TOP ELEC. READY TO SELL OUT TO CITY

Manager Macrae Writes to Mayor Geary Announcing Willingness to Consider the Offer for Purchase of Plant Under Provisions of the Agreement.

Following the somewhat energetic statement of Premier Whitney concerning the local situation, published yesterday morning, there was sent to Mayor Geary yesterday afternoon the following letter from H. H. Macrae, general manager of the Toronto Electric Light Co.:

"In the newspapers this morning a statement by Sir James Whitney was published, in which he refers to the language used by Mr. Justice Middleton in the case recently before him, and advises the city and the company to endeavor to come to an agreement that will dispose permanently of all difficulties, present and prospective, which now confront them, or are likely to confront them in the future.

"The Toronto Electric Light Co. is most anxious to adopt the suggestion made, and I desire to express to you the hearty willingness of this company to endeavor to bring about such an arrangement, which must be in the interests of the citizens of Toronto and of this company jointly; in fact, an effort will be made by this company to meet any reasonable proposals which the city may offer, and even to forego, if necessary, some of its undoubted legal rights, for the purpose of avoiding the injury and annoyance to the public, which, as Sir James points out, the public will suffer if the many matters of controversy are permitted to continue.

Willing to Consider Terms.
"I may say at the same time that the company will be willing to consider its purchase by the city at the present time, upon proper terms, and in order that if you wish it, this may form an element in any conference which is to be had.

"I have only further to say that representative of the company will be pleased to meet you and the board of control, or any other persons whom you suggest, at any time that will meet your convenience.

"The agreement between the city and the company provides that, when the company's franchise expires in 1919, the city must either renew it or purchase the entire assets at a price to be fixed by arbitration. A similar option may be exercised by the city at the expiration of each succeeding period of 20 years.

"It is evident that when Mr. Macrae speaks of the 'provisions of the agreement' as being acceptable to the company as a basis of negotiation for the sale of the plant, he means that the company is willing to sell on terms comparable to a bona fide sale, and that arbitration would necessarily take into account only the physical value of the plant, on a 'scrap iron basis,' and not the value of the market at a nominal value of \$4,520,000.

Negotiations Which Failed.
"The company tried to open up negotiations with the city on June 29 last, but George F. Blake, K.C., in behalf of the company, offered to show the city the agreement between the Electrical Development Company and the Toronto Electric Light Company for the supplying of power to the latter. The company's main purpose at the time, however, seemed to be to effect an arrangement whereby the city's power plant would confine its service to the business district downtown and to general municipal purposes, leaving to the company the private field, the company offering to devote any surplus after the payment of 10 per cent. dividends to the reduction of power to the consumers. This proposition the city naturally rejected, and the invitation to reopen negotiations for the purchase of the plant was considered by the board of directors to have come too late in the day.

"As indicating how the company's idea of terms has been modified, it is interesting to recall that when, nearly three years ago, or on Nov. 22, 1907, the company did some angling at the city hall, it declined altogether to consider sale except on a basis of earning power.

FRAUDS EXCEED \$1,000,000
Famous New York Firm Charged With Defrauding Government.

NEW YORK, Oct. 13.—The entire fifth-avenue establishment of the five Duveen brothers, known the world over as dealers in rare art objects, was seized yesterday by federal officers, the only member of the firm now in the city, was placed under arrest, and a charge of conspiracy to defraud the government out of customs duties.

Henry A. Wise, United States District Attorney, in asking for extraordinary heavy bail for the five brothers, said that the frauds would reach more than \$1,000,000, and that all five brothers were implicated. Bail was fixed at \$50,000, which was promptly given, and Duveen was released.

CONSTABLES ACQUITTED.

OTTAWA, Oct. 13.—Constables Campbell and Charbonneau of the Hull force, who were sent for trial to the court of King's Bench on a charge of breaking into Mrs. Basil Bwing's house at Hull, were acquitted this afternoon.

INSPECTOR HUGHES VINDICATED.

"We find that the letter is misleading regarding the work of medical inspection. We recommend that the work of medical inspection remain under the direction of the board of inspectors, and that Dr. MacMurphy's request to be permitted to send her reports to the secretary of the board be not granted, and also that the present sub-committee on medical inspection continue to act as in the past in conjunction with the board of inspectors.

HUGHES ABUSED, THE TRUSTEES DECLARE

And They Exonerate Him From Dr. Helen MacMurphy's Allegations, and Vote Against Complying With Her Request — Inspector Defends Himself.

Dr. Conboy: I have read the letter and consider that Dr. MacMurphy did not deal fairly with the board. I believe that the letter has done the system of medical inspection a great injury, and has not only had a great influence for bad upon the public, but has also placed our best efforts in a bad light before the entire medical profession of this city.

Dr. Bryans: In five days' work by the school nurses 808 cases were located, and handed over to the medical inspectors, and yet Dr. MacMurphy claims that her position enabled her to do nothing more than write home cards to the parents of the affected children. This should have kept her busy for a while.

Dr. Willmot Graham, associate inspector with Dr. MacMurphy, and who was present during the secretary's interview referred to by the latter, in her letter to the board: "The 'stormy' was altogether unnecessary, and I considered that Mr. Hughes conducted himself as a gentleman should."

Nurse Rogers: I think that Mr. Hughes stated the facts fairly and squarely, and I did not consider that he was discourteous in any respect.

The above statements were among the outstanding utterances of the various principals figuring at the investigation before the management committee of the board of education yesterday afternoon, into the letter written by Dr. Helen MacMurphy to the board last week.

Defends the System.
"If you have an abcess it is better to put a knife into it and be done with it," said Trustee Dr. Conboy, urging that the matter be given immediate consideration, when Trustee Dr. O'Brien was desirous of deferring the unpleasant task.

"Dr. MacMurphy's attack was of threefold nature. She first went after the inspectorate board; then a personal attack on Mr. Hughes, the chief inspector; and finally took a rap at the system itself. It is regarding the latter point that I wish to speak, as the inspectors are all here to defend themselves.

"The system, as we have it at the present time, is not as extensive as it will be after we have had it in operation for a time. At the outset we only had \$2500 to work with. The sub-committee read much, studied books, and consulted medical men who were informed about such systems, so that with the little money we had at our disposal we might set a system that would not reflect on the dignity of the city.

"This letter has done much to prejudice the physician, it could not help it; and I am sorry, for we need the help and co-operation of the medical fraternity in the working out of medical inspection. Trustee Dr. Bryans, who is a qualified medical practitioner, and was largely accountable for the primary regulations in the system, would not do anything unprofessional, or ask Dr. MacMurphy to do anything that, as she states, would be not in keeping with her professional dignity."

No Red Tape.
He did not consider there was any red tape in the system, but on the other hand it was as simple as it could be. There were many cases that the nurses could treat just as efficiently as the physicians, and the reason for having the reports sent first to the inspector was merely for the sake of convenience, as the inspector was in his office throughout the day. If the medical inspectors were to see personally every case, they would never be able to cover the entire city of 60,000 children.

"We all admire the literary excellence of the letter," began Dr. Bryans, "and."

SIX PERISH IN BIG FIRE AT MONTREAL

Altho it Happened Early in the Morning, it Was Not Known Until Nearly Noon That Any Lives Had Been Lost — Several Firemen Were Injured.

MONTREAL, Oct. 13.—(Special).—Six persons, three men, a woman and two children, lost their lives in the disastrous fire that early this morning completely gutted the King's Hall building on West St. Catharines-street. That anyone had perished was not known until nearly noon, ten hours after the fire had started, when the checking over of a list of persons supposed to have been in the building during the night resulted in the discovery that six were missing.

At 1:30 the firemen working in the debris on the top floor of the building found the first positive evidence of the tragedy. In a small room near the front wall of the building the body of Frank Withall, 33 years of age, night watchman of the building, was found. In his arms were his two children—one, a little girl of four years of age and the other a little boy of a year and a half. Thirty feet away from the father and the two children the searchers presently found the body of the mother, a young woman 30 years of age. Her hands and feet were badly burned, but death, as in the case of her husband and two children, had evidently been the result of asphyxiation.

Returned to Dress.
At 3 o'clock in the afternoon a fifth victim was found, Charles Theulier, a man 52 years of age, assistant manager of the building, was found in a passage way outside his bedroom door on the top flat. It looked as if he was returning to his room to dress preparatory to making his way to the fire escape leading to the roof. Theulier was manager of the King's Hall billiard and pool room, and had come here from Boston only about a month ago, to take charge of the rooms for the United States Billiard Limited. It is said that he was once amateur billiard champion of the United States at 14-inch ball.

The billiard room had also held the professional championship of New England.

The last victim was found about 6:30 o'clock in the evening. He was Harold Richards, 29 years of age, assistant manager of the King's Hall billiard and pool room. The body was found, not on the top floor, as in the case of the five other victims, but on the third floor of the building, in a bedroom that he occupied.

Firemen Injured.
During the progress of the fire several firemen sustained severe injuries, and some of them were taken to hospitals. They include: Patrick Reilly, No. 10, arm broken and bruised; William Daniel, No. 10, burns and bruises; Benchemen, No. 12, internal injuries; J. Sanderson, No. 9, overcome by smoke.

Two men, Edgar Coats, elevator man, and John Jones, colored, attendant at King's Hall billiard room, had a thrilling escape. They were asleep in the fourth story of the building, when awakened by the danger. They fled to the roof of the building, where, enveloped in great clouds of smoke, and surrounded by flames, in the very midst of a roaring inferno of fire, they remained for 15 minutes. They were rescued by Sub-Chief Mann.

Dr. H. P. Adams, a dentist, whose office, in the upper part of the building, saved himself by getting out of the third story window with a rope.

The Hamilton departmental store was threatened, but was very little damaged.

Twenty-five business concerns, agencies, dentists, dressmakers, etc., shared in the losses. The ground floor was occupied by the naval policies of the Eastern Townships Bank and the Knit-to-Plt retail store.

NO TROUBLE AT BARCELONA

Anniversary of Prof. Ferrer's Death Passed Off Quietly.
BARCELONA, Oct. 13.—The first anniversary of the execution of Prof. Francisco Ferrer, the founder of the modern schools, passed off without incident. The city was a veritable armed camp. Large bodies of police and civil guards patrolled the streets, while the garrison remained in barracks, under command of Captain-General Weyer. Masses of flowers were placed on Ferrer's grave by the representatives of various associations, but there were no disturbances.

