"Jack the Ripper."

NEW YORK, April 27.—There seems at least to be no doubt but that the old woman killed by the supposed "Jack the Ripper" was Carrie Brown. A retail grocer, John F. Flower, in whose family she worked two years ago, identified the body. She told him she was born in Canada and married a sea captain named Charles Brown. Two women employed in Bellevue Hospital also identified the body. There have been no decisive results from the strenuous work of the police.

REVERSES FOR REVOLUTIONISTS.

The War in Chili—Insurgent Ironclads Sunk by Balmaceda's Fleet.

Secretary McCreary, of the United States consulate at Valparaiso, who has arrived at San Francisco, says the Balmaceda party has all the coin and the army is 25,000 strong, but the rebels have every port north of Valparaiso and they have most of the navy. The rebels are backed by all the Spanish families, who are jealous of Balmaceda's attempt to play dictator. There is no lack of food, the rebels getting all they require.

PARIS, April 27.—Advices from Chili state that during the battle at Caldera five torpedoes were discharged at the Chilian insurgent war vessels, sinking the monitor Hussacker, as well as the Blanco Eucalada. President Balmaceda's fleet returned to Valparaiso without having sustained any damage. The warship Florence, which, up to the present has been loyal to President Balmaceda, has gone over to the insurgents. It is stated that Balmaceda is in dread of being poisoned, and will not partake of food which has not been prepared by his own mother.

NEW YORK, April 27.—The following cablegram was received from Santiago today: "On the morning of April 22 the Government torpedo cruisers Almirante Lynch and Almirante Condoll attacked, in the Bay of Caldera, the ironclads Blanco, Encalada and Huascar, of the insurgent squadron, and destroyed them with Whitehead torpedoes. The Blanco was the flagship of Capt. Montt, chief of the insurgent squadron. The Government vessels received no damage, and have returned to Valparaiso, where they are preparing for another trip to destroy the remaining vessels of the revolting squadron. This is considered the death blow to the rebellion, and it is believed the revolution will be terminated within fifteen days, as the Lynch and Condell have greater speed by at least ten miles an hour than the insurgent vessels.

LONDON, April 27. A dispatch from Valparaiso says: The Government cruisers, Almirante Condell and Almirante Lynch, pursued and engaged the insurgent cruiser Aconagua. The latter resisted stoutly, but was about to strike when a man-of-war, supposed to be the insurgent vessel Esmerelda, was sighted, whereupon the attackers retired and the Aconagua escaped. The casualties on the Government boats were one killed and ten wounded. On the Aconagua 150 were killed. The insurgents appear to be dispirited. Telegrams received in Paris from insurgent sources confirm the foregoing, and add that the engagement lasted 90 minutes; that the Aconagua was hit seven times; that she then forced the entrance to Calder harber, and that she sustained no serious damage.

Prospects of a Railway Rate War—Boycotting the Alton Road.

The "Soo" officials deny that there has been any cut in through passenger rates either west or eastbound.

A cut in the freight rate from New York to St. Paul has been made by the Canadian Pacific in conjunction with the West Shore road, which road is leased by the New York Central. A rate war is likely to result.

A eastern statistican estimates the loss to the railroads of this country, due to competition, to be annually $200,000,000. If this be the case, the business public reaps the benefit, and leaves no ground for abusing the railroads or legislating for lower rates.

Died, in Thorold township, April 25, Clara C. Guinter, aged 20, of consumption.

Died, in Buffalo, April 18, Jerome Jeffry, aged 35. Deceased was a son of the late W. D. Jeffry, of Welland. He was taken ill when in New York buying goods a few days before his death.

At no season in the year is cold in the head and catarrh more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 22-c wty

Died of Grief and Shame.

KINCARDINE, April 27.—Wm. Reamington, father of the young man now in jail on the charge of murdering Agent Flett at Arthur, died at his farm near Hunter. Ever since the arrest of his son Mr. Reamington had been in a very depressed state, and latterly has been confined to his bed. He had not seen his son since his arrest, and it is said that his family were afraid to let him visit Joe as he had threatened to shoot him.

VITAL STATISTICS.

Interesting Particulars of the Three Great Human Events—Birth, Marriage and Death.

The report relating to the registration of births, marriages and deaths in the Province of Ontario for the year 1889 has just been issued. It is a most elaborate and exhaustive one and contains many interesting figures. For instance, the total registrations made during the year amounted to 86,747, composed of 48,538 births, 14,880 marriages and 23,329 deaths. Compared with the registrations made during 1888, the births show an increase of 1,585, the marriages an increase of 329, and the deaths a decrease of 405, making a total increase in 1889 of 1,509. The proportion of the total registrations to every 1,000 living was 40.3. In England there were 56.7 per 1,000, in Scotland 45 per 1,000, and in Michigan, a State similar in population to Ontario, 41.9 per 1,000.

The highest birth rates were in the counties of Carleton, 36.4 per 1,000; York, 36.4; Waterloo, 32.4; and Prescott and Russell, 31.3. The male births in the Province numbered 24,737, the females 23,801, an excess of 936 male births, showing a proportion of 103.5 males to 100 females. There was a small increase in the number of twin births registered. Three cases of triplets were returned in 1889, the same number as in 1888. They occurred, one in the county of Haldimand, one in the county of Peterboro and one in the county of York.

Of the 48,538 Lirths during the year, 958 or 2 per cent. were illegitimate. In 1888 the percentage was 1.3. Of the 29,760 persons married, 9,920 were Methodists; 6,022 were Presbyterians; 5,041 were Episcopalians and 4,136 Roman Catholics. If marriage is a failure, the Methodists won't pay 10 cents on the dollar. The report shows that there are certain months which are generally chosen for tying the nuptial knot. October, December and January are still the favorite months, especially December, which heads the list with 1,753 weddings. This fact may perhaps be explained by a gentle insinuation that Christmas and wedding presents might be considered one and the same.

In August there were only 913 weddings. A temperature of 90° in the shade may drive a man to a quiet watering place which sports four German bands, but it evidently can't drive him to marriage. The number of males married under the age of 20 was 259, and females 2,583. Over 20 spoony old gents toddled to the altar with the weight of three score and ten years, 29 prim old ladies decided that at 70 they were "sufficiently decayed" to ask mamma's consent. Only two brides were older than their bridegroom, one was 82 years old and the bridegroom 62 years, and the other was 70 years and the bridegroom 61 years. The united ages of the oldest couple married in 1889 was 148 years. The bridegroom was 81 years and the bride 67. Four persons were married at 80 years of age and over, three males and one female. Nine girls of 14 years of age united themselves to youths under 19 years, and 30 girls were married at 16 years of age.

The youngest couple married was a girl of 14 years of age to a youth of 18 years. One old gentleman of 79 is credited with capturing a maiden of bashful 15. The sturdy settlers of Haliburton district are credited with being the most generative, the ratio of births per 1,000 of population being 41.3. The Frenchmen of Essex seem to be most thoroughly convinced of the advantages of marriage, and head the list with 4.7. York is second with 11.6. The death rate is highest in Haliburton, and York is again second. There were 1,045 more births in Toronto in '89 than in '88, 188 more marriages and 93 more deaths. It would seem that man has a decided penchant for appearing on this busy scene during July, August and September, in time for ice cream and mosquitoes. There were over 1,000 more births in September, August or July than in January, February or December. The number of pairs of twins was 266, as compared with 249 in 1888 and 407 in 1880. The death rate to 1,000 of population in Toronto was 18.3, the lowest for many years. Phthisis claims more victims than any other disease, but pneumonia, diphtheria and nervous diseases each reap large harvests.

The list of centenarians who died during 1889 is as follows: Jane Campbell, aged 102, Dufferin county; Margaret Menard, 100; Elizabeth Mooney, 103, Elgin; Sarah Thompson, 109, Essex; Sarah Ann Griffith, 100, Frontenac; John Scott, 105, Haliburton; Margaret Phillips, 102, Anne McPhail, 100, Mary Martin, 105, Huron; John Blue, 100, Kent; James Doherty, 101, Lambton; Henry McVeigh, 100, Lanark; John Vaughan, 105, Leeds and Grenville; Charles Smith, 101, Ontario; William Flood, 105, Renfrew; Elizabeth Morgan, 116, Simcoe.

It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache and is the best spring medicine. A BIG TURNOUT.

Oddfellows of the City Attend Church on the Occasion of Their Seventy-Second Anniversary.

