

GERMAN AIRPLANES BOMB ENGLISH TOWNS; ROZANSIR CAPTURED BY THE RUSSIAN FORCES

THE TEUTONS MAKE RAID ON ENGLAND Airplanes Over Essex Kill Two and Injure Twenty-Nine. TWO HUN MACHINES . . WERE DESTROYED Raid Third on England in Last Fortnight After Six Months.

London, June 5.—Official announcement is made that an airplane raid was in progress over the Thames estuary. One German airplane is reported to have been brought down. Bombs were dropped over Essex and Kent.

Between eight and twelve German taubes were the raiding aircraft. They were being engaged by British aircraft guns and aviators and driven back. The German machine reported brought down into the sea. Still another machine is reported to have been hit.

The official announcement of the raid says that two persons were killed and 29 injured. Two hostile machines were destroyed. The official statement says: "An airplane raid in the evening was carried out by a squadron of about sixteen airplanes. They crossed the Essex coast at about 6.15 and dropped some bombs in the country and on small towns in Essex, and then proceeded to attack the naval establishments at Medway. A considerable number of bombs were dropped and a certain amount of damage was done to naval and military establishments was practically slight.

"The raiding airplanes were engaged by gunfire and pursued by aircraft. After having lost two machines they made off seawards.

"The casualties so far reported are two killed, two dangerously wounded and 27 wounded."

This is the third raid on England in the last fortnight by German airplanes which apparently have been substituted for Zeppelins by the Germans in making their attacks on the British Isles. For since the attacks on the three raids no attacks of this nature were made, the last efforts of the Zeppelins having proved disastrous to them.

On May 25 four or five German aircraft flew over eastern English counties and dropped bombs which killed one man. On May 25 a squadron of about sixteen German airplanes crossed the southwest England, dropping bombs which killed 76 persons and injured 174, the largest casualty list from an attack by airplanes since Germany began these raids on unprotected towns of England. The principal damage in this raid was done in Folkestone.

\$100,000 BOSTON FIRE

Boston, June 5.—Fire yesterday destroyed the chemical plant of P. S. Ashby & Co. and the warehouse and workrooms of the International Waste Co., and two stables in South Boston. The loss is \$100,000. One fireman was severely burned and a steamer destroyed by the intense heat.

HOW GERMAN DESTROYERS WERE PUT TO FLIGHT.

London, June 5.—According to the Evening News correspondent, when Commodore Tyrwhitt's squadron first sighted the Germans they were five miles distant. They had apparently put to sea in fear of bombardment from the air and the gain port the British squadron divided into two lines. A British destroyer opened the engagement, and after five minutes had recaptured seven survivors during the chase of the remaining five German destroyers.

This continued until the Germans had reached the mined waters off the Belgian coast.

Wonderful Catch of Mackerel Near Yarmouth Harbor Many Thousands of Pounds of Large Fish Taken.

Special to The Standard.
Yarmouth, N. S., June 5.—The run of mackerel is almost phenomenal. Large catches are being made all along the shore and the boats and traps here are coming in for a goodly portion of the run.

Yesterday the traps took over two hundred barrels and today they took more. The netters and draggers operating in the vicinity of Green Rock, and on the foal grounds, are loading up every trip. The New York and Yarmouth Fish Co. and the Gateway Fish Co. bought probably 4,000 pounds each yesterday, and S. Epstein secured over 10,000 pounds.

Today Epstein had about all the fish brought in up to noon, about 15,000 pounds.

The price offered by the big fish operators is from 3.34 cents to 4 cents a pound. It was at the latter figure that the fish changed hands today.

A remarkable feature is the large size and fat condition of this spring's run. In today's catch there were a very few smaller fish, probably belonging to the second run which is following close on the first.

On Sunday one vessel at Lockport took on 50,000 fish. There was a shipment of 1,302 barrels on Saturday but there will likely be a larger shipment tomorrow.

TEN MILLION AMERICANS REGISTER

Spontaneous Rush to Enroll for Military Duty—No Disorder.

Washington, June 5.—More than ten million young Americans enrolled themselves today for war service. Registration day, with but a few weeks of preparation, saw the first military census ever taken in the United States completed without a single untoward event of consequence.

The manhood of the nation obeyed the president's call, and volunteered en masse, setting at naught all the schemes and plottings of German sympathizers and the few cranks who had agitated against registration. It remains but to select the men who are to go to the front.

While no complete returns from any state were transmitted up to a late hour, the governors were unanimous in reporting that complete quiet had prevailed throughout the day, and that a full registration was indicated.

SUBMARINES LOSE POWER

London, June 5.—The weekly report of losses of British merchant vessels in the submarine campaign will again show a favorable total when it is issued tomorrow. In some respects the last week has been the best since unrestricted submarine warfare was inaugurated. Last Friday was a blank day on the records, that is, no losses of British merchantmen occurred. It is the first time this has happened for a long period.

PEARLY'S CROCKERLAND PROVED TO BE MIRAGE

New York, June 5.—The first detailed news from Donald B. MacMillan, head of Crockerland expedition, announcing that he and his companions had only enough supplies to last them until August of this year was received here today by Dr. Henry Fairfield Osborn. The relief vessel "Neptune" will sail about July 1 from Nova Scotia, under command of Captain Robert A. Bartlett, for Etah.

