(Gold Medalist  
of London Conservatory of Music)  
PIANO INSTRUCTION  
Glencoe Studio—Symes Street.  
Newbury Studio—Mrs. Peter Galbraith's, Wednesdays.  
—Phone 109, Glencoe.

## INSURANCE

The Great-West Life Assurance Co.,  
sick and accident insurance.—Mac  
M. McAlpine, Agent, Glencoe; Box 41.

ELMA J. KING  
Organist and Choir Director of Glen  
coe Presbyterian Church  
INSTRUCTION  
Voice Culture and Piano  
Studio—Lecture room of the church.  
Class on Saturdays.

GLENCOE LODGE, No. 133,  
meets every Tuesday evening  
at eight o'clock sharp  
in the lodge room, opposite Royal  
Bank building, Main street. All bre  
thren of the Order cordially invited  
to attend.—B. F. Clarke, N.G.; W. A.  
Currie, jr., R.S.

## TO RENT

Fifty acres of pasture land, being  
composed of the east half of the  
south half of lot number ten in the  
second concession of Mosa. Apply  
to Elliott & Moss, Solicitors, Glencoe,  
or John A. Campbell, 3261 Fifth St.,  
Detroit.

BUSINESS BLOCK FOR SALE  
Village of Highgate; at present oc  
cupied by Abney Bros. as garage;  
formerly owned by Mr. Sam Haining.  
This property must be sold at once  
to close up the estate. For further  
particulars apply Fred H. Brisco,  
Trustee, Chatham.

## ROOFING OF ALL KINDS

We handle the best grades of roofing, and have made  
arrangements with an expert Roofer to lay roofing of  
every description, and are prepared to give a price on  
Shingles, Brantford Slates, Roll Roofing, Galvanized  
Iron, etc., per square, laid on your roof.

GET OUR PRICES

## McPHERSON & CLARKE

Planing Mill Lumber Yard Glencoe, Ont.

Why let luxury that you do not  
need, size that you do not want,  
speed that you cannot lawfully use,  
lead you into buying a car that you  
cannot afford to own?

Buy a Ford. It is lowest in price,  
lowest in maintenance cost, lowest  
in depreciation, and provides every  
thing you can ask in a car.

## E. G. SOMERVILLE

The late Captain James W. Stein  
hoff, manufacturer, of Wallaceburg,  
left an estate of \$265,500.

## DISTRICT AND GENERAL

Albert Dibley, a farmer residing in  
Raleigh, near Merlin, had one of his  
hands so badly mangled in a corn  
shredder that it was found necessary  
to amputate it above the wrist.

Taking the old family dog to the  
woods to shoot him because a change  
of residence was to be made, Clar  
ence Quibell, of Silver Lake, Ont.,  
accidentally shot and killed himself.

John Smith, of Metcalfe, recently  
found an old English penny on his  
farm. It bears the date of 1797 and  
the head of King George III. The  
coin is of extraordinary size and  
weighs about two ounces.

Seventy-six millionaires committed  
suicide in the United States last  
year. Great wealth is no guarantee  
of happiness and peace of mind, and  
only too often it is but an added bur  
den and an incentive to lower living.

Getting up to open a window at 3  
o'clock Saturday morning Miss Eliza  
beth Black, aged 51, of Alvinston, a  
patient at St. Joseph's Hospital, Lon  
don, fell two storeys to the ground  
and died at 10 o'clock from injuries  
and shock.

The attempt of Sproule & Johnson  
to develop shallow oil and gas pro  
duction near Kewwood has been aban  
doned. Several shallow wells were  
drilled with small shows of oil and  
gas, but no commercial production  
resulted. The outfit has been moved  
away and work discontinued.

The late Premier Mercer of Que  
bec was the subject of many good  
natured jokes when he passed an Act  
granting 100 acres of land to each  
father of twelve children, but Prem  
ier Taschereau says that the Legis  
lature has had to repeal the Act, "as  
the whole public domain would have  
passed into the hands of those enter  
prising fathers."

The members of the legislature ad  
ministered defeat to the bill intro  
duced by Charles Swagge, of Niagara  
Falls, to compel all vehicles on the  
public highways to carry front and  
rear lights when the measure came  
up for the second reading. J. M.  
Webster, of West Lambton, thought  
the move too drastic, commenting  
that if the movement was kept up,  
before long pedestrians would have  
to carry lights.

Employees as a class paid the  
largest amount of income taxes in  
Canada in 1921, their total contribu  
tion being almost more than eleven  
million dollars. Manufacturers  
come next with a total of some eight  
million dollars, while merchants,  
wholesale and retail, contributed  
slightly less. About forty-six and  
one-half million dollars was paid in  
income tax by all taxpayers in 1921.  
Farmers paid about six hundred  
thousand dollars.

Kingsville Methodist church will  
probably be the first church in Can  
ada to have installed a radio outfit  
as part of its plant. A new Sunday  
school hall is about to be erected,  
and it has been decided to equip it  
with the best radio set which can be  
secured. The set has been donated  
to the church by a citizen, who is in  
terested in this latest invention. It  
is the plan of the church authorities  
to turn on the radio at social and  
religious gatherings.

Correspondents of the Ontario de  
partment of agriculture in Bruce  
county have directed attention to  
considerable loss of life among cat  
tle in dehorning after being fed on  
sweet clover ensilage during the last  
year. They say that several farmers  
have reported that on dehorning cat  
tle they found considerable difficulty  
in stopping the blood flow and in sev  
eral instances the animals bled to  
death. In all cases the cattle had  
been fed on the sweet clover diet.

Workmen excavating for the base  
ment of a new residence in the coun  
ty town of Sandwich uncovered a  
smooth-bore solid iron shot such as  
was used in the cannon of a hundred  
years ago. It is about three inches  
in diameter, and weighs a trifle more  
than 16 ounces. The spot where the  
relic was dug up is distant but a few  
rods from the Detroit River bank,  
and members of Essex Historical So  
ciety express the opinion that the  
shot probably was fired from a small  
gunboat during the "unpleasantness"  
of 1812.

Ontario Agricultural College stu  
dents completing their term at Guelph  
are not very optimistic about the  
farm. A large number admit they  
will not settle down on the farm be  
cause of long hours, hard labor, mon  
otony and lack of intellectual or so  
cial intercourse. Of the 73 students  
in the graduating class, 15 have de  
finitely decided not to go on a farm,  
3 have not made up their minds and  
all the rest will seek some other oc  
cupation besides farm life. Half of  
the 15 give lack of capital or small  
returns for their decisions.

The section of the bill now before  
the Legislature to change the date of  
municipal elections reads as follows:  
"Notwithstanding the provisions of  
sections 63, 71, 73 and 73a, the coun  
cil of any local municipality may by  
by-law, passed not later in the year  
than the last day of November, pro  
vide that the meeting of electors for  
nomination of candidates for mayor,  
controllers, aldermen, reeves, deputy  
reeves, councillors and in urban mun  
icipalities the public school board and  
the board of education, shall be held  
on the last Monday in November, and  
that polling shall take place on the  
first Monday in December, and the  
by-law shall remain in force from  
year to year until repealed."

ing.

## DEATH OF CHAS. B. McLEAN

Prominent London Insurance Man,  
Formerly of Glencoe

Charles B. McLean, district man  
ager of the Great-West Life Insur  
ance Company, died at his home, 120  
Windsor avenue, London, at an early  
hour last Thursday. Mr. McLean  
had only been ill for a matter of four  
weeks, suffering from aneurism,  
complicated with heart trouble, but  
was thought to be improving and his  
death came suddenly and unexpected  
ly.

He was born in Caradoc township  
43 years ago and for a number of  
years in his early life was in the  
mercantile business in Glencoe as  
leading salesman with J. N. Currie &  
Co. Nine years ago he entered the  
insurance business in Glencoe and  
later went West in the same busi  
ness. His rise in this profession  
was rapid, and he became very suc  
cessful both in the West and in Glen  
coe, where he again returned. Five  
years ago he went to London and  
three years later he was made dis  
trict manager, which position he  
filled in a very capable manner.

He was a Liberal in politics and  
was very active both in London and  
West Middlesex, and was widely  
known throughout the country, where  
he was always identified with public  
life. He was an elder of the First  
Presbyterian church, London. De  
ceased was also prominent in Mason  
ic circles and was a past master of  
the Lorne Masonic Lodge of Glencoe,  
a charter member of Temple Lodge  
of London, as well as a 32nd degree  
member of the Scottish Rite.

Besides his widow, who was Miss  
Flora Finlayson, of Glencoe, he is  
survived by his father, Allan McLean,  
of Strathroy; two brothers, Gordon,  
of California, and David, of Strath  
roy, and three sisters, Mrs. Lorne  
McCall, of Strathroy; Mrs. Jas. Tal  
bot, of Calgary, and Mrs. Gordon  
Small, of Simcoe.

Funeral services were held at his  
late residence at 10 o'clock on Sat  
urday morning. The church ceremony  
was conducted by Rev. Dr. Beattie,  
of First Presbyterian church. The  
Masonic ceremony was then carried  
out under the auspices of Temple  
Lodge, A. F. & A. M. The remains  
were then brought to Glencoe, where  
service was conducted in the Presby  
terian church by the minister, Rev.  
D. G. Paton. The sermon was deliv  
ered by Rev. George Weir, of Ridge  
town, Mr. McLean's former pastor.  
Rev. Dr. Beattie, of London, also as  
sisted in the service. Interment was  
made at Oakland cemetery, under  
the auspices of the Glencoe Masonic  
Lodge.

Many beautiful floral tributes from  
London, Glencoe and elsewhere tes  
tified of the high esteem in which the  
deceased was held by his wide circle  
of friends, in business, church and  
fraternal circles.

## GLENCOE TENNIS CLUB

A meeting of tennis enthusiasts  
was held on Tuesday evening for the  
purpose of organizing a club to play  
during the summer months. R. Reith  
has kindly offered the use of his  
grounds, where it is expected there  
will be room for three double courts.  
Two of these are being put into op  
eration at once, and a third will be  
arranged for if desired. The fol  
lowing officers were elected:—Honorary  
president, R. Reith; president, Miss  
Evelyn McLachlan; secretary-treas  
urer, G. C. Hibbert; grounds commit  
tee—Wm. Reith (convener), Cecil  
McAlpine, Leslie Hicks; executive  
committee—Miss Fern Graham (con  
vener), Miss Annie Aldred, Miss Mar  
jorie Gillies, A. Aldred, R. M. Mc  
Pherson.

The stomach regulates the condi  
tion of the blood and is the fountain  
head of health or disease. Get your  
stomach right by taking Tanlac.—P.  
E. Lumley.

## FIELD CROP COMPETITION

The Mosa & Ekfrid Agricultural  
Society will conduct the regular field  
crop competition in fall wheat, and  
will also conduct a special field crop  
competition with O.A.C. No. 72 oats,  
which is known as the combined field  
and threshed grain competition.  
Prizes will be awarded on the basis  
of combined score in crop in field  
and threshed grain.

All entries must be made with the  
secretary not later than May 20, 1922.  
R. W. McKellar, Secretary.

## REV. P. R. CAREY DEAD

Winnipeg, May 6.—A venerable pio  
neer passed away at Yorkton, Sask.,  
in the person of Rev. P. R. Carey,  
who was born in Euphrat, Lambton  
county, in 1849. He graduated from  
Woodstock College and spent two  
years as assistant to Dr. Hammond,  
the evangelist, in Kansas City, Mo.,  
and then returned to Ontario, taking  
a charge at Palmyra. He later had  
charges at Louisville, Rodney, Ailsa  
Craig, Blenheim and Port Burwell.  
In 1901 he started the first Baptist  
church at Yorkton, where he labored  
for ten years. He finally retired  
three years ago and lived near York  
ton with members of his family. He  
was married in Newbury in 1874 to  
Henrietta Cusack, and his widow and  
eight children survive.

Changeable weather causes much  
Asthma, Bronchitis, Rheumatism,  
Neuralgia, etc. RAZ-MAH for Asthma  
and R.C.'s for Rheumatism are  
guaranteed. Ask H. L. Johnston.  
Charles Cooper, a resident of  
Strathroy for upwards of 50 years,  
died a few days ago, in his 77th year.

## GLENCOE AUDIENCE DELIGHTED

Strathroy Boy Scouts' Minstrel  
Troupe Make a Big Hit

On Friday evening, May 5th, under  
the auspices of the St. John's Church  
Ladies' Guild, the above organization  
under the sole management of E. J.  
Wright gave the people of Glencoe  
an entertainment of which it is no  
exaggeration to say that many a pro  
fessional troupe could not have sur  
passed. It would be superfluous and  
almost out of place to single out any  
individual for special praise, yet con  
sidering their youth and inexperience,  
that Masters Donald Wright and  
David Ivor were more than stars in  
their class. Very great credit is due  
to E. J. Wright and the interlocutor,  
Vim McLean. The material, the  
manner and the enunciation of every  
boy were all that could be desired,  
and there was not an item bordering  
on vulgarity. It was an evening of  
intense, clean, side-splitting fun for  
all, young and old alike. From com  
mencement to finish the items were  
well chosen, showing also that the  
whole program had been carefully  
prepared. Everyone who had the  
privilege of being present was de  
lighted and declared that the whole  
evening was most enjoyable. The  
opera house was as full as it could  
be and not one will soon forget the  
impression left by these young boys.  
The whole performance shows what  
"boys" can accomplish under pro  
ficient and careful management and  
training. Throughout the whole ev  
ening every item was loudly and en  
thusiastically received and vocifer  
ously encored, testifying to genuine  
appreciation. The pleasure of the  
evening was greatly enhanced with  
splendid musical accompaniment by  
the Strathroy orchestra.

## DEATH OF PETER McALPINE

The death occurred at the family  
homestead, north half lot 19, first  
range north of the Longwoods Road,  
Ekfrid, on Monday morning, May 8,  
1922. Peter McAlpine, son of the late  
Duncan McAlpine, in his 69th year.  
Mr. McAlpine was a man of  
marked physique and was con  
sidered the strongest man in Ekfrid to  
ship. In the days of the Caledonia  
mine, he was one of the best men  
putting the shot and other tests  
strength. Four years ago he had  
the misfortune to fall off the roof of  
a barn, receiving injuries from which  
he never fully recovered and which  
ultimately resulted in his death.

Mr. McAlpine was unmarried. Sur  
viving him are five brothers, Archy,  
John, James, Donald and Malcolm,  
all of Ekfrid, and one sister, Mrs.  
John Fletcher, of Bad Axe, Mich.  
The funeral service was conducted  
at the family residence yesterday af  
ternoon by Rev. D. G. Paton, minister  
of the Glencoe Presbyterian church,  
and interment was made at Oakland  
cemetery.

