A Thread of Silk

running through a piece of inferior cloth will not make good cloth of the piece.

Neither will a good action with a well-known name make a good instrument of an otherwise cheaply-constructed piano.

In the cloth, every thread must be of good quality, and in a piano all the component parts must be made of equally good materials, carefully seasoned and manfactured by competent workmen, otherwise the instrument cannot be expected to give satisfaction and stand the severe test of our variable Canadian climate.

THE PALMA SHOOT

American Team Wants the Date Changed—Cannot Be Done.

[Special to Advertiser.]

Ottawa, Ont., July 23.—It is understood that the American team chosen to compete for the Palma trophy at the D. R. A. are having difficulty in making arrangements to get away for August 26. They have in consequence suggested that the D. R. A. executive to postpone the match until after the D. R. A. meet.

As this could not be done owing to the arrangements concluded by the English and Australian teams, the executive have advised the Americans that the date cannot be changed.

HON. J. I. TARTE AT SARNIA

The Town's Complaint Against the Grand Trunk.

Minister of Works Expresses Surprise That Elevator Is Not Built.

Sarnia, July 22.—Hon J. I. Tarte visited Sarnia and Point Edward on his tour of the lakes on the Government steamer Lord Stanley. He was waited on by a delegation consisting of Dr. Johnston, M. P., Mayor Logie, Messrs. A. D. Maclean (president of the board of trade), W. J. Hanna, M. P. P., F. F. Pardee, D. Barr, T. Doherty, United States Consul, Neal McMillan, C. O. Stillman, William Askin, C. S. Ellis, Thomas Kenny, Reeve Parson and William McCleister, of Port Edward, and others.

The minister and his chief engineer, Mr. Coste, showed the plans of the dredging being done at Port Edward, and expressed great surprise that the Grand Trunk Railway Company had not built the elevator which they had expressly agreed with the public works department to build at Point Edward, and on account of which the dredging was being done. The honorable gentleman also expressed himself as alive to the fact of Sarnia and Point Edward having so advantageous a position for traffic, being the base of deep water navigation, and that the future of these municipalities must be great from the very nature of their situation.

The fact of the Grand Trunk sending their local trains through the tunnel to Port Huron, which was a benefit to Port Huron and a detriment to Sarnia, was pointed out to Mr. Tarte, as were also the facts that the American lines were making use of Canada for their own interests, to the detriment of Canada, carrying the products of Canada through this country and the States and back into Canada again, all of which militated against Canada and to the advantage of the United States and American lines of railway and steamships.

Mr. Tarte was invited to stop at Sarnia on his return trip and accept the hospitality of the town.

SCARE AT LEAMINGTON

The Natural Gas Supply Suddenly Ceased, But Has Resumed.

Leamington, Ont., July 23.—The inhabitants of Leamington had a scare yesterday, the natural gas supply suddenly ceasing. Wood fires were resorted to, but later the flow commenced again, to the great relief of all. It is feared, however, that yesterday's experience is but a foretaste of things to come. There was a shortage in the supply last winter, and it is believed the next cold spell will exhaust what is left.

VINCENT—VANDERBURG

Happy Event Took Place on Grey Street Recently.

A quiet wedding took place recently at the residence of Mrs. Eliza Vanderburg, of 141 Grey street, when her only daughter, Ida Laura, was united in marriage to Mr. Thomas W. Vincent, corner of Richmond and Simcoe streets. The ceremony was performed by Rev. R. D. Hamilton, of the Wellington Street Methodist. The bride was very beautifully dressed in white organdie, with white silk lace and white satin, and carried white roses and carnations. The bridesmaid, Miss Murphy, was also prettily attired and carried white flowers. Mr. Charles Dale supported the groom. Little Laura Smiley, of Toronto, was maid of honor. The bride was given away by her brother, Mr. Frederick W. Vanderburg, of Toronto. After the ceremony a dainty repast was provided for 40 guests, upon the conclusion of which the happy couple left for Toronto. They were the recipients of many beautiful presents.

GERMAN PRESS SCORED BY TIMES

Campaign of Calumny Will Not Be Soon Forgotten.

CAUSED SERIOUS IRRITATION

Speculating on the Result of Britain Renouncing Her Free Trade Policy.

London, July 23.—The Times, in an editorial on German relations, rejects the advances of German publicists for a more friendly attitude towards England in an appeal published in Berlin for promoting a better understanding between the two nations, among the signers of which is Prof. Mommsen; and also in the appeal of Coun Von Boehem, who was Under-Secretary of State under Bismarck, urging the German press not to meddle so much with the affairs of foreign nations, thus causing serious irritation.

WAITED TOO LONG.

The Times says it is a pity the Germans did not awaken to the existence of the evil a little sooner. Unfortunately they have deferred their protests until England emerged from her troubles, during which fair treatment would have been particularly acceptable. It adds that the campaign of falsehood and calumny waged against England in Germany while the British army was in the field, will not be lightly forgotten. It revealed to the people of England the real feelings of large and influential classes in Germany. It is a discovery which will necessarily influence the relations of the two peples for a long time to come.

SINCERITY DOUBTED.

The Times continues: "We have but little to complain of in the public acts of the German Government, but we cannot be expected to shut out eyes to the relations which notoriously exist between the German administration and the German press. We have no real security that the steam which it is now apparently thought desirable to shut off may not upon occasion be again turned on."

The leading Rhenish newspapers, referring to the distrust of German intentions shown in England, makes the extraordinary discovery that British public opinion is misled by "Polish intriguers in Vienna," who have succeeded in getting their views published in British papers.

SIMPLY A SPECTER.

Vienna, July 23.—For a considerable time the German press, whose influence extends to the German portions of Austria, Switzerland, Holland and Scandinavia, and even in Hungary and the Balkan States, has been engaged in exciting fears in regard to the imminence of the impending renunciation by Great Britain of her free trade policy.

This is represented as a serious danger for countries which depend largely upon the open markets of the British Empire. The idea has been so effectively worked as to convince many foreigners that the battle for free trade has been practically lost in England.

It is evident that this specter, which is probably considered a more effective bogey than the "American peril," is intended to give additional force to the simultaneous advocacy of closer commercial relations between the threatened States and Germany.

THE EXPORTS TO AFRICA

That Were Shipped on Board Government Vessels.

A Varied Assortment—Extemporized Service Has Ceased.

Ottawa, July 23.—In February last Hon. Mr. Fisher, Minister of Agriculture, obtained permission from the War Office to forward Canadian products to South Africa on ships chartered by his department for cargo for the War Office, and a monthly freight service between St. John and Cape Town was inaugurated in March.

No further shipments of supplies being required by the War Office, this freight service terminated with the sailing of the steamship Usher on the 14th inst.

Under the arrangement made with the Imperial authorities the miscellaneous goods had to be discharged at Cape Town. This limitation prevented the shipments from assuming large proportions, because the import trade of Cape Town is for local consumption only, Port Elizabeth and Durban being the great distributing points for the interior, and transhipment of goods at Cape Town is impracticable because of the expense.

The class of goods forwarded by these Government transports embraced the following articles: Axes, baths, billiard tables and frames, canned apples, canned corn, canned tomatoes, canned lobster, fish, furniture, iron roofing, metal sheeting, paper fillers, peas (split), saddlery, shoes, wood mantels, axles (for road carts), bicycles and parts, canned goods, codfish, chair stuff, cheese (Imperial), flour, harness, lumber, match blocks, pianos, radiators and castings, sash lumber, tomato catsup, barley, boots, calcined plaster, chairs, chair stocks, cushions (road cart), cook stoves, desks, doors, furniture stock, harness, peas (green), road carts, sash, doors and frames, stoves, boilers, pipes, castings and pots.

GONE UP IN SMOKE

Two Large Fires—Chief of Brigade Overcome by Heat and May Die.

Annapolis, Md., July 23.—A fire broke out in the heart of Annapolis at 3 o'clock this morning, and destroyed nine buildings, including St. Martin's German Lutheran Church and the large general store of E. J. Jewell and caused a loss estimated at $50,000.

Owensboro, Ky., July 23.—The plant of the Owensboro Planing Mill Company, and the plant of the Continental Tobacco Company were destroyed by fire. Loss $100,000. The chief of the fire department, Albert T. Ennis, was overcome by the heat and is in a critical condition.

INTERNATIONAL BANK

To Be Started by American Financiers With Headquarters at New York.

Chicago, July 23.—American financiers are planning an international bank, with headquarters in New York, and branches in Chicago, San Francisco, City of Mexico, Havana, Rio Janeiro and Buenos Ayres, according to President W. H. Hunt, of the Mexican Trust Company Bank, who is in Chicago on his way to New York. The institution will be known as the First International Bank of North America. Its capital will be $5,000,000. The nucleus of the enterprise is already in existence under the name of the Mexican Trust Company Bank, which has been in operation in the City of Mexico for one year.

Among the financiers who are said to own stock in the International Bank are J. Sloat Fassett, Julius C. Birge, Russell Whitcom, John R. Bland, Robert M. Early and Charles Francis Phillips, of New York; William J. Hylands, of Chicago, and J. D. Ferguson, president of the First National Bank of Baltimore.

Misses McLeod, Carrothers, Abbott and Norris, of this city, are spending their vacation at Grand Bend.

GOVERNOR ROSS' ILLNESS

Is More Serious Than Was at First Supposed.

Details of Attack—Hope for Recovery —Much Sympathy Expressed.

Victoria, B. C., July 22.—(Special to Toronto Globe).—A special to The Times from White Horse this afternoon says: "Governor James H. Ross suffered a severe stroke of paralysis on Wednesday while on the steamer Columbian, coming from Dawson to White Horse. The severity of the attack was only discovered upon arrival here on Friday at noon. Drs. Pare and Nicholson, who were called on arrival, found him suffering from paralysis of the right side. He was taken to the residence of Major Snyder, in command of the Northwest Mounted Police, and has since been given every care and attention.

Physicians enjoin the utmost quiet, and permit no one to see the patient. Little improvement is yet noticeable, but strong hopes are entertained of a slow but ultimate recovery. He is conscious, but cannot articulate clearly. Regret and sympathy are universal."

Governor Ross' three children reside here with their grandmother, Mrs. Mackay, while two little sons of the Governor are with him in the north. Mrs. Ross and her baby were drowned a little less than a year ago by the foundering of the steamer Islander. Mrs. Ross' mother and sisters here are in a state of great suspense, telegraphic communication with White Horse being shut off yesterday.

SWINDLER'S CONFESSION

Owns Up to Passing Three Bogus Checks in Toronto.

Has Worked Off Dozens—Gives Hamilton a Hard Knock.

Toronto, July 23.—Wm. Lewis Wood, the check swindler, pleaded guilty this morning to three charges of passing bogus checks, and was remanded for a week for sentence. Wood, it will be remembered, has within the past two months passed dozens of bogus checks in Toronto, getting sums of money ranging from $10 to $25 in change.

This morning he owned up, and gave a statement to the police. He is a native of Middlesex county, and was for eighteen years in a bank in Melbourne, Australia. He returned to Canada eleven years ago, and has had no settled business since that time.

He says that he only passed one bogus check outside of Toronto. That was in Hamilton a week ago, and he added maliciously that he did not think the people in Hamilton would make much of a fuss about it, as anything that looks like money ought to be welcome there.

DEADLY CORDIALITY

Masonic Ex-Grand Master Loses His Hand From Effects of Handshake.

Des Moines, Ia., July 22.—Capt. J. N. McClanahan, a prominent politician of Corrydon and ex-grand master of the Masonic order of Iowa, has lost his right hand from the effects of a handshake with a friend.

The grip received was so hard that several of the small bones were broken and afterwards caused a cancerous growth. Amputation became necessary and the operation has been performed.

The Misses Kathleen and Minnie Johnson, of South London, are visiting Miss Gladys Barker, Port Nelson, Ont.

GENERAL BULLER WOULD BE HEARD

Complains of His Treatment by the War Secretary.

THE PREMIERS IN CONFERENCE

The Question of Steamship Subsidies Discussed—Rioting in Paris—Japan Likes Salisbury.

London, July 23.—General Buller has written another letter to William St. John Brodrick, the secretary of state for war, in which he compains that Mr. Brodrick accentuated charges in the House of Commons which were never officially brought against him, and to which he was ordered not to reply. In his communication to the war secretary, Gen. Buller demands that he be allowed to state his views regarding Ladysmith's capacity to hold out against the Boers.

KING TO VISIT THE CZAR.

It is learned from reliable sources, says a Copenhagen cable, that King Edward will visit the Czar in the latter part of September. Immediately after the coronation Queen Alexandra comes to Denmark to join her sister, the Dowager Czarina, the King following on September 1. The King and Queen will go to St. Petersburg after two weeks' stay in Denmark, sailing on the royal yacht under escort of British and Russian warships, and most likely Edward will make his long-expected visit to the Kaiser on the return journey.

LONDON FIREMEN.

The metropolitan fire brigade is receiving some hard knocks at the hands of lawyers engaged in the inquest upon the victims of the recent fire in Queen Victoria street, when nine young girls were burned to death because the ladders were too short to reach the fourth story of the burning building. Captain Wells, royal navy, chief of the fire brigade, who was on the stand, vigorously defended his fire brigade in comparision with others, including the New York fire department. He ridiculed New York's 85-foot ladder, of which he handed in a photograph, saying: "We had one of these, but we no longer have anything of the kind." Captain Wells criticised New York's fire department reports, declaring the returns of last year "did not even include the deaths of the Hoboken fire."

NEW BISHOP.

The Vatican has decided that Rev. James Keans, pastor of the Church of the Immaculate, of Minneapolis, be appointed bishop of the diocese of Cheyenne, Wyo. The meeting approved of the division of the diocese at Sioux Falls, as proposed by Bishop O'Gorman, the new diocese to have Lead, Lawrence county, as the residence of the new bishop, who will be Rev. J. N. Starihl, the present vigar-general of the archdiocese of St. Paul, Minn.

TROUBLE IN PARIS.

After the distribution of prizes at a school belonging to an unauthorized congregation in the Avenue Parmentier, Paris, on Tuesday, violent speeches were made to the assemblage, denouncing the government's action in closing the establishments of unauthorized congregations. Fighting ensued, the crowds breaking through the police cordon and shouting: "Vive la liberte!" Francois Coppee, the author and poet, who was the chief speaker; Deputy Lerolle, Gaston Merry and the Abbe Partural were arrested.

M. Coppee, Lerolle and Merry were later released. Comte Urbain de Maille, who was among those taken into custody, was held for examination. Further disturbances and some arrests have occurred in other places.

LIKES SALISBURY.

The Japanese Press, says the Tokio correspondent of the London Times, is sympathetic and eulogistic in discussing Salisbuy's resignation. It regards the retired premier as a model of a great statesman, who leaves office when his fame is at its zenith, and his vital task his been achieved. The papers point out that Salisbury was the first European statesman who appreciated Japan, and who was ultimately willing to accept her co-operation as an ally.

THE PREMIERS.

The conference of the colonial premiers yesterday discussed ship subsidies from the double standpoint of the economical carriage of goods and combating the subsidy policy of foreign governments. Nothing of a definite character, however, was accomplished.

KING EDWARD MAY GO ON A SHORT CRUISE TOMORROW

His Majesty Spent Forenoon Today on the Open Deck of the Royal Yacht.

London, July 23.—King Edward today enjoyed the improved weather at Cowes, Isle of Wight. His majesty spent the forenoon in an invalid chair on the open deck. He is still under the most strict supervision. His diet menu is signed daily by one or the other of the royal physicians before it is submitted to him. He submits good-naturedly to the somewhat severe regime. There is every indication of his majesty's continued progress towards complete convalescence.

Weather permitting, the royal yacht will probably go on a short cruise tomorrow.

Truth says that Emperor William's visit to England will be brief and strictly private, the German emperor sailing from Kiel on the imperial yacht Hohenzollern, Aug. 2, and remaining at Cowes through the regatta week, when his schooner-yacht Meteor III. will compete for the King's cup.

100 PEOPLE ARE MISSING

As a Result of the Steamboat Collision on the Elbe.

Mother Killed Her Child and Herself—Track-Walkers Mangled.

Hamburg, July 23.—The total number of missing as a result of the collision in the Elbe is now placed at 104. Sixty-one bodies have now been recovered.

MAD MOTHER'S DEED.

Madisonville, Ky., July 23.—Mrs. Ellen Turley, of Depoy, near here, shot and killed her four-year-old child yesterday, attempted to kill two other children, and failing, shot herself, dying instantly. She was temporarily insane from long illness. Her husband was absent, having gone to secure medicine.

TRACK-WALKERS KILLED.

Poughkeepsie, N. Y., July 23.—When the Montreal express, New York Central, arrived here at 8:50 last night, the engineer found a man's hat on the pilot of the locomotive, with spots of fresh blood. A search was made along the track, and at the southern boundary of the city the mangled bodies of two men were found. Both had been killed by the train while walking on the track. They have not been identified.

MARSHAL SHOT.

Jackson, Ky., July 23.—Town Marshal James Cockrill was shot yesterday from the windows of the courthouse by unknown parties. There were six shots, three hitting Cockrill as he passed along Main street. James Cockrill is a brother of Thomas Cockrill, whose trial in Breathitt county for killing Benjamin Harges, has revived a desperate feudal war. There is little hope of his recovery. He is a cousin of former Congressman James Fitzpatrick.

