### AUDITORS' REPORT.

## TO THE SHAREHOLDERS OF THE GREAT WESTERN BAILWAY OF CANADA.

We beg to report that we have audited the foregoing Statements of Account, and find them in accordance with the Books of the Company, which, together with the Accounts and Vouchers for the Half-year ended 31st January last, we have carefully examined and find correct.

### CAPITAL ACCOUNT.

| Authorised by Acts of the Legislature passed between the<br>years 1845 and 1855, in 178,000 Shares of \$100 each- | Shares<br>Sterling.              | Bonds<br>Sterling.               |
|---|----------------------------------|----------------------------------|
| \$17,800,000  | £3,657,534 5 0<br>1,643,835 12 4 |                                  |
| Amounts raised to 31st January, 1867  | 5,301,369 17 4<br>3,458,795 17 2 | £2,650,684 18 8<br>1,209,900 0 0 |
| Leaving a margin of   | £1,842,574 0 2                   | £1,440,784 18 8                  |

Or a total of £3,283,358, 18s, 10d. in Shares and Bonds, which the Company is still empowered to raise.

The power to issue Loan or Debenture Capital was unlimited until the passing of an Act on the 16th August, 1858, which restricted such powers to half of the amount of the "authorised Share

Of the 178,000 shares authorised to be issued, it will be seen on reference to the Capital Account, that 169,700 are already issued, leaving 8,300 shares unissued. These were reserved to meet "Con-vertible Bonds," the option of exchanging which into shares has ceased some time ago.

## COMPANY OF CANADA.

No. 4.

to 31st January, 1867.

9

Er.

The issue of Debenture or Bond Capital, if will be seen, is considerably within the limits of the authorised horrowing powers. It may further be observed that \$72,700 of 6 per cent, Bonds due October 15th, 1865, were paid off at maturity, and that no other Bonds fall due until the year 1873.

The excess of expenditure over receipts at the preceding Half-year amounted to £38,887, 17s, 4d., and although the receipts on this account during the past Half-year have amounted to £73,702.3s, ed., the expenditure is now in excess of receipts to the amount of £98,869, 2s, 11d.

This arises principally from the outlay during the past Half-year on account of the "Third

The expenditure during the past Half-year on account of the "Third Rail" has been £113,420. 16s. 8d., making, with the sums previously expended, £145,817. 13s. 6d.

The construction of the Petrolia Branch has exceeded the amount authorised by the Shareholders in May, 1963, by the sum of £38. 10s. 2d. only, but the Engineer estimates that a further sum of £513. 14s. will be required for additional land, sidings, &c.

#### REVENUE ACCOUNT.

| The balance of this account is<br>And after providing for the proposed divi | idend at | the rat | e of 3 | per c | ent. per | annum | £62,691<br>61,553 |    |   |  |
|---|----------|---------|--------|-------|----------|-------|-------------------|----|---|--|
| There remains a bal   | ance of  |         |        |       |          |       | £1,128            | 13 | 9 |  |

The loss by the fire at Detroit was estimated in the Director's last Half-yearly Report, after apply-ing the balance of £3,700 standing at the credit of "Insurance Fund Account," at £15,820; of this smouth they anticipated they would be repaid by the Insurance Companies a sum of about £7,800, leaving an estimated net loss of £3,620. The sum of £940, 198, only was charged to the Revenue Account of that Half-year, being the amount of claims *settled* up to that date in excess of the sums estimated to be recovered from the Insurance Companies. The statement now received from Canada shows that the ultimate loss will probably exceed by flow £7,666 the amount of the signal Estimate. The present Estimate includes the loss of the Ferry steamer "Windsor," £3,969, 15s. 3d, which was not them taken into account, and also the sum of \$10,000 (£2,065) not expected to be recovered from the Insurance Companies. The sum at the debit of *Detroit Fire Account* is now £15,245, 08, 6d, of which the Directors have charged (\$20,000) £4,100. Ills = 04. to Revenue Account this half-year, and propose to distribute the balance over future half-years. We observe from the Locomotive Superintendent's Report, that the steamer "Transit" is stated to be "worn out and unfit for anything further than temporary use." The cost of this Boat now stands in Capital Account at £11,491. 4s. 6d. ad no provision has been made for depreciation, a point to which the attention of the Shareholders was specially called in the Anditor's Report for the half-year-ending 31st January, 1863.

