TOMMY ATKINS NEEDS RELIGION

Secretary Haldane Asks for Greater Interest in the Army.

Efforts Will be Made to Secure Employment For all Time-expired Men—Other Improvements Talked About.

LONDON July 12.—War Secretary Haldane, in opening the new portion of the soldiers' and sailors' home at Pinlloe last night, said unless the people work for the welfare of the soldier outside his bare profession, they would not get the quality of men needed. They could not induce men to give the country their best unless they were prepared to hold out some prospect of care and help, due those willing to lay down their lives for the nation. For some time he said, a war office committee had been laboring on plans along these lines and for the co-operation of existing agencies with some state assistance for a systematized arrangement for providing employment for former soldiers and improving their material condition. The committee's report would show how deeply the religious aspect had impressed those concerned with the army. Mr. Haldane was not connected with any particular denomination, but held the profound conviction that unless those concerned with the welfare of the soldier strive to awaken in him a sense of his duty, he will be lost to the state. He said the army council had decided to appoint a committee as part of the regular army organization, charged with looking after the spiritual needs of the soldiers on a broad and comprehensive basis. All churches would be represented on this committee and the names of the members would be laid before the House of Commons.

ORANGEMEN ALL OVER THE PROVINCES CELEBRATE THE GLORIOUS TWELFTH.

A large number of Orangemen and other pleasure seekers left the city this morning for various points of interest. The Orangemen of the city, led by their president, Mr. J. H. Dyer, and accompanied by the Carleton Cornet band, marched to the station, where they took a special at 1:30 o'clock, for Sussex. Eleven carloads of people left by this special, of which over 200 were Orangemen. On leaving German street, the Cornet band, playing lively airs, marched in front of the procession, immediately followed by the "Black Knights" and other members. It was a gay company that proceeded to the train with their banners, held to the breeze. The celebration at Sussex, and this will be the fifteenth which she has had the pleasure of participating in.

ST. SEPHEN, N. B., July 12.—Every-thing now looks promising for a great celebration of the twelfth. The rain which has been falling for the past twenty-four hours has ceased. Members of the neighboring lodges of Charlotte county and Eastport are pouring into town and it is expected that there will be between three and four hundred in the grand parade, which will leave the city at half-past two in this afternoon headed by grand master Harry P. McLeod of Fredericton, preceded by King William and through Water, Hawthorn, Union, Marks, Queen, and King streets. Two bands will be attending the parade. The meeting in the rink addresses will be made by Grand Master H. P. McLeod, J. Simpson, Foster G. Calder, Rev. G. M. Young, M. MacMongale and others. A ball in the rink will conclude the day's festivities.

ON THE NORTH SHORE. CHATHAM, N. B., July 12.—Orangemen of Northumberland county turned out in good force today to celebrate the glorious twelfth, commencing with York Co. brethren in a monster picnic at Doaktown. At 8 1/2 o'clock a train left New Castle with a big contingent from No. 47, and Newcastle and other bands. At Chatham Junction they were joined by Derry Lodge, Loggieville, True Blue Lodge, Chatham and Nelson. Members were picked up at intervening stations and upwards of five hundred arrived at Doaktown. The day is being spent in impromptu sports and amusements. The day here is being quietly observed.

REPAIRING LEAKS IN THE PARTRIDGE ISLAND LINE.

Diver Leahy Has Been at Work for Some Weeks and Has Had Good Results.

For the past three or four weeks Diver Edward Leahy has been working over the pipe which was laid from Port Dufferin to Partridge Island, tightening the joints and endeavoring to stop the leaks. This pipe, which is six inches in diameter, made of wrought iron and fitted with ball and socket joints, was laid last winter for the purpose of supplying Partridge Island with water. The pipe is, roughly, 4,000 feet in length, and is laid on an almost perfectly flat bottom in the channel. The bottom is of sand for almost the whole distance, the only roughness being about 100 feet extending out from the Partridge Island shore.

ZION CHURCH MATTERS.

Stewards Say Some of the Names on the Petition Were Forged.

In connection with the internal dissensions of Zion church which have caused so much discussion in the press, the following statement handed to the Star by Arthur C. Powers, recording steward, is of special interest at this time. "Perhaps a few words concerning a certain petition that was presented to the recent conference, the prayer of which was not complied with, may not be deemed out of place. We have devised saying anything for the press, but in view of the efforts which have been made to induce persons to leave the church in justice to ourselves and our new minister demands our silence should be broken. Of the ninety-six names on said petition sixty-seven are either connected with other city churches, or of whose church affiliations we know nothing. None of these are other members of the church, pew-holders, or envelope contributors, and of the balance only four contribute weekly by envelope. It is true that five or six have given up their pews, but some of these have already been taken by others. On one fact special note should be taken, some of the names on the petition are forged."

NO PROPRAGATION TILL SUNDAY BILL PASSES

OTTAWA, Ont., July 12.—This morning in the Senate, Senator Kendry declined to allow the rules to be suspended so the Sunday bill could be read the second time. Senator Scott announced that prorogation had been postponed and would not take place until the bill was put through.

TWO BALLOTS TAKEN, NO BISHOP CHOSEN

Canon Richardson Leads For the Office of Coadjutor.

Got the Largest Number of Votes in Both the First and Second Ballots—Third Ballot Taken at 2.30.

FREDERICTON, N. B., July 12.—The Church of England Synod entered upon its third day session at 10 o'clock this morning. After the regular opening the Synod at once proceeded to the election of a Bishop Coadjutor. Judge Hanington suggested that each go forward and vote as his name was called, the clergy, of course, voting first. It was well understood that the voting was by ballot. Rev. Mr. McKell asked if a candidate did not receive his proper title on his ballot if the ballot would be invalidated thereby. Canon Newham said certainly not as long as the ballot showed who was meant it would be perfectly good. Before proceeding to election Commissary Neales led in prayer in which the whole Synod joined. On motion of Judge Hanington seconded by Chancellor T. C. Allan, the Synod then proceeded to the election of a Bishop Coadjutor, the secretary calling first the roll of clergy and then the roll of the laity. As each name was called those present advanced to the platform and deposited his ballot, the clergy depositing in one box, and the laity in another. Rev. G. F. Schofield and Hon. J. P. Burchell were appointed tellers of the clergy and the Rev. H. E. Dibble and Montgomery Campbell of the laity vote. They announced that fifty-six clergymen had answered to their names and that fifty-six had voted, that fifty-one lay representatives had answered to their names and that fifty-one had voted. The Canon requires that in order to elect a Bishop he must receive two-thirds vote of each order. This makes necessary for election that the successful candidate must receive thirty-eight of the clergy vote and thirty-four of the lay representatives.