FRAUD ON GOVERNMENT

Inspector Charged With Sharing Compensation With Farmers.
REGINA, Sask., Oct. 13.—(Special).—J. J. Mounford, Dominion veterinary inspector for Prince Albert district, was to-day committed for trial on a charge of defrauding the government of large sums of money. Mounford is said to have reported horses as being killed for glanders. Farmers who it is charged were in collusion with him, would then claim compensation under the Animal Contagious Diseases Act, money being divided between the government official and his accomplices.

So far the amount the government is said to have been defrauded of amounts to between \$5000 and \$7000, covering some fifteen cases.

CARRYING THE HOD

NOVEMBER 17 FIXED FOR OPENING OF PARLIAMENT

Special Interest Attaches to Session, Which is Probably Last Before Election.
OTTAWA, Oct. 13.—(Special).—Parliament will assemble on Thursday, Nov. 17. The date was decided upon at a meeting of the cabinet council to-day.

The coming session is expected to be of more than ordinary interest, in that there is the possibility that it will be the last before another general election.

The opposition, therefore, may be expected to make the most of the chances in Quebec offered by the present administration. The government is weaker numerically than it has been since 1896, its majority occasionally falling below 20.

Further, most of the ministers are nearing the time when advancing years will compel them to lay aside the onerous duties of office. On the other hand, the opposition is a younger body, with young fighting members, and is expected to be the strongest opposition since confederation.

What will lend special interest to the coming conflict of parties is the situation in Quebec. Whereas a year ago there was a small outbreak on the part of F. D. Monk on the Conservative side and Col. McLean on the Liberal side over the naval policies of their several parties, the outbreak has grown to such proportions in the government party that actual retention of office is threatened. The Bourassa campaign in Quebec now of the most serious character, while other incidents which occurred lately have caused the English-speaking supporters of the government to look with suspicion upon its actions. On the other hand, the Quebec Conservatives are solid with the party.

The government legislation will not involve much discussion, the most important being the revision of the bank act, which was sent over from last session. The ministry hopes to have a short session, in view of the imperial conference in June and the coronation in June, both of which Sir Wilfrid Laurier will attend.

IMPERIAL FEDERATION

Lloyd-George Expected to Make Important Pronouncement.
LONDON, Oct. 13.—The new movement in home politics towards a federated empire is attracting widespread attention in the press. To-day Llewellyn Williams, M.P., who next week accompanies Lloyd-George, the Welsh National Liberal Council, where the chancellor is expected to make an important pronouncement, said: "Imperial unity, a magnificent ideal, is no longer in the future, it is no longer the vague, unreal dream, but is fast becoming a practical question."

RAISING THE MAINE.

BEVERLY, Mass., Oct. 13.—President Taft to-day finally approved plans for raising the wreck of the battleship Maine from Havana harbor, which will call for the completion of the work on or before the thirtieth anniversary of the destruction of the vessel, Feb. 15 next.

C.P.R. GUILTY OF SHARP PRACTICE, SAYS GRAHAM

Played a "Dirty Trick" in Connection With Route of Toronto and Eastern Radial Railway.
OTTAWA, Oct. 13.—(Special).—Hon. George P. Graham is very wroth with the C. P. R. He accuses that august corporation of being guilty of shoddy practice.

The minister of railways delivered himself of some expetives regarding the C. P. R. on the occasion of the approval of the route of the Toronto and Eastern Radial Railway. This latter railway was incorporated last spring, on Oct. 4 its route map was before the minister of railways, who enlarged the application, as the result of objections by the C. P. R. in order that the C. P. R. and the Toronto and Eastern might look into the objections, and mutually arrange matters, so that the proposed C. P. R. Toronto to Montreal line thru the same districts might not be encroached upon.

Meanwhile the C. P. R. sent its route map down to the railway commission, and had its route approved, thus "dishing" the Toronto and Eastern.

When informed of this Mr. Graham expressed the greatest contempt for the action of the C. P. R., and said to their representative: "Your company is guilty of what I consider sharp practice, and it might be characterized as a dirty trick. I resent it, and hereby now express disapproval of such tactics."

The minister of railways then stated that, if the C. P. R. did not proceed with the construction of its line, in 18 months he would give the Toronto and Eastern the power to construct, without any regard to the C. P. R., and confer with the railway board with view to having the board's approval of its route map canceled.

CONFERENCE SUGGESTS FEDERAL HEALTH COUNCIL

Laboratory in Connection to Health Serums—Canadian Health Association Established.
OTTAWA, Oct. 13.—(Special).—Establishment of a federal council of health to deal with larger questions of disease prevention by the federal and provincial governments, in co-operation, was recommended by the Dominion conference on public health, which concluded this afternoon.

It was recommended that the federal laboratory be established for the purpose of experimental work, to manufacture serums and antitoxins, and generally to supply aids in fighting disease, as well as to prove of value in education. The conference urged that both federal and provincial governments should encourage still further the establishment of sanatoria for the cure of consumption, particularly amongst the poorer classes.

Representatives of the health departments of the various provinces and federal government officers, at a meeting held here to-day, organized the Canadian Health Association. The object of the association is to interest the public in the spread of information relating to matters affecting the public health. Membership will not be restricted to physicians. Officers were elected as follows: Hon. President, Sir J. A. Starkey, McGill University; treasurer, Dr. George D. Porter, Toronto; secretary, Major Lorne Drum, Ottawa.

As to Canada, we were midway between the two systems, and there was therefore more or less limit, he contended, when Canada would have to have an absolutely free hand to deal with her big problems irrespective of any limitations imposed upon us by the past, or by the constitution. Coming back then to the parliamentary system, not only was it more or less limited, but what was still more noticeable, it was overloaded, and he saw no relief by reason of the increased number of questions that came before parliament except in the delegation not only of administration but the making of laws to commissions. There was nothing in sight but government by commission and he was not afraid to see the experiment tried. For instance he would put the tariff under the control of a commission. Parliament

SENSATIONAL RAID ON BOSTON "GETRICH" FIRM

Redeemable Investment Co. Had High Endorsement—Claimed Land in Canada.
BOSTON, Oct. 13.—Federal authorities visited the offices of the Redeemable Investment Co. to-day, and came away with Manager Charles H. Brooks, \$100,000 of the company and several thousand dollars in cash, all taken under a warrant charging the company with defrauding the government of \$200,000. The Redeemable Investment Company was organized three years ago as a holding company with a capital of \$100,000.

Circulars found in the office say that the company promotes only those properties of which it is the owner, or of which it has control, and that the stock is not listed, as the company's redemption fund furnished a market for the stock on demand at a price in no case less than the price paid the company together with at least six per cent. for the time it has been issued.

The circulars also say that the company controls the Santo Domingo Mining Company, which is said to own 35 per cent of the mines of Jalisco, San Domingo, and a ranch of 70,000 acres in the same state; the Norman Plass Lumber Company, which owns 50 per cent of the timber in British Columbia; the Bolton and Canada Wheat Land Company, having 20,000 acres of land in Canada; and the Okanagan Development Company of Washington.

30TH YEAR.

A BETTER METHOD FOR POLITICAL PROBLEMS

W. F. Maclean, M.P., Address- es Waterloo Canadian Club —Day Coming When This Country Must Have Free Hand to Deal With Big Matters of Public Interest.

BERLIN, Oct. 13.—(Special).—W. F. Maclean, M.P., was the guest at the Canadian Club at Waterloo County at the opening meeting for the season in Berlin to-night. The large attendance included Hon. Mackenzie King and George Pattinson, M.L.A., of Preston.

The heading of Mr. Maclean's address was "A newer method for to-day's political problems" and in a word his contention was that the present parliamentary methods in practice in Canada, in the United States or England, were not equal to the problems presented to these bodies. He began by stating that while we were in the twentieth century and had all the accumulated political experience of the past, in no country was there a satisfactory, but in every country there was doubt and lack of confidence in present political methods and political machines. Nor was there any one who had a clear and definite institution for the present system to offer.

A Dissentient.
With the doctrine of the English free traders, that the least government was the best, he totally dissented. His view was that with the increase of the complexities of civilization, and these complexities were increasing every day, the responsibilities and duties of governments would increase, and therefore there was all the more need for a better instrument of legislation and government than what we now have.

As a typical instance of the breakdown of parliamentary government he cited the case of the United States, where the constitution made by the "Fathers," so-called, and who were in the grave now a century and a quarter, government had not been substantially altered. It was only when the country had almost reached a stage of revolution that remedial legislation could be got through congress and then the measure got thru it was hung up in the supreme court, which had been designed more or less by the constitution to be a check and was vested with the authority of determining the constitutionality of the various branches of the government.

The consequence was that whenever a serious problem was presented in the United States, before any legislation, carried out by a meeting of it, could be made effective and got past the courts, the problem had perhaps changed or increased in its intensity, and the remedy had consequently been obviated. He thought it was one of the most absurd things in the world to-day that men who were dead should limit the freedom of men alive and should limit the freedom of men who were still living. In other words, his contention was that the only hope of the United States in dealing with its present problems was that they should and must be dealt with a free and unlimited parliament or legislature such as they have in Great Britain.

The great merit of the English parliamentary system was that it was absolutely free to do what it liked in any manner whatever without limitations of any kind. In the United States there were limitations of every kind, and as a consequence there was no progressive legislation. The one thing against the unlimited parliament of England was the undue veto power of the house of lords, but this, he contended, would soon be changed.

Between Two Systems.
As to Canada, we were midway between the two systems, and there was therefore more or less limit, he contended, when Canada would have to have an absolutely free hand to deal with her big problems irrespective of any limitations imposed upon us by the past, or by the constitution. Coming back then to the parliamentary system, not only was it more or less limited, but what was still more noticeable, it was overloaded, and he saw no relief by reason of the increased number of questions that came before parliament except in the delegation not only of administration but the making of laws to commissions. There was nothing in sight but government by commission and he was not afraid to see the experiment tried. For instance he would put the tariff under the control of a commission. Parliament

School Prizes Presented. The prizes for the school games were presented as follows: Public school, James Ewen, Hess-street school, gold medal; James Harrison, Queen Victoria school, silver medal; Ernest Smith, Strathcona, bronze medal; The Brownalls, Barton-street, gold medal; Clara Fess, Hess, silver; Mary Ewen, Hess, bronze. Collegiate Institute, commercial and technical medals; Donald Veilker, Edinboro, gold medal; John Eganham, Central, silver; Bert Decker, Collegiate, bronze. The Wilson prize, a gold watch, went to Pearl Foster, and the Spenser shield was won by Strathcona school.

