Bernard Lindman, Esq., Toronto.

Dear Sir,—It is now about three months ago since I first ntoiticed that a cure of my rupture was being effected by the use of one of your Wilkinson Trusses, and now I am fully convinced that the cure is both complete and effectual. I have on several occasions within the last few weeks taken long walks without truss of support of any kind, and have every confidence that my rupture, which, as you are aware, was of a very severe description, is now permanently healed, and I can assure you that I feel deeply thankful for the beneficial results. I have already recommended your appliances to several of my friends similarly affected.

New York, July 19—Final preparations have been made for the races between the new defender and the Vigilant tomorrow and Monday.

A special \$200 cup has been offered for the races by New York Yacht Club. The races will have nothing to do with the decision as to which of the two yachts shall be selected to meet Valkyrie III., but it will give a pretty good idea as to which will win in the trial races to be sailed about the middle of August.

The race to-morrow and Monday will be over the same course, off Sandy Hook, that the last cup race was sailed, and which will also be the course for the cup races this year.

Early Closing!

-Saturdays we close at I o'clock. -Other days we close at 5 o'clock.

We can't emphasize that fact too strongly. People keep coming after the doors are closed and saying they "didn't know." That's what this store news is for-to tell you things you should know, interests of salespeople and TO-DAY WE CLOSE Early closing is solely in the sensible people endorse it as a move in the right direction.

Closing at 5 o'clock instead of 6 has been tried for a week and proved eminently successful. If we can afford the change you can, and we anticipate the heartiest possible co-operation on the part of shoppers. It's as plain as the nose on your face that salespeople will work better than ever, which means the store will be better than ever, and that you will reap the benefit in a thousand different

Praotical.

No more trouble than an ordinary tap; is durable; not liable to get out of repair. Do not drink germs. Buy a Filter which cleans the water. Cleans itself each time it is used. Throws out the germs of disease, and preserves the health of the body.

In all Filters in which the water runs downwards, worms, decayed parts of fish, germs, etc., are caught on the screen, where they lie till their soluble parts are washed out of them, into your drinking water. In the Selman Filter the water runs upwards, and the refuse is instantaneously removed from the screen, by the revolving brush, and discharged below, every time the water is turned off. Responsible parties can have it placed on trial, free of expense, by sending us a post card. No trouble to attach. It is easily screwed on water tap.

an electric system, and they have applied to the town council for a franchise. Some time ago the new company, through its solicitor, offered a bylaw to the council for adoption which nearly took the breath away from the town fathers. Through its bylaw the company asked for everything in sight, and if it neglected to ask for the whole town in fee simple, it was probably an oversight. The council promptly rejected it, and the new bylaw practically confines the company to the streets at present occupied by the horse car tracks, and expressly provides against it having a monopoly of the streets. In the meantime Mr. William Kyle of Toronto is pushing a Kyle of Toronto is pushing a project for an International Belt Line Electric Railway. Mr. Kyle is backed by such capitalists as la E Schoelkoff, H. Nielson and J. M. Brinker of Niagara Falls, so that the sinews of war are assured him, while the councils of Drummondville and Niagara Falls have passed resolutions urging the Ontario Government to grant a charter

Ontario Government to grant a charter to his company.

Last Thursday witnessed the opening of the new Niagara Falls and Lewiston Railway, or the Gorge Railway, as it is more likely to be called. This road had its inception in the brain of Capt. J. M. Brinker, and is a most ambitious undertaking. It will run, when completed, from Lewiston to the Falls on the American side, down close to the foot of the piecipice. Although the last mile or so of the roadbed has not been completed, Capt. Brinker's company determined to open the road from Lewiston up to Buttary's Elevator, opposite the Whirlpool Rapids. Some six carloads of people were present by invitation to participate in the ceremony. The new road is par excellence the scenic one. On the opening train were men who had been born and train were men who had been born and had grown grey in the vicinity of the

Genuine Island Improvement. Editor World: This is the way the citizens' money goes: The Parks and Gardens Committee must expect a second deluge shortly, in building such a high iron bridge on the Island. If the flood should come, it will cover the whole Island and leave the bridge like Noah's Ark on Mount Ararat Whether is the Ark on Mount Ararat. Whether is the bridge built for a monument for the Mayor or the Chairman of the Parks and Gardens Committee?

They had better devote their time now

to drafting new rules for the renewal of leases, such as no fences and outhouses permitted on the Island. By this means perhaps the whole Island could be improved by both nature and art, and not make it a money-making affair for sports only.

