SATURDAY MORNING, FEB. 16, 1939.

The Jesuits Bill. A number of Catholics whose good opinion The world desires to hold do not like our course in the matter of the vote of \$100,000 to the Society of Jesus as well as the restitution of certain lands by the Legislature of Quebec.

It does not rest with us to show that the Jesuits should not be so liberally treated as they have been in this case. It rests with the British and Canadian governments to explain to the rest of the world that an order so antagonistic to British rule and freedom and the Protestant religion should be given any recognition whatsoever in any part of the British dominions.

There is no mistaking the feeling of the people of this province in regard to this question. There is hardly a paper in Ontario that has not spoken out, protested, against the Jesuits Bill.

The Globe (Liberal): We could not, and cannot not, regard the act as a just or equitable one. The Empire (Conservative): In our opinion the presence which lies at the foundation of Mr. Mercer's act is a just or equitable one.

London Advertiser (Liberal): It is doubtful, however, if as a matter of mere political expediency Mr. Mercer has not oversteered himself in giving the Jesuits the right of the Jesuits of Quebec and restoring their estates.

Toronto Saturday Night: No Canadian of extended views on the subject of the Catholic or Protestant, can condone this outrageous donation to the Jesuits. It is a violation of the chief principles of government.

London Free Press (Conservative): The moral question as it affects the rest of the world is not the question of the Jesuits, but the question of the Jesuits of Quebec and restoring their estates.

Fair Play and an Even Start. The demand in Canada for an export duty on logs sent out of the country, also for duties on certain fruits, trees, and seeds, has been only taken note of by the Government.

THE FLOWERY SUBURB.

Forenoon and Things Talked of West of the Subway.

Masonic Hall was the rendezvous of a happy throng last night, it being the occasion of the annual meeting of the Flower City Club.

The Orange Order is evidently about to move against the Jesuit Bill. A lively meeting of McKinley Lodge Orange Lodge, No. 275, of which John G. Holmes, the big-headed lawyer and university graduate is worthy master, was held last night.

THE CITY GRANGERS' PROTEST.

Against Mackenzie, Bowell and Clarke Wallaces' Despoiling Protestant Rights and Liberties for the Sake of Their Pockets.

The Orange Order is evidently about to move against the Jesuit Bill. A lively meeting of McKinley Lodge Orange Lodge, No. 275, of which John G. Holmes, the big-headed lawyer and university graduate is worthy master, was held last night.

Monday evening is the regular meeting of the Town Council, and it is said there will be a well-attended session. It is expected that the resolution of the Fire, Water and Gas Committee is introduced to enable the investigation of the water supply.

It is acknowledged by thousands that Dr. Hodder's Burdock and Sarsaparilla Compound is the best medicine for skin diseases.

March 1 the Board will meet at their offices, Union Block, to consider the following applications for renewals of licenses.

Any petition or petition against any of said licenses, or any other business, may be presented to the Board at any time before the expiration of the term of the license.

St. Mark's Church Literary Society tender of the services of their parents and organization, the All Saints' Literary Society, and if this concert is a criterion of what Parkdale can do there ought to be no hesitation in the least.

The world-wide reputation of Ayer's Sarsaparilla is the natural result of its surpassing value in curing all forms of blood disease, and the whole pharmacopoeia offers more astonishing results in scrofula, rheumatism, general debility, and all forms of blood disease, than this remedy.

The Police Magistrate yesterday committed Robert Lewis for trial for being unlawfully in possession of a quantity of goods belonging to C. M. Taylor & Co., a quantity of goods belonging to C. M. Taylor & Co.

WONDERFUL RECORD.

Mutual Reserve Fund Life Association of New York.

Association of New York.

Association of New York.

EIGHTH ANNUAL MEETING.

NEW BUSINESS, \$8,400,000.

Forty-One Millions.

The Mutual Reserve Fund Life Association of New York has held its eighth annual meeting and reviewed its past year's business. Representatives and members of the association were present from England, France, Italy, Germany and Canada.