CHARLOTTETOWN, P. E. I., July 12.—The new officers of the Maritime Medical Association are: President—A. B. Atherton, Fredericton. Vice-presidents—T. D. Walker, St. John; M. A. Curry, Halifax; John Sutherland, Bedouque, P. E. I.; Hon. Secretary—G. G. Melvin, St. John.

THE morning M. A. B. Smith, of Dartmouth, read papers on the Treatment of Pneumonia, by A. McGrant, on Neurosthenia, and Dr. Stewart, of Halifax, on Ectopic Pregnancy.

CRUEL TREATMENT OF LAMBS ON RIVER BOAT

Five of Them Nearly Smothered in a Little Box—Secretary Wetmore Will Take Action.

A case of cruelty to animals which would seem to warrant prompt action by the secretary of the S. P. C. A. occurred on the steamer Crystal Stream yesterday afternoon. When the boat arrived Mr. Wetmore, as usual went on board, but for a time failed to notice anything which would call for investigation. There was a small packing box among the freight on the steamer, to which no attention was at first paid, but, greatly to Mr. Wetmore's surprise, he later on discovered that the box contained five live lambs. The box was 2 ft. 2 inches square and of the same depth. In it there was not room for one lamb to stand up, and the five poor little creatures which had spent the whole afternoon in the box were almost dead when landed. The box had been boarded over and the shipper was a man by the name of Slipp, who lives at Thompson's wharf and Mr. Wetmore will in all likelihood take action against him as well as against the steamship company for their share in the affair.

ACCIDENTAL DEATH THE WESTFIELD VERDICT.

Jury This Morning Freed Train Hands From All Blame in Death of Mrs. Gallagher.

The jury empanelled to enquire into the cause of the death of Mrs. Michael Gallagher, near Westfield, today decided that she came to her death by being accidentally struck by the train coming from Boston yesterday morning. The jury exonerated the train hands from all blame and stated in their verdict that everything possible had been done to avoid the accident, and that the train had been stopped in a remarkably short time. It consisted of eight cars and was brought to a standstill before it had gone the length of itself.

PERPETRATED BY TURKS HORRIBLE OUTRAGES

TIFLIS, Trans-Caucasia, July 12.—Alarming news has been received here of horrible ravages by Turkish troops across the border, in Turkish Armenia. Soldiers who were collecting taxes are said to have indulged in frightful outrages. The population of the city of Van is reported to have been nearly destroyed by the Turkish troops who pulled down houses, assaulted the women and acted generally like wild beasts.

THE SULLIVANS AGAIN.

Mrs. John Sullivan will know to the police officials, having been prominent in a number of cases and generally known as Queen of the Assyrian colony, called the police court today docked out in the latest fashion. She patiently waited until the proceedings of the court had finished and then made a charge against her husband. In her whining tone of voice she poured forth a great amount of trouble in a very few minutes. She said her husband had left her, taken their baby, five years of age, from her, broken her gold watch and taken the bed from under her, leaving her to sleep on the floor. She was told by a court official that a husband could not steal from his wife, nor could a wife steal from her husband. The child was as much the husband's as the wife's and the official, out of breath after explaining matters, looked weary when the Queen asked, Why? She was told to go and tell her troubles to a lawyer, and after a few minutes' hesitation she left the court room.

MYSTERIOUS DEATH
IN WINNIPEG HOTEL

Girl Was Found in the Room of a Brandon
Man Who Disappeared
Afterward.

WINNIPEG, Man., July 11.—A mystery
surrounds the death of George
Bryan, a young girl who came here
recently from Montana, and who was
found dead in a bedroom occupied by
Wilson Todd at the Imperial Hotel
here today.

There was practically nothing to indicate
the cause of death and no marks
of violence have been discovered. On
the washstand was a glass containing
a small quantity of whiskey. The
glass was broken around the edge as
though it had been bitten between the
teeth in some paroxysm and on the
bedclothes to face of the woman were
pieces of glass which correspond in
thickness to pieces broken from the
glass. A piece of cotton button was in
the mouth and a towel had been apparently
held to the mouth also. Blood
was on the towel and on the pillow.

The body was discovered as a result
of the clerk of the hotel getting a telephone
message to inspect Todd's
room, and on visiting it and forcing
the door which had been locked the
gruesome find was made. The girl had
then been dead evidently about twelve
hours.

Todd, who is a grain buyer at Brandon,
and well known, had suddenly left
the hotel about that time on Monday.
Some believe the girl died in a fit and
Todd, becoming alarmed, fled.

OTHER NATIONS AND JEWS.

During the past few years the world
has been shocked by stories of out-
rages perpetrated upon Jews residing
in Russia and other countries. For
the past twenty centuries these people
have been looked down upon by Christian
nations, chiefly on account of the
part they played in the history
of the world. But in these later days,
the Jews have not been persecuted for
this alone, and it is hard to find a reason
why they should be so systematically
ill-treated by all other races. In
Russia the anti-Jewish fanaticism
does not take its origin in the memory
of the crucifixion so much as in certain
existing conditions and because of
racial characteristics which make the
chosen people obnoxious to those
among whom they live. What these
characteristics are, can scarcely be
made plain, but that there is an indefin-
able something, the direct cause of
later day persecution, cannot be doubted.