A Canadian Product. For centuries East Kent has been famed for the excellence of its ale, and it is not unnatural that we should look for unusually good qualities in a brand of ale bearing the name, "East Kent."

Analysts declare "East Kent" ale perfectly pure and of highly desirable appetizing and strength-giving qualities, Physicians throughout the province recognize its valuable qualities and prescribe it in cases of weakness and proscribe it in cases of weakness and prostration, while connoisseurs unite in de-claring it the best brand obtainable in

Mr. Moore states that the annual bill on his meter is from \$120 to \$130. Formerly he had a system of apportioning the sum he paid to the city according to the dimensions of the houses served, but so many disputes arose that Messrs. Firstbrook and McElroy asked to be charged according to the city's rates for a regular water service,

Mr. Moore also says that one or two of the residents are far in arrears to him, and he has had to pay out money for water which they used. Therefore, he resolved on the method of shutting off the water. The charge that he turns off the water at 10 p.m. and on at 6 a.m. he answers by stating that the city pumping engines cease between those hours, and at the high level of Moore Park the service necessarily stops. Furthermore, Mr. Moore states that the residents on the estate have baths and all modern conveniences in constant use.

Mr. Moore says he is quite willing to make the city a present of the mains he laid down if it will consent to serve the residents and deal with them directly. Niagara Falls.

Niagara Falls, July 19.—Niagara Falls, on both sides of the river, is enjoying quite a railway building boom just now. The Lehigh Valley Railway has determined to have an independent road of its own, and the people are talking of the C.P.R. getting an entrance to the Falls. The boom is mainly in electric railways. A company, of which Mr. Alexander Manning is president, obtained a charter, which empowers them to acquire the property and rights of the old horse car line. The new company have power under their charter to convert the old line into an electric system, and they have applied to the town council for a franchise.

THE INTENSE HEAT CAUSES HEART FAILURE.

Act Wisely By Keeping Dr. Agnew's Cure for the Heart Always Near By.

The beauty of Dr. Agnew's Cure for the Heart is that it gives relief immediately. The testimony of thousands who have used this remedy is that where even death used this remedy is that where even death was feared, within half an hour after using the medicine the danger had pass-ed away, and it was only a short time before the natural composure of the pa-tient returned. The great risk with many who are troubled with heart disease is that they triffe with the disease, either that they trifle with the disease, either mean the nationalization of the land. In the East Indies the native women wear bloomers and the men wear no pants. If Mr. Bell were an Indian he would be shocked at the immodesty of women wearing long, loose dresses.

Dress should be for the proper protection of the body, giving every muscle perfect freedom of action, either in walking, working or riding a bicycle. Woman's dress at present does not comply with any of these conditions, and a great many diseases are directly due to her present mode of dress. Prices early were weakened by talk of gold shipments. They were rallied by estimates of a good-sized decrease in the visible Monday, 1,500,000 bushels, against an increase last year of 600,000 bushels. The whole range was within Ic. Cables steady. Heavy rains in the Northwest were variously taken. Early there was some selling on them. Finally complaints from the Northwest of wheat being laid and there being too much rain in the west for harvesting had about as much effect in rallying the price as the other sort of talk early had in breaking it. There was a moderate cash demand, Prices early were weakened by talk effect in rallying the price as the other sort of talk early had in breaking it. There was a moderate cash demand, chiefly to millers, somewhere between 100,000 and 200,000 bushels primary receipts, were not much over one-third of last year's 310,000, against over 800,000 bushels. While the winter wheat movement is so small, the northwestern is also very light. Seaboard clearances were small, not much over 100,000 bushels in all. Corn—The rains caused a lot of sell, ing of corn. Prices broke about a cent and closed with only a partial rally. September sold between 44 and 43 3-8c, and closed 43 7-8c. There was a large cash demand everywhere, about 300,000 bushels for export at the seaboard, but country offerings were also increased. Many persons assumed that the rain put the corn crop out of further peril, except from cold weather. Receipts were 182 cars. The estimate for Saturday 225. Cash to-day sold at 1-4 cent over September in some iustances. New corn to arrive in New York in January was sold on a basis of about 32 cents, Chicago 41 1-2c f.o.b., New York. Provision were a shade higher, with a moderate amount of business, which was chiefly local. The bear party sold pork rather freely, with scalping traders the best freely, with scalping traders the best much as yesterday.