Nearly a Serious Accident. There came near being a serious accident in the T. H. & B. tunnel tonight, and as it was, one man sustained a compound fracture of the leg. A number of sectionmen were going thru the tunnel on a handcar, and a freight train was passing them. The smoke was so dense in the tunnel that the train had stopped, and they ran into it. James Morterman was thrown from the handcar, along with several others, and his leg was broken. He was taken to the hospital.

The annual meeting of the Infants' Home was held this afternoon. The reports showed a balance of \$294.42. During the year there were 119 women and children cared for. The election of officers resulted in the re-election of practically all last year's board, as follows: Mrs. J. H. Herring, first vice-president; Mrs. A. Robertson, second vice-president; Mrs. R. Hobson, third vice-president; Mrs. C. H. Herring, fourth vice-president; Mrs. E. B. Balfour, fifth vice-president; Mrs. G. Vallance, treasurer; Mrs. J. D. Ferguson, corresponding secretary; Mrs. G. Girls' New Middie Dresses

Good Style, Good Material and Moderate Price

Every school girl wants a middie dress. She feels out of fashion if she is without one. And her mother is sure to approve of her choice, because no gown is more serviceable or suitable. Both daughters and parents, therefore, will be interested in a new design in girls' middie dresses that will be shown on Saturday. The novel feature, as seen in the illustration, is the deep kimona shoulder, the blouse slipping on in jumper effect. The material is fine navy serge, trimmed with red serge or black and white check, brass buttons and black satin tie contributing the finishing touch. Cricket St. Alban's Averages

Note and Comment

They will continue to curl for junk according to the resolution adopted at the annual meeting of the Queen City Club last night.

Red Walker leaves his comfortable quarters in Beach-avenue to-day for far off California, where the winter racing starts at Los Angeles on Nov. 15.

St. Louis sporting writers are going on record with explanations and charts concerning Lajoie's alleged base hits on Sabbath last, the none of them elaborate on Corridon's theory of standing back on the grass for eight straight bunts.

Fred Clark, manager and captain of the Detroit in the world's series a year ago was interviewed on the outcome of the approaching contest between the Chicago Cubs and Philadelphia Athletics.

The Pittsburg team, in my opinion, if they were playing the Cubs this series would stand a better chance of winning than the Athletics.

Clarke claims a team that knows their style from long experience against them has the better chance, and that the Cubs are to be an opposing team into a knot if they are unused to that system of play.

The racing thru the Grand Circuit this year was characterized by the highest uniform speed rate ever recorded for that great series of harness racing meetings.

NEW ORLEANS, Oct. 13.—Final preparations for the national amateur Amateur Athletic Union here Friday and Saturday, the first held in the Southern States were taken up to-day.

The Tigers practice last night lasted for 30 minutes. Since the game on Saturday the team has been out for a brief half hour, and on Sunday indulged in a long run with no light at all.

Art. Brophy was the whole works on the Grandstand team last year. It looks as if he is to be an important piece of the Montreal mechanism this season.

ST ALBAN'S AND SMITH RIVERSIDE AND HIGH SCHOOL GAMES

Official Cricket Reviews for the Season—Review of the Year's Play.

St. Alban's Cricket Club, as usual, had a very successful season in the summer just past. A total of 24 games was played, of which 22 were won, 4 drawn and 8 lost.

In the batting averages, P. Matthias is first, with 36.6, a fine average, his highest score being a century—105, not out.

The club in all games scored a total of 2522 runs for 306 wickets, an average of 8.2 runs per wicket.

Table with columns: Name, In, Out, Runs, Wickets, Average. Includes P. Matthias, A. J. Harrington, W. J. Hancock, etc.

Paragon Score Board

NEW YORK, Oct. 13.—Long before the Polo grounds gates were opened for the first game of the series which will determine the city championship, either in favor of the Giants, holding second place in the National League, or the Highlanders occupying a similar position in the American League.

The Highlanders were the first to break into the run column. Knight pitched to left, and when caught first, ran to third base.

The defence of the Highlanders' pitcher, the eighth inning after Mathewson had surged a healthy single into right field.

CHICAGO, Oct. 13.—As the result of matches in the third round of the world's national golf championship at Homewood to-day, only one American Miss Lillian M. Hyde of New York, was left to compete in the semi-finals to-morrow.

There will be practically no change in varsity's line-up for their game against Ottawa College at Rosedale to-morrow afternoon.

British United Notes. The British United footballers play at Stanley Barracks at 3.30 p.m. on Saturday against Moore Park. All players who are signed are requested to turn up as this will be a hard game. Milton Fenn, the B. U. A. C. boy who made such a good showing in the Ward marathon last Saturday, will start in The Hamilton Herald race on Thanksgiving Day. The club has a greater number of boxers in training now than ever they had before, and fully 20 entries are expected for the tournament, and these are all good boys, who will set things humming before they are beat. Angus Mackay, the club's 112-lb. boxer, who showed such class last season is leaving for New Zealand on Saturday, to will, unfortunately, be unable to box in the city tournament. Thanksgiving week, in Mutual-street rink. However, he will represent the B. U. A. C. in New Zealand, and the club wishes him every success, as he is a good game boy and deserves to do well. The British United, together with several other clubs are running a concert at Massey Hall on Nov. 4. A lot of the best talent in the city has been procured and a highly enjoyable evening may be assured. On Nov. 5 the club will hold an old boys' reunion at their clubrooms, 499 King west. Some boxing bouts will be put on, and a wrestling match is being arranged, while all the old singers, who were so popular last winter, will be there with new songs, looking for more glory.

JEAN WINS CUP RACE FEATURE AT LEXINGTON

Establishes New World's Record For Four-Year-Old Trotters—Five Events Decided.

LEXINGTON, Oct. 12.—Jean, the Director Shire mare, owned by Captain David Shaw of Cleveland, to-day won the Walnut Hall Farm Cup, the feature of the Kentucky Trotting Horse Breeders' Association meeting. She won in straight heats and established a new world's record for four-year-old trotters, going the third heat in 2:04 1/2, a half second better than the record of her grand sire, Director, of 2:04 1/2, made in 1876.

Jean was second in all three heats to the head of the stretch, but came strong each time in the finish and was easily pushed for a record in the final round for two miles, trotting the distance in 4:54, one and three-quarter seconds under the mark set by Crepuscul in 1902.

Aileen Wilson, owned by John W. Cookley of Boston, paced a mile to a wagon in 2:04 1/2, and beat the world's record, made by Edna W. in 1902 by a second.

The 2 1/2 mile, carried over from yesterday, resulted in a straight heat victory for Fair Margaret. CARRIED AWAY MILLION AND HALF IN COLD CASH

C. D. Sheldon, the Missing "Blind Pool" Operator, Failed To Return to Montreal.

MONTREAL, Oct. 13. (Special.)—All sorts of rumors were about the disappearance of Sheldon, but one thing is sure, the absconding broker did not show up at his office this morning as he had promised. Manager Burnside. All hope disappeared, therefore, from the hearts of those who were duped by the "blind pool" operator. He had promised to return at an early hour. However, Mr. Burnside, the guardian, took possession of the books, which, according to a statement furnished by Mr. Sheldon to David Burnside, his office manager, showed assets of \$4,173,237 and liabilities of \$2,860,556, and a surplus of \$1,312,681. This was on Aug. 21 last. Mr. Burnside is unable to give the statement shows the actual condition of Sheldon's business at that date and that the surplus was subsequently squandered. If this is true, it would indicate that Sheldon and his confederates, and it is now admitted that the "blind pool" operator had outside help carried away with them something like \$1,500,000 in cash to tide them over the winter. A pretty sum, indeed, to show as the result of prying for twenty months on the credulity of get-rich-quick investors.

Accounts, Aug. 31, \$1,387,021 (including 50 per cent dividend); cash in hand, \$1,173,237; cash in bank, \$252,654; total, \$2,860,556. Assets—Margins, as per statement attached, \$2,821,600; cash in New York bank, \$1,140,000; credit at brokers, \$12,000; Montreal Bank account, \$69,737; total, \$4,173,237. It appears that Sheldon told one of his employees that he had over a million dollars in a New York bank, where it was available at any time, but his statement, of course, has not been confirmed.

Ottawa People Lost Heavily. OTTAWA, Oct. 13. (Special.)—It is estimated that Ottawa people have lost through the subject of "Blind Pool" over \$1,500,000. A special luncheon of the Canadian Club will be held on Monday at 1 p.m., when the club's guest will be Dr. T. A. Longstaff, M.A., F.R.G.S., London, England, who will give an address on the subject of "Alpine Clubs of Canada and the Value of Canadian Mountain Regions as a National Asset."

Eat "Gold Crust" ---A Special Bread

Although costing no more, "Gold Crust" bread is made in a special way by Nasmith's from a careful mixture of flours. The intention is to make a superior bread, especially nutty in flavor, and with more gluten than regular breads contain. This adapts the bread to the home with growing children in it. To have Nasmith's courteous drivers make regular deliveries, write or telephone Main 4372, ordering "Gold Crust." Name on each loaf.

HOW TO GRAFT TOMATOES ON EGG-PLANT. I take an egg-plant (pepper plant) about two months old, and cut it off about two inches above the ground. Then I take a tomato plant of about the same age and cut off the top or young branch—it makes no difference—and graft it on the eggplant. Then I wrap it with soft cotton to keep it in place. It takes about twelve days before you can see whether union has taken place.

OTTAWA, Oct. 13. (Special.)—Le Temps to-day publishes another anti-Fallon story. It reproduces the text of a long resolution passed at the recent meeting of the Canadian Education Association here, when the bilingual school issue was discussed. This resolution, according to Le Temps, took up the denial of Bishop Fallon that he was adverse to the French language. The resolution, after citing sworn documents about the bishop's utterances at Windsor, went on to say that, in view of these sworn documents, it to the bishop's anti-French utterances, it could not accept his denial. It is stated that owing to the scarcity of qualified teachers in Ottawa, French separate schools in Ottawa will be ordered closed by the department of education within a few weeks.

Hearing in Shrimps. Cole has found that the sense of hearing in the shrimp (Gammarus) is very rudimentary, and is confined to a remarkably small portion of the musical scale. In Cole's experiments the sounds were usually produced by a tenor trombone. When a loud note of the proper pitch was sounded some shrimps responded in a striking manner by folding the first pair of antennae tightly beneath the body. This effect, however, was produced almost exclusively by the note C sharp of the middle octave, so that the shrimp offers the remarkable example of an animal whose sense of hearing is almost restricted to a single note. Moreover, only a few of the shrimps tested responded even to this note, and these few soon became fatigued and ceased to respond.

