NO. 42

20TH. CENTURY FOR CANADA

**Water Power to Be the Motive Power of the Future—
Water Wheels to Make Electricity to Run the
Railways of the Continent.**

The United States is a big country, which does big things, and 'Americans' can be forgiven for boasting 'a little sometimes.' In the matter of railways, for instance, the mileage of the United States is now nearly half that of all the world, and it exceeds that of all Europe by more than fifty thousand miles. At least, the New York 'World' declares that it does. And there is no sign of waning, as last year four thousand two hundred miles of new railway were completed—compared with 629 miles in Canada—and it is claimed that in the last ten years the United States built more miles of railway than any other country possesses. The matter of building a new railway in the United States is now so much a matter of course as almost to escape popular notice, and she has now seven continental 'roads', while many parts of the country are gridironed with railways. All this presages what Canada will be presently in this respect. We are now receiving a great immigration, which it may be expected will increase in arithmetical not geometrical progression, and as in so many other things, so in railways, the twentieth century will be Canada's. We are only at the beginning of railway building

though we have probably already more mileage to our population than any other country. But the railways even of the near future may not be steam rail ways. Indeed, Thomas Edison, the great inventor, declares that the steam locomotive is blowing its last blast for millions of people. He predicts that 'the next generation of New Yorkers and New Englanders will first hear at school of steam locomotives, and never will see them unless they go to some state that has neither much water power nor much population. Water-wheels will make electricity to run all the railways that traverse regions in which there is abundant water power. Whole systems like the Great Northern will be thus operated. In densely populated states, electric locomotives will displace steam, regardless of whether water-power is available. The 'New York Central will be electrified from end to end. Nor will there be in all New England, or New York, a railway operated by steam.' Such is the opinion generally is on his side. With Canada's illimitable water powers, she may be expected to lead the way in the substitution of electric for steam traction.—Montreal Witness.

Memorial Service

(Rev. John Reeks, Rector of the parish of Rosette, sent Church Work the following communication which we publish by request:—)
A memorial service was held on Sunday Dec. 18th in St. Paul's Church, Rosette, for the late W. Robb Tupper of Round Hill who was drowned in the Bay of Fundy on the 26th of November. The circumstances of his death were especially sad as he had only been married ten days before to a daughter of the late John Syda of Digby and was returning with his wife from a trip to Montreal and Ottawa when he was washed overboard by a wave that swept the deck. The church was filled with all denominations showing the high esteem in which the deceased was held. The rector, Rev. J. Reeks took his text from Revelations VII, 14, and preached on the subject of the intermediate state, a subject full of comfort to the mourners. The deceased was a young man of estimable character, a faithful and most loyal son of the Church, a regular communicant and an earnest church worker. His influence and ready help will be greatly missed in this parish of which he was churchwarden at the time of his death.

Valuable Pullets

To the Editor of The Times.
Yarmouth, N. S.
Dear Sir,—It may be of interest to some of your readers, as laying records are the order of the day, to know what a pen of pure-bred, white Wyandotte pullets did for me in the year 1910. These pullets began laying, January 1st, 1910, and in the year, ending Dec. 31st, 1910, laid an average of 229 eggs each. At 35 cents per dozen, these eggs would bring \$8.41 per hen. Two years ago, a pen of our B. P. Rocks averaged 218 eggs each, which we considered a very high record. Up to this year, our B. P. Rocks have led, as heavy egg producers, but must now take place, as close second to the White Wyandottes.
Yours truly,
L. R. GUILD.
Rockwood, Ont., Jan. 14, 1911.
Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, or torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

Fire Alarm System

The re-organization of the Fire Company is complete and during the past week placards have been posted in each of the firemen's houses giving the code of alarms according to districts so that there will be now no confusion arising from indecision as to locality.
The alarms which Mr. F. E. Bath has been busy revising and installing during the past week are stationed in the homes of the following named firemen:
District I Henry Hicks
Francis Graves
Allen Crowe
District II Joseph MacLean
Harry Eagan
District III C. B. Longmire
K. Freeman
District IV Russell Lloyd
J. Harry Hicks
District V Percy Burns
F. E. Bath
Wm. Eaton
Jas. Goldenith
District VI E. A. Hicks
J. K. Craig
M. McLeod
District VII Gordon Goldsmith
A test alarm will be rung in by the Captain, Murdoch McLeod every Sunday at 10 a. m.

When a general alarm is necessary it will be rung by the firemen from the Engine House.
Citizens in general express satisfaction at the re-organization of the fire company and rest more securely in the knowledge that if the fire-fied should visit our town we are prepared to do battle.

