The copy filmed here has been reproduced thanks to the generosity of:

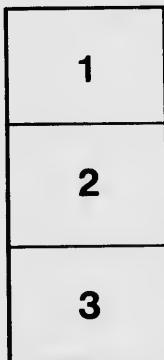

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc.. may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

1	2	3
4	5	6

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

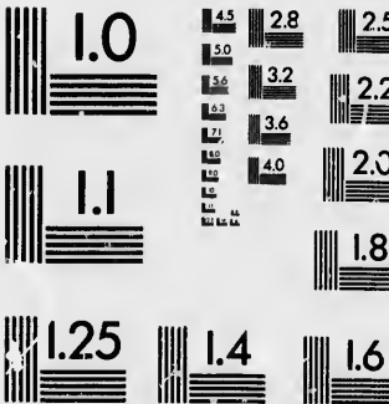

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

«**NOTICE.**»

The prices on this catalogue are net selling prices in Canada. In the Lower Provinces, British Columbia and Manitoba the cost of transportation must be added. The Manufacturers' Illustrated Catalogue will be sent when asked for. It will be seen that our prices are a great reduction on the makers' catalogue prices.

Good Second-hand Pianos and Organs, taken in exchange for new instruments, put in the best order, and sold or hired at reasonable prices.

AMERICAN BABY GRAND.

Weber Small Grand Piano.

These powerful instruments are now the favorite of every great singer and pianist of renown, in fact, every musician of note. In their matchless tones, extraordinary power and endurance, they are unequalled.

THE CENTENNIAL JUDGES on Pianos say:—"The Weber Pianos are undoubtedly the best in America, probably in the world, to-day. The Grand Weber was the most wonderful Piano we ever touched or heard."

HER MAJESTY'S OPERA COMPANY says:—"For purity and richness of tone, with great power and singing quality, we know of no Piano which equals them; certainly, for sustaining the voice or cultivating it, the Weber is superior to any Piano known to us."

THE ITALIAN OPERA COMPANY says:—"The tone of the Weber Pianos is so pure and prolonged, and of such inexhaustable depth, that they sustain the voice in a wonderful degree, and stand remarkably long in tune. We not only recommend them in the highest degree, but think them THE BEST PIANOS IN THE WORLD."

THERESA CARRENO says:—"I am not surprised that every great musician prefers them, for they are truly noble instruments, and their power to remain in tune is surprising." JULIA RIVE KING says: "they are the finest Pianos she ever placed her fingers on." EMMA THURSBY ranks Weber as "the greatest manufacturer of the age." The *London Musical World* says:—"Weber, of New York, stands in the front rank of all manufacturers." The same testimony is borne by NILSSON, KELLOGG, ALBANI, PAUL, STRAUSS, and all the great musicians of the present day.

Those wishing to procure one of these magnificent instruments can do so by applying at the Dominion Agency, in the New York Piano Company Rooms, 226 and 228 St. James Street, Montreal, where the various styles can be seen, and descriptive catalogues procured.

NEW YORK PIANO COMPANY,

226 & 228 ST. JAMES STREET, MONTREAL.

SQUARE GRAND, STYLE No. 7.

BOURDOIR OR BAEY GRAND.

These are pronounced by all great Artists, Musicians and by all leading Vocalists, as incomparably the finest instruments in the world. They are universally used in all great Concerts and Operas and by the wealthy and refined, who have the means to pay for them, and can appreciate GRANDEUR OF TONE.

SQUARES.

- Style No. 6.** Square Grand, $7\frac{1}{2}$ Octaves, front round corners, extra moulding on plinth, heavy serpentine moulding on bottom, large O. G. moulding on rim, extra carved legs and lyre. Price \$700.
- Style No. 7.** Square Grand, $7\frac{1}{2}$ Octaves, three strings, four large round corners, magnificent case, extra moulding on plinth, special moulding on top of rim, extra heavy serpentine moulding on bottom, extra rich carved legs and lyre. Price \$800.

UPRIGHT OR CABINET GRAND, STYLE NO. 3.

CONCERT GRAND, STYLE NO. 3.

WEBER PIANOS.—(Continued.)**UPRIGHTS.**

Style No. 1. Rosewood Upright or Boudoir Piano, 7 Octaves, overstrung scale, three strings, patent action. Height, 4 ft. 1 $\frac{1}{2}$ in. Price \$550.

Style No. 2. Rosewood Upright or Boudoir Piano, 7 Octaves, overstrung scale, three strings, patent action. Height, 4 ft. 7 in. Price \$650.

This Piano may be had in finely figured French walnut case at same price.

Style No. 3. Rosewood Upright or Boudoir Piano, 7 $\frac{1}{2}$ Octaves, extra handsome case, overstrung scale, three strings, patent action. Height, 4 feet 8 inches. Price \$800.