Mr. and Mrs. B. S. Sainsbury, of 83 Elmwood avenue, South London, have left on a trip to Atlantic City seashore, where they will spend their vacation.

CHICAGO AND NOVA SCOTIA

May Soon Be Connected by Wireless Telegraphy—Sites for Stations.

Chicago, July 23.—Within two months Chicago may be in direct communication with the coast of Nova Scotia by a system of wireless telegraphy. Options on two sites for the proposed station of the new system have been secured near Evanston by the agent of a wireless telegraph company, and within six weeks, it is expected the plant will be installed. The agent left last night for New York to submit the sites to the promoters of the enterprise.

As soon as the plant is installed tests will be made by the inventor of the system in person, and a line of communication will be established with the station at Grace Bay, N. S., at which place messages are at present received from ocean-going steamers.

VARI-CO-CELE

The Cause of More Wrecks Than Any Other Disease. It Can be Cured by Electricity.

Thousands of men have Varicocele and are ignorant of the harm which may result. They only know that something is draining vitality and ambition from their bodies and brains, and know of no reason to account for it. This terrible affliction is the most treacherous, silent and certain in its work of all known ailments. It comes on without apparent cause and never ceases in its destructive influence until it robs a man of all his vitality and leaves him a physical and mental wreck.

There are many ways of treating, but none so sure of a permanent cure as Electricity.

Gilbert McEwin, Orchard, Ont., writes:—"Your Belt has benefited me greatly. My kidneys are all right and the varicocle is all gone."

Letters like that are among my daily mail; they mean a great deal to any sufferer who has almost become discouraged through doctoring without relief.

Chas. F. Woodworth, Hopehill, N.B., says:—"I am feeling better since using your Belt. The varicocele is smaller. I sleep better, and feel more lively when awake.

Thousands of those whom I have cured are shouting its praise to-day; from far and near comes the tidings.

Thos. Hobbs, Columbus, Ont., writes me:—"I have now received letters from three gentlemen with respect to the varicocele, and most cheerfully wrote them replies, believing by so doing I may encourage my fellow-sufferers to purchase your Belt, in whose curative powers I now have full confidence."

My method has cured after the knife, injection, ligation and every known means had been tried and failed. I have cured physicians, lawyers, ministers, merchants and laborers; in many cases where a cure was considered impossible my treatment has cured. If you are tired of doctoring try

WANT NIAGARA'S POWER

Rival Companies Lay Their Claims Before the Government.

Toronto, July 23.—Messrs Harcourt, Stratton and Latchford yesterday heard a lengthy argument regarding the dispute that has arisen between the Ontario Power Company and the Canadian Power Company in regard to the use of the waters of Niagara for power development.

The Canadian Company is installing a very large plant, and the Ontario Company wishes to enlarge its first proposal by getting 25,000 h. p. from an intake at Dufferin Island. This is 3,000 feet from the Canadian Power Company's intake, but its engineers say they are not in a position to say whether or not the Ontario Power Company intake will injure the flow toward their own until they see detailed plans. They accordingly asked the government to require the production of plans by the Ontario Power Company of the proposed intake at Dufferin Island. Decision was reserved.

STOMACH TO BE ANALYZED

No New Light on Mysterious Death of George Whalley in Toronto.

Toronto, July 22. — It is announced that the examination of the body of George Whalley, shipper in the warehouse of Evans & Sons, wholesale druggist, who was found dead in the warehouse on Sunday under circumstances that pointed to foul play, disclose no wounds that could have caused death, nor anything that would explain the fatality. The government has ordered an analysis of the stomach of Whalley, and if poison is found the body of E. Geen, a young Belleville man, who on June 7 was found in a dying condition in the warehouse, where he too was employed, will be exhumed and the stomach examined also.

The police theory is that both men were poisoned, but by whom and for what reason is still to be found out. Both men had been paid just before the warehouse closed on the two Saturdays of the tragic events, and in both cases their wages were missing. The police have been quite unable to secure any explanation of this.

ICE-CRUSHERS

A Trio of Strong Ferry-Boats Building for Service at the Soo.

Sault Ste. Marie, Mich., July 23.—Two large, powerful, ice breaking ferry-boats have been purchased, and the first will arrive at the Soo to go into commission early in August. A third will be added at the opening of navigation in the spring. The boats, which already have been licensed by Canadian and American inspectors, each to carry 1,000 passengers, have an engine capacity of 1,000 horse power, and will be able to break a channel through 24 inches of ice. Railroad officials are confident they will have no difficulty whateve in maintaining a satisfactory winter service.

These boats will be used in connection with the railway service, and transfer of cars across the river, and are modern in every particular.

A QUESTION OF TERMS

Deep Interest in the Proposed Union of Newfoundland With Canada.

St. Johns, Nfld., July 23. — Widespread interest is developing here over the speech delivered in London last week by Sir Robert Bond, the premier of Newfoundland, in which he declared that the confederation of Newfoundland with the Dominion of Canada was mainly a question of terms from the latter.

The press and public are discussing the matter eagerly, and the opinion is generally expressed that Prime Minister Bond's speech makes the question a practical one, and is likely to result in action being taken to advance the matter at the next session of the legislature.

James McNeill Whistler, the American painter, who has been suffering from illness at The Hague, continues to progress favorably, but owing to his age and general weakness his health requires great care.

JOHN W. MACKAY'S SOCIAL TRAINING

The Millionaire Appreciated His Shortcomings.

READ, STUDIED AND DEVELOPED

The House Where He Died Was a Palace—His Body Will Lie in a Princely Tomb.

New York, July 23.—The story of John W. Mackay's rise from poverty to wealth has been already told, and is an interesting story. His subsequent career is even more interesting.

In 1867 Mr. Mackay married Mrs. Bryant, the young widow of a physician, who kept a boarding house. Mr. Mackay was already a millionaire. His wife was a daughter of Major Hungerford, of New Orleans. She had one child, a girl, by her first husband. This daughter, in 1885, became Princess of Colonna Gatro. With Mackay's marriage his real rise began. He was a rich man already; the mines had made him that; but he began widening his field of action.

In conjunction with Flood, O'Brien and Fair he established the Nevada Bank. Unlike the majority of men, he never forgot that he was once dependent himself, and his charity has been great. He belonged to the Catholic Church and established an orphan asylum for the children of that denomination in Nevada City, which he always supported.

COURSE IN SOCIAL TRAINING.

The flow of wealth kept on. The great Comstock lode continued to pour forth its richness. Mackay and his partners became immensely wealthy, so wealthy that his name became a synonym for money. Mrs. Mackay and the family went abroad to live. Mr. Mackay spent his time partly in America, partly in Paris.

But first came a time of preparation. Neither Mr. nor Mrs. Mackay had lived a life which developed the lighter side of their natures. When wealth had come, Mr. Mackay appreciated his shortcomings, and with the same determination that had characterized his search for wealth, he set forth to find education and the veneer of society.

Although reared in poor circumstances, Mrs. Mackay showed her good sense by securing a private tutor, by whom she was drilled and educated for five years. The little daughter was put through the same course and fitted to shine in the most cultured company of the old world. Then came the conquests in New York, San Francisco, and finally the trip to Europe.

Mr. Mackay developed himself along new lines. He read, he studied. And the Mackay family developed itself. It was a rise hardly less remarkable than the rise to wealth.

MRS. MACKAY A SOCIETY LEADER

Mrs. Mackay became a leader in society in Paris, London and Rome. The fame of her jewels and her entertainments became world-wide. She is reputed to be the possessor of the finest pearl necklace in the world, valued at half a million dollars.

The life of Mrs. Mackay's daughter was unhappy. Her titled husband was dissolute and scandals were followed by a suit for divorce, which has been long drawn out and attracted much attention in Europe and America before it was finally granted.

There were two sons in the Mackay family. One was killed by a fall from a horse, it was claimed, in Paris, about six years ago. The other, Clarence, is 28 years old, and is heir to a fortune of $35,000,000. He was married in 1898 to Miss Katherine Duer, daughter of an aristocratic New York family.

LONDON HOME A PALACE.

The residence at 6 Carlton House Terrace, London, in which Mr. Mackay died, is one of the most beautiful homes in London. It is large enough to entertain a great number of guests without a crush. The home was purchased from Mr. Sandford, who lost his money in the Baring crash about ten years ago. Among other things it has a beautiful marble staircase that is said to have cost $300,000. The ceiling above this is inlaid with mother-of-pearl. The drawing-room contains treasures collected by Mrs. Mackay in all parts of Europe. The ball-room is one of the finest in England.

When the house was opened, Mrs. Mackay, with the co-operation of the Duchess of Manchester, soon succeeded in attracting to it the notabilities of London.

Among the first guests were Justice and Lady Jeune, Sir Charles Russell, Harold Frederick, T. P. O'Connor, Labouchere, Whistler and a host of others celebrated in law, arts and letters. Later came society leaders, such as Mrs. Ronalds, the young Duchess of Marlborough, Lady Curzon, Lady Arthur Butler, Mrs. George Cornwallis West, and others.

The Mackay receptions have been remarkable even in the most brilliant of London seasons, and during the coronation period, both past and expectant, the Mackays played and expected to play a most prominent part.

An interesting story is told of the circumstances surrounding the purchase of the Carlton House Terrace mansion. When some persons talked about Mr. Mackay's residence being in America, and wondered he should bestow so much money in the preparation and fitting up of a London house, he published with characteristic straightforwardness an announcement in the journals that his residence was at No. 6 Carlton House Terrace, London, England, and in San Francisco, but that his place of business was in New York city.

LATER YEARS SPENT ABROAD.

For many years Mrs. Mackay lived abroad, while her husband remained in the United States attending to his multitudinous business affairs. Though he was always known as the "Silver King," and though the bulk of his fortune was from the mines, Mr. Mackay took up other large matters, having joined James Gordon Bennett in laying an ocean cable and being one of the founders and early directors of the Postal Telegraph and Cable Company.

In the last few years of his life Mr. Mackay spent much of his time abroad, practically making his home in the London mansion and joining in the society affairs given by his wife.

Mrs. Mackay, after the tragic death of her son, practically gave up society for five years. She devoted much of her time and money to the work of charity. One of her beneficences was raising a debt of $100,000 on a church in Paris because one of the priests had been kind to her son. It was not until a little over a year ago, after she had been joined by her husband, that she re-entered society and began a series of entertainments in London on a magnificent scale.

A PRINCELY TOMB.

The Mackay mausoleum at Greenwood, where the body of John W. Mackay will be laid at rest, is one of the most magnificent tombs in the world. It cost $300,000. It is situated on a promontory near the Ninth avenue entrance to the cemetery, facing the east. It is built of Hallowell granite and is in the form or a Maltese cross, surmounted by a Grecian cross.

On each corner of the tomb is a large, heroic group cast in bronze. The statues symboloize different attributes of sorrow and faith, death and life. With the exception of the carving on the cross surmounting the structure and the frieze around the pillars, the exterior is severely plain.

The entrances are guarded by four massive bronze doors. Fronting the main entrance is the altar. The base is of white Carrara marble, and the altar proper is one large slab of black Irish marble from Conemara. It is a striking piece of work.

On the platform of the altar rest four columns of onyx, which are supported by two ornamentations of green small Irish marble. Between the ornamentations, over the altar, is a bas relief of pure yellow Carrara marble, representing the Virgin holding the infant Jesus in her arms. Both figures are of nearly life size. Beneath the mother and child is the figure of a cherub.

Underneath the altar are two of the catacombs destined to receive the bodies of the Mackay family. Large bronze doors guard the entrance to these vaults. On either side of the main chamber are arranged ten more tombs. Each one will be hermetically sealed as soon as an occupant is placed in it.

On each side of the tomb is a large solid pillar, arching overhead into fretwork. The sides are composed of many varieties of marble. The floor is of Italian mosaic, and a large arrangement of the family monogram included in it. The ceiling is of mosaic work in glass, and the side windows are of stained glass.

The dimensions of the tomb are 33 feet from side to side, 33 feet from front to rear and 47 feet from base to summit.

THE CORONATION ESCORT

Lucky Thirteen Men Who Are to Represent Canada

Will Be Ready to Start on July 26—The Official List.

Toronto, July 23.—Col. Pellatt, who went to England as commander of the Canadians to attend the coronation, said that the cable from London regarding the furnishing of an escort of thirteen mounted men and Col. Turner stated the case precisely. The escort of 13 men, to be commanded by Col. Turner was chosen while we were in England, to go with representatives of the other colonies, but the reinstatement of the escort was made after I had left for home. But that is the only part of Canada's representation that was reinstated," asserted the colonel, who also expressed his regret that all the men who were first chosen to represent Canada at the ceremony could not be sent across the ocean again.

Col. Pellatt said that after receiving Sir F. Borden's telegram to send the escort of ten men, he notified the troopers and Col. Turner, and they will be ready to sail on July 26. Col. Pellatt does not think he will go over himself.

The following is the official list of names of the Canada military contingent to the coronation on August 9th: In command, Lieut.-Col. R. E. Turner, V. C., D. S. O. Royal Canadian Dragoons—N. C. O. and men, Regimental Sergeant-Major James Widgery, Sergt. T. Leblond, Squadron Quartermaster-Sergt. W. Rheades, Sergt. G. Hudson, Sergt. H. Fuller, Sergt. H. Baldwin, Sergt. A. Skinner. Canadian Mounted Rifles—Squadron Sergt.-Major J. Page, Sergt. H. S. Square. Northwest Mounted Police — Sergt. H. S. Knight, Sergt. A. Richardson, V. C. Governor-General's Body Guard—Private F. D. Burkholder. Princess Louise Dragoon Guards — Private G. H. A. Collins.

BROKE HIS NECK

Boy Dived Into Shallow Water in Response to a "Dare."

Mount Vernon, N. Y., July 22.—Rather than refuse a dare, Joseph Quiry, 15 years old, dived 15 feet into the sound at Oakland Beach in the presence of a thousand bathers. The boy landed in two feet of water, and when his head struck the bottom his neck was fractured.

He was carried to a cottage, where a score of bathers rolled him on the floor and put a hot water bag to his feet. He regained consciousness in about an hour.

The boy's sister, Elsie Quirk, witnessed the accident, and when she learned that her brother would probably die, she rushed about the beach pleading for someone to go for a priest, and then lapsed into hysterics. The boy's condition is critical, as almost his entire body is paralyzed.

Bricklayer's Backache.

It requires a good strong sturdy man to stand the strain of the hard work that falls to the lot of a mason. Exposure to the hot sun and the cutting winds, bending over, inhaling the fine dust of the lime, brick or stone, all these things are bound sooner or later to tell on the kidneys and put them out of working order.

The poor old back begins to ache and pain, the urine is scant and scalds when passing.

Any mason who finds his back aching and his kidneys bothering him can have these troubles removed and be put in fit shape for his work by a bottle or two of Dr. Pitcher's Backache Kidney Tablets.

ACTED LIKE A CHARM.

Mr. Geo. Grass, South Street, Aylmer, Ont., a stone and brickmason, well known in that town and vicinity, says: "For some fifteen years I have had trouble with my back and kidneys. It arose from my attempting to lift a very heavy stone and straining myself. I have tried all sorts of remedies in the hope of being cured, but obtained very little relief. My back would be so bad at times that it was with great pain and difficulty I could straighten up when I arose from my bed in the morning, and I suffered so much that I had to give up my mason work altogether. I read a good deal about Dr. Pitcher's Backache Kidney Tablets and bought a supply from my druggist. They acted like a charm—took the soreness and stiffness out of my back so that I can now straighten up with ease. The pain is all gone and I feel strong and well.",

THE COW LIFTS MANY MORTGAGES

Prosperity in the Western Ontario Cheese Belt.

CROP OUTLOOK IS EXCELLENT

Cheese Flavor Is Good and the Make for This Month Will Be Very Heavy.

Happy are the farmers on the uplands of Western Ontario, writes a correspondent of the Toronto Globe. Prices are higher than ever before; crops promise to be heavier than for many years; the cow, the mortgage lifter in the great cheese belt, is working under the best of conditions, and there is emplomentand abundant reward for everyone. A journey across the western counties on one of these perfect July days is an inspiration to any Canadian. The land is a beautiful mosaic of greens and golds of varying hues; the greens of the meadows, the pastures, the woods and the unripe oats; the golds of the wheat and the barley fast hastening to harvest. Pasture fields are dotted with cattle, old and young, often knee high in rich grass, whose instinct must show them the promise of a bountiful winter feed, though the abundance and high prices may shorten their days upon earth. Times never were better, and it would be a prodigal people that did not prosper under them.

HOME OF THE DAIRY COW.

