

BIG PETITION TO THE KING ON HOME RULE

Over 300,000 Ask His Majesty to Withhold His Signature.

[By Special Wire to The Courier]

LONDON, May 7.—Although the budget overshadows the Irish question for the moment at Westminster, the Ulster peril is still uppermost in the minds of many members. The statement is made of good authority that Premier Asquith will fathom Irish opinion regardless of party or geographical situation. The Daily Mail has forwarded to the King a petition from 300,000 signatories, praying that he withhold the Royal assent from the Home Rule bill until an election is held. The petition was merely acknowledged and laid before his Majesty. As a matter of fact the prospects for an election seem to be receding, and even such papers as the Pall Mall Gazette speak as though it may not come until next Spring. An Autumn session is being mentioned, but whatever arrangements the Ministers may make will be subject to Ulster's attitude. That province is unlikely to remain patient and quiet for several months unless satisfied by the Government.

When the Government on Monday next introduces the procedure resolution for dealing with the remaining stages of the three important bills now being legislated under the Parliament Act, under which resolution the committee stage is omitted and the time for the third readings defined, it is expected that a "suggestion rule" will be provided for the home rule bill, although this will probably have no effect on the progress of the negotiations.

To Ward Off Ulster's Wrath LONDON, May 7.—Whatever may be the outcome of the conversations between the leaders of the two parties, it seems evident that the Opposition will refuse to discuss any plan allowing the present home rule bill to become law. In a statement made by Walter Long at a public meeting he denied that there was any shadow of foundation for the fear that the Unionist party would compromise on home rule. A special article in the Pall Mall Gazette, which appears to be inspired, declares that the Unionist party will take no responsibility for the present bill, but will leave the Commons bill to be rejected by the Lords on its second reading. It is pointed out however, that when the measure reaches the statute book.

Mr. W. F. Cockshutt Wires Good Luck

President Nelson of the Brantford baseball club this morning received the following wire from Mr. W. F. Cockshutt, M.P., at Ottawa: "Much regret that I am unable to attend opening game today in Brantford, and trust that opening will be huge success, and that Brantford team will have victorious season. Good luck!"

FRANCONIA ARRIVED AT BOSTON TODAY

Columbian Survivors Showed Signs of Burns and Exposure.

[By Special Wire to The Courier]

BOSTON, May 7.—When the Cunard liner Franconia from Liverpool arrived to-day, bringing thirteen members of the crew of the burned steamer Columbian, rescued from a boat south of Sable Island, several of the survivors were suffering severely from burns, and all showed the effects of exposure. The body of Chief Steward Matthews, who died from burns while in the open boat, also was brought by the Franconia. James Drohan, the wireless operator of the Columbian expressed the opinion that spontaneous combustion in the cargo of rags and junk caused the fire. He says he was awakened by an explosion shortly before midnight Sunday and when he rushed out on deck the vessel was in flames. The saloon passengers on the Franconia, among whom was Redmont Belmont, son of August Belmont, of New York, assisted in giving first aid to the survivors, provided clothing for them and subscribed to a fund for their relief.

THE NEW SHAMROCK

NEW YORK, May 7.—A London cable to the Tribune says it is not absolutely certain that the Shamrock IV, Sir Thomas Lipton's challenger for the America's Cup, will be launched on May 25. There is a possibility that the yacht may not take the water until the last week in June. Work is now being rushed, however, in an effort to get the boat ready by the 25th, for if she is not launched by that date, it will be necessary to wait until June, as twelve or fourteen days intervene between suitable tides.

WAS IS THE CITY.

Mr. Wright, general auditor of the Sun Life Insurance Company, was in the city yesterday on official business.

FIGURING ON RAISING SUM FOR HOME WEEK

Financial End of Celebration is in Rather Indefinite Shape.

The Executive Committee of the Old Home Week held an enthusiastic meeting in headquarters last evening. President Ald. Geo. A. Ward, was in the chair and some important business was disposed of.

The Executive was very enthusiastic over the sale of the envelopes. The outlay on the envelopes will be made up on their sale. The Finance Committee reported that progress was being made. They have a figure of the grant they will receive from most important sources, but no definite sum has been given. The committee was instructed to go ahead and get their subscription list out.

The Publicity committee reported that all the envelopes which the executive have issued to date, have been sold and the chairman Mr. McBride, stated that a young gentleman named Sloane had issued a statement that he was the official salesman for the Old Home Week envelopes. His supply was cut off and now, as a little bit of spite work on his part he has issued an envelope which he now advertises as the official Old Home Week envelope. The Executive wants it distinctly understood that Mr. Sloane does not handle the official Old Home Week envelope and if he insists on misrepresenting this matter, steps will be taken to prevent him from selling his envelopes.

Mr. Fred Charlton put a proposition before the executive in which a little cash can be made. He proposed that a book of tickets be issued containing five tickets, which would be sold for \$1.00 a book. On the books a coupon would be issued which would entitle the holder to make a guess of the number of Old Home Week envelopes which will register at headquarters. Mr. Charlton's scheme was unanimously adopted by the executive and the tickets will be issued about June 15th. A deputation consisting of Ald. Robinson, Col. E. C. Ashton and Capt. Watt were appointed to go on a journey had to constantly have his hand in his pocket and had to bribe his way throughout his trip.

Evils of Tipping. The senator said that tipping had a demoralizing effect on persons who received them. It had a tendency to pauperize waiters, porters and other persons who should stand on a plane of manhood above the servile position which they were placed in through the acceptance of gratuities. Employers should pay their servants and not expect the public to pay their help. Tipping also developed a spirit of arrogance on the part of those serving the public.

Senator Ross of Middleton sympathized with the object of the bill and said "Every man should pay once, but no law of God or man should make him pay twice."

The Late Wm. Irwin

The funeral of the late Wm. Irwin, secretary of the Farmers' Benefit and Trust Co., took place this afternoon from the family residence, 18 Pearl street to Greenwood cemetery. Many friends, including officers of the company were present to pay their last respects to the departed and also to manifest their sympathy with the bereaved family. The sudden death of Mr. Irwin removes from this community one of its best and most esteemed citizens and has come as a great shock to his many friends.

SIR JAMES ATTENDS CABINET MEETING

Put in Best Part of the Day Overseeing the Public Business.

Sir James Whitney put in an appearance at his office yesterday morning, and for the first time since his illness attended Cabinet Council, and took part in the Ministerial deliberations. Then, as if to convince any doubters there might have been after the morning sitting, he was there in the afternoon as well, presiding over Council. Since he has been able to get about Sir James has on several occasions dropped into his office, but he has hitherto left public business alone. The energy he showed yesterday after five or six hours in his office was surprising. He did not leave until after four o'clock in the afternoon, and strode from his office with a good deal more vigor than he showed for weeks before he left for the South last Fall.

Canadians Are In Custody

[By Special Wire to The Courier] BUFFALO, N.Y., May 7.—Nineteen Canadian sailors are being detained at the Erie county jail under orders of the United States immigration officers. They are to be used as witnesses by the Government in the prosecution of vessel owners, who are alleged to have violated immigration laws covering the shipping of men from foreign nations on American ships. The sailors were taken from the fleet of steamers that brought down the first cargoes of wheat from the elevators at Fort William, Ontario, where most of the steamers wintered. Under the law it is said the men should have been discharged upon their arrival here.

TIPPING MAY BE ABOLISHED BY AN ACT OF LEGISLATION

Bill to Provide Fine or Imprisonment as Penalty Given Second Reading

OTTAWA, May 7.—Tipping will be abolished within a month if Senator Davis (Prince Albert) and a number of other senators and members of parliament have their way, and it looks as if they might. Senator Davis' bill, which provides for a fine or imprisonment for tipping and making the employer, the employee and the person offering the gratuity liable, was given a second reading in the senate to-day.