MGR. FALLON'S REPLY TO THE HANNA LETTER

Promises a "Bomb" for Somebody When He Issues a Carefully Prepared Statement.

The publication of the translation of a memorandum of a conversation which Hon. W. J. Hanna, provincial secretary, had with Mr. M. F. Fallon, bishop of London, in Sarnia, May 22 last, brought a vigorous statement from the ecclesiastic. Hon. Mr. Hanna sent the following telegram to the bishop on Wednesday night: "Publication in Quebec press of memo. prepared by me for Dr. Fyne and Sir James after my discussion with you last summer, amazes me. Am investigating and will write you fully later. It did not get out from my office."

Yesterday morning the following interview was secured from Mgr. Fallon, who was at St. Catharines, Ont. "I stand by and reiterate every word of the statement I made on the 22nd of September, the only statement which I authorized to have published. On that occasion I stated that the assertions made in the public press that I am unfriendly to the French-Canadian people are false and malicious. I stand by that statement and will not retract it. I do not regret it, notwithstanding the publication of an interview that may have been had with me and the saying that I am opposed to the teaching of French or any other language in a separate or any other schools in my diocese."

The provincial secretary did have an interview with me, some four and a half months ago. It took place at Sarnia, and this is how it was brought about. Rev. Father Kennedy, one of the pastors there, told me that Mr. Hanna was in town, and he asked me if he might refer to me in an interview. I told him I would be pleased to have the provincial secretary call, and from what Mr. Hanna told me he was equally pleased to see me. At least he told me so.

The conversation we had lasted about half an hour and the school topic took up most of the time. What transpired between us was by no means confidential, but it was not meant for publication. Whenever I want anything published I am quite capable of looking after it myself. His Irishness in the matter seriously, and is preparing a statement which he will issue in a few days. He promises something of a sensation, for he says, "It might add that the reply will prove quite as interesting to some people, and will act considerably like a bomb. Pending the reply I might state that there is no hostility, but on the contrary there is absolute friendliness to the French people, and their language and their interests are my opposition to the bi-lingual school system and its results in my diocese."

From the tenor of the remarks it appears that Mgr. Fallon jumps at the conclusion that the memorandum was given out by Mr. Hanna. "Politics are politics," he said, "and when one is in the game one has to use the methods. I'm not in the game, so why have anything to say I hit straight out." The letter was written by the provincial secretary to Dr. Fyne. Whether the giving out of it was a piece of office riving or of political treachery I don't know, but I will deal with it when I make the statement I am going to make at an early date, giving the facts to show the condition of public education under the bilingual system in the County of Essex and other parts of my diocese.

As to his attitude indicated by the text of the letter, the bishop says, "I don't care what Mr. Hanna says; I am not being fooled. I know what I said to Mr. Hanna, and the opinions I expressed to him then do not in any way conflict with the statement I authorized to be made public. I'll attend to Mr. Hanna when I get the time." Mr. Hanna Explains. While not wishing to add anything to the controversy, Mr. Hanna, when interviewed yesterday, said that the translation from English to French and back again to English was quite unjust to the bishop and also to the original memorandum.

Favors the King James Bible. We are just old-fashioned enough to take no stock in the modernized Bible which is shortly to appear. "Couched in every-day language with obsolete words and phrases eliminated," the King James Bible has done more to preserve the good old Saxon words and style, which are the best English literature has produced, than anything else. Instead of a movement to get us farther away from that vigorous, simple, classic style, and in the interest of establishing the finest literary ideal possible to a people destined to use the curious hybrid which the English language has become, it is shortly to appear a "couching" of English that we possess—St. James Bible. It is the greatest treasure-house inspiration and teacher of ours.

A FAMILY CONFERENCE—A FAMILY CLUB RESULTING IN A MEMBERSHIP IN—The Mendelssohn Piano Club

Yesterday the head of a family took out a membership in the piano club, stating that he did so on behalf of his three children, who had formed a club among themselves to buy the piano for the home. Each one had agreed to contribute fifty cents a week as their share of the regular payments. There are doubtless many other young wage-earners in the city who would like to do similarly. To them the Mendelssohn Club presents a most exceptional opportunity—the opportunity to secure a \$340 piano for \$240, and at the same time pay for it in easy monthly payments of \$6 each. Club members have the choice of five different options of payment:—

- Option A—A \$340 piano for \$240 cash.
B—A \$340 piano for \$250, on payment of \$50 cash and \$10 per month until paid, without interest.
C—A \$340 piano for \$260, on payment of \$25 cash and \$20 every three months until paid, without interest.
D—A \$340 piano for \$280, on payment of \$15 cash and \$7 per month until paid, without interest.
E—A \$340 piano for \$266, on payment of \$10 cash and \$6 per month until paid, without interest.

Think it over—talk it over. Come in, hear and see the pianos. Act now. Remember, the club membership is limited to fifty. Store open Friday and Saturday evenings this week.

METHODIST MISSION BOARD IN SESSION

Will Continue Until Tuesday—Reports Submitted—A Great Deal of Work To Be Done.

The Methodist General Board of Missions Conference opened yesterday at the Elm-street Methodist Church, and will be concluded next Tuesday. Dr. W. R. Young of Montreal was appointed general secretary, and W. Hunt of Calgary assistant secretary. All returned missionaries, Rev. Dr. Heustace, and Mrs. Wilmot presented the report of the Women's Missionary Society. The report shows a total membership of 14,752. In home fields they have 55 missionaries, 22 of whom are in active service. Rev. T. E. Shore reported on the Asiatic committee to learn their different languages, so that these men will be capable of doing effective work in the non-Christian world.

GRAND TRUNK REPORTS A PROSPEROUS HALF YEAR

Increase of £455,168 in Gross Receipts—173,245 More Passengers Carried.

(Canadian Associated Press Cable.) LONDON, Oct. 11.—The G.T.R. report for the half year ending June 30, shows an increase of £455,168 in gross receipts, passengers yielding £95,000, and freight and live stock £324,000. The number of passengers carried rose 173,245, while freight and live stock increased 1,255,000 tons. Working expenses advanced £72,000. The committee decided to recommend that a modern language department be opened in the technical school and that Miss H. E. Downey, B.A., be made head of that department. The following resignations were accepted: Miss A. Fegally, teacher in Papez-avenue school; Miss Mabel Morris, now on leave; W. W. Noble, principal of Elizabeth-street school. The committee recommended the following appointments: W. H. Harwood, to be principal of Elizabeth-street night school; P. T. Hurry, to the King Edward night school; J. L. McCullough, to be assistant in the Alexander Muir night school. A big batch of transfers and temporary appointments was adopted.

HAS THE QUALIFICATIONS Recommendation of Miss Bryans' Appointment Endorsed.

In order to get right into the Hughes-MacMurchy controversy the management committee of the board of education hustled thru the regular routine work yesterday afternoon in double quick style. Stress was laid by one of the evening papers yesterday on the fact that Miss Edna Bryans, daughter of Trustee Bryans, was receiving an appointment as a domestic science teacher over the heads of other applicants, who were better qualified for the position. When spoken to by The World last evening Miss Ida Hunt, supervisor of domestic science, stated: "I have every confidence in the judgment of the inspectors. Miss Bryans is well qualified for the position." Inspector Hughes also stated that Miss Bryans had been devoted herself to the study of the work in the Toronto schools for some time, and is the best qualified teacher available at present time. The committee decided to recommend that a modern language department be opened in the technical school and that Miss H. E. Downey, B.A., be made head of that department. The following resignations were accepted: Miss A. Fegally, teacher in Papez-avenue school; Miss Mabel Morris, now on leave; W. W. Noble, principal of Elizabeth-street school. The committee recommended the following appointments: W. H. Harwood, to be principal of Elizabeth-street night school; P. T. Hurry, to the King Edward night school; J. L. ANGLICAN FUNDS VOTED FOR INDIAN SCHOOLS \$10,000 To Assist in the Work—Missionary Society Urged To Take Over Indian Work.

Indian schools in the west will be given financial assistance from a grant of \$10,000 to be supplied by the Church of England Missionary Society. It was so decided at the meeting of the management committee, held in the St. James' parish house last night. An attempt will be made to secure further assistance out of government funds. A deputation consisting of Archdeacon McKay of Prince Albert and Canon Murray of Winnipeg spoke on the subject. Archdeacon McKay thought that the Church of England should take over the whole of the Indian work as a definite missionary movement. Two years ago the board was going on, but dropped it. Since then it has been supported by special contributions. The following commission was appointed to inspect the schools in this district and report on the required improvements: Primate Matheson, the Bishop of Huron, Dr. L. H. Davidson, K.C., and Matthew Wilson, K.C. Just prior to the conclusion of the meeting, the resignation of Canon Tucker from the general secretaryship of the association was read by the Bishop. Discussion on this will take place when the society meets at this morning's session, and is altogether likely that the request of Canon Tucker or will be granted. The secretary stated that he would keep a super-vision over the work until the end of the year, when a successor will be appointed.

THE SUSPICION OF LARRY.

When Larry faced the St. Louis fire, he'd \$ to go to be secure. Disturb the game's tranquility. They'll spread the whitewash, that's a bet. That plan is best— But, hully gee! Chaucer Elliott's Views. Chaucer Elliott writes The Hamilton Herald as follows: "In my interview last week I was afraid to express my opinion as I did not know what Friday night just how our team would line up, and I did not want to put you in wrong. I thought Tigers would trim Ottawa, however, and I made a few dollars on the game. I suppose you notice where Ottawa has had the championship was and hanging up in the capital for some time. To listen to the Ottawa talk, a fellow would be discouraged from putting a team on the field. We have some team down here and within the next two weeks, when I get the team into shape, you will hear from us. We will have Moisan in the game again, and as Kelly and Savage are as good as ever, they will fill in some gaps in our team. Wait until you see our back division. The half-backs are some class, my boy, and, on the square, I think they are the best in the union. They can all kick well and have good heads. In Tommy Sinton we have the greatest full-back in the business and Cameron and Savage are the greatest pair of outside wing men playing the game today. We are not claiming to have the championship clinched or anything like that, but we will be knocking at the door. We have a real classy team and it will take some beating to keep us down this year. Argos came down here all puffed up after defeating Tigers, but the puff-broke after about ten minutes of play and after that they did not look strong to us. Sintonky was a disappointment there after all the praise he had received in the western papers. I do not think that the Ottawa team is as strong as last year, and we are looking for our hardest game with Tigers. Remember me to all the boys and give my regards to the Irish queen, Diddy McCarthy. Your old friend, Chaucer.