## DEATH OF MISS CORBETT

A sad death occurred at the home  
of Mrs. William Corbett, Mosa, when  
her daughter, Minnie, passed away  
suddenly on Wednesday evening,  
May 3rd. Death was due to heart  
failure, and came as a great shock  
to the family and many friends. She  
was an untiring worker in the No. 9  
Women's Institute, and was highly  
esteemed by all who knew her.

She leaves to mourn her loss her  
mother, one brother and three sis  
ters—James, of Mosa; Mrs. Isaac  
Walker, of Glencoe; Mrs. Woodham,  
of Fargo, North Dakota, and Mrs. La  
Motte, of Detroit.

The funeral service was held at  
the family residence on Saturday,  
May 6, conducted by Rev. Mr. Gar  
rett, of Glencoe Methodist church.  
Interment was made at Kilmartin  
cemetery.

## FORMER GLENCOE MAN DIES IN FLORIDA

Edward E. Adams, a well-known  
produce merchant at Leamington for  
the past 30 years, died at his winter  
home in Daytona, Florida, on Satur  
day night, from pernicious anemia.  
Mr. Adams was in his 60th year and  
is survived by his widow, two bro  
thers and three sisters. The re  
mains are being brought to Leamington,  
where the funeral will take  
place today.

Mr. Adams was born in Glencoe,  
and was a son of the late Eliza Adams,  
who conducted one of the first  
grocery stores here, and succeeded  
his father in the business for several  
years before moving to Leamington.  
His mother is a sister of the late  
Mrs. Mark Walker, of Glencoe, and  
is now residing at Alexandria, Louis  
iana.

Mr. Adams was a Conservative in  
politics, a member of the Methodist  
church, and pioneer in the fruit and  
vegetable industry at Leamington,  
at one time handling practically the  
entire output of these commodities  
in that section. He was a member  
of the town council of Leamington  
for several years.

## PROPOSED BOY SCOUT ORGANIZATION

By request, and with the permis  
sion of the church wardens, there  
will be a meeting in the basement of  
St. John's church on Friday evening,  
May 12th, at 8 o'clock, of all men  
and boys over 12 years of age who  
will attend for the purpose of taking  
into consideration the organization  
of a Boy Scout troop in Glencoe. The  
ministers of the town are especially  
requested to be present.

## Controlling Insect Enemies of Potatoes

There are, roughly, four controllable factors governing the yield of potatoes, namely, fertilizer, cultivation, seed and spraying. Many growers obtain the best seed available and fertilize and cultivate in the best possible manner, and yet neglect the spraying, which is most important of all. Experiments demonstrate beyond a doubt that \$12 spent in spraying is worth twice as much as a ton of 4-8-10 fertilizer in increasing the yield of potatoes.

According to experiments held last year at the Annapolis Royal, Nova Scotia, Station, around one hundred bushels per acre increase was obtained from the use of \$40 worth of fertilizer, or the increased crop resulting from the use of fertilizer cost forty cents per bushel. The increase in crop due to spraying ran over two hundred bushels per acre and cost less than \$14, or an increased crop due to spraying cost around seven cents per bushel on the acre plots.

The unsprayed field gave 221 bushels per acre and the sprayed 398. A difference due to spraying of 177 bushels, or the increased crop was obtained at a cost of less than nine cents per bushel. Although there are some in the modern farm ranks who decry the value of fertilizer in boosting potatoes along, we do not need to take that position exactly, but rather to appreciate the fact that the spray is more valuable than the fertilizer, the latter being, however, useful in its place.

We may believe in the use of plenty of high-grade fertilizer, but let us not fail to emphasize the value of spraying, which costs less than one-fifth as much per acre as fertilizer and gives twice as great returns or is ten times as valuable, considering the amount of money invested by the grower. The results mentioned were achieved in the Maritime, where late blight is prevalent, and the difference would not be so marked in sections where this disease is not found, though the proportions would still favor spraying.

A Bordeaux mixture is, of course, the way for the potato. During the past few years many growers have found it advisable to increase the strength of the mixture as the season advances, starting with 4-4-40, the second spray should be 5-5-40 and the third and later sprays, 6-6-40. The spraying should start when the plants are six inches high in order to control the potato beetles and blight.

White arsenic and hydrate lime, equal parts, is the cheapest of all arsenicals. The value of such a mixture has been thoroughly demonstrated on several farms. The directions for making this new mixture must be followed closely, for there is danger in using poison straight or not in conjunction with Bordeaux, or in any manner but exactly as recommended. The great saving, however, that results from its use makes it worth while for all potato growers to learn how to use it. The cost is about one-fifth that of other poisons or, to put it another way, one can make a white arsenic Bordeaux and the total cost of the white arsenic, bluestone and lime, will be approximately that of Paris green or lead arsenate. In addition, one has a better sticker than Paris green, a more rapid killer than lead arsenate, and the fungicidal value of Bordeaux as well.

The method of procedure is as follows: To each ten gallons of water intended for bluestone stock solution, add two pounds of the mixture (equal parts of white arsenic and hydrate lime) poison, stir this in and then into this dissolve ten pounds of bluestone. This will make a green precipitate. Always stir before using. Use this green mixture as if it were

a solution of bluestone, each gallon containing one pound in solution. Add the proper quantity of lime and test with litmus in making Bordeaux just as though no poison were in the bluestone solution. All growers who use enough solution, seventy to one hundred gallons per acre per application of white arsenic Bordeaux, control the potato beetles.

Apply at least eighty gallons of poisoned Bordeaux in the strength mentioned per acre, and apply the spray at intervals of from ten days to two weeks from the time the plants are six inches high until they die of old age or the frost kills them. If the weather is damp and rainy, spray often; if dry, make the intervals two weeks. If your sprayer will only apply sixty gallons per acre per application, use it at intervals of from seven to ten days apart. If you have a hand-sprayer that only applies forty gallons per acre, go over the field twice at each application.

When using poison, apply the poisoned Bordeaux when the bugs are just beginning to appear. It takes a lot less arsenic to kill a small bug than a half-grown one. Above all, use common sense and judgment in spraying. Don't think that applying forty gallons per acre once or twice through the season will grow a large crop of potatoes. Such spraying often eases a man's conscience and enables him to say that he has sprayed with care, but in order to control insects must be applied successfully there must be a certain amount of copper and a certain amount of arsenic applied to each acre, and it must be renewed often enough so that a continuous protection is afforded to the plant.

Potato aphids hibernate for the most part on the rose plant, both wild and cultivated. Root out all of the wild rose bushes in the neighborhood of potato fields and spray cultivated roses in the spring, about the time the first potatoes are coming up, with black leaf 40 at the rate of a tablespoonful to a bucket of water.

The potato aphid is one of the insects, in the control of which steps must be taken before the outbreak occurs. In other words, controlling potato aphids is like insurance—you buy your protection not knowing whether you will need it or not.

To control aphids use one pint of black leaf 40 to each one hundred gallons of Bordeaux and apply at a high pressure and with an up-spray. The spray must hit the insect in order to kill. Apply black leaf 40 with the first two or three applications of Bordeaux. It is particularly advisable for growers of seed potatoes to spray thoroughly for potato aphids. In no other way can they hope to keep down meais in years of aphids outbreaks.

Few realize the immense amount of damage that is caused by the small, black flea beetles that are found hopping about the potato for the first few weeks after it comes through the ground, in districts where this pest is prevalent. This insect tends to stunt the potato's early growth, and when prevalent, will reduce the acreage yield by one hundred bushels. In one case, where the beetles were controlled beside a plot on which they were allowed to run wild, the increased yield was nearly one hundred and forty bushels, from flea beetle control alone.

The best treatment is to apply a repellent, and for this Bordeaux is the best yet known. No poison is required in flea beetle control as they absolutely refuse to eat a plant that is coated with straight Bordeaux.

If flea beetles are plentiful on potatoes when they first appear, apply a good coat of 4-4-40 Bordeaux. Continue this every week up until the middle of July. It pays as well to protect the young plant from injury as it does the halfgrown plant.

## Beginning Bee-Keeping.

The best time of the year to begin bee-keeping is in the spring. If possible the beginner before starting should pay a visit to other bee-keepers and study the methods to pursue. In his bulletin on "Bees and How to Keep Them," the late F. W. Sladen, Dominion Apiarist, advises starting on a small scale, as nothing is so disheartening to the two venturesome as to lose his bees owing to a lack of experience. A couple of colonies are sufficient at first. With the gaining of knowledge and understanding, additions can be made. The first outlay need not exceed \$25 or \$30 if judgment is used. It is well to make the bees pay their way after the first outlay. Colonies, complete in their hives, may be obtained in May, or swarms may be obtained in June or early in July. The former should each give a fair amount of surplus honey, or a swarm or two the same season, but a swarm is not likely to produce much honey the first year, unless it is a very early one. The colony or swarm should be fairly populous, and should have a young fertile queen. Be sure that the apiary from which it comes is free from disease. If possible procure the bees in the neighborhood, as death is frequent from unskillful packing if the bees are brought from a long distance. Another reason for nearby buying is the less risk of disease from contact. The seller will usually assist in the moving of the bees. If the colony is procured in April or May there will be less risk of loss than if transported later.

A method of buying bees that has come into favor is by weight, without combs, in boxes specially constructed for the purpose. Packed with care the bees will survive a journey of some length, lasting several days in fact, and will not be likely to carry brood disease after so long a separation from their combs if the food supplied is free from infection and they are compelled to build new combs. Colonies should be moved in autumn or early spring if the distance is less than two miles in order to avoid the return of many of the bees to the old location. Always bear in mind that the successful bee-keeper is the one who has learned how the bees will act under various conditions and how these conditions and the actions of the bees can be controlled.

**Poultry Performance Record.** That the Record of Performance in egg-laying, established by the Poultry Division of the Dominion Live Stock Branch, is appreciated is indicated by the increase both of breeders and entries for 1920-21 compared with the number entered in 1919-20. In the latter year the entries were 67 breeders and 4,436 birds and in the former 81 breeders and 7,511 birds. Quebec shows, according to the second report just issued, the largest increase in the number of breeders, and Ontario and British Columbia show the greatest increase in birds entered. The report indicates that the breeds most favored by British Columbia are Leghorns and Wyandottes, and by Ontario Leghorns, Plymouth Rocks and Wyandottes. Quebec's fancy is for Plymouth Rocks and Rhode Island Reds. New Brunswick, Prince Edward Island and Saskatchewan also favor Plymouth Rocks. British Columbia stands well ahead in the number of birds qualified for the record, Ontario coming second, Quebec third, and Saskatchewan fourth. Considerable

improvement in this respect is shown in the second year compared with the first.

Certificates are issued for all qualified birds laying no fewer than 150 eggs in 52 consecutive weeks, with advanced certificates for birds that lay over 225 eggs in the same period, providing the quality of the eggs is not lower than the grade specials in the Canadian standard for eggs and that they average at least two ounces in weight. British Columbia again shows to advantage in the advance qualifications, with Ontario and Quebec following, with new Brunswick fourth, and Saskatchewan and Prince Edward Island tying. In British Columbia, 96 Single Comb White Leghorns granted advanced certificates, averaged 238.32 eggs per bird in the 52 weeks; 42 Wyandottes, 242.17 per bird, and 25 Barred Plymouth Rocks, 241.17 per bird. In Ontario 44 advanced Leghorns laid an average of 245 eggs per bird in the 52 weeks, 27 Plymouth Rocks 234.16 per bird, and 18 Wyandottes 233.13 per bird. In Quebec 10 advanced Plymouth Rocks averaged 235.2 eggs per bird, and 6 Rhode Island Reds 235.3 per bird.

## Grading of Hogs.

The maintenance of Canada's export bacon trade will depend to a great extent on an adequate supply of hogs of the right type for conversion into first quality bacon. As an inducement to farmers to breed and feed that type a premium will be paid for hogs that grade a "select." The grading of hogs is expected to commence at an early date in accordance with the standards recommended at the recent conference of producers, packers and Dominion and Provincial departmental officials, held in Ottawa under the auspices of the Dominion Department of Agriculture. Official graders will be stationed at stockyards, abattoirs, and other points where necessary, and a minimum premium of 10 per cent. will be paid by the packers for hogs suitable for the production of select bacon. The difference in price between the grades of live hogs, other than "Select Bacon" and "Thick Smooth" hogs, will be determined by supply and demand. The "Select Bacon" and "Thick Smooth" standards adopted were as follows:

Select bacon hogs—Jaw and shoulder light and smooth; back from neck to tail evenly fleshed; side long, medium depth, dropping straight from back, ham full, good general finish, no excess fat; weight 160 to 210 lbs. Thick smooth hogs—Not conforming to Wiltshire standard, but of smooth fleshing and finish; weight 160 to 210 lbs. The grading will be carried on under the direction of the Live Stock Branch of the Department by competent officers appointed for the purpose.

## A Durable Exterior White-wash.

To make a durable whitewash for outside surfaces combine fifty pounds of hydrated lime, or thirty-eight pounds of quicklime, with three pounds of sodium phosphate, or the same amount of soda ash may be used, and five pounds of casein with nine and a half gallons of water. This whitewash is easiest prepared by dissolving the casein in the sodium phosphate solution and then adding this to the milk of lime after the latter has become cold.

## Jim Crow—And How to Treat Him

### A Simple Way to Get Rid of a Big Nuisance

Like most outlaws, the notorious Jim Crow has some points that are commended among law-abiding citizens, but when he is a bad bird he is a hard-boiled egg. His springtime ravages on the cornfield are very largely responsible for his unsavory reputation, but he has added to it by occasional raids on the poultry yard, depredations on wild birds, and attacks on crops other than corn. At certain seasons and in certain localities he becomes such a nuisance that it is detrimental to farming that he must be warned by making an example of some members of his gang.

Jim is only about half bad, and because of his better half, which is not mean his wife, who is just as black as he is, it is not advisable to treat him too harshly. Nearly one-fifth of his food is made up of insects, and he includes on his menu some of the farmer's worst enemies—grasshoppers, caterpillars, and white grubs and their parents, the May beetles.

Probably we could not get along so well without Jim Crow as with him. Killing off the whole family, if that were possible, would be a shortsighted policy. So while we recommend the poisoning of crows, this measure should be looked upon merely as a warning to Jim and his family that they have been going too far and that they can't get away with everything. They are wary enough not to need many repetitions of the lesson, at least not in one season.

Every spring farmers revive their old feud with the Jim Crow family, carrying on a desultory battle by means of scarecrows, epithets, and the more effective deterrents of coal tar and poison. Coal tar, which may be secured at gas plants and some paint shops is not a poison, but it imparts a disagreeable gassy odor to the seed grain that is distasteful to crows and other pests. It has the advantage, not possessed by some other deterrents

on the market, of not affecting the germination of the corn when used in limited quantities. A tablespoonful is used to a half bushel of seed. The grain is first heated by an application of warm water, and then drained. The coal tar is added immediately and a thorough stirring will give each kernel an even coating. The seed is then spread out to dry or is dried by the addition of sifted ashes, land plaster, or powdered earth.