In moving the reading Senator Davis said that within recent years an intolerable system of petty bribery had grown up all over the world, known as the tipping system. It had become such a nuisance that it was time it was grappled with by legislation, and he believed his bill would have the support of 90 per cent. of the people of the country who were now subject to a growing scale of graft and tips in order to obtain access to the various offices. A man on a journey had to constantly have his hand in his pocket and had to bribe his way throughout his trip.

The senator said that tipping had a demoralizing effect on persons who received them. It had a tendency to pauperize waiters, porters and other persons who should stand on a plane of manhood above the servile position which they were placed in through the acceptance of gratuities. Employers should pay their servants and not expect the public to pay their help. Tipping also developed a spirit of arrogance on the part of those serving the public.

Senator Ross of Middleton sympathized with the object of the bill and said "Every man should pay once, but no law of God or man should make him pay twice."

Waved a Farewell To Shore As He Went Over the Falls

Intakes to the various power houses cause the current to incline toward the shore. These facts, with the efforts of the man, brought the boat in probably 150 feet. It is estimated that he was about 100 feet out when the craft disappeared over the brink. When he abandoned hope of self-rescue the unknown let go his oars and sat in the boat watching its course toward the inevitable certain death.

Unknown Man Carried Over the Horseshoe's Brink in a Small Boat He Was Navigating.

A trolley car manned by George Brown, conductor, and Peter Moyer, motorman, bound for Chippawa with four passengers, were the first to see the plight of the man. As the little boat and its lone occupant came bounding over the billows toward the brink others saw it, and the alarm was soon spread. When the boat was probably 100 feet from the brink the man rose to his feet and waved to those on the shore, throwing both arms out and upward. He held them in this position as the boat reached the brink and toppled over into the basin below, carrying its victims to his death.

Shortly afterward the boat or fragments of it, were seen floating about in the basin below the falls, but nothing has been washed ashore or picked up that might lead to the identification of the victim.

STORM WAS TERRIFIC ONE LAST NIGHT

Lightning Played Pranks Generally Throughout the City.

Yesterday's thunderstorm played havoc with the fire alarm system and the electric light system throughout the city. Heavy bolts of lightning and loud thunder hung over the city for nearly an hour and a half. It was one of the worst storms that has ever visited this city and damage was general. A heavy bolt of lightning put the fire alarm system out of commission on Terrace Hill, where the lights were also out for a short while. The firemen were forced to leave the system out of commission all night as they could not find the break.

One particularly heavy crash of thunder accompanied by a vivid bolt of lightning hit the old Y.M.C.A. and for a time fire flew in all directions but the heavy rain prevented a fire.

Considering the severity of the storm the Hydro system got off very lightly. There were a number of transformers which were temporarily deranged during the downpour, but in all cases a new fuse or a fresh connection repaired the damage. Western Counties fared well.

Barn Struck

A barn on the Mohawk Institute property was struck, but little damage was occasioned beyond knocking off shingles. The lighting apparatus of the institution was entirely put out of business.

Y. M. C. A. Flooded

The storm which passed over the city yesterday left its mark upon the Y. M. C. A., which was flooded in the basement to the depth of several inches. Soon after the heavy down-pour water was noticed coming into the billiard room which lies about six feet below the level of the street, and before long water was running into the basement from three different sources, and it could not be stopped with luckily as the bowling alley is somewhat raised, water did not soak it, but at one time it looked as if the whole basement would be under water. As it was the billiard room was several inches deep, and a busy time was being bailed the water out. As long as the rain continued in poured the water, but at last it ceased, and gradually the water was got rid of and this morning all was dry in the billiard room.

Part of Darling street was flooded from side to side just opposite the institution and this no doubt had something to do with the scenes in the building.

The dampness of the atmosphere affected the plaster work about the main staircase, and a great patch of water on the ceiling accompanied by much noise, to the stairs, from which it was afterwards swept.

Played Havoc.

Yesterday's deluge played havoc at the Y. M. C. A. Shortly after the downpour started, the water from the sewer started to back up and in a short time the bowling alleys and billiard room were flooded with water. Water also came through the brick wall and the wooden pins on the bowling alleys began to float. The pits at the end of the alleys were filled to overflowing and men with pails and tubs had to carry the water away. The damage done was slight.

Bell Phones Lucky.

The Bell Telephone Co. were very lucky. No more than the usual breaks of any storm have been reported, although in the North Ward, near the Hospital, things were lively for some time. However, no serious damage was done.

Struck Chimney.

The fluid also struck the chimney on the engine house at the School for the Blind, knocking off several slivers of cement.

DUKE OF TECK TO BE NEW GOVERNOR-GENERAL

[By Special Wire to The Courier] LONDON, May 7.—Prince Alexander of Teck, third son of the late Duke of Teck, is to succeed the Duke of Connaught as governor-general of Canada. Official announcement of this appointment was made to-day. Prince Alexander of Teck is 49 years old. He was married in 1904 to Her Royal Highness Princess Alice of Albany, and has one son and one daughter.

Let Them All Blow Hard

Mayor Spence requests, in connection with the Royal visit, that on Saturday, at 4.30, on signal from the fire bell, all factory bells and sirens sound, and church bells also. This was done in St. Thomas with marked effect, and anyone who thinks that this good burg can't down them all at the game, then he has never been awake about 7 o'clock in the morning, that's all.

NEW MUSEUM IS OPENED TODAY BY KING GEORGE

Million Dollar Affair Which Has Been Added to the Old Building.

LONDON, May 7.—King George and Queen Mary to-day opened a new wing of the British Museum which has just been completed at a cost of a million dollars. It is the first part of a large scheme of extension.

In 1895, the government bought a considerable portion of the Duke of Bedford's property around the museum for \$1,250,000 and a large area was cleared. The legacy of \$250,000 bequeathed by Vincent Stuckey Lee, for the enlargement of the museum gave impetus to the present extension. The biggest was intended particularly for the extension of the reading room and library, to which the testator was a frequent visitor.

The new building is in architectural harmony with the old museum. Its facades which is flanked by two massive towers, is of Portland stone, the outer walls and pedestals of the four court being of Scotch granite. The main entrance is surmounted by a balcony, the parapet of which is formed by the stone laid in June 1907, by the late King Edward. The doorway itself is formed of marble, surmounted with granite, and is closed by a bronze door, the upper panels of which are sculptured in relief. The architectural composition of the building is severely simple. In the interior the object in view has been to deprive the extension of everything irrelevant to the main purpose, the primary idea being to make it a background for the exhibition of the nation's treasures.

An important feature of the new wing is the staircase which is the link between the old building and the new one. This is extremely simple in design. Its walls are covered with marble, which has been selected more for its texture as a background for antique sculptures than for its veining.

The building comprises a basement as well as sub-ground, ground, mezzanine, and top floors. The top floor will accommodate the print department. In the basement floor will be utilized as a copy-right office and for book storage, while the western half will be in part a public newspaper room.

The mezzanine floor will be largely given up to staff rooms, and it contains space for the future accommodation of music and maps, while the Stein collection of Eastern paintings is being temporarily housed there.

Eleanor Wilson Marries Wm. M'Adoo at Capitol

[By Special Wire to the Courier] WASHINGTON, May 7.—Miss Eleanor Randolph Wilson, youngest daughter of the President of the United States and Mrs. Woodrow Wilson, will be married at 6 o'clock this evening in the White House to William Gibbs McAdoo, Secretary of the Treasury.

