FRIDAY EVEG, NOV. 13, 1874.

Town and County News

ATTENTION is respectfully directed to Mr. Jeffrey's special notice in to-day's issue.

CONVALESCENT.—Mrs. Symons, who met with such a severe accident, and had her hand amputated, on Thursday, is getting along as well as could be expected.

TO STOP THE FLOW OF BLOOD.—An exchange says there is no better use to make of fine cut tobacco than to bind it upon a fresh wound, and nothing will stop the flow of blood quicker.

FIREMEN'S BALL.—This affair which came off last night was quite a success. The hall was nicely decorated for the occasion. Vale's quadrille band supplied the music and the varieties of Terphilora had an opportunity of indulging in their favorite pastime to their hearts' content.

TOOTHACHE.—Nearly everybody has a cure for the toothache. Try the recipe:—Take equal parts of pulverized alum and salt. Saturate a piece of cotton with hartshorn, cover with the mixture, and put in the tooth. Sometimes hartshorn alone will give relief.

SOCIAL.—We understand that Chalmers' Church will have a social on Tuesday evening, 17th inst., in the basement of the Church, in connection with the Sunday School. Mr. Maitland has been training the children for some time, and a good social may be expected.

We direct public attention to Mr. A. O. Buchan's advertisement in to-day's advertising columns. The superior class of goods kept at the Fashionable West End is well-known to the ladies of this town, and the sale of Dress Goods announced presents a favorable opportunity for profitable purchases, which cannot fail to attract a great number of purchasers. See advertisement.

SOCIAL LAST NIGHT.—The social in the W. M. Church last evening was, in all respects, a success. The programme was well selected and as well performed. Readings, choice and varied, were given by lady and gentleman amateurs, and the singing, consisting of solos, duets, and a quartette, was very well received. The proceeds go to the Treasury of the Ladies' Aid Society.

BENGOUGH'S LECTURE.—Mr. Bengough will deliver his unique and amusing lecture on "The Pleasuries of Public Life," in the Town Hall to-night. The subject which deals not only with political but with all classes of public characters will be numerous illustrated with Crayon caricatures of well known public men including the local celebrities, which will be drawn in the presence of the audience. No one should allow this opportunity of hearing this talented lecturer to go past.

GALT & GUELPH RAILWAY.—The rails upon a great part of the track of the Galt & Guelph Railway in Galt are being renewed at the present time, and the track put in thorough good order for the winter's business. It is now over twenty years since the Galt Branch Railway was opened for traffic, and say, nearly nineteen years since the train first ran over the Galt and Guelph line, and it is a remarkable fact that during that lengthened period not a passenger has been killed or injured, and but very few lines can boast of a record like this.

I. O. G. T.—The sixth anniversary of the Beaver Temple, I. O. G. T., Guelph, will be commemorated by having religious services in their Hall on the afternoon of Sunday, 15th inst. The Rev. Mr. Manchee will deliver an appropriate address and a collection will be taken up at the close. They will also hold a Tea Social on Monday evening, 16th inst., at which tea will be served from half-past 6 to 8 o'clock. Music by the choir, short addresses by several ministers, singing, readings, and recitations will compose the programme. We have no doubt they will have a large gathering, as the programme is very select.

EXCITING RUNAWAY.—Yesterday afternoon a span of team horses, attached to a lumber wagon, were left standing by the teamster in front of the Wellington hotel. Not having the fear of consequences before their eyes, they started off at a brisk rate and were soon under full headway up Wyndham street. By some means the box became detached, and the steeds turned around and came plunging down Wyndham to Quebec street, where they turned up towards the Churches, when we lost sight of them, and if they have not stopped they will be running yet.

POLICE COURT.

(Before the Police Magistrate.)
Nov. 13.

James Mitchell charged by W. Marriott with breaking windows, on Gordon street, was fined \$4 and costs.

Gregor McGregor and James Mitchell were charged by Thomas Miller with a \$200 fine, Mitchell was fined \$4 and costs, and McGregor, \$2 and costs.

CHEESE FACTORY.—Messrs. Gordon & Wild, of Harrison will commence the manufacture of cheese in Elora next spring. They expect to be able to secure the milk from about 400 cows. The building, which is on the west bank of the Grand River, going to Aboyns, is being pushed on, and part of it will be finished this week. An excavation is being made in the rock, on which they intend to erect a curing room.