On leaving the flat lands of Lambton one does not travel far before reaching the slightly rolling uplands of Perth, the center of a larger area, wherein the dairy cow, the creature to whom we owe our commanding position in the British cheese market, holds undisputed sway. She is unobtrusive in her way, filling a small space on the landscape compared with the great fields of wheat or oats or hay, but she is respected as the great money maker and enricher of Ontario farms. The plan of farming in these sections is quite different from the low counties. The holdings are larger, hay and grains—wheat and oats—predominate, and large areas are given to pasture. The woods seem more plentiful, and in their grateful shade and in the open fields the cattle roam amid heavy, rich grasses. Green as in June, the pastures present a remarkable contrast at mid-July of this wet summer to their appearance in an ordinary year. No appreciable result has been noticed yet, but cheesemen are figuring on an increased output in July and at least part of August. In many seasons cows are generally partly fed in July to keep up the milk flow, but there is no need of that this year. Unattractive and anything but prominent, the cheese factories, often small, rough buildings, stand along the highways at intervals of a few miles. Some skill and ability to do the right thing at the right time, a small plant, and the co-operation of a group of farmers—commonly called patrons—who will supply their milk—there you have the nucleus of a cheese factory.

LARGE MONEY IN CHEESE.

Within a radius of four or five miles most of the farmers are patrons, and their herds of milch cows number on an average farm about ten. Each cows will give from 4,000 to 5,000 pounds of milk during a season of six months, and on average return is $4 per month, or, say, $25 for the season from each animal. In Oxford, the greatest cheese county in Western Ontario, many farmers keep from 30 to 40 milch cows, while one man in the vicinity of Brownsville has a herd of 75 cows. How does he get them all milked? is the first question that occurs when one thinks of the labor involved and the trouble from flies and obstreperous beasts.

The whole farm staff—there are 400 acres in the farm, and two hired men and two sons, or in all six or seven available for milking—quit work in the afternoon at 5 and commence milking Of course they get up early in the morning to do the same. That is the way it is done. The circumstances were told in the presence of four or five cheese dealers, one of whom said he knew of a woman who milked 30 cows twice daily; but this lacked confirmation. Milking machines have been invented, but apparently they are not needed in the presence of such skill. An ordinary cheese factory will make 100 tons during the season. This will require the milk of about 700 cows, or, say, 75 patrons. This year's prices, which have been steady at from 9¼c to 9½c, or a little better than last year, will mean the distribution of about $2,800 per month, or $16,800 among the farmers of that immediate section for the six months. This is often exceeded, and it is stated that one factory in Elma Township paid out $7,000 to their patrons for last month alone. Elma Township, it may be said in passing, is quoted as one of the best object lessons of the benefits of dairying. Owing to its low, wet land it was formerly little valued. Now it is the banner cheese township in Perth, and one of its richest in land. In Oxford there were in 1900 45 factories, with payments to patrons of $875,000; in Middlesex 32 factories, yielding $454,000 to patrons; in Perth 25 factories, paying $414,000 to patrons. Grade cows have so far been general, but Holsteins and Ayrshires are becoming more plentiful.

GOOD QUALITY IN CHEESE.

Experts say there has been little trouble with cheese of ill-flavor this year, attributing this partly to the cool weather. This may not always be with us, and in order to test a system of closer inspection, the provincial department of agriculture has mapped out a district in Lambton, comprising several factories, where a special inspector will visit the farmers and makers and give advice so as to secure a perfect quality. A similar experiment is being tried in Eastern Ontario, and if the result warrants it, it is said the system may be generally adopted for a time at any rate, to maintain the reputation of Ontario cheese. Alongside of the cheese industry is butter-making. Many of the factories make butter in the winter, thus giving an outlet for the milk from the large herds the year round. In fact, three or four cheese factories in Perth are making butter this summer instead of cheese. The large increase in the export of butter announced the other day and the slight decrease in the export of cheese, show the result of this tendency.

Cheese is made every day at each factory, though it takes a couple of weeks for it to ripen in the summer, and a month in the cool weather of the fall. At some factories milk is received on Saturday night, and the maker is busy until 10 or 11 o'clock Sunday forenoon, but in nearly every case there is no delivery between Saturday morning and Monday morning, and all Sunday labor, so far as cheese-making is concerned, is avoided, in accordance with the prevailing sentiment in the rural districts. The advantage of cheese-making is the large amount of ready cash it brings to the farmer, who is enably largely to avoid debt, and in most cases to pay off mortgages, if such there be, or to improve his farm or buildings, or add to his home comforts. The extent to which all these are done is apparent from a glance at the farming districts or from conversations with those most familiar with individual cases.

BEST CROPS IN TWENTY YEARS.

"You can say that in North Easthope, South Easthope, Downie, Hibbert, Fullarton and Blanchard, the townships comprising the southern part of Perth, there never were better crops in twenty years," said Mr. Jas. Dow, of Stratford. This view was amply confirmed in other quarters. The same hopeful story was told by Mr. Charles Zinn, a representative German farmer from Wilmot township, in Waterloo. The wheat acreage is not quite so large as formerly. This year fields promise a more than average yield, in many cases reaching 30 bushels to the acre. Mr. Zinn says his friends tell him he will have 2,000 bushels from his 60 acres of wheat. Of oats, on the other hand, there is an increasing acreage, and the crop will be very heavy. The same prospect retains with regard to barley, of which the area is not so large as oats. Peas are little grown, as the farmers are determined to give the bug, the pest for years past, a chance to die out. "They used to be so plentiful we could not thresh the peas for the greasing of the machines by their crushed forms," said Mr. Zinn, in his expressive way. Beef cattle are not so plentiful in Perth, but they are an important item in Waterloo. Hogs are becoming more numerous, and the shipments to Collingwood, Ingersoll and Toronto are large and regular. As a result of extensive stock-raising, the farms have been brought to a good state of cultivation. Many roots are grown for cattle feed, and they never promised better. Hay is heavier than for years, but difficulty is experienced in cutting it owing to the showery weather.

Waterloo is greatly interested in sugar beets, by reason of the construction of the factory at Berlin, soon to be completed, and the contracting by farmers, scattered over a considerable area, to grow an aggregate of 5,000 acres of beets this season. The greatest trouble has been to get help to work in the fields. Indians have been brought from the Brant county reservation, but even these were not sufficient, and in some cases school children had been brought in to work at "blocking" and "thinning." An instance is told of 173 school children working in one large field, the exigencies of the case requiring that rigs be at the schools at 4 o'clock and the children conveyed with all speed to the scene of operation, there to work for two or three hours before dark or hunger caused them to cease. They would be paid from 5 to 8 cents an hour, while women frequently earned $1 to $1 25 a day.

IN RELIGIOUS FRENZY

Women Throw Their Jewels Into Missionary Collection Boxes.

Lancaster, Pa., July 23.—Wonderful scenes of religious enthusiasm were witnessed here at the closing session of the seventh annual convention of the Christian and Missionary Alliance, composed of the districts of Pennsylvania, Maryland, New Jersey, Delaware and the District of Columbia. Two volunteers for the mission fields of Japan and China were enrolled and nearly $40,000 was contributed to the mission services, three contributions of $1,500 being received.

In their religious frenzy men gave their watches and women tore off their jewels and almost threw them into the contribution boxes in their excitement. Ten thousand people attended the day's services.

A Song Writer Dead.

Chicago, July 22.—William T. Bryan, writer of songs and sketches and well known on the vaudeville stage, is dead at St. Joseph's Hospital of consumption. He was 50 years old.

Identified After a Year.

Niagara Falls, Ont., July 22.—On the 23rd of June, 1901, the body of a young woman was found in a room at the Park Side Inn, on the Canadian side. On the bureau in the room was an empty bottle which had contained morphine. The body, which was carefully embalmed, was on Saturday identified a relatives as that of Lucille Charter, a professional nurse, of Greenville, Ohio. The remains were interred today in Drummondville Cemetery.

THE ILLS OF WOMEN

A RELIABLE AND SAFE CURE FOR WOMANLY ILLS IS FOUND IN FERROZONE — A REMEDY THAT ALWAYS GIVES SATISFACTION AND NEVER DISAPPOINTS.

If troubled with painful irregularities, dizziness, faintness, excitability, nervousness, remember there is a remedy that if regularly and persistently used, will cure all these ills. Its name is Ferrozone.

It is used by thousands of women who have experienced its great strengthening powers, and they would not be without it for ten times its price.

Ferrozone is primarily a blood-maker. It drives all impurities from the crimson fluid, makes it strong and capable of supplying nourishment to the body. It quiets the nerves, banishes excitability and headache.

By taking Ferrozone regularly you can keep free from those dreadful backaches, and monthly sickness will pass off regularly without pain or distress. Being prepared in tablet form, Ferrozone is both convenient and simple to use, and no uncertainty as to the proper quantity or dose can ever arise.

A Montreal hospital nurse who has used Ferrozone herself, and has seen also the benefit that other suffering women have derived from it, writes: "I have nursed and treated all forms of female disorders, and from my personal experience must say that Ferrozone, is a remedy about which all womankind should know. It is reliable and sure, and will give prompt and satisfactory results. As a builder of muscle and tissue, I know nothing to equal Ferrozone. I have found it good to build up a weak appetite, and consider it a splendid medicine for the blood and nerves. I have no hesitancy in indorsing Ferrozone."

Don't continue to exist in a state of misery and weakness any longer. Ferrozone will make you strong and well just as it has done for thousands before you. All druggists recommend and sell Ferrozone at 50 cents a box, or three boxes for $1 25. Get a box today from your druggist, or N. C. Polson & Co., Kingston, Ont.

BRITAIN'S DUTY TO WAR HEROES

The Returning Hosts Will Want Employment.

THE COUNTRY'S OBLIGATIONS

Urged That the State Give Veterans Preference in Filling Public Service.

London, July 23.—Attention is loudly called to the fact that the abandonment of the South African Republics, now fairly under way, means throwing on the home labor market a very large body of unemployed men. The government has lost no time in reducing the force. A big fleet is already taken up, and within the next ten days 30,000 Yeomanry and reservists will leave Cape Town for England. More will follow in a month.

"The obligation now rests upon the State and upon employers of labor," says the Globe, in passing, "to make what provision can be made for these thousands of disbanded heroes; and it must be borne in mind that England has not a vast labor market like the United States in which they may seek and surely find employment. Probably large numbers would have a better chance at the Cape."

THIS IS A SERIOUS MATTER.

The men will receive a month's furlough on landing to enable them to look for work. But with a multitude applying simultaneously many will be crowded out, unless befriended by the nation collectively and individually. Gratuities and furlough pay will not keep them going long. When such resources are exhausted the choice will be work or the poorhouse—the letter a hard lot for "saviors of the country." It is urged that the State should give deserving veterans a preference when filling up vacancies in the lower grades of the public service, and without subjecting the applicants to competitive examination. But here again a knotty problem manifestly arises.

NO STREET DECORATIONS.

London, July 22.—Westminster will probably be without any public street decorations on the day of the King's coronation. A committee of the city council has decided to recommend that no money be spent in decorations. The old decorations have already been taken down.

GIFT FROM THE KING.

King Edward has contributed a further sum of $3,000 to the fund for the relief of the sufferers by the eruption of Mount Pelee, Martinique.

CONTROL OF OCEAN FREIGHT.

London, July 22.—The House of Commons committee appointed to inquire into the question of steamship subsidies was in session today and examined Senator G. A. Drummond, of Montreal. Mr. Drummond said that he had arrived at the conclusion, from recent developments of American shipping combines, that the land lines practically controlled the situation, and that the ocean lines were merely adjuncts. At first sight it would appear that the purchase of a number of old British steamers by the American combination could be remedied by building new boats. But he believed that if this was done by a new organization it could be made unprofitable by the Americans who, by means of bills of lading centers, could control freights as well as a considerabe portion of the passenger traffic. He believed that the only hope of escape from the control of the American shipping combine lay through Canada. Therefore he advocated a speedy up-to-date service of 22-knot steamers between Great Britain and Halifax, instead of New York. Such a line ought to be subsidized to the extent of $1,500,000 to $2,000,000 yearly for ten years, half payable by Great Britain and half by Canada. Thereafter, he believed, if judiciously managed, the line would be self-supporting. It would be advantageous to both countries to cement the trade between Canada and Great Britain.

JOHN MACKAY'S REMAINS.

London, July 22.—The Cunard Line steamer Saxona, sailing from Liverpool for Boston today, has a wireless telegram for Clarence H. MacKay, son of the late John W. MacKay, who sailed from New York Saturday, July 19, on the Campania of the same line. The Saxona hopes to communicate with the Campania tomorrow or Thursday.

The remains of Mr. MacKay have been embalmed and placed in a metallic coffin, which is now resting in the music room of the MacKay residence, surrounded by flowers which have been sent in great profusion. Cards, letters and telegrams from many distinguished persons in all parts of the world continue to arrive in numbers. Mrs. MacKay is as well as could be expected.

CAPE HAYTIEN TO BE ATTACKED.

Cape Haytien, Hayti, July 22.—The local authorities here have notified the consular corps that Cape Haytien is to be attacked by land and by sea, and that they cannot guarantee the safety of foreigners. The consuls have required that the French cruiser D'Assas, now at Port au Prince, be sent here, but the French minister there has replied that the situation at Port au Prince does not permit the sending of the cruiser to Cape Haytien.

Retiring Gift of $3,000.

Winnipeg, Man., July 22.—The congregation of St. Andrew's Church last night gave Rev. Jos. Hogg, $3,000 as a retiring gift.

Died at Walkerville.

Walkerville, Ont., July 22.—Mrs. Robins, wife of Wm. Robins, manager of the distillery of Hiram Walker & Sons, died this morning. She was stricken about five o'clock on Sunday evening with apoplexy and remained unconscious since that time, gradually losing strength and died at 3 o'clock this morning. She leaves one daughter.

Surrounding Sir Wilfrid.

It is interesting to note the attitudes of the Conservative press at this particular moment toward Sir Wilfrid Laurier in relation to his old country mission. We say "attitudes," because in their anxiety to score against the premier, some of these journals have taken up conflicting positions. They agree only in the desire to coin political capital out of the perplexities of a great Imperial problem. For instance, we have the Mail and Empire preparing to forestall the probable failure of the movement for an Imperial preference, by fixing the responsibility on Sir Wilfrid in advance. Says the chief Conservative organ:

"Mr. Balfour is the nominal, Mr. Chamberlain probably the real, premier. If the former is raised to the peerage the latter will become the leader of the House. His genius is overcoming all obstacles, and with the accession of the new government a new era opens for the empire. The British Government is fast moving towards mutual preferential trade, and if we do not get it it will be because of Sir Wilfrid Laurier's opposition."

On the other hand, we have the London Free Press on an entirely different tack. Says our local contemporary:

"The only point on which he (Sir Wilfrid Laurier) has expressed himself with any clearness is upon that of a closer commercial alliance, which looks rather to a British sacrifice in the interests of Canadian producers than any helping hand to be given by this vigorous, happy and prosperous young scion of the old motherland in her possible need. This appeals more to the public greed here than to the spirit of mutual devotion which we believe permeates the empire at large on the broader grounds of Imperial sentiment and the common weal. To many the thought has an aspect little short of contemptible. It is out of chord with the feeling of nationality and independence which Sir Wilfrid has been credited with the wish to inspire and inculcate among Canadians."

According to the Mail and Empire, Sir Wilfrid will be recreant to his trust if he fails to secure from the British Government a preference for Canadian products. According to the Free Press, if he makes any such attempt he will be appealing to the "public greed" of this country, and asking the British to make a "sacrifice" for Canadian producers. These extracts show that the Conservative press has Sir Wilfrid fairly well surrounded. It has him cornered no matter in which direction he moves. This may be clever political strategy—"slim" tactics—but it is not an honorable or a patriotic plan of campaign. The policy of closer commercial relations, which the Free Press calls "little short of contemptible," is one of which the Conservative party claims to be the parent. In seeking to bring about some preferential trade arrangement Sir Wilfrid Laurier is obeying a resolution of the Canadian House of Commons, which was supported unanimously by the opposition. The fiction that Sir Wilfrid was offered a preference on Canadian products in 1897 is still current, and it may be just as well to reproduce the text of Mr. Chamberlain's denial, which ought to have given the story its quietus. Said Mr. Chamberlain:

"I have often been attacked for having, as it is said, proposed an Imperial zolliverin. I have never done anything of the sort. It is one of those mistakes of which I am so largely the victim—(laughter)—and which, perhaps, it would hardly be worth while to contradict until the occasion becomes urgent. All I have done is to point out that, following the language used by Lord Ripon, my predecessor, if there is to be any kind of fiscal arrangement with the colonies, the only form which I myself think would be viewed with the slightest favor in this country would be an Imperial zolliverin, in which there should be free trade between the whole empire, and duties of some kind as against other countries. (Cheers.) But I have not proposed that; I have only stated that that alone seems to me a proposal which might be seriously considered."

No British colony is prepared for the revolution of Imperial free trade. The Conservative party in this country would fight any further reduction of the Canadian tariff on British goods, yet it attacked the premier for not assenting to a policy which would wipe the tariff out completely. The position of the opposition in this question has been always most illogical.

In Great Britain the situation has changed since 1897. The mother country now voluntarily taxes foodstuffs, and the colonies may reasonably ask her to exempt colonial products from these duties in return for concessions in the colonial markets. This would create a preference without adding to the burden of the British taxpayer. But Canada has yet to learn whether the British Government will grant the favor, and what reciprocal favors it will ask.

