Politics and Cattle.

Political partisanship has done a

good deal at times in the way of work-

ing public injury, and even papers of

considerable pretensions do very small

things to gratify their party prejudices.

We all know the sentiments of the St.

John Sun towards the local government,

and are always prepared for

manifestations of its antipathy in that

direction, but hardly anticipated such

an unwarranted attack as it made upon

him in connection with the recent

cattle importation. As everybody

familiar with the subject knows, the

public were a superior lot. The prof-

ess of this is the fact that our farmers

attended the sale in large numbers and

the prices realized fared up just about

what was paid for the stock in the

upper provinces. The Sun, however,

criticized the government for importing

from Ontario instead of buying up

animals already in the province. As

the object of the importation was to

improve the stock of the province, it is

not easy to understand how this could

be done without increasing it by bring-

ing in additional pure-bred animals.

After alluring the importation in its

usual style it concludes as follows:—

"At this stage we do not say much

about the awful blunder of bringing

diseased stock into the province. There

is no longer any doubt that this has

been done, but yet it is not known

how many animals are affected, or what

number of previously healthy ones

have been exposed to the contagion. This

state of affairs is alarming enough,

but before much is said about it one

would like to be fully informed as to

how far this apparently criminal care-

lessness has involved the whole im-

portation."

It would be much better if the Sun,

instead of hinting about the "awful

blunder" etc., had informed itself more

fully and then stated the facts. That,

however, would not suit the purposes

of those who employ that paper to

carry on its crusade against the govern-

ment.

It might have given the government

some credit; the fact that the recent

importation was the first ever made by

the province in which the tuberculosis

test was made a condition of the pur-

chase. It might also have ascertained

the fact that the ten Jerseys, of which

seven were said, after arrival, to be

unhealthy, were not mixed with the

other cattle in transport, but brought

along by themselves because there was

no time to test them according to the

government's instructions and the

commissioners deemed it undesirable to

leave them behind and make a second

shipment of them, especially as they

were at the owner's risk and the govern-

ment was not committed to their

purchase until they passed the test.

The Sun might have learned, had it

desired to be correctly informed, that

until the Jerseys were submitted to

the test, they were kept by

themselves and not offered for sale,

but remained subject to their owner's

order. If the importation had been

made under the conditions of former

ones, there would have been no test

and no discovery that these seven

were affected by tuberculosis.

THE COUNTY AGRICULTURAL SHOW and ploughing match on the Palace farm to-day, ought to attract a large number of visitors. The exhibits slowly entered are numerous. Refreshments and a dinner will be provided on the grounds. The imported pure bred stock purchased at the recent government sale in Fredericton is to be shown at three o'clock.

AN ALARM OF FIRE, or rather two or three alarms were caused by Mr. John Pearson's house in the eastern end of the town taking fire from sparks, the origin of which is differently stated by different people. It was put out by seven men with buckets. The fire extinguisher held the engine back, as they thought the alarm was one of the kind that has been lately coming from that part of the town.

PERSONAL—Major Benson who has been making a holiday tour in the upper provinces, is home again.

Mr. G. O. Hay was in town on Saturday.

Mr. Moore Kelly is in town.

Mr. J. D. Chipman, assistant freight agent of the C. P. R. was in town last week.

Mr. Joseph, Chief Supt. of Education, New Brunswick, was in town last Thursday evening.

His Old Teacher—One of the old contributors appears to have got into the "barber's chair" of the Advocate's sanitarium and was allowed by the nominal editor to employ the usual obsolete language toward the editor of the ADVANCE, all of which shows that certain old sores still rankle. We recommend a period of seclusion to last week's writer and wish him a little rest of mind. His kindly appears to have nestled him.

PUBLIC USED STOCK—Northumberland Agricultural Society purchased through Messrs. G. P. Seale and Geo. E. Fife as delegates for the purpose, nearly \$900 worth of improved pure bred stock in the form of government sale in Fredericton. The animals consist of 2 Ayrshire bulls, 1 Ayrshire heifer, 1 shorthorn Durham bull, 2 Holstein calves, 2 Shropshire and 2 Leicester rams. All these but the Leicester ram will be sold on 3 p.m. today on the Exhibition grounds. Public use.

