106th Semi-Annual Opening of Millinery on Wednesday, March 22nd, 1905, and Following Days

On Wednesday, March 22nd, we invite you to see our Annual Spring opening display of Millinery.

Our representative buyers in Europe have carefully scoured the markets of London and Paris and have sent us out the very latest Millinery creations.

We have the same staff of expert trimmers in our work rooms that scored such a success last season, and we can confidently assert that no show room in Canada will there be a finer display of stylish Millinery than in ours.

We will be glad to welcome you to our Opening Display on Wednesday and you may rest assured that you will have every possible attention.

Special Display of Dress Goods and Silks

- " Carpets and Curtains.
- " Linens and Sheetings
- " Gloves and Hosiery
- " Laces and Trimmings
- " Wash Fabrics.

Thos. Stone & Son.

Members Canadian Dry Goods Syndicate.
We Save You Dollars.

THERE'S GREAT VALUE
in every garment we make, but it is
especially noticeable in our

Winter Overcoats

made to order. The material is just
right, and the garments have a "set"
which particular men like. Come in
and look at the cloth.

AITKEN & KOELSCHATZ
NEAR FIFTH ST. BRIDGE

If you require any fuel
to finish the season, try

GENUINE GAS COKE

and see what a large saving
you make. Coke is suit-
able for Furnace, Range,
Baseburner or Grate.

King St., Near Garner House.

RAILROAD WILL SPEND \$350,000 ON WORK IN KENT COUNTY

Splendid Enterprise Practically Secured by the City Council—Busy Session of the City Fathers Last Evening.

Three hundred and twenty-five thousand dollars will be spent in Chatham and Kent County this spring in the work of the construction of the new electric railroad and its equipment.

This important announcement by Ald. Austin, at the City Council meeting last evening, will be received with satisfaction by all citizens—artisans, laborers and business men. In addition to the securing of the road with its many advantages and facilities, it will put this large sum of money in instant circulation throughout the county and doubtless do much to bring up good wages all spring.

The motion was passed unanimously by the City Council last night was as follows:—

"Moved by Ald. Bell, seconded by Ald. Austin, that in the opinion of this Council, the power house, freight sheds, track and plant to be erected and built within the limits of the city by the Wallaseburg and Lake Erie Railway Company should be exempted from taxes, except school taxes for local improvements, for a period of five years, and that the taxes to be levied on the property of the said company for the further period of five years thereafter should be upon a fixed assessment of \$10,000, no reduction being made in the present rate of taxation on the lands to be occupied by the said company, and that the said exemptions be validated by an act of the Legislature to be procured by the company and at their expense."

In making the motion, Ald. Bell briefly alluded to the many advantages that would result to city and county by the building of the road.

Ald. Austin, in seconding, said the enterprise was one that deserved and would receive the hearty support of every patriotic citizen. The city was losing nothing, as there was no reduction in the present value of the land. The building of the road, the erection of the works, etc., meant a splendid stimulus to all trades. He had looked into the matter and found that \$250,000 would be spent in labor in Chatham and vicinity. It would mean immense industrial development to the whole county.

Ald. O'Keefe said he had also looked into the matter thoroughly. The gentlemen in charge were taking hold of the enterprise in the right spirit and building on first-class business principles.

Ald. Westman said he understood that the road would supply electric power to manufacturing concerns in the city. This was the greatest acquisition the city could have and would prove a great inducement in getting factories.

Ald. Edmondson thought the Council should do all in their power to encourage the enterprise.

The aldermen all spoke enthusiastically of the project.

There were present at the meeting Mayor Cowan and Ald. Austin, Bell, King, Marshall, O'Keefe, Ainsworth, Potter, Westman and Edmondson. A petition was received from the Bricklayers' Association, notifying the Council of the hours they intend to work on the new market building and their scale of wages. Received.

The residents of the East side of Lacroix street, from Harvey St. to the Grand Trunk, asked permission to trim trees. Referred to Chief of Police.

Job Moore, of the Electric Light Department, asked for an increase in salary, as he has to keep a horse. Referred to Property Com.

Lewis & Richards, for the S. Hadley Company, called attention to the bad condition of the pavement on Wellington street, from the Market Square to William St. They threatened to take action if the matter is not attended to at once. Referred to Board of Works.

The Electric Railway Company asked for a fixed assessment on their power house and properties. Referred to Finance Com.

The Canadian Fire Underwriters' Association asked for information re the water supply pumps. Referred to the Property Com.

A communication from a St. Catharines Trade Journal, soliciting a subscription, was referred to the Industrial Com.

The Council asked for information re asphalt block pavement—if the Council liked it and would use it this year. Mayor Cowan said he had replied to the letter, stating the facts that some streets in Chatham had been paved with asphalt block.

A letter from Dr. Ludlow, a former Chatham resident, was referred to the Finance Com.

A communication from Toronto, soliciting public subscriptions for a monument which it is proposed to erect in memory of the Canadian soldiers who fought and died in South Africa, was referred to Finance.

G. B. Atkinson, for the Chaplin Wheel Works, laid a complaint against the account from the Water Works Department against the

Chaplin Wheel Works for laying a water main on Scane street. The company thought the expense should be borne by the city. Referred to the Industrial Com.

The permanent firemen, F. A. Ryall, R. Coyle, A. Holmes and H. Johnson, asked for increases in salary. Referred to Property.

A communication from the Toronto Council, in reference to adding the names of married women to the voters' lists, was referred to the Finance Com.

The City Council of St. Thomas asked the Chatham Council if they would co-operate with St. Thomas in trying to secure legislation for doing away with Police Commissioners' Boards in cities of less than 20,000 inhabitants. Referred to Finance.

J. B. O'Riynn, acting for a resident on Murray street, protested against the putting down of a bitulithic pavement on Murray St. Received.

C. B. Atkinson wrote a lengthy letter saying that he would enter a strong protest against fixed assessments, and particularly the granting of a fixed assessment for the Electric Railway Company. He threatened to file a lawsuit. Received.

A statement from the Piggott Industry was received.

Chas. Barclay, Mrs. Amanda Brown, Ida Brown and Mrs. Anna Hicks asked their names to be reinstated on a petition for an asphalt block pavement on Murray St. Received.

A petition was received from J. M. Pike, Mr. Barclay, Mrs. Reeves, Mr. Kemp and Wm. Hamill asked for an asphalt block pavement on Murray street. Referred to Board of Works.

Ald. Austin, for the Industrial Committee, said he had communicated with H. S. Clements, M. P., regarding the river ice, and had received a reply that the Acting Minister of Public Works was looking into the matter. The matter of an ice crusher was in abeyance owing to the cost being \$300 per day.

Ald. Bell, for Finance, moved that Chatham Navigation Co. be relieved from wharfage charges. Alderman O'Keefe seconded.

Ald. Westman opposed the motion. The city, he said, did enough for the Navigation Co., without relieving them of taxes, he believed were due from the Navigation Co. to the public.

Ald. Potter expressed disappointment that Ald. Bell had not ascertained the facts before agitating the matter. He thought the city should be looked into thoroughly before any action was taken.

Ald. Austin agreed with Ald. Potter. He was on the Finance committee, but Ald. Bell had never consulted him in the matter of his motion.

Ald. Potter and King moved in amendment that the matter be referred back to ascertain the facts. Amended.

Ald. King, for the Building committee, reported that the plans would be ready for Saturday. He was hastening the work as much as possible, and as soon as plans were ready would proceed.

Ald. O'Keefe, for the Board of Works, reported as follows:—

Re advice of City Engineer as to action on Murray St. pavement as to putting down intakes at an early date, and as per request of ratemakers to proceed with bitulithic pavement, as the matter is entirely in the hands of the Council to proceed with the work, we advise to proceed with said bitulithic pavement at as early a date as possible, the price to be the same as named in their tender of last year, \$2.19 per sq. yard.

2. Re account of William Drader, for wind-breakers on 5th St. bridge, the work being completed according to contract, we advise payment of the bill \$248.

The Mayor ruled, on the advice of the City Solicitor, that the first motion was out of order.

Ald. O'Keefe was afraid his motion's action would open the way for more difficulty, such as was experienced last year. The chairman of the Board of Works was anxious to have the matter closed as the price was some \$2.19 per yard cheaper than could be secured this year.

The Mayor asked if the Finance committee had made any enquiries in reference to the Government's share of the William street pavement.

Ald. Bell—I believe I did make enquiries.

The Mayor—What was the result?

Ald. Bell—I forget now what the result was.

The Mayor, smiling—Probably you had better enquire again.

The Mayor asked the Property committee if they had made any arrangements for a market during the time the new building is being built.

Ald. Westman said that such arrangements are now being made.

Ald. Ainsworth moved, seconded by Ald. Edmondson, that the request from the bricklayers union in connection with wages on the new market building be granted. Carried.

It was decided to purchase for civic purposes 200 copies of the Souvenir and Industrial edition of The Planet.

Continued on Page Eight.

WHERE IS LINEVITCH

Report Suggests Probably Further North Than Supposed.

London Puzzles Over the Question Where the Newly-Arrived Troops Came From—Retreat from Tie Pass Wends Weary Way—Gen. Kuropatkin Offered to Stay Under His One-Time Subordinate.

London, March 21.—Gen. Linevitch's report to the Emperor, that he had inspected newly-arrived troops, causes considerable speculation in London, indicating that the commander-in-chief of the Russian army in Manchuria either has gone much farther north than had been supposed or that Russian reinforcements are still being sent south from Harbin. The latter hypothesis is considered hardly likely in view of the fact that the Russians are trying to effect the speediest possible retirement to Harbin.

Kuro Offered to Stay.
Gunshu Pass, March 21.—The last two days have been utterly without incident, except for the removal of the censor to Kudzu Pass. The Russian rearguard is retreating slowly and engaging in occasional skirmishes. It has now reached a position twenty-seven miles north of Tie Pass. The Japanese are slowly advancing, without pausing the Russians.