The best deterrent, however, is strychnine, which may be applied to corn in a paste made up in the proportion of one ounce of powdered strychnine, two tablespoons of starch, and one and one-half pints of water to twenty quarts of corn. The starch and strychnine are put into the water, which is heated to boiling, and stirred well when the starch begins to thicken. This paste is poured on the corn and stirred into it until thoroughly distributed. The corn is spread to dry and is then ready to use.

This method is better than the old one of steeping the corn in a strong strychnine solution. Because of their wariness it will not be possible to kill many of the crows, but a little of this poisoned corn scattered over the field of sprouting corn will get a few of them and the rest will take the warning and leave. Using whole corn for bait lessens the danger of poisoning smaller seed-eating birds. Care should be taken not to distribute the poisoned grain near the farm buildings where domestic animals might pick it up. The crows usually do their corn pulling at some distance from the buildings.

Before going ahead with poisoning operations which involve the spreading of poison it is always advisable to look up laws and local regulations regarding the distribution of poison. Local conditions may modify practices a great deal, especially in thickly populated regions.

## Baby's First Year Diet

More and more, the departments of public health are offering to the people, free of all trouble and expense, practical health suggestions founded on the "safe and sane" conclusions of accredited specialists.

We reproduce herewith a bulletin which gives the diet for the first year of a baby's life.

The best food for the baby is breast milk.

The best substitute for breast milk is modified cow's milk.

If the baby cannot have breast milk, consult a doctor and follow his directions.

Be regular in feeding the baby.

Do not feed the baby between meals. Give the baby cool not cold boiled water between meals.

Time Table for Feeding Normal Infants.		
Age	Day feedings	Night feedings
2nd to 7th day.	Every 2 hours, 2	2
2nd to 3rd week.	Every 3 hours, 2	2
4th to 6th week.	Every 3 hours, 2	2
7th wk to 3 mths.	Every 3 hours, 2	2
8rd to 5th mths.	Every 3 hours, 1	1
5th to 7th mths.	Every 3 hours, 1	1
7th to 12th mths.	Every 4 hours, 1	1

## Thinks It Better to Keep Up Grain.

Dairymen differ in opinion as to the practicability of continuing the grain ration after the cows are turned out to pasture. It has been our experience that it pays to keep the grain up, and especially with heavy-milking cows. There are cows in every herd that are beginning to decline in milk flow as they are turned out to pasture. These cows I do not consider profitable to grain, but as a rule cows do much better and hold up longer on their milk flow if given a liberal grain ration even on good pas-

### Feeds Other Than Milk For Baby.

**Six Months**—In addition to breast milk or modified cow's milk give the baby 1 to 3 teaspoonfuls of strained fruit juice between the morning feedings. Fruit juices allowed: orange, prune and cooked apple juice.

**Eight Months**—Gruel or strained cereal (well-cooked), 2 to 3 tablespoonfuls, may be given with morning feeding.

**Nine Months**—Increase strained fruit juice to 2 to 3 tablespoonfuls. Give between morning feedings. Fruit juices allowed: orange, prunes and cooked apple juice.

**Ten to Twelve Months**—Broth made from chicken, lamb or beef, beef juice, 1 tablespoonful at first, gradually increasing to 8 tablespoonfuls; yolk of soft-cooked egg, and, if teeth have appeared, a small piece of crisp bread or toast or rusk may be added to the diet. Give at second morning feeding. Broth and egg should be given on alternate days.

Average weight for child at twelve months, 20 to 21 pounds.  
Note:—3 teaspoonfuls = 1 tablespoonful. 2 tablespoonfuls = 1 ounce. 16 tablespoonfuls = 1 cup. 1 cup = 8 ounces. All measurements should be level.

ture. Early spring pasture is highly succulent and for a short time will produce an increased milk flow, but as the season wanes the supply gradually becomes insufficient to insure maximum milk production. Heavy milch cows, to produce a profitable flow of milk during the pasture months, should receive some concentrated feed to balance up the pasture.

—L. R.  
Whim is no guide to food needs, especially for children. Youngsters can be taught to like the foods good for them.

## Parents as Educators

Nature for Children—By Edith M. Patch.

**Mystery and Surprise.** A tied package or a locked room or a shut drawer has an attraction for a child because it contains something unknown and stimulating to his curiosity. Any mystery fascinates him, and most of all the mysteries of life itself. Fortunately he is surrounded by miracles that he can watch for, for life is everywhere abundant. The mystery of a plant, with roots and leaves and blossoms sealed within a tidy box called a seed or folded in a tightly wrapped brown parcel called a bulb; or the secret that the cocoon holds, from the remarkable creature that spun itself inside to the same creature, wonderfully transformed, that will make its way out; or the egg under the patient breast of a bird, from which the new birdy breaks its way into a larger world than the locked shell, are matters such as the questioning mind can pry into with no harm to its own healthy growth. To see a life developing is an experience stimulating to knowledge and imagination alike, and one which is easily within reach of any child. For a country child can gather seeds from the fields and sow them, or transplant bulbs to a wild-flower garden of his own; while a city child can discover the curious habits of a sprouting bean or find out what beautiful green member of the lily family is hidden within an onion bulb, joy to be had with a garden no bigger than a handful of dirt in a vegetable can.

**Interest and Companionship.** The faithful care of a pet, whether it be a plant that was once a seed, a caterpillar that will one day be a butterfly,

or a chicken that loses its fluffy down and sprouts funny feathers that look like tiny paint-brushes, will awaken an interest in the thing watched and tended, which will grow into a sense of companionship in its presence. Many an otherwise lonely hour is eased in some such simple way. If we grown-ups are prone to overlook the importance of such a possession the child's own estimation of its value comes home to us with startling illumination now and then, as was illustrated by the small boy who took his treasures to a dearly loved neighbor whose husband had recently died. "Auntie," he said earnestly, "I've brought you my indolops 'cause I thought you'd be lonesome."

**Responsibility.** The interest in one life, intimately watched, naturally reaches out to other life things not so near. The bird in the bush, the whistling way of some wing in the air, the happy tracks of a rabbit in the snow, the friendly squirrel in the park—become matters for sympathetic attention—a feeling that, if rightly guided, develops into a proper sense of responsibility for decent treatment of bird and beast and blossom doomed to dwell with us on this earth and in need of protection against the ruthless hand of man.

**Free Instruction.** In this school, enriching the pleasure of the child and making him a broader-minded denizen of the world, tuition is free to all, for the teacher, Mother Nature, charges no fees and her lessons may be read by any child, young or old, who watches.

## THE CHILDREN'S HOUR

### Poke Ball.

A game that can be played almost anywhere out of doors, and that furnishes lively amusement for four or more players, is poke ball. First lay off a starting line long enough to accommodate all the players. About two hundred feet from it dig a hole about eight inches deep and six inches across, and mark the position of it by a small flag.

Divide the contestants into teams of two members each, and let them take their places side by side on the starting line, one member of each team facing the hole, the other with his back to it. Tie together the legs that come side by side as they stand thus—one leg of each member of a team—just as you would tie the legs of a pair of three-legged runners; only for this game have the members of the pair facing in opposite directions. Provide each pair, or team, with a stick about three feet long, and place at the feet of each team a rubber ball, so marked that it can readily be identified.

At the signal to start, the member of each team who is facing the hole uses the stick to drive the ball in the direction of the hole. As soon as he has done that he passes the stick to his partner and both make for the place where their ball has come to rest. When the player who now has the stick has had his poke at the ball he passes the stick back to his team mate, and so the contest continues until one of the teams gets its ball into the hole.

### "As Great As My Mother Thinks Me."

"May I be as great as my mother thinks me," someone says. Would that not be a wonderful life motto for a boy to choose?

If you could measure up to your mother's standard, to her ideal of you; if you could only keep her model of your possibilities constantly in your mind, what a wonderful difference it would make in your life! What a wonderful country this would be if every boy should make himself what his mother is ambitious to have him make of himself! If he should take the place in his community which she has pictured for him! If we were all ready to make for our own advancement such sacrifices as she has already made and the greater ones she would gladly make to see us as she longs to have us, what a race of giants we would be!

What our mothers think we are, and can be—oh, there's the test of our lives, to reach up to their ambition for us!

## BLOOD PRESSURE

There are many reasons why the blood pressure is an important item to consider in standards of health. It is an indication of the power of the heart beat. It is an index to the distance or elasticity of the arteries. It tells something as to the total volume of blood in the body. It has been demonstrated that there are certain degrees of blood pressure that are normal to the healthy individual and that a variation of more than a few degrees, especially a variation upward, is a warning symptom.

Blood pressure varies a few degrees for many factors. It varies with age, sex, excitement, weakness, hunger, heat, cold, nervousness, hour of the day and other conditions.

A fair, general estimate of normal blood pressure is 120 for a person twenty years old, with addition of one-half point for each increasing year of age. In order to make sure of the normal pressure for an individual he should be examined at least three times.

A low blood pressure often indicates venular heart affection, anemia, debility or chronic weakness.

The common error in blood pressure is that of being higher than normal. It is very important to discover the increased pressure early. A few added millimeters of pressure constantly maintained, soon adds enormously to the burden placed upon the circulatory organs.

Adults are beginning to make a practice of having blood pressure tested at least once each year so that errors may be detected and remedied before serious damage has been done. If an irregularity is found before it has progressed very far the doctor has a chance to find the source of the trouble and correct it, to order changes in diet, perhaps to insist upon relief from overwork. Overwork and worry are among the chief causes of high blood pressure, and the mere act of giving relief from them often causes prompt response. There are certain articles of diet that always make the blood pressure go up. The use of tobacco and alcohol are quite decided in their ill effects.

The great thing is to find and remove the cause of the increased blood pressure while the matter is still incipient and thus the patient may be given many more years of life if not a complete cure.

Fine barns do not make good cows.

Putting one truth into circulation is a good day's work.

## The Poultry

We have set about 650 eggs but only 300 hatched. The eggs are fertile, but the shell cracks off and leaves the skin on that should come off with it, and the skin dries and seems so tough that the chick can not break through. Could you tell us what the trouble is?—D. C.

When the membrane beneath the shell dries down so the chick cannot emerge it usually means that the moisture conditions have not been right. If you are hatching with hens try placing a moist sod in the bottom of each nest box. It will usually furnish enough moisture to enable the chicks to hatch. When hatching with incubators we soak woolen cloths in very hot water and apply them to the eggs on the eighteenth night. They are removed several hours later. Then the cloths will be found dry and the moisture will seem to have entered the shells and the egg chamber. Then close the incubator and do not open again until the hatching is entirely over.

Sometimes chicks die in the shell due to a weakness of the germ. A few might die in the shell even if the remainder of the eggs produced a satisfactory number of chicks. Overheating in the incubator might cause the trouble. The air might be too dry in the room where the machine is operated.

## The Dairy

Butterfat production helps to pay grocery bills but it is poor policy to rob the young calf in order to pay these bills.

The butterfat production of the future depends upon the growth and development of the present day dairy calf.

The calf ought to have warm, sweet whole milk until two or three weeks old; from four to six quarts per day, depending upon her size. From then on skim-milk may be added in gradually increasing quantities until, at the age of five weeks, the calf is drinking skim-milk entirely at the rate of seven to nine quarts daily. Warm sweet milk is far superior to any other. It is a mistake to attempt to make up in quantity what skim-milk lacks in butterfat.

Whole oats or shelled corn are eaten readily when the calf is quite young. A liberal supply of these grains should be used to supplement the skim-milk ration which should be continued until the calf is five or six months old. Only a well-fed calf builds a healthy, heavy-milk-yield cow.

When he was a farmer he spoke as a farmer, he understood as a farmer, he thought as a farmer; but after he was elected he put away his farmerish things.

## Progress in Western Canada

During the past winter three companies operating on Buffalo Lake, Alberta, took out a total catch of whitefish amounting to 1,260,000 pounds, or roughly 63 carloads. The entire catch was disposed of, the greater part going to Eastern Canada and the United States where "Alberta whitefish" has created a name for itself.

Brandon, Man.—Brandon's new general hospital, costing approximately \$500,000, has been officially opened by the Lieutenant-Governor of the province. The new building is a fine addition to the medical conveniences of the province and will adequately serve the Brandon district.

Fifty pounds of Douglas fir cone seed and a same amount of Sitka spruce seed have been shipped from the Dominion Forestry seed extracting plant at New Westminster, B.C., to the New Zealand Government, a similar shipment at the same time going forward to the Australian Government.

Since last fall Prince Eric of Denmark has been an addition to the titled farmers of Alberta when he established himself in the Danish farm colony at Markerville with the object of obtaining first-hand knowledge of farming methods as practiced in Western Canada. He is going west to meet his brother, master of a Danish vessel plying between the Orient and Canadian ports, and almost his last words were: "If I had my way I would never leave this province."

That the coming season will see a great deal of activity in the way of drilling in the Pouce Coupe oil field is evidenced by the fact that several large companies have indicated their intentions of drilling this summer and there are several other companies waiting until the field is proven further. The first drill for the field this spring has been brought into Spirit River by the Community Drilling Company, a company formed of Edmonton interests.

Calgary has become famous as having the largest annual association auction sale of purebred bulls in the world. At the twenty-first annual sale this spring 425 purebred beef sires from the best herds of Alberta changed hands at the local stockyards. In the past twenty-one years since the initial sale in 1901, a total of 5,651 purebred bulls have been sold for an aggregate of \$1,029,750.

Vancouver, B.C.—The Pacific Starch Products, Ltd., will build a plant for the manufacture of starch, glucose, and dextrin in South Westminster at a cost of \$40,000. They expect to use 7,000 tons of potatoes each year, buying culls from the Fraser Valley farmers, which have formerly been fed to cattle. Only farmers having stock in the company will be allowed to supply potatoes.

Victoria, B.C.—The value of fish caught by the fishing fleet of the Island of Vancouver during 1921 was \$2,700,000, according to the Inspector of Fisheries. The capital invested in this industry totalled \$2,800,000; number of salmon canneries operated 10; while the number of men employed was 4,100.

Vancouver, B.C.—Wheat shipments from the port of Vancouver during the month of March exceeded all previous records, a total of 11,850 tons having been shipped during the month to Great Britain, and 22,850 tons to China and Japan. The total quantity of wheat shipped through Vancouver during the winter season, November to March—1921-1922—is somewhat in excess of 150,000 tons, or upwards of 5,000,000 bushels.

**Did Leonardo Name America?**  
Again the origin of the name America is in question. Hitherto it has been generally supposed that Martin Waldseemüller, of St. Die, first applied it to the Western Continent. But now Professor W. Harrington, after long research, asserts that Leonardo da Vinci gave this name.

In 1507, after Columbus' death, declares Professor Harrington, Martin Waldseemüller published a book in which he asked that the new continent, which had been visited four times by Amerigo Vesputi, should be named by the latter.