On Friday night, while proceeding down the Waterloo road, from Elora, a Mr. Trimble was set on by two villains, one of whom dealt him several severe blows on the head, knocking him down, the other then rifled his pockets.

BY TELEGRAPH TO THE MERCURY

Report of Queen Victoria's Death Unfounded.

Attempt to Assassinate the Russian Czar.

The Khan of Khiva in Trouble.

Russian Aid Requested.

Affairs in Spain.

A Stampede of Carlists.

Some "Tall" Swimming.

St. Andrew's University Elections.

LONDON, Nov. 13.—Paul Bayntry, of New York, with his life-preserving apparatus, swam the whole length of the Lifebuoy yesterday.

The Marquis of Salisbury, and Dean Stanley have been nominated as candidates for the Bishopric of St. Andrew's University.

The reported death of Queen Victoria as telegraphed hence to New York last night, is unfounded. The story originated in a Fleet-street bar-room.

LONDON, Nov. 13.—Despatches to the Daily News from Vienna says that intelligence has been received, that strange rumors are circulating in St. Petersburg, of a social conspiracy in which the conspirators made an unsuccessful attempt to murder the Czar, and a number of arrests have been made in consequence in Moscow.

LONDON, Nov. 13.—The Standard's special telegraph from Hendeys, says the retreat of the Carlists from Irún ended in a general stampede, hundreds of burning houses mark the progress of the Republicans, who occupied San Martini at nine o'clock on Thursday morning, and were on their way to destroy Lourdes at Vera, to which place the Carlists first retreated. The Carlists before leaving their old positions burned the houses of Republican sympathizers. One of their leaders, Cebellos, is accused of treachery and has fled. Another Mendiri, is wounded and returned to the line of Ebro, after leaving a strong garrison at Irún, he was to return with his main force to San Sebastian and re-embark to-day for San Tander.

St. Petersburg, Nov. 12.—The Khan of Khiva has informed Col. Ivanoff, commander of the Russian garrison, on the Oxus, that he has neither soldiers nor money with which to overcome his rebellious Turcoman subjects, and he asks for aid of the Russians. Col. Ivanoff has threatened the Turcomans with sequestration if the outrages are continued.

Young Men's Christian Association.

FIFTH ANNIVERSARY.
According to announcement the celebration of the fifth Anniversary of the Guelph Y. M. C. A. came off on Thursday evening, in Chalmers' Church. There were about 500 people present, who evinced considerable interest in the very select and appropriate programme provided.

The President, Mr. Hugh Harley, opened the choir.

After the opening services, in which Revs. Mr. Torrance and Dr. Hogg officiated, the choir under the leadership of Mr. Higham sang a very select anthem in pleasing style.

The Secretary then read the annual report of the Association. We gave our readers a synopsis of it some time ago, which showed the Association to be in a satisfactory condition in regard to their work, with the exception that they are in need of finances to carry on their operations.

During the evening several quartettes were rendered in good style and were well received, Mrs. Budd presiding at the organ.

Rev. Mr. Middleton, of Guelph, addressed the meeting and gave some very good advice to the young men. He was glad to hear such a splendid report read, and was sorry that the sunshine at the beginning did not continue throughout the report. He thought the Christian public of Guelph should unite to free the Association from debt.

Mr. McAllister, President of the Kingston Association, gave a resume of the work in Kingston, which was very similar to that followed by the Guelph Y. M. C. A. He was happy to know that the Young Men's Christian Associations were doing such a great work in bringing Christians belonging to other churches together and that they were trying to fulfil the injunction "Love one another."

Rev. Dr. Castle, of Toronto, said that he was sorry to tell his audience that he regretted having promised to come to Guelph to-night; for they were, in Toronto, enjoying a rich spiritual feast. He informed the Young Men that Mr. Varley was sorry he could not be with them to-night. He spoke of the different qualifications required to prosecute Christian work, successfully. They ought to know themselves, and to be doing, and to consecrate themselves to it. He also spoke of the developing power of Y. M. C. Associations on young men and said that in trying to do good to others they were developing themselves. He next touched on the earnestness required in the work. He knew that men would tell you to be earnest in making money and in other secular work; but they would not be so earnest in their work. He impressed upon them the importance of tender sympathy, especially in the good work. They also required a good deal of tact. The speaker illustrated by several anecdotes the importance of having tact. But all these would not avail them, anything if they lacked perseverance in the work. He then touched on the blessed reward which was sure to flow from the

approbation of Heaven; when the sentence was pronounced: "Well done, good and faithful servant."