The simple and impressive wedding service of the Presbyterian Church will be pronounced by the Rev. Sylvester Beach, pastor of the church in Princeton, N.J., attended by the President and Mrs. Wilson and their family.

The ceremony of this evening takes place in the historic blue room, the middle apartment of the suite on the south side of the White House, between the East room and the state dining room.

The floral decorations of the room—in fact of the entire mansion on the first floor—will be marvellously beautiful. Slender vases of graceful designs in cut glass and porcelain will be filled with cut flowers, including masses of lilies and white orchids.

In the main lobby of the mansion, the regular meeting of the Burch Institute was held Tuesday, April 28, at the home of Mrs. Marquis McIntyre, with a good attendance.

The outcome was a steady close at a shade to 1/2 to 3/8c net advance. Corn finished 1-1/2c off to 3-3/8c up with a gain of 1-3/8c to 1/2c, and provisions closed 1/2c to 1/4c.

RECEIPTS OF MILKERS AND SPRINGERS

Receipts of milkers and springers were moderate, and they sold at high prices, as usual. Prices ranged from 45c to \$1.00 each.

Veal Calves.

Receipts of veal calves were moderate, but prices remained firm. Choice calves, \$3.50 to \$4.50; good calves, \$2.50 to \$3.50; common and medium, \$1.50 to \$2.50. Any calves selling at lower prices would be classed as "bobs."

Sheep and Lambs.

There were only 95 sheep and lambs brought to market. Prices were \$1.50 to \$2.50 for sheep, and \$1.50 to \$2.50 for lambs.

OSCAR SLATER INQUIRY OPENS

Utmost Secrecy Maintained by the Officiating Sheriff—Six New Witnesses.

Mr. Gardner Miller, K. C., Sheriff of Lanarkshire, opened an official inquiry in camera in Glasgow on Thursday into the case of Oscar Slater, who was convicted four years ago of the murder of Miss Gilchrist in her house at West Princes Street.

The utmost secrecy is being employed for this inquiry. The sheriff is accompanied by his clerk, the only other person admitted being a single witness at a time.

It is understood that about thirty witnesses have been asked to attend, including six who did not figure in the High Court trial at Edinburgh.

This inquiry was ordered by Mr. McKinnon Wood, the Secretary for Scotland, as the result of endeavors to secure an investigation for the purpose of making sure there has been no miscarriage of justice.

Did any witness to the identification on the night of the murder name a person other than Oscar Slater?

Were the police aware that such was the case; if so, why was this evidence not forthcoming at the trial?

Did Slater fly from justice?

Were the police in possession of information that Slater had disclosed his name at the North-Western Hotel, Liverpool Station, where he came from, and that he was travelling by the steamer Lusitania?

Cleaning Up Yards Today

Campaign is Proving a Decided Success in City.

Citizens of Brantford responded loyally to the first call for the clean up campaign. Everyone seemed seized by the spirit of cleaning up their premises so that this city will present a clean appearance when the Duke of Connaught and Princess Patricia grace this city by their presence. Yesterday was garret and cellar day and it seemed that everyone turned their garrets and cellars upside down, so that every place might be clean.

The Sanitary department are very pleased with the campaign. "Everyone was busy up till the time of the rain yesterday," said Sanitary Inspector Glover, "and a good man are hard at work to-day."

To-day is "Yard Day" and people are busy raking up their premises and putting them in presentable condition.

OCTOGENARIAN M.P. UP 50 FOOT LADDER

Members in Overalls Inspected Roof of Westminster Hall—Need For Repairs.

LONDON, May 7.—Some thirty members of Parliament had a novel experience on Thursday. They had accepted the invitation or challenge of Mr. Wedgwood Benn, who is in charge of House of Commons Office of works to inspect the famous oak roof of Westminster Hall, for the repairs of which Mr. Benn was to ask the House that night to grant a preliminary sum of ten thousand pounds.

The explorers presented an unworldly sight, for most of them had elected to don overalls. Some, however, scorned the protection and risked spoiling their clothes in the dirt and dust of years.

It was no easy task that they had set themselves. There were two stages in the journey aloft—the first necessitating a climb of 5 feet the second one of 40 ft. C and the ascent of the nearly perpendicular ladders was a nerve-rivng experience.

All the more credit, then, to Sir Thomas Hoo, the member for Derby, who, though he is 82, led the way, and trod the rungs with wonderful agility.

The first staging brought the party to the hammer beam, the second to the apex. All safely negotiated the journey, the only alarm being when Mr. J. H. Duncan, the member for Otley slipped. He however, recovered himself all right. Mr. Frank Baines, the ancient monuments expert of the office of Works, under whose advice the work is being carried out, acted as guide, and piloted the M.P.s. among the ancient beams and joists.

It was perilous work, for some of the staging was only connected by a nine-inch plank.

The party admired the beautiful workmanship of the old beams, carpenters who erected the fine Gothic open timber roof, and were evidently impressed with the necessity for arresting the decaying process which has set in. The ravages of time and insects have in some places left holes large enough almost to admit the body of a man.

In places the old beams crumbled at the touch or swung away in pieces. Most of the parliamentarians took pieces as souvenirs.

It is expected that the work of restoration will take six or seven years, and the cost is estimated at between seventy and eighty thousand pounds.

JOHN BULL'S WAY. Hayti only has an area of 10,200 square miles, but her population is 2,000,000. There is a revolution on there and not long ago during the course of operations, a saw mill owned by a Mr. Peters, a British subject, was burned. As the outcome of the British government through its diplomatic representative demanded that the government should pay \$50,000 awarded by arbitration as recompense. There was some delay, when an ultimatum was issued setting the time limit at 6 o'clock on a certain date with the presence of a British cruiser off Port au Prince, the capital city to back up the demand. Then the Senate and the Congress got busy. The President of the Republic was called upon to demand the resignation of the Minister of Foreign Affairs or else fire him. He knew enough to withdraw and then the National Bank advanced the amount stated.

It is incidents such as these which make John Bull and his demands for justice for his people, so respected throughout the world.

IN HARNESS ONCE MORE. Although Liberal papers were very kindly in their references to the fact of Premier Whitney taking his seat in the House on the last day of the Ontario session, the intimation was nevertheless made that the event was a little stage play in view of the approaching election. Further, that although he might be the titular head of the party he could not again become the active "Boss." An item in the news columns of this issue abundantly controverts that. This is how the Toronto Globe, which certainly would not overdraw the things, states the matter:—

"Sir James Whitney was back at his office yesterday for the first time since his long and severe illness, and presided over the deliberations of the Cabinet both morning and afternoon. There is a great deal of optimism among the members of the Government at the recovery of the Prime Minister from his recent illness, and the appearance of Sir James seemed to be abundant proof of his return to health and vigor. The Premier came to his office about eleven o'clock in the morning, left for lunch shortly before one o'clock, and was back again early in the afternoon, remaining until his usual time for departure, about half past four.

While no announcement was made regarding the probability of an early election, the members of the Cabinet present were a unit in stating that Sir James was actually in better health yesterday than he was a year ago. The fact is now known that although the Premier was weak at the time the session opened on February 18, he actually gave instructions in the session, and on the day of prorogation received in some measure an accounting from his colleagues of what had been done.

Yesterday was Sir James' first attempt to deal with public business since his illness, and he surprised those about him with the manner in which he "took hold." Many questions that have been in abeyance for months were taken up by him as if they had been pending only a few days, and matters of some years' standing were apparently fresh in his mind.