A Lost Watch Fob. A watch fob ornamented with two silver running trophies, one a triangle and the other a medal, bearing the name of K. Coulter was picked up opposite Shea's Theatre yesterday and left in The World Office.

AFTER THE BROWN DODGER.

A Hunter's Idea of the Proper Rig for Snipe Shooting. The matter of clothing for snipe shooting is one that demands some attention. Of course the orthodox rig is composed of hip boots, light trousers of strong cloth and a canvas shooting coat, summer weight. To my notion, says a writer in Outing, "this rig, with the exception of the light coat, is a poor one. To begin with I don't wear boots. The cream of the snipe shooting, except in States where the law does not bar gunning in the spring, is in September, when the weather is fairly warm and the water in the marshes has not yet turned cold. Consequently my feet have no terrors to a sturdy constitution and a light pair of canvas shoes that will dry quickly and will not hold water are infinitely more comfortable and about one-tenth as heavy as rubber waders. There is nothing that will sag a man so much as dragging ten pounds of rubber bladders to his feet thru a snipe marsh for as many hours. Besides my canvas shoes that dry quickly once I am out of the marsh I wear wool next to the skin. It doesn't chill like cotton at the end of the day when the sun has set and the twilight is gray with evening winds. Then, too, it absorbs the perspiration at midday when the sun is hot and keeps the body dry. Woolen trousers and a woolen shirt and then the canvas coat with the sleeves cut out—and you are rigged right."

Late Inventions. The French inventor of a drop frame motorcycle which women may wear skirts to ride has given it the name of "motoscoche." A pneumatic bed-bathub, which permits a sick person to be bathed without removal, has been invented by a Tennessee doctor. An attachment by which loose shoes may be temporarily fastened to a horse's hoof until a blacksmith is reached has been patented by a New Jersey farmer. A meat and fruit press that a Pennsylvania man has patented is inclined so that the juices flow into a receptacle placed under it as rapidly as they are extracted. A New York inventor has brought out an advertising clock that utilizes a phonograph to attract the attention of passersby to a series of cards which are changed as they pass.

FOR THE DEAF. The Electrophone at F. E. Luke's Store on Tuesday and Wednesday. The Stolz Electrophone Co., Chicago, will have an expert at the store of F. E. Luke, 159 Yonge-street, on Tuesday and Wednesday, Oct. 18 and 19, when their wonderful little invention, the Electrophone, will be on exhibition. The Electrophone is a marvelous instrument, perfected to such a degree that the deafest person can hear the faintest sound and enjoy all the pleasure of church, theatre, public speaking or ordinary conversation. Over one thousand are in use. Enthusiastic testimonials are being received from many respectable people. The Electrophone is almost invisible when in use. It is a great boon to the deaf or partially deaf, as it makes them hear and gradually restores hearing. Mr. Luke will be glad to have all who are interested call and inspect the Electrophone on Tuesday and Wednesday, when the expert from the home office will demonstrate what it can do.

VALPEQUE OYSTERS WHERE? ST. CHARLES, OF COURSE. A man for collecting pool and billiard balls has landed John Duncan, 209 Church-street, in the tolls. Three charges are against him, namely, Abraham Nassar, 77 West Queen-street; William Patterson, West Queen-street, and H. C. Simons, 129 1/2 West King-street.

PHONE RATE DECISIONS DEFERRED TILL DECEMBER

Chairman Mabee States That No Increases in City Will Be Sanctioned—Fight Over Siding.

The Dominion Railway Commission met yesterday in the city hall, to hear arguments and give decision on a docket of over thirty cases. A good proportion of the smaller cases were cleared off, but the question of charges by the Bell Telephone Co. was only begun. Corporation Counsel Drayton wants time to collect plenty of evidence, so the whole matter has been held over until the 15th of December.

Lawrence McFarlane, of Montreal, Chief Solicitor for the Bell Telephone Co., made application that the company's schedules of rates for Toronto and suburbs, introduced in 1906, be filed by the board. The object of this was not the board's approval of the rates, but the establishment of the company's claim that the city limits, within which flat rates were specified, should mean the limits of the city at the time the schedule went into effect.

A lengthy discussion followed, the chairman holding that it would be ridiculous to establish a precedent whereby people would have to look up the municipal archives before they could tell their position with regard to telephone company. Mr. Mabee could see no harm in withholding the filing of the schedules until the whole telephone question was taken up.

Alleged Overcharges. Specific complaints of alleged overcharges were made by I. W. Smith, 25 Glen-avenue, Deer Park, who pays \$55 for his phone, and Senator Arch Campbell of the Campbell Milling Co., who pays \$60 for a phone in West Toronto. Local Manager Kenneth J. Dunstan claimed that these recently added suburbs should be charged on the same basis as other places which were outside the city in 1906.

Mr. Dunstan thought it too much to ask that the company should indefinitely follow with a flat rate every future expansion of the city. "I suppose you go on the old principle," said Mr. Mabee, "that the more subscribers you get, the more it costs you. But I notice you go on trying to get new subscribers just the same."

Another phase of the telephone subject was introduced by Edward Bayly, who complained that his sister, who is a trained nurse, had to pay professional rates for her phone. Miss Bayly's name was not followed by her profession in the telephone directory, and she transacted practically no business over her phone, one business call a month being a sanguine estimate.

Mr. Dunstan declared that the cases were entirely covered by the cases already charged business rates at his office, while Miss Bayly had no office and no other business telephone. In consequence, he argued, she was in business, her license must be her office, and her phone a business phone.

Level Crossing Protection. The application of the Consumers' Gas Co. for authority to lay a 16-inch gas main under the Grand Trunk tracks at Eglinton-avenue was laid over. The question of protection of the Grand Trunk tracks in the Village of Palgrove was also referred to Engineer Mountain, to the board, at present. "There is quite unnecessary in Toronto," said Chairman Mabee, "which have many times the traffic of the one you complain of." Another question of level crossing protection, near Whitby Junction, was thrown out.

Gift Bridge Not Wanted. Corporation Counsel Drayton argued that the railways should pay a greater proportion of the cost of the new high level bridge over the Don than had been set by the board. Mr. Drayton said the city should pay 25 per cent. of the cost, but it was presenting the old bridge to the contractors. The present low bridge was sufficient for traffic purposes, and the change would only benefit the railways.

Public Amusements

William Gillette, the prominent actor-dramatist, will be seen at the Princess next week in his three greatest successes. The week will be divided as follows: "Sherlock Holmes"—Monday, Tuesday and Saturday nights.

"Secret Service"—Wednesday and Thursday evenings; Saturday matinee. "The Private Secretary"—Friday evening. The latter piece is one of the merriest of comedies; the others are strong dramas. The seat sale is now open.

When Mme. Liza Lehmann was here last January the press was so unanimous in praise of her, and also of her excellent quartet, that it seems but necessary to mention her return as sufficient to draw a full house. Popular prices prevail for this entertainment, and no student of music should miss it. About fifty rush seats will be on sale at 7.15 at Massey Hall.

The management of the Royal Alexandra theatre takes pleasure in announcing for next week as their attraction the famous English comedian, Woodson Grossmith, who, accompanied by his London company, will be seen in Mr. Carton's successful three-act farce, "Mr. Freedy and the Countess." The organization is to be brought here in its entirety. Miss Granville as "The Countess," is said not only to be a remarkably clever artist, but a very beautiful woman.

The better the novel, the harder it is to make a good play of it, but "The Virginian," as dramatized by the author and Kirke La Shelle, is an exceptionally good one, and will return to the Grand next week. It is the most interesting play ever presented to the public and comes as near being a twofold picture of frontier life as it is possible to make it. The company enjoys the reputation of giving the public a first-class entertainment and this season has engaged an organization of superior players.

FOUND CAPITALISTS HAD GOT TO THE RAPIDS FIRST

Edmonton May Be Eched Out of Power Scheme—Some Queer Work at Ottawa.

EDMONTON, Oct. 13.—(Special.)—The City of Edmonton will not be permitted to acquire the right to harness Bailey Rapids, on the Athabasca River, without a fight.

The city's representative, John S. Fielding, who was sent north a short time ago to investigate power possibilities, finds that he has been forestalled. When he got to the rapids he found the notice, nailed to a stake, stating that the city had been first in survey for purpose of obtaining water rights on the Athabasca River at Grand Rapids, taking in and including all necessary lands and all water passing thereover. Dated Sept. 19, 1910.

(Signed by A. Violette, per M. W. Harris, witness, F. Violette.) A. Violette is apparently representing a large amount of American capital. He, with three companions, outfitted here in a hurry, soon after the city had announced its intention of building a dam, and rushed away into the north, beating the city to the site of the proposed power plant. One of the four men is a millionaire. It is understood also that they have a representative at Ottawa, looking after their interests.

Also the city received a telegram from the department of the interior in August, acknowledging receipt of preliminary application. Violette has received on recently stating that no application has yet been filed.

POWER GOING TO WASTE

Near Route of H. B. Railway, Would Operate Road Twice as Long.

NORWAY HOUSE, Oct. 13.—(Special.)—William Ogilvie, explorer and engineer, declares that an enormous amount of water power is being wasted on the Saskatchewan and Nelson Rivers within a hundred mile radius of the line of the Hudson Bay Railway. If this were properly harnessed and transmitted, more than enough to operate a road twice as long as that railway could easily be secured. This conclusion is reached by Ogilvie after a month's trip in exploration of the waterfalls and rapids of the Nelson River for the department of the interior.

"A conservative estimate," he says, "of power in sight at the principal falls, to be developed with little outlay, is one million horsepower." He believes that these rivers contain enough available energy to drive all the steam propelled machinery in Canada. The roadbed and general conditions, both in operating and service, on the Grand Trunk Pacific Railway, between Winnipeg and Edmonton, are coming in for strong praise from patrons who use it some over the road. At the general offices in Montreal a letter was received from a professor of one of the prominent collegiate institutions in the west, which reads as follows: "On my recent trip in the west I traveled over the Grand Trunk Pacific between Saskatoon and Winnipeg. It was my first trip over this road, and must say I was surprised to find the roadbed in such excellent condition. It seemed like traveling on one of the old main lines in the east. The dining and sleeping car service were first class in every particular, and I found the train officials courteous and obliging. Passengers whom I met were unanimous in their praise of the road and its appointments."