Rev. Mr. Wardrop hoped the meeting would give a good collection and so increase the funds of the Association. He gave an illustration of how weak man's work was if not blessed by the Holy Spirit of God.

After singing the Doxology the meeting dispersed.

The collection amounted to \$29.50.

ACCIDENT.—Mr. Robert Hunter of Pilkington, got his thumb badly crushed in the gears of a threshing machine, a few days ago.

ACCIDENT.—A few days ago a son of Mr. Travis, 10 concession of Maryboro', was engaged in chopping, his axe slipped and cut his large toe off.

ACCIDENT IN GALT.—A son of Mr. W. Sudden, of Galt, aged eight years, while playing with some other children, fell on a pile of stones and broke his arm, immediately above the elbow joint, at the same time dislocating both bones of the forearm.

CHARLEY ROSS.—The Daily Times says:—"The long lost Charley Ross has been traced to St. Catharines. A woman, who gave her name as Hazard, said her daughter, arrived here about four months ago, having charge of the stolen child. The woman, who has been at service at Mrs. Richardson's near the market, is under arrest, and the police and several American detectives are on the search for the daughter, who has the child."

ACCIDENT.—The Tribune says that on Saturday last Mr. Gilbert Darroch, while assisting Mr. John Sinclair to raise a log house, on the 4th con., Minto, had his leg broke. It happened in this wise: The house was all up except one log, and while putting up this log they had to use long skids, and when within a few feet of the top, one end slipped off the skid causing the other end to slip back and come down amongst the men who were engaged in raising it. All escaped unhurt but Mr. Darroch got strikingly hit on the leg and giving it a bad break."

THE CREDIT VALLEY RAILROAD.—The men employed on the C. V. R. were repaid on Wednesday at Alton, and produced lively times in the village. In this branch of the road there are at present employed 284 men and 70 teams, anticipating an early close of the season. The culverts are all in rapid course of construction, as also is the opening of the rock and heavy gravel cuttings for the winter's work; grading is completed through Alton as far as Melville, and will be completed to Orangeville during the present month.

ACCIDENT.—The Hamilton Times says that one of the most peculiar accidents which we have heard of for a long time happened recently to a farmer in Beverley, who was driving home a load of chop stuff. Some of the bags were up the high spring seat upon which he sat, and as he was speaking to a friend the horse moved towards the driving wheel, the door of which was open. The farmer dodged his head and thought thus to escape the driving horse, but as he came upon the thick slip below, caused an upper movement which was by no means pleasant to the occupant of the vehicle, as the upper portion of the doorway struck him fairly on the back, injuring his spine severely. He is recovering from his injuries.

STATUE TO WILSON.—The ceremony of unveiling Mr. Mosman's beautiful statue of Alexander Wilson, Esq., an Ornithologist, was duly performed at Paisley, Scotland, on the 8th of October. The first steps to secure the statue were taken thirty years ago by the Alexander Wilson Lodge of Oddfellows, and their labors are now consummated. The bronze statue is seven feet six inches high, and stands on a pedestal of grey granite ten feet high. Wilson is represented leaning against the stump of a tree, with his gun behind him, and at his feet lie his hat and portfolio, on which rests his favorite blue parrot. In his right hand he holds a pencil, and in his left a big I, the plumage of which he seems to be observing. As a piece of portraiture, if he stands is most accurate, and the general effect is very artistic.

A "SQUEEZE" IN BARLEY.—The latest corner at Chiswick is a corner in barley. The story is thus told by the Times there:—"The manager of the October corner gave the shorts who had postponed the settlement of their contracts to the last moment a surprise on Saturday. The market for the outstanding trade was promptly placed at the opening of business at \$1.30, and was maintained at or around that figure the balance of the day. Some few settlements and sales were made by traders outside of the corner at \$1.25 to \$1.29, and some frightened individuals paid as high as \$1.25 for round lots, but the parties in the deal were apparently well satisfied with their profits at \$1.30. The deliveries to and purchases by the corner were quite liberal, and at the close last evening Mr. Geddes either owned or controlled about all the stock in store, some \$85,000 bushels. All the outstanding trades due the corner, save 15,000 or 20,000 bushels, were settled during the day.