One other thing remains for our citizens to do and that is to watch, each his own premises, for leaks, lest the reservoir be found exhausted in time of need. There is a bountiful supply of water if not needlessly wasted, but if a large number of taps are left running every cold night to avoid the trouble of turning the water off the reservoir will be considerably depleted in consequence. It is stated that Middleton's water pressure was unaccountably low on the night of the fire. It is not possible that the pressure referred to may have been the cause of the depletion! Has the pressure on our system been tested lately? Let us not be taken unawares.

**DAVID GRAHAM PHILLIPS RID-
DLED WITH BULLETS BY
HARVARD MAN.**
New York, Jan. 23.—David Graham Phillips, editor, publicist and novelist, was shot six times today as he approached the Princeton Club, by F. Coyle Goldsborough, a Harvard man who immediately afterwards committed suicide. The body of Goldsborough, whose career at Harvard was brief, lies in the morgue. Apparently insane, he had a fancied grudge against the author and sought his life. He was only 31 years old, and is a son of Dr. Edmund Phillips was 43. He only lived a few hours.

IN APPRECIATION.

At the annual meeting of the Lawrencetown Baptist church the following resolution was unanimously passed by the large number present rising to their feet:—
Resolved that we, the members of the Lawrencetown Baptist church now in session desire to express to our pastor, Rev. H. G. Mellick and his wife our hearty appreciation of their faithful services during the past year. It is our prayer that they may be spared many years of health and strength to carry on their work. We assure them of our hearty cooperation in all their labours. All branches of the church's work are prospering.—COM.

Canticook, P. Q.
July 3rd, 1909.

Capt. Burns, representing Empire Liniment, gave me a bottle last year and I used it myself for lumbago and also used it for distemper among my horses and find it does its work quickly and thoroughly and do not hesitate to recommend it.

P. GOOLEY,

Annapolis Valley Medical Society Meets at Bridgetown

The midwinter meeting of the Valley Medical Society was held at Bridgetown yesterday (Tuesday) afternoon and evening. The following medical men were present:—
Dr. P. N. Balcom, Aylesford.
Drs. March and McKeown, Berwick
Drs. Moore, Miller and Woodworth, Kentville.
Dr. Morse, Port Williams
Dr. A. W. DeWitt, Wolfville.
Dr. John Stewart, Halifax.
Drs. Miller, Sponagle, and A. P. Reid, Middleton.
Dr. L. R. Morse, Lawrencetown.
Drs. DeBlois, Armstrong, Lechman, Bridgetown.
Dr. Robinson, Annapolis.
Dr. McDonald, Meteghan.
Dr. Stewart of Halifax was the special guest of the Society and gave a paper on Acute Bone Disease. Other papers read and discussed were one by the president, Dr. Bloom, on 'The Relation of the Profession to the Public,' a paper by Dr. Dewitt on notes on his recent visit to the German and Switzerland Hospitals and one by Dr. Armstrong on Infantile Paralysis.

The evening session was fully taken up with discussion on Government and Municipal care of Tuberculosis and matters relating to the new management by commission of the Victoria General Hospital. Important resolutions regarding both of these were presented and adopted approving of the broadened scope and improved methods of these humane institutions of the Province.

Hon. Mr. Daniels was present at the evening meeting and addressed the Society as the representative of the Government. The session broke up about midnight.

At 7 p. m. the annual dinner was served by Mr. Patrick at the Grand Central Hotel and all spoke very highly of 'mine hosts' splendid service at this important part of the program.

DUKE OF CONNAUGHT

COMING TO CANADA.

Ottawa, Jan. 29.—His Royal Highness the Duke of Connaught, the only surviving son of Victoria the Good, brother of Edward the Peacemaker, and uncle of His Majesty, King George, will in September next be Governor General of Canada, in succession to Lord Grey. Official notification to that effect has been received by the Government.
The appointment of His Royal Highness is for two years, but it may be extended at that time be further extended. The Duke and Duchess with their suite will take up their residence at Rideau Hall in September.

When her child is in danger of a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from croup. Give Chamberlain's Cough Remedy and all danger is avoided. For sale by all dealers.

Organ Recital

A rare treat is in store for the people of this vicinity on Wednesday evening, February 8th, when Professor A. Roy Williams, of Yarmouth, will give an organ recital in the Bridgetown Methodist church. Our advertising columns announce the details of the concert. Professor Williams will be supported by the choir of the church augmented by leading members of other choirs and by popular readers. The choruses, which are under special preparation, will include the most modern anthems and glees as well as one selection from 'Ye Olden Time Music'—Professor Lowell Mason's 'Jerusalem My Glorious Home'. With a chorus of twenty voices, well balanced in every part, as well as solo and reading selections, Professor Williams' concert promises to be one of special pleasure and enjoyment. It has been arranged that the concert will begin at 7.30 o'clock in order to give the attendant public an extensive and varied program. The church bell will ring for ten minutes beginning at 7.00 o'clock, and also at 7.25 for five minutes.