SOCIETY NOTES

The officers and members of the Aura Lee Club will hold a dance at their club room, Avenue-road, on the evening of Thursday next, Oct. 20. Dr. and Mrs. John L. Bray have removed from 260 Avenue-road to 129 Kendal-avenue. Mrs. Bray will receive on the second and fourth Fridays. Petition to Commute Sentence. BELLEVILLE, Oct. 13.—In the Township of Humberston a petition is being circulated, praying the government to commute the sentence of death passed upon Robert Parker. This is the township where the crime took place.

LET HIMSELF OUT OF WINDOW BY BED SHEETS

Narrow Escape From Burning Dwelling in Early Hours of the M. r. ing.

GALT, Oct. 13.—(Special.)—As the result of a fire which occurred at his home on Blenheim road at an early hour this morning, John Egerton is homeless, without furniture or other effects, but thankful that he escaped with his life.

Mr. Egerton was awakened at 2 o'clock by the noise of something falling, only to find the house on fire, the noise being the plaster falling from the ceiling in the room below. When he opened the door of his room smoke poured in and he could see that the staircase was burning.

Realizing that prompt action was all that would save him, Mr. Egerton took the sheets from the bed and tying them together and one end to the children's cradle, let himself out the ground thru the window at the front of the house, clad only in shirt and shoes, and nearly smothered. The house is a total loss. It was valued at \$5000, no insurance.

The catastrophe might have been worse but for the fact that Egerton's wife and two daughters spent the night at the home of her father, John Cleland of Rockton, having gone there yesterday to attend the fair.

Indians Were Unruly. BRANTFORD, Oct. 13.—High County Constable Kerr, in arresting an Indian on the reserve this week, was attacked by a mob, which relieved him of his prisoner. He will return to the reserve and make things hot for the assailants, some of whom he recognized.

Marriage Ends Prosecution. On account of Thomas Peacock having married the crown's witness since he was charged with illegally providing drugs for her, Crown Attorney Corley had to withdraw the charge against him.

THE CHANLER CASE AGAIN

Trustees of Estate Enjoined From Disposing of Property.

NEW YORK, Oct. 13.—Justice Guy in the supreme court to-day granted to Mrs. Julia C. Chanler, first wife of Robert Winthrop Chanler, an injunction against R. W. Chanler, Lewis Stuyvesant Chanler and Winthrop Chanler, the Union Trust Co. and the New York Insurance & Trust Company, as trustees of the Chanler estate, and Lina Cavalleri Chanler, restraining them from disposing of or transferring any property belonging to Robert Winthrop Chanler, until the action brought by the plaintiff to set aside the pre-nuptial agreement, entered into by Robert W. Chanler and Lina Cavalleri, is determined in court.

DELINQ SENT FOR TRIAL. Will Go Before Chancellor Boyd, Charged With Murder. HAVELOCK, Oct. 13.—(Special.)—Hugh Deline was to-day committed for trial on a charge of wife murder.

Seventeen witnesses were heard, but the evidence was almost altogether a repetition of that given at the inquest. A sister of the deceased woman told of Deline slapping his wife in the face; while a woman neighbor said Mrs. Deline had told her that more than once Deline had been guilty of unnatural conduct.

James Hilton gave new evidence to the effect that Deline had cleaned up a home of R. Buchanan's, but said he wouldn't move into it because he expected to find his wife dead.

Magistrate E. Elmison, in committing said the evidence was weak, but the circumstances were suspicious in that Deline had spent so much time before giving the alarm and his retrial said he doubted Deline's sanity.

Deline will come before Chancellor Boyd in the assizes the last week of the month. He was represented to-day by Mr. Gordon of Peterboro. Inspector Reburn of the Ontario Criminal Investigation Department, who gathered the evidence, was also present.

Engineers Get License. "A fine body of men; no reason why we shouldn't grant them a license," said Chairman Coatforth yesterday, when the license commissioner granted the application of the Engineers' Club, King-street, for refreshment privileges. The club has a professional membership of 400.

NEARLY SUFFOCATE IN CHIMNEY

Three Bricklayers Have Adventure at Osgoode Hall. During the first trial of heat yesterday from the new plant at Osgoode Hall, three bricklayers narrowly escaped suffocation.

They were climbing inside the big chimney to put on the finishing touches, when they discovered the draft was badly poisoned by coal gas, and it was with extreme difficulty they finished the ascent to where they could lean over the sides and draw fresh air while the vents were being shut off from below.

The Last Rug Sale Today. The great auction sale of rare and costly Persian palace rugs, which has been continuing for the last ten days at the art rooms of Courlan, Babayan & Co., 40 King-street east, will be concluded to-day. A number of rare rugs from Abdul Hamid's palace will be offered at this final sale and will be sold without reserve. Rug buyers in Toronto will have a last opportunity to-day of securing these costly eastern rugs at their own prices. Sale will commence at 2.30 p.m. sharp.

A Serious Charge. CHATHAM, Oct. 13.—(Special.)—Rev. W. A. Gunton, provincial inspector of the Children's Aid Society, assisted by Constable McCrea of Bothwell, yesterday afternoon arrested James Oscar Coulter on Smoke-street, Camden Township, on a charge under the Charlot Act. The girl in the case is fifteen years of age and is a stepdaughter of the accused. Coulter is about forty years of age.

Nearly Killed by Robbers. VANCOUVER, Oct. 13.—With pockets rifled and his skull fractured, Harry A. Roberts, who arrived in this city yesterday from Vancouver, was found lying in a lane between Hastings and Cordova-streets, near Castle door. He is now in a hospital at death's door. This is one of several cases of attempted robbery occurring within a few days.

Indian Shipments.

India—Shipments for the week 562,000, against 656,000 last week, and 256,000 a week ago. Broomhall estimates the shipment next week at 944,000 bushels.

Broomhall's agent at Calcutta cables that the weather is unsettled in the province. This is unfavorable for farm work and seeding is being delayed.

Crop Advances.

A cable to A. O. Slaughter from Argentine reads: The wheat crop in the Province of Buenos Ayres is reported to be promising very well. In the provinces of Santa Fe and Cordoba and some parts of the Northwestern States crop complaints are numerous. Rains came too late and were insufficient.

Broomhall says on European visible Tuesday: Heavy increase in the visible was unexpected and led to a rise in the price. Belgian accumulation and also the increase in the passage quantities this week.

Rainfall is Needed.

The Price Current says: "Scattered rains fell over the eastern part of the central region during the past week, which were beneficial to fall sown wheat, but more rainfall is generally desired over the greater part of this region to promote the growth of the winter wheat. Corn cutting has been actively under way during the week and considerable of the crop is in stock. The outlook is general within the next two weeks."

BANKS AND RAILWAYS SHOULD HELP FARMER

Establish Model Farms in Territories Thru Which They Operate, Says Principal Creelman.

GUELPH, Oct. 13.—"The banks and railroads of the province reap the most direct benefits from the advancement of agriculture, and now that the government has done all it is doing in its share in the work, I think that it is up to the banks and railway companies to help to extend to the farmers of the province the knowledge that has been acquired at such great expense by the government," declared President Dr. G. C. Creelman, in giving his testimony before the royal technical education commission.

The commission, in going thru the Ontario Agricultural College and Macdonald Institute, struck a veritable hot bed of just the kind of information they are most anxious to secure, and such as they are unable to get anywhere else in the Dominion.

President Creelman's main contention was that it would pay the railways and banking companies, some of the largest at any rate, to establish model farms at not too distant intervals thru the territories in which they operate. These farms should be in charge of scientific agriculturists, and farmers should be invited to visit them often and get valuable advice and encouragement.

From the testimony of Prof. A. C. Zavitz of the field husbandry department, the chairman of the commission figured it out that Ontario had been enriched to the extent of about \$200,000 in the past 12 years by the introduction of Manchurian barley, and the adoption of better methods of farming. The average yield of barley for the province during the past 12 years was more than double that of the previous 12 years, and the land had been greatly enriched by growing it.

Thus the commission were convinced that the best way to improve the province in the increase of the yield of barley alone far more than made up the expense of the O. A. C., and now the commission were told by Prof. A. C. Zavitz that a car was worth more than a horse known as the O. A. C. 2, that was even better than the Manchuria barley.

\$1500 FOR LOST FOOT

Hercules Lennox, an employe of the Union Station, was yesterday awarded \$1500 damages by a jury in the assize court against the G. T. R. and C. P. R. for loss of a foot. The parties had agreed that if the jury found a verdict for the plaintiff, he should be allowed the maximum under the Workmen's Compensation Act, which, in this case, is \$1500, or three years' wages. The jury found that the negligence consisted in the fact that the foreman under whom Lennox was working, failed to notify him that a car was approaching. The car, which was a Pullman, and "kicked" by a Grand Trunk engine, struck Lennox, cutting off his foot.

Mrs. Maria C. Bradley, 1123 Gerrard-st., had her suit against the city for \$2000 damages for a broken arm sustained by a fall on an icy sidewalk, dismissed.

The action of John Watkins, laborer, against the Consumers' Gas Co. for \$5000, for injuries received by the collapse of earth in a trench, was dismissed.

Geo. Kamanoff, aged 20, yesterday began action against the Ontario Power Co. for \$10,000, for the loss of both legs. He was working in a trench at the Power Company's works, when some overhanging pipe, which was his legs so badly that both had to be amputated.

DEFENDANT LEFT TOWN

The breach of promise suit of Miss Jean Clifford, who seeks \$5000 from Joseph Thomas Jeffries, a brass moulder, did not proceed in the assize yesterday, as Jeffries was scheduled to leave. Jeffries' counsel announced his surprise at being unable to go ahead. "I sent a messenger to Mr. Jeffries' boarding house this morning and found that he had got a telegram from the factory, and that he went to his boarding house, and then went out of town. I don't know what the nature of the telegram was, but it must have been urgent," said Mr. Curry, C. J. Robinson, for plaintiff, objected to a postponement, but it was finally agreed to let the case stand over to the next court, at defendant's expense.

Miss Clifford says in her statement of claim that in March, 1905, she and Jeffries agreed to marry, "and," she says, "this agreement has been renewed and confirmed by the parties from time to time." She asserts that the date for the ceremony was fixed for September 1909, but that afterwards Jeffries changed his mind, in consequence of which the plaintiff "lost the said marriage, and incurred expense in preparing for the same, and was injured in her health and feelings."