The Russians are destroying bridges, the railways, roadbeds and highways, and carrying off stores and demolishing buildings and everything not portable. Reports of a wide turning movement by the Japanese are no longer being received.

The troops parted in sadness with Gen. Kuropatkin, whose labors in shaping the army are recognized, and who was ever attentive to the wants of the soldiers. Regardless of the fact that he had been commander-in-chief, Gen. Kuropatkin offered to remain here as a subordinate to Gen. Linevitch, and as commander of a corps.

On the Weary Way.
St. Petersburg, March 21.—The latest despatches from Manchuria indicate that the retreat of the Russian army is being conducted uneventfully. The last few days were unmarked by fighting of a serious nature. The Russians, however, are neglecting no precautions to impede pursuit, and hamper the construction of permanent Japanese lines of supply.

Russ Admits 120,000 Lost.
St. Petersburg, March 21.—Complete details of the losses at the battle of Mukden are not yet available at the war office, but the reports thus far received indicate that 120,000 men were killed, wounded or made prisoners and that about eighty field guns were captured. Almost every siege gun, it is affirmed, was removed.

No Further Fights.
St. Petersburg, March 21.—A despatch from Gen. Linevitch, dated March 19, 3 p. m., says:

"The commander of the second army reports that he has had no further fighting. No reports have been received from the first or third armies. I have inspected the troops which have arrived from Russia. They are in excellent spirits and good health."

Kuropatkin Goes Home.
St. Petersburg, March 21.—The story that Gen. Kuropatkin remained at the front in command of Gen. Linevitch's old first army is untrue. He is proceeding to Chong, where he may stop a short time to recuperate before returning to St. Petersburg. His nerves are said to be badly shattered. It is again being positively affirmed that Kuropatkin requested the Emperor to relieve him.

Fighting Heard Of.
St. Petersburg, March 21.—A despatch from Gunshu Pass, dated yesterday, says that since yesterday morning artillery fire has been going on about seven miles south of Tie Pass.

Strike on Railway.
Chita, Eastern Siberia, March 21.—Through the railroad men's strike on the section of the Siberian line east of Lake Balkat has ceased the telegraph operators have now stopped work, demanding an increase of wages. Policemen and other state employees are being engaged to replace the strikers.

LAD SHOTS GOVERNOR.

When Captured Said Police Knew His Name, His Motive and the Governor's Record.

Viborg, European Russia, March 21.—Gov. Masorodoff was shot and seriously wounded yesterday by a lad. The assassin, who is about 15 years old, obtained an entrance to the governor's office and fired three times at him, one bullet inflicting a serious wound and the others slightly wounding the governor's legs. The governor's clerks and secretary were unable to stop the would-be assassin, who reached the street where, however, he was arrested without a struggle. The governor's condition is critical.

The youth who shot the governor has been identified as Matti Hjalmar Reinikka, who admits that he is a revolutionist. Gov. Masorodoff has been most energetic in the Russification of Finland.

Reinikka, who had lost one of his arms recently in a railway accident, when asked if his name was Reinikka, replied, "The police of Helsingfors know me, my motive and the governor's record."

Jews Kill Police Chief.

Boris, European Russia, March 21.—Three squadrons of dragoons have started for Borisina, where armed Jews are reported to have killed the chief of police and a number of his assistants.

As soon as a man is good enough he is no longer any good.

YOU ARE NOT

Playing against loaded dice when you buy your Wallpaper from us.

We study to give our customers new goods at right prices. No person not in the business can tell the values of Wallpaper, so that it should be bought from reliable dealers.

If you buy from us you don't have to "kick" to get your money's worth; because we have the largest assortment in this country. Wallpaper is nothing if not new and perfect in design and coloring. That is the kind we keep. Call and see our beautiful patterns for this season.

TUESDAY, MARCH 21, 1905.

CANADA WAS FIRST.

Canadians put afloat the first steam vessel which crossed the Atlantic. The boat was named the "Royal William," and steamed out of Quebec harbor in 1833 for Liverpool. The Royal William was not a fast boat, but made the trip safely in 25 days, which was better than sailing vessels did. The Royal William pulled up her bunkers at Pictou, N. S., three days after leaving Quebec, and was successful in making the passage. The greatest problem at that time was to get coal enough aboard to last across the Atlantic, as the consumption of fuel for the primitive engines of the day was enormous.

Mr. George Hannah, of Montreal, who is connected with the Allan line, in a lecture recently, told the story of the Royal William, and also mentioned that as early as 1809, a small steamboat plied on the St. Lawrence, between Montreal and Quebec. The boat was named the "Accommodation" and was built and equipped through the enterprise of a Montreal citizen.

On the 29th of August, 1833, the Royal William steamed up the Thames to London, and the trip of the Canadian vessel brought home to Englishmen the idea of steam navigation. The Britishers set to work and in 1840 had completed the "Great Western," which was launched at Bristol. She was built of wood and unusual strength for trans-Atlantic navigation. Her dimensions were 212 feet long, 25 feet wide, 23 feet deep, and had a capacity of 1,340 tons gross, whereas the Royal William was but 176 feet long, 29 feet wide, 18 feet deep, and her gross tonnage was but 830. The engines of the Royal William were built by Bennett & Henderson, of Montreal; those of the Great Western by the firm which was afterwards to become famous, Maudslay & Sons, London. The Great Western made the trip from Bristol to New York without stopping and had room for 200 tons of cargo in addition to 700 tons of coal. The actual consumption of coal on the trip was 655 tons, the best day's run was 243 knots, and the average run per day was 208 knots, and the trip took 17 days.

In developing his subject Mr. Hannah showed that Canada ran the first regular mail boats, the first all steam trip was made by a Canadian boat, the first iron and first steel screw propelled boats were Canadian, and now Canada is first in introducing the trans-Atlantic turbine boats. The well-known Allans were the pioneers in steamship business. Alexander Allan came to Canada from Saltcoats, Scotland, with his five sons, James, Hugh, Bryce, Alexander and Andrew. They were mariners all, and came over in Alexander Allan's own brig "Favorite," with himself as captain, reaching Montreal in 1825. The history of the Allans and the Allan line is well known to Canadians. The Allans were the pioneers in steamship traffic across the Atlantic, and the celebrated Cunard line, inaugurated by Samuel Cunard, was next. Mr. Cunard was a Canadian also, born in Nova Scotia.

Canadians have just reason to be proud of the achievement of sons who have taken the lead in many enterprises. Among the great men of the day may be mentioned of hand: Edison, the wizard of electricity; Bell, of the telephone; Callaway, in railroading; Prof. Schurmann in science; and the doubly renowned Osler, in medicine, all of whom own Canada as their birthplace.—St. Thomas Times.

A PAIR OF GOLD MILES.

Cleveland Plain Dealer.
There is no doubt that Greene and Gaynor will be sadly missed by the Canadian lawyers.

THE CONVENIENT COURTS.

Toronto News.
If our highest courts of law are presented with foolish conundrums by embarrassed party leaders the judges should decline to reply. Public men are in parliament to make laws, not to rush to the courts like schoolboys asking what laws they may make.

THE DAILY RUSH.

Home and Hearth.
There is so little time of old world courtesy or deference; no time even to allow of a proper use of king's English; we are always rushing, and rushing, and rushing, and the extremely snappy, abrupt manner of the young miss of to-day shows that she has caught the all-pervading epidemic.

As long as our pluck holds out no one can claim a victory over us.

Prosperity and Progress

The volume of business transacted by the Mutual Life of Canada during 1904 exceeds that of any previous year. Over Five Million Dollars of new business was written, making the total Assurances now in force nearly Forty and a Half Millions of Dollars. All but Thirty Thousand Dollars of the new business was written within the Dominion. The Mutual Life of Canada is essentially a Canadian Company, and believes that good Canadian business is preferable to foreign business, which is secured at excessive cost and is often of poor quality. Good home business, and lots of it, means more profits to Canadian policy holders.

THE STAGE

"All the world's a stage and all the men and women merely players."

ANNOUNCEMENTS.

At the Grand—
Don Leon's Imperials—Mar. 20-22.
Hooligan's Troubles—March 25.
Sweet Clover—March 27.
The Bonnie Brer Bush—Mar. 31.

HOOIGAN'S TROUBLES.

Hooligan's Troubles, runner than a circus, with all its peculiar antics, songs, dances and scenicities will be the attraction at the Grand for Saturday, matinee and night. All the caricatures as sketched in the New York papers with all their droll and peculiar incidents have been truthfully carried out in this comical production. It has made millions of laughs and can make a horse laugh. It contains some of the very funniest and most ludicrous situations that it would be possible to imagine and must be seen to be fully appreciated. Prices 25, 35 and 50 cents. No higher.

"SWEET CLOVER."

There are plenty of evidences going to show the public taste in affairs of the theatre have again turned to the good old-fashioned play that tells a coherent, legitimate story and serves to hold the interest of the auditor throughout the entire unfolding of the plot. While the better class of farces-comedies, vaudeville and melodrama will still have their admirers, the major portion of the lovers of the play-house are getting just a trifle ashamed of witnessing "buz saws" in place of actors and absurd and impossible alleged "thrilling climaxes" in place of a well told and interesting tale. The beautiful comedy drama

"Sweet Clover" has met with remarkable success in the principal cities where the play has been presented. Two clever young newspaper and magazine writers, the Misses Pauline Phelps and Marion Short, are the authors of the play, which is said to be a beautiful comedy drama in four acts of the style of "Hazel Kirke," "Caprice," and other plays of the kind we used to love.

Mr. Otis B. Thayer, the well-known character actor, assumed the role of "Jerome Holcombe," and Miss Gertrude Bondhill, one of the best of the younger emotional actresses, appears in the role of "Lois Holcombe." Surrounding these excellent actors are a number of favorite players to interpret the various roles. A special feature is the superb mounting of the play, special scenery for every act being carried entire to help out the illusion, together with some handsome costumes, quaint furniture and beautiful lighting effects.