stands in Capital Account at suit, suit, suit, suit, and up provided in the Anditor's Report for the half-year ending 31st January, 1863. The loss of the "Windor" and the state of the "Transit" appear to us to prove the necessity of making provision, by the creation of a Renewal Fund, for the depreciation of the Company's Boats now in working order. In consequence of having no "Renewal Fund," a large outlay for repairs falls on one half-year. This is the case as regards the Steamer "Union." She has undergone thorough repair during the past half-year, the cost of which has unduly increased the "Expenses of Ferry Boats across the Detroit River." See Abstracts D. & E. On comparing the cost of "Minimenance and Renewals" for the past half-year with the corres-ponding half-year during which period the "extraordisary expenditure for Renewals" was in progress and amounted to 252,540. 108. 6d, we expected that Renewals" for the past half-year with the corres-ponding half-year during which period the "extraordisary expenditure for Renewals" was in progress and amounted to 252,540. 108. 6d, we expected that Revenus 'Tornordinary expenditure for the real strate of the ford the Jordan Bridge, had terminated, and consequently no extraordinary expenditure for nenewals might have been anticipated this half-year, the only reduction in the expenditure moder this head is 240,000 ; yet the reduction is so small that it appears to us to call for remark and further explanation than is afforded in the Engineer's report. We observed last half-year from the Locomotive Superintendent's Report that there was an apparent discrepancy between the number of carsatated to be in stock at the Sist January, 1866, and solve the reduction is so small the reliance and shaft or the strate and there marks an apparent discrepancy between the number of carsatated to be in stock at the Sist January, 1866, and solve the relative date date balf we replay the year and we now think it right to refer to it.

The amount of American Funds on hand, and the difference between the amount of out-standing traffic receivable and payable in American currency is \$22,668, 44 less, at the end of this half-year than at the 31st of July 1866.

#### BALANCE SHEET.

The only items in this statement to which we think it necessary to refer are the following :---29,945 4 1

Municipal Bonds At the end of the preceding half-year these amounted to ... 14,260 5 0 The reduction has been effected by the sale of a portion of the Bonds at a small discount. The discount has been added to "Expenditure on Capital Account," the Bonds having been received many years ago in payment of shares.

Amount due by the Company on Traffic Account .... ... 2,014 1 9

This account has usually shown a considerable balance due to the Company, but is converted into a Credit Balance on this occasion by retaining a sum of \$74,487,54 due to the Michigan Central Railway Company on Traffic account, part of which it is stated will be appropriated as their pro-portion of the sum payable by them on account of the "third rail." We think it right to state that every necessary information respecting the accounts, has been afforded to us on all occasions by the Officers of the Company, with the greatest promptiunde, and that the Accounts are kept on a good system and with great accouncy. From frequent reference which, in the discharge of our duise it is necessary for us to make to the Correspondence, Minutes, and other records of the Company, we are enabled to bear testimony to the precision and method with which they are kept.

LONDON, 30th March, 1867.

JOHN YOUNG, } Auditors.

Abstracts referred to in the Revenue Statement for the Half-year ended 31st January, 1867.

## REPORT OF THE DIRECTORS

OF THE

## Great Western Bailway Company

### OF CANADA.

1. The receipts on Capital Account during the half-year amounted to £73,702. 3s. 9d., and the total receipts to 31st January, 1867, to £5,242,383. 12s. 2d.

The aggregate expenditure to the same period amounted to £5,341,252. 15s. 1d. () leaving a balance to the debit of Capital Account of £98,869. 2s. 11d.

2. The outlay on Capital Account during the half-year has been £137,688. 19s 8d. This expenditure includes outlay on the Petrolia Branch Railway of 5 miles in length; extension of siding accommodation; proportion of cost of re-building in stone and iron the new bridge in course of construction across the Twenty Mile Creek at Jordan; sundry additions to stations and platforms; extension of mechanical buildings; a new Puddling Furnace for the Rolling Mill; outlay for Third Rail and Car Ferry Boat accounts; and for slip dock and landing wharf at Windsor.

