Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/  
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments:/

Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library  
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contains the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library  
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

≡ BICYCLES and BUGGIES ≡

BUILT - TO - WEAR.

Kingston, Ont., Vehicle Comp'y.

THE LIMESTONE  
CITY

# KINGSTON, ONTARIO.

*The Gateway to the St. Lawrence,  
Thousand Isles, the Bay of Quinte, the Rideau  
and the Upper Ottawa - Canada's picturesque  
Resorts and Commercial Avenues.*

CITY AND HARBOR OF KINGSTON, CANADA, FROM THE WATER.

## Kingston and Its Attractions.

**K**INGSTON is an historic city. Its settlement is almost contemporaneous with that of Quebec. In 1673 Comte de Frontenac, Governor of New France, made a voyage hither with one hundred and twenty boats in great state, and established a fortified trading post after his own name, with the favor of the Iroquois tribe. Here La Salle built a vessel, and sailed up the lake, establishing a fort at Niagara, where again he built for the navigation of Lake Erie, a part of his aim for a passage to China and by the Mississippi to Mexico.

About Fort Frontenac, called by the Indians Cataraqui, colonists settled. The treachery of its next commandant, De Denonville, towards the Indians, had its fruit in siege, capture and massacres. Frontenac, recalled from France, rebuilt the fort, and it had a tranquil existence till the British capture under Colonel Bradstreet in 1758. It again became important when the Loyalists rocked over from the United States as a result of the War of Independence, and settled in and about it in great numbers, giving it the name of King's Town.

In 1842 it was made the capital of Upper Canada, and great building enterprise was undertaken, but within a few years the seat of government was withdrawn, dissipating the fortunes of the people, and giving a death blow to enterprise while that generation lasted. It settled down to the life and dependence of a garrison town, fostered by extensive fort building under imperial policy.

The British troops being withdrawn, and lake commerce being on the decline, Kingston roused itself in the sixties, and has steadily advanced from a population of 12,000 to one of 21,000, including the Canadian regulars in garrison and suburbs of Portsmouth.

Here are Queen's College, with 500 students in arts, science, theology and medicine; the Royal Military College, beautifully located and finely equipped; the Royal College of Physicians, a branch of Queen's; the Kingston Young Ladies' College; a College of Mining and Agriculture, including dairying, veterinary and navigation schools; the Dominion Business College, and a Collegiate Institute in unbroken operation since 1794.

Kingston rises on its gentle slope, the cool grey buildings and slender spires catching the warm glow of the level sunbeams. Far to the right, beyond the long bridge, the winding Cataraqui shows a misty blue between the high green banks that end in the gorge at Kingston Mills. The City Buildings, the Court House and the tower of Queen's University catch the eye as it travels back along the fringe of shipping towards a point, flanked by a Martello tower, at the extreme left, while, farther back, the outlines of the Asylum can be traced in the distance.

Opposite to the city rises the slope of Barricfield, with its grey church tower, and the undulating common rising gradually into the Fort Hill, while between this and the city runs out the long, level promontory, on which—irradiated by the early sunshine—stand the old and new buildings of the Military College.

Turning the point made by the Fort Hill, with its embankments and sally-ports, we glide swiftly past Cedar Island, with its Martello tower, and the river channel—some fourteen miles wide—is fairly entered. Cedar Island first shows the peculiar contour and formation of 'The Thousand Islands,' grey gneiss, encrusted with moss and lichen, bearing a low, luxuriant vegetation of birch and cedar and tangled shrubbery.

A short distance above Gananoque the island mazes begin, with bold, grey rocks, tufted with dark pines, or little bosky clusters of foliage nestling close to the clear blue waves. On a calm summer morning, when the rich and varied colorings of granite, with overhanging foliage of every shade of living green, are reflected in the glassy river, which the steamer's swell raises—not breaks—into long, heavy undulations, the scene is like a fairyland. We bid adieu to Kingston, the pleasantest residence city in Canada, with lingering regrets."

## The Limestone City.

Calm and serene is her front, the city that guardeth the gateway  
She to whom storm is but laughter, who maketh the torrent her mock  
She who is fortress crowned, who beareth a fleet in her bosom,  
Who is girdled with green, and clothed with a glory of leaf and blossom,  
City enthroned on the rock.

Memory, tradition are hers, haunting her name like a perfume,  
When smiling rivals were not she could murmur, "I live."  
Here for a hundred years she has set her face to the morning,  
Whisper of praise she needs not, softly the answer returning,  
"Mine not to seek but to give."

Fair is she in the springtime, when a bride veil of mist wreaths her islands  
Fair when the flashing crystals gleam white in the frost king's breath  
Fair when her domes and her towers are in summer-tranced waters beholden,  
But fairest of all when in splendors ruddy and golden,  
Her maples go down to their death.

More than beauty is hers—great lives claim her as their cradle,  
Names that shall never die are inscribed on the roll of her fame,  
When, in the time to come, are repeated in song and in story  
Deeds of the heroes of old, with a share in their glory  
Men shall utter her name.

ANNIE ROTHWELL.

# • 'PON HONOR, GEORGE •

We must not fail to remember to get a bottle of that lovely Tooth Powder called

## AT HOAG'S DRUG STORE.

Do you know that they carry a full selection of HAIR AND TOOTH BRUSHES, COMBS, FINE PERFUMES. Prices away down.

THEN AGAIN! What lovely SODA WATER they do sell. Well, 'spose we wet our whistle just this once, Martha, at

## ROBINSON'S.

### The Columbias . . . .

That name is enough. This wheel is really one year ahead of time. That is we have an 1896 wheel in 1895. The only trouble with them is we cannot get them to supply the demand.

### Eagle Bicycles . . . .

With Aluminum Rims. Not how cheap, but how good, is what the manufacturers go by.

### Imperial Bicycles . .

Handsome, with light running qualities. They are well named the Imperial.

### Victor Bicycles . . . .

Just added to our list. Has many friends in Kingston.

Also Agents for

Hyslop, Son & McBurney's

Fine Bicycles.

 Columns for Buildings.

All kinds of boiler and engine repairs attended to promptly.  
 Makers of the celebrated "Kingston Foundry" Propeller Wheels.

**RANEY, REID & SELBY, "Kingston Foundry."**

**Have You Seen It? What?**

The Wood Bros' Rawhide Pneumatic Tire for Bicycles, Trotting Sulkies and other Light Vehicles.

**PRACTICALLY PUNCTURE PROOF.**

Being made of Oil-tanned Rawhide, specially prepared, water does not effect it. After being in actual use for six months it is as firm and flexible as when first put on.

**COMPARED WITH THE RUBBER TIRE.**

It is one-third lighter.	It does not puncture with reasonable usage.
It is more resilient.	It does not creep or roll on rim.
It does not so readily slip on wet or asphalt.	It can be used on any rim.
It does not rot so rapidly.	It can be repaired by any shoemaker, when necessary.
It resists heat and cold.	It will outwear three ordinary tires.
It does not burst.	It is cheaper than the Rubber Tire.

Price per pair covers: 20.00  
 with tubes and valves: 14.00