Practically all of the people of Ontario will be glad of this restoration for the strong hold which the Premier has in the esteem of all classes was demonstrated in a most remarkable way when his days seemed to be numbered.

HOG CHOLERA. During a recent discussion in the Dominion House when the members were in committee of supply, the above subject was discussed among other questions. Hon. Mr. Burrell, Minister of Agriculture stated that the figures were increasing with regard to its suppression. In 1911-1912 the cost was \$23,466; in 1912-13, \$32,785, and in 1913-14 for ten months \$46,860. Although inspection and immediate slaughter of tainted animals was costing a good deal, he thought this method the best.

In the United States they have an entirely different system, whereby they immunize the hogs from cholera. It has been found, however, that a particular hog may be immunized and still be a carrier of the disease. Their system costs them millions of dollars, as compared with our thousands.

We passed a regulation prohibiting the introduction of virus of this particular form of inoculation. He considered that without doubt many cases of said cholera could be traced to feeding uncooked garbage. In this regard not only was the department urging better sanitary precautions on the part of the local municipalities, but in addition an Order in Council had been passed stating positively that the government will not undertake to pay compensation to people who deliberately feed uncooked garbage.

At this point Mr. Nesbit, M.P., rose to make the statement: "There was hog cholera last year amongst my hogs, although they never saw garbage of any kind. They were all fed on good, clean, second-grade flour, and shorts and oil cakes. They ran in pens that were what we call gravel-loam soil and the inside pen was just as clean as this chamber. Every condition that was possible to surround them with was perfect, even with regard to running water. I think the Lord sent the cholera. I do not know where they got it."

It will thus be seen that the causes of such outbreaks are still often in the realms of mystery.

AN ALLEGED PANIC. Certain Grit sheets are seeking to make the claim that if the Whitney Government goes to the people a year before the time necessary that step will be an evidence of apprehension and panic. Fudge. It has been done before in Ontario and also in the Dominion, in fact Laurier took such a move when he brought on the last contest. It would be sufficient to say that the redistribution bill alone constituted warrant for such a step but that or any other excuse is not necessary. In any event if it were true, and it most emphatically isn't that disruption and dismay exist in administrative ranks, that period of all others would be the very last in which to invite a contest.

The truth is that the Conservatives never had more cause to feel absolute confidence than at the present moment, and they are in first-class fighting trim. On the other hand the Liberals were never more demoralized. They have a fad artist for a leader, and many of them don't take any interest either in him or in his candidates.

NOTES AND COMMENTS. Get out your hunting on Saturday. Gun running is the new pastime in Ireland. The boys always must have something doing. Old Jupiter Pluvius has once more demonstrated that he can uncork a sizzling thunderstorm when he feels like it.

A bill has been introduced in the Senate to abolish tips. As to that it wouldn't be a bad idea to tip over that institution itself. Latest reports are to the effect that the top hat market hereabouts remains firm and that some old snooters of that tribe are under a careful polish treatment. It is rumored that one specimen is of the vintage of 1700, and tell it not in Gath, whisper it not in the streets of Ashkelon, that others parted with their first youth about the time of the invention of the locomotive.

Uncle Walt The Poet Philosopher PAINT UP. As I've often said before, you should toddle to the store, if your stand-off's not too faint, and invest in yellow paint; then embellish house and barn, till the neighbors say, "By darn! What a lovely, gorgeous hue! We must get to painting, too!" That's the way great movements start; some wise gent with hero heart sets the pace, and then the guys follow where his pathway lies. If with glad and joyous whoop you should paint your chicken coop, red or yellow, and there to buy some paint, a brush; and next day you'll see that chump putting green stripes on his pump, and he'll give a coat of blue to the fence and clothesline, too. In the spring Dame Nature tries to astonish human eyes, spreading on the colors thick; everything is span and spike; fields of green and skies of blue, everywhere a pleasing hue. And her sunny offers falls on our gray and dingy walls, and it makes her sick and faint, that we don't indulge in paint. Buy a gallon can right now! Paint the sidewalk and the cow, paint the house and paint the shed, paint things yellow, paint them red!

WALT MASON. Game Postponed. Last night's heavy rain caused the postponement of the Duffs-G. S. and M. softball game until Friday night when a good game is expected. Hetherington and Allen will form the battery for the soldiers.

Birthdays of Note THURSDAY, MAY SEVENTH

The Hon. William Cameron Edwards, millionaire lumber manufacturer and member of the Senate since 1903, reaches his seventieth birthday today. He was born in the town of Edwards, Russell County, and started in the lumber business when he was a quite a young man. He is known familiarly as "Don't Worry" Edwards, for it has always been one of his principles not to let business cares interfere with his health. "I never heard of a man who made anything out of worrying," says Senator Edwards. "On the other hand I have heard of many men who have lost their health and ruined their business through worrying. It seems to me that worry is a great waste of energy. If men would only utilize the vital force required for worrying and put it into good hard work there would be fewer business failures in this and in all other countries."

CARRANZA AIMING AT CONQUEST (Continued from Page 1) servers, because it was believed the rebels next move would be aimed at Saitillo. News of a sweeping victory far south of that point was taken to indicate the rebels had silently moved and fought first and reported afterward. General relief was expressed that Carranza hoped to continue the campaign until the three powerful forces converged at the gates of Mexico City. To what extent Huerta would be able to combat the proposed advance, and what possible effect it might have on mediation proceedings between the United States and the Mexican Federals, was widely discussed here to-day.

While the reports of Carranza's successes were discussed here to-day the South American envoys went ahead with their arrangements for the beginning of the preliminaries of mediation near the Canadian border May 18. Within a minute of secretaries May 18, with a retinue of secretaries May 18. Huerta's three representatives are expected to reach Puerto Mexico from the Federal capital on their way to the United States to-day. The United States mission is not expected to be announced until later this week.

THE CREED OF THE CONSUMER

Set of Principles Worthy of Practice—Home Patron's Philosophy.

Every failure is a step to success; every detection of what is false directs us to what is true; every trial exhausts some tempting form of error. Not only so, but scarcely any attempt is entirely a failure; scarcely any theory, the result of steady thought, is altogether false. No tempting form of error is without some latent charm derived from truth. With these thoughts in mind I have prepared what I call the consumer's creed.

A Gate to the City. It is not a religious creed. If it were I would not be writing it, as I am afraid I might get my metaphors crossed. This is a business creed, something like the people of New England unconsciously adopted when Lord North undertook to tax them. Therefore they had always been accustomed to divide on points. It so happened, fortunately, that their opposition to Lord North was a point on which they were all united. It was a business point.

I have written a creed upon which the people of the north, south, east and west can all unite for their own good. A good creed is a gate to the city which has golden foundations; a misleading creed may be a road to destruction, or if both misleading and alluring it may become what Shakespeare calls a primrose path to the eternal bonfire.

Perhaps my creed is nothing more than a set of principles which it would be well for every consumer to practice. Read them and then adopt them as your very own:

First—I do not patronize the mail order system because it is selfish and greedy and for the reason that I buy at home, where my interests are.

Second—If this community is good enough for my family and I to live in it ought to be good enough for my family and I to buy our necessities in.

Third—I will not take the word of the mail order house for its goods, as I want to see what I am buying, and I want to get what I pay for.

Fourth—I do not patronize the mail order houses because they demand cash in advance, and when I am "broke" and sick and need supplies my home dealer is willing to "carry" me.

Fifth—I patronize the home dealer because he stands back of his goods and in case of error is willing to rectify.

Sixth—I patronize the home merchant because I believe a man ought to spend his money in the community in which he earns it.