3. The receipts and expenditure on Revenue Account were as follows :---

| £164,880 19 3      From which there has to be deducted      Interest on Government loan       Interest on bonds, &c. From this amount the Directors recommend a dividend at the rate of  $3\frac{1}{2}$  per cent. per annum, free of income tax, which will absorb £61,553. 3s. 5d., and leave a sum of £1,128. 13s. 9d. to be carried to the credit of the current half-year.

The loss on the conversion of American funds for the half-year was £48,228. 11s. 5d., as compared with £73,316. 17s. 11d. fo: the corresponding half-year of 1866. The conversions of the Company have been made at an average rate of 142, while the average price of gold during the half-year was 1423.

4. The following table exhibits the receipts and expenses for the last five corresponding half-years :-- ×

|                     | EXPENSES                              | EXPENSES.                  |                    |                         |                        |                                    |

| 31 Jan., 1867       | 169,985 16 4                          | 161,254 8 7                | 1,273 2 4          | 331,513 7 3             | 166,632 8 0            | 50.2                               |

5. The gross receipts for the half-year amount to £331,513. 7s.3d. against £387,039.6s. 1d., showing a decrease of £55,525.18s. 10d. but as compared with previous corresponding half-years they exhibit a steady increase.

The decrease during the past half-year has arisen in all branches of traffic, except local and through freight, which shows an increase of  $\pounds 7,708.2s.6d$ . The falling off in the Live Stock business from local stations to the United States amounted to  $\pounds 8,784.13s.9d$ . while the decrease in the through Live Stock business is  $\pounds 18,295$ . 18s. 5d. But it must be borne in mind that the traffic in Live Stock was unusually stimulated last year owing to large purchases having been made prior to the United States duty of 20 per cent. coming into operation.

The decrease in the through passenger traffic, as compared with the corresponding half-year, has been general on all through lines, and has chiefly arisen from the depressed state of travel caused by the close of the American War.

Civit

6. This half-year there are several special charges against Revenue, which amount in the aggregate to  $\pounds 6,349$ . 7s. 1d. These arise from a proportion of the loss resulting from the fire at Detroit Station in April, 1866; deficiency in working the Erie and Niagara Railway during its partial opening, and for the settlement of a long-pending dispute with the Suspension Bridge Company.

7. The Directors are happy to announce the completion of the narrow gauge track between Suspension Bridge and Windsor, and of the Iron Ferry Boat for the transport of cars across the Detroit river, which came into successful operation on the first day of the present year. Notwithstanding the difficulties attendant upon the commencement of through working over such an extended railway system as that between Chicago, New York and Boston, the results thus far have been most satisfactory, and have fully realised the expectations of the Directors, expressed in their last Report. 8. The requirements of the Oil District of Enniskillen have had the attention of the Directors, and a short line of five miles from Wyoming to Petrolia, constructed by independent parties, has been taken over by this Company for the cost of construction amounting to  $\pounds 10,038$ . 10s. 2d. The line was partially opened for traffic on the 17th of December, and on the 1st of January, came into full operation.

9. It was announced in the last Report, that progress had been made towards an arrangement with the Commercial Bank, in compliance with the authority given by the Proprietors at their Meeting on the 4th April, 1866. The main principle being that all claims against this Company have been withdrawn, the Detroit and Milwaukee Railroad Company agreeing to set aside a moderate annual sinking fund to redeem the claim of the Bank, and in the meantime to issue its Bonds in satisfaction of this and other claims; and to a limited extent these Bonds will participate in the surplus earnings of the Detroit and Milwaukee Road *pari passu* with the original loan made by the Great Western, and accrued interest thereon. The arrangement has the sanction of the legal advisers of the Company.

10. The gross earnings of the Detroit and Milwaukee Railroad for the year ending December 31st, 1866, were £340,935. 2s. 4d. and the working expenses amounted to £210,442. 16s. 11d., leaving a net revenue of £130,492. 5s. 5d.; of this surplus, the sum of £78,752. 17s. 1d. was absorbed in the payment of interest on all descriptions of prior Mortgage Bonds of the Company. 11. The Directors look hopefully to the future, believing that with the establishment of the narrow gauge track, the permanent welfare and advantage of the Great Western of Canada will be realised.

Signed on behalf of the Board of Directors,

### THOMAS DAKIN.

President.

LONDON, March 28th, 1867.