While Crockerland, which Rear-Admiral Peary believed he saw, proved to be a mirage, the MacMillan party discovered six new islands.

COALITION PROBABLY HAS LOST Weight of Best Informed Opinion Is Laurier Against It. GENERAL ELECTION MAY BE NECESSARY Liberal Leader Expected To Make Announcement Today.

Special to The Standard.
Ottawa, June 5.—Sir Wilfrid Laurier will likely pronounce for or against coalition before twelve o'clock tomorrow. His verdict will decide whether the best minds in the two parties are to get together, in a united effort to prosecute the war, or whether there is to be a resumption of bitter party warfare, with the probability of the country being plunged into the distraction and strife of a general election.

For more than ten days Sir Wilfrid Laurier has kept parliament and the country in suspense pending his decision. Sir Robert Borden has gone as far to meet his demands as was consistent with adherence to the principle of compulsory equal service in the war. If tomorrow Sir Wilfrid declares against coalition and national unity goes down, the blame will rest squarely upon the shoulders of the Liberal chief.

Patriotic men on both sides of the house are hoping against hope tonight that coalition will be attained; but they admit that prospects are not bright. Anti-coalitionists, factionists and reactionists are jubilantly confident that they have won. The weight of best informed opinion is that union has lost.

Ottawa Still Excited.
Ottawa, June 5.—(Canadian Press)—All the opinions that Sir Wilfrid sought are now in his hands and he was giving them, it is understood, a large consideration today.

He is expected to deliver his decision to Sir Robert Borden, the prime minister, orally.

The atmosphere around the house of commons is one of suppressed excitement. Little speculation was going on on the situation, as practically every phase has been thrashed out over and over again, and anything fresh. This does not relieve the tenseness and also the general feeling that it must soon be relieved.

CANADA MAY HAVE NAVAL DEPARTMENT AFTER WAR

Hon. J. D. Hazen Reviews Fisheries of Canada Which Have Not Been Neglected—Tells of Important Development.

Special to The Standard.
Ottawa, June 5.—Hon. J. D. Hazen made a comprehensive statement to the House this evening relative to the work of the fisheries department of which he has charge. He made particular reference to what has been accomplished during recent months. The statement was made in connection with a motion moved by Mr. Clarence Jameson of Digby declaring that the time had come when the fisheries department should be a separate department and should have a minister of its own.

An Independent Report.
Mr. Hazen said that at the last session of parliament the special committee of the House which had considered the problems relating to the fishing industry had made an important report containing a number of useful recommendations. The committee had considered more particularly the spread in the price of sea foods, or in other words, the difference in the amount received by the fishermen for their catch and the amount paid by the consumers in inland towns and cities. The committee had recommended an improved system of inspection of transportation and a better organization of the facilities for the handling of fish. The department in response to the recommendation had appointed Mr. Miller of St. John as inspector on July last and located him at Port Mulgrave. The Canadian Government Railways had facilitated his work and had made some improvements in connection with the icing of refrigerated express cars which had been of benefit to the trade.

Refrigerator Cars.
The committee had recommended the use of refrigerator cars for short movements of fish but it had been found that this had not been necessary if the fish were properly packed in ice. Another recommendation of the committee had been to improve express facilities by providing for the attachment of refrigerator car services to express trains. It had been found in this connection that the heavy movements of foods and other shipments due to the war had tended to handicap the movements of fish. The experience of the department had also been that

General Gontor Is Successor to Gen. Brussiloff Latter Now Commander in Chief of Russian Armies.

Petrograd, June 5, via London.—General Gontor, who has been commander of the Eleventh Army, has been appointed to succeed General Brussiloff in command on the southwestern front. The Petrograd despatch announcing the appointment of Gen. Brussiloff as commander-in-chief of the Russian armies, said that Gen. Gontor or Gourko, as it is sometimes spelled) commander on the Russian western front would be General Brussiloff's successor. Apparently this was an error induced by the similarity in names.

Gen. Gontor earlier in the war was chief of the general staff at Kazan in Eastern Russia.

RUSSIANS CAPTURE ROSANZIR

Petrograd, June 5, via London.—The following statement from the war office today reads:

"On the Caucasian front Kurds attempted an attack in the region of Mount Akaba, south of Erzingan, but were beaten off. South of Bana, the town of Rozansir, northwest of Kermanshah, has been occupied by us. The Kurds retreated toward Djerand.

"On the Russo-Galician front, in the region of Krovo, the enemy maintained an intense artillery fire. Insignificant attempts of the enemy to attack in the region of Potoshaya, on the Beresina, were frustrated by our fire. Rifle firing occurred on the remainder of the front.

"Rumanian front: There were exchanges of rifle fire.

London, June 5.—A British official communication issued tonight reads: "We gained ground slightly during the night south of the Souchez river.

"The electric power station in that neighborhood, for the possession of which fierce fighting took place Sunday, is now in our hands.

"A successful raid was carried out by our troops today south of Ypres, in which we captured 75 prisoners, including an officer.

"There was great activity in the air again today, and bombing continued during the night with good results. Twelve German airplanes were brought down in the air fighting, one of which fell within our lines. Six other hostile machines were driven down out of control. Five of our airplanes are missing.

Paris, June 5.—Tonight's statement by the war office on military operations is as follows:

"The artillery actions have been intermittent along most of the front. They have been more lively on the Belgian front, in the Hurberville sector and on the Valenciennes plateau, and north of the Valenciennes plateau, and north of Dixmude the German batteries have been rather active, and have been repulsed by our artillery."