Fancy Dress Carnival

The second Fancy Dress Carnival of the season took place on Wednesday evening last. There was not a large number present as it followed so soon after the first Carnival but all who attended found it most enjoyable.

The principal feature was the speed contest for the championship of Bridgetown in which Harlan Phinney, Eugene Pool and F. B. Beckwith took part. The race was won by Mr. Beckwith, in 5 minutes and 5 seconds, to whom the medal was awarded. Elton Burns challenged the winner to a match race on Friday. Accepting the challenge Mr. Beckwith again won, in 3 minutes and 41 seconds.

Another feature of the Carnival was a race between Mr. Percy Burns and Mr. Wright of St. John which was won by the latter, by only a trifle, however, Mr. Burns following him closely but unable to get the inside track.

The prize for the prettiest lady's costume, a nice mantel clock was given to Miss Jessie Vroom, as Climbing Rose. Phil Burns, as Teddy Bear, won the gentlemen's prize, a gun-metal soap box. The next carnival will be a Children's Carnival, which many children are looking forward to as an event of great interest.

Tragic Drowning

of Halifax Youth

Left Woman Companion Behind While He Investigated Suspicious-Looking Ice, and He Skated to His Doom.

Halifax, Jan. 23.—While skaters were gliding over the Dartmouth lake tonight, a tragic drowning took place in which Fred Kent, a young athlete, lost his life.

Kent, who was nineteen years of age, with friends started to skate to the young men's camp at the head of the second lake. In company with Mrs. Gordon, Kent started out ahead and when half way up to the camp they noticed the ice looked dark ahead. The young man parted company with Mrs. Gordon, requesting her to remain on the thick ice, while he went ahead, and made sure that the other was safe. He had only made a few strokes when the ice gave way and he went through. His companion fainted and when she summoned help it was too late for any hope of recovering the young man. His body was recovered later.

SANG AT HIS OWN FUNERAL

We hear now and then of a man reading his own obituary in the papers, but it is a rare thing for a dead man to sing at his own funeral. Pietro Fico, a shoemaker and amateur musician, had a very great fondness for the phonograph. He purchased a good many records and, occasionally sang into his own phonograph and kept records of the songs. He was taken seriously ill. He realized that he could not recover, and being a poor man and unable to get up much of a funeral he requested that they use his phonograph to furnish the music for the funeral services.

He picked out the 'Angel's Serenade' and Gounod's 'Ave Maria,' sung by himself, and these were used, and thus the dead man took an important part at his own funeral service. He instructed that his phonograph and 72 records, a number of them his own, should be sent to his mother in Italy.

You are probably aware that pneumonia always results from a cold, but you never heard of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle? For sale by all dealers.

Instead of trying to suppress the natural tendencies of the child, direct them into the proper channels. Build up the habit of observation and investigation.

DESTRUCTIVE FIRE AT MIDDLETON

**Business Section Destroyed by Fire.—Loss of Property Over
One Hundred Thousand Dollars.—Insurance Only
About One Half.**

(The Outlook)

A disastrous fire broke out this morning which before it was subdued swept out the business portion of Middleton. It was discovered between three and four o'clock in Bentley's Block having probably started from the furnace.

Perley Marshall, and G. F. Fisher were among the first at the scene. They found the building in flames. In a few minutes the Parsons-Elliott block was on fire also.

The firemen responded promptly and worked heroically. Their efforts were directed to confine the fire to the east side of Commercial St. The explosion of gas lighting plants and hundreds of cartridges in the Parsons-Elliott store made their work doubly difficult.

Before the blaze was under control it swept out Bentley's Block, the Parsons-Elliott Co's Block, Feindel's Block, Morrison's Block, L. S. Shaffer's Block, F. R. Butcher's Block, the Royal Bank building, J. H. Potter's warehouse and stable.

A. J. Morrison's house was saved by the most heroic work of the firemen and others assisting. J. H. Potter's was in almost as great danger, but was saved as was the Central House, Mrs. J. L. Sponagle's house and the Canadian Bank of Commerce building.

The losses are so far as we could obtain them as follows:—
J. H. Potter, pianos and organs, warehouse and stable. Loss \$1000, contents \$500; insurance \$300.
M. P. Marshall, stock of boots and shoes in Morrison's Block. Loss \$6500; insurance \$4000.
Dr. W. F. Read, stock drugs, etc., in Morrison's Block, Loss \$5000; insurance \$1500 to \$2000.

E. V. Thomas, barber in Morrison's Block. Saved most of effects. Loss \$900; probably covered by insurance.
R. T. Saunders, Jeweller in Morrison's Block. Loss \$2000; insurance \$400.
R. Palmer, blacksmith in Feindel's Block. Loss \$500; no insurance.
L. S. Shaffer Boots & Shoes. Loss building \$3000. Stock \$10,000; insurance, building \$2000; stock, \$4000.
A. J. Morrison. Loss, Morrison Block \$6000 with \$2000 insurance.
G. C. Miller, living in Royal Bank building. Loss furniture, etc., \$4000; insurance \$2800.