Bright, smiling weather brought the Oddfellows out in full force to the annual church parade Sunday. The members of Chorazin Lodge assembled at their East End quarters and marched up Dundas street, headed by "D" Company, I. S. C., Band, to join the brethren of Dominion and Forest City lodges at the hall. The procession moved off about 3 o'clock, 450 strong, with the band leading, followed by London Canton, No. 1, Patriarchs Militant, in waving plumes and glittering uniforms, the other members of the order in regalia bringing up the rear. It was one of the largest parades of the kind ever seen in the city.

The Colborne Street Methodist Church was filled both with the fraternity and general public when the service began. Rev. Bro. H. W. Crews, of Siloam, formerly of this city, was the officiating clergyman. His remarks were based on Romans, xii., 5: "And everyone members one of another." He pointed out the applicability of his text to the principles of the order, maintaining the dependence of all things on others. Men were dependent on one another; so were the units of the planetary system, the members of the vegetable kingdom on the sun and earth. Nations depended on one another and whether it came in the form of a retaliation bill or a New Orleans massacre, injury resulted to all parties concerned. Men were brethren in commercial and social aspects in joy and suffering. Speaking of the I. O. O. F. more particularly, the reverend gentleman told how it had commenced in a dingy inn at Baltimore in the year 1819, with but five members, who formed themselves into Washington Lodge, No. 1. From this lowly birth there had risen in the succeeding 72 years one of the mightiest fraternal organizations on earth, numbering 1,500,000 members the world over. Between $80,000,000 and $100,000,000 had been expended since its inception for the relief of distress. In the Province of Ontario there were 17,693 members, an increase of 753 during the past twelve month. For relief and other charitable claims $71,000 had been paid out. The speaker's remarks were listed to attentively. A liberal response was made to the appeal for generous contributions to augment the fund for an Oddfellows' cot in the City Hospital.

The procession reformed after service, returning via Victoria Park. On arrival at the lodge rooms hearty votes of thanks were passed to Rev. Bro. Crews, the church officials and the choir. The officers of the lodges in line were as follows:

Chorazin—F. Smith, N.G.; J. G. Quick, V.G.

Dominion—C. H. Bayley, N.G.; C. J. Wall, V.G.

Forest City—Nelson Hayes, N.G.; W. J. Tanner, V.G.

Canton No. 1—Lieut.-Col. W. T. Stenberg; Major and A. I. G., John Herald; Major John Brown, Lieut. E. J. McRobert, Ensign W. F. Darch, Clerk R. J. Blackwell, Acct. E. Beltz.

VOICES OF THE PEOPLE.

Credit to Whom Credit Is Due.

To the Editor of the ADVERTISER:

It is not often I write to the city press re public matters, but I have noticed several letters of late in your paper when speaking of the act passed by the Ontario Legislature, re the consolidation of the debenture debt of the city, that the present chairman of the City Council, or rather No. 1 Committee, is to be congratulated on the successful outcome of his labors. Being so familiar with all the particulars of this question, I do not like to see the services and plans of my old colleague, ex-Ald. Anderson, so completely taken from him without reminding you that this scheme of consolidating the debt was brought before the Council last year by Ald. Anderson, and all the necessary arrangements and particulars prepared by No. 1 Committee, and it was through the persistent and thorough efforts of Mr. Anderson the application was made to Parliament, also that power be asked to enable the city to sell or lease the London and Port Stanley Railway. I believe it is only necessary to call your attention to the above for you to remember the active part ex-Ald. Anderson took to bring about the desirable consolidation to have you credit him with a large share of the satisfactory ending of this part of civic reform. It might be said "Unto the victor belongs the spoils," but I want to see my late faithful and hard-working colleague receive some little attention or credit for his able and thoughtful services in connection with the late act. I remain yours truly, JOHN MOULE.

ILL-FITTING GOWNS.

A Learned Judge Has the Ladies Put Them On and Decides Against the Gowns.

LONDON, April 27.—The dispute between Actress Dorothy Dene and her dressmaker was again brought into court, and furnished an immense amount of amusement for the spectators of the judicial proceedings. On the former trial the learned judge, as the result of an ocular inspection of the dresses for which Miss Dene refused to pay, decided that, with a few slight alterations, they must be accepted as a good fit. Dorothy informed the judge on this occasion that the dresses had never been made to fit, and she still refused to pay the bill. The judge ordered Dorothy and her sister (for whose dresses, also alleged to be misfits, Dorothy had made herself responsible) to retire to an ante-room and put on the gowns in question. Dorothy soon reappeared arrayed in a beautiful brown and gold silk costume, while her sister wore one of heliotrope.

The judge patted the ladies, turned them about, and, after critically scanning the costumes, decided that they were not good fits. The dressmaker indignantly cried out that Dorothy was standing purposely in such a way as to make it appear that her dress hung awkwardly. Miss Dene, with equal indignation, denied the accusation.

"Hold up your head," said the judge to Miss Dene. The actress modified her position in every way that the judge suggested, and as the outcome of all this posing the judgment of "misfit" was affirmed.

Dorothy's sister then claimed the court's attention. She declared that the collar of her dress was too tight. His honor inserted his fingers between her neck and the collar, and agreed in her view of the case. Resuming the bench, he gave judgment that the plaintiff's bill should be paid, after deducting the charge for the two gowns which did not fit.

Another New York Murder.

NEW YORK, April 27.—Early this morning Janitor John Harris, colored, aged 39, was arrested for killing his son John, who died at 9 o'clock last night. Harris was janitor of the Aster flats. Father and son were in the cellar of the flats yesterday afternoon, when a dispute arose, and Harris struck his son on the head with a bit of wood, fracturing his skull. The son, who was 20 years old, was taken to his home, where he died

Union City is eager for manufacturing enterprises. The citizens have voted a bonded indebtedness of $6,000, which will be given as a bonus to secure the location of the Johnson cooperage works, now at the county seat, Coldwater The vote stood 213 to 15.

The steel steamer City of Chicago has been relaunched at West Bay City. It was built for Lake Michigan traffic, but was found to lack buoyancy when carrying a deck load of fruit. The Wheeler people put the boat into a dry dock, cut it in two and added fourteen feet in the center. This cost $15,000. The boat is now 240 feet long and said to be all right.

"The Advertiser" is an organ of news and independent opinion. The ADVERTISER alone is responsible for opinions expressed in these columns.

"The Advertiser" advocates Continental Free Trade, and as early as possible after, free trade with the whole world. The British trade model cannot be improved upon.

"The Advertiser" looks forward with hope to Canada's future as that of an Independent Canadian Nationality, believing that such a status would be best for Canada, best for Great Britain, and promotive of the best attainable relations with the United States.

"The Advertiser" advocates prohibition of the manufacture and sale of intoxicating liquor.

"The Advertiser" is an advocate of equal rights for women, whether as regards the franchise, or equal wages for equal work.

"The Advertiser" is a believer in Christian Union, and considers the time has come when the various Christian denominations should come closer together. Those bodies which are now nearest should unite first. Under the present system there is an unjustifiable waste of men, means and effort. The ADVERTISER will endeavor to promote the movement for Christian union not alone by direct appeal and argument, but by seeking to present the best rather than the worst side of each denomination.

"The Advertiser" advocates Obligatory Voting as both necessary and practicable. Nothing would so much purify electoral contests. Nothing would so much enforce the idea that the franchise is a duty, not a chattel.

We are aware that the foregoing planks of our platform are by no means endorsed in their entirety by the members of either of the present Canadian political parties. But we believe they will both have to get nearer and more near to the ADVERTISER'S platform with every succeeding year.

God's in His heaven,
All's right with the world.

MEETING OF PARLIAMENT.

The first session of the Parliament recently elected will begin at Ottawa on Wednesday next.

For many reasons it is to be regretted that the party in power has arranged for the calling together of the members at so late a period. It is hurtful to the business interests of the members themselves, and the hurrying of the game of law-making, in the warm last days of the session, is certainly not in the public interest. Never since Confederation has the House been called at so late a date. The new House assembled in 1887 on April 17, two weeks earlier, and then it was deemed very late.

No doubt the forthcoming session will be a lively one. Though there is little probability of a division taking place on the Speakership, the Government whip has issued a call to its supporters to assemble promptly. It is, therefore, apparent that developments of an interesting character are expected at an early date. The trade question and the exposure of the McGreevy scandal will, no doubt, occupy a good deal of the time of the House, and incidentally the disgraceful conduct of Sir Charles Tupper may be expected to come up.

—The Paris Salon for 1891 will be opened May 1. The number of Harper's Bazar which appears on the same day will contain superbly engraved reproductions of four of the most noteworthy of the new paintings placed in the Salon for exhibition on that day for the first time. This is another illustration of the enterprise which characterizes the management of that periodical

MR. CARLING'S TRANSLATION.