### REPORT OF THE ENGINEER.

ENGINEERING DEPARTMENT,

GREAT WESTERN RAILWAY, HAMILTON,

February 23rd, 1867.

### THOS. SWINYARD, Esq., General Manager.

DEAR SIR,-I beg leave to submit the following report to you upon the working of my department during the half-year ended 31st January last :---

\* Nore.-In the Capital Account No. 1, the amount is increased by the sum of £1,328, 38. 7d., arising-

| From Land purchases<br>Loss on sale of Municipal | Bonds | <br> | £1,047<br>280 |   |   |  |
|--|-------|------|---------------|---|---|--|
|  |       |      | £1,328        | 8 | 7 |  |

The cost of the Car Ferry Boat has been considerably increased by the addition of upper Passenger Saloons and Cabins, whereby it can be adapted for a Passenger Ferry Boat whenever an occasion should arise for its use. Its value has thus been greatly enhanced by a very moderate expenditure for such a purpose.

This boat was first brought into regular daily use on the first day of January last, at which date the Narrow Gauge Track and the "Blue Line" Freight Cars came into operation. The boat has fully answered the highest expectations which were formed of her, alike as to the power of the engines, the strength of the iron hull, and her capacity for crossing the river through the most formidable ice which a severe winter can oppose.

A load of 14 or 16 freight cars of the gross weight of 280 tons is taken on board or withdrawn from her tracks at the landing apron of the Slip Dock in a very few minutes, so that her capacity is equal to the largest amount of business which can reasonably be expected from the railways at present terminating at Detroit.

The Narrow Gauge Track of the main line with a limited extent of mixed gauge sidings, was brought into operation on the 1st ultimo. The working of this track with the altered sidings and switches, has been perfectly successful, but the number of Narrow Gauge Trains having been largely increased, it has been found necessary to add considerably to the extent of mixed sidings.

The total cost of the Narrow Gauge Track and Sidings to 31st ultimo is  $\pounds$ 145,817.13s. 6d., but the additional sidings about to be laid down will, of course, increase this sum.

t r n

A

### PETROLIA BRANCH.

This Branch, which extends from the Sarnia Line, a distance of five miles, into the heart of the most productive Oil region of Western Canada, was opened for public traffic on the 17th of December last. The nature of the country being extremely favourable, this short branch railway has been constructed at a remarkably small cost. The total expenditure to the present date is only £10,038. 10s. 2d. for five miles of railway, inclusive of rails, station buildings and all necessary adjuncts. Owing to the large amount of traffic at the Petrolia Station, it has been found necessary to purchase an additional piece of ground; and an extension of sidings, and the complete ballasting of the Station yard will necessitate a further expenditure of about £513, 14s,

| The cost for the corresponding half-year in 1866, was | £679 | 14 | 9  |

I am, dear Sir,

Yours faithfully,

(Signed)

### GEORGE LOWE REID,

Engineer.

### REPORT OF THE LOCOMOTIVE AND CAR SUPERINTENDENT.

GREAT WESTERN RAILWAY, MECHANICAL DEPARTMENT, HAMILTON, February 22nd, 1867.

DEAR SIR,-I beg to lay before you the following report of the operation of my Department for the half-year ending January 31st, 1867.

### LOCOMOTIVE SECTION.

Stock of Engines.—Our Stock of Engines remains the same as in previous half-years.

52 Passenger Engines.

33 Freight Engines.

8 Shunting Engines.

1 Locomotive Fire Engine.

Total ...

94 Engines.

Renewals and Repairs.—During the half-year shunting engine "Simcoe" has been reconstructed with a new boiler, this completes the entire renewal of the 8 Engines of this class termed in previous reports "Boston Engines," 7 only of which had up to this time been renewed.

In addition to this, a large portion of work has been done towards the construction of 6 Locomotives to replace the Lowell Engines numbering from 11 to 16 inclusive, which are now so old and worn as to be almost useless. The new Engines to replace this class are being constructed upon the most approved and substantial plan of four-wheel coupled freight engines and when completed will be a valuable addition to our stock, being of a much greater hauling capacity than those they are designed to replace.