**AMHERST BOY CAPTURED
STEALING LETTERS**
Amherst, N. S., Jan. 24.—For some months past letters have been disappearing from certain boxes in the Amherst post office without any trace being found of the thief. On Saturday night Postmaster Balleston set a trap for the thief and caught him in the very act. He had just opened a box of one of the largest mercantile firms in Amherst and had taken three letters therefrom. When searched he had ten dollars' worth of stamps in his possession. The lad is a messenger for the Hewson Woolen Mills.

Every statement concerning Red Rose Tea is made most carefully. Every claim that has ever been advanced has been fully borne out by the tea itself. You, if you use it, have always found it good tea. So good that no other tea pleases you as well. You may try substitutes but you always return to Red Rose simply because it has the fine quality and full value that pleases and satisfies.

M. K. PIPER

WEDNESDAY, FEBRUARY 1, 1911.

The idea has been advanced that the Provincial Exhibition held annually at Halifax be dropped, and that in future provincial exhibitions be held in different parts of the Province. At the meeting of the Nova Scotia Farmer's Association held at Windsor last week, several members of the Halifax exhibition commission were present and the matter was thoroughly discussed. The consensus of opinion appeared to be that the exhibition in the capital city should be kept up and new methods introduced to make it more effective. The Halifax people are accused of being indifferent to the privilege they enjoy in having it held in that city, and the opinion was expressed that the co-operation of the citizens of Halifax with the farmers throughout the province was necessary to make it a success.

The Monitor-Sentinel endorses the opinion that it would result in a lowering of the standard to have the exhibition held one year in one place and another elsewhere. Halifax is a central point as well as the "hub" of the province, and nearly every one is glad to avail himself, or should be, of visiting the city at least once a year, and many take advantage of the cheap railway fare. Nova Scotians should not begrudge their capital city whatever privileges she may acquire from having an annual provincial exhibition, but should rather be proud of anything that contributes to her prominence or advancement. There should be no sectional jealousy as far as Halifax is concerned, while with sectional exhibitions and necessary government grants for exhibition buildings, prize lists, etc., there would be constant friction.

Halifax is already provided with the apparatus for carrying on the big show, and as the shoulders of the deficit herself, it matters little to the rest of the province whatever the balance may be. The privilege of having the annual exhibition in Halifax should mean much to that city, but it should be of equal interest to the people of the province to see that it is kept there.

The announcement of the result of tariff negotiations between the United States and Canada has aroused the "anticipated hostile as well as favourable comment. The advocates of free trade have received what they desired and more than they expected in the number of articles placed on the free list or on reduced tariff.

The removal of the duty on wheat and on cattle and meat is enthusiastically welcomed in the West and the fishermen and fruit raisers of the East are delighted to learn that, if the proposed changes are accepted by the two governments, they may enter their food products into the American market free of duty. On the other side the Gloucester fishermen expressed their disappointment by flying flags on their fleet at half-mast. The free entry of pulpwood and lumber is hailed by the people of the United States generally as offsetting any losses in any other direction.

Of course the Canadian manufacturers are alarmed at the possibility of competition with the American manufacturers, and the manufacturers of farming implements are especially displeased at reduction of tariff on these lines. The New York World sums up the situation as follows:—"Fortunately for both countries, popular sentiment in Canada as well as in the United States has proved too strong for the greed of special interests or for the bumptiousness of politicians. We will get cheaper food, lumber, pulp and paper. The Canadians will get cheaper agricultural implements, coal and furniture. Both parties to the bargain benefit prodigiously in the freer exchange of their products, in self respect, in good humor and in true neighborliness."

Obituary.

MRS. ELIZABETH COOPER Elizabeth Cooper died at Bear River Jan. 26th in her seventy-third year. Her husband, the late Henry Cooper, publisher and printer of Charlottetown, P.E.I., passed beyond at the early age of thirty-eight. His demise occurred at Charlottetown at which place the body of his wife, who has survived him so many years will be interred in Sherwood cemetery on Wednesday, Feb. 1st.

The survivors are one son, Charles Henry Cooper, of St. Louis, Missouri, and four daughters, Mrs. Jas. Leslie, Miss Etta Cooper and Miss Julia Cooper, who are located at Seattle, Wash., also a brother, John Gidley, who resides at Medford, Mass. The deceased has resided since 1903 with Mrs. W. Wade, the fourth daughter, at Bear River. Prior to that time she lived at Charlottetown. She was a devout Christian and a staunch member of the Methodist church. Her son, C.H. Cooper, and daughter, Mrs. W.W. Wade, accompanied the body to its last resting place on Monday last. A short service was held at the house by Rev. A. Daniel before leaving.