Scrap-Iron Again.

The assessment courts of this province are paved with the good intentions of the Ontario Legislature. It is a shock to hear once more that the scrap-iron assessment or something equally bad is still in force. Three county judges, sitting at St. Catharines, have reduced the assessment of the Hamilton Electric Light and Cataract Power Company from $110,000 to $25,115, on the strength of an amendment to the assessment act passed by the Legislature this year for the specific purpose of redressing the scrap-iron grievance. This was the second attempt to secure the same object. In 1901 the Legislature inserted a clause in the act which provided that the property of gas, electric light, street railway, waterworks and similar corporations, extending over more than one ward, might be appraised as a whole or the integral part of a whole. This clause had been framed by the Ontario Municipal Association, and it was supposed at the time that it would put corporations on a proper assessable basis. But the courts decided that it made no change. The Legislature this year tried again to devise a remedy and drafted a clause, which met the approval of every member of the House. It provided that the property of a corporation on the public highways should be considered as "land," and assessed at its actual cash value as it would be appraised by an intending purchaser, prepared to operate it as a going concern. No one in the Legislature doubted that this would remedy the difficulty, and it was thought the last had been heard of the scrap-iron assessment. But the courts were not to be baffled, and have taken advantage of a subsection, intended to exempt the rolling stock of street railway companies from taxation, to again defeat the purpose of the Legislature. The St. Catharines court declares that this exemption extends to all the property of a corporation not on the public highway. In other words a company's plant and appliances, situated on its own property, are non-assessable. The effect has been to reduce the Cataract Power Company's assessment to one-fourth of what it was on a scrap-iron basis. The decision of the St. Catharines court will of course be appealed, and it may be the high court will interpret the clause according to the intentions of those who framed it. If the high court is more interested in discovering flaws in the statute than in finding its obvious meaning, the Legislature will have to try a third time to say precisely what it means.

The Steamship Combine.

Senator Drummond, of Montreal, told a British House of Commons committee yesterday that the American shipping combine was merely an adjunct of the railways, who controlled the situation.

There is surely no news in this. The same conditions have prevailed for years. A powerful group of railway interests has always worked in collusion with certain shipping lines, and this group is behind the Morgan deal, the object being to monopolize, as far as possible, the profits of both land and ocean transportation. Traffic originating on these railways would, of course, be turned over to the combine steamships, and vice versa. This control of the land lines, it can readily be seen, would be used to the prejudice of the independent vessel lines on the North Atlantic route, hence the real menace to British interests which the combine presents. Senator Drummond says the only hope of escape is through Canada, and he favors the subsidizing of a British-Canadian service of fast steamships to the extent of $1,500,000 or $2,000,000 yearly for ten years. The British maritime supremacy has grown up without the forcing process of the bounty sysem, and there is a natural and wholesome aversion to subsidies in the mother country, but the present situation is entirely new.

The four aldermen who left the City Council are merely anticipating the verdict of the people in January.

The story that a sea-serpent has been seen in the Thames is a cruel libel on that meek and eminently respectable stream.

Sir Oliver Mowat was 82 years of age yesterday. May his days he pleasant and prolonged. Ontario owes a great debt to the grand old man.

In the past twelve months Canada has derived $364,972 from the poll-tax on Chinamen. This is one authentic case where the foreigner pays the duty.

Mr. Brodrick, the British War Secretary, described General Buller as a "good peace commander," and now the general is determined to give Mr. Brodrick no peace.

The Conservative party in this country declares for Imperial preferential trade. So far it has contributed to the cause by opposing a Canadian preference on British goods.

The late Mr. Mackay was so wealthy that he did not know how much he owned. We have no multi-millionaires in Canada, but we have many sufficiently affluent that they do not know how much they owe.

Premier Ross is doing a good stroke by arranging for the visit of a number of English school teachers to Ontario. The visitors will profit by the study of the finest school system in the world, and they may be able to teach Canadian geography a little better when they return.

The latest American census bulletin shows that in 1900 there were 5,739,657 farms in the United States, valued at $16,674,694,247, whose annual products were worth nearly $5,000,000,000. Of the American exports last year valued at $1,500,000,000, nearly two-thirds was made up of products of the soil. The farm is still Uncle Sam's mainstay.

The large increase in the immigration from Great Britain to Canada last year is very gratifying. Evidently the reorganization of the Canadian agencies in the old country is already having results. All but a fraction of the immigration into Canada comes from Great Britain and the United States—mostly people of our own race and language. It is different with the United States. Last year Italy sent 178,375 Austria-Hungry 171,989, and Russia and Finland 107,347 emigrants to the republic. Compared with these the immigration from other European countries was very small.

MURDER OF A. C. LATIMER

Attempt to Unravel the Mystery of a New York Tragedy.

The Widow Says Her Husband Was Shot by a Burglar.

New York, July 23.—The coroner's inquest, called to investigate the shooting of Albert C. Latimer at his home in Brooklyn on the morning of July 2, was resumed yesterday. Latimer died in a hospital, and all he told of the shooting was that he was shot in bed, and that he did not believe it was done by a burglar, as stated by Mrs. Latimer.

Mrs. Bella Treadwell testified that a long time ago Mrs. Latimer said it was "hard to be tied to a man and see some one else you really loved." Mrs. Treadwell thought the remark was made without any reference to Mrs. Latimer herself.

William H. Tuthill said that Latimer, when in the hospital, asked if he, Tuthill, was being watched. He denied that a meeting between him and Mrs. Latimer in 23rd street, New York, told of by Latimer's sister, was prearranged. The matter was explained to Latimer, and they continued friends. He said he could not account for Latimer's question: "Is Tuthill being watched?"

Mrs. Albert C. Latimer, the widow, was recalled, and asked to describe the man she said shot her husband. She said the intruder wore a mask, so that she could not see his face; therefore she did not know the color of his eyes; nor whether he had a moustache. He was of medium height. He wore the peaked cap found in the house after the shooting.

Latimer's will disposes of property worth $19,500. With the will was filed a codicil, written on a prescription blank by Latimer while he lay on his death bed in St. Mary's Hospital, and reads as follows: "Codicil—I devise all of my property among my children only.—(Signed) A. C. Latimer." The original will gave the widow one-tenth of the property absolutely and the income of one-third additional for life, the remainder of the estate to go to the children.

AGENT WENT WRONG

Confesses to Charges of Forgery and False Pretenses.

Galt, July 22.—Charles McKinley, of Ayr, who was arrested on the 12th inst., at the instance of the Woodstock Wagon and Manufacturing Company, Limited, for forgery of a number of prommissory notes and orders, and also for obtaining goods under false pretenses, was remanded to Berlin on Monday last. He came before P. M. Blake yesterday morning. Mr. A. E. Cole appeared for the complainants, and Mr. A. E. Millican for the prisoner.

The Ontario Windmill and Pump Company also preferred a charge of forgery against the prisoner, Mr. W. D. Card appearing on their behalf.

The prisoner pleaded guilty to all the charges preferred, and was remanded for sentence by the judge.

McKinley has acted as implement agent in Ayr for several years, representing Frost & Wood, the Woodstock Wagon Company, Brockville Carriage Company, and the Toronto Windmill Company. His reputation locally was good, and the firms with whom he did business evidently had every confidence in him. It has been alleged that he adopted a system of selling for cash below the actual cost price, and forwarding a forged order and promissory note for the full amount to the firm. This spring he sold a wagon to a South Dumfries farmer for $47 cash, which cost him $50 and the freight charges. He sent in a note purporting to be signed by the purchaser for $55, but by the same mail the wagon company received a letter from the farmer telling of the bargain and inquiring whether he should pay the money to the firm or to McKinley. The signature of the letter and that on the note were compared, and, being dissimilar, suspicion was aroused, and an investigation instituted.

EVERYTHING IN READINESS

All Preparations for the Big Prize Fight Are Complete.

Both Jeffries and Fitz Are "Trained to the Minute."

San Francisco, July 23.—Everything is in readiness for the Jeffries-Fitzsimmons fight on Friday night. The attendance promises to tax the capacity of the arena. Jeffries is partial to sprinting at this stage of his training. He believes that by footing it over short stretches of highway, he gains in speed and wind. He is better natured than he was a week ago. He declares that he feels stronger and better than he ever did before going into any fight. Those who have been watching him during his training insist that he is faster than ever.

Fitzsimmons also has tapered off in his training, having passed the point where preliminary exercise will cut any figure. He says that he will do his betting in private.

After a temporary boom for him in betting circles the original odds of ten to four on him now prevail. The ring will be made an octagonal one instead of a square one. The posts will be padded.

Soldier "Tom" Wilson, who came from the East to act as Fitzsimmon's sparring partner, but who was shelved for "Hank" Griffin, will not ee fight. He received orders to join his regiment at Fort Monroe, Va., by July 29th, and will leave tonight.

"Young Peter" Jackson Won.

Los Angeles, Cal., July 23.—"Young Peter" Jackson fought "Mike" Donovan, of Rochester, N. Y., to a standstill, and was awarded the decision at the end of the 20th round last night. Donovan was clearly out-pointed and missed being knocked out in the 18th round by only one count.

AN ACTRESS ROBBED

May Yohe Claims to Have Lost Some $250,000 Worth of Jewels.

New York, July 23.—A formal complaint of grand larceny was made against former Captain H. B. Strong Monday night by May Yohe, who visited police headquarters, accompanied by her mother and her lawyer, and there charged Strong, who recently disappeared from his home at Hastings, with the theft of jewels, which she values at $250,000. Her complaint was entertained and a general alarm was sent out for the arrest of Strong.

Miss Yohe's counsel said that the safes in the Knickerbocker Safe Deposit Company, where Miss Yohe had kept her jewels, were opened yesterday and it was found that her jewels, valued at $250,000, had been removed, nothing of value being left in the safe except a few trifling trinkets. He also explained that pawn tickets calling for $100,000 worth of the missing gems had been recovered.

Captain Titus, of the detective bureau, said that several detectives had been at work all night looking for Putnam Bradlee Strong, against whom a warrant charging theft was sworn out by May Yohe, but that they have found no trace of him.

Captain Titus said that Miss Yohe came to New York today from Hastings-on-the-Hudson, and with several detectives was making a tour of the pawn shops for the purpose of identifying, if possible, some of the jewels supposed to have been pawned by Captain Strong.

CHARGES DROPPED.

New York, July 23.—The charge of grand larceny that was formally made at police headquarters by May Yohe against former Capt. Putnam B. Strong, who has mysteriously disappeared, has been withdrawn. May Yohe's lawyer notified the police that his client wished to formally withdraw all charges against the missing captain and that the reward of $1,000 offered for information as to his whereabouts was also withdrawn. The lawyer would only say that the charges were withdrawn for the sake of Strong's family.

FOR TEN WEEKS

President Mitchell Sees Success If Miners Hold Out That Long.

Indianapolis, July 22.—President Mitchell, of the United Mine Workers, expects to leave Indianapolis tomorrow for Wilkesbarre, and Thursday or Friday open strike headquarters. His intention, it is understood, is to remain in the anthracite region until the strike is settled. Secretary Wilson says he does not expect any more large donations until tomorrow.

Mitchell, it is understood, thinks he can win the anthracite strike if the miners hold out ten weeks longer.

President Mitchell will leave for Chicago tomorrow afternoon. He will stay in that city a day and will then go direct to Wilkesbarre to resume active management of the strike.

Springfield, Ill., July 23.—At a meeting of the executive board of United Mine Workers of America, Illinois district, yesterday, $50,000 was voted in aid of the striking miners in the anthracite fields of Pennsylvania. A check for the amount was last night sent to the national officers at Indianapolis.

AID FOR STRIKERS.

Indianapolis, Ind., July 22.—Several large contributions for the miners' strike fund were received today. District No. 13 (Iowa) sent $5,000. President Mitchell says the national officers of the organization are considering the offer of the British trade unions, through their federation, of financial aid in the strike. Indianapolis unions met tonight and resolved to assess members at least 1 per cent per week on their earnings for the anthracite strikers. This will amount to $2,000 per week.

Penalty for Cruelty.

Washington, D. C., July 23.—The courtmartial which tried Major Edward F. Glenn, Fifth Infantry, on charges of administering the water cure to natives of the Philippines, or permitting it to be done, found him guilty, and sentenced him to one month's suspension of duty and a fine of $50.

THE MARKETS

THE LOCAL MARKET.

London, Wednesday, July 23.

Wheat, white, per bu	80c to 80c
Corn, per bu	44c to 45 5-10c
Peas, per bu	75c to 90c
Barley, per bu	55c to 60c
Beans, per bu	70c to 80c

Ten loads of berries formed the bulk of the offerings at the market here this forenoon. Prices are a trifle easier. Black raspberries sold at 5c to 5½c per box in crates, and 6c per single box. Red raspberries sell at 4c to 8c per box.

Several loads of new hay sold at $9 to $10 per ton. The demand is good.

About twenty dressed hogs were purchased at $9 per cwt.

WEEKLY REVIEW.

The wet weather of the past week has affected the attendance, and the offerings on the market here. The bulk of the offerings has been berries, vegetables and the smaller lines of farm produce.

Grain—All told there were not over a dozen loads of wheat offered during the week; prices are quoted at $1 38 per cwt. There has been an increase in the price of oats; sales were made during the past few days at $1 47 to $1 50 per cwt; this is an advance of from 7c to 10c per cwt on the prices paid the previous week; very little oats are now held by the farmers.

Hay and Straw—About twenty loads were offered during the week; this is only half the number required, consequently prices are firm, at $8 to $9 per ton for new hay and $10 per ton for old. Straw is more plentiful, at $6 per ton.

Butter and Eggs—There has been no change in price in either of these commodities. Butter in crocks sells at 15c per lb, and pound rolls at 16c to 17c. Butter brings 13½c to 14c for crates and basket lots.

The only change in price in the vegetable line is that of new potatoes, which sell at 75c to $1 per bu.

Fruits—Red raspberries sell at 6c to 8c per box; black raspberries, 5c to 7c; currants, black, at 10c per quart, red currants at 4c to 6c per box; cherries are about done; those offered sold at 10c per quart.

Poultry—With the exception of Saturday last, the offerings have not been heavy; spring chickens, dressed, sell at 50c to 75c per pair; live chickens, 40c to 60c per pair; ducks, dressed, 75c to 90c per pair.

Dressed Hogs—Prices are steady, at $9 per cwt.

Live Hogs—Those shipped from here brought $6 75 to $6 85 per cwt.

Live Stock—A number of butchers' cattle, weighing from 1,150 to 1,200 lbs, sold here at $4 75 per cwt.

Honey—Strained sells at 10c per lb, and 14c to 15c per lb in the comb.

LONDON WOOL SALES.

London, July 22.—The offerings at the wool auction sales today numbered 13,302 bales, including a large selection of New Zealand cross-breds. The home trade was a free buyer, taking a large supply of medium scoured cross-breds at unchanged rates. Merinos were in small supply. A few were taken for America. American purchasers secured some fine medium cross-breds and Cape of Good Hope and Natal scoureds, at an advance of 10 per cent. Following are the sales in detail: New South Wales, 2,500 bales; scoured, 6d to 1s 6½d; greasy, 4d to 1s 1d. Queensland, 600 bales; scoured, 1s to 1s 8d. Victoria, 1,200 bales; scoured, 8d to 1s 7d; greasy, 4d to 1s 1d. South Australia, 100 bales; greasy, 4¼d to 10d. Tasmania, 700 bales; greasy, 4d to 1s ½d. New Zealand, 8,200 bales; scoured, 6d to 1s 8d; greasy, 3¼d to 11¼d. Cape of Good Hope and Natal, 17 bales; scoured, 1s 4½d.

AMERICAN MARKETS

CHICAGO.

Chicago, July 22.—There was marked variance between the slumping provisions market today and the highly-manipulated condition of September wheat, which influenced sharp advances in all grains in the face of bearish conditions. Outsiders, tired of carrying the load of high prices for the packing interests, unloaded today with such vim that pork broke 75c a barrel. On the other hand, the rumor that a loading packer was under September wheat pushed that cereal up sharply. Sympathy did the rest, and July and September wheat closed ¾c up, July corn ¼c higher, September corn 1c to 1⅛ up, July oats 2c higher, and September oats 1c to 1¼c higher. Provisions closed 22½c to 70c lower. Local receipts of wheat were 438 cars, only 9 of contract grade; Minneapolis and Duluth reported 273 cars, making a total for the three points of 713 cars, against the same number last week and 764 cars a year ago. Primary receipts were bearishly heavy, at 1,208,000 bu, compared to 918,000 bu last year. Seaboard clearances in wheat and flour equaled 507,000 bu. Estimated receipts for tomorrow: Wheat, 160 cars; corn, 90 cars; oats, 65 cars; hogs, 26,000 head.

The leading futures closed: Wheat—July, 77c; Sept., 72⅝c; May, 74¼c to 74¼c; Dec., 72⅛c. Corn—July, 67c; Sept., 61½c to 61⅝c; Dec., 46⅜c; May, 43⅜c. LIVE STOCK MARKETS.

TORONTO.