"Sweet Clover" will be the attraction at the Grand on Monday, Mar. 27th. Seats go on sale Thursday.

Coughs, colds, hoarseness and other throat ailments are quickly relieved by Cresceno Tablets, ten cents per box. All druggists.

A girl naturally resents advice from an old maid in a love affair.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

A Linguist.

"What has he learned at college?"
"Why, he seems to have devoted himself to the study of modern languages. I've heard him talk baseball, football, golf, tennis, horse, polo and poker in the course of half an hour."

Her Secret.

Mr. Jones—Mary, can a woman keep anything to herself? Mrs. Jones—Yes; her private opinion of her husband.—Chicago Journal.

DIAMOND DYES

FOR PERFECT HOME DYEING.

EASY TO USE, BRIGHTEST AND BEST.

ASK FOR THE "DIAMOND."

The Northway Company L'td

Township Councils.

CHATHAM TOWNSHIP COUNCIL

The regular meeting of Chatham township council was held in the township hall on Monday, the 6th day of March, pursuant to adjournment. The members were all present except Coun. Irwin, and the minutes of the last meeting were read and adopted.

The report of A. McDowell, C. E., on the repair of the Gray drain was received and read. On motion of Mr. Templeton and Mr. George the same was adopted, and the clerk was instructed to prepare a by-law.

A letter was received from the Chatham Wagon Co. Ltd., requesting that Park street, in Taylor avenue, be closed. A representative of the company also addressed the council in connection with the same matter.

Allan McNeillage presented a petition from the ratepayers of the Simpson drain, asking that the south quarter of lot 10, concession 6, be struck off the said Simpson drain assessment.

Thos. Buckingham asked to be granted a culvert opposite his property along the Lindsay side road, in reference to an indictment by the name of Thomas Willis.

James McRobb was heard, asking that his statute labor be commuted to perform the same along the 6th con. road, opposite lot 12.

Wm. Vance, tax collector for 2nd division, was present.

The auditor submitted their report and detailed statement of the treasurer's receipts and expenditures for the past year. The same was carefully examined and considered.

On motion of Mr. Abraham and Mr. Templeton, the report was adopted and the clerk was instructed to have the statutory number printed.

A statement was received from the county clerk stating that the amount due the county from the Township of Bathurst for the term ending December 31, 1904, was \$137.61; also a copy of a resolution passed by the county council to the effect that no person will be admitted to the county House of Refuge except a certificate from the physician of the institution accompanies the commitment papers.

It was moved by Mr. Templeton and Mr. George, that the by-law to provide for the repair of the Runnelman drain, and also that by-law to provide for the Township of Chatham's proportion to be contributed for the repair of the Boyle outlet of the Township of Dover be provisionally adopted, and that the said by-laws be printed in the Dresden Times newspaper, and that a court of revision on the engineer's assessment for the said drainage works be held at the Chatham township hall on Monday, 3rd day of April, 1905, at the hour of ten o'clock in the forenoon.—Carried.

Moved by Mr. George and Mr. Templeton, that the clerk advertise for tenders for the carting and swinging of the Tupperville bridge for the season of 1905.—Carried.

Moved by Mr. Abraham and Mr. George, that as complaints have been made to this council that the Peter Marquette railway are in the habit of leaving cars on their crossing on the river road, near Taylor avenue, and preventing the travelling public from crossing, be it resolved that the clerk notify the said railway that legal action will be taken against them unless they stop the blocking of the said roadway at once.—Carried.

Moved by Mr. Templeton and Mr. George, that John Watson, Jr., be granted permission to cut down a tree that is a dangerous condition standing on the north side of the 14th and 15th con. roadway, opposite the part of lot 4, owned by Mrs. Elizabeth Watson.—Carried.

Moved by Mr. Abraham and Mr. Templeton, that Allan McNeillage be granted 325 as township's share for continuing a covered drain along the 6th concession roadway.—Carried.

The following accounts were ordered paid by different resolutions: A. McDowell, survey and report on Gray drain, \$110 00
Jos. Humphrey, refund statute

labor, 3 00
Co. Treasurer, keep of inmates of House of Refuge, 137 61
J. W. Brown, part pay as collector, 100 00
Wm. Vance, part pay as collector, 100 00
Jno. Clark, wood furnished indigent, 4 50
J. G. Templeton, furnishing material and repairing bridge on township drain, 9 57
Geo. Pierce, return of dog tax, 1 00
Thos. Moreland, repg bridge, 8 50
Meeting adjourned.
A. McARTHUR, Clerk.

Cured of Piles.

After Suffering More Than Twenty-Five Years.

TRIAL PACKAGE MAILED FREE.

"Until about two years ago I had had piles for about thirty years, at times bleeding and very painful. I got a fifty-cent box of Pyramid Pile Cure at the drug store, and used it and was entirely cured; got another box in case I needed it, and as the piles did not return in six months I gave the remedy to a friend of mine who wanted the doctor to operate to cure him. My friend said he would use the 'pyramids' but he knew they would do him no good, but they cured him of piles of twenty-five years standing. I am free from piles to-day, and have been since using Pyramid Pile Cure. I was captain in the Civil War." James Adams, Soldier's Home, Cal.

The majority of people labor under the impression that an operation is necessary in severe cases of piles, or hemorrhoids, and are very skeptical regarding the remedial virtues of any medicinal compound. Testimony like the above should certainly have a tendency to dispel this impression, although it is odd that such a fallacy should prevail, and still more odd that so many people should think an operation effects a permanent cure, whereas the contrary is more often the case.

Just send your name and address to Pyramid Drug Co., 237 Main St., Marshall, Mich., and receive free by return mail the trial package in a plain wrapper. Thousands have been cured in this easy, painless and inexpensive way, in the privacy of the home. No knife and its torture. No doctor and his bill.

All druggists, 50 cents. Write today for a free package.

True dignity is never gained by place, and never lost when honors are withdrawn.

When the heart is won the understanding is easily convinced.

W. E. Rispin has two good heated rooms to let, over his office, 115 King street, suitable for offices or living rooms, all modern conveniences; also house to rent in Riverside Terrace, heated by furnace, hot and cold water, gas and modern conveniences. Also nice small house and lot on Murray street, \$700, full particulars on application.

A SNAP

Two story brick house for sale at a bargain, contains hall, parlor, library dining room, kitchen, pan. r., one bedroom and bathroom, down stairs, and hall and three bed room, with clothes closet, a new furnace last year, heating system perfect, heated with electricity, gas for cooking, house newly painted, and in first class condition throughout, stone walks, good sewers, stable with drive shed, lot 60x120. The above property must be sold at once as owner is leaving city as soon as this is sold. If you want a home, will pay you to consult us re this property as it is certain a bargain at the price we are prepared to give.

A woman never admits that she has a desire for man's admiration.

MESSRS. C. C. RICHARDS & CO.

Gentlemen,—My three children were dangerously low with diphtheria. On the advice of our priest my wife began the use of MINARD'S LINIMENT. In two hours they were greatly relieved, and in five days they were completely well, and I firmly believe your valuable Liniment saved the lives of my children.

Gratefully yours,
ADLARD LEEFEVRE.

Mair's Mills, 10th June '99.

You will find poetry nowhere unless you bring some with you.

YOUR BUILDINGS

YOUR EYES

Are surely worth more to you than the price of a pair of glasses. If you value your eyes have them properly fitted at once. Delay and your eyes may become so bad that no glasses will help them, then you will regret it the rest of your days. This is true every word of it. Do not trust travelling Opticians and peddlars to fit you with glasses. They get your money and you get the experience. This we know because it is told us by people that comes to us for glasses after having bought of the Spectacle peddlar. Our Optician is a graduate of the Detroit Optical college and is fully equipped with all the modern conveniences. We will examine your eyes free of charge, at the sign of the Big Clock.

MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's Diseases a Specialty for Years, Will Accept Your Case, Giving It Individual Treatment, or You May Use It in the Privacy of Your Own Home.

May Pay When You are Cured.
 Detroit Specialist who has 14 diplomas and certificates from medical colleges and state boards in diagnosing diseases of men, is positive he can cure a great many so called incurable cases.

DR. S. GOLDBERG.
 The possessor of 14 diplomas and certificates, who wants no money that he does not earn.

In order to convince patients that he has the ability to do so, Dr. Goldberg will accept your case for treatment, and you need not pay a penny until a complete cure has been made; he wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures such conditions as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc. The doctor realizes that it is one thing to make claims and another thing to back them up; so he has made it a rule not to ask for money unless he cures you, and when you are cured, he feels sure that you will willingly pay him a small fee. It seems, therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge; if you have lost faith in him, as you have everything to gain and nothing to lose, you must remember that one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply Dr. S. Goldberg, 208 Woodward Ave., Room 111, Detroit, Michigan. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

Mistaken Identity.
 Senator Proctor of Vermont, accompanied by Mrs. Proctor and a party of some fourteen persons, was once making a tour of the west. A stop was made at Salt Lake City, and the party started off for a walk about the city. Senator Proctor and his wife headed the procession, and the ladies of the party brought up the rear, going in pairs. That very same day another party of easterners was making the rounds of Salt Lake City, and when they encountered the Proctor party in the main street they stood aside to let them pass. "Well, well!" exclaimed one of the second party. "There's a bit! Look at that old Mormon and his wives. Out for a constitutional, I suppose. I wonder," he added, "if he is any more."

A cheerful countenance betokens a good heart.

BEWARE OF THAT COUGH

**COOL WEATHER
Causes Much Distress to
Throat and Lung
Sufferers**

**Clear Frosty Morning Air Only
Stimulates Lungs that are Healthy**

GRAVE DANGER

Observes Dr. Slocum, if a cold is allowed to run, La Grippe, Pneumonia, or Bronchitis is sure to follow if "Psychine" is not taken to prevent its progress.