Each year for the past seven years it has been a pleasure and privilege to present to you your annual report and each year in succession has been a record of growth and progress.

The report was full of most gratifying facts. The applications received for admission to membership during the past year covered an amount of forty-one million dollars.

Assets. Total gross assets Dec. 31, 1938, \$7,742,291.37. Total gross assets Dec. 31, 1937, \$7,308,373.37.

Income. Total income in 1938 from all sources \$5,500,000.00. Total income in 1937 from all sources \$5,200,000.00.

Disbursements. Total cash disbursements for 1938, \$3,000,000.00. Total cash disbursements for 1937, \$2,800,000.00.

Expenses of Management. During the past year the actual cash expenses of management were \$1,000,000.00. During the past year the actual cash expenses of management were \$900,000.00.

Reserves. The surplus on December 31, 1938, after deducting every cash, technical, or intangible liability (including a liability of \$423,778.12) present value of all policies in force on Dec. 31, 1938, computed as renewable term insurance, was \$1,000,000.00.

STILL SELLING IN OUR BASEMENT, AT 50 CENTS ON THE DOLLAR.

N. B.—We would advise all to come and make their purchases in the forenoon so as to avoid the afternoon rush.

F. X. COMSNEAU & CO., 7 AND 9 KING-STREET EAST.

PHENIX-LIKE SEAFORTH.

A VIRTU TO THE BEST GRAIN MARKET IN THE COUNTY.

A Modern Western Town—Seaforth, Ont. A town of 2000 people. Assured—No Institutions and Business Men.

THE HISTORY OF SEAFORTH dates back to about 1861, and its commencement was signified by bitter contention between it, Harpurhey and Egmondville for superiority. The moving of the P. O. from Harpurhey to Seaforth gave a good advantage, and the people of Harpurhey going discouraged gave up the fight and moved almost in a body to the new town. A short time after the people of Egmondville passed through the same experience. The class of merchants who came to the new town were pushing and enterprising, and soon obtained for Seaforth the reputation of being the best grain market in the country. This reputation went far and near, and it was unusual thing to see the streets lined with teams from all points north as far as 60 miles. In 1867 it had 1050 inhabitants and was incorporated as a village. In 1874 it was incorporated as a town. In Sept., 1877, a disastrous fire broke out and destroyed the main business part of the town, where warehouses and other buildings were burned down. This was looked upon by the outside world as a crushing blow, but to the amazement of all a new town, not wooden this time, was erected on the same site as fast as the hands of mechanics could do it. Through the building of railways through the back country has cut off some of the grain trade. Seaforth will always be an important market. Surrounded by an agricultural country unsurpassed in the Province, where wheat and other cereals are raised in such abundance, it has an advantage which can never be taken away. This, and even its recent manufacture and the salt interest, with the advantage of cheap fuel and good shipping facilities, makes its future assured. It is very evident, too, that the citizens are energetic and enterprising and will do their utmost to insure every legitimate means to advance the interests of their town.

The citizens. The liberality displayed in the erection of such excellent buildings is the best indication of a high state of intellectual development. The collegiate institute is a massive two-story brick building, with basement, comprising 9 rooms all fitted up with the latest furnishings approved by the Educational Department, and the Simard system of heating and ventilating is employed. The teaching of practical chemistry is greatly facilitated by an abundantly supplied laboratory and a vast variety of valuable apparatus, including electrical machines, microscopes, and 1500 diameters, radiometer and other interesting and instructive machines. The music room is supplied with an excellent piano, and a commodious gymnasium convenient to the building, well equipped with bars, rings and general apparatus, affords every opportunity for muscular development. Indian clubs for the girls and wooden guns for the boys show that athletics and military drill are not neglected. The school was established in 1879 and in January, 1883, rose to the dignity of a Collegiate Institute. About 150 pupils are now in attendance and the institution stands very high. The following staff of 9 teachers are employed: O. Clarkson, B.A., headmaster; J. D. Dickson, B.A., mathematical master; A. J. Charles, B.A., classics, moderns, science. The Public School building is brick, and has 8 rooms and a playground. It is overcrowded, and two of the rooms are on the half day system. A primary school to relieve the pressure is projected, and will be built in the spring. L. L. McNeil is headmaster of the "Public School" Institute is better appreciated than in most towns, and the history of its growth is a most interesting story. For seven years ago its membership was 23; at present it is 417, probably the largest membership of any institute in the province. The library has 3500 and the circulation last year was 14,621 volumes. The reading room is a large, airy, and comfortable. Wm. Moore is librarian, and has done much to advance the interests of the institute.