Pains That Make Misery

A Talk With Our Lady Readers Have you ever noticed how miserable and unhappy the little pains and aches make one? A stinging cut, badly chapped hands, a nasty burn, a sore foot, a poisoned finger—none of them wounds or ailments ever likely to cause serious trouble, which come to every woman—and man too—and are just sufficient to take the edge off one's temper and give one a "grouch."

Zam-Buk is just the thing at such times. As soon as you put it on to a sore, a cut, a burn, or any skin injury, it stops the pain, and the stinging, and starts up healing. Don't make the mistake that because Zam-Buk is so widely used by medical men, by nurses, and for serious skin diseases and accidents, that it is only for serious cases. Keep it handy and use it immediately you get some trivial injury or have some little sore.

Mrs. Chas. H. Barrett, Harmony Road, Toronto, N.S., says: "I had an ingrowing toe nail, which caused me acute agony. Sometimes the pain was so severe I could not sleep. It became so bad that I feared blood-poisoning had set in. I was advised to try Zam-Buk and bound up the sore toe with it. In a few days it was much easier, and I continued the treatment. The result is that today the toe is sound and I have no more trouble with it. We always keep Zam-Buk in our house, and I would strongly recommend it to every housewife."

Zam-Buk is just the thing, too, for the little ones. Pure in its composition, and herbal in nature, it is suitable for the most delicate skin. It also cures piles, eczema, varicose ulcers, cold sores, abscesses, blood poisoning, ring-worm, and all similar skin diseases. Sold everywhere at 50c. a box, or post free from Zam-Buk Co., Toronto, upon receipt of price.

CORRESPONDENCE

LETTER FROM MAYOR HOYT.

To the Editor Monitor-Sentinel:—Thinking this an opportune time for a review of the Town's position during the year just ended, I beg to submit the following facts, which I trust will be of interest to your readers:—Our Town is in a very prosperous condition at the present time and has been for the past year. Our factories, seven in number, have been busy throughout the year and report a good volume of business and a very profitable year.

A number of new and handsome dwellings have been erected during the year, and are all occupied either by the owners or tenants. A number of strangers have either purchased or rented properties and now make this their residence. All of our merchants report trade good throughout the past year, although the partial failure of the apple crop in the surrounding country has somewhat affected the circulation of ready cash and collections are somewhat slower than usual.

F.L. Milner, Esq., barrister, who held the office of Town Clerk-Treasurer and Town Solicitor from the time of our incorporation in 1897, tendered his resignation on the first day of April last to take up a more lucrative law practice with the firm of Rogers, Milner and Purdy, of Amherst, where he is now residing, and Harry Ruggles, Esq., barrister, was appointed by the Council to the different offices vacated by him. The Town's finances are in a very healthy condition, and at the end of the present year the list of uncollected taxes, including all arrears will be the smallest, since our incorporation, with a very small percentage of uncollectable taxes carried forward from previous years, thanks to the energy of our present Town Clerk and Treasurer, who has given to the energies of our present Town this matter his special and earnest attention.

Our present rate of taxation is as low as in any other of the incorporated towns in the province, considering all the advantages our citizens enjoy, namely—A first-class water service, which is more than self-sustaining, a good sewerage system and an electric light owned and operated by a company, which is quite satisfactory. The question of permanent street construction is now before the Council and before another muddy season opens this matter will be dealt with in a practical way and we will follow the example of some of the other Towns in that direction. In the year 1909 a rate payers meeting was called to consider this important matter and a sum of four thousand dollars was voted for the purpose of improving our streets, and although the bonds have not yet been issued, we have an act of the legislature authorizing the same.

With improved streets, a first-class water system, good sewerage and electric lighting we claim to have one of the most desirable residential towns in the province. We have one of the finest brick school buildings in the Province, built a few years ago and it is thoroughly equipped and under competent management. We have little or no poverty in the town as the numerous factories give employment to all. Our sinking funds are kept up to date and there was a balance to our credit in the Bank at the end of the year 1910.

Yours respectfully, W. J. HOYT, Mayor of the Town of Bridgetown.

Upper Granville

Miss Gertrude Miller has returned from a visit with friends in Clarence. Miss Hattie Mills, Stony Beach, spent a few days of late with her cousin, Mrs. Inglis Austin. Many take advantage of the ice bridge across the river during cold weather.

Mrs. Ernest Ray is spending the winter in Massachusetts. Mr. Rufus Hardwick, of Annapolis, was the guest last week of Mr. Gordon MacGillivray. The many friends of Mrs. P. J. Phinney are sorry to hear that she is not much improved in health. The Methodist circle will have what is known as "pie night" at the home of Mrs. Harry Miller on Feb. 2nd.

Ice of excellent quality ten inches thick has been taken from the Peash and Newcomb pond and stored in their respective places by Mr. Burpee Chute and Kelly Bros. Our winter thus far has been subject to sudden changes and not considered ideal for many kinds of business.