FERGUS SEWING MACHINE FACTORY.—The News Record says that an effort is being made to form a joint stock company to purchase and work the Fergus Sewing Machine Factory. The Directors are Messrs. James Argo, Henry Michie, James Wilson, George D. Ferguson and Andrew Wilson. Notice of application to the Ontario Legislature for incorporation, will, we understand, appear in this week's official Gazette. Twenty-one thousand dollars of stock is already subscribed, and \$14,000 more is required to induce the Company to go on. The machine which the new company propose to manufacture are such as will command ready sale wherever sewing machines are required, as they are fully equal to any now on the market, and superior to nearly all. The shares are put at \$100 each, payable, 10 per cent cash, 10 more in one month, 10 in two months and 10 in three months—the sums being such as are within the means of all who feel disposed to assist in the enterprise. A number of the leading business men in the village have already subscribed liberally.

On Thursday evening last, Mr. James Gerrie, of Nichol, had three sheep worried, and Mr. Grille, who is a near neighbor of Mr. Gerrie had one worried, it is believed by dogs.

Ontario Legislature.

Toronto, Nov. 12.

After His Excellency had opened the session with the Speech from the throne, the Speaker took the chair at half past three o'clock.

Mr. Speaker informed the House that he had received a return to a writ for the election of a representative in this House of the West Riding of Peterboro', in the room of Mr. Fairbairn, deceased.

Mr. W. H. Scott, the newly elected member for West Peterboro', was introduced by Mr. Cameron and Mr. Gifford, and took his seat.

Mr. Mowat introduced a Bill entitled "An Act to provide for the administration of oaths of office to persons appointed as Justices of the Peace."

The Bill was read a first time.

Mr. Mowat moved "That the speech of His Excellency, the Lieutenant-Governor to this House be taken into consideration to-morrow."

Mr. Cameron.—Mr. Speaker, the extent of the work that has been indicated for us to undertake during this session is so great that I would almost have fancied honourable gentlemen opposite would have asked us to proceed in the consideration of so important a bill of fare until to-morrow.

The motion was carried.

Mr. Mowat moved a resolution for the appointment of the usual Standing Committees.

Mr. Cameron said that in the public interest he thought it would be necessary to suggest to hon. gentleman opposite, the propriety of devising some means to enable the Public Accounts Committee to sit during the recess, because experience had taught them that it was very difficult to get beyond even the first few pages of the public accounts while the House is

The Speech.

If the Speech with which the Lieut. Governor opened the Legislative Assembly on Thursday does not give promise of much legislation during the session just commenced, it refers to several matters of no small importance to the Province. The liberal policy which the Government has pursued since aiding the different railway enterprises was a legitimate subject to which the present Administration could refer with pardonable pride. How different that policy has been from the one adopted by the Sandfield Macdonald Government we all know. The one left the distribution of the public money to the Governor in Council—or in other words the Ministry—who made promise of aid as it suited party purposes and party interests, and not in accordance with any general or just principle. The other was framed on an equitable basis, by which justice was done to all parts of the Province, and every deserving enterprise received assistance. No one can tell to what extent the Province has been benefited by the construction of these railways, and we believe that no small share of our prosperity is attributable to the expenditure in all parts of the province, of public money for railway and other enterprises.

The boundary question has been so far settled that the Government can make land grants, and it is expected that next year the boundaries of this Province, west and north will be permanently fixed. The question as to the boundary between Ontario and Quebec is now all but settled, and only requires the passing of an Act to permanently define and the line between the two Provinces.

The subject of immigration receives a large measure of attention, and deservedly so. The system hitherto pursued, though measurably successful in its results, can be greatly improved on, and we are glad to find that the recent Conference between the representatives from the Great Provinces, at Ottawa, has aided in the perfecting of a scheme which will secure the united and harmonious action of these provinces, and which it is hoped will tend to greatly increase the stream of immigration to this country. Of one thing we are sure, we are now receiving a much larger class of immigrants than formerly, and it is to be hoped that the number of able bodied, sober, industrious workmen can be attracted to the Province, so much that it will be for us, and for themselves.