The defendant admits the engagements, but denies that he at any time refused to carry out the contract. He has a counter claim for \$100, which he says he delivered to his fiancée, in trust, to be deposited in a bank to his credit.

C. N. R. AGENT IN BRITAIN.

OTTAWA, Oct. 13.—(Special.)—Thos. Howell, general superintendent of immigration for the C. N. R., announced today that the company had secured the services as British agent of F. J. Morse, formerly editor of the "Salvation Army" publications. Five inspectors will be stationed in Great Britain, and report to Morse.

New Court House for Winnipeg.

WINNIPEG, Oct. 13.—(Special.)—Hon. Robert Rogers, minister of public works, conferred with a delegation from the law society of Manitoba, regarding plans for a new court house. The building will be erected on the present site, but will take up much more room. The city council has also been asked to call a public meeting to urge upon the Ottawa authorities the need for a new Ottawa hall.

350 CARS AT CITY YARDS

Common Grades 10c to 15c Cwt. Lower—Sheep, Lambs, Calves Steady—Hogs Easier.

The railways reported 123 carloads of live stock for Wednesday and Thursday, consisting of 1524 cattle, 3549 hogs, 2760 sheep and lambs, 104 calves, and 1 horse.

The quality of cattle both in butcher and feeder classes as a rule was not what would be desired. The common light weight cattle predominated in numbers, and these have been slow sale all week.

Receipts of hogs, of which there were few, and good feeders, which were scarce, held about steady in price, but common light rough butchers, and stockers sold at 10c to 15c cwt. lower.

Butchers.

Three choice picked butchers were sold by Maybee & Wilson, 1190 lbs. each, at \$4.75; 2 butchers, 1100 lbs. each, at \$4.50; 2 butchers, 1000 lbs. each, at \$4.25; 2 butchers, 900 lbs. each, at \$4.00; 2 butchers, 800 lbs. each, at \$3.75; 2 butchers, 700 lbs. each, at \$3.50; 2 butchers, 600 lbs. each, at \$3.25; 2 butchers, 500 lbs. each, at \$3.00; 2 butchers, 400 lbs. each, at \$2.75; 2 butchers, 300 lbs. each, at \$2.50; 2 butchers, 200 lbs. each, at \$2.25; 2 butchers, 100 lbs. each, at \$2.00.

Good feeders, 800 to 1000 lbs., \$3.20 to \$3.50; stockers, \$2 to \$2.50.

Milkers and Springers.

The market for milkers and springers was quiet, with a few common sold at \$40 to \$45. Late springers are slow sale. See the main sales given below.

Veal Calves.

Receipts of calves were light with prices steady to strong at \$3.50 to \$4 per cwt. A few odd new milk fed veals brought \$3.50.

Sheep and Lambs.

Receipts of sheep and lambs were liberal, but prices remained about steady.

Receipts of sheep, 1000 lbs. each, at \$3.50; 800 lbs. each, at \$3.25; 600 lbs. each, at \$3.00; 400 lbs. each, at \$2.75; 200 lbs. each, at \$2.50; 100 lbs. each, at \$2.25; 50 lbs. each, at \$2.00.

Hogs.

Receipts for the two days were 2349. The market closed weak with the prospect of another drop in price. Selects fed and watered to-day sold at \$3.25, and 2 drovers for hogs f.o.b. cars at country points.

Representative Sales.

Maybee & Wilson sold: 1 load of heifers, 800 lbs. each, at \$3.50; 2 choice butchers, 1100 lbs. each, at \$4.75; 2 butchers, 1000 lbs. each, at \$4.50; 2 butchers, 900 lbs. each, at \$4.25; 2 butchers, 800 lbs. each, at \$4.00; 2 butchers, 700 lbs. each, at \$3.75; 2 butchers, 600 lbs. each, at \$3.50; 2 butchers, 500 lbs. each, at \$3.25; 2 butchers, 400 lbs. each, at \$3.00; 2 butchers, 300 lbs. each, at \$2.75; 2 butchers, 200 lbs. each, at \$2.50; 2 butchers, 100 lbs. each, at \$2.25; 2 butchers, 50 lbs. each, at \$2.00.

Union Stock Yards.

Receipts of live stock at the Union Yards were 12 car loads, consisting of 247 cattle and 189 sheep.

Trade in sheep and lambs at this market on Wednesday and Thursday was active at good prices. Cattle also sold steady to firm prices.

Rice & Whaley sold on Wednesday and Thursday: 40 lambs, 9 lbs. each, at \$4.25; 20 lambs, 9 lbs. each, at \$4.00; 20 lambs, 9 lbs. each, at \$3.75; 20 lambs, 9 lbs. each, at \$3.50; 20 lambs, 9 lbs. each, at \$3.25; 20 lambs, 9 lbs. each, at \$3.00; 20 lambs, 9 lbs. each, at \$2.75; 20 lambs, 9 lbs. each, at \$2.50; 20 lambs, 9 lbs. each, at \$2.25; 20 lambs, 9 lbs. each, at \$2.00.

G. W. MULLER DEAD
Well-Known Tobacconist a Victim of Paralysis.

George W. Muller, the well known wholesale and retail tobacconist, died last evening at his apartments, 648 Church-st., of paralysis, after having been confined to his bed for three weeks. He was stricken six months ago, and on this account was compelled to give up the retail business he had so proudly established. For the past three weeks he had been under the consultation and attention of Doctors Guinane, Wallace Scott, W. B. Caven and Dwyer.

Mr. Muller had lived in Toronto for 12 years and achieved a wide reputation as an importer of the finest grown leats. Three years ago he established in the Traders' Bank Building the finest retail cigar and tobacco store in the world, spending \$30,000 in fitting and stocking it. He was born in Berlin, Germany, 54 years ago of Jewish parents, and came to Canada 25 years ago to become associated with Goldstein & Co., tobacconists of Montreal. From there he went to New York in connection with Nathan Michaels and came to Toronto, where he also came to Toronto, where he had the reputation of being very charitable. "He never refused a request for help," it was said by a friend last evening. "He never refused a request for help."

He was always open. He was not married and had no relatives in this country. He was a member of the Holy Blossom Synagogue and for several years was a member of the Toronto Hebrew Benevolent Society. The funeral will take place to-day.

Care of the Test.

In Queen Alexandra school last evening the first of a series of public lectures for parents of scholars, was given by Dr. W. H. Doherty on "The Care of Children's Teeth." Illustrated with lantern views. He made it clear that proper attention to the teeth from childhood onward ensures avoidance of toothache and facial deformities on growth. Infection from scarlet fever, diphtheria, etc., germs of which lodge in cavities of the teeth and in the accretions of uncleaned teeth.

Pupils of the school gave a program of readings and songs, and those present were warm in commending the idea of the lecture series.

The Italian Cholera Epidemic.

ROME, Oct. 13.—Twenty-three new cases of cholera during the past 24 hours have been officially reported, and in the Province of Bari, seven in the Province of Caserta, one in the Province of Foggia, 12 in the Province of Naples, and one in the Province of Salerno. Eleven deaths have occurred from the disease during the same period.

The annual meeting of the Toronto Central Committee of the Laymen's Missionary Committee of the Church of England will be held in St. James' parish house on Tuesday evening next.

CENSURED THE COMPANY

Jury Finds Death of Orangeville Youth Due to Negligence.

ORANGEVILLE, Oct. 13.—That Milton Sansom, the youth of 17 who met death on Oct. 10, as the result of an accident in the plant of the Orangeville Portland Cement Co., at Orangeville, while endeavoring to pass a rope around a shaft while it was in motion, the other end of the rope being wound around the pulley which turned a rotary kiln, the fingers of the deceased and his left arm being caught under the rope winding tightly between the shaft and the rope, thus whirling him around the main shaft, which makes a revolution a minute; we find made known by the company was negligent and that no persons should have been allowed to engage in such dangerous occupation with such appliances. We consider the company was negligent in permitting this practice, and recommend that it be discontinued at once.

After holding four sessions and visiting the scene of the accident, the coroner's jury empaneled by Dr. James Henry returned the above verdict late last night.

Cobalt-- Rise in Silver Prices Means Increased Earnings for Cobalt Mines -- Cobalt

Cobalt Stocks Will Benefit By Increased Value of Silver

Another Big Advance in Price of the White Metal--Cobalt Stocks Buoyant and Higher.

World Office, Thursday Evening, Oct. 13.

While there was a moderate falling off in the volume of trading in Cobalt on to-day's exchanges, there was no letup in the definite firmness which has been the outstanding characteristic of the market during the past few sessions. The general list of mining issues held at prices about on par with those of the preceding day, but in certain instances where the demand was in evidence, higher values were recorded.

The only outside news of any importance marketwise was the further advance in the price of bar silver. The white metal was quoted at 25 1/16d. in London, with cables indicating a remarkable advance in the market, with the quotation rather uncertain. In New York, the demand was a clear gain of 1/4 cent from yesterday. The silver market is showing a great recuperative power, and Oriental purchases are on the increase, so that no setback is anticipated.

On the local mining exchanges to-day there was a good demand for Cobalt stocks at fractions advanced. This resulted in higher prices for such issues as Chambers-Ferland, City of Cobalt and Hargrave. The latter issue gained a full point, the shares being in constant supply and the demand more marked than for some time. The buying is being formulated on the idea that the showing at the property warrants higher prices.

On the other hand, another strong point; the stock advancing to 1.08. The dividends on this issue make it look attractive at present prices and the shares are being picked up in anticipation of a rise in silver as well as Silver Bar came in for more active fractional advance, rumor having it that work would be recommenced on the property in the near future.

The market closed firm with the bid quotations generally around the top figures for the day. There was an evident scarcity of stock on offer and this knowledge of a strong demand for the stock was in evidence on the mining exchanges yesterday.

Interested in Chambers-Ferland.

An inspection of the Chambers-Ferland Mine will be made at the weekend by a syndicate, who believe that the property is a tremendous possibility.

On its location alone an engineer of world-wide repute, is satisfied that the company's claim is extremely valuable.

Local rumors are to the effect that a strong syndicate has taken an interest in the property, and recent buying of the shares are in part due to this knowledge of a strong demand for the stock was in evidence on the mining exchanges yesterday.

Case of Infantile Paralysis.

COBALT, Oct. 12.—A case of infantile paralysis is reported from Edville, East Northumberland. Gladys Gertrude Taylor, the ten-year-old daughter of Mr. and Mrs. Lewis Taylor, died after about a week's illness from infantile paralysis.