Reports of Town Clerk and Auditors for Town of Bridgetown

REPORT OF AUDITORS. To the Mayor and Council of the Town of Bridgetown Gentlemen:—We, the Auditors of the accounts of the Town of Bridgetown for the past nine months from April 1st to the 31st of December, 1910, beg leave to submit the following report:—

We have made a very careful and accurate examination of the books of the Town Clerk and find them correct in every particular. Every item of receipt and expenditure has been carefully checked. The deposits in the Pass Book of the Union Bank of Halifax as well as the Royal Bank of Canada correspond with the items of deposit in the cash book of the Town Clerk and with the sum total of cash received. The proper amounts have been deposited to the credit of the various Sinking Funds.

We note that during the nine months the sum of \$500.00 has been deposited to the credit of the Sinking Fund Account for School whereas the yearly deposit required is only \$250.00. This increased deposit was made on account of the School Sinking Fund being in arrears, also \$75.00 additional was deposited to the credit of the Sinking Fund for the Carletons Corner water extension for the same reason.

We note also that when the Town Books were transferred to the present Town Clerk on April 1st, 1910, that there was an overdraft in the Union Bank of Halifax of \$1214.21. This overdraft has been paid and in addition thereto there has been paid out of Town current account the following sum, namely—\$1500.00 to retire old water debentures which matured on June 11th, 1910, for which no new debentures have yet been issued. Also the sum of \$487.41 to pay old overdraft in the Union Bank of Halifax, on water construction account on which the Town has been paying interest for some years.

It will therefore be seen that had it not been necessary to pay out these items from Town current account, there would be a cash surplus to the credit of the Town in the Royal Bank of about \$700.00 instead of there being an overdraft of \$1510.87 as appears in the annexed statement.

HEAVY DISCOUNTS ON FUR GOODS OF EVERY DESCRIPTION. Ladies' Coats Misses Overcoats and Clothing Childrer's Overcoats and Clothing STRONG & WHITMAN

It will be a matter of much interest to the rate-payers of the town to know that of the uncollected taxes for years 1907, 1908 and 1909 and up to April 1st, 1910, amounting to approximately \$1050.00, and which were attached to our act on April 1st, 1910, the sum of \$92.00 has been collected. The remainder of the uncollected tax on April 1st, 1910 are tally unavailable. To this report we append statement of uncollected taxes for the year ending December 31st, 1910. All of which is respectful submitted. Dated January 21st, 1910. ALBERT MORRIS, HARRY L. BURN, Auditors for the Town of Bridgetown.

LOCAL AND SPECIAL.

Dr. A. S. Burns, who has been in Boston the past month for treatment for his knee, is expected home this week.

The annual meeting of the Annapolis Co. Temperance Alliance will be held in Warren's Hall on Friday, Feb. 3rd.

A break in the main water pipe on Granville street on Saturday morning, caused quite a loss of water from the reservoir. The water was turned off from the central section of the town until three o'clock in the afternoon while the leak was repaired.

Now that reports of drowning accidents to skaters are becoming common is an opportune time to remind our young people that, with a first-class rink and the ponds of the fields and marshes frozen, the river with its possible air-holes is a good place to avoid.

A case of diphtheria is reported in the family of Gordon Goldsmith, a little girl of about nine years. She was attending school on Friday and was taken ill on Sunday but the membrane, without which there is no contagion, did not appear until Tuesday. The house is placarded and quarantined.

The terrible Middleton fire, by which the entire commercial part of the town was demolished on Friday morning last was learned with deep regret by the citizens of Bridgetown and on Monday night a special meeting of the Town Council convened to pass a resolution expressing the sympathy of the Town.

A Montreal despatch is authority for the statement that a new bridge is to be built by the C.P.R. at Digby on the location made by the old Western Counties Railway, thus enabling the Company to abandon that portion of the present route which includes two long river bridges giving a shorter approach to Digby.

The tea and social given by Superintendent Hill, of the County Hospital, in the Recreation Hall on Monday night would have been a success but for the weather, which prevented many from attending. About fifty people were present and the sum of \$22.00 was realized, which was devoted to building expenses.

Mr. C. L. Banks, a native of Ingleside, but for some years successfully engaged in mining interests in Mexico, has returned home and, rumor has it, will remain in the Valley and go into fruit farming. The Valley appears to be becoming more attractive to the young men away from home, as the prospects for the apple industry are developing.

The one-mile match skating race between Mr. Reginald Buckler, of Annapolis and F. R. Beckwith, of Bridgetown, will take place Friday evening, Feb. 3rd at the Bridgetown Rink. This race should draw a good crowd, as Mr. Buckler is considered a fast, and Mr. Beckwith has already won two races this year, giving him the championship of Bridgetown for one mile.

