AUDIT OFFICE,

Ottawa, October, 1868.

SIR,—In presenting to you the Municipal Statistics of Ontario for the year 1867, I have the honor to remark that the Assessment was made that year, for the first time, in accordance with recent legislation on the subject. The system of assessing property in cities and towns has been changed from that followed in former years, and the strict check on the accuracy of the assessment which had become possible by the comparison of several years' returns is this year somewhat impaired. On this account, too, the comparison of the assessment of 1867 with the assessments of 1866 and 1865, should not be made the basis of exact deductions as to the prosperity or decline of particular localities.

This year we are moreover furnished for the first time with the Assessors' returns of population and farm stock. The first returns cannot be altogether reliable, but I have deemed it proper to submit them *in extenso*, as much for the guidance and information of the municipal authorities and officers, in preparing and revising the rolls for 1868, as for the information of statistical enquirers. If carefully taken, this Municipal Census cannot fail to be of great value; increasing as it must, in completeness and accuracy, each year it is prepared.

The difference in the amounts given in 1867, and in previous years, as sums due to the Municipal Loan Fund, arises from the fact that in 1867 the columns were filled up from the Receiver General's Statements; in previous years from those made by Municipal Officers.

These Municipal Statistics have been collected in this office, in conformity with an understanding arrived at with the Provincial Government of Ontario.

I have the honor to be, Sir,

Your obedient servant,

JOHN LANGTON,

*Auditor.*

To the Hon. JOHN ROSE,  
Minister of Finance.

AUDIT OFFICE, OTTAWA,

Feb. 20th, 1869.

SIR,—I have the honor to present to you Part II. of the Miscellaneous Statistics of Canada, being such Municipal Statistics as I have been able to collect from the Province of Quebec and the Maritime Provinces.

The Municipal organization of Quebec is not yet nearly so complete as that of Ontario, and the Municipal Statistics are consequently much less reliable than those for the latter Province, contained in the Miscellaneous Statistics, Part I. Still, each year of the four during which these figures have been collected shews some improvement over the preceding one.

Only a few parts of New Brunswick are yet municipally organized, and these not so completely as in Quebec. The returns are consequently very partial.

In Nova Scotia no organization that can be called municipal, in the sense in which the word is understood in the Western part of Canada, can be said to exist.

It has been thought proper, in view of the importance of the subject, to continue the preparation here of the Municipal Statistics of the several Provinces, at least for the years 1867 (now submitted) and 1868 (in course of collection), although it would appear that the Provinces ought to assume a share of the cost, if not of the labor. An arrangement has been suggested to and approved of by some members of the Government of Ontario for paying to the County officials who collect the returns from towns and townships some small fees as remuneration for their labor—fees not hitherto given them, but which ought in fairness to be allowed—when the preparation of the General Return, for the joint use of the Dominion and the Province, would be done at the cost of the General Government. Some similar arrangement might be made with the Government of Quebec, and applied to the other Provinces, as municipal institutions may be extended.

It is, however, evident that unless the Government and Legislatures of the Provinces lend both pecuniary and moral support to the work, it cannot be long continued.

I have the honor to be, Sir,

Your obedient servant,

JOHN LANGTON,

*Auditor.*

The Hon. JOHN ROSE,  
Minister of Finance.

<p>The assessors do not return the number of acres of land assessed. The County is divided into Parishes. The business of the County is conducted by the Magistrates at the General Sessions of the Peace, holden twice a year. There are no Municipalities, and no revenue derivable in any way, except Tavern and Wholesale Licenses. These vary from \$200 to \$250 per annum, and are applied towards the payment of the contingent expenses of the County; the balance, generally about \$800 is made up by direct taxation. Each Parish has to support s own poor.</p>

AUDIT OFFICE, OTTAWA,

Sept. 15, 1869.

SIR,

I have the honor to submit Part III of the Miscellaneous Statistics of Canada, for 1868.

It contains no new features excepting the introduction of the information collected from the Maritime Provinces; to this extent therefore the comparison with former years will be somewhat imperfect.

I have the honor to be,

Your obedient servant,

JOHN LANGTON.

*Auditor.*

The Hon. JOHN ROSE,

Minister of Finance.

*To His Excellency the Honorable SIR JOHN YOUNG, K.G.C., G.C.  
M.G., Governor General of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Tables of the TRADE AND NAVIGATION of the Dominion of Canada, for the Fiscal Year ending 30th June, 1868, as prepared from Official Returns, and laid before him by the Commissioner of Customs.

All which is respectfully submitted.

To the Hon. S. L. TILLEY, C.B.,  
Minister of Customs,  
&c., &c., &c.

SIR,

In laying before you the Tables of the Trade and Navigation of the Dominion, for the First Fiscal Year of the Confederation, that is to say, for the Year ending on the 30th June, 1868, I would beg leave to state in explanation of the late date at which these Tables are brought, in their present extended form, under your consideration, that the delay has been the unavoidable result of the different systems both in theory and practice followed in the several Provinces, in reference to the management of Customs matters and the preparation of Returns.—The assimilation of these systems, the adaptation of forms to suit the altered circumstances of the Country in reference to its departmental administration, and the delays necessarily created in communicating with Ports so remote from the Seat of Government as are those in New Brunswick and Nova Scotia, have rendered it impossible, notwithstanding the greatest zeal and diligence on the part of the Statistical Clerks of the Department, to prepare the volume now laid before you, earlier.

Indeed as it is I would bespeak for this first compilation of the Commercial Statistics of Canada in its confederate form, some indulgence for any deficiencies or imperfections that may be found either in their general arrangement or details, the latter being possibly in some instances redundant whilst a careful revision of the subject next year may suggest some improvement in the arrangement of the Tables.

It is nevertheless believed that the present volume will be found to contain a mass of valuable information in regard to the Trade and Shipping of the Dominion, and I would merely beg leave in conclusion respectfully to call your attention to Tables Nos. 36 and 37, by which it will be seen that the Trade of the Dominion, in Imports and Exports combined, exceeds \$130,000,000,—which Trade employs about 12,900,000 Tons of British and Foreign Shipping.

All of which is respectfully submitted.

R. S. M. BOUCHETTE,  
*Commissioner of Customs.*