Thirty-seven Engines received heavy repairs, and 10 light repairs. Thirtyfour cast steel tyres, 16 Lowmoor iron tyres, 1 cast steel and 1 Lowmoor iron crank axle, 8 straight engine axles, 4 pairs of new cylinders and 2 sets of new engine frames (for Slaughter's Engines) were supplied to the stock, in addition to other necessary new material, including wheels, springs, side rods, &c.  $\pounds 6,092$ . 9s. 4d. has been expended on renewals during the half-year, being larger than the amount usually expended for such purposes, but which is rendered necessary by the rapidly approaching period when several of the engines will become unfit for further use.

Expenses.—The following table shows the comparative expenses of the Locomotive Section for seven corresponding half-years :--

| HEADINGS.   | HALF-YEARS ENDING SIST JANUARY. |                   |                   |                  |                           |                           |                           |  |
|---|---------------------------------|-------------------|-------------------|------------------|---------------------------|---------------------------|---------------------------|--|
|   | 1861.                           | 1863,             | 1863.             | 1864.            | 1865.                     | 1866.                     | 1867                      |  |
| Total Locomotive Expenses<br>Per Centage on Earnings                          | £40,619<br>. 16.07              | £40,825<br>15·17  | £42,719<br>18:81  | £89,207<br>18:00 | £87,658                   | £89,288                   | £87,984                   |  |
| Number of cords of Fuel<br>Total Cost of Fuel<br>Cost of Fuel per Engine Mile | 15,692<br>£10,287               | 16,778<br>£10,214 | 17,967<br>£10,992 | 15,760<br>£9,291 | 12°10<br>15,051<br>£8,660 | 10.13<br>16,684<br>£9,899 | 11.46<br>17,549<br>£9,919 |  |
| Ditto Train ditto   | 2.80d.<br>8.86d.                | 2.254.<br>8.49d.  | 2-64d.<br>8-18d.  | 2-28d.<br>8-28d. | 2·34d.<br>8·25d.          | 2.38d.<br>8.16d.          | 2.47d.<br>8.45d.          |  |

Pumping Engines, Tanks, &c.—This branch of the department has been maintained in an efficient state. Three new wood tanks have been constructed, two of which were supplied to Princeton and one to Woodstock watering stations to replace the old decayed ones removed.

Turntables.-These are in an efficient condition, all necessary repairs were attended to as required.

### CAR SECTION.

Stock of Cars.—Towards meeting the requirements of the 3rd rail Blue Line Traffic, 15 narrow gauge box, freight Cars have been constructed during the half-year.

Since my last Report one second class Car has been built and added to the stock, 14 of the box Cars above referred to are entirely new, and will replace the deficiency in our stock of box freight Cars as given in last halfyear's report, making the full complement of 850. The remaining narrow gauge box Cars for the "Blue Line," are being constructed in the place of ordinary renewals of worn out broad gauge box Cars, so that this kind of stock in point of numbers will not be further increased.

The Car stock at the present time is, therefore, as follows :----

83 First Class Cars.

39 Second Class Cars.

20 Post Office and Baggage Cars.

32 Conductors' Cars.

850 Box Freight Cars.

106 Cattle Cars.

260 Flat and Timber Cars.

120 Gravel Cars (Engineer's Department.)

Total ... 1,510 Cars.

Renewals and Repairs.—The renewals and repairs of the Stock have been carried on as required, the sum of £5,169. 9s. 0d. having been expended during the half-year upon the renewals of the Car Stock generally, which is in good working order.

In addition to the above we have been extensively engaged during the half-year in constructing four new Palace Sleeping Cars, for Pullman's Sleeping Car Line, which are now in a forward state of completion.

### STEAMERS.

Steamer "Union."—This boat is in first-class condition, the heavy repairs to the boilers and hull, referred to in my last report, are completed, and having received a thorough overhauling, and been painted and cleansed throughout, the boat is in better order than she has been for many years past.

Iron Car Ferry Steamer "Great Western."—This boat which was completed (excepting a few cabin fittings) during the half-year has commenced running, and is giving the most complete satisfaction.

B

Steamer "Transit."-This boat is now worn out, and unfit for anything further than temporary use.

### BUILDINGS AND TOOLS.

These are in usual good condition, repairs having been attended to as required.