The first map of the country discovered by Columbus, printed in Rome in 1508, bore only the mention "New World." Likewise a second edition published in Strassburg in 1509.

And it was the map made by Leonardo da Vinci in 1514 which, for the first time, bore the name of America.

### Grass.

You see a plot of grass  
And loudly say:  
"How green!  
And lovely to be seen!"  
Then trample it, alas!  
And lightly pass  
Unthinking on your way.

Another pauses silently:  
"It is the living sod,  
Upspringing 'tho' downtrod;  
With every blade  
Divinely made—  
A part and parcel  
Of eternal God."  
—John C. Wright.

A receptacle that can be clamped on one end of a kitchen table to receive rubbish is a household novelty.

## Surnames and Their Origin

### CAREY

Variation—Carew.  
Racial Origin—Welsh.  
Source—A locality.

The changes which so many of the Irish and Scottish family names have undergone in their translation into English are no greater than that which has occurred in this Welsh name. For that matter, they are no greater than those which have occurred in many purely English family names.

The name of Carey, or Carew, for it is spelled both ways, the preference being for the latter in England, is pronounced the same in either case, that indicated by the former spelling.

Carew, however, is the more ancient spelling, and if you want to go straight back to the Welsh, it's "Carrw." It is a place name, the name of a famous castle in Wales, and it has become a family name in the usual way that place names have done. That is, it is a development of an original use to indicate the locality from which the individual to whom it was applied had come.

The name of the castle, "Carrw" is a combination of "carr," which means castle, or fort, and "w," which means water.

Sometimes the particular spelling Carey comes from a place name, "Cary," in the parish of St. Giles, near Launceston. It also has a Gaelic origin.

### REYNOLDS

Variation—Reynolds.  
Racial Origin—English.  
Source—A given name.

Reynolds is another one of those family names which is traceable to an old Teutonic given name, and the spelling of that name runs about as far from the modern spelling as many of the ancient Irish names do. One would hardly be expected to recognize at first glance the connection between the name "Reynold" and "Reynolds."

This syllable "wald," which is an element in so many names of Teutonic origin, is not the same as the modern German word "wald," which means "forest." It is the same as the ancient Gothic "valdan," and carries the sense of "ruler" or "ruling." Indeed, it is probable that the word root traces back still further, to a prehistoric time before the original Indo-European race had split into the Celtic and Teutonic branches, as well as into others, for philologists believe it to be a "cousin" to the Welsh word "gualdri," which has virtually the same meaning.

However, the given name "Reynold" meant "God's ruler" or "god-like ruler." Among certain of the north Germanic races it became "Reinhold" and "Reinold." The Anglo-Saxons had it as "Reginald," which under Norman-French influence developed into the softer "Reynold" from which the family name has been derived.

## HIS NERVES NOW STRONG AS EVER

How An Ontario Teacher Regained Good Health.

"I am a school teacher by profession," says Mr. James R. Thomson, R.R. No. 1, Centralia, Ont., "yet when I started school teaching I was in very poor health. I suffered a nervous breakdown, brought on by overwork and no relaxation. I was unable to think, to act, or even to eat properly. Queer little prickly sensations were continually running up and down my back, my arms and my legs, like so many needles, seeming at times to fairly paralyze me, and often my heart was thumping like a trip-hammer. I determined to consult our family doctor, and he immediately put me under orders. I had to give up my school and return home in order to recuperate my lost health. Milk was his chief remedy, and I drank quarts of it; yet, though it helped me, it did not build me up to my normal condition—something was missing; something my system was calling for, better blood. One day, when I picked up a newspaper, I came across an advertisement of Dr. Williams' Pink Pills suggesting just what was needed in my case—new, rich, red blood. I immediately sent for a box, and when the doctor visited me, I told him I had decided to try Dr. Williams' Pink Pills and he seemed satisfied. By the time my box was nearly done, and I determined to get another, by the time I had finished this I was gradually coming back to normal. My strength was returning. I could sit and walk without strain. For the next few weeks I continued to take the pills, and they were working wonders with me. My head was becoming clearer, my memory better, and my nerves were becoming steadier. I began to go out frequently, enjoying myself. My appetite improved and was even better than before I had my break-down. I was myself again. I got back my school, and to this day I have had no return of the trouble, and now when anyone comes to me with nervous trouble, I instantly suggest Dr. Williams' Pink Pills as a remedy, as I believe that what they did in my case they will do for others."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

### What About the House Fly?

It must be remembered that the fact that the house fly is a source of danger in the transmission of disease has never been exaggerated. It does not require any scientific knowledge to appreciate this fact, inasmuch as this pest transmits disease for the most part mechanically. That is, by coming in contact with excretions of different kinds, thrown off by those suffering from the various communicable diseases, and then passing directly from these to the various articles of food, many of which afford a favorable culture medium for these germs, for instance, the milk on our table and in our kitchens and pantries. While the mosquito is only responsible for the transmission of two different diseases, that is malaria and yellow fever, and the body louse only responsible for the transmission of typhus fever, and the flea that infects the rat for the transmission of bubonic plague, yet the fly transmitting germs mechanically on its legs, body, etc., may be responsible for the transmission of various diseases. Furthermore, the fact of it being such a disgustingly filthy pest should more than warrant its extermination, even if it were not responsible for the transmission of disease.

The only way to efficiently abolish the house fly is to destroy the breeding places. However, it is well to remember that every fly killed now may save the killing of millions within two months' time.

### Ex-Kaiser's Cruel Conduct at Father's Deathbed.

"Why didn't father fall at Worth? I mean the battle of Worth," declared the Franco-German war in 1870, when the then Crown Prince Friedrich, Wilhelm, defeated the French. "It would have been lucky," said the ex-Kaiser Wilhelm to his mother, the daughter of Queen Victoria, according to Robert Dohme, who was a member of the court of Wilhelm's father, Friedrich III. In his memories, now being published, Dohme in referring to the well known differences between father and son, describes the selfish behavior of Wilhelm's entourage on the occasion of his father's death. The day before he died officers attached to Wilhelm's suite forcibly entered the castle and occupied its rooms, making themselves at home and behaving like masters toward the attendants.

The castle was surrounded by troops under the command of Wilhelm's friends, who cut the castle off from all communication with the neighborhood. While Kaiser Friedrich was dying nobody, not even physicians, could enter or leave without a permit from Wilhelm's friends.

Dohme concludes: "How the court had changed! A mild regime gave place to the sword. One could imagine the Kaiser in the midst of Russia!"

Men who make good use of their time have none to spare.

The omnibuses of London travel about 85,000,000 miles in a year.

It is.  
Fitch—"What do you think of Czechoslovakia?"  
Dub—"Well, it's hard to say."

**She Should Worry.**  
"I hear you are going to Canada with your husband, Sarah," said the mistress to her cook, who was leaving to get married. "Are you not nervous about the voyage?"

"Well, ma'am," said Sarah, "that's his look-out. I shall belong to him, and if anything happens to me, it'll be his loss, not mine!"

**A Woman's Reply.**  
There is no use trying to joke with a woman.

The other day Jones heard a pretty good conundrum and decided to try it on his wife.

"Do you know why I am like a mule?" he asked her when he went home.

"No," she replied promptly. "I know you are, but I don't know why you are."

**Amended.**  
A school inspector in the North of England asked a child in a primary school to tell him as nearly as possible what he understood a pilgrim to be.

"A pilgrim is a man who goes about a good deal," was the reply.

This seemed hardly satisfactory to the inspector, and he said: "I go about a good deal, but I am not a pilgrim."

"Please, sir, I mean a good man," was the eager addition.

**Worked Both Ways.**  
"Here's a wonderful thing!" said the fascinating widow. "I've just been reading about a man who reached the age of forty without learning to read or write. He met a woman, and for her sake he studied hard and made a scholar of himself in two years!"

The disillusioned suitor smiled sourly.

"That's nothing," he said. "I know a man who was a profound scholar at forty. Then he met a woman, and for her sake made a fool of himself in two days."

**One on the Doctor.**  
A Dublin physician, attended by a number of medical students, was making the round of his ward, and stopped beside a bed whereon lay a man with a very prominent chest.

The physician, having elicited from the sick man the fact that he was in the habit of playing a wind instrument, went on:

"Yes, yes; all that puffing and straining is most prejudicial to the lungs, most prejudicial."

"What wind instrument used you to play?" he asked, addressing the patient. To the huge delight of the students, the patient replied:

"The concertina, sir."

**Why the Salmon Is Pink.**  
Men of science were long puzzled to know why the various salmon and trout have red or pink flesh. Now they believe that the color comes from the food that they eat. All of the salmon family are particularly fond of shellfish; and trout eagerly feed on fresh-water shrimp. It is well known that when lobsters, prawns, and shrimp are cooked the flesh turns pink; similarly the process of digestion turns shellfish pink. When a shrimp is found in the stomach of a salmon or a trout the gastric juices of the fish have turned it almost as red or pink as if it had been boiled. Therefore, even if we had no definite proof, we might believe that the color of the flesh of salmon and trout results from the considerable quantities of various small shellfish that the fish eat.

But there is definite proof. Several years ago Professor Lager of the Physiological Laboratory at Grenoble, France, made experiments with trout to determine what gave their flesh its color. He separated the eggs from one trout into two lots and hatched them in different troughs. He fed one lot of young fish exclusively on fresh-water shrimps; to the other lot he gave no shrimps whatever. At the end of the second year the trout that had fed on shrimps had salmon-colored flesh, but the flesh of the other trout was perfectly white.

But some one may ask, Why is the flesh of shellfish red or pink? That is a harder question to answer. Perhaps the color comes from the food the shellfish eat.

Not long ago chemists of the Department of Agriculture at Washington examined some pink oysters that had been found in Long Island Sound and declared that they were dead. The chemists suggested that possibly the bright hue of the flesh was caused by food that contained willow-herb, health and other similar microorganisms.

## MME. BROCHU LIVED ON VICHY AND MILK DIET

But Now Montreal Woman Eats Anything and Feels Fine All the Time—Gives Tanlac Full Credit.

"For nearly five months before taking Tanlac I had to live on milk and vichy water alone," said Mme. Louise Brochu, 1366 Amity St., Montreal, Que.

"I suffered so much the past two years I was almost a wreck. My indigestion was so bad I was almost afraid to eat for everything I ate troubled me. My liver got to troubling me too, and pains in my side nearly ran me wild. Nearly every night my sleep was broken by terrible headaches."

"I took the first bottle of Tanlac to please my husband, who worried over my case, but my second bottle I took of my own accord for I was beginning to feel so fine. I have a good appetite now, eat anything, and have no more trouble from pains or sleeplessness. I think Tanlac is wonderful."

Tanlac is sold by all good druggists.

**Searchlight of 500-Foot Range.**  
From the pocket flashlight operated by two or three dry cells of minute size the battery searchlight has been steadily improved until remarkable results are obtained.

Some time ago there was devised a searchlight of 500 foot range operating on six or eight volts. More recently a battery searchlight has been introduced with a range of 2,000 feet up to half a mile, operating on six volts. Equipped with a second and one-half inch adjustable focus, single shell reflector, on a recent photometer test one of these searchlights gave 455 candle-power.

The combination of a nitrogen filled tungsten lamp and a correctly designed reflector has worked wonders for the battery operated searchlight.

**MONEY ORDERS.**  
It is always safe to send a Dominion Express Money Order. Five Dollars costs three cents.

**Content.**  
Life's simplest things are love, and kindly friends,  
Nature's sweet charm of earth and sea and sky;  
Gladdens of soul that with right living blends—  
Home's dear content, so cheap that all may buy.  
—Ripley D. Sansters.

"I have done—only one sensible thing in my life: to cultivate the ground."—Voltaire.

O. McPherson,  
Furniture Dealer and Undertaker,  
Minard's Liniment Co., Ltd.,  
Yarmouth, N.S.

Dear Sirs,—Since the start of the baseball season we have been hindered with sore muscles, sprained ankles, etc., but just as soon as we started using MINARD'S LINIMENT our troubles ended. Every baseball player should keep a bottle of your liniment handy.  
Yours truly,  
W. E. McPHERSON,  
Sec. Armstrong H. S. Baseball Team.

**Montreal Woman Finds Health by Taking Lydia E. Pinkham's Vegetable Compound**

Montreal, Quebec.—"I was a sufferer for three years, not able to do my housework. My husband was discouraged, for I was no better and had had the doctor all this time and nothing helped me. I was always sleepy, had no appetite and suffered with my left side. My mother in England recommended Lydia E. Pinkham's Vegetable Compound because it had helped my sister, so I have been taking it. I am now able to do my housework and I can not praise your medicine too highly as I have great hopes for the future. I will tell anyone who writes to me what good it has done me."—Mrs. E. Masson, St. Henry P. O., Montreal.

For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been helping women just as it helped Mrs. Masson; sometimes after doctors and other medicines failed.

If you are suffering from disagreeable symptoms caused by some female weakness, try this splendid medicine. It is a woman's medicine for women's ailments, and can be taken in safety by any woman.

## A Life for A Dollar

NEVER was human life so cheap as it can be bought to-day in the famine districts of Russia.

\$1 will save a child's life by providing food for a month.

\$10 will save ten children from starvation.

\$500 will establish a kitchen and feed 100 children until the next harvest.

Will you save a life with a dollar?

Could any other dollar you have—or ever hope to have—bring such soul-satisfying returns?

Wouldn't you sleep better—feel better—be better—if you knew that a dollar of yours saved a child's life?

Only—anything you do to save the children of Russia in their desperate fight against death from starvation, must be done at once. Won't you send the dollar NOW? A child's life depends on it.

Cheques and money orders may be forwarded through your bank or local committee or sent direct to Sir George Burn, Treasurer, Save the Children Fund, Elgin Bldg., Ottawa.

INTERNATIONAL CREAMERY CO.  
Alex. McNeil, Local Manager.

**Died**  
O'MALLEY.—On Friday, May 5, at the residence of her son, Rev. H. R. A. O'Malley, Denver, Col., Mary Margaret Archer, widow of the late Lieut.-Col. Charles A. O'Malley and eldest sister of Mrs. H. R. Stalker, 83 Beatrice street, Toronto. Interment at Wardsville.

**Card of Thanks**  
The family of the late Minnie Corbett wish to thank the friends and neighbors for their sympathy and help at the time of their bereavement and also for the many beautiful floral tributes. Special thanks are extended to the employees of the Dominion Oil Co., the Women's Institute of No. 9, the Pratt's Siding Book Club, the Ladies' Aid of the Methodist church and H. K. Charlton.

## TOWN AND VICINITY

"Mother's Day" will be observed in the local churches next Sunday morning.

The "Happy Four" orchestra have invitations out for an informal dance at the town hall tomorrow evening.

Glencoe high school athletes participated in the field day exercises of the continuation school at West Lorne yesterday.

On account of the Oddfellows' service in the Methodist church, next Sunday afternoon at 3 o'clock, the evening service will be withdrawn.