The Huron Expositor and The Seaforth Sun occupy the field of journalism, and are both well conducted journals. The denominations owning the best churches are the Presbyterians, Methodists and Roman Catholics. All of these are commodious brick buildings of good architectural designs. There is another Presbyterian Church just outside the town limits. The Anglicans have a frame building with tower. The Town Hall and Opera House furnish accommodation for all entertainments. The lodge room of the A. F. & M. in Comsneau's block is said to be the best west of Toronto. In benevolent societies there is about the average representation.

BUSINESS HOUSES.
Brandsfoot & Box. The furniture factory of this firm is about the most important of the industries in Seaforth, and is a material factor in the prosperity of the town. It was established a good many years since, but was enlarged to its present dimensions four years ago. The factory throughout is a model for systematic and efficient manufacture. The stock of lumber is cut up it passes through the different departments until it appears as a finished article of furniture. The arrangement shows the same practical knowledge and high executive ability. The stock of lumber is cut up it passes through the different departments until it appears as a finished article of furniture. manufactured by Goldie & McCulloch for supplying hot air to the drying kilns. This enterprise first employed about 90 hands, pay out \$25,000 annually in wages and in the same time handle lumber from a million to a million and a half dollars worth. The main building is 80 x 85, three stories high, with an ornamental cresting. In the front on the ground floor are the office and store, and in the rear the finishing rooms where cloth goes through the various operations to make it ready for the market. The machinery throughout is of the latest and most improved kind, much of it automatic, and the work is done both economically and in a superior style. Among the latest machines introduced is a new Paragon Press, which is a wonderful improvement on those generally in use. There are 44 spindles, and in addition to the regular appliances for the manufacture of cloth, 2 1/2 sets of cards are retained for custom work. Four sizes of finishing machines are also kept in operation to supply their retail trade. The factory is heated with exhaust steam and with automatic sprinklers, connection with the waterworks tank on roof and fireproof rooms where danger is apprehended, the risk of fire is reduced to a minimum. The power is supplied by double boilers and a 60 horse power engine. Their agents for the only media imported from Canada from Antwerp, and 2 medals and 2 diplomas were obtained at the International exhibition, and 1883 obtained the Dominion medal for the best assortment of Canadian goods. 10 medals were awarded to them at the Toronto Industrial, 9 being silver. The mill has 12 looms, and is undoubtedly one of the best 2 set loom mills in the Dominion.

is the general manager of the billiard room in the Commercial House. There are two billiard and one pool tables, and the scientific position can be indulged in under the most comfortable surroundings.

W. J. Fear, L.D.S., has been practicing for seven years, and is known as a skilled operative dentist. His dental rooms are supplied with all the latest instruments. Anesthetics administered if desired, and teeth extracted without pain and every satisfaction guaranteed.

T. Waley is one of the best known men in the town, being a native of it, and does a good share of the business in his line. Groceries will be found fresh and well assorted; provisions, bread, fresh and salt meat, flour and feed, and mostly everything required for table use are kept on hand. In addition to these there is a crockery department, with a varied stock suited to all wants, and sold at very close prices.