GRANDS.

Style No. 1. Rosewood Boudoir or Baby Grand, 7 Octaves, rich serpentine mouldings on bottom, carved legs and lyre, patent repeating action. Length 6 ft. 3 in. Price \$950.

Style No. 2. Rosewood Large Parlor Grand, 7 $\frac{1}{2}$ Octaves, rich serpentine mouldings on bottom, rich carved legs and lyre, patent repeating action. Length, 7 ft. 3 in. Price \$1050.

Style No. 3. Rosewood, Concert Grand Piano, 7 $\frac{1}{2}$ Octaves, rich serpentine mouldings on body of case, very rich carved legs and lyre, patent repeating action. Length, 9 ft. Price \$1200.

This is said to be the finest piano in the world, possessing marvellous tone, and hence it is the favorite with the great musical professors of France, Germany, England and the United States, and is used in the grand concerts of the Italian Opera, by Nilsson, Patti, Albani, Carreno, and all leading Artists.

For Centennial Grands and special Pianos see Weber's Illustrated Catalogue.

STYLE No. 6.

STYLE No. 8.

These Instruments are constructed upon an entirely new overstrung scale, the result of many years' practical experience and much study. They are especially noted for their prolonged singing qualities, great depth and purity of tone, prompt elastic touch, combined with great power, in their adaptation to withstand the influence of extreme climates they are unrivaled, and are pronounced by all competent judges to be very superior instruments. All material used in the construction of these Pianofortes is selected with much care and none but the very best used. Owing to the great solidity of construction and improved wrest plank, we claim that these instruments will remain in tune and up to pitch longer than others.

SQUARES.

Style No. 3. Rosewood case, large front round corners, serpentine and ogee mouldings, carved legs, agraffe throughout, overstrung, new scale, $7\frac{1}{2}$ octaves. Net. Length, 6 ft. 11 in.; width, 3 ft. 6 in. Price \$450.

STYLE No. 8.

STYLE No. 16.

JOSEPH P. HALE,
NEW YORK.

Mr. Hale is said to make about one fifth of the Pianos manufactured in the United States. Being a manufacturer of great wealth, he is able to produce a first-class instrument at a moderate price. Their great power, strength and durability make them deservedly favorites with Schools, Convents and the general public; and from the fact that they seldom require the tuner, they give general satisfaction.

SQUARES.

Style No. 5. Rich rosewood case, 7 Octaves, front round corners, medium size, serpentine mouldings, carved legs. (The best Piano for the money in Net. America.)

Price \$325.

Style No. 8. Double-veneered rosewood case, $7\frac{1}{2}$ Octaves, large front round corners, three solid rosewood mouldings, carved legs. Agraffe treble.

How to Preserve a Piano.

It is evident that if the Piano is to remain in good order for many years, good care must be taken of it. The instrument should be closed when not in use, in order to prevent the collection of dust, pins, etc., etc., on the sound-board; however, it must not be left closed for a period of several months or longer, but be opened occasionally, and the daylight allowed to strike the keys, or else the ivory may turn yellow.

Any hard substance, no matter how small, dropped inside of the Piano will cause a rattling, jarring noise.

It is in every case desirable that an india-rubber or cloth cover should protect the instrument from bruises and scratches.

The Piano should not be placed in a damp room, or left open in a draft of air—dampness is its most dangerous enemy, causing the strings and tuning-pins to rust, the cloth used in the construction of the keys and action to swell, whereby the mechanism will move sluggishly, or often stick altogether. This occurs chiefly in the summer season, and the best Pianos, made of the most thoroughly-seasoned material, are necessarily affected by dampness, the absorption being rapid. Extreme heat is scarcely less injurious. The Piano should not be placed very near to an open fire or a heated stove, nor over or close to the hot air from furnaces now in general use.

Moths are very destructive to the cloth and felt used in the Piano, and may be kept out of it by placing a lump of camphor, wrapped in soft paper, in the inside corner, care being taken to renew it from time to time.

Many persons are unaware of the great importance of having their Pianos kept in order, and only tuned by a competent tuner. A new Piano should be tuned at least once every three or four months, during the first year, and at longer intervals afterwards.

The N. Y. PIANO Co. employ competent tuners to take care of all Pianos sold by them, and it is desirable that all orders for tuning or repairing be sent to their house, as it may save much loss and annoyance from the evils of employing incompetent tuners.

NEW YORK PIANO CO.

N. Y. Piano Co.'s Instructions for unpacking a Piano.

Take out the screws holding the lid of the box, remove the lid, take out the piano legs and lyre, remove the board across the inside box, unscrew the four boards holding down the Piano in each corner. Place two benches or strong wide chairs, which should be covered with a quilt or other soft substance, alongside the box where the back of the Piano is, slide the Piano toward the end where the legs were—about six inches; have the Piano lifted out by four persons, one at each corner, and set it on the two benches or chairs on its back.