Toronto, July 22.—There was an improvement in business at the cattle market today, especially for butcher cattle. Export cattle were on the whole steady, though not quite so eagerly asked for. Butcher cattle were firmer all round, good butchers being worth from 25c to 35c more than they would sell for last week. The demand for stockers just now seems very quiet. The light run for sheep and lambs made a better demand and prices were firmer, sheep being worth $3 50 and lambs $5 to $5 50 per cwt. Hogs are still steady, prices holding at $7 25, top. The day's delivery was 60 loads, with 791 head of cattle, 375 sheep and lambs, 595 hogs and 47 calves.

Sales: Corbett & Henderson bought a load of exporters, 1,225 lbs, at $6, and one head over; 8 butcher cows, 1,000 lbs, $5 to $6; export bulls, 1,500 to 1,800 lbs, $4 75 to $5 50. J. Collins bought 10 butcher cows, 1,100 lbs, at $3 25. Crawford & Co. bought about 5 loads of mixed butchers and shipping cattle, 1,700 and 1,100 lbs, at $4 25 to $5 60. W. H. Dean bought 4 loads of mixed exporters and butchers, 1 load of cows at $4, a load of heifers at $5 25, light shippers at $5 50 and heavy shippers at $6 25. Maybee, Wilson & Murby bought a load of butchers, 900 lbs, at $4; a load, 1,100 lbs, at $4 50; a load of exporters, 1,350 lbs, at $6. W. Levack bought sheep at $3 40 to $3 50; lambs, $5 to $5 50 per cwt.

Hogs—Receipts, 510 head; fairly active; no heavy; Yorkers, $8; light and pigs, $7 90; roughs, $7 to $7 15; stags, $5 75 to $6 25.

Sheep and Lambs—Receipts, 114 head; steady; lambs, $4 50 to $6 50; yearlings, $4 75 to $5 25; wethers, $4 50 to $4 75; sheep, $2 25 to $4 40; ewes, $4 to $4 25.

CHICAGO.

Chicago, July 22.—Cattle—Receipts, 4,000, including 1,500 Texans; steady; good to prime steers, $7 75 to $8 65; poor to medium, $4 50 to $7 60; stockers and feeders, $2 50 to $5; cows, $1 40 to $5 50; heifers, $2 25 to $6 25; canners, $1 40 to $2 50; bulls, $2 25 to $5 25; calves, $2 50 to $7; Texas-fed steers, $4 to $5 65; western steers, $5 to $6 50.

Hogs—Receipts today, 20,000; steady to 10c lower; mixed and butchers, $7 15 to $7 35; good to choice heavy, $7 75 to $7 97½; rough heavy, $7 15 to $7 65; light, $6 80 to $7 05; bulk of sales at $7 50 to $7 90.

Sheep—Receipts, 8,000; sheep strong; lambs steady for bulk; good to choice wethers, $4 to $4 65; fair to choice mixed, $2 50 to $4 10.

NEW YORK.

New York, July 22.—Beeves—Receipts, 87; dressed beef steady; city dressed native sides, 9c to 12½c per lb; cables quiet; American steers at 11c to 16c, dressed weight; refrigerator beef at 13c to 13¼c per lb. Calves—Receipts, 239; very little business; a few veals sold at $5 to $7 per 100 lbs; city dressed veals, 8½c to 11c per lb.

Sheep and Lambs—Receipts, 6,139; both sheep and lambs firm; sheep sold at $3 to $4 50 per 100 lbs; a few at $5; lambs, $5 50 to $6 80; dressed mutton, 6c to 8½c per lb; dressed lambs, 8c to 12c.

Hogs—Receipts, 1,975.

DETROIT BEAN MARKET.

Detroit, July 23.—The demand for beans is increasing, and all deals advanced yesterday, making the close strong. Quotations: Cash and July, $1 85 bid; Sept., $1 85; Oct., 5 cars at $1 80; Nov., $1 75; prime spot, $1 75.

Double Execution.

Greenville, Mass., July 23. — With curses on his lips and the expressed wish that the people perish in the fires of hell, Ashley Coke died here yesterday. With him, but silently, Tom Lauderdale, also met his end. Both were convicted of the murder of Engineer Wray, and were hanged from the same gallows by the swing of a double trap. Coke died boasting that he would be in hell in a few minutes. He said that those who had planned his murder would meet their end, and that $11,000 had been deposited in the bank, $1,000 of which would be paid for the death of each of the eleven men who prosecuted him. The execution was witnessed by 6,000 people.

A SPECTACLE UNPARALLELED

Unity and Loyalty of the British Empire.

SPEECH BY PREMIER LAURIER

At the Dinner of the Constitutional Club in Old London—A Galaxy of Free Nations.

London, July 23.—The Times gives the following account of the dinner at the Constitutional Club, at which Sir Wilfrid Laurier was the chief speaker.

A complimentary dinner was given last night by the Constitutional Club to imperial guests from the colonies.

The Duke of Marlborough presided, and among those present were Lord Waldegrave, Sir W. Laurier, Sir W. MacGregor, the Hon. A. Peters, the Hon. G. W. Ross, the Hon. W. Mulock, Sir John Forrest, Mr. John Howard, Sir Walter Peace, the Hon. H. Copeland, the Hon. W. P. Reeves, and many others.

LOYAL COLONISTS.

Sir Wilfrid Laurier, who was received with loud cheers, after acknowledging the welcome accorded to the guests, said: The guests who are here assembled at this board have come from all over the globe; and in coming here their object was first and last to testify to the loyalty of his majesty's possessions beyond the sea to the person of his Majesty the King and to British institutions. Five years ago it was the privilege of many of those assembled at this board from beyond the sea to visit England in order to take their share in the celebration of the jubilee year of a sovereign whose life was the pride of her subjects and the honor of mankind. (Cheers.)

On both occasions the opportunity was seized to discuss problems and questions which affect the welfare, not only of the colonies, but of the motherland as well. (Cheers.) Scoffers there may be, not, I hope, within the bounds of the British Empire; skeptics there may be, perhaps, within the bounds of this empire; but the most confirmed skeptic must admit that the spectacle of the representatives of so many races and nations coming at short intervals to testify to and attest the unity of the British Empire, the loyalty of all to its dynasty, and to treat grave and important questions is a spectacle of singular grandeur. (Cheers.)

You may search the annals of history, so far as the human eye can plunge into them, and you shall not find a parallel to the spectacle of which we are today the witnesses. The empire of Rome in the heyday of her splendid power never reached that level of moral altitude. And the reason is obvious. The Empire of Rome was composed of slave states, the British Empire is

A GALAXY OF FREE NATIONS.

(Loud cheers.) In order to find any parallel, if, indeed, you can find any parallel, or even, as I should better say, to find anything approaching to it, or even suggesting it, you must go to that remote period when the Hellenic nations were accustomed to assemble periodically at certain sacred places. And even here what a difference!

The civilization of the world at that time was centered and had its highest exposition and expression in the Hellenic Civilization. The civilization of the British Empire encircles the whole surface of the globe. Again, among the Greeks, none were admitted except those who were of pure Hellenic stock, for those proud and exclusive people indiscriminately conferred the term of barbarians on all those who were not of their kith and kin.

BOND OF BRITISH EMPIRE.

The bond of the British Empire, let me tell you this, my fellow countrymen (loud cheers), and accept it from a man not of your own race, the bond of union of the British Empire is not the race; it is allegiance to the King without distinction of race or color. (Cheers.) Again, with these ancient assemblies the motive, the inspiration was purely aesthetic. The object was sports, art and letters, and it was in accordance with the genius of race which, though to some extent commercial and, in a high degree, politic, was the most aesthetic of all the races the world has ever seen. But, in the British Empire, whose characteristic is strong commonsense, the first object is to assert the authority of all, to provide that there shall be no revolution in the British Empire.

The first thought is for loyalty. The second is gravely to sit down and discuss and debate the problems which affect us all. And, if I gather well the expression in the mind of all those whom I see assembled before me, the thought uppermost is—What is to be done? Shall the British Empire be maintained upon the lines on which it was created, or shall new departures be taken? Perhaps there are some; perhaps there are many, who believe that the British Empire must be maintained by war measures. For my part I believe that it can be well

DEFENDED BY THE ARTS OF PEACE.

You are the one nation in Europe which never would be carried away by militarism. You are the one nation in Europe which, whilst other nations were bled white to create and maintain armies resolved that no standing army should be created by the British Parliament. You are the one nation in Europe which has founded an Empire by the arts of peace far more than by the arts of war. Napoleon once called you a nation of shopkeepers in a fit of temper, or, perhaps in a moment of irritability. But the Colossus was brought down chiefly by that nation called shopkeepers. He surrendered to that nation, and admitted that she had been the most powerful, the most competent, and the most generous of his enemies. My conviction is great that what it has gained the British Empire shall keep; and it is not so much by war as by cultivating arts in which England has an undoubted supremacy that it shall be maintained. I am a believer in those old doctrines that have made England great, and it is a firm conviction of my heart that if persisted in they will make her still greater. (Loud cheers.)

Constable Shot Constable.

Wilkesbarre, Pa., July 22.—James Thompson, a deputy at the Lehigh and Wilkesbarre Coal Company's Sugar Notch colliery, was accidentally shot and killed today by William Jones, also a deputy. Jones was trying to take a cartridge out of his gun when the weapon was accidentally discharged. Thompson was on a bridge forty yards away, and the bullet struck him near the heart. He died in a few minutes.

CHOLERA REIGNS IN MANCHURIA

Over 700 Cases Between July 3th and 14th.

CLERICAL TROUBLE IN PARIS

Three Hundred Persons Arrested and Many Prosecutions Pending—Much Agitation.

St. Petersburg, July 23.—It is officially announced that cholera is raging in Mukden, Manchuria. There were 757 cases between July 3 and July 14, and 81 Russians and 363 Chinese died from the disease.

PARIS IS UNEASY.

Paris, July 23.—There is every prospect of fresh disturbances today, as a sequel of yesterday's clerical outbreaks, as protests against the government's enforcement of the law against unauthorized congregations. It now appears that three hundred persons were arrested and numerous prosecutions are pending, though the majority of the prisoners were released. Fresh meetings to protest in favor of the religious orders are expected to be held today, while the Radical and Socialist papers are urging the Republicans to meet at the pantheon as a counter demonstration.

MACKAY'S SUCCESSOR.

London, July 23.—George Ward, the vice-president and general manager of the Commercial Cable Company, was asked today by a representative of the Associated Press what effect the death of John W. Mackay would have on the business of the company. He replied:

"I do not know who will succeed Mr. Mackay as president. That is entirely in the hands of the board of directors. You can say, however, that there will be no change of policy. The progress of the company and particularly Mr. Mackay's plans will be faithfully carried out. The contracts for the Pacific cable have been let and the enterprise will proceed precisely as though Mr. Mackay's death had not occurred."

THE DEAD CARDINAL.

Rome, July 23.—The remains of Cardinal Ledochowski, who died here yesterday, lay in state this morning in the Chapelle Ardente of the Palace of the Propaganda, where they were subsequently visited by all the members of the Sacred College. The close friends of the deceased and his secretaries, Father Veccia and Salewski, insisted on personally performing the last offices and arranged the body for burial.

The Chapelle Ardente is now open to the public. The Piazza Di Spagna, where the Palace of the Propaganda stands, is crowded with people, including many American pilgrims, eager to obtain admission. Letters and telegrams of regret are pouring in from all quarters. The grief of Poland (Cardinal Ledochowski's native country) amounts to almost a national demonstration, the dead cardinal having been persona non grata to Russia and Germany on account of his advocacy of Polish independence.

WESTERN ONTARIO.

Mr. W. D. Griggs, retiring G. T. R. station agent at Woodstock, was presented with a purse of gold, together with a complimentary address, by the business men of the town on Friday night.

Two electric lines are projected from Windsor to Leamington, and there is a big fight on between the rival companies over which it will secure the necessary franchise at the terminal points and throughout the several intervening towns.

A petition has been filed for the incorporation of a new oil company, to be known as "The Talbot Oil and Gas Company, Limited." The capital of the new company is to be $40,000, divided into $1 shares. The provisional directors in the petition are Benjamin F. Honsinger, Edgar A. Smith, John R. Green and James T. Utter, of St. Thomas; William Hollingshead and Colin St. Clair Leitch, of Dutton, and Hugh McMahon, bank manager, of Aylmer. The company own extensive leases near Dutton in the oil territory, and operations will be commenced at once.

Peter A. Craig, of Windsor, 61 years of age, died on Sunday morning at his home of a disorder of the stomach from which he had been suffering for five years. Mr. Craig was born in Hull, England, and came to Canada in early life. He settled in Windsor in 1864, where he was for some years connected with the Grand Trunk Railway. In 1872 he opened the carriage works on Pitt and McDougall streets, which he successfully conducted up to the time of his death. The deceased was one of Windsor's prominent citizens, having served on the board of public school trustees. He was also a prominent Mason, an organization in which he was active for over 30 years. He was a past colonel preceptor of the Windsor Preceptory, a past master of the Great Western Lodge, No. 47, and a past principal of the Ark Chapter. He was also a Knight Templar. He is survived by a widow and three children—Mrs. A. J. Penin, of Windsor; Ernest D., of the Windsor Record, and a member of the second Canadian South African contingent, and Alexander J., who will continue his father's business.

Archbishop Machray lies dangerously ill in a private hospital, and small hopes of his recovery are entertained.

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to take

Hood's Sarsaparilla and Pills

Which thoroughly cleanse the blood, expelling all humors and building up the whole system. They cure.

"I was greatly troubled with small boils, caused by working among the oil at the refinery. Hood's Sarsaparilla was recommended to me as the best blood medicine obtainable. I began taking it, and though many other remedies had failed to benefit me, three bottles of Hood's fully and permanently cured me." ANGUS FISHER, Emeric St., Sarnia, Ont.

Hood's Sarsaparilla promises to cure and keeps the promise.

JOTTINGS FROM NEARBY PLACES

FERNHILL.

Fernhill, July 22.—A pretty birthday party was given Misses Lena and Sina Treherne at their home, Spruce Bluff, East Williams, on Wednesday evening, July 4, it being their nineteenth birthday. Some twenty of their many friends were present, and spent a most enjoyable evening, joining in the many parlor games, interspersed with vocal and instrumental music. At 12:30 a dainty luncheon was served in the upper drawing-room, which was tastily decorated with evergreens, ferns and flowers. In the center of the room was the twins' table with a three-story birthday cake, surrounded by marsh decorations and illuminated by colored waxen candles. The toast to the twins was proposed by Mr. Ross Marsh, of London, and heartily responded to by Mr. Duncan E. Carmichael, Sandon, B. C.; also the toast to our King met with hearty responses. The many pretty gifts showed that their friends wished to be remembered beyond their teens. At a seasonable hour the party dispersed, wishing them success, and that their future lives would be as prosperous and happy as their present is full of promise.

LAMBETH.

Lambeth, July 21.—The funeral of the late Mrs. Sampson took place on Sunday about 4:30 p.m. After a short service in the Methodist Church the body was interred at Lambeth Cemetery.

Miss Mabel Andrews, of Talbot street, London, is spending her holidays at Dr. G. A. Routledge's, M. P. P.

Miss Minnie Hall, of Toronto, and Miss Ettie and Master Charlie Ansty, of Hamilton, are visiting their uncle, Mr. J. Routledge.

Miss Dorothy Lennox, of Detroit, Miss Mabel MacRobert and Florence and Master Harry Coles, of London, are holidaying in the village.

EXTERNALLY OR INTERNALLY, IT IS GOOD.—When applied externally by brisk rubbing, Dr. Thomas' Eclectric Oil opens the pores and penetrates the tissue as few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally it will still the irritation in the throat, which induces coughing, and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Police on Wheels.

Montreal, July 22.—Chief Detective Carpenter has organized a bicycle squad in his department. Six or eight of the acting detectives will be employed in patroling the city on wheels during the night, and will report themselves at short intervals at the different stations, so as to be constantly in touch with headquarters during the night.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Dr. Chase's Ointment

A CAREFULLY-PREPARED PILL.—Much time and attention were expended in the experimenting with the ingredients that enter into the composition of Parmelee's Vegetable Pills before they were brought to the state in which they were first offered to the public. Whatever other pills may be, Parmelee's Vegetable Pills are the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

If you take a Laxa-Liver Pill at night, it will work while you sleep without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headache. x

FORECASTS.

Today—Light to moderate southwesterly and southerly winds; fair and warm, with thunderstorms in some localities.

Thursday—Light winds; fair and warm.

WEATHER NOTES.

Fine weather now prevails in nearly all parts of the Dominion, and the outlook seems quite favorable for fairly settled weather, with a tendency towards higher temperatures. Temperatures of nearly 90° were recorded yesterday in Manitoba and the more eastern portions of the Territories.

Local temperatures: Tuesday—Highest, 78°; lowest 58°.

TALES OF LONDON TOWN

—Miss Nellie Kearney and Miss Mary Marshall, of this city, have returned from visiting their friends in St. Catharines.

—The Adelaide Street Baptist Sunday school has its picnic tomorrow at Springbank. A big crowd and a merry time is anticipated.

—Mr. Arthur Hawes, Mr. Wm. Wells and the Misses Mary and Rachel Wells, of Belton, have returned home, after a week's visit with Miss McLaren, of Palace street.