R. Scott transacts a large and comprehensive business as a dealer in seeds of all kinds; clover, timothy, garden seeds, etc. He also does a big trade in flour and feed, and land fertilizers.

W. Hawshaw, proprietor, is a hotel of 30 rooms, brick, and fitted and furnished equal to anything in the town. The proprietor makes a popular host and gets a fair share of the business.

George B. Scott, barber, is located opposite the Commercial Hotel. He is a first-class workman and has a large circle of customers. Tools always in excellent order, and everything tidy and attractive.

Commercial House. Butler & Robb, proprietors, is conveniently situated in the centre of the town, is one of the leading commercial hotels in the place, and gets a liberal share of patronage. There are 40 rooms, all well furnished, and everything in the best order. The proprietor does everything in the way of cooking and attention to make it pleasant for their guests.

Dr. H. Goodrich Mackie is one of the resident physicians, and before locating here resided in London for four years. He is a graduate of Toronto University, licentiate of R.C.P.S., Edinburgh, and had a large experience in the hospitals in Germany, Austria and other European countries.

anyone in the way of doing the grand Euro-Asian tour.

J. Dorsey has a two-story white brick shop, and manufactures carriages, buggies, cutters, and does general blacksmithing. He is a practical man, keeps efficient workmen and does a large business.

Seaforth Hardware Works. D. Grant, proprietor, are opposite Hawshaw's hotel, and form an important industry in this special line. Monuments, headstones, table tops, mantel pieces and other articles are turned out, and are characterized by workmanship of a high order. The reasonable prices will commend themselves to all requiring anything in the line.

H. H. Coates Among the industrial enterprises watchmaking and jewelry takes a high place. A glance at an establishment like this deepens the respect very materially. The store itself has probably not an equal west of Toronto. It has two entrances, plate glass and nickel front, and inside the fittings and furnishings are of the most superb kind. The stock of watches, chains, jewelry, silverware and fancy goods is such that no one need go away without being satisfied. Repairing is carefully attended to and satisfaction guaranteed.

A. D. Young, watchmaker and jeweler, has a splendid reputation as a practical workman, and one qualified to put in order the most intricate movement. He keeps a large stock of watches and general jewelry, and handles a great many Columbus watches, watches in solid gold cases, Rose and Keystone cases and in every variety. Parties in quest of a tickler should call here.

C. H. Whittington has been before the public 21 years, and is a manufacturer and dealer in stoves, tin, copper and ironware, cutlery, lamps and nickel goods. Coal oil lamps in large quantity and sold both wholesale and retail. Agent for the Cleary manufacturing company of London. In this house will be found a large and varied stock, all of which is sold at reasonable prices.

Goville's Mills. These mills belong to Messrs. A. W. Ogilvie & Co. of Montreal, being one of the fine groups of mills which they own and operate in the Dominion. They are located, respectively in Montreal, Winnipeg, Goderich and Seaforth. They are all under the practical supervision of Mr. McCoy Clark, who makes an annual tour among them and through other large milling centres in Canada and the States to keep them up with the times. Mr. T. O. Kemp, is the business manager here, and also sells for the Goderich and Winnipeg mills in Ontario. This mill is situated on the line of the G.T.R., and conveniently constructed for handling grain from farmers' wagons or cars and for shipping. It is a substantial brick building 40x46 ft., and 10 feet high. The engine room is brick, 38x38 ft. and 18 ft. high. At the west end is a storehouse 40x50 ft., 46 ft. high, with a capacity of 25,000 bushels. The mill is neatly arranged, compact, furnished with the latest improvements in machinery and has a capacity of 300 bbls. per day. Improvements this firm present abroad of the times are at present adopting some of the more recent. The mill is driven by a Brown Automatic out-off engine of 120 horse power, which is known as at present adopting some of the more recent. The mill is driven by a Brown Automatic out-off engine of 120 horse power, which is known as at present adopting some of the more recent. The mill is driven by a Brown Automatic out-off engine of 120 horse power, which is known as at present adopting some of the more recent.