Rome, June 5, via London.—The official statement issued by the war office today reads:

"There was a brief artillery action and slight patrol activity on the Trentino and Carzia fronts.

"Fresh attacks by the enemy upon our lines east of Gorizia and on the Vodice Sunday night and during yesterday were all repulsed. We took 85 prisoners, including one officer.

"On the Carlo, after several days of violent artillery preparation, the enemy attacked in mass on Sunday night from Dossò Fatto to the sea. Although the Dossò Fatto positions were completely destroyed, they were strenuously defended by brigades of the 215th and 236th regiments, who succeeded definitely in repulsing the enemy, after severe fighting, notwithstanding a heavy barrage fire. Prisoners to the number of 62 were captured.

"Our troops gallantly resisted determined enemy attacks from Castagnavizza to the ridges north of Jamiano and by counter-attacks and heavy hand-to-hand fighting succeeded in maintaining their positions, and even in occupying new positions near Castagnavizza and Verasio. South of Jamiano, while maintaining our wing positions, we were obliged to rectify somewhat the centre of our new line to avoid the enemy fire, at the same time carrying out frequent counter-attacks which established almost completely our previous positions."

Mr. Henderson Resting Comfortably.
The condition of George Henderson, who was admitted to the hospital suffering from internal trouble yesterday, was about the same at any early hour this morning. He was said to be resting comfortably.

Will Soon Announce Composition of the Irish Convention British Mission to United States Successful.

London, June 5.—The government completed last week its proposal as to the composition of the Irish convention. Andrew Bonar Law, government leader in the House of Commons, told the members of the lower chamber today that the cabinet was now awaiting the decision of some of the parties interested who are holding a meeting to consider it. Their decision is expected in the course of the next few days.

U. S. Mission Satisfactory.
London, June 5.—Asked in the House of Commons today whether he would be in a position to give any information as to the results of the British mission to the United States which was headed by Foreign Secretary Balfour, Andrew Bonar Law, government leader in the lower house, replied:

"I cannot think it will be useful to say anything more at present than that the government is more than satisfied with the result of the mission."

RULING OF SPEAKER DISPUTED

Hon. Mr. Murray (Kings) Appeals from Hon. Mr. Currie's Decision.

SPEAKER CONSIDERING
FORM OF ENQUIRY

Warden McLellan and County
Secretary Kelley at
Capital.

Special to The Standard.
Fredericton, June 5.—The house was in committee for about four hours today considering both private and government measures. None of the matters in the legislation was of a contentious character and the discussion was necessarily brief. The house in committee adopted the admirable suggestion made by Hon. Mr. Baxter last week to introduce the principle of legitimation per subsequens matrimonium into the law of New Brunswick. Under this new amendment a child born out of lawful wedlock will become legitimated if its parents afterwards marry.

Disagree With Speaker.
Hon. Mr. Currie's ruling today that a notice of inquiry presented by Hon. Dr. Taylor was improper was questioned both by Hon. Mr. Murray and Hon. Mr. Baxter. The leader of the opposition appealed from the ruling of the speaker, but further discussion was avoided when Mr. Speaker asked that the matter be allowed to stand for the present, following a statement made by Hon. Mr. Robinson, that he believed the inquiries followed the custom that had prevailed in the house for a considerable time past.

Hon. Mr. Smith, (Carleton), is still without the information that he has sought for some weeks regarding road and bridge work as well as the officials who have been dismissed from the positions of road supervisors. It would seem reasonable that this information would be forthcoming but Hon. Mr. Veniot contends that the staff of his department is too busy. However he promises to bring down the information as soon as he can.

St. John Men Arrive.
Warden McLellan and County Secretary Kelley arrived from St. John tonight. They are here to attend a meeting of the legislative committee of the union of New Brunswick municipalities.

The debate on the suffrage bill is expected to take place tomorrow.

Hon. Mr. Robinson is expected to bring down the budget either tomorrow or Thursday. The effusions, appearing in the Telegraph, that he regarded here as the forerunner of the budget. A lively debate will no doubt follow the bringing down of the government's financial statement.

French Aldermen of Montreal
Declare Against Conscription.

Ottawa, June 5 (Canadian Press)—Important resolutions were submitted by the Great War Veterans' Association today to the parliamentary committee on returned soldiers. Among the recommendations of the veterans were:

Combating of civil service for eligible single men, and married men without children, 18 to 45 years, who have been avoiding service and their immediate training for overseas.

All fit officers and men on home service who have had reasonable training to be sent overseas at once in drafts to fill gaps in the Canadian ranks.

All eligible men in non-essential industries to be released by returned soldiers, intelligible men and women, if need be, and put into training for overseas.

Conscription of all aliens for the best service they can afford the state.

Montreal French Opposes.
Montreal, June 5.—The city council this afternoon passed an anti-conscription resolution by a vote of 12 to 5.

The vote was a line up of the French aldermen against the English.

CASUALTIES

Ottawa, June 5.—There were 121 casualties in the list issued today. They include 15 men killed and ten died of wounds.

GERMANES DOYER SUNK AND ANOTHER DAMAGED

BRITISH SEND TEUTON WAR VESSEL TO THE BOTTOM AND DAMAGE ANOTHER IN BATTLE

London, June 5.—A German destroyer has been sunk and another damaged in a running fight between six German destroyers and Commodore Tyrwhitt's squadron.