CANADIAN ARCH WILL REMAIN

Over-Zealous Police Will Not Secure Its Removal—A Society Wedding.

London, July 23.—Over-zealous police officials will not succeed in securing the remova of the Canadian arch from Whitehall as a public nuisance. The coronation committee of the city of Westminster, while prevented by the King's wishes from renewing the civic decorations along the short route of the procession, has authorized Canadian Commissioner Preston to redecorate the arch and illuminate it on coronation night. Otherwise there will be no public scheme of decoration for the streets.

"SOCIETY" WEDDINGS.

There was a fashionable gathering at St. George's Church today to witness the marriage of Major Charles Hall, of the Oxfordshire Light Infantry to Mrs. C. Albet Stevens, widow of C. Albert Stevens, of New York. Joseph H. Choate, the United States ambassador, gave away the bride.

Mrs. Charles Albert Stevens was Miss May Brady, daughter of the late Judge John R. Brady. She was married Uovember 15, 1888, to Charles Albert Stevens, the millionaire son of Edwin Stevens, of Castle Point, Hoboken. C. A. Stevens died of pneumonia in New York, March 29, 1901.

MANAGER OF NEW GRAND

It Is Understood That James Cowan, of Toronto, Will Be New Man.

It is understood that the new manager of the New Grand Opera House is to be Mr. James Cowan, of Toronto. Mr. Cowan has been press agent for Mr. A. J. Small's Toronto houses for some years, and has an excellent knowledge of the work, which would be required of him here.

MORE THAN SKIN DEEP

Rubbing on Liniments and Oils Will Never Cure Sick Kidneys.

Lower Windsor, N. B., July 21.—Our local postmaster, Mr. T. H. Belyea, recites a very interesting account of his experiences with Dodd's Kidney Pills as a cure for Kidney Trouble.

Mr. Belyea had been sick for years. At times he would have very bad spells which were so severe that he was almost laid up.

Plasters, oils and liniments on the outside and doses of all kinds taken internally, seemed to have no good result. Several doctors tried to cure him, but failed. He says:

"Dodd's Kidney Pills have given me more benefit than all the other medicines and treatments I have ever used. They have completely cured me, and I feel as well as ever I did. I believe that Dodd's Kidney Pills are the best medicine in the world for Kidney Trouble."

WOULD ESTABLISH A ZOO AT THE RIVERSIDE PARK

Ald. McMechan and Others Favor the Idea—Col. Leys' Deer Would Form Basis.

A zoo for London! Why not? There are few public resorts in Canada better adapted to such a purpose than Springbank Park. The subject was suggested by Col. Leys' generous offer to present the water commissioners with several domesticated deer for the park.

"I think the water commissioners made a mistake when they declined Col. Leys' offer," said Ald. McMechan this morning. "I presume their action had its origin in the necessity for practicing economy, but in this instance the cost should not stand in the way."

Ald. McMechan pointed out that the cost of keeping the deer in a wire inclosure would be very slight, and that they would form the basis of what might become a very valuable zoo. The engineer of the waterworks is heartily in favor of the idea.

It is the opinion of many citizens that Springbank Park could be provided with no more interesting and useful attraction than a zoo. With the rapid depopulation of the forests and streams of Canada there has arisen a growing necessity for the preservation of the different species in the public parks. There can be no more instructive lesson for children than that afforded by the opportunity to visit a zoo. Animals are never the real creatures in picture books that they are in the park. Deer, by reason of their gentle and affectionate dispositions, are more especially favorites of the children, and a herd of these beautiful animals at Springbank would prove a never-ending source of pleasure to the little ones.

The Advertiser spoke to a number of citizens about the project this morning and all favored acquiring Col. Leys' herd. Several pointed out that if a herd were once put at Springbank citizens would take on interest in increasing its size or of adding other animals to the collection.

Acting Mayor Winnett said that he was very much in favor of securing the deer. "I do not know if it would be better to have them at Springbank or at Queen's Park," he said. "If they were put at Queen's Park they would have shelter for the winter and if more animals were added, it would form a very good attraction at Fair time. Of course deer need very little shelter in the winter."

Mr. Winnett spoke of the herd forming the nucleus for a zoo and said that a zoo would be a good addition to the city's institutions. He thought that if one were once started it would not be long before it would grow to a very creditable size.

Another citizens when speaking of the matter, said that in his opinion Springbank is the proper place in which to start a zoo. "There's no better place on the whole continent," he declared, "unless one has seen the parks in other cities where they have a zoo, it is impossible to realize what a fine place we have at Springbank. Where could you get better stretches than down there? There are a score of places that would be ideal spots for a zoo. The expanses are large, and afford plenty of room for the animals. They would thrive there."

Inspector Carson was enthusiastically in favor of the scheme. "Grown people would take delight in it," he said, "but the ones who would take most pleasure in a zoo, however small, would be the school children. Our little ones do not see enough animals," he said, "and they are intensely interested in them. Watch them on the streets when a circus procession is passing along and you will see how eager they are to see all the animals. You will see that they are pretty ignorant about them, too. Yes, I think that it would be a very good thing to secure these deer, if it would mean the beginning of a zoo."

ROADWAY IS DANGEROUS

Not the Block on Dundas Street Where the Foolish Signs Are

But Another Place Left in Bad Shape By Street Railway Company.

The city engineer is thoroughly disgusted with the way that the street railway company has left the Wortley road at the G. T. R. overhead bridge. When Manager Carr was before the council at a meeting held a few weeks ago, he promised, in reply to protests made by Ald. Gerry, that he would have the roadway there left in proper condition. It was cut down further than the aldermen intended that it should, with the result that the sidewalk is some feet higher than the road. During the late heavy rains, the earth has washed from beneath the sidewalk leaving it hanging like a ledge above the roadway. The company has left a pipe standing a foot or more out of the road on the part reserved for rigs, so that altogether the spot is probably the most dangerous in the city.

McARTHUR HEARING BEGUN

John Charles Again Tells Story of the Attack.

Crown Objects to Taking of Evidence in Shorthand.

The preliminary examination of John McArthur, on the charge of murdering Gus Ninham, an Oneida Indian, on the night of June 21, was opened at the court house this morning before Squire J. B. Smyth. The prisoner was represented by Mr. J. F. Faulds, and the Crown by Mr. James Magee, K. C., county crown attorney. There was a considerable attendance of spectators.

Before the opening of the examination, Mr. Faulds asked to have the evidence taken down by a stenographic reporter, as was done in the Sifton preliminary examination. He offered, on behalf of the defense, to bear all the expenses of the reporting and to supply the crown with a copy of the evidence. Mr. Magee objected to this being done and Magistrate Smyth sustained Mr. Magee. The evidence is, therefore, being taken down in longhand by Squire Smyth. Mr. W. C. Coo is taking down the evidence on behalf of the defense, but this, of course, will not be accepted as official. Mr. Faulds entered a vigorous protest against the crown's refusal to have the evidence taken in shorthand, characterizing it as one of the most unfair things he had ever witnessed in a Canadian court of law.

The only witness heard this morning was John Charles, the Indian who was Ninham's companion on the night of the latter's death. He told practically the same story as he related at the inquest, describing the movements of himself and his comrade from the time they left Springbank till he ran away from the scene where Ninham was being knocked down and kicked by the big red-haired man whom Charles declared to be McArthur. In the course of his evidence he explicitly described the position of Ninham's body when the attack on him was taking place.

He said that Ninham's head lay to the north, with the body lying partly on its right side. The big man who was kicking him stood on the east side of Ninham, and never went to the west side of him. As the broken ribs found by the doctors at the postmortem examination were all on the right side, Charles' evidence is far from explaining how Ninham received these injuries.

An adjournment for lunch was made at the conclusion of Charles' examination in chief. Mr. Faulds cross-examined on the resuming of court at 2 p.m.

Twitching of the Nerves

Restlessness, Sleeplessness and Failing Strength the Symptoms That Tell You of Approaching Nervous Collapse.

Dr. Chase's Nerve Food

Nervous diseases usually come on slowly and insidiously, but are frequently not recognized until far advanced and serious. If you are easily irritated, find yourself worrying and feel out of sorts it is time to begin the use of a restorative. You can profit by the experience related in the following letter:

Mrs. Drinkwater, 5 Water street, Galt, Ont., states:—"My great trouble has been with my nerves. I was very nervous, had twitching of the nerves and could not get to sleep at night. I seemed quite worn out, and believing that I needed some medicine began to use Dr. Chase's Nerve Food. I can truthfully say that this preparation has proven suprisingly beneficial to me. It has strengthened and steadied my nerves, made me rest and sleep well and in fact built up the system generally."

Dr. Chase's Nerve Food, 50 cents a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

LONDON SCHOOLS' BRIGHT PUPILS

Names and Standing of Successful Candidates.

AT ENTRANCE EXAMINATIONS

Edna Maybank, of Princess Avenu School, Wins Robb and MacRobert Gold Medals.

The results of the recent entrance examinations have been handed out by Inspector Carson, and the names of the successful candidates are given below. This year there were 336 candidates, of whom 306 passed. Of the successful candidates, 149 were boys, with 10 failures, and 157 were girls, with 20 failures. Last year 15 boys and 30 girls failed to pass their examination. Of these 7 boys and 18 girls wrote again this year, with the result that all but one of the boys and two of the girls passed. London's percentage of successful candidates, about 91 per cent., compares more than favorably with Toronto's, which is below 65 per cent.

Miss Edna Maybank, of Princess avenue school, won both the Robb gold medal and the MacRobert gold medal, she having 963 marks, the highest number scored. The Robb medal is given to the pupil making the highest number of marks in the whole city, while the MacRobert medal goes to the pupil making the highest total in Ward 4. Fred Campbell, of Simcoe street school, won the Robb medal last year with 954 marks. The winners of the Boyle Memorial medals have not yet been determined.

The unsuccessful candidates may see their marks by calling at Secretary McElheran's office in the city hall. The successful pupils and their marks follow:

MRS. LATIMER'S LOVE

I will not detail the horrors that were inflicted on him; do what they would, it was impossible to make him wince. His physique seemed to be bronze, like his skin; and still he preserved the same calm, courteous expression of countenance throughout. Even his tormentors were forced to acknowledge that his was a scalp that would grace the boldest warrior's belt. At last they paused, wearied with their fiendish exertions; and then the young brave spoke. His deep, guttural tone were steady and measured, though low from exhaustion.

"The sun is yet high," said he. "Are you wearied already, that you will leave the Leaping Deer-Wolf to go to sleep?"

They were his last words; in a short half-hour his scalp hung at the girdle of Steep-Rock, who took him; and the Leaping Deer-Wolf was well on his way to the happy hunting-grounds where the grass never withers and the water never fails, and the buffalo feed in countless thousands over the dreamy prairies of the spirit-land.

So the highest pitch of refinement, though its tendency must unquestionably be to render the nervous system extremely susceptible, provides at the same time a check upon its sensibilities, in the self-command which it exacts from its disciples. Total impassability is the chief qualification for the charmed circle. Are you pleased? you must by no means exult and clap your hands. Are you disgusted? you shall stamp not, neither shall you swear. A loud laugh is a solecism only second in enormity to a wet cheek. To be seen with the latter, it is needless to observe, would condemn the sufferer at once. If you would be respected, you must never subject yourself to pity; if you would have influence, you must never seek for sympathy.

Lady Gertrude bore up bravely enough through a wearisome round of morning visits, preferring to undergo the platitudes of Lady Olivia and her dowager friends, rather than endure her own society any more in the open carriage. She was absent, no doubt, and answered somewhat at random, not listening very attentively to the conversation; nor can I affirm that she was any great loser thereby, inasmuch as it consisted chiefly of remarks concerning the weather, the medical man who was first favorite for the time, and the crush last night at Lady Pleid's, all delivered in admonitory and by no means approving spirit. It was a great relief to get home to the canary and the armchair in the boudoir upstairs.

"I'll ring when I want you," said Lady Gertrude to her officious maid, bustling in with the indispensable cup of tea; and then she locked the door and put off the heavy armor she had worn so bravely for hours, and laid it by for a season, not to be resumed till the melee tonight, and bathed her wounds, so to speak, encouraging them to bleed freely now that the pressure was withdrawn.

She was not longer the frigid fashionable young lady, with cold eyes and a haughty smile, regardless of all alike; but the helpless, yielding woman, burying her face in her white hands, and weeping as if her heart would break.

It did her good, though. She learned more about Lady Gertrude in one of those paroxysms of sorrow than she had known in all her life before. The frost must break up with storms and rain, and the floods burst wildly down, carrying before them many a tangled fence and artificial embankment, ere the saturated soil can teem with life and hopes, ere the violet can peep out, and the meadow don her grass-green kirtle, and soft-eyed Spring smile welcome upon earth once more.

CHAPTER XIX.

We left Gilbert in a most uncomfortable frame of mind, grieved and bitter, and angry above all with the person he best loved. It is, perhaps, the mood in which we are least disposed to take a rational or even a sane view of our position. A man who thinks himself ill-used is invariably selfish; he cannot take interest in any subject but his grievance; and if it should be one on which good taste forbids him to enlarge, he relapses into a state of sudden dejection, and justifies himself for being ill-tempered by assuming that he is bored. Ladies in a parallel attack enjoy the privilege of pleading ill-health; what out neighbors call "migraine" is an invaluable refuge, and "the nerves" are today an excellent substitute for what our grandmothers denominated "the spleen." But with the rougher sex such excuses are simply absurd; a fellow cannot ask you to believe he is nervous, with the appetite of an Eskimo and the color of a plowman; while the plea of a headache, unless it be a convivial one, you laugh ruthlessly to scorn. There are two courses for him to pursue—either to sulk by himself until he gets better, or to rush into every description of amusement and dissipation till he forgets his own annoyances and his own identity. Another and the only effectual remedy—namely, to busy himself in fulfilling his duties and doing good—is so rarely adopted, that I think it unnecessary to recommend it, although certain sufferers who have honestly tried it vouch most implicitly for its efficacy. The fashionable cure, however, would seem to be continual change of scene, and a course of what is humorously called "gayety."

It was simply because he did not know what on earth to do, that Gilbert found himself in the back of Mrs. Montpellier's box at the opera, endeavoring to adapt his manners and conversation to the locality. Hurt he was, and sore, to think that he should have been duped by his own infatuation; that he should have flung himself so recklessly away without an equivalent. His pride was lowered; even his vanity was wounded; above all, his trust in his own better feelings was shaken; and herein he showed the nice judgment and close reasoning of a man in love. It was just a fortnight since he had seen Ada, a woman with whom it was his dearest wish to spend an eternity, and that one fortnight seemed to have made an irremediable breach between them. Moreover, were he so determined, there was no absolute impossibility to prevent their meeting tomorrow or the next day, or some time within the week; but no—he preferred to torture himself by imagining barriers which did not exist, and a thousand improbabilities as unjust to her as they were derogatory to him.

Therefore he exerted himself to appear gayer and better in spirits than usual in the eyes of Mrs. Montpellier, and those glittering orbs saw through him at a glance; while their owner resolved, woman-like, to have his secret ere he was many hours older; also, woman-like, we must in justice add, to assist him by all means in her power, and stand by him through thick and thin. So she made him sit in the chair close behind her, leaving the place of honor opposite for such comers and goers as she had no wish to detain, and began to feel her way insidiously, as they do, with innocent questions.

"Off duty tonight, Mr. Orme? Your mother's box, I see, is empty, and no Lady Gertrude."

A movement of impatience betrayed him.

"I haven't seen Gertrude for a week," he answered; "I should have dined with them on Sunday if I had not been engaged to you. You see, you make me forget all my duties." He laughed as he spoke, and began to scan the house through his glasses.

"And very absent and disagreeable you were," said she, crossing her two pretty forefingers as she laid them on the cushion. "Do you know, I think you have an atrociously bad temper, Mr. Orme, or else you're very unhappy about something or somebody. Come, I'm an old friend; what is it?"

He smiled somewhat bitterly. He was thinking how kind everybody else was to him, how they courted his society, and appreciated whatever good qualities he might have; why should one so neglect and despise him? He came to the front of the box, and leaned his elbows on it, still scanning the house with an abstracted, vacant gaze; and one sitting far back in an upper tier was devouring every feature of his face the while, through a pair of bad glasses that tinged everything with a pink hue, and was impressing, as it were, his picture on her brain, for she was resolved never, never to see him again; at least, not till he was fairly married to his cousin, and she could look back calmly and even laugh at the impossible fancies of which she had allowed herself to be the dupe. So, in the meantime, it was doubtless judicious to give way to the influence of the hour, the scene, the light, above all, the music; to watch every turn of the dear face and the noble head; to lose herself in an enraptured dream of what might have been had black been white, and everything changed, and the whole social fabric overturned for her especial bliss.

Weary Brainworkers

Fagged out, ideas come as slowly as molasses. You think of things just a minute or two too late. Snap's gone! The buoyancy that made work a pleasure—that's gone, too. The doctor would tell you that you are run down, not eating enough nor digesting enough. Your stomach needs aid, your digestion needs a bracer, too. Your blood requires Phosphorus and Iron that it may be formed readily. Now Ferrozone is a wonderful nerve bracer and blood maker. It's food for the blood and nerves; it will make you strong quickly and permanently. Sold by W. T. Strong & Co.