WATERWORKS AND ELECTRIC LIGHT. The Council and citizens have shown commendable enterprise in the construction of an efficient system of waterworks. The plant consists of 2 engines of 25 horse power each, and boilers to correspond. The water is pumped direct through the pipes for fire purposes, and as steam is constantly kept up water can be thrown at any point in the town at a few moments' notice. The capacity is 7,500 gals. an hour. There are 14 hydrants on the streets and the railway tank is kept supplied, for which the corporation receive \$350 per annum. So far the works have cost about \$200. Negotiations are now going on for the production of the electric lights, to be run with the same power.

EXCITING CASES INSTITUTIONS. The educational institutions are of a very high order and reduce the highest credits on

the citizens. The liberality displayed in the erection of such excellent buildings is the best indication of a high state of intellectual development. The collegiate institute is a massive two-story brick building, with basement, comprising 9 rooms all fitted up with the latest furnishings approved by the Educational Department, and the Simard system of heating and ventilating is employed. The teaching of practical chemistry is greatly facilitated by an abundantly supplied laboratory and a vast variety of valuable apparatus, including electrical machines, microscopes, and 1500 diameters, radiometer and other interesting and instructive machines. The music room is supplied with an excellent piano, and a commodious gymnasium convenient to the building, well equipped with bars, rings and general apparatus, affords every opportunity for muscular development. Indian clubs for the girls and wooden guns for the boys show that athletics and military drill are not neglected. The school was established in 1879 and in January, 1883, rose to the dignity of a Collegiate Institute. About 150 pupils are now in attendance and the institution stands very high. The following staff of 9 teachers are employed: O. Clarkson, B.A., headmaster; J. D. Dickson, B.A., mathematical master; A. J. Charles, B.A., classics, moderns, science. The Public School building is brick, and has 8 rooms and a playground. It is overcrowded, and two of the rooms are on the half day system. A primary school to relieve the pressure is projected, and will be built in the spring. L. L. McNeil is headmaster of the "Public School" Institute is better appreciated than in most towns, and the history of its growth is a most interesting story. For seven years ago its membership was 23; at present it is 417, probably the largest membership of any institute in the province. The library has 3500 and the circulation last year was 14,621 volumes. The reading room is a large, airy, and comfortable. Wm. Moore is librarian, and has done much to advance the interests of the institute.

manufactured by Goldie & McCulloch for supplying hot air to the drying kilns. This enterprise first employed about 90 hands, pay out \$25,000 annually in wages and in the same time handle lumber from a million to a million and a half dollars worth. The main building is 80 x 85, three stories high, with an ornamental cresting. In the front on the ground floor are the office and store, and in the rear the finishing rooms where cloth goes through the various operations to make it ready for the market. The machinery throughout is of the latest and most improved kind, much of it automatic, and the work is done both economically and in a superior style. Among the latest machines introduced is a new Paragon Press, which is a wonderful improvement on those generally in use. There are 44 spindles, and in addition to the regular appliances for the manufacture of cloth, 2 1/2 sets of cards are retained for custom work. Four sizes of finishing machines are also kept in operation to supply their retail trade. The factory is heated with exhaust steam and with automatic sprinklers, connection with the waterworks tank on roof and fireproof rooms where danger is apprehended, the risk of fire is reduced to a minimum. The power is supplied by double boilers and a 60 horse power engine. Their agents for the only media imported from Canada from Antwerp, and 2 medals and 2 diplomas were obtained at the International exhibition, and 1883 obtained the Dominion medal for the best assortment of Canadian goods. 10 medals were awarded to them at the Toronto Industrial, 9 being silver. The mill has 12 looms, and is undoubtedly one of the best 2 set loom mills in the Dominion.

is the general manager of the billiard room in the Commercial House. There are two billiard and one pool tables, and the scientific position can be indulged in under the most comfortable surroundings.