A snow storm on Thursday night, following two days of spring-like weather, awakened hopes in lumbermen and others that the long-looked-for sledding had arrived. They were destined to disappointment, however, for although considerable snow fell between Thursday and Monday a high wind and a deluge of rain soon carried it off. The rain was followed by two days of exceptionally keen frosty weather which still remains with us.

Recorded elsewhere in this issue is the total wreck of the Helen Shafter, a schooner built by L. D. Shafter of this town and launched in November, 1898. The schooner sprung a leak one day out from Shelburne and the crew of six men were rescued four days later by a fishing schooner and landed in Boston in a half-famished and exhausted condition. After leaving the wreck the hull was fired to prevent it becoming a menace to navigation.

Within the past few days a full ticket has been brought out to oppose the re-election of the present mayor and councillors. The new candidates are D. G. Harlow for mayor, and Avar L. Anderson, Samuel Prat and Arnold B. MacKenzie for councillors. There should be a full representation of our rate-payers at the polls on Tuesday next, and voters should remember that questions of friendship and personal preference should be waived in making selection between the candidates. The candidate's business acumen, progressive or conservative temperament and his honor as a man are the things that should be weighed in the balance by the voters when casting his ballot.

LOCAL AND SPECIAL

The convalescent case of measles reported in last week's personal column of the Monitor was of a Lawrencetown young lady. There are no measles in Bridgetown so far as we know.

Ice harvesting has begun and a cut of ten inches thick is reported. Last year's supply ran short owing to the open season, but present indications are that ice houses will be well-filled this year.

Children's Fancy Dress Carnival Monday evening, Feb. 6th and a quarter-mile race for children under the age of sixteen. Prizes will be given for the best costumes and to the winner of the race.

R. W. W. Purdy, in a letter which we have not space to publish claims that the amount of his unpaid taxation is less than it appears on the delinquent list and would have been paid in full if he had received proper notification.

The pre-eminence of Nova Scotia as a fruit-growing country is emphasized by President R. J. Messenger, of the Nova Scotia Fruit Growers' Association in a paper published on page two of this issue of the Monitor. His arguments are convincing and in line with the statements of Chief McNeill, of the Fruit Division of the Ottawa Agricultural Department published in a recent issue.

As evidence of the interest taken in the Bridgetown Skating Rink and in sports generally by the citizens of Bridgetown, within the past few days a sum of upwards of \$25 has been subscribed to purchase a Prize Cup to be awarded to the champion skater of Annapolis County. The contest is open to all skaters in the County, the races to take place at the Bridgetown Rink. Any party holding the cup three successive years wins it outright. The date of the first contest is looked for with great interest.

Farmers' Meeting

The Commission appointed by the Dominion Government to make recommendations in reference to the improvement of the sheep-breeding industry in Canada have begun a trip through this province, and will meet the farmers of this vicinity in Warren's Hall, Bridgetown, tomorrow (Thursday) afternoon, at half-past two o'clock.

The Commissioners present at this meeting will be Wm. Bryden, of Brooklyn, Ontario, who will represent the sheep-breeders and Mr. Fitch, a representative of the wool manufacturers. Dairying will be the subject of an address by Mr. Mitchell, of the Dairy Department at Ottawa at an evening meeting the same day. These two meetings are of utmost importance and all farmers should make a point of attending them.

By order, L. W. ELLIOTT, Secy.

The Halifax Seed Co. Ltd. of Halifax, N. S. have leased the "secretory" building 166 Granville St., just one block north of the old stand. This move was made necessary by the rapidly increasing business of their Mail Order Department. Farmers and market-gardeners generally throughout the Maritime Provinces are sending their orders into this house, rather than to the Upper Provinces, and the United States, as their goods are delivered in much less time than if sent to these points. The Halifax Seed Co. Ltd. will send postpaid their 1911 Seed Annual to any parties who may be interested in this line. Kindly mention this paper when sending in your name and address.

DIED

Money is Tight

But there are people who are constantly looking for opportunities to lend money on good security. If you want to borrow a few dollars, or a few thousand, our Want Ads. will put you in touch with those who have money to loan.

For Aged People

Old Folks should be Careful in their Selection of Regulative Medicine

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain, that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to subjugate our claims. This remedy is called **REXAL ORDRIES**.

Rexal Ordries have a soothing, healing, strengthening, tonic and regulative action upon the bowels. They remove all irritation, dryness, soreness and weakness. They restore the bowels and associate organs to more vigorous and healthy activity. They are eaten like candy, may be taken at any time without inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness flatulence or other disagreeable effect. Price 25c. and 10c. Sold only at our store—The Rexal Store, W. Warren.

To the Warden and Councillors of the Municipality of Annapolis County Your Committee on Tenders and Public Property beg leave to report for the year ending December 31st, 1910.