The text of the Admiralty announcement reads: "The vice-admiral at Dover reports that the enemy naval base and workshops at Ostend were heavily bombarded in the early hours this morning. A large number of rounds were fired with good results. The enemy shore batteries returned our fire, but our bombardment forces suffered no damage."

London, June 5.—The aerial attacks on German establishments in Belgium are being continued vigorously by the British. Further operations were reported officially today as follows: "Naval airplanes on Sunday night attacked the airdrome at St. Denis Westrom, near Ghent. Many bombs were dropped with good results. The enemy's seaplane base at Zeebrugge was attacked by our seaplanes at the same time and shipping in Bruges also was bombed. All our machines returned safely."

CANADA MAY HAVE NAVAL DEPARTMENT AFTER WAR

(Continued from page 1) refrigerator cars are not suitable for use on fast passenger trains. It had been arranged therefore to have a part of express cars on passenger trains between Port Mulgrave and Montreal set apart for the shipment of fish. This experiment was not altogether satisfactory. Mr. Hazen stated that still another recommendation by the special committee was that the opening of cars containing fish should be allowed in transit. The express companies, he said, had not been able to comply with this request. A recommendation that an exclusive express service for the carriage of fish should be established by the government railways had been referred to the minister of railways who is giving it careful consideration.

liament in an unpartisan manner. He had suggested a separate department of fisheries. It was altogether probable, Mr. Hazen said, that after the war there would be a considerable re-organization of the government departments. It was quite likely that a naval department would be created with a minister at its head, or Canada, like Australia, may have a defense minister who will have charge of both military and naval affairs. The question was one, he said, which might be dealt with from a broad standpoint after the war is over. Meanwhile he was not prepared to admit that either he or his predecessor in office had neglected the fisheries of the Dominion.

EVIDENCE TAKEN IN THE RAILWAY INQUIRY AMOUNTED TO NOTHING

The Valley railway inquiry which was resumed in the municipal room of the court house yesterday morning has been adjourned until June 19th. The only evidence taken yesterday was that of C. O. Foss, director and chief engineer of the railway under the new administration, and Thomas Corzolino, president of the Nova Scotia Construction Company. J. M. Stevens, K. C., of Edmonton is holding the inquiry. F. B. Carvell, K. C., M. P., was in attendance in the latest of the government. Others present yesterday were E. S. Carter, Hon. W. P. Jones and S. D. Simmons, of Fredericton, who acted as stenographer.

MORE PAY FOR CIVIL SERVANTS

Publicity Campaign. A suggestion by the committee that an active publicity campaign should be started had not been complied with for the reason that the demand for fish has been extending very rapidly of late. In this connection the minister spoke of the fisheries exhibit at the Toronto exhibition saying that it had been an even greater success than before. Fish breeding, he said, was being extended as rapidly as possible. The salmon runs were steadily improving and the great lakes were so productive of fish as at the present time. He particularly referred to Lake Winnipeg which a few years ago was becoming depleted but which today is more productive than ever before.

House of Commons Gives First Reading to Bill Calling for Increased Salaries.

Ottawa, June 5 (Leased wire).—The Commons spent most of the afternoon today discussing the proposed salary increases to the civil service. The resolution introduced by Sir Thomas White deals only with the inside service at Ottawa, and is mainly intended to compensate the lower salaried employes for the increased cost of living. The discussion went far afield and members of both sides of the House engaged in a debate upon the removal of political influence from appointments to the service. It remained for E. F. Phipps, Conservative member for Ottawa, to take the lead by suggesting the elimination of politics by the simple expedient of depriving all civil servants of the franchise. The proposal coming from a member who must largely depend upon the votes of civil servants for election was somewhat of a shock, but it met with support from both sides of the House—and opposition as well.

The Peril of the Moderate Drinker

Like the contemptible German Spy who lived upon our friendship while all the while he was stabbing in the dark, Alcohol in moderate doses is poison. Of course you know that the lining of your stomach is just as sensitive as the ball of your eye. Just try putting a drop of whiskey in your eyeball—keep on doing it off and on for years—think of the result!

If you want to know what is going on in the system of the moderate drinker, look at a man who is dead drunk. Scientists say the only difference is that the drunkard reaches the climax quicker than the tippler. The effects are alike; the first thing Alcohol destroys is the mental power of defence against the appetite for drink. All drunkards begin as moderate drinkers.

Above the falls of Niagara there is a point in the current where each man's strength can yet take him back to safety. Beyond that invisible point he is lost. No man knows where lies that invisible line in his make-up, where ends his ability to say, "I can" or "I can't" stop drinking liquor.

After seventy-four years of investigation—economic, sociological, medical, ethical—the Insurance Companies ought to know. They declare that Alcohol, even in the smallest quantities, is a destructive poison. They turn away hundreds of thousands of dollars' worth of business on the strength of their knowledge. Taking two million policy-holders as a test they know that the teetotaler lives much longer than the moderate drinker; the man who occasionally gets tight suffers a death rate just one-half greater than strictly temperance men. Other men who drink more than that, but still not enough to bar them from insurance, show an appalling mortality of almost double that of men who never introduced to John Barleycorn.

Every man and woman in this province shares the responsibility for the proper enforcement of Prohibition—not the officers of the law alone. Your duty is clear.