Seventh—I patronize the home merchant because I believe the man who sells what he produces and buys what he needs at home cannot be injured by deceptive catalogue pictures or alleged bargains.

Eighth—I do not patronize the mail order houses because they frequently sell damaged and inferior goods, which it avails a man nothing to attempt to exchange. But the man I patronize—the home merchant, the man who helps to pay the town, county and state tax—will exchange any article I buy from him which is unsatisfactory.

Ninth—I spend my money with my home merchant in preference to some mail order house in a distant city because the local merchants help to support the public schools where I send my children, the churches and the dependent poor in my vicinity.

Tenth—I patronize the local merchant because he does not try to trick me into buying "cheap" goods, which because of their defectiveness prove to be expensive, and, further, because should ill luck or bereavement come my way my local dealer would not only prove that he was a neighbor and a friend, but a man with a man's heart and a man's inclination to do good; not a soulless corporation like the mail order system, whose only instinct is greed and a further desire for gain.

"Do Urto Others." Let all citizens follow this creed and they will be blessed with happy homes and a happy life. They will prosper financially and at the same time improve their moral standard. Do for your neighbor what you would like him to do for you; then you are doing your full duty to yourself and to all mankind. Moral—Buy and sell at home.

LT.-COL. GOOLD (Continued from Page 1) of an unimpaired intellect, although he is somewhat frail physically. His father was Captain Goold of the Royal Navy, and he was a midshipman with Lord Nelson, both at the battles of Copenhagen and Trafalgar. His promotion was rapid and he bid fair to become an admiral one unfortunate day, a shipmate who fell down an open hatchway, clutched him as he saw his peril and the two took the dizzy fall together. As the outcome the captain had one knee so badly shattered that he had to leave the service, and thus end a most promising career. Col. Goold had five brothers and a sister. Of the former, two also entered the navy. One became connected with a British dockyard and one entered the medical profession. For himself, he entered the war department Treasury, and later was transferred to what was then called the "Commissariat Department." In this he saw long and honorable service and was stationed at many points His first location was in Canada under Sir Frances Bouché, then out here with British military forces. Next he was moved to Bermuda, where he contracted yellow fever and was given up by the doctors when an old colored woman saved his life with some native herbal medicine of her own concoction. He was invalided home and upon recovery was again sent to Canada. While in this charge in those early days, he was charged with the duty of carrying specie, blankets and other presents, to the Indians. It was necessary for him to have an armed escort and he had in some thrilling experiences. While in the Dominion in Toronto to Miss Bercey, daughter of C. Bercey, then Postmaster of what was at that period "Muddy Little York," and is now the Queen City, with a population of nearly half a million. Here his daughter Mrs. J. Stevenson, was born. Some time later he went home on leave and was then transferred to the West Indies. While there he contracted Asiatic cholera and his life was again despaired of. He was invalided home, and then sent to Canada again, also to Bermuda and then to England. He remained there for two years and at the expiry of that period, was sent to Ireland, where the officers were quartered in the Duke of Albuora's home. Col. Goold had charge of five hundred men for whom his department was responsible in the matter of bread, slaughtered meat and other supplies. After this post he was again transferred to Canada. Once more he returned to the Old Land and then was sent to Halifax, Nova Scotia. He was there for ten years under three different Generals. At the end of that time, the commissariat system was combined with the ordinance department and the two merged called the Army Pay Department. He then went to England and was paymaster two years, retired at the age of 62 with the rank of Lieutenant Colonel. For three years he resided at Halifax and then came to Mt. Pleasant, where he has since lived. Mrs. Goold died three years ago. The union was blessed with one daughter, Mrs. Stevenson, and seven sons. The two elder boys are dead and those surviving are Dr. Goold, Waterford; Ernest, Mt. Pleasant, Cecil, Toronto, Fred out West and Albert at home, as also is Mrs. Stevenson. Here, after services to his Empire so well performed, he is spending the evening of his days, surrounded with the loving attentions of his daughter and a grand child.

Among the treasure troves of the family are the Trafalgar and Copenhagen medals of Col. Goold's father, two of the silver spoons used by Nelson, and a piece of his ship "The Victory."

NEW INDUSTRY MAY BE BUILT IN THIS CITY

Toronto Men Confer With the
Greater Brantford Board
Yesterday.

Brantford city may soon be the lo-
-cation of a new and up-to-date brick
factory which will manufacture a
sand brick which is the latest inven-
-tion in the building trade. If Brant-
-ford is successful in obtaining this
industry it will be the only city in
the world where these bricks are turned
out. It rests with the Greater
Brantford Board to decide.

The directors of the company
which is desirous of locating here,
are all Toronto men. They are com-
-posed of the inventor, Mr. John T.
Jackson, who has passed through the
Toronto School of Science; Samuel
Jackson, his brother, David Donald
Wickson, M.D., formerly of the brick
centre Milton, Charles Bulley, con-
-tractor of Toronto, William Britwell,
contractor of Toronto, William J. J.
Heron, an extensively known travel-
-ler in the business, and Thomas
Knight, real estate broker of Toron-
-to.

The inventor of the brick, which is
really formed of compressed silica
sand, is the outcome of years of
study by Mr. J. T. Jackson. But now
it is at last an accomplished fact and
the inventor is proud of a wonderful
production. The brick can be had in
any color, it is harder and more dur-
-able than ordinary clay or sand-lime
brick. It has already stood tests of
pressure, fire, water and freezing, and
has proved its great value every time
It has been proclaimed by Professor
Gillespie of Toronto, to be the near-
-est artificial approach to rock that he
has ever seen, and he is an authority.
ence. Special machinery has been in-
-vented for the special process entail-
-ed. The cost of production is low and
it is claimed that a house built of
their bricks is impervious to all kinds
of weather.

Why Brantford Was Selected
There were several reasons why
Brantford was selected for this new
industry. Firstly, there is silica sand
here in abundance, and the factory
will be right on the spot, saving
transportation costs. The railway fa-
-cilities were another consideration,
and then there is the fine prosperous
state of Brantford's financial affairs.
All these particulars were given to
the Greater Brantford Board and are
to be fully considered by a sub-com-
-mittee. The board admitted that the
bricks were excellent, but some op-
-position sprang from what is prob-
-ably a rival firm, and their facts will
be heard by the committee appointed
to go into the matter.

The venture has a stock capital of
\$200,000, part of which is already
subscribed and the remainder will be
offered in \$50 lots to Brantford in-
-vestors after the company has re-
-ceived the approval of the Greater
Brantford Board, which it is under-
-stood looks favorably upon the com-
-pany.

In the event of everything going
well, it is possible that the firm will
be established and the plant erected
in ten months time. It would be com-
-posed of two covered-in buildings,
one 600 by 100 feet and the other 100
by 60 feet, in which the secret pro-
-cess making will be put. Both build-
-ings will be covered in and the work-
-ing will never interfere with the
weather, which will be carried on under
cover from start to finish. About 100
men will be required to commence
operations, but this number will be
added to when the output increases.

The location of the plant will be in
the immediate vicinity of the city,
probably on the Paris road. I. S.
Boothman, a resident of this city 28
years ago, is busy with the details of

the site and Tom Myerscough is al-
-so with him in this work. By this new
method of Mr Jackson's there will be
no necessity for kilns, and the ma-
-chinery will be able to turn out 300-
-000 bricks a day, and will produce 3-
-000 five foot silts in ten hours. It
is noteworthy that from the pit to the
finished article, the time required is
eight days.

If experience counts for anything
then the success of the new company
is assured, for every one of the di-
-rectors have had experiences which
will prove valuable to the company.
Mr. J. T. Jackson himself having
been manager of a large brick mak-
-ing concern employing over 600 men.
The bricks are spoken of as the
building material of the future.