The redistribution of present, and creation of new, constituencies in order to give increased representation warranted by the increase of population according to the last census, is another point prominently upon in the Speech. We can only say that we are glad to see it contemplated, but it is not at all likely that the Ridings in this Province may be re-arranged, and that of the north-easterly Municipality may be separated from their present Ridings, and made part of a new one, with Orangeville as the city seat. The whole scheme will not be laid before the House at this time.

It is very satisfactory to learn that the friends of the Province were in a better position; that the number will exceed the estimates, and that the expenditure will be less than anticipated. This statement, very gratifying to the friends of the Government, must be rather disappointing to the Opposition and the Tory papers, who have been dining into the ears of the people that the surplus was one, that there were only a few dollars to the credit of the Province, and that we would soon be burdened with taxation. These doleful prophecies will now have to cease their work, and take up some other imagination.

Important Legal Objections. Revision of the voters lists for the election of Guelph on Monday, the 17th inst., Mr. T. Q. C. appeared for the Minister, Mr. Fred. W. Johnston for the candidates. Mr. Johnston objected to the list being used as the basis for the ground that the clerk had not signed and dated the certificate of the sixth of August, and that the clerk appointed until the 15th inst., and that the names were not added to the list until after the appointment of the clerk, and that the names had not been corrected in regard to any of the returns done by the clerk of the city. The Judge said that the list could be used, but he would adjourn the trial until the 15th inst., at Goderich, to give the Minister a chance to object to the list if so disposed. This will be the result.

of the British Possessions Abroad. The Board of Trade has just published in the Colonial Abstract, a statement of the value of the British possessions which may be condensed as follows:—Luis, 100,662,323; Cayenne, Settlement, and Labrador, British North America, 3,748,000; with New Zealand, the West Indies, Honduras, Jamaica, 1,280,268; the Cape of Good Hope, 857,911; West Australia, 1,000,000; Gold Coast, Gambia, and Senegal, 537,000; 318,484; Hong Kong, Malacca, 6,251; Bermuda, 1,000,000; 811; Malta, 1,119,198 and 16,454 respectively, exclusive of the military. The total is 202,555,690; and in North America and Australia there has been a substantial increase since the census was taken.

THE BOUNDARY COMMISSION.—Captain Anderson, the chief astronomer of the North American Boundary Commission, returned to Ottawa, from the North-west, some time ago. The return to St. Paul of the American Commissioner was reported. Capt. Anderson, in addition to the services he has rendered during this last expedition, was also out in the same service from 1856 to 1862, with Colonel Hawkins, defining the line from the Pacific Ocean eastward to the Rocky Mountains. He is to remain in Ottawa during the winter, as well as Lieut. Galway and Capt. Featherstonhaugh, the former being in the city at present, the latter to arrive in the course of a few days. They will be engaged in committing to paper the results of their labors in the West, extending their field notes, executing maps, charts, &c. Captain Anderson is the gentleman to whom was entrusted the duty of making an estimate of the cost of the last commission.

MEMOIR.—The memory strikes me as perhaps the most astonishing of all the works of God. How such infinite quantities of reminiscence can be stored up in the brain, ready to start forward at the call for them, is beyond all conception. It is utterly inexplicable, if one supposes that, in some way, all these images are piled up there inside one's head, in their several pigeon holes all handy for the mind's use. It is no less inexplicable if one takes a different view, and supposes that there are not these cellars full of bottled images, but that somehow certain suggestions enter the brain in just the same way as we are excited before, and thus the old image or thought is created afresh.—Charles Baxter.

ACCIDENT.—A Dr. Still, of Listowel, was returning a corner, a few days ago, his horse chieled at something, and springing to one side, capized the buggy, and threw the doctor out, breaking three of his ribs, and severely bruising him other ways.