Mr. Carling, late M. P. for London, has been appointed a member of the Dominion Senate. He tried in vain to get a seat in the popular Chamber, but failed, and he is therefore admitted into the Senate, that refuge of defeated M.Ps.

The arrangement will no doubt prove satisfactory to our late member. While the present Administration holds sway, he will be able to retain his yearly income from the public treasury of $8,000, in addition to the perquisites of his office, which are not few. Besides, he will practically be removed from amenability to public criticism. The change will thus be a very comfortable one for the ex-M. P. for London, and we know no one who will grudge him enjoyment of it, though many may doubt the propriety of the "deal."

With Mr. Carling shelved in the Senate and Mr. Meredith a permanent resident of Toronto, old things in Conservative circles are rapidly passing away and all things are becoming new. The whirligig of time brings many changes.

AN OUTRAGEOUS CHARGE.

The outrageous charge which the Dominion postoffice authorities have just imposed upon Canadian newspapers sent to Great Britain has aroused a good deal of indignation, as much because of the suddenness of its imposition as its onerousness. The newspapers and the public were only given a few days' warning of a change that imposes a charge of 2 cents per copy on such newspapers as the WESTERN ADVERTISER, or more than a year's subscription. On the subject the Montreal Witness points out that is only a few months since a similar outrageous charge was put upon Canadian papers going to Newfoundland, at the very moment when irritation between Canada and Newfoundland was most to be deplored. Our contemporary calls the charge rightly outrageous not only because it is a sudden departure from the more liberal conditions under which contracts have been made, but also because it interposes between Canadians of a sister colony which it is their supreme interest to win, and between Canadians and their fellow-subjects of the mother country, to which they owe allegiance and with which they desire to cultivate the closet relations, obstructions to intercourse which are not interposed between them and the people of the United States, between whom and them all newspapers pass free. No scheme could be devised better calculated to sap the allegiance of Canadians than this embargo upon intercourse.

UNMASKED.

In the North American Review for May Sir Charles Tupper writes on what he is pleased to call "The Wiman Conspiracy Unmasked." The article is a rehash of the bumptious High Commissioner's speeches in the recent campaign, with the attacks on the United States Government and people omitted. This is at least discreet, but it is hardly honest. Indeed, the statements are in accord with Tupper's whole course in the treatment of the trade question during the past few months. He takes Mr. Wiman's addresses in the United States, for which the Canadian Liberals can in no sense be held responsible, selects a sentence here and there, twists their meaning to suit his purpose, and condemns Sir Richard Cartwright and all who favor unrestricted reciprocity as annexationists and enemies of Canada. Yet this is the man that the Montreal Gazette, controlled by a leading Conservative member of Parliament, tells us is ready to negotiate in favor of free trade relations with the United States—even to the extent of unrestricted reciprocity! The same man, it is also reported on good authority, has said that he is prepared to agree to reciprocity in oil. We presume he would call that reciprocity patriotic. Well, if in oil, why not in cotton? and if in cotton, why not in sugar?

The longer this trade question is considered, and the more Tupper tries to save his political allies from popular condemnation, by endeavoring to ride two horses at one time, and by assailing all and sundry who have exposed his tactics, the more thoroughly is the utter unscrupulousness of this man demonstrated.

No one needs to unmask the "Tupper Conspiracy." It is unmasked.

WILL HE BE RECALLED?

Is Lord Stanley of Preston likely to be recalled? His name has been mentioned as probable successor to Lord Lansdowne as Viceroy of India. We do not think that there is much chance of his getting that plum, for in the present state of India Lord Salisbury is not likely to intrust the administration to a man of Lord Stanley of Preston's calibre. He may answer tolerably well for Canada, where the Governor-General is a mere automaton, ready to do at once what his Ministers advise him to do. But in India the Viceroy requires to be a man with some strength of mind and purpose.

TAX REDUCTION.

A commercial convention of the Western States has recently been held at Kansas City, attended by a large number of delegates of both parties. The tariff was one of the subjects discussed, and while a few Republicans took strong ground against declaring in favor of a revenue tariff they had no show when it came to a vote. The West continues strong for tariff reform, and should the Republicans adhere to their protective policy in the next Presidential campaign there is a prospect of their being badly worsted in the Western States. President Harrison's tour throughout the South and West is no doubt intended to strengthen himself against next year; but while he is being greeted everywhere with kindly welcomes, as becomes the office he holds, the only effect of his speeches appears to be to reopen the agitation for tariff reform.

CANADIAN CHEESE IN ENGLAND

Referring to the rapid strides that Canadian cheese is making in the estimation of British buyers and the upward tendency of prices, the London Grocers' Journal says:

"The growth of the demand for Canadian cheese is remarkable, and must be a thorn in the side to home producers, who are in the unenviable position of standing aside, waiting for a turn in the market to the extreme figures which will let them in; for though there is English cheese which can be obtained at prices below those quoted, it is not of the same quality, while even in the inferior grades there are parcels of American on hand which can seriously compete with them at prices down to 34s."

The present is a critical period in the history of the Canadian cheese industry, because of a disposition in some quarters to relaxation of effort and the dishonest and careless practices of patrons. Let there be this season a determined effort on the part of patrons, makers, and all others concerned to produce a better article and a more uniform article than ever before. It will pay a big percentage in ultimate profits on the effort intelligently made. The good work must begin with the man who owns the cow.

TORONTO NEEDS REFORM.

Toronto is again seeking special legislation in the hope of amending the management of its municipal affairs. Somehow or other Toronto has the name of being the worst governed town in Ontario, and there are some who think that no change in the municipal law is likely to improve its circumstances. Washington had a similar experience not many years ago, and like Toronto a huge debt was created without a great deal to show for it. Finally, when the outlook was almost hopeless, Congress took the affairs of the city in hand, and reforms were speedily effected. Perhaps Toronto is not yet quite bad enough to justify its being taken in hand in the same way; but if the Government of Oliver Mowat got possession of the city hall it cannot be doubted but radical and valuable changes would soon follow. It might not be a good thing for the Government, but it would be a good thing for the citizens.

PERSONAL AND GENERAL.

—Ben Butler has been for 56 years a lawyer.

‡‡‡

—There are 320 idle convicts in the Kansas penitentiary, and farmers have to put four horses to a wagon to draw ten bushels of corn into Leavenworth. It takes about five bushels of that to pay his extra taxes to support the prison. The Detroit Free Press thinks that someone should suggest that the bad convicts and the bad roads should be brought nearer together.

‡‡‡

—The proposed new divorce law for England, if passed by Parliament, will assimilate the statute governing the relations of husband and wife to that which has for many years prevailed in Scotland. There a wife may obtain a divorce on the ground of her husband's infidelity, and either husband or wife may obtain a divorce after desertion of four years. Opposition to the bill is expected from the House of Lords.

‡‡‡

—To-morrow the adjourned meeting of the Grand Trunk directors will be held, when the formal vote on the election of directors to fill the places of those retiring will be taken. The present indications are that the ticket suggested by Sir Henry Tyler, president of the road, will be re-elected. Though the dull times and consequent comparatively poor receipts have raised up considerable opposition to the management, it is hard to see how the directors and manager could have produced better results.

Mr. Alfred Day, Ontario Provincial Sabbath school secretary, is prostrated with fever. It is hoped, however, that the more serious issues at one time threatened have now been averted.

A TIMELY TOPIC.

Artemus Ward's Experience in Taking the Census.

The sence-taker in our town bein' taken sick, he depertised me to go out one day, and as he was too ill to giv me informashun how to perceed I was consekently compelled to go it blind. Sittin' down by the roadside I drawd up the follerin' list of questions, which I proposed to ax the people I visited:

"What's your age?"
"Whar was you born?"
"Air you married, and, if so, how do you like it?"
"How many children have you, and do they sufficiently resemble you?"
"Did you ever have the measels, and, if so, how many?"
"Have you a twin brother several years older than yourself?"
"How many parents have you?"
"Do you read 'Watt's Hims' reg'ler?"
"Do you use boughten tobacker?"
"Wat's your fitin' wate?"
"Air you trubled with biles?"
"How does your meerchaum culler?"
"State whether you air blind, deaf, idiotic, or got the heaves?"
"Do you know any opry singers, and, if so, how much do they owe you?"
"Wat's the average of virtoo on the Ery Canarol?"
"If four barrils of emptins poured onto a barn floor will kiver it, how many plase can Dion Boureicault write in a year?"
"Is beans a regler article of diet in your family?"
"How many chickens have you on foot and in the shell?"
"Air you aware that Injianna whisky is used in New York shootin' galrys instid of pistils, and that it shoots furthest?"
"Was you ever at Niagry Falls?"
"Was you ever in the penitentiary?"
"State how much pork, impendin' cryses, Dutch cheese, popler suvrenty, standard poetry, childrens' strainers, slave code, catnip, red flannel, ancient history, pickled tomatoes, old junk perfoomery, coal ile, liberty, hoop skirt, etc., you have on hand."