HARGRAVE

The situation in Hargrave at present resembles that of Crown Reserve in 1908, previous to the cutting of the main vein. It was known that the whether it carried its great value at depth. The vein was cut at the 100-foot level, it carried the values, and the stock advanced from 40 to 80, and was at 1.50 in three weeks. What is known about Hargrave is that a vein carrying bonanza value from 9 to 12 inches wide enters the Hargrave face across the Kerr Lake line at Kerr Lake's 225-foot level. If this vein carries the 225-foot level, it would mean an ore body worth about \$4,000,000, or equal to 1.60 for the stock. This is by no means beyond the realm of possibility. Hargrave's shipments from its No. 1 vein alone justify more than its present price. It has fourteen other veins located for future development.

COBALT STOCKS

The market for Cobalt Stocks is broadening and strengthening every day. We look for higher prices. We think well of Chambers-Ferland, Right of Way and City of Cobalt. Buy La Rose and Kerr Lake for a good advance.

GO. TINUOUS IMPROVEMENT.

The one thing about the Cobalt market is that stocks are making high prices. Reactions are due to selling from those who have profited, but the strength of the market is shown by the good buying power. The market is broadening and the liquidation of stocks has therefore little effect upon there are some which are approaching the dividend stage. There is a big field for investment and speculation in the Cobalt market, and present buyers will make money. After careful investigation, we think Beaver, Little Nipissing, Peterson Lake, Wetlaufer, Right of Way and Hargrave offers big chances for profit. Chambers-Ferland and City of Cobalt will likely sell higher.

Dynamited the Bank. PROCTOR, Col., Oct. 13.—Four masked men, heavily armed, rode into Proctor last night, shot up the town, dynamited the state bank and escaped after a running fight with citizens. They got no money.

TORONTO MARKET IGNORES WALL STREET.

Some of the speculative issues were apparently neglected in to-day's market, and sales were made at fractionally lower prices. The exchange is at present in a resting mood, and in certain stocks pressure against prices is being made for no other purpose than to force holders to sell.

A Clearance of Underwear Samples For Men

Just about once a season we put on sale all the samples cleared from manufacturers—and it's always a sale that goes like wildfire, until every last garment is sold. Some of these samples are worth as much as five dollars, but they all go on sale to-morrow for \$1.00.

Included in this money-saving bargain we have samples of all the best goods procurable for Men's Underwear, such as:

Pure silk, silk-and-wool mixtures, Indian cashmeres, beautiful soft-feeling Australian wools, llama lace, striped cashmeres, lisle thread, Shetland wools and pure undyed Scotch wools; there is nothing cheap about the qualities of these garments, for there is among them underwear which would cost away up to ten dollars a suit.

1000 garments of Men's Underwear, composed chiefly of manufacturers' samples, put out at a price to ensure good 8 o'clock business on Saturday morning; plenty of clerks, no waiting. Regular prices \$2.00, \$2.50, \$3.00, \$3.50, \$4.00 and \$5.00 a garment. For Saturday, \$1.00 a garment.

See Men's Furnishing windows for good display.

No phone or mail orders filled.

Fall Showing of Victor Boots For Men

\$4.00 \$4.50 \$5.00

The recognized style-excellence, high-grade leathers and expert workmanship have made the "Victor" the most popular boot in Toronto to-day. This season we have introduced three new winter styles:

No. 401 is a Dark Russia Tan Calf Boot, specially treated with viscol oil to make it waterproof; it has a double oak-tanned Goodyear welted sole, military heel, and made in the popular Blucher style, with a round, full-fitting toe; a boot you'll be proud to wear; all sizes, \$5.00.

No. 2101—A Heavy, Double-sole, Leather-lined Russia Tan Calf Boot, double reinforced shank, Blucher cut; made by the Goodyear welt process; wide English back strap and leather pull; an ideal winter boot; all sizes, \$4.50.

Style H is a Heavy Black Winter Calf Boot, double viscolized soles, reinforced double shank, Blucher style, best calf leather lining; as near waterproof as a leather boot can be made; all sizes, \$4.50.

(See Yonge Street Windows.)

\$5.00 Men's Boots \$2.49, 9 O'Clock Saturday

700 pairs Men's Boots, a special purchase from Montreal, consisting of tan Russia calf, box calf and viscolized storm calf leathers; double or single Goodyear welted soles; round or narrow toes; some have dull matt calf uppers; all sizes in the lot, and good widths. Regular value \$3.50, \$4.00 and \$5.00. Saturday, 8 o'clock, \$2.49.

\$3.50 Women's Boots \$1.99

560 pairs Women's Boots, American makes, samples and discontinued lines, in patent colt, vic kid and velour calf leathers; white, green, blue and dull matt calf uppers, Blucher, laced and button styles; hand-turn, English welt and McKay sewn soles; low, medium, Cuban and New York heels; all popular widths and sizes from 1½ to 7. Regular values \$2.50, \$3.00 and \$3.50. Saturday, 8 o'clock, \$1.99.

Here's Good News for a Thousand Men

There used to be an old clock hanging out over Yonge Street, in the middle of the Simpson block, in front of an old jewelry store. The old building is still there, but instead of being filled with jewelry, it is now filled with MEN'S HATS—and now for the good news.

To-morrow we will hold a hat sale in this store, that will make it known throughout the length and breadth of Toronto as

The Greatest Value-Giving Store in Town

A thousand men will be able to buy here to-morrow New Fall Hats for less than half the prices they're accustomed to pay.

They are made by one of the largest and most reliable of English hat manufacturers; copies of up-to-date American styles, and smart English shapes; all first-grade hats, in black, and a large assortment of colors; the soft hats can be worn in many ways, and the Derby or stiff hats are suitable for men of all ages and features. Regular \$2.50 hats. Saturday \$1.00.

The Cross Indicates the Spot.

DON'T come "any old time To-morrow" for these hats. Better be standing under the spot where the old clock used to hang before 8 o'clock a.m. if you want to take full advantage of this sale.

THE doors of this hat store will be thrown open on the stroke of eight. Step right in off the street and pick out for yourself the best dollar's worth of hat you ever saw.

Caps, Turbans and Tams for Children

Men's and Boys' Caps, in a complete and varied range of the newest shapes, patterns, etc. Special prices at 25c, 35c, 75c and \$1.00.

Children's Turban Hats, in felts; colors navy, brown, tan, dark red, scarlet, etc.; large or small brims; square, round or Mexican crowns, at 50c and 75c.

Children's Tam o'Shanter, a very special range in velvets, corduroys, felt and cloth; big assortment of colors at 50c.

Silver Jewelry Made by Gold Workers

Very rarely can you get gold workers to come down from their eminence and produce anything in less precious metal, but when you do there's character and finish in the product. Our buyer caught them slack, and therefore, willing to do things. The result is a batch of beautifully-finished silver pins for ladies', misses' and infants' wear, at a bargain price. Size up an English shilling, and figure out if you can how you come to get these pins of purer silver and rare workmanship, duty paid, in Toronto, for twenty-five cents.

500 Hall-Marked Sterling Silver Lace Pins and Baby Pins, plain embossed and with Baby, Darling, Pet, etc.; well made and beautifully finished. Saturday, 25c.

89 Sample English Gold Brooches and Lace Pins, latest designs, beautiful workmanship, hall marked. Saturday, while they last, 75c to \$2.50.

Our Ready-for-Service Clothes

The conservative, smart appearance of our ready-for-service Clothes is in marked contrast to the flashy ready-for-selling Clothes, that sometimes attract the seeker after "distinction in dress."

You'll find the clothes we offer here are well within the extremes of fashion, well made and well cut from honest goods. To-morrow's values are well worth looking into:

Men's High-grade West of England Fancy Worsted Suits, in a dark grey diagonal twill, with neat double black and faint fancy colored thread stripes; cut in the fashionable three-button single-breasted sack style, with hand-padded shoulders and lapels; tailored and finished with first-class workmanship; sizes 36 to 42. Price \$18.00.

Men's Heavy Scotch Tweed Ulsters, in a dark mixed brown ground, with broken red and green alternate stripes; cut from the stylish double-breasted models, with convertible collar; splendidly tailored in every detail, and finished with a heavy fancy serge lining; sizes 35 to 44. Price \$18.00.

Men's English Fancy Worsted Suits, in the new grey and brown herringbone weaves, showing neat fancy colored thread stripes; cut in the latest three-button single-breasted sack style, nicely tailored and finished with fine twill mohair lining; sizes 36 to 42. Price \$13.50.

Men's High-grade Imported Tweed Overcoats, in the new popular brown and grey shades; cut from the latest American models, in single-breasted Chesterfield style; excellently tailored in every way, with hand-moulded shoulders and lapels, finished with extra quality linings and trimmings; sizes 35 to 44. Price \$24.00.

Men's Winter Weight English Tweed College Ulsters, in a grey and black heavy diagonal stripe cut, in the latest single-breasted style, with convertible collar, which can be worn buttoned close up to the throat, with neat military collar, or with lapels turned down, lined with strong durable linings, splendidly tailored and perfect fitting; sizes 35 to 44. Price \$13.50.

Men's English Black Cheviot Overcoats, a soft, smooth-finished material; cut in the latest single-breasted Chesterfield style, with neat black velvet collar, nicely tailored and finished with best quality linings and trimmings; sizes 35 to 44. Price \$10.00.

Men's English Raw Edge Melton Overcoats, in a rich fast black shade; cut from the new winter models, in single-breasted Chesterfield style, with broad shoulders, long shapely lapels, and neat black velvet collar, lined with fine quality twill mohair linings and haircloth, and thoroughly shrunk duck interlinings; sizes 35 to 44. Price \$18.00.

Boys' Clothing

Boys' Scotch Tweed Three-piece Suits, in a rich dark brown stripe pattern; cut in the latest single-breasted style; lined with fine twill mohair linings; sizes 29 to 33. Price \$8.50.

Boys' English Tweed Two-piece Suits, in a rich dark brown ground, with neat fancy colored stripes; cut in the favorite double-breasted style, slightly form fitting, and with neat long-shaped lapels; pants bloomer style, with strap and buckle at knee; sizes 25 to 28, \$6.00; sizes 29 to 33, \$7.00.

Boys' Heavy Scotch Tweed College Ulsters, in a handsome mixed grey pattern, showing a faint green stripe; cut in the popular double-breasted style, with convertible collar, splendidly tailored and perfect fitting; sizes 25 to 28, \$5.75; sizes 29 to 33, \$6.50.