SEVENTH ANNUAL TOURNEY OF THE W. O. B. ASSOCIATION

Event Is in Progress on Rowing Club's Green.

Weather Ideal and Entries Unusually Numerous.

London Rinks Did Well in Preliminaries and First Round of Trophy Match.

THE SEVENTH annual tournament of the Western Ontario Bowling Association was opened at 2 p.m. yesterday on the beautiful lawns of the London Bowling Club, under especially favorable auspices. Perfect weather, a record list of entries, the largest attendance since the inception of the tournament, superb greens, all combined to make the bowlers as happy as mortal man could wish. The depressing rains of the preceding days had given way to genial sunshine and a clear sky, and it seemed as though old Nature had repented her former frowning aspect and had put herself about to redeem herself with the brightness of her smile.

Under the careful supervision of Curator Sparrowhawk, the grass has been cut and rolled and cut and cut and rolled and rolled and cut again, until by comparison the traditional velvet with which it has been compared was as rough as the cedar block pavement on Dundas street. The result was a stretch of grass whose equal could not be found in Western Ontario, affording space for sixteen greens.

The grounds presented a bright and beautiful scene during the afternoon. Thirty-two rinks, or 128 players, were seen busily occupied in their play. The rinks were surrounded by a large number of spectators, many of them members of the fairer sex, while others occupied the commodious balconies which are a welcome addition to the cosy clubhouse.

The present tournament is not only the most representative one yet held in this city, but it is also the most representative one held in Ontario today. At the recent meeting of bowlers at Toronto, 64 rinks were present, but they represented only about half a dozen towns. Eighteen different cities or towns are represented by rinks at the present tournament, while many individual bowlers are expected to come from these and other places for the singles and the doubles. Forty-three rinks entered the trophy match, which is eleven in excess of last year's entries, and seven in advance of the highest number of entries since the establishing of the tournament.

The condition of the greens is shown by the excellent scores made. In half a dozen cases the winning rinks had a margin of only one point over the losers, and in others only two points of a lead. In more than one case, an extra end had to be played to break a tie.

With favorable weather the tournament cannot fail to be an unequivocal success.

The results of yesterday's bowling, in which the preliminary and first round of the trophy match were decided, are given below:

THE TURF.

THE GRAND CIRCUIT.

Cleveland, July 23. — The Grand Circuit races opened here a day late because of the downpour of Monday. The $3,000 stake for 2:09 pacers was the banner event, and was decided only after an eight-heat contest, making it the longest race that has been held this season. Fred S. Wedgewood was the opening favorite and continued so until after the fourth heat had been paced. Here Dan R., who had always been well played, showed herself, but dropped back the next two heats to others. At the beginning of the seventh heat the Wedgewood horse was back favorite, but Dan R. did the lasting and led the way in the pace of succeeding trips around the track. All bets made on the race were small ones, no card amounting to over $400. Pronounced favorites won each of the other three races in straight heats, and at no time was there much danger of either of the three being beaten out. In the first race betting Major Delmar opened as a 5 to 4 favorite over the entire field. Directum Spier, a 4-year-old, was always 5 to 2. Geers' Dandy Chimes was a 2 to 1 choice. He caused a mild sensation in the second heat by breaking in rounding the first turn and falling back five lengths behind the leaders. Then Geers pulled him down and was ahead again before the turn was reached. The track was spongy, and at least two seconds slow all the afternoon, and no record-breaking time was hung out. Eight thousand spectators were on hand, a larger crowd than has ever gathered at a Cleveland opening day. Summary:

The Fad

Of the modern woman is health by exercise. It's an excellent fad, provided that it is always remembered that exercise cannot cure womanly diseases. Indeed, where such diseases exist exercise is apt to aggravate the condition rather than to help it.

The first step toward establishing the general health is to establish the local womanly health. Dr. Pierce's Favorite Prescription cures womanly diseases which undermine the general health. It establishes regularity, dries enfeebling drains, heals inflammation and ulceration and cures female weakness. When these are cured, backache, headache and nervousness are things of the past. The universal testimony of weak and sickly women, cured by "Favorite Prescription," is this: "It has made me feel like a new woman."

"My wife has used three bottles of Dr. Pierce's medicine, and I never saw such results," writes A. B. Haynes, Esq., of Aurora, Lawrence Co., Mo. "It was wonderful in its work. We had used lots of medicine, also had one of the best physicians in Aurora, but my wife got no better; we heard one pitiful groan after another, day and night. A friend handed me a copy of Dr. Pierce's book, the Common Sense Medical Adviser, and after reading the testimonials of Dr. Pierce's successful treatment, and seeing that the cases described were similar to my wife's, I bought for her a bottle of Dr Pierce's Favorite Prescription. Before she had taken all of the medicine she was up and helping to do the work. She has taken three bottles and is now about well. Has better health than she has had for years."

Dr. Pierce's Pleasant Pellets cure constipation.

A PICTURESQUE figure on the green is Jail Governor Moore, of St. Thomas, with his sturdy, stalky figure, his dark face with its white moustache, and his long grey hair blowing in the breeze. "What he doesn't know about bowling isn't worth knowing," said a London member of the association. Governor Moore is the father of bowling in St. Thomas. Although he took up the sport comparatively late in life, he is recognized as one of the leading bowlers of the west. He learned the game in 1896, and interested other St. Thomas men in it. Their initial efforts were handicapped by poor grounds, but Governor Moore later had first-class greens laid out at his own residence, and that gave the sport a decided impetus. At one time the St. Thomas Club had 110 members, but gold took some of them away. The present membership is over 70, and the indications are that this number will be largely increased next year. Governor Moore is of the opinion that bowling is the squarest game that is, and that it is a better promoter of goodfellowship than any game he knows of, and he knows a good many. "I played cricket for 20 years," he says, "and I've played lacrosse and football and baseball, and all the rest, but I like bowling best of all." The Governor's bowling acquaintances testify to the good effects of bowling on him, for they say it has made him so hospitable that he frequently invites them to come to St. Thomas and stay for a time at the large hotel which he manages—for the county. They seldom trespass on his hospitality, however.

Governor Moore, in addition to blushingly acknowledging the paternity of the St. Thomas Club, points with pride to his foster child, the Aylmer Club, a lusty 2-year-old, which is represented at the tournament by three good rinks. Governor Moore organized this club last year, and as many of its members devote considerable time to practice, it should be heard from in the bowling world.

Mr. Thos. Alexander's London rink is known as "the Inland Revenue rink," as all of its members hail from the big stone building on Richmond street, where the things that are Caesar's are rendered unto Caesar, or, in other words, where King Edward's loyal subjects in London pay him the moneys which he needs to carry on his government in Canada. Mr. Alexander, the skip, is collector for London division, and is known as a careful and capable official. Mr. W. A. Thrasher, deputy collector at London, is a newcomer in the club, he having been engaged in the legal profession in Chatham until his appointment at London. He is an enthusiastic devotee of bowling and its sister sport, curling. Mr. James Davis is a well-liked excise officer. Mr. W. J. Hayward, the fourth member of the quartet, is inspector of weights and measures. His fellow-bowlers profess to establish a certain connection between his calling and his physical proportions, saying that a weighty man should be an authority on weights. Mr. Hayward does not let his generous proportions interfere in the least with either his proficiency or his enjoyment in the noble sport of bowling. The "Inland Revenue rink" was defeated yesterday but it promises to give a better account of itself in succeeding matches.

Wm. O. Reid, of Seaforth, shared with Mr. Hayward the distinction of being one of the association's heavyweights. He does not confine himself to bowling, but is a patron of all manly sports, "and a good sport himself," said an admiring fellow-member. When not bowling or otherwise improving his time, Mr. Reid engages in the hardware business, which may account for the fact that he is as hard as nails.

"Dick" Thomson, the popular skip of the Paris rink, took a prominent part in the rescuing of Joshua Sanford, "the man in the well," from his living tomb on the Skelly farm, two miles east of Paris. Mr. Thomson is superintendent of the big mills' owned by Mr. John Penman, who is the executor of the estate which owns the Skelly farm. Mr. Thomson took charge of the rescue work, and directed it from the first, and its successful outcome was largely due to his energy and foresight. He was at the well continuously for four days and nights, only relaxing his efforts when Sanford was safe. Mr. Thomson's rink went down to defeat yesterday before that of Mr. D. W. Karn, the well-known organ manufacturer of Woodstock, who is one of the veterans of bowling in Western Ontario. Mr. Karn's rink, however, was defeated later by a rink of "colts," skipped by Mr. J. D. Tytler, of London.

Among the veterans who have been attending the W. O. B. A. tournament as far back as the association bowling history goes—which is seven years—are ex-President R. L. Gosnell, of Blenheim; Vice-President W. Jackson, of Clinton; Hon. President D. W. Kearn, of Woodstock; J. S. Roberts, of Seaforth; W. R. Jackson, of St. Thomas; I. Greenizen, of Petrolia, and T. Coleman, of Seaforth. All have done much to popularize bowling and forward the interests of the sport in Western Ontario.

A familiar figure who is missed from the green this year is Col. Burke, United States Consul at St. Thomas. Col. Burke is one of the most enthusiastic bowlers in the Railway City, and always throws himself heartily into the spirit of the tournament. His absence on a holiday visit to the United States is the reason for his failure to attend the present tournament.

ANNUAL MEETING W. O. B. A.

The annual meeting of the Western Ontario Bowling Association was held at the Tecumseh House last night. President R. L. Gosnell, of Blenheim, occupied the chair, and there was a large attendance of members, about 75 being present.

The gratifying condition of the association's affairs had been amply evidenced by the number of entries for the annual tournament, they being far in excess of any previous year. The secretary-treasurer's report showed a balance on the credit side of the association's bank account.

The election of officers resulted as follows: Patrons—John Labatt, London; Frank H. Walker, Walkerville; Sheriff Reynolds, Goderich; honorary president, D. W. Karn, Woodstock; chaplain, Rev. Canon Dann, London; president, J. H. Brown, London; first vice-president, W. Jackson, Clinton; second vice-president, N. W. Moore, St. Thomas; secretary-treasurer, James Mattinson, London; auditors, J. S. McDougall and M. J. Kent, London.

Owing to the unavoidable absence of President Brown, Vice-President Jackson occupied the chair.

London was chosen for the holding of the tournament for 1903. One or two other places were mentioned, but the members realized that no other club in Western Ontario could provide such smooth and spacious grounds as London's.

After discussion, it was decided to enforce the rule requiring the jack to be thrown by the leader instead of placed in position. At previous tournaments the rule has been disregarded.

The adoption of a penalty rule for latecomers in tournament matches was discussed. A motion was made that if a skip is not present to meet his opponent within 15 minutes of the time appointed for play his name shall be scratched. The motion was withdrawn and the matter left in the hands of the tournament committee.

The meeting then adjourned.

AT BRIGHTON BEACH.

New York, July 23.—Perry Belmont's Numeral, with Wonderly up, won the Glencove handicap, the feature of the card at Brighton Beach yesterday. Sombrero, the favorite, had no chance with the star. Northern Star broke in front, and made the running to the stretch, when Wonderly moved up Numeral, and in a driving finish won by a head from Sunshower, who closed very strong under Rice's vigorous ride. Out of the eight starters in the steeplechase only four finished. Inspector Stevens, favorite, won easily from Mr. Stoffel and Kuffa third. Thriftless, Marylander, Victor and Lime Juice falling at the first jump. The weather was clear, and the track slow. Summary:

First race, 2-year-olds, five furlongs—Woodlake, 112 (J. Martin), 8 to 5 and 2 to 5, 1; Prediction, 112 (Shaw), 9 to 10 and 1 to 4, 2; Monte Carlo, 122 (Odom), 20 to 1 and 5 to 2, 3. Time, 1:02.

Second race, 3-year-olds and up, selling, 1 1-16 miles — Par Excellence, 101 (Redfern), 7 to 2 and 7 to 5, 1; Ascension, 96 (Rice), 7 to 2 and 6 to 5, 2; Plohn, 110 (Wonderly), 4 to 1 and 7 to 5, 3. Time, 1:48.

Third race, steeplechase, the short course, about 2 miles—Inspector Stevens, 168 (Ray), 10 to 2 and out, 1; Mr. Stoffel, 158 (Heider), 7 to 1 and 2 to 1, 2; Kuffa, 149 (Callahan), 8 to 1 and 5 to 2, 3. Time, 4:36.

Fourth race, the Glencove handicap for 3-year-olds, 6 furlongs—*Numeral, 104 (Wonderly), 12 to 1 and 3 to 1, 1; Sunshower, 92 (Rice), 15 to 1 and 5 to 1, 2; Sombrero, 117 (L. Jackson), 1 to 2 and out, 3. Time, 1:14⅕. Barouche, Northern Star, *Musidora and Locket also ran. *Coupled in betting.

Fifth race, 2-year-olds, selling, 6 furlongs—Dr. Saylor, 102 (L. Smith), 9 to 2 and 8 to 5, 1; Joe Cobb, 97 (Shea), 4 to 5 and 1 to 3, 2; Ringdove, 97 (Waugh), 12 to 1 and 5 to 1, 3. Time, 1:14⅘.

Sixth race, for maidens, 3-year-olds and up, 1 1-16 miles—Adelaide Prince, 94 (H. Michaels), 7 to 2 and 7 to 5, 1; Stevedore, 96 (L. Smith), 4 to 1 and 8 to 5, 2; Miss Buttermilk, 94 (D. O'Connor), 6 to 1 and 2 to 1, 3. Time, 1:48⅗.

AT HARLEM.

Chicago, July 23.—Barney Schreiber's Picquart, in the third race at Harlem yesterday, after being backed from 12 to 1 to 7 to 1, beat the prohibitive favorite, Little Scout, in a desperate finish, only a neck separating them at the wire. Coburn, who rode the favorite, made a claim of foul against Lyne, who rode the winner, and both boys were in the stand for some time, but no action was taken by the judges. Weather fine, track dead and slow.

First race, 6 furlongs—Lampoon, 96 (Helgeson), 7 to 2, 1; Almaric, 97 (J. Walsh), 15 to 1, 2; Pure Dale, 105 (Birkenruth), 7 to 1, 3. Time, 1:18 2-5.

Seond racce, 5 furlongs—Miss Manners, 107 (Coburn), 5 to 1, 1; Penance, 105 (Ransch), 6 to 1, 2; Goody Two Shoes, 105 (Mountain), 15 to 1, 3. Time, 1:05 1-5.

Third race, 1 mile—Picquart, 104 (Lyne), 7 to 1, 1; Little Scout, 112 (Coburn), 9 to 2, 2; Archie, 112 (J. Hicks), 20 to 1, 3. Time, 1:45 4-5.

Fourth race, 7 furlongs—Bragg, 105 (Ransch), 30 to 1, 1; Brutale, 99 (Birkenruth), 13 to 5, 2; Vulgain, 107 (Coburn), 6 to 5, 3. Time, 1:31 3-5.

Fifth race, 6 furlongs—Sardine, 109 (Ransch), 1 to 2, 1; Old Mike, 111 (T. Dean), 4 to 1, 2; Add, 107 (Meade), 12 to 1, 3. Time, 1:25 2-5.

Sixth race, 6½ furlongs—Della Ostrand, 109 (Nutt), 5 to 2, 1; Marion Lunch, 109 (Dean), 7 to 1, 2; Declaimer, 102 (J. Hicks), 5 to 1, 3. Time, 1:26 1-5.

Russell Sage's Narrow Escape.

New York, July 22.—Russell Sage had a narrow escape from serious injury yesterday afternoon. He left his office to go to the Western Union. He had just got on a car when as it started with a sudden jerk he fell from the step, his clothing being so caught that he was dragged along fifteen feet before the car stopped. He was assisted to his feet, said he was not hurt, and proceeded to the Western Union building, where he had an appointment.

LONDON AND DISTRICT

—The question of rates in advertising is resolving itself among successful advertisers into a matter of the pulling qualities of the mediums used. It is not possible for an advertiser to force a paper to his terms, but he can choose those which he finds helpful to him in bringing the trade. Large advertisers employ devices of divers kinds which enable them to keep a fairly accurate tab upon the several papers used by them, and they are able to tell with reasonable accuracy just what each one is worth to them.

GLADDERY—ELLIOTT.

Mr. Charles Frederick McGladdery, a popular G. T. R. fireman, and Mrs. Jennie Elliott, of 511 Simcoe street, were united in marriage last night by Rev. R. D. Hamilton, the ceremony being performed at the Wellington street parsonage. Mr. and Mrs. McGladdery left for a wedding tour in the east. They will reside in this city.

GLEN—BROUGHTON.