But it didn't work. I got into a row at the first house I stopped to with some old maids. Disbelievin' the answers they giv in regard to their ages, I endeavored to open their mouths and look at their teeth, same as they do at hosses, but they soon floo into a violent rage and tackled me with brooms and sich. Takin' the senses requires experiunse, like any other business.

The Great Blood Purifier.

A Word to the People. | "Truth is Mighty, and will prevail."

THE remarkable effects and most satisfactory results, in every variety of disease arising from IMPURITIES OF THE BLOOD, which are experienced and made manifest from day to day, by those who have taken NORTHROP & LYMAN'S VEGETABLE DISCOVERY, for complaints which were pronounced incurable, are surprising to all. In many of these cases, the persons say their pain and sufferings cannot be expressed, as in cases of Scrofula, where apparently the whole body was one mass of corruption.

This celebrated medicine will relieve pain, cleanse and purify the blood, and cure such diseases, restoring the patient to perfect health after trying many remedies, and having suffered for years. Is it not conclusive proof that if you are a sufferer you can be cured? Why is this medicine performing such great cures? It works in the BLOOD, the Circulating Fluid. It can truly be called the

GREAT BLOOD PURIFIER.

The great source of disease originates in the BLOOD, and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention. When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, NORTHROP & LYMAN'S VEGETABLE DISCOVERY will renew the Blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

The conviction is, in the public mind as well as the medical profession, that the remedies supplied by the VEGETABLE KINGDOM are more safe and more effectual in the cure of disease than mineral medicines. The Vegetable Discovery is composed of the juice of most remarkable roots, barks and herbs. It is pleasant to take, and is perfectly safe to give an infant. Allow us to ask you a candid question:—Do you need it? Do not hesitate to try it. You will never regret it. All druggists have it for sale.

MR. JOHN C. FOX, Olinda, writes:—"Northrop & Lyman's Vegetable Discovery is giving good satisfaction. Those who have used it say it has done them more good than anything they have ever taken."

IN ITS WORST FORM.—MISS JULIA A. PILSWORTH, Toronto, writes:—"I had Dyspepsia in its worst form for over a year, but after taking three bottles of Northrop & Lyman's Vegetable Discovery, a perfect cure followed. I take great pleasure in recommending it to anyone suffering from Dyspepsia."

MR. W. THAYER, Wright, P.Q., had DYSPEPSIA FOR TWENTY YEARS. Tried many remedies and doctors, but got no relief. His appetite was very poor, had a distressing pain in his side and stomach, and gradual wasting away of flesh, when he heard of and immediately commenced taking Northrop & Lyman's Vegetable Discovery. The pains have left, and he rejoices in the enjoyment of excellent health; in fact he is quite a new man.

Opening Day for the Eastern Baseball League.

Chub Collins Charged with Jumping a Marriage Contract—Turf, Cricket and Other Sporting News.

BASEBALL.

In the Association Saturday's results were: Baltimore 4, Boston 2; Columbus 9, St. Louis 3; Athletics 12, Washington 11; Louisville 11, Cincinnati 9.

Saturday's games in the National League: Chicago 8, Pittsburg 7; Boston 5, New York 2; Philadelphia 3, Brooklyn 1; Cleveland 23, Cincinnati 7. Cleveland made 26 hits off Radbourne.

Mickey Jones, of Hamilton, may go to Detroit this summer to pitch for the Detroit team. Negotiations are pending. Bay City is also after him, but it is likely if he goes any place that he will go to Detroit.

The attendance at the opening game in Buffalo of the Eastern Association was a little over 3,000. The attendance at the game between Troy and Lebanon at Troy was less than 1,000. At New Haven there were 2,000 and at Rochester 1,300. Scores: Troy 4, Lebanon 5. Rochester 8, Albany 9. New Haven 9, Providence 8; Buffalo 10, Syracuse 0.

Legal proceedings have been begun against Charles, better known as "Chub" Collins, the well-known baseball player, of Dundas, for breach of promise of marriage. The plaintiff is Miss Phœbe Smith, who formerly was employed at the Dundas cotton mills, but who now resides in Hamilton. It is stated that an effort is being made to come to a settlement. Collins is at present at Denver, Col., acting as umpire in one of the large leagues. The plaintiff's solicitor is waiting for an answer from him before going further with the suit.

THE TURF.

Last year five American jockey clubs gave $1,004.330 alone in added money at their race meetings. The Monmouth Park Jockey Club gave $246,500, Coney Island Jockey Club $229,900, New York Jockey Club $222,605, Brooklyn Jockey Club $197,125, Washington Park Club, of Chicago, $108,200.

A bit of turf superstition hangs about that celebrated English steeplechaser, George Pratt. A few weeks ago he was three times winner at the Ailesbury events, but he mounted in a final course a powerful gelding named King Death. The horse is not favored because of his name, and he heavily threw his rider at a fence, breaking Mr. Pratt's collarbone and otherwise so contusing him that he was not expected to recover.

It is generally acknowledged that Robert Bonner, of New York, notwithstanding that he never races his horses for money, has done more to elevate the trotting horse to his present position than any other man in the country, simply because it was generally known that he was ready to buy the best trotting horses in the land at a very long price, and every producer in the country was striving to get that best one and obtain Mr. Bonner's money.—[Minnesota Horseman.

FOOTBALL.

On April 13 the Wolverhampton Wanderers and the Blackburn Rovers, both visited Glasgow to play league clubs. The Rovers only made a draw of five goals each with the Celtic, but the Wolves beat the third Lanark by three goals to one. Their game was witnessed by 12,000 spectators.

The adjourned general meeting of the Ontario Rugby Football Union was held on Saturday in Toronto. G. Black, of Montreal, was present, representing the Quebec Union, and presenting a memorandum of suggestions from the Quebec Union for the formation of a Canadian Union. Delegates were appointed to confer with the Quebec Union with power to arrange details of a Canadian Union.

CRICKET.

The Hamilton Cricket Club has arranged several matches. If Guelph will play there on May 25 a match will be arranged; if not the club will likely come to London.

Cricket clubs throughout the country are fast organizing.

ATHLETICS.

Jackson has accepted the Sydney, Australia, club's offer of a $5,500 purse for a finish fight between him and Joe Goddard, the barrier champion, with whom he fought an eight-round draw last winter.

Stakeholder Larry Killian, of Boston, refuses to divide the $11,000 purse between the combatants in the Griffin-Weir fight, claiming the money will not to be earned until the men fight to a finish. If they do not fight they will get simply the $150 provided for in the articles provided the fight did not come off.

The race for the ten mile amateur running championship of England, decided at Manchester April 11, proved a rather exciting one. Kibblewhite, the holder, was absent, but a splendid contest ensued between W. H. Morton, of the Salford Harriers, and Sid Thomas, Ranelagh Harriers. These two kept close company until 250 yards from home, when Morton sprinted right away from his rival and won, looking round, by about fifteen yards, in the splendid time of 52 minutes 33 4-5 seconds. The Scotch champion, A. Hannah, Clydesdale Harriers, was third, a lap behind Thomas, beating the fourth man, W. H. Parry, Salford Harriers, by fifteen yards.

SWIMMING.

Miss E. J. Lacy attainted her 16th birthday on the 4th inst. This young Australian heroine, after the Quetta went down in Torres Straits on Feb. 28 last year, performed the magnificent feet of swimming for 30 hours—from 9 o'clock Saturday morning to 3 in the afternoon on Sunday. Miss Lacy was on her way from her home, near Mackay, Queensland, to England. She is now living at Carlisle, none the worse for her terrible experience.

PIGEON FLYING.

At a meeting of the Ontario branch of the Dominion Messenger Pigeon Association at Toronto, the chairman announced that it had been decided to have four homing pigeon races in connection with the Toronto Industrial Exhibition, as follows: From Montreal to Toronto and vice versa, two prizes; from Kingston to Toronto and vice versa, three prizes; from London to Toronto and vice versa, two prizes; from Guelph to Toronto and vice versa, two prizes. The resignation of Secretary Wagner was then considered and accepted, Mr. Jas. Gairdner, jun., being elected in his stead.