FAELS WORTH REMEMBERING.—Parties purchasing goods always wish to buy them at the cheapest rate. Now the nearer you can get to the Manufacturer, the cheaper are the goods. Mr. Horaman, the popular Hardware merchant of this town, last summer visited the manufacturing districts of Europe, and purchased very largely, from the manufacturers there. He has also made special arrangements with manufacturers in the United States and Canada to have their goods at the lowest Cash prices. In consequence of the extraordinary bargains Mr. Horaman offers, his sales this season are largely increased; in fact, there has been a perfect rush at his mammoth establishment during the last two months. Remember, by purchasing Hardware from John Horaman the profits of the wholesale dealer, or middleman are saved to the customer. Stoves and Tinware have been added this season, and on account of the very low prices at which these goods are offered by Mr. Horaman this branch of the business has exceeded his most sanguine expectations.

FARMERS' DIARIES.—If our farmers knew how little trouble it is to keep a diary, and with what satisfaction they would look over it in a few years, we feel sure they would. Many of them, be it said, are inclined to be idle. A simple record of the weather and the operations of the farm, the writing of which would not occupy two minutes a day, will, in after years, be not only a source of pleasure, but also of great practical benefit. By reference back to the record of former years, one can see how late he planted certain crops, and at what time they matured, also items of interest to the family, &c. At Day's Bookstore will be found a large stock of Diaries and Farm Account Books. Day will sell you a large foolscap Diary for 35 cents, and Pocket Diaries from 15 cents upwards. Begin now, and it will pay you well for the few minutes lost in entering your day's work.

CURLING RINK MEETING. The Annual Meeting of the Stockholders of the Guelph Agricultural Exhibition Building and Curling Rink will be held in the Town Hall, on Friday, the 20th inst., at 7:30 o'clock, p.m., for the receiving of the report and financial statement for the past year, and the electing of officers for the ensuing year.

HELENA GRAHAM,

THE BRIDE'S SACRIFICE.

CHAPTER II.

"The man beside me said something to him in a foreign tongue—French, I think—to which the other nodded, without speaking. My guide then went and unlocked a door at the further end of the apartment, from which he drew forth a great heap of bricks and mortar, and all the implements necessary for building a wall.

"A light began to dawn upon me. The body of this man was to be walled up here.

"My suspicion was correct. Making a sign for me to assist him, the man raised the head, and not daring to refuse, I took the body by the feet, and we carried it into the inner room, which proved to be a small dark closet, without a window, and with immensely thick walls. Even in all my terror for my own safety, I could not repress a feeling of pity for this murdered youth—for he was only a boy—and the handsomest I ever saw.

"All this time the woman's wild shrieks were resounding through the room, growing louder and louder each moment, as she still struggled to free herself from his hold. All in vain. He forced her into the inner room, but before he could close the door, she had burst out, and clasping his knees, screamed for mercy. He spurned her from him with a kick of his heavy boot, and then she sprang up and spat at him like one possessed of an evil spirit. Flying to the farthest corner of the room, she raised her right hand to heaven, crying in a voice that might have made the stoutest heart quail—

"I curse you—I curse you! Living, may heaven's wrath follow my curse—dead, may it haul you to eternal perdition! On your children and on your children's children may—

"With a groan she sprang upon her ere she could finish the awful words that pealed through the room like the last trump, and seizing her by the throat, hurled her headlong into the dark inner room where the murdered man lay. Then, closing the massive oak door and locking it, he turned to me, and speaking for the first time, commanded me, in a voice fairly convulsed with passion, to wall up the door.

"I would have prayed for mercy, but my tongue clove to the roof of my mouth. The man beside me saw my indecision, and catching me by the arm, said, in a stern whisper—

"Fool, do you want to share their fate? Do as you are told."

"I shrank from the crime, but life was dear to me, and I obeyed. As men work only for their lives, I worked with those two mysterious masks looking on. It was completed at last; where the door had been was a wall of solid masonry, which her death-cries could never penetrate.

"It is well," said he who appeared to me the superior. "Give him the reward I told you of."

"The other silently handed me the purse.

"And now swear never to reveal what you have this night seen till your dying day."

"I swear," said I, for I dared not refuse.

"That will do. Take him away," said the speaker, leaving the room.

"My guide blindfolded me as I had been before, and led me out, locking the door on the awful secret.

"As I had been brought up, I was led to the beach. The boat was in waiting, and I was taken away, landed, and conveyed into the carriage, which for upwards of half an hour drove round some circuitous route. Then I was assisted out and left standing alone. I tore the handgrip from my eyes and looked around; but the carriage was gone, and I never heard or discovered aught more of the events of that night.