Unscrew the cross-boards on each end of the bottom, and put the lyre and legs on, which are numbered 1, 2, 3, 4, for their respective places. Have the four persons, lift the Piano off the benches and set it down so that the four legs will touch the floor at the same time. Unlock the instrument, (the key will be found tied to the lyre,) remove the paper strips, and wipe off the dust lightly with a soft silk handkerchief or piece of buckskin.

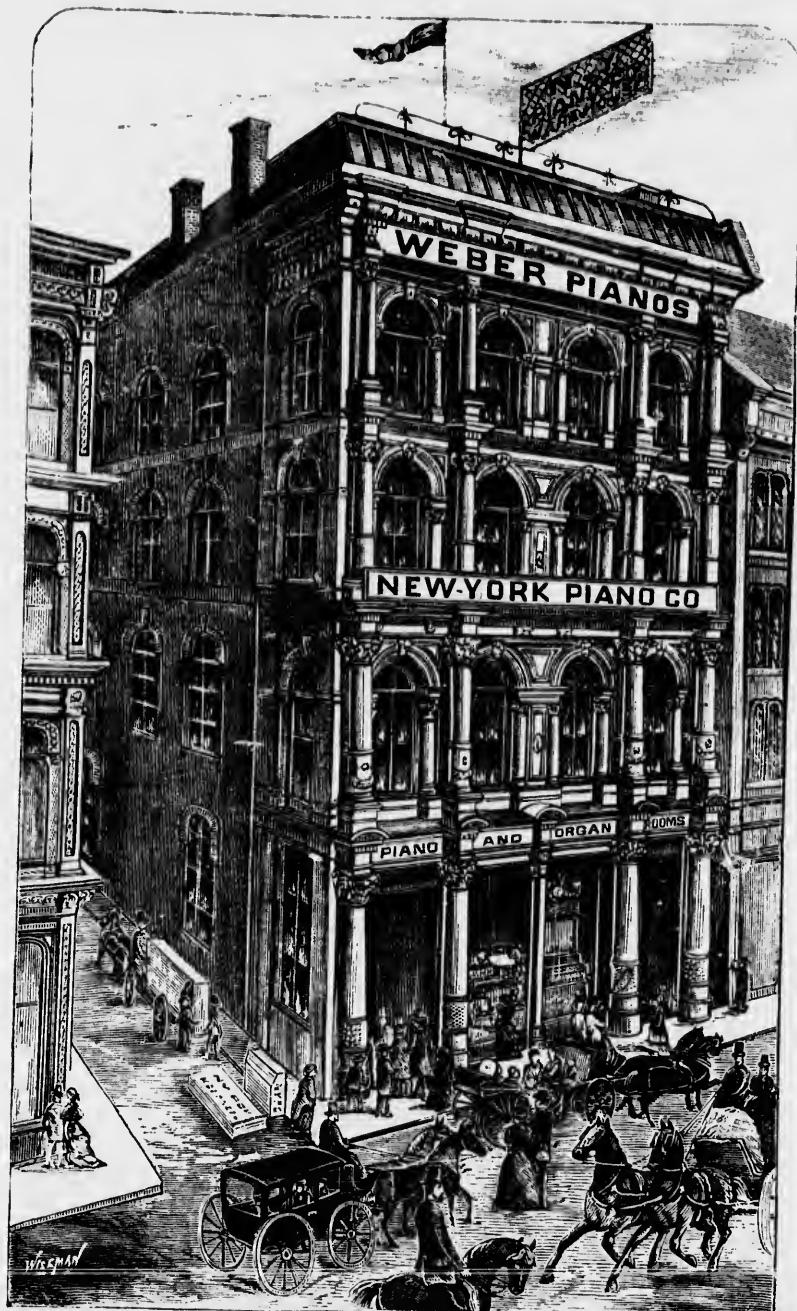

WEBER AND STEINWAY CONTRASTED.

"The Weber and Steinway pianos are not, nor have they ever been, strictly speaking, rivals. In a mechanical sense there is positively little difference between them, and the cost is about the same. Both makers have achieved the utmost limits of perfection so far as durability and good workmanship are concerned, but in respect of *tone* there can be no comparison between them. The Steinway pianos doubtless possess great power and sonority, perhaps equal in this respect to Weber, but here the comparison ends. They cannot approach the Weber for purity, richness and volubility—three qualifications which combined give us that distinct and perfect articulation, which only one hears in vocal organs of the highest order and calibre. Hence the reason why all the principal artists of the day prefer the Weber Pianos for their public performances and private use. They are sympathetic, and capable of giving the various lights and shades of expression in so remarkable a manner as to make them incomparably superior to any other piano of the present age."—*Spectator*.