Very few changes of importance have occurred at the County Institutions. The same superintendents and staff of assistance have been retained through the year. The services of all during the year, have been quite satisfactory.

We have given a careful supervision as possible, and are satisfied that all that could be has been done for the comfort of the unfortunate beings under our charge.

The expenditure has been curtailed to a very moderate amount, considering the efficient manner in which the institutions have been maintained. All supplies, when practicable, have been purchased by Tender. The quality has been good and prices very moderate.

The roof of the County Hospital is in a leaky condition, and we would recommend that it be slung, the cost of which will be about two hundred dollars.

Farming operations have been quite successful. Good crops have been raised, and the pauper help have been profitably employed in improving the farm.

The products of the farm are as follows—

450 bushels potatoes.	1000 " turnips.

GREATEST CURE FOR RHEUMATISM IS "FRUIT-A-TIVES"

"I Honestly Believe It," says Mr. Mills

Knowlton, P.Q., Oct. 12th, 1909.

For many years I suffered from severe Rheumatism and the attacks were very distressing and prevented me from doing my ordinary work.

I tried many remedies and physicians' treatments but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from Rheumatism.

I tried "Fruit-a-tives" and this medicine has entirely cured me, and I honestly believe that "Fruit-a-tives" is the greatest Rheumatism Cure in the world.

E. E. MILLS,

Ast. P.M., Knowlton, Can.

"Fruit-a-tives" not only strengthens and heals the kidneys—but also regulates the bowels, improves the action of the skin—and thus keeps the blood pure and rich and free from uric acid which causes Rheumatism.

"Fruit-a-tives"—the great fruit medicine—is sold by all dealers at 50¢ a box, 6 for \$2.50; trial size, 25¢; or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

KENDALL'S SPAVIN CURE

THE REMEDY USED ALL OVER THE WORLD

For Spavin, Curb, Splint, Ringbone, Soft Bunches, All Lameness

Horse dealers have made thousands of dollars by buying Lame, Spavined Horses, curing them with Kendall's Spavin Cure, and then selling the sound animals at a handsome profit.

You can do the same with your own horses. Here is one man who saved his horse and his money by using Kendall's.

Oak Bay Mills, Que., Dec. 15th, 1909
"I wish to inform you that I have used Kendall's Spavin Cure with good success, on my horse. I found that it cures quickly and well". Yours truly, ROY HARPER.

St. a bottle—4 for \$5. A copy of our book—A Treatise On The Horse—free at dealers or from us.

Dr. B. J. Kendall Co. - - Essexburg Falls, Vt.

HOW TO GET FREE

A 50c. BOTTLE OF PSYCHINE (PRONOUNCED SI-KEEN)

The white corpuscles of the blood—the Phagocytes, as they are known scientifically—are the policemen or the scavengers of the body. Not a germ of disease can invade the body anywhere but these white corpuscles get after it. And, if they are strong enough or in sufficient numbers, they devour it.

If they're not strong enough or in sufficient numbers, then the invading army of disease germs triumphs and disease holds the body.

Any preparation that strengthens these white corpuscles or that increases their number, will not only preserve health, but will build up its defences so strongly that contagion or infection are impossible.

Herbs have always been great curative agents from time immemorial. They have been styled nature's own remedies.

Certain herbs more than others are noted for their curative powers.

And it has been found that those herbs that are most effective in maintaining or restoring health, do so by building up the white corpuscles or Phagocytes.

These herbs are incorporated in Psychine.

And it is the tremendous curative power of these herbs that is responsible for the unequalled record of this splendid preparation.

Think of it. In Psychine we have a preparation that has been in use a third of a century. That has cured hundreds of thousands of many kinds of diseases.

For which we have received hundreds of thousands of unsolicited testimonials.

Here are the diseases for the treatment of which Psychine is indicated:

La Grippe	Bronchitis	Weak Lungs
Hemorrhages	Weak Voice	Spring Weakness
Sore Throat	Early Decline	Catarrhal Affections
Anaemia	Female Weakness	Indigestion
Feeble Appetite	Chills and Fevers	Night Sweats
Sleeplessness and Nervous Troubles	After-effects of Pleurisy, Pneumonia and La Grippe.	

COUPON No. 20

To the Dr. T. A. SLOCUM, Ltd. 193-195 Spadina Ave., Toronto

I accept your offer to try a 50c. bottle of Psychine gratuitously. I have not had a 50c. bottle of Psychine under this plan. Kindly advise my druggist to deliver this bottle to me.

My Name.....
Town.....
Street and Number.....
My Druggist's Name.....
Street and Number.....

This coupon is not good for a 50c. bottle of Psychine if presented to the druggist. It must be sent to us—we will then buy the 50c. bottle of Psychine from your druggist and direct him to deliver it to you. This offer may be withdrawn at any time without notice. Send coupon today.