Don't experiment with cheap cough mixtures or like decoctions, which at best can only temporarily relieve, until you are forced to your bed from which you will arise weaker—the more easy victim for consumption. This is the season of the year when people are started on the rapid road to the consumptive's grave, declares the eminent Lung Specialist.

PSYCHINE

(PRONOUNCED SI-KEEN)

will rid the system of all tuberculosis poison and build up weak and wasted bodies with healthy tissue. "Psychine" is a tonic and it creates strength, gives you a ravenous appetite and produces healthy flesh.

In cases of obstinate coughs, pain in the throat, sore throat, headache, pain in the limbs, extreme weakness, you cannot afford to be without "Psychine." It is prepared expressly for all diseases of the lungs and bronchitis, and if you have the least sign of a cough, sudden chill, shivering, feeling cold feet or depression, procure "Psychine" from your druggist.

If your druggist hasn't "Psychine" in stock, write Dr. T. A. Slocum, Limited, 179 King Street West, Toronto, Canada, and a sample bottle will be sent you promptly.

FREAKS OF SEA QUAKES.

One That Stranded Big Vessels Half a Mile Inland.

Sea quakes are mighty disturbances of the waters of the ocean, their cause or causes being identical with the causes of earthquakes. In Major C. E. Dutton's book, "Earthquakes," the author has some interesting facts regarding the ocean variety of quake. From the entries in the logs of many ships he concludes that in rare cases the power of the sea quake shocks may be great enough to render standing on deck as difficult as it sometimes is on land. It may even be great enough to cause the fear that the vessel is being shaken to pieces. Gigantic waves in the ocean are, of course, a frequent accompaniment of the sea quake. On the west coast of South America, where these waves are frequent, they sometimes follow a quake having its center below the sea level that is also felt on land. But more often they come without warning. The most memorable sea quake of this locality occurred Aug. 3, 1895.

Major Dutton describes it as follows: "The coast of South America was shaken all the way from Guayaquil, in Ecuador, to Valdivia, in Chile, the highest intensity being manifested in the neighborhood of Arica. The force of the quake in this town was very great, throwing down most of the structures and producing land slips. A few minutes later—precisely how many minutes is not known—the sea was observed to retire slowly from the shore, so that ships anchored in seven fathoms of water were left high and dry.

"A few minutes later still it was seen returning in a great wall, or 'bore,' which caught up the ships in the roadstead and swept them inland as if they were mere chips of wood. Among them was the United States steamer Waterlee, one of the improvised war vessels of the blockading fleet in the civil war, which was carried inland nearly half a mile and left with little injury on shore by the recession of the waves."

KEEP THESE IN MIND.

The power of kindness. It wins when all coercive measures fail.

The dignity of simplicity. When the "frills" are off the man is "on."

The wisdom of economy. The man who saves makes more than he saves.

The pleasure of working. The only really unhappy, rich or poor, are the idle.

The influence of example. Practice does more than precept in showing the way.

The worth of character. In the last analysis the only real value is a clear conscience.

The success of perseverance. "Keeping overlastingly at it" brings the hoped-for result.

The value of time. Lost capital may be restored by diligent use of experience. Time lost is lost forever.

The obligation of duty. Your concern should not so much be what you get as what you do for what you get.

Temperament and Food.

For bilious persons a chart of life published by Professor Boyd Laynard gives emphatic warning of dangerous rocks in the shape of sausages, pork, turtle and other commodities. Bile must not be eaten by brain workers, chilly persons should cultivate a taste for sardines, while irritable people are warned away from ginger, and the melancholy man must not touch bacon. Whitebait, it is suggested, is inadvisable for persons who are of an amorous nature, asparagus is forbidden to those who suffer from excitement, and languid persons are told to be careful when they indulge in peas, potatoes, arrowroot and macaroni. Duck for some mysterious reason is described as unsuitable for the bashful, the irate, the pale, the drowsy and the inebricate. —St. James' Gazette.

Only One Way to Save Him.

"While the religion of some men is intellectual," said a well known New York clergyman, "the religion of many is a thing of emotions."

"Back in my boyhood days I remember a man in the country who used to go to camp meeting. After singing a few inspiring hymns he would become to outward appearance the happiest and most pious man in the camp. But his emotion would always die out and his religion wouldn't tide him over to the next meeting."

"A cynical neighbor of this man once remarked that the only way to save his soul was to get him happy and pious in one of the meetings and then kill him."

Too Much Name.

A Maryland congressman tells of a baptism in a village in the black belt of that state. "What is the name?" asked the minister of the child's father. "John James George Washington Pitts-Hugh Lee Blaine Harrison Pitts-Hugh Lee," answered the father. The old minister jotted down the names, and then, walking to the baptismal font, a crockery wash basin, said to the janitor: "Moses, get some more water. There ain't half enough to baptize this child if we have to take in all his names."

Trying to Be Charitable.
 "Mr. Bliggins means well, but he doesn't stop to think."

"Perhaps," answered Miss Cayenne, "he feels that time is too valuable to be trifled away in hopeless undertakings." —Washington Star.

The Making of It.

"If they're both deaf and dumb, I don't see how they could make love."

"No? I should say it was the best kind—all handmade, you know." —Philadelphia Ledger.

COWS' MILK BRINGS ENORMOUS INCOME TO THE AMERICAN FARMER.
ITS FOOD QUALITIES.

The average lactation from each cow throughout the United States is about \$27.00 per year. In some states, notably Pennsylvania, they bring their owners an income on an average of \$35.00 each a year. There are over seventeen million milk cows in the United States, according to the last census. Of the states, Iowa has the lead with over five million and a half horned cattle. Milk is healthy and fattening when fresh and from good, healthy cattle. It is good for consumptives and those weakened by disease. The only danger comes from the fact that milk affords a splendid medium for germs of typhoid fever and consumption to grow in and then infect the blood of the person drinking it. Again, the cows themselves often suffer from tuberculosis or consumption, and this can infect the human being drinking their milk. When we come to count our chances for taking disease however, we should not fear infection unless our blood is in disorder and our constitution run down.

Many thousands of cases have been known where persons who were suffering from incipient phthisis, or the early stages of consumption, were absolutely cured by Dr. Pierce's Golden Medical Discovery. It maintains a person's nutrition by enabling him to eat, retain, digest and assimilate the proper nutritious food. It overcomes the gastric irritability and relieves indigestion, and the person is thereby saved from fever, night-sweats, headache, etc., which are so common. For sale at all drug stores.

SCIENCE OF LIVING.

An Ounce of Good Cheer Is Worth a Pound of Melancholy.

"It has been said that it is better to be born lucky than rich," said Dr. George F. Butler, "but it is in fact better to be born tough than either lucky or rich. After forty at least and eliminate more. Drink more pure water and keep the peristaltic wave of prosperity constantly moving down the alimentary canal. Many people suffer from too much business and not enough health."

When such is the case they had better cut out business and society for a time and come down to mush and milk and first principles. Don't be foolish. Eat less and play more. Indulge in less red fume and more fruit and fun. There are people too indolent to be healthy—literally too lazy to live. Work your brains and keep in touch with people. Do something for others and forget yourselves. There is nothing so insane and detrimental to mind and health as the conversation of people on their aches and pains and troubles. The froth of whipped eggs is a tonic compared to it. All our appetites are conditional. Enjoyment depends upon the scarcity. A worker in any field whose age is near either the shady or sunny side of fifty should consider himself in his prime, good for another half century of temperate, judicious work. Let grandma wear bright ribbons and gaudy gewgaws if the colors become her, and let grandpa be as drollish as he pleases, with flashy neckties and cheerful garb. Both will be younger for it, and, besides, it is in harmony with nature. Gray hair is honorable; that which is dyed is an abomination before the Lord. Cultivate thankfulness and cheerfulness. An ounce of good cheer is worth a pound of melancholy."

Men are too often influenced by the fear of being called cowards.

A RATTLESNAKE'S BITE.

Now, Under Some Conditions, It May Not Kill the Victim.

It may seem absurd to claim that there are cases where the bite of a rattlesnake is not fatal, yet such have happened, and to understand these it is necessary only to understand the manner in which this reptile strikes.

The spectacle of a rattlesnake at bay is one a beholder never forgets. The great, long body lies coiled in a tense spiral, the very embodiment of wickedness. Poised in air, the white bellied fore body is bent into a horizontal S, rigid as an iron bar. Raised from the middle of the spiral is the tall, quivering like a twanged banjo string and emitting a rattle like steam escaping from the pet cock of a radiator or like the sound of a mowing machine in a distant hayfield. Awe inspiring, the dread, flat, triangular head, eyes gleaming black and cold as icy steel, is ready to strike. As the grewsome mouth opens wide and pink, the long, thin poison fangs arise from a horizontal position and stand upright like a pair of slender, curved, needle pointed shad bones, ready for business. Like a flash, far too quick for the eye to follow, the snake strikes, sending home its fangs an inch or two, and in that same fraction of an instant he has squirted a tablespoonful of canary yellow, viscous fluid into the wound and lies coiled ready for a second attack.

In this incomprehensibly swift attack lies the answer why sometimes the bite of a rattlesnake is not fatal, for so wonderfully swift is the attack that a bite may be imperfect, leaving only a pair of tiny needle punctures with just enough venom to make a victim seriously ill.

Another reason why a rattlesnake's bite is not always fatal is that temporarily the reptile may be without venom. The snake may have exhausted its poison on a previous enemy. In which case it would have to wait several days before the deadly fluid has reaccumulated, or, again, the viper's fangs may have suffered accident. They may have been broken off and require time for new growth. In any case, certain it is that a rattlesnake's poison applied in the proper way will do its work, and then only the most expert and prompt assistance will save a victim. —A. W. Rolker in Pearson's Magazine.