THE TRIGGER.

The annual prize meeting of the National Rifle Association of England at Bisley will open on July 13.

Some of the London Gun Club members had a practice shoot at 30 birds Saturday, resulting as follows: Redpath 25, Nichols 19, Teekay 17, Swift 12, Hindley 6.

The Human Body Affected by Atmospheric Changes.

It is believed by many scientists that the electrical conditions of the atmosphere have a considerable effect upon the human body. Many persons are seriously affected during a thunder storm, under circumstances that preclude the supposition that the effects are owing to fear. There are many persons that can predict a storm by a peculiar physical condition. Probably much of the influence of certain winds upon the system is owing to this cause.

It is an acknowledged fact that broken-down and debilitated systems are easily and often most seriously affected by electrical atmospheric changes. These varied changes and conditions of atmosphere at this season are particularly fraught with difficulty and danger to those who suffer from nervous debility, a tired, wearied feeling, a clouded brain sensation, restless and disturbed sleep, a languid feeling, a morose disposition, melancholia and feelings of morbidness. All of these characteristics are to be dreaded; they are symptoms which lead to terrible and direful results, unless promptly attended to. The genius and science of man has fortunately come to the rescue of suffering humanity with that wonderful preparation, Paine's Celery Compound. It is no simple tonic, causing exhilaration at the moment it is used, without after effects. It is a true brain and nerve food, gives strength and vitality to all parts of the system, and builds up a body with vigor to resist the various forms of disease which lurk around. Paine's Celery Compound has always been successful when physicians have failed; it has given life and strength to the weak, and long years to the hopeless and despairing one.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

Never attempt all you can do; for he who attempts everything he can do often attempts more than he can do.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50 cents and $1. ywt

The Onota Chemical Company has been organized at Marquette, for the purpose of manufacturing wood alcohol and other products from the smoke of the charcoal kilns at Onota, Alger county. The capital stock is $200,000. It is incorporated by well-known Marquette capitalists, who are assured of a good market for their output. The plant will be in operation by mid-summer.

Mr. J. R. Allen, upholsterer, Toronto sends us the following: "For six or seven years my wife suffered with Dyspepsia, Costiveness, Inward Piles and Kidney Complaint. We tried two physicians and any number of medicines without getting any relief, until we got a bottle of Northrop & Lyman's Vegetable Discovery. This was the first relief she got, and before one bottle was used the benefit she derived from it was beyond our expectation."

The Grandville Congregational Church fight has broken out in a new spot. The trouble arises over the dismissal of a pastor several weeks ago, which action divided the congregation. One faction now has the keys and the other faction wants to get in. Matters came to a focus the other day when the outs tried to get in, and the ins held the fort with revolvers drawn and clubs within easy reach. The difficulties will probably be aired in courts.

GAS GUNS.

A New Agent for Propelling Dynamite Projectiles.

NEW YORK, April 27.—A Washington dispatch to the Herald says J. W. Graydon, formerly of the navy, has recently written from London to President Harrison directing the latter's attention to the new gas-producing agent for throwing large masses of high explosives in torpedo shape. He offers to convert all the smooth-bore cannon now mounted in the United States forts into dynamite projectors by applying the gas reservoirs thereto in a month's time at trifling expense. The composition of the new propelling agent, he says, is a secret, only the results being demonstrated. The advantages claimed for the new invention are the cheapness of manufacture, being as cheap as ordinary gunpowder, safety in handling, and the high velocity it gives the projectile with a low pressure.

Mr. Graydon claims this new discovery greatly simplifies the projection of large masses of high explosives, doing away with the air compressers and other complicated machinery appertaining to pneumatic dynamite guns, and is free from the danger of explosion within the gun incident to the use of gunpowder. The new agent is to be manufactured in different grades, each grade having a recorded accelerated pressure of from 5,000 pounds to 10,000 pounds to the square inch, so that charges may be selected to suit the distance to what it is desired to throw the projectile containing the explosive. Ordinance experts, while ignorant of the merits of Graydon's invention, do not hesitate to say he is on the right track and that he really has a new gas-propelling agency giving the results claimed.

THE WORKING WORLD.

A Strike of Formidable Proportions—The Eight-Hour Movement.

Now that the pay-rolls of the trainmen on the Big Four have been adjusted it is shown that their pay is an advance of just 13 per cent. over the old basis.

The Detroit street car companies and their striking employes referred their disputes to five arbitrators for adjustment, and the men return to work on their own terms pending the decision of the arbitrators.

A Berlin dispatch says: "The miners' strikes are attaining formidable proportions around Bochum. Most of the pits are closed. The strikers in the Essen district exceed 15,000. The Bochum miners have appointed 21 delegates to negotiate with the masters for a work day of eight hours and increased wages."

The agreement of the Pittsburg Valley, Ohio, miners to work this year at the present rates and nine hours a day may break the back of the eight-hour movement of the miners this year. It is expected this settlement will compel the remaining Ohio miners to accept similar terms.

The weaver's strike, which has for a long time caused many mills at Bradford, Eng., to come to a standstill, was settled on Monday. The weavers all returned to work.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and conver the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

Curative Fluid

The satisfaction of hunger is one of the keenest delights; nature intended it to be so. Yet how many become miserable after eating. A lady called on me and said she was afraid to eat, as directly afterward it made her wretched. I advised her to try the "Curative Fluid," she wanted to know what effect it would have, I explained to her that it would neutralize the excess of acid that prevented the food from digesting; that it would assimilate the food, and make healthy blood, thereby removing the dreadful depression and nervousness she complained of. In three days it affected a complete cure.

Skin Disease

The "Curative Absorbent," used externally, will cure any form of skin disease, eruptive or blotchy face, or money refunded.

Catarrh

The above preparations are the only ones that will effectually remove this loathsome disease. Within 24 hours relief will be felt.

Live Stock Markets.

EAST BUFFALO, N. Y.

EAST BUFFALO, April 27.—Cattle—156 cars on sale. There was a shortage in the supply of butcher cattle, and anything at all desirable for the butcher trade went at 10c to 15c higher prices than last week, except the heavy grades of store weighing about 1,400 lbs. For this class the demand was limited. Good fat plain Kansas steers, of 1,400 lbs, brought $5 90, and the best load of fine steers of heavy weight sold at $6 20, about last week's range; for lighter weight steers, of 1,000 up to 1,150 and 1,200 lbs, the supply was light; demand very good, and when at all fat sold at 10c to 15c advance on last week's values; fat cows of fairly good weight, heifers and good light steers, if fat, sold quick at 10c advance, and the other stuff sold about steady prices; oxen and common heavy steers fully as strong as last week's prices; oxen generally $4 to $4 50; extra nice ones $5 per cwt.; bulls steady, and in cases higher. There were too many stocker cattle, 50 cars being on sale; the tops brought last week's prices, but common dragged and sold at 10c to 15c less; there was only a moderate supply of dairy cows, and buyers bought them up freely at $40 to $42 for ordinary medium grade milkers and springers; last night a number more were received, and medium grade cows sold all the way from $33 to $37 to-day, while common quality milkers and springers went at $18 to $22; good to choice family cows held their own; fancy New York, $40 to $45, with good demand for that kind; there was a very liberal supply of veals and a fair showing of corn-feeding calves; while the demand was good, prices were about ¼c lower than last week; a few extra good veals sold at $5, but good were mostly weak, $4 50 to $4 75; common to ordinary were $3 50 to $3 75; the cattle market closed steady and strong, with the yards well cleared of butchers' grades.

Sheep and lambs—An excellent demand and active market; 65 cars on sale; choice clipped sheep, $5 50, with an Eastern load at $5 75; choice clipped lambs, $5 50 to $6; the market closed steady, with a firm tone to the trade.

Hogs—Market slow and draggy; a few loads only were taken by the New York buyers, and the country trade was very light; about 50 cars were on sale, a number of which held over unsold; pigs of the best offering ruled steady at $4 75; a few catch sales of packers' and butchers' grades sold at $5 45, but this class of hogs and the heavy-weight porkers went generally at $5 20 to $5 30, with lighter weights at $5 10 to $5 15, the market closing dull and prospects lower.

THE BRITISH TRADE.