"From that day my peace of mind was gone. Years passed, but it haunted me night and day till I became a morose and dreaded man. Then I travelled from land to land, but nothing could ever banish from my ears that woman's dying shrieks and despairing eyes.

"In Gibraltar I fell ill. I felt I must die, and wanted to come and be buried in my native land. Captain Graham brought me here. And now that I have told you all, I can die in peace. In peace!—never—never, until that woman's face is gone. O heaven!" he cried, raising himself up with a shriek, and pointing to the window, "she is there!"

With a scream almost as wild as his own, Mrs. Ben started up and looked. A pale, woful face, shrouded in wild black hair, was gazed for a moment to the glass, and then was gone. Paralyzed with terror, Mrs. Ben turned to the sick man. His jaw had dropped, his eyes were protruding from their sockets, and he was dead.

CREMATION.—The body of Lady Dilke, who died a few weeks ago in England, was burned on the 10th ult. at Dagenham (Saxony). The ceremony was performed in the furnace recently invented for burial purposes by Herr Siemens. The relatives of the deceased lady permitted strangers to be present, a large number of scientific men attended the experiment. When the company had complied with Herr Siemens' request to offer up a mutual prayer, the coffin was placed in the chamber of the furnace; six minutes later the coffin burst; five minutes more the flesh began to melt away; ten minutes more and the skeleton was laid bare; another ten minutes and the bones began to crumble. Seventy-five minutes after the introduction of the coffin into the furnace all that remained of Lady Dilke and the coffin were six pounds of dust, placed in an urn. The brother-in-law of the deceased was present.

BREAKFAST.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co.," Homoeopathic Chemists, London."

The Government of Newfoundland has determined to take steps for the protection of the seal-fisheries, by preventing vessels from leaving port before a certain date, and is anxious to induce the Governments of other countries, whose subjects are engaged in other fisheries, to take similar measures. It is hoped thereby to establish an international convention which will have the effect of giving the seals at least another month after the breeding season, in which the young may increase in size and value, and thus the fearful slaughter of immature seals which has threatened the total extermination of the animal will be checked.

FOR SALE—TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.

Those lots on Tyrcathlen Terrace are well adapted for genteel residences, (and will only be sold to those who will bargain to put up good buildings.)

Plans of the Lots can be seen at my office and particulars learned.

Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.

If desired, the lots will be pointed out on the ground.

Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.

An early call is solicited.

The great decline of prices since the panic of last year has caused a number of failures in New York, and a few elsewhere, and it is expected that it will come more before the beginning of 1875. But the decline, distressing as it has been and is likely to be to many individuals, is not an unmitigated evil. It is just what must have taken place, and must still take place, in getting the specie payments. As a result of the panic very considerable progress has been made toward the specie basis.

A JOY FOR EVER.—Such is a fine head of hair, it's the pride of youth and the glory of age. Alcoholic and mineral washes should never be used; simple and healthful preparations are best; such is Berline made by Perry Davis & Son. Use no other.

IT HAS BEEN WELL SAID THAT THERE is great waste of time and energy by those reformers and phila-thropists, who to bring about man's amelioration, are always addressing themselves to the head of the human system. It is an elementary law governing the human system, that the Brain and the Stomach are two neighbors who cannot afford to be at enmity for any length of time, without mental deterioration or destruction; and an improvement in one implies improvement in the other. By using Dr. WHEELER'S COMPOUND OF BICARBONATE OF POTASH AND CALIBATA the Mind and Body will become harmonized by the perfection of Digestion and Assimilation of food, and the formation of Healthy Blood. n742w

BEARINE OR **REAL BEAR'S GREASE,** A HAIR BEAUTIFIER, Preserver, and Dressing.

This elegant preparation named from the Canada Bear, from which its most essential elements are obtained, is a scientific compound of Real Bear's Grease, and other ingredients, so combined as to retain for a great length of time, its original fragrance and purity. As a dressing for the Hair, nothing can be more beautiful or a restorer. It is elegantly perfumed, and renders the hair soft, pliant and glossy. It serves to give it that peculiar richness and color, which is so essential to a complete toilet. It is the cheapest, most harmless, and best Dressing in the world. SOLD BY DRUGGISTS. PRICE, 50 CENTS PER PACKAGE.