This antipathy towards the Jewish
race has heretofore been found for the
most part among the less finely developed
nations, but it is coming to the
surface today in free and enlightened
America where all people are supposed
to be equal. The Jews are, as a nation,
inoffensive. They are industrious,
temperate, persevering, cautious, and
shrewd. In business dealings they are,
according to ancient traditions, sharper
than men of other races. With such
national characteristics they cannot do
other than meet with success, and so
it has come about that Jews, not only
in the old world but in the new, possess
a large share of the wealth, rank high
in the mercantile world, and to a
certain extent influence commercial
generally. In America, in every large
city can be seen many of the finest
business houses and residences owned
by Jews, and these people are recognized
as an important factor in the
national life. But in spite, or perhaps
because of, their standing, there is in
America, a steadily increasing dislike
of the Jewish race. This can be noted
anywhere in the older sections of the
country, and it is becoming more
pronounced every day. Buyers are be-
ginning to avoid Jewish merchants
elsewhere, but it is in the social life
that this antipathy is most noticeable.

The Jews, or at least those of them
who are comparatively well off, seek
the best of everything. They spread
themselves among the Christians, and
endeavour in a quiet way, to be so-
ciable. Their advances are but coolly
met, and they are often plainly shown
that their presence is not desired. It
is not an uncommon thing in the East-
ern States, for out of town residents
in describing the suburbs in which they
dwell, to add a statement whether or
not any Jews are to be found there.

And indeed real estate agents are al-
most always asked that question, the
presence of Jewish tenants being re-
garded as an undesirable feature.

In Canada we have not yet come to
look upon the race in such a way. The
few people of this eastern nation, who
live in the dominion have always con-
ducted themselves in a manner which
has earned for them the respect of
the same. There are, however, in the
same is true of Jewish residents
in the United States, and it is difficult
to know what has created the now
strongly marked dislike of these peo-
ple.

AFTER MAYOR SEARS AGAIN.

Another gratuitous insult was offered
Mayor Sears yesterday at the meeting
of the board of works. His worship
had, in an endeavor to help along civic
business taken time to examine, in
company with the director, a certain
piece of sidewalk. He volunteered an
opinion on this, and was told to mind
his own affairs. The man who made
this highly creditable remark was
elected by the citizens of St. John to
carry on in the best and most expeditious
manner the work of the city. This is
how he does it.

Mayor Sears is not the director of
public works. He is only the mayor,
and as such seems, according to some
of the aldermen, to be entitled to all
possible disrespect. It may be that his
worship occasionally takes a share in
work which is not a part of his duty,
and which others are supposed to look
after, but in this, if he can by any
means advance the interests of the
city, he should be encouraged.

The board of works sat down on the
proposed excursion to Ottawa. This is
a wise move, for the trip, in so far as
Protection street shore matters are
concerned, is entirely unnecessary. The
city does not require the opinion of the
government on this project.

SALONICA, July 11.—The trial of 25
peasants implicated in the murder of
28 Turks a year ago ended today. Of
the accused twenty-one were sentenced
to death and fourteen were acquitted.

WARSAW, July 11.—Sensational
rumors current today that an anti-
Jewish outbreak might be expected
tomorrow have resulted in a panic
and thousands of Jews have fled the
town.

THE FISHERMAN'S RUBAIYAT.

I. Wake! for the clock is several hours late,
And in the pools the eager troutlets wait,
All longing for the brilliant-colored fly,
While from your flask comes gurgle of the bait.

II. I sometimes think they never grow so hot
The words that we are prone to use a lot
As when some fish is hooked and played quite well,
And when you reach for him you find he's not.

III. What! if the boy can fling the reel aside
And with a crooked stick that we deride
Catch for a morsel fish than we of fancy rods,
Were't not a shame for us to harbor pride?

IV. Myself, when young, did eagerly frequent
The fishing streams and heard great earnest
"Bout fancy lures, and rods and reels and such,
But always caught 'em with pin bent.

V. Ah, pard, could you or I conspire
To use worms to our heart's desire,
Instead of sticking to our fly-hook track
Could not each be made a better liar?

TWINS, EH!
The passenger agent of a Jersey road
says that he chanced to be in the ticket
office at Trenton one day, when a woman
came into the station for the purpose
of buying half-fare tickets for two children
she brought with her.
"How old are your children, madam?"
asked the ticket seller.

"Only 6, sir."
"Both of them?"
"Yes, sir; they're twins."
The agent smiled. Then, after eyeing
the youngsters with an expression of
incredulity, he observed: "Pretty lads.
Where were they born?"
"This one," replied the unwary mother,
"was born in Elizabeth, and the other
in Jersey City."—New York Times.

OR JAUNDICE.
Buxom Widow (at evening party)—
Do you understand the language of
flowers, Crusty?
Dr. Crusty (an old bachelor)—No, ma'am.
Widow—You don't know if yellow
means jealousy?
Dr. Crusty—No, ma'am; yellow
means biliousness.

WATCH IT.
Patient—Doctor, I feel a little pain
between the shoulder blades, and I'm
anxious to know what it is.
Doctor (after examination)—Nothing
serious. Just a bolt coming up your
back. You'd better keep your eye on it
all the same.

NO PLACE TO KEEP IT.
A lover of rare old china had a collection
that was the envy of her visitors.
One day a little girl came with her
mother for a call, and, being seated
in the living room, wonderingly eyed
the array of antique dishes.
The hostess was much pleased at the
child's evident admiration of her treas-
ures and said: "Well, my dear, what
do you think of them?"
The child looked up and pity was in
her eyes as she asked: "Hain't you got
any pantry?"—Hittsburg Leader.

AN UNTAUGHT MOTION.
Mrs. Carrie Chapman Catt, the famous
woman's rights leader, said of an
unsuccessful motion at a woman's club.
This motion in its delicacy, reminds
me of a Ripon man.
"The man got married and after he
had been married several years his
wife said to him one night:
"You do not speak so affectionately
to me as you used to. Hal, I fear you
have ceased to love me."
"Ceased to love you?" growled the
man. "There you are again. Ceased
to love you? Why, I love you more
than life itself. Now shut up and let
me read the paper."

IT MADE HIM SMILE.
"Phat are yes laughin' at, Mike?"
"It was thinkin' about the earth-
quake."
"That's a queer thing to be smilin' at."
"But it makes me laugh to think how
funny it must sound when the people
of Jupiter, after gettin' shook up, stand
around talkin' to wan another about
the Jupiter-quake."