EDINBURGH, April 18.—John Swan & Sons' weekly report says: The number of fat cattle on offer in Edinburgh this week has been fairly large. Trade was quieter, and prices, especially for heavy bullocks, rather lower. In Glasgow, owing to the short supply, trade was slightly better. Fat cows have made 10s a head more money, while bulls have also been the turn dearer. In Edinburgh the number of shop sheep was under that of last week, and they met an improved demand, at 1s to 2s more money. Owing to the very bad returns from London sheep adapted for that market have made no improvement in price. Ewes are coming to hand in small numbers, and they sell at full prices. Fat lambs are also in short supply, and they make from 38s to 48s for the best. In Glasgow there was a very full supply of sheep, and all over they met a worse trade than last week at quite 1s a head less money. Store sheep have been much more numerous, but owing to the barren weather and the scarcity of turnips, trade in this department is slow and prices have to be accepted, which leave a very small margin for winter keep. Milch cows have been a larger show, and they have met a slow trade at 20s to 30s a head reduction, especially on secondary descriptions. Best beef, 7s 9d; secondary, 7s 3d; inferior, 6s 3d to 6s 9d per stone. Best mutton, 8½d; heavy sheep, 7½d; secondary, 7¼d to 7½d; ewes, 6½d to 7½d per lb.

MONTREAL.

MONTREAL, April 27.—About 350 head of butchers' cattle, 300 calves and 80 sheep and lambs offered at the East End abattoir to-day. Trade was brisk, but prices were about ¼c per lb lower than on Thursday, although considerably higher than on last Monday. No cattle were bought by shippers to-day. A few head of the best beeves were sold to butchers at 5½c per lb, with pretty good stock about 5c per lb. Rough beasts brought 4½c to 4¾c per lb. Milkmen's strippers were plentiful and prices from $2 to $3 lower than on Thursday, or from $30 to $45 each. The best calves were bought up before reaching the market. Common veals sold at from $2 to $5 each. Both sheep and lambs were in brisk demand at $5 to $8 for unshorn sheep and $4 to $6 for shorn ones. Lambs, $3 50 to $6 each.

Fat hogs are more plentiful and sell at about 5½c per lb.

The Dairy Markets.

UTICA, N. Y.

UTICA, April 27.—The transactions of the Board of Trade were as follows: Cheese—750 boxes at 10⅛c, 130 boxes at 10⅜c, 250 boxes at 10⅝c, 900 boxes on commission.

Butter—Six packages creamery butter at 25c, 24 packages of creamery at 24½c.

CHICAGO.

CHICAGO, April 27.—Hogs—Receipts, 25,000; quality poor; left over, 7,000; market moderately active; prices 10c to 15c lower; packers buying slowly. —While the yards and premises of citizens are being cleaned up rapidly, the refuse heaps on the river banks seem to grow in proportion.

—Rev. Canon Davis gave special sermons Sunday at St. James' Episcopal Church—in the morning to old people and in the evening to the young folks.

—Do you want to sell goods more rapidly? You can do so if you judiciously advertise in the ADVERTISER. Its numerous editions reach many thousands of people of all trades, occupations and callings.

—The Vancouver (B.C.) News-Advertiser says that Col. Tracy has telegraphed declining to leave London owing to some hesitancy on the part of the mayor of Vancouver to pronounce the appointment legal.

—Complaints regarding the inefficiency of the street watering facilities have been numerous during the past few days, but it is expected that the contractors will have everything working smoothly in a very short time.

Engineer Findlay and Caretaker Summer are getting ready for summer visitors.

—Mrs. Moore's soiree musicale in aid of the W. C. T. U. Friday evening was largely attended and most enjoyable. The singing of the Ladies' Choral Club was a marked feature of the performance, and the introduction of real sleigh bells into the part song "The Sleigh" was novel and very pretty. Owing to indisposition Miss Quita Moore was absent, but an extra song by Miss Hutchinson, a piano solo by Mrs. Moore and a piano duet by that lady and her little daughter Winnie supplied the deficiency. Misses Tackey, Hutchinson, O'Dell, Gibson, Flory, Holmes and Edge distinguished themselves by their charming singing and playing.

Fogarty Sentenced.

Thomas Fogarty was honest enough to plead guilty to being a pretty bad thief before Judge Davis yesterday. Within a short period he has stolen a watch and chain from H. Purdy, of Appin; a pair of trousers from A. C. Bayley, of Oxford county, and $36 13 from D. McEcheran, of Ekfrid, into whose house he broke. He was given nine months for each offense, sentences to run concurrently.

McDonald vs. McDonald—An action brought by Mary McDonald, of Rodney, to have a certain mortgage made between Peter McDonald and his brothers, A. C. McDonald and Duncan McDonald, declared fraudulent and void. It is alleged by plaintiff that Peter McDonald, to escape payment of moneys standing against his property, mortgaged it to Harrison & Rathbun and deeded it to his brothers. Cassels for plaintiff; Macbeth for Peter and A. C. McDonald; Weld for Duncan McDonald and Cox for Harrison & Rathbun. The application of plaintiff to have this case postponed was taken into consideration.

"Charles Santley" Concert, Thursday.

The plan for this great event opens this (Tuesday) morning at 10 o'clock. Nobody of any musical taste should miss this treat. It is very rarely indeed that London is favored—it might be said honored—by such a great artist as Mr. Santley has proved himself to be. All along the present tour he has met with perfect ovations, the American press everywhere bestowing upon him the warmest praise, and it now remains for Londoners to show their appreciation of his wonderful gifts. For over twenty years Mr. Santley has occupied the exalted position of the "world's greatest baritone," during which time he has sung with all the greatest singers of the day and received numerous honors at the hands of various sovereigns. He has been knighted by the Pope, and it is said by those who know that a similar honor awaits him from the Queen, with whom he is a warm favorite, upon his return to England. Many have tried to share his honors, but all have failed, and to-day from England, Austria and America the universal opinion is, "the greatest living baritone." The support will be first-class in every respect, and it is believed that never in London's history has there been a greater musical event than this will prove. Everybody should be on hand early, especially those who intend booking balcony seats, which at $1 are sure to be quickly taken up.

What Good Behavior Will Accomplish.

"I can truly say that my work and operations extend over the whole Dominion at the present time. However, just a month ago, a grocer engaged me to go to a remote village in Ontario to work for people who heard of my reputation. The grocer assured me that from what he heard the people would receive me kindly and joyously. He said two would-be workers at my trade had been tried, but the people were very indignant about the miserable work they turned out. I went away with the grocer, and was introduced by him, and just think of it! I have now the whole field to myself. The people call me 'honest working and trusty Diamond Dyes' and will employ no other."

Eloped with his Neighbor's Cook.

Philip Swan has eloped with his neighbors cook. He was so delighted with the bread, biscuits and cake she made with Imperial Cream Tartar Baking Powder that he fell desperately in love with her. He has promised however, to return to his wife if she will use the same, which she will now do as it is the only reliable.

TERRESTRIAL HEALING

A branch office of the Magnetic Meridian Vitapoise Company is now permanently located at 294 Dundas street, for the purpose of giving practical demonstrations of the healing virtues of the "Vitapoise," (or miniature earth.) It is the most wonderful healing instrument ever discovered. It only fails to cure the afflicted when their case is hopeless, and it makes no difference what ails you.

If you would like to investigate "TERRESTRIAL HEALING," call at the office, and Prof Reid, will cheerfully explain to you the mysteries of the subtle healing force contained in a Magnetic Meridian Vitapoise.

Separate rooms are fitted up for the treatment of ladies and gentlemen. We want every family and physician in Canada to buy a "Vitapoise," and we will accomplish our object if an afflicted member of every tenth family will give the instrument a trial, by taking a "course of treatment." Its application is absolutely painless and is also harmless: but disease will flee from before it as if driven away by magic.

Physicians! try a "Vitapoise" on one of your patients, having either la grippe, inflammation, fever, insomnia, neuralgia or rheumatism, and thereafter your "medical case" will be a secondary consideration so long as you have a "Vitapoise" with you

The Nugents of Carriconna

An Irish Story.

BY TIGHE HOPKINS, AUTHOR OF "TWIXT LOVE AND DUTY," "FOR FREEDOM," ETC.

"You are going to have a splendid crop of fruit, Miss Nugent."

"I think it is," said Barbara, pausing in her work to eye with affection the wealth of white blossoms all about her. "These beds are just in their prime. John Maher and I replanted them three years since. There, that's enough for them to-day. Come, till we look at the roses; there's fine promise in them, too."

"Look," said Dora pointing through a break in the plantation beyond; "are those the two ash trees from behind which Mr. Treucharn was shot at?"

"That's the direction, any way," said Barbara. "What splendid sight you've got. Who's this Anthony's bringing up the drive? That's the Boyne Abbey car. It's Lady Frayne and Kitty. Have they seen us, d'ye think? I'm in my garden gown, and I might change it."

