and much credit is due to the energetic committee which had the matter in hand for the able manner in which they fulfilled their obligations. Possibly the greatest share of thanks goes to the talent who gave their services free, and this was referred to in a brief address made by H. H. Golding, manager of the Imperial, who has been largely instrumental in the success of the undertaking. He expressed gratitude in behalf of the committee for the co-operation of the talent and the public in general. The theatre was also given free.

It was not an easy matter for all those taking part to do so. Sam A. Meharry, leading man with the Thompson-Woods Stock, left his bed, to which he had been confined all day with a most severe cold, and drove to the York Theatre, to give a reading. He chose as his selection a burlesque soliloquy on Edgar Allan Poe's "The Raven," and received a flattering reception. Immediately afterwards he was driven back to the Opera House and went on with his part in the stock production.

Another performer who labored under difficulties was Arthur Huskins. He made a fine impression upon the audience, despite the fact that he had not been able to appear at the Imperial yesterday, owing to his being under the care of a physician. He is suffering from a heavy cold. The quartette in which he appeared last night gave a most enjoyable number. The rest of his taking part under such conditions, and of Mr. Meharry who has not been well all week, is a credit of much better thanks from all concerned. It showed the goodwill of each of them, though more or less strangers to St. John.

Each of the numbers on the programme was well received. The playing of the new brass quartette from the City Cornet Band was most favorably commented upon. The programme was nicely varied and gave delight to the audience assembled. It was carried out as already published. The fancy sword swinging act was by Walter Brown and children and was well received.

Fairville Tag Day Start of Progressive Plan

A GLANCE AHEAD

Suggested That Firemen's Park Be Bought From City—Clean-up Day, Band Stand and Other Matters For Immediate Future

Next week Fairville will initiate its first effort to better itself and people, in the launching of a tag day campaign in aid of public playgrounds for the children. While this would seem to be the beginning and end of the movement by those who have not taken a vital interest in the recent meetings and discussions, it is in reality likely to be merely the starting point of more extensive town improvements that should attract the prospective home builder to this section as a desirable place to live in.

These things come slowly, partly through education and also because the present time demands more up to date means and methods that life may be enjoyed to the best advantage, content with surroundings, and, judging by the spirit manifested of late, Lancaster would now appear to have said "We have many natural endowments lying dormant, which could be made into a beautiful suburb, let's get together, Citizens, and develop our possessions."

It is also interesting in this connection that while perhaps they are not making note of the fact yet unconsciously with this movement those assisting develop themselves in the very best types of citizenship.

When the children have been seen to the older boys and girls must be provided for. The Firemen's Park has only three more years to run on lease, and before that expires, arrangements should be made to secure the whole plot outright from the city. Coming generations sharing in the benefits of a suitable park would not only cheerfully bear their part of the financial obligation, but have every reason to bless the name of the citizens whose foresight provided a fund ground before all land near the town became absorbed for industrial and residential purposes. Once the property was absolutely owned by the community, improvements could be added that could never be molested or taken away. Then a local band stand, and besides ownership would foster pride in the fixing up of a pleasure spot in the best manner possible. This of course is all future talk but is perhaps worthy a little meditation as within the bounds of possibility for much town betterment.

Close at hand, however, the cleaning up day appeals strongly, one sufficient means are in the treasury to pay the moderate expenses such an effort involves. Then a local band stand ought to come, and surely a section that ten years ago boasted one of the finest musical organizations in the province did not turn up a detour bearing favorable comparison with what we hear in the streets today.

Securing a team of horses controlled by the highway board was advocated in the board of trade recently and met with approval and along with that a watering cart to lay the dust in summer, and a snow plough to clear the main street, at least in winter. Why not?

All that is required to carry through successfully any reform movement is loyal community spirit. The campaign for a public playground have led the way and it is for Lancaster as a whole to lift together for better conditions, which will not only make things more pleasant and happy for the population now, but if surroundings count for anything, ought to give the next generation a better chance to expand their more congenial influences and helpful facilities.

WILL COME FIRST TO ST. JOHN. Excursion From Boston to Starr Family Re-union Near Wolfville

The annual reunion of the Starr Family will be held on July 1 and 2 at Starr's Point, near Wolfville, N. S. Descendants of Samuel and David Starr (sons of Samuel, Jonathan, Samuel, Thomas, Doctor Comfort)—the original grantees of these Acadian lands under the Cornwallis grants of 1761 and 1764, respectively,—still living at Starr's Point, cordially invite a limited number to their hospitable homes, with drives to Blomidon and through the beautiful Gaspereau Valley to Grand Pre, to the ruins of the old French Church, Evangeline Well, and other points made famous by the poet Longfellow. Accommodations may also be reserved at the Hotel, Wolfville, N. S., for thirty persons.

It is proposed that all meet in Boston and come together by express steamer of the Eastern Steamship Corporation direct to St. John. As now planned, the steamer will leave Central Wharf, Boston, on Monday, June 29, at 9 a. m., and on June 30 the party will leave St. John about noon for Digby and Wolfville. Returning, they plan to leave St. John at seven p. m. on July 4, and reach Boston about two p. m. on July 5; or a steamer may be taken from Yarmouth.

COMPLIMENT TO F. NEIL BRODIE. Yesterday Fredericton Gleaner says—"Mr. B. Emerson, chairman of the Board of School Trustees of St. John, and H. Claire Mott, architect, of St. John, are here today inspecting the St. Dunstan's school building. The school trustees of St. John are considering the erection of a new school building, and are looking over buildings in other places with the idea of incorporating some suggestions thus acquired in their plans."

The delegation from St. John are understood to have expressed themselves as entirely pleased with St. Dunstan's School, finding it more suited to St. John's needs in its general design than the great school building in Bangor. It is worthy of note that St. Dunstan's School was designed by F. Neil Brodie, of St. John, and it must be somewhat flattering to him to know that a delegation from his own city went to Fredericton to examine and approve of a similar building in Bangor. Another of Fredericton's schools was designed by G. Ernest Fairweather of St. John.