A pretty home wedding took place yesterday at the residence of Mrs. R. R. Broughton, 427 Central avenue, when her youngest daughter, Anna Laura, was married to Mr. Arthur Glen, of this city. The ceremony was performed by Rev. Dr. Sowerby, of Talbot Street Baptist Church. The bride was handsomely attired in a traveling gown of fawn broadcloth and carried white roses, and was assisted by Miss Ethel Brown, of Oxford street, who carried pink roses. The groom was supported by Mr. Chas. R. Broughton, brother of the bride. After the ceremony the guests sat down to a dainty luncheon. The house was prettily decorated with palms, smilax, carnations and roses. Among the guests from a distance were: Mrs. J. H. Davie, of Erie, Pa.; Mrs. M. Millward, of Port Hope, and Mr. and Mrs. W. R. Broughton, of Woodstock. Mr. and Mrs. Glen left on the 7:50 train for Detroit and western points.

THE 'PINO WAR

Ladrones Broke Through the American Cordon and Escaped.

Manila, July 23.—Montallon and Fellizardo, the Ladrone chiefs, have broken through the constabulary cordon in Cavite Province, and have escaped to the mountains. A number of Ladrones were killed in earlier attempts to force the cordon.

The cordon encompassed the leaders and many of their followers. The latter, when trapped, made a series of breaks to escape. The constabulary withstood the first attack, killing fourteen and capturing fifteen men. The Ladrones finally massed together, under cover of darkness, and forced their way to a weak spot in the cordon, killing one and wounding one of the constabulary. The latter captured the papers and effects of the leaders and destroyed a quantity of supplies.

A Toronto Blaze.

Toronto, July 23.—A boy carrying a lamp last night in R. J. Sebastian's shoddy mill, on Davenport road, fell and set fire to the place. The loss was $500 on stock, $200 on machinery, $500 on the building. The machinery was insured for $700. The boy narrowly escaped being burned to death.

ST. ANDREW'S ANNUAL PICNIC WAS UNUSUALLY ENJOYABLE

Scotchmen and Their Friends at Port Stanley

Grounds Were Wet But No One Seemed to Care.

Interesting Programme of Sports and Dancing Carried Out Without a Hitch.

THE weather man tried to do what was right with the sons and daughters of Scotland yesterday, and nearly succeeded, but it stands to reason that he can't let it rain for two months, then turn off the water supply one night and have everything in apple-pie order the next morning. The Scotchmen may flatter themselves that old Probs took enough interest in their picnic to arrange a day that was as nearly perfect as could be desired, after having for two months let the earth be soused with rain. The only one who failed in his duty was His Lordship the Sun, and it must be admitted that he had more than an ordinary day's work to dry away the rains that had fallen time after time upon the hilltop. The old picnic grounds, therefore, were not in their receiving garb. They were soggy, muddy and uninviting, but the crowd were there for a good time, so what did it matter. If for nothing else the day was remarkable for an unusual display of good temper—and lingerie.

BIG CROWD AND WET GROUNDS.

Apparently nobody, while in town, stopped to consider that it might not be entirely dry on the hill above Lake Erie. It was the Scotchmen's picnic, and that was enough, they apparently reasoned. In times past they had been given a good time at St. Andrew's outing, and they saw no reason why it should not be so again. Every train that left London was laden with people, and at every station on the way down many more were taken on. Nearly 2,000 went from St. Thomas, and as is usual on this day, great numbers drove in from the surrounding country. It is questionable if the picnic was as great a success numerically as some of its predecessors have been, but while the crowd looked smaller than usual, the attendance was greater than it appeared to be. The really disheartening condition of the grounds drove many to other places—scattered them so that the crowd seemed smaller than it was. So far from being discouraged by this aspect of affairs, the committees that were looking to the entertainment of the picnickers worked with untiring energy and with enthusiasm that took its inspiration from the bright sky above them, and not the damp grounds beneath. The result was delightfully satisfactory. The sports and dancing were never more keenly contested, nor more thoroughly interesting. The dancing was especially good, and great crowds stood for a large portion of the afternoon watching it. It must be acknowledged, though, that it would have been far less interesting had the music been less excellent. The society was never more fortunate in its choice of pipers. Pipers Angus and McDonald were there, of course—could there be a Scotch picnic without them?—and Piper Alford, a younger Scot, also of London, who is fast as possible becoming another fixture of the picnic. With these was a quota from the Kilties Pipe Band of Toronto—sturdy pipers and drummers, who made the old grounds resound with the soul-stirring music of the Highlands. It was formed of Pipe-Major Beaton, Pipe-Sergt. Bouvie, Pipers Bouvie and Robinson, and Drummers Graham, Munro and Cuthbert.

The day was ended by all the prominent Scotchmen dining together at the Fraser House, where dinner was served in Host Fraser's best style. It was a very enjoyable affair, and differed from others that have been held in the past in that there was no formal speech-making. It was over in time for those who wanted to take one of the earlier trains home.

The contests, with the winners, were as follows:

Girls' under 10 years—1 E. McNab, 2 R. Riley, 3 L. Ardill.

Boys under 10 years—1 F. Hexter, 2 J. Brennan, 3 B. Mills.

Girls under 16 years—1 G. Legg, 2 A. Campbell, 3 R. Cox.

The committee of management were: John Pringle, John Cameron, E. J. MacRobert, J. W. Jones, F. D. Macfie, J. B. McKillop, Dr. J. B. Campbell, Dr. W. J. Stevenson, A. E. Somerville, Walter E. Martin, Rev. Dr. McCrae, Wilton Grove; John Ferguson, Police Magistrate Love, W. T. Hamilton.

New Postal Arrangement.

Washington, July 23.—An arrangement has been made between the governments of the United States and Newfoundland, effective August 1 next, by which domestic money order rates will apply between postoffices of the two countries. The convention accomplishing the close postal relation was signed in Newfoundland July 15, by Acting Postmaster-General Wood representing Newfoundland, and Superintendent Metcalf, of the money order system of this government. The arrangement is the same as now applies between this government and Canada and between Canada and Newfoundland, money orders being obtained at domestic rates.

SUMMER ADVICE.

By One Who Knows.

Keep cool in hot weather.
"How?"
By eating Grape-Nuts every day.
"Rats!"
No, not rats, but a good, sound fact that thousands make daily use of.
Grape-Nuts is a predigested food which makes digestion easy.
It gives the nourishment without the internal heat caused by heavy carbonaceous foods.
You can feel from ten to twenty degrees cooler than your neighbor when you eat proper food that does not overtax the stomach.
Grape-Nuts is made from certain parts of the grain and by mechanical process the starches are changed into grape sugar in the same manner as the stomach would do in the first act of digestion.
The phosphates of the cereals are retained in Grape-Nuts and these and the grape sugar supply the necessary nourishment to body, brain and nerve centers.
Grape-Nuts is a concentrated food, giving strength, vitality and coolness to the body, and energy and clearness to the brain, in place of the heavy, sluggish, draggy feeling caused by meat, potatoes, etc
Another point.
It is thoroughly cooked at the factory by food experts and saves you the trouble.
You get it from the grocer, and by adding cream it is ready to serve.
No hot stove, no cross cook, no loss of time or exertion as with other food.
Its crisp taste with the delicate sweet of the grape sugar makes it pleasing to the palate of the most critical epicure.
The recipe book in each package of Grape-Nuts gives many pleasing puddings, salads, entrees and desserts that can be made.
Worth a trial, and a package will prove it.

PICNIC AT SPRINGBANK

Sabbath School of Christian Church Enjoy a Day's Outing.

The pupils and friends of the Sabbath School of the Christian Church, corner of Elizabeth and Dundas streets, held a very enjoyable picnic at Springbank yesterday. A programme of sports, including a game of baseball, was successfully carried out, and refreshments were served by the ladies to the members of the school and their friends. The school also provided candies and lemonade for the picnickers. The sports resulted as follows:

Infant class race—First prize, Robt. Moore; second prize, Andrey Devine. Girls race, under twelve—First prize, Gertie Brown; second prize, Bessie Row. Boys' race, under twelve—First prize, Willie Moore; second prize, Thos. Barclay. Young ladies' race—First prize, Miss Bella Rogers; second prize, Miss Jessie Smallman. Teachers' and officers' race—First prize, Alfred Blackwell; second prize, S. B. Culp. Thread and needle race—First prize, Miss Edith Smallman; second prize, Norman Devine. Backward race—First prize, S. B. Culp; second prize, Alfred Blackwell.

Mississippi River Receding.

Keokuk, Iowa, July 22.—The height of the flood in the Mississippi River was reached today south of here. The river fell an inch and a half at Keokuk today and the fall will reach southern points by tomorrow. But the rise of a foot more in the vicinity of Canton, Quincy, LaGrange and Hannibal carried the water over thousands of acres previously uninjured.

Check Swindler Caught.

Toronto, July 23.—The police caught last night a clever swindler who has been making a fine thing out of the bogus check business throughout Ontario. His habit was to order goods from business houses, giving the name and address of some citizen of repute, and asking that they be delivered at his home. Then he paid for the goods by check, getting often $15 and $20 in change. Next day, when the goods were delivered, there was trouble, and there was more when the check came back dishonored. The swindler gives his name as W. L. Wood, and his residence Detroit. About twenty cases are piled up against him, and eight checks were found in his possession. His photo has been sent to all the leading police centers, with his measurements on the Bertillon system.

AFTER THE KING'S PRIZE

Nine Canadians Likely To Be in the Second Stage.

Canada Second in the Shoot for the Kolapore Cup—England Third.

Bisley Camp, July 22.—After having shot at the 600 yards distance, the last range of the three in the first stage of the King's prize competition, it is likely that nine Canadians will qualify for the second stage, which takes place on Friday. Those Canadians with their aggregate score in the first stage are as follows: Capt. Rennie, 2nd, 97; Capt. Davidson, 8th, 96; Capt. Mitchell, R. O., 96; Sergt. Smith, 43rd, 95; Corp. Jones, 82nd, 94; Lance-Corp. Mortimer, 6th, 94; Private Peddle, 5th, 94; Sergt. Perry, 6th, 93; Private Scott, 43rd, 93. The highest possible aggregate score was 105, 25 points at each range. Lance-Corp. Cole, of the Dorset Regiment, England, made the highest score, 103, and wins the prize awarded to the leader in the first stage.

FOR THE KOLAPORE CUP.

The great team, the Kolapore challenge cup competition, took place today, and was won by Australia. In fact the colonials gained the three principal places, Rhodesia being second and Canada third. Sir Frederick Borden, Hon. J. M. Gibson and Gen. O'Grady-Haly were present, and watched with keen interest the shooting of the Canadians.

The team from Canada stood at the top in the 600 yards range, but fell away behind at the 600 yards. Lance-Corp. Mortimer did phenomenal shooting, making the largest individual score of any team. His total at the three ranges was 102 out of the possible 105, 7 shots at each distance, 200, 500 and 600 yards. The individual scores of the members of the Canadian team were as follows.

	Yards. 200	500	600
Sergt. Bayles	34	33	28
Lance-Corp Mortimer	34	33	35
Color-Sergt. Moscrip	29	33	27
Capt. Mitchell	35	30	30
Pte. Peddie	33	32	33
Sergt.-Major Richardson	31	34	30
Capt. Rennie	31	32	26
Sergt. Smith	31	33	29
Totals	238	260	238

The scores of the teams competing were:

	Yards. 200	500	600	T'l.
Canada	258	260	238	756

OTHER MATCHES.

A number of Canadians figure in the Keystone-Burgundy prize list, the competition in which ended yesterday. Skedden, of Hamilton, was awarded second place, winning £6. Sergt. Bayles, Royal Grenadiers, fourth, won £2. Capt. Davidson, tenth, and Pte. Peddie, in twentieth place, won £1 each.

Capt. King, 46th Battalion, took thirteenth position in the Premier, 600 yards, 8 shots, winning £2. Capt. Davidson, in twenty-seventh place, got £1.

In the Aromorers Company match, Sergt. Smith landed in fourth place, getting a prize of £2. Capt. Rennie, in fifth position, and Capt. Davidson, eighth, also won £2 each; Capt. Margots, tenth; Sergt. Bayles, fifteenth; Capt. Mitchell, sixteenth, and Major Spearing added £1 each to their winnings in this match.

Capt. Mitchell took seventh place in the competition for the Wimbledon Cup, and won £3. Capt. Rennie, in eighth place, also got £3, and Capt. King, in fifteenth place, got £2.

The team of riflemen which Great Britain is sending to Canada to compete for the Palma trophy, won by the Canadians last year from the Americans, is composed of seven Englishmen, four Scotchmen and one Welshman.

THE TORTURE OF NEW SHOES

A Northwest Lady Tells How "Foot Elm" Gave Her Relief and Comfort.

It is difficult to get a pair of new shoes that fit the feet perfectly at the outside. Most times they pinch and squeeze the foot and cause great discomfort until they are "broken in." "Foot Elm" shaken in new shoes makes them fit as comfortably as an old pair, prevents the "drawing" of new leather and prolongs the life of the shoe.

Here is the experience of Mrs. Francis M. Norrish, Nanton, Alta., N.W.T.:

"I have for years suffered with tender feet, and it has been perfect torture to wear a pair of new shoes, no matter how soft or easy. I am glad to say 'Foot Elm' has given me relief, and is a very valuable remedy for tired feet."

"Foot Elm" is 25 cents a box of 18 powders, at all druggists, or by mail. A. STOTT & JURY, BOWMANVILLE, ONT.

Perishing on the Trail.

Calgary, N. W. T., July 23.—A man was found on the trail along Noe Creek, about fifteen miles north of the city, by two boys of Mr. Mayood. The man was without boots, and his clothing was in a very bad condition. He said he had been without food for five days. He was apparently insane, and could not tell his name, but thought he had come from Vancouver, and was on his way to Bowmanville, Ont. He is in a very bad condition.

$250,000 Involved.

Greensburg, Pa., July 23.—Jacob Byers, a wealthy man, who is said to be on his death bed, caused the arrest of Wm. S. Byers, a leading lawyer and the Democratic nominee for Congress. The warrants charge larceny, and the amount involved is $250,000 in money and bonds. Attorney Byers' bail bonds were fixed at $25,000. He was locked up, but said he would furnish bail.

Teachers on a Tour.

Toronto, July 23.—Hon. Richard Harcourt has received a letter from Hon. Geo. W. Ross, in which the premier states that he will remain in England until the coronation takes place. The premier also states that many English school teachers will make a tour of Canada during the present summer. Mr. Harcourt will arrange to have every facility afforded the teachers to see all that is to be seen in Ontario. The premier states that he is in good health.

MIDDLESEX SUGAR BEETS

Prize Winners in This County—City Council's Action Criticised.

Mr. H. C. Green, of this city, writes: "The fact has been fully established that sugar beets of a good quality can be grown in all the southern portions of the Province of Ontario, and as good a quality in the county of Middlesex as in any other section of the country. The beets I had grown promiscuously through the county of Middlesex last year yielded over 13 per cent. sugar. The beets grown near the city of London under instructions from an agent of the Ontario Government yielded over 15 per cent. sugar. There are four factories being erected in Ontario this year, namely, Wiarton, Berlin, Wallaceburg, and Dresden, all good, thriving country towns of pluck and energy. All expect to be running in October. What has the city of London done to encourage the sweet industry in this section of the country? Last year the city council made a grant of $200 to be given in prizes for growing sugar beets in the county of Middlesex, but when the beets were grown and analyzed at the Ontario Agricultural College at Guelph and results reported, the council refused to pay the prize money which is justly due the farmers who grew the beets. The following amounts, subscribed by citizens and collected by me have been paid in prizes: E. Parnell, $12; E. Leonard & Sons, $10; F. G. Rumball, $10; Hobbs Hardware Company, $10; C. S. Hyman, M. P., $10; G. De C. O'Grady, $10; A. Screaton, $5; W. J. Reid & Co., $5; G. Olmsted, $5; John Bowman, $5; W. J. Craig, $2; T. H. Purdom, $2; J. C. Green & Co., $2; Lindsay Bros., $1; E. Beltz, $1; Thos. Gillean, $1.

"Standard beet contains 12 per cent. sugar and 80 per cent. purity. The prizes were awarded as follows:

C. A. Leroy, Birr	10.2	79.2	1

This is a total of $93 paid in prizes and $91 collected. A city alderman subscribed $2, and after the list was made out and the prize-winners notified of the amounts awarded; then he did like the city council did about the $200, and refused to pay it. The expenses in connection with the above, about $10, I have paid out of own pocket. The beet sugar industry is creating a good deal of interest in many sections of Ontario, but the city council sounded the death-knell to the industry in this section by refusing to pay the prize-money for growing sugar beets in the county of Middlesex.

PASSED 15 WORMS. — I gave Dr. Low's Worm Syrup to my little girl, two and one-half years old; the result was that she passed fifteen round worms in five days.

A TONIC FOR THE DEBILITATED.—Parmelee's Vegetable Pills, by acting mildly but thoroughly on the secretions of the body, are a valuable tonic, stimulating the lagging organs to healthful action and restoring them to full vigor. They can be taken in graduated doses and so used that they can be discontinued at any time without return of the ailments which they were used to allay.

Long Overdue Vessel Safe.

San Francisco, July 22.—The long overdue French bark Brenn, upon which there has been some speculation, the rate of insurance reaching 35 per cent, is at last in port from Newcastle, England, having arrived with a cargo of 2,975 tons of general merchandice. The Brenn, according to Capt. Brette's report, was off the port for ten days, most of the time in a dead fog. She had previously been delayed by adverse winds.