Neil Campbell advertised pigs for sale, and before the paper reached him three buyers for the pigs were there, five more coming the next day.

Frank Clarke and Gordon Dickson have been appointed to canvass the citizens of Glencoe to assist the Salvation Army, and will be on the job next week.

Anniversary services of the Independent Order of Oddfellows will be held in the Methodist church, Glencoe, on Sunday afternoon, May 14th, at 3 o'clock. Members of the Order will meet at the lodge room at 2.30 o'clock.

An evening of missionary motion pictures of work carried on in China, Japan and Korea under the Anglican, Methodist and Presbyterian churches will be given in the lecture room of the Presbyterian church, Glencoe, on Monday, May 15, commencing at 8 p.m.

Fruit growers are optimistic over the prospects for the coming season. The fruit trees have seldom been in as good condition as at present. The recent cold snap had the effect of retarding the buds on the trees, and the growers now feel that the orchards are fairly free from danger.

The Glencoe auditors' report for the year 1921 has been printed, and copies are now available at the office of the town clerk. The report is entitled to a copy and should get one and keep posted on the manner in which their money is being expended by the different municipal bodies.

Mr. Humphries is receiving many compliments on the improvements he is making in the meat market of which he recently resumed possession. If there is one place where cleanliness and tidiness is appreciated by the public it is in the family meat shop, and Mr. Humphries' aim is to please his customers.

Information has been received at the post office that the issue of stamp receptacles to rural couriers has been discontinued. In future, therefore, couriers will be supplied with stamps in book form only, as they are not required to sell less than twenty-five cents' worth. These books will be of 1, 2 and 3 cent denominations.

Allen D. Vanalstyne and Ethel Vanalstyne are plaintiffs in an action being brought against Frank White, of Windsor, in which they seek to recover damages for an accident which occurred to the female plaintiff by alleged negligence of the defendant in running a motor car out of a lane into Onelle avenue in the city of Windsor and striking her.

A number of changes in the color of Canadian postage stamps is being made, to conform with the new international regulations. A straw-colored one-cent stamp is being issued to replace the old green stamp. The red two-cent stamp is being replaced with a green stamp, and should a six-cent stamp ever be issued it will take the red color hitherto distinguishing the two-cent stamp.

Twenty-five townships in Ontario have completed or nearly completed the organization of farm loan associations to take advantage of the provincial scheme for giving short term loans to farmers. Ekfrid is the only township in Middlesex county which has an organization. When five farmers in a township petition for the formation of a loan association the agricultural development board, Toronto, will take action.

Glencoe council met Monday evening as a court of revision on the McPherson drain by-law, and adopted the engineer's report after reducing the assessment of Mrs. Reyecraft by \$20 and adding \$10 each to the assessments of Allan McPherson and R. M. McPherson. The drain in question will be constructed of all tile from a point on Dean street near Main to the outlet drain on the road between concession 1 and range 2, Ekfrid, to provide better drainage for adjacent lands.

A few evenings ago a number of their friends and neighbors met at the home of Mrs. Dan Nash, lot 7, concession 6, Moss, to bid farewell to them prior to their leaving for their home in West Bothwell. During the evening Mr. and Mrs. Nash were presented with a beautiful rocking chair. Miss Thelma with a jewel case and Miss Vonda a manicure set. George Willis, for a number of years field manager in the Moss oil field, was at the same time presented with a club bag.

The missionary committee of the Presbyterian Guild presented a very interesting program on Monday evening. Rev. T. J. Charlton gave an inspiring address on the leading hymn author—John Newton. William Cowper, Augustus Toplady and Charles Wesley—inspiring circumstances which inspired their produc-

## THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

A club-swinging exercise was given by Will Reith. The musical numbers consisted of a piano solo by Miss Miriam Oakley and a vocal duet by Misses Elizabeth and Mayne Grant.

J. G. Lethbridge, member of the Legislature for West Middlesex, introduced a bill in the house last week, which has for its object the serving of jurors by registered mail instead of by personal service as at present. That the new system, if adopted, would effect a big saving is apparent from the fact that last year in Middlesex county it cost \$407.05 for mileage for personal service of 305 jurors. Figuring the cost of service by registered letter at 25c each for postage, etc., a clear saving of at least \$530 is shown in this one instance.

A meeting of the Glencoe baseball club was held in the town hall on Monday evening for the purpose of organizing a local town league. Three teams were formed—The Tigers, managed by Ed. Hamilton; The Cubs, managed by A. Davenport; and The Red Socks, managed by Lawrence Babcock. The first game will be played on Friday evening at 6.30, between The Tigers and The Red Socks. A small admission fee of ten cents will be made for gentlemen; ladies will be admitted free. This gives promise of some very interesting sport in the baseball line during the season, and it is hoped the citizens will give the boys every encouragement, as it is from these teams that the county league team will be selected.

Don't let that miserable tired feeling become a habit. Get rid of it to-day by taking Tanlac.—P. E. Lumley.

## SPECIAL NOTICES

Small pigs for sale.—E. V. Thornicroft, Appin.

Bargains in men's and boys' suits. See Mayhew's ad.

I have a few tons of fertilizer to sell.—Bruce McAlpine.

Shipping hogs at Shields and Glencoe on Saturday.—J. Waterworth.

## Dunlop Double-Life, High-Mileage Cord and Fabric Tires Will Save You More Money Than Ever

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—re quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like DUNLOP, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."

**Dunlop Tire & Rubber Goods Co., Limited**

Head Office and Factories: TORONTO. Branches in Leading Cities.

## Woman's Interests

**Don't Overlook Attractive Annuals.**

For natural beauty and pleasing color effects it is hard to beat some of the old-fashioned flower gardens made up of annual plants.

The most permanent and satisfying results are obtained with an open lawn as a foundation, with trees making a frame for the house and giving a grateful shade, accompanied by shrubs and permanent flowers to round off the corners. When permanent planting, especially shrubby beds, are newly set they often look thin and ragged, and interplantings of annuals will fill in the otherwise bare spaces with attractive foliage and brightly colored flowers.

Most annual plants are valuable for supplying cut flowers for indoor decoration. When grown for this purpose they should be given ample space for the development of quantity and quality blossoms. The tall-growing, full-foilage plants, like the tall aster bears and sunflowers, when planted against buildings, fences, or in front of other obstructive objects, serve as attractive and efficient screens. Lower growing plants, when planted against a background of taller growing annuals or shrubs, either against buildings or on borders, are more effective than when used in beds on the lawn or when planted in formal designs.

Because annual plants make a quick growth they must be provided with good growing conditions. The soil should be well supplied with available plant food, and should be reasonably retentive of moisture, though well drained. Though many kinds of annual flowering plants, particularly those of the more hardy classes, can be grown successfully in a variety of soils, a rich loam soil is necessary in order that they produce the maximum number of blossoms of the richest colors. If the soil is thin and poor, a bed two feet deep can be excavated and filled with soil especially prepared for the plants. The ideal soil for this purpose can be made from blue-grass

## The Cow Puncher

BY ROBERT J. C. STEAD.

(Copyright: The Muzzon Book Co.)

CHAPTER I.

The shadows of the spruce trees fell north-eastward, pointing long, cool fingers across belts of undulating prairie, or leaning lazily against the brown foothills. Like an incandescent globe the afternoon sun hung in the bowl of a cloudless heaven, filmy with heat, but the hot rays were met by the high altitude of the ranch country, and lost their force like a blow half struck. And among the spruce trees it was cool and green, and clear blue water rippled over beds of shining gravel.

The ranch buildings lay a little to the rear, as though the trees stood sentinel between them and the prairie. The house was of round straight logs; the shingles of the squat roof were cupped and blistered with the sun of many summers. Refuse loitered about the open door; many empty tins; a leaky barrel, with missing hoops; boxes, harness, tangled bits of wire. Once there had been a fence, a sort of picket fence of little saplings, but wild bronchos had kicked it to pieces and range steers had straggled unscathed across its scattered remnants.

Forward, and to the left, was the corral; mill slabs on end, or fences of lodge-pole pine; a corner somewhat covered in, offering vague protection from the weather. The upper poles were worn thin with the cribbing of many horses.

The sunlight bathed the scene; nursed it in a soft, warm silence. The desertion seemed absolute; the silence was the silence of the unspoken places. But suddenly it was broken by a stamping in the covered part of the corral, and a man's voice saying, "Hip, there; whoa, you cay-cay, get under your saddle. Sleeping against a post all day, you Sloppy-eye. Hip, come to it!"

Horse and rider dashed into the sunlight. The boy—for he was no more than a boy—sat the beast as though born to it, his lithe frame taking every motion of his mount as softly as a good boat rides the sea. His red shirt, and thick hairy chaps could not disguise the muscularity of his figure; the broad felt hat, and the revolver at his belt, gave just the touch of romance. With a yell at his horse he snatched the hat from his head, turning to the sun a smooth, brown face and a mane of dark hair, and slapped the horse across the flank with his crumpled handkerchief. At the signal the animal sprang into the air then dashed at a gallop down the roadway, bearing the boy as unconcerned as a flower on a breeze.

Suddenly he brought his horse to a stop, swung about, and rode back at a gentle canter. A few yards from the house he again spurred him to a gallop and, leaning far down by the animal's side, deftly picked a bottle from among the grass. Then he circled about, repeating this operation as often as his eye fell on a bottle, until he had half a dozen; then down the road again, carefully setting a bottle on each post of the fence that skirted it to the right.

Again he came back to the house, but when he turned his eye was on the row of posts and his right hand lay on the grip of his revolver. Again his sharp yell broke the silence and the horse dashed forward, as though shot from a gun. Down the road they went until within a rod of the first bottle; then there was a flash in the sunlight, and to the clatter of the horse's hoofs came the crack-crack of the revolver. Two bottles shivered to fragments, but four remained intact, and the boy rode back, muttering and disappointed.

He reasoned with his horse as he rode. "Tain't no use, you old Sloppy-eye; a fellow can't get the beds if he ain't got the fillin'; cooked meals an' decent chow. I could plug 'em six out of six—you know that, you old flop-ears; don't you argue about it, neither—when I'm right inside my belt I smash 'em six out of six, but I ain't right, an' you know it. You ain't got nothin' about it; you never had a father, leastways, you never had to be responsible for one. Well, it's comin' to a finish—a damn lame finish, you know that. You know."

But he had reloaded his revolver and set up two more bottles. This time he broke four, and was better pleased with himself. As he rode back his soliloquy was broken by a strange sound from beyond the belt of trees. The horse pricked up his ears, and the boy turned in the saddle to listen. "Jumpin' crickets, what's loose?" he ejaculated. He knew every sound of the foothill country, but this was strange to him. A kind of snort, a sort of hiss; mechanical in its regularity, startling in its strangeness, it came across the valley with the unbroken rhythm of a watch-tick.

"Well, I guess it won't eat us," he ventured at last. "We'll just run it down and perhaps poke a hole in it." So saying, he cantered along the road which skirted the spruce trees, crossed the little stream, and swung up the hill on the farther side.

He was half-way when a turn in the road brought him into sudden sight of the strange visitor. It was the first he had seen, but he knew it at once, for the fame of the automobile, then in its single-cylinder stage, had already spread into the farthest ranching country. The horse was less well informed. Whether or not in that moment he recognized the great rival of his race must be left to some analyst of horse character, but he bucked and kicked in rage and terror. But the boy was cautious; not so much of the horse as of two bright eyes turned on him in frank and surprised admiration.

"What horsemanship!" she exclaimed, but the words had scarce left her lips when they were followed by a cry of alarm. For the car had taken a sudden turn from the road and plunged into a growth of young poplars that fringed the hillside. The oldish man at the wheel gave it a violent wrench, but left his motor in gear, and the car half slid, half plowed its way into semi-vertical position among the young trees. The two occupants were thrown from their seat; the girl fell clear, but her father was less fortunate.

In an instant the boy had flung himself from his horse, dropping the reins to the ground, and the animal, although snorting and shivering, had no thought of disgracing his training by breaking his parole. With quick ungainly strides the boy brought himself to the upturned machine. It was curious that he should appear to such disadvantage on his feet. In the saddle he was grace personified.

For a moment he looked somewhat stupidly upon the wreck. Had it been a horse or a steer he would have known the procedure, but this experience was new to his life. Besides, there were strangers here. He had no fear of strangers when they wore chaps and colored handkerchiefs, but a girl in a brown sweater and an oldish man with a white collar were creatures to be approached with caution. The oldish man was lying on the ground, with a leg pinned under the car, and Brown Sweater raised his head against her knee and pressed his small white fingers against his eyes and said, "Well, aren't you going to do anything?"

That brought him back. "Sure," he said, springing to her side. "Whada ye want me to do?"

"I am afraid my leg is broken," said the man, speaking calmly notwithstanding his pain. "Can you get the jack out of the tool-box and raise the car?"

The girl pointed to the box, and in a moment he had the jack in his hand. But it was a new tool to him, and he fumbled with it stupidly. The handle would not fit, and when it did fit it operated the wrong way.

"Oh, let me have it," she cried impatiently. In a moment she had it set under the frame of the car, and was plying the handle up and down with rapid strokes. The machine began to creak with the pressure, and the boy looked on, helpless and mortified. He was beginning to realize that there were more world than riding a horse and shooting bottles. He felt a sudden desire to be of great service. And just now he could be of no service whatever.

But the foot of the jack began to sink in the soft earth, and the girl looked up helplessly. "It won't lift it," she said. "What shall we do?"

It was his chance. He was eighteen, and his wild, open life had given him muscles of steel. "Here," he said, roughly, "move his leg back to the machine and crouched down until he could get his hands under the steel frame. Then he lifted. The car was in a somewhat poised position, and he was able to swing it up far enough to release the injured leg.

"Very good, my boy," said the man. "That was a wonderful lift. The leg is broken—compound. Can you get some way of moving me to shelter? I will pay you well."

The boy was very unfortunate. Hospitality in the ranching country is not bought and sold.

"You can't pay me nothin'," he said, rudely. "But I can bring a light wagon, if you can ride in that, and put you on the road. The man's hand was soursed," he added, as an afterthought, "but it's better than sleepin' out. I won't be long."

He was back at his horse, and in a moment they heard the clatter of hoofs galloping down the hillside.

The girl sat on the ground and rested her father's head in her lap. Tears made her bright eyes brighter still.

"Don't cry, Reenie," he said gently. "We are very lucky to be so close to help. Of course, I'll be laid up for a while, but I'll give you a chance to see ranch life as it really is. I'm winced with pain, but continued. "I fancy we shall find it plain and unvarnished. What a horseman! If I could run an automobile like he does a horse we should not be here. Did you notice that I didn't release the clutch? Just ambled into this predicament—embraced it, I might say."

"He's strong," she said. "But he's rude."