TOO BIG A FIELD.
Years ago, while Reverend Shand-
aloupe was a student at the seminary,
he undertook, one vacation season, to
sell fire-extinguishers.
His pleasing address and affability
enabled him to make many sales. How-
ever, he encountered the usual rebuffs
which are the experience of all agents.
The theological student had gained
access into the office of a surly broker,
and forthwith began expatiating on
the deluging powers of his incompar-
able fire-extinguisher.
"To hell with it!" roared the broker,
fervidly.
"Oh, my dear man," expostulated
Shandaloupe, "this extinguisher does
not deserve the extreme virtue with
which you credit it."

KNEW HIM.
The officious was very small, and
the churchwarden was apologetic to
the vicar for it. "The fact is," he re-
marked, "I made an awful blunder,
Jenkins being away, I asked Smithson,
the rate-collector, to take round the
bag. From sheer force of habit every
man in the congregation asked him to
call again."

MILADY'S COW.
In her boudoir a lady keeps a cow,
And why? You'd miss it in a thou-
sand guesses.
I may as well proceed to tell you now
To hook her in the back whenever
she dresses.

MRS. TRACEY RELEASED
ON MURDER CHARGE

She Killed Forest Howard in Self Defence
When He Had Assaulted Her.

RICHMOND, Vt., July 11.—After telling
her story before Judge Mivins in the
Kings Court at Sherbrooke, P. Q., Eva
Beard Tracey of Glen Farnham, a
young woman accused of the murder
of Forest Howard, whom she shot and
killed a week or more ago, was ac-
quitted, it having been shown that she
was compelled to shoot Howard in
self-defence. Mrs. Tracey is 23 years
old. Aside from her two children, who
are mere infants, and the man she
killed, she was the only witness of the
shooting. She testified that in the ab-
sence of her husband, Howard, who
was well known to her, entered the
house and made an attack upon her.
Twice she resisted and managed to
escape from him and when he ap-
proached her a third time, she seized
a loaded shotgun which was in a cor-
ner of her bedroom and fired at him.
The heavy charge of buckshot struck
Howard in the left side, some of the
shot penetrating his heart and killing
him instantly.

The verdict in the Kings Court was
in accordance with that found by the
coroner's jury which found that Mrs.
Tracey killed Howard in self-defence.

THE BIG CIRCUS.

Barum & Bailey's Advertising Man Tells
of the Organization of the Show.

Barum & Bailey's No. 3 advertising
circus was in the city today and a small
army of bill posters and lithographers
has been busy recovering the bill-
boards and brightening up the gal-
lery-colored circus paper in the store win-
dows. This will be the last advertising
car visit to the city before the coming
of the big show to St. John, July 20.

According to W. D. Coxe, one of
the agents of the show, the Barum &
Bailey circus will prove a local revela-
tion to local show-goers.

"There are many interesting features
of the big show, however," said Mr.
Coxe, "that the public never sees.
The paraphernalia is impressive in its
magnitude, and the performance sends
the crowd away filled with wonder-
ment, but the motor power behind the
show is the marvelous organization
that makes its operation possible
is not in evidence to that part of the
people who see the performance and the
multifarious exhibitional features,
and nothing else.

"The Barum & Bailey show employs
the services of nearly eleven hundred
men and women; it requires eight-
eight cars to transport it from city to
city; its staff of agents embraces a
dozen men who are paid salaries equal
to those received by a bank president;
it has four advertising cars, and nearly
a hundred men are engaged passing
billboards and spreading the tidings of
its coming; it spends a quarter of a
million dollars every year for printing;
its newspaper bills aggregate another
hundred thousand dollars; it maintains
a press bureau with five newspaper
men to keep in touch with the public
through the press; it employs over
200 hundred high salaried performers;
it maintains a spectacle at an average
expense of \$1,000 a day; it comes into
town at daybreak, puts up twelve acres
of tents, plays to from 15,000 to 25,000
spectators, and the next day is doing
the same thing at a hundred miles
away; it carries its own commissary
department, feeds its hundreds of em-
ployees in great dining tents as well
as as generously as a first-class hotel,
and far more expeditiously; and
handles through its ticket warehouse and
financial department from \$5,000 to \$15-
000 every day and costs from \$5,000 to
\$7,000 every day it runs.

The Barum & Bailey show exhibits
its magnitude and system in other
ways. It is the only show that
provides tents for the transaction of its
financial business, for the manager
and for the staff of bookkeepers and
auditors. There is also a press tent
for the use of the newspaper men.
Every ticket is a coupon ticket, and
everyone who buys a ticket for the
show is insured a seat. Standing room
is never sold. There are three kinds
of seats, a grand stand chair, a slip-
down reserve seat and a general ad-
mission seat. The latter all have foot
rests, which means double expense to
the show—a double number of boards
and a double force of men to handle
them.

"The performance is given on a col-
ossal scale and the menagerie is im-
mense. A dozen different exhibitions
are given for one price of admission,
and every way one turns there is some-
thing suggested by the magnitude and
broad gauge character of the great
show.

"There is no parade this year; the
show has become too big to make a
street procession either necessary or
desirable. The show draws entirely on
its merits. The lack of a parade is,
moreover, more than compensated for

FIVE KILLED IN A BUFFALO COLLISION

BUFFALO, N. Y., July 11—A train of two trolley cars westbound from Lockport on the lines of the International Railway Co., and due at Tonawanda at 9:55 o'clock tonight, ran into an open switch at a siding just east of Martinville and crashed into a trolley freight motor and a train of seven freight cars lying on the siding, waiting for the passenger train to go by. Five passengers were killed outright and a score injured, some of whom may die. The dead: John Bittelman, motorman, Lockport. Charles T. Hutchinson, negro, Lockport. Unknown woman. Girl and boy, supposed to be brother and sister, names unknown.

LYNCHED FOR HIDING UNDER A GIRL'S BED

AUGUSTA, Ga., July 11—A Swainsboro, Ga., special to the Chronicle says: About 100 heavily armed men took Ed. Pearson, a negro from Deputy Sheriff Fields about three miles from this place shortly after 2 o'clock this morning, carried him to a swamp and lynched him. The night before last Pearson was found by Misses Maud and Ida Durnen hiding under their bed. Screams attracted their father, an aged man, who entered the room with a gun, but was knocked senseless by the negro who escaped. The negro was later captured by the deputy and identified.

LOCAL NEWS

Edward John Byron has been reported for using profane and obscene language on City Road yesterday.