POINTED PARAGRAPHS.

How a man who is hoarse likes to use his voice!

A person with a forgiving disposition has to put up with a lot.

The average woman is fond of saying that her ambition exceeds her strength.

A merchant is never so busy invoking that he isn't willing to wait on a good customer.

After a man gets converted his neighbors speculate every time they see him as to how soon he will pay what he owes them.

A family with an artistic temperament isn't really as much of an addition to the neighborhood as one owning a stepladder.

How easily gossip starts! Ever think how little pleasure you get out of a "story" you start and how much trouble you may be making others?

The Deadly Tarantula.

The poison of the Mygalae species of tarantula is of a fearful nature—more dreaded than that of a rattlesnake—and unless only slightly scratched and heroic measures used the result is fatal. Many deaths are on record caused by these spiders. The most prolonged suffering was that of a San Diego woman. A tarantula sunk its fangs in her hand during the night. The flesh was cut away with a razor and medical assistance summoned at once. Her life was prolonged for a time as well as her sufferings. For three months she lingered under the effects, her hands constantly creeping and crawling along the bedding in horrible imitations of the motions of the tarantula.

A Bishop's Conundrum.

The bishop of Landaff is fond of the concoction of conundrums, with which, when a country parson in Pembroke, he loved to bewilder the grave historian Thirlwall. The story goes that not long ago Bishop Lewis concluded a clerical meeting by asking his flock, "If it takes your bishop a week to eat a ham, how long would it take him to eat a hammer?" and made a diplomatic departure to catch his train. When the company had given up the problem they wired to Landaff for the solution and received the maddening reply, "I don't know; I've never tried." —London Globe.

Secret of Living.

If we can only come back to nature together every year and consider the flowers and the birds and confess our faults and our mistakes under the silent stars and hear the river murmuring in absoluteness we shall die young, even though we live long, and we shall have a treasure of memories which will be like the twin flower, a double blossom on a single stem, and carry with us into the unseen world something which will make it worth while to be immortal.

An Overdose.

"Is it true," asked Mr. Quiso, "that your husband ordered Dr. Smoother out of the house?"

"Yes. Poor Jack had been carrying the baby all night and every night for a week and was run down to a thread. I called the doctor, and he told Jack that he must take exercise."

The Father's Idea.

Johnny—Paw, what's the rest of that quotation beginning, "Truth is mighty?" Father—"Scarce," I reckon.—Pittsburg Post.

It is More Than Palatable

IT ABSOLUTELY DELICIOUS

"SALADA"

WATCHMAKING.

There Are Eighty Separate Operations Upon a Balance Wheel.

M. Favre-Peret, who investigated the watchmaking industry in the New England states some years ago, stated that the average production of 40,000 workmen in Switzerland was forty watches each per annum, while in America the average was 150 fine watches for each man employed.

By the aid of special machines in these watch factories one man can make 1,200 fine screws per day, some of which are so small that more than 100,000 are required to weigh a pound. One of the finest pieces made is a "pallet arbor," or pivotal bolt, which for a small sized watch has a thread of 260 to the inch, weighs 1-130,000 of a pound, undergoes 25 operations and costs but 2 1/2 cents. Measurements are gauged to 1-25,000 of an inch.

The balance wheel, after being machined, weighs only 7 grains and when fitted with 16 gold screws weighs 7.2 grains. There are 80 separate operations upon a balance wheel, 66 of them being drilling, threading and counter-sinking holes. The drills revolve at a speed of 4,800 turns a minute, and one operator can drill upward of 2,200 holes for the balance wheels per day.—Annals of American Academy.

Appetite Was Poor.

Dizzy Most of The Time.

Could Not Sleep at Night.

Many people are unaware of having anything wrong with their heart or nerves till some little excitement or overwork makes them feel faint and dizzy, or perhaps simply going up or down stairs causes dizziness and specks float before the eyes. People troubled in this way should heed the warning, and not fail to take treatment before something more serious occurs.

For all heart and nerve troubles there is nothing to equal

Milburn's Heart and Nerve Pills.

We do not claim that they will cure chronic heart disease, but we do claim that they will strengthen the weak heart, and build up the shaky nerve system.

Here is what Mrs. Sidney Hoffman, Hillsdale, Ont., says:—

"I was troubled greatly with my heart, and was so very nervous that the least little thing startled me."

"My appetite was very poor; I could not sleep at nights, and was dizzy most of the time. I took three boxes of Milburn's Heart and Nerve Pills, and I am very pleased to say that they did me a wonderful lot of good."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 for \$1.25. All druggists, or mailed direct.

THE T. MILBURN CO., LIMITED,
 TORONTO, ONT.

CYRIL.

"Which do you think counts for the most in life, money or brains?"

"Well," answered Miss Cayenne, "I see so many people who manage to get on with so little of either that I am beginning to lose my respect for both."

His Compliment.

Fond Young Mother (with firstborn)—Now, which of us do you think he is like? Friend (judicially)—Well, of course, intelligence has not really dawned in his countenance yet, but he's wonderfully like both of you—Punch.

Wm. McRobb has arrived home from Chicago, where he has been spending the winter.

Northway's millinery has always taken first place with particular dressers. This season's display will surpass all past efforts.

A glimpse at Northway's millinery display will convince you that their leadership is more pronounced than ever. See their display to-morrow.

Robert Jeffrey, of Ingersoll, has accepted a position in the dress goods department of the Austin store. He assumed his new duties this morning.

Mrs. Will Singer, of this city, has had an article accepted by the Daily Story Publishing Co. Mrs. Singer is a popular writer and her stories are always read with interest.

Mrs. Frank Wilson, Jr., has received a letter from her husband. He says he has arrived safely in California and is much improved in health. His only hope is that everybody in Kent county has an appetite like his own.

ACTION DELAYED

J. G. Kerr, through his Toronto agent, received word this afternoon that the motion asking that George Sulman be restrained from acting as assigned for J. L. Scott as the second assignment, had been heard by Chief Justice Meredith this morning and had been adjourned till Monday. In the meantime assignee Sulman is restrained from acting.

HEARTY RECEPTION

One of the most enthusiastic audiences that has attended the Salvation Army for years greeted Brigadier Hargrave and the many officers visiting the city, at the reception held in the Barracks last evening. Welcome addresses were given by the delegates, interspersed by music and song. Mrs. Hargrave sang very sweetly; this being her first visit to Chatham she was received with great applause. Major Rowling conducted part of the service. The visiting officers are Brigadier and Mrs. Hargrave and Major Rawling, of London; Ensign LeCocq, of Windsor; Capt. Pattenden, of Essex; Capt. Hore, Lieut. Robinson, of Kingsville; Capt. Clausen, of Leamington; Capt. Pickle and Capt. Cook, of Blenheim; Capt. Green, of Ridgeway; Capt. McLeod, of Dresden; Lieuts. Carter and Turner, of Wallaceburg.

To-night there will be a novel street parade of the different nations and the meeting at the Barracks will be of a very interesting nature at which each nation where the Army is at work will be represented by an officer dressed in special costume, while the band will play the National Anthems.

THE MUTUAL LIFE.

The thirty-fifth annual report of the Mutual Life Company of Canada, covering the company's operations for the year 1904, may be found elsewhere in this issue of The Planet. The income for the year, in gross, was \$1,725,308.90, and the net surplus over all liabilities, in government standard of valuation is \$1,049,400.71. The business for the year was most gratifying, exceeding that of any former year, and resulting in a net addition to the insurance force of the handsome sum of \$2,889,419.

BLENHEIM

March 21.—It is with regret that we record the death of Mrs. James English, nee, under the Communication Road South, at the age of 50 years. She leaves to mourn her loss her husband, three daughters and a son. The funeral took place to-day, service being conducted at the house by Rev. Mr. Gilmore. The remains were interred in Evergreen Cemetery.

Archie McIntyre Jr., has sold out his barber shop to Mr. Tremblay, of Wheatley. Archie intends removing to Windsor shortly.

A large number attended the Irish concert given in the Opera House on Friday night, under the auspices of the Methodist Church.

Mr. and Mrs. J. E. M. Taylor, of Cedar Springs, have moved into Mrs. J. McGregor's house, opposite the Sheldon House.

G. M. Baird was in Chatham yesterday on business.

Geo. Bond is spending a few days with friends at Walkerville.

Rev. T. E. Higley will preach at the regular week night service in Trinity Church on Wednesday evening.

The funeral took place to-day of Mr. W. H. Bayley, an old resident on the Old Street, near Gaults. The deceased was 73 years of age.

STILL ANOTHER CASE

The new system treatment, Anti-Pill, continues to work wonderful cures.

When Dr. Leonhardt, of Lincoln, Neb., gave Anti-Pill to the world he had unbounded faith in the treatment but he had not foreseen the world-wide and wonderful results it is now achieving in the cure of disease.

Here is the story of another Anti-Pill victory—

"For many months I have been troubled with dyspepsia, dizziness in my head, cold chills, and a stiff neck. The time from constipation, and was unable to do my housework. Tried every kind of pill and medicine that either the doctors or myself self could think of, and finally tried Anti-Pill. The treatment has practically made a new woman of me. I am able to do all my own work. The dizziness has all gone, my stomach feels much better, and I am no longer troubled with constipation. I cannot praise Anti-Pill too highly."—Mrs. Thos. Tabb, Emerald Street North, Hamilton, Ont.

Mrs. Tabb's letter is only one of many.

Anti-Pill is sold by all druggists at 50c, or The Wilson-Fyle Co., Limited, Niagara Falls, Ont. Sole agents for Canada.

CARPENTERS WALK

Union carpenters working in the planing mill of John Piggott & Sons will walk out on strike this morning.

The help of a foresting work, night which ended in that decision. The union says that the firm must employ union men and pay union scale, but the firm maintains that it pays better than the union scale, though it reserves the right to employ union or non-union men.—Detroit Free Press.