Another Arbitration.
Judge Snider, Mr. A. E. Watts, K.
C., and Mr. Brewster, K. C., are
leaving for Simcoe this afternoon on
another big arbitration suit in con-
-nection with the Lake Erie and North-
-ern. This is probably the last of the
important suits.

Are Now B.A.'s.
At McMaster University Convocation
May 6, the Degree of Bachelor of Arts
was conferred on two Brantford boys:
W. E. Morrow, who secured second-
-class honors in Special History; Earle
G. Dale who secured first-class hon-
-ors in Special Political Science.

No More Smallpox.
No more smallpox cases have been
reported to Dr. Pearson, M.H.O.,
and the two patients now under his
care as well as can be expected. The
doctor stated that he would know in
a few days whether there would be
any more cases.

Trinity Cadets
There was a well attended meeting
of young men to discuss the forma-
-tion of a cadet company at Trinity
last night. The lads were addressed
by Rev. C. W. Latimer, Scoutmaster
Crumplin, and an ex-officer of B. B.
After some discussion it was agreed
to hold over the matter for a week's
consideration and to further enquire
into the cadet system.

Held Meeting
The regular monthly meeting of the
Trades and Labor Council took place
last evening, but owing to the in-
-clemency of the weather there was
not a large attendance of members
present. Business transacted was of
a minor nature. President Moore was
appointed delegate to represent the
council at the Education Association
of Ontario convention, which con-
-venes in St. Thomas on May 25th.

A Record.
Playing in a four ball match yester-
-day afternoon at the golf links with
Messrs. Yates, Schell and Reville,
Frank Loch, the pro, established a
new record for the present course,
putting on a splendid 33. In the
round of nine holes he had four
threes. Loch is driving a tremendous
ball this year, averaging some 240
yards. The record for the old course
was 32 made by Mr. W. M. Reekie,
the well known Scotch amateur. Mr.
Reekie is now a member of the Roch-
-ester, N. Y., club, and will bring a
team from that city to Brantford next
July.

Decorate Up!
The Duke of Connaught and Prin-
-cess Patricia will be here on Saturday
and the citizens and merchants of this
fair city should with all due respect
to His Highness decorate their pre-
-mises with flags and bunting for the
occasion. Mayor Spence as a favor
has asked that this be done. In fact
nearly all the merchants along Col-
-borne, Market and Dalhousie streets
have signified their intention of put-
-ting the old Union Jack up and fixing
up their premises. A few flags go to
make up a warm welcome for so dis-
-tinguished a visitor and it is hoped
that Saturday that every citizen will
endeavor to make the welcome a
warm one by decorating their pre-
-mises.

TIP TOP TAILORS APPRECIATE WELCOME

Tip Top Tailors desire to express their thanks and gratitude to the men of Brantford for the generous way they were welcomed to Brantford on Saturday. From the time the doors opened until the store closed, all day Saturday and Monday, Brantford's new tailor shop was taxed to its utmost, hundreds of men being measured for the famous \$14 clothes.

The Company wish to apologize to many men who had to wait to get measured. The number of orders was far beyond their expectations, and because they had just opened up, the service was not quite as adequate as they would have liked it to be, and not up to the company's usual standard. Any defects of this kind, however, have been remedied and Mr. Dunklema says that there will be no waiting or delays hereafter.

Mr. Dunklema, the manager was in Brantford to-day and stated that the Brantford store would make the company's fifth branch in Canada and that another would possibly be opened in London if a suitable location could be found. Asked how it was possible to produce suits and overcoats to measure at \$14 of the style, fit and quality that their garments possess, Mr. Dunklema stated that it was the result of specialization on one thing. He said: "We make only suits and overcoats to measure at \$14. Our entire energy is concentrated on careful, painstaking work we have perfect our organization so that we can buy cloth and make clothes to measure for \$14 that other tailors have to charge a great deal more for."

Where ever the Tip Top Tailors have opened stores they have converted many who formerly paid higher prices for their clothes, into wearing their made-to-measure garments.—22

RAIN ENDS FIRST CANADIAN LEAGUE GAME, NO RUNS

Excellent Turnout of 3,000 Fans, Whose Ardor Was Dampened.

ST. THOMAS, May 7.—With all the leading citizens a hand bedecked with regular silk hats, the Saints and the Ottawa Champs battled for four and one-half innings yesterday afternoon to a scoreless tie, a real thunder-storm with fire works attachments putting the game and the silk hats pressed much to the bad. It looked as if the pastime might have gone on indefinitely if the chap in charge of the weather had not mussed the plumb.

Owing to the presence of the Duke of Connaught all the aldermen and residents here who could afford a tux came out in their best togs. The Canadian League season opening is occasion enough to display some scenery, but with the duke in vicinity it became the duty of all persons hereabouts to put on some extra touches. They did from a haberdashery standpoint the opening was one of the grandest known since Joseph displayed his variegated raiment.

No Extra Ceremonies.

There was no extra ceremonies in connection with the opening of the season. The citizens assembled at the park shortly after they had shaken hands with the Duke and could make the park after walking several miles across country. The street car service was most conspicuous in that there was none; well, at least, nothing to speak of. While the demon athletes were taking a few kinks out of their salary arms and had paraded for the photographers a band of Kitties—before the stands, giving voice to several varieties of music. It appeared to suit the populace, who at once rose en masse, as the society editress would say, and cheered lustily. Cheers was the best little exercise of the day.

Opening Game Begins.

Then as umpire, with a voice as penetrating as a peashooter, arose from the midst of the turmoil and announced "Batteries for to-day's game—Zygone anodn' erer, and gronucces bresgonen." Honest to goodness that's the way it sounded. Then the boys took their places and the deadly combat was on.

Well, "Wild William" Baker, a London youth, started to pitch. Will got his name because he taught in Sunday school, but has a terrible way of throwing the ball at persons' unprepared heads. However, as the poet said, Bill was a quiet chap to-day, and only baffled one soul, who should have known better than to stand in the way. The umpire said he should, and the umpire, being Irish, should know.

Hit the First One

Mr. Shaughnessy, one of our best known little crabs, paraded his genius first, and he told them to shut their eyes and hit at the first ball. They did that during the first of the whole afternoon, and as a consequence they almost won the ball game. Had not Mr. Rogers tried to steal when he should have known he was about to be snuffed out, and had not Mr. Hall slammed at a ball after Pete Powers had stolen home, the Senators might have won the ball game. But what is the use. Had the rich young lady not kissed her chauffeur, she might still be a happy wife.

On the whole it was a very auspicious opening. As a ball game it was not much as neither side won. Mr. Hal, the new Ottawa heaver, looms up as a good one. Both teams are right on edge and will improve. Mr. Forgue made the best stop of the afternoon. Shag raised some person of his cutest little habits. It might be added that the rannmaker is batting .800. He's a bear when he's hitting right.

FANNY'S FANCIES

Fanny Pagan, the cute little poetess of Grassie's Corners, is greatly interested in the Canadian league opening at Brantford to-day judging by the following from her noble pen:

Mayor Allan will prove a regular Schang.

When standing behind the plate: If Mayor Spence can put 'em over right,

Allan will catch 'em sure as fate, for he played with the old Standards.

A team that aroused the nation, And caught 'em right off the bat, Before Brantford was a station.

Hamilton Is Ready.

Manager Yates has his pitchers working out in the East End Y. M. C. A. this afternoon. The rest of the squad is idle. The players will leave for Brantford on Thursday at 12.20 sharp, accompanied by the officers of the club. The new uniforms have arrived at headquarters, and but for the accident to Baldwin and the lack of team play and condition, caused by bad weather, the team is practically ready for the fireworks to start.