The street railway people have just finished putting down about fifty-three feet of a platform at the siding at the Provincial Hospital corner. The platform is a great convenience for passengers.

Wm. Hayes, aged 62 years, left the Alms House yesterday without permission and was gathered in by the police as a vagrant. When told this morning that he was liable to a term of nine months jail, he pleaded hard to be allowed to return to the Alms House and on promising faithfully to do as Supt. Woods of the institution desired, he was given a good lecture and sent to the Crouchville Home.

A Waterloo street resident tells the Star that if the alderman who was so energetic in reporting Driver Parlos for exercising his fire horses in a heavy team would turn his attention to the "showing off" and training of horses on the same thoroughfare, he would be doing the right thing by his constituents. At noon when children are running and fro this desire to sell horses and exemplify their qualities is a particularly dangerous matter.

At its very best, King square is not the most attractive spot in the world, as compared with breathing areas in other cities the size of St. John and smaller, and its limited beauty is not enhanced to any great extent by the fountain basin overflowing every once in a while, or its sprays being blown onto the sidewalk. Last evening pedestrians had to go the wrong way round this circle to avoid a steady stream of water about a half inch deep which flowed over the northern side of the basin, causing a little cat-arract all the way down to the roadway in front of the hotels. Ladies and children with light shoes got their feet wet.

At half-past eight last evening a happy event took place at the residence of G. W. Fisher, 52 Harrison street, when Miss Ada Bailey, formerly of London, England, but who has been living in St. John for the past four years, was united in marriage to William Fisher of this city. The bride carried a shower bouquet and looked very pretty in a white dress embroidered with white lace. The groom was supported by his brother, Charles. The ceremony was performed by Rev. G. M. Campbell in the presence of a large number of invited guests. After the ceremony the guests partook of a bountiful repast. The bride was the recipient of many beautiful gifts and presents. The happy couple left last evening on the Halifax express for Sussex. On their return they will reside on Harrison street.

A BOOM TO HEAVY TEAMS.

The city has managed to do an excellent thing in grading the hill leading from Bridge street, Indiantown, to the higher level on Victoria street. Though this is a somewhat hilly way thoroughfare, it is used a great deal by heavy teams, as it overcomes the sheer hill on Mother street leading from the wharves, which is doubly hard because of the slippery wooden pavement. A heavily loaded team or express cart hardly negotiates this incline under the best of circumstances. Therefore the city engineers have graded the rough-ground highway on Victoria street until its hill is greatly reduced. At present the hill is complete, but a paving has been made suitable for up-going teams, and one for those going down. The work on the hill has been done with the macadamized condition of Victoria street from one end to the other, makes it one of the best, and one of the most costly streets in the city. But the expense is well placed, as it is a matter of the utmost importance to people to have the river boats—an important phase of the city's business.

K. O. P. INSTALLATION.

Deputy Grand Chancellor W. E. Hopper installed the following officers at the regular fortnightly convention of New Brunswick Lodge No. 1, Knights of Pythias, last evening in Castle Hall, Germain street. Chancellor—Robert Maxwell, M. P. P. Vice Chancellor—Reverdy Steeves, Prelate—S. Gray, Master of Work—Chas. S. Everett, P. C. Keeper of Records and Seals—Jas. M. Pulson, P. S. P. Master of Finance—J. F. Brown, Master of Exchequer—John Ross, Master at Arms—R. H. Irwin, Inner Guard—Jas. T. Downey, Outer Guard—Rayard Stivell. The various officers reported the lodge to be in a highly flourishing and efficient state, and a committee was appointed to make arrangements for decoration day.

ARTILLERY INSPECTION.

Col. Balfour of Ottawa arrived in the city this morning and will inspect the 3rd Regiment, C. A., this evening. The regiment will be examined as to general efficiency. An inspection of the clothing, arms, signalers and company books will take place this evening. Tomorrow night questions will be asked the officers. In about another month an inspection will take place at Povey's. This examination will include gun practice, gun laying, fuse setting and observation of fire. The marks of the two inspectors will be added together and the prizes awarded.

Owing to the celebrations today a number of the men are out of town and it will be difficult for the officers to get their men together for the inspection tonight.

Geo. W. Fowler, M. P. passed through the city this morning on his way from Ottawa to Sussex. Ralph Freeze, B. A., returned to his home in Sussex this morning.

The funeral of Mrs. Mary E. Livingstone was held from her late residence, Erin street at one o'clock this afternoon. Interment took place at Golden Grove. The funeral services were conducted by Rev. A. J. Prosser.

SIX NEW STEAMERS FOR ATLANTIC TRADE

NEW YORK, July 11—The International Marine Company is preparing to build six trans-Atlantic liners to be added to its present fleet, according to an announcement made by J. Bruce Innes, President of the company, who arrived here today from Ireland. He said that the new vessels will be completed in three years. The steamers probably will be constructed at Belfast, Ireland, and some of them are expected to have a speed of 25 knots an hour. The President of the International Mercantile Marine Co. did not

SMITH-EARLE.

A very quiet home wedding took place yesterday afternoon at the residence of Mrs. Earle, 262 Germain street, when her daughter Florence was married to William A. Smith. Only the immediate friends were present. The presents testified to the regard in which the parties were held by their friends. The bride and groom left on a short trip, after which they will return to reside in St. John.

G. B. Gerard, of London, Ont., arrived yesterday to join his family, who are at Duck Cove for the summer.

WATERING OF BANK RESERVES.

In one respect this watering of bank reserves is a more risky practice in England than in the United States. The liabilities of the United States banks are, no doubt, large, but they are well known; they are not subject to sudden or violent changes; they can be closely watched, and the margin of security for them is ample. They have, besides, the specific merit of being chiefly domestic. On the other hand, the liabilities of the London banks are to a large extent foreign. They are not only immense in volume, but the amount at a given time can never be more than guessed at. They are subject to rapid and bewildering fluctuations. They make sudden and unexpected demands on the banks. Their future movements cannot be forecast, and they are full of risks.

BEATS CARD HORSE RACING.