Value of Fisheries.

Mr. Hazen went on to say that for the calendar year 1915 the total value of Canadian fish amounted to \$35,840,708 an increase of \$2,822,960 as compared with 1912. He gave some interesting figures showing the increase in the use of motor boats in connection with the fishing industry. In 1912 the number of motor boats used was 8,700, in 1914, 9,292, and in 1915, 11,097. The use of motor boats, he said, had been of great benefit, because it gives the fishermen using them a wider range of operation and a consequent large catch.

Division of Appointment.

The discussion was also featured by a demand from several members from outside points for a "fair division" of appointments to the service in Ottawa. The resolution was passed and the bill given first reading.

Mr. Charles Marcell on the opening

of the House asked Sir Robert Borden of the government had under consideration any measure looking toward the national prohibition of the use of alcoholic liquors as beverages. Mr. Marcell said he was much interested in this subject and had received many letters bearing upon it, one of these letters stating that such a measure was going to be introduced and asking him to support it.

Sir Robert Borden replied that the

minister of justice had under consideration some suggestions made on this subject. In connection with amendments to the act passed last year it was very likely that wider scope would be given that act, but he was not in a position to make any announcement yet.

Mr. Hazen pointed out that the

original department was the department of marine and fisheries, that was true, many important departments had been added, including the naval branch and the fisheries department had been neglected.

It might be possible to do more

than had been done, but the officials of the department, including Mr. W. A. Found, superintendent of fisheries, and Professor Prince, the scientific expert, are energetic and capable officials. They had done a great deal to develop the industry, as a result there had been an increase of the salmon catch on the Pacific coast, and of many other classes of fish. The oyster beds were being renewed, and an industry which once appeared to be doomed was regaining new life.

Mr. Hazen expressed the view that

fisheries department had been neglected.

Separate Department.

Mr. Hazen thought that Mr. Jamieson had done good service by bringing up this matter in the House. It was a good thing, he said, to have economic questions discussed by parliament.

THE FUGITIVE FOX SPECIFICALLY POINTS OUT "FOOTPRINTS" AND DESCRIBES WITH WHOM THEY WERE PLACED

Called at Dwellings and Chatted with the Ladies of Those Houses and Now He Wants Them to Recognize Him on Sight.

At the Imperial and the Opera House The Fugitive Placed Himself in Conspicuous Positions and Relates an Amusing Incident that Drew the Attention of Many People to Him.

At Places of Business He Deposited Sealed Notes Under the "Unseeing Eyes" of Salesmen He Talked With and Chatted with Curator Flewelling at St. John Art School.

FOX THE FUGITIVE
As Captured in Potato Field, Schoharie Co., N. Y., 1909, with Hoe.

Written Especially for The Standard By Fox The Fugitive.
Enormously wealthy, a lot of people struggling along for a living would consider themselves, with \$100.00 in cash and goods their possession. No one could fall to appreciate with much rejoicing a "windfall" of that amount of cash. And without any expenditure of money.
And the cash comes in with only the need of keeping your eyes open and exercising your wits. So the fact that some of the St. John merchants who are leaders in their lines have placed generous rewards at your command without imposing any expenditure of your money, gives you a privilege you will appreciate.
So you should consult their announcements in other columns. Let me tell you how to make sure you do not overlook one of them.
First take my list, printed in the form of a table tomorrow, and look up each condition. Arm yourself with the requirements—cut out the advertisements where that is called for; obtain the sales slip where that is demanded; procure the cigars and tobacco called for; be ready to hand them to The Fugitive when he has acknowledged the capture.
The women and children who join in the hunt for The Fugitive fare admirably. F. A. Dykeman & Co. of Mill and Union streets have those lovely skirts in silk, tweeds and serges that you want. And they give you your choice of the best in their stores to the value of ten dollars. This is a splendid offer.
F. A. Dykeman & Co. is another up-to-date firm that can grasp the very best of the situation as well as themselves by giving a generous cash reward on the sales slip you get, which is worth going after for the end of the newest in all lines for your summer wardrobe. Waterbury & Rising, Ltd., understand the value of footprints in trailing a fugitive and you have three stores of theirs to find the shoes that will keep you into the right tracks for ten dollars out of their cash drawer.
A. A. McClaskey, representing J. Bruce Payne's fragrant cigars has a five dollar gold piece which he will give you in return for the means of capturing The Fugitive. Just get the cigars and carry one in your pocket—the Overland or the Pharaoh.
Or if you prefer cigarettes carry a box of the Murad and present that. The Imperial Tobacco Co. pays ten dollars. And this house handles the bouquets of fragrance in tobacco.
Don't forget stin of Forest and Stream—then with a cigar, a box of cigarettes and this choice smoking tobacco you are in pocket \$25.00 in cash. Emil Gabry's, a friend of mine? And putting up a reward to catch me? Well, he's French!