John Newman was arraigned this morning and remanded till next Monday. He is held on a charge of being drunk.

WASTING AWAY

It's the small but constant loss of flesh that indicates physical waste—the gradual slipping away of healthy flesh, pound by pound, which no ordinary food seems to restore. Scott's Emulsion will restore it. This Emulsion is the greatest flesh builder obtainable. Scott's Emulsion first stops the wasting—that's one gain. Then when it supplies new flesh and takes one back to normal strength and weight, that's another gain and a big one.

We'll send you a sample, free
SCOTT & BOWNE, Chemists, Toronto, Ont.

AT YOUNG'S

Choice, sweet, juicy, seedless Oranges, at 40.35 and 30c a doz. California Lemons, extra large, thin skin, very juicy, at 25c a doz. Florida Pineapples, large, ripe, and a delicious flavor, 30c each. Good Bananas, bright clean stock, at 20 and 25c a doz. Good cooking apples, 10c a peck.

When you want good things to eat, go to Young's.

GEO. A. YOUNG,

Our Grocer - - - Phone 151.

GOES TO OTTAWA

Philip A. Errett, formerly of this city and for the past six years city editor of the Bradford Expositor, has been appointed to a responsible position on the editorial staff of the Ottawa Free Press. Mr. Errett is one of Ontario's brightest and most popular young newspaper men and his many Chatham friends and journalistic conferees are delighted to hear of his success.

PASSED AWAY

There passed away at an early hour this morning Mrs. Louisa Pope in her 84th year. She leaves four sons to mourn her loss, Richard Pope, city; John and George, Brandon, Manitoba, and Abe, of Stockert Cascade, Montana.

The funeral will leave her son's residence, Adelaide street, Thursday afternoon, at half past two o'clock.

BOECKH BRUSHES
THE STANDARD OF QUALITY

What's in a name? A great deal when it applies to brushes. The name BOECKH on a brush is the manufacturer's guarantee of workmanship and materials. Recognized for fifty years as "the standard goods of Canada," BOECKH BRUSHES represent the highest ideals in the art of brush-making.

W. S. RICHARDS, Kent Bakery**TO-NIGHT**

Don Leno's Imperials at the Grand at 8.15.
Chatham Lodge, No. 29, I. O. O. F., Oddfellows' Temple, at 8.
Divine service in Christ Church at 8 o'clock.

THE LOCAL BUDGET

Bert Miller, Harvey street, is seriously ill.
Mr. and Mrs. S. J. Sutherland, of New Orleans, are at the Hotel Garner.

You are invited to Northway's grand opening to-morrow and they expect to see you there.
Mrs. Peter Miller, Harvey street, and daughter Anje, are dangerously ill.

Mrs. R. Barrett, of Ridgetown, is spending a few days with Mrs. Edward Grandbois.

Evangelistic services started last night in the Baptist Church and will continue for two weeks.

Miss Sadie Morton left this morning for Toronto, where she will spend a few weeks with relatives.

Owing to the lateness of Easter, and in order to show the very latest styles, Thibodeau & Co. will not hold their spring millinery opening until the 29th.

Found, Friday, March 17, on Edgar street, a gold bracelet. Owner may have same by proving property and paying for this advt.

As The Northway Company are the only firm in this section whose buyers visit London, Paris and New York regularly every season. They certainly are the only reliable place for correct styles in millinery, etc.

Roy Johnson has been arrested on a charge of stealing a pair of hockey skates from the Park House. Johnson belongs to Bothwell and was arrested there. He was under arrest also in London on a charge of stealing an overcoat and was let go because his parents are quite respectable. The young man pleaded guilty and was remanded till March 27th for sentence.

**Home Bakery**

Has no equal. A meal at any hour for 15c that costs a 25c or more elsewhere. Fresh Oysters.

HOME BAKERY, FIFTH ST.**CHATHAM'S ONLY MILLINERY STORE**

We take great pleasure in announcing that our stock of Spring goods is now completed and awaits your inspection. Our special opening day will be Wednesday 22nd and following days.

G. A. COOKSLY

King St., Chatham

DR. A. W. THORNTON

DENTIST

Office over A. I. McCall & Co's Drug Store, Cor. King and Fifth Sts. Phone, Office 164, Residence 285.

Mrs. William Taylor, Detroit, is visiting her sister, Mrs. Henry Robinson.

City Engineer Jones is preparing a map of the electric light system of the city.

A meeting of the directors of the Scott Bros. & Co's firm, was held in Sheriff Gemmill's office to-day.

Miss V. Lamont has accepted a position as stenographer with lawyers McEvoy & Perrin, Robinson Hall, London.

Meeting of Trophy Committee of Chatham Carpet Ball League at the Rankin House this Tuesday night at 8 o'clock. Full attendance requested.
Word was received in this city yesterday by Mrs. Casper Schwemler that her sister, Mrs. John Williams, had passed away at her home in Chattanooga, Tenn. The late Mrs. Williams was formerly Miss Julia Dolson, daughter of Mr. & Mrs. John Dolson. The news of the departure of Mrs. Williams from this life came as a surprise, as her Chatham relatives never knew that she was sick. The remains will be brought to this city for interment.

DEATH'S CALL

Sad Demise of Daniel G. Revell, Well Known and Highly Esteemed in the Maple City.

Daniel G. Revell, the veteran railway conductor, who has been ill for seven months, passed away Sunday at his residence, 85 Church street.

The deceased was born in Ireland 63 years ago, being the youngest of nine children of the late Rev. Henry Revell, M. A., of Trinity College, Dublin, who was afterwards a rector of St. James' Episcopal church at Liverpool. In 1870 Daniel Revell entered the employ of the Great Western railway and located in Windsor. He remained with this road after it was acquired by the Grand Trunk and was the conductor of the passenger train which broke through the bridge at St. George on Feb. 27th, 1889. This was one of the worst railway wrecks in Canada. In the car in which Conductor Revell was sitting there were seven passengers killed, one sitting in the same seat with Mr. Revell. There were eleven Railway Conductors killed and scores injured. Conductor Revell escaped with a broken nose, fractured shoulder and internal injuries which laid him up for some time.

For the past few years the deceased was a conductor on the Wabash railway, running between Windsor and Buffalo.

A widow and one daughter, Mrs. J. E. Davignon, survive the deceased. There are two brothers, James R. of Tryonville, and Dr. R. N. Revell, of Woodstock, besides two sisters, Mrs. Minty of Chatham, and Mrs. Maynard, of Toronto.

The funeral will be held Tuesday afternoon from the late residence, the services being under the auspices of Frontier Lodge, I. O. O. F., of which deceased was a Past Noble Grand. The Brothers of the Railway Conductors will also attend. Interment will be at St. John's cemetery, Sandwich.—Windsor Record.

The deceased is the youngest brother of Mrs. M. E. Minty, of this city, who left to-day to attend the funeral. A sister, Mrs. Robert Stark, of Toronto, was called to the U.S.A. only a month ago, while another sister, Mrs. Maynard, of Toronto, suffered a severe fracture only a few days ago. Mrs. Minty has the sincere sympathy of the community in her bereavement.

Gordon's Grand Millinery**SPRING OPENING 1905****Wednesday March 22nd, and Following Days**

MISS ROMAN in Charge

We shall expect the pleasure of your presence to inspect all the new creations of Fashion in early Spring and Easter Millinery.

Dress Making Department

We are now ready to serve all our old Customers and numbers of new ones. Miss Syms will be found in her parlors, waiting your commands and will please you with her ability and promptness.

WILLIAM GORDON**ASPHALT BLOCK**

PAVEMENTS DECAYING!

Windsor's streets which have been paved with asphalt block are rapidly decaying. Two years ago the Ouellette avenue pavement was laid, and since then the blocks have crumbled into fine sand. Yesterday street cleaners scraped the asphalt into heaps and the rest of the roadway is fast breaking up. At the next city council meeting the board of works committee will make a report on the condition of the street.—News-Tribune, March 19th.

Some women seem to think a marriage license is equivalent to a life contract to leisure.

RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozene; it renews, restores and vitalizes instantly—it's a "woman's remedy,"—that's why.
Ferozone makes women strong, plump and healthful because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozene in any drug store.

A dull razor is full of the old nick.

TOILET SOAPS

MORLEY & CO.

TAILORS, IMPORTERS.

REASON NO 20
WHY YOU SHOULD USERed Rose
Tea

Because it is perfectly clean.

Wouldn't you like to know that the tea you drink has not been touched by human hand since it was plucked on the plantation?

This is what you get in Red Rose Tea. The old method of rolling and packing tea by hand has been entirely done away with on the tea estates where Red Rose Tea is produced. There, as well as in the blending and packing rooms, machinery—scrupulously clean machinery—is used exclusively.

Red Rose Tea is never touched by hand after being plucked.

This fact alone will help you enjoy drinking it. The Blue Label is recommended.

SMITH & SMITH.

SPENDTHRIFT BALZAC.

Extravagance of the Man Who Had a Mountain of Debt.

"With Balzac's rising fame rises the mountain of his debts," writes a critic. "These, starting from his two disastrous years of printing and publishing in Paris, accumulated until at the top of his literary renown he had to hide from his creditors in a garret under the name of his landlady or his washerwoman. In 1837 Balzac, at that date the best known and the most debated novelist in France, owed 162,000 francs, about \$32,500. Then he must needs buy a cane which was the talk of Paris, some gold buttons for a new coat, a 'divine opera glass' and a dressing gown beyond words and give a dinner to the dandies of the opera respecting which Rosini said that 'he had not seen more magnificence when he dined at royal tables.'"

"Balzac three times a millionaire would still have buried himself in debt, for the mental exaltation of his creative hours was reproduced when he broke loose from the galley bench. He lavished in anticipation the wealth he had dreamed would be his. This gone, he borrowed anew or devised another of those schemes that were to enrich him beyond the possibilities of literature. His schemes were essentially a part of Balzac, the sovereign, unconquerable visionary."