For sheer blind chance Lombard street can beat any race-course or gambling saloon in the world. And in critical times all that stands between it and financial deadlock is the thirty, or thirty-five millions sterling of gold in the Bank of England vaults—hardly one-fourth of what is generally to be found in the United States treasury. London's pyramid of banking credit, which steadily grows wider at the top, rests on a very fine gold point. At the present moment (April, 1906), New York, regardless of its 700 million dollars of a gold reserve in the treasury, is drawing on London for every dollar it can borrow or finance. Wall Street is transferring all it can of its unwieldy bill account to the London Stock Exchange. Why the Bank of England's thirty-five millions sterling of a gold reserve should be deemed so much more invulnerable than the 140 millions sterling in the treasury at Washington, it were hard to say. The real reason why borrowers flock to it from all the ends of the earth is, no doubt, its accessibility. So the earth is, no doubt, its accessibility. So long as there is a new loan left it will be at everybody's service. That, as banking reserves will at once see, is an altogether artificial and precarious arrangement. It puts everybody connected with it in a more or less false position—the Bank of England itself, the clearing banks, and Lombard street, which borrows the money supposed to be in reserve. It creates a fictitious banking fund which could not exist otherwise.

SOVEREIGN BANK.

MONTREAL, July 9—Dr. M. Stewart, vice-president of the Sovereign Bank, leaves for Germany next week to interview the capitalists who recently bought over \$2,000,000 of Sovereign Bank stock. The shares of this bank are now very widely distributed, and it has over 1,100 shareholders compared with only a little over 800 four years ago, when the bank began business.

DECLARES STUDENTS ARE IRRELIGIOUS

The Rev. Dr. Shaw Roundly Criticizes Theological Seminaries and University Undergraduates.

PHILADELPHIA, Pa., July 18.—The student body of the University of Chicago and theological seminaries in general were severely criticized by the Rev. Dr. John B. Shaw, pastor of the Second Presbyterian church, of Chicago, in his address at the noon evangelistic rallies begun today in Witherspoon Hall.

"Among students there is one of the largest fields for work," said Dr. Shaw. "While in New York I thought the Columbia students were as irreligious as any could well be, but the students of Chicago University are worse. I am gratified, rather than alarmed, at the decrease in the number of students for the ministry. I'd make the course of instruction so hard that none but the few could get through, so that only the earnest might be sent out into the world."

"I am now going to make a statement in all seriousness, after calm deliberation. It took me five years to get over what I got at the seminary. Had I a fortune I would devote it to the founding of a seminary, but a different kind of seminary from those we have now."

AN ADVENTURE AMONG THE INDIANS. It was while playing in Phoenix, Arizona, that Herrmann met the Indians, that he had borrowed and proceeded to extract silver coins from all parts of his person. From his thick black hair, his arms, from under the blanket in which he was wrapped, a shower of coins flung merrily into the hat.

"After seeing all there was to be seen, Herrmann decided to have some fun with the Indians. He took a hat, a broad sombrero, from the head of a tall buck, and much to the amusement of that Indian, proceeded to fill it with silver dollars, which he caught from the air.

A crowd of tribesmen gathered around, and with whoops and grunts expressed their surprise at the miraculous performance. Then Herrmann walked over to the Indian who had borrowed and proceeded to extract silver coins from all parts of his person. From his thick black hair, his arms, from under the blanket in which he was wrapped, a shower of coins flung merrily into the hat.

"You may trick, huh?" "Well if him a trick, you do him again." "The words were more a command than a suggestion, so Herrmann thought it best to comply with the chief's request and perform the trick once more.

Again in the most wonderful manner Herrmann proceeded to take coins from different parts of the Indian's body, while the rest looked on in growing wonder.

"Now you see it is only a trick. The money is my own which I brought with me for this very purpose." "Ugh, you heap big man, big chiet!" "Ugh, you heap big man, big chiet!" "You give him money back. Ugh! I have spoken!" The old chief turned on his heel and calmly left Herrmann to the mercy of the Indians.

Again the big Indian grabbed his hat, and this time Herrmann allowed the Indian to take the hat and money.

Herrmann walked over to his carriage and jumped in. "What was the trouble, sir?" asked the driver.

"The trouble," replied Herrmann with a rueful smile, "why, man, that hat contained fifty dollars. The joke is on me this time. A rather costly joke."

But it turned out no so bad after all, for that night, as Herrmann stepped the stage of the Phoenix Opera House, there in the first rows sat fifty gaily dressed Indians, who had paid one dollar apiece to see the great musician perform, who as Herrmann said later:

"Never in my career did I play to a more delighted and appreciative audience, than those some fifty Indians.

The department of public works, Ottawa, has authorized E. H. McAlpine to set for them in reference to the matter of the indemnity in connection with the west side dredging. The agreement must be satisfactory to Mr. McAlpine.

ROOSEVELT IS TAKING A FEW DAYS REST

But Elisha Moore, Who Thinks It Is His Duty to Protect the President, Is Keeping Busy.

OSTEON BAY, N. Y., July 11.—President Roosevelt is enjoying his first real vacation since his occupancy of the White House. In the week and a half he has administered affairs from Sagamore Hill, he has had but two visitors, Joseph Ward and Secretary Tatt, and such short calls as were but two hours in duration.

In conducting the affairs of state by correspondence entirely, the president is required to devote from three to five hours daily to his mail. Secretary Loeb went to Sagamore Hill at nine o'clock today and did not return until 1.30. In this time the president signed more than 250 communications of various kinds and diplomatic and consular service, and diplomats.

The diplomatic and consular officers were commissioned under the new law reorganizing that service, it being the intention to inaugurate the reforms provided for as rapidly as possible.

Elisha Moore was arrested here today because he was trying to impress the villagers that he was in charge of the secret service force. He telephoned to Sagamore Hill that he would soon be out there and warned local saloon-keepers that he would arrest them as soon as he got his uniform, because of defects in their licenses. Moore told Squire Franklin that he had been discharged from the navy ten days, his last service being on the battleship Squire. He said he had a wife and family in Staten Island and if allowed his liberty would go to them. He was sentenced to ten days imprisonment for being drunk.

The Roosevelt children are planning an informal party for Friday evening at Sagamore Hill. Grand Menck, a tall man in the neighborhood will be invited for a frolic and children's dance. An almost identical communication has been of frequent occurrence during the president's summer sojourn at his country estate.