Scores of people in St. John have through personal contact the very best description of The Fugitive they can get—by seeing and talking to him. I got busy as soon as I reached St. John, and these two days have been strenuous times.
Observing a stream of people crossing the square and pouring into a large picture house entrance I followed them. This I found to be The Imperial Theatre. I obtained a seat part way down the middle aisle with an elderly lady—in the end seat—at my right and a Miss of sixteen with her mama at my left. This was the first show, Monday matinee. I entered after most were seated and left after the first vocal rendition by the female artists. Thus the Fugitive was the object on which many hundreds of eyes were turned. Who of all that number were observing? And of the observing, how many can remember? To have the habit of observation is a great asset in life—and as this feature appeals to that habit and fosters it, it is to a certain extent an educational feature.
For the express purpose of further encouraging personal observation, and that I might give the housewives a chance, I selected at random a dwelling and after vain endeavors to be heard went to the next where on opening an inside entrance door I encountered the lady of the house on the stairs. A gentleman wearing whiskers appeared at the head of the stairs.
I inquired of them the terms and arrangement of the first floor flat, 218 Rockland Road, in the building next to them—the building owned by Mr. Healey. Will the people in the second flat, next building, now be able to recognize the Fugitive when they see him again?

Then there is the little girl in the Healey three-flat building who received me; and Mrs. Healey who came down and showed me through the flat. Will either of these two know the Fugitive on sight?
Finding my way about town, with the time I had at my command necessitated hurry.
So I thought it would be advisable to leave a few foot prints about the city. I made no selection of places. I never do. I turn in when "the spirit moves me." The young gentlemen in Phillips' cigar store on King street worked hard to sell me a pipe. I gave him a lot of trouble and talk while closely examining the sample pipes in the cabinet on the wall at the left of the entrance to the rear room. And while he stood at my elbow earnestly advising me to make sure of one of those very fine pipes, I "left a footprint" for him to sleuth—I placed a sealed note between the cabinet and the wall where doubtless it may yet be found, if he will probe in from the farther side of it.
From Phillips' my "foot prints" lead into the St. John Art School, Peel and Carleton streets. I routed out from behind the screen Mr. Flewelling, the curator and discussed with him such education as a school of that sort provides. The "footprint" I left there will not require a magnifying glass—A sealed note between the colored picture, an urn with a plant, and its cardboard backing; next to the opening through the screens where we talked.
The trail from the Art School leads into Paddock's drug store at Union and Coburg streets. While Mr. Paddock—yes, the clever druggist himself—and the Fugitive were discussing trade in his lines, a "footprint" was placed right at his elbow, behind the cigar case.
A sealed note between the closed glass cabinet of cosmetics and the open cabinet of corn and bunion plasters.
And now we will follow the trail

of his way to make trouble unnecessary.
Mr. Speaker said that as long as he occupied the chair he wanted to run the house according to the accepted rules of procedure. The reports of the doings of the house were published all over the province and outside the province and if they did not follow the rules they would only bring their proceedings into contempt.
Hon. Mr. Baxter said that Mr. Speaker would undoubtedly have the support of the members on both sides in his desire to conduct the business of the house in a proper manner. He thought in the enquiry referred to the language (Continued on Page 4)

EARLY MARRIAGES SUPPORTED AND OPPOSED IN LEGISLATURE

Interesting Discussion of New Marriage Laws—Is Charlotte County a Gretna Green? — Mr. Smith Denies the Impeachment — Hon. Mr. Veniot Looks for More Trouble and Finds It.

Special to The Standard. (From Official Report).
Fredericton, June 5.—The house met at three o'clock.
Mr. LeBlanc presented the report on municipalities.
Hon. Mr. Veniot in reply to an enquiry by Hon. Mr. Smith (Carleton) took exception to the wording of it. He said he didn't do so from any desire to evade the information asked for because he was going to give it but the enquiry contained a statement of fact as was the case with many other enquiries which was not allowed by the rules. The statement in that particular enquiry was that the bridge referred to was in a dangerous condition.
Mr. Speaker said that under parliamentary ruling that the word dangerous was not allowable in an enquiry. The enquiry was therefore out of order.
Another Ruling By Chair.
Hon. Mr. Murray (Kings) said he had no desire to question the Speaker's ruling but the statement referred to was hardly one of fact in the ordinary acceptance of the term. It was merely a statement made upon which to base the enquiry and he did not see how it could have been made in any other manner in order to get the information which he wanted.
Veniot Trouble Maker.
Mr. Murray said that he had no desire whatever to raise any question but enquiries in a similar form to that complained of had always been allowed in the past as the hon. member from Moncton had said and no objection had been taken and he could not refrain from remarking on the honor minister of public works had gone out

of his way to make trouble unnecessary.
Mr. Speaker said that as long as he occupied the chair he wanted to run the house according to the accepted rules of procedure. The reports of the doings of the house were published all over the province and outside the province and if they did not follow the rules they would only bring their proceedings into contempt.

INTENSE FIGHTING ON HEAVY SCALE IN FRANCE EXPECTED
Thunder of British Guns Increase in Intensity Day by Day—Trench Raids Multiply—Great Guns Roar Night and Day.

All the familiar signs which herald a great offensive are reported from the British front in France and everything points to the near approach of fighting on a great scale in the western front. The thunder of the British guns increases day by day in volume while trench raids and other feintings for position multiply in number.
The most interesting feature in the regular official reports is the repeated announcement of a tremendous artillery duel in progress around the little Belgian village of Wytschaete, about five miles south of Ypres. From this point as far south as the famous Vimy Ridge, thirty miles away, the guns are roaring day and night, apparently indicating that General Haig has chosen this sector for the next big blow. In this connection it is recalled that Gen. Maurice, director of general military operations, predicted some weeks ago that the next British offensive would be on a vast scale than any which preceded it.
The British Report.
London, June 5.—Only minor operations are reported from the British front in France. Following is today's official announcement:
"Hostile raiding parties were driven off last night southeast of Lens and south of Arrertrieres. A number of the enemy dead were left in front of our lines. Successful raids in which we captured several prisoners were made by us last night south and east of Ypres."