"The best fields for muscles are often for schools for manners," he answered. "But manners are no substitute for hospitality, and he seems to have that all right. It is something that belongs to the open country, the big, open country. In cities they entertain, but in the ranching country they, why, there isn't any word for it, but you will see for yourself."

He was soon back with a wagon and a stretcher. He avoided the eyes of his guests, but quickly and gently enough he placed the injured man on the stretcher. "I guess you'll have to take the feet," he said. The words were for the girl, although he did not look at her. "I could hustle him myself, but it might hurt him."

But the injured man interrupted. "I beg your pardon," he said. "I did not introduce my daughter, I am Doctor Hardy—this is my daughter, Irene, Mr. —?"

"They don't call me mister," said the boy. "Misters is scarce in these parts. My name is Elden—Dave Elden."

He was for dropping it at that, but the girl came up with extended hand.

Shoe Polish Saves Your Money

As a Labor-Saver Alone You will find the **ONWARD** SLIDING FURNITURE SHOE a most profitable investment. You can move your furniture easily and smoothly over any carpet or floor with little effort. The "Onward" saves rugs from wear and tear. Simply and quickly put on without screws or sockets. Tell your dealer all furniture you buy must be equipped with glass base Onward Sliding Furniture Shoes. All sizes and styles, back glass base and smooth metal base. Made in Canada by ONWARD MFG. CO., Kitchener, Ont.

### Dye Old Wrap, Skirt, Sweater, Curtains In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old worn, faded things new. Even if she has never dyed before, she can put a rich, fadeless color into shabby skirts, dresses, waisis, coats, stockings, sweaters, coverings, draperies, hangings, everything! Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

### Clay for China Ware.

A process has been newly discovered whereby artificial ultramarine can be made from china clay, from which all our chinaware is made, including the most beautiful porcelains. But it has various other uses. It is utilized as a "filler" in the manufacture of newspaper paper and in the production of a glaze for highly finished art papers. It is employed in the preparation of cotton fabrics and in making soap; also in some of the chemical industries.

The main source of supply of the finest china clay is the County of Cornwall, in England.

The stuff is not a clay, properly speaking. It is an earth which, when dug out of the ground, is found mixed with coarse white sand. From the latter it is separated by floating it off in tanks of water, the heavy particles of sand falling quickly to the bottom. Then it is spread on pans and put into kilns to bake. When partly dried in the kilns it is cut into blocks suitable for handling. The blocks thus prepared, being very friable, are readily pulverized to a sort of mineral flour, which is the raw material for chinaware.

Minard's Liniment for Dandruff.

### ITEMS OF GENERAL INTEREST

Resolutions strongly urging drastic revision of the present Immigration Act to encourage the emigration of desirable immigrants from the British Isles and the removal of the continuous passage regulation are steadily being received by the Minister of the Interior. To date such resolutions have been received from the Toronto and Montreal Boards of Trade, the St. David's, St. George's, St. Patrick's, St. Andrew's, Kiwanis Clubs and other societies and organizations in both cities. The subject is one which is apparently receiving increasing interest on the part of the public.

It is reported that the Provincial Homebuilders, Ltd., of Toronto, have completed arrangements to erect 1,500 new homes in Toronto. The company plans to build homes costing two prices, \$6,000 and \$3,000.

Declaring that one healthy porcupine destroys one hundred fully grown trees in a winter, Frank D. Barnum, well-known lumber operator of Annapolis Royal, N.S., has offered a bounty of ten cents for every porcupine killed in Nova Scotia during April, 1922, and a cash prize of \$100 for the hunter turning in the largest number of porcupine snouts.

Contract for a new factory to be erected at Fredericton, N.B., by the Chestnut Canoe Company, has been awarded. Work will commence immediately on the construction of the plant, which will have a total floor space of 40,000 square feet. The new plant will be the second largest canoe factory in the world, and the largest in the British Empire.

Honey produced in the Province of Quebec is of such a quality as to experience no difficulty in securing a renewal of orders anytime it is sold on foreign markets in competition with other parts of the American continent. Some time ago samples of Quebec honey were sent to the province's representative in Belgium, which resulted in an order for 2,000 pounds, which was followed up by one for 15,000 pounds. Honey production is reported to be on the increase in the province.

Seven new machines with a total rated capacity of 568 tons of newspaper daily were brought into operation in Canada during 1921, bringing the maximum daily production of newspaper up to 3,342 tons, or 1,002,600 tons a year, according to a statement in the Pacific Coast Lumberman. Two additional mills are now in the course of construction, and are expected to be in operation shortly. These will bring Canada's maximum newspaper productive capacity up to 1,032,600 tons annually, an amount approximately 50 per cent. of the total newspaper consumption of the American continent.

Montreal, Que.—A Canadian advertiser's annual, just issued, states that the circulation of all Canadian daily newspapers combined now amounts to 1,774,519 copies, an increase of 15,000 over last year. Newspaper circulation for many years kept pace with the growth of population until the outbreak of the war caused suspension and amalgamation. The business seems to have now definitely turned the corner and to be on the upgrade.

### Sentiment in the Jury Box.

In England women are jurors, and they prove as versatile as the men. For example, note the following scenes at Leeds:

A miner, George Henry Robinson, fifty years of age, was tried. In an access of jealousy he had cut off his wife's head with a razor. He was convicted. Among the members of the jury were three women, who had voted for the death penalty.

The jury return to the courtroom; take their seats; the judge puts on his black cap; then, turning toward Robinson, announces to him that he will be hanged until death occurs.

The tragic words make the women jurors shudder. The vision of the gallows makes them tender. A sob is heard, then another. And for all three women melt away in tears.

Tears are as contagious as laughter; the public cries, the galleries moan, all the courtroom sobs. The jury takes advantage of this quickly to sign a petition for mercy, which they hand to the judge.

The latter reads it out, addressing the convicted man, says:

"I shall transmit the petition to the proper person. But I warn you not to entertain too much hope. There is not the least chance that you will be pardoned!"

### A Job for a Prophet.

An experienced Englishman who had applied for a job at a lodging camp was set to work to chop down a big fir tree. For a few minutes the boss silently watched the fellow's fierce onslaught; then, smiling to himself, he walked away.

Two hours later he returned.

"Well," he said, "which way are you going to fell that tree?"

The Englishman, who was perspiring at every pore, dropped his axe and wiped his brow; then, scrutinizing the tree from top to bottom, he asked indignantly, "What d'ye take me for, a bloomin' prophet?"

The ostrich, the biggest bird in the world, has proportionately the smallest brain.

## Canada From Coast to Coast

Charlottetown, P.E.I.—The shale formation and topography of certain sections of Prince Edward Island have been attracting attention from oil promoters, and as a consequence oil prospectors of experience have recently secured boring concessions on the island from the Provincial Government.

St. Stephen, N.B.—A company has recently purchased nearly six hundred acres of provincial Crown land near borders of York and Charlotte counties, and will establish a blueberry ranch. It is the intention of this new concern to ship berries to the United States until the erection of a plant here when they will be canned.

Halifax, N.S.—The total production of Nova Scotia apples in 1921 was 2,033,901 barrels and 6,494 boxes. The total exports amounted to 1,288,241 barrels and 6,494 boxes. The United States received 98,344 barrels, West Indies 4,683 barrels, Newfoundland 13,377 barrels, while the remainder were consigned to various English ports. New Brunswick points received 30,481 barrels of the total crop, Nova Scotia 22,840 barrels and other Canadian points 296,042 barrels. Provincial canning factories consumed 31,800 barrels and cider and vinegar plants 36,000 barrels.

Quebec, Que.—The pulp and paper industry of the province of Quebec occupies first position in the province as regards the value of product, its output in 1919 being worth \$64,060,540. Second comes the lumber industry with \$61,493,919; third, the cotton textile industry with \$57,530,438; fourth, the milling industry with \$42,071,066; and fifth, the boot and shoe industry with \$41,842,877.

St. Catharines, Ont.—Contracts for 3,120 acres of grapes have been signed by the Niagara District Grape

Growers, Limited, the selling organization of the grape growers. This acreage represents 520 growers and is about seventy per cent. of the entire crop. These are permanent contracts, running until they are cancelled by the growers. Manager J. P. Montgomery stated that he expected that 95 per cent. of the grape crop of the district would be under contract to the grape growers.

Winnipeg, Man.—That land in Manitoba is equal to that of soils in Illinois and Iowa, where the land is sold at \$400 an acre, is one of outstanding statements of Prof. Bracken, of the Agricultural College, in his report tabled in the Legislature. In the survey covering the Dominion the average price of Manitoba farm lands was returned at \$35.

Saskatoon, Sask.—Seeding has commenced in Northern Saskatchewan, one farmer in the Harris District having already sown 380 acres out of 1,880 acres, which will be devoted to wheat. This is claimed to be the first land planted in the district this year.

Calgary, Alta.—Present indications point to a number of soldier settlers going on the land this spring in the Calgary district. A large number of men have already made application at the office of the Board to purchase land this spring under the Soldiers' Settlement Board, being much larger than for the corresponding period last year.

Victoria, B.C.—It is reported that the next experimental farm to be established in Canada will be in Northern British Columbia, an immense tract of country of wonderful agricultural richness that is attracting the attention of many United States farmers. Minerals, water power, fish, fur and forests are also among its assets.

### KING AND QUEEN VISIT BELGIUM

Earls Beatty and Haig Accompany Their Majesties, Who Pay Tribute to Glorious Dead.

A despatch from London says:—Their Majesties, King George and Queen Mary left for Belgium early on Monday. Their suite included Earls Beatty and Haig, who are making the journey at the special desire of the King of the Belgians.

The diplomatic functions mainly occupied the first two days. King George entered upon a round of self-imposed duty, proceeding to Ypres to inspect cemeteries stretching over great spaces of the countryside. The greater part of the front held by the British in the war will be traversed by several halts upon the way. The journey will be extended to Mons where a fine monument shows the British entering amid the acclamations of the people. King George here will find preparations for setting up a line of 28 memorial stones, to mark the farthest limits of the German invasion, which line is to be extended through France to the Swiss border.

### BRING DUTCH FARMERS TO SASK. PRAIRIES

Provincial Government and Federal Department of Immigration to Co-operate.

A despatch from Regina says:—To relieve the farm labor shortage in Saskatchewan and to bring into the country men who, with a little experience in the ways of western agriculture, will make capable and efficient farmers, the Provincial Government, in co-operation with the Federal Department of Immigration, has made arrangements to bring contingents of farm laborers from Holland, it was announced officially on Thursday.

The Saskatchewan Bureau of Labor and Industries will provide special application forms and other information to agrarians who want the Holland laborers, but the men will not be brought to Canada unless they are guaranteed at least a year's engagement.

Officials of the Provincial Bureau do not know yet how many men will be brought in from the Netherlands. The demand, however, is expected to be heavy, and there will probably be several hundred to come to the prairies within the next two months.

### Prison Term for Indian Seditious

A despatch from Ahmedabad, India, says:—Hazrat Mohani, president of the All-India Moslem League, was sentenced to two years' imprisonment on Thursday on a charge of sedition, after the judge had refused to accept the unanimous verdict of not guilty, rendered by a jury, which included five Indians. A second charge of inciting to war was referred to a higher court.

The prosecution claimed that the defendant had urged the establishment of a parallel government to usurp the functions of the existing government, making warfare inevitable.

### Canadian Money at Par in Buffalo

A despatch from Bridgeburg says:—The last of the Buffalo stores that had hitherto demanded the discount for all purchases made with Canadian money have now succumbed, and a merry competition has been entered upon in which stores are vying with one another to display to the supposedly unsophisticated world that no longer is there discount on money from the Ottawa Mint.

A revival in border trade is now looked for, but as to whether those who have in the past been compelled to pay as high as 20 cents on the dollar; those who have been compelled, because they lacked "Buffalo" nickels, to get off street cars in the metropolis across the way, will forget and forgive is problematical, but it is probable they will.

### Prince Will Not Return via Canada

A despatch from London says:—The report that the Prince of Wales will return to England from Japan via Canada is declared in the London press to be impossible of realization. It is stated that the Prince would like to keep his promise of over two years ago to return to Canada to see how his Western ranch is progressing, but that so far as his present tour is concerned, he is to return home via the Suez Canal, by almost the same route as that followed on his outward voyage.

WIRELESS FOR THE HOME

The new compact Marconi receiver, which has been designed with the view of making it possible for the average householder to enjoy the advantages of wireless in the home.

### BELFAST AGAIN SCENE OF DISTURBANCES

Several Men Shot in Cold Blood—Others Suffer Indignities at Hands of Mob.

Dublin, May 7.—The evacuation by the Irish republican army irregulars of the Port Board offices, seized by them some time ago, began Saturday evening when the personal belongings of the members of the garrison were removed in lorries.

The officer in command said it was intended to leave an armed guard to protect the offices.

Prisoners to the number of 108, captured by the men of the Regular Army during the recent fighting in Kilmartin, were unconditionally released from the military barracks there to-day.

The body of a man was found in Gortin, County Tyrone, Saturday night. He had been shot through the heart. A note attached to his clothing read: "Beware! convicted spy."

A gang of armed men shot and killed Anthony McCann, near Portadown, Armagh, this morning.

A lorry was driven into crowded Cromac Square in Belfast yesterday afternoon and six men were thrown off, tarred and feathered; then they were permitted to run to shelter. It is understood they were caught pilfering.

John J. Carolan, a teacher in a national school, and his nephew, Dennis Kilmartin, 20 years of age, were taken from their residence near Dungiven, County Londonderry, yesterday, and shot and thrown into a pit used for a flax refuse.

Carolan was killed outright and Kilmartin, suffering five wounds, managed to crawl out. His groans attracted neighbors who came to his aid. He is expected to recover. Kilmartin's father is also a teacher in the national school at Dungiven.

A former named McBride, 22 years old, a former I.R.A. officer, disregarding a command to halt while returning home Friday evening, near Strabane, County Tyrone, and was shot, probably fatally. His assailants were two men in disguise.

Special Constable McCoo, who was wounded during the fighting in Belfast, April 14, died yesterday.

A group of B. special constables, while patrolling the Republican quarter in Cookstown, County Tyrone, Friday midnight, were fired upon. They returned the fire, which resulted in seriously wounding a young civilian. Subsequently, armed men who arrived in an automobile, entered John McCracken's Inn, eight miles from Cookstown, and shot him to death. McCracken was formerly a member of the rural Council.

### Egypt Persists in Claiming the Sudan

Cairo, May 7.—An acute crisis is foreshadowed owing to the action of the Commission which is drawing up a constitution for the new Kingdom of Egypt in decreeing that the Sudan is to be an integral part of Egypt, and that the King of Egypt is to have sovereignty over that country. This is apparently a reply to the British communique of last Thursday, which stated that Great Britain had no intention of relinquishing control of the Sudan. The new situation may involve the resignation of the Egyptian Ministry.

### PEKIN GATES CLOSED TO DEFEATED FORCES

Heavy Casualties in Battle Won by Leader of Central China.

