Things might have been a little different had Collins been sent in from "Big Sis," remarked Manager Stahl.

STAMP-SELLING MACHINES SOON TO CONCLUDE C. R. PASS INQUIRY

Post Office Department to Place Them on Trains and in Railway Stations

CANADA'S MINT BUSY HAS TURNED OUT ABOUT \$800,000 IN FIVE AND TEN DOLLAR GOLD PIECES

Ottawa, Oct. 15.—The convenience of the general public will be served by an extension of the postal facilities, now under consideration by the post office department. It is proposed to issue one-cent stamp books on the same principle as now obtains in the case of two-cent stamps.

Since April 1st the royal mint has enriched Canadian currency by minting eight hundred thousand dollars worth of Canadian gold in denominations of \$5 and \$10.

The banks, as a rule, are not very sympathetic towards the issue of a Canadian gold coinage. They prefer to keep their own notes in circulation as being easier to handle and at the same time more profitable to them.

The gold coin issues of the mint as well as the silver and bronze coin issues depend largely on the demands of the banks, as transmitted to the finance department through the receivers-general offices throughout the dominion.

There is at present a very large amount of American gold coinage in circulation in Canada, and some ten millions of dollars worth of the American gold pieces are being used.

Can Mint 100,000 Coins Daily. The Ottawa mint has a capacity of about 100,000 coins per day and this year the output promises to run nearly 35,000,000 coins aggregating in value nearly \$5,000,000.

The issue of one-cent and five-cent pieces will probably run well over 5,000,000 each with ten-cent pieces nearly as much. The recorded issue of the one-cent piece was made during the first week of June, when 210,000 were minted. Last week 100,000 one-cent pieces, 33,000 twenty-five-cent pieces, 35,000 ten-cent pieces and 101,000 five-cent pieces were coined.

According to the last annual report of the Ottawa branch of the royal mint the total value of coins issued by the department of Canada is over \$10,000,000.

The silver coin issued since the adoption of the dollar currency in 1858 averages in value \$1.20 per head and the bronze coin nearly 12 cents per head. At present the annual issue averages nearly twenty cents per head in silver coins and .05 cents per head in bronze coins.

INTERNATIONAL TRADE UNIONS

Canadian workers are deeply interested in the question of international unions. Recent developments in this class of organization show clearly the danger to international unions and these funds are practical abuses under the control of United States citizens.

It should be at the same time remembered that alien labor importation, being carefully watched by Canadian workers, and the law on the subject appealed to when necessary to prevent any danger to their particular trades by the importation of workmen from the States or elsewhere, and of course the same rule applies to United States workers in cases where they are sought to import Canadian labor in a similar manner.

ON THE DEATH OF GENERAL COUNT NOGL

A mighty people bows, and like a flame Over a forest sweeping, tidings spread, And silence weighed with wonder, awe, Subduing all hearts to homage of one name. Here speaks no word of alien praise or blame.

To rest the silence of the lofty dead, Of the gray, concurring battle-lighted head That to his chosen end majestic came.

Nay, dwelling in our lowland where men grope, Meantly for gain, bound by their little day, Arise not your brow with sudden joyous breath From some far crest, some ancient Asian slope, Some word where crags and chasms and vapors wade, Loom in vast heights of sacrificial death!