Endeavoring to Locate Him
We beg to announce that no matter whether it is Man, Woman or Child, whoever is the lucky party to find the Famous Mr. Fox, as long as he (or she) has a pair of shoes on at the time purchased at one of our stores, we will take pleasure in presenting to this fortunate party Ten (\$10.00) Dollars. Let them all "Hit the Trail" when we can assure you our footwear will carry you twice as far as any other.

EIGHTY-ONE MEN WERE SIGNED DURING WEEK
St. John County in Lead—Killies Secure Nine Men and Forestry Company Forty-Seven—Four Counties Contribute None.

Although the total for the week ending Saturday, June 2nd, in the number of recruits secured in the province was not as good as the preceding week, yet it is much better than many weeks during the early spring. Eighty-one men were enlisted in the province at the different recruiting offices. Kings county, which has been in the lead for the last month, dropped back to fourth place, St. John county taking its place at the head of the list. Twenty recruits were secured in this county.

The 25th Killies Battalion recruited nine men. Two of those signed on in St. John county, five in York and two in Gloucester.

Was Troubled With Shortness of Breath

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, and a weak, sinking, all-over feeling of oppression and anxiety.
The nerves become unstrung, you dread to be alone, have a horror of society, start at the least noise and are generally fatigued.
On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be taken. They are just what you require at this time. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.
Mrs. C. M. Cormier, Beuetouche, N. B. writes: "Since two years ago I was troubled with a shortness of breath, and sometimes I could hardly breathe. I went to see several doctors, and they said it was from my heart and nerves, but they did not seem to do me any good. One day I read of your B.H.B. Almanac and read of a case similar to mine.
"I bought a box of Milburn's Heart and Nerve Pills, and after taking it I noticed such a change that I kept on taking them until I had used four more boxes, when I was cured."
Milburn's Heart and Nerve Pills are 50c. a box, three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MUNICIPALITIES TO WATCH FREDERICTON

Union of New Brunswick Municipalities Represented at Fredericton Today to Look After Bills Before the Legislature.

Commissioner McLellan left last night for Fredericton to attend a meeting of the legislative committee of the Union of New Brunswick Municipalities, which will hold this morning in City Hall there. They will consider all the bills coming before the legislature which affect the municipalities, and are prepared to head off adverse legislation, or help the passage of any which they consider in the interests of the municipalities.

For Acid Stomachs Use Magnesia

Quickly Stops Sour Burning Feeling and Makes Digestion Painless.
The almost universal use of magnesia by physicians and specialists in treatment of stomach troubles, is due to the fact that it stops food fermentation and neutralizes the acid—the direct cause of nearly all stomach troubles. Of the many forms of magnesia such as oxides, chlorides, carbonates, sulphates, etc., the most suitable and efficient and the one prescribed by leading specialists is bisulphated magnesia, a teaspoonful of which in a little warm water immediately after eating will neutralize the acid, stop fermentation, and thus ensure painless normal digestion. Care should be taken to get bisulphated magnesia as its action is infinitely more effective. It is also, by the way, usually stocked by druggists in convenient compressed tablets as well as in the ordinary powder form. Stomach sufferers and dyspeptics who follow this plan and avoid the use of pepin, charcoal, soda mints, drugs and medicines are invariably astonished to find that the stomach relieves of the irritating acid and gas, soon regains its normal tone, and can do its work alone without the doubtful aid of artificial digestants.

EARLY MARRIAGES ARE SUPPORTED AND OPPOSED

Continued from page 4.
war. The whole tendency of the times was to facilitate and encourage marriage.
Not a Gretia Green.
Mr. Smith (Charlotte) denied that his county was the Gretia Green of the province. He had heard no complaints of people coming into Charlotte to get married and evade the laws.
The only effect the section would have would be to divert fees from poorly paid clergymen in New Brunswick to poorly paid clergymen in Maine.
Hon. Mr. Foster said he was responsible for the clause of the bill requiring fifteen days' residence in the province. He had received many complaints from Charlotte in regard to clandestine marriages and the clause was based upon those complaints.
Personally he had no objection to the clause being struck out.
Hon. Mr. Robinson said it did seem that the proposed amendment might create hardship and he was glad that there had been a frank expression of opinion in regard to it.
Mr. McGrath said he strongly disapproved of the proposed section which would make legitimate children born before the marriage of their parents.
Hon. Mr. Sweeney was in favor of reasonable restrictions being put upon the facilities for obtaining a marriage license, and he thought that the requirement of fifteen days' residence was quite proper.
He had no sympathy with making it too easy for young people to get married as experience showed that half the troubles which were aired in the country, and particularly in the courts, arose from hasty ill-considered marriages.
Hon. Mr. Baxter.
Hon. Mr. Baxter said there were two reasons why publication of intention to get married were necessary, one was to prevent young people under age getting married without their parents' consent, and the other was to prevent bigamy. The mischief of the matter is that someone is certain to break the law, unwillingly.
Personally he would prefer to withdraw the amendment, but if it was the government's policy to let it remain he would not oppose it.
Ultimately progress was reported in order that some of these points might be discussed by the legal members.
Hon. Mr. Baxter presented the petition of the municipalities of the city

PRESBYTERIANS MEET TONIGHT IN MONTREAL

Important Question of Church Union to Be One of Leading Issues Discussed by National Body.