A despatch from Pekin says:—With the tide of battle turned definitely in his favor, General Wu Pei Fu, military leader of Central China, is seeking to complete his victory against Chang Tso-Lin, Manchurian war lord, whose Fengtian troops were routed on Thursday in the vicinity of Pekin.

Wu, having turned the left flank of Chang's army, redoubled his efforts in a drive toward Tien-Tsin. Machine gunners, heavy fighting for a week, became the centre of a bitter conflict. At the same time his troops in the vicinity of Pekin, following up their success in capturing Chang Shien Tien, early on Thursday were driving on Fengtai, a rail base for Chang's forces.

The city gates of Pekin were closed to keep out the stragglers from Chang's forces, who began to near the city soon after their defeat at Chang Shien Tien.

The casualties were so large in the fighting that no definite estimate has been reached as yet. There was heavy fighting at close quarters, in which, according to military observers, the Chinese acquitted themselves quite as well as did European soldiers under similar circumstances in the late World War.

It is reported that Wu as yet has not thrown his famous crack troops into the conflict. They are noted for their loyalty, and it is believed are being employed to protect his rear from a possible attack by Chang's allies.

Hundreds of refugees are streaming into Pekin. The city is being well guarded.

### Lt.-Gen. Sir John Asser Governor of Bermuda

Hamilton, Bermuda, May 7.—General Sir James Wilcocks, the most decorated man in the British army, is to be succeeded as Governor of Bermuda by Lieutenant-General Sir John Joseph Asser, advised received here state. Sir John Joseph Asser was born in 1867, was attached to the Nile Expedition in 1897-98, was present at the battles of Atbara and Khartoum, and commanded the Sudan Expedition, 1899.

### Great Britain Still Controls the Sudan

A despatch from Cairo says:—An important official statement says that Lord Allenby, when recently in the Sudan, advised the Sudanese leaders to inform the people that Great Britain does not intend to abandon the Sudan.

The speech apparently was made in answer to Egyptian claims for the incorporation of the Sudan as a Province of Egypt.

Mount Etna has broken out again with eruptions of increased violence, and is emitting continuous roars, which can be heard for miles. Dense black smoke is filling the sky.

## Weekly Market Report

Toronto.  
Manitoba wheat—No. 1 Northern, \$1.52; No. 2 Northern, \$1.46½; No. 3 Northern, \$1.38½.  
Manitoba oats—No. 3 CW, 60½c; extra No. 1 feed, 56c; No. 1 feed, 55c; No. 2 feed, 54½c.

Manitoba barley—Nominal.  
All the above, track, Bay ports.  
American corn—No. 2 yellow, 7½c; No. 3 yellow, 7½c, all rail.  
Barley—No. 3 extra, test 47 lbs. or better, 60 to 65c, according to freight outside.

Buckwheat—No. 3, 3½.  
Rye—No. 2, 95c.  
Millfeed—Del. Montreal freight, barge included: Bran, per ton, \$28 to \$30; shorts, per ton, \$30 to \$32; good feed flour, \$1.70 to \$1.80.

Baled hay—Track, Toronto, per ton, extra No. 2, \$22 to \$23; mixed, \$18 to \$19; clover, \$14 to \$15.

Straw—Car lots, per ton, track, Toronto, \$12 to \$13.  
Ontario wheat—No. 1 commercial, \$1.45, outside.

Ontario No. 3 oats, 40 to 45c, outside.  
Ontario corn—53 to 60c, outside.  
Ontario flour—1st pat., in cotton sacks, 98s, \$7.70 per bbl.; 2nd pat., (bakers), \$7.20. Straights, in bulk, seaboard, \$6.55.

Manitoba flour—1st pat., in cotton sacks, \$8.70 per bbl.; 2nd pat., \$8.30.  
Cheese—New, large, 17 to 17½c; twins, 17½ to 18c; triplets, 18½ to 19c. Old, large, 21c; twins, 21½ to 22c. Stiltons, new, 20c. Extra old, large, 26 to 27c. Old, Stiltons, 24c.

Butter—Fresh dairy, choice, 24 to 28c; creamery, prints, fresh, finest, 39 to 40c; No. 1, 38 to 39c; No. 2, 36 to 37c; cooking, 20 to 22c.  
Dressed poultry—Spring chickens, 65c; chickens, 30 to 35c; roosters, 20 to 25c; fowl, 24 to 30c; ducks, 35c; turkeys, 45 to 50c; geese, 25c.

Live poultry—Spring chickens, 55c; roosters, 17 to 20c; fowl, 24 to 30c; ducks, 38c; turkeys, 45 to 60c; geese, 20c.  
Margarine—20 to 22c.

Eggs—New laid, candled, 30 to 31c; new laid, in cartons, 35c.  
Beans—Can. hand-picked, bushel, \$4.25; primes, \$3.75 to \$3.90.

Maple products—Syrup, per imp.

gal., \$2.10; per 5 imp. gals., \$2.05; Maple sugar, lb., 18c.  
Honey—60-30-lb. tins, 14½ to 15c per lb.; 5-2½-lb. tins, 17 to 18c per lb. Ontario comb honey, per doz. \$5.50.  
Potatoes—Ontario, 30-lb. bag, \$1.15; Delawares, \$1.30. Seed potatoes, Irish Cobblers, \$1.75 a bag.

Smoked meats—Hams, med., 33 to 35c; cooked ham, 45 to 48c; smoked rolls, 29 to 30c; cottage rolls, 30c; breakfast bacon, 25 to 30c; special brand breakfast bacon, 36c; backs, boneless, 40c.

Cured meats—Long clear bacon, \$17.50 to \$18.50; clear bellies, \$16.50 to \$19.50; lightweight rolls, in barrels, \$45; heavyweight rolls, \$39.  
Lard—Prime, tierces, 16c; tubs, 16½c; pails, 17c; prints, 18c. Shortening tierces, 14½ to 15c; tubs, 15 to 15½c; pails, 15½ to 16c; prints, 17½ to 18c.

Choice heavy steers, \$8.90 to \$9; butcher steers, choice, \$7.75 to \$8.75; do, good, \$7 to \$7.50; do, med., \$6.50 to \$7.10; do, com., \$5 to \$5.50; butcher heifers, choice, \$7.25 to \$8.25; do, med., \$6.50 to \$7; do, com., \$5 to \$5.25; butcher cows, choice, \$5.50 to \$6.50; do, med., \$5.50 to \$5; canners and cutters, \$1 to \$2; butcher bulls, good, \$5 to \$6; do, com., \$3 to \$4; feeders, good, \$6 to \$6.75; do, fair, \$5.50 to \$6; stockers, good, \$5.50 to \$6.25; do, fair, \$5 to \$5.50; milkers, \$40 to \$80; springers, \$50 to \$90; calves, choice, \$8.50 to \$10.50; do, med., \$6 to \$7.25; do, com., \$4 to \$5; lambs, choice, \$11 to \$15; do, com., \$6 to \$7; spring lambs, \$11 to \$14; sheep, choice, \$7.50 to \$8.50; do, good, \$6 to \$7; do, com., \$4 to \$5; hogs, fed and watered, \$13.75; do, f.o.b., \$12.50; do, country points, \$12.25.

Montreal.  
Oats, Can. West, No. 2, 66 to 67c; do, No. 3, 62 to 63c. Flour, Man. Spring wheat, 1st, \$8.50. Rolled oats, bag 90 lbs., \$3. Bran, \$32.50. Shorts, \$33. Hay, No. 2, per ton, car lots, \$29 to \$30.

Cheese, finest Easterns, 13c. Butter, choicest creamery, 33½ to 34c. Eggs, selected, 34c. Potatoes, per bag, car lots, 75 to 80c.

Good fat cows, \$6.50; canner cows, \$2; calves, \$5 to \$6; hogs, selects, \$14.25 to \$14.50.

### Genoa Living Costs Compel Poles to Leave

A despatch from Warsaw says:—The high cost of living at Genoa was responsible for the return here on Thursday of the larger part of the Polish delegation of secretaries and stenographers. The Polish delegation at the Economic Conference now consists of only three persons. The cost of maintaining the entire delegation, it was said, amounted to several million Polish marks daily.

### The "Full-Time" System in Medicine

The President of the University of Toronto has recently issued a memorandum dealing with the advantages of the new system which was introduced three years ago in the Department of Medicine and one year ago in the Department of Surgery of the provincial university. In this memorandum he points out that the system has been so adapted to local conditions as to provide for both present and future requirements so far as the instructional staff is concerned. There are full-time senior instructors, part-time clinicians, and full-time junior instructors. While each full-time man is allowed two hours per day for private practice so that he cannot lose touch with the actual work of the general practitioner, yet his first duty is to his university classes and his second duty is to engage in and to direct research. In this way both phases of the doctor's work receive a fair share of emphasis. From the part-time clinicians the full-time senior men of the future will be chosen and the junior full-time instructors will become, in turn, part-time clinicians and, finally, senior full-time professors. The new system has evidently been very carefully planned and organized with the primary object of securing for medical students the very best possible instruction. Given a fair trial over a reasonable period of years it should certainly show its superiority over the old system.

It is better to lose smilingly than to win whinily.

### BIG GERMAN SHIP SAILS UNDER UNION JACK

Largest Liner in the World Was Built to Bear a Victorious Kaiser.

London, May 6.—The Majestic, 50,000 tons, the largest liner in the world, will sail for New York next Wednesday under the White Star flag. She was under construction in Germany before the war, and was completed and handed over to the British under the Treaty of Versailles. It was a bitter pill for the Germans, and to prevent any unfortunate accident at Hamburg she left that port under the German flag with a German crew aboard and a German band playing. Only when she was out of German waters was the German ensign hauled down, and the British crew took charge.

In length the Majestic is 956 feet, in height from deck to deck 102 feet, and in breadth 100 feet. The anchors she carries with their chains weigh 230 tons, considerably more than the entire displacement of the Mayflower, which sailed from the same port.

It is, however, the deck that gives the greatest impression of the Majestic's size. The passengers will have on the promenade deck an unrestricted walk of 150 yards, half of which is protected by wind screens along the sides of the vessel.

The Majestic has all the luxuries now usual in liners of the first class—swimming pool and gymnasium, as well as a spacious drawing-room, smoking-room and library. She has, moreover, a spacious suite, designed originally to accommodate the Kaiser on his first trip after a victorious war. It is marked not only by beautifully paneled rooms, but also by a private winter garden, or palm room, opening from the sitting-room to the side of the ship. In default of its Imperial passenger, it will now be open to any one willing to engage it.

### Germany Delivers Goods Worth 80,000,000 Marks

Berlin, May 7.—Goods in kind to the value of 80,000,000 gold marks were delivered to the Allies by Germany during the first three months of the present year.

The former Austrian Empress Zita and her children will sail from their home of exile in Madeira on May 16 for Madrid.

A Unique Gift.

This little statue (about 10 inches high) of H.R.H. Prince of Wales, taken from life when he was a sailor boy, was made for his father and mother to take with them on their voyage around the world when they were Duke and Duchess of York. It has just been given by the Prince to the South African training ship "General Botha."

### Taking Chances.

Those who coddle themselves in safe places, fearful of shocks, demanding padded ease around them always, miss the fierce exhilaration as well as the stringency of discipline of life as it really is. It is not a man's misfortune if he has to work with all his might and all his wit to get ahead. He is to be pitied if he was born with the proverbial silver spoon in his mouth and has been fed from the silver platter since. The heavy hand cap is not that of an enveloping poverty; it is that of unrestricted luxury round the cradle and the nursery. The poor little rich boy goes from parental indulgence and the fluttering care of a governess to a school where he is lost in the rough, rude ways of adult life. He is aghast and amazed; he wants to go home weeping and tell his mother. If he is rich enough, he may manage, all his life long, to dodge every hardship, never settling his foot to the solid ground of earth where men who cannot pay to ride are walking.

A real man hates to have everything handed to him. He craves some obstacles to meet and overcome—and he gets them. He feels a glow of satisfaction when he has tried hard for a long time, and success comes at last. If the reward came easily, it would not be worth the sweating agony, the long hours, the brain-fag and the nerve-rap and the endurance test of the whole of his being.

Give me a man who on this life's rough sea Loves to have his sails filled with a lusty wind.

A man's man is he who dares and ventures. He is neither heedless nor reckless. He measures his cloth and he counts the cost; he is scientific when he plans his factory or his machine. But he has the cool nerve to start something while others are timid. It is the easiest thing in the world to decide to do nothing. One man, full of talk, was dubbed by a friend "The Prince of Procrastination," and the name stuck. He was full of excellent suggestion, but when it was hinted that he might lend a hand in executing some of them, his tongue was nimble with reasons why he must abstain.

But when the success is won and the returns are in, how great is the company of claimants for the reward! The loudest of the doubting Thomases are the very ones who rise up to declare that the gold-bearing idea was their own, and all their own. They were on the safe side—the negative side—when the proposal was made. But now, it appears, they were the authors of the plan.

Men of action are not fooled by men of diction. They are not impressed by rapid talk. Those who stand with them at the successful end are those who were beside them at the precarious beginning.

### Mennonites Wish to Return to Canada

A despatch from Vancouver says:—Discouraged with the climate and conditions of Mexico, whither they had removed to settle in thousands, and unwilling to return to their former habitations in Manitoba and Saskatchewan, a large portion of Canada's former Mennonite colony is disposed to look favorably on settlement in British Columbia, according to Josef Switzer, who has been making a tour through the Columbia Valley on behalf of his compatriots.

**E. A. MAYHEW & CO.**

## Glencoe Business College

Teaches all Business Subjects. Day and Night Classes. Latest  
Adding, Bookkeeping and Typewriting machines. Tuition 14 dollars  
per month.

We will have Adding Machines and Typewriters for rent for the  
summer months; make arrangements now. Instruction books can be  
ordered, for those who want to study at home. You can also save  
time by starting your Shorthand or Bookkeeping work at home.  
Write or call for information.

## NOTICE

Beginning May 15th our Hardware business will be  
conducted on a STRICTLY CASH BASIS.

Contractors, Painters and Carpenters will be given  
credit, accounts being payable the 10th of the month fol-  
lowing that in which the goods were purchased.

We are compelled to do this because our goods are  
all purchased on practically a cash basis, and by paying  
cash we are able to secure all discounts, which in turn  
means lower prices to all our customers.

We take this opportunity to thank our many cus-  
tomers for their patronage in the past and cordially invite  
you to make this store your headquarters for anything in  
the Hardware line. Yours truly,

**C. T. DOBYN**  
NEWBURY - ONTARIO

two weeks, at Transcript Office. Toronto price is \$5.60.

### NEWBURY

The Newbury-Moss Women's Insti-  
tute held a meeting at the home of  
Mrs. Frank Robinson on April 20th.  
A good number were present. Mrs.  
Macfie, of Appleton, district president,  
gave an address which was much ap-  
preciated by all. The next meeting  
will be held at the home of Mrs. Elias  
Revercraft on May 18th for the election  
of officers. The roll call will be an-  
swered by the paying of fees.