Wentworth's Monkey Theatre—Prof. Wentworth and his wonderful troupe of trained monkeys will play at the Grand two days, commencing Friday, Oct. 12th. In addition is added the Queen's Jubilee Procession and Prof. Harry J. Daniels and his wooden family. It is a great show.

Mrs. Harrison's Concert—Nearly all the reserved seats for Mrs. Harrison's concert, which is to take place in Masonic Hall, Chatham, tomorrow evening, are sold. The entertainment is commencing at an excellent hour, as there are numerous attractions besides the numbers on the programme that are to be rendered by Mrs. Harrison herself. Amongst these are Miss Hesse of Montreal, so favorably known to many Miramichi people as a violinist, Mrs. Chas. Gargan, Miss Edgar, Miss Queenie McCoy, Mrs. H. E. Pallen, Mrs. S. McGee, Mrs. Linda Pallen and Mr. A. E. Miller.

Honesty—Mr. Editor—What is meant by the World pleading that there is a change in the Council it will remove honest men? Nobody has claimed that the deals supplied to Chairman Loggie's street committee has not been honestly secured, and nobody has charged anything improper in connection with the supply of bricks for the public building, or of spikes, etc., by the chairman of the fire committee for street service.

Nobody has questioned the honesty of the Council contracting to pay \$12,750 for a building which cost at least \$15,000 when they know that they had only \$10,000 with which to foot the bill.

Everybody might question the safety of the principle involved in some of these matters, but so far little has been done in that direction.

What's the motive of the World in challenging criticism on the subject, just now?

Lucky Sportswoman—A gentleman from Miramichi, who was in St. John's on Monday says the New Brunswick is growing in favor with American sportsmen. Already he says there have been more sportsmen in our woods than came together last year, and they are all having good luck. One party who had been in the Miramichi woods for eighteen days brought out three heads of big game and could have got more if they had wanted to shoot all the moon and caribou that fill in

smaller. The crop throughout this and adjoining county of Cumberland and is about as average one, and he thinks the farmers will find more hay than last year when they have it all gathered in. They will finish with their broad leaved crops of these days. The crop on the lower marshes is not quite so good as last year; on the upper marshes it is reported much better.

Richibucto News—Richibucto, Oct. 4.—In the second trial of Kinella before the circuit court, the jury disagreed again. Judge Lacombe granted an order for another trial to take place at the next sitting of the court, Kinella was released on bail on Saturday. Loggie found guilty of attempted rape, was sentenced two years in the penitentiary. The court adjourned on Saturday morning.

A short investigation was held at the Marine hospital on Saturday morning concerning the death of William K. Adair of the bark Valosa. The evidence of the officers and part of the crew was taken. The officers stated that Adair had been frequently warned to stand from under the tub while they were being hoisted. On the other hand, the sailors claimed that the rigging on the tub was not secure enough for the work. The remains were interred in the Presbyterian cemetery, on Saturday afternoon.

A Pleasant Farwell Visitation—Rev. Joseph McCoy, A. M., who has just severed his pastoral connection with St. Andrew's Church, Chatham, cannot but be gratified over the manifestations of regard in which he and his estimable family are held in the community which they are to remove from going by tonight's train. One of these was that of Monday evening, when the Manse was the scene of a large gathering. One after another of their friends gathered there, until it began to dawn upon them that the visitors had a common purpose, and a number of others are now on the trail. They spend considerable money in the Province.

HARDWICK—Messrs. P. Williston, J. Sullivan and John A. Mills were nominated in Hardwick. We understand that Messrs. Williston and Mills were elected.

Ride Competition—A ride competition took place on the Wellington range on Tuesday. It was for money furnished by the Dominion Government and the amusement used was also provided gratis from the same source. 118 riders were present. The object was to call a County fairs association competition, but nobody, excepting members of the active militia and retired officers were allowed to compete. The interest in the meeting was therefore, not what it should have been, and it is not to be wondered at that the showing on the score sheets was discouraging to all who wish to see the liberal encouragement which the government gives, with the view of promoting marksmanship, fruitful in results.