W. J. Fear, L.D.S., has been practicing for seven years, and is known as a skilled operative dentist. His dental rooms are supplied with all the latest instruments. Anesthetics administered if desired, and teeth extracted without pain and every satisfaction guaranteed.

T. Waley is one of the best known men in the town, being a native of it, and does a good share of the business in his line. Groceries will be found fresh and well assorted; provisions, bread, fresh and salt meat, flour and feed, and mostly everything required for table use are kept on hand. In addition to these there is a crockery department, with a varied stock suited to all wants, and sold at very close prices.

R. Scott transacts a large and comprehensive business as a dealer in seeds of all kinds; clover, timothy, garden seeds, etc. He also does a big trade in flour and feed, and land fertilizers.

W. Hawshaw, proprietor, is a hotel of 30 rooms, brick, and fitted and furnished equal to anything in the town. The proprietor makes a popular host and gets a fair share of the business.

George B. Scott, barber, is located opposite the Commercial Hotel. He is a first-class workman and has a large circle of customers. Tools always in excellent order, and everything tidy and attractive.

Commercial House. Butler & Robb, proprietors, is conveniently situated in the centre of the town, is one of the leading commercial hotels in the place, and gets a liberal share of patronage. There are 40 rooms, all well furnished, and everything in the best order. The proprietor does everything in the way of cooking and attention to make it pleasant for their guests.

Dr. H. Goodrich Mackie is one of the resident physicians, and before locating here resided in London for four years. He is a graduate of Toronto University, licentiate of R.C.P.S., Edinburgh, and had a large experience in the hospitals in Germany, Austria and other European countries.

anyone in the way of doing the grand Euro-Asian tour.

J. Dorsey has a two-story white brick shop, and manufactures carriages, buggies, cutters, and does general blacksmithing. He is a practical man, keeps efficient workmen and does a large business.

Seaforth Hardware Works. D. Grant, proprietor, are opposite Hawshaw's hotel, and form an important industry in this special line. Monuments, headstones, table tops, mantel pieces and other articles are turned out, and are characterized by workmanship of a high order. The reasonable prices will commend themselves to all requiring anything in the line.

H. H. Coates Among the industrial enterprises watchmaking and jewelry takes a high place. A glance at an establishment like this deepens the respect very materially. The store itself has probably not an equal west of Toronto. It has two entrances, plate glass and nickel front, and inside the fittings and furnishings are of the most superb kind. The stock of watches, chains, jewelry, silverware and fancy goods is such that no one need go away without being satisfied. Repairing is carefully attended to and satisfaction guaranteed.

A. D. Young, watchmaker and jeweler, has a splendid reputation as a practical workman, and one qualified to put in order the most intricate movement. He keeps a large stock of watches and general jewelry, and handles a great many Columbus watches, watches in solid gold cases, Rose and Keystone cases and in every variety. Parties in quest of a tickler should call here.

C. H. Whittington has been before the public 21 years, and is a manufacturer and dealer in stoves, tin, copper and ironware, cutlery, lamps and nickel goods. Coal oil lamps in large quantity and sold both wholesale and retail. Agent for the Cleary manufacturing company of London. In this house will be found a large and varied stock, all of which is sold at reasonable prices.

Goville's Mills. These mills belong to Messrs. A. W. Ogilvie & Co. of Montreal, being one of the fine groups of mills which they own and operate in the Dominion. They are located, respectively in Montreal, Winnipeg, Goderich and Seaforth. They are all under the practical supervision of Mr. McCoy Clark, who makes an annual tour among them and through other large milling centres in Canada and the States to keep them up with the times. Mr. T. O. Kemp, is the business manager here, and also sells for the Goderich and Winnipeg mills in Ontario. This mill is situated on the line of the G.T.R., and conveniently constructed for handling grain from farmers' wagons or cars and for shipping. It is a substantial brick building 40x46 ft., and 10 feet high. The engine room is brick, 38x38 ft. and 18 ft. high. At the west end is a storehouse 40x50 ft., 46 ft. high, with a capacity of 25,000 bushels. The mill is neatly arranged, compact, furnished with the latest improvements in machinery and has a capacity of 300 bbls. per day. Improvements this firm present abroad of the times are at present adopting some of the more recent. The mill is driven by a Brown Automatic out-off engine of 120 horse power, which is known as at present adopting some of the more recent. GAGEN & FRASER,

Photographers,
79 KING-STREET WEST, TORONTO.