Yates Is Confident

Yates is all set for the opening game at Brantford to-day. He has a great deal of faith in his team, and while he is not filled with much confidence as to the stars that will be made, he is satisfied that a few games will put the team right on edge and start them along at a stiff winning pace. Speaking of his team and the prospects, he said "I am satisfied that we will do well. We may not start with a rush, but it must be remembered that we have played but three games and that three exhibition games do not constitute a great deal of work for a team. Had we been able to get in about five more games I would have been confident of a winning rush right at the start, no matter the result of the first few games, his fact must be taken into consideration."—Hamilton Spectator.

Football Executive Held an Important Meeting Last Night.

The Brantford and Paris Football league will not in future try a lottery device in allotting the referees to various matches. The practice has been condemned and the League has decided to recommend that they elect in all cases competent officers to select referees. This decision was made at the hearing of the protest of Paris against the result of the Duffin Rifles, when they claimed the referee was partial to the Duffs. And it seemed that they had some right to complain, but lack of sufficient evidence resulted in their protest not being upheld. The League, however, did show their sympathy by taking the action mentioned.

J. Crouch, the referee of the match, is a follower of the Rifles and it is little wonder that he felt inclined to favour them in the exchanges.

The horse play at Tutela Park was investigated and W. Johnson was suspended for not appearing in answer to the summons of the governing body. He will not be able to assist the S. O. E. on Saturday and will be further suspended if he does not appear at the meeting next Wednesday. He was cautioned three times when playing against Cocksutt's but continued to play a rough game.

J. March and H. Taylor of the Scots Limited applied for transfers and will be considered.

W. Clark will referee the Scots v. Holmedale match on Saturday in place of J. Hollister, who will be out with the cavalry.

A True Optimist.

Percival—Mr. Hemmandhaw is the most optimistic person I ever saw.

Penelope—Cheerful, eh

Percival—Yes; even now, when he is slowly recovering from a fever, he sees a humorous side to everything.

Penelope—Which surely is fortunate.

Percival—I asked him what he was eating, and he told me the physician permitted him to have the water from two boiled eggs.

Penelope—The idea!

Percival—And he hoped soon to be able to add the holes out of a few doughnuts.—From Judge.

Shrinking.

This mundane place of meeting Shrinks to a whirling cork; They've just exchanged a greeting 'Twixt Berlin and New York The airship and the wireless Have dwarfed this earthly ball; And science, ever tireless, Makes everything look small. —Cleveland Plaindealer.

"Bobbie" Heck May Go To Cleveland

(BY JINX.)

If Robbie Heck goes through the coming Canadian League season with as good a record as the one he rolled up last season, the Cleveland American Association team will either buy him or draft him from the London Club. Scout Charley Hickman of the Cleveland American League Club, is authority for the statement that he will recommend the London portside to the Cleveland management.

Hickman was present at Ironton a few weeks ago when Bobbie Heck pitched three innings against the Ironton Club. Although Bobbie was not exerting himself to any extent, he made a decided impression on the Cleveland scout, and Hickman, while visiting Oskee Neale, the former London outfielder at Bucknnon a week later, told him that he would try hard to get the Cleveland American Association team to buy him. The information was contained in a letter

from Oskee Neale to Bobbie Heck yesterday.

There is no doubt that Hickman really meant what he said. He had several conversations with Manager Reisinger, of the London team, while the club was at Portsmouth, and it is not unlikely that the Cleveland Club has been promised first chance at Heck should he again pitch as good as he did last season. The league is a faster one this season, and the London southpaw will no doubt find it harder to equal his record of last season.

Hickman has also been making efforts to get the Cleveland Club to bring Oskee Neale direct to the Naps instead of having him report to the American Association team. The Cleveland scout believes Neale is ripe for the majors, and, with the Naps in their present crippled state, he could receive a good trial in the big league. Neale does not report until June 15. He claims he is in great shape this season.

NO LOTTERY IN SELECTION OF REFEREES

Football Executive Held an Important Meeting Last Night.

The Brantford and Paris Football league will not in future try a lottery device in allotting the referees to various matches. In All The Big Leagues

Browns Win.

CLEVELAND, May 7.—St. Louis beat Cleveland easily 7 to 1. The feature of the game was a triple play executed by Cleveland in the first innings, when it looked as if St. Louis would drive Blanding from the box. Pratt was on third by virtue of his triple, which had scored Shotten and Austin and Williams had been passed. C. Walker then grounded to Turner. Turner threw to Lajoie, retiring Williams; Lajoie threw to Johnson, putting out Walker at first. Pratt then tried to score, but was out on Johnson's fast relay to Catcher.

Athletics Win.

PHILADELPHIA, May 7.—Fres hitting on the part of the Athletics yesterday gave them the final game in the series with Boston by 7 to 3. Both Collins and Bediet were batted hard.

Caldwell Is Good.

WASHINGTON, May 7.—Slim Caldwell beat the Washingtons 4 to 2 here yesterday and established a mark of pitching 25 innings of scoreless baseball, which includes the only three games he has started. Caldwell's work to-day was impressive, his control perfect and he was backed up by brilliant support. Only five of the Washington players out of the 21 who faced him got on the bases. An Agreement was reached with Manager Griffith that the game should be postponed at 3 o'clock in order to allow the New York players time to catch the Federal express for Boston. This explains why the game lasted but 7 innings.

Cobb Ran Wild.

CHICAGO, May 7.—Cobb's base running and Crawford's brilliant catch of Alcock's fly, when Chicago had the bases filled in the fourth inning, helped Detroit defeat Chicago 4 to 2 yesterday. Cobb stole three bases, and scored two of the visitors runs, and came very close to scoring in the first innings when he attempted to count from second on a sacrifice fly. He would have stolen home in the eighth inning if he had swung at the ball, but when the batter stepped back Cobb was caught a few feet from the plate.

Pirates Win.

PITTSBURG, Pa., May 7.—A walk to Konetchy, Viox's sacrifice, Keating's error on Mitchell's grounder, and a wild pitch by Cheney gave the locals their only run of yesterday's game, making it the second string of seven consecutive victories for Pittsburg this season. With Konetchy on 3rd in the ninth, Cheney made the wild pitch while trying to walk Hyatt, who was batting for Gibson. Adams pitched a remarkable game.

Brooklyn Won Series.

NEW YORK, May 7.—Brooklyn won the series from New York yesterday by taking the deciding game by a score of 5 to 3. Nap Rucker, Brooklyn's star pitcher, pitched his first game of the season, and he had the champions shut out until the ninth innings, when Brooklyn scored three after two runners had been retired. Demaree was hit hard by Brooklyn in the sixth innings, when the visitors won the game by scoring four runs on two passes and three singles, and an infield out.

Reds Won Out.

ST. LOUIS, Mo 7.—The Cincinnati Reds shut out the Cardinals yesterday, 3 to 0, in the Cincinnati second world series, in the first innings on a two-bagger by Moran and a home run by Bates. The scored again in the ninth on a triple by Niehoff and a single by Rawlings.

Beware of Ointments for Catarrh of the Throat That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when used through the mucous surfaces. Such articles should never be used except on prescription from a reliable physician, as the damage they will do is far too great for the good you can expect to derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

For Yankees Splendid Showing; Didn't He Give 'Em Walsh?

Fight, instilled by Frank Chance, and power given the line up by Jimmy Walsh, is credited with the rejuvenation of the Yankees. Good pitching has helped a lot, but the White Sox have shown that even the best pitching will not help without scoring ability.