The W. M. S. of Knox church held  
their April meeting at the home of  
the president, Miss E. Telfer, with  
an attendance of twelve members  
and five visitors. Two excellent pa-  
pers were given by Miss C. Wilson  
and Mrs. W. H. Parnall on "The Great  
Unrest and its Dangers" and "The  
Boys and Girls of China's New Day."

The Ladies' Aid discussed some im-  
provements which might be made in  
the church, after which a dainty  
lunch was served by the hostess.

Miss Edith Martin is visiting her  
grandparents at Lambeth.

A. E. Brown is again in charge of  
the basket factory.

Mrs. John A. Smith and her brother,  
Ben Scott, visited in Bothwell  
over the weekend.

Dr. H. C. Bayne has gone to Sar-  
nia, where he has opened up an of-  
fice.

A. M. Bayne is in Sarnia this week.  
"What Happened to Jones" the  
play given Friday night by the A. Y.  
P. A., drew a full house and a very  
appreciative audience, and we must  
congratulate the company on the  
way the different acts were put on.

The proceeds were over \$50.  
Silverwood dealers are doing a  
rushing business here. It takes  
three trucks to look after their busi-  
ness. C. A. Blain is in charge.

Neil Campbell has the contract for  
carrying the mails from the trains to  
the post office.

Muscular Rheumatism Subdued.—  
When one is a sufferer from muscu-  
lar rheumatism he cannot do better  
than to have the region rubbed with  
Dr. Thomas' Electric Oil. Let the  
rubbing be brisk and continue until  
ease is secured. There is more vir-  
tue in a bottle of it than can be fully  
estimated.

### WOODGREEN

Miss Elsie Leitch has been visiting  
Mr. and Mrs. Robert Eddie.

Mr. and Mrs. Harry Harvey spent  
Sunday with Mr. and Mrs. L. Harvey,  
St. Thomas.

Mrs. Harry Coyne underwent an  
operation at St. Joseph's Hospital on  
Thursday. Glad to say she is improv-  
ing as well as can be expected.

Mothers' Day will be observed in  
the Sunday school here next Sunday.  
An outside speaker will be present.  
Everybody welcome.

Dame Rumor reports that a new  
co-operative store will be built here  
shortly.

Edwin Weekes took charge of the  
Sunday school last Sunday, as the  
superintendent, Wm. Atkinson, was  
unable to be present.

### EKFRID STATION

Mother's Day will be observed in  
the Sunday school here next Sunday,  
May 14, at 11 o'clock. Special music  
will be given by the mothers.

Mr. and Mrs. J. T. McLean spent  
Sunday with friends near Bothwell.

Albert Beales has purchased a Ford  
car.

### STRATHBURN

At the regular meeting of the Bat-  
tle Hill U.F.W.O., held at the home  
of Mrs. H. M. Weekes on May 3rd,  
plans were made regarding the home  
of meeting, to be held at the home of  
Mrs. Alfred Gould on May 31st. It  
was decided to ask Mrs. Laws, pro-  
vincial secretary, to address the  
meeting. A committee was appointed  
in regard to a garden party on  
June 7th. A picnic for the school  
children will be held at No. 1, Moss,  
on May 24th. Cash prizes will be  
given for races.

One of the most effective vermi-  
fuges on the market is Miller's Worm  
Powders. They will not only clear  
the stomach and bowels of worms,  
but will prove a very serviceable  
medicine for children in regulating  
the infantile system and maintaining  
it in a healthy condition. There is  
nothing in their composition that will  
injure the most delicate stomach  
when directions are followed, and  
they can be given to children in the  
full assurance that they will utterly  
destroy all worms.

### KNAPDALE

The farmers around Knapdale are  
busy getting ready for the corn.  
Mrs. McDonald is on the sicklist.

Miss Lizzie Munroe has returned  
to her home at North Glencoe.

Much sympathy is extended to Mrs.  
Corbett and family in the death of  
the former's daughter, Miss Minnie  
Corbett.

A number from here attended the  
play in Newbury.

### NORTH EKFRID

Mr. Musgrove has purchased a new  
chopper and tractor and is erecting  
it in the grist mill.

Harry Hardy has put a new roof  
on his barn.

Mothers' Day will be observed in  
the Presbyterian church on Sunday,  
May 14th.

The Ladies' Aid will meet Thurs-  
day afternoon at the home of Mrs.  
Wm. Down, senior.

Born—May 5th, to Mr. and Mrs.  
Roy Phillips, a daughter.

Mrs. Thomas Hardy is going to  
a London hospital this week to un-  
dergo an operation for appendicitis.

A Prime Dressing for Wounds.—In  
some factories and workshops car-  
bolic acid is kept for use in cauteriz-  
ing wounds and cuts sustained by the  
workmen. Far better to keep on  
hand a bottle of Dr. Thomas' Elec-  
tric Oil. It is just as quick in action  
and does not scar the skin or burn  
the flesh.

Wedding cake boxes at The Tran-  
script office.

### MELBOURNE

The funeral of Miss Elizabeth  
Black, who met her death by falling  
from a window at St. Joseph's Hos-  
pital early Saturday morning, took  
place this afternoon from the home  
of her brother-in-law, John Mair, of  
this village. Miss Black was an Ek-  
frid lady and was well known in this  
community. Her many friends are  
convinced that the falling from the  
window was an accident, as she her-  
self stated before passing away. The  
funeral services were in charge of  
the Old School Baptist minister and  
the pallbearers were Ekfrid friends.

She leaves to mourn her loss two  
sisters, Miss Annie, of this village,  
and Miss Jennie, of Alvinston, and  
one brother, Alex. J. Ekfrid.

Thomas Carruthers and Mac. Mc-  
Gugan have been elected school trust-  
ees of this section in succession to  
Howard Hamford and Thos. Hardy,  
who recently resigned. Messrs. Car-  
ruthers and McGugan, with Dr. Dew-  
ar, are now making arrangements to  
begin work on the new school as  
soon as possible.

Rev. Mr. Wells, of London, was ex-  
pected to address the Presbyterian  
congregations here and at Riverside  
on the Lord's Day Alliance work. As  
he was unable to come, his son, Car-  
lton Wells, took his place, delivering  
splendid addresses at both places.

The offering amounted to \$33.

The annual meeting of the Method-  
ist Sunday school elected the follow-  
ing officers: Superintendent, William  
Lewis; assistant superintendent, Ed-  
mond Richards; secretary-treasurer,  
Archie Carruthers; assistant, Walter  
Lewis; adult Bible class teacher,  
Mrs. M. R. Brown; junior Bible class  
teacher, Mrs. (Dr.) Brown; Excelsior  
class (boys), Miss Mathew; boys' class,  
Mrs. E. Richards; Willing Workers  
(girls), Mrs. S. Clarke; junior girls' class,  
Mrs. A. Carruthers; primary class,  
Miss Mildred Richards; pianists, Mildred  
Richards, Mildred Robinson and Jennie  
Robinson.

The W. M. S. of the Methodist  
church held their annual service on  
Sunday morning, April 30th. Mrs.  
Cottam, branch secretary, of London,  
addressed the gathering. Mrs. Ed-  
mond Richards, retiring president,  
presided. Mrs. (Dr.) Brown led in  
prayer. Mrs. George Cawthorpe, the  
new president, read the Scripture  
lesson. Mrs. Wm. Lewis and Mrs.  
John Near took up the offering,  
which amounted to \$75.50. The  
church was beautifully decorated  
with cut flowers, pink and white  
roses, also white cymmens.

### KILMARTIN

Miss Mary McLarty returned to  
her home in Bothwell on Monday af-  
ter visiting friends here for the past  
week.

Miss Grace Wood, Toronto, spent  
the weekend at D. N. Munroe's.

Mrs. Janet McIntyre spent last  
week with her sister, Mrs. Mary  
Munroe.

Dr. and Mrs. D. F. McLachlan and  
twin daughters, of Windsor, visited  
at Alex. McLachlan's recently.

Mrs. Jack McAlpine, Woodslee,  
and sister, Mrs. McDonald, and three  
children, of Saskatoon, arrived from  
the West on Thursday last. Donald  
McGregor and J. S. McAlpine went  
to Toronto and accompanied them  
home from there. We are pleased  
to report that McDonald much im-  
proved in health.

Mother's Day will be observed in  
Burns' church next Sabbath morning.  
Programs have been distributed and  
the service will be of very special in-  
terest to the Sunday school scholars.

Mr. and Mrs. J. S. McAlpine and  
nieces, Jean and Marion McDonald,  
left for Woodslee on Saturday last.  
Mr. McAlpine has disposed of his  
residence and is moving from Woods-  
lee.

Miss Eastman, who has been at  
home of Mr. and Mrs. Thos. Eng-  
lish for the past two months, has re-  
turned to her home in Glencoe.

Mrs. O'Malley, widow of the late  
Colonel O'Malley, died at the home  
of her son, Rev. Harry O'Malley, in  
Denver, Colorado. The remains  
were brought to the home of her son,  
Peter O'Malley, Wardsville, where  
the funeral service will be held on  
Thursday afternoon.

At a meeting of the Y. P. S. held  
in the Presbyterian church here on  
Friday evening, Mrs. Bissett of Rod-  
ney gave a splendid address on the  
summer school held in St. Thomas.

Mr. and Mrs. Ward have returned  
from their honeymoon and spent a  
few days with Mr. and Mrs. George  
Cornellie before going to their home  
in Windsor.

A radio concert was held here on  
Wednesday evening.

If one be troubled with corns, he  
will find in Holloway's Corn Remover  
an application that will entirely re-  
lieve suffering.

When we Sell you  
a Used Car

Whenever we sell a used car, we  
hope eventually to sell the same  
buyer a new McLaughlin-Buick.

Because we know that for sturdi-  
ness, power and unfailing depend-  
ability, and day-in and day-out  
satisfactory service, McLaughlin-  
Buick is in a class by itself.

But we know that we are not going  
to gain any buyer's good will by  
selling him a used car that will dis-  
satisfy him.

If the car is not fully satisfactory,  
he is going to blame us as well as  
its manufacturer. We gain his ill-  
will and being McLaughlin-Buick  
dealers, McLaughlin-Buick gains  
his ill-will also.

Therefore we are extremely careful  
what cars we take in trade for re-  
sale, and what is their condition  
when we let them go out.

When you buy a used car from us  
you can know definitely that you  
are going to get the fairest, squarest  
business deal—the deal that will  
satisfy you and keep you satisfied.

**M. J. McALPINE**

Dealer - Glencoe

**MCLAUGHLIN-BUICK**

### WARDSVILLE

Mr. and Mrs. D. Snary and daugh-  
ters, Mary and Laura, spent the  
week-end with relatives in Croton.

Miss Jean Archer is visiting her  
aunt, Mrs. Alex. McIntyre.

A number from here attended the  
play, "What Happened to Jones," in  
Newbury Friday evening.

Mr. and Mrs. G. A. Love and Jean  
and Mrs. Bowles spent Saturday in  
London.

Miss Eastman, who has been at  
home of Mr. and Mrs. Thos. Eng-  
lish for the past two months, has re-  
turned to her home in Glencoe.

Mrs. O'Malley, widow of the late  
Colonel O'Malley, died at the home  
of her son, Rev. Harry O'Malley, in  
Denver, Colorado. The remains  
were brought to the home of her son,  
Peter O'Malley, Wardsville, where  
the funeral service will be held on  
Thursday afternoon.

At a meeting of the Y. P. S. held  
in the Presbyterian church here on  
Friday evening, Mrs. Bissett of Rod-  
ney gave a splendid address on the  
summer school held in St. Thomas.

Mr. and Mrs. Ward have returned  
from their honeymoon and spent a  
few days with Mr. and Mrs. George  
Cornellie before going to their home  
in Windsor.

A radio concert was held here on  
Wednesday evening.

If one be troubled with corns, he  
will find in Holloway's Corn Remover  
an application that will entirely re-  
lieve suffering.

### CAIRO

Gordon Smith, wife and baby Doug-  
las have returned to their home in  
Windsor after spending the week-end  
with the former's parents.

Frank Storie, wife and children  
and Mrs. Leila Smith, of London,  
called on friends here on their way  
from Dresden on Sunday.

John R. McKeown and wife, of Sar-  
nia, visited his brother, Will Mc-  
Keown, on Sunday.

Mr. and Mrs. Wm. Ball, of Strath-  
roy, called on the latter's parents on  
Monday.

Mr. and Mrs. Ralph Longley, of  
Hepworth, have moved into Mrs. Mar-  
garet Macaulay's house.

Dread of Asthma makes countless  
thousands miserable. Night after  
night the attacks return and even  
when brief respite is given the mind  
is still in torment from continual an-  
ticipation. Dr. J. D. Kellogg's Asthma  
Remedy changes all this. Relief  
comes, and at once, while future at-  
tacks are ward off, leaving the af-  
flicted one in a state of peace and  
happiness he once believed he could  
never enjoy. Inexpensive and sold  
almost everywhere.

### SKETLAND

Mr. and Mrs. Williams, from the  
West, are spending the week with  
Mr. and Mrs. Robert Gray.

Miss Lizzie Coleman, of Cairo,  
spent the week with Miss Bessie  
Jeffery.

Miss Jean Archer spent last week  
with her aunt, Mrs. Alex. McIntyre,  
at Wardsville.

Miss Grace and Glen Bliton enter-  
tained the young folks of Skotland  
on Monday night.

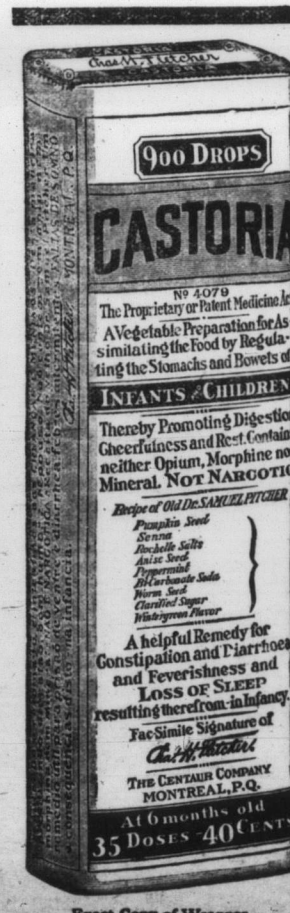

Mr. and Mrs. Joe Dobyen spent the  
week at Higgate.

### DAVISVILLE

Mr. Clark is visiting his sister,  
Mrs. R. B. Smith.

The many friends of Miss Minnie  
Corbett were sorry to hear of her  
death. Much sympathy is extended  
to the bereaved family.

Mr. and Mrs. Fred Jeffery and son  
Gordon, of Skotland, spent Sunday  
with Davisville friends.