G. OF E. SYNOD.

FREDERICTON, N. B., July 11.—At the afternoon sitting of the synod parish reports were received from Ad-Elston and Elgin, Grand Menck, Prince William and New Denmark. All reported a year of progress.

A resolution to proceed to the election of a bishop coadjutor was then passed. The next motion provided that the salary be placed at \$1,200 to be paid in full by the synod, together with the salary of dean. This was also carried. The next resolution of the committee that the synod select the name or names of one or more persons in holy orders in the Church of England in Canada or in some church in full communion therewith, to be submitted to the bishop for his approval as bishop coadjutor was passed after some discussion.

The final resolution of the committee that the synod proceed to select such names by nomination, and the said names be transmitted to bishop with the request that he shall submit the same to the synod for election as coadjutor bishop was put and carried without discussion.

The following nominations were then made: Archdeacon Neales, Woodstock, N. B., by H. C. Tilly. Dr. Norman Tucker, secretary M. S. C., by Rev. W. H. Sampson. Rev. J. R. deWolfe Cowie, Fredericton, N. B., by H. B. Schofield. Rev. Canon Harvey, Woodstock, Ont., by Rev. Mr. Hall. Rev. Canon Richardson, St. John, by Rev. A. W. Daniel. Rev. Archdeacon Pentreath, British Columbia, by R. W. Hewson. Rev. Canon Montgomery, Kingsclear, N. B., by Dr. W. H. Steves. Rev. Canon Newnam, St. Stephen, N. B., by Rev. J. A. Spencer. Rev. Dean Williams, Quebec, by Rev. A. G. H. Dicker. Rev. Arch. Bryan, Brooklyn, N. Y., by Rev. Dr. Duffy. Rev. Andrew Armistead, Halifax, N. S., by Sheriff Sterling. Rev. Mr. Davenport, Toronto, Ont., by Rev. A. W. Smithers.

On motion the nomination closed. The twelve names will be submitted to the bishop and returned to the synod for election. Archdeacon Forsythe was nominated but at his request his name was withdrawn. The election of the bishop coadjutor is made the first order of business today.

Resolutions of condolence were passed by the synod on the death of Dean Partridge, Canon Deverber, Canon Roberts, Geo. T. Whelpley, Julius T. Gordon and Charles Murray.

The anniversary service in connection with the synod was held at the cathedral in the evening and was of an exceptionally high order. Canon Richardson preached an eloquent and powerful sermon, taking as his text, "The faith which was once delivered unto the saints." The discourse was a strong exposition of the doctrine of the Church of England.

BOARD OF WORKS VETOED HIS PROPOSAL

Shore Line Railway's Depot and Offices to be Removed to Permit Laying of Street Railway's Tracks

A special meeting of the board of works was held yesterday afternoon. The report of the recorder was received on the rights of the Street Railway Co. He reviewed the existing statutes from 1866 on the granting of the charter to the Popo, and went down to the present time. In his opinion the street railway has no authority to lay tracks without the permission of the city.

The matter was again left in the hands of the sub-committee, who are to report on the matter. Everything is ready for prorogation tomorrow.

Tonight the senate gave third reading to the supply bills. The commons considered the senate amendments to the Sunday bill.

They changed its name back to the Lord's Day bill and substituted that for Sunday throughout. The minister of justice declined to concur in the senate amendment.

He declined to accept the senate amendment that all classes of delayed vessels be allowed to load Sunday. It was not desired to let in the late afternoon.

The original clause of "ocean craft" was restored. The amendment allowing a ferry to be operated as part of a street railway line was rejected. He restored the word "permit" to the corporation liability clause. Mr. Aylesworth said the senate amendment had weakened the clause. Mr. Aylesworth asked the house to concur in the amendment, requiring the consent of the provincial minister of justice to be obtained for the beginning of prosecutions.

The other amendments were accepted and the bill went to the senate. The exceptions taken by the commons were agreed to in all cases. The bill is ready for the signature of the governor general tomorrow.

Senator Landry is going to insist on all rules as to time being observed in the bill abolishing ministerial pensions. This means it will die in the senate, as prorogation will take place tomorrow afternoon at three o'clock.

PENSION REPEAL BILL DIES IN THE SENATE

Senator Landry Destroys It With a Technically-Sunday Bill Passed After Several Senate Amendments Were Killed—Summary of Business Done During Four Months' Session.

A MOTOR CAR SERVICE ON I.C.R. FOR THE BRANCH LINES AND SUBURBAN ROUTES

Minister Has Been Considering Matter and Will Deal With It Next Session—New Station at Shediac

OTTAWA, July 11.—The Intercolonial will shortly begin the erection of a substantial depot at Shediac. The structure will be of stone.

The minister of railways has received a report from an official who has been investigating the motor car for service on suburban branch lines. The report says the cost per mile for furnishing the service can be reduced from sixty cents a mile to about sixteen cents a mile. At the next session he will ask for a vote to install a motor car service on the branch lines and suburban routes of the Intercolonial and island railways for passenger business.

The maritime provinces members tried to express their opinion on a resolution providing that the representation of a province shall not be less than it was at the time confederation, but were unsuccessful.

Both the commons and the senate adopted new devoirs which will go into force next session, and it is expected they will expedite business.

IMPORTANT LEGISLATION. The most important piece of legislation of the session was the Lord's Day bill. Next to this is probably the Grand Trunk Pacific branch line bill, which authorized the building of branch lines in all parts of Canada with a total length of five thousand miles. The railway act was amended so telephone wires and electric companies are placed under the jurisdiction of the railway commissioners. The immigration law has been strengthened against undesirable aliens by providing for their transportation within two years of landing. A measure was enacted against users fixing the legal limit on a loan of five hundred dollars or under at 12 per cent. In the House of Commons, the bill to amend the law in British Columbia and Tracade lazzetto was completely taken over by the government. The grant in place of the fiscal year beginning was changed from July 1 to March 1. A provision was made for the grant of common rights of way to soldiers taken over at Halifax and Esquimaux. A court of appeal was provided for in Manitoba and the abolition of the supreme court in New Brunswick and the creation of two courts in its place. The Grand Trunk Pacific was allowed to give bonds instead of cash as security for the fulfillment of contracts. A milk mark defined as a receptacle holding eight gallons. For violating in Hudson Bay a fee of fifty dollars was provided. The marine department of the session was the laying down of a new tariff at the November session.