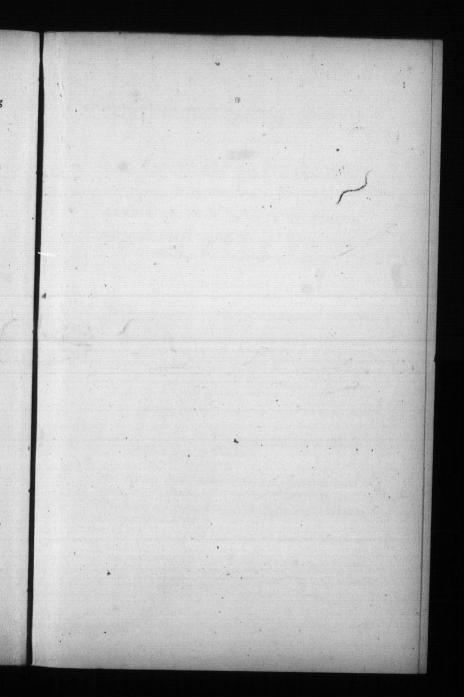

I am, dear Sir,

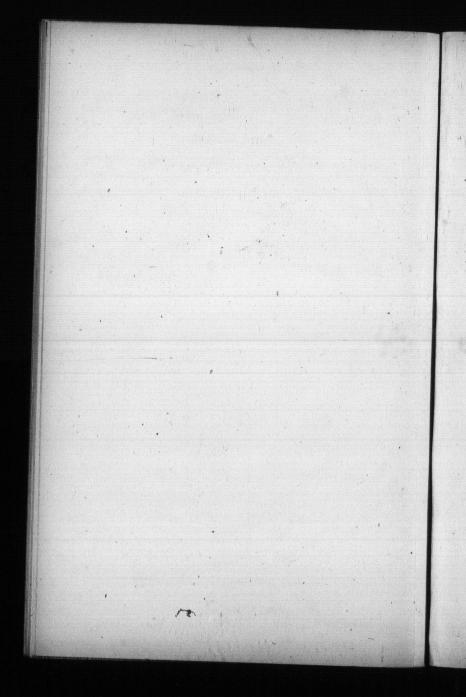

Yours faithfully,

W. A ROBINSON.

THOS. SWINYARD ESQ., General Manager.

Mechanical Superintendent.

# It a General Meeting of Shareholders

### OF THE

## GREAT WESTERN RAILWAY OF CANADA,

Held at the London Tavern, Bishopsgate Street, London, on Wednesday, 10th April, 1867, at 12 o'clock.

### MR. ALDERMAN DAKIN in the Chair,

The Secretary read the following Advertisement calling the Meeting :--

GREAT WESTERN RAILWAY OF CANADA.—Notice is hereby given, that the Half-yearly Meeting of Shareholders is appointed to be held on Wednesday, April 10th, 1867, at the London Tavern, Bishopsgate Street, London, England, at Iwelve o'clock precisely, for the purpose of submitting a report and general statement of accounts for the halfyear ending 31st January last : and for the transaction of other business.

And Notice is further given, that the Books kept at this office for the Registration of Shares will be Closed on and from March 27th, to the day of meeting, both days inclusive, and transfers cannot be received between those dates.

### By Order,

### BRACKSTONE BAKER, Secretary.

126, Gresham House, Old Broad Street, London, February 6, 1866.

The Minutes of the General Meeting of Shareholders held in London, on 10th October, 1866, were read and approved.

The Report and Accounts for the half-year ending 31st January, 1867, were taken as read.

It was proposed by the CHAIRMAN, seconded by Mr. ALEX. HOYES, and resolved-

"That the Report and Accounts for the Half-year ending 31st January, 1867, this day submitted, be received and adopted, and that a Dividend at the rate of 3<sup>1</sup>/<sub>2</sub> per cent. per annum, free of Income Tax, be now declared, payable in London on 1st May, 1867." It was proposed by Mr. W. HARTRIDGE, seconded by Lieut.-Col. EVELVN, and resolved unanimously-

"That the best thanks of the Shareholders be given to the Chairman and Directors for their attention to the interests of the Company."

It was proposed by Mr. W. CHAMPNESS, seconded by Mr. W. WILLESBOINET, and resolved-

" That the thanks of the Meeting be also given to the General Manager, Mr. Thos. Swinyard."

The Meeting then separated.

A true extract.

### BRACKSTONE BAKER, SECRETARY.

126, Gresham Street, Old Broad Street, London, 10th Mpril, 1867.