But Kitty, who was driving, signalled Barbara with her whip, and she knew that if she went to make a fresh toilet now Lady Frayne would have something to say on the subject.

Kitty sat on one side of the jaunting car, and her mother on the opposite side, and Kitty had on the seat beside her what looked like a short and well-filled bolster, but what was in fact a heavily-weighted cushion which served as ballast, and maintained the equilibrium of the car. The necessity of this arrangement was more plainly seen when, as Anthony assisted Lady Frayne to alight, her side of the car tilted up alarmingly.

"These cars are terribly awkward things when a person gets to be my weight," remarked her ladyship. "I declare, Anthony, you couldn't give me much at the scales now!"

"Go long with ye," said Anthony. "I'm the lighter of the two this minyut. I'll introduce Mrs. Lytton, with your leave, Sarah. My neighbor, Lady Frayne, Mrs. Lytton. Sarah, I wish ye could hear Mrs. Lytton talking of the powers of an equinoctial telescope."

"Equatorial," said Dora, laughing in the midst of her bow to Lady Frayne.

"Is that the hat Kitty's been distracted about?" asked her ladyship. "I've been moidered about that hat, Mrs. Lytton, this twenty-four hours. Its a grand hat, I declare."

"Well, and how is everything at the Abbey?" said Barbara. "Are you still in trouble with the steward?"

"I am, indeed," replied Lady Frayne. "I am sure he's robbing me right and left. I'm a great coward not to have sent him off long ago. But ye see the way of it is, there are half a dozen of the family working about the place, and they have their relations all over the village; so if I sent the steward packing to-morrow, as I ought to do, we'd be boycotted by the whole neighborhood."

"That's not a pleasant look-out, to be sure," said Barbara.

"Deed no, it isn't," said Lady Frayne. "But that's just the way I am, and I don't know what I'll do. Here's the hay nearly ready to cut, and if I send Mangan about his business, Kitty and meself will have to cut it the best way we can, and the corn after it."

"We'll give ye a hand from here, if it comes to that," said Anthony.

"Yes," said Kitty, "I said you would. I don't believe it would be so dreadful at all. The summer would be a big picnic."

"Yes," said her mother, "with the police to wait on you with fixed bayonets. I'm not for picnicing that way, if it's to be helped, I can assure ye, Kitty."

"Oh! well I hope it won't come to that with ye, Sarah. But we'll go round to the garden, and have some tea out there," said Barbara. "Kitty, I don't know where John Maher is; ye'd better drive round to the yard, and maybe ye'll find him there."

"Well, and where's this telescope, Anthony?" asked Lady Frayne. "Oh! I forgot ye've just sent for it, ye said. It's a great piece of work you have before you, Mrs. Lytton. Will ye ever make an astronomer of him, d'ye think?"

"Oh, yes! indeed I shall, Lady Frayne. He would astonish you already, and he has only had one lesson."

"That's very promising, I declare! Will ye give us a taste of your knowledge, Anthony?"

"Well, why wouldn't I? Listen to this now, Sarah. If ye took train from Dubl'n after y'r dinner this evening, how long d'ye suppose ye'd be getting to Jupiter?"

"Faith! I'd be long enough, I don't doubt."

"Ye'd be about two thousand years, Sarah."

"I would and longer; for I'd never get to Jupiter that way at all—nor you either, Anthony. We'd get there as soon on the car."

"I see ye have no head for astronomy, Sarah. Ye're not teachable that way. It wants just the lowliest spirits in the world."

"Oh! in that case you're the very man for it. Mrs. Lytton, you're lucky in getting so natural a pupil. Here's Kitty with Mr. Trenchard, I think."

"Yes, indeed," said Barbara. "It's a great while since he honored us with a call. How are you, Mr. Trenchard? I was just saying it's long since you were here."

"I submit to the plea of work," said Trenchard, who looked very well and handsome that afternoon, in his riding kit of medium grey and round grey hat to match. "You astronomers, you know, and you scientific gardeners," he added, turning to Anthony and from him to Lady Frayne, "require to work in peaceful surroundings. It's my business, don't you see, to keep everything nice and quiet for you. Doesn't somebody remember it?"

Trenchard's eyes were already upon Dora, and Dora's flutty tones responded to his question:

"The wretch that works and weeps without relief."

I really beg your pardon, but your question brought that line from Cowper into my mind," she said smiling.

"The line that wouldn't come into me own mind," returned Trenchard. "Thank you."

The quotation seemed so absurdly inapt (Trenchard looking like some light-hearted knight of the Castle of Indolence) that everybody laughed, but Trenchard's laugh was the briefest.

"Ye've met Mrs. Lytton before, I think," said Anthony, with a grin all to himself.

This being the first time he heard Dora's name, Trenchard bowed to her as he replied:

"I have had that pleasure and advantage, Mrs. Lytton was liberal of her aid to two poor fallen creatures, one of whom, at any rate, but for her might not have risen again."

"There's a grand speech for you! What's it about pray? Have you been in a bog-hole?" asked Lady Frayne, staring through her tortoiseshells alternately at Trenchard and Dora.

"Indeed it's no fault of his own that he isn't in it now—he and his horse," said Anthony.

"But what's the story?" chimed Kitty. "I'm sure it's not like you, Mr. Trenchard, to ride into bog-holes."

"He was the most adventurous rider in Ireland that night, from what I hear," put in Barbara, and slipped away to the house.

"The first that ever took a horse over that bit o' the bog, anyhow," said Anthony.

"Give him leave to tell it himself, can't ye?" said Lady Frayne.

Trenchard told the adventure, giving, as may be supposed, full honors to Dora.

"I don't think I did quite all that," she said, Trenchard having credited her with the agility of an acrobat and the strength of an Amazon. "But if I had done even more, it would have been worth while, for the sake of the pretty thanks Mr. Trenchard's horse gave me when we had pulled him out."

"And how did he thank ye?" inquired Lady Frayne who was rather interested in Dora, and thought Anthony a fool for keeping her a moment on his premises. "She'll make what running she likes here, I'll go bail!" reflected her ladyship.

"Oh! in the most delightful way. He thanked me with his eyes and he shook hands with me.

Here came Kate Quinn with the tea-tray, followed by Barbara with the cream-jug, an article she was rather jealous of, for of late years cream had been chiefly noticeable by its absence at Carriconna. John Maher brought up the rear with a ponderous wicker chair for Lady Frayne, one of Anthony's new purchases, the others being left to seat themselves where and as they pleased.

Soothing Magic.

The unspeakable comfort in feeling pain pass away is well set forth by Mr. Albert Heege, Clayton, Mo., U. S. A., August 1, 1889, who says: "I suffered fourteen days with a sprained wrist, and a swelling formed, growing larger and larger. It disappeared as if by magic after using one bottle of St. Jacobs Oil." It is the best remedy.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents.

The Barber Beat Him.

The barber drew his fingers gently across the face of his victim, and said:

"You have a strong beard, sir."

There was no reply. He caressed the silky locks, and queried:

"Have a shampoo, sir? Your head really needs it."

The stillness remained unbroken.

"Shall I wax your moustache, sir?"

No reply.

"Sea-foam, sir?"

The man in the chair drew a small tablet from his pocket and wrote on it:

"I am deaf and dumb."

On the wall beside the mirror hung a large "No Credit" card. The barber turned it and pointed to the motto on the reverse side. The inscription was this:

"Deaf and Dumb Men Double Price."

"No shampoo, no wax, no sea-foam," said the disgusted man in the chair, suddenly finding a voice.

"All right, sir," rejoined the barber. "Thought I'd fetch you round. Fine day, isn't it?"—[Chicago Tribune.

RADMAN'S MICROBE KILLER.

In these days of nauseating puffery of patent medicines people are apt to place them all in the same category. This remedy is different from anything ever placed before the public. It destroys Microbes, Fermentation, Decay, and cures all diseases.

THE MICROBE KILLER

has been officially indorsed by the Board of Trade and City Council of St. Joseph, Mo., a city of over 100,000 inhabitants. Has anyone ever heard of such marked distinction for any medicine in existence? If evidence will convince, we have enough to convince the most skeptical. Fullest investigations solicited. Pamphlets with testimonials free.

LONDON AND ENVIRONS.

—In tireless whirl this earth is found
Forever toward the morrow humming;
The love that makes the world go round
Must be the love of what is coming!

—Residents of Richmond street, north of the C. P. R., should see that the roadway is sprinkled.

—W. G. Murdock, of this city, has secured the contract for removing the old town hall at Wingham.

—Mr. and Mrs. Fred Fysh have returned from their trip to the east. They are still receiving congratulations.