"He would transport oaks from Poland to France; nothing like oaks from Poland to make your fortune three times over! Behold him again gravely working out his plan to make a corner in all the arts and putting up the Apollo Belvedere for competition among the nations—to act as auctioneer to Europe—the 'child man,' as his devoted sister, Mme. Surville, used to call him."

CHAINED BOOKS.

The Custom at One Time Extended to Lincoln's Inn, London.

When one looks in bookshop windows nowadays and contemplates the bewildering abundance of volumes of all kinds of literature offered at the low price of \$1.50 or less he finds it difficult to realize that time was when a Bible cost as much as \$10,000 in our present money. No wonder it was kept chained in churches. The Black Books of Lincoln's Inn, London, show that this practice of chaining obtained there. There is an entry during the reign of King James I. "that decent stools be provided and that moveable desks be also made and chains for the book," and a few years later the inn payments include 20 shillings for twenty dozen of chains and rings for the library, and there is a fresh order made that "all considerable books be chained."

It appears that none of the existing books in the library retain their chains or any part of them, but a considerable number—about forty—still have riveted to the binding the ring or hasp by which the chain was attached, and many more show the mark left by rings now removed.

The "moveable desk" and the "decent stools" were essential appurtenances of a chained library of any size. Even the zeal of a medieval student was not equal to holding a chained folio. In the accounts of the Middle Temple "chayns for the bokes of the library" is a constantly recurring item, and a reader in Gray's Inn in bequeathing his library gives 40 shillings to the intent that he—the trustee—"male by chayns fasten so many of them in the library at Gray's Inn as he shall think convenient."

Mrs. Gummidge.

We have her with us always. Her nose droops, her mouth turns down at the corners, her complexion is generally sallow, her eyes lusterless, and when small tribulation or great calamity happens to the family she "feels it more than the others." Wonderful is Dickens' delineation of Mrs. Gummidge, whom little Davy found such treasure trove for his interested observation; who, when the chimney smoked or the potatoes failed, wept silently, because, forsooth, "I feels it more than others." She is the girl at school who forever is having her feelings hurt. "Very sensitive," say her friends; "very self-conscious," sniff her critics.

Paris Court Trials.

The demand for seats at a Paris court trial is utilized by the poor to turn an honest franc. The courtrooms usually admit of but forty visitors other than the regular court officers. It is common for a crowd to collect in front of the court many hours before the door is open and wait patiently in line. Just before the trial begins, when the doors are open, these men, who have perhaps been standing all night in the rain, are glad to sell their places for a few francs.

Her Conclusion.

"I've got my opinion of a woman that can't cook," growled William De Kikkur, glaring at his better half. "I suppose that if our cook would get married I'd starve to death!"

"You needn't worry about that, William," said Mrs. De K. gently. "Our cook has been married once, and I don't consider it at all likely that she would care to."

But her irate spouse had slammed the door behind him.

Hourglass Waists.

"Doctor," said a fashionable belle, "what do you think of tight lacing?" The doctor solemnly replied, "Madam, all I can say is that the more a woman's waist is shaped like an hourglass the sooner will her sands of life run out."

The head of a theological school once said, "I've seen so many fools succeed and so many geniuses come to nothing that I have ceased to prophesy."—Christian Register.

Free Gifts of Toilet Soaps

Use SUNLIGHT SOAP and SAVE THE COUPONS.

The Coupons are the same as cash because they can be exchanged for Toilet Soaps for which you have to pay out money every week.

Users of SUNLIGHT and CHEERFUL SOAPS can get their TOILET SOAPS for nothing.

Ask your grocer for particulars or write us for Premium List.

A gift is of little value if it consists of something you have no use for.

In exchange for Sunlight Soap Coupons you can get something you need and use every day.

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicose, Stricture, Blood Poison, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you how and why we can cure you; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent free.

148 SHELBY STREET, DETROIT, MICH.

The American Accent.

There is no such thing as the "American accent" except in a few words such as "advertisement," wherein America is superior as to pronunciation and practice.

Nor does the American born man "talk through his nose." The real difference that we all notice is a difference in the general pitch of voice. The American voice is pitched in a slightly higher key than the English, and here you may find the reason why the American assimilates French so easily. Put roughly, the case is this: The Frenchman talks from his palate, the Englishman from his chest and the German from his diaphragm.—London Chronicle.

First of the Lazy Men.

During the civil war a captain of a company which had sixty men in its ranks, none of whom was as energetic as the officer thought he should be, hit upon a plan which he believed would cure the men's habits of laziness. One morning after roll call the captain, addressing his command, said: "I have a nice, easy job for the laziest man step to the front!"

Instantly fifty-nine men each took a step forward.

"Why didn't you step to the front?" inquired the commander of the one man who did not come.

"I was too lazy," replied the soldier.

LONDON'S OLD CLOTHES.

The Way They Change Owners Adown the Social Scale.

In those parts of London in which the penny is the standard of value there is a traffic in secondhand materials of a sort that is unheard of in any city of America.

For example, a dress costing 100 guineas and worn by a woman of fashion on one of the days of the Ascot meeting will be seen perhaps twice thereafter, once at a garden party and again at some function remote from town, after which it becomes the perquisite of the lady's maid, from whom it is bought by an old woman who maintains what is called a "ladies' wardrobe" in Brixton or Baywater. To the dingy parlor in which this old-fashioned woman transacts her business come the wives of struggling attorneys, medical men and city clerks, intent on bargains, and to one of these the Ascot dress, "Positively worn by Lady G. in the royal inclosure," as the old woman informs her in an awed whisper, is knocked down at the low price of 10 guineas.

Its new owner wears it until it is too shabby to be worn again, after which it is sold to a second rate wardrobe and becomes the property of a greengrocer's wife, who takes it to pieces, retires it and wears it out of the shop until it is once more shabby. Then it is sold to a third rate wardrobe, where it catches the eye of some coster lady and is sold for 3 shillings.

Our Spring Millinery Opening

Wednesday, March Twenty Second following days.

To our patrons and friends we take this opportunity of thanking them for their patronage in the past. To the Ladies of Chatham and vicinity we extend a cordial invitation to view every correct style in Millinery for spring, such as will be shown in Our Millinery Department on Wednesday next.

WM. FOREMAN & CO

Strong Dissatisfaction Amongst the Old Members of the A. O. U. W.

The enormous increase in the rate of insurance to the old members of the Ancient Order of United Workmen dealt upon at the recent annual meeting of the Grand Lodge held in Toronto has aroused, as might well be expected, a wide spread feeling of dissatisfaction amongst old members. They do not hesitate to pronounce the action of the Grand Lodge as shamefully unjust, and are fully determined not to submit until the matter has been thoroughly tested in the law courts. The action of the Grand Lodge, in increasing the rates, is regarded as a deliberate effort to squeeze out the old members of the Order, who have paid into the treasury thousands of dollars and many of whom will, if the increased rate is enforced, lose every dollar paid in and be compelled to drop out altogether. This is a most serious matter to many of them. It seems that certain concessions were made, and great consideration shown to the younger members of the Order, but this was done by sacrificing the interests of the older members. No concessions and no consideration appears to have been shown to the latter.

A meeting of the old members residing in Chatham and parts adjacent will be held in a few days to decide what shall be done. Some idea of the great increase may be gathered

NEW FRUIT STORE. WHOLESALE AND RETAIL

Abraham Jakoor

Will open a Wholesale and Retail Fruit Store, Next to the Rankin House in the store lately occupied by Mr. Tilt, where on

Saturday, March 25, 1906,

will be found a choice assortment of FRUITS OF ALL KINDS,

Also Confectionery, Tobacco and Cigars. Parties requiring any of the above at Wholesale or retail will find it to their advantage to give Mr. Jakoor a call or telephone 446.

from the fact that those members of the Order who have heretofore paid \$26 or \$28 on an insurance of \$2,000 will, under the increased rate, have to pay \$65 per annum.

Miss Ella Gamble, corner of Harvey and Wellington streets, is confined to the house with inflammation of the lungs.

Your heart beats 100,000 times each day!

Put your finger on your pulse and feel the blood rushing by. Good blood or bad blood? Good health or bad health? You know. Your doctor will tell you his experience with Ayer's Sarsaparilla in these cases. Sold for sixty years. Lowell, Mass.

Mineral Baths

Chatham, Dec. 18, 1901.

To CHATHAM MINERAL WATER CO.

For some years I was so badly used up with rheumatism in my hip and leg that I could not walk without suffering severe pain and finally got so bad that I was confined to my bed. I tried almost every kind of patent medicine beside consulting physicians, but obtained no relief. At last I was persuaded to try the mineral water and used it in liberal quantities. From the first I felt a decided change for the better, and now I can say I have entirely recovered. I cannot recommend the mineral water too highly and am pleased to such a magnificent establishment erected for the treatment of cases like mine.

PHONES FOR FARMERS

Sir Wm. Mulock Outlines Work For Municipalities.

Charges for Telephone Service Could Be Added to the Tax Bill—Government Could Deal With the Municipality and the Latter Could Deal With the Individual Subscriber—Special Committee at Work.

Ottawa, March 21.—The special committee appointed to enquire into the telephone question held its first meeting yesterday morning, with eight of the eleven members present. It began work as if it meant business. Sir William Mulock, who was unanimously voted into the chair, outlined the scope of the committee. He had arranged with an officer of the Department of Justice to prepare for the committee a summary of all the legislation bearing on Canadian telephone companies. In addition to this the committee expressed a desire for information as to the operation of telephone systems in the United States, Australia, Scandinavia and Denmark.

Patents Not a Consideration. He intimated to a member of the committee that the question of patents was not worth consideration, since the Government could override any patent. Sir William promised to furnish the committee with a report obtained by one of his officers some years ago.