The ADVANCE made application to the secretary on Tuesday evening for information concerning the making and was promised to be sent to him on Monday 11th inst. He kindly furnished a list of winners' names, noting the number of the prize won opposite to them. That was all. A second application was made to the secretary in which our representative explained that the ADVANCE desired to make a report of the competition in the usual way, giving the terms of each match—the ranges, number of shots at each range, prizes, and winners. He made at each range and winners. We were told that the World was furnished with the same report given to the ADVANCE, but a better one was promised. On the second occasion the secretary furnished the following:—

Novices—Ranges 200-400 yards, 5 shots at each.

As to the remarks you have made concerning the idea of the loss we are to St. Andrew's Church, we feel that our Divine Master, the Lord Jesus Christ, the great King and head of the church, is not lacking in either servants or resources, and when He takes away one, He has another to fill the place, or it may be several to arrange in such order as to do his work more efficiently.

Some in their sorrow at separating, have said that they could never feel the same in St. Andrew's Church. Let me say in answer to all such remarks, that I hope such feelings will not be entertained. I cannot be sure that I shall ever be so interested in the prosperity of St. Andrew's Church. One cannot help having a deep interest in an organization to which he has devoted earnestly the energy and service of right of the best years of his life. And although there may have been differences of opinion, I can honestly say that I did my best according to my judgment to build up the same. St. Andrew's Church, and Presbyterianism generally, I should never to interfere with the progress of others, but to advance and defend our own. I wrought out for a temporary effort, but to produce results that would stand the test of eternity. We may not see it now, but I trust it will be given to us to see it by-and-by. It will be no satisfaction, therefore, but the reverse, to hear that they are anything for St. Andrew's Church in the future but true progress and efficient work in the blessed cause of our Lord Jesus Christ.

May He direct and bless you all.

Amongst those present was Rev. Mr. Bruce of Loggieville.

The nurse which was presented by Mrs. Robert Loggie, in behalf of the donors, contained \$120 in gold.

There was an impromptu party at the residence of Mr. Jas. Edgar on Tuesday evening, at which the members of St. Andrew's Church their presented. Miss Queenie McCoy with a diamond ring, in recognition of her services to that organization.

The Hay Market—(Continued from page 1.)

Bliss Anderson, one of the largest dealers in hay in this part of the province, is among the Post that the market will not be as good this year as last. Last year, he says, the market was at about 85, but now he does not think it will go much above 87. This is due largely to the attitude of the lumbermen along the northern part of the coast.

The bottom has dropped out of the lumber market, and the lumbermen will not part on such small scale this season. Last year at this time Mr. Anderson says he had frequent demands from buyers from parts north of Montreal, but as he has not had a single order. The two counties, Westmorland and Cumberland, shipped between five and six thousand tons north, but this year the amount shipped north, Mr. Anderson thinks, is very much

and the elements so mixed in him, that Nature might stand up and say to all the world, "This was a man." He urged upon the teachers the importance of study and self-culture in order to approach as nearly as possible this ideal. He was in favor of allowing teachers considerable latitude in regard to methods and even courses of instruction, regarding the favor of higher salaries, and of less crowded classes.

Inspector Meresseau, who had travelled from Carleton to attend the Institute, wished to emphasize that part of Dr. Lacombe's grant as an order for another trial to take place at the next sitting of the court, Kinella was released on bail on Saturday. Loggie found guilty of attempted rape, was sentenced two years in the penitentiary. The court adjourned on Saturday morning.

A Lively Court Scene—At a session of the Court of Queen's Bench, Montreal, on Thursday last, the cross-examination of Mr. Greiner, defendant in the Tarce-Greiner case was proceeding, when lawyer St. Pierre called upon the witness St. Pierre to publish the portraits of leading Liberal politicians in the "Via Illustrate." Mr. St. Pierre's counsel, Mr. Greiner, with having pocketed this amount for his own benefit, he placed his accounts in Mr. Desaulniers' hands, and he must have collected between three hundred and four hundred dollars for Mr. Mercier's benefit.