—John Kerr, Wingham, was tendered a farewell supper the other evening prior to coming to this city to reside.

—Mr. Geo. W. Miller, business manager of the St. Catharines Standard, spent Sunday in the city. He had an interesting mission working for Colonel Aylmer, and was teaching an athletic class, most of them medical students. They only meant to spar with eight-ounce gloves for a benefit. Peters seemed to treat the whole affair as a huge joke, grinning serenely throughout. He said he wanted to leave the city for Buffalo right away. The magistrate decided to allow him to go on his own bail for $100, provided he did not come here again without the permission of the county attorney. Clarke, who Chief Williams stated had been on a spree for some time, was remanded for a week.

—"Aunt Jack" to-night.

—Since the reduction in rentals new telephones are being put in with a rush.

—G. C. Martin arrived home on Friday night from London, Ont., where he had been for the past week.—[St. Catharines Star.

—James Murphy and Thomas McGregor, charged with vagrancy, were released by the police magistrate yesterday. They left the city as soon as possible.

—London promises to be more beautiful than ever during the coming summer. A great many residents are engaged in sodding, gardening, tree planting, painting and generally renovating.

—R. R. Barker, son of P. O. Inspector Barker, of this city, has been gazetted second lieutenant in "K" Company (University) Q. O. R., Toronto. He is also president of the University Glee Club.

—"Yes," said a Port Stanley resident, "we expect more people than ever during the coming season at the Port. Quite a number of Londoners will put up new cottages. Last year's boon will be nothing to it."

—W. V. Wright, a missionary at Tokio, Japan, son of E. Wright, of Pickering, a former resident of the city, has been obliged to leave his field of labor owing to lung trouble. He may come to London for treatment.

—Residents complain of the unruly gang of small boys who assemble every night at the corner of Clarence and King streets. The urchins are so nimble and know the adjacent alleys so well that the police cannot get near them.

—About 50 of the boys and girls from the Protestant Orphans' Home, looking neat and clean, attended St. James' Presbyterian Church Sunday morning. The pastor, Rev. M. P. Talling, preached a special children's sermon.

—B. J. Throop, manager of the Bell Telephone Company, this city, left yesterday for Kingston, where he was called owing to the death of Mrs. Throop's brother-in-law, W. O. Strong, a prominent Government engineer, who was well-known in this city.

—The florists are now doing a rushing business. Among the most carefully-kept greenhouses to be seen in the Province are those of Gammage & Sons, Oxford street east. The number of visitors they have had lately would indicate that floriculture is very popular with Londoners.

—Six fire alarms in 47 hours is a record seldom made in this city. That was the number received on Friday and Saturday, the last one being at 6:45 Saturday evening when a barn on the premises rented by Mr. Strathdee was partially destroyed. Mr. D. B. Burtch, Lambeth, owned the structure and Dr. Logie kept his horse in it. Loss not over $100.

—J. J. Haylock, Oil City, writes: "If your Exeter subscriber will furnish me his address I can give him some valuable information about his hens. If they have been troubled with cholera, a friend of mine has a remedy which has proved a cure in every instance, and I have no doubt that it is an egg-producer, also."

—Acting on a letter sent by Mayor Taylor, the St. Thomas City Council is considering the advisability of joining with London in the petition for power to this city to lease or sell the London and Port Stanley Railway. The impression of St. Thomas' city solicitor is that the proposed legislation would place the control of the road entirely upon the hands of London.

—Frank Brown, a 12-year-old youngster, has been before the police magistrate several times, the last occasion being yesterday. He has a bad habit of running away from home and a sad lack of obedience to his parents. Two of his chums, the Brennan boys, were sent to the reformatory last week, and as Mrs. Brown thought their removal would have a good effect on her son, he was allowed to go on suspended sentence.

—G. T. R. Constable Logan was showing a few friends through his office on Saturday afternoon, and surprised R. A. Renwick, one of the group, by asking him to accept a gold-headed cane. It was a memento from the recipient's fellow-workers on the local staff of the ADVERTISER on the occasion of his departure to the Hamilton Herald. Mr. Logan's scheme for surprising the departing scribe worked like a charm.

South London Royal Templars.

The Royal Templars of South London held their third monthly Gospel temperance meeting in the Baptist Church Sunday afternoon. The building was crowded to its full capacity. Rev. Mr. Walker occupied the chair, and in addition to the speakers there were present on the platform Rev. Messrs. Ballantyne, McIntyre and MacMillan, of Auburn. Rev. A. C. Courtice delivered a thoughtful address on the drink bill of the nation, and of the community, with its train of evils. U. S. Consul Leonard followed in the same line with a brief, vigorous address. The singing was spirited and appropriate. Mrs. (Hon.) David Mills presided at the organ.

The Prize-Fighters in Court.

The fact that George Peters, of this city, and "Professor" J. W. Clarke, of Boston, the pugilists about whom a great deal has been heard recently, would be arraigned before the magistrate yesterday, drew quite a crowd to the Police Court. Peters was run in on Saturday night by Detectives Phair and Rider, and Clarke was arrested yesterday in a saloon, most of his face buried in a schooner of beer at the time. They were charged with being about to become principals in a prize fight. Crown Attorney McKillop produced two printed tickets, valued at $4 and $5 respectively, announcing that to-night the two men would fight to a finish. Mr. Love, for the defence, said Peters had returned home from the States to assist his father, who was in poor circumstances, and merely intended holding a sparring match in London township. Clarke maintained that he was

Have You Thought of It?

For four thousand years or more the world groaned, suffered, and fumed about its corns, for there was no positive relief—no certain and painless cure until Dr. Scott Putnam gave to the world his great Corn Extractor. If there is suffering now it is a result of carelessness, for the remedy is at hand. Try Putnam's Corn Extractor. It is sure, painless and prompt. Beware of substitutes. N. C. Polson & Co., proprietors, Kingston.

Statistics prove that only one man in a million lives to be 108 years old.

When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.

Denver is a mile higher than the Mississippi Valley.

Mr. Job Scales, of Toronto, writes: "A short time ago I was suffering from Kidney Complaint and Dyspepsia, sour stomach and lame back; in fact, I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."

Spring.

At this season of the year everything seems to spring forth in all its freshness and wanton vigor. But corns and bunions in their fertility excel all else, and harass the weary pedestrian in his travels till that otherwise pleasant exercise of walking becomes so much torture. All who have experienced the above will be pleased to learn that W. S. Barkwell, a rising chemist of this city, has perfected a preparation which gives immediate relief and permanently removes corns and bunions of every description, and many are the voluntary testimonies tendered him in praise of those excellent preparations known as the Sure Corn Cure and Sure Bunion Cure. See that you get the genuine, as it is a sure cure.

There has never been a man, however hard-headed or skeptical on other matters he might be, who has not willingly acknowledged the superiority of that admirable 5-cent article the "Highland Lassie" cigar, manufactured by Messrs. H. McKay & Co., of this city. Its flavor is delicious, its composition of the purest and its reputation, based on sheer merit alone, extends from the eastern to the western limits of this vast Dominion. Try it. wyt

The Acme and Pik-Ron Boom.

The firm of A. L. Anderson & Co., Toronto, having something like a year ago thoroughly satisfied themselves of the surpassing excellence of Acme blacking, Pik-Ron paint, etc., and the consequent extraordinary popularity of these and Messrs. Wolff & Randolph's (Philadelphia) other specialties throughout the United States, Great Britain and, in fact, the entire world, promptly secured the agency for Canada, and forthwith, and at an enormous cost, contracted for yearly advertising space in 60 of the selected best circulating newspapers of the Dominion. With the matter and get up of these advertisements all readers of the ADVERTISER are by this time quite familiar.

The result has been that which invariably follows the judicious, liberal advertising of a really meritorious article, and to-day the praise of Acme and Pik-Ron constitutes an unbroken and cumulative chorus extending from Newfoundland to Vancouver.

To the susceptible soul moderately open to conviction a single trial of the articles referred to invariably settles the matter off-hand and for good.

"All men have not faith," however, and if, from inherent incredulity, habitual prejudice or the misrepresentations of interested would-be-rivals, anyone has hitherto failed to test the "preservative," absolutely "waterproof," brilliant ("once a week for men's and once a month for women's" shoes) shine, etc., of Acme, or the really splendid results from the home use of Pik-Ron paint, all the vendors ask for is the opportuhity to substantiate these and the other good features claimed on their behalf.

The sale of these goods has this season already been very large throughout all the Provinces, and the aggregate output such as to tax the manufacturing capabilities of Messrs. Wolff & Randolph to the utmost.