Walsh's first and most prominent stunt was to beat the Athletics, the team from which Chance obtained him. Philadelphia give Walsh credit for three victories in a five game series.

In this series he batted .353. He made 23 trips to the plate, drew six passes, made six hits for seven runs. He proved himself as a fielder and base runner, and those who have been watching him believe he will make a name for himself.

Frisk Us.

"What show," queries an earnest
hystander, "have the Yanks to frisk
in the first division?"

If the Yanks can finish fifth no one
can say that Frank Chance hasn't
earned his pay. To finish in the first
division they must beat out, from
present indications, Boston, Chicago,
St. Louis and Cleveland. As to any
set reply of a more definite nature
—see heading over this paragraph.

A ball club with three star outfield-
ers, five crack pitchers and two fine
catchers, although its infield is only
average, should finish somewhere
around the first.

Footpath Collapses

A large portion of the footpath in
Regent street, Castlereaf (Yorks)
gave way and fell into a quarry be-
longing to the Ridgefield Brick Com-
pany on Tuesday. The roadway was
considerably cracked for a distance
of 18 yards, and a wall was also in
danger of collapsing into the quarry,
the shot penetrating the kitchen wall.

Dr. Rutherford has purchased a
strip of land from Mr. Baker, border-
ing on Dufferin Avenue, extending
from Maple Avenue to William St.
He intends dividing the land up into
village lots. He has already sold
four lots. A strip six feet wide has
been given to the village thus widen-
ing the street. This should make a
very desirable building section.

Mr. Kent has started on his new
house.

Mr. R. C. Muir is making consid-
erable improvements to his residence
on Maple avenue.

Mr. A. Kelly has commenced op-
erations on his house.

A gentleman from Teeterville was
here last week looking for a good
site on which to build two houses.

Mr. Elliott of Scotland has taken
an option on land near the fair
grounds on which to open out a
lumber yard.

A man from Brantford was in the
village on Tuesday looking for a
place to put out a laundry.

We understand Mr. Kneale on Maple
avenue, intends erecting another
house this summer.

Mr. S. B. Doran has purchased an

**IF HAIR IS TURNING
GRAY, USE SAGE TEA**

Here's Grandmother's Recipe to
Darken and Beautify Faded
Hair.

That beautiful, even shade of dark,
glassy hair can only be had by brew-
ing a mixture of Sage Tea and Sul-
phur. Your hair is your charm. It
makes or mars the face. When it
fades, turns gray, streaked and looks
dry, wispy and scraggly, just use
this can always be depended upon to
bring back the natural color, thick-
ness and lustre of your hair and re-
move dandruff, stop scalp itching and
falling hair.

Everybody uses "Wyeth's" Sage
and Sulphur because it darkens so na-
turally and evenly that nobody can
tell it has been applied. You simply
dampen a sponge or soft brush with
it and draw this through the hair,
taking one small strand at a time; by
morning grey hair, has disappeared
and after another application it be-
comes beautiful and abundant. Agent

**The Return of
Tarzan**
By EDGAR RICE
BURROUGHS

Copyright 1913 by W. G. Chapman.

"This is my answer to your nota
monsieur," said Tarzan in a low voice.
And he hurled the fellow from him
with such force that Rokoff lunged,
sprawling against the rail.

"Name of a name!" shrieked Rokoff.
"Dig, but you shall die for this! And,
springing to his feet, he rushed upon
Tarzan, tugging the man by the neck
to draw a revolver from his hip pocket.
The girl shrieked in terror.

"Nikolas!" she cried. "Do not oh,
do not do that! Quick, monsieur, or
he will surely kill you!" But in-
stead of trying Tarzan advanced to
meet the fellow. "Do not make a fool
of yourself, monsieur," he said.

Rokoff at last succeeded in drawing
the revolver. He deliberately raised
it to Tarzan's breast and pulled the
trigger. The hammer fell with a
click on an empty chamber; the ap-
pleman's hand shot out like the head
of an angry python, there was a quick
wrench, and the revolver sailed far
out across the ship's rail and dropped
into the Atlantic.

For a moment the two men stood
there facing one another. Rokoff had
regained his self possession. He was
the first to speak.

"Twice now has monsieur seen fit to
interfere in matters which do not con-
cern him. If monsieur does not know
who Nikolas Rokoff is, this last piece
of affrontery will insure that monsieur
shall have good reason to remember
him."

"That you are a coward and a scound-
rel, monsieur," replied Tarzan, "is
all that I care to know of you." And
he turned to ask the girl if the man
had hurt her, but she had disappeared.
Then, without even a glance toward
Rokoff and his companion, he contin-
ued his stroll along the deck.

Tarzan could not but wonder what
manner of conspiracy was on foot or
what the scheme of the two men
might be. On the woman's finger he
had noticed a ring of peculiar work-
manship. He determined to note the
fingers of the woman passengers he
came upon thereafter that he might
discover the identity of her whom Ro-
koff was persecuting.

CHAPTER II.
Forging Bonds of Hate and—

TARZAN had sought his deck
chair, where he sat speculat-
ing on the numerous in-
stances of human cruelty, self-
ishness and spite that had fallen in his
lot to witness since that day in the
jungle four years since that his eyes had
first fallen upon a human being other
than himself—the sleek, black Kulo-
nga, whose swift spear had that day
found the vitals of Kala, the great
ape, and robbed the youth Tarzan of
the only mother he had ever known.

He recalled the murder of King by
the rat faced Snipes; the abandonment
of Professor Porter and his party by
the mutineers of the Arrow; the cruelty
of the black warriors and women of
Mbonga to their captives; the petty
jealousies of the civil and military offi-
cers of the west coast colony that had
afforded him his first introduc-
tion to the civilized world.

"Mon Dieu!" he exclaimed. "But
they are all alike—cheating, murder-
ing, lying, fighting, and all for things
they do not need. The jungle would
not deign to possess money to pur-
chase the effeminate pleasures of
weaklings. It is a silly world, an
idiotic world, and Tarzan of the Apes
was a fool to renounce the freedom
and the happiness of his jungle to
come into it."

Presently as he sat there the sud-
den feeling came over him that eyes
were watching from behind. Tarzan
wheeled about so quickly that the eyes
of the young woman who had been
surprisedly regarding him had not
even time to drop before he caught
the eyes of the ape-man shot an inquiring
look straight into them. Then as they
fell Tarzan saw a faint wave of crim-
son creep swiftly over the now half
averted face.

He smiled to himself at the result
of his very uncivilized and ungalant
action, for he had not lowered his own
eyes when they met those of the
young woman. She was very young
and equally good to look upon. Fur-
ther, there was something rather fa-
miliar about her that set Tarzan to
wondering where he had seen her be-
fore.

CHATHAM, ONT., April 3rd, 1913.

"I am a veteran of the Crimean War
and the Indian Mutiny, volunteering
from the Royal Artillery into the Royal
Engineers, and served under Lord
Roberts during the Indian Mutiny, and
am a pensioner of the British Govern-
ment. Pierce hand-to-hand fighting and
continued exposure, left me a great suf-
ferer from Rheumatism, so much so that
my legs swelled up, making it impossible
for me to walk. My bowels were so con-
stipated that I only had one passage a
week until I got to using "Fruit-a-tives".
They cured me of both the Rheumatism
and Constipation. In my regular employ-
ment, I walk thirty miles a day and enjoy
perfect health. No more Rheumatism
or Constipation. You are at perfect lib-
erty to publish this letter if it will be
advantageous to "Fruit-a-tives".