An interesting feature of the session was the laying down of his portfolio by Minister of Justice Fitzpatrick for the chief justiceship, involving the appointment of Mr. Aylesworth in his place and the promotion of Mr. Levesque to the post office portfolio.

In both the lower and upper houses there was an interesting debate on senate reform.

STRAWBERRIES JUMPED TO EIGHT CENTS A BOX

Arrivals Yesterday Not as Heavy as Expected—A Great Crowd at Indiantown.

Strawberry buyers were fooled yesterday afternoon at Indiantown. It was anticipated that Wednesday would be the biggest day of the season. Very large quantities of berries were brought down on Monday, and as the weather on that day was expected to be different, steamer arrivals yesterday would bring even larger consignments and that the price would drop. But the contrary proved to be the case.

The arrivals on Monday were quickly bought up, and as only a few small shipments came down on Tuesday the market was pretty bare. Yesterday's steamer did not bring anything like the number of crates expected and the result was that the price instead of falling to 4 or 5 cents jumped to 7 1/2 and 8 cents per box by the crate. In the morning, berries were selling at 4 cents. The Champlain brought down 150 crates. Later in the day the Star Line steamer arrived with 72 more, and a few minutes afterwards the Crystal Stream, which is the big berry boat of the river, came in with 250 crates.

Indiantown was crowded. Hundreds of grocers from all parts of the city were there with their teams and the berries were bought up almost before they were taken off the boats. There was such a demand, and comparatively so few berries offering that the price went up from 6 cents to 7 1/2 cents and finally to 8 by the crate, and many would-be purchasers were disappointed. The fruit is selling in the city today at from three boxes for a quarter to ten cents a box, but those berries which came down yesterday are not first class stock, having become soft through damp weather. The merchants expect that today and tomorrow will see very large arrivals.

BOYS CHARGED WITH STEALING DEALS IN HARBOR.

Police Unearth What Looks Like a Scheme to Steal Lumber by the Wholesale.

Thomas Connell, aged 19 years, and Harry Wolfe, aged 14, were arrested about two o'clock this morning by Policeman Greer on suspicion of stealing a boat and about 2000 feet of deals. The case was taken up in the police court this morning. H. A. McKeown appeared for the boys.

In answer to the magistrate Connell said some time ago he had been before the court and was then sent to the reformatory for stealing. He now lived at Long wharf and was not guilty of the charge preferred against him. The magistrate said he hoped he would be let off a boy came from the reformatory and was found guilty of stealing it meant a term in Dorchester penitentiary.

Both boys desired the case to be tried before the police magistrate and the vessel last night and a boat tied to the bow of the vessel. This morning he missed one pair of oars and the vessel's small boat. He went out looking for his boat and oars and found them in charge of a policeman in the dock near Hilyard's wharf. The boat had been stolen during the night.

Policeman Greer testified that this morning about two o'clock the prisoners landed at a staging near the mill works. They were in the boat. About seven o'clock Capt. Porter came to him and claimed the boat and said that person had stolen it. Before three o'clock two sailors told witness that two boys had landed some deals on the wharf, witness asked them who owned the deals and they said that they owned the deals, that two men, named Duffy and Friers had thrown the deals off a scow at the I. C. R. wharf to them, that the boat had been loaned to them by a man and that they did not steal it. Witness asked Duffy this morning if he had given the deals to the boys and he said he had not. Minard Sabean, a sailor, testified that he saw two young fellows come in a boat to the Maritime Mill Works Dock about midnight with a load of deals. He identified Connell as one of the boys in the boat as he came up on the wharf for a drink of water. Connell said that they could not take the deals in the daytime unless they picked them up in the harbor, and they had to take these at night. The boys made two trips in the boat and unloaded about 30 pieces of deals on the floats at the wharf. Connell was favored by the deals of a scow. Witness asked them because he thought the boys might have been taking the lumber from his vessel which was at the wharf. When the boys came with the second load of deals they said that they were going to get something to eat. Witness then informed the police at the station. He was accompanied by another sailor named Dickson, and they returned to the dock with Policeman Greer, and after waiting some time the boys came back and were arrested.

Policeman Greer then informed the court that the boys told him a North End man named Williams purchased deals at one and a half cents a running foot and told them to go get the lumber and he would buy it from them.

Edward Dickson, another sailor who was on the Mill Works dock at the time the lumber was brought there by the boys gave about the same evidence as that given by Sabean.

Julian Cornell, a clerk in W. Malcom MacKay's office, gave evidence that the deals were worth about fifteen dollars per thousand feet.

The case was adjourned until tomorrow morning at ten o'clock when Duffy, Friers, and Williams will be called to give evidence. The boys were remanded to jail.

The court ordered the return of the stolen boat to Capt. Porter who is ready to sail today.

THIRTEEN ADMISSIONS FOR ONE DOLLAR.

Season Tickets for the Exhibition on Sale Today—Advertising in the Provinces.

The sale of season tickets for the great exhibition to be held in this city from Sept. 1st until Sept. 31st, commences today. The exhibition committee are this year determined to have the attendance a record breaking one and to do so they have placed the season tickets at such a low price that even the poorest in the city can afford to go twice a day during the whole week.

These tickets, which are good for thirteen admissions, or for the afternoon and evening of each day during the whole show, are being sold at all news and book stores for the very small sum of one dollar.

The exhibition management are through advertising the Maritime Provinces and today both Sussex and Digby where the Orange celebrations are being held, are placarded with signs telling of the great fair in St. John.

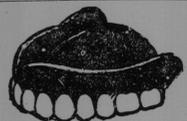

Large painted banners announcing the fair are also strung through the different streets in these towns. W. Stewart, the well known commercial traveller, who has just returned from a trip through Nova Scotia, says that in every hotel and corner in Nova Scotia he saw something starting him in the face announcing the St. John exhibition.

The posters for the exhibition have, however, not been sent out yet, and will not be sent until the first of August, when the provinces will be literally covered with them. A reliable bill posting company of Upper Canada has contracted to do the work and to keep the notices in good shape for one month.