Montreal, June 5.—The annual meeting of the Supreme Court of Canadian Presbyterianism will begin in Erskine church, Montreal, tomorrow evening. It is ten years since the last visit of this General Assembly to Montreal. The present meeting will be a large and busy one, and begins with a sermon by Rev. Andrew B. Baird, D. D., Winnipeg, the retiring moderator. His successor will be chosen and on Thursday the real business will be taken in hand.

Nearly six hundred clergymen and laymen from every corner of the Dominion and from Newfoundland will arrive in Montreal on Wednesday to attend this great assembly. Rev. Dr. John Neil, of Toronto, will probably be elected moderator to succeed Dr. Baird, for as far as the nominating vote is concerned the choice of him has been almost unanimous.

Church Union. The question of church union will likely first be brought to the fore by the report of the union committee, of which Rev. Murray of Saskatoon is convener. This report will in all probability be submitted on Monday, June 11th. Discussion on the question of union will also follow certain overtures from various Presbyteries in every part of Canada with regard to the consummation of union. Some ask for immediate action to effect union, others ask for delay and deliberation, while still others request that steps be taken to allay the friction which has arisen in the church on this matter. All such overtures will probably be referred to a committee whose members represent the different points of view.

NAMED EDITH CAVELL. Campbell, June 5.—A daughter born to Mr. and Mrs. Frank Cline on May 30 has been christened Edith Cavell.

"BE LOYAL TO YOUR CITY AND HER INDUSTRIES."
A man is either an optimist or a pessimist. He is either a booster or a knacker. There is no "in between." You can't be "neutral" here. You are either for your city or against it. If the latter you'd better get out. This city don't need you; don't want you, wouldn't have missed you if you had left six months ago. And "if you never come back it will be soon enough."
However, there are thousands of our citizens who are loyal, who want to do something to boost their home town if this "something" is shown them. It is to these citizens that we offer this opportunity of buying and Boosting Home Products as the best means of showing their loyalty to their city, its growth and prosperity.
When you spend your money, spend it with your own people. Insist on goods of home manufacture. Keep well in mind the fact that you yourself gain by so doing. Every dollar you spend for home products is a contribution to the continued prosperity of your home city.
Be loyal and show it. Talk it. Show your friends that patronage of local goods means better things for every one living here.
Do Your bit in Boosting Your City.

SUSSEX

Sussex, June 3.—Mr. Gordon McKay returned the first of the week from Fredericton.

Mrs. A. L. Price, who has been spending the winter in New York, has returned to Sussex.

Honor was paid to the memory of the late Private David Wilson at a memorial service held on Sunday evening last in the Methodist church.

Rev. H. C. Rice, the pastor, spoke in feeling terms of the heroic young man who had paid the supreme sacrifice.

Private Wilson, who was a native of Scotland, was twenty-four years of age. He came to New Brunswick six years ago and located near Sussex.

He enlisted in the 104th Battalion. The many friends in Sussex of Major Edward Weyman will be shocked to learn that his wounds which were reported first as not being serious have turned out to be much more than at first anticipated.

Major Weyman was wounded on April 29th in both legs and one leg has had to be amputated below the knee.

He has been in New York several months with the 55th Battalion and after taking special courses at military colleges in England was sent to France.

Major Weyman is a graduate of the University of New Brunswick and also of Yale, and is one of St. John's most promising lawyers.

O'CONNOR IN VICTOR'S ROBE LAST EVENING

Defeated Thistles in Splendid Game—Score, 2-1—Lobb Pitched No-Hit Game.

Picture a graduate of a domestic science school standing back gazing upon her first lemon pie made shortly after her arrival home.

In one of the best games played on St. Peter's grounds the Thistles were compelled to acknowledge the Maples more efficient in baseball art.

The respective pitchers showed class as far as hits were concerned. Lobb's bunch did not allow a hit while Hanson was only tapped for a single by J. McGuire.

The scoring was all done in the first two innings. The first inning saw the Maples register two runs. In the second Dever's aggregation scored the orphan.

Manager O'Connor was the recipient of many congratulations for the way he handled what first appeared to be novices at the game.

The Thistles were somewhat handicapped owing to the absence of Moore, their third baseman and Lenihan, a catcher.

These are gold filled cases, the celebrated Champ movement is jewelled and guaranteed, selling at \$15. This is an advance of \$1.00 due to the war tax of 7 1/2 per cent. Don't let ashes all your life—cook with gas.

AN IMPORTANT DECISION. Many times persons have been arrested in the city and convicted in the police court on the charge of "Lying and Lurking"; this charge having been placed against them by the constable who made the arrest. Several months ago Corey McKinnon's name was entered in the Moncton police court by Judge C. A. Steeves, on the charge of "Lying and Lurking." The case was appealed, and Monday in the Westmorland County Court, His Honor Robert A. Borden, gave his decision, stating that there is no offence such as "Lying and Lurking," known to Canadian law. McKinnon had been fined ten dollars in the police court, which conviction, Judge Borden said he found to be bad, and ordered it to be quashed with costs of review, which His Honor taxed, and allowed a young lawyer.