Well, Miss B., you have got a picture at last that does you justice. You happened to see some photos the other day of a lady Studio in Yonge-street and they were so excellent I just thought I'd try my luck and I got the best photo ever had in my life, and I'm treated well in the bargain.

THE REASON WHY

DIXON THE PHOTOGRAPHER

Gets such round clear effects is that he thoroughly understands the artistic lighting under the soft light and the fine shading effect he gets in developing is the secret of success. See his large work at the

OFFICE OF THE PUBLIC ANALYST,
MONTREAL, September 29th, 1897.
To the Canada Sugar Refining Co., Montreal:
Gentlemen, - I have personally taken samples from a large stock of your Granulated Sugar "REDPATH" brand, and carefully tested these by the Polaroscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining, and that the Polaroscope showed a water yield of 99.80 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

LADIES INTERESTED

In the securing of their Spring wants should place their commands for TAILORING, COSTUMES, WRAPS OR HABITS, To-day if possible. Our modistes have been for weeks in the metropolitan fashion centers securing the coming innovations. Already many advance orders are booked; large consignments of our Spring Goods are to hand and the bargains always offering at this time of the year, together with the extra attention in fitting and designing that can hardly be looked for in the rush of the season, makes the special reduction in making charges for this month an opportunity that all desiring perfect satisfaction at a cost that cannot possibly be equalled for cheapness even in another month, should take advantage of to-day. Designs, samples and estimates sent everywhere on application. NOLAN & HICKSON.

Doherty Organ Has no Equal

has again been demonstrated, this time by the Society of Science, Literature and Arts of London, Eng., who on April 10th of this year, after a thorough examination, made the following award.

REPORT ACCOMPANYING THE MEDAL.

Excess of praise is hardly possible when speaking of this new and superbly beautiful design, which is intended to meet the demand for a more expensive exterior or cabinet, together with a most superb action. This organ is of most substantial and pleasing proportions, and of a style of finish suitable for any situation. In pleasing balance of proportions, practical utility of form, richness of ornamentation and delicacy of finish, this instrument will not only compare favorably with the best but surpass all organs of any make; while for strength and purity of tone, variety of expression and freedom of action it is far in advance of anything yet produced.

SIR HENRY V. GOULD, Hon. Pres. Society of Science, Letters and Art, London, Eng.
REV. IRWIN COATES, M.A., Hon. Sec.

This certainly shows that the Musical Bachelors and Doctors of Oxford and Cambridge Universities know something about an organ.

ISSUES ALL APPROVED FORMS OF LIFE POLICIES AND ANNUITIES.
Its Policy enables you to leave an estate that cannot be taken from those you love by any circumstances. It will secure your wife freedom from those distressing experiences which come to the destitute. It secures means to continue the education of your children and maintains an unbroken home for them should you be cut off before they are able to care for themselves. It meets the demands that come in the process of forced liquidation of an estate by creditors.

ITS ANNUITY BOND WILL PROVIDE A COMFORTABLE LIVING FOR YOUR OLD AGE.

"Much of the unequalled success of the NORTH AMERICAN LIFE as a Home Institution is to be attributed to its very liberal and varied forms of Insurance, combined with its liberal principles and practices, and especially to its prompt payment of all just and approved claims, upon maturity and completion of proof, a practice introduced here by the Company, which has continued to afford the representatives of deceased Policy-Holders the greatest satisfaction." - SHAREHOLDER.