W. F. Maclean suggested that some one should be employed to make special enquiry into the phone situation in the United Kingdom. It was necessary, he said, that the committee should have facts as to the working of the different systems.

Sir William Mulock said he intended to summon officers of the Bell Telephone Co. and get from them all available information as to the working of their system and the capital invested.

Importance to Rural Districts. Sir William spoke of the importance of the phone to the rural districts. He thought no scheme would be satisfactory which did not provide for the serving of isolated individuals in the country with telephones at reasonable rates.

The farmer, he thought, was chiefly interested in getting his communication with his neighbor and his market town. The long-distance was less important to the farming community. The success of rural phones depended largely on the development of the automatic services system. Sir William said he had heard of systems where a dozen subscribers could have phone communication without a central station.

Let Municipalities Work It. Sir William suggested that rural phones might be brought within reach of rural residents through machinery provided by the municipality. By co-operation, the municipalities could create municipal services and place the charges in the tax bills, assessing, of course, only phone subscribers. This would save the Government a lot of trouble. The municipality could apply to the Government to establish a system in a certain district and the municipality could deal with the individual.

Mr. Maclean said the phone and the telegram and the parcel post should be centred in the post office, and the municipal services should be connected one group with another and also the trunk lines.

Sir William Mulock said he desired it to be known that any evidence or information the public could give the committee would be gladly accepted. The committee decided to call Mr. Daggar, of Toronto, to appear before the committee at its next meeting, which will be held next Wednesday.

THE AUTONOMY BILLS.

Premier Announces Change in the Educational Classes—Second Reading Set for Wednesday.

Ottawa, March 21.—Sir Wilfrid Laurier announced yesterday afternoon in the House that the autonomy bills will be proceeded with on Wednesday. He announced an amendment to the educational clause, as follows:

The Proposed Amendment. Section 93 of the B. N. A. Act, 1867, shall apply to the said province, with a substitution for sub-section 1 of said section 93 of the following sub-section: (1) Nothing in any such law shall prejudicially affect any right or privilege with respect to separate schools which any class of persons have at the date of the passing of this act, under the terms of chapters 29 and 30 of the ordinances of the Northwest Territories, passed in the year 1901.

(2) In the appropriation by the Legislature or distribution by the Government of the province of any money for the support of schools, organized and carried on in accordance with said chapter 29 or any act passed in amendment thereof or in substitution thereof, there shall be no discrimination against schools of any class described in the said chapter 29.

(3) Where the expression "by law" is employed in sub-section 3 of the said section 93, it shall be held to mean the law as set out in the said chapters 29 and 30, and where the expression "at the union" is employed in said sub-section 3 it shall be held to mean the date at which this act comes into force.

P. E. Island Grievances. The annual debate on the want of communication of Prince Edward Island with the mainland in winter was precipitated by Mr. Tupper. The Government indicated that it would consider the question.

Nine Months in Central.

Windsor, March 21.—Magistrate Bartlett yesterday sentenced Gordon Fleming, Toronto, to a nine months' term in the Toronto Central Prison. He was charged with having attempted to perpetrate a swindle upon the dry-goods firm of J. W. Peddie & Co. of this city. Fleming pleaded guilty.

Fishing Vessels Ashore.

Highland Light, Mass., March 21.—Ten fishing vessels, most of them belonging to the local haddock fleet, were driven ashore on Sunday night, and early yesterday were being forced still farther up by the gale blowing from the northeast.

CUPI'S ADVICE
"GIVE THE
BABIES
NESTLE'S
FOOD."

Nestle's Food
IS ECONOMICAL

Nestle's Food is ready for baby by adding water.

Nestle's Food requires no milk because it contains all the nourishment in milk.

Nestle's Food is prepared from rich, creamy cow's milk—and is the one safe substitute for mother's milk.

THE NESTLE MILK CO., LIMITED,
MONTREAL.

REILLY ON TRIAL.

Prosecution Surprises the Defence and Gets Reilly's Former Evidence Read in Court.

Bellevue, March 21.—The trial of Frank J. Reilly for conspiracy in connection with the bogus ballot boxes was commenced yesterday morning. The prosecution placed the official stenographer at the preliminary investigation in the box, and had her swear to the evidence given by Reilly before Magistrate Wood.

Then the Crown Prosecutor started to read Reilly's evidence to the jury. E. F. B. Johnston, counsel for Reilly, objected strenuously, but the judge allowed the evidence to be read. Reilly's evidence at the preliminary investigation was practically a confession.

The jury was selected after the Crown had challenged 16 and the defence 11. The reading of Reilly's evidence took all the morning and until 3 in the afternoon.

Col. Sherwood told of arresting Reilly in Kingston, and getting a statement from him for Mr. Shepley, K. C., who was acting for the Dominion Government.

Phil Lett's Evidence. Next came the evidence of Phil Lett, who told practically the same story that he did in the case of King v. Rutan. Mr. Johnston's cross-examination of Phil was very fierce. For over two hours he had Phil on the rack, making many insinuations, and asking all sorts of awkward questions, but the brother of Byron manfully stood to his guns and rather more than held his own.

Phil refused to admit that he entered the conspiracy to try to ruin his brother. His brother, he said, was quite willing to ruin him if he could get into Parliament. Phil said his whole idea in exposing the case was to stop a wrong. At 6:15 the cross-examination was concluded and the judge adjourned court till 9:30 Tuesday morning.

It is expected that the case will be finished to-day.

THE LEGISLATURE.

All is Now Ready for the Opening, Wednesday, March 22.

Toronto, March 21.—The opening of the Legislature to-morrow afternoon promises to be an occasion of special interest and brilliancy. A change of Government always incites that curiosity which makes one desire to see how the parties hold under changed conditions. After thirty-two years, the satisfaction on the Conservative side is genuine and Mr. Whitney seems to enjoy the prospect. The Premier waited on the Lieutenant-Governor yesterday morning and spent some time at Government House discussing the speech from the Throne and arrangements for the opening.

The chamber is looking like a new place after a thorough two weeks' house-cleaning, and all is ready for the session.

The opening ceremonies to-morrow at 3 o'clock will be heightened by the formal election of the new Speaker, which will be the occasion of Mr. Whitney's first speech as Premier. He will nominate J. W. St. John (West York), Richard Marcourt, acting leader of the Opposition while Mr. Ross is absent in the south, will probably be the second.

Monday, April 2, has been set as the last day for the presentation of petitions for private bills. The bills themselves must be introduced by April 16, and the committee on private bills must report by April 24. These dates will be strictly adhered to, which has not always been the custom. Col. Clarke, Clerk of the House, has already received a number of petitions for private bills. Chief of these are for new railways, and one asks for the incorporation of a new telephone company in Ontario.

T. F. Langworthy, of Port Arthur, has been appointed Crown Attorney for the District of Thunder Bay, succeeding D. Mills, son of Hon. David Mills, who held the position prior to the election of the former incumbent, T. A. Gorman, to a judgeship.

If you wish to be rightly informed as to what is correct in millinery for spring and summer we would strongly advise you to visit Northway's opening display to-morrow.

THERE IS ONE POINT

That we like to harp on and that is that we make the clothing we sell. This gives us so many advantages over the other fellow that it is impossible to enumerate them at one sitting.

However, here is ONE—We are a long way ahead of the merchant who has to buy his clothing from a jobber, or even from the maker. For, of course, it is commercial axiom that the closer you can get to the cost of production of an article, the cheaper that article ought to be. We produce or make clothes, you wear them, pretty close touch, isn't it?—when you come here.

Will tell you some other advantages some day.

THORNTON & DOUGLAS,
LIMITED

RAILROAD WILL SPEND \$350,000

Continued from Page One.

Ald. Edmondson and Potter said that in view of the many enquiries from industrial concerns from outside places in reference to Chatham and Chatham's inducements to industries the purchase of these papers for sending out would be a judicious move. Both aldermen took occasion to pay a high tribute to the excellence of these industrial numbers.

L. E. Tillson addressed the Council. He thought the Mayor's action in declaring Ald. O'Keefe's motion out of order, he said that he was heartily in favor of bitulithic for Murray street and was the heaviest ratepayer on the street.

Ex-Ald. Robinson also spoke heartily in favor of the bitulithic pavement. It was as good as any and much cheaper.

The Mayor said that he was sorry if his calling was not popular, but he was there to do his duty. "I am not merely here as a figure-head," he declared, "I am not here to be buffeted by any pavement company. I am acting on the advice of the city solicitor because I desire to do what is right—and that only."

W. A. Hadley in the new audience called the Mayor's attention to the action of Judge Houston on behalf of his clients last year and the Mayor promised to consult the solicitor concerning it.

The Property committee was given power to advertise the new garbage scheme to the extent of \$10 so that the citizens may become well acquainted with the workings of the system.

Ald. Potter moved, seconded by Ald. Marshall, that when a resident of any street signs a petition for a pavement the date upon which the resident signs shall accompany the signature. This was calculated to save trouble over petitions and counter petitions for pavements and

STARR'S MAGIC RHEUMATIC CURE

Guaranteed to CURE RHEUMATISM. Acute, Inflammatory, or Chronic; also Neuralgia, Sciatica, Lumbago, and all Kidney troubles. Removes uric acid from the system & gives immediate relief. Don't suffer, but send for a bottle at once. Hundreds have been cured. The Ontario Co., Toronto, Ont. \$1.00 per bottle.

to prevent old petitions from being resurrected. The motion was withdrawn and in the meantime Ald. Potter will consult the city solicitor as to the Council's powers in the matter.

The Mayor reported that he had appointed ex-Mayor S. T. Martin, ex-Mayor Manson Campbell, and Ald. John Flook a citizens' committee on pavements and all of these gentlemen have consented to act on this committee.

A by-law was passed appointing Andrew Harbert as scavenger at salary of \$200 per annum from city and 25 cents per month from each residence requiring garbage collection.
