A. O. SKINNER.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of suffer ers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious ex-posure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now & years old, hale and hearty, and am satisfied your CHERRY PECTORAL Saved me.

HORACE FAIREROTHER."

Rockingham, Vt., July 15, 1882. Croup. - A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Aver's Cherrer Pectoral, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour that little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882. "I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882. "I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHEARY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.

CABINET CHANGES.

Since our last issue there have been changes in the Dominion Cabinet—the Hon. Mr. McLelan having been appoint-ed Minister of Finance, and Prof. Foster, P. for Kings, Minister of Marine & Fisheries. As usual, the announce-ments were scarcely made ere the Reform howlers were in full blast after these gentlemen, and if they are to be believed the new Ministers are simply unfit for the positions. The St. John Globe in particular has been very severe in its references the member for Kings. The new thing better to do, the experience of the past proving that the Grits are more successful as critics than they are as rulers of the country's destinies. But what are the facts? In Mr. McLelan the ordinary ability. His successful and uportinght administration of the Department of Marine & Fisheries has brought him of Marine & Fisheries has brought him into prominence as a gentleman of in-

of Marine & Fisheries has brought him into prominence as a gentleman of indomitable perseverance and unswerving rectitude, and if any further evidence were needed of his fitness for a Cabinet Minister, his friends could with pride point to his able management of the Fisheries Exhibition in London in 1883,—his satisfactory distribution of the Fishery Award, (by no means an easy task) and the energy displayed in securing better life-saving appliances where most needed, and in lighting up the exposed portions of our coasts, in this latter particular taking a leaf from the book of the Hon. Mr. Mitchell, who enjoys the enviable reputation of having been the

Indian and Colonial Exhibition.

We publish below a letter from Mr. Ira Cornwall, Jr., Agent General of New Brunswick in England, with reference to the coming Indian and Colonial Exhibition. We heartly agree with Mr. To Cornwall, that nothing should be left undone to have our country properly represented. If we are to obtain a share of the settlers who leave other countries for the Dominion, the result can only be attained by making known the resources and industries of the Province, and in what better way can this be done then by preparing a first class exhibit of our manufacturing interests, the products of our forests and fisheries, and also of our generalized products as far as can be done. The remains were interred in the burial ground of St. Andrew's Church, the impressive service being conducted by the Rector, Rev. Mr. Sweet. The deceased was a lad of good principles—obedient and kind to his parents, and a devoted member of St. Andrew's S. School. It was only a few days before that he was conversing seriously with his mother on religious matters, his young heart having evidently been opened to admit the Heavenly Guest. The anguish of the parents in having to part with a much-loved member of the household so suddenly and sadly is tempered by the soothing thought that he is "not lost, but gone before." Much sympathy is felt for them in this trying hour, in which we sincerely join.

Before taking a retrospect of the dying year, we wish our legion of friends and customers the Compliments of the Season.

We have also much pleasure in thanking the discerning public for their constantly increasing patronage; which we hope to foster and continue by a sincere appreciation, faithful attention to their requirements, and upright, honest dealings.

The state of trade and labor for the past year has uot been very cheering all over the Dominion, yet—owing to the employment given on the construction of our railroads and public buildings, with the low prices prevailing for food staples and clothing,—our people have not prices prevailing for food staples and clothing,—our people have not shared the depression to any great extent, while late reports from the lumber markets of Europe are most encouraging, and President Cleveland's Speech at Washington points to early reciprocal trade in Lumber and Fish with the United States, our citizens, therefore, have 50 Kegs Malaga GRAPES. strong reasons to hope for the return of good times before the close

We point with pleasure to the rapid growth of our business, from a small stock of \$2,500 in 1875, to \$50,000.00 in 1885, as a proof that real merit leads to lasting success. The sound goods we import and the ample satisfaction we give, is testified by the steady demands on our trade for the past ten years. Our yearly visit to Great Britain, and the

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882. "Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrof-ula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which ap-peared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons

who would testify to the facts in his case.
Yours truly, W. M. PHILLIPS." FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla. Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and what has wrought such a cure in my case, and
